THE FLAG OF
India

HISTORY
The flag of India was officially adopted in its present form in 1947, when it became the official flag of the Dominion of India. The flag was subsequently retained as that of the Republic of India. In India the term “tricolor” almost always refers to the Indian national flag. The flag, by law, is to be made of khadi, a special type of hand-spun cloth of cotton or silk made popular by Mahatma Gandhi.

MEANING
The saffron stripe represents courage, sacrifice, and the spirit of renunciation; white signifies purity and truth; green stands for faith and fertility; the blue chakra symbolizes the wheel of life in movement and death in stagnation.
