Are you satisfied with the education and training you have received? Yes No

How has this degree helped you find employment in your field? _____

If you are already employed, how has this degree enhanced your career? _____

Comments on your experience at UVSC: _____

Note: We will be contacting you for up to **three years** after you graduate to get accurate information. The Dean of the College of Technology and Computing would like to have a general idea of what kind of jobs graduates are getting and how much the industry is paying fresh graduates compared to people who have been working a few years. Please look forward to getting a phone call or a letter in the mail asking these questions. Thank you for your valuable input.
