

Time Management Budget

1. *Estimate* how much time you spend on each activity below in an average week. (Make sure to include driving or walking time to and from some of these activities.)
2. Keep track for a week and record how much time you *actually* spent on each activity.
3. How *important* is it for you to complete each activity in an average day?
 - 1 = High Priority
 - 2 = Medium Priority
 - 3 = Low Priority
4. *Compare* your estimated times versus your actual times.
 - What are your time wasters?
 - How can you make sure you complete your high priority tasks?
