(Above four programs subject to modifying prerequisite language to require admission to a graduate program in addition to approval of graduate program director).

Tabled the Following Curriculum – These new courses need to be added to a graduate program.
CGCL 697R-Master Thesis Research
TECH 6440-Artificial Intelligence and Society
TECH 6550-People and Culture

Graduate Council Guidelines
Discussed sharing Graduate Council Guidelines for evaluating faculty qualifications and curriculum with links to important documents. Consider having smaller groups of faculty review faculty and curriculum to spread the workload. Consider draft of Graduate Council Guidelines at next meeting.

Proposed Amendment to Policy 658

Considered adding the following section:

4.5.1.2 For graduate programs with specific graduate program director specialized accreditation requirements, a dean may appoint a faculty or staff member to be a graduate program director.

Several concerns were expressed. One concern was that the revised language may negatively impact specialized accreditation where active faculty involvement in selecting the graduate program director is required, but the graduate program director is appointed. Another concern was that deans may appoint graduate program directors where there is really not a specialized accreditation reason for doing it. If several graduate faculty meet the graduate program director specialized accreditation criteria, should an election take place rather than an appointment? We will discuss this issue again at our next Graduate Council meeting. We may invite Karen Mulitalo to the meeting to get her perspective.

Proposed Graduate Council Wednesday 8:00 am Meeting Dates
November 8, 2023
December 13, 2023
January 24, 2024
February 28, 2024
March 27, 2024
April 24, 2024
