To be eligible to complete Practicum and/or Internship opportunities for credit students must complete the prerequisite courses for their respective Practicum and/or Internship course. To find out what course best fits your major or emphasis and to verify you have met the prerequisites please check Wolverine Track or contact your assigned advisor.

Students who need to complete Practicum for the Bachelor of Social Work must meet with Dr. Doty to discuss placement options. Contact her at Kris.Doty@uvu.edu to schedule an appointment.

Students who need to complete Practicum for the Autism certificate or minor must meet with Dr. Cardon to discuss their options. Contact her at Teresa.Cardon@uvu.edu to schedule an appointment.

Students in the Family Studies emphasis in the Behavioral Science degree must meet with Dr. Cottle to discuss their internship options. Contact him at NCottle@uvu.edu to schedule an appointment.

Students in the Anthropology, Psychology, or Sociology emphases in the Behavioral Science degree should find potential internship opportunities (these are sent out to you as they are received by our department in the weekly BESC Announcements email, and posted on the Behavioral Science Department Facebook page, and available for view at the UVU Internship Office site: http://www.uvu.edu/internships/findinternships/hotinternships.html) and then contact their assigned advisor to verify their eligibility to complete an internship for credit and have the internship contract sent to them. Once the student has received the internship contract from their advisor they should contact Dr. Draper at Matthew.Draper@uvu.edu to discuss the duties and tasks of the internship so he can ascertain whether or not the experience qualifies as a Behavioral Science internship.

Students in the Substance Use Disorder Counseling (SUDC) program complete their internship at a prescribed point in their progress. SUDC students can contact Tara Ivie at Tara.Ivie@uvu.edu for a list of approved SUDC internship sites.

Students who would like to complete a Practicum and/or Internship are required to submit their completed Practicum or Internship contract to the Behavioral Science Department four (4) weeks prior to the start of the semester in which they will be completing their experience. Appointments with the above-listed faculty should be made well in advance of the contract submission deadline. Depending on your major or program, you may be responsible to find your own opportunity or you may be required to choose an opportunity from a pre-approved list. Please contact your assigned academic advisor if you are unsure of which applies to you.
