

Basic WEB Structure

WEB Level One

WEB pages will conform to a high degree of UVSC branding through the use of a set of predetermined web page templates. The content of these pages will be managed by a content management system. The content will be kept current by the assigned page manager.

WEB Level Two

WEB pages will conform to a UVSC branding requirement, including a choice of logos, banners or disclaimers.

WEB Level Three

WEB pages will be open to design and content managed by the page owner.
