This scholarship is offered by Richard Monsen, President of Monsen Engineering, Salt Lake City, Utah in an effort to encourage good students to be better and provide a financial incentive to the very best Geomatics Student enrolled at Utah Valley University each year. UVU appreciates their kind generosity.

**SCHOLARSHIP AWARD CRITERIA IS AS FOLLOWS:**

Selection Criteria:
1. Award is to be made solely for the student who is enrolled in the UVU Geomatics Program who carries a minimum of nine (9) credit hours, is of Junior or Senior status (per university standards), is seeking a Bachelor of Science degree in Geomatics, and who meets the University academic standards.
2. Recipients must be continuing students who have attended at least the previous two semesters (not including summer) at UVU, with at least nine credits each semester. No transfer students, new or other students will be considered.
3. Recipients will be selected primarily on academic merit considering cumulative GPA, leadership, and professional communication ability. Weight will be given to students based on their GPA in the Geomatics Bachelor of Science degree program.

Submittals:
1. Recipients must submit a resume and sample of their work in any form deemed representative of the applicants work along with their goals for their future in Geomatics.
2. Recipients must submit an essay demonstrating evidence of quality reporting and writing ability regarding professionalism and ethical standards in the profession of Geomatics.
3. Recipients will submit a letter of recommendation from a Geomatics faculty member (full-time or adjunct). This letter will not be used to subjectively determine recipient's eligibility for the award. This letter should show evidence of the applicants understanding of surveying and mapping instrumentation, software, principles, theories, and practices.
6. Preference will be given to students with a recommendation from the UCLS board.

Other requirements and annotations about the scholarship fund
1. Recipients will be required to submit to the financial aid office a thank you letter for the donor.
2. If there is not a sufficient number of applications, the donor would prefer the money not be used rather than awarded to students who have little or no interest in Geomatics, Surveying, Mapping, the Geospatial sciences or those who do not meet scholarship requirements herein.
3. Funds may be used for tuition, books, fees, and other costs associated with completing the BS degree in Geomatics at UVU.

**Application Deadline: March 1st. Late Application may be accepted by May 1st**
