<b>TOTAL PROGRAM COST:</b>		<b>\$54,420</b>

\*Flight course fees are based on the average completion times of students in the curriculum. Training times may vary depending on individual student study habits and overall ability. While students are entitled to the indicated flight hours listed, any additional training costs after reaching the flight hour limit will be the student's responsibility. Students who closely follow the direction of their instructor and study consistently are more likely to avoid additional costs. Flight course fees in future semesters may fluctuate with operating costs.
