Mission Statement
To cultivate the creation and appreciation of visual art, we foster creative confidence, critical thinking, and problem-solving skills. We follow these principles to accomplish our mission:

Visual Literacy, Professional Excellence, Creative Diversity, Interdisciplinary Collaboration, and Cultural/Social Responsibility

Visual Literacy We encourage the development of strong visual literacy among students of the visual arts. We support the study of history, culture, technology and trends to this end.

Professional Excellence In preparing visual art students for careers in a broad market, we support and expect excellence and professionalism.

Creative Diversity While teaching techniques, styles, and practices is an important part of our programs, we support a diversity of styles and individual expressions among students in their creative work.

Interdisciplinary Collaboration We support collaboration across the visual arts through multi-disciplinary student and faculty projects. These collaborative efforts may be extended to include other departments within the School of the Arts as well as the entire UVU campus.

Cultural/Social Responsibility We support the study and advancement of the visual arts from local to international levels. We foster understanding to promote artistic freedom and to preserve culture through creative production and historical research.

Program Description
Utah Valley University’s Department of Art & Design offers degrees in applied arts, fine arts, art history, and art education. Upon completing a degree, students emerge from the program ready to enter careers in graphic design, photography, advertising, printing, animation, illustration, art education, printmaking, sculpture, painting and more. Students can earn a general degree, exploring several areas within the visual arts, or they can specialize, exploring a specific practice in depth to better understand it and/or prepare for employment in that field.

Degrees Offered
Students who want to concentrate on a specific area of art and visual communications can gain professional training at UVU through several specialized degrees:

Associate in Applied Science (A.A.S.)
A two-year degree where students can emphasize in one of three areas:
- Graphic Design
- Illustration
- Photography

Associate in Applied Science (A.A.S.)
Art and Design

A two-year degree where students can emphasize in one of three areas.

- Graphic Design
- Illustration
- Photography

**Bachelor of Arts (B.A.) in Art History**

A four-year degree in which students are trained to teach as art specialists at the secondary level (7–12 grade).

**Bachelor of Science (B.S.) in Art Education**

A four-year degree in which students are trained to teach as art specialists at the secondary level (7–12 grade).

**Bachelor of Fine Arts (B.F.A.)**

A four-year degree for individuals with above-average abilities, who are looking for a competitive program to hone their skills.

- Graphic Design
- Illustration
- Painting/Drawing
- Photography
- Sculpture/Ceramics

**General Art Degrees (B.A., B.S., A.A., A.S.)**

Students wanting to study art and visual communications broadly, without emphasizing one particular emphasis area can choose to earn one of four general degrees:

- Bachelor of Arts in Art and Visual Communications (B.A.)
- Bachelor of Science in Art and Visual Communications (B.S.)
- Associate in Art in Art and Visual Communications (A.A.)
- Associate in Science in Art and Visual Communications (A.S.)

Students who elect to earn a bachelor of arts or associate in arts degree are required to complete a foreign language requirement, while those who earn a bachelor of science or associate in science degree have the option to take more electives. All of these degrees allow students to explore a few areas within the department and gain a more well-rounded education in the visual arts. Some of our 1000 level courses also fulfill general education requirements.

**Career Opportunities**

Our degrees prepare students for various career opportunities, some of which are delineated below.

**Art History: BA in Art History**

Students are prepared for an array of arts-related jobs, including art dealership, art directorship, and work in museums and galleries. It also provides the necessary foundation for graduate studies in art history, which in turn, will prepare students for a career in postsecondary teaching, museum curatorship, and museum directorship.

**Fine Arts: Painting/Drawing, Sculpture/Ceramics, Photography**

Students are prepared to compete in the arts arena typically via self-employment by promoting their work through galleries, museums, exhibitions and commissions. Some students also choose to pursue graduate studies to further their development or to prepare them to teach in higher education. Areas of study include painting, drawing, printmaking, sculpture, and ceramics.

**Applied Arts: Graphic Design, Illustration, Photography**

Students are prepared to compete for employment at advertising agencies, design studios, in-house design departments, printing firms, photography studios, gaming developers, animation studios and for freelance consulting work (self-employed). Some students may also choose to further their studies in graduate programs.

**Education: BS in Art Education**

The Bachelor of Science in Art Education certifies students to teach as an art specialist at the secondary level in public schools and private schools.

**Engaged Learning**

Students are encouraged to learn by applying what they study in the real world and by taking part in activities outside the classroom.

The department offers many opportunities for students to travel and interact with practicing art professionals. In an annual trip to New York, students visit museums, galleries and artists’ studios to learn more about creating art. Students can also apply to attend a five-week study abroad in Italy each summer.

Students regularly enter their work in competitions at local, state and national levels, with several students earning awards each year. At UVU’s annual art history symposium, students present their research alongside faculty. Every student in the Department of Art & Design attends an art lecture series, in which artists from around the country visit UVU to present their work, lecture on what they do and occasionally hold a workshop.

**Art & Design Core Grade Requirement**

The Art & Design Core requirements (ART 1110, ART 1120, ART 1130, ART 1400 and one of the following: ART 1050, ART 1350, ART 1420, or ART 1650) must be completed with a B- or higher before being formally admitted to the BS, BA, and BFA programs.

**Bachelor of Fine Arts (BFA) Requirements:**

This degree is for those with exceptional abilities in art and design fields. In order to apply to the BFA, students must first meet the core class requirements (consult with your academic advisor for details) in the Art & Design Department and submit a portfolio for departmental BFA review. Students desiring to participate in the review should submit a letter of intent to the area coordinator in their particular interest. Portfolios will be due in March as designated by the area coordinator. Acceptance into the BFA is based on the portfolio review, overall GPA of 2.0 or above with 3.0 GPA or above in ART and ARTH courses. Courses within the student’s area of emphasis must be completed with a C grade or above. For graduation with a BFA degree, students must maintain the grade requirements listed above and receive a B grade or above for ART 499R BFA Project. For more information, contact the Academic Advisors. Students not accepted into the BFA program, or who are unable to fulfill the above requirements, may still pursue the more general BA/BS degrees.

**Graduation Requirement: Portfolio Submission**

To ensure that faculty and programs at UVU are adequately teaching and preparing students for professional careers and/or further schooling, the Art & Design Department has implemented a graduating student portfolio submission. All students completing a degree in the Art & Design Department are required to submit a portfolio for faculty/professional review prior to graduation. Results are kept confidential and are used only to help modify and improve curriculum and teaching. Consult with your academic advisor for details of deadlines and requirements to make certain all Art & Design degree graduation requirements are met.

Art History, Minor

Requirements

Because art history is cross-disciplinary by nature, a minor in art history would compliment almost any degree, whether within or outside of the arts. The minor requires 18 credits of art history courses, including the survey classes Art to and from the Renaissance, as well as four upper division electives, ranging from ancient to contemporary art history. The minor creates a more diverse skill set for students of the visual arts, as well as a more culturally rich educational experience for students outside of the arts.

**Art History, B.A.**

**Careers**
Art historians preserve ideas and artifacts for future generations, and they teach others to appreciate art, culture, and cultural history. The Bachelor of Arts in Art History degree helps students prepare for a range of arts-related jobs, including art dealership, art directorship, art education, and work in museums and galleries. It also provides the necessary foundation for graduate studies in art history, which in turn, prepares one for a career in post-secondary teaching, museum curatorship, and museum directorship. Finally, the degree helps students prepare for graduate work in correlated fields, such as art restoration, arts management, library studies, international business, and legal studies.

**Art and Design - Photography Emphasis, B.F.A.**

**Requirements**

UVU’s photography program teaches the language of photography. Students will take courses to diversify their skill set in the creation and appreciation of different approaches to photography. They will work with film, historic photographic processes, and cutting edge digital technology. Students learn about and work in commercial and fine art environments. They will be taught working methods in the darkroom, studio lighting techniques, motion, and digital manipulation. The photo program emphasizes a hands-on and engaged approach. We actively look for opportunities to get our students on location and into real world scenarios through internships, study abroad programs, service oriented programs, and classes taught off campus.

#### Careers

A degree in art provides training in creative and critical thinking, problem solving and visual communication, providing a sound background for careers both in and outside of the arts. Careers could include working with arts organizations, museums, or non-profit groups. While the BFA degrees provide specific professional training, Bachelor of Science students who have taken a number of classes in a specific area may also be qualified for jobs in the fields of graphic design, photography and illustration, or opportunities to submit work to galleries, museums, exhibitions, commissions fairs and festivals.

Careers

A degree in art provides training in creative and critical thinking, problem solving and visual communication, providing a sound background for careers both in and outside of the arts. Careers could include working with arts organizations, museums, or non-profit groups. While the BFA degrees provide specific professional training, Bachelor of Science students who have taken a number of classes in a specific area may also be qualified for jobs in the fields of graphic design, photography and illustration, or opportunities to submit work to galleries, museums, exhibitions, commissions fairs and festivals.
