Commitment**

AS A PROTÉGÉ IN THE MENTORING PROGRAM YOU CAN LEARN HOW TO

...

- ✚ Expand your child care program.
- ✚ Organize your learning environment to be compatible with your home and family.
- ✚ Become an expert on guidance and discipline.
- ✚ Market your child care business.
- ✚ Design a program for infants and toddlers.
- ✚ Help children who have special needs.
- ✚ Expand your knowledge of child development.
- ✚ Experience the rewards of being a leader and professional in the field of child care.

YOU CAN MAKE IT HAPPEN!

Don't delay! Sign up today!

Your mentor has traveled the child care road before and is eager to help you reach your goals.

“I am so grateful for the encouragement and direction my mentor gave me. It was an experience that proved invaluable and resulted in lasting relationships. My business benefited, my finances benefited, my daycare benefited, and I personally benefited from the mentor experience.”

Robyn Scoubes, Protégé

“Mentoring has been a very rewarding experience for me. I love helping other providers set up, organize, and improve their child care programs. It has been fun getting to know other providers who share my passion for children. In helping other providers improve the quality of their programs, I have had an opportunity to look at my own program and have set new goals for myself. I think it's really about helping each other. Mentoring can provide a way for everyone to improve the quality of care they give to children.”

Lori Taylor, Mentor
