

Aviation Science Fleet Pricing Effective June 22, 2009

Aviation Science has a variety of aircraft and flight training simulation devices designed to aid our students in fast, affordable, and effective training.

<u>Aircraft</u>	<u>Flight/Training Devices</u>
17 Katana DA-20 C-1	2 Frasca 142
6 Diamond Star DA-40	1 Frasca Mentor G-1000
4 DA-42 Twin Star Multi-Engine	1 Frasca DA-42 Twin Star FTD G-1000

- * Pilot supplies sold locally at Million Air
- * Headset rental \$1.00
- * Private Pilot Kit (UVU Bookstore) ~\$250

Special Equipment

Computer labs are available on campus to all UVU students, however, special computers are reserved at the hangar for aviation students to use in development of aviation procedures and familiarization with instrument work. Practice FAA written tests are also available at the hangar computer labs. Electronic FAA testing is available on site at the UVU hangar.
