

# Syllabus STATEMENT

## \* Supplemental Instruction \*

This course is supported by Supplemental Instruction (SI), a program designed to offer you additional resources for learning course content and developing study strategies. The purpose of SI is to create a collaborative learning environment where students share in the process of teaching one another in a study-group type setting.

Multiple optional SI sessions will be held per week (times and locations will be determined later; announcements will be made in class or on Canvas). Each session will be led by our course's designated SI leader (a current UVU student who has had prior success in this course). During the sessions, the SI leader will present activities they have created in an effort to reinforce content taught in the lecture. Occasional test reviews will also be offered. The SI leader will NOT give answers to homework questions, but they will prepare meaningful activities and share strategies for learning course material and succeeding in the class. Please see the professor if you have further questions regarding SI for your class, or contact SI coordinators at [Aubrey.Ryan@uvu.edu](mailto:Aubrey.Ryan@uvu.edu) or [Sara.Lemmon@uvu.edu](mailto:Sara.Lemmon@uvu.edu).

*Included is a visual of the difference between tutoring services and Supplemental Instruction. If you're inclined, please feel free to add it to your syllabus in addition to this statement. You can access this visual at [uvu.edu/academictutoring/images/si/venndiagram.png](http://uvu.edu/academictutoring/images/si/venndiagram.png)*
