Students not meeting federal criteria for independent status may request a professional judgment adjustment to override the federal criteria. Dependency overrides will be considered on a case-by-case basis due to unusual circumstances. This may include inability to locate parents, an abusive family environment, or abandonment by parents.

Circumstances that **do not** merit a dependency override include, but are not limited to: parents refusing to contribute to the student's education, parents unwillingness to provide information on the application or for verification, parents not claiming the student as a dependent for income tax purposes, or student demonstrating total self-sufficiency.

All requests must be documented and show that all financial and emotional contact with your parents has been severed as a result of an unusual circumstance. You must submit non-returnable copies of your documentation to the Financial Aid Office. **Requests submitted without documentation will not be considered.**
