

Employee Survey Spring 2021

Institutional Research conducted this email-based employee survey from April 21 to May 21, 2021. Of the 2,161 full-time employees who were invited to participate, we received responses from 1,426. The response rate is 66% and the margin of error is 1.5%.

Because faculty were simultaneously participating in their own survey, only the most important statements (Engagement and Communication) from this survey were presented to them. For more information, contact Taylor Lovell (TLovell@uvu.edu).

Key Findings

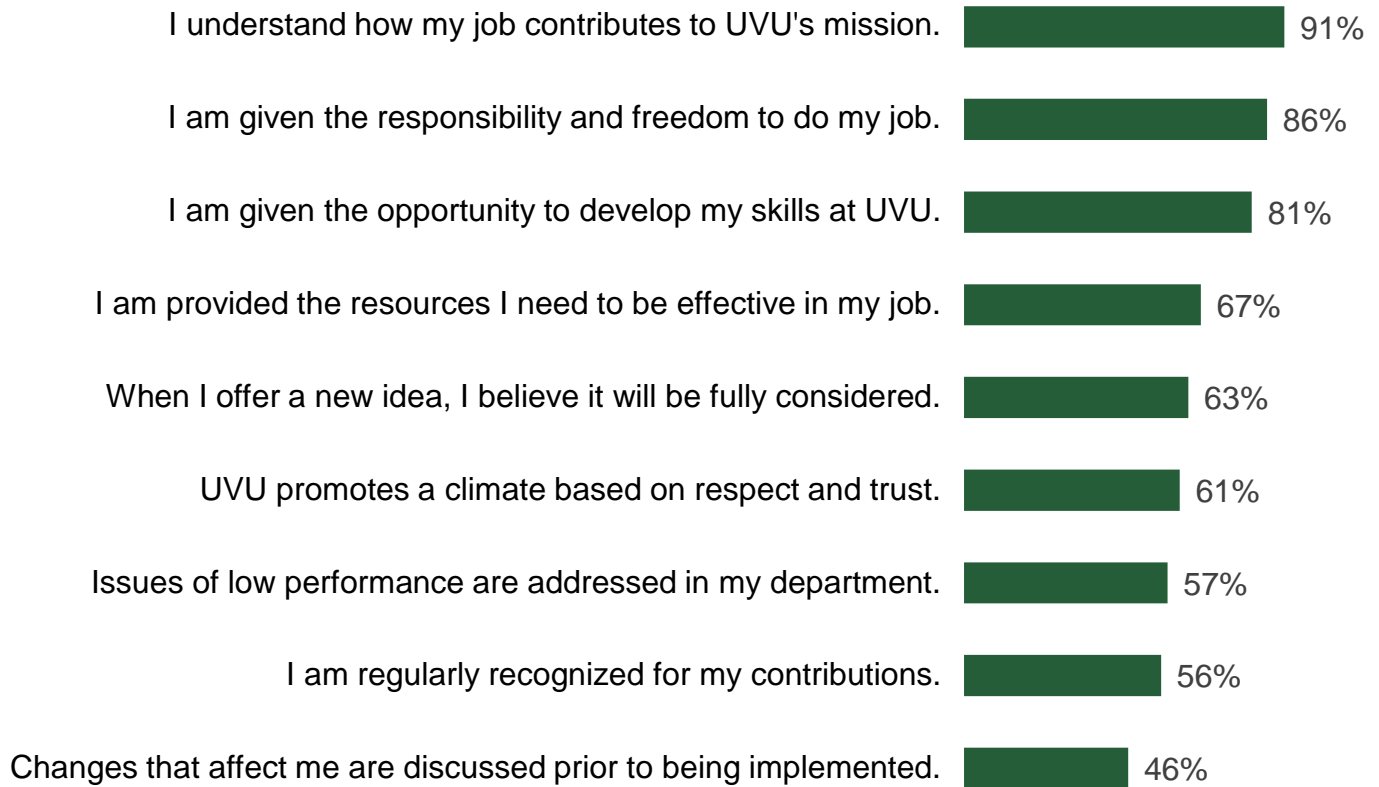

- Overall employee engagement is up slightly compared to previous years (68% average score in 2021, 63% in 2020).
- Employees are most satisfied with the communication they receive from their direct supervisors (80%) and least satisfied with the communication they receive from President and President's Council (55%).
