Instructions: Place a check mark in the box next to each item as you complete it. Place an "R" or circle around the check box if the item requires additional documentation. Note: Use the last page to document a missing or broken item.

Meeting with Instructors

Students / Instructors
signed in

PASS Checked

Water supply

Instructor Assignments
Made

Incident Commander

Safety Officer

Ignition Officer assigned

Student Instructor

Back Up Line

Rapid Intervention Team
identified

Review student performance objectives

Apparatus used and assignment made

Weather / Training Site Inspection

Identify Operations Area

Training postponed, canceled or
rescheduled due to weather. Contact PM.

Spectators restricted to
outside hot zone
(minimum 100' in all
directions)

Check for safe training area (ice, good
drainage, exposures, or obstructions)

Check for obstructions
both overhead and
around the area

Safe area identified for PIO / Media / VIP

Inspect the Prop

Inspect the prop for any damage and document if necessary

Inspect doors, windows, scuttles to verify proper function

Search structure (ensure no persons are inside prior to ignition)

Remove any debris hindering access or egress of firefighters

Health and Safety

Accountability of students, instructors and testers

Medical Plan in place (call 911 or have local assests in place)

RIT - designated with proper equipment

Ensure that students are monitored (health condition and vitals)

Rehab needs are met (Host agency)

Fires are not set in any exit paths

Decision to ignite by Lead Instructor in coordination with the SO

Fire started by Ignition Officer

Rehab area - Out of smoke and extreme weather

Pre-burn Briefing

Pre-evolution briefing - assignments made

Establish accountability meeting place

SCBA Malfunction procedures discussed

Conduct a walk through with all students pointing out exits and demonstrate how doors and windows function

Establish evacuation plan and alarm

No person to play the role of a victim inside during the live fire training

Water Supply

All lines capable of at least 95 GPM

In accordance with NFPA 1403 Standard, determine the number of attack and back-up lines needed

All attack and back-up lines are a minimum of 1-1/2" in diameter

Two water supply sources, 1 - booster tank minimum of 500 gallons or 2 - uninterrupted source(s) either minimum 1500 gallon tender or adequate fire hydrant

Personal Protective Equipment

Safety Officer to inspect all PPE prior to use and entry into the burn structure

Complete PPE to be worn; helmet, gloves, hood, turnout pants, turnout coat, boots, SCBA

Pass devices inspected
and used

All PPE to be worn and used in accordance with
manufacturer's requirements

Complete the Site Plan

Location of pumper listed

Addressed any obstructions or exposures
and document in additional detail box below

Water source and
supply line locations
documented

Location of attack and back-up line
locations documented

Signatures for Class Start

print)

Lead Instructor (please
sign and date)

Notification Date and Time

Signature of Agency Rep and Position

Agency dispatch notified
of live fire training

Notification Date and Time

Signature of Lead Instructor

Verification of dispatch
notification - Lead
Instructor

Additional detail or
suggestions

Documentation for broken or missing items

If you tag a broken piece of equipment or find something missing, follow the procedure below. Next, tear off this page and place the completed documentation in the black box on the door of the prop, or support trailer.

If nothing is missing or broken, check the box to the left.

If any item is found to be broken (including part of the prop) document it by completing a red tag. Tags can be found in the instructor box located in the front of the prop. Place the red tag as close to where the item is broken or where repair is needed in the prop. If an item is missing document it in the below box. Next, contact **UFRA Logistics @ 801-863-7735 and leave a message stating that a red tag has been issued for this prop or something is missing.** State your name, date and time of the report, location of the prop, name of class being conducted and what was tagged or missing, then fill out the below boxes and print your name and sign. **Finally, notify the respective PM and leave the same information.**

Missing / Broken
Equipment - Provide
details.

Description of problem
(include Red Tag)

Print name of issuer

Date and Time

Signature of Person Reporting

Signature with day and
time

Logistics and PM
notified - Date and time
