Date: March 26, 2015

To: UVU Board of Trustees

From: Linda Makin, Vice President, Budget, Planning, and Human Resources  
Cara O’Sullivan, Policy Officer

Re: Policies Submitted for March 26, 2015, UVU Board of Trustees Meeting

For today’s Board of Trustees meeting, the following policy has been submitted for your approval:

**Policy 607 Course-Based Fees for Credit Courses (Temporary Emergency)**

**Policy Action:** Revision of an existing policy, Policy 607 Lab and Course Fees

**Sponsor:** Jeff Olson  
**Stewards:** Kathren Brown

To assist you in your review of this policy, this cover memo provides a summary of the issues that this policy is intended to address. As established in Board of Regents’ Policy 220 and UVU Policy 101, the Board of Trustees’ role is to approve or disapprove proposed policies.

**Summary of Policy 607**

NWCCU Standard 2.D and the Utah State Board of Regents Policy R510 Tuition and Fees require that each institution establish transparent policies on tuition and fees. Since 1998, instructional methods and programs and financial oversight (especially at the regional and federal levels) have changed dramatically at UVU, requiring the institution to update its lab and course fee policy.

In addition, a recent internal audit found that some departments were not spending course and lab fees equal to those collected. There were no cases of improper spending (i.e., spending on non-instructional materials/services), but many departments were not aware of their balances from course fees and had excessive balances. The new policy will require better oversight of funds collected so that excessive balances do not occur and students are not overcharged. The fiscal impact should be minimal but positive for students because the policy will encourage departments and schools/colleges to be judicious and transparent when requesting course fees, require all lab and course fees to be approved by the Course Fee Review Committee, prohibit schools and colleges from using course fees to generate general funds, and to improve oversight of collected lab and course fees.

As a temporary emergency policy, Policy 607 will expire in March of 2016, by which time, a regular policy will be developed and approved.
Proposed Policy Number and Title: 607 Course-Based Fees for Credit Courses

Date posted and verified: MM/DD/YYYY

Printed On: March 17, 2015
1.0 PURPOSE

1.1 This policy establishes the appropriate use of course-based fee revenues, the procedures by which fees are assessed and levied, and which university entities are responsible for overseeing the review and establishment of fees.

2.0 REFERENCES

2.1 Northwest Commission on Colleges and Universities Standard 2.D Student Support Resources, Section 5(g)

2.2 Utah State Board of Regents’ Policy R506 Inventory of Budget Related and Self Supporting Courses

2.3 Utah State Board of Regents’ Policy R510 Tuition and Fees

3.0 DEFINITIONS

3.1 Course and lab fees: Fees that are levied to offset unusual, non-personnel costs associated with individual courses, including participation in the use of technology-supported delivery or field experiences; access to and the use of specialized instruments, technology, or software; access to LMS-integrated e-texts; and/or use of consumable laboratory or other specialized instructional materials/resources.

3.2 Lab access fees: Fees charged to students to support computer labs within a specific school or college. Revenue from these fees is used to purchase, repair, and/or replace hardware and infrastructure and to purchase software licenses.

3.3 Private instruction fees: Fees collected from students and used to compensate instructors for individualized private instruction necessary for the development of personal performance skills or artistic competencies of such students.
3.4 **Self-supporting course fees**: Fees charged to students in lieu of Board-approved tuition for credit courses that are not funded through appropriated revenues.

3.5 **Special program/clinical practice fees**: Fees that are levied on specific courses or programs to offset costs for extraordinary personnel services and related expenses.

### 4.0 POLICY

4.1 In addition to Board-approved tuition and general student fees, the University may assess course-based fees for credit courses based on consideration of actual cost and the impact to students. The amount of a course-based fee shall be based on the projected costs of expenses to be paid from the fee revenue. Fee revenue shall cover only these expenses, and departments shall not generate excess funds nor redirect revenues to other departmental operating funds.

4.2 **Course, Lab, Lab Access and Private Instruction Fees**

4.2.1 Course, lab, and private instruction fees may be assessed to recover unusual costs associated with individual courses when those costs represent direct or assignable costs calculated on a per-student basis and are

1) Essential to the educational outcomes of the course;

2) Unique to the type of course or delivery method; and

3) Typically used during the term of enrollment for which the fees were collected.

4.2.2 Lab access fees may be assessed to students enrolled in courses within a particular school/college. Typically, a student will be assessed only one lab access fee per school/college per semester.

4.2.3 Parameters for course, lab, lab access, and private instruction fees shall be established by the Senior Vice President of Academic Affairs (SVPAA) in consultation with the Academic Affairs Council. Within these parameters, the Course Fee Committee shall review and approve course, lab, lab access, and private instruction fees.

4.2.4 Approval of course, lab, lab access, and private instruction fees is granted by the Course Fee Committee.

4.3 **Course-Based Fee Record, Collection, and Use**

4.3.1 The Academic Scheduling and Curriculum Office (ASC) is responsible for maintaining a current record of all course, lab, lab access, and private instruction fees.

Printed On:
March 17, 2015
4.3.2 All course-based fee revenue shall be paid directly through university-authorized accounts receivable offices and systems.

4.3.3 Use of fee cards rather than a course-based fee for students in individual sections of a course to pay for materials, costs associated with excursions, etc., shall be approved in writing by the department chair and the dean.

4.3.4 Course-based fees shall not be used for materials that can be purchased directly by students through the UVU Bookstore or other approved university entities.

4.4 Self-Supporting Course Fees

4.4.1 In accordance with Regents’ Policy R506 and in consultation with the Vice President for Planning, Budget, and Human Resources, deans may identify specific courses and/or course sections as self-supporting. Direct instructional expenditures for these course sections may not be paid from appropriated indexes because these course sections are not eligible for state tax fund support.

4.4.2 At the request of a dean, the SVPAA, in consultation with President’s Council, may impose self-supporting course fees in lieu of Board-approved tuition and fees.

4.5 Special Program/Clinical Practice Fees

4.5.1 Certain specialized educational programs may be authorized by the SVPAA in consultation with President’s Council to impose special program/clinical practice fees. Special program/clinical practice fees are charged in addition to Board-approved tuition and general student fees.

5.0 PROCEDURES

5.1 Course Fee Committee

5.1.1 The Course Fee Committee is a university committee appointed by the SVPAA. Voting members of the committee shall consist of one administrator designated by the SVPAA, at least three faculty members (with no more than one from each school/college) recommended by Faculty Senate, and three students recommended by UVUSA. The committee shall also include non-voting members: a representative from the Office of Academic Scheduling and Curriculum (ASC) and a representative from the Budget Office. At least one faculty member and one student appointed must have served on the committee the previous year. Committee members shall serve a single three-year term. The committee shall be chaired by the administrator designated by the SVPAA.

Printed On:
March 17, 2015
5.2 Creation, Deletion, and/or Amendment of Course, Lab, Lab Access, and Private Instruction Fees

5.2.1 Faculty, departmental, and school/college proposals for course, lab, lab access, and private instruction fees shall be submitted through the appropriate dean via the Course Fee Request Form. The form must be submitted to the Course Fee Committee for the approval of all new fees, changes in fees, and/or deletion of fees. The request shall include the rationale and justification for the request, specific expenses to be paid from the fee revenue, the course(s) for which the fees are requested, the date of implementation or deletion, the requested amount of the fee, and any additional information as specified on the Course Fee Request Form.

5.3 Monitoring and Financial Management

5.3.1 To ensure compliance with this policy and established parameters, each dean is responsible on an annual basis for monitoring course-based fee revenues, expenses, and fund balances within his or her college or school. This review shall inform recommendations for fee changes and/or deletions.

5.3.2 At least annually (prior to Fall registration), each dean who levies self-supporting and/or special program/clinical practice fees shall submit for review and approval fee rates for the coming academic year to the SVPAA and the Vice President for Planning, Budget, and Human Resources.

5.4 Notice to Students

5.4.1 Each semester’s class schedule shall include information about approved course-based fees. Such publication constitutes advance notice of the course-based fee requirement. Any changes to course-based fees must be approved and published in the class schedule for the semester in which the change shall be effective. Only fees listed in the class schedule shall be collected for that semester.

5.4.2 Department chairs are responsible for listing the correct course-based fees on the class scheduling sheets submitted to ASC each semester.

5.4.3 For self-supporting courses not available to the general public through the class schedule, enrolling students shall be provided, in writing, self-supporting course-based fee information prior to registration.

1.0 PURPOSE

2.0 REFERENCES

3.0 DEFINITIONS

4.0 POLICY

4.1 Definition and Use of Lab and Course Fees

4.1.1 Lab and course fees are established for specific courses in order to cover the costs of equipment replacement and maintenance, software upgrades, consumable materials, and unforeseen items used by students in classes and laboratories, and are approved by the Course Fee Review Committee. No course fee may be imposed without Course Fee Review Committee approval.

4.2 Amount of Lab and Course Fees

4.2.1 The amount of lab or course fees assigned to a particular course must be based on the cost of the lab, equipment, maintenance, software, supplies, handouts, field trips, or other direct instructional materials to be used by the students. The fee shall cover only these expenses and departments may not generate excess funds from these fees. The fund balances in the lab and course fee accounts shall be monitored by the dean’s office and examined at least annually to ensure that revenues are in line with (approximately equal to) expenditures of approved fees.

4.3 Course Fee Review Committee

4.3.1 The Course Fee Review Committee is a university administrative standing committee appointed by the President. The committee shall consist of two administrators appointed by the President, three faculty members recommended to the President by the Faculty Senate, and three students recommended to the President by UVUSA. At least one faculty member and one student
appointed must have served on the committee the previous year. The committee shall be chaired by appointment of the President.

4.3.2 The Course Fee Review Committee shall review any charges of fee misuse and otherwise randomly audit fee accounts and expenditures.

4.4 Creation, Deletion, or Amendment of Lab or Course Fees

4.4.1 Proposals for course fees must be submitted in writing, through the appropriate dean, on the Course Fee Request Form. The form is submitted to the Course Fee Review Committee for new fees, changes in fees, or deletion of fees. The request must include the rationale and justification for the request, the specific course, the date of implementation or deletion, and the suggested amount of the fee. Any changes in lab fees must be approved and published in the class schedule for the semester in which the change shall be effective. Only fees listed in the class schedule shall be collected for that semester. Department chairs are responsible for listing the correct fees on the class scheduling sheets submitted to the Curriculum Office each semester.

4.5 Fee Disclosure in Syllabi

4.5.1 Each course for which a lab or course fee is approved must list in the course syllabi the fee and the items to be supplied or used in that course (listed basically the same for each section of the course). Students shall then have the opportunity to see that what they are paying for is being supplied to them.

4.6 Review of Lab and Course Fees and Expenditures

4.6.1 During August of each year, a copy of the lab and course fees master list shall be distributed by the office of the Associate Vice President of Academic Affairs to each dean for the departments in his or her school. The past fiscal year’s expenditures report for the fee account shall be studied. The amount of the fee, the account to which collected fees are posted, and the expenditures from the fee accounts shall be reviewed. Any adjustments to fees and compliance corrections in expenditures shall be initiated from this review by the dean and each department chair.
