

**General Education Review Task Force**  
**Meeting Notes**  
**9.23.2022**

**Discussion on Timeline**

- The meeting began with an unplanned discussion around the research timeline due to concerns raised by a member of the task force.
- There was encouragement to do the best work that they can in the time allowed and to refocus on the charge, which is a limited scope review.

**Presentation on Qualitative Responses from Student and Employee Survey**

- Taylor Lovell presented data from the open responses from the student and employee surveys ([link to slides](#)).

**Big Ideas Exercise**

- The group was asked last week to submit their “big ideas” for GE at this point. These were anonymized. Evelyn presented some common themes that emerged as a result of this exercise and some discussions took place around the suggestions ([link to slides](#)).
