

## Break silence and build integrity

An ethical enterprise is one where every voice matters. Prove you value what your people have to say with NAVEX One EthicsPoint whistleblowing & incident management software.

Let's get started

### Stay compliant

Meet global whistleblowing regulation requirements

### Streamline processes

Streamline report intake, incident management and risk identification

### Build trust

Cultivate transparent communication and trust

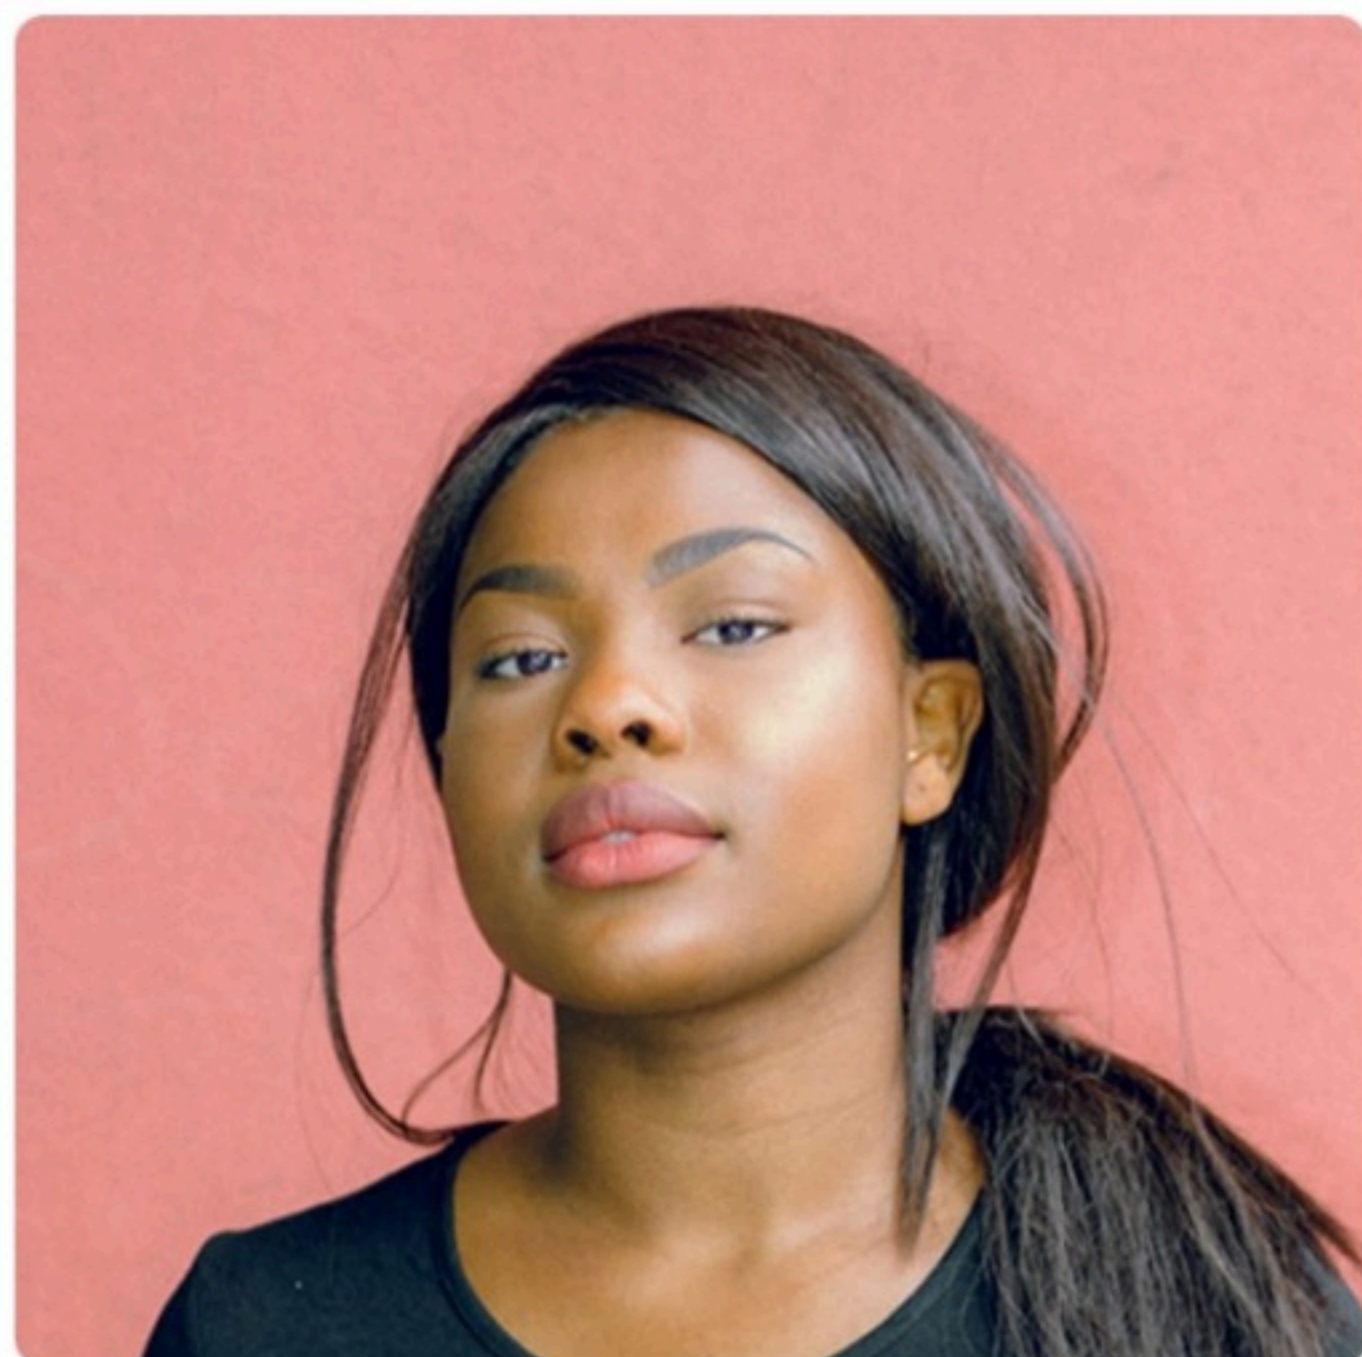

## Silence isn't an option – so make speaking up effortless

Global whistleblowing regulations demand that organizations provide reporting channels, but the value of the reports received goes beyond ticking the box. Every report is a window into workplace culture, and your people are one of your most valuable sources of risk data – but only if they feel safe to speak up.

With NAVEX One EthicsPoint whistleblowing and incident management software:

- ✓ Your people can easily report incidents, emerging risks and compliance concerns
- ✓ Reported risks are automatically flagged for proactive risk management
- ✓ All data is anonymized, secure and available to guide your compliance program goals

## Whistleblowing and incident management by the numbers

By implementing an internal whistleblowing program, you're investing in your organization's future success and security. Here are some of the measurable benefits and outcomes our customers enjoy with NAVEX One EthicsPoint.

2.8%

higher ROI

6.9%

fewer material lawsuits

20.4%

lower settlement costs

## Voices reinforce your values with people-first whistleblowing and incident management

Turn compliance challenges into trust-building opportunities, showing your people that you listen and act on the concerns they share. We help you build a compliant culture where integrity is the norm, not the exception.

- For processes
- For employees
- For third parties

### Use data to drive compliance transformation

Transform your compliance program with data-driven insights, keeping your program aligned with your values and key regulations as you grow.

- ✓ Meet strict global regulatory standards with audit-ready processes
- ✓ Predict emerging risks with trend-finding tools and premium analytics
- ✓ Streamline investigation processes, including notifications and reminders for reporters and managers
- ✓ Integrate your policy and procedure management system for a full whistleblowing program view

## Ethical culture is amplified through NAVEX One EthicsPoint

Bring clarity to complexity and turn compliance into something every individual supports, understands and knows how to uphold.

### Consistent experiences

Easy to use

In-depth data analytics

Integrated risk support

### Transparent and fair incident reporting processes

Make report handling a reliable, strategic asset to your GRC program.

- ✓ **Meaningful insights** – Harness metrics and reporting trends to guide your program
- ✓ **Privacy, your way** – You decide where your data lives, backed up with top-tier security
- ✓ **Personalized workflows** – Customized processes fit your organization's unique team and operational structures
- ✓ **One-stop report hub** – All your channel metrics are centralized in a clear compliance overview area

## How we support your employee compliance success

Weave compliance into the fabric of your team's day-to-day. With NAVEX professional services, compliance becomes more than a requirement – it's a natural, empowering part of your workplace culture.

### Implementation

Customer success

Professional services

### Empower your people

Embarking on your employee compliance journey? We're right beside you. Together, we'll dive into your specific needs and chart a path that's just right for your team – and that doesn't end with software setup. We're committed to ensuring you're comfortable and confident navigating NAVEX One.

- ✓ Get up and running faster
- ✓ Empower your people
- ✓ Maximize your investment
