Welcome to Utah Valley University!

At UVU we believe in the power of dreams and the ability to achieve them.

Your dreams can take you anywhere. Your imagination, combined with the acquisition and implementation of knowledge, can put you on the path to success — academically, professionally, and personally.

As part of our mission ethos, we are champions of learning by doing. We call it engaged learning. This approach takes the best learning from textbooks, research, and class lectures and combines it with a myriad of opportunities for practical application. Since our founding more than 75 years ago, we have created connections that help our students expand their horizons and become better prepared to enrich society and the world around them. The world is dynamic, and we believe higher education should reflect that.

Each UVU student, with her or his unique characteristics and background, is important to the whole of the university and plays a crucial role in the vibrancy of our community. I invite you to be actively engaged in your life as students, enjoying the many extracurricular activities and athletic offerings on our campus as you complete your degree. Be assured that the seriousness with which you pursue your studies will be richly complemented and supported by a comprehensive network of invested faculty, staff, and administrators. Together, these women and men will ensure that UVU is a place of exceptional care, exceptional accountability, and exceptional results.

I encourage you to explore the pages of UVU’s course catalog. Our wide range of offerings in certificate programs and associate, bachelor, and graduate degrees reflects our approach to higher education. This integrated model of education, combining career and technical education alongside more traditional academic degree programs, produces first-rate scholars and practitioners in highly sought-after fields. No matter your background or interests, there is a place for you at UVU. So, come as you are — bring your dreams.

Go Wolverines!

Best wishes,

---

(1) Academic Calendar for Fall 2020 and Spring 2021 is subject to change. Please refer to the official UVU website for the most up-to-date information.

(2) Some events have specific dates and times, including weekends. Please consult the UVU calendar for exact details.
Academic Policies & Standards

Academic Year

The academic year consists of three semesters: fall, spring, and summer. Fall and spring semesters are each made up of 15 weeks of class work and one week for final exams. The summer semester is 14 weeks in length; most classes are offered in one of two seven-week blocks. The time in classes is adjusted to equal the class time of fall and spring semesters, but there is no final exam period during summer.

Course Administration

UVU reserves the right to cancel any course at any time. Reasons for course cancellations include, but are not limited to, low enrollment in the course, space unavailability, instructor change, loss of instructor, and/or program changes. Students enrolled in the course will be contacted as soon as possible by the appropriate school or college when the university decides to cancel a course.

Class Periods/Credits

All credit hours are computed in semester hours. Three hours of work per week are, on average, expected to earn one semester credit hour; however, one credit hour may include any of the following combinations of work:

1. One hour of lecture, plus a minimum of two hours of personal work outside of class, regardless of delivery mode (One hour of lecture is considered to be 50 minutes per week);
2. Three hours in a laboratory, internships, practica, studio work, or other academic work, regardless of delivery mode, with additional outside work in preparation and documentation;
3. Any other combination appropriate to a particular course as determined by the academic department.

All transfer courses taken on a quarter system will be converted to semester hours using a three to two credit ratio. For example, a three credit hour course from a quarter calendar institution transfers to UVU as two semester credits.

Full-time Student Status

Graduate

UVU considers graduate students registered for 9 credits or more per semester or summer to be full-time graduate students. A 9 credit hour minimum load is generally accepted by sponsoring agencies for certifying full-time status.

Undergraduate

UVU considers students registered for 12 credits or more per semester or summer to be full-time students. A 12 credit hour minimum load is generally accepted by sponsoring agencies for certifying full-time status. Financial aid recipients receiving full benefits and students on scholarships are required to carry a minimum of 12 credits per semester.
For students attending only the fall and spring semesters, 15 to 18 credits per semester is generally required to complete associate degree programs within two academic years or bachelors degrees within four academic years, assuming all prerequisites are satisfied (See individual major requirements for exceptions).

**Credit Hour Loads in Excess of 20**

Students who enroll in 21 or more credit hours in a semester must have approval from the deans of the appropriate schools and/or colleges.

**Year Classifications & Credit Hours**

Freshman: 0-29 credit hours  
Sophomore: 30-59 credit hours  
Junior: 60-89 credit hours  
Senior: 90 or more credit hours

**Grading Policies**

Grades are determined by instructors, based upon measures determined by the instructor and department and may include: evaluation of responses, written exercises and examinations, performance exercises and examinations, classroom/laboratory contributions, mastery of pertinent skills, etc. The letter grade “A” is an exceptional grade indicating superior achievement; “B” is a grade indicating commendable mastery; “C” indicates satisfactory mastery and is considered an average grade; “D” indicates substandard progress and insufficient evidence of ability to succeed in sequential courses; “E” (failing) indicates inadequate mastery of pertinent skills or repeated absences from class; “UW” indicates unofficial withdrawal from class.

The following table indicates each grade variant and the equivalent grade points for that variation.

<table>
<thead>
<tr>

</tbody>
</table>

The GPA is determined by dividing the total grade points earned (credit hours times grade in points above) by the number of semester hours attempted.

Students may view final grades electronically on the myUVU system after the end of the semester. All financial obligations to the Institution and “holds” on academic records must be resolved before college transcripts are issued.
Incomplete Grades

Students are required to complete all courses for which they are registered by the end of the semester. In some cases, a student may be unable to complete all of the course work because of extenuating circumstances. The term “extenuating circumstances” includes: (1) incapacitating illness which prevents a student from attending classes (usually more than five consecutive class days); (2) a death in the immediate family; (3) change in work schedule as required by employer; or (4) other emergencies deemed acceptable by the instructor.

If circumstances are deemed appropriate, the student may petition the instructor for time beyond the end of the semester to finish the work. If the instructor agrees, an “I” grade will be given. An Incomplete Grade Form indicating work completed and work to be completed must be signed by the student, instructor, and the department chairperson, and turned into the Registrar’s Office at the end of the semester.

“I” grades should not be requested nor given for lack of completion of work because of procrastination or dissatisfaction with the grade earned. Per policy, students must be passing the course and have completed 70% or more of the course work in order to qualify for an incomplete.

Specific arrangements to remove an “I” grade must be made between the student and the instructor. In most circumstances, work to be completed should be finished in the first two or three weeks following the end of the semester in which the “I” was given. Failing to complete the “I” and replace it with the appropriate letter grade may negatively affect any financial aid.

Incomplete work cannot be completed by retaking the class. If such an option is preferred, the student must take the grade earned and then retake the class for a better grade. The grade for the later class will be calculated in the GPA. In all cases, the “I” grade must be made up within one year. If it is not, the “I” grade will change to an “E” on the transcript. “I” grades are not computed in the GPA.

Repeating a Course

No additional credit is allowed for repeating a course in which the initial grade was passing unless the course number for the course ends in the letter suffix “R” or “Z” (a course designed to be repeatable for credit). For other repeated courses, the most recent grade will be used in the calculation of the GPA. Upon successful completion of the repeated course, the repeat is indicated on the student’s transcript (E=Exclude, I=Include). All work will remain on the records, ensuring a true and accurate academic history. (Note: Although not used in computing the UVU overall GPA for UVU purposes, many graduate programs, such as law or dental school, include ALL grades in calculating an overall GPA for admissions criteria.)

Courses are not accepted from other institutions for the purpose of posting a repeat of a course already taken at UVU.

Board of Regents policy requires that students shall be charged at the full cost of the instruction tuition for repeating a course more than once, unless the institution determines that the repetition is a result of illness, accident or other cause beyond the student’s control or unless the course is prescribed by the student’s program of study. This affects all courses beginning January of 2003.

Changing a Grade Other than an Incomplete

Policy

Any student who has reason to believe that a grade assigned in a specific course was not justified has the right to appeal that grade.

Procedure

Student Action—

Grades may be appealed within one year of issuance in the following manner:

First, the student shall approach the instructor of the course as soon as possible after receiving the final grade. They have the right to discuss the merits of their appeal in an informal and non-threatening environment.

Second, after obtaining feedback from the instructor regarding the rationale for assigning the original grade, and assuming dissatisfaction still exists at the conclusion of the first step, or if the original instructor is no longer available, the student has a right to submit a written appeal to the department chair, in a consultation setting.

Finally, if a mutual understanding cannot be reached in the second step, the student has the right to submit a formal written appeal through the Office of the Registrar to the University Academic Standards Committee, which exercises final authority in adjudicating the appeal.

Faculty Action—

During the first year after the issuance of a grade, an instructor for a specific class may submit a grade change form with proper documentation directly to the Records Office.

During the second through fifth years, the grade change form must be accompanied by an Academic Standards Petition filled out by the student and submitted by the course instructor or department chair directly to the registrar. If a grade change is requested and the faculty member who gave the original grade is no longer employed by UVU, the appropriate department chair may make the change if it is warranted.

After five years, a grade change may be considered only where evidence exists to prove that an error occurred in the recording of the original grade or extreme extenuating circumstances existed. In the latter case, an Academic Standards Petition with appropriate documentation may be submitted to the Office of the Registrar for possible consideration by the University Academic Standards Committee.

When the Records Office receives a signed change of grade form from an instructor, the new grade(s) are entered into the computer. An explanation of the transaction is entered into the student’s record, including what the old and new grades are.

Withdrawal & Reinstatement

Withdrawal from Classes

Introduction
Students may drop and withdraw from classes according to the dates and deadlines posted on the Semester Student Timetable. Classes may be dropped and not appear on the transcript through the drop deadline. After the last day to drop noted on the Semester Student Timetable, a grade of “W” will appear on the transcript for all official withdrawals and students will be responsible for tuition and fees. A “W” grade could impact a student’s satisfactory academic progress with the Financial Aid and Scholarships Office.

Withdrawing from a course after the last day to withdraw deadline may only be for extenuating circumstances and not solely for academic difficulty, and requires the signature of the department chair with a department approval stamp. Such changes to a student’s schedule may adversely affect current and future financial aid, scholarships and/or refunds. Students are cautioned to see a financial aid advisor before attempting to completely withdraw from school.

If a student stops attending (but does not officially withdraw) before the last day to withdraw, they should receive a “UW.”

If a student stops attending (but does not officially withdraw) beyond the last day to withdraw, they may receive the grade earned up to that point, or an “E”, at the instructor’s discretion.

“UW’s” are calculated into the grade point average (GPA) as 0.00, the same as “Es” (failing grades).

**Administrative Drops and Withdrawals**

Students may be dropped or withdrawn from classes by the administration if they: 1. register, but do not attend courses within the first three class periods of a semester; 2. register for courses for which they have not completed prerequisites; 3. neglect to pay tuition and fees for any given semester by the deadline published in the Student Timetable; or 4. other administrative reasons. Such changes to a student’s schedule could affect financial aid, scholarships, and/or refunds.

**Withdrawal from the Institution**

It is the responsibility of the student who withdraws from school to complete the online Leave of Absence process. If withdrawing (Leave of Absence) after the refund period noted in the Semester Student Timetable, a grade of “W” will appear on the transcript for all official withdrawals and students will be responsible for tuition and fees. A “W” (official withdrawal) grade could impact a student’s satisfactory academic progress with the Financial Aid and Scholarships Office. Complete withdrawal from college may adversely affect financial aid and/or Veterans’ benefits.

Simply stopping attendance does not qualify as an official withdrawal, and a student who does so may receive a failing grade.

**Reinstatement**

Students who withdraw from UVU and then desire to be reinstated during the same academic semester may do so by obtaining clearance from the Registrar’s Office and completing the late registration process.

**Student Military Leave Procedure**

Students activated into military service during an academic semester for which they are currently enrolled have the following options to choose from, in addition to other alternatives provided by existing policy and regulation. The student is responsible to notify appropriate Institution officials regarding the implementation of the selected option.

1. A request to withdraw from school will be honored with a full refund of all tuition and fees paid. Non-punitive “Ws” will be recorded on the transcript and the date of action maintained on the student's record.
2. Incomplete grades may be negotiated with individual faculty and/or departments based on realistic means of completing the required objectives of the course(s). Where recommended by the department (faculty), the time limit for completing the “I” may be extended. This option may include “home study” as a means of completing the required work with faculty approval and where practical.
3. Current grades (grades earned at the point of termination) may be issued at the discretion of individual faculty. This is also a negotiated option.

In all cases, the student activated into military service is eligible for readmission.

**Noncredit Continuing Education Unit (CEU)**

Noncredit or Continuing Education Students are taking courses to pursue personal or professional interest, gain general knowledge, learn a new skill, upgrade existing skills, or enrich their personal understanding of a wide variety of topics. These courses do not offer college credit, but in some cases noncredit or continuing education students can earn continuing education units, certification or other evidence of class completion to meet personal or professional requirements. Noncredit course work cannot be substituted for a credit requirement or any required course on a degree pathway.

**College Credit**

College credit at UVU may be obtained through the following methods: 1. UVU Credit (includes Cooperative Education); 2. Transfer Credit; 3. Challenge Credit; 4. Foreign Language Challenge Credit; 5. Advanced Placement Credit; and 6. CLEP (College Level Examination Program).

1. **UVU Credit**

UVU credit is obtained through admittance to UVU, registering for classes, and satisfactorily completing all required course work. Courses completed through this method will receive a letter grade that will be used in calculating Grade Point Average (GPA).

**Cooperative Education**

Cooperative Education (Coop) offers another avenue for students to obtain UVU college credit. Students enrolled in cooperative education work as paid employees of a business, agency, or institution while enrolled at UVU in classes related to their career. Academic credit for cooperative work experience is granted according to the number of hours a student works during the semester using the following formula:
Coop credits are registered for at the same time and in the same manner as UVU credits.

Courses completed through Cooperative Education will receive a credit/no-credit grade which is not included in the calculation of the GPA.

The maximum number of coop credits that may be applied toward a certificate is 8; a diploma is 14; an associate or bachelor’s degree is 16 credit hours. Departments define how coop credit is applied to specific programs. Additional coop credit may be taken (but not applied toward graduation) with approval of the cooperative education director and the appropriate dean.

2. Transfer Credit

It is the student’s responsibility to have official transcripts of any previous college work completed elsewhere sent to the UVU Admissions Office. Transcripts accepted as official by the UVU Admissions Office are automatically sent to the Transfer Credit Office for evaluation and posting. The Transfer Credit Office may require the student to supply the catalog, bulletin, or course outlines from previous schools attended to assist in determining the transferability of specific courses. Transfer credit may or may not apply to UVU graduation requirements, regardless of the number of credits transferred.

Transfer courses with grades below “C-” will not be accepted by UVU. Transfer courses are not calculated in the GPA. Individual departments reserve the right to impose limits on the age and grade level of transfer credit. There is no limit to the number of transfer credits that may be accepted; however, UVU graduation requirements such as residence, total credits, and GPA must still be met.

Transfer courses will not be accepted from other institutions for the purpose of posting a repeat on a course already taken at UVU.

Courses in religion will be evaluated on the basis of the particular orientation of the course as determined by the UVU Religious Studies Committee. In order to be considered, these courses must be listed on an official transcript from a regionally accredited institution and must demonstrate scholarly rigor and critical engagement with the subject matter.

General Education for Transfer Students

For transfer students from any Utah State Higher Education institution, UVU shall accept at full value all General Education course work approved by the sending institution, provided it meets the minimum C- letter grade requirement, in any area specified by the Board of Regents document R470. These areas include Composition, Quantitative Literacy, Fine Arts, Humanities, Social and Behavioral Science, Biology and Physical Science. UVU shall require transfer students to complete any additional coursework needed to satisfy the unmet portions of the UVU General Education requirements. Previously completed General Studies course work shall be applied to assure the best possible fit with UVU’s General Education requirements. As each transfer student’s requirements may vary, see the Transfer Credit Office (BA 113 for specific requirements.

An AA or an AS degree earned at any USHE institution will meet the General Education requirements of UVU. The degree must include equivalents of UVU’s English, Mathematics, and American Institutions requirements or the student will have to fulfill these requirements separately.

Credit for ACT/SAT Scores

On May 12, 2015, Senate Bill 196 – Math Competency Initiative passed which mandated that the State Board of Education establish a qualifying score for ACT/SAT scores in order to award college credit for a mathematics course. This course must satisfy the state system of higher education quantitative literacy requirement. This initiative will go into effect as of the 2016-2017 school year. High School students who have graduated during the 2016 school year and onward will be eligible for QL 1900 based off of an ACT score of 26 or an SAT score of 660.

U.S. Institutions outside of Utah

For transfer credit to be accepted by UVU, the institution from which credit is to be transferred must be accredited by one of the following regional associations:

- Middle States Association of Colleges and Schools (MSA)
- Northwest Commission on Colleges and Universities (NWCCU)
- North Central Association of Colleges and Schools (NCA)
- New England Association of Schools and Colleges, Inc./Commission on Institutions of Higher Education (NEASC-CIHE)
- Southern Association of Colleges and Schools/Commission on Colleges (SACS-CC)
- Western Association of Schools and Colleges/Accrediting Commission for Community and Jr. Colleges (WASC-Jr.)
- Western Association of Schools and Colleges/Accrediting Commission for Sr. Colleges and Universities (WASC-Sr.)

A completed associate degree (i.e. AA or AS) designed for transfer earned at one of these regionally accredited institutions will fill most of the UVU general education requirements if the degree includes a minimum of 30 semester credit hours of general education that is broad and representative of UVU’s general education core. The completed AA or AS degree must include direct equivalents of UVU’s English, Mathematics, and American Institutions requirements or the student must fulfill these requirements separately. If the courses
within the transferable degree aren't considered to be transferable or general education courses, the classes and the degree may not be recognized and courses will be evaluated individually for transferability and equivalency.

Non-accredited institutions may be accepted on an exception basis by individual departments.

Military courses are evaluated using the ACE recommendations from the Guide to the Evaluation of Education Experiences in the Armed Services. Approved credits will be applied if they directly pertain to a student’s individual undergraduate degree program.

International and Foreign Institutions

The Transfer Credit Office, working with department academic advisors and faculty, is authorized to evaluate credit from foreign colleges, universities, and/or International Baccalaureate (IB) Diplomas after a student has been admitted to UVU. International students requesting transfer of credit from foreign institutions of higher education must submit a transcript from an approved Foreign Credentials evaluation Service. See the Transfer Credit Office (BA 113) for a list of these accepted services.

Transfer courses from international and foreign institutions are not calculated in the GPA.

3. Challenge Credit/Experiential Credit

(Equivalency Examination and/or Documentation of Earned Competency)

No more than 25 percent of the minimum credits required toward a bachelor’s degree, and associate degree, diploma, or certificate of completion, may be awarded through experiential and/or challenge credit. Challenge credit and experiential credit are not eligible for use in a certificate of proficiency. Credit for courses that appear in the current catalog may be awarded to individuals who can prove through appropriate assessment and/or documentation that they have already acquired the equivalent knowledge and/or expertise required for successful completion of that course.

To receive experiential/challenge credit for a specific course, the student must

1. Be enrolled at the University.
2. For Challenge credit, complete a comprehensive examination (theoretical and/or applied) with at least a “C-” grade; and for Experiential credit, provide documentation of practical experience to the satisfaction of the department chairperson and dean showing course objectives have been met; or with the departmental approval, complete an advanced course with a grade of “C-” or higher (if deemed necessary by the department) as a validation procedure.
3. Pay, in advance, a nonrefundable processing fee.
4. After successful completion of requirements, pay the per-credit-hour fee.

A specific course shall be challenged only once, and a student shall not receive challenge/experiential credit for a course that the student is/or has been previously enrolled in and received a grade, including a “W or AU” grade.

Duplicate credit will not be awarded.

Grades shall be recorded only as “CR” (credit) and shall not be calculated in a student’s university GPA.

4. Language Challenge Credit

Students may obtain an Experiential Language Credit Request Form in the UVU Languages and Cultures Department.

Students who have acquired proficiency in languages offered at UVU by means other than college courses (high school, foreign residency, etc.) may earn up to 16 credit hours.

To qualify for these credits, a student shall complete a course in that language at a higher level than the credits for which they apply; and the grade in that course must be a “C-” or better.

To qualify for credit for language courses not offered at UVU, a student may, as an alternative, take the appropriate language test at any accredited four-year institution and provide UVU with the satisfactory (C- or better) test results. In this circumstance, the student must meet with the Languages and Cultures department chairperson to ascertain the maximum language credits that may be applied to any degree from UVU.

Proficiency tests to determine placement (not credit) in advanced courses are administered in the UVU Classroom Testing Center prior to the beginning of each semester. Students unsure of their language skills must take the test or receive permission from the course instructor before registering for advanced classes.

Students who qualify for credit under the above provisions (for example, they register for, and successfully complete, Spanish 2010 with at least a “C-” grade, thus qualifying for the credits for the previous courses—1010 and 1020) must petition for those credits (application forms are available in the Languages and Cultures Department) and pay a fee for each credit hour. No additional tuition will be charged for those credits. The credits will be listed on transcripts as “CR” and are not calculated in the GPA.

Additional information regarding language challenge credit and other policies are available from the Languages and Cultures Department.

5. Advanced Placement Credit

Students who complete an Advanced Placement Exam through CollegeBoard may earn up to 8 academic credits per test with a score of 3, 4, or 5, as per the policies set forth by the Utah State Board of Regents. Students having AP test scores of 3 or higher should contact the Transfer Credit Office to ensure posting of the results to their UVU transcripts.

Specific equivalencies and acceptance criteria are updated annually, upon departmental faculty review and approval.

If all residence, credit, and grade point average requirements have been met, there is no limit to the number of Advanced Placement credits that may be accepted; however, duplicate credit for tests and course work shall not be applied.

6. CLEP Credit (College Level Examination Program)

Students may receive college credit for CLEP exams as specified on the approved list in the Transfer Credit Office. Additionally, students intending to transfer to another institution from UVU should meet with their intended transfer institution to gain advance information on how that institution accepts CLEP credit.
CLEP credit will be posted as a "CR" grade and will not be calculated in the GPA. The amount of credit given through CLEP subject examinations is determined by the appropriate departments. No more than 25 percent of the minimum credits required toward a degree may be awarded through CLEP and/or Challenge/Experiential Credit hours.

Course Number System

0000-0999 Remedial or preparatory noncredit courses; may not be counted toward a certificate, diploma, associate, or bachelor's degree. Technical, nontransferable courses may count toward a certificate.

1000-2999 Lower division (freshman and sophomore courses); courses designed as transfer courses; count toward a certificate, diploma, associate, and/or bachelor's degree.

3000-5000 Upper division (junior and senior courses); courses designed to count toward a bachelor's degree, or any other degree as required by department.

6000 Graduate courses; regular courses in master's level programs.

Learning Enrichment courses with 1000 level numbers do not satisfy General Education requirements for the associate or bachelor's degrees. These classes may count as electives for the Associate in Arts, Associate in Science, and Bachelor of Science degrees.

The letter suffix "R" indicates that a course is repeatable for credit (example: PES 161R). Course descriptions indicate the number of "repeats" allowed.

Variable and partial credit is indicated by letter suffixes of "A," "B," "C," etc. (example: ACC 201A = 4 credits and ACC 201B = 2 credits). Changing the hours of credit for a variable-credit class after registration may be done only through the add/drop (class change) procedure. Such changes must be made prior to completion of that partial course.

"Honors" credit courses are identified on the transcript by an "H" following the course number (example: ENGL 225H).

Global/Intercultural credit courses are identified on the transcript by a "G" following the course number (example: ANTH 101G).

Undergraduate Academic Standards

- Academic Counseling Center
  - Office: LC 402
  - Telephone: 801-863-8425

Policy

Academic standing is determined by the grades a student earns at UVU. A student with the most recent semester grade point average (GPA) and cumulative GPA of 2.0 or higher on a 4.0 scale is in good academic standing. When a full- or part-time undergraduate student fails to maintain a semester or cumulative GPA of 2.0 on a 4.0 scale, the student shall be notified of progressive academic intervention actions.

This policy does not include nor preclude additional program requirements that may be mandated by specific departmental majors.

Procedures

Academic intervention shall be applied progressively in the order described below.

Alert Status

When a student is not making adequate progress towards course completion and the instructor is unable to resolve the issue with the student, the student may be placed on alert status. A registration hold may be placed on the student's record. The student must then meet with their academic advisor for guidance before the registration hold will be removed.

Academic Warning

When the semester GPA falls below 2.0 and the cumulative GPA is 2.0 or above, the student shall be placed on academic warning regardless of alert status. A registration hold shall be placed on the student's record. The student must complete an academic success warning workshop and meet with their academic advisor before the registration hold will be removed.

Academic Probation

When the semester and cumulative GPA both fall below 2.0, the student will be placed on academic probation. A registration hold shall be placed on the student's record. The student must complete an academic success probation workshop, develop an academic success plan, and meet with their academic advisor before the registration hold will be removed.

Continued Academic Probation

If the student on academic probation fails to raise the cumulative GPA to a 2.0 or above in the subsequent semester, the student will be placed on continued academic probation. A registration hold shall be placed on the student's record and the student must prepare an academic success plan with their academic advisor as well as the academic standards counselor before the registration hold will be removed. The student may also be required to attend another academic success probation workshop and/or enroll in a college success class.

All students on continued academic probation will be required to submit an in-progress grade report to the Academic Standards Office in order to register for any subsequent semester(s). The student shall continue to receive advisement from the academic standards counselor, as well as their academic advisor, to monitor and promote academic progress.

Academic Suspension
When on continued academic probation, a student receiving a semester and cumulative GPA below 2.0 in a subsequent semester shall be placed on academic suspension. The student shall be immediately dropped from enrollment in all current semester classes and a registration hold shall be placed on the student’s record. The student shall be suspended for a minimum of one full semester. During this time the student is expected to resolve all academic problems that led to the academic suspension.

To re-enroll at the University, a student must submit a Petition for Academic Suspension Review to the Academic Support Committee. This committee will make suggestions for specific customized interventions to be approved by the Academic Standards Committee. A decision shall then be rendered as to whether, and under what conditions, the student may continue to study at the University. The student must complete the requirements set forth by the Academic Standards Committee before the registration hold will be removed.

Academic Probation Returning from Academic Suspension

When the academic suspension petition is granted, the student is allowed to resume their academic studies under probation returning from suspension. This status allows the student to register for classes under the guidance of the Academic Standards Office, in conjunction with their academic advisor. As long as the student acquires a semester GPA of 2.0 or above in all subsequent semesters and abides by the conditions outlined by the Academic Standards Committee, the student may continue to enroll in classes. The student will remain on academic probation returning from academic suspension until the cumulative GPA is at or above 2.0.

Academic Dismissal

When failing to comply with the conditions set forth by the Academic Standards Committee while on academic probation returning from academic suspension, the student shall be dismissed from the University and immediately dropped from enrollment in all classes. A registration hold shall be placed on the student’s record.

The student may not re-enroll at the University or submit a Petition for Academic Dismissal Review for a minimum of one full calendar year from the date of academic dismissal. During this calendar year, the student may also be required to attend another institution and complete 18 credits with at least a 2.5 GPA. Upon review by both the Academic Support Committee and the Academic Standards Committee, a decision will be rendered as to whether or not, and under what conditions, the student may re-enroll at the University.

Any student who returns to the University after being dismissed will be placed on academic probation returning from academic dismissal and will be required to follow the academic plan outlined by the Academic Standards Committee.

Academic Probation Returning from Academic Dismissal

When the Petition for Academic Dismissal Review is granted by the Academic Standards Committee, the student is allowed to continue their academic studies on academic probation returning from academic dismissal. The student is allowed to register for classes under the guidance of the Academic Standards Office, in conjunction with their academic advisor. As long as the student acquires a semester GPA of 2.0 or above in all subsequent semesters and abides by the conditions outlined by the Academic Standards Committee, the student may continue to enroll in classes. The student will remain on probation returning from dismissal until the cumulative GPA is at or above 2.0.

When a student is unsuccessful at this level and does not have the ability to benefit from continuing with their education at the University, academic counseling will be provided by the Academic Standards Office to explore alternative pathways to success.

Appeals

When the student’s Petition for Academic Suspension Review or Petition for Academic Dismissal Review is denied by the Academic Standards Committee, the student may present an appeal to a hearing panel that consists of the Academic Standards Committee and a representative appointed by the President of the Utah Valley University Student Association (UVUSA). After review of the petition, the hearing panel will determine if the student’s appeal is granted or denied. If the appeal is granted, the hearing panel shall determine the conditions for re-enrollment at the University.

If the student is unsatisfied with the hearing panel’s decision, the student has the right to appeal in writing to the Vice President of Academic Affairs.

Academic Renewal

For students who are challenged with a low GPA or for those who have experienced a period of low grades that does not reflect their academic potential, UVU offers academic renewal. A student is allowed to petition the Registrar for academic renewal only one time during his or her enrollment at the University. This process shall remove a limited amount of previous academic work from the student’s GPA and from credit toward graduation. To be eligible a student shall meet the following conditions at the time the petition is filed:

1. The student must be currently enrolled at UVU.
2. A minimum of two years has elapsed since the most recent course work to be eliminated was completed.
3. The student has completed at least 30 semester hours of UVU course work with a minimum cumulative GPA of 2.50. These 30 hours shall have been completed after the course work the student is requesting to eliminate.
4. The student’s cumulative GPA is below the level necessary for graduation in his or her current program of study. In most instances, this is a 2.0 cumulative GPA.
5. The requested course work has not been used toward an existing degree.

The student may request a maximum of two specific semesters/terms of academic course work be eliminated from his or her earned credits and cumulative GPA. Individual courses shall not be accepted.

If the petition qualifies under this policy, the student’s permanent academic record shall be annotated to indicate that no work taken during the disregarded semester(s) and/or term(s), even if satisfactory, shall apply toward earned credits, GPA, academic standing, and/or graduation requirements. All work shall remain on the records, ensuring a true and accurate academic history. The words “Academic Renewal” and the affected semester(s)/term(s) shall be annotated on the student’s transcript.

Academic renewal shall not be requested to earn or change academic honors status on a student’s transcript.

No exceptions shall be made to this policy. Students shall be aware that this policy may not be accepted at transfer institutions, and all credit, including those with academic renewal, may still be calculated by the transfer institution.

Academic Distinction

The Dean’s list recognizes those who have demonstrated outstanding academic performance during a term or semester. To be eligible:

1. The student must complete 12 semester hours or more in any semester and a commensurate number of hours in any term.
Introduction

2. The student must earn a semester GPA of 3.6 or above.
3. The student must have a cumulative GPA of at least 2.0.

Accreditation

Utah Valley University is accredited by the Northwest Commission on Colleges and Universities.

Accreditation of an institution of higher education by the Northwest Commission on Colleges and Universities indicates that it meets or exceeds criteria for the assessment of institutional quality evaluated through a peer review process. An accredited college or university is one which has available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future. Institutional integrity is also addressed through accreditation.

Accreditation by the Northwest Commission on Colleges and Universities is not partial but applies to the institution as a whole. As such, it is not a guarantee of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance about the quality of opportunities available to students who attend the institution.

Inquiries regarding an institution’s accredited status by the Northwest Commission on Colleges and Universities should be directed to the administrative staff of the institution. Individuals may also contact:

- **Northwest Commission on Colleges and Universities**
  - 8060 165th Avenue N.E., Suite 100
  - Redmond, WA 98052
  - (425)-558-4224
  - www.nwccu.org

The Northwest Commission on Colleges and Universities (NWCCU) is an independent, non-profit membership organization recognized by the U.S. Department of Education as the regional authority on educational quality and institutional effectiveness of higher education institutions in the seven-state Northwest region of Alaska, Idaho, Montana, Nevada, Oregon, Utah, and Washington.

In addition, some programs or majors have other specialized accreditation.

- **Specialized Accreditation, Certification, and Approvals**
  - Web: www.uvu.edu/accreditation/specialized.html
  - 

Gainful Employment information is provided in compliance with the U.S. Department of Education’s disclosure requirements for programs eligible for Title IV financial aid that prepare students for gainful employment in a recognized occupation as required in 34 CFR 668.6(b). All programs list the following information: CIP Code, Level of Program, Program Length, Tuition and required fees, Estimated costs for books and supplies, Debt at program completion, Program completion in Normal Time, Job Placement, and Related Occupations. Gainful Employment Program Disclosure is listed on all marketing materials for potential students.

Admissions Policy

Undergraduate Admissions

Utah Valley University maintains an open admissions practice, admitting all applicants whose qualifications indicate they may benefit from the instructional programs offered.

The University does, however, have enrollment standards. In order to help students enroll in courses that match their academic preparation and ability, admission to the University requires that every student adhere to the established admission deadlines and provide all application materials as stipulated by the university including: Official high school and/or college transcripts, and a $35 application fee. Returning/Transfer students are required to submit transcripts from all colleges/universities they have attended. After being admitted, most students are required to attend orientation and meet with an advisor to be guided through a personalized enrollment process.

State Authorization Requirements for Online courses and programs

Utah Valley University delivers online education programs and courses throughout the United States and abroad. Recent amendments to the Higher Education Act of 1965 include changes to a regulation on State authorization that impacts online and distance education providers. The regulation changes are designed to address the growing population of students residing at a distance and pursuing university-level education online by requiring institutions to meet any State requirements to be legally offering online education in that State.
Utah is a member of the State Authorization Reciprocity Agreement (SARA) and Utah Valley University is an approved SARA institution which means we adhere to established standards for offering post-secondary online programs in all member states. UVU is authorized to offer online education in all states and a few territories with some restrictions on internships and practicums. For more information and access to an interactive map visit https://www.uvu.edu/otl/students/state-authorization.html. To review the authorization information, click on the state you intend to reside in while pursuing your degree or program through UVU.

**Academic Programs leading to Professional Licensure**

At Utah Valley University, programs in the licensed professions are designed to fulfill the educational prerequisites for licensure in Utah. This means that, when a student graduates from a UVU professional program, he or she has the minimum educational qualifications to apply for Utah licensure in his/her field.

For other U.S. states and territories, this may or may not be the case. Within a given profession, educational requirements vary from state to state. To assist students who now live or may one day live outside of Utah, UVU has provided a resource that explains whether each UVU professional program fulfills educational requirements for a license credential in each U.S. state and territory.

Will your academic program meet the educational requirements for the professional credential in the state or US territory you might choose to live during or after completing your UVU degree? Visit the UVU Professional Licensure website to learn more!

**Graduate Admissions**

In order to be admitted to the University as graduate students, applicants must meet the following minimum requirements:

1. A bachelor's degree from a regionally accredited college/university, a nationally accredited program, or an international college or university recognized by a Ministry of Education. International Admissions officers shall determine if applicants with international degrees meet the graduate program’s requirement of a recognized bachelor’s degree or equivalent.
2. A 3.0 cumulative undergraduate GPA or a 3.0 GPA calculated on the last 60 semester hours (90 quarter hours) of undergraduate work.
3. Any additional or more stringent admissions criteria established by specific graduate programs in addition to the minimum required by the University. (Policy 510, Section 4.5).

**Admissions Procedure**

UVU is committed to equal opportunity in admissions and access to educational programs and activities without regard to race, color, religion, national origin, sex, sexual orientation, gender identity, gender expression, age, disability status, veteran status, pregnancy, childbirth or pregnancy-related conditions, citizenship, genetic information, or other bases protected by applicable law.

**Age Exception**

New freshmen under the age of 17 and who have not graduated high school seeking admission must apply for exception through the Admissions Office. The student must submit all required documents for admission and demonstrate through assessment testing the ability to succeed. After meeting with the student and at least one parent or guardian in person, the Director or Associate Director of Admissions will make the final determination for admittance.

Students are required to be in the non-degree seeking status High School Concurrent Enrollment (HSCE) until they graduate from high school, receive a GED or are beyond compulsory high school age. Students are required to take ACT/ACT-R or SAT testing and at a minimum must qualify to enter English and Math at a college level (1010 or above.)

Students that do not meet testing minimums, are under the age of 15, or are otherwise found to not be college ready will not be granted an exception to policy.

**Enrollment**

Acceptance of undergraduate students and resident status of all students will be determined by the Office of Admissions. A declaration of major is accomplished through the Application for Admission. Students desiring to change their major after acceptance to the University are required to do so with the academic advisor for their newly desired major.

Admission to the University does not constitute admission into an individual major or program of study. Some programs of study may require an additional program admission process. In programs or courses with limited openings (or seats), enrollment is based on a “first-come, first-served” procedure, assuming prerequisites have been satisfied.

**Specific Program Screening**

Some programs or majors of the institution are accredited by professional or technical organizations which may recommend certain minimum standards for entrance into the program. Other programs may require prerequisite skills or knowledge that are specific to entry-level courses required for that major.

**Undergraduate Admission Steps**

To be officially admitted to the University, an applicant must submit the following to the Office of Admissions:

1. Complete the online Application for Admission available at: www.uvu.edu/admissions.
2. Application Fee: Nonrefundable, $35 application fee accompanying first undergraduate, $15 for each returning/readmitting undergraduate application for admission, and, $115 for international application for admission. Application deadline for undergraduate admissions: fall semester, Aug. 1st; spring semester, Dec. 1st.
3. Official Transcripts: All High School/College/University transcripts must arrive at UVU in an unopened envelope from the sending institution and must be printed with in the last six months to be considered official. High school transcripts can be considered official if they are emailed from the high school counselor to admissions@uvu.edu. Items must be received or postmarked before the admissions deadline.
4. Official ACT or SAT scores: ACT or SAT test scores are not required for admission to the university but may be a requirement for scholarship consideration. The ACT-R can be taken at Testing Services in the Wolverine Services Center. Expired test scores (two years for math and five years for English) will not prohibit admission to UVU. However, current placement scores may be required prior to registration of math or English courses.

Acceptance and resident status will be determined by the Office of Admissions. A declaration of major is accomplished through the Application for Admission. Students desiring to change their major after acceptance to the University are required to do so with the academic advisor for their newly desired major.

**Graduate Admission Steps**
Introduction

1. Complete the online Application for Admission available at: www.uvu.edu/admissions.
2. Application Fee: Nonrefundable $45 fee for each graduate admission application, $145 fee for each international graduate admission application.
3. Admission Documentation: Submit documentation necessary for admission consideration by deadline published by program being applied to.
4. After receipt and review of necessary documentation each program will decide whether or not to offer admission to the program.

Resident Classification

Resident tuition applies to residents of the State of Utah.

Utah Valley University will determine student residency in accordance with Utah Law and the State Board of Regents Policy R512.

Nonresident students should note that residency does not change automatically. Students are required to submit a Residency Application with appropriate documentation to the Office of Admissions for review and approval before residency status can be changed.

Applicants for residency classification should allow one to two weeks for a review and determination of his/her residency. All communication regarding residency will be through myUVU. Students should check their myUVU account regularly, for updated information or documentation requests.

Applications for residency for any given semester must be received before the deadline posted on the Residency Application. In accordance with the residency policy, all changes in residency classification must be completed before the 3rd week of each semester. Applications/Supporting documentation received after advertised deadlines will not be considered until the next semester. Residency changes are not retroactive. Check your status and deadlines before registering for classes.

Returning Students

Undergraduate students returning to UVU after a break of seven semesters or more are required to reapply for admission. A non-refundable $15 readmission fee will be assessed to returning students. If the student has attended a College/University since their last attendance at UVU an official transcript from each institution attended is required before reacceptance.

Veterans

Veterans considering enrollment are encouraged to contact the UVU Veterans Services Office (WB 100) during the admissions process to receive assistance in planning programs of study and applying for educational benefits.

Senior Citizens

Utah residents, age 62 and over, may enroll on an audit basis in any University class offered (as space is available) by completing an application for admission but are not charged an application fee, https://www.uvu.edu/admissions/seniorcitizen/. A Senior Citizen audit form to be signed by the instructor is available online and through the Office of Admissions and Registrar’s Office. A $20 registration fee, which covers all costs except books and special lab and course fees, is required each semester. This policy does not apply to specialized workshops.

Senior citizens desiring credit for courses taken must apply as degree seeking students.

Non-Degree Seeking Students

Students that desire to attend courses at UVU for personal or professional enrichment only or to gain credit to transfer back to their home institution and are not seeking a formal degree or award from UVU may enroll as non-degree seeking students for four consecutive semesters. After this time period, non-degree seeking students must reapply following regular admission procedures if they wish to continue enrolling in courses at UVU. Non-degree seeking students are not eligible to receive financial aid or apply for graduation from UVU.

International Students: F-1 Immigration Status

The University is authorized under federal law to enroll non-immigrant alien (international) students. An international student is defined as an individual who is legally domiciled in a country other than the United States of America at the time of application for admission to UVU. International students must be 18 years or older for admittance.

Change of Status

Due to regulations involved with the change of Visa status for any Visa type, Utah Valley University does not facilitate change of status.

I-20 Certificate of Eligibility

This document issued by the designated international student admissions officer to international students with non-immigrant status, is to be used to apply for an F-1 Visa to the United States.

Only persons who do not intend to remain permanently in the United States and who have adequate financial resources are eligible for such status.

Educational Costs

An estimate of an academic school year costs, as determined by UVU, is stated on the I-20 form prior to issuance to the student. The American Consul uses this information to determine the adequacy of the applicant's financial resources.

Affidavit of Support

UVU requires international applicants (with their sponsors) to submit an “Affidavit of Support” for an International Student at UVU. The affidavit states that a sponsor is legally bound to financially support the applicant. Upon satisfactory completion of other admission requirements, the affidavit is returned to the prospective student with the I-20, which may then be presented to an American Consul or Embassy to gain an F-1 Visa.
Introduction

Transcript of Credits
This is an official copy of the permanent academic record of the student's high school (12th grade equivalency) and/or college grades. It is used by UVU to determine admission qualifications.

TOEFL or IELTS
The TOEFL (Test of English as a Foreign Language) is a confidential examination given through procedures designed to protect its security before, during, and after its administration. Scores over one-year old are not acceptable. Information for TOEFL may be obtained by contacting www.ets.org/TOEFL. We will also accept the IELTS test for English proficiency. Information for IELTS can be obtained at www.ielts.org.

A minimum score of 520 written test, 184 computer based, or 66 for internet based test for TOEFL an IELTS score of 6.0 is required for admittance to an undergraduate level program at UVU. No scores are needed for admittance to the Intensive English program. Certain majors may require higher scores before acceptance into major.

Graduate level programs require a minimum TOEFL score of 550 paper based test or 80 internet based test or 6.5 IELTS score. Individual programs may require more than University minimums as an admission requirement.

Note: Assessment tests are administered to all incoming students. The results of that exam determine first semester classes.

Financial Aid & Scholarships
International students are not eligible for scholarships or financial aid from the United States Government.

Academic Load
An international student is required to carry a full time course load (minimum of 12 hours of credit for undergraduate students and minimum of 9 credits for graduate students) that applies toward a major each academic semester of fall and spring. Summer is optional unless it is the student’s first semester at UVU or the student has attended school for more than one year and uses a semester other than summer as a vacation. The 12 credit-hour requirement may not include repeated classes or audit classes.

Hospitalization & Health Insurance
UVU recommends that international students acquire appropriate insurance while in school. Information can be obtained at the UVU Student Health Services Office.

Tuberculin Skin Test
Each international student must independently acquire a Tuberculin Skin Test after entering the United States. This may be obtained at the Student Health Services office on campus or the Utah County Health Department. Written results must be submitted to Student Health Services prior to registering for classes. An international student transferring from another institution within the United States may present written results from a previous skin test.

Essential Learning Outcomes (ELO)

The Essential Learning Outcomes (ELOs) are a comprehensive set of learning goals that are fostered and developed across a student's entire educational experience. They reflect the knowledge, skills, and competencies needed to meet the challenges of an ever-changing and complex world. The ELOs prepare students for future employment, life, and citizenship. With the achievement of these outcomes, UVU graduates will possess breadth and depth of knowledge, highly developed intellectual and practical skills, commitment to personal and social responsibility, awareness of the interdependence of communities, and the ability to synthesize and apply their learning to solve complex real-world problems.

Integrative and Applied Learning:
A student will engage in discipline-appropriate experiences with the academic and broader community through integrated and applied learning.

Intellectual and Practical Skills Foundation:
A student will acquire a foundation of intellectual and practical skills including communication, quantitative reasoning, qualitative reasoning (critical, analytical, and creative thinking), and technical and information literacies.

People of Integrity:
A student will become personally and socially responsible by acquiring, developing and demonstrating skills in ethical reasoning and understanding.

Professional Competency:
A student will demonstrate professional competence by meeting the established standards of the discipline, working as a valued member of a team, effectively formulating and solving problems, and actively seeking and honing lifelong learning skills.

Stewards of Place:
A student will demonstrate stewardship of local, national, and global communities by cultivating awareness of: interdependence among those communities; issues within those communities; and organizations and skills that address such issues.
Introduction

Knowledge Foundation:

A student will demonstrate knowledge of human cultures and the physical and natural world in the following areas of essential study: arts, history, humanities, languages, science and mathematics, social sciences. Knowledge Foundation refers to GE Distribution courses and other courses and experiences within the major.

Financial Aid & Scholarships

Scholarship Application Procedure

To apply for scholarships you must:

1. Be admitted to UVU.
2. Submit the Scholarship Application. Go to uvu.edu/financialaid/scholarships and click Apply Now.
3. Submit your high school and college transcript(s) to Utah Valley University.
4. Submit ACT or SAT scores (if Applicable).

Scholarship deadline is February 1st.

Financial Aid Application Procedure

To be considered for financial aid:

1. Be admitted to UVU.
2. Complete the Free Application for Federal Student Aid (FAFSA) at fafsa.ed.gov. UVU’s school code is 004027.
3. Complete all federal student aid requirements listed in myUVU. Log in to myUVU, go to Students, Paying For My Education, under the Financial Aid header click on UVU Requirements, and select the appropriate Aid Year.
4. Check your financial aid requirements often as additional requirements may be added at any time, even after your aid has disbursed. You must meet all general and program eligibility requirements in order to receive federal student aid. For more information on eligibility requirements please visit the Financial Aid and Scholarships website at uvu.edu/financialaid.
5. Accept your federal student aid offer through your myUVU account. Only grants are automatically accepted. You must accept all other financial aid. Log in to myUVU, go to Students, Paying For My Education, under the Financial Aid header click on Offers, Select the appropriate Aid Year, Terms and Conditions, Accept Financial Aid Offer.
6. All students receiving a Direct Loan for the first time must complete entrance loan counseling at studentloans.gov.
7. E-sign your master promissory note (MPN) at studentloans.gov after you accept your loan in myUVU. You must be enrolled in at least six credit hours that complete program requirements.
8. Receiving excess financial aid: Financial aid will be applied toward tuition and fees. Once tuition and fees have been paid, any excess aid will be sent to the student. There are two ways to receive a refund: by paper check mailed through the U.S. Postal Service to the local address listed in the student’s myUVU account, or by direct deposit. A student must enroll in eRefunds in order to have their refund direct deposited to the bank account of their choice. If eRefund is not setup through myUVU, then the reimbursement will be mailed to them. Not all students will receive a refund of their federal student aid.
9. The Financial Aid and Scholarships Office communicates to students through myUVU and myUVU email.

Deadlines

To ensure your federal student aid is available to you on the first day of each semester, you must have completed all requirements by the following deadlines.

- Fall Semester: August 1st
- Spring Semester: December 1st
- Summer Semester: April 1st

If you fail to meet these dates, you may still be eligible to receive federal student aid for the semester, it will just not be available to you by the first day of class. However, you must have a valid FAFSA and must meet all eligibility requirements by the last day of the semester for which you are enrolled and requesting aid.

Financial Aid Offers

When you complete the FAFSA, you are applying for Federal Pell Grant, Student Loans, Supplemental Educational Opportunity Grant, and Federal Work Study.

Financial Aid policies can be found at www.uvu.edu/financialaid.

Consumer information can be found at www.uvu.edu/compliance/heastudentconsumer.html

  - Fax: 801-863-8448
General Education

General Education Information

Whereas a major provides students with specialized knowledge, General Education ensures that students have the breadth of knowledge that characterizes well-rounded and well-informed citizens. General Education provides the skills of analysis, problem-solving, creative thinking, and critical thinking that prepare students for an unknown and ever-changing future.

Completion of the UVU General Education requirements will fulfill the General Education requirements at all colleges and universities within the Utah System of Higher Education. However, certain majors, both at this institution and other Utah institutions, may require specific General Education courses. While UVU has not articulated these courses with higher education institutions outside the State of Utah, they will generally articulate to other regionally accredited colleges and universities in the United States. It is the responsibility of students to complete the appropriate General Education courses required by their departments regardless of the generalized list printed in this catalog.

Note: Students taking General Education courses without having declared a specific major are advised in the Academic Counseling Center, LC 402, telephone 801-863-8425. Students who have declared a specific major that is taught at UVU will be directed to the appropriate academic advisor upon completion of new student orientation and assessment activities.

Department Articulation Agreements

In addition to General Education courses, many departments have articulated specific courses that transfer to help fulfill baccalaureate degree requirements. Information concerning these courses may be obtained from UVU department advisors or the Admissions-Transfer Services Office, BA 114.

General Education Code System

General Education course designator codes (Attributes) aid students and transfer institutions to identify how General Education courses meet graduation requirements.

The following list identifies General Education core and distribution courses as they apply to the Associate in Arts/Science Degrees and Bachelor of Arts/Science Degrees, and can be used to search the registration menu:

AS - American Institutions
BB - Biology
CC - English Composition
FF - Fine Arts
HH - Humanities
LH - Foreign Language
PP - Physical Science
SS - Social Science
QL – Quantitative Literacy
XF - Must be taken with another course to equal FF (see department)

General Education Requirements

Interstate Passport

The Interstate Passport enables successful transfer of a block of lower-level general education learning to other institutions participating in the Interstate Passport Network. Students who complete their Passport at Utah Valley University will not be required to repeat or take additional course work to meet lower-division general education requirements in the Passport’s nine areas when they transfer to any other Passport institution. Utah Valley University will begin transcripting the Interstate Passport following the Fall 2016 semester. Students with an interest in achieving the Passport should see our website at http://www.uvu.edu/transfer/passport.html and contact their Advisor.

Associate in Arts/Science Degrees and Bachelor of Arts/Science Degrees
### Introduction

These requirements satisfy the General Education requirements for both the Associate in Arts and the Associate in Science Degrees, as well as the Bachelor of Arts and the Bachelor of Science Degrees at UVU, taking into account adjustments that may be required by academic departments to fulfill their specific needs. Honors courses with the same prefix and number also satisfy distribution requirements. Total core and distribution is 35 credits.

### Core Requirements

**These courses provide basic skills in logic, math, written and oral communications, health, and fitness.**

**Complete the following for 6 credits:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 2010/201H</td>
<td>Intermediate Writing Academic Writing and Research</td>
</tr>
<tr>
<td>or</td>
<td>ENGL 1010/101H Introduction to Academic Writing</td>
</tr>
<tr>
<td>or</td>
<td>ENGH 1005 Literacies and Composition Across Contexts</td>
</tr>
</tbody>
</table>

**Complete one of the following for either 3 or 4 credits:**

Students should enroll in Mat 1030/MAT 1035 unless STAT 1040/STAT 1045 is recommended for their major or they are planning to enroll in courses requiring MATH 1050 as a prerequisite.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 1030 Quantitative Reasoning/MAT 1035 Quantitative Reasoning with Integrated Algebra</td>
<td></td>
</tr>
<tr>
<td>or</td>
<td>STAT 1040 Introduction to Statistics/STAT 1045 Introduction to Statistics with Algebra</td>
</tr>
<tr>
<td>or</td>
<td>MATH 1050 College Algebra/MATH 1055 College Algebra with Preliminaries</td>
</tr>
<tr>
<td>or</td>
<td>MATH 1090 College Algebra for Business</td>
</tr>
<tr>
<td>or</td>
<td>One MATH course that requires MATH 1050 as a prerequisite (excluding MATH 1060)</td>
</tr>
<tr>
<td>or</td>
<td>QL 1900 – awarded based on achievement of the following test scores:</td>
</tr>
<tr>
<td></td>
<td>AP Calculus AB: 3 or higher</td>
</tr>
<tr>
<td></td>
<td>AP Calculus BC: 3 or higher</td>
</tr>
<tr>
<td></td>
<td>AP Statistics: 3 or higher</td>
</tr>
<tr>
<td></td>
<td>IB HL Math: 5 or higher</td>
</tr>
<tr>
<td></td>
<td>CLEP Pre-Calculus: 50 or higher</td>
</tr>
<tr>
<td></td>
<td>CLEP Calculus: 50 or higher</td>
</tr>
<tr>
<td></td>
<td>ACT Mathematics: 26 or higher</td>
</tr>
<tr>
<td></td>
<td>SAT Mathematics: 660 or higher</td>
</tr>
</tbody>
</table>

QL 1900 satisfies the General Education math requirement; however, certain majors may require MAT 1030/1035, STAT 1040/1045, or MATH 1050 to be taken as a prerequisite for a higher level Math course.

**Complete the following for 5 credits:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHIL 2050/205G/205H Ethics and Values</td>
<td></td>
</tr>
<tr>
<td>or</td>
<td>HLTH 1100 Personal Health and Wellness</td>
</tr>
<tr>
<td>or</td>
<td>PES 1097 Fitness for Life</td>
</tr>
</tbody>
</table>

### American Institutions

**Complete one of the following for 3 credits:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHIL 2050/205G/205H Ethics and Values</td>
<td></td>
</tr>
<tr>
<td>or</td>
<td>ALTH 1100 Personal Health and Wellness</td>
</tr>
<tr>
<td>or</td>
<td>PES 1097 Fitness for Life</td>
</tr>
</tbody>
</table>

**Additional Guidelines for Completion of the Associate in Arts/Science Degrees**

The Associate in Arts and the Associate in Science Degrees are designed to complete General Education requirements and could complete lower division pre-majors for baccalaureate degrees at UVU or other colleges or universities.

The General Education courses shown above constitute the majority of the credits required for these degrees. In addition to the General Education requirements, these degrees require 25 additional credit hours.

Associate in Arts Degrees require 8 hours of these 25 hours to be from the same recognized foreign language.

See your specific academic department for further information on appropriate course work to complete a pre-major or the remaining 25 hours. The Academic Counseling Center (LC 402) has some specific outlines available to transfer to other institutions.

**Associate in Applied Science Degrees**

This is a general outline. Refer to the department or Graduation Office for specific requirements. A total of 16 credit hours is required. Students must have a minimum of three credits in each area, except "F" (Physical Ed/Health/Safety/Environment).

**A. ENGLISH** complete for 3 credits:

ENGL 1010/101H Introduction to Writing

or

MKTG 2200 Business Communication

**B. MATHEMATICS** complete for 3 credits:

MAT 1000 Integrated Beginning and Intermediate Algebra

or

MAT 1010 Intermediate Algebra

or

Any Higher Mathematics course

or

Any approved Departmental Mathematics Course

**C. HUMANITIES/FINE ARTS/FOREIGN LANGUAGE** complete for 3 credits:

PHIL 2050/205G/205H Ethics and Values (Highly recommended)

or

Any approved Humanities, Fine Arts, or Foreign Language Distribution Course

**D. SOCIAL AND BEHAVIORAL SCIENCE** complete for 3 credits:

MGMT 3000 Organizational Behavior

or

Any approved Behavioral Science, Social or Political Science Distribution Course

**E. BIOLOGY OR PHYSICAL SCIENCE** complete for 3 credits:

Any approved Biology or Physical Science Distribution Course

**F. PHYSICAL ED/HEALTH/SAFETY OR ENVIRONMENT** complete for 1 credit

Any approved Physical Education, Health, Safety or Environment Course

**Transfer Information**

For students transferring to four-year Institutions, Colleges, and Universities in the Utah System of Higher Education.

UVU courses numbered 1000 or above will transfer within the Utah System of Higher Education. However, the application of these courses toward graduation is determined by academic departments of receiving institutions.
Introduction

For students transferring to colleges and universities in the Utah System of Higher Education before earning an Associate in Arts or an Associate in Science Degree, or a Bachelor of Arts or a Bachelor of Science Degree, a certified letter verifying completion of the UVU General Education requirements may be requested from the Graduation Office. This letter will cause the gaining institution (run by the State of Utah) to accept the completion of UVU General Education requirements as fulfilling all of the General Education/Liberal Education requirements of the gaining institution.

Note: Completion of an Associate in Arts/Science Degree waives only General Education requirements. It does not waive the necessary hours to graduate. A student transferring to another institution should check with that institution to see how their credits have been accepted toward their degree.

Private, Parochial, or Out-of-State Colleges & Universities

Since these schools are not bound by Utah State Regent's policies, colleges/universities outside the Utah System of Higher Education may have specific requirements and may not accept all courses available at UVU. Students should contact the institution they are transferring to in order to determine how their credits will be accepted.

Brigham Young University

Brigham Young University accepts the Associate in Arts/Science Degrees for completion of its General Education requirements. Courses with grades of “D+” or lower will not transfer. Some departments at BYU have specific General Education course requirements that will still need to be taken at BYU. Individual departments at BYU should be consulted for exceptions.

Note: BYU has a limit on the number of transfer students admitted.

General Information

Utah Valley University does not discriminate on the basis of race, color, religion, national origin, sex, sexual orientation, gender identity, gender expression, age (40 and over), disability, veteran status, pregnancy, childbirth, or pregnancy-related conditions, citizenship, genetic information, or other basis protected by applicable law, including Title IX and 34 C.F.R. Part 106, in employment, treatment, admission, access to educational programs and activities, or other University benefits or services. Inquiries about nondiscrimination at UVU may be directed to the U.S. Department of Education’s Office for Civil Rights or UVU’s Title IX Coordinator / Director of Equal Opportunity at 801-863-7999 – TitleIX@uvu.edu – 800 W University Pkwy, Orem, 84058, Suite BA 203.

Mission

Utah Valley University is an integrated university and community college that educates every student for success in work and life through excellence in engaged teaching, services, and scholarship.

Our Values

UVU’s culture supports our mission of student success. Student success encompasses both terminal degrees and the holistic education of students, and we believe that we can fulfill this mission best in an environment that allows all individuals to thrive personally and professionally. To this end, UVU, operates in accordance with three core values: exceptional care, exceptional accountability, and exceptional results.

Exceptional Care

We invite people to “come as you are” and let them know that “UVU has a place for you.” Care means that we strive always to “see” the person in front of us — their strengths and weaknesses, struggles and triumphs, past and potential, and inherent dignity and worth. This does not mean that we set low expectations or make excuses for poor efforts. Instead, our commitment to exceptional care means that we set the bar high and provide challenging, honest conversations and feedback because we are deeply invested in seeing every member of our community succeed.

Exceptional Accountability

We are strongly committed to working ethically and effectively. We approach each situation from a position of integrity, knowing that everything we do can help or hinder a positive student experience. We honor the resources and mandates we have been entrusted with and strive always to do our best to honor that trust. We respect each member of our community, seek to understand and fulfill our responsibilities, and recognize both individual and collective successes.

Exceptional Results

We are committed to creating opportunity systematically for as many people as possible. Our engaged curricula, programs, and partnerships address the intellectual and practical needs of our service area and the larger community. We seek to prepare our students to thrive in a rapidly changing economy and an interdependent, complex world. We aspire to greatness in all that we do, while also measuring progress against rigorous metrics that show our students are becoming competent and ethical professionals, lifelong learners, and engaged citizens.

Action Commitments and Objectives
Include: Through open admission and other practices, UVU provides accessible and equitable educational opportunities for every student who wants to receive a rewarding postsecondary education.

- Objective 1: UVU integrates educational opportunities appropriate to both community colleges and universities.
- Objective 2: UVU provides accessible, equitable, and culturally diverse learning experiences and resources for students of all backgrounds, including those historically underrepresented in higher education.
- Objective 3: UVU fosters an inviting, safe, and supportive environment in which students, faculty, and staff can succeed.

Engage: UVU delivers rigorous, meaningful, and experiential learning opportunities driven by a shared responsibility for student success.

- Objective 1: UVU faculty, staff, and students practice excellent, engaged teaching and learning activities as a community of scholars, creators, and practitioners.
- Objective 2: UVU develops relationships and outreach opportunities with students, alumni, and community stakeholders.
- Objective 3: UVU employees demonstrate a commitment to student success, professionalism, ethics, and accountability.

Achieve: UVU champions a university experience that helps students realize their educational, professional, and personal aspirations.

- Objective 1: UVU supports students in completing their educational goals.
- Objective 2: UVU students master the learning outcomes of the university and their programs.
- Objective 3: UVU prepares students for success in their subsequent learning, professional, and civic pursuits.

Essential Learning Outcomes

Integrative and Applied Learning: A student will engage in discipline-appropriate experiences with the academic and broader community through integrated and applied learning.

Intellectual and Practical Skills Foundation: A student will acquire a foundation of intellectual and practical skills including communication, quantitative reasoning, qualitative reasoning (critical, analytical, and creative thinking), and technical and information literacies.

People of Integrity: A student will become personally and socially responsible by acquiring, developing and demonstrating skills in ethical reasoning and understanding.

Professional Competency: A student will demonstrate professional competence by meeting the established standards of the discipline, working as a valued member of a team, effectively formulating and solving problems, and actively seeking and honing lifelong learning skills.

Stewards of Place: A student will demonstrate stewardship of local, national, and global communities by cultivating awareness of: interdependence among those communities; issues within those communities; and organizations and skills that address such issues.

Knowledge Foundation: A student will demonstrate knowledge of human cultures and the physical and natural world in the following areas of essential study: arts, history, humanities, languages, science and mathematics, social sciences. Knowledge Foundation refers to GE Distribution courses and other courses and experiences within the major.

Roles

As a regional state university, Utah Valley University:

Provides quality academic learning opportunities for students through programs at the certificate, associate, baccalaureate, and graduate levels. To encourage responsible citizenship, emphasis is placed on engaged teaching and learning as well as scholarly work, research, creative achievements, career and technical education and community and professional engagement.

Provides access to higher education and offers a broad range of opportunities from developmental education through honors programs. The institution provides services designed to meet the educational and personal needs of students, to foster student success, to prepare students for meaningful lifework, and to provide access through a variety of modalities, including satellite campuses and the use of technology.

Promotes economic and cultural development to contribute to the quality of life of the region and state. The institution fosters economic development and provides a talent-force to meet the needs of a dynamic economy by offering credit and non-credit programs and services for individuals and organizations. UVU provides cultural experiences that enrich the community and offer significant and varied opportunities for continuous learning.

Historical Development

Utah Valley University was established as Central Utah Vocational School in September 1941 with the primary function of providing war production training.

Post-war training needs found the school offering programs throughout the region and at the Utah County Fairgrounds. The three school districts within Utah County combined efforts to purchase a thirteen-acre site close to Provo High School.

In 1963, the name was changed to Utah Trade Technical Institute to emphasize its growing role in technical training. The name change to Utah Technical College at Provo in 1967 was accompanied by the authority to award the Associate in Applied Science Degree. The Associate in Science Degree was added in 1972.

The initial 185-acre Orem Campus was dedicated in 1977. In 1987, the name was changed to Utah Valley Community College and the Associate in Arts degree was added by the Utah State Board of Regents.

In 1993, the name was changed to Utah Valley State College reflecting the change in mission to offer high demand baccalaureate degrees.

The Utah State Legislature approved, in February 2007, a name change to Utah Valley University that became effective July 1, 2008. The Utah State Board of Regents approved the corresponding mission change in December 2007 to give authority to offer master level degrees; this also became effective July 1, 2008.
Introduction

**Accreditation**

Utah Valley University is accredited by the Northwest Commission on Colleges and Universities.

Accreditation of an institution of higher education by the Northwest Commission on Colleges and Universities indicates that it meets or exceeds criteria for the assessment of institutional quality evaluated through a peer review process. An accredited college or university is one which has available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future. Institutional integrity is also addressed through accreditation.

Accreditation by the Northwest Commission on Colleges and Universities is not partial but applies to the institution as a whole. As such, it is not a guarantee of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance about the quality of opportunities available to students who attend the institution.

Inquiries regarding an institution’s accredited status by the Northwest Commission on Colleges and Universities should be directed to the administrative staff of the institution. Individuals may also contact:

- **Northwest Commission on Colleges and Universities**
  - 8060 165th Avenue N.E., Suite 100
  - Redmond, WA 98052
  - (425)-558-4224
  - www.nwccu.org

The Northwest Commission on Colleges and Universities (NWCCU) is an independent, non-profit membership organization recognized by the U.S. Department of Education as the regional authority on educational quality and institutional effectiveness of higher education institutions in the seven-state Northwest region of Alaska, Idaho, Montana, Nevada, Oregon, Utah, and Washington.

In addition, some programs or majors have other specialized accreditation.

- **Specialized Accreditation, Certification, and Approvals**
  - Web: [www.uvu.edu/accreditation/specialized.html](http://www.uvu.edu/accreditation/specialized.html)
  - 

Gainful Employment information is provided in compliance with the U.S. Department of Education’s disclosure requirements for programs eligible for Title IV financial aid that prepare students for gainful employment in a recognized occupation as required in 34 CFR 668.6(b). All programs list the following information: CIP Code, Level of Program, Program Length, Tuition and required fees, Estimated costs for books and supplies, Debt at program completion, Program completion in Normal Time, Job Placement, and Related Occupations. Gainful Employment Program Disclosure is listed on all marketing materials for potential students.

**Graduation**

- **Graduation Office**
  - Office: BA 113
  - Telephone: 801-863-8438

Utah Valley University offers the following degrees: Master of Accountancy (MAcc), Master of Business Administration (MBA), Master of Computer Science (MCS), Master of Education (M.Ed.), Master of Science in Nursing (MSN), Master of Public Service (MPS), Master of Science in Cybersecurity (MS), Master of Social Work (MSW), Baccalaureate degrees, Associate in Applied Science (AAS), Associate in Arts (AA), Associate in Pre-Engineering (APE), Associate in Science (AS), Associate in Science in Business (ASB), Associate in Science in Nursing (ASN); Diplomas, and Certificates are also offered.

**General Graduation Requirements**

Students are expected to familiarize themselves with the rules and regulations of both the University and their specific majors. Detailed information concerning graduation requirements is available in this catalog as part of department descriptions. Responsibility for satisfying all graduation requirements rests upon the student. UVU reserves the right to change graduation requirements at any time.

The University confers degrees, diplomas, or certificates upon students who meet both the General Education requirements of the University and the specific requirements of one of the academic departments.

**Credit Requirement**

Degree Requirements

The Global/Intercultural requirement is a graduation requirement at the baccalaureate degree level. Courses that may be used to complete this requirement will be coded with a GI course attribute. The purpose of the Global/Intercultural requirement is to assist students to become better prepared to understand and participate in the global and cultural interdependencies that characterize our world. Students who take courses at another university and want to use them for the Global/Intercultural requirement must petition through the GI committee. See the Registrar’s Office (BA 113) for further information. For a complete listing of the courses offered at UVU that fulfill this requirement, see the Course Descriptions section in the back of this catalog for course numbers ending in “G”.

Grade Point Average Requirement

A minimum cumulative grade point average (GPA) of 2.0 (C) is required for graduation. In some programs specific course grades below 2.0 will not be accepted for graduation and some programs require a higher cumulative grade point average (see individual program requirements).

Graduation Catalog Requirement

Candidates for graduation will be held to the requirements of the catalog under which they were admitted. Students have a maximum of 7 years to complete bachelor degrees and 5 years to complete associate degrees; 6 years are allowed for master degrees. In the case of bachelor degree programs, the seven year limit begins when a student is formally matriculated into the program. When students take longer than the given years to complete, they must have attended UVU Fall, Spring, or Summer semester during a Catalog Year to use those degree requirements towards graduation.

Programs that are no longer being offered may not be pursued by students who were not admitted or formally matriculated in that program during the accepted period of time. Students may not combine portions of different catalogs to fulfill graduation requirements. Once a catalog is selected, students must abide by all the graduation requirements specified within that catalog. Minors can only be sought if offered during that catalog year. Please see the Graduate Studies section of the catalog regarding catalog year requirements for master degree programs.

Global/Intercultural Requirement

The Global/Intercultural requirement is a graduation requirement at the baccalaureate degree level. Courses that may be used to complete this requirement will be coded with a GI course attribute. The purpose of the Global/Intercultural requirement is to assist students to become better prepared to understand and participate in the global and cultural interdependencies that characterize our world. Students who take courses at another university and want to use them for the Global/Intercultural requirement must petition through the GI committee. See the Registrar’s Office (BA 113) for further information. For a complete listing of the courses offered at UVU that fulfill this requirement, see the Course Descriptions section in the back of this catalog for course numbers ending in “G”.

Residence Requirement

Credit hours in residency (UVU credits) at a UVU campus, satellite, or branch campus, or through distance education or concurrent enrollment, are required for all certificates, diplomas, and degrees. Minimum hours are as follows:

1. Certificates of proficiency require 25% of total credit hours (rounded up);
2. Certificates of completion require 10 credit hours;
3. Associate degrees and diplomas require 20 credit hours;
4. Baccalaureate degrees require 30 credit hours (10 credits of those 30 shall have been completed within the last 45 credit hours earned for the degree).

Multiple Degrees

Students may earn multiple certificates. Students may earn only one academic associate degree from Utah Valley University; either an Associate in Science or an Associate in Arts. With some exceptions, students may earn multiple Associate in Applied Science (AAS) degrees, specialized associate degrees, and baccalaureate degrees.

A second bachelor’s degree may be awarded when all requirements for both degrees are satisfied, along with the following:

1. All UVU General Education requirements are satisfied;
2. Thirty semester hours beyond the original degree are completed;
3. Twenty semester hours of the 30 hours in item 2 above must be completed at UVU (resident hours);

Dual Baccalaureate Majors (One Degree– with Two majors)

A baccalaureate degree with dual majors may be awarded when students complete all requirements for two approved degrees from the approved dual majors list, but has not met the required 30 semester hours for a second degree beyond the original degree. The student shall receive a single baccalaureate degree; the diploma and transcript shall list both majors.

Other information regarding the dual major:

1. Students apply for graduation for one degree, and only one degree type, such as a Bachelor of Arts, or a Bachelor of Science;
2. In order to be awarded a dual major, both majors must be completed during the semester when (or prior to) applying for graduation;
3. If Students have already graduated in one of the majors, they may not apply for a dual major;
4. After being awarded a dual major degree, students may not apply for graduation for one of the dual majors separately;
5. Students shall have no more than three course substitutions from the required courses for the two majors combined;
6. Students may not receive minors in either major, but may be awarded a minor from another area if all requirements are met;
7. Credits shall not exceed the 160 credit hour limit with the two combined majors.

Degree Requirements
Introduction

Master Degrees

Please see the Graduate Studies section of the catalog regarding degree requirements.

Bachelor of Arts/Science Degrees

Graduation requirements for the Bachelor of Arts/Science Degrees are:

- Completion of a minimum of 120 semester credits, or more if specified by program requirements;
- Overall grade point average of 2.0 (C) or above. Departments may require a higher GPA;
- Residency hours - minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours;
- At least 40 credit hours in upper division courses;
- Completion of General Education requirements. See General Education section above for specific courses required for graduation;
- Completion of specific departmental (major) requirements;
- Completion of Global/Intercultural Requirement course.

For a Bachelor of Arts Degree in programs offering the degree, students must complete 16 credit hours of course work from one language to include the 1010, 1020, 2010 and 202G levels, or transferred equivalents. Some ESL course work may be used to fulfill this requirement. See the ESL department for specific details.

Note: Academic departments may require specific General Education courses in addition to major requirements.

Multiple Emphases

Students may earn additional emphases, with departmental approval under a specific bachelor's degree by completing the requirements for those emphases. Additional emphases shall appear on transcripts, but no additional diplomas will be awarded.

Associate in Arts/Science Degrees*

Graduation requirements for the Associate in Arts/Science Degrees are:

- Completion of a minimum of 60 or more semester credits;
- Overall grade point average of 2.0 (C) or above. Departments may require higher GPA;
- Residency hours - minimum of 20 credit hours earned through course attendance at UVU;
- Completion of General Education requirements. See General Education section for specific courses required for graduation;
- Completion of specific department (major) requirements.

Note: Academic departments may require specific General Education courses in addition to major requirements.

*The Associate in Arts Degree differs from the Associate in Science Degree in that a minimum of 8 credits must be earned in the same Foreign Language.

Language Proficiency

A second language is required to obtain the Associate in Arts Degree. This language must be different from the student's native language. Language proficiency may be demonstrated by any one of the following methods:

- Eight credits of the same language taken at UVU or transferred from another college; or
- Application of foreign language challenge credit as described in the Foreign Language Challenge Procedures (available from the Languages Department Chair);
- Language credit does not apply to the General Education Humanities Distribution area (except for any 202G course) but will apply as elective credit in the Associate in Arts/Science Degree and as Humanities credit for the Associate in Applied Science Degree.

Associate in Applied Science Degrees

Graduation requirements for the Associate in Applied Science Degrees are:

- Completion of a minimum of 63 semester credits;
- Overall grade point average of 2.0 (C) or above;
- Residency hours - minimum of 20 credit hours earned through course attendance at UVU;
- Completion of department General Education requirements;
- Completion of specific department major requirements.

Diplomas

Diplomas require a minimum of 50 credits in a specialty area. Some programs offering Associate in Applied Science Degrees also offer diplomas. Not all departments offer diplomas. See specific department program listings for details.

Certificates of Completion

Certificates of Completion require a minimum of 30 credit hours. Not all departments offer a Certificate of Completion. See specific department program listings for details.

Certificates of Proficiency

Certificates of Proficiency vary in credit hours from 3-29 credit hours. Not all departments offer a Certificate of Proficiency. See Specific department program listings for details.

General Graduation Information
Application for Graduation

Graduation is not automatic. Prospective graduates must complete the online Graduation Application via Wolverine Track in myUVU. Applicants may also be required to fill out additional forms/surveys. The application must be completed by the Application deadline as listed below:

**Application Deadlines**

- Fall semester: First Friday in October
- Spring semester: First Friday in February
- Summer semester: First Friday in June

Graduation applications are processed each semester. Diplomas are mailed to graduates after final grades are reviewed and graduation requirements are verified as completed for all students at the end of the semester. Students failing to complete graduation requirements by the following dates for which they have applied must reapply for graduation.

**REQUIREMENT DEADLINES**

- Fall semester: January 15th
- Spring semester: May 31st
- Summer semester: September 15th

Requirements may include, but are not limited to: all current semester grades, all “I” (Incomplete) and “M” (Missing) grades, grade changes, challenge and experiential credit, AP (Advanced Placement) credits, CLEP (College Level Examination Program) and DSST (DANTES Subject Standardized Tests) credit, transferred credit, required testing and departmental exceptions. All of these items MUST be completed and submitted by the above deadlines. Failure to comply will cause the student to have their graduation declined for that semester. Students will then have to apply for another graduation semester.

Commencement

Commencement exercises are held once each year at the end of spring semester. Students who have completed their graduation requirements during the summer, fall, or spring of that academic year are invited to participate. Attendance is strongly encouraged, but not mandatory.

Financial Holds

Candidates for graduation who owe money to UVU will not receive their diplomas until all debts are paid.

Graduation with Distinction

Honors at graduation are available to students who meet the following minimum cumulative grade point averages: (Honors designations are computed on hours completed; 20 hours minimum for associate degrees; 30 hours minimum for bachelor degrees.) These Distinctions are awarded and based only upon GPA and are not related to participation in the UVU Honors Program.

- **Associate Degrees**
  - Honors GPA 3.60
  - High Honors GPA 3.80

- **Bachelor Degrees**
  - Cum Laude GPA 3.60
  - Magna Cum Laude GPA 3.80
  - Summa Cum Laude GPA 3.90

**Note:** Please contact the Honors Program (LC 204) for information about the UVU Honors Program.

Valedictorians

Each of the Colleges and Schools of the University will select a valedictorian from a list supplied by the Graduation Office of candidates graduating with honors during the academic year. The status of valedictorian is determined by each school and college, based on competitive criteria. Please check your school or college for requirements and details.

Registration

- **Registrar's Office**
  - Office: BA 113
  - Telephone: 801-863-8493

**Registration Procedures**

A schedule of classes is published online every semester in advance of each registration period, indicating courses offered, times, instructors, and room assignments. Registration procedures are available online at www.uvu.edu.

Special Notice to Students
Introduction

It is the responsibility of the student to verify registration accuracy and completeness.

University Advanced Standing Requirement

Before students can register for upper-division coursework (3000 or higher), they must qualify for University Advanced Standing (UAS) by:

- Completing, and/or transferring in, at least 24 credits of college-level coursework (1000 or higher);
- Having a cumulative GPA of 2.0 or higher;
- Complete Quantitative Literacy, (MAT 1030 or higher) and ENGL 2010 or equivalent.

Academic departments may also establish additional advanced standing requirements that must be met before students will be allowed to enroll in upper-division courses within their disciplines.

Change of Registration (Add/Drops)

After initial registration, students may modify their schedules by adding, dropping, withdrawing, or changing to audit. The Registration Dates and Deadlines page (Student Timetable) on the Registration Services web page specifies the time period when changes may be made.

If a class is full and has a Wait List option, students may add themselves to the Wait List. A Wait List is an electronic list of students who want to enroll in a course that has reached maximum capacity (closed). Wait List is first come, first serve according to the date and time the student selects the Wait List option.

Registration on the first day of the semester/term or later is considered late. Online registration will be available through the deadline date noted on the Registration Dates and Deadlines page (Student Timetable).

After the Wait List period ends, students wanting to add a class late will be required to follow the Late Registration procedures which include obtaining the instructor and department approval and paying the corresponding fee for each class added late. Students may not attend classes for which they are not officially enrolled.

Students who add classes must pay appropriate tuition/fees for any additional credit by the published dates in on the Registration Dates and Deadlines page (Student Timetable).

Students may drop and withdraw from classes according to the dates and deadlines posted in on the Registration Dates and Deadlines page (Student Timetable). Classes may be dropped and not appear on the transcript through the “Last Day to Drop” deadline. After the last day to drop, a grade of “W” will appear on the transcript for all official withdrawals and students will be responsible for tuition and fees. Students may not withdraw from a course after this deadline may only be for extenuating circumstances and not solely for academic difficulty, and requires submitting a Withdrawal Exception form with supporting documentation to the Registrar's Office. Such changes to a student’s schedule may adversely affect current and future financial aid, scholarships and/or refunds. Students are cautioned to see a financial aid advisor before attempting to completely withdraw from school. A “W” grade could impact a student’s satisfactory academic progress with the Financial Aid and Scholarships Office.

Administrative Drops and Withdrawals

Students may be dropped or withdrawn from classes by the administration if they: 1. Register; but do not attend courses within the first three days of a semester; 2. Register for courses for which they have not completed prerequisites; 3. Neglect to pay tuition and fees for any given semester/term by the deadline published in on the Registration Dates and Deadlines page (Student Timetable); or 4. Other administrative reasons. Such changes to a student’s schedule could affect financial aid, scholarships, and/or refunds.

Auditing

Students may choose to register for classes on an audit basis (register for classes as a “listener” without receiving credit). Tuition, registration times and add/drop criteria are the same as for regular class registration. For an audit, the student must complete and sign an “audit form” at the Registrar's Office. Audits may only be requested through the audit deadline specified in on the Registration Dates and Deadlines page (Student Timetable). Students may not change from audit to credit status.

Classes appear as “AU” (audit) on the official transcript. Since they are noncredit, they do not count in the credit load for foreign students, veterans, students receiving financial aid, etc.; nor do they fill graduation requirements.

Students may not challenge courses that they have audited. An incomplete grade may not be made up by repeating the class for audit.

Noncredit Continuing Education Unit (CEU)

The Division of Continuing Education offers a variety of courses and programs for life-long learning. Many of these programs are offered under a noncredit option. The Continuing Education Unit (CEU) is a means for measuring and recording noncredit study.

Noncredit or Continuing Education Students are taking courses to pursue personal or professional interest, gain general knowledge, learn a new skill, upgrade existing skills, or enrich their personal understanding of a wide variety of topics. These courses do not offer college credit, but in some cases noncredit or continuing education students can earn continuing education units, certification or other evidence of class completion to meet personal or professional requirements. Noncredit course work cannot be substituted for a credit requirement or any required course on a degree pathway.

Student Code of Conduct

Purpose of this Policy

To advance the educational objectives of Utah Valley University, this Student Code of Conduct (“Student Code”) establishes standards and procedures necessary to maintain a community conducive to UVU’s three core values: exceptional care, exceptional accountability and exceptional results. This Student Code supports the intellectual, personal,
social, and ethical development of all members of the community by promoting the values of civility, integrity, inclusivity, respect, and responsibility. Students at the university are expected to uphold these values through the exercise of their personal freedom and reasoned discourse. This Student Code also establishes the conduct expectations for students of Utah Valley University, outlines students’ rights and due process procedures for addressing alleged student violations of university policies, delineates the range of disciplinary sanctions for violations and establishes procedures for appeal of disciplinary sanctions.

Policy

For a full version of this UVU Policy 541, please visit www.uvu.edu/policies, and click on Policy Manual.

Behavior which violates the Student Code of Conduct should be reported to the office of Student Conduct 801-863-5841 (non-emergency) or Campus Police 801-863-5555 (emergency).

4.1 Scope of this Policy

4.1.1 This policy applies to all students admitted to the University or enrolled in university courses, either full-time or part-time, and to all student conduct that occurs on university campus or at university-sponsored activities. It also applies to off-campus conduct, not otherwise protected by law, that adversely affects the university community and/or fulfillment of the University’s mission, values, and operations. The Dean of Students or designee shall decide whether the Student Code shall be applied to misconduct occurring off-campus on a case-by-case basis. If a student withdraws from the University while a disciplinary matter is pending, the University may continue to apply this Student Code and its processes for resolving that specific disciplinary matter.

4.1.2 The University may respond to allegations of student misconduct at any time even if the alleged misconduct occurs before classes begin, after classes end, during breaks within the semester, or during the break between semesters. The University may also institute its conduct proceedings after a degree is awarded in the event misconduct is subsequently discovered. Where warranted, the University retains the right to revoke an awarded certificate, diploma, or degree.

4.1.3 All academic and behavioral misconduct complaints are subject to the due process procedures for investigation, resolution, and appeals as set forth in this Student Code, with the exception of sexual misconduct and protected class discrimination and harassment, which are exclusively subject to the procedures found in UVU Policy 162 Sexual Misconduct and UVU Policy 165 Discrimination, Harassment, and Affirmative Action.

4.2 Student Responsibilities and Rights

4.2.1 Nothing in this policy shall be interpreted to deny the rights of individuals protected by the U.S. Constitution, including their protected rights to freedom of speech and association, including as set forth in UVU Policy 161 Freedom of Speech.

4.2.2 The University expects all students to engage in responsible conduct, to obey the law, to maintain integrity, and to uphold high standards of individual honesty in all their actions and academic work. The University promotes an environment that values inclusivity and civility, and encourages students to be thoughtful and respectful in their dealings with other members of the campus community.

4.2.3 Students are responsible for knowing the information and procedures in this policy and other university policies applicable to students. The University publishes this Student Code in its catalog, online and in print, and in the University’s Online Policy Manual. The University reserves the right to modify this policy. Alleged policy violations are governed by the policy version in place at the time of the alleged violation. However, Student Code procedures effective at the time of the reporting of the alleged violation will govern the investigation and resolution.

4.2.4 Students shall promptly participate in good faith in informal or formal student conduct investigations related to this policy. If the complainant or respondent fails to participate, the Student Conduct Office may make findings without the response of that party, potentially leading to an unfavorable outcome for that party.

4.2.5 As members of the university community, students have certain rights in addition to their constitutional rights and protections. Students should respect each other’s rights. The University will endeavor to safeguard these rights for all.

4.2.5.1 Academic Evaluation. Students have the right to performance evaluation based on a written syllabus, to accurate information regarding changes in course programs or university requirements and reasonable accommodation of those already enrolled in a program or class(es), to receive academic credit and/or degrees when all specified requirements and coursework have been satisfied, and to make academic appeals including but not limited to grade changes and withdrawals. See UVU Policy 152 Academic Evaluation.

4.2.5.2 Due Process. Students have the right to be protected from unreasonable decision-making by the University and to have access to University policies that affect them. The University is committed to providing students with balanced and fair systems of misconduct resolution. This Student Code is administrative in nature and is not a civil or criminal proceeding. Students are presumed not responsible for misconduct until responsibility is established by a preponderance of the evidence. Students’ non-participation or silence during any process under this policy will not be used against them, but the University’s decisions will nonetheless be made on the available information. The University complies with Utah State Board of Regents’ Policy R256 Student Disciplinary Processes, which sets forth minimum standards of due process for student disciplinary processes related to behavioral (non-academic) misconduct matters that may result in either expulsion or a minimum ten-day suspension.

4.2.5.3 Freedom from discrimination. Students have the right to be treated fairly and with dignity regardless of race, color, national origin, age (40 and over), marital status, sex, sexual orientation, gender identity, gender expression, pregnancy, childbirth, or pregnancy-related conditions, disability, religion, genetic information, height, weight, veteran status, or other bases protected by applicable federal, state, or local law, and as revised in UVU Policy 165 Discrimination, Harassment, and Affirmative Action and UVU Policy 162 Sexual Misconduct.

4.2.5.4 Freedom from sex discrimination and sexual misconduct. Students have the right to be free from sex discrimination in UVU educational programs and activities, including but not limited to educational programs, employment, admissions, and university-sponsored activities, consistent with Title IX of the Educational Amendments of 1972. Sexual misconduct, including sexual harassment, sexual violence, sexual assault, relationship violence, and stalking, are types of sex discrimination prohibited by Title IX and/or UVU Policy 162 Sexual Misconduct. Students also have the right to a prompt and equitable response from the University when the University learns of any form of sex discrimination.
Introduction

4.2.5.5 Freedom of Speech. Students have the right to free exchange of ideas and to artistic expression, the right to free speech, open discussion, inquiry, and academic freedom in the University and on the campus without prior restraint or censorship, subject to limitations on unlawful/unprotected speech and to clearly stated, reasonable, and nondiscriminatory rules regarding time, place, and manner. See UVU Policy 161 Freedom of Speech.

4.2.5.6 Ombuds. Students have the right to access the University’s Ombuds Office for consultation and assistance resolving matters of personal and school issues, including but not limited to concerns and conflicts regarding other students, faculty, university policies and processes, and housing disputes.

4.2.5.7 Privacy, Confidentiality, and Records. Students have the right to be protected from the University’s improper disclosure of a student’s educational record consistent with the Family Educational Rights and Privacy Act of 1974 and UVU Policy 542 Student Records Access. Students also have the right to inspect all records pertaining to themselves, which are not considered by the University to be private records of university personnel. Students are entitled to request corrections or expungement to educational records they consider inaccurate or misleading. Also see UVU Policy 635 Faculty Rights and Professional Responsibilities.

4.2.5.8 Student Government and Student Organizations. Students have the right to form and operate an organized student association or club within the guidelines prescribed by the University. Students also have the right to representation through student government on university committees, councils, commissions, and other formally constituted bodies that make general policy and procedure decisions directly affecting students or that govern student activities and conduct. See UVU Policy 532 Associated Student Organization and Club Membership.

4.3 Standards of Student Conduct

4.3.1 Students are individually responsible for their conduct. In addition, student organizations may be held collectively responsible for the conduct of their student members during student organization activities or while acting on behalf of or at the request of the student organization.

4.3.2 Students shall not engage in academic or behavioral (non-academic) misconduct as described in this section. Categories of prohibited misconduct include but are not limited to the following:

4.3.2.1 Abuse of student conduct process. Abuse or interference with university student conduct processes, including but not limited to falsification, distortion, or misrepresentation of information; failure to provide information or documents, or destruction of information or documents during the student conduct process; attempting to discourage an individual’s honest participation in or use of the student conduct process; verbal or physical abuse and/or intimidation or any other retaliation of a party, witness, or other participant in a student conduct process; failure to comply with the sanction(s) imposed by the student conduct administrator; or influencing or attempting to influence another person to commit an abuse of the student conduct process.

4.3.2.2 Academic misconduct and other acts of dishonesty. All forms of academic misconduct and other acts of dishonesty, including but not limited to cheating, plagiarism, fabrication, and/or possessing or providing to the University any false, falsified, altered, forged, or misleading information, materials, documents, accounts, records, identification, or financial instruments.

4.3.2.3 Alcohol. Use, possession, distribution, being under the influence of alcoholic beverages or paraphernalia on the university campus or at university-sponsored events or activities, and other conduct prohibited by UVU Policy 157 Alcoholic Beverages, Unlawful Drugs, and other Illegal Substances. Alcoholic beverages may not, in any circumstance, be used by, possessed by, or distributed to any person under 21 years of age.

4.3.2.4 Animals. Animals on campus, or other conduct prohibited in UVU Policy 160 Animals on Campus. Service dogs or miniature horses that are trained to perform work or tasks related to a disability are permitted.

4.3.2.5 Damage or destruction. Unauthorized damage to or destruction of university property or the personal property of a member of the university community.

4.3.2.6 Discrimination. Protected class discrimination as defined by UVU Policy 165 Discrimination, Harassment, and Affirmative Action, including but not limited to negative or adverse conduct towards university employees or students in the terms or conditions of employment; university admission or education; access to university programs, services, or activities; or university benefits or services on the basis of inclusion or perceived inclusion (in the case of disability, sexual orientation, gender identity, or gender expression) in one or more of the protected classes that has the effect of denying or limiting participation in university employment or in a university program or activity.

4.3.2.7 Disruptive behavior. Disruption, obstruction, or interference with university operations, teaching, learning, research, administration, other university activities, and/or other authorized non-university activities that occur on the university campus as defined in section 3.2.2.

4.3.2.8 Drugs. Use, possession, distribution, manufacturing, or being under the influence of illegal drugs or other controlled substances or drug paraphernalia, including abuse, misuse, sale, or distribution of prescription or over-the-counter medications, and other conduct prohibited in UVU Policy 157 Alcoholic Beverages, Unlawful Drugs, and other Illegal Substances.

4.3.2.9 Federal, state, or local law or regulation. Violation of federal, state, or local law or regulations that adversely affects the university community and/or the pursuit of its objectives.

4.3.2.10 Fire safety. Violation of local, state, federal, or university fire policies, including but not limited to causing a fire that damages university or personal property or that causes injury to another; improper use of university fire safety equipment; or tampering with or improperly engaging a fire alarm or fire detection/control equipment while on university property.

4.3.2.11 Gambling. Activities that violate state or federal law regarding gambling, including but not limited to risking anything of value for a return or risking anything of value upon the outcome of a contest, game, gaming scheme, or gaming device when the return or outcome is based upon an element of chance; and is in accord with an agreement or understanding that someone will receive something of value in the event of a certain outcome. Gambling includes a lottery and fringe gambling.

4.3.2.12 Harm to person(s). Intentional or reckless physical harm, threats, intimidation, hazing, bullying, cyberbullying, coercion, retaliation, and/or other conduct, including assisting in the foregoing, that threatens or endangers the health or safety of any person. Additionally, participation or cooperation by person(s) being harmed does not excuse the violation.

4.3.2.13 Misuse of computing facilities. Unauthorized use of computing facilities and other conduct prohibited in UVU Policy 441 Appropriate Use of Computing Facilities, including but not limited to attempting to gain access to any system or account without authorization from a system administrator; sharing passwords or accounts; copying or changing system files or software without authorization from a system administrator; using destructive or invasive software; displaying images, sounds, or messages that are
obscene where others may be affected by them; consuming inordinate amounts of system resources; crashing machines or systems deliberately; and using the university computing facilities for disruptive or illegal activities.

4.3.2.14 Other policies. Violation of other written university policies, guidelines, or practices.

4.3.2.15 Retaliation. Reprisals or retaliation as defined in this Student Code and other applicable policies.

4.3.2.16 Sexual misconduct. Sexual misconduct, as defined by UVU Policy 162 Sexual Misconduct, includes but is not limited to acts and attempts of dating and relationship violence; domestic violence; discrimination based on sex, pregnancy, pregnancy-related conditions, sexual orientation, gender identity, or gender expression; hostile environment based on sex, pregnancy, pregnancy-related conditions, sexual orientation, gender identity, or gender expression (including intimidation and hazing/bullying); sexual harassment; sexual assault (including nonconsensual sexual contact or nonconsensual sexual intercourse); sexual exploitation (including engaging in sexual trafficking); and stalking.

4.3.2.17 Theft. Intentional and unauthorized taking of, attempted taking of, or maintaining possession of university property or others' personal or public property, including goods, services, or other valuables.

4.3.2.18 Tobacco. Smoking, vaping, or using electronic cigarettes or tobacco inside campus buildings and within 25 feet of entrances, windows, and air intake vents, or other conduct prohibited in UVU Policy 158 Tobacco.

4.3.2.19 Trademark/copyright violations. Unauthorized use (including misuse) of university or organizational names, logos, images, or other university trademarks or copyrighted materials, or other conduct prohibited by UVU Policy 135 Use of Copyrighted Materials.

4.3.2.20 Unauthorized access. Trespassing, misuse of access devices or privileges to university property, or unauthorized entry to or use of buildings or offices, including unauthorized possession, duplication, or use of any means of access to any university building (i.e., keys, proximity cards, etc.), or propping open or other unauthorized use of alarmed doors for entry into or exit from a university building.

4.3.2.21 Weapons. Unauthorized possession or use of a firearm, ammunition, explosives, dangerous weapons, or dangerous chemicals on university property. UVU students must adhere to Utah law regarding the lawful possession of permitted and concealed firearms on public university campuses.

4.3.2.22 Wheeled devices. Skateboards, roller blades, roller skates, bicycles, hoverboards, and similar wheeled devices are not permitted inside university buildings or on any stairways, structures, landscaped areas, or concourses, or other areas as prohibited by UVU Policy 403 Restrictions on the Use of Skateboards, Roller Blades, Roller Skates, Bicycles, Motorcycles, and Hoverboards.

4.4 Non-University Legal Cases

4.4.1 University student conduct processes may apply to a student charged with conduct that potentially violates both the law and this Student Code (that is, if both possible violations result from the same alleged conduct). Processes under this Student Code may be carried out before, after, or at the same time as civil or criminal cases at the discretion of the Dean of Students or designee or as otherwise required by law. Determinations made or sanctions imposed under this Student Code are not subject to change when civil or criminal charges addressing the same alleged incident or act are dismissed, reduced, or resolved in favor of or against the student.

4.4.2 When a student is charged by federal, state, or local authorities with a violation of law, the University will not request special consideration for that individual because of their status as a student. If the alleged offense is also being processed under the Student Code, the University may advise off-campus authorities of the existence of the Student Code and of how such matters are typically handled within the university community. The University will cooperate with law enforcement and other agencies in the enforcement of criminal law on campus and in the conditions imposed by criminal courts for the rehabilitation of student violators (provided that the conditions do not conflict with campus policies or sanctions).

4.5 Reporting, Investigations, and Disciplinary Proceedings

4.5.1 Reports of any suspected or alleged violation(s) of the Student Code shall be made to the Student Conduct Office.

4.5.2 In responding to reports of alleged violations of the Student Code, the University shall provide prompt, fair, and impartial investigations and disciplinary processes. During these processes, both complainant and respondent shall be provided equitable rights and opportunities, including notice and an opportunity to be heard, as outlined in section 5.0.

4.5.3 The University may sanction any student who violates this Student Code and other applicable university policies, up to and including expulsion from the University.

4.5.4 If a student has been disciplined for serious violations of institutional policies regarding sexual misconduct, sex discrimination, harassment, or other serious misconduct resulting in suspension or expulsion, the University may enter a notation on the student's transcript in accordance with the Family Educational Rights and Privacy Act.

4.5.5 The University prohibits retaliation as defined in this policy. The University shall take steps to prevent retaliation and respond to threats or acts of retaliation, up to and including expulsion from the University. Individuals who deliberately make false or malicious accusations of violation of this Student Code or other applicable university policies may be subject to disciplinary action, up to and including expulsion from the University. However, a no-violation finding does not in itself constitute proof of a false or malicious accusation.

4.6 Interim Measures

4.6.1 The Director of Student Conduct or designee may institute interim measures before the final resolution of an alleged incident of misconduct, including ensuring the safety and well-being of members of the campus community, preservation of university property, or if the student poses an ongoing threat of disruption or interference with the operations of the University. Interim measures may include but are not limited to

4.6.1.1 University issued no-contact directive(s);

4.6.1.2 Providing an escort;

4.6.1.3 Making reasonable adjustments to exams, assignments, and/or providing alternative course completions options in collaboration with faculty;

4.6.1.4 Making adjustment to class schedules, including the ability to transfer course sections or withdraw from a student course without penalty;
Introduction

4.6.1.5 Making adjustments to living, transportation, and working situations;

4.6.1.6 Limiting a student's or organization's access to certain university facilities or activities pending resolution of the matter;

4.6.1.7 Interim suspension, which may include denial of access to campus (including classes) and/or all other activities or privileges for which the student might otherwise be eligible, as the Dean of Students or designee may determine to be appropriate.

4.6.1.8 Any measure deemed necessary and appropriate by the student conduct administrator in compliance with this policy.

4.6.2 Interim measures do not replace the student conduct process, which will still proceed in a timely manner.

4.7 Sanctions

4.7.1 The University may sanction any student who violates this policy, up to and including expulsion from the University. Sanctions are intended to educate students on the effects of their behavior and invoke change in future decision making. Sanctions shall be applied in a fair manner and be assigned in accordance with two criteria: (1) educational value for the student found in violation of this policy; and (2) the sanction being commensurate and consistent with the type of violation and any prior misconduct. Except in urgent circumstances where there is significant threat of harm, disruption, or of undermining the integrity of the educational environment, the student conduct administrator shall not impose irreversible sanctions (i.e., denying access to class, final exams, or other student programs).

4.7.2 One or more of the following sanctions may be imposed upon students for violation(s) of the Student Code or other university policies.

4.7.2.1 Academic sanctions. Sanction of academic nature including but are not limited to failing grades, reduced grades, and/or redoing academic exercises.

4.7.2.2 Disciplinary no-contact directive. Specified parameters restricting communicative contact and/or physical proximity with a university community member or campus entity.

4.7.2.3 Discretionary sanctions. Educational meetings or interventions, behavior agreements, work assignments, essays, service to the University, or other related alternative, educational and/or restorative remedies.

4.7.2.4 Expulsion. Permanent separation of the student from the University.

4.7.2.5 Fines. Fines may be imposed as published on the Student Conduct Office website.

4.7.2.6 Group sanctions. Sanctions imposed upon student organizations found to have violated the Student Code as listed above, including loss of all privileges or status.

4.7.2.7 Loss of Privileges. Denial of specified privileges for which the student might otherwise be eligible for a designated period of time.

4.7.2.8 Probation. A written reprimand for violation of specified standards. Probation is for a designated period of time and includes the probability of more severe disciplinary sanctions if the student is found to violate any university standard(s) during the probationary period. Probation may also include specific conditions that the student must meet.

4.7.2.9 Restitution. Compensation for loss, damage, or injury. This may take the form of appropriate service and/or monetary or material replacement.

4.7.2.10 Revocation or withholding of degree. Revocation or withholding award of a degree or certificate otherwise earned.

4.7.2.11 Suspension. Separation of the student from the University for a definite period of time, after which the student is eligible to return. Conditions for readmission will typically be specified at the time of the suspension.

4.7.2.12 University-sponsored housing sanctions. Removal, probation, or reassignment.

4.7.2.13 Warning. A written notice to the student that the student is violating or has violated university standards of student conduct as laid out in this policy and that the misconduct must not be repeated.

Policy

5.1 Reporting

5.1.1 While all members of the university community are encouraged to report any suspected violation(s) of the Student Code to the Student Conduct Office, university employees are required to report any suspected student violation(s) of the Student Code to the Student Conduct Office within 24 hours of learning of the alleged violation. The Student Conduct Office will then forward the report to the appropriate student conduct administrator as outlined in section 5.8.1.

5.1.2 While all members of the university community are encouraged to report any suspected violations of UVU Policy 162 Sexual Misconduct or Policy 165 Discrimination, Harassment, and Affirmative Action, university employees (except licensed counselors and health providers, as provided in Policy 162) are required to report any suspected violations of Policy 162 to the Office of Equal Opportunity and Affirmative Action/Title IX within 24 hours of learning of the alleged violation. Any reports of such violations that may be received by the Student Conduct Office will be immediately reported to the Office of Equal Opportunity and Affirmative Action/Title IX.

5.1.3 Individuals may submit reports of alleged violations of the Student Code or other university policies through several methods listed on the Student Conduct website at https://www.uvu.edu/studentconduct/report, including options for reporting anonymously.

5.1.4 Reports made through tip/crisis reporting methods designated on the student conduct website will be forwarded to the UVU Police, Associate Dean of Students, Director of Crisis Services, and other individuals as needed for an effective response. Each report will be individually assessed to determine the nature, severity, and likelihood of harm to members of the university community and the appropriate response.

5.2 Amnesty

5.2.1 The University encourages all community members to proactively assist others whose health or safety are at risk. The University will not pursue student conduct process against a reporting student, a complainant, a respondent, or witness for personal involvement in minor policy violations, including but not limited to the use of alcohol, marijuana or
other drugs, at or near the time of the incident as long as the reporting student’s behavior did not place the health or safety of any other person at risk. The University may, however, initiate an educational discussion with any student regarding their personal involvement in minor policy violations.

5.2.2 If the same person or student organization repeatedly requests amnesty for substantially similar minor policy violations, the student conduct administrator may deny amnesty to that person or student organization.

5.3 Safe Harbor

5.3.1 Students who have a drug or alcohol addiction may be granted safe harbor from discipline. If a student self-reports their own addiction to the appropriate university officials before the threat of drug testing and/or discipline, the University may decide not to initiate a conduct complaint. A written action plan by the student may be used to track cooperation with the safe harbor program. Failure to follow the action plan may nullify the safe harbor protection and the University may initiate student disciplinary processes.

5.4 Collective Violations by Student Organizations

5.4.1 When violations of this Student Code occur at events sponsored or co-sponsored by a student organization, its officers and membership may be held collectively and/or individually responsible when:

5.4.1.1 The student organization’s leader(s) or officer(s) gave consent to, or encouraged, the behavior; or

5.4.1.2 The student organization’s leader(s) or officer(s) knew or should have reasonably known about the behavior.

5.4.2 Hearings for student organizations follow the same student conduct process as for individuals. In any such action, determinations as to violations and sanctions may be made collectively to the student organization and/or individually and will be proportionate to the involvement of each individual and the student organization.

5.5 Confidentiality and Recordkeeping

5.5.1 University personnel involved in student conduct processes shall maintain confidentiality to the extent allowed by the Utah Government Records and Management Act (GRAMA), the federal Family Educational Rights and Privacy Act (FERPA), the federal Health Information Portability and Accountability Act (HIPAA), and other applicable laws governing record protection and/or mandatory reporting.

5.5.2 The Student Conduct Office strives to maintain confidentiality throughout the investigation and appeals hearing process.

5.5.3 The Student Conduct Office is responsible for maintaining appropriate records directly related to alleged violations, investigations, findings, sanctions, etc. as described in section 5.15. If complaints are found to be without merit, records of the complaint and processes will not be entered onto a student’s disciplinary record, but the Student Conduct Office will keep record of the case in its internal databases.

5.5.4 Complainants, respondents, witnesses, and any other participants in the conduct process are prohibited from recording interviews, hearings, and other meetings before, during, and after the disciplinary process.

5.6 Support Persons and Advisors

5.6.1 As required by Utah State Board of Regents’ Policy R256 Student Disciplinary Processes, in matters of behavioral (non-academic) misconduct where the University believes in good faith, based on facts known by the University at the time or when additional facts are discovered later, that the student conduct matter may result in expulsion or a minimum ten-day suspension, the additional protections provided in this section apply. Students may waive any rights described in this section. This section does not apply to UVU Police Department law enforcement activities.

5.6.1.1 Before interviewing the student, the investigator or representative of the Student Conduct Office shall notify the student in writing of the allegations (including the time and place of the alleged misconduct, where available) made against the student and of the student’s right to have a support person or advisor throughout the process who may be, but need not be, an attorney. This notice will be given at least 24 hours before a student is interviewed about the student conduct matter. If a student wishes to seek counsel from a support person or advisor, the University shall reschedule the interview, giving the student reasonable time to obtain a support person/advisor.

5.6.1.2 In meetings and interviews under section 5.12 and section 5.13 of this policy on behavioral (non-academic) misconduct matters, student complainants and respondents may be accompanied by a support person/advisor of the student’s choice, who may be an attorney. During such meetings or interviews, the support person or advisor may only advise the student and may not actively participate in the investigation or process.

5.6.2 During any appeals hearing undersection 5.14 of this policy, student complainants and respondents may each have a support person/advisor of their choice, who may be an attorney, advocate for them.

5.6.3 A support person/advisor may not be an employee of the University who would have a conflict of interest in serving in the support person/advisor role. Support persons/advisors must be willing to agree maintain the confidentiality of student conduct investigation and appeals hearing processes.

5.6.4 The University may proceed with the investigation and hearing processes in a timely fashion without the complainant or respondent if that party fails to respond or declines to participate. The University may set reasonable deadlines and move forward with processes regardless of whether a party and/or a party’s support person/advisor is able to accommodate those deadlines.

5.7 Preliminary Review

5.7.1 After receiving a report of an alleged violation of the Student Code or other applicable university policies, the student conduct administrator shall promptly conduct a preliminary review to determine if interim measures are needed, if a violation of the Student Code is alleged, and if an investigation is necessary to resolve a genuine dispute of material facts.

5.7.2 If the student conduct administrator determines that no violation of the Student Code has been alleged and/or there’s no genuine dispute of material facts, the administrator shall issue a written notice of this decision to the respondent, complainant (if required by law), and the Student Conduct Office.

5.7.3 A preliminary review dismissal shall be final with no additional internal appeals available to the parties.
5.10.3.1.4 If the student conduct administrator determines that a violation of the Student Code or other policy has been alleged and that an investigation is necessary to resolve a genuine dispute of material facts, then the Administrator may proceed with an investigation of the alleged violation.

5.10.3.1.5 The student conduct administrator shall report the complaint to the Director of Student Conduct or designee.

5.10.3.1.6 At the recommendation of the student conduct administrator, the Director of Student Conduct or designee may apply an interim measure to a student or student organization or invoke other safety measures, as provided in section 4.6, pending the outcome of the investigation and subsequent proceedings.

5.10.3.1.1 The Dean of Students or designee will notify the student in writing of this action, including a brief description of the reason for the interim measure. When required by law, such as in sexual misconduct cases, applicable notices will be provided to both complainants and respondents. A student who receives an interim suspension may request a meeting with the Dean of Students or designee to present information and/or reasoning as to why the interim measure is inappropriate or unnecessary.

5.10.3.1.2 At the discretion of the Dean of Students or designee, and in collaboration with faculty and/or the appropriate academic dean(s), alternative coursework options may be approved to minimize impact on the student during any interim measure.

5.8 Delineation of Authority

5.8.1 For purposes of this policy, the Dean of Students shall delegate authority for the investigation, resolution, decision-making (including appeals), and sanctions based on the type of misconduct as defined in section 3.1 and 3.2 as follows:

<table>
<thead>
<tr>
<th>Type of Misconduct</th>
<th>Student Conduct Administrator</th>
<th>Student Conduct Appeal Decision Maker</th>
</tr>
</thead>
<tbody>
<tr>
<td>Academic</td>
<td>Faculty member of course in which misconduct occurred</td>
<td>Academic dean of college/school or designated chair of department in which misconduct occurred</td>
</tr>
<tr>
<td>Behavioral</td>
<td>Director of Student Conduct or designee</td>
<td>Dean of Students or designee</td>
</tr>
</tbody>
</table>

5.9 Informal Resolution

5.9.1 Informal resolution may include an inquiry into the facts but typically does not include an investigation. Informal resolution is flexible and includes options such as mediating an agreement between the parties, separating the parties, referring the parties to counseling programs, negotiating an agreement for disciplinary action, conducting targeted preventive educational and training programs, or providing remedies for the individual harmed by the offense. Informal resolution also includes options such as discussions with the parties, making recommendations for resolution, and conducting a follow-up review after a period of time to ensure that the resolution has resolved concerns effectively.

5.9.2 Because each alleged violation is different, the student conduct administrator shall tailor each resolution to the specific facts of the case, including determining whether the alleged violation is appropriate for informal resolution. Informal resolution may result in resolutions such as behavior agreements and/or sanctions combined with educational or restorative measures.

5.9.3 Informal resolution is encouraged to resolve concerns at the earliest stage possible with the cooperation of all parties involved. Participation in the informal resolution process is voluntary. Informal resolution may be appropriate for anonymous and/or third-party reports, or when respondents accept responsibility for their violations. Information resolution may be inappropriate when one or both of the parties are reluctant to participate in good faith, or when there are allegations of violent behavior.

5.9.4 Any unsuccessful informal resolution, including but not limited to noncompliance with the informal process, may be referred for student conduct hearing.

5.9.5 After concluding informal resolution, the student conduct administrator shall notify the complainant and respondent in writing of the resolution that was agreed upon.

5.9.6 Participation in informal resolution does not prohibit either party from terminating informal resolution and/or requesting an investigation at any point during the informal resolution process. Where a report is closed after informal resolution, the matter may later be reopened at the discretion of the student conduct administrator when requested by the complainant and/or if the student conduct administrator determines there is good cause to do so.

5.10 Investigation

5.10.1 If the student conduct administrator determines an investigation is necessary, the University shall conduct a reliable and impartial investigation by interviewing relevant witnesses, collecting relevant documentary evidence, and preparing a written summary of findings. The purpose of the investigation is to establish whether there is a reasonable basis, based on a preponderance of the evidence, for concluding that the alleged violation of the Student Code has occurred. The University reserves the right to engage an outside investigator to conduct the investigation if it is determined there is a conflict of interest or other compelling reason to do so.

5.10.2 If a student withdraws from the University before the completion of an investigation and hearing, the University may continue to investigate and apply this process for resolving the specific disciplinary matter in the student's absence. If a respondent is found to have violated university policy, the University may restrict the respondent's readmission on terms or under circumstances it may prescribe at the time of the finding.

5.10.3 Complainants, respondents, and witnesses shall be treated with respect throughout the investigation process, disciplinary process, and other proceedings.

5.10.3.1 Accordingly, the University endeavors through this policy and diligent effort to secure the following for complainants and respondents:

5.10.3.1.1 Reasonably prompt and equitable resolution of allegations for respondents and complainants.

5.10.3.1.2 Freedom from retaliation for making a good faith report or for participating in any investigation or proceeding under this policy.

5.10.3.1.3 Timely and equal access to allegations for respondents and complainants, and the opportunity to respond to information that will be used against them in any disciplinary proceeding.

5.10.3.1.4 The opportunity for complainants and respondents to offer information, present evidence, and identify witnesses during an investigation.
5.10.3.1.5 Interim measures made available for complainants, respondents, and witnesses, and the opportunity to request modifications necessary for physical and/or emotional safety.

5.10.3.1.6 Timely notice of meetings where complainants' and respondents' presence is necessary.

5.10.3.1.7 Simultaneous notification to complainants and respondents, in writing, of the results of any proceedings.

5.10.3.1.8 The opportunity for complainants and respondents to articulate concerns or issues about proceedings under this policy.

5.10.3.1.9 Reasonable time for complainants and respondents to prepare responses, as permitted under this policy.

5.10.3.1.10 Written notice to complainants and respondents of any necessary extensions of timeframes under this policy.

5.10.3.1.11 Reasonable accommodations for all participants in the student conduct process who have a disability and who request disability accommodations. Such requests may be made to the student conduct administrator, who will refer such requests to the appropriate ADA coordinator and then implement approved accommodations.

5.11 Notices to Complainants and Respondents

5.11.1 The student conduct administrator will give written notice to:

5.11.1.1 Complainant(s) of their options to report to other campus and community authorities as applicable, when complainants allege a violation of the Student Code to the student conduct administrator.

5.11.1.2 Complainants and respondents, if the student conduct administrator's inquiry advances beyond preliminary review according to section 5.7, of the time and place of alleged policy violation(s), which policies were allegedly violated, and how those policies were violated. The student conduct administrator will also provide the parties with written notice to appear at a pre-hearing meeting. If additional violations are later alleged, a further notice shall be provided to the complaining and responding students.

5.11.1.3 Complainants and respondents of their ability to participate in campus investigations and/or student conduct processes by providing relevant information and recommending relevant witnesses. If students choose to not participate in the process, the case may proceed without them and a decision may be made without any input from the student.

5.11.1.4 Complainants and respondents of their right, in behavioral (non-academic) misconduct matters, to be accompanied by a support person/advisor of their choice, who may but need not be an attorney, throughout the student conduct process. Students must notify the student conduct administrator at least five school days in advance of the pre-hearing meeting of their support person/advisor’s identity and the nature of the student’s relationship to the support person/advisor. The University has the right to disqualify a support person/advisor when their participation would create a conflict of interest or a potential disruption in the student conduct process.

5.11.1.5 Complainants and respondents of how to request information for disability accommodations and/or language translation services.

5.12 Pre-Hearing Meeting

5.12.1 The student conduct administrator will conduct a pre-hearing meeting with the respondent. The complainant and/or others may be invited to attend the same or a separate pre-hearing meeting, depending on the circumstances. If any party chooses not to attend, the pre-hearing meeting may still proceed.

5.12.2 The pre-hearing meeting will occur promptly after the student conduct administrator determines, after preliminary review, that an investigation/pre-hearing is necessary.

5.12.3 Parties will be given the opportunity to present relevant information in response to the alleged misconduct before and during the pre-hearing meeting.

5.12.4 The pre-hearing meeting and outcomes will be shared with the parties to the extent allowed by law, but will otherwise remain confidential.

5.12.5 If the respondent does not admit to the alleged violation(s) and/or the allegations cannot be resolved by mutual consent, the matter will be considered in a student conduct hearing.

5.12.6 If the respondent accepts responsibility for the violation, but sanctions are not agreed to, sanctions will be determined in a student conduct hearing.

5.12.7 During the pre-hearing meeting, investigation, or other pre-hearing processes in behavioral (non-academic) misconduct matters, the complainant’s and/or respondent’s support person/advisor may only advise the student and may not actively participate.

5.13 Student Conduct Hearing

5.13.1 Allegations of misconduct and/or sanctions not resolved during the pre-hearing meeting will be referred to a student conduct hearing, which will be scheduled as promptly as possible after the pre-hearing meeting. The student conduct administrator may delay the hearing if further investigation is needed or other circumstances require a delay. Hearing proceedings may be conducted over the course of multiple meetings.

5.13.2 The participating parties will receive notice of hearing meetings and access to all evidence to be considered at the hearing at least five school days in advance.

5.13.3 Student conduct hearings will be conducted according to the following procedures:

1) The student conduct administrator will conduct the student conduct hearing with the respondent. The complainant and/or others will be invited to attend the hearing. If either party fails to attend the hearing without good cause and without prior notice to the student conduct administrator, the hearing may proceed. Neither party is required to participate in the hearing for the hearing to proceed. The University reserves the right to modify hearing procedures to protect the safety of all parties involved.

2) Student conduct hearings and outcomes will be shared with the parties to the extent allowed by law, but will otherwise remain confidential.

3) Student conduct hearings will be conducted by the student conduct administrator.
Introduction

4) In behavioral (non-academic) misconduct matters, the complainant and respondent have the right to be assisted by a support person/advisor of their choice during the Student Conduct Hearing and during any subsequent appeal hearings. Parties must notify the student conduct administrator at least five school days in advance of the hearing of their support person/advisor’s identity and the nature of their relationship to the support person/advisor (including whether the support person/advisor is an attorney). The University has the right to disqualify a support person/advisor when that person’s participation would create a conflict of interest or potentially disrupt the student conduct process. (If the complainant or the respondent do not provide the required information about their support person/advisor at last five days in advance, the support person/advisor may attend but shall not participate in the hearing.) Support persons/advisors may give opening statements, advise students throughout the hearing, question witnesses as allowed by the student conduct administrator, and present a closing statement. Support persons/advisors may not serve as witnesses. Neither the Rules of Civil Procedure nor the Rules of Evidence apply to these hearings.

5) If the complainant, respondent, and/or other witnesses have concerns for their personal safety, well-being, or fear confrontation during the hearing, they may request other reasonable means of participating, the student conduct administrator will determine whether the proposed means are reasonable.

6) Reasonable efforts will be made to accommodate the schedules of all participants in the hearing. Typically, no more than one extension will be granted.

7) In student conduct hearings involving more than one respondent, the student conduct administrator may permit separate or joint student conduct hearings concerning each student.

8) The complainant, respondent, and the student conduct administrator may arrange for witnesses to present relevant information during the student conduct hearing.

9) Records, exhibits, and written statements will be accepted if deemed relevant by the Student Conduct Administrator.

10) All procedural questions are subject to the final decision of the student conduct administrator.

11) After all pertinent information has been received, the student conduct administrator shall deliberate on all available information and determine, based on a preponderance of the evidence, whether the respondent has violated the Student Code.

12) The respondent and complainant will receive prompt notice of hearing decisions in writing to the student's university email address, or hand-delivered, typically within five school days of the hearing date, unless circumstances require delay. The notice will include whether the policy was violated, actions taken to resolve the complaint, and any applicable sanctions to both respondents and complainants to the extent allowed by law.

13) A finding of not-in-violation will resolve the matter with no further action or appeals.

14) Disciplinary sanctions may be imposed upon respondent(s) found in violation of the Student Code and communicated to the respondent in a written sanction letter. Elements of the sanctions may be imposed either singularly or in combination with other sanctions. Sanctions do not take effect until the completion of the appeal process, if any, unless otherwise specified by the student conduct administrator.

5.14 Appeal Process

5.14.1 Respondent(s) or complainant(s) may appeal a decision or sanction of the student conduct administrator to the Student Conduct Appeal Panel within five school days of the decision. These appeals shall be in writing and shall be delivered to the Student Conduct Office via email or postal mail. Untimely requests will not be considered absent extraordinary circumstances. Activities such as graduation, study abroad, internships/externships, business travel, or educational, sabbatical, or extracurricular activities generally do not in themselves constitute extraordinary circumstances.

5.14.2 When requesting the appeal, the respondent or complainant must identify in the written request at least one or more of the following grounds for appeal:

1) New evidence unavailable to the party during the investigation has been discovered that could substantially impact the investigation, findings, and/or resolution.

2) Substantial departure from the procedures outlined in this Student Code or that the process was unfair and/or biased, which substantially impacted the outcome of the investigation or hearing. The duration of the investigation or severity of the sanction are not considered procedural errors.

3) Findings lacked substantial evidence such that no reasonable person would reach the same conclusion as the student conduct administrator.

4) The sanction imposed is substantially disproportionate to the severity of the violation (i.e., too severe or not severe enough).

5.14.3 Unless the appeal panel (the composition of which is explained below) determines by majority vote that one or more of the grounds stated in 5.14.2 has been met and that modifications to the original decision should be recommended, the student conduct administrator’s decision or sanction shall be upheld.

5.14.4 While an appeal is pending, the student conduct administrator may impose interim measures.

5.14.5 The Student Conduct Office shall promptly convene a three-member appeal panel from the Policy 162/165 review panel pool. The appeal panel will include one faculty, one staff, and one student.

5.14.6 Panel members must be in good standing with the University and must not have any relevant conflict of interest. The student conduct administrator will notify the parties of the panel members’ identities and appeal procedures in this policy. Within 3 school days of receiving this notice, parties may request in writing that a review panel member be disqualified based on bias or conflict of interest and explain the reasons for this request. If the Student Conduct Office, in consultation with the Office of General Counsel, confirms a bias or conflict, a new panel member shall be selected.

5.14.7 The Office of General Counsel will appoint an impartial attorney to preside over the appeal hearing as hearing officer. This attorney must have no prior involvement in either advocacy or investigatory matters related to the conduct matter. The hearing officer will ensure order, fairness, due process, efficiency, and civility at the hearing, and ensure a relevant and sufficient evidentiary record for the panel’s consideration. To advance this aim, the hearing officer may set time limits proportionate to the complexity of the case; exclude irrelevant and unduly repetitious exhibits, witnesses, questions, statements, or other information; and exclude material deemed privileged under the law. Formal rules of evidence do not apply. The appeal panel shall consult with the hearing officer during the appeal process regarding legal, procedural, policy, and other questions as needed. The hearing officer, in consultation with the panel, will review and respond to any pre-hearing questions or objections from the parties related to hearing matters.
5.14.8 Once the panel is confirmed, they shall promptly determine, based on a preponderance of the evidence, whether the appeal request meets one or more criteria under section 5.14.2.

5.14.9 The Student Conduct Office shall then notify parties in writing of the appeal hearing panel’s determination and, if a hearing is warranted, of the appeal hearing date, which will be scheduled promptly.

5.14.10 The hearing officer may conduct a pre-hearing conference to formulate or simplify the issues; obtain admission of fact and documents that will avoid unnecessary proof; arrange for the exchange of proposed exhibits; outline expectations for the hearing; or agree to other matters that may expedite the orderly conduct of the hearing.

5.14.11 The complainant and respondent will be allowed to attend the entire appeal hearing, excluding deliberations. In behavioral (non-academic) misconduct matters, the complainant's and respondent's support person/advisor, if any, will be allowed to attend the entire appeal hearing, excluding deliberations. Admission of any other person to the appeal hearing shall be at the discretion of the hearing officer.

5.14.12 The scope of the appeal hearing and the standard of review shall be limited to those stated in section 5.14.2. Along with written notice of the hearing date, the Student Conduct Office shall provide the review panel and parties copies of a summary of the case (where applicable), written findings, sanction letter, the written request for appeal, and any additional opposition statements already provided by the parties.

5.14.13 The appeal hearing is an opportunity for the parties to be heard by the appeal panel in person about the issues and criteria being considered for the appeal, including addressing the information in the summary of the investigation, any supplemental statements or new evidence unavailable during the investigation, any written impact or mitigation statements, to identify witnesses for the panel’s consideration, and to respond to any questions from the appeal panel.

5.14.14 In behavioral (non-academic) misconduct matters, the respondent and complainant have the right to be assisted by a support person/advisor of their choice, who may be, but need not be, an attorney and who may participate during the appeal hearing. Parties must notify the Student Conduct Office at least 5 school days in advance of the hearing of their selected support person/advisor and the nature of their relationship to the support person/advisor (including whether the support person/advisor is an attorney). The University has the right to disqualify a support person/advisor when their participation would create a conflict of interest or would create the potential for disrupting the student conduct process. If the complainant or the respondent do not provide the required information about their support person/advisor at least five days in advance, the support person/advisor may attend but shall not participate in the appeal hearing. Support persons/advisors may open meetings, advise students throughout the hearing, question witnesses as allowed by the hearing officer, and present a closing statement. Support persons or advisors may not serve as a witness. Neither the Rules of Civil Procedure nor the Rules of Evidence apply to these hearings.

5.14.15 Documents, evidence, other statements, and requests for the appearance of witnesses to be considered at the hearing may be made by the panel, respondent, complainant, and/or student conduct administrator, and must be submitted in writing to the Student Conduct Office at least 5 school days before the hearing, and must include explanations of how each document or request is relevant to the reasons for the appeal. Only witnesses and other evidence that are relevant to the section 5.14.2 bases for appeal may be considered by the appeal panel. It is the responsibility of the party requesting a particular witness to invite that witness to attend the hearing.

5.14.16 In the event that any party fails to attend the appeal hearing without good cause and prior notice to the Student Conduct Office, the appeal panel may proceed with the hearing. Neither party is required to participate in the hearing for the appeal panel to proceed.

5.14.17 The hearing, except for deliberations, will be audio recorded by the appeal panel chair, who will give the recording to the Student Conduct Office. A copy of the audio file and/or transcription will be made available for review by either party upon request. Participants are prohibited from recording interviews and other meetings before and after the hearing.

5.14.18 Each party has up to 60 minutes to present their portion of the case (opening statement, testimony of the party and party’s witnesses, questioning the other witnesses if any, and closing statement). The hearing officer will keep track of time.

5.14.19 The hearing officer will begin the hearing by asking the student conduct administrator to provide an oral summary of the investigation process, findings, and conclusions contained in the case summary and sanction letter.

5.14.20 The respondent and complainant shall each have the opportunity to make a personal statement, relevant to the scope of the appeal and bases for the appeal, including the personal impact of the alleged misconduct and/or sanction, the relief sought, and mitigating or aggravating information. In behavioral (non-academic) misconduct matters, each party’s support person/advisor shall also have the opportunity to make an opening statement relevant to the scope of appeal. Each party, or their respective support person/advisor, may call witnesses that the hearing officer deems relevant to the scope of the appeal. Question witnesses through the hearing officer, present evidence, and make concluding remarks.

5.14.21 The panel may question any party and witness. Only the person to whom a question is directed may answer (for example, support persons/advisors shall not be permitted to answer the appeal panel’s questions on a party’s behalf.)

5.14.22 Panel deliberations and voting shall occur in closed session from which all other persons are excluded. The hearing officer shall be present during the deliberations but shall have no vote. A majority vote by the members of the panel who attended the hearing shall decide whether the appealing party has shown one or more bases for appeal stated in section 5.14.2.

5.14.23 The panel shall provide the Student Conduct Office a summary of their findings and recommendation(s) regarding whether and how to uphold, modify, or remedy the conduct and/or sanction decision or process within 5 school days of the appeal hearing. The Student Conduct Office will promptly provide the recommendation(s) to the appropriate dean or designee as outlined in section 5.1.1.

5.14.24 The student conduct appeal decision maker, in consultation with the Office of General Counsel as needed, is responsible for reviewing the recommendations of the appeal panel, all the information that was available to the appeal panel, and determining whether to (1) remand the investigation to the original or an alternate student conduct administrator for additional investigation; (2) affirm the student conduct administrator’s original decision; (3) adopt the sanction and resolution recommendation(s) of the appeal panel; and/or (4) determine an alternative outcome. If the matter is remanded for further investigation, the appropriate student conduct administrator shall promptly investigate and provide a written summary of the new evidence considered and/or changes to the findings, if any, to the student conduct appeal decision maker, who shall then determine sanctions or resolutions.

5.14.25 The student conduct appeal decision maker shall promptly notify the respondent and complainant in writing of their decision and the rationale for the outcome. The decision of the student conduct appeal decision maker is final, with no additional internal appeals available.
5.15 Records

5.15.1 The Student Conduct Office shall submit and maintain for confidential storage all Student Conduct Office records, including investigation findings, informal remedies, disciplinary action, and any subsequent appeals. Student Conduct records shall typically be retained for ten years after a student’s graduation or withdrawal.

5.15.2 Records documenting informal resolution and or remedies and investigations resulting in no-conduct violation shall also be submitted to and maintained by the Student Conduct Office, but will not be entered into a student’s permanent disciplinary record with the University.

5.15.3 Student Conduct disciplinary records are educational records as defined by FERPA and shall be private. Access shall be limited to university officers on a need-to-know basis. Disciplinary sanctions resulting from serious violations of institutional policies regarding sexual misconduct, sex discrimination, harassment, or other serious misconduct resulting in suspension or expulsion may be noted on the student’s official transcript. Additionally, the University may disclose to an alleged victim of any crime of violence or non-forcible sex offense the final results of a disciplinary process conducted by the institution against the alleged perpetrator of that crime, regardless of whether the institution concluded a violation was committed.

5.15.4 Transcript notations regarding suspension and/or expulsion shall not contain any information about the underlying conduct, but will state that formal disciplinary action resulting in suspension and/or expulsion has been imposed. If a student withdraws from the University before the completion of an investigation and prior to a final determination, an updated transcript will be sent to any transferring institutions if suspension and/or expulsion are determined.

5.15.5 Transcript notations for suspension shall remain on a student’s transcript for the duration of the suspension, and typically not longer than one year after the suspension period. Transcript notations for expulsion will typically remain on a student’s transcript indefinitely.

5.15.6 Students may apply to the Dean of Students or designee to have their disciplinary records and/or transcript notation removed. Factors relevant to the decision to retain or remove specific records and/or transcript notations include the amount of time that has elapsed since the infraction, whether the student has graduated, and the seriousness of the infraction and the resulting sanctions.

Student Services

Academic Counseling Center

- See University College.

Academic Standards

- See University College.

Academic Tutoring

- See Tutoring and Academic Skills Services (TASS) in University College.

Accessibility Services

- Services for Students with Disabilities
  - Office: LC 312
  - Telephone: 801-863-8747

The Accessibility Services Department serves Utah Valley University students and the community by providing access to the campus and curriculum for individuals with disabilities to facilitate, support, and encourage their academic success, their retention and ensure their academic rights. Services are available to students who have documentation substantiating various conditions (including a physical, psychological, or learning disability) and may include: sign language interpreting, testing accommodations, text in audio format, note taking, adaptive equipment, transfer of printed material to Braille, and other individualized services.

Alumni Association

- Office: AL 003
- Telephone: 801-863-8179

The purpose of the UVU Alumni Association is to create lasting relationships between students, alumni and friends of the University for the advancement of the University.

The UVU Alumni Association provides benefits and support for over 200,000 UVU alumni, and is responsible for many services: publishing UVU Magazine, providing benefits programs, Alumni Awards, Founder’s Day, Homecoming and other similar offerings. In addition, the Alumni Association maintains its homepage at uvualumni.org; where both students and alumni can access various services of the association.

The UVU Alumni Association also sponsors the Student Alumni Association, which is involved in hosting important events and activities on campus, as well as at regional and national conferences. In addition, they are involved in service projects and annual student giving campaigns. Membership in the Student Alumni Association is open to all students, and applications for the Student Alumni Board are accepted during the spring semester. For more information about this and other Alumni related topics, please contact our office at 801-863-8179 or visit uvualumni.org.

Bookstore
Introduction

• Located: SC 102 (Centre Stage Temporary Location for June 2020 to January 2021 during Sorensen Center Construction)
• Telephone: 801-863-8641
• Hours:
  • Monday - Thursday 7:30 a.m. - 6 p.m.
  • Friday 7:30 a.m. - 5 p.m.
  • Saturday 9 a.m. - 1 p.m.
  • (Fall and Spring semesters only)
  • Monday, Friday 8 a.m. - 5 p.m.
  • Tuesday, Wednesday 8 a.m. - 6 p.m.
  • (Summer semester only)
  • Closed Sundays and Campus Holidays

The bookstore is open each weekday to serve the students, faculty and staff of UVU. At the bookstore you will not only find your required textbooks for rent, purchase or e-book, but also everything else you will need for your college career: UVU apparel, backpacks, UVU insignia, school supplies, computers, calculators, cables, headphones, general reading materials, reference books, snacks.

Campus Connection

• Located: SC 106f
• Telephone: 801-863-8797
• Email: campusconnection@uvu.edu
• Hours:
  • Monday - Wednesday 8 a.m. - 8 p.m.
  • Thursday 8 a.m. - 7 p.m
  • Friday 8 a.m. - 5 p.m.
  • Saturday 9 a.m. - 2 p.m.
  • Holiday hours may vary

Campus Connection is the place to go to get your UVU OneCard/UVU Plus Card (Student ID) and information on all student activities sponsored by or held at the Utah Valley University Campus along with the following services:

**UVU OneCard/UVU PlusCard**

The card will allow discounted access to most student activities and athletic events. The card allows free access to library book checkout, PE Issue Room, and athletic facilities. It also offers discounted entrance into selected community events, activities, and dances. Student fees entitle each student to one UVU OneCard for the duration of his/her enrollment at UVU (minimum of 5 years). Students should save their cards even if they skip a semester or a year or two, because the card is automatically validated when registration is paid. Replacement cards (lost, stolen, broken or name changes) are $15.

UVU PlusCard is everything the UVU OneCard is PLUS it becomes your UCCU Debit Card all in one. Just go to uvu.edu/campusconnection.

The UVU GreenBucks Account is a debit account made available for students to deposit funds at Campus Connection or online at onecard.uvu.edu (VISA, MasterCard, and Discover cards are accepted to put money on the UVU OneCard). With these funds on their card, students can make purchases on campus for food, books, postal services, and special event tickets. When the UV GreenBucks is used in Dining Services, students receive a 5% discount. There is also a meal plan available that gives 10% off on all meals from Dining Services for $300. For more details, call Campus Connection 801-863-8797 or go to SC 106f.

**UTA Transit Pass**

Students are also eligible to receive a UTA Transit Pass for a fee. (Price may vary due to UTA rate increase.) Patrons must be registered for classes of the current semester AND have a UVU ID Card before purchase can be made at Campus Connection or renewed online through myUVU. Replacements cards will be charged the same activation fee.

**Other Services**

Tickets and SmithsTix for various Campus and community events; UTA Bus Passes; Faxing domestic and international; campus lost and found; general information. See uvu.edu/campusconnection for more up to date information

**US Post Office**

• Located: SC 104
• Telephone: 801-863-6067
• Email: campusconnection@uvu.edu
• Hours:
  • Monday - Wednesday 8 a.m. - 8 p.m.
  • Thursday 8 a.m. - 7 p.m.
  • Friday 8 a.m. - 5 p.m.
  • Saturday 9 a.m. - 2 p.m.
  • Holiday hours may vary
  • Mail pick-up:
    • Monday - Friday 2:45 p.m.
    • Saturday 12:45 p.m.
    • Holiday mail pick-up times may vary
Introduction

The US Postal Service is also available across the hall from Campus Connection. Stamps (singles, books, and rolls), Packaging Products, Express, Priority, Media-Mail, Bound Printed Matter, Global Priority, Global Express, Global Air Mail, Registered, Certified, Delivery Confirmation, and so forth, are available. Cash, Check, Credit, Debit Cards and UV GreenBucks are accepted. Go to https://www.uvu.edu/postoffice/ for more information.

Campus Recreation & Wellness

- Located: SL 211
- Telephone: 801-863-5553

The Department of Campus Recreation & Wellness includes recreational portion of the Student Life & Wellness Center (SLWC), SLWC Bowling Alley/Gaming Center, The Project Climbing Wall, and Wellness Programs, Intramurals and Club Sports, Rodeo and Outdoor Adventure Center departments.

Through our various services and programs, we offer a variety of recreational and health opportunities for UVU students and staff. Our mission is to enrich the quality of life for students, faculty and staff by providing a broad range of recreation, wellness, and student engagement opportunities that complement the academic experience. We actively promote the pursuit of a balanced, healthy lifestyle to our diverse university community.

Care about Childcare at Utah Valley University

- Program Director: Joyce Hasting
- Office: EE 009
- Telephone: 801-863-8557
- Email: jhasting@uvu.edu
- Web: uvu.edu/cac

Care About Childcare at Utah Valley University is a resource and referral agency to assist persons seeking licensed childcare and preschool programs. They provide childcare referrals in Utah, Summit, Wasatch and Juab counties. A free personalized list of available child care can be found online at careaboutchildcare.utah.gov, and by calling the referral line at 801-863-8589 or toll free 1-800-952-8220. Their program also provides technical assistance to persons wanting information about child development and child care. One of the most important services they offer is to help child care programs, improve their professional development by providing low cost professional child care courses. The program also offers grants, program coaching and technical assistance to early childhood learning professionals. All of their services are offered in both English and Spanish to community members, students, parents, early childhood professionals and programs.

Career Development Center

- Office: LC 409
- Telephone: 801-863-6364
- E-mail: careerdevcenter@uvu.edu
- Web: uvu.edu/cdc
- Hours:
  - Monday, Thursday and Friday 8 a.m. – 5 p.m
  - Tuesday, Wednesday 8:00 a.m. – 6 p.m.

Through comprehensive career counseling services, and by fostering community, regional, and national employer relationships, the Career Development Center promotes individual career success and employment potential for students and alumni.

Our services include access to:

- Handshake at uvu.edu/cdc for students and employers (online job posting, job search, submitting resumes, scheduling interviews, etc.)
- Off-campus full-time, part-time, summer and temporary job openings and internships
- Counseling on career planning and preparation including Career Exploration (through various Career inventories)
- Training and online workshops for writing resumes, interviewing, networking, negotiating and more
- Labor market, salary and career employment information
- Career Lab walk in hours 9 a.m. - 4 p.m., Monday - Friday
- Job Search Strategies
- Interview Preparation/Mock Interviews
- Career & Internship Fairs
- Part-Time Job Fairs
- Local, national and international employers recruiting on campus
- Group and class presentations on career related topics
- Career options for different majors

Center for Global and Intercultural Engagement

- See: uvu.edu/cgie

Center for Social Impact

See Center for Social Impact
Dean of Students/AVP Student Life

- Alexis Palmer
- Office: SL 201
- Telephone: 801-863-8311
- www.uvu.edu/studentlife

The Dean of Students is committed to creating resources, programs, initiatives, and events that support and advocate for students. Student Life supports the holistic development of students by collaborating with campus and community partners in providing intellectual, physical, emotional, social, and civic experiences.

Dining Services

- Office: SC 201
- Telephone: 801-863-8664

Dining Services provides a variety of food options on campus, and is always working to expand our variety of options for our customers. The mission of the department is centered to students and their dining enjoyment and benefit.

The Student Center has two Food Courts with options that are plentiful and a variety of branded retail food options that offer the perfect place to stop for a satisfying meal at an affordable price.

Food Court - First Floor

- Costa Vida: Fresh Mexican grill serving Burritos, Salads, Tacos, Desserts and more.
- Subway: Fresh Submarine Sandwiches.
- Pizza Hut Express: Pizza served hot out of the oven, Pasta, Salads and Desserts.
- J Dawgs: Gourmet Hot Dogs. All natural meat, a homemade sauce and locally milled buns.
- Cupbop: Korean BBQ
- Fishbone Sushi: A variety of Sushi.
- Sodalicious: Flavored Soda's.

Food Court - Second Floor

- Chick-Fil-A: Chicken Sandwiches, Nuggets, Wraps and many items on the Breakfast menu.
- Panda Express: From Orange Chicken to their health-minded Wok Smart selections.
- E.A.T.S.: Breakfast, Sandwich Bar, Salad Bar, Soups, A Hot Line with a daily lunch special, Smoothies, Protein Shakes and Grab-N-Go meal options

These locations offer a relaxed and unique atmosphere for students, faculty and staff.

Other Food Service Locations on Campus are:

- Mom Fulton's Café is located in the Library and features Starbucks Coffee selections, gourmet Sandwiches, Soup and Grab-N-Go meal options.
- Wendy's is located in the Student Life and Wellness Building, 1st floor, next to the bowling alley. They offer a variety of hamburgers, chicken sandwiches, nuggets, wraps, breakfast items, fries, salads, deserts and the frosty.
- Jamba Juice, Taco Bell and The Green Line Café are located at the intersection of the PE Hallway and the Student Life and Wellness Building
- Guru’s Café is located in the Clark Building where you can enjoy a sit down meal of Pizza, Salads, Sandwiches, Soups, Wraps, Pasta's, Breakfast and more.
- The Roll Up Café is located in the Computer Science Building, 4th floor offering a variety of Sweet & Savory Crepes, along with Salads and Pastries.

Please check the Dining Services website at uvu.edu/dining for more exact operating hours of all locations and updated menus and meal options.

First-Year Advising Center

- Location: LC 402
- Telephone: 801-863-8425
- Email: firstyear@uvu.edu
- Web: uvu.edu/firstyear/advising/
- Hours:
  - Fall/Spring
    - Monday - Thursday, Friday 8 a.m. – 5 p.m.
    - Tuesday, Wednesday 8 a.m. - 6 p.m.

The First-Year Advising Center (FAC) provides free, holistic academic advising services to new students, all students who have yet to earn 30 credit hours, and any undecided students pursuing a associate’s degree of university studies. Our advisors provide a personalized support experience for students as they transition to studies at UVU.

First-Year Experience (FYE)

- Office: LC 405
- Telephone: 801-863-4000
- E-mail: success@uvu.edu
Introduction

• Web: uvu.edu/firstyear

UVU’s First-Year Experience (FYE) program is designed to help new students make a smooth and successful transition to college life. Participation in the following FYE programs will help students build a foundation of success:

• Jumpstart Orientation
• Personalized Academic Advisement
• Freshman Reading Program
• Freshman Convocation
• Department of Student Leadership and Success Courses, degrees, and Programs
• StartSmart Emails
• Freshman Celebration

Fulton Library

• Telephone: 801-863-8265
• Fax: 801-863-7065
• Web: uvu.edu/library
• Hours:
  • Fall/Spring
    • Monday - Friday 7 a.m. - midnight
    • Saturday 8 a.m. - 7 p.m.
    • Sunday 1 p.m. - 9 p.m.
  • Summer
    • Monday - Friday 7 a.m. - 9 p.m.
    • Saturday 9 a.m. - 5 p.m.
    • Sunday 1 p.m. - 9 p.m.

• Director: Lesli Baker
• Office: FL 503e
• Telephone: 801-863-8286

The Fulton Library has friendly librarians and staff waiting to help! In-person and online research help is available to assist students and faculty with locating the information and resources they need. The library houses hundreds of thousands of materials both online and inhouse, including books, films, journals, newspapers, audio/visual equipment for checkout, and much more. UVU ID cards are accepted for checking out materials at all college and university libraries in the state. Interlibrary Loan service quickly gets materials not available at the Fulton Library from other libraries for free. The Fulton Library is a dynamic space that hosts two open computer labs with specialized software, a family study room, group study rooms, the Writing Center, a copy center, a deaf studies lab, the Assistive Technology Center, the Office of Teaching and Learning, the Center for Constitutional Studies, and an art gallery. It is also home to Mom Fulton’s Café and the Bingham Gallery, which contains the Roots of Knowledge stained glass exhibit.

Housing and Residence Life

• Office: SL 214
• Telephone: 801-863-8659
• E-mail: housing@uvu.edu
• Web: uvu.edu/housing
• Hours:
  • Monday - Friday 9 a.m. - 5 p.m.

The Department of Housing and Residence Life provides students with a variety of housing services including: an annual Student Housing Booklet, resources for married, graduate and international students, information on available housing scholarships and state and national housing laws. Information concerning local housing options, is available on our website, in the Housing Office, or through email.

Utah Valley University does not own, manage, or approve any student housing. The University works closely with local student housing complexes to provide accurate and up-to-date information on all housing options listed within the local area, so that students can choose the most suitable housing while attending UVU.

Should disputes between a Landlord and a UVU Student Tenant arise, a free mediation service is available through the Office Student Conduct and Conflict Resolution located in SL 212b. To schedule an appointment for mediation services, please call 801-863-7237. The Office of Housing and Residence Life does not provide legal counsel regarding housing.

Intramural and Club Sports

• Director: Dustin LaMont
• Manager: Alex Gebers
• Office: SL 213
• Telephone: 801-863-5568
• E-mail: dustin.lamont@uvu.edu
• E-mail: agebers@uvu.edu

The Intramural Sports Program is one of the largest co-curricular activity programs that complement the formal academic curriculum. It offers extensive opportunities to currently enrolled Utah Valley University students, faculty, staff and their spouses/partners in a number of competitive and structured activities each year. Participation in the program is voluntary and determined by interest.
Participation can provide one with opportunities to have fun, learn new sports, meet people from other cultures, test one's physical ability as well as offer a break from routine. Team sports generally take on a league structure and a post-season tournament to determine champions. Special events range from one day to several day tournaments. In most events, skill levels and divisions are established to allow competition for men's, women's, co-ed and Mixed teams at various skill levels.

The Intramural Sports program strives to provide programming for all levels of ability and experience. Our aim is to serve the recreational needs of the majority of the student body and not just the athletic minority.

Club Sports bridge the gap between intramural and intercollegiate athletics by providing competition at specialized levels, participation in tournaments, and opportunities to practice. Although some clubs remain solely recreational, most are highly competitive.

UVU Club Sports offers a structured environment to practice and play the game students' love. Participation in Club Sports allows individuals to engage with the University in a unique way. Club Sports are managed and run by the participants themselves, including coach selection, travel, fundraising, scheduling, practices, and participant development. Club Sports are meant to enhance the individual learning experiences through involvement, commitment, and working in a team setting.

A competitive spirit of fair play and good sportsmanship is encouraged in order to provide all with a wholesome recreational experience. Participants and staff are asked to conduct themselves in a manner consistent with, and in support of, those values set forth by Utah Valley University.

Learning Strategies Support

See Tutoring and Academic Skills Services (TASS) in University College.

Lockers

- Office: FC 100 (Facilities Complex)
- 936 S. 400 W., Orem
- (Next to Parking Services)
- Telephone: 801-863-8130
- Hours: Monday - Friday 7 a.m. - 5 p.m.

Lockers are available for student use in the Gunther Technology Building and are rented through the Facilities/Physical Plant Office. Locker rentals are $5 per semester or $13 per year. This fee is non-refundable. Renewal of lockers needs to be completed before the end of the semester to avoid locker changes and clearance of contents. The renter is responsible for any damages to the locker(s).

Math Lab

See Tutoring and Academic Skills Services (TASS) in University College.

National Student Exchange

- Office: LC 409q
- Telephone: 801-863-6219
- E-mail: sue.stephenson@uvu.edu

National Student Exchange (NSE) is a domestic “study away” experience that fits into university initiatives for globalization and diversity. NSE embodies the overall mission of Utah Valley University by providing high impact meaningful Engagement Opportunities for its students. The National Student Exchange, which is a service within the Career Development Center, provides opportunities for undergraduates, to study for up to one calendar year at another NSE member university and pay UVU tuition rates or the in-state tuition rate of the host school.

With more than 200 colleges and universities from which to choose, students can find a campus that is “custom” to individual degree plans, with just the right combination of courses, facilities, and environment to meet unique personal and academic needs and interests. Spending time at another campus will allow students to grow academically and personally. Students will develop a greater appreciation for the different regions, cultures, and people. NSE extends beyond the borders of the United States to include U.S. territories as well as Canadian provinces. Students participate in order to:

- Broaden personal and educational perspectives
- Explore and appreciate new cultures
- Widen university boundaries
- Take courses not offered at the home campus
- Learn from different professors
- Access courses with different perspectives
- Explore new areas of study
- Experience personal growth
- Live in a different geographic area
- Acquire life skills
- Investigate graduate or professional schools
- Look for future employment opportunities
- Become more mature, independent and resourceful

NSE participants have found their exchanges culturally enriching, academically rewarding, and one of the most significant experiences of their undergraduate education. Since its founding in 1968, more than 100,000 students have had the opportunity to break out of their comfort zone, and experience life from a different point of view.
Introduction

Students will need a 2.5 cumulative GPA and one-year of university work to join these students who have been placed in life-changing exchange situations which challenged their thinking, expanded their educational and personal experiences, and encouraged them to take healthy risks.

After graduation, when you look back at your college days, NSE can be one of those memorable highlights! Don’t let this rare opportunity pass you by!

Ombuds

• Office: SL 212b
• Telephone: 801-863-7237

Within the UVU community misunderstandings and disagreements needing resolution occur. The UVU Ombuds is a mediator and resource who is familiar with campus policies, student’s rights and responsibilities, and can help find useful options within these guidelines. In order to serve as a mediator, as opposed to an advocate, the Ombuds neutrally and objectively listens to all problems and works with the parties involved to find a solution. The Ombuds may be used as a resource for help in a variety of difficult situations. The Ombuds can help with:

• University related or personal issues
• Interpersonal conflicts
• Sexual Harassment
• Academic complaints and conflicts
• Housing/Landlord disagreements
• Discrimination complaints
• Grading procedure disputes
• School policy and procedures
• Others

All services are offered free of charge.

Outdoor Adventure Center

• Office: SL 216
• Telephone: 801-863-7052
• Web: uvu.edu/oac
• Hours:
  • Fall Semester
  • Monday - Friday 9 a.m. - 5 p.m.
  • Saturdays 9 a.m. - 1 p.m.
  • Spring Semester
  • Monday - Friday 8 a.m. - 5 p.m.
  • Saturdays 8 a.m. - 1 p.m.
  • Summer Semester
  • Monday - Friday 9 a.m. - 5 p.m.
  • Saturdays 9 a.m. - 1 p.m.

The Outdoor Adventure Center provides students, staff, faculty and the community an opportunity to learn from the vast outdoor classroom. We offer participants a chance to experience nature while also learning how to protect and preserve the natural environment. Opportunities range from clinics, adventure outings, and afternoon activities. We also offer equipment rentals and retail items that will help get you outside! We collaborate with different academic departments in offering experiential education outside of the classroom, call us today if you are interested in planning an activity for your students. Come in today and let us help with your next adventure. For a list of rental prices visit www.uvu.edu/oac/rentals.

Parking and Transportation Services

• Located: 936 S. 400 W., Orem
• Telephone: 801-863-8188
• Hours:
  • Monday - Friday 7 a.m. - 5 p.m.

Parking permits are required to park anywhere on the UVU main campus and west campus. UVU uses license plate reader technology and assigns a digital permit to your vehicle license plate at the time of permit purchase. Parking permits are available in our office at 936 S. 400 W. or online through the link found at uvu.edu/parking - there is also information on the site regarding parking maps, regulations, and other information to assist you in parking on campus. We can also be contacted by phone at 801-863-8188 Monday through Friday 7 am to 5 pm.

Parking for People with Disabilities

Only those vehicles carrying distinctive (logo) license plates for people with disabilities or temporary/permanent permits obtained from the Utah State Division of Motor Vehicles at 150 E. Center in Provo plus a valid UVU handicapped parking permit shall be allowed to park in stalls for the disabled. If all disabled stalls are full in a given area, those displaying a disabled permit may park in the nearest available stall.

Student and Employee Parking
Introduction

Students and employees operating vehicles on University properties must adhere to all state, local, and university traffic/parking regulations. To park on campus, students and employees must obtain a valid parking permit from Parking Services. Employees and Students will need to provide their vehicle information e.g. license plate number, make and model before a permit can be issued to them. Permits are not required to park in any employee or student lot after 5 p.m.

Visitor Parking

Visitors operating vehicles on University property must adhere to all state, local, and university traffic/parking regulations. There are three visitor pay lots on campus. The L1 and M26 Visitor Lots are located on the south side of campus, and the Parking Garage is on the north side by the Student Life building. The cost to use the lot is posted at the lot, as well as on the Parking Services website. These lots are pay-by-space parking and each stall is numbered. Pay stations are located in convenient locations in these lots. Payment is required in these pay lots from 5 AM through 10 PM, seven days a week. Payment is required at the time you park at one of the pay stations. If you have any questions regarding parking on campus, please contact the Parking Services Office at 801-863-8188.

Physical Education Services (Issue Room)

- PE Services Director: Sam Atoa
  - Office: RL 119
  - Telephone: 801-863-8567

- Assistant Director: Ashley Iosefa
  - Office: RL150 (Issue Room)
  - Telephone: 801-863-8628

The Rebecca Lockhart building serves as the home for many Physical Education classes, Intercollegiate Women’s Volleyball, and Men’s Wrestling.

Facilities included are: men’s/women’s locker rooms, one main basketball floor, a single lane indoor track, one aerobic/dance area, a martial arts room, weight room, cardio machines, a motor learn lab, dance rooms, and various faculty/staff offices.

UVU PE Issue t-shirts are used for the Physical Education Facilities. You must have your UVU ID card or valid ID to check out the issue clothing. Lockers are available to rent each semester. For additional information and hours of operation, please refer to the PE issue room (RL 150) or call 801-863-8628.

Printing Services

- Offset Printing
  - Located: AX-130
  - Telephone: 801-863-8415

- Graphic Design
  - Located: AX-121
  - Telephone: 801-863-8415

- Library Copy Center
  - Located: LI-209
  - Telephone: 801-863-7003

- Digital and Specialty Printing
  - Located: AX-121
  - Telephone: 801-863-7093

Printing Services provides offset printing, digital printing, specialty printing, and graphic design services for the UVU community. The digital printing center is located in the Auxiliary Services Building room 131. Offset printing and bindery operations are located in AX-131. Printing Services also provides specialty printing services including wide format printing, laminating, mounting, and engraving. This facility is located in the AX building room 130, adjacent to the digital printing facility. For questions regarding services, capabilities, pricing, or scheduling, contact our main office at extension 8415 or contact the department director at extension 8371.

Sorensen Student Center

- Office: SC 105
  - Telephone: 801-863-8612

Located in the heart of the Orem Campus, the Wilson W. Sorensen Student Center represents the center for campus life. The Center provides students, faculty, staff, and guests a setting for informal associations, special events, banquet and workshop facilities, social and cultural activities, and the everyday amenities such as food, books, and supplies. Services and activities provided by the Student Center include the following:

- Bookstore
  - Located: SC 102
  - Telephone: 801-863-8641

- Campus Connection (UVID and proximity card, information, and box office services)
  - Located: SC 106
  - Telephone: 801-863-8797
Introduction

- **Center for Social Impact**
  - Located: SC 105
  - Telephone: 801-863-8786

- **Dining & Catering Services**
  - Located: SC 201
  - Telephone: 801-863-8664

- **Food Court**
  - Located: SC 111

- **Office of Student Affairs**
  - Located: SC 109
  - Telephone: 801-863-6158

- **Ragan Theater** (400 seat facility for multi-purpose event and program functions)
  - Located: SC 216
  - Telephone: 801-863-8612

- **Scoops Ice Cream Shop**
  - Located: SC 103f

- **Student Center Administration & Scheduling**
  - Located: SC 105
  - Telephone: 801-863-8612

  - Located: SC 221
  - Telephone: 801-863-8876

- **U.S. Postal Services**
  - Located: SC 104
  - Telephone: 801-863-6067

- **Utah Community Credit Union**
  - Located: SC 101j
  - Telephone: 801-223-7595

- **Conference Room Facilities**
  - Grande Ballroom: SC 106a
  - The Commons: SC 106
  - Centre Stage: SC 108
  - SC 206a, SC 206b, SC 206c, SC 206g, SC 206h, SC 213a, SC 213b, SC 213c, SC 214

**Student Action Learning**

- Director: Grant Flygare
- Office: LC 205
- Telephone: 801-863-6227
- Web: uvu.edu/actionlearning

Student Action Learning creates and implements activities and expeditions for student centered learning (out of the classroom, hands-on, experience-centered learning). Action Learning works collaboratively with students, faculty and professional community partners to bring about a full and exciting student life experience.

Students can develop leadership skills by becoming an Action Learning Leader, creating learning expeditions connected to specific interests, or as a Zone Manager, facilitating daytime activities on campus that are centered on student interests.

**Student Computing**

- Office: LA 003V
- Telephone: 801-863-5852
- Web: uvu.edu/studentcomputing

Student Computing has been established to provide computing resources and technical support services that enhance the educational experience of the students of UVU. These services include: The Open Student Computer Labs, Campus Kiosks, Hallway printing, Various Academic labs, Student printing (lab printing, mobility printing, and print.uvu.edu). The Open Student Computer Labs are available to all currently registered UVU students on a first-come, first-serve basis. No charge is required for the use of the computers. Lab Assistants are available to provide support and to help keep the equipment running. These labs contain 254 computers and have Internet access and E-mail as well as popular application software to assist students with their class work. There is also tables set up for students to bring their own personal device to charge as needed and get assistance from the Lab Assistants.
• **Info Commons Lab**
  • Located: FL 1st Floor
  • Telephone: 801-863-6932
  • Hours:
    • Monday - Friday 7 a.m. - midnight
    • Saturday 8 a.m. - 7 p.m.
    • Sunday 1 p.m. - 9 p.m.
  • Check with lab assistant for holiday and summer hours

The “InfoCommons” lab is located on the bottom floor of the Fulton Library. With 124 workstations, and 20iMac Desktops, this is the largest open lab on campus.

• **Campus View Lab**
  • Located: FL 2nd floor
  • Telephone: 801-863-5634
  • Hours:
    • Monday - Friday 7 a.m. - midnight
    • Saturday 8 a.m. - 7 p.m.
    • Sunday 1 p.m. - 9 p.m.
  • Check with lab assistant for holiday and summer hours

The “Campus View” lab is located on the second floor of the Fulton Library, with 39 workstations, it is overlooking the café and study area.

• **Computer Loft**
  • Located: SC 215
  • Telephone: 801-863-6081
  • Hours:
    • Monday - Friday 7 a.m. - 11 p.m.
    • Saturday 8 a.m. - 5 p.m.
    • Closed Sunday
  • Check with lab assistant for holiday and summer hours

The “Computer Loft” lab is located upstairs from the bookstore and across from the Ragan Theater and has 56 workstations.

• **Fishbowl Lab**
  • Located: SC 116
  • Telephone: 801-863-8390
  • Hours:
    • Monday - Friday 8 a.m. - 6 p.m.
  • Check with lab assistant for holiday and summer hours

The “Fishbowl” is located at the junction of the Student Center, Losee Center and Woodbury Business building and has 29 workstations.

• **Wasatch Campus Lab**
  • Located: NG 107
  • Telephone: 801-863-7147
  • Hours:
    • Monday - Thursday 8 a.m. - 8 p.m.
    • Friday 8 a.m. - 4:30 p.m.
    • Saturday 8 a.m. - 5 p.m.
  • Check with lab assistant for holiday and summer hours

• **Wasatch**
  • Located: WC 206 (Heber)
  • Telephone: 801-863-6628
  • Hours:
    • Monday - Thursday 6 a.m. - 9 p.m.
    • Friday 7 a.m. - 7 p.m.
    • Saturday 8 a.m. - 5 p.m.

Student Computing has also put in place Open lab Computers in the hallways throughout campus, with printing capabilities.

For information on Student computing, tutorial videos, list of software available to students, and print and charging station locations visit [www.uvu.edu/studentcomputing](http://www.uvu.edu/studentcomputing), also follow us in Facebook, Instagram, and Twitter @uvusc

Student Government

• **Utah Valley University Student Association (UVUSA)**
  • Office: SL 122
  • Telephone: 801-863-8652
Introduction

Every student is a member of the Utah Valley University Student Association (UVUSA). Student government/student council is the governing body of UVUSA and has multiple ways for students to get involved! The program offers a variety of volunteer, appointed, elected positions where students can influence and enhance the social and academic culture of the University. Student leaders can participate on campus committees, plan events and activities, and advocate for student needs and issues.

Information on ways to get involved with UVUSA/Student Government can found at [uvu.edu/uvusa](http://uvu.edu/uvusa) or by visiting their office in SL 122.

Student Health Services

- Office: SC 221
- Telephone: 801-863-8876

Student Health Services is designed to assist students with a variety of health issues. Our purpose is to provide students with opportunities to improve their health through basic medical care, psychological services, suicide prevention and awareness, and learning disability assessment. We offer life enhancing services that increase the safety, productivity and life experience of the individual and the campus. Through our services we enhance the personal development and lifelong opportunities of UVU students.

Therapy Services

Personal Counseling, Emotional Support, Learning Disability Testing and Referral

Student Health Services offers short-term counseling to assist students through stressful and crisis situations affecting their performance in school and personal relationships. We provide assessment and treatment for a variety of mental health concerns such as anxiety, depression, eating disorders, trauma, grief, substance abuse and relationship issues.

The therapists are experienced professionals who offer support in an atmosphere of understanding and confidentiality. Programs offer individual assessment, individual, couples and group counseling and referral to campus and community resources. To set an appointment with a psychological professional, please contact us at 801-863-8876.

Medical Services

Student health is promoted through a complete offering of medical and psychiatric services. We are able to write prescriptions, do lab work, medication management, physical exams, sutures and treat many other medical conditions. We treat a variety of acute and chronic illnesses and injuries. We are staffed by medical doctors, nurse practitioners and medical assistants.

Students currently enrolled at UVU or any of its satellite campus locations are eligible for medical care on the Orem Campus. To set an appointment with a medical professional, please contact us at 801-863-8876.

Suicide Prevention

For staff or classroom training please contact us at 801-863-8876. Crisis counseling is available at Student Health Services. If you are currently in a suicide crisis please notify the front desk for priority scheduling. In the case of an emergency or outside of our business hours, please call 911 or 801-863-5555.

Student Media & Publications

- Office: SL 214
- Telephone: 801-863-6498

Student Media and Publications is UVU's home of The UVU Review, the independent student newspaper. Students interested in producing news, writing, photography, graphic design, advertising sales, video broadcast content, web page content and design should come for practical experience and learning. These nationally award winning student media are produced year around. If you're interested in receiving hands on experience producing media publications visit us in SL 214. Call Media Coordinator 801-863-6498 for additional information.

Student Success/UV Mentor Program

See University College.

Testing Services

Office: Wolverine Service Center–North Entrance

Testing Services assists students, faculty, and the community. It is divided into three branches: Assessment, Classroom Testing, and the Proctored Exam Center.

- **Assessment Center**
  - Located: WS 101
  - Telephone: 801-863-8269

The primary responsibility of the Assessment Center is to provide assessment testing for various courses. Testing sessions for are conducted throughout the day, some require an appointment while others do not. Check our website for details at [uvu.edu/testingservices](http://uvu.edu/testingservices), and take special note of our hours, as they do change at different times during the year.

New students must meet one of following assessment requirements:

- **ACT/SAT Scores**
  - English: Not older than 5 years.
  - Math: Not older than 2 years.
New Student Assessment (some students may need to take the ALEKS or Accuplacer exam)

Transfer Credit
- Completed English Composition and Algebra at another college/university, with a C or higher (verified by official college transcripts mailed directly from your previous institution to UVU Admissions).
- Another function of Testing Services is to administer screening instruments, standardized tests, and other assessment instruments required by University programs and departments. Some of these include the GED, CLEP, ACT, EMT and POST tests. Certification testing for different programs offered by UVU and the surrounding community is also available. Students can obtain information on tests in the office and hours of operation by calling 801-863-8269 or by visiting the web page at: uvu.edu/testingservices.

Classroom Testing Center
- Located: WS 112
- Telephone: 801-863-7461

The Classroom Testing Center (CTC) is located in the Wolverine Service Center (WS 112). The CTC provides testing services enabling students to take participating instructors’ exams in the center on a flexible schedule. The CTC is generally open six days a week Monday - Saturday. Students can obtain test schedules and scores by logging into chitester.uvu.edu and use UV Link user name and password to log in. Highlight the exam name and click on View test score(s).

Proctored Exam Center (PEC)
- Located: WS 111
- Telephone: 801-863-8544

The Proctored Exam Center (PEC) provides testing accommodations to UVU students with disabilities as well as services for distance education students who need to have a test proctored from another university or college. Students with disabilities requiring assistance MUST obtain a letter from the Accessibility Services Department before being eligible to use the PEC. Scheduling an individual appointment for testing is required for both parties. For scheduling information and further assistance, call 801-863-8544.

TRIO College Prep Programs

Educational Talent Search & Upward Bound

Talent Search
- Director: Michael M. Campbell
- Telephone: 801-863-8569
- E-mail: campbemi@uvu.edu
- Coordinator: Rebecca Ayala
- Telephone: 801-863-7216
- Administrative Support: Kasha Farmer
- Telephone: 801-863-7414

Talent Search serves young people in grades six through twelve. In addition to counseling, participants receive information about college admissions requirements, scholarships and various student financial aid programs. This early intervention program helps young people to better understand their educational opportunities and options. UVU services Orem, Provo, Wasatch, South Summit, Duchesne, and Uintah.

Upward Bound
- Director: Michael M. Campbell
- Telephone: 801-863-8569
- E-mail: campbemi@uvu.edu
- Coordinator: Alex Atwood
- Telephone: 801-863-8570
- Administrative Support: Kasha Farmer
- Telephone: 801-863-7216

Upward Bound helps young people and adults prepare for higher education. Participants receive instruction in literature, composition, mathematics and science on college campuses after school, on Saturdays and during the summer. UVU services students from Orem, Provo, Wasatch, Duchesne and Uintah.

TRIO Student Support Services (SSS)
- Office: LA 012
- Telephone: 801-863-8541

TRIO Student Support Services (SSS) is a federally funded program. The purpose of TRIO SSS is to:
- Increase the retention and graduation rates of eligible students
Introduction

• Foster an institutional climate supportive of the success of low-income and first generation college students and individuals with disabilities through a variety of services such as:
  • needs assessment testing
  • individual education planning
  • academic, career, and transfer counseling
  • tutoring
  • cultural events
  • SLSS 1100 Stress Management—Hardiness and FIN 1060 Personal Finance
  • workshops and guest presentations

To be eligible to receive TRIO SSS services, a student must meet all of the following requirements:

• Is a citizen or national of the U.S. or meets the residency requirement for Federal student financial assistance
• Is enrolled at UVU or accepted for enrollment in the next academic semester
• Has a need for academic support, as determined by UVU’s TRIO SSS Department, in order to successfully pursue a post-secondary educational program

Meets at least one of the following criteria:

• Low income
• First generation college student
• Has a disability which inhibits the learning process

Eligible students are selected into UVU’s TRIO SSS program based upon their academic need and upon their ability to benefit from the services offered. Space is limited, so students are advised to apply early.

Turning Point (Community Education)

• Director: TBA
• Office: HP 116
• Telephone: 801-863-7580
• Web: uvu.edu/turningpoint

The Turning Point Program is a community and university resource, which provides access to numerous services to help individuals’ complete educational goals, build personal relationships, master communication skills, and explore varied career options in the workforce. Dedicated to quality support service, this program increases the emotional, social, and economic well-being of all participants.

Class offerings include:

• Managing Life Transitions I: Personal & Professional Development
• Managing Life Transitions II: Relationships
• Anger Management
• Back to School
• Marriage and Pre-Marriage Workshops

Additional Turning Point Services:

Professional Clothing Source, GED referrals, mentoring, referrals to community and campus resources, and reduced tuition for low-income individuals who qualify.

Tutoring & Academic Skills Services

See University College.

UCCU Center

• Office: EC 012
• Telephone: 801-863-8768

The UCCU Center is a multipurpose facility serving the University and the community. The UCCU Center hosts a variety of local and special performances, sports events, educational seminars, concerts, conventions, trade shows, lectures and other community gatherings.

Some events that are hosted here include basketball games, circus performances, business trade shows and expos as well as various types of concerts. The events center is an excellent choice for hosting any kind of event.

Athletics

The mission of UVU Athletics is to provide a wide range of athletic programs that are highly competitive and nationally recognized on a consistent basis. The department seeks to provide the individual athlete with the opportunity to improve athletic skills and abilities while obtaining an exceptional quality education with the best facilities and coaching staff available, to benefit the athlete in future academic, athletic, and vocational endeavors. Each student-athlete is required to be in good standing academically and making progress toward graduation with a bachelor degree according to NCAA requirements.
The Wolverines compete at the NCAA Division I level and currently are members of the Western Athletic Conference. UVU offers the following NCAA Division I sports: Baseball, Softball, Men’s and Women’s Basketball, Men’s and Women’s Cross Country, Men’s and Women’s Golf, Men’s and Women’s Indoor and Outdoor Track and Field, Men’s and Women’s Soccer, and Women’s Volleyball.

For more specific information regarding any sport or team, please call our Athletic Department Office at 801-863-8998, or look us up on the internet at: wolverinegreen.com.

Cheerleaders & “THE WOLVERINE”

The UVU Cheerleaders are a large part of promoting fan involvement and enthusiasm at UVU athletic events. The squad consists of highly talented young men and women who perform stunting and tumbling routines.

The WOLVERINE is the school mascot who is also involved in crowd interaction and may be seen hanging from the rafters or dropping through the middle of the basketball hoop to excite fans.

Tryouts for these positions are held each spring, and specific information about tryouts may be obtained by calling Student Leadership and Activities at 801-863-8150.

Dance Team

The UVU Dance Team is comprised of 12-16 skilled dancers who perform regularly at UVU Athletic Events. The Team employs a wide range of styles and utilizes Jazz, Funk, and Lyrical Dance numbers, all choreographed by the team members and director. Tryouts are held each spring. For more information call Student Leadership and Activities at 801-863-8150.

UVU Clubs

- Office: SL 122
- Telephone: 801-863-8820

UVU Clubs connects students to UVU in a unique way that reflects each student’s individual interests and academic desires.

The Clubs Branch, also known as the ICC Executive Board, works with 100+ active clubs by facilitating club success on campus. Many clubs are very active on campus and have received local, state, and national recognitions.

By getting involved in a club, students have the opportunity to increase leadership, citizenship, and service skills that enhance UVU and the community. Students meet new people, develop skill sets, and most of all, have fun. For information on existing clubs and/or procedures for chartering a new club, look on the web at uvu.edu/clubs, or contact the UVU Clubs Office in SL 122.

Veteran Success Center

- Office: WB 100a
- Telephone: 801-863-8212
- E-mail: veterans@uvu.edu
- Web: uvu.edu/veterans

Veterans eligible for VA Education Benefits may obtain assistance at the Veteran Success Center located in the Woodbury Business Building. Veterans not receiving VA educational benefits are also encouraged to send their Military Transcripts or JST (Joint Service Transcripts) to the transcript office to begin the evaluation process.

Guideline for Enrollment and Progress

According to VA standards of progress, educational benefits will be paid for courses required for graduation in the student’s declared educational objective. Eligible persons will be required to maintain a 2.0 cumulative and semester GPA or higher and to actively and consistently pursue their declared educational objective. To receive Veterans Educational Benefits, students are required to attend class. Benefits will be terminated for non-attendance. This may cause an over-payment to the student. Some veterans receiving VA educational benefits must verify their attendance to receive their benefits. Please check with the Veteran Success Center for current procedures.

Veterans and dependents receiving grades of “UW” (unofficial withdrawal) or “W” (withdrawal) will have to reimburse the VA for any difference in pay, retroactive up to the beginning of the semester, unless they can report mitigating circumstances to the Department of Veterans Affairs. Benefits will not be paid for a course that is audited (AU).

New Military Connected Students

New students applying for VA educational benefits may be requested to submit to the UVU Veterans’ Service Coordinator either original or certified copies of the following documents: (1) VA claim (c) number, if applicable, and (2) Confirmation of VA.Gov application, (3) Certificate of Eligibility. This information is needed as soon as possible to ensure timely and accurate processing of benefits. UVU forms can be found online at uvu.edu/veterans. Official transcripts from all previously attended colleges or universities are required. The VA will not pay for any course the student has previously taken and successfully completed.

Continuing & Returning Military Connected Students

All continuing and returning military connected students must submit to UVU Veterans’ Service Office promptly after registering for the semester a Veterans’ Class Schedule Form that can be found online. This form must be submitted each semester to indicate that the student requests to receive educational benefits for that semester. Please be aware that adding and dropping classes may cause a debit with the Department of Veterans Affairs.

The Wee Care Center is designed to meet the childcare needs of student parents of UVU. First priority is given to single parents who are eligible for Pell Grants. The Wee Care Center also accepts married student parents who are also eligible for Pell Grants. Quality care is provided to children ages six weeks to twelve years. All services are based on a sliding scale. The Wee Care Center is NECPA accredited.

Other Important Student Information

Student Right to Know

Utah Valley University hosts information regarding the Student Right-to-Know and Campus Security Act of 1991 on the HEA Student Consumer Information website. The Student Right-to-Know Act of 1991 requires all colleges and universities participating in Federal Student Aid Programs to disclose campus security policies, crime statistics, and information on students receiving athletically-related student aid, graduation rates, and other basic information about the University. To access a copy of the current Campus Security Report please visit www.uvu.edu/police.

Alcohol, Tobacco & Drugs

Utah Valley University, historically and at present, seeks to encourage and sustain an academic environment that promotes the health, safety, and welfare of all members of its community. In keeping with these objectives, alcoholic beverages, unlawful drugs, or other illegal substances shall not be consumed, used, carried, sold, or unlawfully manufactured on any property or in any building owned, leased, or rented by UVU, or at any activity sponsored by the University. (UVU Policy 157)

Any individual known to be in violation will be subject to University disciplinary action and to substantial legal sanctions pursuant to Local, County, State and Federal laws.

Smoking is prohibited in all University buildings and concourses. (UVU Policy 158)
All students can access a copy of the University Drug Policy online each semester at www.uvu.edu/wellness/aboutus/drug-policy.html. It explains the policy and University sanctions that may follow as a result of inappropriate drug and alcohol use and the known health risks associated with inappropriate use.

Confidentiality of Records Policy

Utah Valley University is concerned for the confidentiality of student academic records, and a reasonable balance between the obligation of the institution for the instruction and welfare of the student and its responsibility to society. The University will make every effort to maintain student academic records in confidence by keeping information from individuals who are not authorized to receive it or who might use it for illegitimate purposes. The policy also reflects the efforts of the University to comply with the provisions of the Family Educational Rights and Privacy Act of 1974.

Upon presentation of appropriate identification and under circumstances which preclude alteration or mutilation of records, students will be able to inspect all records relating to themselves which are not considered by the University to be private records of University Personnel. A student is entitled to an explanation of any recorded data and may initiate action leading to a hearing, if necessary, to correct or expunge information he or she considers inaccurate or misleading.

Faculty and administrative officers who have a legitimate need to use student records will be allowed access to such records, as needed without prior permission from the student. A request from an educational institution to which the student has applied for admission, or from an institution or agency, from which the student is seeking financial assistance will be granted without written permission of the student. Similarly, data will be furnished to university accrediting bodies and governmental officials without written permission of the student.

No student information other than directory information will be given to any third party (except those mentioned above) without written consent of the student, and then only those records accessible to the student. The term party is construed to include parents, employers, government agencies, or any other people or organizations. Parents or guardians may have access to grade reports of a student’s activity if the parents establish to the satisfaction of the University that they are providing one-half or more of the student’s support. Court orders and subpoenas for records will be referred to and acted upon according to the directions of the Registrar. The University will make a reasonable effort to notify the student prior to release of information in response to subpoenas or court orders prior to actual submission of the material.

Directory information will be released to news media and to others upon request.

Directory information is defined as follows:

- Name of student
- Student identification number
- Telephone number of student
- University student email address
- Photographs
- Participation in officially recognized activities and sports
- Weight and height of members of athletic teams
- Hometown city and state of student
- Verification of current enrollment
- Dates of enrollment
- Degrees conferred, dates, major field of concentration and honors received

Students may request, at any time, through the University Registrar’s office.

Civil Rights

Utah Valley University does not discriminate on the basis of race, color, religion, national origin, sex, sexual orientation, gender identity, gender expression, age (40 and over), disability, veteran status, pregnancy, childbirth, or pregnancy-related conditions, citizenship, genetic information, or other basis protected by applicable law in employment, treatment, admission, access to educational programs and activities, or other University benefits or services. The following office has been designated to handle inquiries regarding non-discrimination: EOAA/Title IX – 801-863-5704 – 800 W University Pkwy, Orem, 84058, Suite BA 203.

Complete policies and procedures regarding Civil Rights (UVU Policies 152, 153, 154, 157, 158, 160, 161, 162, 165) can be found at www.uvu.edu/policies, then click on Policy Manual.

Policy

The University prohibits all forms of protected class discrimination, harassment, and retaliation that violate Title VII of the Civil Rights Act of 1964 (Title VII), Title IV of the Higher Education Amendments Act of 1972 (Title IV), Title VI of the Higher Education Amendments Act of 1972 (Title VI), or related applicable laws. The University shall respond promptly and effectively to reports of protected class discrimination, harassment, and retaliation and shall take appropriate action to stop and prevent the recurrence of such conduct on the complainant and/or the university community.

Prohibited Conduct

Violations of policy 165 include acts of protected class discrimination, harassment, and retaliation within the meaning of Title VII, Title IV, Title VI, or related applicable laws. The University shall respond promptly and effectively to reports of protected class discrimination, harassment, and retaliation and shall take appropriate action to stop and prevent the recurrence of such conduct on the complainant and/or the university community. The University shall take steps to prevent retaliation and shall take strong, responsive action to threats or acts of retaliation. Individuals who, in bad faith, deliberately make false or malicious accusations of violation of this policy shall be subject to disciplinary action, up to and including termination of employment and/or expulsion from the University. A finding of no violation by the investigator(s) does not in itself constitute proof of a false or malicious accusation. The University may discipline any person who is found to have violated this policy.

Freedom of Speech and Peaceful Assembly

Policy
Introduction

Because free expression and the free exchange of ideas are central to the goals of a university, Utah Valley University is committed to the principles of free speech and assembly guaranteed by the United States Constitution and the Utah Constitution, and in accordance with generally accepted concepts of academic freedom. The University is committed to protecting and enhancing the free exchange of ideas and to artistic expression, the right to free speech, and academic freedom in the University and on the university campus without prior restraint or censorship, subject to limitations on unlawful/unprotected speech and to clearly stated, reasonable, and nondiscriminatory rules regarding time, place, and manner.

Preparation Strategies

• Plan your peaceful assemblies through the Dean of Students Office
• Reserve an appropriate location from the list below
• Schedule appropriate amplification, if necessary
• Contact University Police for traffic and crowd control, if necessary
• Post fliers and/or cardboard signs according to the University Signage Policy
• Pay rental charges, if required
• Agree not to disrupt the educational process of the University

Prohibitions

• Disruption or obstruction of university functions, organized meetings, or other assemblies in such a way as to invade the rights of others to assemble and the rights of speakers to free expression
• Violence
• Assemblies inside buildings where minors or vulnerable populations are predominantly present
• Damage to University or private property
• Use of administrative or academic offices
• Jeopardizing public order or safety
• Interference with entrances and exits to buildings or the normal flow of pedestrian or vehicular traffic
• Interference with classes and teaching, and activities related to teaching or research

Penalties

Persons violating the time, place, and manner restrictions relating to protests and demonstrations may be subject to arrest or other action authorized by law after notice is given of the restrictions being violated and the personas refuse to cease and desist. Student violations of UVU Policy 541 Student Code of Conduct may face disciplinary action.

Locations Appropriate For Peaceful Assembly

Locations are subject to availability; some locations may not be available at all times due to previously scheduled engagements. Speakers may speak in any outdoor area, as long as such speech does not violate time, place, and manner restrictions in UVU policy 161 section 4.8.6.

Locations include rooms inside the Sorensen Student Center, Grand Ballroom, Theater, Centre Stage or meeting rooms; Athletic fields/Lawn areas; Events Center: Arena, or Presidential Level; Student Life and Wellness Center Plaza; and Pope Science Courtyard

Scheduling

Although it is not necessary for persons planning protests, demonstrations, or speakers to obtain prior permission from the University, the University encourages such personals to contact the campus Event Services to reserve or schedule a place in advance to ensure availability.

• UVU Event Services, SC 103, 801-863-8612
• Events Center Scheduling, EC Concourse, 801-863-8767

Sound equipment shall be used only at volume levels that so not disrupt or disturb teaching, research, or other duly authorized meetings or activities at the University, and in accordance with city ordinances.

Utah Safety Law

In 1965 the Utah State Legislature passed a law requiring every student, teacher, and visitor in any public or private school to wear industrial quality eye protection devices while participating in or observing the following: industrial educational activities involving hot or molten metals; operation of machinery or equipment that may throw particles of foreign matter into the eyes; heating, treating, tempering, or kiln firing of industrial materials; chemistry or physics laboratories when using caustic, explosive, or hot chemicals, liquids, or solids.

Tuition & Fees

• Bursar’s Office/UVU Cashier
  • Located: BA 108
  • Telephone: 801-863-7200
  • Fax: 801-863-8787
  • E-mail: bursar@uvu.edu
  • Hours:
    • Monday, Thursday, Friday 8 a.m. - 5 p.m.
Tuition & Fees Policy

Tuition and student fees are established by the Utah State Board of Regents. University Policy regarding payment of tuition and fees states that all tuition and fees assessed at the time of registration are due and payable. This policy applies to all registration periods. Tuition and other charges are subject to change without notice. Please check current policies, procedures, tuition and fee tables, payment deadlines, and other important information at uvu.edu/registration.

Early registration not covered by Financial Aid or paid in full by the published payment deadline may be purged (dropped) for non-payment. After the published deadline, Utah Valley University will not drop courses for non-payment or non-attendance. Students who change their mind are responsible to drop their own classes or file a Leave of Absence. Filing a Leave of Absence does not absolve a student of any financial obligation to the University for tuition or other charges owing or repayment of a financial aid disbursement. Students must drop or withdraw by the published 100% Refund Date or they will be responsible to pay the total tuition and fees owed. For exact refund and drop deadlines, please refer to the Registration Dates and Deadlines at uvu.edu/registration.

Students who default on all or any portion of their tuition and fees will be suspended from further registration and records activity at UVU until their accounts are paid in full. Past due tuition accounts may be reported to a Nationwide Credit Reporting Agency, and/or turned over to an outside collection agency for collection.

Tuition Surcharge Policy

Students are encouraged to avoid accumulating credit hours beyond those needed to successfully complete their identified program of study. A student may be charged the excess credit hour surcharge for credit hours in excess of 125% of a student’s program of study. The surcharge amount for resident students is double the current year’s resident tuition rates for the number of credit hours taken. Non-resident students will continue to pay non-resident tuition.

For further information regarding this policy, please contact your advisor or the Graduation/Transfer Services Office.

Dropping/Withdrawing from Courses

When students enroll in a course, they are reserving a seat in the class. If a student decides not to take a class, it is the responsibility of the student to drop the course before the 100% Refund Deadline. Dropping the class before this deadline removes the charges from the student's account and allows other students to register. Charges for classes dropped after the 100% Refund Period deadlines will remain owing and will not be credited back to the student's account balance.

Student Financial Responsibility

Before students can register for classes they must review and agree to the terms and conditions outlined in the Student Financial Responsibility Agreement, then review and update their address and other demographic information. It is important that students carefully update their demographic information as the University periodically sends bills, refund checks, and other important correspondence through the mail.

The Student Financial Responsibility Agreement (SFRA) includes agreements to pay tuition and fees, requires adherence to payment and withdrawal deadlines, outlines the consequences of delinquencies, and presents required financial aid consents. It also provides students an opportunity to consent to electronic delivery of their 1098-T Tax Form. The following is a brief description of terms included in the SFRA. To view the SFRA document in full, visit uvu.edu/cashier/sfra.html.

- **FINANCIAL RESPONSIBILITY:** I agree to pay all tuition, fees, and other related costs that result from my registration and/or future drop/add activity and understand that acceptance of these terms constitutes a promise to pay agreement.
- **DROPPING/WITHDRAWING FROM COURSES:** I understand and agree it is my responsibility to drop my own classes if I decide not to attend and further understand that I must drop my classes and/or file a Leave of Absence before the 100% Refund Deadline or I will be responsible for all tuition and fees.
- **CONSEQUENCES OF DELINQUENT ACCOUNT/COLLECTION:** I agree to pay all charges by the published deadlines and understand the consequences of delinquencies on my account including late payment charges, registration holds, and possible collection fees.
- **COMMUNICATION:** I understand all correspondence from Utah Valley University will be sent to the student’s myUVU email account (including my billing statements) and therefore I am responsible for reading the e-mails I receive from UVU on a timely basis. I agree to keep my contact information current with UVU and further agree to allow Utah Valley University and its agents to contact me at any address, telephone, or cell phone number that I provide now or in the future.
- **FINANCIAL AID DISBURSEMENTS:** I understand that if I am expecting Financial Aid, I am responsible to follow up and ensure I have met all requirements to receive it, and acknowledge that I may be charged a late fee if my Financial Aid has not disbursed by the Late Fee Deadline. I further acknowledge that aid is contingent upon my enrollment and attendance in each class.

Tuition Refund Policy

The tuition refund policy is established by the Utah State Board of Regents and amended by each college or university to fit their programs. Utah Valley University refunds to students who withdraw from school or drop classes as follows:

**Semester:**

- Through the 100% refund date published on the Student Timetable....100%
- After the 100% refund date published on the student Timetable....0%

Exact dates for semester, block, and weekend classes can be found at uvu.edu/schedule.

Students must drop classes or completely withdraw by the published 100% Refund Deadline in order to have the charges removed from their account. Students who withdraw after that date will not receive a refund; if they have not paid, they will continue to owe the University for these charges and will be subject to collections procedures if left unpaid.

Changes in enrollment may affect Financial Aid eligibility and amounts received. Financial Aid awards may be revoked when dropping courses, thus increasing the amount owed.
Introduction

A Petition to the Refund Policy Form can be obtained online through myUVU or from the Office of the Registrar.

State-Mandated Refund Policies

Students who are living in the following states while actively participating in UVU courses will receive refunds as designated by the state departments of education.

New Mexico

5.100.3.11 PAYMENT AND REFUNDS FOR TUITION:

A. Cooling off period: Any student signing an enrollment agreement or making an initial deposit or payment toward tuition and fees of the institution shall be entitled to a cooling off period of at least three work days from the date of agreement or payment or from the date that the student first visits the institution, whichever is longer. During the cooling off period the agreement can be withdrawn and all payments shall be refunded. Evidence of personal appearance at the institution or deposit of a written statement of withdrawal for delivery by mail or other means shall be deemed as meeting the terms of the cooling off period.

B. Refunds prior to commencing instruction: Following the cooling off period but prior to the beginning of instruction, a student may withdraw from enrollment, effective upon personal appearance at the institution or deposit of a written statement of withdrawal for delivery (as defined above), and the institution shall be entitled to retain no more than $200 in tuition or fees as registration charges.

C. In the case of students enrolling for non-traditional instruction, a student may withdraw from enrollment following the cooling off period, prior to submission by the student of any lesson materials and effective upon deposit of a written statement of withdrawal for delivery (as defined above) and the institution shall be entitled to retain no more than $200 in tuition or fees as registration charges or an alternative amount that the institution can demonstrate to have been expended in preparation for that particular student's enrollment.

D. Refunds following commencement of instruction: An institution registered with the department shall adhere to either the following tuition refund policy or to a policy established by the institution's state of residence or accrediting body.

E. A student may withdraw after beginning instruction or submitting lesson materials, effective upon appearance at the institution or deposit of a written statement of withdrawal for delivery (as defined above), and the institution shall be entitled to retain no more than $200 in tuition or fees as registration charges or an alternative amount that the institution can demonstrate to have been expended in undertaking that particular student's instruction plus a pro rata amount of any additional tuition and fees earned and paid according to the following schedule:

<table>
<thead>
<tr>
<th>Date of withdrawal as a percent of the enrollment period for which the student was obligated</th>
<th>Portion of tuition and fees obligated and paid that are eligible to be retained by the institution</th>
</tr>
</thead>
<tbody>
<tr>

<tr>
<td>thereafter</td>
<td>100 percent</td>
</tr>
</tbody>
</table>

F. "Enrollment period for which the student was obligated" means a quarter, semester, or other term of instruction followed by the institution which the student has begun and for which the student has agreed to pay tuition.

G. Tuition/fee refunds must be made within 30 calendar days of the institution receiving written notice of a student's withdrawal or of the institution terminating enrollment of the student, whichever is earlier. Upon request by a student or the department, the institution shall provide an accounting for such amounts retained under this standard within five work days.

H. The institution's payment and refund policies shall be clearly articulated in the institution's catalog and as part of all enrollment agreements.

Special Lab & Course Fees

Some classes require fees in addition to standard tuition and fees. The online class schedule indicates such lab, course, and materials fees.

Late Payment Fee (Late Fee)

Late Payment Fees are assessed each Wednesday night throughout the semester with a begin date according to the Student Timetable. Late fees are assessed on ALL unpaid account balances at 20%, not to exceed $200.00 per semester, including accounts awaiting Financial Aid.

Late Registration Fee (Late ADD Fee)

Special approvals are required to register late for a class. The length of time for each late registration period is relative to each part of term and is governed by the Student Timetable. Students who add classes during the late registration period must finalize the process by paying for appropriate late registration fees in addition to their tuition/fees according to the published dates on the Semester Student Timetable.
Introduction

At the Cashier Windows

- Cash
- Check
- PIN-based debit

Online through Tuition Payment Plus

- Electronic Checks

Electronic Check payments are free of charge and can be made online only with the bank routing number and account number. Payments can be made from a personal checking or savings account. Corporate checks, credit card checks, home equity, traveler’s cheques, etc. are not accepted. Electronic check payments are processed through Tuition Payment PLUS, accessed through myUVU. Any check returned by the payor’s bank for any reason, will be considered a “dishonored” check and all penalties for a “dishonored” check will be applicable.

- Credit Cards

Payments with credit cards are accepted online only and will be charged a non-refundable service fee of 2.85% (minimum $3.00). Most major credit cards are accepted including VISA, MasterCard, American Express, and Discover.

Tuition Payment Plan

The tuition payment plan allows students to pay installments on their tuition and fees over the course of the semester with a minimal fee to enroll. If students enroll before the published Payment Deadline dates, their classes will not be dropped for nonpayment. In addition, enrollment in the payment plan before the Late Fee Deadline will prevent the 20% late fee from being assessed. More information about the payment plan can be found at https://www.uvu.edu/collections/tuition.html.

Check Cashing Procedures

The University does not accept two-party checks. Checks written to UVU must have the student’s UV ID number, and the payor’s address and phone number on the face of the check.

Checks made for an amount larger than the total tuition and fees due will not be accepted.

Dishonored Checks

A dishonored check is any check returned by the payor’s bank for any reason, including, but not limited to, insufficient funds, no account, bad account, stop payment, unauthorized account, refer to maker. Checks written that later have a “stop payment” placed upon them will be considered as “dishonored”.

A service charge will be assessed on each dishonored check unless the payor can document in writing from the bank that it was a bank error.

Third Party/Sponsored Payments

Students are responsible for ensuring that appropriate documentation for a third-party or sponsored payment is submitted to the Accounts Receivable Office prior to the start of classes each semester. If paperwork cannot be submitted to the Accounts Receivable Office by the published Payment Deadline, students should consider enrolling in the Tuition Payment Plan to avoid having their classes purged (dropped) for nonpayment.

Students who are sponsored by a third-party must comply with the terms of the sponsor agreement and verify that all tuition and fees charges are paid by the sponsor. Any balance not paid by the sponsor remains the student responsibility and is subject to all payment deadlines and late fees.

If a student adjusts their registration schedule after their authorization has been received by UVU, it is the student’s responsibility to verify that any course or tuition and fee changes will be paid by the sponsor and that these changes are reported to the Accounts Receivable office for proper processing.

If the sponsor does not provide funding by the end of the semester, the student will be responsible for payment of tuition and fees.

**University Police**

**Crime Awareness & University Police**

The safety and well-being of our students, faculty, and staff are a high priority at Utah Valley University. Although the UVU campus is a relatively safe place, we are not immune to those problems that beset all urban citizens, including problems related to public safety and law enforcement.

The Utah Valley University Police Department (UVUPD), a police force fully accredited by the State of Utah, is charged with protecting your safety and property on our campuses. The following outlines the services, policies, and programs which help us to meet that challenge.

The full support and cooperation of the entire University community is required to allow for the pursuit of knowledge in a safe and secure environment.

Utah Valley University police provide several important services to a diverse University community consisting of over 41,000 students and supporting faculty and staff by providing 24 hour-a-day police patrol and security protection for the benefit of all University properties, employees, students and visitors on campus.

Utah Valley University police officers have the same full police powers and responsibilities as do officers in other Utah law enforcement agencies.

All UVUPD police officers are trained at Utah State Police Academies and each year receive a minimum of forty (40) hours of in-service and specialized training in crime prevention and awareness, first aid, firearms, defensive tactics, legal updates, evidence gathering, traffic control and traffic accident investigation, follow-up on criminal and civil investigations, etc.

Several patrol methods are used to secure and patrol University properties, including uniformed and plain clothes, vehicle, and foot patrol. UVU police officers work closely with outside agencies in the investigation of crimes.

University police officers are also responsible for providing a full range of public safety services to the University community, including the handling of all crime reports, investigations, traffic accidents, enforcement of laws regulating underage drinking, the use of controlled substances, weapons violations, and enforcement of all applicable State, County and local laws, in addition to all other incidents such as medical and fire emergencies which require police assistance.

University police officers prepare and submit reports of incidents brought to their attention. As a courtesy, they share information on arrests and serious crimes with any law enforcement agency having a legitimate need to know.
Introduction

The serial numbers of all vehicles, office equipment, and personal property stolen from our University campuses are reported nationwide through the National Crime Information Center (NCIC).

UVUPD encourages the prompt and accurate reporting of crimes to our office by victims, witnesses or any other persons having knowledge that a crime has been committed on our campus.

The UVU Dispatch office is staffed 24 hours a day, 7 days a week, 365 days a year and can be reached by calling 801-863-5555 or dialing 9-1-1.

The University Police office is located in Gunther Trades 331.

There are emergency telephones located in each Orem Campus elevator. When activated these phones will automatically put you in direct contact with the elevator company.

Crime Awareness/Crime Prevention

An important function of UVUPD is making our campus users aware of how to avoid becoming a victim of crime.

If requested, one of our University police officers will talk to groups regarding Crime Awareness/Crime Prevention.

UVUPD officers will also provide escort services to those who desire assistance in safely getting to their car.

CAMPUS Safety Awareness Programs

The Chief of Police/Director of Public Safety and other staff members are involved in the University Safety Committee which makes periodic security and safety surveys of campus facilities.

Grounds & Building Safety

The University Facilities and Planning/Plant Operations Departments maintain college buildings and grounds with a concern for safety and security. These facilities are inspected regularly; plant staff attempt to make prompt repairs and respond 24 hours-a-day to reports of potential safety and security hazards, such as broken windows and locks. The University Police Department assists maintenance personnel by reporting potential safety and security hazards. Students, as well as employees, are encouraged to call Facilities Planning and Maintenance (801-863-8130) to report any hazard.

Representatives from University Police/Department of Public Safety and Facilities Planning routinely inspect the entire campus to review lighting and environmental safety concerns.

Crime Statistics for the University Community

The University Police Department submits a monthly Uniform Crime Report to the Federal Bureau of Investigation (FBI) through the Utah Bureau of Criminal Identification. UCR data is available online through BCI at publicsafety.utah.gov/bci.

UVU also submits crime data to the Department of Education. For a more detailed breakdown, see www.uvu.edu/police.

A glossary of offenses is available at ope.ed.gov/security/index.aspx.

OFF-CAMPUS STUDENT RESIDENCES

There are numerous privately owned rental units off-campus in which students reside. The University encourages students to locate and investigate off-campus living units whose owners have agreed to exercise reasonable efforts to maintain rental facilities in good repair including properly functioning locks on doors and windows. Some of the large apartment complexes provide their own night security watch.

THE UNIVERSITY CANNOT AND DOES NOT GUARANTEE OR REPRESENT THAT OWNERS AND MANAGERS ALWAYS MEET OUR SUGGESTED PHYSICAL CRITERIA. Thus, students are individually responsible to carefully choose a safe and secure off-campus apartment.

Crime prevention and crime awareness programs emphasizing security and what students and employees can do to help themselves from becoming a victim are provided free, upon request, by contacting local police agencies or the University Police Department, telephone 801-863-5555.

The University Police Department is responsible for policing the Utah Valley University campuses. The respective city police departments are responsible to police the surrounding areas where our students may choose to live.

The University Police Department has a mutual working relationship with all Local, County, Federal and any other State law enforcement agencies in Utah County (Utah Valley region), providing each department as requested, or as becomes necessary, with patrol assistance, information exchange, and back up.

Skateboards, Roller Blades, Hover Boards, Roller Skates, Bicycles, & Motorcycles

Skateboards, roller blades, hover boards, roller skates, and bicycles are allowed on campus exterior locations for transportation only. All Utah State traffic laws and University administrative rules regarding the use of such devices must be obeyed at all times. NO stunts or tricks are allowed. Motorcycles and like devices shall not be operated on sidewalks without the approval of the Chief of Police or the Facilities Director, unless it is a university owned vehicle responding to an emergency situation.

Sanctions

Violations of this policy may be enforced against students, employees and visitors of Utah Valley University by notices or citations which may be processed and settled through the police office or court of jurisdiction whichever is appropriate.

Other Facilities Utilized by UVU
UVU has satellite offices located in several communities throughout Utah such as: Spanish Fork, Provo, Lehi, and Heber City. University Police provide law enforcement and crime prevention services for these areas as needed. Routine patrol coverage is by the appropriate local law enforcement agencies. UVU PD works closely with the local police agencies in those areas.

Please feel free to direct any comments and or questions that you may feel have not been answered in this document to the office of the Director of Public Safety.

College of Engineering and Technology

The mission of the College of Engineering and Technology is to prepare students for successful careers or advanced study in a dynamic, technology-based, global environment. The college utilizes an applied learning environment to provide the needed technical knowledge, skills, and scholarship that enable students to excel in their chosen profession. In addition, the college is committed to mutually enriching relationships with alumni, government, regional industry—and beyond, to supplement the classroom, to provide real-world experience, and to foster a desire for lifelong learning.

Departments

• Department Chair: Sid Smith
The mission of the UVU Department of Architecture & Engineering Design program (AED) is to prepare future professionals to engage in diverse design, modeling, and drafting, architecture, surveying, and mapping disciplines. The department program cultivates an elevated commitment to work ethic, quality, productivity, and service. Successful graduates will be dynamic self-starters and lifelong learners who are serious about work and accept the stewardship of designing the future.

The mission of the Computer Science program at Utah Valley University is to qualify students to function as professional computer scientists, computer engineers, and software engineers in the workplace, and to enter appropriate graduate programs. Graduates will be committed to lifelong learning and empowered with the intellectual and ethical foundations necessary to make responsible decisions.

- **Office:** GT 610a
- **Telephone:** 801-863-8167
- **Email:** Robert.warcup@uvu.edu

- **Administrative Support:** Tracy Eubanks
- **Office:** GT 610d
- **Telephone:** 801-863-7405
- **Email:** tracy.eubanks@uvu.edu

The mission of the Clyde Construction Management Institute is to build on a foundation of engaged learning that fosters integrity, creativity and scholarly work. Success is measured by learners who leave professionally prepared to build better communities through service, leadership and lifelong learning.

Culinary Arts Institute

- **Department Chair:** Troy Wilson
- **Office:** CL 104
- **Telephone:** 801-863-7048
- **Email:** TWilson@uvu.edu

- **Administrative Support:** Mary Schumacher
- **Office:** CL 102
- **Telephone:** 801-863-8914
- **Email:** MaryS@uvu.edu

- **Financial Administrative Support:** Marsha Peterson
- **Office:** CL 102
- **Telephone:** 801-863-6825
- **Email:** petermar@uvu.edu

The mission of the Culinary Arts Institute is to provide students with the knowledge and skills necessary to enter the culinary profession as food service managers, restaurant and hotel management, and related fields. The program is designed to prepare students for careers in the food service industry by providing a comprehensive education in kitchen management, culinary arts, and related fields.

The mission of the Culinary Arts Institute is to provide students with the knowledge and skills necessary to enter the culinary profession as food service managers, restaurant and hotel management, and related fields. The program is designed to prepare students for careers in the food service industry by providing a comprehensive education in kitchen management, culinary arts, and related fields.
Colleges and Schools

The Culinary Arts Institute is a practical teaching institute that provides opportunity and promotes student success while meeting regional educational needs. Our program provides students with a blend of theoretical, practical, and real-world educational experiences through scholarly, creative and engaged industry-based learning. We are committed to excellence and strive to provide a learning environment that maximizes student talent and potential both personally and professionally.

Digital Media

- Animation & Game Development
- Digital Audio
- Digital Cinema Production
- Web Design & Development

  **Department Chair:** Kim P. Brown
  - Office: CS 526j
  - Telephone: 801-863-6192
  - Email: kim.brown@uvu.edu

  **Administrative Support:** Kim Shaw
  - Office: CS 526
  - Telephone: 801-863-8485
  - Email: kimsuvu.edu

Digital Media (DGM) resides at the intersection of technology and creative expression. While digital technology provides myriad means of communication, without creative form and content that enriches humankind, the communication has no value. The objective of the Digital Media Department is to create an immersive learning environment where students gain the skillsets that will make them not only competent with current technologies, but also prepared to pioneer new communication approaches for the future. DGM faculty dedicate themselves to a firm grounding in the fundamentals of human communication while applying that foundation to the most advanced technology.

Engineering

- Civil Engineering
- Computer Engineering
- Electrical Engineering
- Mechanical Engineering
- Pre-Engineering

  **Department Chair:** Afsaneh Minaie
  - Office: CS 425j
  - Telephone: 801-863-6391
  - Email: minaieaf@uvu.edu

  **Administrative Support:** Janele Williams
  - Office: CS 427k
  - Telephone: 801-863-8373
  - Email: janelew@uvu.edu

The mission of the Engineering Department at Utah Valley University (UVU) is to provide a strong engineering foundation with a hands-on component to prepare professionally competent engineers of integrity who serve the engineering needs of the region and the globally interdependent community. The B.S. in Civil Engineering, Computer Engineering, Electrical Engineering, and Mechanical Engineering programs use the ABET’s Student Outcomes 1 through 7.

Engineering Technology

- Electrical Automation & Robotics Technology
- Mechatronics Engineering Technology

  **Department Chair:** Tyler Bird
  - Office: CS 612j
  - Telephone: 801-863-6232
  - Email: tbird@uvu.edu

  **Administrative Support:** Danielle Butler
  - Office: CS 632
  - Telephone: 801-863-5571
  - Email: Danielle.butler@uvu.edu

The Mission of the Engineering Technology Department is to prepare graduates to work in high demand, very technical, vastly diverse, automated industries that provide products and services to keep our state and national economy running. The Mechatronics graduates are focused on designing the newest machines and automated systems. The Electrical Automation and Robotics Technology graduates keep industry running by fixing, adapting, programming, integrating and maintaining highly technical automated machines and systems. The Engineering Technology Department uses a hands-on engaged learning approach, utilizing real industrial equipment.
Information Systems & Technology

- Business Marketing Education
- Cybersecurity
- Information Management
- Information Systems
- Information Technology

**Department Chair:** C. Paul Morrey  
Office: CS 601g  
Telephone: 801-863-6383  
Email: Paul.Morrey@uvu.edu

**Administrative Support:** Cheryl Levi  
Office: CS 601  
Telephone: 801-863-8182  
Email: Cheryl.Levi@uvu.edu

The mission of Information Systems & Technology Department is to offer stackable degree programs to provide students with engaged learning opportunities to help students develop technical, communication, managerial, and lifelong-learning skills. The department’s programs prepare students for opportunities in information systems, information technology and security, information management, and education.

Technology Management

**Department Chair:** Anne Arendt  
Office: GT 616a  
Telephone: 801-863-7175  
Email: Anne.Arendt@uvu.edu

**Administrative Support:** Saphraine Aguirre  
Office: GT 616  
Telephone: 801-863-6316  
Email: saphrainea@uvu.edu

The mission of the Technology Management Department is to provide academic degrees in technical and operations management relevant to the global economy. Our courses provide appropriate knowledge and skills through engaged learning, hands-on activities, scholarship investigation, ethical responsibility, creativity, and lifelong learning. Students will be prepared for professional careers in management and entrepreneurship as well as provided with a strong foundation for advanced academic study. Our graduates will also be prepared to contribute to their employers and communities through leadership, service, and a concern for the environment.

Transportation Technologies

- Automotive Power Sports
- Automotive Technology
- Collision Repair Technology
- Diesel Mechanics Technology
- Street Rod

**Department Chair:** Don Wilson  
Office: SA 325  
Telephone: 801-863-8124  
Email: wilsondo@uvu.edu

**Administrative Support:** Katreena Davis  
Office: SA 325  
Telephone: 801-863-7022  
Email: daviska@uvu.edu

The mission of the UVU Transportation Technologies Department is to conduct academic and applied teaching. The training programs provide qualified employees for entry level positions in all categories of the Automotive, Collision / Refinish, and Diesel repair technology industries. These programs will afford students the opportunity to attain a one, two, and/or four-year degree at the completion of their training. The training provided will have an emphasis on basic skills and principles which will allow participants to adapt to new and ever-changing technologies. Current and foreseeable technology will be utilized in presenting and practicing basic performance skills.

College of Health and Public Service

The College of Health & Public Service (CHPS) provides rigorous professional training and educational opportunities that engage students and advance aviation, criminal justice, community health, dental hygiene, forensic science, law enforcement, emergency services, nursing, respiratory Therapy, and other related health and public service professions.
CHPS embraces student and community engaged learning that is at the core of UVU’s mission. Our goal is to provide professionally competent individuals who will not only provide communities within Utah with a population of highly trained people, but also leaders in their communities.

The College of Health and Public Service dean’s office is located at the Provo Airport in Hangar A (HA). Our address is 1155 Slide Line Drive, Provo, UT 84601.

Programs

For program descriptions, see individual departmental sections in this catalog or on the department webpages.

Allied Health

Dental Hygiene

• **Department Chair:** Dianne Knight
  • Office: HP 142d
  • Telephone: 801-863-6885
  • Email: Dianne.Knight@uvu.edu

The primary responsibility of the Dental Hygienist is the prevention of oral health problems. The dental hygienist is a licensed professional and a member of the dental team, responsible for providing preventative and therapeutic care and education for the control of oral disease. Providing dental hygiene care requires application of biological and psychosocial concepts of health and human functioning.

Respiratory Therapy

• **Program Coordinator:** Max Eskelson
  • Office: HP 142d
  • Telephone: 801-863-5897
  • Email: Max.Eskelson@uvu.edu

1. The main goal of the Respiratory Therapy Program at UVU is to graduate students with the skills necessary to pass their national testing and become a quality clinician and a respected member of the health care team.
2. The Respiratory Therapy Program at UVU will graduate practitioners with demonstrated competence in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains of Respiratory Care practice as performed by Registered Respiratory Therapists.
3. The Respiratory Therapy Program at UVU will foster and encourage deeper critical thinking skills in our students and graduates.
4. The Respiratory Therapy Program at UVU will prepare leaders in the field of Respiratory Care by including curricular content that includes objectives related to the acquisition of skills in one or more of the following: Management, Education, Research, Advanced clinical practice.

Aviation Science

• **Department Chair:** Randall Johnson
  • Office: HB 202a
  • Telephone: 801-863-7819
  • Email: Randall.Johnson@uvu.edu

The mission of UVU Aviation Science is to provide a superior educational experience which prepares students for successful careers and promotes responsible citizenship in a global aviation environment. Degrees are offered through technology-enhanced traditional classroom and innovative online delivery methods. Simulations and flight training are integrated with scholarly work to create a complete and well-balanced aeronautics program. The curriculum is developed through ties with industry to incorporate changing standards in technology and procedural advances. Our student-centered approach encourages leadership and engaged life-long learning. We emphasize public awareness and safety in aviation as our commitment to the community at large.

Criminal Justice/Law Enforcement

• **Department Chair:** Bobbi Kassel
  • Office: EN 115b
  • Telephone: 801-863-8489
  • Email: Bobbi.Kassel@uvu.edu
Center for National Security Studies

- **Director:** Ryan J. Vogel  
  - Office: CB 310j  
  - Telephone: 801-863-6891  
  - Email: Ryan.Vogel@uvu.edu

Law Enforcement Academy

- **Director:** John McCombs  
  - Office: EN 114a  
  - Telephone: 801-863-8062  
  - Email: John.McCombs@uvu.edu

The mission of the Criminal Justice department is to provide students with a complete understanding of both the theory and practice of the criminal justice system, forensic science field, and area of national security. The Criminal Justice department endeavors to expose students to crucial thinking skills, engaged learning and effective communication; engender creative problem solving skills that results from the ability to acquire and evaluate information; provide opportunities to navigate advanced technological systems combining theory with extensive hands-on practice using equipment currently used by professional practitioners; provide the opportunity for personal and social growth and to become awareness of the diverse cultural, historical, economic and political forces that shape our society.

Emergency Services

- **Department Chair:** Gary Noll  
  - Office: FS 202a  
  - Telephone: 801-863-7741  
  - Email: Gary.Noll@uvu.edu

The mission of the department of Emergency Services at Utah Valley University is to support emergency services, crisis and disaster relief through excellence and innovation in education, training, scholarship, and service.

Institute for Emergency Services & Homeland Security

- Under the direction of John Fisher  
  - Office: FS 120a  
  - Telephone: 801-863-7732  
  - Email: John.Fisher@uvu.edu

The mission of the Institute of Emergency Services and Homeland Security at Utah Valley University is to support preparedness, resiliency, and security disciplines through excellence and innovation in education, training, and scholarly research.

The Institute can collaborate with other institutions of higher education, as well as local, regional, national agencies, and private sector interests, in order to reach all target audiences identified by the Department of Homeland Security, as well as fill a much needed niche in higher education. Collaboration will allow us to work with other dimensions of a broader Homeland Security framework to plan for, create and implement local, regional and possibly national educational and training programs designed to prepare people with responsibilities for prevention, initial response, mitigation, and recovery of local, regional, and/or national security incidents.

Nursing

- **Department Chair:** Dale Maughan  
  - Office: HP 203x  
  - Telephone: 801-863-7411  
  - Email: Dale.Maughan@uvu.edu

The UVU Department of Nursing provides quality nursing education, helping students to cultivate knowledge, sound clinical judgment, and a foundation for lifelong learning, as they progress toward becoming competent, caring nurses in a complex and changing healthcare environment. Students learn patient-centered care, inquiry and reasoning skills, nursing roles and collaboration, and quality and safety principles, preparing them to work successfully in a variety of healthcare settings.

Physician Assistant Studies

- **Department Chair:** Karen Mulitalo  
  - Office: HP 102  
  - Telephone: 801-863-7982  
  - Email: Karen.Mulitalo@uvu.edu  
  - Website: uvu.edu/physicianassistant

Public & Community Health

- **Department Chair:** Sue Jackson  
  - Office: HP 101u  
  - Telephone: 801-863-8687  
  - Email: Sue.Jackson@uvu.edu

Public and Community Health graduates pursue a variety of careers, including health education, health promotion, and health services administration. Graduates are qualified to work in government health agencies and in private-sector settings, such as public health departments, health maintenance organizations, hospitals, clinics, and specialized health agencies such as the American Heart Association. An emphasis in School Health Education prepares students to teach health in secondary education.
Colleges and Schools

Public Service

- **Program Director:** Matt Flint
  - Office: HP 101t
  - Telephone: 801-863-5316
  - Email: MFlint@uvu.edu

The Master of Public Service (MPS) degree at UVU develops the next generation of public service administrators. The MPS offers students an applied and engaging public sector education with broad based knowledge, skills, and abilities in public service administration. The interdisciplinary curriculum focuses on managing, leading, and administering vital public services and public safety functions with an emphasis on ethical considerations, communications, strategic planning, public policy issues, and research methods.

Utah Fire & Rescue Academy (UFRA)

- **Director:** Brad Wardle
  - Office: FS 205c
  - Telephone: 801-863-7718
  - Email: bradley.wardle@uvu.edu
  - Website: uvu.edu/ufra

Utah Fire & Rescue Academy (UFRA) mission is to educate, train, validate, and support the fire and emergency services at the highest quality level possible.

College of Humanities and Social Sciences

- **Dean:** Steven Clark
  - Office: CB 509B
  - Telephone: 801-863-7435
  - Email: steven.clark@uvu.edu

- **Administrative Support:** Sara Ames
  - Office: CB 509
  - Telephone: 801-863-7435
  - Email: Sara.Ames@uvu.edu
  - Fax: 801-863-7383

- **Associate Dean, Academics:** Janet Colvin
  - Office: CB 509C
  - Telephone: 801-863-7282
  - Email: colvinja@uvu.edu

Programs

Behavioral Science

- Department Chair: Cameron John
- Office: CB 401d
- Telephone: 801-863-6377

Academic Advising Appointments: uvu.edu/besc/bescacademicadvising.html

The Behavioral Science department is a rigorous interdisciplinary program (Anthropology, Family Science, Psychology, Social Work, Sociology, Marriage and Family Therapy, Master of Social Work and Substance Use Disorder Counseling, Gerontology) that prepares students to make positive contributions in their academic, work, and community settings by developing their understanding of human functioning in various contexts. We promote and mentor student engagement with each other and with their academic, professional, or geographic communities in order to achieve essential learning outcomes.
Communication

• **Department Chair:** David Morin
  • Office: CB 502V
  • Telephone: 801-863-5509

The Utah Valley University Communication Department is shaping students to become the industry’s next top leaders in Journalism and Media Studies, Public Relations and Communication Studies through courses and engaged learning experiences that are theoretically-driven, innovative, and applied.

The department prepares students with the necessary skills to communicate visually, orally and through written documentation within the context demanded by the business, journalism, marketing, public relations world. Students are also equipped with a solid ethical foundation and an understanding of diversity, interdependence, and cultural perspectives in the global community.

English & Literature

• **Department Chair:** Brian Whaley
  • Office: CB 402v
  • Telephone: 801-863-6071

The Department of English and Literature provides an innovative and stimulating learning environment to help students broaden their cultural experiences, deepen and refine their abilities in critical thinking, and improve their skills in written and verbal communication. By offering courses, programs and activities in literature, creative writing, college-level composition, and technical communication, the department aims to foster an invigorating and diverse learning community that changes the ways students envision themselves and the world, thus making them more thoughtful and productive contributors to their communities. Students pursuing English studies gain invaluable workplace skills: they think more critically and creatively; they communicate clearly and logically; they comprehend the ways language defines and affects behavior, and they come to understand the complexity of human relations in various cultural and historical contexts.

History & Political Science

• **Department Chair:** Jay DeSart
  • Office: CB 203u
  • Telephone: 801-863-6314

In keeping with the University’s mission, the History and Political Science department is dedicated to providing students with a broad range of opportunities and experiences in general-education and discipline-specific courses in history and political science. Classes are taught in ways that foster critical thinking and analysis of complex issues and materials through lecture, reading, class discussion, and the development of written- and oral-presentation skills. The History and Political Science department strives to provide a reflective, multicultural, and international perspective.

Integrated Studies

• **Department Chair:** Wayne Hanewicz
  • Office: CB 311H
  • Telephone: 801-863-6343

The Integrated Studies Program is designed to allow student to customize their degree by combining two emphases and completing a major capstone project throughout their senior year integrating both disciplines of study.

Languages and Cultures

• **Department Chair:** Bryan Eldredge
  • Office: CB 310b
  • Telephone: 801-863-6257

The mission of the Department of Languages and Cultures at Utah Valley University is to prepare students to interact effectively in a global community by acquiring competent communicative skills, and developing sensitivity toward cultural differences. By engaging with linguistic and cultural artifacts such as history, literature, and contemporary social structures and systems, language and culture students learn to think critically and behave ethically as they mature in linguistic and cultural literacy. This department prepares students to enter the global workforce, further graduate studies and enjoy lifelong enrichment.

Philosophy & Humanities

• **Department Chair:** Leslie Simon
  • Office: CB 507b
  • Telephone: 801-863-8128

The UVU Department of Philosophy and Humanities is committed to the idea that critical thinking is the core of all academic disciplines. Our students engage with the intellectual underpinnings of the liberal arts curriculum. Humanities investigates those creative enterprises that make us most human: art, architecture, music, poetry, and other innovative and aesthetic media. Philosophy explores theoretical and practical questions about reality and human experience in the pursuit of truth and understanding. Students in both programs learn how to think critically, communicate clearly and persuasively, and adapt to new perspectives and cultural insights. Skills learned in philosophy and humanities are relevant and transferable to myriad professions and promote lifelong learning and intercultural awareness.
College of Science

The College of Science builds the scientific economy and scientific literacy of the Wasatch Front region and beyond. We carry out this mission by offering academic degrees, certificates, and courses, including service and general education course, and opportunities for collaborative research by students and faculty, in an atmosphere which encourages innovation and which creates opportunities for students, faculty, staff, and other stakeholders to attain their personal and professional goals.

Biology is a highly versatile degree, thanks to the variety of career paths open to Biology graduates. In addition to standard career options (healthcare, biotechnology, agriculture, education and environmental science) some biology graduates find employment in fields as diverse as scientific illustrator, public relations, governmental agencies, and non-profit organizations. With additional education, majors can pursue careers in law (medical/biotechnology patent attorney, forensic scientist), business (healthcare and agricultural industry management), engineering (biomechanical device development), and even aerospace. A degree in Biology can provide for career opportunities as limitless and evolving as life itself.

Chemists study the properties and reactions of matter. Chemistry bridges physics and materials science, the biological sciences, medicine, and earth and planetary sciences. Chemistry is a fundamental driver in the business and commerce sector of our society. Careers in chemistry are not only personally fulfilling; they enable individual contributions to society and the economy. Many chemistry graduates continue their studies with graduate work in various fields of chemistry, dental school, pharmacy school, and medical school.

Earth Science

- **Department Chair:** Nathan Toke
  - Office: PS 218
  - Telephone: 801-863-8117

  - Email: JCallison@uvu.edu

Earth Science degrees prepare students for careers such as development and management of natural resources, treatment of drinking water, mitigation of geologic hazards, work with geographical information systems (GIS), education, and basic scientific research. Our programs emphasize hands-on opportunities for students through local and international research and service projects; our department is at the forefront of student participation in meaningful research that takes them beyond the classroom. Our students learn to utilize diverse tools, ranging from hand-held compasses to survey-grade GPS equipment and cutting-edge geochemical analytical equipment. Many UVU Earth Science graduates enter the workforce directly after graduation, other pursue graduate studies; some find jobs that allow them to spend many hours in the outdoors, other find their niche in an office environment. Many students pursue graduate programs in geology, environmental science, and law.

Exercise Science & Outdoor Recreation

- **Department Chair:** Andrew Creer
  - Office: RL147d
  - Telephone: 801-863-8608
  - Email: andrew.creer@uvu.edu

- **Administrative Support:** Corrin Doyl
  - Office: RL 147
  - Telephone: 801-863-6318
  - Email: CDoyl@uvu.edu

Our courses and degree programs in Exercise Science and Outdoor Recreation balance theory with application. Our Exercise Science degrees prepare students for careers such as wellness coaching, cardiac rehab, and personal training. The Outdoor Recreation program prepares students for jobs with the U.S. Forest Service, the Utah Department of Natural Resources, and the U.S. Bureau of Land Management. Our Exercise Science degrees also qualify students to continue their education in many different graduate programs. Graduates have gone on to M.S. and Ph.D. programs in sports administration, kinesiology, biomechanics, sport nutrition, exercise physiology, biomechanical engineering, and pathokinesiology. Additionally, many students go on to excel in health-related graduate programs such as medical, dental, and pharmacy, physical therapy, occupational therapy, prosthetics or orthotics schools. Graduates from Exercise Science & Outdoor Recreation play an important role in the promotion of physical activity, recreation, fitness, health, wellness, and general quality of life.

Mathematics

- **Administrative Support:** Celena Patten
  - Office: LA 109
  - Telephone: 801-863-8650
  - Email: pattence@uvu.edu

Mathematics degrees can lead to a wide variety of careers: accounting, actuarial work, architecture, bioinformatics, climate science, computational biochemistry, computer animation, cryptanalysis, economics, education, aerospace, civil, electrical, environmental or mechanical engineering, forensic analysis, geographic information systems, health care, law, meteorology, robotics, population ecology, quantitative financial analysis, software engineering, and many more. In addition to these direct career applications, an understanding of mathematics facilitates careful reasoning, deep understanding, and creative thinking. Mathematical principles are used to develop, analyze, and optimize models in science and technology. A math degree can boost success in any discipline.

Physics
Physics is the set of ground rules which are used to explore the universe and improve society through the understanding of nature and the application of that understanding of new invention. The knowledge necessary to advance electronics, energy, transportation, and computer technologies is often first found in a physics lab and later becomes exploited by engineers. Today's physicists are also very active in biology and medicine, using advanced methods to probe the working of life, and to turn the engines of physics to the imaging and treatment of illness in the human body. Physicists also continue their fundamental role as explorers of the frontiers of our existence, exploring the structure and rules of all that goes on around us, whether that be in the infinitesimal realm inhabited by the Higgs Boson or in the nearly infinite space of our dark-energy dominated universe itself.

Other Academic Programs

Occasionally, academic programs span all or several of the colleges or schools of the University. These programs often have an interdisciplinary aspect to them. They are enhancements to and enrichments of other existing programs explained within the colleges or schools and departments in other descriptions in this catalog.

The interdisciplinary programs at UVU provide students with rich and varied opportunities to engage in study and research that address complex problems by drawing on multiple disciplinary tools.

UVU offers several curriculum-spanning opportunities for students to explore interdisciplinary relationships.

The Leadership Certification Program brings together students who are interested in strengthening their leadership skills, no matter what their major.

The Center for the Study of Ethics provides opportunities for students to think more deeply about the ethical dimensions of contemporary life.

The Honors Program works with a number of departments and colleges and schools on campus to prepare students for graduate or professional schools, among other futures, through interdisciplinary research, internship, field, and experiential learning opportunities.

The Integrated Studies Program allows students to engage in cross-disciplinary research that can culminate in an associate and/or bachelor degree.

Interdisciplinary programs at UVU offer innovative learning experiences that challenge, teach, and prepare student for successful lives and careers after graduation.

For more information, please see individual department pages.

See below for more detail on interdisciplinary or cross-discipline programs and opportunities.

School of Education
The UVU School of Education prepares educators and clinicians to have a positive impact on children, families, and communities through meaningful innovation, engaged pedagogy, rigorous preparation, inclusion and diversity, and transformative collaborations.

The professional programs provide essential coursework and experiences to support students as they progress toward becoming professional educators and clinicians. Students are engaged in research-based and standards-based instruction in content and pedagogy. Candidates are expected to plan, instruct, and assess in a manner that meets curriculum, school and district goals as well as the diverse instructional and experiential needs of all students. Candidates reflect on their own practice and performance, analyze progress, and make choices for future professional growth. In the Masters program, new knowledge is put into practice in students' own classrooms and clinical practice. Graduates acquire knowledge, skills, and dispositions to positively impact their classrooms, schools, and communities as they continue on the journey of career-long learning.

Programs

Art & Design

- **Department Chair:** Courtney Davis
- Office: GT 605a
- Telephone: 801-863-8118

The Department of Art & Design prepares students for careers in applied arts, fine arts, and art education. Training is provided for both 2-dimensional and 3-dimensional art in a variety of media. Professional training is provided in the areas of graphic design, illustration, photography, painting/drawing and sculpture/ceramics through the BFA degree. The BFA degree is a competitive program for those with above average abilities in art and requires students to specialize in one of the aforementioned areas. The BS/BA degrees are general degrees that allow students to study various aspects of art and visual communications and are open to all. The Bachelor of Science in Art Education helps prepare students to teach in secondary schools. Some of our 1000 level courses also fulfill general education requirements.

Dance

- **Department Chair:** Doris Trujillo
- Office: LA 022d
- Telephone: 801-863-8610

The mission of Utah Valley University Department of Dance is to foster academic and artistic excellence through an intensive technical and reflective study of dance. Anchored in a common core curriculum with several areas of emphasis, our program provides a rich and stimulating environment where students cultivate their technical, aesthetic, creative, and scholarly potential. We value superior teaching which promotes dance as an artistic and cultural expression that has the power to enrich and transform the individual, community, and society.

Students interested in pursuing a degree in dance can choose from the following degree paths: AS Pre-Major in Dance, BFA in Dance with an emphasis in Ballet or Modern Dance, BS in Dance with an emphasis in Ballroom Dance, and BS in Dance Education. A variety of student, pre-professional and professional companies within the department provide excellent local, national and international performing opportunities for students in formal and informal as well as, adjudicated settings. Membership in companies is by auditions only.

Those trained in dance find careers as public and private school teachers, college and university educators (requires graduate degree), performers, choreographers, dance historians and critics, administrators, dance therapists and professionals in the field of somatics, private studio owners, health and fitness consultants, researchers, notators and movement analysts.

Music

- **Department Chair:** Thomas Keck
- Office: NC 757
- Telephone: 801-863-6188

The Department of Music promotes student success through innovative programs that enhance creativity, hone performance expertise, and sustain high standards of excellence. Our professional faculty provide learning opportunities essential to the competency of music students as they prepare for a global marketplace. The department engages diverse audiences through performances and activities representing an array of musical styles and traditions.

Our objectives are to:

1. Provide nationally-competitive academic programs and general studies in music.
2. Promote an inclusive environment that provides students with resources that support their educational and professional needs.
3. Engage audiences with performances that reflect diverse musical styles and traditions.
4. Promote opportunities for students and faculty to explore their highest professional potential through creative and innovative activities on- and off-campus.

Theatrical Arts for Stage & Screen

- **Department Chair:** John Newman
- **Office:** NC 757
- **Telephone:** 801-863-5079

The Department of Theatrical Arts for Stage and Screen offers programs of study leading to the Associate in Science degree, to the Associate in Applied Science degree, and to three baccalaureate degrees – Bachelor of Arts, Bachelor of Science in Theatre Arts Education, and the Bachelor of Fine Arts in Theatre Arts. The Department provides cultural experiences and undergraduate instruction in theatre and film for the individual theatre major, the UVU student community, and the community at large, preparing students not only for continued education and employment, but also for lifelong learning, personal fulfillment, and culturally active citizenship.

The Department mounts four to six productions per year encompassing a rich variety of genres and time periods. Students work side-by-side with faculty whose combined professional theatre experience and academic credentials enrich coursework in performance, script analysis, script writing, directing, theatre history and literature, theatre management, and in design for lighting, sound, scenery, costumes, and makeup. Productions are often selected for showcasing in the Kennedy Center American College Theatre Festival, where students also compete for scholarships and professional employment.

Smaller student cohorts make it possible for the vast majority of student performers to be on stage in any given school year and for aspiring technicians and designers to be involved in the production process early in their college careers. The annual Short Attention-Span Theatre Festival features student-written, -directed, -designed, and -performed productions.

The Department, working in relationship with the Sundance Resort, produces the Sundance Summer Theatre every July and August. Students are given opportunities to perform, design, build, and stage manage these semi-professional productions.

The Department also manages a Theatre Study Abroad program, where 10-15 students spend four weeks living and studying theatre in London. Students also produce a performance piece that travels to and performs at the Edinburgh Fringe Theatre Festival.

Woodbury Art Museum

- **Director:** Lisa Anderson
- **Office:** University Place, N250
- **Telephone:** 801-863-4200

The Woodbury Art Museum serves as a catalyst in engaging our community in aesthetic investigation and cultural awareness. The museum collects, preserves, and exhibits art and related materials, focusing on modern and contemporary artistic styles. These exhibitions, programs, and collections stimulate research and serve as a valuable resource in our academic setting as well as in the community.

The Woodbury Art Museum provides free exhibitions and programs for local communities. Showcasing the museum's Permanent Collection and rotating exhibitions, the museum has been presenting the visual arts since 2002. We are located on the second floor of the University Place. The Woodbury Art Museum exists out of the generosity of Orrin and Wally Woodbury.

Utah Valley University Arts Resource Council

- **Contact:** Kevin Goertzen
- **Office:** NC 791
- **Telephone:** 801-863-5760
- **Email:** KevinG@uvu.edu

The Utah Valley University Arts Resource Council is an active partner in helping the School of the Arts accomplish many things. Chosen for their demonstrated leadership and accomplishments in the arts, business and/or community service, Council members provide valuable counsel and assistance in the areas of creative and scholarly activity, development, fund raising, and increasing awareness in the community. Success in these focus areas contributes significantly to the students and faculty of the School of the Arts and allows the School to more fully enrich the community.

University College

University College serves a unique role and mission within Utah Valley University. Based on a national model, the name University College signifies opportunity for student success through curricular and co-curricular offerings, academic services, and innovative programs. University College welcomes students at present levels of academic achievement and challenges them with higher expectations. The programs and departments of Literacies and Composition, Student Leadership & Success Studies, Developmental Mathematics, English Language Learning, Academic Standards, Writing Center, Academic Tutoring, Math Lab, and the University College Advisement Center, promote interdisciplinary partnerships as students transition into university academics.

- **Dean:** Forrest Williams

Certificate of Proficiency
- Leadership for Personal and Social Impact

Programs

University College values student-centered learning and focuses on assisting students exploring the direction of their academic careers, seeking flexibility in degree choices, or undertaking an enhanced college experience.

Developmental Mathematics
- **Department Chair:** Evelyn Porter
  - Office: LA 217b
  - Telephone: 801-863-6836
  - Email: porterev@uvu.edu
  - Web: www.uvu.edu/devmath

- **Administrative Support:** TBA
  - Office: LA 217n
  - Telephone: 801-863-6570
  - Email:

- **Assistant Chair:** Lindsey Gerber
  - Office: LA 217c
  - Telephone: 801-863-6729
  - Email: Lindsey.Gerber@uvu.edu

The courses offered by the Department of Developmental Mathematics are instrumental in providing a foundation not only for higher level math courses, but also for civic, professional, and personal life. The Department provides an inclusive, engaged learning environment fostering student achievement while improving quantitative literacy. The Department of Developmental Mathematics offers MAT 1000, MAT 1010, MAT 1030, and MAT 1035 as transferable, college credit classes. MAT 1000 and MAT 1010 are also offered as prerequisites for MAT 1030, STAT 1040, MATH 1050, and MATH 1090. The Department of Developmental Mathematics also offers preparatory, non-transferable courses for students who need to strengthen mathematics skills before entering credit-bearing courses.

English Language Learning
- **Department Chair:** Heidi Condie
  - Office: LA 209d
  - Telephone: 801-863-8274
  - Email: CONDIEHE@uvu.edu
  - Web: www.uvu.edu/ell

- **Coordinator, Student & Faculty Services:** Gayla Amosa
The mission of the intensive English language program at UVU is to help non-native English-speaking students to understand and successfully use academic English at an American university. To accomplish this goal, our faculty and coursework provide a broad range of excellent academic and social opportunities. These opportunities help students develop and show proficiency in the skills of reading, writing, grammar, and listening/speaking.

Literacies & Composition

- **Department Chair:** Jacqueline Preston  
  - Office: LA 234f  
  - Telephone: 801-863-6398  
  - Email: JPreston@uvu.edu  
  - Web: www.uvu.edu/litcomp

- **Administrative Support:** Sariah Gomez  
  - Office: LA 234a  
  - Telephone: 801-863-6387  
  - Email: sariah.gomez@uvu.edu

The Literacies & Composition department is dedicated to assisting students and community members who wish to improve their reading, writing, and communication skills in preparation for taking college courses or for self-improvement. Instruction in the Literacies and Composition program emphasizes helping students to think critically, comprehend and respond to written texts, analyze and synthesize texts, organize ideas, use logic and support to present oral and written arguments, compose in a variety of electronic environments, and learn the conventions of academic English. The Literacies and Composition Department strives to accomplish its mission by providing a learner-centered environment which allows students to develop self-confidence along with the skills necessary to succeed in their academic or occupational endeavors. The Department uses a variety of instructional formats including traditional classroom settings, hybrid and online instruction, collaborative learning activities, peer and instructor tutorials, and individualized instruction to meet student needs.

Student Leadership & Success Studies

Colleges and Schools

The Department of Student Leadership & Success Studies promotes holistic student development and advances students to higher levels of student success, persistence and completion, leadership development, professional preparation, and lifelong learning.

University College Advisement Center

- **Director:** Adam Black
- **Office:** LC 404d
- **Telephone:** 801-863-6484
- **Email:** BLACKAD@uvu.edu
- **Web:** uvu.edu/acc

- **Administrative Support:** Kris Swanger
  - **Office:** LC 404n
  - **Telephone:** 801-863-8386
  - **Email:** Kris.Swanger@uvu.edu

The University College Advisement Center (UCAC) employs caring, and competent counselors who provide academic guidance, support services, and career counseling to UVU students seeking admission into professional programs such as medical, dental, and law programs. The UCAC also provides advising services for all current and future University College majors and academic programs including the University Studies Bachelor degrees, and Certificate of Leadership for Personal and Social Impact.

Academic Standards

- **Director:** Jan Klingman
  - **Office:** LC 405u
  - **Telephone:** 801-863-5325
  - **Email:** KLINGMJA@uvu.edu
  - **Web:** uvu.edu/academicstandards

- **Administrative Support:** Dyan Gordon
  - **Office:** LC 404
  - **Telephone:** 801-863-8075
  - **Email:** dyan.gordon@uvu.edu

- **Hours:**
  - Monday 8 a.m. - 6 p.m.
  - Tuesday 8 a.m. - 6 p.m.
  - Wednesday 8 a.m. - 6 p.m.
  - Thursday 8 a.m. - 6 p.m.
  - Friday 8 a.m. - 5 p.m.

The primary mission of the Academic Standards Office at UVU is to promote students’ academic success and to assist those experiencing academic difficulty. The work of the Academic Standards Office is to assist students in discovering and accessing the personal or university resources that will allow them to reach their full potential. When students fall below the grade point average standard of 2.0, the programs of the Academic Standards Office are intended to bring them back on course toward academic success and graduation.

**Academic Standards will help students find success through:**

- Academic Counseling relating to compliance of UVU’s Academic Standards Policy
- Academic Warning, Probation, Continued Probation and Suspension
- Referrals to other applicable resources and departments
- One-on-one Academic Counseling and Success Coaching
- Grade check appointments
- MBTI/Strong and "Clifton Strengths" Finder assessments

Learning Strategies Support

- **Coordinator:** Pat Nelson
  - **Office:** LC 404g
  - **Telephone:** 801-863-7418
  - **Email:** Pat.Nelson@uvu.edu

The Learning Strategies Support Services assists students in developing increased self-awareness of their learning challenges and utilizing resources to create and implement a self-improvement plan to become active and independent learners and to achieve academic success.

Learning Strategies Support provides many resources for students:
• Assistance in developing a personalized program of study processes
• Assessment of learning styles
• Support programs for transitional and provisionally admitted students
• Student success workshops, learning processes education
• Referral to other services and agencies
• Help with ACCUPLACER and ALEKS placement exams
• Academic Success Lending Library
• Common study area
• Private and group tutoring (Losee Tutoring Commons)
• Project Success
• Web: www.uvu.edu/learningstrategies

Student Success & UVU Mentor Program

  • Email: AngusM@uvu.edu

The Student Success/UVU Mentor program, in partnership with Student Affairs, focuses on preparing students for their college experience. The program is committed to leveraging students for success and persistence in achieving their academic goals. The program is fully integrated into campus-wide student success and retention initiatives. The University Student Success course (SLSS 1000), taught through the Department of Student Leadership Success Studies, is the recommended starting point for first-year students. The objectives of the University Student Success course include:

• Study Strategies
• Self-Discovery and Awareness
• Socialization and Connection to the campus community

The program is home to the UVU Mentors. Our UVU Mentors are dedicated student leaders who are trained to mentor first-year students and assist instructors in every section of University Student Success. The goals of UVU Mentors are to connect personally to their students by mentoring them and modeling the skills being taught. UVU Mentors are students who are successful in their SLSS 1000 class, who then enroll in the Leadership Mentoring I class (SLSS 3200), and then were selected to serve as peer mentors

Tutoring Services

Tutoring services are available at no charge to all UVU students. Qualified tutors provide one-on-one tutorials and help lead group-study sessions and workshops. Information about tutoring may be obtained by contacting Directors of any of the following services.

Academic Tutoring

Department Administrative Offices: LA 201

• Director: Skyler Meeks
  • Office: LA 201j
  • Telephone: 801-863-5521
  • Email: Skyler.meeks@uvu.edu
  • Web: www.uvu.edu/academic tutoring

• Peer-tutoring Coordinator: Laurie Toro
  • Office: LA 201b
  • Telephone: 801-863-5351
  • Email: Laurie.Toro@uvu.edu

• Supplemental Instruction Coordinator: Aubrey Ryan
  • Office: LA 221r
  • Telephone: 801-863-8356
  • Email: LAubrey.Ryan@uvu.edu

Academic Tutoring offers free in-person and online support to all UVU students. The five peer-tutoring labs offer support with homework, test preparation and study strategies in a number of subject areas including:

• Business (WB 111)
• Computer Science (CS 726)
• Engineering and Technology (CS 612)
• Humanities and Social Science (LA 015)
• Science (LA 201)
Colleges and Schools

The Supplemental Instruction program targets historically difficult classes and provides weekly study sessions with embedded peer leaders who utilize collaborative activities to emphasize important concepts and improve study habits. SI offerings vary from semester to semester depending on need.

More information about individual appointments, course review sessions, and online tutoring is available on the Academic Tutoring website.

Individual appointments, course review sessions, and Supplemental Instruction are also available. Online tutoring is available by appointment at www.uvu.upswing.io. All services are free.

Math Lab

- **Director:** Nathan James
  - Office: LA 221a
  - Telephone: 801-863-8411
  - Email: nathan.james@uvu.edu
  - Web: www.uvu.edu/mathlab

- **Coordinator:** Kristen Hornberger
  - Office: LA 201e
  - Telephone: 801-863-6879
  - Email: Kristen.Hornberger@uvu.edu

The Math Lab provides free drop-tutoring, online tutoring, classroom support through Supplemental Instruction, and access to resources to help students be successful in mathematics. Drop-in tutoring is offered at two main locations on the Orem Campus: West Math Lab (LA 201) and East Math Lab (LA 216), along with limited hours in the Losee Tutoring Commons. Additionally, the Math Lab offers programs and workshops to help students succeed in their current courses as well as prepare for graduate school. Online tutoring is available at https://uvu.upswing.io/

Writing Center

- **Location:** FL 208
  - Telephone: 801-863-8099
  - Web: uvu.edu/writingcenter
  - Appointment Scheduler: uvu.mywconline.com

- **Director:** Leigh Ann Copas
  - Office: FL 208b
  - Telephone: 801-863-8099
  - Email: copasle@uvu.edu

- **Coordinator:** Kelsey Hixson-Bowles
  - Office: FL 208a
  - Telephone: 801-863-5482
  - Email:

- **Faculty Director, Writing Center:** Elena Garcia
  - Office: LA 221m
  - Telephone: 801-863-6399
  - Email: elena.garcia@uvu.edu

The Writing Center provides free one-on-one tutoring to all UVU students. Students may bring writing assignments for any class in face-to-face and web conference tutorials. Students can book appointments by registering an account at uvu.mywconline.com The Center offers free writing workshops, handouts, practice tests, reference books, textbooks, writing manuals, and ESL materials. Graduate student tutoring is also provided. In addition, the Writing Center hosts the Writing Fellows program, a form of supplemental instruction designed to work closely with discipline specific writing courses.

Mission Statement

Through exceptional business education, we help students become successful professionals who build our community.

Core Themes - (University Alignment: Student Success, Engagement, Inclusivity, and Seriousness)

1. Delta: Maximize student improvement through engaged learning
2. Placement: Help students obtain and succeed in careers aligned with their goals
3. Scholarship with Impact: Produce and promote research that improves business education and practice
4. Reach: Serve as many people in our community as we can through increased efficiency and inclusive outreach

Accreditation

The Woodbury School of Business was reaccredited with the Association to Advance Collegiate Schools of Business (AACSB) accreditation in fall 2011. AACSB International Business accreditation is an achievement earned only by programs of the highest caliber. Institutions that earn accreditation confirm their commitment to quality and continuous improvement through a rigorous and comprehensive peer review.

Advisement Center

The Woodbury School of Business Advisement Center provides one-on-one advising throughout a student’s program. Information regarding transfer programs is readily available by contacting departmental advisors in WB 257 of the Woodbury Business Building. Each student should make an appointment to see a Woodbury School of Business advisor early in his/her first semester on campus.

• Advisors:
  • Andrea Calaway
    • Office: WB 257e
    • Telephone: 801-863-5966
    • Email: ACalaway@uvu.edu

    • Office: WB 257b
    • Telephone: 801-863-6482
    • Email: Polly.Clauson@uvu.edu
Internships/Career Services

The Woodbury School of Business encourages students to enroll in internship courses once they have matriculated. Completing between three and six credits of internship is required of many degrees in the Woodbury School of Business. An internship combines classroom theory with related, practical job experience. While enrolled at the university, students select a work environment related to their major. Internship experience serves as a resume builder and assists students in launching their careers following graduation.

A coordinator works closely with students and employers to ensure that the internship is a successful career education experience. The Woodbury School of Business Manager of Career and Corporate Development is:

- **Internship Manager**: Jessica McArthur
  - Office: WB 146k
  - Telephone: 801-863-6243
  - Email: jmcarthur@uvu.edu
  - Fax: 801-863-7314

- **Coordinator, Career Services**: Bonnie Mortensen
  - Office: WB 146r
  - Telephone: 801-863-8097
  - Email: Bmortensen@uvu.edu

Admission to the Woodbury School of Business

Students choosing to pursue majors in the Woodbury School of Business should decide early, plan their schedules carefully, be aware of all the requirements, and stay informed about any changes by checking often with advisors in the Woodbury School of Business Advisement Center.

Accessibility to the Woodbury School of Business Courses

All 1000- and 2000-level business courses are open to all UVU students along with selected 3000- and 4000-level courses. Some courses have prerequisites, which must be satisfied. No more than 9 credits of upper-division courses can be taken before a student has been formally matriculated into the UVU Woodbury School of Business.

Repeating Failed Foundation Core Courses

Each business major has foundation core courses. A student will be allowed to repeat a failed foundation core course only twice. If the foundation core course is not passed with a minimum grade of "C-" after the third attempt, the student will not be allowed to apply for matriculation toward a degree in one of the Woodbury School of Business majors.

Application Requirements for Matriculation

To be considered for matriculation in a Woodbury School of Business four-year program, a student must do the following:

- Complete the foundation core courses listed for their major with at least a "C-" grade; Legal Studies majors must have a grade of "C+" or higher. A student will be limited in taking upper-division coursework (3000 level or higher) until these foundation courses are completed.
Major Specialization of Courses

After matriculation, the student will be required to complete the remaining courses in their major specialization. See your Woodbury School of Business advisor or the appropriate section of the current catalog for requirements for each major specialization.

Maintenance of Matriculation

Once matriculated, the student must maintain the 2.5 business GPA to remain in the Woodbury School of Business. A student falling below the minimum GPA will be placed on probation for one semester. If the business GPA remains below 2.5 for a second semester, matriculation will be revoked. A student who wishes to continue in the Woodbury School of Business major will be required to retake some classes to bring up the business GPA to at least 2.5 and will be required to apply for reinstatement for matriculation.

A student will be allowed to repeat a failed major specialization course only twice. If the course is not passed with a minimum of "C-" after the third attempt ("C+" for Legal Studies majors), the student will be dropped from the Woodbury School of Business program.

Graduation Requirements

A Bachelor of Science degree in a Woodbury School of Business major may be earned upon the completion of four years of full-time (16 credits per semester) university work. The bachelor degree consists of 120 semester credit hours with a minimum of 40 hours upper-division credits. At least 30 of the credit hours earned in the degree must be Woodbury School of Business courses; 10 of these credit hours must be within the last 45 credit hours earned toward completion of the degree. The student pursuing a bachelor degree must also complete the general education requirements. The student must have a 2.5 GPA in Woodbury School of Business courses and a minimum 2.0 GPA overall for graduation.

The Woodbury School of Business reserves the right to change, at any time, the requirements for graduation and every candidate not yet matriculated into a Woodbury School of Business degree will be required to comply with such changes as far as the uncompleted portion of his/her degree is affected. Any exceptions must be approved by the Dean. In addition, courses within degrees may change at any time. Students will be required to complete the revised course requirements even if the changes add credit hours to the original degree.

Whether or not a course is accepted toward degree requirements is determined by the date it was taken and the grade received. For details contact your UVU Woodbury School of Business Advisor or the Woodbury School of Business Assistant Dean.

Credit Policy

1. Obsolete Credit: UVU Woodbury School of Business credit or business transfer credit earned more than ten years earlier than the proposed date of graduation (five years for business computer proficiency) may not be accepted toward requirements for graduation unless validated through taking a challenge examination, completing the next course in a related sequence with a grade of "C" or better, or receiving department chair and assistant dean approval.

2. Waiver/Substitution Requests: Any deviations from the printed UVU Woodbury School of Business graduation requirements must be approved by the appropriate department chair and the assistant dean prior to waiving, substituting, or taking the course(s) in question.

3. Challenge/Experiential Credit: Credit for any course that appears in the current catalog may be awarded to individuals who can prove through appropriate assessment and/or documentation that they have already acquired the equivalent knowledge and/or expertise required for successful completion of that course. See your Woodbury School of Business advisor for details on how to receive challenge credit for a specific course. Students may not challenge a class for which they are or have been enrolled. No more than 25 percent of the minimum credits of challenge/experiential may be applied to a bachelor degree in the Woodbury School of Business.

4. Coop/Internship Credits: Academic credit for cooperative work experience and/or internship may be granted in associate and bachelor degrees. Check with your Woodbury School of Business advisor for the maximum number of coop/internship credits that can be applied to your specific program. Additional coop/internship credits may be taken (but not applied toward graduation) with the approval of the manager of career and corporate development and the assistant dean.

5. Transfer Credits: Students transferring from other colleges or universities within the Utah System of Higher Education (USHE) should consult their Woodbury School of Business advisor to determine which credits will be accepted by UVU. Students wishing to transfer Woodbury School of Business credits from colleges or universities outside the state not covered by the USHE Transfer Credit Guide may need to submit further documentation, which allows the Transfer Office, Woodbury School of Business advisor, department chair, and/or Woodbury School of Business assistant dean to assess the content of courses taken. In the majority of cases, courses taken at institutions accredited by the Association to Advance Collegiate Schools of Business (AACSBI) International will be accepted. Only courses with a grade of "C-" or higher are eligible for credit. Classes taken more than 10 years ago may not be accepted but will be evaluated individually.

Application Requirements (Matriculation)

To be considered for matriculation in a Woodbury School of Business four-year program, a student must do the following:

- Complete the foundation core courses listed for their major with at least a "C-" grade; Legal Studies majors must have a grade of "C+" or higher. A student will be limited in taking upper-division coursework (3000 level or higher) until these foundation courses are completed.
- IM 2010 and MKTG 2200 require a B- grade.
- Complete matriculation orientation course (CEBU100).
- Achieve a grade point average (GPA) in business courses of at least 2.5 and an overall GPA of 2.0.
- Make formal application for (matriculation) through a Woodbury School of Business advisor.
- The student will be required to complete the program that is in effect at the time (matriculation) is granted. Exceptions will be handled on a case-by-case basis.

Maintenance of Matriculation

Once matriculated, the student must maintain the 2.5 business GPA to remain in the Woodbury School of Business. A student falling below the minimum GPA will be placed on probation for one semester. If the business GPA remains below 2.5 for a second semester, matriculation will be revoked. A student who wishes to continue in the Woodbury School of Business major will be required to retake some classes to bring up the business GPA to at least 2.5 and will be required to apply for reinstatement for matriculation.
A student will be allowed to repeat a failed major specialization course only twice. If the course is not passed with a minimum of “C-” after the third attempt (“C+” for Legal Studies majors), the student will be dropped from the Woodbury School of Business program.

Degrees Offered

**Master of Accountancy**

**Master of Business Administration**

- Accounting
- Finance
- Management
- Marketing
- Technology Management

**Master of Financial Planning and Analytics**

**Bachelor of Arts**

Economics  
Finance  
Human Resource Management  
Marketing

**Bachelor of Science**

Accounting

- General  
- Internal Auditing

Business Management

- General Business  
- Hospitality Management  
- International Business

Digital Marketing  
Economics  
Entrepreneurship  
Finance  
Hospitality Management  
Human Resource Management  
Legal Studies  
Marketing  
Personal Financial Planning

**Associate in Science**

Professional Sales
Colleges and Schools

Minor

Accounting  
Business Management  
Economics  
Entrepreneurship  
Event Planning  
Finance  
Internal Auditing  
Human Resource Management  
Legal Studies  
Marketing  
Risk Management

Business Computer Proficiency

Most of the degrees offered in the Woodbury School of Business require the student to demonstrate business computer proficiency. Students pursuing most bachelor degrees must complete this proficiency requirement before they can matriculate. This proficiency can be attained by completing the Excel Educator course through MyEducator with a score of 80 percent or higher or complete IM 2010 or IM 2600 course with a score of 80 percent or higher. See your Woodbury School of Business advisor for additional details.

Degree Requirements

See the individual departmental sections in the catalog that follow this Woodbury School of Business section for specific requirements on each degree offered by the individual departments.

The Associate in Science Woodbury School of Business transfer degree is available for students planning to transfer to another college or university in Utah, or it can be completed by students seeking a BS degree at UVU.

Programs

Master of Accountancy

Accounting

- **Department Chair:** Kevin Smith  
- Office: WB 221  
- Telephone: 801-863-8859  
- Email: KSmith@uvu.edu

The mission of the Accounting Department is to build a strong learning and growth environment for students to prepare for successful careers in industry, government, and public accounting. We maintain a teaching-focused environment where students can master the fundamental and technical competencies required of professional accountants.

Through our partnering with the business community, students will have opportunities of interactive learning in and out of the classroom. The Accounting Department is committed to assessing current accounting trends and developing specialties within the curriculum to prepare students for careers in those growth fields. Upon completion of an Accounting degree, students should have a combination of skills and abilities including but not limited to leadership, teamwork, communication, analytical reasoning, and lifelong learning.

Finance & Economics

- **Department Chair:** Lowell M. Glenn  
- Office: WB 215  
- Telephone: 801-863-8385  
- Email: Lowell.Glenn@uvu.edu

The business world is more competitive today than in past generations. Decision makers understand the increasing importance of getting things right the first time using business models and measurement methods in making those policy decisions. The classes taught in the Department of Finance and Economics are designed to give students the background to make professional business decisions.

The department offers three bachelor degree programs in Economics, Finance, and Personal Financial Planning (PFP). Graduates in economics find employment in a variety of public and private institutions while many go on to graduate education in law, public policy, an MBA and other disciplines. Finance major’s move on to careers in corporate financial management, as investment managers and analysts, in banking and other careers in the finance industry. The business world is more competitive today than in past generations. Decision makers understand the increasing importance of getting things right the first time using business models and measurement methods to make policy decisions. The PFP program is designed to prepare students for professional careers as fee-for-service certified financial planners. Unlike the other two degrees that offer Bachelor of Arts and Sciences as well as minors and emphases in integrated studies, the PFP program is restricted to a single bachelor degree. Students who complete the PFP degree will in many respects emulate the careers of accountants who work with individuals and organizations in the management of wealth, personal resources, and provide other professional functions. The PFP
Program is registered with the Certified Financial Planner Board of Standards, Inc. The classes taught in the Department of Finance and Economics are designed to give students the background they need to make professional business decisions.

Experienced faculty work with students in understanding the theory of their discipline and learning to apply that theory in the pragmatic application of those principles in financial management, economics, statistics, and operations management courses critical to their professional development.

Marketing

- **Department Chair:** Steven Huff
- **Office:** WB 147f
- **Phone:** 801-863-8863
- **Email:** Huff@uvu.edu

For those trained in marketing, career opportunities are available in advertising, brand and product management, customer affairs, industrial marketing, international marketing, marketing management science and systems analysis, marketing research, new product planning, marketing logistics (physical distribution), public relations, purchasing, retail management, internet marketing, and sales and sales management.

Almost a third of all Americans are employed in marketing-related positions. From large corporations to small companies, both in manufacturing and service areas, firms rely on marketers. There is also a growing trend to use marketing in nonprofit organizations, such as colleges, libraries, and hospitals.

Organizational Leadership

- **Department Chair:** Jeff Peterson
- **Office:** WB 146w
- **Phone:** 801-863-8134
- **Email:** orgldrship@uvu.edu

The Department of Organizational Leadership supports and drives forward the Vision of the Woodbury School of Business (WSB), which is (that) “…(a) community-engaged school of business that integrates teaching and scholarship, we aspire to be a school of choice and a leader in student development, entrepreneurship, global involvement, and innovative teaching.”

We do this, as do all departments in the WSB, through…

- Quality instruction and student involvement
- Faculty and student scholarship
- Community outreach and engaged learning
- Integration and application of knowledge
- Social, ethical, cultural, and global literacy

Strategic Management and Operations

- **Department Chair:** Lynn Adams
- **Office:** WB 243
- **Telephone:** 801-863-6483
- **Email:** ADAMSLY@uvu.edu

Students graduating from the Department of Strategic Management and Operations have many opportunities in private industry, government, and entrepreneurship fields. Bachelor of Science degrees are offered with emphases in hospitality management, international business, and general business. An Associate in Science degree and an Associate in Applied Science degree are also available.

Faculty in the Department of Strategic Management and Operations have real-world expertise that they bring to the classroom. During their program of study, students serve an internship in business where they receive actual work experience during their training. Graduates of the UVU business management program are well prepared to work in multiple aspects of business or to go on to graduate school for additional education.

Accounting

The Department of Accounting offers the following academic programs:

- **Master of Accountancy** trains students for professional-level positions in public accounting, industry, and government and is essential for advancement in many accounting career paths. It fulfills the education requirements to become a Certified Public Accountant (CPA) in Utah.

- **Bachelor of Science in Accounting** prepares students for a wide variety of entry-level accounting positions in business, industry, and government. With additional training support and experience many professional accounting certifications may be obtained with this degree.

- **Bachelor of Science – Internal Auditing Emphasis** is an accounting degree which prepares students to enter the internal auditing profession. With additional training support and experience student may qualify for the Certified Internal Auditor designation offered by the Institute of Internal Auditors.

- **Minor in Accounting** provides education in accounting at the intermediate level. This minor provides financial training for non-accountants who need an understanding of accounting information to support them in their desired employment. Elective courses allow some customization of the minor to the needs of the student.

- **Minor in Internal Auditing** includes basic skills in internal auditing, accounting, and information systems auditing. This minor complements many majors inside and outside of business to create opportunities for entry-level employment in internal auditing in businesses and industries related to the student’s major.

- **Associate of Science in Accounting** provides an introduction to accounting and prepares students to move seamlessly into a Bachelor of Science program. This associate degree qualifies students for positions requiring an associate degree and basic training in accounting and supporting subjects.

- **Certificate of Completion in Accounting** which provides an introduction to accounting supported with courses in mathematics, spreadsheets, economics, English, and communication. This certificate prepares students to perform basic accounting tasks and to pursue higher degrees in accounting.

Every organization needs an accountant to navigate financial decisions. Accountants are needed in times of prosperity as well as in times of financial distress; therefore, the opportunities for employment remain strong. Accountants are employed to perform a variety of critical tasks related to businesses and individuals. Areas of employment in accounting include:

- Analysis of economic events, recording financial information, summarizing and reporting financial information, and assisting in decisions based on the financial information presented.
- Auditing, or independent verification of financial and non-financial information, to lend credibility to the information presented.
- Development, analysis, and monitoring of internal controls which assure protection of assets, accuracy of financial reporting, effectiveness and efficiency of operations, and compliance with laws, regulations, and policies.
- Tax consulting for individuals, businesses, and other entities including proper reporting to taxing entities such as state and federal governments.
- Business consulting particularly related to financial decisions and internal controls.

The accounting profession provides employment opportunities and salaries that increase with higher levels of education and professional certifications. It is not uncommon to find accountants becoming the Chief Financial Officer (CFO) or Chief Executive Officer (CEO) of an organization. In addition, accounting can provide flexible careers for those who wish to work part-time.

**Accreditation**

The Woodbury School of Business (WSB) is accredited by AACSB International, the premier business accrediting organization in the world. Accreditation is a mark of quality programs that live by their mission and provide quality education to their students. Many employers and graduate programs seek students from AACSB accredited programs.

**Woodbury School of Business**

**Advisement Center:**
- **Office:** WB 257
- **Telephone:** 801-863-8032

**Dean:** Norman S. Wright
- **Office:** WB 128b
- **Telephone:** 801-863-8260
- **Email:** Norman.Wright@uvu.edu

---

**Gainful Employment Disclosure**

Students are strongly encouraged to follow a realistic financial plan to ensure that the completion of a higher education degree will reimburse the cost of obtaining the degree. More information can be found at [http://www.uvu.edu/financialaid/info/gainful/certificate_accounting/index.html](http://www.uvu.edu/financialaid/info/gainful/certificate_accounting/index.html)

**Mission Statement**

The mission of the Department of Accounting at Utah Valley University is to build the strongest possible learning and growth environment for students by:

- Maintaining a teaching-focused, engaged learning environment
- Adding value to each students education by developing essential skills and abilities
- Engaging in scholarly activity among faculty and students
- Assessing current accounting trends and developing specialties
- Partnering with the business community
- Building our reputation within the region

**Program Description**

The Department of Accounting offers the following academic programs:

- **Certificate in Accounting**
- **Associate of Science in Accounting**
- **Bachelor of Science in Accounting**
- **Bachelor of Science – Internal Auditing Emphasis**
- **Minor in Accounting**
- **Minor in Internal Auditing**
- **Associate of Science in Accounting**
- **Certificate of Completion in Accounting**

**Employment Opportunities**

Every organization needs an accountant to navigate financial decisions. Accountants are needed in times of prosperity as well as in times of financial distress; therefore, the opportunities for employment remain strong. Accountants are employed to perform a variety of critical tasks related to businesses and individuals. Areas of employment in accounting include:

- Analysis of economic events, recording financial information, summarizing and reporting financial information, and assisting in decisions based on the financial information presented.
- Auditing, or independent verification of financial and non-financial information, to lend credibility to the information presented.
- Development, analysis, and monitoring of internal controls which assure protection of assets, accuracy of financial reporting, effectiveness and efficiency of operations, and compliance with laws, regulations, and policies.
- Tax consulting for individuals, businesses, and other entities including proper reporting to taxing entities such as state and federal governments.
- Business consulting particularly related to financial decisions and internal controls.

The accounting profession provides employment opportunities and salaries that increase with higher levels of education and professional certifications. It is not uncommon to find accountants becoming the Chief Financial Officer (CFO) or Chief Executive Officer (CEO) of an organization. In addition, accounting can provide flexible careers for those who wish to work part-time.

**Accreditation**

The Woodbury School of Business (WSB) is accredited by AACSB International, the premier business accrediting organization in the world. Accreditation is a mark of quality programs that live by their mission and provide quality education to their students. Many employers and graduate programs seek students from AACSB accredited programs.

Elective Requirements: 1 Credit

Accounting, A.S.

Careers

Careers:

With an Associate in Science degree, a student could obtain a basic, entry-level position in a broad range of business-related jobs. These jobs would likely have lower salaries or wages with limited upward mobility as higher-level jobs would require more education.

Related Careers

- Accountants and Auditors
- Budget Analysts
- Credit Analysts
- Financial Examiners
- Tax Examiners and Collectors, and Revenue Agents
- Business Teachers, Postsecondary
Accounting, Certificate of Completion

Requirements

A certificate of completion introduces students to the knowledge and skills needed to perform in a basic business environment. It includes a knowledge of basic business math, accounting, and accounting software. Skills include communication and presentation skills. This is primarily an applied certificate with a brief conceptual background in business.

• Financial Examiners

Accounting - General Accounting Emphasis, B.S.

Requirements
This degree offers a balanced theoretical and applied approach to study a broad range of business and accounting disciplines. This includes business topics of marketing, finance, law, operations, and strategy. Following a study of the primary accounting disciplines of financial, managerial, audit, information systems, and tax, students can engage in a more specialized study of internal audit, management accounting, tax, or public accounting/graduate school. Students also develop important business skills in communication, critical thinking, team building, and computer applications.

Total Program Credits: 120

General Education Requirements: 35 Credits
- ENGL 1010 Introduction to Academic Writing 3
or ENGH 1005 Literacies and Composition Across Contexts (5.0)
- ENGL 2010 Intermediate Writing Academic Writing and Research 3
- MATH 1050 College Algebra (4.0)
or MATH 1055 College Algebra with Preliminaries (5.0)
or MATH 1090 College Algebra for Business (3.0) 3
or An Advanced Placement (AP) Mathematics Test with a score of 3 or higher

Complete one of the following: 3
- HIST 2700 US History to 1877 (3.0)
and HIST 2710 US History since 1877 (3.0)
- HIST 1700 American Civilization (3.0)
- HIST 1740 US Economic History (3.0)
- POLS 1000 American Heritage (3.0)
- POLS 1100 American National Government (3.0)

Complete the following:
- PHIL 2050 Ethics and Values 3
- HLTH 1100 Personal Health and Wellness 3
or PES 1097 Fitness for Life (2.0) 2

Distribution Courses:
- Biology 3
- Physical Science 3
- Additional Biology or Physical Science 3
- Humanities Distribution 3
- Fine Arts Distribution 3
- ECON 2020 Macroeconomics (Fulfills the Social/Behavioral Science Distribution) 3

Discipline Core Requirements: 63 Credits
Business Foundation Courses:
- ACC 2010 Financial Accounting (3.0)
and ACC 2020 Managerial Accounting (3.0)
or ACC 2030 Principles of Accounting 6
- IM 2600 Spreadsheet Applications 3

Program Description

Utah Valley University offers a Master of Accountancy (MAcc) program that can be completed in one year going full time. Students are also able to go part-time and complete the degree in two years. The MAcc degree prepares students for professional positions in accounting with potential for advancement throughout their career. It qualifies students for entry-level positions in public accounting, industry, government, and not-for-profit organizations. The MAcc qualifies students to sit for the Uniform CPA Examinations in the State of Utah, a necessary step in becoming a Certified Public Accountant (CPA). It also provides a base to pursue related certifications as Certified Internal Auditor (CIA), Certified Management Accountant (CMA), and Certified Fraud Examiner (CFE). Ultimately, a MAcc can lead to a wide variety of significant leadership positions in accounting and business including CFO and CEO.

The MAcc "prepares professionally competent people" by meeting the minimum education required to become a CPA and "promotes student success" by qualifying students to seek professional level positions in accounting. Educational expectations of accounting professionals have increased and the MAcc degree will make UVU students more competitive for entry level positions and improve upward mobility throughout their career. The MAcc program at UVU meets local and regional needs. It is a professional degree which promotes student success and lifelong learning. Economic development is enhanced by providing needed accounting talent. MAcc graduates are a source of accounting professionals have increased and the MAcc degree will make UVU students more competitive for entry level positions and improve upward mobility throughout their career. It qualifies students for entry-level positions in public accounting, industry, government, and not-for-profit organizations. The MAcc qualifies students to sit for the Uniform CPA Examinations in the State of Utah, a necessary step in becoming a Certified Public Accountant (CPA). It also provides a base to pursue related certifications as Certified Internal Auditor (CIA), Certified Management Accountant (CMA), and Certified Fraud Examiner (CFE). Economic development is enhanced by providing needed accounting talent. MAcc graduates are a source of leadership talent for business, government, and not-for-profit entities.

Prerequisites

Applicants are expected to meet the following minimum criteria:

- bachelor's degree from a regionally accredited institution or the equivalent for international students.
- minimum overall undergraduate GPA of 3.0.
- minimum GPA of 3.0 in upper-division accounting courses.
- international students must complete the Test Of English as a Foreign Language (TOEFL).

Prerequisite Courses (or equivalent classes) from Undergraduate Studies:

ACC 2010 Financial Accounting
ACC 2020 Managerial Accounting
ACC 3010 Intermediate Accounting I
ACC 3020 Intermediate Accounting II
ACC 3300 Cost Management
ACC 3400 Individual Income Tax
ACC 3510 Accounting Information Systems

ACC 4110 Auditing

Application Process

Baccalaureate degree holders with both accounting and non-accounting majors may apply. (Non-accounting majors must take pre-requisite courses before they can be accepted into the program.) Deadlines and current application requirements are posted on the website, www.uvu.edu/maacc. Applicants must submit all of the following to the Woodbury School of Business:

1. Completed application online, www.uvu.edu/admissions
2. Remit a nonrefundable $45 fee online with credit or debit card.
3. Forward all official university transcripts.
4. Respond to the one optional essay questions.
5. Submit a current resume that includes educational background and professional work experience.
6. Provide two letters of recommendation. Recommenders can send letters of recommendation or complete electronic evaluation forms.

Student interviews may also be requested at the discretion of the student selection committee.

Reapplication

If an applicant is not admitted, he/she may reapply again at a later time. All current admission requirements at the time of application must be met.

Satisfactory Progress

Continuation in the Master of Accountancy program is determined by: (1) satisfactory progress (C or higher) in all courses (completed courses with a grade lower than a C must be repeated) and (2) faculty committee chair and the graduate admission and retention committee recommendation.

Academic Probation

A student can be recommended for academic probation for the following reason(s): (1) Failure to meet the scholarship requirements of the Graduate Program of an overall GPA of 3.00 (on a 4.00 scale) or higher, with no individual course grade lower than C; (2) Failure to complete prescribed courses; and/or (3) Failure to adhere to University student rights and responsibilities standards.

Dismissal from the Program

A student can be dismissed from the Master of Accountancy program for the following reason(s):

1. Academic dishonesty;
2. Continued failure to meet academic standards; and/or
3. Continued failure to adhere to University student rights and responsibilities standards.

Courses

Admission to the Master of Accountancy program is a requirement for enrollment into all Master of Accountancy courses.

Requirements

The Master of Accountancy (M.Acc) degree prepares students for professional positions in accounting with the potential for advancement throughout their career. Building upon an undergraduate education in accounting and business it qualifies students for entry-level positions in public accounting, industry, government, and not-for-profit organizations. The M.Acc qualifies students to sit for the Uniform CPA Examinations in the State of Utah which is a necessary step in becoming a Certified Public Accountant (CPA). It also provides a base from which students may pursue related certifications such as Certified Internal Auditor (CIA), Certified Management Accountant (CMA), and Certified Fraud Examiner (CFE). Combined with appropriate experience the M.Acc can lead to a wide variety of significant leadership positions in accounting and business including Chief Financial Officer (CFO) and Chief Executive Officer (CEO).

Total Program Credits: 30

Matriculation Requirements:

1. Admission to Woodbury School of Business Master of Accountancy program.

Discipline Core Requirements: 21 Credits

Air Force and Army ROTC

Mission Statement
The Air Force Reserve Officer Training Corps (AFROTC) is an educational program designed to provide students the opportunity to become Air Force officers while completing requirements for an undergraduate or graduate degree. Four-year and three-year programs are available for both men and women.

Aerospace Studies (Air Force)
The Air Force ROTC program is designed to produce highly qualified commissioned officers for the U.S. Air Force.

Four Year Program
The traditional Air Force ROTC program extends over four years of college and consists of two phases: a two-year basic course during the freshman and sophomore years, and a two-year advanced course covering the junior and senior years of college. There is no military service obligation after graduation for participating in the first two years of the Air Force ROTC program, unless on an Air Force ROTC scholarship. During this time students learn more about the Air Force and the historical development of air power. After completing the first two years, known as the General Military Course (GMC), students may compete for entry into the last two years, the Professional Officer Course (POC). If accepted, students will attend a summer field training encampment between their sophomore and junior years before entering the POC. Upon entry into the POC, students are sworn into the Air Force Reserves and sign an agreement to serve on active duty upon graduation. Prior to this agreement, students incur no military service obligation unless on an Air Force ROTC scholarship. Cadets in the POC study leadership, management, and national defense policy. Cadets in the POC also received a nontaxable subsistence allowance.

Condensed Programs
Students with less than four years remaining in their degree plan will be considered for condensed programs. Students may enter the program as sophomores and "dual enroll" in both the Aeros 100 and 200 academies simultaneously in order to complete the program in three years. Please contact the department about possible options for completing the Air Force ROTC program in less than three years. More condensed program options are offered on a case-by-case basis depending on Air Force accessions needs and an applicant’s prior military service (if applicable).

To enter the program, students MUST:
- Be a full-time undergraduate or graduate student.
- Be able to graduate with a baccalaureate degree before their 40th birthday (waivers available under certain circumstances and more stringent age restrictions apply for some career fields).
- Meet Air Force height and weight standards (see: https://www.afrotc.com/program-requirements/physical).
- Be free of long term medical conditions that would preclude them from military service. Medical history will be reviewed through a Department of Defense Medical Examination Review Board (DoDMERB) physical prior to contracting with the Air Force. Please see the official DoDMERB site for a list of disqualifying conditions (waivers may be available) and contact DoDMERB at 719-333-3562 if you have specific questions.
- Have a minimum cumulative GPA of 2.0 for any college credits received prior to joining (whether taken through high school AP/IB/dual-enrollment programs or as a college student).
- Be a citizens of the United States.
- Register for the appropriate Aerospace Studies courses. In addition to academic courses, students are required to participate in scheduled leadership lab events and physical training.

Cross-Enrollment Agreement
Utah Valley University (UVU) offers the Air Force ROTC program through a cross-enrollment agreement with Brigham Young University (BYU). Although students receive credits and grades for Aerospace Studies courses through UVU, most courses are physically taught on BYU’s campus. Transportation between campuses is the responsibility of the student. Students are encouraged to review their class schedule and ensure they leave enough time to commute between campuses (approximately a 15 minute drive). Additionally, compliance with BYU standards, as listed in the current BYU catalog, is an obligation while participating in ROTC activities and at all times on the BYU campus.

Scholarships
Air Force ROTC scholarships are among the finest scholarships offered and can be used at any of the hundreds of universities and colleges across the United States which offer an Air Force ROTC program, including UVU! Scholarships provide funding for tuition, college fees, textbooks, and a monthly living stipend, helping students to complete their baccalaureate training while preparing for a rewarding career in the Air Force. Scholarships are competitive and offered on a merit based system.

Four Year Scholarships
High school seniors planning on attending UVU are encouraged to apply for an Air Force ROTC scholarship. For further information on requirements and application deadlines, please see: https://www.afrotc.com/scholarships. High school graduates who have never attended college as a full-time student may also be eligible to apply for a four year scholarship.

Three/Two Year Scholarships
Students completing the GMC who meet additional requirements will be considered for scholarship opportunities. Application occurs through the Air Force ROTC Detachments and students must be active participants in the program to apply.

Military Science (Army)

A five-week Advanced Leadership Course is required in the summer between the junior and senior years. All Army ROTC students are required to attend a leadership laboratory for two and one-half hours each week. Practical experience in leadership applications such as small unit tactics, land navigation, tactical combat casualty care, rappelling, weapons familiarization, etc., are emphasized during laboratory periods.

Cadets are also required to participate in scheduled morning/afternoon fitness training.

Military Science Minor (Army)

A minor in Military Science is also available for Army ROTC Cadets. For more information regarding a minor in Military Science, students are encouraged to speak with their UVU Army ROTC instructor in order to program in their schedule the required courses.

General Information

The ROTC program is designed to produce highly qualified commissioned officers for the U.S. Army, Army Reserve, and Army National Guard.

The traditional ROTC program extends over four years of college and consists of two phases: a two-year basic course during the freshman and sophomore years, and a two-year advanced course covering the junior and senior years of college.

To receive a commission as a second lieutenant in the U.S. Army, Army Reserve or Army National Guard, students must earn a baccalaureate degree prior to age 30. An exception can be made for prior service, which may extend the age limit to 34. Students must be citizens of the United States to be commissioned.

Physical and academic standards for the basic course are the same as for those of the university. To qualify for the advanced program, students must pass an academic and physical examination during the year preceding entry into the advanced course. At the beginning of the fall semester of their junior year, students are sworn into the Army Reserves and sign an agreement to complete the last two years of ROTC and to serve on Army Reserve, Army National Guard or Active Duty upon graduation. Students incur no military obligation prior to joining the reserves.

Program of Instruction

The ROTC program is designed to complement the civilian goal of acquiring a baccalaureate degree in a personal course of study while enabling students to develop the knowledge, skills, and attitudes for transition into the United States Armed Forces upon commissioning and to fulfill a military obligation as a reserve or active duty officer. Students do not major in Aerospace Studies or Military Science but may receive a minor in these areas upon their request and depending upon the requirements of the college or university from which the students received their baccalaureate degree.

ROTC military and leadership training provides ROTC graduates with many special skills and experiences which will enable them to compete as leaders in the military and/or business, civic, and community affairs.

Scholarships

ROTC offers many two, three, and four-year scholarships for which students may compete, awarded on merit. Cadets can choose between a full tuition scholarship or a $5000/semester room/board and $600/semester textbook, fees scholarship to pay for related education expenses, and a $420 per month subsistence allowance for every semester enrolled and contracted in Army ROTC. These scholarships are among the finest scholarships offered and can be used at hundreds of other universities and colleges across the United States for students to complete their baccalaureate training at a four-year school. ROTC scholarships are offered on a competitive basis and applications must be submitted through the Army ROTC Detachments. In most cases, deadline for scholarship applications is January of the year prior to enrollment; however, it is suggested that interested parties check with specific ROTC departments since in certain instances deadlines may vary. ROTC scholarships are not affected by other grants, loans, or VEA. To be eligible for a scholarship, a student must be eligible to receive a baccalaureate degree by his or her 30th birthday, be a U.S. Citizen, pass the Army Physical Fitness Test and Army Combat Fitness Test, have a college GPA of at least a 2.5, be at least age 17 at the time the scholarship is to be used, and be willing to serve on active duty for a period of four years if a scholarship is utilized by a student. There are also National Guard and Army Reserve Scholarships awarded each year for National Guard and Reserve Cadets participating in the Simultaneous Membership Programs.

To enter the program, students MUST:

- Be a full-time undergraduate or graduate student.
- Be able to graduate with a baccalaureate degree before the year they turn 31 (waivers available under certain circumstances – prior service- and more stringent age restrictions apply for some career fields).
- Meet Army height and weight standards
- Be free of long term medical conditions that would preclude them from military service. Medical history will be reviewed through a Department of Defense Medical Examination Review Board (DoDMERB) physical prior to contracting with the Army ROTC. Please see the official DoDMERB site for a list of disqualifying conditions (waivers may be available) and contact DoDMERB at 719-333-3562 if you have specific questions.
- Have a minimum cumulative and latest term College GPA of 2.0 (2.5 to compete for Scholarships) for any college credits received prior to joining (whether taken through high school AP/IB/dual-enrollment programs or as a college student).
- Be a citizen of the United States OR a permanent resident of the United States pursing citizenship status.
- Not have a criminal record (some minor civil involvements such as speeding tickets can be waived, but must be reported).
- Not have a history of illegal drug use, not including marijuana.
- Register for the appropriate Military Science courses. In addition to academic courses, students are required to participate in scheduled leadership lab events and Military Fitness class.

Mission Statement
The mission statement of Utah Valley University Allied Health Program is to provide leadership and scholarship in educating Dental Hygienists and Respiratory Therapists. Our graduates will improve the quality of health for diverse populations by advancing the delivery systems and science of Allied Health through inter-professional collaboration while adhering to professional standards.

The Department of Allied Health also seeks to positively impact the education of its students and the delivery of Dental Hygiene and Respiratory Therapy services to the public by fulfilling the goals below:

- To provide quality progressive dental hygiene and respiratory therapy education using the latest evidence based research.
- To prepare Dental Hygiene and Respiratory Therapist graduates to possess the knowledge, values, ethics, and skills to provide optimal care. Dental Hygiene and Respiratory Therapy will show this through demonstrated competencies.
- To maintain and expand oral (Dental Hygiene) and cardiopulmonary (Respiratory Therapy) health care provided to diverse populations through clinical services and community outreach programs.
- To increase the visibility of the department within the university and profession.

Program Information
Our program offers an Associate in Applied Science as well as a Bachelor Completion degree in Dental Hygiene, and an Associate of Applied Science Pre-Professional Respiratory Therapy and Bachelor of Science in Respiratory Therapy (students admitted into the program will work with the Respiratory Therapy Program Director and/or Director of Clinical Education).

Students are required to follow departmental infection control policies and procedures that are based on OSHA regulations and CDC recommendations. They must meet the health and safety requirements participating facilities require of their employees. These requirements must be met prior to enrollment in Dental Hygiene 1010 and in Respiratory Therapy courses:

1. Documentation of current immunization for Tetanus, Measles, Mumps, Rubella, and Hepatitis B, and Negative Mantoux for tuberculosis. (negative chest x-ray if Mantoux is contra indicated/positive), Students may refuse any immunization by signing a waiver and release from liability. Immunization may also be waived with documentation of acceptable litter or written documentation from a physician of immunization risk.

2. Current CPR certification (American Heart Association CPR for Health Care Providers, American Red Cross Health Care Provider, or National Safety Council); certification must remain current throughout academic program. Students will have professional liability insurance through UVU’s comprehensive liability insurance policy. This liability insurance is in effect when students are performing within the scope of their assigned clinical/laboratory activities and under the supervision of Department of Allied Health faculty and supervising dentists.

The Department of Allied Health adheres to UVU policy allowing students, staff or faculty with AIDS, ARC, or HIV to participate in all phases of College life within established College policies. The Department will respect the confidentiality of individuals with AIDS, ARC, or HIV to the extent that the rights of others are not in question. College policy is not to test students, faculty or staff for the AIDS virus. See Policy A-9.1 for full college policy. State Licensure requirements may consider health status. Applicants with questions regarding Licensure policies should contact the licensing division of the state(s) in which they intend to seek Licensure following graduation.

Admission Requirements

Admission to UVU does not constitute admission to any of the Dental Hygiene or Respiratory Therapy Programs. Admission to the programs requires a separate and competitive admission process.

For specific admission criteria, please visit www.uvu.edu/dental for Dental Hygiene or www.uvu.edu/chps/departments/respiratory-health.html for Respiratory Therapy. Feel free to contact the Department of Allied Health at 801-863-7536 or 801-863-6974, or e-mail a request for information to kdockstader@uvu.edu for Dental Hygiene or fullmede@uvu.edu for Respiratory Therapy.

All applicants will be notified by mail of their admission status. No telephone or in-person requests for admission status will be answered. Students not admitted for the semester of application must reapply for the next application period and compete with the new pool for admission. There is no waiting list for either program.

Transfer of Credits

For information regarding the transfer of credits from other institutions of higher learning for general education and required courses, other than Dental Hygiene and Respiratory Therapy courses, please contact the Graduation and Transfer Services office (BA 114g, telephone 801-863-8438). For Dental Hygiene and Respiratory Therapy courses, contact the Department of Allied Health after you have been notified of acceptance into the AAS program.

Degree

The Department of Allied Health reserves the right to modify the curriculum as needed to meet accreditation requirements and changes in the profession.

Programs

Dental Hygiene

Students interested in the Dental Hygiene program but are not yet admitted, will need to see one of the pre-dental hygiene advisors in the Academic Counseling center. These advisors will assist you with the planning of the pre-requisites needed to apply to the program.

- Pre-Dental Hygiene Advisors
  - Office: LC 404
  - Telephone: 801-863-6484
  - Email: ucac@uvu.edu

Students admitted into the AAS or BS Dental Hygiene Program will need to contact the Dental Hygiene advisor.

- Dental Hygiene Advisor: Kristie Dockstader
  - Office: HP 101b
The Dental Hygiene AAS program prepares graduates to take the Dental Hygiene National Board Examination, and all Regional or State Board Exams to apply for state licensure. Completion of the program prepares graduates to enter private practice as competent dental hygiene professionals. The program is competency based and student centered in nature. The program focuses on developing the knowledge and skill needed in dental hygiene while it strives to develop student problem solving and critical thinking skills, communication skills and teaching/education skills. The curriculum also develops student professionalism and promotes lifelong learning, community awareness, engagement and service.

* Applicants to the AAS Dental Hygiene program, who have questions about their potential for licensure in a particular state, should contact that state’s board of dental hygiene.

The AAS program is a competitive admission program. Please refer to our department website for a complete description of our application process and requirements. You may call our office with any questions.

You must apply and be officially accepted into our program to declare yourself a dental hygiene major in order to begin taking Dental Hygiene courses.

The AAS curriculum includes a total of 82 credits including prerequisites. These prerequisite courses must be taken before applying to the Dental Hygiene Program:

- CHEM 1110 Chemistry for the Health Professions
- ENGL 1010 College Writing
- MATH: One of the following: 1030, 1035, 1040, or 1045
- ZOOL 2320 Human Anatomy Lecture
- ZOOL 2325 Human Anatomy Lab
- ZOOL 2420 Human Physiology
- ZOOL 2425 Human Physiology Lab

Please be aware that some of the above prerequisites have their own prerequisites. Please contact the Biology Department for information on their prerequisites for the Human Anatomy and Human Physiology courses and the Chemistry Department for their prerequisites for CHEM 1110

The Bachelor Completion Program includes a total of 120 credits. It builds on the credits received in the AAS program. Please refer to our department website for information concerning the application process, required courses and other important information. Bear in mind that students need their two year degree in dental hygiene prior to matriculating into this program.

One important pre-requisite to entering the Bachelor program is an Associate level degree in dental hygiene from an accredited school in the United States. The Associate level degree must be transferable to the USHE higher education system.

Costs for the AAS Dental Hygiene program include a $3175 program fee per semester for four (4) semesters, in addition to UVU tuition and laboratory fees (these costs are subject to change). Students are required to purchase their own dental instruments, some clinical supplies, and uniforms. Students are responsible for transportation to the clinic and other clinical sites, as well as other field experiences and any State, Regional or National boards and licensing.

The AAS Dental Hygiene program can be challenging academically, in the amount of time involved on campus, and at clinical experiences. Students should plan for some evening and weekend clinical experiences in dental hygiene courses. While volunteer patients come to the clinic for treatment, students should seek patients for some clinical experiences, and are ultimately responsible for obtaining their clinical patients.

The BS Dental Hygiene program does not entail a special fee or clinical component.

Students in either the AAS or BS program will be informed of additional departmental policies following admission to the program.

Upon successful completion of national, state and regional exams, graduates are eligible for positions in private dental offices, public health programs, school health programs, dental hygiene education and research.

Advisory Committee:

- Dianne Knight, RDH, MBA; Rella Christensen RDH PH.D; Melinda Reich RDH; Dr Rob Baird, Michelle Martin, RDH, Kristie Kapp RDH; Josh Robinson, RDH; Todd Bailey, Mountainlands Director; Racheal Lovejoy, Community Health Connect

Accreditation:

The Utah Valley University Dental Hygiene Program is fully accredited by the Commission on Dental Accreditation (CODA). The Commission on Dental Accreditation, which operates under the auspices of the American Dental Association, is a peer review mechanism that include the involvement of members of the discipline, the broad educational community, employers, practitioners, then dental licensing community and public members. All of these groups participate in a process designed to ensure educational quality.

The Commission on Dental Accreditation can be contacted at:

211 East Chicago Avenue
Chicago IL 60611
(312) 440-4653
http://www.ada.org/en/coda

The Department of Allied Health has a working Dental Hygiene clinic serving the general public. Clinic appointments can be made by calling 801-863-7608.

Respiratory Therapy

- Respiratory Therapy Program Director: Max Eskelson
- Office: HP 104b
- Telephone: 801-863-5897
- Email: max.eskelson@uvu.edu

Students interested in applying to the Respiratory Therapy program please contact the Academic Counseling Center

- Respiratory Therapy Advisor: Jennie Olson
- Office: HP 101e
- Telephone: 801-863-8403
- Email:

Students admitted into the AAS/BS Respiratory Therapy program will need to contact the Respiratory Therapy advisor.

- Pre-Respiratory Therapy Advisor:
  - Office: LC 404
  - Telephone: 801-863-6484
  - Email: ucac@uvu.edu

The Respiratory Therapy program is competency based and student centered in nature. The program focuses on developing the knowledge and skill needed in respiratory care while striving to develop student problem solving and critical thinking skills, communication skills and teaching/education skills. The curriculum also develops student professionalism and promotes lifelong learning, community awareness, engagement and service.

* Applicants to the Respiratory Therapy program, who have questions about their potential for licensure in a particular state, should contact that state’s board of respiratory care.

The AAS program is a competitive admission program. Please refer to our department website for a complete description of our application process and requirements. Call our office with any questions.

You must apply and be officially accepted into our program to declare yourself a Respiratory Therapy major in order to begin taking Respiratory Therapy courses.

The AAS curriculum includes a total of 62 credits including prerequisites. These prerequisite courses must be taken before applying to the Respiratory Therapy Program:

The Bachelor of Science program includes a total of 122 credits. It builds on the credits received in the AAS program. Please refer to our department website for information concerning the application process, required courses and other important information.
concerning the application process, required courses and other important information. Bear in mind that students will complete the AAS degree in Pre-Professional Respiratory Therapy prior to matriculating into the BS program.

The Respiratory Therapy program is challenging both academically and in the amount of time involved on campus and at clinical experiences. Students should plan for day, evening and weekend shifts during the Respiratory Therapy clinical course work. Students will learn new skills and will perform patient care and education in the clinical setting.

Students in either the AAS or BS program will be informed of additional departmental policies following admission to the program.

Upon successful completion of the national examinations (NBRC), graduates are eligible for positions in short-term acute care hospitals, long term acute care hospitals, homecare DME, aero-medical flight programs, physician offices, tele-health, COPD case management, and respiratory care education and research.

Advisory Committee:

Degrees & Programs
Dental Hygiene, A.A.S.

Requirements
This is a competitive admission process and has the following pre-requisites that must be taken, and completed, before you are able to apply and begin the first semester of the program. The pre-requisite courses are: MATH 1050, ENGL 1010, CHEM 1110, ZOOL 2320, ZOOL 2325, ZOOL 2420, ZOOL 2425. Please note that some of the above pre-requisites for application to our AAS program have pre-requisites of their own, as well. Please contact the department offering our pre-requisite courses for more information.

Total Program Credits: 84

Matriculation Requirements:
1. Complete ENGL 1010 or ENGH 1005, BIOL 1610, CHEM 1110, ZOOL 2320/ZOOL 2325 and ZOOL 2420/ZOOL 2425 with a minimum of a "C" grade or higher
2. Complete the HSRT - Health Science Reasoning Test.
3. Complete 20 hours of clinical/dental office observation.
4. Submit two letters of reference by either a current supervisor/employer or academic instructor.
5. Submit a 2 page essay on topic provided by department.
6. Submit the Dental Hygiene Application Fee by February 1.
7. Complete interview process and be formally accepted into program.

Respiratory Therapy, A.A.S.

Requirements
An Associate of Applied Science in Respiratory Therapy consists of comprehensive classroom and clinical curricula that prepares students for matriculation into the BS Respiratory Therapy program and credentialing exam offered by the National Board of Respiratory Care (NBRC). The NBRC is the credentialing arm of the American Association of Respiratory Care. Successful completion of the curriculum and the credentialing exam certifies students as a Registered Respiratory Therapist (RRT) and enables them to apply for licensure in their state of residence. Employment opportunities with health care providers range from home health and hospice to neonatal, pediatric, and adult intensive care units in UVU’s service area and across the country.

Total Program Credits: 72

Matriculation Requirements:
1. Complete the following coursework:
   • College English
   • Quantitative Literacy
   • Personal Health and Wellness
   • Microbiology with lab (4 credits)
   • College Biology with lab (5 credits)
   • Chemistry (4 credits)
   • Human Anatomy with lab (4 credits)
   • Human Physiology with lab (4 credits)
   • Physics
   • Survey of Respiratory Therapy: Note: Must pass all general education and prerequisite courses with a minimum of a “C” grade or higher

2. Complete the Test of Academic Skills (TEAS)
3. Submit Application Fee and Application by the third Friday in September
4. Personal Interview: All candidates will be screened and those deemed to meet or exceed basic application requirements will be invited for an interview. This interview does not guarantee acceptance into the program as students will compete with all other applicants for matriculation into a cohort. Applicants must bring a photo ID to the interview.

Graduation Requirements:
1. Completion of a minimum of 84 semester credits.
2. Overall grade point average of 2.5 or above. All courses must have “C-” or higher.
3. Residency hours: minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.

Dental Hygiene, B.S.

Requirements
This is a Bachelor Completion program, meaning you must first have a two year degree in dental hygiene to apply and be accepted. Please refer to our website at www.uvu.edu/dental and/or call us at 801-863-7536 or 7592 for specific information about the application process. The BS degree builds on the AAS degree in dental hygiene. The BS degree consists of 120 credits and builds on the credits earned in the AAS program. This degree can be for those who want to: increase their knowledge in their field, move onto an advanced degree, become a hygiene faculty and teach, work for private companies, research work for the government, become a mid-level provider or want to improve their critical thinking and problem solving skills. This degree is aimed at the working professional, as the Dental Hygiene courses are offered on-line. There is not a clinical component. There are also no special fees involved. The first four (4) semesters and AAS pre-requisites are listed. You must have completed your AAS degree before you can matriculate into the BS program. Because applicants will present with a variety of previous courses already taken, the following plan is only meant to be a guide. It is based on a student completing the UVU AAS Dental Hygiene Degree. Once you have applied, and are in the BS program, you must speak with the Department of Dental Hygiene advisor to help you customize a plan that works for you.

Total Program Credits: 120

Matriculation Requirements:
1. Complete ENGL 1010 or ENGH 1005, BIOL 1610, CHEM 1110, ZOOL 2320/ ZOOL 2325 and ZOOL 2420/ZOOL 2425 with a minimum of a “C” grade or higher
2. Complete the HSRT - Health Science Reasoning Test.
3. Complete 20 hours of clinical/dental office observation.
4. Submit two letters of reference by either a current supervisor/employer or academic instructor.
5. Submit a 2 page essay on topic provided by department.
6. Submit the Dental Hygiene Application Fee and Application by February 1.
7. Complete interview process and be formally accepted into program.

Architecture and Engineering Design

Mission Statement

The mission of the department of Architecture & Engineering Design (AED) is to prepare future professionals to engage in diverse design, modeling, drafting, architecture, surveying and mapping disciplines. The department cultivates an elevated commitment to work ethic, quality, productivity, and service. Successful graduates will be dynamic self-starters and lifelong learners who are serious about work and accept the stewardship of designing the future.

- **Telephone:** 801-863-6238

The Engineering Design Technology program prepares students for design, 3D modeling, surveying, and drafting careers in mechanical, architectural, structural, civil, and electrical/electronic fields. Jobs are available with architects, cities, counties, states, the federal government, engineering and surveying companies, mines, research and development companies, and the mechanical, structural steel, architectural development, electronics, construction, and fire protection industries. In addition, because of the broad nature of the program, graduates are prepared to succeed in most technical fields. For example, they can work as manufacturing, industrial engineering, and construction technicians as well as in functional areas of purchasing, estimating, bidding, plant management, quality control, expediting, and sales.

**Reminder:** an overall grade point average of 2.0 (C) or above is required for graduation.

Due to the technical nature of the material in the following courses, additional reading, math, and computer instruction may be required. More information will be given during advisement.

**Cooperative Education**

Cooperative Education is highly recommended as an elective in these majors. Two credits may be applied towards graduation.

**Architecture**

- **Website:** uvu.edu/architecture/
- **Program Coordinator:** David Barker
- **Office:** CS 710d
- **Telephone:** 801-863-5681
- **Advisor:** Shandi Erickson
- **Office:** CS 633a
- **Telephone:** 801-863-6238

The Bachelor of Architecture (B-Arch) is a five-year professional degree designed to meet the National Architectural Accreditation Board (NAAB) requirements. The degree features a rigorous design-oriented curriculum with a solid foundation in technology, practice-based coursework, plan and document generation, building codes, specifications, digital parametric modeling, building information modeling, architectural visualization, digital fabrication, building envelope systems, structural systems, and building sustainability. Students will become experts in current design and building technologies, making them ideal employees in architecture offices and related design & construction industries including civil, mechanical, and electrical.

The program at UVU emphasizes education in the classical and vernacular architecture. Students will research the traditional principles and philosophies of history to encourage a sense of community, a balance and respect with our natural environment, and wise use of limited resources and energy. Program coursework will study the past to inform the future. We emphasize the enduring design standards from history to inform and incorporate ideas into cutting edge technologies and solutions for modern society.

The program is structured as a two plus three stackable credential, awarding an Associate of Science in Engineering Design Technology after the first two years and a comprehensive professional B-Arch degree for the final three years. This allows students who do not wish to pursue licensure a two-year path into the profession. In their final three years, students engage in coursework which readies them to become licensed, practicing architects, projects managers, principals, owners, and community leaders in the profession. Students acquire leadership skills through courses in professional practice, ethics, and architectural registration exam preparation.

Students learn to design buildings in a historical and cultural context through rigorous coursework in history, theory, culture, study abroad, and community service projects. Concurrently, students engage in arts and science courses to expand critical thinking. Transfer students with associate degrees from other institutions are invited to apply for admission into year three and are accepted based on transcript and portfolio review. Upon graduation, and completing their experience hours, students will have the capacity to take the Architectural Registration Exam (ARE) to become licensed architects in the State of Utah. A total of at least 151 hours of coursework is required for the Bachelor of Architecture. The program is currently applying for eligibility for candidacy with the National Architectural Accrediting Board (NAAB).
Bachelor of Architecture Admittance Requirement

All students seeking a Bachelor of Architecture degree must meet or exceed certain criteria to be eligible for the program. All sophomores and transfer students will need to apply to the program by completing the application process. Upper-division courses (3000 or 4000 level) cannot be taken unless accepted into the bachelor program.

Note: All freshmen should declare their “anticipated” degree when they complete their entrance application. Students accepted into the bachelor program must re-submit a new application at which time they must declare their “official” degree.

Laptop Requirement

Students accepted to the 3rd year of the B-Arch degree program are required to purchase a quality laptop computer before the beginning of the fall semester. It will be used for the final 3 years on multiple design projects.

Surveying and Mapping

Website: uvu.edu/surveying/

• Program Coordinator: Danial L. Perry
• Office: CS 710a
• Telephone: 801-863-8525

• Advisor: Shandi Erickson
• Office: CS 633a
• Telephone: 801-863-6238

If you love outdoor adventures, using the latest technology, and solving a good mystery you will love Surveying and Mapping.

This exciting career field encompasses such disciplines as land surveying, photogrammetry, remote sensing (satellite and aerial imaging and laser scanning), geographic information systems (GIS), cartography, global positioning systems (GPS), and some parts of geography and civil engineering.

We integrate acquisition, modeling, analysis, and management of geospatial reference data. Licensed land surveyors have an obligation to protect the public and private real property rights, title, and interests. This often involves field investigation, data analysis, and application of boundary/property laws and legal principles pertaining to those properties

Reminder: an overall grade point average of 2.5 (C) or above with a minimum 3.0 GPA in all surveying & mapping courses including professional focus areas is required for graduation.

Due to the technical nature of the material in the following courses, additional reading, math, and computer instruction may be required. More information will be given during advisement.

Internships

Internships are highly recommended as an elective in this major. Eight credits may be applied towards graduation.

Degrees & Programs

Engineering Design Technology, A.A.S.

Requirements

The Associate in Applied Science Degree is a "job ready" degree and applies the technical and functional elements of several Drafting and Design fields. Students will take courses in the fundamentals of drafting and design, industry standard two-dimensional and three-dimensional software, Architectural Design, Civil Design and Surveying, Electrical Design, Mechanical Design, and Structural Steel Detailing and Design. Students will take other supporting classes and advanced courses in a minimum of two specialty areas of their choosing.

4. Completion of GE and specified departmental requirements, including a portfolio and exit interview.

Engineering Design Technology, A.A.S.

Careers:
The Engineering Design Technology program prepares students for design, 3D modeling, surveying, and drafting careers in mechanical, architectural, structural, civil, and electrical/electronic fields. Jobs are available with architects, cities, counties, states, the federal government, engineering and surveying companies, mines, research and development companies, and the mechanical, structural steel, architectural development, electronics, construction, and fire protection industries. In addition, because of the broad nature of the program, graduates are prepared to succeed in most technical fields. For example, they can work as manufacturing, industrial engineering, and construction technicians as well as in functional areas of purchasing, estimating, bidding, plant management, quality control, expediting, and sales.

Related Careers
- Architectural and Civil Drafters
- Electrical and Electronics Drafters
- Mechanical Drafters
- Drafters, All Other

Engineering Design Technology, A.S.

Requirements
The Associate in Science Degree is a transferable degree and applies the technical and functional elements of several Drafting and Design fields without taking the advanced course work required in the Associate in Applied Science Degree. Students will take fundamental courses in drafting and design, industry standard two-dimensional and three-dimensional software, Architectural Design, Civil Design and Surveying, Electrical Design, Mechanical Design, and Structural Steel Detailing and Design.

Surveying Technology, A.A.S.

Requirements
The AAS in Surveying Technology meets the educational component for licensure as a Professional Land Surveyor (PLS) in the State of Utah according to the State of Utah Office of Administrative Rules 156-22-302(c)(1). This degree prepares students for immediate employment beyond entry level work in surveying or civil engineering firms. Students will be prepared to perform many of the various field and office tasks related to surveying including site and topographic surveys, boundary investigation and research, map-making, various survey adjustment calculations, writing of legal property descriptions, and other survey technician duties and responsibilities.

Geomatics is a regulated profession wherein a license to practice land surveying is issued by each state in an effort to protect the public and private interests in property boundaries.

Students in the Geomatics program may earn an Associate in Science in Geomatics which will help them be immediately employable as entry level surveyor GIS technician. Students may also earn a Bachelor of Science in Geomatics which will prepare them to successfully pass the national Fundamentals of Surveying (FS) exam which is a significant step towards surveying licensure. The bachelor degree program has been developed around four core disciplines which build on an in-depth foundation of knowledge needed for the professional practice of surveying and GIS. Geomatics program goals are to secure ABET/ASAC accreditation by Fall Semester 2017 and to continue to encourage student interest in obtaining graduate degrees in the field of Geomatics from other nationally ranked institutions. The program is operating under an annual cohort system starting in the fall semester of each year, so matriculation is required to ensure that each perspective student completes all required course prerequisites prior to entrance into a cohort.

Surveying and Mapping, A.S.

Careers

The Surveying and Mapping program prepares students to enter the workplace in a variety of disciplines. Surveying and Mapping is the study of geospatial measurement and representation including such disciplines as land surveying, photogrammetry, remote sensing (satellite imaging and laser/LIDAR scanning), geographic information systems (GIS), cartography, global positioning systems (GPS), geography and some elements of civil engineering. Geomatics not only encompasses traditional land surveying but today also includes geography and other disciplines which integrate acquisition, modeling, analysis, and management of geo-spatial reference data. Some students will have opportunities to work for organizations such as the National Geodetic Survey (NGS), National Oceanic and Atmospheric Administration (NOAA), Bureau of Land Management (BLM), National Aeronautics and Space Administration (NASA), national, state, county, and city governmental agencies, universities and colleges, and private surveying and engineering firms.

Related Careers

- Cartographers and Photogrammetrists
- Surveyors
- Surveying and Mapping Technicians

Architectural Design Technology, Certificate of Proficiency

Requirements

The Certificate of Proficiency in Architectural Design Technology applies the technical and functional elements of residential and commercial architectural design. Students will take courses in the fundamentals of drafting and design, two-dimensional and three-dimensional software/Building Information Modeling (BIM) packages, architectural rendering, residential design and construction, and commercial design and construction.

Total Program Credits: 17

Graduation Requirements:
1. Completion of a minimum of 17 semester credits.
2. Minimum grade of C- required in all courses.
3. Overall grade point average of 2.0 (C) or above.
4. Residency hours– minimum of 5 credit hours through course attendance at UVU.

Architectural Design Technology, Certificate of Proficiency

Careers

A student with a Certificate of Proficiency in Architectural Design Technology will be prepared for an entry level job as an architectural drafter/designer.

Related Careers

- Architectural and Civil Drafters

Civil Design and Surveying Technology, Certificate of Proficiency

Requirements

The Certificate of Proficiency in Civil Design and Surveying Technology will be dedicated to teaching the technical and functional elements of civil design and surveying, and will educate students in the process of taking civil related projects from data obtained from ground observations and measurements made by surveying to conceptual design to completed construction documents and finally to surveying and staking the proposed design on the ground so it can be constructed. Students will be required to take civil and surveying courses currently offered in the Engineering Design Technology (EDT) department including the courses from the Drafting Technology program and the Surveying and Mapping program. From these courses students will learn the basics of surveying, civil drafting and design, and be trained in industry standard two-dimensional and three-dimensional software packages. Students will also take courses in surveying applications, land development, advanced field and office surveying, and civil design. A student with a Certificate of Proficiency in Civil Design and Surveying Technology will be prepared for an entry level job as a civil drafter/designer or survey technician. They can increase their education, training, and employability by completing the Associate of Applied Science in Engineering Design Technology, Certificate of Proficiency in Mapping Technology, Certificate of Proficiency in Surveying Technology, Associate of Applied Science in Surveying Technology (pending), Associate of Science in Surveying and Mapping and/or a Bachelor of Science in Surveying and Mapping.

- Surveying and Mapping Technicians

Graduation Requirements:

1. Completion of a minimum of 17 semester credits.
2. Minimum grade of C- required in all courses.
3. Overall grade point average of 2.0 (C) or above.
4. Residency hours– minimum of 5 credit hours through course attendance at UVU.

Mechanical Design Technology, Certificate of Proficiency

Careers

A student with a Certificate of Proficiency in Mechanical Design Technology will be prepared for an entry level job as a mechanical drafter/designer.

Related Careers

- Mechanical Drafters

Structural Design Technology, Certificate of Proficiency

Requirements

The Certificate of Proficiency in Structural Design Technology applies the technical and functional elements of structural steel detailing. Students will take courses in the fundamentals of drafting and design, basic structural steel detailing, two-dimensional and three-dimensional software/Building Information Modeling (BIM) packages, and advanced structural design and detailing.

Total Program Credits: 17

Surveying Technology, Certificate of Proficiency

Requirements

The Certificate of Proficiency in Surveying Technology is intended to provide part of the educational competency required for licensure as a Professional Land Surveyor (PLS) in the State of Utah. If an individual holds a bachelor of science degree in a related...
surveying field such as civil engineering or construction management, according to the State of Utah Office of Administrative Rules 156-22-302(c)(3), they may complete an additional 30 semester hours of surveying specific course work to complete the educational component for licensure. This certificate meets this regulatory educational requirement if the related degree includes algebra, calculus, geometry, statistics, or trigonometry. It prepares students for immediate employment beyond entry level work in surveying or civil engineering firms as a crew chief or a position with similar responsibilities. Students will be prepared to perform many of the various field and office tasks related to surveying including site and topographic surveys, boundary investigation and research, map-making, various survey adjustment calculations, writing of legal property descriptions, and other survey technician duties and responsibilities.

Architecture, B.Arch

Requirements

The Bachelor of Architecture (B-Arch) is a five-year professional degree designed to meet the National Architectural Accreditation Board (NAAB) requirements. The degree features a rigorous design-oriented curriculum with a solid foundation in technology, practice-based coursework, plan and document generation, building codes, specifications, digital parametric modeling, building information modeling, architectural visualization, digital fabrication, building envelope systems, structural systems, and building sustainability. Students will become experts in current design and building technologies, making them ideal employees in architecture offices and related design & construction industries including civil, mechanical, and electrical. The program is structured as a two-plus-three stackable credential, awarding an Associate of Science in Engineering Design Technology after the first two years and a comprehensive professional B-Arch degree for the final three years. This allows students who do not wish to pursue licensure a two-year path into the profession. In their final three years, students engage in coursework which readies them to become licensed, practicing architects, projects managers, principals, owners, and community leaders in the profession. Students acquire leadership skills through courses in professional practice, ethics, and architectural registration exam preparation. Students learn to design buildings in a historical and cultural context through rigorous coursework in areas such as history, theory, culture, study abroad, and community service projects. Concurrently, students engage in arts and sciences courses to expand critical thinking. Transfer students with associate degrees from other institutions are invited to apply for admission into year three and are accepted based on transcript and portfolio review. Upon graduation, and completing their internships, students will qualify to take the Architectural Registration Exam (ARE) to become licensed architects in the State of Utah. A total of at least 151 hours of coursework is required for the Bachelor of Architecture.

Total Program Credits: 151

Matriculation Requirements

1. Before being formally admitted into the Bachelor of Architecture (B-Arch) degree program, students must matriculate into the Architecture Cohort (the final 3 years of the program) by either completing the AS Engineering Design Technology (Architecture Design and Drafting Track) with a minimum grade of C or better in all courses, OR by completing matriculation requirements 2:
2. Complete the following courses with a C grade or better.

All Architecture students must complete a Matriculation Application and Portfolio by the appointed deadline during the Spring semester prior to the Fall Bachelor Degree cohort to which the student desires to gain entry. Subsequently an official acceptance letter must be obtained from the Architecture Program Coordinator prior to taking any further Architecture courses. Part-time students may be admitted into the Architecture cohort and may be allowed to proceed through the program at their own pace. All transfer credits must be approved in writing by UVU and the B-ARCH Program Coordinator.

**Graduation Requirements:**

1. Completion of a minimum of 151 semester credits required for the B-Arch degree; at least 40 credit hours must be upper-division courses.
2. Overall grade point average of 2.5 or above, with a minimum grade of C- in all Architecture courses and elective requirements.
3. Residency hours: Minimum of 45 credit hours of Architecture courses through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements. Students are responsible for completing all prerequisite courses.
5. Successful completion of at least one Global/Intercultural course.

**Surveying and Mapping, B.S.**

**Requirements**

Surveying and Mapping is the study of geospatial measurement and representation including such disciplines as land surveying, photogrammetry, remote sensing (satellite imaging and laser scanning), geographic information systems (GIS), cartography, global positioning systems (GPS), and some parts of geography and civil engineering.

Surveying and Mapping is a discipline which integrates acquisition, modeling, analysis, and management of geo-spatial reference data. Based on the scientific framework of geodesy, it uses terrestrial, marine, airborne, satellite-based sensors, and measurement systems and technologies to acquire spatial and other data. The Land Surveying component of Surveying and Mapping includes investigation, analysis, and application of boundary/property laws and legal principles pertaining to specific public and private properties and is a regulated profession wherein a license to practice land surveying is issued by each state in an effort to protect the public and private interests in property boundaries.

Students in the Surveying and Mapping program may earn an Associate in Science in Surveying and Mapping which will help them be immediately employable as an entry level surveyor GIS technician. Students may also earn a Bachelor of Science in Surveying and Mapping which will prepare them to successfully pass the national Fundamentals of Surveying (FS) exam which is a significant step towards surveying licensure. The bachelor degree program has been developed around four core disciplines which build on an in-depth foundation of knowledge needed for the professional practice of surveying and GIS. Surveying and Mapping program goals are to secure ABET/ASAC accreditation by Fall Semester 2017 and to continue to encourage student interest in obtaining graduate degrees in the field of Surveying and Mapping from other nationally ranked institutions. The program is operating under an annual cohort system starting in the fall semester of each year, so matriculation is required to ensure that each perspective student completes all required course prerequisites prior to entrance into a cohort.

Elective Requirements: 12 Credits

Approved Surveying and Mapping elective courses can be taken with the following prefixes: SURV, GIS, EGDT, ARC, ENGR, CIVE, PHYS, GEOG, CMGT, CS, ENST, MATH, and LEGL.

Total of 12 credit hours

Graduation Requirements:

1. Completion of a minimum of 121 semester credits required for a BS degree; at least 40 credit hours must be upper-division courses.
2. Overall grade point average 2.5 or above with a minimum of 3.0 GPA in all Surveying and Mapping courses including Surveying and Mapping Core and Professional Focus Areas
3. Residency hours: Minimum of 30 credit hours of Surveying and Mapping courses through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements. Students are responsible for completing all prerequisite courses.
5. Successful completion of at least one Global/Intercultural course.

Surveying and Mapping, B.S.

Careers

The Surveying and Mapping program prepares students to enter the workplace in a variety of disciplines. Surveying and Mapping is the study of geospatial measurement and representation including such disciplines as land surveying, photogrammetry, remote sensing (satellite imaging and laser/LIDAR scanning), geographic information systems (GIS), cartography, global positioning systems (GPS), geography and some elements of civil engineering. Geomatics not only encompasses traditional land surveying but today also includes geography and other disciplines which integrate acquisition, modeling, analysis, and management of geo-spatial reference data. Some students will have opportunities to work for organizations such as the National Geodetic Survey (NGS), National Oceanic and Atmospheric Administration (NOAA), Bureau of Land Management (BLM), National Aeronautics and Space Administration (NASA), national, state, county, and city governmental agencies, universities and colleges, and private surveying and engineering firms.

Related Careers

• Cartographers and Photogrammetrists
• Surveyors
• Surveying and Mapping Technicians
Art and Design

Mission Statement
To cultivate the creation and appreciation of visual art, we foster creative confidence, critical thinking, interdisciplinary collaboration, and cultural responsibility. We follow these principles to accomplish our mission:

Visual Literacy, Professional Excellence, Creative Diversity, Interdisciplinary Collaboration, and Cultural/Social Responsibility

Visual Literacy We encourage the development of strong visual literacy among students of the visual arts. We support the study of history, culture, technology and trends to this end.

Professional Excellence In preparing visual art students for careers in a broad market, we support and expect excellence and professionalism.

Creative Diversity While teaching techniques, styles, and practices is an important part of our programs, we support a diversity of styles and individual expressions among students in their creative work. We promote artistic freedom and seek to preserve cultural identity through creative production, exhibition, and historical research.

Program Description
Utah Valley University’s Department of Art & Design offers degrees in applied arts, fine arts, art history, and art education. Upon completing a degree, students emerge from the program ready to enter careers in graphic design, photography, advertising, printing, animation, illustration, art education, printmaking, sculpture, painting and more. Students can earn a general degree, exploring several areas within the visual arts, or they can specialize, exploring a specific practice in depth to better understand it and/or prepare for employment in that field.

Degrees Offered
Students who want to concentrate on a specific area of art and design can gain professional training at UVU through several specialized degrees:

Associate in Applied Science (A.A.S.)
A two-year degree where students can emphasize in one of three areas:

• Graphic Design
• Illustration
• Photography

Bachelor of Arts (B.A.) in Art History
A four-year degree that prepares students for careers and additional education in art history.

Bachelor of Science (B.S.) in Art Education
A four-year degree in which students are trained to teach as art specialists at the secondary level (7–12 grade).

Bachelor of Fine Arts (B.F.A.)
A four-year degree for individuals with above-average abilities, who are looking for a competitive program to hone their skills.

- Graphic Design
- Illustration
- Painting/Drawing
- Photography
- Sculpture/Ceramics

**General Art Degrees (B.A., B.S., A.A., A.S.)**

Students wanting to study art and design broadly, without emphasizing one particular emphasis area can choose to earn one of four general degrees:

- Bachelor of Arts in Art and Design (B.A.)
- Bachelor of Science in Art and Design (B.S.)
- Associate in Art in Art and Design (A.A.)
- Associate in Science in Art and Design (A.S.)

Students who elect to earn a bachelor of arts or associate in arts degree are required to complete a foreign language requirement, while those who earn a bachelor of science or associate in science degree have the option to take more electives. All of these degrees allow students to explore a few areas within the department and gain a more well-rounded education in the visual arts. Some of our 1000 level courses also fulfill general education requirements.

**Career Opportunities**

Our degrees prepare students for various career opportunities, some of which are delineated below.

**Art History**: BA in Art History

Students are prepared for an array of arts-related jobs, including art dealership, art directorship, and work in museums and galleries. It also provides the necessary foundation for graduate studies in art history, which in turn, will prepare students for a career in postsecondary teaching, museum curatorship, and museum directorship.

**Fine Arts**: Painting/Drawing, Sculpture/Ceramics, Photography

Students are prepared to compete in the arts arena typically via self-employment by promoting their work through galleries, museums, exhibitions and commissions. Some students also choose to pursue graduate studies to further their development or to prepare them to teach in higher education. Areas of study include painting, drawing, printmaking, sculpture, and ceramics.

**Applied Arts**: Graphic Design, Illustration, Photography

Students are prepared to compete for employment at advertising agencies, design studios, in-house design departments, printing firms, photography studios, gaming developers, animation studios and for freelance consulting work (self-employed). Some students may also choose to further their studies in graduate programs.

**Education**: BS in Art Education

The Bachelor of Science in Art Education certifies students to teach as an art specialist at the secondary level in public schools and private schools.

**Engaged Learning**

Students are encouraged to learn by applying what they study in the real world and by taking part in activities outside the classroom.

The department offers many opportunities for students to travel and to interact with practicing art professionals. Art & Design offers rotating trips to art capitals, such as New York City, to visit museums, galleries, and artists’ studios. Students may also participate in course related excursions to produce creative works, such as the Art & Design book project. Students can also apply to participate in additional rotating international travel experiences.

Students regularly enter their work in competitions at local, state and national levels, with several students earning awards each year. At UVU’s biennial art history symposium, students present their research alongside faculty. Every student in the Department of Art & Design attends an art lecture series, in which artists from around the country visit UVU to present their work, lecture on what they do and occasionally hold a workshop.

**Art & Design Core Grade Requirement**

The Art & Design Core requirements (ART 1110, ART 1120, ART 1130, ART 1400 and one of the following: ART 1210, ART 1350, ART 1420, ART 1650, or ART 1750) must be completed with a B- or higher before being formally admitted to the BS, BA, and BFA programs.

**Bachelor of Fine Arts (BFA) Requirements:**

This degree is for those with exceptional abilities in art and design fields. In order to apply to the BFA, students must first meet the core class requirements (consult with your academic advisor for details) in the Art & Design Department and submit a portfolio for departmental BFA review. Students desiring to participate in the review should submit a letter of intent to the area coordinator in their particular interest. Portfolios will be due in March as designated by the area coordinator. Acceptance into the BFA is based on the portfolio review, overall GPA of 2.0 or above with 3.0 GPA or above in ART and ARTH courses. Courses within the student’s area of emphasis must be completed with a C grade or above. For graduation with a BFA degree, students must maintain the grade requirements listed above and receive a B grade or above for ART 499R BFA Project. For more information, contact the Academic Advisors. Students not accepted into the BFA program, or who are unable to fulfill the above requirements, may still pursue the more general BA/BS degrees.

**Graduation Requirement: Portfolio Submission**

To ensure that faculty and programs at UVU are adequately teaching and preparing students for professional careers and/or further schooling, the Art & Design Department has implemented a graduating student portfolio submission. All students completing a degree in the Art & Design Department are required to submit a portfolio for faculty/ professional review prior to graduation. Results are kept confidential and are used only to help modify and improve curriculum and teaching. Consult with your academic advisor for details of deadlines and requirements to make certain all Art & Design degree graduation requirements are met.

Degrees & Programs

Art and Design - Design/Illustration Emphasis, A.A.S.

Requirements

The Applied Associate in Science is a two-year work-ready degree that helps prepare students for entry level jobs within the Illustration industry. This degree and credits earned can be used to further their studies in a Bachelor of Fine Arts or other programs.

Total Program Credits: 63

Matriculation Requirements:

Portfolio review required for students seeking the AAS Art and Design - Graphic Design Emphasis (The Portfolio Review occurs after the first year of coursework. Students who do not pass the review may apply the first year of coursework to the AA or AS in Art & Design.)

General Education Requirements: 16 Credits

Emphasis Elective Requirements: 6 Credits

Complete 6 credits of ART/ARTH lower-division electives. Students are strongly encouraged to take either ARTH 2710 or ARTH 2720 (whichever course was not previously taken).

Graduation Requirements:

1. Completion of a minimum of 63 semester credits.
2. Overall grade point average of 2.0 (C) or above with no grade lower than a C- in all Art and Design courses.
3. Residency hours—minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.
5. Portfolio Submission.

Art and Design - Graphic Design Emphasis, A.A.S.

Careers

Students are prepared to compete for production design/entry level employment at advertising agencies, design studios, in-house design departments, publishing firms, printing firms, and for freelance consulting work (self-employed). The types of job responsibilities could include pre-press printing, logo design, web and interactive design, digital and traditional publishing, and motion design.

**Elective Requirements:** 8 Credits

Complete 8 credits of the same Foreign Language

**Graduation Requirements:**

1. Completion of a minimum of 63 semester credits.
2. Overall grade point average of 2.0 (C) or above with no grade lower than a C- in all Art and Design courses.
3. Residency hours—minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.
5. Portfolio Submission.
6. For the AA degree, completion of 8 credit hours of course work from one language.

**Art and Design, A.A. Careers**

**Careers:**
Students can use this degree as a stepping stone to 4-year programs both within and outside of the the Art & Design department.

**Related Careers**

- Art, Drama, and Music Teachers, Postsecondary
- Commercial and Industrial Designers
- Graphic Designers
- Set and Exhibit Designers
Art and Design

• Designers, All Other

Art and Design, A.S.

Requirements
Students who elect to earn a bachelor of arts or associate of arts degree are required to complete a foreign language requirement, while those who earn a bachelor of science or associate of science degree have the option to take more electives. All of these degrees allow students to explore a few areas within the department and gain a more well-rounded education in the visual arts.

or any other advisor approved upper division courses.

Art History, Minor

Careers:
This degree creates a more diverse skill set for careers related to the visual arts, as well as a more culturally rich knowledge base for careers outside the visual arts.

Related Careers
- Art, Drama, and Music Teachers, Postsecondary
- Commercial and Industrial Designers
- Graphic Designers
- Set and Exhibit Designers
- Designers, All Other

Art History, Minor

Requirements
Because art history is cross-disciplinary by nature, a minor in art history would compliment almost any degree, whether within or outside of the arts. The minor requires 18 credits of art history courses, including the survey classes Art to and from the Renaissance, as well as four upper division electives, ranging from ancient to contemporary art history. The minor creates a more diverse skill set for students of the visual arts, as well as a more culturally rich educational experience for students outside of the arts.

Total Program Credits: 18
Art and Design

- Archivists
- Curators
- Museum Technicians and Conservators

Art Education, B.S.

Requirements

The Bachelor of Science in Art Education prepares students to qualify for teaching licensure for 7--12th grade. Curriculum is designed to give students a background in general education, as well as secondary education. Students can also focus on a single studio area within visual arts such as painting/drawing, sculpture/ceramics, illustration or printmaking.

Total Program Credits: 120

Matriculation Requirements:

Students will apply for formal admission to the Secondary Education and the Art and Design Department Art Education program in the semester prior to the beginning of their junior year. Admission criteria include:

1. ACT exam minimums: Composite 21, English 20, Math 19; or SAT exam minimums: Critical Read/Math 1000, with Math and Reading scores of 450; or If student has a bachelor degree or higher, he/she does not need to meet this testing requirement.
2. GPA of 3.0 or higher with no grade lower than a C in discipline core courses.
3. Completion of all General Education requirements and the majority of discipline core courses.
4. Pass LiveScan Criminal Background Check.
5. Pass a portfolio review with Art and Design Department Art Education Program, and submit an application to the art education program with a pre-teaching statement concurrent with their Secondary Education program application.

| ARTH 391R | Art History Seminar (3.0) (Complete a minimum of two) |

Elective Requirements: 33 Credits

1. One Foreign Language (1010, 1020, 2010 levels. German or French are recommended) 12 Credits
2. Complete any courses from Humanities, History, Philosophy, English, Art, or Art History (at least four courses must be 3000 level). The major adviser will have a list of approved courses. 21 Credits

Graduation Requirements:

1. Completion of a minimum of 120 semester credits.
2. Overall grade point average of 2.0 (C) or above and a grade point average of 3.0 (B) or above in all ARTH courses.
3. Residency hours- minimum of 30 credit hours through course attendance at UVU, with at least 10 hours in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Successful completion of at least one Global/Intercultural course.
6. Portfolio Submission.

Footnote:

1-Fulfilled with Foreign Language 202G/2020

Art History, B.A.

Careers

Art historians preserve ideas and artifacts for future generations, and they teach others to appreciate art, culture, and cultural history. The Bachelors of Art in Art History degree helps students prepare for a range of arts-related jobs, including art dealership, art direction, art education, and work in museums and galleries. It also provides the necessary foundation for graduate studies in art history, which in turn, prepares one for a career in post-secondary teaching, museum curatorship, and museum directorship. Finally, the degree helps students prepare for graduate work in correlated fields, such as art restoration, arts management, library studies, international business, and legal studies.

Related Careers

• Art, Drama, and Music Teachers, Postsecondary
• Archivists
• Curators
• Museum Technicians and Conservators

Art and Design - Graphic Design Emphasis, B.F.A.

Requirements

Situated in the heart of the “Silicon Slopes,” UVU’s graphic design program is uniquely situated to offer students cutting-edge learning, internship, and job-placement opportunities. As students use the latest software to practice communicating creatively using typography and imagery, they learn to approach problem solving from marketing and artistic standpoints that resonate with target audiences. Courses emphasize creative, concept-intensive communication, and effective design implementation in both print and interactive design.

Total Program Credits: 120

Matriculation Requirements:

1. AA, AS, or AAS Degree or equivalent in Art and Design or advisor approval (Graphic Design Emphasis B.F.A. candidates must complete the AAS Degree or equivalent in Graphic Design; Illustration Emphasis. B.F.A. candidates must complete the AAS Degree or equivalent in Illustration)
2. Portfolio Review

Art and Design - Illustration Emphasis, B.F.A.

Requirements
The program is ideal for students wanting to pursue careers in traditional illustration, digital illustration, or animation. In addition to working with faculty who are professionals in their fields, students have access to the best software in the industry. Courses in figure drawing, children’s book illustration, anatomy and figure structure, flash animation, 3-D computer rendering, and advanced illustration are just a few of the classes available to students. The courses offer a well-rounded and practical learning experience. Students in the illustration program benefit from interaction with instructors who are nationally known professional illustrators.

Total Program Credits: 120

Matriculation Requirements:
1. AA, AS, or AAS Degree or equivalent in Art and Design or advisor approval (Graphic Design Emphasis B.F.A. candidates must complete the AAS Degree or equivalent in Graphic Design; Illustration Emphasis. B.F.A. candidates must complete the AAS Degree or equivalent in Illustration)

- ART 426R Concept Design (3.0)
- ART 428R Sequential Illustration (3.0)
- ART 429R 3D Illustration (3.0)

Complete any ART/ARTH courses not already used (2 credit must be upper division).

Graduation Requirements:

1. Completion of a minimum of 120 semester credits.
2. Overall grade point average of 2.0 (C) or above with no grade lower than a C- in all Art and Design courses.
3. Residency hours–minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Portfolio submission required during senior year.
6. Successful completion of at least one Global/Intercultural course.

Footnotes

1- If ART 1210 is used in the discipline core requirements, take ART 1750

Art and Design - Illustration Emphasis, B.F.A.

Careers:

Students are prepared to compete for employment creating concepts, illustrations, backgrounds, textures, and more in the areas of gaming development, animation, and for freelance consulting work (self-employed) creating illustrations for books (children’s, graphic novels, etc.), magazines (both traditional and online), storyboarding, advertising. Some students may also choose to further their studies in graduate programs. Many employment opportunities will be a combination of freelance, part time employment, and/or full time employment. For example, a concept artist may be in a full time position for the duration of a large project but may freelance or be employed part time on smaller similar projects.

Related Careers

- Art, Drama, and Music Teachers, Postsecondary
- Commercial and Industrial Designers
- Graphic Designers
- Set and Exhibit Designers
- Designers, All Other

Art and Design - Painting and Drawing Emphasis, B.F.A.

Requirements

Within the painting/drawing program, students emphasize one of four areas: drawing, watermedia, painting, or printmaking. In their senior year, B.F.A. students receive one-on-one instruction from the professor of their choice. Students explore their personal artistic identity while learning the rigor and attention to detail needed to put together a solo exhibition as their culminating experience.

Total Program Credits: 120
### Matriculation Requirements:

1. **AA, AS, or AAS Degree or equivalent in Art and Design or advisor approval** (Graphic Design Emphasis B.F.A. candidates must complete the AAS Degree or equivalent in Graphic Design; Illustration Emphasis. B.F.A. candidates must complete the AAS Degree or equivalent in Illustration)

2. **Portfolio Review**

Art and Design

Complete 12.0 elective credits from upper-division specialization courses listed below. It is recommended to focus on depth in the selected specialization.

Drawing

ART 311R Drawing III (may be taken twice) (3.0)  
ART 366R Life Drawing (3.0) (may be taken twice)  
ART 411R Drawing IV (may be taken twice) (3.0)  
ART 466R Advanced Life Drawing (3.0) (may be taken twice)

Watermedia:

ART 365R Watermedia III (may be taken twice) (3.0)  
ART 465R Watermedia IV (may be taken twice) (3.0)

Painting

ART 363R Painting III (may be taken twice) (3.0)  
ART 369R Contemporary Figure Painting (3.0) (may be taken thrice)  
ART 463R Painting IV (3.0) (may be taken twice)

Printmaking

ART 368R Printmaking III (may be taken twice) (3.0)  
ART 468R Printmaking IV (may be taken twice) (3.0)

Complete any ART/ARTH courses not already used (must be upper division)  

Graduation Requirements:

1. Completion of a minimum of 120 semester credits.
2. Overall grade point average of 2.0 (C) or above with no grade lower than a C- in all Art and Design courses.
3. Residency hours—minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Portfolio submission required during senior year.
6. Successful completion of at least one Global/Intercultural course.

Art and Design - Photography Emphasis, B.F.A.

Requirements

UVU’s photography program teaches the language of photography. Students will take courses to diversify their skill set in the creation and appreciation of different approaches to photography. They will work with film, historic photographic processes, and cutting edge digital technology. Students learn about and work in commercial and fine art environments. They will be taught working methods in the darkroom, studio lighting techniques, motion, and digital manipulation. The photo program emphasizes a hands-on and engaged approach. We actively look for opportunities to get our students on location and into real world scenarios through internships, study abroad programs, service oriented programs, and classes taught off campus.

Total Program Credits: 120

Matriculation Requirements:

1. AA, AS, or AAS Degree or equivalent in Art and Design or advisor approval (Graphic Design Emphasis B.F.A. candidates must complete the AAS Degree or equivalent in Graphic Design; Illustration Emphasis. B.F.A. candidates must complete the AAS Degree or equivalent in Illustration)
2. Portfolio Review

Complete any ART/ARTH courses not already used (6 credits must be upper division).

**Total Program Credits: 120**

### Graduation Requirements:

1. Completion of a minimum of 120 semester credits.
2. Overall grade point average of 2.0 (C) or above with no grade lower than a C- in all Art and Design courses.
3. Residency hours—minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Portfolio submission required during senior year.
6. Successful completion of at least one Global/Intercultural course.

### Art and Design - Photography Emphasis, B.F.A. Careers

Students are prepared to compete in the photo area generally through free-lance work in areas such as advertising, stock images, weddings, documentary, portraiture etc. They may also look at in-house photography departments or studios. Students may also choose to promote their work to galleries, museums, exhibitions, commissions.

### Related Careers

- Art, Drama, and Music Teachers, Postsecondary
- Commercial and Industrial Designers
- Graphic Designers
- Set and Exhibit Designers
- Designers, All Other

### Art and Design - Sculpture and Ceramics Emphasis, B.F.A. Requirements

UVU's BFA in ceramics and sculpture helps students build a strong foundation of design fundamentals, technical skills, and the use of materials. Whether throwing clay on a potter's wheel or listening to a class lecture, students discover endless sources of creative ideas while taking courses in low-fire ceramics, mold making, casting, ceramic technologies, and more.

- **Completion of GE and specified departmental requirements.**
- **Portfolio Review**

**Total Program Credits: 120**

### Matriculation Requirements:

1. AA, AS, or AAS Degree or equivalent in Art and Design or advisor approval (Graphic Design Emphasis B.F.A. candidates must complete the AAS Degree or equivalent in Graphic Design; Illustration Emphasis. B.F.A. candidates must complete the AAS Degree or equivalent in Illustration)
2. Portfolio Review

**Graduation Requirements:**

1. Completion of a minimum of 120 semester credits.
2. Overall grade point average of 2.0 (C) or above with no grade lower than a C-in all Art and Design courses.
3. Residency hours—minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Portfolio submission required during senior year.
6. Successful completion of at least one Global/Intercultural course.

**Art and Design - Sculpture and Ceramics Emphasis, B.F.A.**

**Careers**

Students are prepared to compete in the arts arena typically via self-employment by promoting their work through galleries, museums, exhibitions, commissions fairs and festivals. Other opportunities include teaching private lessons and working in related fields in museums and galleries. Some students also choose to pursue graduate studies to further their development or to prepare them to teach in higher education. Areas of study include sculpture and ceramics.

**Related Careers**
- Art, Drama, and Music Teachers, Postsecondary
- Commercial and Industrial Designers
- Graphic Designers
- Set and Exhibit Designers
- Designers, All Other

**Art and Design, B.A.**

**Requirements**

Students who elect to earn a bachelor of arts or associate of arts degree are required to complete a foreign language requirement, while those who earn a bachelor of science or associate of science degree have the option to take more electives. All of these degrees allow students to explore a few areas within the department and gain a more well-rounded education in the visual arts.

**Total Program Credits: 120**

3. ART 1110, ART 1120, ART 1130, ART 1400 and one of the following: ART 1050, ART 1350, ART 1420, or ART 1650 must be completed with a B- or higher before being formally admitted to the program.
4. Residency hours- minimum of 30 credit hours through course attendance at UVU, with at least 10 hours in the last 45 hours.
5. Completion of GE and specified departmental requirements.
6. Portfolio Submission.
7. Successful completion of at least one Global/Intercultural course.
8. For the BA degree, completion of 16 credit hours of course work from one language to include the 1010, 1020, 2010, and 202G/2020 levels or transferred equivalents.

Footnotes
1- Minimum grade of B- required

Art and Design, B.A.

Careers

A degree in art provides training in creative and critical thinking, problem solving and visual communication, providing a sound background for careers both in and outside of the arts. Careers could include working with arts organizations, museums, or non-profit groups. While the BFA degrees provide specific professional training, Bachelor of Science students who have taken a number of classes in a specific area may also be qualified for jobs in the fields of graphic design, photography and illustration, or opportunities to submit work to galleries, museums, exhibitions, commissions fairs and festivals.

Aviation Science

Mission Statement
A degree in Aviation Science prepares students for successful careers in aviation. Courses are offered through online, hybrid or face to face delivery methods. Simulations and flight training are integrated with scholarly work to create a complete and well-balanced aeronautics program. The curriculum is developed through ties with industry to incorporate changing standards in technology and procedural advances. Our student-centered approach encourages leadership and engaged life-long learning. We emphasize public awareness and safety in aviation as our commitment to the community at large.

Aviation Science
The Aviation Science department is located at the Provo Airport in Hangar B (HB). The address for the Provo Airport is 3338 West 1150 South, Provo, UT 84601.

PROGRAMS
The School of Aviation Sciences offers a Bachelor of Science in Aviation Science in Professional Pilot, Aviation Management, and Aerospace Technology Management. UVU Aviation Science offers an Associate in Applied Science in Aviation Science and an Associate in Science in Aviation Science. Each associate degree requires the completion of a commercial pilot certificate.

Students graduating with the associate degree in Aviation may transfer to any of the Bachelor of Science options.

An overall grade point average of 2.0 (C) or above is required for graduation. A grade of C- or better must be achieved for credit in any aviation science course.

Bachelor of Science, Aviation Management
The Bachelor of Science in Aviation Management degree is designed to produce graduates with a combination of industry knowledge and general management skills applicable in any segment of the aerospace field. In addition, they can obtain direct experience and certifications that will propel them toward their chosen career path. Careers in aviation administration include: airline, corporate aviation, fixed base operations, and airport management.

Bachelor of Science, Aerospace Technology Management
The Bachelor of Science in Aerospace Technology Management degree prepares certified Airframe & Powerplant technicians for career progression into leadership and managerial roles needed in a wide variety of areas not only in aviation, but the entire aerospace industry. This emphasis is designed to prepare students for careers as professionals with air carriers, business aviation, general aviation, defense, unmanned aerial systems (UAS) and space.

FLIGHT REQUIREMENTS
The UVU flight program is a demanding program and requires full commitment each semester. There are no requirements to enter the professional pilot Bachelor of Science degree, but due to the current demand in aviation we are not able to accommodate all new students wanting to start flight training until their 2nd or 3rd semester.

Enrollment in the on-campus professional pilot flight courses are by a competitive points-based application and contingent upon completion of required prerequisites. New aviation students must meet with an aviation academic advisor before registering for flight training. For more information regarding student loans, please contact the UVU financial aid & scholarship office located at the main UVU campus.

Students for whom English is a second language are conditionally admitted but must demonstrate acceptable level of English skills prior to beginning flight training. New students may be required to meet additional English language proficiency standards set by the school and determined through both oral and written testing.

| AVSC 3020 | Aviation Insurance and Risk Management (3) |
| AVSC 3060 | Airline Management (3) |
| AVSC 3090 | Airline and Dispatch Operations (3) |

### Graduation Requirements:

1. Completion of a minimum of 63 or more semester credits.
2. Overall grade point average of 2.0 (C) or above. C- or above required for all aviation major classes.
3. Residency hours—minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements
5. Completion of Commercial Pilot Certificate.
6. Students may count no more than 4 credit hours of total cooperative work experience (AVSC 251/285R) toward the degree requirements without department approval.

### Aviation Science, A.A.S.

**Careers**

Graduates of the Associate in Applied Science are qualified to become a commercial pilot or certified flight instructor. This degree transitions into the Bachelor of Science in Aviation Science with an emphasis in Professional Pilot. Students must obtain a commercial pilot certificate with multi-engine and instrument rating to complete the degree.

### Related Careers

- Airline Pilots, Copilots, and Flight Engineers
- Commercial Pilots

### Aviation Science, A.S.

**Requirements**

The A.S. degree is designed to prepare the student with all the ratings necessary to be qualified for entry-level jobs in the aviation field. Obtaining an associate degree helps the graduate prepare for a diversity of job-related responsibilities and prepares students to enter directly into the B.S. degree.

Aviation Science, A.S.

**Careers**

Graduates of the Associate in Science are qualified to become a commercial pilot or certified flight instructor. This degree transitions into the Bachelor of Science in Aviation Science with an emphasis in Professional Pilot. Students must obtain a commercial pilot certificate with multi-engine and instrument rating to complete the degree.

**Related Careers**

- Airline Pilots, Copilots, and Flight Engineers

Aviation Science, Certificate of Proficiency

**Requirements**

The Certificate of Proficiency in Aviation Science is available for all UVU students with a particular focus designed to provide high school students an opportunity to obtain a stackable certificate of proficiency with an emphasis in career and technical education while still enrolled in high school. This certificate is available from the University for college students/adults looking for basic entry-level skills leading to further academic advancement.

**Total Program Credits: 16**

Aerospace Technology Management, B.S.

**Requirements**

The BS in Aerospace Technology Management from Utah Valley University is designed to prepare graduates for various technical aerospace professional roles across a products life cycle. Skills associated with air and space vehicle sustainability systems and risk management, customer management, project management, aftermarket services, business development, manufacturing and inspection processes, safety management systems, and process improvement will be learned and applied. The program will provide a completion degree for students who possess the Airframe and Powerplant ratings of an FAA issued Aircraft Maintenance Technician Certificate under the rules defined by FAR Part 65 or possess a license as an Aircraft Maintenance Engineer (Cat B1) issued under EASA Part 66 regulations.

**Total Program Credits: 123**

**Matriculation Requirements:**

Completion of a Technical Specialty associated with FAA issued Airframe & Powerplant Maintenance Technician Certificate issued under rules of FAR Part 65 OR Completion of an Associates in Science or an Associates of Applied Science Degree from a regionally accredited institution of higher education with a designated technical specialty associated with FAA issued Airframe & Powerplant Maintenance Technician Certificate issued under the rules of FAR Part 147 OR possess a license as an Aircraft Maintenance Engineer (AME) (Cat B1) issued under EASA Part 66 regulations. A total not to exceed 45 credit hours will be awarded for evidence of the possession of the A&P or AME certificate.

**General Education Requirements**

Aviation Management, B.S.

Careers

- Transportation, Storage, and Distribution Managers

Professional Pilot, B.S.

Requirements

The Bachelor of Science in Professional Pilot prepares students to enter the work force as a certified flight instructor and commercial, multi-engine rated pilot. Students receive specific training under Federal Aviation Administration (FAA) 14 CFR Part 141 and Restricted Air Transport Pilot (R-ATP) regulations to qualify for specialized employment requirements with a regional airline. Delivery focuses on technical training and applied exercises providing the knowledge and skills required for several licenses and ratings.

Total Program Credits: 120

Matriculation Requirements:

Students seeking admission to the program will be required to meet the following admission requirements:
1. Hold a second class FAA medical certificate from an FAA designated Medical.
2. An overall GPA of at least 2.5.
3. Due to limited availability of flight training resources, flight student admission into the on-campus AVSC 1110 Flight I - Private Pilot course, when necessary, may required selection through a competitive point based application.

Mission Statement
The Behavioral Science department is a rigorous interdisciplinary program (Anthropology, Family Science, Psychology, Social Work, Sociology, and Substance Use Disorder Counseling) that prepares students to make positive contributions in their academic, work, and community settings by developing their understanding of human functioning in various contexts. We promote and mentor student engagement with each other and with their academic, professional, or geographic communities in order to achieve essential learning outcomes.

Anthropology, Minor

Requirements
The BA/BS/Minor will give students the opportunity to earn a full major/minor in the field of anthropology. Students who obtain this degree will a) develop anthropological knowledge, enabling them to analyze trends in culture and society, b) methodological competence, learning to apply anthropological methods for learning about cultural/ideological differences and navigating them in daily life, and c) essential skills, written and spoken communication, analytic reading and writing, building rapport with people from different backgrounds. The Minor in Anthropology will allow students pursuing other majors to earn a credential that suggests critical thinking skills, writing ability, and cultural sensitivity.

Family Science, Minor

Requirements
This minor provides individuals insight into relationship and group dynamics. This include important relationship skills, such as speaking, listening, and other communication skills that could be applied to family and professional settings. Content in the minor may also include important research findings and evidence-based curricula listed on the National Registry of Evidenced-based Programs and Practices (NREPP) on the SAMHSA website.

Graduation Requirements:

1. All course work taken to meet Behavioral Science requirements must be completed with a grade of C- or better.

Psychology, Minor

Requirements
The Minor in Psychology is designed for students who desire a full bachelor’s degree in psychology. The degree will prepare students for careers and further education in Utah, the Mountain West, and nationwide by (a) creating a curriculum built around the five pillars of psychology described by the American Psychological Association (APA); (b) emphasizing skills desired by employers (e.g., written communication, critical thinking, working in teams); and (c) providing engaged learning experiences (e.g., service-learning, internship, capstone) about current psychological topics.

Sociology, Minor

Requirements
Sociology is the scientific study of society which includes studying individuals in their primary and secondary groups and larger social institutions. It examines the social context of individual and collective lives. Sociology is a relatively young discipline that describes, explains, and predicts social interactions and institutions using theoretical as well as social scientific methods of inquiry. According to the American Sociological...
Behavioral Science

Association, the essential concepts that students will learn within sociology are social construction of everyday life and sociological imagination; social structure; socialization; social stratification, and social change. Students will also gain competencies in critical and theoretical thinking and application of social scientific methodology towards rigorous data analysis.

Requirements

The BA/BS/Minor will give students the opportunity to earn a full major/minor in the field of anthropology. Students who obtain this degree will a) develop anthropological knowledge, enabling them to analyze trends in culture and society, b) methodological competence, learning to apply anthropological methods for learning about cultural/ideological differences and navigating them in daily life, and c) essential skills, written and spoken communication, analytic reading and writing, building rapport with people from different backgrounds. The Minor in Anthropology will allow students pursuing other majors to earn a credential that suggests critical thinking skills, writing ability, and cultural sensitivity.

Total Program Credits: 120

Graduation Requirements:

1. Completion of a minimum of 120 credits, 40 of which must be 3000 level or higher.
2. Minimum UVU GPA of 2.0 upon graduation.
3. Residency hours—minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Successful completion of at least one Global/Intercultural course.

Note: Please see department advisor for an explanation of all program requirements, a list of recommended classes, and for assistance with creating an academic plan for graduation.

Note: If a student has completed an associate degree through another institution, the required general education courses may be waived.

Psychology, B.A.

Requirements

The BA in Psychology is designed for students who desire a full bachelor's degree in psychology. The degree will prepare students for careers and further education in Utah, the Mountain West, and nationwide by (a) creating a curriculum built around the five pillars of psychology described by the American Psychological Association (APA); (b) emphasizing skills desired by employers (e.g., written communication, critical thinking, working in teams); and (c) providing engaged learning experiences (e.g., service-learning, internship, capstone) about current psychological topics.

Complete twelve additional credits of Psychology Electives. Four credits must be from one of the following if not already taken: PSY 3450, PSY 3480, or PSY 3490. Please see your academic advisor to make sure you will complete at least 40 credits of upper division coursework.

### Elective Requirements: 32 Credits

Complete 32 credits of 1000-level or higher coursework from any subject

### Graduation Requirements:

1. Completion of a minimum of 120 credits, 40 of which must be 3000 level or higher.
2. Minimum overall UVU GPA of 2.0 upon graduation.
3. Minimum 2.5 program GPA upon graduation.
4. Residency hours--minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
5. All major course work taken to meet Psychology requirements must be completed with a grade of C- or better.
6. Successful completion of at least one Global/Intercultural course.

Note: Please see department advisor for explanation of all program requirements, a list of recommended classes, and for assistance with creating an academic plan for graduation.

Note: If a student has completed an associate degree through another institution, the required general education courses may be waived.

Note: Students would need to pass ENGL 1010 or ENGH 1005 and ENGL 2010 with a C+ or higher as prerequisites for the Psychology Bachelor degree courses.

### Psychology, B.S.

#### Careers

Courses in these areas of study lead to possible careers in mental health, counseling, family services, education, law enforcement, research, marketing, human resources, management, rehabilitation, anthropology, psychology, sociology, social work, and other human services.

#### Related Careers

Social Work, B.S.W.

Requirements

The UVU Behavioral Science Department offers classes that fulfill the social science distribution requirements for graduation, the Behavioral Science pre-major for the associate degree, the Behavioral Science major for the bachelor degree (with an emphasis in Anthropology, Family Studies, Psychology, or Sociology, a Bachelor of Social Work, and a Certificate of Proficiency in Substance Use Disorder Counseling (SUDC).

Total Program Credits: 120

Matriculation Requirements:

Admission to the BSW program includes the following requirements:
1. Completion of all general education courses.
2. Completion of SW 1010 with a B- grade or higher.
3. Completion of ENGL 1010 or ENGH 1005 and ENGL 2010 with a C+ grade or higher.
4. Overall GPA of 2.5 or higher.
5. Approval of the Social Work Admissions Committee.

Sociology, B.A.

Requirements

Sociology is the scientific study of society which includes studying individuals in their primary and secondary groups and larger social institutions. It examines the social context of individual and collective lives. Sociology is a relatively young discipline that describes, explains, and predicts social interactions and institutions using theoretical as well as social scientific methods of inquiry. According to the American Sociological Association, the essential concepts that students will learn within sociology are social structure; socialization; social stratification, and social change. Students will also gain competencies in critical construction of everyday life and sociological imagination; social scientific methods of inquiry. According to the American Sociological Association, the essential concepts that students will learn within sociology are social structure; socialization; social stratification, and social change. Students will also gain competencies in critical construction of everyday life and sociological imagination; social scientific methods of inquiry.

Biology

Mission Statement

The mission of the Department of Biology is two-fold: first, we are committed to educate students in the principle tenets of biology through structured inquiry and opportunities for individualized experiential learning. Second, we are committed to teaching ethical behavior in experimental design and practice to all of our students. The department strives to provide the best educational opportunities possible for students to attain their academic goals and to facilitate faculty in scholarship in an atmosphere that encourages free exchange of ideas.

Our Philosophy and Values

The Department of Biology believes that students and faculty have a shared responsibility to obtain knowledge. Faculty should maintain their expertise by ongoing investigation, presentation, and pursuit of scholarly activities. In addition to the pursuit of scholarly information in biology, students should develop skills in communication, analysis, and critical thinking relevant to biology and other disciplines.

Goals

The Department of Biology recognizes excellent student education as its first priority. In addition to formal programs of study, we offer opportunities for research, service, field and laboratory activities, and secondary education training.

The UVU Biology program offers a variety of courses that investigate the living world, including courses in biology, botany, ecology, genetics, human physiology, microbiology, and zoology. A course of study may be designed to provide breadth in the life sciences or emphasize field or laboratory oriented biology.

Programs

Eight degree options are available: Associate in Science or Associate in Arts with a pre-major in Biology; Bachelor of Science in Integrated Studies (IS) with a Biology emphasis; Bachelor of Science in Biology; Bachelor of Science in Biotechnology; Bachelor of Science in Biology Education; and Bachelor of Science in Botany. A minor in biology is available for those in other baccalaureate programs.

All AS/AA and BS Biology, Botany, and IS majors must consult with the Biology Department advisor prior to their first semester of enrollment at UVU or immediately upon changing to one of these majors to formulate a plan of study. BS in Biotechnology majors consult with the Biotechnology advisor. BS in Biology Education majors consult with Biology Secondary Education advisor. BS in Integrated Studies must also consult with the Integrated Studies advisor.

Students interested in a career in biology or related field are encouraged to earn at least a baccalaureate degree (BS). Many professions (e.g., pharmacy, medicine) require additional post-baccalaureate education. The UVU AS/AA degree is intended for students who plan to use it as a first step toward a baccalaureate degree. The AS/AA degree may be granted to those who do not continue in a bachelor’s program and meet the minimum requirements. The Departmental Bachelor of Science Degrees may be used for entry into a career or in preparation for post-baccalaureate (for masters and doctoral degrees) or professional education (e.g., medical, dental) education. A Bachelor of Science Degree in Integrated Studies, Biology emphasis is available. Please see Biology advisors for more information.

Career Opportunities

Majors in Biology prepare for a wide variety of occupations in education, government, medicine, and research. Students majoring in a UVU Bachelor’s program should meet with the Biology Department advisor early in their program.

Job Outlook

Graduates with degrees in Biology are especially in demand in the secondary education, health, natural resource management, and biotechnology areas.

Degrees & Programs

Biology, A.A.

Requirements
Students interested in biology, or related fields, are encouraged to earn at least a baccalaureate degree (BS). Many professions (e.g., Pharmacy or Medicine) require additional post-baccalaureate education. The AS/AA degree is intended for students who plan to use it as a first step toward a baccalaureate degree. The AS/AA degree may be granted to those who do not continue in a bachelor's program and meet the minimum requirements.

Total Program Credits: 60

General Education Requirements: 39 Credits

Biology Education, B.S.

Requirements

Biology is the study of living organisms and includes study of subjects such as evolution, ecology, zoology, physiology, anatomy, and botany among other subjects. Completion of this degree will prepare students to teach classes in high school biology, and related subjects, plus integrated science at the 7th grade level.

Total Program Credits: 126

<table>

Admission to Professional Education status is a requirement for enrollment in professional studies level courses. Admission criteria includes:

1. ACT exam minimums: Composite 21, English 20, Math 19; or SAT exam minimums: Critical Read/Math 1000, with Math and Reading scores of 450; or if student has a bachelor degree or higher, he/she does not need to meet this testing requirement.
2. GPA of 3.0 or higher with no grade lower than a C in content area courses.
3. Completion of all General Education requirements and the majority of content area courses.
4. Pass LiveScan Criminal Background Check.

General Education Requirements: 38 Credits

| ENGL 1010 | Introduction to Academic Writing | 3 |
| or ENGH 1005 | Literacies and Composition Across Context (5.0) |
| ENGL 2010 | Intermediate Writing Academic Writing and Research | 3 |
| MATH 1050 | College Algebra | 4 |
| or MATH 1055 | College Algebra with Preliminaries (5.0) |

188 Course Catalog 2020-2021 Utah Valley University
Graduation Requirements:
1. Complete the required minimum credit hours.
2. If an AA or AS degree has been earned, a maximum of 64 of these credits may apply toward the BS.
3. At least 30 credit hours in residence at UVU or satellite sites are required, with 10 hours earned during the last 45 hours.
4. A minimum of 40 credits must be upper-division (numbered 3000 or above).
5. A minimum of 30 credits must be in the major (BIOL, BOT, MICR, or ZOOL prefixes), courses as follows: minimum of 9 Biology credits must be taken at UVU and a minimum of 20 Biology credits must be upper-division.
6. Complete the appropriate application for graduation form.
7. Successful completion of at least one Global/Intercultural course.
8. Overall Grade of 3.0 (B) or above with no grade lower than a C or better in major required content courses and no grade lower than a B- in Licensure and Methods courses.

Footnotes:
1-Must be completed with a grade of B- or higher.

Biology Education, B.S.

Careers
Secondary Education Teacher Grade 7th-12th.

Upper division credits from the Biology Department (including any upper division credits from MICR, BOT or ZOOL electives listed below): 10

Upper division credits from any department: 8

Choose 4 credits from any MICR electives: 4

Choose 3 credits from any BOT electives: 3

Choose 3 credits from any ZOOL electives (except ZOOL 1090): 3

AFTER 40 Upper Division credit hours are completed (including upper division core courses), Lower Division courses may be
Biology

used to complete any remaining credit hours of the elective requirement.

Graduation Requirements:

1. Complete the required minimum credit hours.
2. If an AA or AS degree has been earned, a maximum of 64 of these credits may apply toward the BS.
3. At least 30 credit hours in residence at UVU or satellite sites are required, with 10 hours earned during the last 45 hours.
4. A minimum of 40 credits must be upper-division (numbered 3000 or above).
5. A minimum of 40 credits must be in the major (BIOL, BOT, BTEC, MICR, or ZOOL prefixes), 30 of which must be upper-division. A minimum of nine Department credits must be taken at UVU.
6. Except for 490R Special Topics courses, a maximum cumulative total of 9 credits in any combination of upper division Department courses with an "R" designation may count toward graduation.
7. Complete Biology Department core courses with a grade of "C-" or higher in each course.
8. Achieve a minimum overall GPA of 2.0 with a minimum GPA of 2.25 in biology department courses.
9. Complete the appropriate application for graduation form.
10. Successful completion of at least one Global/Intercultural course.

Biology, B.S.

Careers

The multiple career opportunities available for graduates with a degree in Biology make it a highly versatile degree. In addition to standard career options, such as working in the fields of healthcare, biotechnology, agriculture, education, and environmental science, biology graduates find employment in fields as diverse as art (scientific illustrator), public relations (for science museums, etc.), governmental agencies (wild land restoration, etc.), and non-profit organizations (wildlife conservation, etc.). With additional education, majors can go onto careers in law (medical/biotechnology patent attorney, forensic scientist), business (healthcare and agricultural industry management), engineering (biomechanical device development), and even aerospace (a number of NASA astronauts have been biomedical researchers). A degree in Biology can provide for career opportunities as limitless and evolving as life itself.

### Biotechnology, B.S.
#### Careers
Graduates with a Bachelor Degree in Biotechnology can pursue a variety of careers and positions both in Utah and the nation. Companies that make up the life science industry are varied and include, but are not limited to, Biotechnology, Pharmaceutical, Medical Diagnostics, Forensics, Molecular/Cell/Microbiology, Biochemistry, Secondary Education, Natural Products, and Agricultural Sciences.

#### Related Careers
- Natural Sciences Managers
- Biological Scientists, All Other
- Biological Science Teachers, Postsecondary

### Botany, B.S.
#### Requirements
Students interested in botany, or related fields, are strongly encouraged to earn at least a baccalaureate degree (BS). To be competitive in the job market additional post-baccalaureate education is suggested. The BS degree in Botany may be used for entry into a career or in preparation for graduate (Masters/PhD) or professional schools (medical, pharmacy etc.).

#### Total Program Credits: 120

### Graduation Requirements:
1. Complete the required minimum credit hours.
2. At least 30 credit hours in residence at UVU or satellite sites are required, with 10 hours earned during the last 45 hours.
3. A minimum of 40 credits must be upper-division (numbered 3000 or above).
4. Complete core courses with a grade of "C-" or higher in each course.
5. Achieve a minimum overall GPA of 2.0 with a minimum GPA of 2.25 in core courses.
6. Successful completion of at least one Global/Intercultural course.

### Biotechnology, B.S.
#### Elective Requirements:
13 Credits

Additional credits to meet credit and upper-division requirements.

### Botany, B.S.
#### Elective Requirements:
21 Credits

Additional credits to meet credit and upper-division requirements.
1. Complete the required minimum credit hours.
2. Completion of GE and specified departmental requirements.
3. If an AA or AS degree has been earned, a maximum of 64 of these credits may apply toward the BS.
4. At least 30 credit hours in residence at UVU or satellite sites are required, with 10 hours earned during the last 45 hours.
5. A minimum of 40 credits must be upper-division (numbered 3000 or above).
6. A minimum of 40 credits must be in the Biology Department (BIOL, BOT, BTEC, MICR, or ZOOL prefixes), 30 of which must be upper-division. A minimum of nine Biology Department credits must be taken at UVU.
7. Complete discipline core courses with a grade of "C-" or higher in each course.
8. Achieve a minimum overall GPA of 2.0 with a minimum GPA of 2.25 in Biology Department courses.
9. Complete the appropriate application for graduation form.
10. Successful completion of at least one Global/Intercultural course.

Program Description

For complete and current information about the MBA program, please access our web at www.uvu.edu/mba.

The Masters of Business Administration at UVU offers emphases in finance, marketing, management, and technology management.

1. The Part-time Professional MBA Program leverages the management experiences of our professional students while focusing on application and practice through the use of group discussions, case studies, simulations, projects, and interaction with regional organizations and business leaders. Classes are held on Tuesday and Thursday evenings on the Orem campus which begins Fall semester (August). Additionally, classes are held on Monday and Wednesday evenings (or Tuesday and Thursday evenings beginning in alternating years) at the Thanksgiving Point location which begins spring semester (January). The program is completed in six semesters over a two-year period.

2. The Full-time Accelerated MBA Program is designed to meet the needs of students who have completed their undergraduate degree and would like to continue their education through an enhanced one-year, three-semester program. The program requires a full-time effort as classes, workshops, and events are scheduled throughout the week. Due to the rigorous demands of this program, employment during enrollment is limited to 15-20 hours per week. Courses concentrate on real-world and engaged activities designed to assist students as they prepare to enter the business world.

The MBA program embraces the university’s designation as an engaged learning campus. Students immerse themselves in all aspects of business management, including accounting, leadership, marketing, economics, ethics, and social responsibility. Throughout the program, students will participate in several integration modules designed to assimilate the various functions of business through simulations, comprehensive case studies and real-world learning projects.

Program Prerequisites

After students are admitted into either the full-time or part-time program, they may demonstrate knowledge proficiency of all prerequisites by submitting official transcripts with a “B-” or higher in equivalent courses, OR by completing an online, abbreviated MBA Prep Course, prior to starting the program. Prerequisites include:

- Financial Accounting and Managerial Accounting
- Principles of Finance
- Business Statistics
- Excel proficiency

NOTE: Students who choose to meet these requirements by completing the MBA Prep Courses will need to obtain 80% or higher on the final assessment for each course. The prep courses may be completed through MyEducator. Specific details are available at www.uvu.edu/mba

Finance Track Prerequisites

In addition to the courses listed above, all students pursuing the finance emphasis must fulfill the following additional prerequisites (or equivalents) with a grade of B- or higher.

- Macroeconomics
- Microeconomics
- Business Statistics I
- Business Calculus or Business Analytics

Marketing Track Prerequisites

In addition to the courses listed above, all students pursuing the marketing emphasis must fulfill the following additional prerequisites (or equivalents) with a grade of C- or higher.

- Principles of Marketing
- Macroeconomics
- Microeconomics

Application Process

Baccalaureate degree holders with both business and non-business majors may apply. Deadlines and current application requirements are posted on the website, www.uvu.edu/mba. Applicants must submit all of the following to the Woodbury School of Business:

1. Application – Complete online at www.uvu.edu/mba and pay the $45 application fee ($145 for international students). After submitting the application fee, applicants will access their account and select Supplemental Items to complete the additional requirements listed below.

   - Letters of Recommendations - List the name and email address of two individuals who will be sent a link to submit their recommendation.
   - Essay - Submit responses for one essay question.
   - Resume - Attach current resume highlighting relevant professional work experience.
   - College Transcripts - After the application fee has been paid, request official transcripts to be sent to eTranscript@uvu.edu. Transcripts will be evaluated based on cumulative GPA or last 60 semester credits.
   - Graduate Test - Provide evidence of potential for success which may be demonstrated by submitting an official GMAT or GRE test score.

The goal is to obtain a 500 or above on the GMAT (perfect score is 800); GRE scores are converted to determine a GMAT equivalent. Test preparation resources and registration information available at www.uvu.edu/mba.

NOTE: Consideration to waive the graduate test requirement is given to students with a GPA of 3.3 or higher (cumulative or last 60 credits) and earned a B+ or better on each required prerequisite

2. Interview - An interview may be required as part of the application review process.

Additional Requirements for International Student Applicants
Business Graduate Programs

1. English Proficiency- Submit official TOEFL or IELTS scores. Required of applicants for whom English is a second language AND who earned a bachelor’s degree outside of the United States. (Minimum TOEFL score of 80 or above or an IELTS score of 6.5 or higher.) The MBA office reserves the right to not waive the English proficiency requirement to ensure students will be adequately prepared for the rigors of the MBA program.
2. Affidavit of Support- Upload a signed form completed by person accepting financial responsibility.
3. Bank Statement- Provide document as requested on Affidavit of Support from student or sponsor.
4. Copy of Passport- Attach a copy of the passport for the student and any dependents who will also need an I-20.

Application Deadlines

• Application window – August 1 through April 1, or until the cohort is full for the Fall start date. See uvu.edu/mba for more details.
• Review Date – Applicant files are reviewed on a rolling basis. Applicants are generally notified of an admission decision within a few weeks.
• Financial Aid - A limited number of Graduate Assistantships are available annually for students enrolled in the full-time program in which students are able to earn $5,000 to $10,000. Scholarships are available starting March 1.

Application deadlines for international students:

• If outside the U.S. - May 15
• If in the U.S. - July 1

Reaplication

If an applicant is not admitted, he/she may reapply again at a later time. All current admission requirements at the time of application must be met.

Satisfactory Progress

Continuation in the Master of Business Administration program is determined by: (1) satisfactory progress (C or higher) in all courses (completed courses with a grade lower than a C must be repeated) and (2) faculty committee chair and the graduate admission and retention committee recommendation.

Academic Probation

A student can be recommended for academic probation for the following reason(s): (1) Failure to meet the scholarship requirements of the Graduate Program of an overall GPA of 3.00 (on a 4.00 scale) or higher, with no individual course grade lower than C; (2) Failure to complete prescribed courses; and/or (3) Failure to adhere to University student rights and responsibilities standards.

Dismissal from the Program

A student can be dismissed from the Master of Business Administration program for the following reason(s):

1. Academic dishonesty;
2. Continued failure to meet academic standards; and/or
3. Continued failure to adhere to University student rights and responsibilities standards.

Courses

Admission to the Master of Business Administration program is a requirement for enrollment into all Master of Business Administration courses.

Master of Business Administration - Accounting Emphasis, M.B.A.

Requirements

The UVU Master of Business Administration is an applied graduate degree that reflects the Woodbury School of Business's long and distinguished history of providing excellence in business education. Our innovative team-based curriculum reaches beyond the walls and textbooks of a traditional program and includes not only instruction in the disciplines of business, but also offers many opportunities to apply important skills such as leadership, teamwork, ethical decision making, critical thinking and problem solving, written and oral communication as they are woven throughout the curriculum. Students immerse themselves in all aspects of business management, including accounting, marketing, economics, and social responsibility. Students participate in an international project and travel to the country of their project hosts. The program culminates with a comprehensive real-life consulting project with a company operating in our region.

The full-time track for the Master of Business Administration program at Utah Valley University is a one year, accelerated MBA program that offers either of two concentration areas in management or accounting.

The part-time track for the Master of Business Administration program at Utah Valley University is a two year plan for working professionals which embraces the university’s designation as an engaged learning campus and also offers either of two concentration areas in management or accounting.

The MBA program is AACSB accredited.

Business Graduate Programs

The job market will likely hold steady for 2014 MBA graduates, according to the Graduate Management Admission council. More than three-quarters of employers that plan to hire graduates expect to maintain or increase their hiring this year. They also report that projected hiring for 2014 is much improved from a few years ago. In addition, between 45 and 58 percent of employers plan to increase annual base salaries at or above the rate of inflation, an indicator that demand for talented graduates remains strong.

Requirements

The UVU Master of Business Administration is an applied graduate degree that reflects the Woodbury School of Business’s long and distinguished history of providing excellence in business education. Our innovative team-based curriculum reaches beyond the walls and textbooks of a traditional program and includes not only instruction in the disciplines of business, but also offers many opportunities to apply important skills such as leadership, teamwork, ethical decision making, critical thinking and problem solving, written and oral communication as they are woven throughout the curriculum. Students immerse themselves in all aspects of business management, including accounting, marketing, economics, and social responsibility. Students participate in an international project and travel to the country of their project hosts. The program culminates with a comprehensive real-life consulting project with a company operating in our region.

The full-time track for the Master of Business Administration program at Utah Valley University is a one year, accelerated MBA program that offers either of two concentration areas in management or accounting.

The part-time track for the Master of Business Administration program at Utah Valley University is a two year plan for working professionals which embraces the university’s designation as an engaged learning campus and also offers either of two concentration areas in management or accounting.

The MBA program is AACSB accredited.

Total Program Credits: 36

Graduation Requirements:

1. Completion of 36 hours of approved credit with no grade lower than a "C" as described in this program.
2. Graduates may not transfer more than ten hours into this MBA program, preferably from an AACSB accredited institution. All transfer courses will be reviewed by a graduate committee managed by the Woodbury School of Business.
3. Final approval for graduation will be determined by the MBA graduate committee of the Woodbury School of Business.
4. A minimum cumulative GPA of 3.0 or higher must be maintained within program.

Master of Business Administration - Technology Management Emphasis, M.B.A.

Careers

The job market will likely hold steady for 2014 MBA graduates, according to the Graduate Management Admission council. More than three-quarters of employers that plan to hire graduates expect to maintain or increase their hiring this year. They also report that projected hiring for 2014 is much improved from a few years ago. In addition, between 45 and 58 percent of employers plan to increase annual base salaries at or above the rate of inflation, an indicator that demand for talented graduates remains strong.

Center for Constitutional Studies

Name: Center for Constitutional Studies
Location: FL 305
Telephone: 801-863-5470
Email: constitution@uvu.edu
Web Address: uvu.edu/ccs
Director: Rodney K. Smith

Associate Director: Andrew S. Bibby
Administrative Assistant: Kristeena Hone

The Center for Constitutional Studies is a nonpartisan, academic institute that promotes the study, instruction, and research of constitutionalism. In particular, it examines important constitutional issues found at the intersections of political thought, public policy, public law, religion, history, and economics. Employing a multidisciplinary approach, the Center seeks to more effectively equip a new generation of citizens and leaders with a broad understanding of political thought and economic and political practices critical to the perpetuation of constitutional government, ordered liberty, and the rule of law.

The Center promotes educational, scholarly, and public outreach endeavors across the state, the region, the nation, and the globe. It partners with the Political Science Program and other university entities on timely and important projects and events, and supports and promotes the Constitutional Studies minor.

Via its prestigious academic events, excellent constitutional studies course offerings, and character-building mentoring program, the Center has emerged as a leader in the fields of constitutional studies and civic leadership.

Recognized for its vision and accomplishments, the Center has hosted such prominent academicians and renowned figures as: two-time Pulitzer Prize winner, David McCullough; U.S. Court of Appeals Judge, Thomas B. Griffith; award-winning author and Harvard University Professor of Law, Noah Feldman; former Utah Governor, Michael O. Leavitt; Founding Secretary of the U.S. Department of Homeland Security, Governor Thomas Ridge; University of Pennsylvania Professor of Law and History, Sarah Barringer Gordon; and the Robert E. Scott Distinguished Professor of Law and Professor of Religious Studies at the University of Virginia, Douglas Laycock. The Center has truly emerged as a regional hub and national force for constitutional studies, driving and shaping debate on important constitutional, political, and economic issues facing the state of Utah, the Mountain West region, and the nation.

Regular public forums include Constitution Week Conferences, Religious Freedom Symposia, and many other lectures and events dealing with key political and constitutional issues.

CCS forums and events are generally free of charge.
The Center for Global and Intercultural Engagement (CGIE) supports the University efforts to prepare globally competent citizens. To accomplish these objectives, CGIE collaborates closely with colleges, schools, and other units across campus to create a community of students, staff, and faculty that share multicultural and international knowledge, attitudes, experiences, and efforts. We are committed to fostering an inclusive atmosphere for all students and to preparing them for an increasingly complex, diverse, and globalized society. CGIE is comprised of three programs.

1. Office for Global Engagement (GEO): GEO facilitates international academic and co-curricular engaged learning experiences through study abroad and exchange programs, diplomacy, and intercultural events. Our programs include Study Abroad and other international travel opportunities, Global Initiatives, Visiting Scholars, and Dignitary & Global Events. GEO liaisons with the General Counsel for International Agreements, the UVU Internships office for international internships, and with the Office of Engaged Learning for the G/I Distinction program. We serve as the central hub for the UVU's affiliate membership with the United Nations Department of Global Communication, UN Academic Impact, and the Fulbright Program.

2. Multicultural Student Services (MSS): Our programs provide a full range of support services targeting historically underrepresented populations with an eye toward inclusion of all students across campus. The mission is to promote educational opportunities and intercultural enrichment for diverse students and the wider campus community. Our programs aim to nurture student achievement and develop relationships that support student success, academic growth, retention, and completion of educational programs. Services include general academic advising and cultural navigation, registration and financial aid help, student leadership opportunities and support, multicultural club advisement and support, academic and social events, and initiative programs that provide specific resources for African/African-American, Latino, LGBTQIA+, Native American, and Pacific Islander student populations.

3. International Student Services (ISS): Our programs provide advisement and support on visa, employment, and academic issues for UVU’s international student population. Students with questions regarding immigration, visa, or related issues may visit one of our advisors in LA 114. ISS activities including orientations each semester for all new international students, managing the federally mandated Student and Exchange Visitor Information System (SEVIS) to ensure that all international students at UVU are legally “in status,” and providing a variety of services designed to promote the academic success of our international students.
The UVU Center for National Security Studies (CNSS) is a nonpartisan academic institution for the instruction, analysis, and discussion of the issues related to the field of U.S. national security. The mission of the CNSS is twofold: to promote an interdisciplinary academic environment on campus that critically examines both the theoretical and practical aspects of national security policy and practice; and to assist students in preparing for public and private sector national security careers through acquisition of subject matter expertise, analytical skills, and practical experience. The CNSS partners with local, regional, national, and international public and private sector organizations to promote this mission.

As national security issues continue to dominate the policy agenda and debate in Washington, D.C. and around the globe, UVU's CNSS provides students with extensive study, discussion, and engaged learning opportunities in the national security field. UVU hosts the only national security program in the State of Utah and one of the only programs and centers in the intermountain region. The CNSS offers an active academic environment on campus for students and the community to study and engage in the critically important security challenges we face in the twenty-first century. The Center is also part of the local and national conversation about national security issues, regularly appearing on television, radio, blogs, and press outlets and contributing to academic publications and panels.

The CNSS offers a wide range of extracurricular opportunities for students, including membership in the National Security Society student club, publishing in or serving on the staff of the UVU Journal of National Security, and attending a summer program in Washington, D.C. Currently, UVU offers over 40 interesting and challenging courses in national security and related disciplines and students may earn a Minor in National Security Studies and a Certificate of Proficiency in National Security Studies.

Welcome to the Center for Social Impact! We develop active citizens who make social impact in our communities. We work in six social impact pathways: direct service, community engaged learning and research, social entrepreneurship, policy and governance, community organizing and activism, and philanthropy. Come join the Social Impact Fellows, go on an Alternative Spring Break, be a Social Impact Scholar, launch a project in the Social Impact Incubators, or take a service-learning class! For more information on all the ways you can make an impact, visit [uvu.edu/socialimpact](http://uvu.edu/socialimpact).
The Center for the Study of Ethics (CSE) supports and facilitates the interdisciplinary study of ethics. This includes traditional moral philosophy and the integration of theory and practice across the disciplines and professions. Center activities include public forums, co-curricular support of faculty and student scholarship, and community engagement activities.

Because an educated citizenry is necessary for democracy, the study of interdisciplinary ethics aids individuals in moral decision-making relevant to professional, private, and public life. While CSE programming addresses a range of challenging ethical and public policy issues, the CSE is a non-advocacy center designed to promote academic achievement and community dialogue.

Regular events include Ethics Awareness Week, the Environmental Ethics Symposium, and the Faculty Summer Seminar. The CSE also hosts a variety of customized forums in response to student interest and contemporary events.

The organizational structure of the CSE is comprised of an Executive Committee and Faculty Advisory Board.

Ethics forums are free and open to the public.
Chemistry

Mission Statement
The Chemistry Department is dedicated to providing a high quality chemistry education for the students at Utah Valley University. The department offers a wide variety of classes to support other departments and to provide excellent training leading to a Bachelor of Science in Chemistry or a Bachelor of Science in Chemistry Education. The chemistry faculty is committed to encouraging students to learn and to do research not only in their course work, but in their lifelong careers.

Teaching Lab Manager, Inorganic Chemistry: Tom Strangfeld
Teaching Lab Manager, Organic Chemistry: Clinton King
Teaching Lab Manager: Cory Larsen
Manager, Central Stock Room: Keshar Tamrakar

Career Opportunities
Graduates with a bachelor degree in Chemistry will be prepared to work in industry or pursue a graduate degree in chemistry. Current employment opportunities for graduates in Chemistry programs are good. Additionally, the Biochemistry emphasis is an excellent degree for those preparing to attend medical school, dental school, pharmacy school or other advanced degrees in the health professions.

Graduates with a bachelor degree in Chemistry Education will be prepared to teach chemistry in junior and senior high. Current employment opportunities for graduates from Chemistry Education programs are excellent.

Programs
Students may receive:
- Bachelor of Science in Chemistry with an Emphasis in Biochemistry
- Bachelor of Science in Chemistry with an Emphasis in Professional Chemistry
- Bachelor of Science in Chemistry Education
- Chemistry minor

Admission Requirements
A student who wants to pursue a chemistry major should meet with the department chair or chemistry advisor for advisement.

#### Careers

**Related Careers**
- Natural Sciences Managers
- Chemists
- Chemistry Teachers, Postsecondary
- Secondary School Teachers, Except Special and Career/Technical Education

### Chemistry - Biochemistry Emphasis, B.S.

#### Requirements

Biochemistry studies the chemical composition of living things. Biochemistry combines the study of biology with organic and inorganic chemistry as applied to topics such as enzymology, genetics, toxicology, pharmacology, food science, and medicine. Students with this degree may pursue graduate study or work in the field of biotechnology or in one of the many related areas or be eligible for many employment opportunities in chemistry and biology.

**Total Program Credits: 120**

#### Matriculation Requirements:

To matriculate into the Chemistry degree, students must have adviser approval, and completed CHEM 1210, CHEM 1220, CHEM 1250, and CHEM 1260 all with a C- or higher.

Chemistry - Biochemistry Emphasis, B.S.

Related Careers

- Natural Sciences Managers
- Chemists
- Chemistry Teachers, Postsecondary
- Secondary School Teachers, Except Special and Career/Technical Education

Chemistry - Professional Chemistry Emphasis, B.S.

Requirements

This bachelor's degree in professional chemistry prepares a student for employment as a chemist. It also prepares a student for further study in a graduate degree or professional program. This degree is designed to meet American Chemical standards for a bachelor degree. Job opportunities for students with this degree are very good. Students with this degree can have careers in test laboratories, government laboratories, hospital laboratories, research and development, quality control, manufacturing, and many other areas.

In obtaining this degree, students will learn how to:

- Use modern scientific instruments and interpret results
- Apply principles used in chemistry to solve everyday problems
- Think analytically
- Use problem solving skills
- Categorize information
- Apply learned math skills
- Develop laboratory skills

Total Program Credits: 120

Matriculation Requirements:

To matriculate into the Chemistry degree, students must have adviser approval, and completed CHEM 1210, CHEM 1220, CHEM 1250, and CHEM 1260 all with a C- or higher.

- PHYS 4510: Quantum Mechanics I (3.0)
- PHYS 4520: Quantum Mechanics II (3.0)
- PHYS 4800: Solid State Physics (3.0)

Graduation Requirements:
3. Residency hours -- minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. A minimum of 54 credit hours must be in the major with a minimum of 20 credits taken at UVU. A minimum of 28 chemistry credits must be upper-division.
6. Complete all chemistry and physics courses with a minimum grade of "C-" or better.
7. Successful completion of at least one Global/Intercultural course.

Footnote:
1 To be taken with CHEM 1215 Principles of Chemistry I Laboratory
2 To be taken with CHEM 1225 Principles of Chemistry II Laboratory
3 To be taken with CHEM 1210 Principles of Chemistry I
4 To be taken with CHEM 1220 Principles of Chemistry II

- Secondary School Teachers, Except Special and Career/Technical Education

Chemistry Education, B.S.

Requirements
The degree in chemistry education prepares a student to teach chemistry in secondary education. Students that complete this degree receive endorsements to teach chemistry. Completion of this program is dependent upon being accepted into the Secondary Education program through the School of Education. There is a great demand for teachers in chemistry and employment opportunities are excellent.

In obtaining this degree, students will learn how to:
- Use modern scientific instruments and interpret results
- Develop laboratory skills
- Categorize information
- Think analytically
- Apply learned math skills
- Use problem solving skills
- Apply principles used in chemistry to solve everyday problems
- Better.

Total Program Credits: 122

Matriculation Requirements:
1. Students are admitted directly to the Baccalaureate degree program in Chemistry Education upon acceptance to the Secondary Education Program.
2. Students must obtain the departmental Advisor's signature on an approved program plan prior to enrollment in their second semester of study.

Secondary Education Requirements:
1. ACT exam minimums: Composite 21, English 20, Math 19; or SAT exam minimums: Critical Read /Math 1000, with Math and Reading scores of 450; or if student has a bachelor degree or higher, he/she does not need to meet this testing requirement.
2. GPA of 3.0 or higher with no grade lower than a C in content area courses.
3. Completion of all General Education requirements and the majority of content area courses.
4. Pass LiveScan Criminal Background Check.

General Education Requirements: 39 Credits

Mission Statement
The Utah Valley University Communication Department is shaping students to become the industry's next top leaders in Journalism and Media Studies, Public Relations and Communication Studies through courses and engaged learning experiences that are theoretically-driven, innovative, and applied.

The department prepares students with the necessary skills to communicate visually, orally and through written documentation within the context demanded by the business, journalism, marketing, and public relations world. Students are also equipped with a solid ethical foundation and an understanding of diversity, interdependence, and cultural perspectives in the global community.

Communication, A.A.

Careers

Virtually every modern field of endeavor has increasing demand for specialists with training in the field of communication. Traditional areas of employment for communication students include: print and electronic journalism; print and electronic entertainment; public relations (public affairs, media relations, customer relations, marketing, etc.); advertising; various sorts of writing, reviewing, and editing; training; sales; and management. Today, new media technologies are expanding the need for communication specialists, as well as their range of skills. Communication also provides excellent preparation for graduate study in the fields of business, education, law, psychology, and of course, communication.

**Communication - Communication Studies Emphasis, B.A.**

**Requirements**

Speech Communication is the study of how we communicate face-to-face in a variety of situations. Students in this field are interested in the dynamics of conversations, the common pitfalls and how to avoid them, and how to make the most out of human interaction. Speech Communication practitioners feel confident in interpersonal exchanges, public speaking, small-group discussion, and specialized fields like argumentation and/or mediation and negotiation. Every industry needs people that can communicate effectively. Graduates often find use for their skills in professions like sales, corporate training and development, human resources, and various social services. Many students choose Speech Communication as a bachelor's degree program that will prepare them for law school and other graduate school work. For their upper division elective coursework, Speech Communication students are encouraged to take classes in Business Management and/or Behavioral Science (Psychology, Sociology, etc.).

COMM 4180 Communication and Social Behavior (If not used for research requirement) (3.0)

COMM 4250 Communication and Leadership (3.0)

COMM 481R Internship (1.0)

Emphasis Elective Requirements: 20 Credits

- Complete 20 credits of COMM or Non-COMM courses (10 credits must be upper division).

Graduation Requirements:

1. Completion of a minimum of 120 or more semester credits.
2. Overall grade point average of 2.0 (C) or above (departments may require a higher GPA).
3. Residence hours: minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Completion of 16 credit hours of course work from one language to include the 1010, 1020, 2010, and 202G/2020 levels or transferred equivalents.
6. Completion of COMM courses with a C- or higher.
7. Successful completion of at least one Global/Intercultural course.

Communication - Communication Studies Emphasis, B.A.

Careers

Careers:

- Virtually every modern field of endeavor has increasing demand for specialists with training in the field of communication. Traditional areas of employment for communication students include: print and electronic journalism; print and electronic entertainment; public relations (public affairs, media relations, customer relations, marketing, etc.); advertising; various sorts of writing, reviewing, and editing; training; sales; project management; and management. Today, new media technologies are expanding the need for communication specialists, as well as their range of skills.
- Communication also provides excellent preparation for graduate study in the fields of business, education, law, psychology, and of course, communication.

Related Careers

- Communications Teachers, Postsecondary
- Radio and Television Announcers
- Public Address System and Other Announcers
- Public Relations Specialists
- Writers and Authors

Communication - Communication Studies Emphasis, B.S.

Requirements

Speech Communication is the study of how we communicate face-to-face in a variety of situations. Students in this field are interested in the dynamics of conversations, the common pitfalls and how to avoid them, and how to make the most out of human interaction. Speech Communication practitioners feel confident in interpersonal exchanges, public speaking, small-group discussion, and specialized fields like argumentation and/or mediation and negotiation. Every industry needs people that can communicate effectively. Graduates often find use for their skills in professions like sales, corporate training and development, human resources, and various social services. Many students choose Speech Communication as a bachelor's degree program that will prepare them for law school and other graduate school work. For their upper division elective coursework, Speech Communication students are encouraged to take classes in Business Management and/or Behavioral Science (Psychology, Sociology, etc.).
**Total Program Credits: 120**

- Writers and Authors

Communication - Journalism and Media Studies Emphasis, B.A.

Requirements

Students choosing a Communication degree with an emphasis in Journalism will have the opportunity to work with award-winning faculty and gain substantial amounts of hands-on experience. The program encourages students to get involved with The UVU Review, the student-produced campus news organization. The Review is an excellent way to build skills in print, broadcast, and web journalism. Course options for Journalism students range from introductory writing and reporting classes to advanced magazine writing, news editing, broadcast news, and long format video journalism. Students interested in a degree in Communication with an emphasis in Journalism should look at degree requirements and start planning for future semesters. Journalism students are encouraged to look into elective credits in the Digital Media Department, as a way to broaden their skills in modern storytelling.

Total Credits: 120

General Education Requirements: 36 Credits
- ENGL 1010 Introduction to Academic Writing 3
- or ENGH 1005 Literacies and Composition Across Contexts (5.0)
- ENGL 2010 Intermediate Writing/Academic Writing and Research 3
- STAT 1040 Introduction to Statistics 3
- or STAT 1045 Introduction to Statistics with Algebra (5.0)

Complete one of the following:
- HIST 1700 American Civilization (3.0)
- HIST 2700 US History to 1877 (3.0)
- and HIST 2710 US History since 1877 (3.0)
- HIST 1740 US Economic History (3.0)
- POLS 1000 American Heritage (3.0)
- POLS 1100 American National Government (3.0)

Complete the following:
- PHIL 2050 Ethics and Values 3
- HLTH 1100 Personal Health and Wellness (2.0) 2
- or PES 1097 Fitness for Life 2

Distribution Courses:

Any courses 1000 or higher (10 credits must be upper division). 17

**Graduation Requirements:**

1. Completion of a minimum of 120 or more semester credits.
2. Overall grade point average of 2.0 (C) or above (departments may require a higher GPA).
3. Residency hours: minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Completion of COMM courses with a C- or higher.

6. Successful completion of at least one Global/Intercultural course.

**Communication - Journalism and Media Studies Emphasis, B.S.**

**Careers**

- Virtually every modern field of endeavor has increasing demand for specialists with training in the field of communication. Traditional areas of employment for communication students include: print and electronic journalism; print and electronic entertainment; public relations (public affairs; media relations; customer relations; marketing; etc.); advertising; various sorts of writing, reviewing, and editing; training; sales; project management; and management. Today, new media technologies are expanding the need for communication specialists, as well as their range of skills. Communication also provides excellent preparation for graduate study in the fields of business, education, law, psychology, and of course, communication.

**Related Careers**

- Communications Teachers, Postsecondary
- Radio and Television Announcers
- Public Address System and Other Announcers
- Public Relations Specialists
- Writers and Authors

**Communication - Public Relations Emphasis, B.A.**

**Requirements**

Students seeking a degree in public relations from Utah Valley University will find themselves in a rigorous study of the ins and outs of public relations. The public relations emphasis provides students with dynamic in-class instruction as well as multiple options for real-world experience. Public Relations students learn the vital role that they can play in a vast array of professions, and learn the skills to do so by taking courses such as Public Relations Writing, and Case Studies in Public Relations. Public Relations students also have many opportunities for student involvement. In 2010 UVU became a charter member of PRSSA which opened several opportunities for our students both on campus and across the nation. In 2013, our PRSSA student organization won the “Chapter of the Year” at the Public Relations Society of America (PRSA) annual conference in Philadelphia, Pennsylvania. Students who are pursuing a career in Public Relations it is recommended that they take upper division (3000+) Business Management courses to prepare them for the corporate environment.

Community Outreach and Economic Development

Name: Community Outreach and Economic Development
Location: EE 201
Telephone: 801-863-7570
Email: Robyn.Farnsworth@uvu.edu
Web Address: http://www.uvu.edu/communityoutreach
Associate Provost: Dr. Belkis Capeles

MISSION STATEMENT
Community Outreach and Economic Development provides engaged learning experiences in response to the region's educational needs that drive economic vitality in support of the dual mission of the University.

Community Outreach Focus
Community Outreach & Economic Development (COED) is comprised of several departments: Community Education, Executive Education, Concurrent Enrollment, Career & Technical Education, Extended Studies, Small Business Development Center, Business Resource Center, and the Thanksgiving Point and Wasatch Campuses. COED coordinates with and supports academic departments in offering certificates and two-year degrees. The Business Resource Center and Small Business Development Center foster startup and existing business success throughout the Utah County and Wasatch County communities with one-to-one business advising and small group trainings. For detailed information on a given department or academic program, please refer to the information provided under each alphabetically-listed department name in the catalog or contact the appropriate academic advisor.

Business Resource Center (www.uvu.edu/brc)

The BRC is a business center serving the Utah Valley region in economic development, workforce education, entrepreneurship, and startup business incubation. There are several agencies offering services at the BRC, including:

- **Small Business Resource Development Center (SBDC)** helping entrepreneurs get started in business and help small businesses grow to the next level.
- **Veteran Business Resource Center (VSBDC)** working with veteran owned businesses to help them launch and grow.
- **Entrepreneurial Launchpad** helps entrepreneurs through training, networking and mentoring through all the early stages of starting a company.
- **Procurement Technical Assistance Center** works to aid small businesses with their government contracting needs and information. PTAC is available for consultation, contract review and negotiation for government contracting.

Career and Technical Education
The Career & Technical Education department at UVU supports and provides opportunities for students to acquire and use high-quality technical and career skills through focused, engaged learning, to prepare them for meaningful employment in a competitive global workforce. Types of programs include: Certificates of Proficiency and Completion and AA, AS, and AAS degrees.

Concurrent Enrollment
Concurrent Enrollment is a Utah Valley University high school partnership program where qualified students earn college credit. College classes are taught at the high school by UVU-approved high school instructors using college curriculum and assessment. The Concurrent Enrollment Office, UVU Academic Departments, and the partnering high schools work closely together to uphold the academic quality of each course.

Continuing Education
Continuing Education is comprised of four departments: Executive Education and Community Education. These departments are community and university resources for individuals and companies wanting to improve on a personal, educational and/or professional level. Students are taking courses to pursue personal or professional interest, gain general knowledge, learn a new skill, upgrade existing skills, or enrich their personal understanding of a wide variety of topics. These courses do not offer college credit, but in some cases noncredit or continuing education students can earn continuing education units, certifications or other evidence of class completion to meet personal or professional requirements. Noncredit course work cannot be substituted for a credit requirement or any required course on a degree pathway.

- **Executive Education** offers both open enrollment and custom courses and programs for workforce development, personal professional trainings and leadership and C-suite trainings. The program includes professional certificate trainings in a variety of industries from programming to HR. In 2020 the first international leadership program is launching with Executive Education and will focus on global leaders building Entrepreneurial Ecosystem maps.
- **Community Education** offers a huge variety of life-long learning opportunities for youth, adults and seniors. From Ballroom to Banjo those who wish to learn something new can find a class in Community Education. During the summer, a plethora of youth summer camps cover topics from art to aviation and robots to cooking. Choose from hundreds of classes for learning during any stage of life with UVU Community Education.

Wasatch Campus
Located two miles north of Heber City on Highway 40, the UVU Wasatch Campus offers educational opportunities to area residents. Degrees offered from the Wasatch Campus include Associate of Science degrees in Behavioral Science, Business Management, and University Studies. Students can also earn a Bachelor of Science in Elementary Education. UVU Wasatch is also a service center for educational needs in the community with admissions, advising, testing, and tutoring services available. The campus also offers community education classes and hosts conferences, meetings, and events.

Course Descriptions

Computer Science

Degrees & Programs
Computer Science - Computer Engineering Emphasis, A.A.S.

Requirements
The program introduces the student to a wide range of computer systems hardware, software, device drivers and peripheral devices.

Total Program Credits: 63

General Education Requirements: 13 Credits
A minimum of 16 credits of General Education requirements are required for graduation. Not all GE requirements are listed in this section (see Specialty Core requirements for more details).
Computer Science

Computer Science - Computer Engineering Emphasis, A.A.S.

Careers

Students will be able to compete for entry level programming jobs, but should make this degree as part of the Bachelor’s program in order to receive the greatest potential from the degree.

Related Careers

• Computer and Information Systems Managers
• Computer and Information Research Scientists
• Information Security Analysts
• Computer Programmers
• Software Developers, Applications
• Software Developers, Systems Software
• Web Developers
• Computer Network Support Specialists
• Computer Occupations, All Other
• Computer Science Teachers, Postsecondary

Computer Science - Computing and Networking Sciences Emphasis, A.A.S.

Requirements

The program introduces the student to a wide range of networking and data communications technologies and entry level programming.

Total Program Credits: 64

Graduation Requirements:

1. Completion of a minimum of 63 semester credits.
2. Overall grade point average of 2.0 (C) or above.
3. Residency hours -- minimum of 20 credit hours through course attendance at UVU.

Footnote:

* Minimum grade of C- required
Emphasis Elective Requirements: 16 Credits

Complete 16 credits from the following courses (minimum grade of C- required). (Must be approved by CSE Department. See CSE Advisor):

- CS 1030 Foundations of Computer Science (3)
- CS 281R Internship (3.0 credits max.) (1)
- ECE 2700 Digital Design I (3)
- ECE 2705 Digital Design I Lab (1)
- IT 1510 Introduction to System Administration--Linux/UNIX (3)
- MATH 1220 Calculus II (5)
- PHYS 1215 Physics for Scientists and Engineers I Lab (1)

Graduation Requirements:

1. Completion of a minimum of 64 semester credits.
2. Overall grade point average of 2.0 (C) or above.
3. Residency hours -- minimum of 20 credit hours through course attendance at UVU.

Footnote:
* Minimum grade of C- required

Programmer, Certificate of Completion

Careers

Simple, entry level jobs can be attained with this degree, but student should consider the Bachelor’s degree to receive the greatest potential.

Related Careers

- Computer Programmers
- Software Developers, Applications
- Software Developers, Systems Software
- Web Developers
- Computer Network Support Specialists
- Computer Science Teachers, Postsecondary

Computer Science, Minor

Requirements

The program provides the student with entry level programming instruction, and an overview of some portions of the program.

Total Program Credits: 18

Elective Requirements: 9 Credits

Complete at least three CS courses numbered 3060 or above

Graduation Requirements:

1. To fill the requirements for a computer science minor students must have no course grade lower than C- in any of the CNS courses required for the computer science minor

Computer Science, Minor

Careers

Students who work in organizations that use or develop software will have an appreciation for that skill set which will aid them in their own career development.

Related Careers

- Computer and Information Systems Managers
- Computer and Information Research Scientists

## Computer Science - Computer Networking Emphasis, B.S.

### Requirements

The Networking specialization in the Computer Science degree program is designed to prepare students with strong internet-related programming and/or engineering skills. In addition to core Computer Science courses, it requires in-depth courses in network and Internet operations as well as extensive experience in web and network software development.

**Total Program Credits: 120**

### Matriculation Requirements:

1. Completion of CS 1400, CS 1410, CS 2300, and CS 2420 with a grade of C+ better.
2. Completion of MATH 1210 or ENGL 1010 or ENGL 1005 with a grade of C or better.
3. Each of CS 1400, CS 1410, CS 2300, CS 2420, MATH 1210, and (ENGL 1010 or ENGL 1005) cannot be taken more than twice to obtain the required grade.
4. Overall GPA of 2.5 or higher.

### General Education Requirements:

<table>

</table>

### Emphasis Elective Requirements:

6 Credits

Complete 6 credits from the following or any CS 3000 or 4000 level course not already required. A minimum grade of C- is required in these courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS 3370</td>
<td>C plus plus Software Development</td>
<td>3</td>
</tr>
</tbody>
</table>

### Graduation Requirements:

1. Completion of a minimum of 120 semester credits, with a minimum of 40 upper-division credits.
2. Overall grade point average of 2.0 or above. Must have a minimum grade of C- with a combined GPA of 2.5 or higher in all discipline core and emphasis requirements and the General Education requirements marked with an asterisk.
3. Residency hours -- minimum of 30 credit hours through course attendance at UVU. 10 of these hours must be within the last 45 hours earned. At least 12 of the credit hours earned in residence must be in approved CSE Department courses.
4. All transfer credit must be approved in writing by UVU.
5. No more than 80 semester hours and no more than 20 hours in CS type courses of transfer credit from a two-year college.
6. No more than 30 semester hours may be earned through independent study and/or extension classes.
7. Successful completion of at least one Global/Intercultural course.

### Footnote:

* Minimum grade required (see Graduation Requirements)

### Computer Science - Computer Networking Emphasis, B.S.

#### Careers

Graduates will work with organizations as important as national security departments associated with network security to small companies needing help with their network and network related software.
Related Careers

- Computer Network Support Specialists
- Computer Occupations, All Other
- Computer Science Teachers, Postsecondary

Computer Science - Computer Science Emphasis, B.S.

Requirements

Computer Science spans the range from theory through programming to cutting-edge development of computing solutions. Computer Scientists master the theory and practice of computing, and explore new and exciting ways to use computers. Systems like Google and Amazon are created by computer scientists.

Total Program Credits: 120

Matriculation Requirements:

1. Completion of CS 1400, CS 1410, CS 2300, and CS 2420 with a grade of C+ better.
2. Completion of MATH 1210 and ENGL 1010 with a grade of C or better.
3. Each of CS 1400, CS 1410, CS 2300, CS 2420, MATH 1210, and (ENGL 1010 or ENGL 1005) cannot be taken more than twice to obtain the required grade.
4. Overall GPA of 2.5 or higher.

General Education Requirements: 36 Credits

### Software Engineering, B.S.

#### Requirements

Software Engineers design and develop large software systems. In addition, they may lead teams of software developers or quality assurance engineers. They also work with users and customers to understand their needs. Software systems we take for granted, such as Microsoft Office, are implemented by software engineers. Software engineers employ innovative software development approaches, such as Agile software development, to effectively manage software development projects.

**Graduation Requirements:**

1. Completion of a minimum of 120 semester credits, with a minimum of 40 upper-division credits.
2. Overall grade point average of 2.0 or above. Must have a minimum grade of C- with a combined GPA of 2.5 or higher in all discipline core and elective requirements and the General Education requirements marked with a footnote *.
3. Residency hours -- minimum of 30 credit hours through course attendance at UVU. Ten of these hours must be within the last 45 hours earned. At least 12 of the credit hours earned in residence must be in approved CSE Department courses.
4. No more than 80 semester hours and no more than 20 hours of transfer credit from a two-year college may be applied to the core or elective courses.
5. No more than 6 semester hours may be earned through independent study.
6. Successful completion of at least one Global/Intercultural course.

Footnotes: *Minimum grade of C- required.

Program Requirements

The Master of Computer Science (MCS) degree at Utah Valley University is an applied graduate program focused on preparing students to enter the local, national, and global workforce as leaders and innovators rather than focusing on preparing students to conduct basic research. An MCS degree is considered a professional degree as graduate students complete a graduate project rather than a theoretical or research-based thesis often associated with a Master of Science in Computer Science (MScS) degree.

The focus of the degree does not mean you cannot explore exciting, cutting-edge new technologies; it just means we will focus your efforts on developing a working project that applies your new knowledge rather than focusing your efforts on basic research and writing papers on the topic. One should not assume that the degree's focus on completing a project means that the MCS does not value writing or presenting presentations. To be a workforce leader and innovator, you must be able to express highly technical and complex topics concisely and clearly. Developing your technical communication skills will always be a part of the MCS.

The MCS requires students to complete 30 hours of course work beyond their undergraduate degree to gain additional breadth and depth. To graduate, students have the option to either complete the Graduate Coursework Option or Graduate Project Option where they design and develop a large complex project from inception to completion. Students without an undergraduate degree in computer science who have a passion for the field are encouraged to apply. In such cases a student can be conditionally admitted while they complete an individualized leveling plan designed to bring their skills up to the required level to enter the MCS.

**NOTE**: Graduate policy precludes conditionally admitted students from taking any 6000 level courses. The UVU Computer Science Department cannot waive or alter this graduate policy.

Admission Requirements

The most desirable background for an MCS student is someone with an undergraduate degree in a computer-related field (Computer Science, Computer Engineering, Software Engineering, or a closely related field). The UVU Computer Science Department does not require nor does it use standardized test scores to evaluate the readiness of a candidate to begin the MCS. You will need an overall grade point average of 3.0 or higher on a 4.0 scale. Additionally, you will need to have completed the following UVU or equivalent classes with a C+ or better:

- CS 2300 Discrete Structures I
- CS 2420 Introduction to Algorithms and Data Structures
- CS 2810 Computer Organization and Architecture
- CS 3060 Operating Systems Theory
- MATH 1210 Calculus I

The classes listed above represent the minimum set of courses an MCS candidate needs for acceptance into the MCS. Having the bare minimum classes to enter the MCS is not a guarantee of acceptance nor success. Candidates are highly encouraged to have either significant work experience or junior and senior level Computer Science classes beyond the minimum. Talk to the MCS Director or an MCS advisor for a list of upper division courses to help you prepare to enter and succeed in the MCS.

Degrees & Programs

Computer Science, M.C.S.

Requirements

The Master of Computer Science (MCS) at Utah Valley University is an applied graduate program resulting in a professional degree. Students graduating with this degree will have a broad grounding in computer science as a discipline and be well equipped to take on leadership roles in a wide range of computing technology-related industries. Student education will be focused on developing software systems using current technologies while allowing them the freedom to explore and exploit new technologies to solve real-world problems. Students will be required to develop a broad base of competency by passing required courses in large scale implementation, applied
Computer Science Graduate Programs

Electives will allow a student to continue to add breadth to their education or allow them to focus on specific areas of computer science they find interesting or feel will best advance their professional objectives.

Total Program Credits: 30

Matriculation Requirements:

1. Application for admission to the MCS will include letters of recommendation and a statement of purpose.
2. Applicants must have an overall grade point average in their undergraduate work of 3.0 or higher on a 4.0 scale.
3. For international students whose native language is not English, a TOEFL score of 80 iBT (550 pBT) or higher, or an IELTS band score of 6.5 or higher within the past two years, is required.
4. Applicants with a bachelor's degree in a computer-related field (Computer Science, Computer Engineering, Software Engineering, or a closely related field) who have completed the following courses (or equivalent courses from other institutions) with a C+ or better will be deemed to have the fundamental computer science background to enter the program:
   - CS 2300 Discrete Structures I
   - CS 2420 Introduction to Algorithms and Data Structures
   - CS 2810 Computer Organization and Architecture
   - CS 3060 Operating Systems Theory
   - MATH 1210 Calculus I
5. Applicants without a bachelor's degree in a computer-related field or who have not completed the above courses with a C+ will be deemed lacking in fundamental computer science background to enter the program.
6. Applicants found lacking in fundamental computer science background can be conditionally admitted to the MCS. Conditionally admitted students will have an individualized MCS Leveling Plan (MCS LP) developed for them by the Computer Science Graduate Committee. Once the MCS LP has been met by the applicant, the applicant will be deemed to have the fundamental computer science background to enter the program. Graduate policy precludes conditionally admitted students from taking 6000 level courses.
7. All applicants will be subject to the approval of the Computer Science Graduate Committee.

Discipline Core Requirements: 18 Credits

Graduation Requirements:

1. Completion of all courses with a grade of B- or better.
2. Graduate Project Option: Graduate project proposal presented to and accepted by the student's Advisory Committee.
3. Graduate Project Option: Completion and defense of graduate project (CS 6600 and CS 6610); defense must be accepted by the student's Advisory Committee.
4. Graduate Project Option: Completion of all required courses and elective courses for a total of 30 credit hours with an average GPA of 3.0 or higher.
5. Graduate Coursework Option: Completion of all required courses and elective courses (CS 6600 and CS 6610 do not count toward this option) for a total of 30 credit hours with an average GPA of 3.0 or higher.

Associate Director: Steve Pugmire
  • Office: EE 207c
  • Telephone: 801-863-8035
  • Email: steven.pugmire@uvu.edu

Concurrent Enrollment is a Utah Valley University High School partnership program, where qualified high school students can earn college credit before high school graduation.

Face-to-Face

Face-to-face classes are available at participating high school campuses during the regular school day. Courses are taught by UVU-approved, high school instructors who meet the same academic requirements for faculty teaching at UVU. Students officially apply to UVU and subsequently register for courses available at their high school campus. Students pay a one-time admission fee and partial tuition based on the number of registered credit hours. All courses are the same as those taught on the UVU campus, including applicable prerequisites, course syllabus, course curriculum, modes of instruction, and assessment. An official high school transcript and a permanent college transcript is generated for all Concurrent Enrollment courses.

A site coordinator is provided at each high school to assist students in course selection and the registration process.

Live interactive

Live interactive courses are taught by UVU faculty in real-time using a televised and fully interactive video conference technology. The classes are available at participating high schools in the UVU service region. Each student can ask questions, interact, and communicate with their instructor and classmates who are participating from multiple locations as if they were all in the same classroom.

The classes are broadcasted during the regular school day. Students pay a one-time admission fee, lab and textbook fees, and partial tuition based on the number of registered credit hours. Students are held to the same standards of achievement as those expected of students in the UVU campus sections. An official high school transcript and a permanent college transcript are generated for all Live-interactive courses.
Construction Technologies

Name: Construction Technologies
Location: GT 610d
Telephone: 801-863-8500
Email: tracy.eubanks@uvu.edu

Chair: Robert Warcup

Mission Statement
Our mission is to provide a dynamic opportunity for engaged learning through a variety of certificate and degree programs that foster integrity, creativity, hands-on activities, and scholarly work. Success is measured by learners who leave professionally competent to build better communities through service, leadership and lifelong learning in their chosen field.

Construction Technologies

Cabinetry & Architectural Woodwork
- Program Coordinator: Kelly Baird
- Office: GT 625b
- Telephone: 801-863-8860
- Email: Bairdk@uvu.edu

Advisory Committee:
Austin Gifford, Fetzer Architectural Woodwork; Jeff Ludlow, Intermountain Wood Products; Scott Hudson, Magelby Companies; KP Christensen, BYU Technology & Education; David Hunt, Alpine School Districts; Scott Billings, Nebo School District

Degree/Certificates
- Certificate of Proficiency
- One Year Certificate
- Diploma
- Two Year Associate in Applied Science
- Two Year Associate in Science
- Bachelors of Science in Technology Management

Career Opportunities
The highly skilled craftsperson in the cabinet-making field may find work in factory production, set-up, and milling, assembling, and installing highly-customized cabinetry in residences, banks, department stores, and restaurants. Other jobs may be found in furniture work, and specialized facets of the industry. Self-employment often follows short-term trade experience.

Reminder: an overall grade point average of 2.0 (C) or above is required for graduation.

Construction Management
- Program Coordinator: Eric Linfield
- Office: 675m
- Telephone: 801-863-8250
- Email: Eric.Linfield@uvu.edu

Advisory Committee:
Jeffrey R. Clyde, W.W. Clyde & Co.(Chair); Jim Golding, Geneva Rock; Trevor Hunsaker, Big D Construction.; Paul Magelby, Magelby Companies; Mark Wimmer, Sunroc; Granite Construction, Jason Klaumann; Kiewitt, Mike Seare; Big D Construction, Erik Dunn; Zwick Construction, Erik Dunn; DR Horton, Brad Lambert

Degrees/Certificates
- Certificate of Completion
- Certificate of Proficiency
- Two Year Associate in Applied Science
- Two Year Associate in Science
- Bachelors of Science in Construction Management

Career Opportunities
Graduates of the four-year Construction Management program are prepared for employment in various levels of construction project management including superintendents, project engineers, construction schedulers and estimators.
Graduates of the two-year Construction Management program are prepared for employment as construction project foremen, crew leaders and entry positions in job supervision.

Facilities Management
- Program Coordinator: Eric Linfield
- Office: GT 675m
- Telephone: 801-863-8250
- Email: Eric.Linfield@uvu.edu

Advisory Committee:
Mark Woods (chairperson), Microfocus-Committee Chair; Kris Ashby, Elite Grounds; Frank Young, Utah Valley University; Scott Rice, Nuskin International; Matt Lowoer, Intermountain Healthcare; Eric Linfield, UVU Program Coordinator.

Degrees/Certificates
- Two Year Associates in Applied Science
- Bachelors of Science in Technology Management

Career Opportunities
The Facilities Management program is designed to prepare graduates to manage physical facilities such as resorts, health care centers, government facilities, recreational complexes, schools, industrial plants, and apartment buildings. Wherever there are buildings to be maintained there is a career opportunity for the facility manager.
The job of the facility manager can vary considerably depending on the employing institution, but some of the more common responsibilities are physical plant operations, building and grounds maintenance, space planning, budgets and purchasing, and human resources.

Reminder: an overall grade point average of 2.0 (C) or higher is required for graduation.

Construction Management, A.A.S.

Requirements
Students may earn an Associate in Applied Science degree. The Clyde Institute of Construction Management Program has been designed to provide students a strong foundation in Construction Management that prepares them for jobs in construction site supervision and/or for advancement on to a BS degree in Construction Management. The program provides courses in building construction, construction management and construction science that apply to all segments of the construction industry with an emphasis on heavy civil and commercial construction. Students will learn about construction materials and methods through the use of readings, 3-D models, hands-on laboratory exercises, and site visits. Construction management courses in estimating and scheduling are also provided along with a strong background in mathematics, computer technology, business and other general education subjects. A supervisory course is also required so students can learn to manage workers at construction sites.

Facilities Management, A.A.S.

Careers

Careers:
The Facilities Management program is designed to prepare graduates to manage physical facilities such as resorts, health care centers, government facilities, recreational complexes, schools, industrial plants, and apartment buildings. Wherever there are buildings to be maintained there is a career opportunity for the facility manager. The job of the facility manager can vary considerably depending on the employing institution, but some of the more common responsibilities are:

- providing environmental control such as: heating and cooling, air quality and lighting
- maintaining buildings and grounds
- approving changes in existing structures and approving plans for new facilities
- supervising personnel
- purchasing
- budgeting and accounting
- preventative maintenance and protection

Related Careers

- First-Line Supervisors of Housekeeping and Janitorial Workers
- First-Line Supervisors of Construction Trades and Extraction Workers
- Maintenance and Repair Workers, General

Building Inspection Technology, Certificate of Completion

Construction Management, Certificate of Completion

Requirements
A Certificate of Completion for students seeking an applied education in construction. The courses can lead the students who desire to further their education towards the AAS and/or BS degree in Construction Management.

Total Program Credits: 30
## Construction Technologies

### Discipline Core Requirements:
- **CMGT 1010** Introduction to Construction Management 3
- **CMGT 1020** Construction Materials and Methods I 3
- **CMGT 1150** Construction Safety 2
- **CMGT 1190** Concrete and Framing Lab 3
  or **CMGT 281R** Internship (For maximum of 3 credits toward graduation) (1.0)
- **CMGT 1220** Finishing Lab 3
  or **CMGT 281R** Internship (For maximum of 3 credits toward graduation) (1.0)
- **CMGT 2010** Construction Materials and Methods II 3
- **CMGT 2035** Construction Computer Applications 3
- **CMGT 289R** Construction Industry Seminar (Must be taken twice for a total of one credit.) 1
- **EGDT 1400** Surveying Applications and Field Techniques I 3

#### Complete one of the following:
- **EGDT 1600** Technical Math—Algebra (3.0)
- **MAT 1030** Quantitative Reasoning (3.0)
- **MAT 1035** Quantitative Reasoning with Integrated Algebra (6.0)
- **STAT 1040** Introduction to Statistics (3.0)
- **STAT 1045** Introduction to Statistics with Algebra (5.0)
- **MATH 1050** College Algebra (4.0)
- **MATH 1055** College Algebra with Preliminaries (5.0)
- **MATH 1090** College Algebra for Business (3.0)

#### Elective Requirements:
- **3 Credits**
  - **BIT 1010** Building Codes (Recommended for students interested in commercial construction) (3.0)
  or **BIT 1020** Residential Codes (Recommended for students interested in residential construction) (3.0)
  or **EGDT 2400** Surveying Applications and Field Techniques II (Recommended for students interested in heavy civil/highway construction) (3.0)

### Graduation Requirements:
1. Completion of a minimum of 30 semester credits.
2. Overall grade point average of 2.0 (C) or above.
3. No grade lower than a C-.
4. Residency hours -- minimum of 10 credit hours through course attendance at UVU.

Construction Management, B.S.

Requirements
Students may earn an Associate in Applied Science degree. The Clyde Institute of Construction Management Program has been designed to provide students a strong foundation in Construction Management that prepares them for jobs in construction site supervision and/or for advancement on to a BS degree in Construction Management. The program provides courses in building construction, construction management and construction science that apply to all segments of the construction industry with an emphasis on heavy civil and commercial construction. Students will learn about construction materials and methods through the use of readings, 3-D models, hands-on laboratory exercises, and site visits. Construction management courses in estimating and scheduling are also provided along with a strong background in mathematics, computer technology, business and other general education subjects. A supervisory course is also required so students can learn to manage workers at construction sites.

Total Program Credits: 120

Mission Statement

Criminal Justice Mission

The Criminal Justice program is committed to fostering a challenging and intellectually stimulating environment that provides a broad range of interactive academic and field experiences. An understanding and appreciation of the theory, research, policy and practice of criminal justice, as a unique discipline, will be advanced. The department will promote the development of future professionals who are capable of assuming responsibility for the research, continuing scholarship and administration of the criminal justice system.

Forensic Science Mission

The Forensic Science program is committed to fostering a challenging and intellectually stimulating environment that provides a broad range of interactive academic and field experiences. An understanding and appreciation of the theory, research, policy and practice of forensic science, as a unique discipline, will be advanced. The department will promote the development of future professionals who are capable of assuming responsibility for the research, continuing scholarship and administration of forensic science.

Center for National Security Studies Mission

The Center for National Security Studies (CNSS) is a nonpartisan academic institution for the instruction, analysis, and discussion of the issues related to the field of U.S. national security. The mission of the CNSS is twofold: to promote an interdisciplinary academic environment on campus that critically examines both the theoretical and practical aspects of the national security policy and practice; and to assist students in preparing for public and private sector national security careers through acquisition of subject matter expertise, analytical skills, and practical experience. The CNSS partners with local, regional, national, and international public and private sector organizations to promote this mission.

**Criminal Justice, Certificate of Proficiency**

**Requirements**

The Certificate of Proficiency in Criminal Justice is available for all UVU students with a particular focus designed to provide high school students an opportunity to obtain a certificate of proficiency with a focus on a Career and Technical Education (CTE) field while still enrolled in high school that will stack into certificates and associate degrees at UVU. This certificate will be available from the University for college students/adults...
Graduation Requirements:
1. Completion of a minimum of 15 credits.
2. Overall grade point average of 2.0 (C) or above.
3. Residency hours -- minimum of 4 credit hours through course attendance at UVU.

Criminal Justice, Certificate of Proficiency
Careers

For those trained in Criminal Justice, opportunities exist in local, state, federal, and private law enforcement i.e., DEA agent, FBI agent, corrections officer, security officer, private investigator, game law enforcement officer, immigration inspector, Alcohol/Tobacco/Firearms inspector, United States Marshall, Internal Revenue officer, Border Patrol agent, Consumer Safety inspector, and other fields depending on chosen option.

Law Enforcement, Certificate of Proficiency
Requirements
Utah Valley University is a sanctioned provider of the Utah Law Enforcement Academy, the basic training program for certification of law enforcement officers. The academy is divided into two modules. The first, or core, provides training required for certification of special function officers and is foundational for law enforcement and correctional officers. The second module is required for certification as a reserve or law enforcement officer.

Total Program Credits: 18

Matriculation Requirements:
1. By permission only class. Individual must complete the State POST application.
2. Individual must attend an application meeting/interview to have their application accepted by the director of the academy.
3. Individual must pass the State POST Entrance Exam (NPOST). The NPOST exam is a required part of the application.

National Security Studies, Certificate of Proficiency
Requirements
The NSS certificate of proficiency is aimed at students with a baccalaureate degree who are looking to re-tool or specialize in national security in order to enter or advance in a national security career. The certificate will provide an interdisciplinary program that prepares students for and allows existing professionals to advance in public and private sector national security careers through acquisition of subject matter expertise and analytical skills. This certificate will expose students to the wide variety of critically important security challenges and issues faced in the twenty-first century, such as terrorism and cyber security, nuclear proliferation and weapons of mass destruction, piracy and global pandemics, sovereignty and the use of force, and civil liberties and the rule of law. Students will also acquire skills such as critical thinking, writing, briefing, and analysis techniques specifically tailored for the national security field, but applicable in many others. Whether students are interested in counterterrorism, homeland security, intelligence gathering and analysis, foreign relations, law and politics, diplomacy, or international development, the NSS certificate of proficiency will provide insight and skills needed to succeed in these professions.

Total Program Credits: 18

Matriculation Requirements:
Students must have University Advanced Standing or have completed a baccalaureate degree.

Other Advisor Approved Electives

Elective Requirements: 11 Credits

Complete any 1000 course or higher 11

Graduation Requirements:
1. Completion of a minimum of 120 or more semester credits with 40 semester credits from 3000- and 4000-level courses.
2. Overall grade point average of 2.0 (C) or above. Must have a grade of C- or higher in all core and elective requirements.
3. Residency hours: minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements. Students are responsible for completing all prerequisite courses.
5. Successful completion of at least one Global/Intercultural course.

Criminal Justice, B.S.

Careers

For those trained in Criminal Justice, opportunities exist in local, state, federal, and private law enforcement i.e., DEA agent, FBI agent, corrections officer, security officer, private investigator, game law enforcement officer, immigration inspector, Alcohol/Tobacco/Firearms inspector, United States Marshall, Internal Revenue officer, Border Patrol agent, Consumer Safety inspector, and other fields depending on chosen option.

Related Careers

- Managers, All Other
- Criminal Justice and Law Enforcement Teachers, Postsecondary
- First-Line Supervisors of Police and Detectives

Forensic Science - Forensic Investigation Emphasis, B.S.

Requirements

The Forensic Investigation Emphasis within the BS in Forensic Science will provide an interdisciplinary program that prepares students for public, state, and federal careers with needed forensic investigation subject matter expertise and analytical skills. This emphasis will expose students to the wide variety of critically important forensic investigation techniques, which are currently practiced within various forensic service providers and law enforcement agencies today. Students will be exposed to various techniques such as the identification and proper collection of evidence found at crime scenes, accurate crime scene documentation skills, forensic photography, death investigations, fingerprint processing/examinations, impression evidence/examination, bloodstain pattern analysis, crime scene reconstruction, firearms and tool mark evidence/examination. Students will also acquire skills such as critical thinking, writing, expert testimony, and analysis techniques specifically tailored for forensic investigation fieldwork. This emphasis will provide students with the overall professional skills, work ethic, and demeanor required of forensic investigators.

3. Must have a grade of C+ or higher in CJ 1350 and FSCI 3400; must have a C- or higher in all other core and elective courses.
4. Residency hours: minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
5. Completion of GE and specified departmental requirements.
6. Successful completion of at least one Global/Intercultural course.

Forensic Science - Forensic Investigation Emphasis, B.S.

Careers

For those trained in Forensic Science, opportunities exist in local, county and state law enforcement crime labs, commercial drug screening laboratories, Fingerprint Specialist, Criminalist, Corporate Security Forensic Scientist, Trace Evidence Examiner, Quality Assurance Officer, and other areas depending on job availability and opportunities. There are also opportunities in federal laboratories such as Food and Drug Administration; U.S. Postal Service; FBI; Alcohol, Tobacco, and Fire Arms; Department of Justice; Drug Enforcement Administration (DEA); and U.S. Army Criminal Investigation Laboratory.

Related Careers

- Forensic Science Technicians
- Criminal Justice and Law Enforcement Teachers, Postsecondary
## Forensic Science - Forensic Laboratory Emphasis, B.S.

### Requirements

The Forensic Laboratory Emphasis within the BS in Forensic Science will provide students with a comprehensive science-based undergraduate education, which enables students to enter into a forensic science career. This emphasis will provide the necessary technical and theoretical knowledge, skills, and abilities of modern forensic techniques. Students will employ the theoretical and practical principles of chemistry, biology, physics, and mathematics in order to perform forensic science work commonly conducted within a crime laboratory. Science-based study and application of these principles will expose students to a stimulating academic environment conducive to scholarly inquiry. Students will gain the knowledge and ability for research-based projects and for potential improvement of the forensic community. Throughout this program, students will utilize effective written and oral communication skills required of forensic experts, as well as demonstrate work ethic, professional demeanor, reliability, and proper interpersonal skills.

**National Security Studies, B.A.**

**Requirements**

The BA/BS in National Security Studies (NSS) will provide an interdisciplinary program that prepares students for public and private sector national security careers through acquisition of subject matter expertise and analytical skills. This baccalaureate degree program will expose students to the wide variety of critically important security challenges and issues faced in the twenty-first century such as: terrorism and cyber security, nuclear proliferation and weapons of mass destruction, piracy and global pandemics, sovereignty and the use of force, and civil liberties and the rule of law. Students will also acquire skills such as critical thinking, writing, briefing, and analysis.
Criminal Justice/Law Enforcement

techniques specifically tailored for the national security field, but applicable in many others. Whether students are interested in counterterrorism, homeland security, intelligence gathering and analysis, foreign relations, law and politics, diplomacy, or international development, the NSS BA/BS will provide insight and skills needed to succeed in these professions.

1. Completion of a minimum of 120 or more semester credits, 40 credits must be upper-division.
2. Overall grade point average of 2.0 (C) or above, with no required course grade below C-.
3. Residency hours: minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Successful completion of at least one Global/Intercultural course.
6. Completion of 12 credit hours of course work from one language, to include the 1010, 1020, 2010, and 202G/2020 levels or transferred equivalent.

National Security Studies, B.S.

Requirements

The BA/BS in National Security Studies (NSS) will provide an interdisciplinary program that prepares students for public and private sector national security careers through acquisition of subject matter expertise and analytical skills. This baccalaureate degree program will expose students to the wide variety of critically important security challenges and issues faced in the twenty-first century such as: terrorism and cyber security, nuclear proliferation and weapons of mass destruction, piracy and global pandemics, sovereignty and the use of force, and civil liberties and the rule of law. Students will also acquire skills such as critical thinking, writing, briefing, and analysis techniques specifically tailored for the national security field, but applicable in many others. Whether students are interested in counterterrorism, homeland security, intelligence gathering and analysis, foreign relations, law and politics, diplomacy, or international development, the NSS BA/BS will provide insight and skills needed to succeed in these professions.

Culinary Arts Institute

Mission Statement

The Culinary Arts Institute is a practical teaching institute that provides opportunity and promotes student success while meeting regional educational needs.

Our program provides students with a blend of theoretical, practical, and real world educational experiences through scholarly, creative and engaged industry based learning.

We are committed to excellence and strive to provide a learning environment that maximizes student talent and potential both personally and professionally.

Program

The UVU Culinary Arts Institute (CAI) provides premier training for students interested in a career in professional cooking or baking. The program offers small, hands-on classes that focus on individualized attention and development. The Culinary Arts Institute provides experience through “engaged” industry based learning.

The Culinary Arts Institute’s comprehensive course of study covers several service areas, including not only learning how to cook and bake, but key requirements to success such as, customer service, business and finance management, marketing and advertising. CAI students learn how to apply these skills to a variety of food service establishments and operations. The practical and theoretical instruction covers such areas as food service safety and sanitation, professional dining room service, menu planning, nutrition and purchasing-storeroom management procedures.

While studying Culinary Arts at UVU, students gain a solid understanding of the food and beverage industry and learn the newest techniques in food and baking production using state-of-the-art equipment in our kitchen labs. The CAI also applies real world training as students run, full service, fine dining operations at Restaurant Forte, located in the UCCU Center and the Canyon Park Café located the Culinary Arts Institute in North Orem. These industry based learning models allow students to work with a wide range of foods while directly interacting with the public. In order to get the full breadth of running their own food service establishment, students work in a variety of functions including waiting tables, purchasing, preparing food, hosting, and supervising as the head chef.

Total Program Credits: 63

Matriculation Requirements:

1. Completion of the following courses with a grade of C- or better. CA 1160; CA 1490 (including current ServSafe certification); MAT 0990; ENGH 1005 or ENGL 1010.
2. Acceptance into the Culinary Arts Institute by completion of application process (see Advisor for specific details).
3. Overall GPA: 2.0 or better.

3. Residency hours—minimum of 20 credit hours through course attendance at UVU.

Note: Students are responsible for completing all prerequisite courses.

Culinary Arts, A.A.S.

Careers

As a result of more working adults with growing disposable incomes, the culinary arts field continues to grow. Occupations for food preparation and baking/pastry chefs are available in a variety of industries.

Average income for graduates is approximately $28,000 to $36,000 and higher. A chef’s income can range from $44,000 to $46,000 (Income figures are based on graduate placement). The national Restaurant Association notes the average salary across the country for chefs is $64,000.

Graduates of the Culinary Arts institute of UVU are in high demand and are recruited by owners and managers of well-known facilities throughout the country.

Utah Valley University offers post-baccalaureate programs in Cybersecurity for students who wish to complete advanced studies in the field of cybersecurity. These programs are designed to provide students with advanced technical and managerial knowledge of cybersecurity, preparing them for senior technical and leadership roles in the field. Coursework includes a balanced approach, combining critical analysis of cybersecurity theory with hands-on education for essential applied cybersecurity techniques and tools.

### Cybersecurity Graduate Certificate

The Cybersecurity Graduate Certificate program consists of 18 credits of graduate-level courses. The curriculum includes cybersecurity operations, advanced network defense, cybersecurity management, case studies, secure coding, ethical hacking, and the legal and privacy implications of cybersecurity.

### Master of Science in Cybersecurity

The Master of Science in Cybersecurity builds on the curriculum for the Cybersecurity Graduate Certificate and includes 12 additional credits including topics, such as advanced penetration testing, reverse engineering, and advanced network forensics. The program culminates with a capstone project where students showcase their skills and abilities.

#### Admission Requirements

Potential students must apply for admission into these programs. To be accepted, students must have completed a Bachelor’s degree, preferably in Information Systems, Information Technology, or Computer Science. However, applicants who have a Bachelor’s degree in another field may be admitted to the programs if they also have at least two years of IT or cybersecurity industry experience and have completed undergraduate courses in data communication, programming, and servers.

#### Degrees & Programs

### Cybersecurity, Graduate Certificate

**Requirements**

The Graduate Certificate in Cybersecurity at Utah Valley University is a post-baccalaureate program for students who wish to complete advanced studies in the field of cybersecurity. This program is designed to provide students with advanced technical and managerial knowledge of cybersecurity, preparing them for senior technical and leadership roles in the field. Coursework includes a balanced approach, combining critical analysis of cybersecurity theory with hands-on education for essential applied cybersecurity techniques and tools.

The program takes two semesters to complete the 18 credits of graduate-level courses. Courses include cybersecurity operations, advanced network defense, cybersecurity management, case studies, secure coding, ethical hacking, and the legal and privacy implications of cybersecurity.

To be successful, students should have a strong background in technology. Students should have completed undergraduate work in a related field or have applicable work experience. For those who do not meet this requirement, select undergraduate courses are available to provide the foundational knowledge needed. Please contact the academic advisor for more information.

Cybersecurity, M.S.

Requirements

The Master of Science in Cybersecurity is intended for individuals who desire to acquire additional cybersecurity knowledge, skills, and abilities in order to pursue new or advance existing careers in cybersecurity. The program is also designed for individuals who plan to pursue doctorate degrees in cybersecurity or related fields. The program focuses on the managerial and technical perspectives of cybersecurity through extensive use of case-studies and hands-on lab exercises.

Total Program Credits: 30

Matriculation Requirements:

1. Bachelor's degree with a GPA of at least 3.2 on a 4.0 scale from an accredited institution in one of the following fields: (Applicants who have bachelor's degrees in other fields may be admitted to the program if they have at least two years of technology or cybersecurity industry experience and have completed undergraduate courses in data communication, programming, and server administration with a grade of C+ or better. Students may also take a comprehensive exam on these topics to satisfy this admission requirement. These applications will be handled on a case-by-case basis.) 1. Information Systems; 2. Information Security; 3. Information Technology; 4. Computer Science
2. Admissions essay.
3. Completed application for admission.
4. Official transcripts from all attended institutions of higher education.
5. Two letters of recommendation

Dance

Mission Statement
The mission of Utah Valley University Department of Dance is to foster academic and artistic excellence through an intensive technical and reflective study of dance. Anchored in a common core curriculum with several areas of emphasis, our program provides a rich and stimulating environment where students cultivate their technical, aesthetic, creative, and scholarly potential. We value superior teaching which promotes dance as an artistic and cultural expression that has the power to enrich and transform the individual, community, and society.

**Graduation Requirements:**

1. Completion of a minimum of 120 semester credits; a minimum of 40 credits must be upper division.
2. Overall GPA of 2.0 (C) or above.
3. Overall GPA of 2.5 or above in all DANC courses.
4. Residency hours: minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
5. Completion of GE and specified departmental requirements.
6. Successful completion of at least one Global/Intercultural course.

---

**Dance - Ballroom Dance Emphasis, B.S.**

**Careers**

Those trained in dance find careers as public and private school teachers, college and university educators (requires graduate degree), professional performers and choreographers, dance historian and critics, administrators, dance therapists, professionals in the field of somatics, researchers, notators, movement analysts, private studio owners, and health and fitness consultants.

**Related Careers**

- Art, Drama, and Music Teachers, Postsecondary
- Dancers
- Choreographers

**Dance - Modern Dance Emphasis, B.F.A.**

**Requirements**

Students interested in pursuing a degree in dance can choose from the following degree paths: AS Pre-Major in Dance, BFA in Dance with an emphasis in Ballet or Modern Dance, BS in Dance with an emphasis in Ballroom Dance, and BS in Dance Education. In addition to career training, the Department of Dance provides opportunities for all interested students to explore the many forms of dance as elective and/or general education credit. The study of dance offers personal and cultural enrichment for majors and non-majors alike and allows students to augment their physical and theoretical skill as they study dance in relationship to the self, society, and other arts and disciplines.

**Total Program Credits:** 120

**Matriculation Requirements:**

1. Completion DANC 2110, and DANC 2330 with B- or higher.
2. Ballet emphasis: Completion of DANC 227R (2 semesters), with a grade of B- or higher.
3. Modern emphasis: Completion of DANC 143R and DANC 144R with a B- or higher.
4. Pass audition, interview, and portfolio review with faculty members.
5. Cumulative GPA of 2.75 or higher.

**General Education Requirements:** 35 Credits

The courses offered by the Department of Developmental Mathematics are instrumental in providing a foundation not only for higher level math courses, but also for civic, professional, and personal life. The Department provides an inclusive, engaged learning environment fostering student achievement while improving quantitative literacy. The Department of Developmental Mathematics offers MAT 1000, MAT 1010, MAT 1030, and MAT 1035 as transferable, college credit classes. MAT 1000 and MAT 1010 are also offered as prerequisites for MAT 1030, STAT 1040, MATH 1050, and MATH 1090. The Department of Developmental Mathematics also offers preparatory, non-transferable courses for students who need to strengthen mathematics skills before entering credit-bearing courses.

University College

University College serves a unique role and mission within Utah Valley University. Based on a national model, the name University College signifies opportunity for student success through curricular and co-curricular offerings, academic services and innovative programs. University College welcomes students at present levels of academic achievement and challenges them with higher expectations. The programs and departments of Literacies and Composition, Student Leadership & Success Studies, Developmental Mathematics, English Language Learning, the University College Advisement Center, Academic Standards, Writing Center, Academic Tutoring, and the Math Lab promote interdisciplinary partnerships as students transition into university academics.

Course Descriptions

Mathematics Developmental... ........................................................................ 790
Digital Media

Name: Digital Media
Location: CS 526
Telephone: 801-863-8485
Email: digitalmedia@uvu.edu
Web Address: uvu.edu/dgm
Chair: Kim P. Brown

Mission Statement
Digital Media prepares students for careers in digital media. Here are the Bachelor's and AAS Degrees offered.

Animation & Gaming Development allows students to gain skills that are central to contemporary industry best practices, with a focus on aesthetics, scripting, and modeling.

Digital Audio is a powerful gateway into the fascinating world of album recording, mixing, on-site location, and post-production sound for film and video, audio restoration, and forensic sound analysis, live sound, radio production, and audio hardware and software design.

Digital Cinema track at UVU has been over ten years in the making. Created by filmmakers, a “hands-on” filmmaking experience integrates theory and engaged learning by using industry-standard scripting, pre-production, production, and post-production digital cinema techniques. Dollar for dollar, this is the best media training in the nation.

Web & Development will assist students in learning industry standards in the field of Web Technologies. They will receive a cross-discipline education foundation of design and development. Students can choose Interaction & Design emphasis that will help them create websites, digital interfaces, and digital publications. Students focus on UX and Interaction and Design; or they can choose Web & App development emphasis and develop websites, digital interfaces, and apps. Students focus on Web and App Development.

Students in Digital Media (DGM) may earn either an AAS Degree or a Bachelor’s Degree. The Digital Media program was one of the first in the country. For over 20 years, UVU students have been working in the digital media field.

Digital Media

Advisors:

• Sehrash Khan (student last name A-Ha)
• Telephone: 801-863-6597
• Email: SKhan@uvu.edu
• Barbara Shirley (student last name Hb-L)
• Telephone: 801-863-4641
• Email: Barbara.Shiury@uvu.edu
• Joyce Porter (student last name M-Z)
• Telephone: 801-863-7125
• Email: Joyce.porter@uvu.edu

Bachelor Admittance Requirement
Digital Media (DGM) requires all students seeking a bachelor’s degree to meet or exceed certain criteria to be eligible for the program. All sophomores and transfer students will need to apply to the program by completing a Portfolio Review. Eligibility for the bachelor program requires that all students receive a B- (2.75) or above in DGM courses. Additionally, this grade threshold must be maintained throughout the bachelor degree program to remain in good standing. Upper-division courses (3000 or 4000 level) cannot be taken unless accepted into the bachelor program.

Course Descriptions
Digital Media ........................................................................................................................................... 680

Degrees & Programs
Digital Audio, A.A.S.

Requirements
The UVU AAS in Digital Audio is a powerful gateway into the fascinating world of album recording and mixing, location and post-production sound for film and video, audio restoration and forensics, live sound, radio production, gaming, and audio hardware and software design. Students will use industry-leading equipment including SSL, Audient, AVID ProTools, Universal Audio, Neumann, Waves, Tube Tech, AKG, and many others. By graduation, each student will have produced and engineered numerous music, ADR, Foley, and sound effects sessions, including professional-level mixes; will have their choice of many other areas of audio expertise; and will be professional employment-ready.

Note: All freshmen should declare their “anticipated” degree when they complete their entrance application. Students accepted into the bachelor program must re-submit a new application at which time they must declare their “official” degree.

Laptop Requirement
Laptops will be required for many of the upper-division courses. Each degree will have its own laptop specifications. Please see a Digital Media advisor for details.

Digital Cinema, A.A.S.  

Requirements  
Digital cinema is the design, development, and delivery of digital cinema content through the process of pre-production, production, and post-production. The curriculum integrates digital cinema mediums to entertain, educate, and communicate ideas and information. This program provides motivated and dedicated students the opportunity to work with professionally active faculty members committed to the future of digital disciplines. The Associate of Applied Science in Digital Cinema will provide students with employable skills and a pathway to further education.

Digital Communication Technology, A.A.S.

Requirements

Digital Media (DGM) fuses both fundamental theory and practical application in the production of electronically-generated content to be delivered via internet, radio and television, digital cinema, computer games, animation and cinematic visual effects, as well as for emerging technologies such as mobile computing (hand-held computing devices). The curriculum integrates these digital mediums to entertain, educate, and communicate ideas through meaningful human interaction. DGM provides motivated and dedicated students the opportunity to work closely with professionally active faculty members committed to the future of digital disciplines. Students in Digital Media may earn either a Certificate of Proficiency in Digital Cinema or a Bachelor of Science Degree. Areas of emphasis include: Digital Communication Technology, Audio Production, Digital Motion Picture Production, Gaming and Animation, Internet Technologies.

3. Residency hours — minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.

Digital Communication Technology, A.A.S.

Careers:

Because of extensive use of digital media in nearly every area of our lives, graduates will find themselves in demand by diverse organizations which use digital technology to communicate ideas. For example, graduates may work with medical teams to develop training materials to describe new surgical techniques to physicians, or work with a team to create an educational game. They may work as video or audio specialists on a documentary, or create an interactive web site to support a company's retail efforts or as administrative information management professionals.

Graduation Requirements:

1. Completion of a minimum of 120 semester credits.
2. A minimum of 2.5 GPA in all discipline core courses with no grade lower than a C- required for graduation. To qualify for the portfolio review, DGM courses must be completed with a grade of B- or higher.
3. Residency hours -- minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements, which includes a portfolio review and acceptance into the degree.
5. Successful completion of at least one Global/Intercultural course.

Footnote

2. MGMT 1010 Introduction to Business recommended.
Digital Media

Digital Audio, B.S.

Careers

Because of extensive use of digital media in nearly every area of our lives, graduates will find themselves in demand by diverse organizations which use digital technology to communicate ideas. For example, graduates may work with medical teams to develop training materials to describe new surgical techniques to physicians, or work with a team to create an educational game. They may work as video or audio specialists on a documentary, or create an interactive web site to support a company’s retail efforts or as administrative information management professionals.

Digital Cinema Production, B.S.

Requirements

The BS degrees in Digital Cinema Production trains students in the development, production, and post-production process of filmed media content for a variety of platforms. Using a hands-on, practical approach, students learn the tools, equipment, technologies, software, and protocols that are used on sets and post-production facilities, large and small, throughout the world. The curriculum focuses on creating technologies, software, and protocols that are used on sets and post-production platforms. Using a hands-on, practical approach, students learn the tools, equipment, production, and post-production process of filmed media content for a variety of platforms. Students may work as video or audio specialists on a documentary, or create an interactive web site to support a company’s retail efforts or as administrative information management professionals.

Mission Statement
The Department of Earth Science’s mission is to provide students with a dynamic educational experience that will prepare them for rewarding lives and careers in a large variety of professions in private industry, governmental agencies at all levels, non-governmental organizations, and education. Our department strives to create an inviting and safe learning environment for students from diverse backgrounds with a wide range of educational goals. We offer four bachelor’s degree programs (B.S. in Earth Science Education, B.S. in Environmental Science and Management, B.S. in Geography, and B.S. in Geology), an associate’s degree (A.S. in Physical Science), and two certificate programs (a certificate of proficiency in Geographic Information Systems and a certificate of completion in Water and Wastewater Operations). We have excellent laboratory and classroom facilities and we take pride in being able to offer opportunities for students to learn outside of the classroom with service learning projects, internships, field work, study abroad experiences, and through research collaborations with faculty. Research experiences offer opportunities for personalized mentorship by faculty that lead our students to become deeply involved with their discipline of study. Thus, our graduates are skilled and creative thinkers who are well-prepared to step into professions that contribute toward understanding and solving Earth, societal, and environmental challenges faced by communities here in Utah and worldwide.

Depending on the specific degree and elective courses chosen, a graduate will gain particular expertise in one or more of the following areas:

- Biogeography
- Earth Science Education
- Environmental Health
- Environmental Monitoring and Sustainability
- Environmental Science and Management
- Geochemistry
- Geographic Information Systems and Geospatial Analysis
- Geologic Hazards Assessment
- Geomorphology
- Human Geography
- Hydrology
- Land Use and Landcover Analyses
- Paleoclimatology
- Paleontology
- Petrology
- Pollution Monitoring, Remediation and Prevention
- Remote Sensing
- Sedimentary Rocks and Stratigraphy
- Structural Geology and Tectonics
- Urban Geography
- Water and Natural Resource Management
- Water treatment
- Wetland Studies

**Discipline Core Requirements:**

11 Credits

Complete one of the following

11

Recommended for students most interested in physics:

| MATH 1210 | Calculus I | 5.0 |
| MATH 1220 | Calculus II | 5.0 |
| PHYS 2215 | Physics for Scientists and Engineers I Lab | 1.0 |
| PHYS 2225 | Physics for Scientists and Engineers II Lab | 1.0 |

Recommended for students most interested in chemistry:

| CHEM 1215 | Principles of Chemistry I Laboratory | 1.0 |
| CHEM 1225 | Principles of Chemistry II Laboratory | 1.0 |
| CHEM 2310 | Organic Chemistry I | 4.0 |
| CHEM 2315 | Organic Chemistry I Laboratory | 1.0 |
| CHEM 2320 | Organic Chemistry II | 4.0 |
| CHEM 2325 | Organic Chemistry II Laboratory | 1.0 |

Recommended for students most interested in earth science:

| CHEM 1215 | Principles of Chemistry I Laboratory | 1.0 |
| CHEM 1220 | Principles of Chemistry II | 4.0 |
| CHEM 1225 | Principles of Chemistry II Laboratory | 1.0 |
| GEO 1015 | Introduction to Geology Laboratory | 1.0 |
| GEO 1220 | Historical Geology (3.0) |
| GEO 1225 | Historical Geology Laboratory (1.0) |

Elective Requirements:

12 Credits

Complete 12 credits from the following (not to include any course being used to fill one of the requirements above). Consult with an advisor to determine which courses best match your long-term educational and career goals.

| CHEM 1210 | Principles of Chemistry I | 4.0 |
| CHEM 1215 | Principles of Chemistry I Laboratory | 1.0 |
| CHEM 1220 | Principles of Chemistry II | 4.0 |
| CHEM 1225 | Principles of Chemistry II Laboratory | 1.0 |

**Graduation Requirements:**

1. Completion of a minimum of 60 semester credits.
2. Overall grade point average of 2.0 (C) or above (departments may require a higher GPA).
3. Residency hours: minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.

**Physical Science, A.S. Careers**

**Related Careers**

- Natural Sciences Managers
- Secondary School Teachers, Except Special and Career/Technical Education

**Geographic Information Systems, Certificate of Proficiency**

**Requirements**

The Certificate of Proficiency in Geographic Information Systems (GIS) provides students with a focused program of study in the fundamentals required to succeed in a wide range of careers in geospatial science. GIS includes the hardware, software, and data required to capture, store, display, and analyze geographically referenced information. Students in the certificate program learn the theory and methodology of geospatial data collection, storage and management, interpretation, and visualization through courses in cartography, remote sensing, GIS theory and applications, and geospatial field methods. In directed class projects students apply geospatial data techniques to real-world problems while gaining firsthand experience in project design and management.

Earth Science Education, B.S.

Requirements

Earth Science is the study of the Earth, including its water and atmosphere, and their relationship to humans and other living things. Earth Science applies chemistry, physics, mathematics and biology to scientific problems of the Earth. The Earth Science Education program prepares students to receive a Utah State teaching credential with an endorsement in Earth Science. Through careful choice of courses, students may also earn endorsements in the other physical sciences.

Total Program Credits: 121

Matriculation Requirements:

1. Complete the following courses: GEO 1010, GEO 1015, MATH 1050 or MATH 1055, MATH 1060, BIOL 1610 with a grade of "C" or higher in each.
2. Complete a minimum of 30 semester hours of college credit.
3. Apply to the department of Earth Science for admission.

Secondary Education Requirements:

1. ACT exam minimums: Composite 21, English 20, Math 19; or SAT exam minimums: Critical Read /Math 1000, with Math and Reading scores of 450; or If student has a bachelor degree or higher, he/she does not need to meet this testing requirement.
2. GPA of 3.0 or higher with no grade lower than a C in content area courses.
3. Completion of all General Education requirements and the majority of content area courses.
4. Pass LiveScan Criminal Background Check.

**Graduation Requirements:**

1. Completion of a minimum of 120 semester credits.
2. Overall GPA of 3.0 (B) or above with no grade lower than a C in major required content courses and no grade lower than a B- in Licensure and Methods courses. (Departments may require a higher GPA.)
3. Residency hours -- minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.
5. Grade of C or higher in all GEO, BIOL, and METO courses.
6. Successful completion of at least one Global/Intercultural course.

Note: *This requirement is fulfilled with the core requirements.

### Earth Science Education, B.S.

**Careers**

The three degree programs offered by the Department of Earth Science (B.S. in Geology, B.S. in Environmental Science and Management, and B.S. in Earth Science Education) provide a wide range of skills and knowledge that are applicable to today's earth science job markets, as well as a broad science education that's ideal for students planning to continue to graduate programs in law, education, business, or health fields. Our Department graduates professionals who are skilled and creative and who are well prepared to contribute toward solving earth and environmental science challenges faced here in Utah and worldwide.

The Earth Science Education degree prepares K-12 science teachers. The degree emphasizes earth science curriculum, but many students gear their program to qualify them to teach other physical sciences and/or geography. Job prospects for graduates are outstanding, and many UVU-educated earth science teachers are making a difference in young people's lives through their work in Utah's K-12 school system.

Environmental Science and Management, B.S.

Requirements

Environmental Science is the study of the Earth’s surface, including its water and atmosphere, with a particular focus on their relationship to humans and other living things. Environmental Science applies chemistry, physics, mathematics and biology to answer questions about the Earth and its interrelationships with living things. Environmental Management focuses on the maintenance of environmental resources, for example water resources. Environmental scientists may conduct studies in the field, in the laboratory using advanced analytical equipment, and in the office using specialized computer software. The program is preparation for a variety of career paths, including water monitoring, treatment, and pollution control with local, state or federal agencies; environmental consulting with private industry; and other careers that draw on a background in the natural sciences, including law, public policy, and public health.

Geography, B.S.

Requirements

Geography is the study of the earth’s places, peoples, environments and their interrelationships from both the physical and social science perspectives. Geographers use many different scientific tools to study the relationships between earth’s systems including geospatial technology and are employed in public agencies, local governments, federal offices, technology sectors, business planning, and careers related to spatial planning. The Bachelor of Science in Geography provides students with a program of study in the fundamentals of geography and prepares them to succeed as geographers as well as in many other careers related to geography. Students learn theories and methods of analysis related to land use and land cover change, urbanization, sustainability, human-environment interactions, and Geographic Information Systems (GIS) technology through the core courses of the program. Through elective courses, students can choose to further focus their studies on physical sciences, social sciences, and/or geospatial techniques to meet their career goals.

Graduation Requirements:

1. Completion of a minimum of 120 semester credits.
2. Overall grade point average of 2.0 (C) or above.
3. Grade of C- or better in all ENVT, GEO, and GEOG courses.
4. Residency hours—minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
5. Completion of GE and specified departmental requirements.
6. Successful completion of at least one Global/Intercultural course.

Environmental Science and Management, B.S.

Careers

The three degree programs offered by the Department of Earth Science (B.S. in Geology, B.S. in Environmental Science and Management, and B.S. in Earth Science Education) provide a wide range of skills and knowledge that are applicable to today’s earth science job markets, as well as a broad science education that’s ideal for students planning to continue to graduate programs in law, education, business, or health fields. Our Department graduates professionals who are skilled and creative and who are well prepared to contribute toward solving earth and environmental science challenges faced here in Utah and worldwide.

The Environmental Science and Management B.S. degree is a flexible program that prepares graduates for a variety of exciting and important careers ranging from water and wastewater treatment through jobs monitoring water resources to working with geographic information systems. The degree is also terrific preparation for many careers that draw on a solid background in environmental science, for example in public policy, law, public health, humanitarian work and more. Job prospects are excellent, and potential employers include local, state and federal government agencies and environmental consulting firms. Graduates are well prepared to work with water quality issues, including both monitoring and treating water resources, and a number of graduates are working at local government water treatment plants around the state, ensuring a safe water supply. Others work for environmental consulting firms where they are helping prevent, assess, and remediate water pollution and other environmental hazards; some have chosen to enhance their education in graduate school; and still others work in a range of fields monitoring and maintaining the environment.

Graduation Requirements:

1. Completion of a minimum of 120 semester credits, including 40 hours of upper-division credit.
2. Overall grade point average of 2.0 (C) or above.
3. Grade of C- or better in every ENVT, GEO, GEOG, METO, and core curriculum course.
4. Residency hours—minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
5. Completion of GE and specified departmental requirements.
6. Successful completion of at least one Global/Intercultural course.

Geography, B.S.

Careers

The degree programs offered by the Department of Earth Science (B.S. in Geography, B.S. in Environmental Science and Management, and B.S. in Earth Science Education) provide a wide range of skills and knowledge that are applicable to today's earth science job markets, as well as a broad science education that's ideal for students planning to continue to graduate programs in law, education, business, or health fields. Our Department graduates professionals who are skilled and creative and who are well prepared to contribute toward solving earth and environmental science challenges faced here in Utah and worldwide.

The Environmental Science and Management B.S. degree is a flexible program that prepares graduates for a variety of exciting and important careers ranging from water and wastewater treatment through jobs monitoring water resources to working with geographic information systems. The degree is also terrific preparation for many careers that draw on a solid background in environmental science, for example in public policy, law, public health, humanitarian work and more. Job prospects are excellent, and potential employers include local, state and federal government agencies and environmental consulting firms. Graduates are well prepared to work with water quality issues, including both monitoring and treating water resources, and a number of graduates are working at local government water treatment plants around the state, ensuring a safe water supply. Others work for environmental consulting firms where they are helping prevent, assess, and remediate water pollution and other environmental hazards; some have chosen to enhance their education in graduate school; and still others work in a range of fields monitoring and maintaining the environment.

Geology, B.S.

Requirements

Geology is the study of the Earth, including its water and atmosphere, and its relationship to humans and other living things. Geology applies chemistry, physics, mathematics and biology to answer questions about the Earth. Geologists conduct studies in the field, in the laboratory using advanced analytical equipment, and in the office using specialized computer software. Geology is particularly focused on the Earth's history, resources, hazards and resources including groundwater. Sub-disciplines of geology include economic geology, geochemistry, geologic hazards, geomorphology, hydrogeology, petrology, and tectonics. A B.S. in geology is preparation for a variety of career paths, including hazard assessment with government or private...
companies, ground and surface water monitoring and development, oil and gas, mining, and many other careers that draw on a background in the natural earth, including law, public policy, and public health; the program is also excellent preparation for graduate school.

**Geology, B.S.**

**Careers**

The three degree programs offered by the Department of Earth Science (B.S. in Geology, B.S. in Environmental Science and Management, and B.S. in Earth Science
Education) provide a wide range of skills and knowledge that are applicable to today's earth science job markets, as well as a broad science education that's ideal for students planning to continue to graduate programs in law, education, business, or health fields. Our Department graduates professionals who are skilled and creative and who are well prepared to contribute toward solving earth and environmental science challenges faced here in Utah and worldwide. More specific information on career opportunities related to each degree is provided below.

A bachelor of science in Geology is excellent preparation for a wide range of careers, including geology and closely allied fields, as well as a variety of opportunities that draw upon a graduate's broad and rigorous education in the physical and environmental sciences. Job prospects for graduates are excellent, and work may be largely be field-based, office-based or a combination. Many students continue to graduate school before entering the labor market, while many others take employment upon graduation. Large employers of geologists include the oil and gas industry, mineral exploration and extraction, geologic consulting, and government agencies. In the oil and gas and mining industries many geologists are involved with exploration for additional resources and development of existing resources. Geologic consulting involves work such as assessing and mitigating hazards including landslides, earthquakes and flooding; evaluating slope stability and compaction; and evaluating and protecting surface and ground water resources. Geologists working for government agencies perform interesting tasks ranging from field mapping to land use analysis, investigations of water resources, and working with geographic information systems. However, many graduates have shown that a degree in geology is an effective stepping-stone to a variety of career paths including public policy, law, public health, humanitarian work, and more, particularly when the endeavors involve issues related to the environment.

Master of Education

The Master of Education (M.Ed.) degree at Utah Valley University is an applied master's degree aimed at building the instructional skill and professional competency of teachers, clinicians and administrative leaders in K-12 and higher education. The goal is to enable participants to become more proficient in selecting optimum, research-based, curriculum design strategies that best apply to specific teaching situations. Participants to become more proficient in selecting optimum, research-based, curriculum design strategies that best apply to specific teaching situations.

There are currently eleven emphases in the Master of Education Degree:

- Applied Behavioral Analysis
- Educational Leadership
- Educational Technology
- Elementary Mathematics
- Elementary STEM
- English as a Second Language (ESL)
- Gifted and Talented Education
- Higher Education Leadership
- Reading I
- Secondary Teaching
- Teacher Leadership

The M.Ed. requires 30-33 semester hours of graduate course work and completion of a culminating applied instructional project tailored to the particular interests of program participants. Participants enter the M.Ed. program in cohorts and progress through the degree program in a group. While the culminating applied instructional project is unique to each student, some course work and many class activities are done in collaboration with fellow students.

Graduate Certificate in Secondary Teaching

The Graduate Certificate in Secondary Teaching is designed for individuals who would like to receive a Utah Secondary Teaching License, and have earned a bachelor's degree in one of the teaching major subject areas for secondary education approved by the Utah State Board of Education. This program will include the basic coursework and field experiences required of all teacher candidates for an initial teaching license, ensuring that competencies in both subject knowledge and pedagogy are met. Students completing this certificate may transfer the credits earned in this program toward an emphasis in Secondary Teaching in the Master of Education degree.

Graduate Certificate in Educational Leadership

The Graduate Certificate for Educational Leadership in UVU's School of Education (SOE) is designed to align with the current Ed Leadership emphasis in the M.Ed. The certificate will meet the needs of candidates who have previously completed a master's degree (M.Ed) and now wish to prepare as potential administrative and instructional school leaders for Utah's schools. Curriculum for this option will be based on the standards for administrative/supervisory endorsement from the Utah State Office of Education (USOE), and the Interstate School Leaders Licensure Consortium (ISLLC). The grad certificate program will be formatted to meet the needs of adult learners, with courses offered in the evenings and in blended and online formats, but will not require them to retake core courses previously completed. The administrative/supervisory certificate will prepare leaders for 21st century schools in the areas of curriculum, instruction, and human resource administration. Course objectives will emphasize performance of school and classroom leadership functions, functional knowledge of local, state, and national educational agencies and regulations, demonstrated competencies in administrative skills, and applied understandings of current research around effective teaching, theories of learning, and educational policy. Candidates will be required to complete supervised internship work that is required by Utah code.

Admission & Retention

Application to the Program

Admission to graduate programs or permission of the Dean of the School of Education is required for enrollment in the Master of Education and Graduate Certificate courses. Applicants should complete an online graduate application by following the application link on the UVU Web site and follow all instructions for graduate application and admission. Applications and application fees must be received by January 10 for consideration for summer semester. Students in the M.Ed. program begin with full-time coursework in the summers and part-time enrollment in the fall and spring semesters. Applicants to the K-12 Leadership emphasis will need a letter of support from their school administrator.

Required support materials received after the application deadline will delay processing of the application. The School of Education Graduate Screening Committee reviews applications and schedules interviews for applicants meeting minimum admission requirements. The Program Director of Graduate Studies for the School of Education notifies all applicants in writing of the admission decision. The University cannot guarantee a response on or before a specific date. All admission materials become the property of UVU and will not be returned to the applicant.

Reapplication

If an applicant is not admitted, s/he may reapply. All current admission requirements at the time of application must be met in order to be fully admitted to the program.

Satisfactory Progress

Continuation in the Master of Education program is determined by: (1) satisfactory progress (B- or higher) in all courses and (2) satisfactory completion of Academic Probation.
A student can be dismissed from the Master of Education program for the following reason(s): (1) Failure to meet the scholarship requirements of the Graduate Program of an overall GPA of 3.00 (on a 4.00 scale) or higher, with no individual course grade lower than B-; (2) Failure to complete prescribed courses; and/or (3) Failure to adhere to University student rights and responsibilities standards.

1. Academic dishonesty;
2. Continued failure to meet academic standards; and/or
3. Continued failure to adhere to University student rights and responsibilities standards.

For each credit hour over 25, $292 per credit hour will be assessed for residents and $890 per credit hour for non-residents.

Degrees & Programs

Dual Language Immersion, Endorsement

Requirements

The Dual Language Immersion (DLI) Endorsement program is designed to prepare teachers to be sensitive and responsive to the needs of dual language immersion (DLI) learners and to become advocates for DLI in a variety of educational settings. Coursework is designed to address historical and political foundations of DLI education and methods and materials for engaging DLI students in challenging educational experiences. The UVU endorsement program is intended to provide educators with an opportunity to develop, expand, and integrate their knowledge of content, pedagogy, and cultural perspectives in dual language immersion education. Completed program coursework qualifies students to apply to the Utah State Office of Education for an endorsement to their current Utah Teaching License.

Dual Language Immersion, Endorsement Careers

Careers:

While the Master of Education degree program is designed primarily to enhance the skills and understandings of practicing classroom teachers, it also prepares these graduate students for expanded leadership roles at the school, district, or state level in delivering professional development, designing and evaluating curriculum and textbooks, and mentoring novice teachers. A Master of Education degree may also qualify a student as an instructor for teacher preparation courses in a community college or as an adjunct instructor at the undergraduate level in a four-year college or university. Successful completion of this master's degree also provides a valuable foundation for those students who choose to pursue a doctoral degree. Program options in English as a Second Language, Educational Technology, Elementary Mathematics, and Reading I will also qualify students to apply for an endorsement to their current Utah Teaching Certificate.

Elementary STEM, Endorsement

Requirements

The Utah Valley University endorsement program for Elementary Science, Technology, Engineering, and Mathematics (STEM) is geared to providing professional development and best practices for practicing teachers in grades K-8. The goal of this program is to enhance educators’ understandings of key concepts in STEM areas so that they may better serve the needs of their students in the 21st century.

Requirements

The Master of Education Degree (M.Ed.) at Utah Valley University is an applied master's program aimed at building the professional competence of teachers. Currently there are eleven emphases for participants: Applied Behavioral Analysis, Educational Leadership, Educational Technology, Elementary Mathematics; Elementary STEM, English as a Second Language (ESL), Gifted and Talented Education, Higher Education Leadership, Reading I, Secondary Teaching, and Teacher Leadership. The M.Ed. program emphasizes coursework that prepares teachers to become instructional leaders, with classes in advanced pedagogy, subject matter content, curriculum design, and assessment. Core coursework in research methods is required of participants in all options, however, students select a topic for a culminating project according to their interest or area of licensure in K-12 education.

Gifted and Talented, Endorsement

Requirements

The Utah Valley University Gifted and Talented endorsement program is designed to prepare teachers to be sensitive and responsive to the needs of gifted and talented (GT) learners and to become advocates for their students in a variety of educational settings, whether they become teachers in Gifted and Talented programs or teachers who work with these learners in the mainstream classroom setting. Coursework is designed to address historical and political foundations of GT education, the social and emotional needs of these learners, and methods and materials for engaging GT students in challenging educational experiences. The UVU endorsement program is intended to provide educators with an opportunity to develop, expand, and integrate their knowledge of content, pedagogy, and cultural perspectives in gifted and talented education.

**Master of Education - Gifted and Talented Education Emphasis, M.Ed.**

**Requirements**

The Master of Education Degree (M.Ed.) at Utah Valley University is an applied master’s program aimed at building the instructional skills and professional competency of teachers. Currently there are eleven emphases for participants: Applied Behavioral Analysis; Educational Leadership; Educational Technology; Elementary Mathematics; Elementary STEM, English as a Second Language (ESL), Gifted and Talented Education, Higher Education Leadership, Reading I, Secondary Teaching, and Teacher Leadership. The M.Ed. program emphasizes coursework that prepares teachers to become instructional leaders, with classes in advanced pedagogy, subject matter content, curriculum design, and assessment. Core coursework in research methods is required of participants in all options, however, students select a topic for a culminating project according to their interest or area of licensure in K-12 education.

**Total Program Credits: 36**

Reading I, Endorsement

Requirements
The Reading Endorsement Program (REP) is designed to prepare teachers to be responsive to current scientific-reading research for teaching reading and to become advocates for reading research in the educational setting. Coursework is designed to address historical and political foundations of reading education and methods and materials for engaging students in challenging educational experiences. The UVU endorsement program is intended to provide educators with an opportunity to develop, expand, and integrate their knowledge of cognition, content, pedagogy, and cultural perspectives in their curriculum. Completed program coursework qualifies students to apply to the Utah State Office of Education for an endorsement to their current Utah Teaching License.

Total Program Credits: 21
## Secondary Teaching, Graduate Certificate

### Requirements

The Graduate Certificate in Secondary Teaching is designed for individuals who have earned a bachelor’s degree. They must have completed coursework in one of the teaching major subject areas for secondary education approved by the Utah State Board of Education (USBE) prior to admission into either program. The primary goal of the program will be to ensure that teacher candidates, through support, supervision, and evaluation, can demonstrate and apply the competencies required by the USBE for teacher licensure. The basic coursework and field experiences required of all teacher candidates for an initial teaching license, ensuring that competencies in both subject knowledge and pedagogy are met.

### Matriculation Requirements:

Requirements for admission to the Graduate Certificate in Secondary Teaching (GCST) program would include the following:

1. Verification of a bachelor’s degree from an accredited university in a recognized content major (or with equivalent coursework) in a discipline taught in Utah secondary schools and for which UVU can recommend a secondary teaching license. Any coursework required by the Utah State Board of Education (USBE) for a content major* must be completed with a grade of C or higher prior to admission into the GCST program.

2. A cumulative GPA of 3.0 or a GPA of 3.0 for the last 60 credits of university coursework.

3. Passing scores from the Praxis II [subject-area test(s)] as required by the USBE.

4. Successful completion of a background check through USBE.

* Students will have completed a content-specific methods course prior to admission into the program. These courses are not offered in the School of Education, but in the appropriate content areas across the University. The following courses would be examples:

   - ART 3510 Secondary Art Education Methods I (3.0)
   - ART 3510 Secondary Art Education Methods II (3.0)
   - ENGL 4210 Methods in Teaching Literacy I (3.0)
   - ENGL 4220 Methods in Teaching Literacy II (3.0)
   - ENGL 4230 Methods in Teaching Literacy III Teaching the Conventions of Writing (3.0)

   - GEO 4200 Teaching Methods in Science (3.0)
   - PHYS 4200 Teaching Methods in Science (3.0)
   - CHEM 4200 Teaching Methods in Science (3.0)
   - BIOL 4200 Teaching Methods in Science (3.0)

   - LANG 4200 Methods of Teaching a Foreign Language (3.0)

**Total Program Credits: 29**

**Matriculation Requirements:**

Requirements for admission to the Graduate Certificate in Secondary Teaching (GCST) program would include the following:

1. Verification of a bachelor’s degree from an accredited university in a recognized content major (or with equivalent coursework) in a discipline taught in Utah secondary schools and for which UVU can recommend a secondary teaching license. Any coursework required by the Utah State Board of Education (USBE) for a content major* must be completed with a grade of C or higher prior to admission into the GCST program.

2. A cumulative GPA of 3.0 or a GPA of 3.0 for the last 60 credits of university coursework.

3. Passing scores from the Praxis II [subject-area test(s)] as required by the USBE.

4. Successful completion of a background check through USBE.

* Students will have completed a content-specific methods course prior to admission into the program. These courses are not offered in the School of Education, but in the appropriate content areas across the University. The following courses would be examples:

   - ART 3510 Secondary Art Education Methods I (3.0)
   - ART 3510 Secondary Art Education Methods II (3.0)
   - ENGL 4210 Methods in Teaching Literacy I (3.0)
   - ENGL 4220 Methods in Teaching Literacy II (3.0)
   - ENGL 4230 Methods in Teaching Literacy III Teaching the Conventions of Writing (3.0)

   - GEO 4200 Teaching Methods in Science (3.0)
   - PHYS 4200 Teaching Methods in Science (3.0)
   - CHEM 4200 Teaching Methods in Science (3.0)
   - BIOL 4200 Teaching Methods in Science (3.0)

   - LANG 4200 Methods of Teaching a Foreign Language (3.0)

Early Childhood Education Program

The Early Childhood Education program is strongly aligned with community needs. It provides instruction and preparation for those seeking to work with young children in preschool and day care facilities. It provides a strong experiential program through coursework, observations and practicum.

Professional Elementary Teacher Education Program

The Professional Elementary Teacher Education Program at Utah Valley University is designed to prepare quality, entry-level candidates for teaching in elementary education programs grades K-6. Students successfully completing the UVU professional teacher education program graduation and licensure requirements receive a baccalaureate degree in Elementary Education and a Utah Professional Teaching License.

The UVU teacher education initial licensure program is accredited by the Association for Advancing Quality in Educator Preparation (AAQEP) and Northwest Commission on Colleges and Universities, and approved by the Utah State Board of Education.

Career Opportunities

Early Childhood Education Program

Career opportunities include: teaching in early childhood programs and child care centers, Head Start teacher and teacher aide, teacher aide in elementary school, teacher aide in special education classes, owner and/or director of preschool or child care center.

Professional Elementary Teacher Education Program

Upon successful completion of the UVU Professional Teacher Education Program and the Praxis Subject Assessment, students are recommended to the Utah State Board of Education for an Elementary Education professional educator license. This license allows individuals to teach in Utah elementary schools.

Certificates/Degrees

Certificate of Completion in Early Care and Education, Associate in Science (AS) in Early Childhood Education, Associate in Science (AS) in Pre-Elementary Education, Baccalaureate of Science Degree (BS) in Elementary Education.

Admission & Retention

Admission to the Education Program is required for enrollment in professional studies level courses. Admission criteria*: 1) Praxis (5001) Scores (required scores: Read/ Lang. Art = 157, Math = 157, Social Studies = 155, Science = 159); 2) GPA of 3.00 or higher (including B- or higher in all EDEL pre-professional emphasis courses); 3) a grade of B- or higher in ENGL 2010 and a C or higher in all required math courses; and 4) Completion of the coursework for the Associate of Science degree in Pre-Elementary Education or equivalent. Applicants are accepted into the Teacher Education Program for fall and spring semesters after meeting entrance requirements.

*Please contact the Elementary Education Advisors for the current admission requirements. Admission to the teacher education licensure program is a separate process from and in addition to admission to Utah Valley University. Meeting the minimum requirements qualifies the student to be considered for admission.

To continue in the program, students are expected to maintain all program standards. They must maintain expected levels of competence in all coursework, field work, and student teaching with all course grades at or above a B- and a program GPA of 3.00 or higher. Additionally, teacher candidates are expected to adhere to standards of personal integrity, responsibility, and citizenship commonly expected of professional educators.

Degrees & Programs
Early Childhood Education, A.S.

Requirements
Individuals who earn an Associate Degree in Early Childhood Education are prepared to teach preschool in private and corporate centers, Head Start, and public education tuition preschools, or work as center directors. The Associate Degree in Early Childhood can be planned to fill the majority of the requirements for entry into the Elementary Education Program. The UVU Early Childhood Education program is accredited by the Northwest Commission on Colleges and Universities. The UVU Teacher Education Preschool is accredited by the National Association for the Education of Young Children.

Mission Statement
The Emergency Services Department at Utah Valley University prepares practicing and future emergency service professionals through a program that balances technical skills, critical and ethical thinking, leadership, and effective communication. The department's programs address multiple emergency service educational needs, from professional certifications to degrees.

Degree programs and individual courses are designed to meet both state and national professional requirements, including those established by the Utah Fire Services Certification Council, the Utah Labor Commission, the United States Occupational Safety and Health Administration (OSHA), the National Fire Protection Association (NFPA), the United States Department of Homeland Security (DHS), the Federal Emergency Management Association (FEMA), the National Fire Academy (NFA), and the National Wildfire Coordinating Group (NWCG).

Emergency Services classes are scheduled to meet the needs of traditional students and firefighters working various shift assignments. During each semester, classes are offered during the day, afternoons, evenings, weekends, and online. For more information, call (801) 863-7798, or check our web page at [www.uvu.edu/es](http://www.uvu.edu/es).

Firefighter Recruit Candidate Academy (RCA)

Program Requirements for Enrollment

Recruit Candidate Academy courses include ESFF 250A and 250B. Enrollment is done by means of a program application process. Prior to enrollment students must:

1. Complete all UVU admission requirements
2. Complete pre-requisite ESFF 1000 with a grade of C- or higher
3. Complete pre-requisite ESFF 1120 with a grade of C- or higher
4. Be NREMT certified or complete an EMT course through UVU or another recognized agency/institution
5. Demonstrate competency in English and math by one of the following: ACT, SAT, High School Transcript with AP classes, College Level courses (ENGL 1005 and MAT 0950 with C- grades or higher), degrees, the RCA entrance exam OR test into ENGL 1010 and MAT 1000 or higher Be at least 18 years old and have a valid driver’s license
7. Complete online application found at [uvu.edu/es/rca/](http://uvu.edu/es/rca/)

Certificate of Completion: Firefighter Recruit Candidate

Complete the following courses with a minimum grade of C- or higher:

- ESEC 1140--Emergency Medical Technician – Basic (9.0 Credits)
- ESFF 1000 Introduction to Emergency Services and Ability Testing (4.0 Credits)
- ESFF 1120 Principles of Fire and Emergency Services Safety and Survival (3.0 Credits)
- ESFF 250A Recruit Candidate Academy I (8.0 Credits)
Complete the following courses with a minimum grade of C- or higher:

- Certificate of Completion: Paramedic

Program Requirements for Enrollment

Paramedic Program Pre-requisites. The following pre-requisites must be completed prior to application deadline:

1. Complete all UVU admission requirements: https://www.uvu.edu/admissions/
2. Completion of Anatomy and Physiology with a grade of C or higher: ZOOL 1090 or ZOOL 2320 and 2420 with labs. See academic advisor for acceptable course work or transfer credit information.
3. Completion of ENGH 1000 with a grade of C- or higher or testing into ENGH 1005 or higher. Completion of ENGH 1000 is highly recommended.
4. Completion of MAT 1010 is highly recommended.
5. Completion of Anatomy and Physiology with a grade of C or higher: ZOOL 1090.
6. Must pass required drug screening.
7. Have current vaccinations as required by for the program and the Utah Fire Service Certification System. Students have the opportunity to earn several certifications. These include:
   - Certificate of Completion – UVU Paramedic,
   - Basic Life Support (BLS)
   - Pediatric Advanced Life Support (PALS)
   - Advanced Cardiac Life Support (ACLS)
   - Pre-hospital Trauma Life Support (PHTLS)
   - Advanced Medical Life Support (AMLS)
   - Geriatric Education for EMS (GEMS)
   - Neonatal Resuscitation Program (NRP)
   - Pediatric Education for Prehospital Professionals (PEPP)
   - Hazardous Materials Awareness (eligible for state testing)
   - Law Enforcement First Responder (LEFR)
   - Fundamentals of Airway

Once accepted into the paramedic program, you must provide documentation of the following:

1. Must pass criminal background check requirements of UCA 26-8a-310 for certification as a Paramedic in the State of Utah. Applicants cannot have any felony convictions or be on probation. See also National Registry - https://www.nremt.org/wld/public/document/policy-criminal
2. Must pass required drug screening.
3. Have current vaccinations as required by for the program and the Emergency Medical Services Bureau- https://www.uvu.edu/es/paramedic/current_students.html
4. Obtain a current physical examination supporting entrance into the Paramedic Program.

Certificate of Completion: Paramedic

Complete the following courses with a minimum grade of C- or higher:

- ESEC 3210-PM I -Operations (3 Credits)
- ESEC 3220-PM II -Cardio/Respiratory (3 Credits)
- ESEC 3225-PM III Lab-CardioResp (1 Credit)
- ESEC 3230-PM IIII-Trauma (3 Credits)
- ESEC 3235-PM IIII Lab-Trauma (1 Credit)
- ESEC 3240-PM IV-Medical (3 Credits)
- ESEC 3245-PM IV Lab-Medical (1 Credit)
- ESEC 3250-PM V-OB/Peds (3 Credits)
- ESEC 3255-PM V Lab-OB/Peds (1 Credit)
- ESEC 4210-PM VI-Research (2 Credits)
- ESEC 4220-PM Clinical Phase III (4 Credits)
- ESEC 4230-Paramedic VIII-Practical Prep (3 Credits)
- ESEC 4240-PM Capstone (3 Credits)

Must maintain a minimum grade point average (GPA) of 2.0 for UVU graduation. Certification requirements and recommendation to the National Registry is separate from UVU graduation and addressed below.

Additional certifications offered: Upon successful completion of the paramedic program students have the opportunity to earn several certifications. These include:

DEPARTMENT CHAIR

### Elective Requirements: 42 Credits
- Complete any Emergency Services or related advisor approved courses 18
- Any courses 1000 or higher 24

### Emphasis Requirements: 31 Credits
- Must be accepted into Paramedic Program to take the following courses:
  - ESEC 3210 Paramedic I-Operations
  - ESEC 3220 Paramedic II-Cardiac and Respiratory Patient Care
  - ESEC 3225 Paramedic II Lab-Cardiac and Respiratory Emergencies
  - ESEC 3230 Paramedic III-Trauma Patient Care
  - ESEC 3235 Paramedic III Lab-Trauma Emergencies
  - ESEC 3240 Paramedic IV-Medical and Geriatric Patient Care
  - ESEC 3245 Paramedic IV Lab-Medical Emergencies
  - ESEC 3250 Paramedic V-Obstetric and Pediatric Patient Care
  - ESEC 3255 Paramedic V Lab-Obstetric and Pediatric Emergencies
  - ESEC 4210 Paramedic VI-Research
  - ESEC 4220 Paramedic VII-Clinical Internship Hospital and Field Phase I and II
  - ESEC 4230 Paramedic VIII-Practical Preparation and Testing
  - ESEC 4240 Paramedic Capstone

**Paramedic transfer credit and certification must be accepted for this option:**
- ESMG 481R Emergency Services Internship (1) 1
- ESMG 491R Topics in Cardiology and Medical Trends (1.0) 2
- ESMG 492R Topics in Trauma and Pharmacology (1) 3
- ESMG 493R Topics in Medical Litigation (1) 4

### Graduation Requirements:
1. Completion of a minimum of 126 semester credits.
2. Overall grade point average of 2.0 (C) or above, with completion of each Emergency Services class with a "C-" or higher.
3. Residency hours -- minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Successful completion of at least one Global/Intercultural course.

### Footnotes:
- 1-Repeatable for a maximum of 15 credits.
- 2-Repeatable for a maximum of 6 credits.
- 3-Repeatable for a maximum of 6 credits.
- 4-Repeatable for a maximum of 4 credits.

- A degree in emergency services prepares practicing and future emergency service professionals through a program that balances technical skills, critical and ethical thinking, leadership, and effective communication. The department's programs address multiple emergency service educational needs, from professional certifications to degrees.

Complete one of the following:
- MAT 1030 Quantitative Reasoning (3)
- MAT 1035 Quantitative Reasoning with Integrated Algebra (6)
- STAT 1040 Introduction to Statistics (3)
- STAT 1045 Introduction to Statistics with Algebra (5)
- MATH 1050 College Algebra (4)
- MATH 1055 College Algebra with Preliminaries (5)
- MATH 1090 College Algebra for Business (3)

Complete one of the following:
- HIST 1700 American Civilization (3)
Emergency Services

HIST 2700 US History to 1877 (3)
and HIST 2710 US History since 1877 (3)
HIST 1740 US Economic History (3)
POLS 1000 American Heritage (3)
POLS 1100 American National Government (3)

Complete the following:
PHIL 2050 Ethics and Values 3
HLTH 1100 Personal Health and Wellness (2)
or PES 1097 Fitness for Life 2

Distribution Courses:
Biology 3
Physical Science 3
Additional Biology or Physical Science 3
Humanities Distribution 3
Fine Arts Distribution 3
Social/Behavioral Science (ES 1150 Community Emergency Preparedness recommended) 3

Discipline Core Requirements: 18 Credits
ESFF 2100 Introduction to Emergency Services Leadership 3
ESMG 310G Introduction to Homeland Security 3
ESMG 3150 Principles of Management for the Emergency Services 3
ESMG 3600 Psychology of Emergency Services 3
ESMG 4600 Public Administration for the Emergency Services 3
ESMG 4650 Emergency Services Capstone 3

Elective Requirements: 42 Credits
Complete any Emergency Services or related advisor approved courses 18
Any courses 1000 or higher 24

Emphasis Requirements: 25 Credits
Complete 25 credits from the following: 25
ESMG 3200 Health and Safety Program Management (3)
ESMG 3250 Managing Emergency Medical Services (3)
ESMG 3300 Master Planning for Public Emergency Services (3)
ESMG 3350 Analytical Research Approaches to Public Emergency Services (3)
ESMG 4000 Advanced Emergency Services Leadership (4)
ESMG 4400 Legal Considerations for the Emergency Services (3)
ESMG 445G Human Factors in Emergency Management (3)
ESMG 4500 Customer Service and Marketing for the Emergency Services (3)
ESMG 489R Special Topics in Emergency Management (1)**

Graduation Requirements:
1. Completion of a minimum of 120 semester credits.
2. Overall grade point average of 2.0 (C) or above, with completion of each Emergency Services class with a "C-" or higher.
3. Residency hours -- minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Successful completion of at least one Global/Intercultural course.

Mission Statement
The Mission of the Engineering Department at Utah Valley University (UVU) is to provide a strong engineering foundation with a hands-on component to prepare professionally competent engineers of integrity who serve the engineering needs of the region and the globally interdependent community. The B.S. in Civil Engineering, Computer Engineering, Electrical Engineering, and Mechanical Engineering programs use the ABET’s Student Outcomes 1 through 7.

Civil Engineering Program
Civil Engineering is the oldest engineering discipline. The Bachelor of Science in Civil Engineering (BSCE) prepares graduates to apply mathematical and scientific principles to the design and supervision of infrastructure components including buildings, roads, bridges, dams, tunnels, mass transit systems, and airports. Civil engineers are also involved in environmental studies and the design and supervision of municipal water supplies and sewage systems.

The BSCE provides combined classroom and laboratory components and prepares students to work for local, state, and federal governments, as consultants, construction supervisors, city engineers, and public utility and transportation agencies. The program also prepares students for further studies at the graduate level should they decide to do so.

B.S. Mechanical Engineering
- Program Coordinator:
  - Mohammad Shekaramiz
  - Telephone: 801-863-4665
  - Email: mshekaramiz@uvu.edu

Mechanical Engineering Program
Mechanical Engineering, which has evolved over the years as new technologies have emerged, is one of the broadest engineering disciplines. The Bachelor of Science in Mechanical Engineering (BSME) prepares graduates to apply mathematical and scientific principles to the design, development, testing, and manufacturing of machines, robots, tools, biomedical devices, power generating equipment such as steam and gas turbines, wind turbines, solar systems, internal combustion engines, and heating, cooling, and refrigeration equipment.

The BSME provides combined classroom and laboratory components and prepares students to work in a variety of fields and industries including biomedical and aerospace fields; manufacturing sectors; consulting firms; transportation industry, local, state, and federal governments; and high tech and energy sectors. The program also prepares students for further studies at the graduate level should they decide to do so.

A.S., APE Pre-Engineering
Pre-Engineering Program

The Pre-Engineering program at UVU has been created to prepare students to continue their education in many engineering disciplines. Students may continue into one of the baccalaureate engineering programs at UVU or transfer to another university. With adequate planning, pre-engineering coursework completed at UVU will transfer to any Utah university offering engineering degrees.

The Pre-Engineering program of study will vary markedly from student to student depending on several factors including: high school preparation, engineering discipline of interest, and the intended baccalaureate program. The Pre-Engineering advisor will consider these factors when designing a program to fit the needs of each individual student. It is therefore important that pre-engineering students consult with the pre-engineering advisor concerning classes appropriate for their educational experience at UVU.

Students can choose from two degree plans. The Associate in Pre-Engineering (APE) degree and Associate of Science (AS) in Pre-Engineering degree. The APE degree is comprised of math, science, and engineering courses—normally taken by first and second year students in a four-year program, along with a small number of general education courses. In this program students can choose one of three emphases in engineering, Biological and Chemical, Civil and Mechanical, Computer and Electrical. For the AS degree students can take appropriate general education courses and carefully choose elective courses related to the engineering discipline they are going to pursue. This option normally takes longer, unless the student has advanced placement or concurrent enrollment from high school; however, it has the added benefit of possible waiving of general education requirements at the student’s follow-on school.

Degrees & Programs

Associate in Pre-Engineering - Biological and Chemical Engineering Emphasis, A.P.E. Requirements

The pre-engineering program at UVU has been created for students who plan to complete the first two to three years of their engineering education at UVU and then transfer to a baccalaureate university to complete their engineering degree. With adequate planning, pre-engineering coursework completed at UVU will transfer to all of the Utah universities with baccalaureate engineering degrees. All students who declare pre-engineering as their major are automatically accepted into pre-engineering status. After completion of the pre-engineering program at UVU, the student applies for professional status at an institution of the student’s choice.

- and MATH 2280 Ordinary Differential Equations (3)
Engineering

Graduation Requirements:
1. Completion of a minimum of 69 semester credits.
2. Overall grade point average of 2.0 (C) or above. 2.5 or above in Math, Science, and Engineering.
3. Residency hours -- minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.

Associate in Pre-Engineering - Computer and Electrical Engineering Emphasis, A.P.E.

Careers
Engineering is an exciting major in terms of professional career opportunities, job satisfaction, and compensation. Career options exist in many engineering fields including: Aerospace, Biological, Biomedical, Chemical, Civil, Computer, Electrical, Environmental, Irrigation, Manufacturing, Materials, Mechanical, and Systems.

Pre-Engineering, A.S.
Requirements
The pre-engineering program at UVU has been created for students who plan to complete the first two to three years of their engineering education at UVU and then transfer to a baccalaureate university to complete their engineering degree. With adequate planning, pre-engineering coursework completed at UVU will transfer to all of the Utah universities with baccalaureate engineering degrees. All students who declare pre-engineering as their major are automatically accepted into pre-engineering status. After completion of the pre-engineering program at UVU, the student applies for professional status at an institution of the student's choice.

Graduation Requirements:
1. Completion of a minimum of 63 semester credits.
2. Overall grade point average of 2.0 (C) or above. 2.5 or above in Math, Science, and Engineering courses.
3. Residency hours: minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.

Pre-Engineering, A.S.

Careers:
Engineering is an exciting major in terms of professional career opportunities, job satisfaction, and compensation. Career options exist in many engineering fields including: Aerospace, Biological, Biomedical, Chemical, Civil, Computer, Electrical, Environmental, Irrigation, Manufacturing, Materials, Mechanical, and Systems.

Civil Engineering, B.S.

Requirements
Civil engineering is the oldest engineering discipline. The Bachelor of Science in Civil Engineering prepares graduates to apply mathematical and scientific principles to the design and supervision of infrastructure components including: buildings, roads, bridges, dams, tunnels, mass transit systems, and airports. Civil engineers are also involved in environmental studies and the design and supervision of municipal water supplies and sewage systems.

Total Program Credits: 126

Matriculation Requirements:
1. To be admitted to the BSCE program, a student must complete the foundation courses in Mathematics (MATH 1210, 1220, 2210, 2250); Physics (PHYS 2210, 2215, 2220, 2225); Chemistry (CHEM 1210, 1215); English (ENGL 1010 or ENGH 1005, 2010); Engineering (ENGR 1000, 2010, 2030, 2140, 2160); Computer Aided Drafting (EGDT 1040), and Surveying Applications and Field Techniques I (EGDT 1400) with a minimum grade of C in these courses.
2. Must complete courses with a grade point average of 2.5 or above.
3. A student not meeting all of the admission requirements, may request in writing, a provisional admission status for a semester from the department. The provisional admission status must be approved by the civil engineering program coordinator.

Students may also take upper level computer, electrical, and mechanical engineering classes as technical electives in consultation with their faculty advisors and approval of the department offering the courses.

### Graduation Requirements:

1. Completion of a minimum of 126 semester credits, with a minimum of 40 upper-division credits.
2. Overall grade point average of 2.5 or above, with a minimum grade of C in all discipline core and elective requirements.
3. Residency hours - minimum of 30 credit hours through course attendance at UVU. Ten of these hours must be within the last 45 hours earned. At least 12 of the credit hours earned in residence must be in approved CIVE courses.
4. All transfer credits must be approved in writing by UVU and the civil engineering program coordinator.
5. No more than 80 semester hours and no more than 20 hours in CIVE courses of transfer credit.
6. No more than 6 semester hours may be earned through independent study.
7. Successful completion of at least one Global/Intercultural course.

### Civil Engineering, B.S.

#### Careers

Engineering is an exciting major in terms of professional career opportunities, job satisfaction, and compensation. Career options exist in many engineering fields including: Aerospace, Biological, Biomedical, Chemical, Civil, Computer, Electrical, Environmental, Irrigation, Manufacturing, Materials, Mechanical, and Systems.

#### Related Careers

- Architectural and Engineering Managers
Computer Engineering, B.S.

Requirements

Computer Engineering encompasses the science and technology of design, construction, implementation, testing, and maintenance of integrated software and hardware components of modern computing systems and computer-controlled equipment (cell phones, video games, laptops).

Total Program Credits: 126

Matriculation Requirements:

To be admitted to the BSCE program a student must complete the following courses with a minimum grade of C in these courses and grade point average of 2.5 or above. A student not meeting all of the admission requirements, may request in writing, a provisional admission status for a semester from the department. the provisional admission status must be approved by the computer engineering program coordinator.

- ECE 4780 Wireless and Mobile Communications (3)
- ECE 481R Electrical and Computer Engineering Internship (1)

Graduation Requirements:

1. Completion of a minimum of 126 semester credits, with a minimum of 40 upper-division credits.
Engineering

2. Overall grade point average of 2.5 or above, with a minimum grade of C- in all discipline core and elective requirements.
3. Residency hours - minimum of 30 credit hours through course attendance at UVU. 10 of these hours must be within the last 45 hours earned. At least 12 of the credit hours earned in residence must be in approved CS + ECE courses.
4. All transfer credit must be approved in writing by UVU.
5. No more than 80 semester hours and no more than 20 hours in CS and ECE courses of transfer credit.
6. No more than 6 semester hours may be earned through independent study.
7. Successful completion of at least one Global/Intercultural course.

Computer Engineering, B.S.

Careers:
Computer Engineering is one of the fastest growing fields anywhere, and continues to be one of the most marketable degrees offering some of the best salaries.

Related Careers
- Architectural and Engineering Managers
- Computer Hardware Engineers
- Engineering Teachers, Postsecondary

Electrical Engineering, B.S.

Requirements
A Bachelor of Science in Electrical Engineering provides a broad foundation in electrical engineering through combined classroom and laboratory work and prepares students for entering the profession of electrical engineering as well as further study at the graduate level. The core courses will provide students with a strong background in mathematics, physical science, and fundamentals of engineering.

Total Program Credits: 126

Matriculation Requirements:
To be admitted to the BSEE program a student must complete the following courses with a minimum grade of C in these courses and grade point average of 2.5 or above. A student not meeting all of the admission requirements, may request in writing, a provisional admission status for a semester from the department. The provisional admission status must be approved by the electrical engineering program coordinator.

Electrical and Computer Engineering

**Electrical and Computer Engineering, B.S.**

**Careers:**
Computer Engineering is one of the fastest growing fields anywhere, and continues to be one of the most marketable degrees offering some of the best salaries.

**Related Careers**
- Architectural and Engineering Managers
- Aerospace Engineers
- Electrical Engineers
- Electronics Engineers, Except Computer
- Engineering Teachers, Postsecondary

**Mechanical Engineering, B.S.**

**Requirements**
Mechanical engineering, which has evolved over the years as new technologies have emerged, is one of the broadest engineering disciplines. The Bachelor of Science in Mechanical Engineering prepares graduates to apply mathematical and scientific principles to the design, development, testing, and manufacturing of machines, robots, tools, biomedical devices, power generating equipment such as steam and gas turbines, wind turbines, solar systems, internal combustion engines, and heating, cooling, and refrigeration equipment.

**Total Program Credits: 126**

Complete a minimum of six credits from the following:

- ECE 4770 Artificial Neural Networks (3)
- ECE 4780 Wireless and Mobile Communications (3)
- CS 4480 Digital Image Processing and Computer Vision (3)
- ECE 4250 Power Systems Engineering (3)
- ECE 481R Electrical and Computer Engineering Internship (1)

**Graduation Requirements:**

1. Completion of a minimum of 126 semester credits, with a minimum of 40 upper-division credits.
2. Overall grade point average of 2.5 or above, with a minimum grade of C in all discipline core and elective requirements.
3. Residency hours - minimum of 30 credit hours through course attendance at UVU. 10 of these hours must be within the last 45 hours earned. At least 12 of the credit hours earned in residence must be in approved CS + ECE courses.
4. All transfer credit must be approved in writing by UVU and the electrical engineering program coordinator.
5. No more than 80 semester hours and no more than 20 hours in CS and ECE courses of transfer credit.
6. No more than 6 semester hours may be earned through independent study.
7. Successful completion of at least one Global/Intercultural course.

**Discipline Core Requirements:**

1. Complete a minimum of six credits from the following:

   - MATH 1210
   - MATH 1220
   - CHEM 1215
   - PHYS 2210
   - ENGR 1000
   - ENGR 2010
   - ME 3010
   - ME 3140
   - ME 3210

2. Students need a grade point average of 2.5 or above.
3. A student not meeting all of the admission requirements, may request in writing, a provisional admission status for a semester from the department. The provisional admission status must be approved by the mechanical engineering program coordinator.

**General Education Requirements:**

- ENGL 1010 Introduction to Academic Writing 3
- or ENGH 1005 Literacies and Composition Across Contexts (5.0)
- ENGL 2010 Intermediate Writing Academic Writing and Research 3
- MATH 1210 Calculus I 5

**Complete one of the following:**

- HIST 1700 American Civilization (3.0)
- HIST 1740 US Economic History (3.0)
- HIST 2700 US History to 1877 (3.0)
- and HIST 2710 US History since 1877 (3.0)
- POLS 1000 American Heritage (3.0)
- POLS 1100 American National Government (3.0)

**Distribution Courses:**

- Biology 3
- Fine Arts 3
- Humanities (COMM 1020 Recommended) 3
- Social/Behavioral Science (COMM 2110 Recommended) 3
- PHYS 2210 Physics for Scientists and Engineers I 4
- CHEM 1210 Principles of Chemistry I 4

**Elective Requirements:**

1. To be admitted to the BSME program, a student must complete the foundation courses in Mathematics (MATH 1210, 1220, 2210, 2250), Physics (PHYS 2210, 2215, 2220, 2225), Chemistry (CHEM 1210, 1215), English (ENGL 1005 or ENGL 1010, 2010), and Engineering (ENGR 1000, 1030, 2010, 2030, 2140, 2160, 2450) with a minimum grade of C.

**Matriculation Requirements:**

1. Complete the following:

   - 9 Credits
     - CHEM 1215 Principles of Chemistry I Laboratory 1
     - ECE 2210 Fundamentals of Electric Circuit Analysis 3
     - ENGR 1000 Introduction to Engineering 3
     - ENGR 1030 Engineering Programming 3
     - ENGR 2010 Engineering Statics 3
     - ENGR 2030 Engineering Dynamics 3
     - ENGR 2140 Mechanics of Materials 3
     - ENGR 2160 Introduction to Materials Science and Engineering 3
     - ENGR 2300 Engineering Thermodynamics 3
     - ENGR 2450 Computational Methods for Engineering Analysis 3
     - MATH 1210 Calculus II 5
     - MATH 2210 Calculus III 3
     - MATH 2250 Differential Equations and Linear Algebra 4
     - ME 3010 Linear Systems 3
     - ME 3140 Machine Design 3
     - ME 3210 Manufacturing Processes for Engineers 3

**Elective Requirements:** 9 Credits

Choose 9 credits from the following. One course may be taken from Technical Elective list. At least six credit-hours must be at 4000 level.

### ME Elective Courses
- ME 3130 Kinematics (3)
- ME 3160 Intermediate Materials (3)
- ME 3170 Introduction to Plastics and Composites (3)
- ME 3300 Applied Thermodynamics (3)
- ME 4180 Compliant Mechanisms (3)
- ME 4380 Design of Thermal/Fluid Systems (3)
- ME 4390 Heating Ventilating and Air Conditioning Design (3)
- ME 4420 Finite Element Methods (3)
- ME 4550 Global Engineering (3)
- ME 490R Advanced Current Topics in Mechanical Engineering (1)

### Technical Elective Courses
- ECE 3710 Applied Probability and Statistics for Engineers and Scientists (3)
- TECH 3400 Project Management (3)
- TECH 3850 Quality Management in Technology (3)

Students may also take upper level computer, electrical, and mechanical engineering classes as technical electives in consultation with their faculty advisors and approval of the department offering the courses.

**Graduation Requirements:**

1. Completion of a minimum of 126 semester credits, with a minimum of 40 mechanical engineering upper-division credits.
2. Overall grade point average of 2.5 or above, with a minimum grade of C in all discipline core and elective requirements.
3. Residency hours - minimum of 30 credit hours through course attendance at UVU. Ten of these hours must be within the last 45 hours earned. At least 12 of the credit hours earned in residence must be in approved ME courses.
4. All transfer credits must be approved in writing by UVU and the mechanical engineering program coordinator.
5. No more than 80 semester hours and no more than 20 hours in ME courses of transfer credit.
6. No more than 6 semester hours may be earned through independent study.
7. Successful completion of at least one Global/Intercultural course.

Engineering Technology

Mission Statement
The Mission of the Engineering Technology Department is to prepare graduates to work in high demand, very technical, vastly diverse, automated industries that provide products and services to keep our state and national economy running. The Mechatronics graduates are focused on designing the newest machines and automated systems. The Electrical Automation and Robotics Technology graduates keep industry running by fixing, adapting, programming, integrating, and maintaining highly technical automated machines and systems. The Engineering Technology Department uses a hands on engaged learning approach utilizing real industrial equipment.

Electrical Automation & Robotics Technology

Degrees & Programs
Electrical Automation and Robotics Technology, A.A.S.

Requirements
The EART program prepares Electrical Automation Technicians to troubleshoot, wire, repair, adapt, maintain, program (PLC’s & PAC’s), and control large automated electrical systems found in Industrial and Manufacturing Industries worldwide. The EART Technician will work with DC & AC motor controlled machines; Programmable Logic Controlled (PLC’s) and Programmable Automation Controlled (PAC’s) machines, systems, and devices; Hydraulic and pneumatic controlled machines; conveyor, fluid, and bulk storage systems; flex, soft start, and variable frequency drives; Robots; servo, and stepper motors. Because of their highly skilled hands on training the EART student is in high demand from many industries.

Electrical Automation and Robotics Technology, A.S.

Careers

The EART graduate can find employment locally, Statewide, Nationally, and Worldwide in the following highly automated industrial and manufacturing industries:
- Mines (coal, copper, potash, gold, and many others)
- Gas and Oil
- Pharmaceutical
- Medical Products
- Food and Beverage packaging and distribution
- Automotive
- Farming equipment
- Product Distribution companies
- Power Plants
- Commercial and Industrial Maintenance
- Automated Machine Manufactures
- Waste Management Industries

Consulting Companies that provide "PLC & PAC Programming Services" and "Maintenance Services" to Industrial and Manufacturing Companies that need expert services.

Graduation Requirements:

1. Completion of a minimum of 63 semester credits.
2. Overall grade point average of 2.0 (C) or above (Department may require a higher GPA.)
3. Residency hours-- minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.

Related Careers

- Electro-Mechanical Technicians

Mechatronics Engineering Technology, A.A.S.

Requirements

The Mechatronics Engineering Technology Degree from Utah Valley University prepares graduates to work in the Utah manufacturing sector as an automation technologist, design technician, PLC programmer, as well as many other aspects of implementing manufacturing systems. Students complete courses in PLC programming and architecture, materials, CAD, electrical and mechanical components, pneumatics, and motor control. Students will also take courses in technical writing, physics, chemistry, and business to round out their professional profile.

Graduation Requirements:

1. Completion of 63 or more credit hours.
2. Overall grade point average of 2.0 (C) or above, with no core course below a C-.
3. Residency hours: minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.
Engineering Technology

Mechatronics Engineering Technology, A.A.S.

CAREERS

Graduates from the Mechatronics Program will find gainful and rewarding employment in the Utah manufacturing sector. Manufacturing is an expanding sector of the Utah economy and graduates from the Mechatronics Program find employment in the automotive, medical, food, and sporting goods industries as Automation Technologists. With the blend of electronics and mechanics the graduates integrate into careers maintaining, upgrading, and designing new technically demanding automation systems that are the foundation of manufacturing production. Starting and long term salary potential is excellent for Mechatronics Technologists and the opportunity to work in a high demand occupation with a great salary potential makes the Mechatronics an excellent long term career choice. Graduates also have the option to continue their education in the Technology Management Program that will provide the opportunity to transition their careers into a supervision or management path after several years of technical employment.

Related Careers

- Architectural and Engineering Managers
- Engineers, All Other
- Engineering Teachers, Postsecondary

Electrical and Control Technology CA, Certificate of Proficiency

Requirements

The Certificate of Proficiency in Electrical and Control Technology CA prepares technicians and technologists to troubleshoot, wire, repair, adapt, install, and maintain electrical and industrial motor control equipment found in many local industries. Knowledge and experience are gained through theory and engaging “hands on” labs that prepare graduates to work safely around industrial and commercial electrical equipment. Electrical DC and AC theory, transformers, circuits, wiring, motors, motor controls, relay logic, logic gates, and the National Electrical Code for commercial and industrial systems is emphasized. Skills are developed in troubleshooting, testing, and analyzing electrical circuits. This is the first employable step in the exciting career path of working with electrically automated equipment.

**Elective Requirements:**

- 6 Credits

- MECH 481R Mechatronics Internship (3.0)
- MECH 490R Topics in Mechatronics (3.0)
- TECH 3400 Project Management (3.0)
- TECH 4000 Reliability Management (3.0)

**Graduation Requirements:**

1. Completion of 121 or more credit hours.
2. Overall grade point average of 2.0 (C) or above, with no core course below a C-.
3. Residency hours: minimum of 30 credit hours through course attendance at UVU.
4. Successful completion of at least one Global/Intercultural course.

**Related Careers**

- Architectural and Engineering Managers
The mission of the intensive English language program at UVU is to help non-native English-speaking students to understand and successfully use academic English at an American university. To accomplish this goal, our faculty and coursework provide a broad range of excellent academic and social opportunities. These opportunities help students develop and show proficiency in the skills of reading, writing, grammar, and listening/speaking.

University College

University College serves a unique role and mission within Utah Valley University. Based on a national model, the name University College signifies opportunity for student success through curricular and co-curricular offerings, academic services, and innovative programs. University College welcomes students at present levels of academic achievement and challenges them with higher expectations. The programs and departments of Literacies and Composition, Student Leadership & Success Studies, Developmental Mathematics, English Language Learning, the University College Advisement Center, Academic Standards, Writing Center, Academic Tutoring, and the Math Lab promote interdisciplinary partnerships as students transition into university academics.

Mission Statement
The Department of English and Literature at UVU provides an innovative and stimulating learning environment to help broaden cultural experiences, improve skills in written and verbal communication, deepen and refine abilities in critical thinking, and prepare students for graduate school and/or careers. By offering courses, programs, and activities in college-level writing, creative writing, literature, technical communication, and education, the department fosters an invigorating and diverse learning community that will enhance the way students envision themselves and their world.

Degrees & Programs

English with an Emphasis in Technical Communication, A.A.

Requirements

UVU’s English program is designed to give students skill, confidence, and versatility in writing, speaking, and interpreting texts. The program provides opportunities for students to consider and practice the applications of effective language use in diverse situations: professional, pragmatic, social, political, and aesthetic. The English program emphasizes knowledge and use of standard English in all written work, yet incorporates an understanding that English is a desirably diverse and variable phenomenon. The courses of study in English are designed to familiarize students with much of the traditional canon of literature. They are also designed to provide students with the critical and ethical skills necessary to interrogate this canon, to incorporate and legitimize their own and others’ “different” voices, not just in the academy, but in any of the many situations in which language influences human activity.

Total Program Credits: 60

General Education Requirements: 35 Credits

- ENGL 1010 Introduction to Academic Writing 3
- ENGH 1005 Literacies and Composition Across Context (5.0)
- ENGL 2010 Intermediate Writing Academic Writing and Research 3

Complete one of the following: 3

- MAT 1030 Quantitative Reasoning (3.0) (recommended for Humanities or Arts majors)
- MAT 1035 Quantitative Reasoning with Integrated Algebra (6.0)
- STAT 1040 Introduction to Statistics (3.0) (recommended for Social Science majors)
- STAT 1045 Introduction to Statistics with Algebra (5.0)
- MATH 1050 College Algebra (4.0) (recommended for Business, Education, Science, and Health Professions majors)
- MATH 1055 College Algebra with Preliminaries (5.0)
- MATH 1090 College Algebra for Business (3.0) (recommended for Business majors)

Complete one of the following: 3

- HIST 2700 US History to 1877 (3.0)
- HIST 2710 US History since 1877 (3.0)
- HIST 1700 American Civilization (3.0)
- HIST 1740 US Economic History (3.0)
- POLS 1000 American Heritage (3.0)
- POLS 1100 American National Government (3.0)

Compete the following: 3

- PHIL 2050 Ethics and Values
- HLTH 1100 Personal Health and Wellness (2.0)

or

- PES 1097 Fitness for Life 2

Distribution Courses: 10 Credits

- Biology 3
- Physical Science 3
- Additional Biology or Physical Science 3
- ENGL 2600 Critical Introduction to Literature 3
- Fine Arts Distribution 3
- Social/Behavioral Science 3

Discipline Core Requirements: 15 Credits

- ENGL 2030 Writing for Social Change 3
- ENGL 2050 Editing 3
- ENGL 2250 Creative Process and Imaginative Writing 3
- or ENGL 225H Creative Process and Imaginative Writing (3.0)
- ENGL 2310 Technical Communication 3

Select ONE from the following: 3

- ART 1400 Graphic Computer Applications (3.0)
- DGM 1110 Digital Media Essentials I (4.0)

Elective Requirements: 10 Credits

- One Foreign Language 8
- Any course 1000 or higher 2

Graduation Requirements:

1. Completion of a minimum of 60 semester credits.
2. Overall grade point average of 2.0 (C) or above. (Departments may require a higher GPA.)
3. Residency hours -- minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.
5. For the AA degree, completion of 8 credit hours of course work from one foreign language.

English with an Emphasis in Technical Communication, A.A.

Careers

Careers:

Employers expect clear verbal and written communication, critical thinking and reading, audience analysis, and persuasive presentations and research from their employees. English and Literature students often work as teachers, analysts, critics, librarians, creative writers, public relations specialists, lobbyists, copywriters, journalists, editors, technical writers, and professors. Language used well is an important part of websites, legislation, novels, document design, instruction manuals, screenplays, advertising, news reporting, etc. Students in English at UVU are also well prepared for graduate work in law, business, and education.

Editing and Document Design, Certificate of Proficiency

Requirements
UVU's English program is designed to give students skill, confidence, and versatility in writing, speaking, and interpreting texts. The program provides opportunities for students to consider and practice the applications of effective language use in diverse situations: professional, pragmatic, social, political, and aesthetic. The English program

Cinema and Media Studies, Minor

Requirements
Cinema Studies focuses on analyzing film and the screen arts as some of the most important cultural productions of the twenty-first century. Students approach movies as cultural texts and gain an understanding of the social, political, historical, and industrial contexts that produce cinema. The minor broadens students' knowledge of
English and Literature

how these texts shape and are shaped by culture. As an interdisciplinary program, cinema studies draws on faculty expertise from various disciplines and includes global and historical perspectives. The minor also builds personal knowledge and professional competencies.

Total Program Credits: 18

Matriculation Requirements:
1. Completion of 30 hours of credit.
2. Admitted to a bachelor degree program at UVU.

Discipline Core Requirements: 9 Credits
- CINE 2150 Critical Introduction to Cinema Studies 3
- or ENGL 2150 Critical Introduction to Cinema Studies (3.0) 3
- CINE 3150 Cinema and Television Theory 3
- or ENGL 3150 Cinema and Television Theory (3.0) 3

Complete one of the following: 3
- CINE 2311 Film History I
- THEA 2311 Film History I (3.0)
- CINE 2312 Film History II
- THEA 2312 Film History II (3.0)

Elective Requirements: 9 Credits

In addition to the 9 core requirements, students must complete an additional 9 hours of advisor-approved electives. Six (6) of the 9 hours must be upper-division (see coordinator for a list of approved electives).

Graduation Requirements:
1. Overall grade point average of 2.0 (C) or above.
2. Residency hours—minimum of 12 credit hours through course attendance at UVU.

Cinema and Media Studies, Minor

Careers

- Producers and Directors

English Creative Writing, Minor

Requirements

UVU’s English program is designed to give students skill, confidence, and versatility in writing, speaking, and interpreting texts. The program provides opportunities for students to consider and practice the applications of effective language use in diverse situations: professional, pragmatic, social, political, and aesthetic. The English program emphasizes knowledge and use of standard English in all written work, yet incorporates an understanding that English is a desirably diverse and variable phenomenon. The courses of study in English are designed to familiarize students with much of the traditional canon of literature. They are also designed to provide students with the critical and ethical skills necessary to interrogate this canon, to incorporate and legitimize their own and others’ “different” voices, not just in the academy, but in any of the many situations in which language influences human activity.

Total Program Credits: 21

### English - Creative Writing Emphasis, B.S.

#### Requirements

UVU's English program is designed to give students skill, confidence, and versatility in writing, speaking, and interpreting texts. The program provides opportunities for students to consider and practice the applications of effective language use in diverse situations: professional, pragmatic, social, political, and aesthetic. The English program emphasizes knowledge and use of standard English in all written work, yet incorporates an understanding that English is a desirably diverse and variable phenomenon. The courses of study in English are designed to familiarize students with much of the traditional canon of literature. They are also designed to provide students with the critical and ethical skills necessary to interrogate this canon, to incorporate and legitimize their own and others' "different" voices, not just in the academy, but in any of the many situations in which language influences human activity.

### Total Program Credits: 120

#### Matriculation Requirements:

1. Complete the following courses: ENGL 2600, Critical Introduction to Literature; ENGL 2510, American Literature before 1865; or ENGL 2520, American Literature after 1865; and ENGL 2610, British Literature before 1800, or ENGL 2620, British Literature after 1800.

### Graduation Requirements:
1. Completion of a minimum of 120 semester credits, 40 of which must be 3000 level or higher.
2. Overall grade point average of 2.0 (C) or above. (Departments may require a higher GPA.)
3. Residency hours -- minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. No grade below C- in required courses.
6. Successful completion of at least one Global/Intercultural course.

### Footnote
1. Should be taken early on in the student's course of study, by the junior year at the latest.
2. Should be taken early in the student's junior year, as it serves as crucial preparation for nearly all upper-division English courses.
3. Students pursuing the Writing Studies emphasis should take ENGL 3010 Rhetorical Theory.
4. Course is taken twice as two different genres.

### English - Creative Writing Emphasis, B.S.

#### Careers:
Employers expect clear verbal and written communication, critical thinking and reading, audience analysis, and persuasive presentations and research from their employees. English and Literature students often work as teachers, analysts, critics, librarians, creative writers, public relations specialists, lobbyists, copywriters, journalists, editors, technical writers, and professors. Language used well is an important part of websites, legislation, novels, document design, instruction manuals, screenplays, advertising, news reporting, etc. Students in English at UVU are also well prepared for graduate work in law, business, and education.

English Education, B.A.

Requirements

UVU’s English program is designed to give students skill, confidence, and versatility in writing, speaking, and interpreting texts. The program provides opportunities for students to consider and practice the applications of effective language use in diverse situations: professional, pragmatic, social, political, and aesthetic. The English program emphasizes knowledge and use of standard English in all written work, yet incorporates an understanding that English is a desirably diverse and variable phenomenon. The courses of study in English are designed to familiarize students with much of the traditional canon of literature. They are also designed to provide students with the critical and ethical skills necessary to interrogate this canon, to incorporate and legitimize their own and others’ “different” voices, not just in the academy, but in any of the many situations in which language influences human activity.

Total Program Credits: 122

Matriculation Requirements:

1. Complete the following courses: ENGL 2600, Critical Introduction to Literature; ENGL 2510, American Literature before 1865; or ENGL 2520, American Literature after 1865; and ENGL 2610, British Literature before 1800; or ENGL 2620, British Literature after 1800.

Secondary Education Matriculation Requirements:

1. ACT exam minimums: Composite 21, English 20, Math 19; or SAT exam minimums: Critical Read/Math 1000, with Math and Reading scores of 450; or if student has a bachelor degree or higher, he/she does not need to meet this testing requirement.
2. GPA of 3.0 or higher with no grade lower than a C in content area courses.
3. Completion of all General Education requirements and the majority of content area courses.
4. Pass LiveScan Criminal Background Check.

Complete 9 upper-division credits of ENGL coursework beyond those courses taken to fulfill discipline core or emphasis requirements.

Graduation Requirements:

1. Completion of a minimum of 120 semester credits, 40 of which must be 3000 level or higher.
2. Overall grade point average of 2.0 (C) or above. (Departments may require a higher GPA.)
3. Residency hours -- minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. No grade below C- in required courses.
6. Successful completion of at least one Global/Intercultural course.

Footnote

¹Should be taken early on in the student's course of study, by the junior year at the latest.
²Should be taken early in the student's junior year, as it serves as crucial preparation for nearly all upper-division English courses.
³Students pursuing the Writing Studies emphasis should take ENGL 3010 Rhetorical Theory.

English- Literary Studies Emphasis, B.S.

Careers:

Employers expect clear verbal and written communication, critical thinking and reading, audience analysis, and persuasive presentations and research from their employees. English and Literature students often work as teachers, analysts, critics, librarians, creative writers, public relations specialists, lobbyists, copywriters, journalists, editors, technical writers, and professors. Language used well is an important part of websites, legislation, novels, document design, instruction manuals,
screenplays, advertising, news reporting, etc. Students in English at UVU are also well prepared for graduate work in law, business, and education.

- Secondary School Teachers, Except Special and Career/Technical Education

**English- Writing Studies Emphasis, B.A. Requirements**

UVU's English program is designed to give students skill, confidence, and versatility in writing, speaking, and interpreting texts. The program provides opportunities for students to consider and practice the applications of effective language use in diverse situations: professional, pragmatic, social, political, and aesthetic. The English program emphasizes knowledge and use of standard English in all written work, yet incorporates an understanding that English is a desirably diverse and variable phenomenon. The courses of study in English are designed to familiarize students with much of the traditional canon of literature. They are also designed to provide students with the critical and ethical skills necessary to interrogate this canon, to incorporate and legitimize their own and others' “different” voices, not just in the academy, but in any of the many situations in which language influences human activity.

358  Course Catalog 2020-2021  Utah Valley University
**Exercise Science and Outdoor Recreation**

**Name:** Exercise Science & Outdoor Recreation  
**Location:** RL 147  
**Telephone:** 801-863-8608  
**Web Address:** www.uvu.edu/exercisescience  
**Chair:** Andrew Creer  
**Email:** andrew.creer@uvu.edu

**Mission Statement**

The Mission of the Department of Exercise Science and Outdoor Recreation is consistent with the College's Mission in its commitment to providing students with excellent professional, ethical, and exciting educational experiences through modern, effective pedagogical and scholarly approaches. Baccalaureate programs offered in Exercise Science and Outdoor Recreation (with concentrations in Exercise Science and Outdoor Recreation Management) provide a broad discipline approach for optimal promotion of physical activity, recreation, fitness, health, wellness, and quality of life for all. The curricula are balanced in theory and application and are specifically designed to provide students with experiential education that promotes leadership, teamwork, service learning, values, diversity, and lifelong learning. To best serve our students, curricula have been designed to reflect current market demands. Depending on the specific area of study, graduates from this program will possess exceptional knowledge and skills and be well prepared for careers and/or graduate school in the following areas:

- Medicine
- Physical and Occupational Therapy
- Dentistry
- Physician Assistant (PA)
- Fitness Trainer/Technician
- Corporate Wellness
- Cardiac Rehab
- Travel/Tourism
- Recreational Sports Administration
- Federal and State Land Management Agencies
- Programs for At Risk Youth
- Resource Management

In addition to preparing students for professional opportunities or graduate study in related fields, the program is intended to prepare all students for a variety of professional certifications offered in their respective fields of study. The faculty in the department work collaboratively and strive to support the Mission through our commitment to outstanding teaching, mentorship, service, and professional and scholarly development.

**Exercise Science & Outdoor Recreation**

**Program Coordinators:**

  **Telephone:** 801-863-8676  
  **Email:** kwilson@uvu.edu

**Programs**

The Department of Exercise Science and Outdoor Recreation offers two 4-year degrees. One offers a BA or BS in Exercise Science and Outdoor Recreation with a choice of emphasis in Exercise Science or Outdoor Recreation. Students completing the Exercise Science emphasis will be qualified for several different graduate schools and a variety of jobs including fitness and health promotion, exercise testing, corporate wellness, clinical exercise physiology, cardiac rehab, etc. This major could also lead to acceptance into medical, dental, physical therapy and other professional or graduate schools.

The Exercise Science curriculum has been designed to address student needs and market demands. Students have the opportunity to practice and understand what they learn in the classroom. Our Biomechanics and Human Performance Laboratories contain state-of-the-art equipment used for lab classes and student research projects. Our equipment includes Biodex Balance System SD and a Biodex System 4, Vicon motion analysis with 12 cameras and 3 force plates, Bod Pod, 16 channel wireless EMG system, treadmills, cycle ergometers, metabolic carts, and other equipment to facilitate labs and research projects.

Students completing the Outdoor Recreation emphasis are qualified to become park interpreters, resort recreation directors, corporate recreation managers, or community recreation directors. Supported by a strong background in recreation theory, with courses like Outdoor Leadership and Recreation Risk Management, students also choose from a variety of land and water-based skills courses, including park management, program planning, backpacking, mountain biking, avalanche awareness, canoeing, and whitewater kayaking. More than a career, a major in Outdoor Recreation teaches leadership for life because graduates exit the program with enhanced personal responsibility and ability to overcome barriers.

#### Elective Requirements: 9 Credits

- Complete any 1000-level or higher 9
Students who complete a Minor in Exercise Science and Outdoor Recreation have received the basic knowledge necessary to continue their education in a Bachelor’s Program or pursue employment in the Fitness industry. Possible positions might include personal trainers, group fitness instructors, fitness coordinators, sport coaches or other entry level positions in a recreational or clinical setting.

**Related Careers**
- Recreation and Fitness Studies Teachers, Postsecondary
- Athletes and Sports Competitors
- Coaches and Scouts
- Fitness Trainers and Aerobics Instructors

**Outdoor Recreation, Minor**

**Requirements**
In the Exercise Science and Outdoor Recreation Minor students complete courses in Anatomy, Physiology, Sport Medicine, Exercise Testing and Prescription, and Exercise Physiology. The program is designed to prepare students for employment at the entry level in health and fitness related occupations as well as for higher education.

**Total Program Credits: 20**

**Matriculation Requirements:**
1. Admitted to a bachelor degree program at UVU.

**Discipline Core Requirements:**
- REC 1535 Backpacking 1
- REC 2200 Foundations of Recreation 3
- REC 2400 Principles of Experiential Education in Recreation 3
- REC 3100 Recreation Program Planning 3
- REC 3400 Risk Management 3

Complete 1 credit from the following:
1. REC 1500 Canoeing I (1.0)
2. REC 1527 Rock Climbing I (1.0)
3. REC 1550 Mountain Biking (1.0)
4. REC 1580 Kayak Touring(1.0)

Complete 6 credits from the following:
- REC 3200 Inclusive Recreation (3.0)
- REC 3500 Recreation Administration (3.0)
- REC 3700 Natural Resource Interpretation (3.0)
- REC 385G Ethical Concerns in Recreation (3.0)
- REC 4000 Outdoor Leadership (4.0)
- REC 4400 Natural Resource and Protected Area Management (3.0)
- REC 4500 Wildland Recreation Behavior (3.0)

**Outdoor Recreation, Minor Careers**

Students who complete a Minor in Exercise Science and Outdoor Recreation have received the basic knowledge necessary to continue their education in a Bachelor’s Program or pursue employment in the Fitness industry. Possible positions might include personal trainers, group fitness instructors, fitness coordinators, sport coaches or other entry level positions in a recreational or clinical setting.

**Exercise Science and Outdoor Recreation - Exercise Science Emphasis, B.A.**

**Requirements**
The Exercise Science curriculum has been designed to address student needs and current market demands. Through practical experiences in laboratory settings using state of the art equipment such as the Biodex S4, students are exposed to real life rehabilitation experiences as well as researching functional abilities and performance aspects of collegiate athletes. Additional classroom and lab experiences allow students to conduct 3-D motion analysis, measure muscle activity using wireless EMG technology, and analyze gait patterns using the GaitRite System, as well as conducting assessments to determine maximum oxygen uptake (VO2 Max), body composition, and anaerobic power.

**Total Program Credits: 120**

Exercise Science and Outdoor Recreation - Exercise Science Emphasis, B.S.

**Careers**

Students completing the Exercise Science Concentration will be qualified for several different graduate school programs and a variety of careers including fitness and health promotion, exercise testing, strength and conditioning, corporate wellness, clinical exercise physiology, cardiac rehab, etc. This major can also lead to acceptance into medical, dental, physical or occupational therapy and other graduate or professional schools.

**Related Careers**

- Recreation and Fitness Studies Teachers, Postsecondary
- Athletes and Sports Competitors
- Coaches and Scouts
- Fitness Trainers and Aerobics Instructors
Exercise Science and Outdoor Recreation - Outdoor Recreation Management Emphasis, B.A.

Requirements

In addition to a strong background in recreation theory, experiential education, outdoor leadership, risk management and program planning, graduates of this program leave with a proficiency in a variety of both land and water-based skill acquisition courses, such as avalanche awareness, whitewater kayaking and backpacking. More than preparation for a career in the outdoor field, the major in Outdoor Recreation Management grooms students for a lifetime of outdoor participation and leadership.

**Graduation Requirements:**

1. Completion of a minimum of 120 semester credits, 40 credits must be upper-division.
2. Overall grade point average of 2.0 (C) or above. (Departments may require a higher GPA.)
3. Residency hours: minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Completion of 16 credit hours of course work from one language to include the 1010, 1020, 2010, and 202G/2020 levels or transferred equivalents.
6. No grades below C- in Discipline Core or Emphasis Courses.
7. Successful completion of at least one Global/Intercultural course.

Note: Students must obtain the departmental advisor's signature on an approved program plan prior to enrollment in their second semester of study.

**Footnote**

* EXSC students should take BIOL 1610 and REC students should take BIOL 1010

---

**Exercise Science and Outdoor Recreation - Outdoor Recreation Management Emphasis, B.A.**

**Careers**

Students completing the Outdoor Recreation Management emphasis are prepared for positions in all areas of the outdoor industry, including public and commercial recreation, wilderness therapy programs, guide services, state parks, federal land management agencies, and the Forestry Service.

**Related Careers**

- Recreation and Fitness Studies Teachers, Postsecondary
- Athletes and Sports Competitors
- Coaches and Scouts
- Fitness Trainers and Aerobics Instructors

**Exercise Science and Outdoor Recreation - Outdoor Recreation Management Emphasis, B.S.**

**Requirements**

In addition to a strong background in recreation theory, experiential education, outdoor leadership, risk management and program planning, graduates of this program leave with a proficiency in a variety of both land and water-based skill acquisition courses, such as avalanche awareness, whitewater kayaking and backpacking. More than preparation for a career in the outdoor field, the major in Outdoor Recreation Management grooms students for a lifetime of outdoor participation and leadership.

**Total Program Credits: 120**

Exercise Science and Outdoor Recreation

Exercise Science and Outdoor Recreation - Outdoor Recreation Management Emphasis, B.S.

**Careers**

Students completing the Outdoor Recreation Management emphasis are prepared for positions in all areas of the outdoor industry, including public and commercial recreation, wilderness therapy programs, guide services, state parks, federal land management agencies, and the Forestry Service.

**Related Careers**

- Recreation and Fitness Studies Teachers, Postsecondary
- Athletes and Sports Competitors
- Coaches and Scouts
- Fitness Trainers and Aerobics Instructors

**Physical Education Teacher Education, B.S.**

**Requirements**

Graduates from the Physical Education K-12 Teacher Education (PETE) program will be prepared to meet all standards for Utah licensure for K-12 Physical Education. They should also be prepared to meet most standards for certification in the rest of the 49 states, since the National Initial Physical Education Teacher Education Standards have been used to develop, assess, and update the program on an annual basis. The focus of this program is on enhancing student outcomes – both for university students and for their future students. Outcomes that should be met by the end of the program include scientific and theoretical knowledge, skill and fitness based competency, planning and implementation, instructional delivery and management, impact on student learning, and professionalism. PETE majors learn to individualize instruction to enhance learning for all students, regardless of their abilities.

**Total Program Credits: 120**

**Matriculation Requirements:**

1. Acceptance to the Secondary Education Program, which include the following requirements: (1) ACT exam minimums: Composite 21, English 20, Math 19; or SAT exam minimums: Critical Read /Math 1000, with Math and Reading scores of 450; or if student has a bachelor degree or higher, he/she does not need to meet this testing requirement. (2) GPA of 3.0 or higher with no grade lower than a C in content area courses. (3) Completion of all General Education requirements and the majority of content area courses. (4) Pass LiveScan Criminal Background Check.
2. Complete PETE 3100 with a grade of C or better.
3. Fitness requirement: Students must achieve and maintain a health-enhancing level of fitness. Standards will be set according to expert guidelines that take into effect age, gender, disability, and other contributing factors.

**Graduation Requirements:**

1. Completion of a minimum of 120 semester credits with 40 semester credits from 3000 and 4000 level courses.

2. Overall GPA of 3.0 (B) or above with no grade lower than a C in major required content courses and no grade lower than a B- in Licensure and Methods courses.

3. Residency hours -- minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.

4. Completion of GE and specified departmental requirements.

5. Successful completion of at least one Global/Intercultural course.

**Footnotes:**

* CHEM 1010 or CHEM 1110 recommended.

** COMM 1020 recommended.

*** PSY 1100 recommended

**Physical Education Teacher Education, B.S. Careers**

**Careers:**

Successful completion of the Physical Education Teacher Education degree leads to Licensure in the State of Utah. Graduates from the PETE program will be specifically qualified to teach physical education to the increasingly diverse population of students in K-12 schools in the State of Utah. Their preparation will help meet the anticipated demands for elementary, as well as secondary physical educators in the twenty-first century. Many graduates from the PETE Program also coach at their respective schools.

**Related Careers**

- Education Teachers, Postsecondary
- Recreation and Fitness Studies Teachers, Postsecondary
- Middle School Teachers, Except Special and Career/Technical Education
- Secondary School Teachers, Except Special and Career/Technical Education
- Coaches and Scouts
- Fitness Trainers and Aerobics Instructors
Finance and Economics

Mission Statement
The department offers three bachelor degree programs in Economics, Finance, and Personal Financial Planning (PFP). Graduates in economics find employment in a variety of public and private institutions while many go on to graduate education in economics, law, public policy, an MBA and other disciplines. Finance major’s move on to careers in corporate financial management, as investment managers and analysts, in banking and other careers in the finance industry. Faculty in the department have been remarkably successful in supporting students taking the financial industry’s most sophisticated accreditation exam, the Chartered Financial Analyst (CFA), first level that is available to seniors at the university level. The business world is more competitive today than in past generations. Decision makers understand the increasing importance of getting things right the first time using business models and measurement methods to make business and policy decisions.

The PFP program is designed to prepare students for professional careers as fee-for-service certified financial planners. Unlike the other two degrees that offer Bachelor of Arts and Sciences as well as minors and emphases in integrated studies, the PFP program is restricted to a single bachelor of science degree. Students who complete the PFP degree will in many respects emulate the careers of accountants who work with individuals and organizations in the management of wealth, personal resources, and provide other professional functions. The PFP Program is registered with the Certified Financial Planner (CFP®) Board of Standards. Inc. The classes taught in the Department of Finance and Economics are designed to give students the background they need to make professional business decisions. The department also offers an online group of courses in cooperation with Dalton Education that meet the CFP® educational requirements for practicing professionals in the financial industry to sit for the accreditation examination. Finally, the department offers a post-bachelor Certificate in PFP which again has been registered with the CFP® Board to meet education requirements to qualify to take the professional accreditation exam.

Experienced faculty work with students in understanding the theory of their discipline and then demonstrate how to apply that theory in the pragmatic application of those principles in financial management, economics, statistics, and other business courses critical to their professional development.

Finance & Economics

Job Outlook
The need for economic and financial decision makers is increasing at all levels of business and government. Job demand is high, particularly in larger metropolitan areas, and the employment outlook is excellent. Those trained in finance and economics who also have competence in information analysis can enter fields such as fund management, energy, securities, securities market regulation, or government financial management. Those with foreign language capabilities may also have access to employment in international business, international finance, import/export, and securities operations. The PFP program gives graduates an opportunity to both work for themselves in the capacity of an individual planner as well as to obtain employment in other organizations as they provide needed services to clients.

Programs
As noted earlier, students interested in finance and economics may receive a Bachelor of Science Degree (BS) or Bachelor of Arts (BA) in Economics or Finance. There are also Minors in both Economics and Finance as well as an emphasis in Integrated Studies in both the Economics and Finance disciplines. However, the PFP program only offers a Bachelor of Science (BS) degree with a variety of courses designed to prepare students to take certification exams offered by national financial planning associations.

Degrees & Programs

Financial Planning, Certificate of Proficiency

Requirements
This certificate adds to the Woodbury School of Business flexibility to meet the needs of individuals seeking to complete the educational requirement to sit for the Certified Financial Planning Board’s professional accreditation. It provides the required seven courses in a residential setting for individuals who already have a bachelor degree but lack these required courses. It will supplement the existing bachelor program in Personal Financial Planning and the online seven course program the Woodbury School of Business currently offers in collaboration with Dalton Education.

**Economics, B.A.**

**Requirements**

The Bachelor degree in economics at WSB is designed to give graduates the analytic and quantitative skills to be effective business decision makers as well as to understand basic economic theory and application that can be useful should they choose to continue graduate studies in economics or related disciplines. Historically, graduates with economics degrees who go on to legal studies, an MBA, or other related professional degrees do significantly better than students from other disciplines. Students with language skills may take an appropriate range of academic courses and obtain a Bachelor of Arts degree.

Economics Elective Requirements:

Choose 12 credits from any 3000 or 4000 level ACC, ECON, or FIN course not already taken in consultation with appropriate faculty or an advisor.

Elective Requirements:

Complete two (2) credits of general elective courses and 12 credits of any foreign language course 1010, 1020, 2010 sequence.

Graduation Requirements:

1. Completion of a minimum of 120 semester credits required in the BA degree; at least 40 credit hours must be upper-division courses.
2. Overall grade point average 2.0 or above with a minimum of 2.5 GPA in all Woodbury School of Business courses. No grade lower than a "C-" in core and specialization courses.
3. Residency hours: Minimum of 30 credit hours of business courses through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements. Students are responsible for completing all prerequisite courses.
5. Successful completion of at least one Global/Intercultural course.

NOTE: Students will not be allowed to take more than (9) hours of upper-division credit prior to matriculation.

Footnote

* Students will be required to complete My Educator with a score of 80 percent or higher or complete IM 2010 or IM 2600.

Graduation Requirements:

1. Completion of a minimum of 120 semester credits required in the BS degree; at least 40 credit hours must be upper-division courses.
2. Overall grade point average 2.0 or above with a minimum of 2.5 GPA in all Woodbury School of Business courses. No grade lower than a "C"- in core and specialization courses.
3. Residency hours: Minimum of 30 credit hours of business courses through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements. Students are responsible for completing all prerequisite courses.
5. Successful completion of at least one Global/Intercultural course.

NOTE: Students will be limited to 9 hours of upper-division credit prior to completing matriculation.

Footnote

* Students will be required to complete My Educator with a score of 80 percent or higher or complete the IM 2010 or IM 2600 course.

Economics, B.S.

Careers

Preparation for graduate work, banking, financial analysis, market analysis, government analysts, business consulting, and management.

Related Careers

- Managers, All Other
- Economists
- Survey Researchers
- Economics Teachers, Postsecondary

Finance, B.A.

Requirements

The Bachelor Degree in Finance at WSB prepares graduates for careers in the financial services industry. Students learn basic financial theory as well as specialized courses in financial management of corporate and business organizations, analysis of investment alternatives, and other more sophisticated finance related activities. Graduates go into banking, brokerages, become financial managers, and perform a variety of other financial services functions. Students with language skills may take an appropriate number of courses to obtain a Bachelor of Arts degree.

Total Program Credits: 120
Matriculation Requirements:
- My Educator or IM 2100 or IM 2600
- ACC 2010 and 2020
- ECON 2010
- MGMT 2240 or MATH 1100
- MGMT 2340
- MKTG 2200

General Education Requirements:
- 36 Credits
  - ENGL 1010 Introduction to Academic Writing 3
  - or ENGH 1005 Literacies and Composition Across Contexts (5.0)
  - ENGL 2010 Intermediate Writing Academic Writing and Research 3
  - MATH 1050 College Algebra (4.0)
  - or MATH 1055 College Algebra with Preliminaries (5.0)
  - or MATH 1090 College Algebra for Business 3
  - Complete one of the following:
    - HIST 2700 US History to 1877 (3.0)
    - and HIST 2710 US History since 1877 (3.0)
    - HIST 1700 American Civilization (3.0)
    - HIST 1740 US Economic History (3.0)
    - POLS 1000 American Heritage (3.0)
    - POLS 1100 American National Government (3.0)
    - PHIL 2050 Ethics and Values 3

Program Description

For information about the Masters of Financial Planning and Analytics (MFPA) program, please access our website at www.uvu.edu/mfpa. The MFPA offers rigorous graduate education in financial planning and financial analytics, including the opportunity to prepare for professional certifications, such as the Chartered Financial Analyst (CFA) and/or the Certified Financial Planner® (CFP®) certifications.

The Master of Financial Planning and Analytics program offers students a foundation set of courses in financial planning and analytics as well as elective courses that allow students to dive deeper in a particular area of interest.

Program Prerequisites

Baccalaureate degree holders with both business and non-business majors may apply. To be successful, however, students need to have a strong background in math and finance. As such, students are required to have a B grade or higher in the following (or equivalent) courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1050</td>
<td>College Algebra</td>
</tr>
<tr>
<td>MGMT 2340</td>
<td>Business Statistics I</td>
</tr>
<tr>
<td>FIN 3100</td>
<td>Principles of Finance</td>
</tr>
<tr>
<td>FIN 3400</td>
<td>Investment Management</td>
</tr>
</tbody>
</table>

Application Process

Deadlines and current application requirements are posted on the website, www.uvu.edu/mfpa. Applicants must submit all of the following to the Woodbury School of Business:

Application - Complete online at www.uvu.edu/mfpa and pay the $45 application fee. After submitting the application fee, applicants will access their account and select Supplemental Items to complete the additional requirements listed below.

Application Deadlines

Submit your online application in accordance with the application requirements by one of the following review deadlines:

Fall 2020 Priority review deadline is January 31, 2020

After the priority review deadline, we will review applications according to the following deadlines:

1st Review: February 28, 2020
2nd Review: March 31, 2020

Reapplication

If an applicant is not admitted, he/she may reapply again at a later time. All current admission requirements at the time of application must be met.

Satisfactory Progress

Continuation in the Master of Financial Planning and Analytics program is determined by: (1) satisfactory progress (C or higher) in all courses (completed courses with a grade lower than a C must be repeated) and (2) faculty committee chair and the graduate admission and retention committee recommendation.

Academic Probation

A student can be recommended for academic probation for the following reason(s): (1) Failure to meet the scholarship requirements of the Graduate Program of an overall GPA of 3.00 (on a 4.00 scale) or higher, with no individual course grade lower than C; (2) Failure to complete prescribed courses; and/or (3) Failure to adhere to University student rights and responsibilities standards.

Dismissal from the Program

A student can be dismissed from the Master of Financial Planning and Analytics program for the following reason(s):

1. Academic dishonesty;
2. Continued failure to meet academic standards; and/or
3. Continued failure to adhere to University student rights and responsibilities standards.

Recommendations - List the name and email address of three individuals who will be sent a link to submit their recommendation.

Essays - Submit responses for two essay questions of 400 words each.

Resume - Attach current resume which highlights educational background and professional work experience.

College Transcripts - After the application fee has been paid, request official transcripts to be sent to etranscriptr@uvu.edu. Transcripts will be evaluated based on cumulative GPA or last 60 semester credits.
Financial Planning and Analytics

Course Descriptions

Degrees & Programs

Master of Financial Planning and Analytics, M.F.P.A.

Requirements

The Master of Financial Planning and Analytics (M.F.P.A.) prepares students for professional positions in financial planning and analytics including an industry accreditation along with the master’s degree. PFP undergraduates will study advanced levels of financial planning, retirement/estate planning, technology applications, preparation for Chartered Financial Analysis (CFA) accreditation, and other research and professional development. Another group of students without PFP undergraduate experience will pursue graduate education in the required topics for successfully completing the CFP® Board requirements to sit for the examination including retirement, estate, income tax, wealth, and a capstone experience. The second track candidates will also be required to complete pre-requisite courses in introduction to financial planning, risk management and insurance, and investment management basics.

Total Program Credits: 36

Matriculation Requirements:

Students taking the CFP Track must complete the following three undergraduate courses at UVU or at a CFP® Board approved program prior to being admitted to this Master of Financial Planning and Analytics program:

- FIN 3220 Risk Management and Insurance
- FIN 3400 Investment Management
- FIN 3450 Retirement Planning

Any substitution for any of the above three UVU undergraduate courses would need to be pre-approved by the Director of the UVU Master of Financial Planning and Analytics program. The three courses outlined above and the four (excluding FIN 6700 CFP Exam Preparation) outlined in the CFP track are required for an individual to be eligible to take the CFP® Exam.

Discipline Core:

Complete the following Core classes

<table>

<tr>
<td>FIN 6100</td>
<td>Research Methods</td>
<td>3</td>
</tr>
<tr>
<td>FIN 6130</td>
<td>Financial Statement Analysis and Modeling</td>
<td>3</td>
</tr>
</tbody>
</table>

Graduation Requirements:

1. Completion of 36 hours of approved credit as described in this program with no grade lower than a "C".
2. Maintain a minimum cumulative graduate GPA of 3.0 or higher to graduate with the degree.
3. Graduates may not transfer more than ten semester credit hours into this Masters of FPA program. Only transfer courses approved by the graduate program faculty designated by the FPA graduate program director shall be counted as approved credit for the degree.

Degrees & Programs

History and Political Science, A.A.

Requirements

UVU's History Program is dedicated to developing the twenty-first century student. We provide the general student body a broad range of courses that increase global awareness, engagement and informed citizenship, as well as develop critical thinking, writing, and oral expression. In addition, History majors can choose from a large number of in-depth upper division courses that further their content knowledge and expand their abilities to critically analyze past and current events in a variety of regions and nations. In all courses, students and faculty observe the human experience by investigating the diverse historical perspectives of the past and present. History faculty endeavor to teach in ways that foster independent thinking, engage the students with historical conversations and debates, and improve students’ ability to communicate in a variety of media. Students who successfully complete our programs will have a valuable set of skills for further study in graduate and professional programs, and careers in public service or private enterprise.

Political science enjoys a central position among the social sciences. Aristotle characterized politics as the "queen of the sciences." It is a broad discipline that encompasses philosophical, historical and analytical studies of governments, politics and policies. Political science students learn not only the concepts, theories and methods associated with the discipline, but also gain the cognitive and presential skills required of tomorrow’s public and private leaders. At its core, politics is about building and maintaining communities at the local, state, national and international levels that enable citizens to live enriching and fulfilling lives. Political science students develop not only an understanding of those communities, but also the ability to influence them.

American Indian Studies, Minor

Careers:
After completion of the minor, graduates will have received an academic background that will prepare them for relevant employment in tribal governments and other Indian organizations, state or federal agencies which serve Indian tribes and organizations, and private sector enterprises that work with Indian tribes and organizations. Graduates will have received the basic knowledge and analytical skills to enable them to pursue graduate degrees in fields related to American Indian Studies. The American Indian Studies minor will emphasize the traditional acquisition of knowledge and skills that apply to American Indian communities, a vital sense of service to these communities, and an enthusiastic pursuit of what these communities can contribute to the academy in knowledge, methods, and ethics.

• Area, Ethnic, and Cultural Studies Teachers, Postsecondary

American Studies, Minor

Requirements
American Studies provides students with an interdisciplinary approach to the study of American cultures. Through examination of historical, religious, and literary texts, political institutions, popular culture, film, art, and the physical landscape, students will explore how Americans create meaning in their lives and make sense of the world in which they live. By encouraging students to approach their majors from the perspective of several overlapping disciplines, American Studies courses will foster deeper critical thinking and broader contextualization.

### Chinese Commerce, Minor

**Requirements**

The Chinese Commerce minor focuses on important aspects of Chinese commerce, language and culture. This program is designed to combine an understanding of the social, political, historical, and economic factors that make China one of the leading international powers today. As such, the minor offers proficiency in the Chinese language, augmented with cultural knowledge of the country and an introduction to international business practices. As an interdisciplinary minor, the program draws on faculty expertise from various disciplines and includes varied perspectives.

**Total Program Credits: 22**

**Matriculation Requirements:**

1. Students need to be admitted into a bachelor degree program.

**Discipline Core Requirements:**

- Intermediate Chinese I (4.0)
- Developing Business in China (3.0)
- Modern Chinese Political Economy (3.0)
- International Law (3.0)

**In addition to 13 credit core requirement, students need to take 9 credit electives**

- Intermediate Chinese II (4.0)
- Advanced Chinese (3.0)
- Business Chinese I (3.0)
- Chinese Culture and Civilization (3.0)
- Traditional Chinese History (3.0)
- Modern Chinese History (3.0)
**History and Political Science**

**Constitutional Studies, Minor**

**Requirements**

Political science enjoys a central position among the social sciences. Aristotle characterized politics as the "queen of the sciences." It is a broad discipline that encompasses philosophical, historical and analytical studies of governments, politics and policies. Political science students learn not only the concepts, theories and methods associated with the discipline, but also gain the cognitive and presentational skills required of tomorrow’s public and private leaders. At its core, politics is about building and maintaining communities at the local, state, national and international levels that enable citizens to live enriching and fulfilling lives. Political science students develop not only an understanding of those communities, but also the ability to influence them.

- POLS 4500 International Conflict and Security (3.0)
- POLS 4610 International Law and Relations (3.0)
- POLS 480R Internship (2.0)

Graduation Requirements:

1. Complete all political science courses with a grade of "C-" or better.

Political Science, Minor

Careers

Careers:

Political science students develop a versatility of skills that prepare them for a wide range of future career paths. The career possibilities for a political science student include: government service and public administration at the federal, state, and local levels, policy analysis and lobbying for both nonprofit organizations and corporations, foreign service, campaign consulting, public opinion and marketing research, journalism, and secondary and postsecondary education. Political science is also the leading course of study for students preparing to enter law school.

History and Social Studies Education, B.S.

Requirements

UVU's History Program is dedicated to developing the twenty-first century student. We provide the general student body a broad range of courses that increase global awareness, engagement and informed citizenship, as well as develop critical thinking, writing, and oral expression. In addition, History majors can choose from a large number of in-depth upper division courses that further their content knowledge and expand their abilities to critically analyze past and current events in a variety of regions and nations. In all courses, students and faculty observe the human experience by investigating the diverse historical perspectives of the past and present. History faculty endeavor to teach in ways that foster independent thinking, engage the students with historical conversations and debates, and improve students' ability to communicate in a variety of media. Students who successfully complete our programs will have a valuable set of skills for further study in graduate and professional programs, and careers in public service or private enterprise.

Total Program Credits: 121

Matriculation Requirements:

1. ACT exam minimums: Composite 21, English 20, Math 19; or SAT exam minimums: Critical Read /Math 1000, with Math and Reading scores of 450; or If student has a bachelor degree or higher, he/she does not need to meet this testing requirement.
2. GPA of 3.0 or higher with no grade lower than a C in content area courses.
3. Completion of all General Education requirements and the majority of content area courses.
4. Pass LiveScan Criminal Background Check.

NOTES: Students should frequently consult with his/her advisor on program requirements.
Political Science - American Government Emphasis, B.A.

Requirements
Political science enjoys a central position among the social sciences. Aristotle characterized politics as the “queen of the sciences.” It is a broad discipline that encompasses philosophical, historical and analytical studies of governments, politics and policies. Political science students learn not only the concepts, theories and methods associated with the discipline, but also gain the cognitive and presentational skills required of tomorrow’s public and private leaders. At its core, politics is about building and maintaining communities at the local, state, national and international levels that enable citizens to live enriching and fulfilling lives. Political science students develop not only an understanding of those communities, but also the ability to influence them.

Total Program Credits: 120

Social/Behavioral Science 3

Discipline Core Requirements: 27 Credits
POLS 1100 American National Government 3
POLS 2100 Introduction to International Relations 3

**Graduation Requirements:**

1. Completion of a minimum of 120 or more semester credits, 40 credits must be upper-division.
2. Overall grade point average of 2.0 (C) or above, with no POLS course grade lower than a C-.
3. Residency hours: minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Completion of 16 credit hours of coursework from one language to include 1010, 1020, 2010, and 202G/2020 levels or transferred equivalents.
6. Successful completion of at least one Global/Intercultural course.

Political Science - Public Administration and Public Policy Emphasis, B.A.

**Careers**

Political science students develop a versatility of skills that prepare them for a wide range of future career paths. The career possibilities for a political science student include: government service and public administration at the federal, state, and local levels, policy analysis and lobbying for both nonprofit organizations and corporations, foreign service, campaign consulting, public opinion and marketing research, journalism, and secondary and postsecondary education. Political science is also the leading course of study for students preparing to enter law school.

Political Science - Public Administration and Public Policy Emphasis, B.S.

**Requirements**

Political science enjoys a central position among the social sciences. Aristotle characterized politics as the "queen of the sciences." It is a broad discipline that encompasses philosophical, historical and analytical studies of governments, politics and policies. Political science students learn not only the concepts, theories and methods associated with the discipline, but also gain the cognitive and presentational skills required of tomorrow’s public and private leaders. At its core, politics is about building and maintaining communities at the local, state, national and international levels that enable citizens to live enriching and fulfilling lives. Political science students develop not only an understanding of those communities, but also the ability to influence them.

Honors

Name: Honors Program
Location: LC 202 - LC 204
Telephone: 801-863-6262
Email: kmcperson@uvu.edu
Web Address: uvu.edu/honors
Chair: Kate McPherson

Mission Statement
The UVU Honors Program enhances the collegiate experience of highly motivated students through specialized academic and enrichment opportunities that cultivate personal, professional, and civic engagement.

Eligibility
We encourage any student with curiosity, talent, and drive apply for admission to the Honors Program through a competitive application process that assesses them holistically based in part on two short admissions essays. There is no minimum GPA or test score required to be admitted. We welcome and support students from all backgrounds seeking any face-to-face baccalaureate or associates degree.

Honors students also experience extensive mentoring by faculty while researching and completing a year-long Honors thesis or project, leaving students well-positioned to succeed in applications to competitive graduate and professional schools. Close interaction with faculty in small Honors courses also fosters opportunities for students' career and professional development. Graduate school and employment applications are enhanced by the numerous research, field, and experiential learning opportunities facilitated by the Honors Program.

To earn Honors Program distinction on the transcript and diploma and to wear our regalia, students must complete between 20 and 31 credits of Honors level coursework based on their completed credits at the time of admission. An overall GPA of at least 3.40 must be attained to qualify for the Honors Program Graduate distinction.

Unique in Utah, the Honors Colloquium is a 1-credit course that includes cohort building activities emphasizing cultural, outdoor, and academic activities. These include trips to the Utah Symphony, Utah Opera, guest lecturers from the academic and professional communities, outdoor recreation activities and overnight trips, reading groups, and community or campus service projects.

The Honors Program also offers access to merit-based tuition scholarships to Utah residents, as well as access to competitive housing scholarships available to both resident and non-resident students. Application to the program and for these scholarships occurs each October for Spring semester and each January for Fall semester.

Program Description
All students are welcome to apply. Most admitted students do have strong GPAs and ACT scores above 24. Honors offers both a lower-division entry point (for students with fewer than 40 college credits) and an upper-division entry point (more than 40 credits). The Honors Program can accommodate students from any on-campus major, using both General Education courses and majors courses at an Honors level to enhance students' undergraduate experience. Please visit and apply at www.uvu.edu/honors.

Program Benefits
• Regular opportunities for undergraduate research
• Excellent graduate and professional school preparation
• Special recognition on transcript and diploma
• Specialized graduation regalia

Honors Scholarships
The Honors Program offers access to competitive, merit-based tuition scholarships to Utah residents. It also offers access to a competitive merit-based housing scholarship at a designated apartment complex near campus which is available to both resident and non-resident students. Application to the program and for these scholarships occurs each October for Spring semester and each January for Fall semester. Students earn scholarships based on criteria that include academic achievement, creativity, innovative thinking, and intellectual potential. Two application essays serve as the primary method of assessing applicants.

Honors Courses
Through Honors, students complete a series of small classes with other highly motivated students, guided by faculty invested in their students’ intellectual potential. Students grapple with texts and ideas that have fascinated the world’s great thinkers, writers, artists, and scientists as they gain the courage to try out new and challenging ideas, places, and experiences. Students use Honors Contracts in their major to complete required or elective upper-division courses at an Honors level. The Program concludes with each baccalaureate student completing a two-semester senior thesis or project that demonstrates commitment and skill within the student’s selected major. Through Honors, highly motivated students can chart a customized program of study most suited to their post-baccalaureate plans.

Honors Graduation Requirements
Students must have a 3.4 cumulative GPA when applying for graduation to become an Honors Program Graduate.

Lower-Division Requirements for Associates Degrees: 20 credits
2 credits of Honors Colloquium: HONR 100R
3 credits of Ancient Legacies: HONR 2000
3 credits of Modern Legacies: HONR 2100
3 credits of Honors Ethics and Values: PHIL 205H
3 credits of General Education math or science, e.g., GEO 101H, BIOL 101H, MAT 103H
6 credits of any other General Education course at an Honors level, e.g. ENGL 210H, MUSC 101H

Lower-Division Requirement for Baccalaureate Degrees: 30 credits
2 credits of Honors Colloquium: HONR 100R
3 credits of Ancient Legacies: HONR 2000
3 credits of Modern Legacies: HONR 2100
3 credits of Honors Ethics and Values: PHIL 205H
3 credits of General Education math or science, e.g., GEO 101H, BIOL 101H, MAT 103H
6 credits of any other General Education course at an Honors level, e.g. ENGL 210H, MUSC 101H
6 credits of upper-division courses 3000+, completed at an Honors level within student's major using an Honors Contract
1 credit of Honors Capstone: HONR 400R
3 credits of Honors Thesis or Honors Project: HONR 498R or 499R

Upper-Division Requirements for Baccalaureate Degrees: 24 credits
2 credits of Honors Colloquium: HONR 100R
3 credits of Ancient Legacies: HONR 2000
3 credits of Modern Legacies: HONR 2100
12 credits of upper-division courses numbered 3000+, completed at an Honors level within student's major using an Honors Contract
1 credit of Honors Capstone: HONR 400R
3 credits of Honors Thesis or Honors Project: HONR 498R or 499R

Program Requirements

The Honors Program is designed around intensive, face-to-face interaction. Honors students typically complete at least one Honors course per semester; scholarship students are required to do so, but may petition for exceptions. In their first two semesters, all Honors students must complete Ancient Legacies (HONR 2000) and Modern Legacies (HONR 2100), as well as Honors Colloquium (HONR 100R). Course descriptions for the Legacies courses, which vary in focus each semester, are available under the Curriculum section of the Honors homepage. Colloquium is a 1-credit course that includes on-campus lectures on a wide-range of topics combined with cohort building activities emphasizing cultural, outdoor, and academic activities. These include trips to premier arts venues, guest lecturers from the academic and professional communities, outdoor recreation activities, and community or campus service projects.

Honors Program Director: Kate McPherson, PhD
- Telephone: 801-863-8055
- Email: kmcpherson@uvu.edu

Professor McPherson directs all aspects of the program and mentors students at every level.

Honors Program Coordinator: Allen Hill
- Telephone: 801-863-6841
- Email: allen.hill@uvu.edu

Allen Hill assists with program operations, experiential learning trips, and advises Honors students with last names A-L.

Honors Program Coordinator: Tiffany Nez
- Telephone: 801-863-6223
- Email: tiffany.nez@uvu.edu

Tiffany Nez assists with program operations, Honors scholarships and housing, and advises Honors students with last names M-Z.

FACULTY

MCPherson, Kathryn R. Professor

Course Descriptions
Mission Statement

The Information Systems & Technology Department offers stackable degree programs to provide students with engaged learning opportunities to help students develop technical, communication, managerial, and lifelong-learning skills. The department's programs prepare students for opportunities in information systems, information technology and security, information management, and education.

Vision Statement

The Information Systems and Technology Department will be the premier source of skilled information systems, information technology and security, information management, and business education professionals in the Intermountain Mountain region. This vision will be accomplished by:

- Attracting well-qualified, motivated, and engaged students.
- Attracting and maintaining a skilled and highly trained, student-oriented faculty who are excellent teachers, applied scholars, and committed to serving the institution.
- Providing educational programs that are regionally and nationally recognized within the educational and professional communities, and technologically relevant to potential employers of graduates.

Programs

The Information Systems & Technology Department offers a variety of certificates and degrees, providing pathways into stackable academic credentials. Students can earn certificates and associate degrees on their path toward a bachelor's degree.

Minor:
- Information Systems and Technology

Certificates:
- Certificate of Completion Administrative Support
- Certificate of Completion Network Administration
- Certificate of Proficiency Application Development
- Certificate of Proficiency Data Analytics
- Certificate of Proficiency Database Administration and Data Warehousing
- Certificate of Proficiency Digital Information Management CA
- Certificate of Proficiency Foundations of Application Development CA
- Certificate of Proficiency Healthcare Information Technology
- Certificate of Proficiency Information Technology

Associate Degrees:
- AAS Administrative Information Management
- AAS Information Systems and Technology
- AS Administrative Information Management
- AS Information Systems and Technology

Bachelor of Science Degrees:
- BS Information Management
- BS Information Systems
- BS Information Technology
- BS Business/Marketing Education

Graduate Credentials:
- Master of Science in Cybersecurity
- Graduate Certificate in Cybersecurity

Faculty Credentials

Faculty have earned appropriate degrees, with over 55.6% holding doctorate degrees and 5.5% ABD. Faculty have worked full-time at UVU for an average of 12½ years, with 7 full-time faculty who have worked at UVU over 19 years. This does not include teaching experience at other institutions or other employment. Industry experts in the field are hired as adjuncts to teach a variety of courses.

Information Systems & Technology Advisory Board:

Lynne Yocum, ITS Fiber Optics Manager, State of Utah, Utah Department of Transportation; Brett McKeachnie, Director of the IT Project Management Office, Utah Valley University; Audra Yocum, Content Specialist: Computer Science & Information Technology, Alpine School District

Degrees & Programs

Administrative Information Management, A.S.

Requirements
The two-year pre-major AS in Administrative Information Management program provides training for students seeking to complete general education requirements and develop their skills and knowledge in basic computer applications, written business communication, and financial accounting. Graduates of this program obtain temporary employment and pursue a Bachelor’s degree for more advanced training in Information Management.

Total Program Credits: 60

Graduation Requirements:
1. Completion of a minimum of 60 semester credits.
2. Overall grade point average of 2.0 or above with a minimum 2.5 GPA in all discipline and elective courses with no grade lower than a C-.
3. Residency hours--minimum of 20 credit hours through attendance at UVU.
4. Completion of GE and specified departmental requirements. Students are responsible for completing all prerequisite courses.

Course Catalog 2020-2021  Utah Valley University
Administrative Information Management, A.S.

**Careers**

Entry-level Administrative Support, Entry-Level Clerical Support, Front Office Assistant, Office Assistant, Data-Entry Operator, Administrative Assistant

**Related Careers**

- Data Entry Keyers

Administrative Information Support, A.A.S.

**Careers**

Administrative Assistant, Administrative Secretary, Office Assistant, Front Office Assistant

**Related Careers**

- Data Entry Keyers

**Requirements**

Every industry relies heavily on competent, qualified, and professional office staff. The two-year AAS in Administrative Information Support program provides training for students seeking to develop their skills and knowledge of office administration and office systems. The program core focuses on word processing, presentations, graphics, spreadsheet, and database applications, as well as written and oral business communication skills, office procedures, and basic accounting skills.

**Total Program Credits: 63**

**Graduation Requirements:**

1. Minimum 63 credits to graduate.
2. Overall grade point average of 2.0 or above with a minimum 2.5 GPA in all discipline core and elective courses with no grade lower than a C-.
3. A minimum keyboarding skill of 40 net words per minute is required for graduation.
4. Residency hours—minimum of 20 credit hours through attendance at UVU.
5. Completion of GE and specified departmental requirements. Students are responsible for completing all prerequisite courses.

Note: Potential 4-year students need to take MATH 1050 as their MATHEMATICS Distribution.
Information Systems and Technology, A.A.S.

Requirements

The two-year AAS in Information Systems and Technology is designed to help students develop job-ready computer skills to meet today's industry needs. Students complete a foundational core in programming, database, web application design, data communication, and networking. After that, students select a specialization in either Information Systems or Information Technology to complete a focused set of courses to obtain more in-depth knowledge and skills for a variety of computer-related jobs. If planned carefully with an advisor, this program provides a smooth, stackable pathway to the B.S. in Information Systems degree or the B.S. in Information Technology degree at UVU.

Healthcare Information Technology, Certificate of Proficiency

Requirements

A Certificate of Proficiency in Healthcare Information Technology allows non-students who do not have a degree to obtain a credential to advance their career prospects. A certificate also allows those individuals who earned degrees outside the computing fields to obtain a credential in healthcare information technology in order to increase their value to their current or future employers.

Total Program Credits: 18

Matriculation Requirements:

Prerequisites may be fulfilled through successful completion of courses listed or by successfully passing challenge exams in areas where challenge exams exist. Check with your advisor to ensure you have met the prerequisites for the elective course.

Statistics Prerequisite (if select INFO 3130 as elective)
- STAT 2050 Introduction to Statistical Methods (4.0) or
- MGMT 2340 Business Statistics I (3.0) or
- STAT 1040 Introduction to Statistics (3.0) or
- STAT 1045 Introduction to Statistics with Algebra (5.0) or
- STAT 1040 Principles of Statistics (3.0) or
- BESC 3010 Statistics for the Behavioral Sciences
- Other IT or Health courses (depending on elective)

1. Completion of 122 semester credit hours with at least 40 credit hours in upper-division courses.
2. Overall Grade of 3.0 (B) or above with no grade lower than a C in major required content courses and no grade lower than a B- in Licensure and Methods courses.
3. Residency hours: Minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements. Students are responsible for completing all prerequisite courses.
5. Successful completion of at least one Global/Intercultural course.

**Business/Marketing Education, B.S.**

**Careers**

- Secondary Education Business and Marketing teacher

**Related Careers**

- Business Teachers, Postsecondary
- Education Teachers, Postsecondary
- Vocational Education Teachers, Postsecondary
- Career/Technical Education Teachers, Middle School
- Career/Technical Education Teachers, Secondary School

**Information Management, B.S.**

**Requirements**

The Bachelor of Science in Information Management is designed to prepare students to supervise and manage the operations and personnel of business offices. Courses include instruction in employee supervision, budgeting, scheduling and coordination, office systems operation and maintenance, office records management, public relations, project management, accounting, decision making, and human resources.

**Total Program Credits:** 120

**General Education Requirements:** 36 Credits

- **ENGL 1010** Introduction to Academic Writing 3
- or **ENGH 1005** Literacies and Composition Across Context (5.0)

- **BMED 4300** Methods of Teaching Computer Science (3.0)
- **DGM 1110** Digital Media Essentials I (4.0)
- **IM 2300** Information Management Principles (3.0)
- **IM 2800** Integrated Software Projects (3.0)

• Software Developers, Systems Software

Information Systems - Business Intelligence Systems Emphasis, B.S.

Requirements

The BS in Information Systems program prepares students to be Information Systems professionals. Graduates develop and deploy enterprise-level systems to meet organizational needs. The Business Intelligence Systems (BIS) emphasis prepares graduates to become business intelligence analysts who produce financial and marketing intelligence by querying data repositories, generating reports, and devising methods for identifying data patterns and trends. Organizations store an enormous amount of data. People who are able to perform data mining and can analyze the data to detect trends and form predictions are highly sought by national and regional organizations.

**Information Systems - Information Security Management Emphasis, B.S.**

**Requirements**
Managing the security of information systems is extremely important for all types of organizations to protect the systems from data breaches. The BS in Information Systems program prepares students to be Information Systems professionals. Graduates develop and deploy enterprise-level systems to meet organizational needs. The Information Security Management (ISM) emphasis prepares students for information technology management and information security analyst positions.

Utah Valley University
Information Systems and Technology

Information Technology - Computer Forensics and Security Emphasis, B.S.

Requirements

Electronic data is often used as evidence in court. Forensic specialists learn how to identify, preserve, and extract data from electronic devices, such as computers and smart phones. The Bachelor of Science in Information Technology (IT) degree prepares students to install, manage, and maintain the computing infrastructure on which organizational systems run. The Computer Forensics and Security emphasis provides students with a solid foundation for employment by government or corporate sector to work in a computer forensics lab as a forensic analyst or in information security.

Total Program Credits: 122

General Education Requirements: 38 Credits

- ENGL 1010 Introduction to Academic Writing 3
- or ENGH 1005 Literacies and Composition Across Context (5.0)
- ENGL 2010 Intermediate Writing Academic Writing and Research 3
- MATH 1050 College Algebra 4
- or MATH 1055 College Algebra with Preliminaries (5.0)

Complete one of the following: 3

- HIST 2700 US History to 1877 (3.0)
- and HIST 2710 US History since 1877 (3.0)
- HIST 1700 American Civilization (3.0)
- HIST 1740 US Economic History (3.0)
- POLS 1000 American Heritage (3.0) (recommended)
- POLS 1100 American National Government (3.0)

Complete the following: 3

- PHIL 2050 Ethics and Values
- or HLTH 1100 Personal Health and Wellness 2
- or PES 1097 Fitness for Life (2.0)

Distribution Courses: 16 Credits

- Biology Distribution 3
- Physical Science Distribution 3
- PHYS 2010 College Physics I (fulfills Additional Biology or Physical Science Distribution) 4
- and PHYS 2015 College Physics I Lab 1
- Fine Arts Distribution 3
- ENGL 2310 Technical Communication (fulfills Humanities Distribution) 3
- CJ 1010 Introduction to Criminal Justice (Social/Behavioral Science Distribution) 3

Discipline Core Requirements: 63 Credits

Math Requirement: 3 Credits

- STAT 2050 Introduction to Statistical Methods (4.0)
- or MGMT 2340 Business Statistics I 3

IT Core Requirements: 9 Credits

- INFO 1120 Information Systems and Technology Fundamentals 3
- INFO 1200 Computer Programming I for IS/IT 3

Graduation Requirements:

1. Completion of at least 123 semester credits required in the BS degree; at least 40 credit hours must be upper-division courses.
2. Overall grade point average 2.0 or above with a minimum of 2.5 GPA in all discipline core, specialty core, and elective courses with no grade lower than a "C-.
3. Residency hours: Minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements. Students are responsible for completing all prerequisite courses.
5. Successful completion of at least one Global/Intercultural course.

Careers:

Information Security Analyst, Forensic Analyst, IT Manager, IT Project Manager

Related Careers

- Computer Systems Analysts
- Information Security Analysts
- Computer Network Architects
- Computer Network Support Specialists

Information Technology - Network Administration and Security Emphasis, B.S.

Requirements

Every organization uses some form of information technology to perform its operations. The Bachelor of Science in Information Technology (IT) degree prepares students to install, manage, and maintain the computing infrastructure on which organizational systems run. The Network Administration and Security emphasis prepares students to work as data communication consultants, information security analysts, and network administrators. The core of the BS IT program prepares students to have a strong foundation in computer architecture, data communication, information security, networks, and system administration.

Integrated Studies

Name: Integrated Studies

Location: CB 311

Telephone: 801-863-8455

Email: mark.olson@uvu.edu

Web Address: uvu.edu/is

Chair: Wayne Hanewicz

Chair UVU Email: hanewiwa@uvu.edu

Mission Statement

The Program in Integrated Studies serves students with interests and capabilities in more than one scholarly discipline. The degree trades disciplinary depth for breadth and for cross-disciplinary research and writing that culminate in a senior thesis. The Program encourages and supports interdisciplinary study across campus.

Integrated Studies

- Advising: See Mark Olson or Brandon Springer (below)
- Email: IS_Advising@uvu.edu
- Appointments: Please call 801-863-8455 or 801-863-5888
- Program Coordinator: Mark Olson
- Telephone: 801-863-5888
- Email: mark.olson@uvu.edu
- Mail Stop: 145A
- Administrative Support: Brandon Springer
- Telephone: 801-863-8455
- Email: brandon.springer@uvu.edu
- Mail Stop: 145A

Curriculum

The individualized nature of the Integrated Studies degree is attractive to students with multiple interests. Students integrate course work in emphases such as biology, earth science, business, leadership, health, literature, languages, communication, philosophy, psychology, sociology, anthropology, and the arts. Emphases from computer science and information systems, accounting, and technology management are also offered as part of this degree.

Special Program Characteristics

- Students engage in interdisciplinary work that culminates in a senior thesis.
- Students receive one-on-one feedback from multiple faculty advisors throughout their senior thesis process.
- Students completing the Integrated Studies degree have developed skills in thinking, problem solving, collaborative work, gathering and analyzing data, writing, and speaking, and have done so on the foundation of solid (but not exhaustive) disciplinary emphases.
- Faculty do campus-wide interdisciplinary work that includes team teaching across disciplines and collaborative projects.
- The campus and local community benefit from our lecture series and our interdisciplinary conferences, as well as from our student-published journal, Intersections.

Summary of the Degree

- After becoming familiar with the material on the IS website, meet with advisors to plan course work. Various emphases may require specific courses and minimum grades. 2.5 GPA required for application.
- Become matriculated into Integrated Studies by submitting an interest essay which is reviewed by the department.
- Complete two approved 16-21 credit hour emphases from the following colleges/schools: College of Humanities and Social Sciences; College of Science and Technology; School of Business. More than 40 emphasis areas are available. For a list, please visit www.uvu.edu/is.
- Complete the Integrated Studies Discipline Core with a minimum grade of C- in each class.
- Complete forty hours of upper-division course work as part of the requirements in the emphasis areas & IS Core.
- Complete thirty hours of course work in residency at UVU; at least 10 of these must be completed at UVU within the last 45 credit hours earned.
- For a Bachelor of Arts degree, students must complete the 202G/2020 class in the chosen foreign language. For a Bachelor of Science degree, students must complete either MATH 1210 or MATH 2040.

Program Learning Outcomes

1. Graduates will be able to gather and analyze information to develop a Capstone Thesis which incorporates knowledge from their two (or three) emphasis areas, upper division theory courses, and Integrated Studies topics courses.
2. Graduates will be able to discuss and defend their Capstone Thesis/Project with particular attention to how concepts from their emphases are incorporated through work on a problem that requires interdisciplinary tools.
3. Graduates will be able to apply research and writing skills to demonstrate informational and technical literacy.

- POLS 1100 American National Government (3.0)

Elective Requirements: 8 Credits

- One Language (other than English) to include the 1010 or 1020 levels.

Graduation Requirements:

1. Completion of a minimum of 60 semester credits.
2. Overall grade point average of 2.0 (C) or above. (Departments may require a higher GPA.)
3. Residency hours—minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.
5. For the AA degree, completion of 8 credit hours of course work from one language.

Integrated Studies, A.S.

Requirements

The individualized nature of the Integrated Studies degree is attractive to students with multiple interests. Students integrate course work in emphases such as biology, earth science, business, health, literature, languages, communication, philosophy, psychology, sociology, anthropology, and the arts. Emphases from computer science and information systems, accounting, technology management, and physical education are also offered as part of this degree.

Total Program Credits: 60

General Education Requirements: 35 Credits

- ENGL 1010 Introduction to Academic Writing 3
- or ENGH 1005 Literacies and Composition Across Contexts (5.0) 5
- ENGL 2010 Intermediate Writing/Academic Writing and Research 3

Complete one of the following: 3

- MAT 1030 Quantitative Reasoning (3.0) (recommended for Humanities or Arts majors)
- MAT 1035 Quantitative Reasoning with Integrated Algebra (6.0)
- STAT 1040 Introduction to Statistics (3.0) (recommended for Social Science majors)
- STAT 1045 Introduction to Statistics with Algebra (5.0)
- MATH 1050 College Algebra (4.0) (recommended for Business, Education, Science, and Health Professions majors)
- MATH 1055 College Algebra with Preliminaries (5.0)
- MATH 1090 College Algebra for Business (3.0) (recommended for Business majors)

Complete the following: 3

- HIST 2700 US History to 1877 (3.0)
- and
- HIST 2710 US History since 1877 (3.0)
- HIST 1700 American Civilization (3.0)
- HIST 1740 US Economic History (3.0)
- POLS 1000 American Heritage (3.0)
- POLS 1100 American National Government (3.0)

Elective Requirements: 8 Credits

- One Language (other than English) to include the 1010 or 1020 levels.

Graduation Requirements:

1. Completion of a minimum of 60 semester credits.
2. Overall grade point average of 2.0 (C) or above. (Departments may require a higher GPA.)
3. Residency hours—minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.
5. For the AA degree, completion of 8 credit hours of course work from one language.

Integrated Studies, A.A.

Careers

For those completing the bachelor degree in Integrated Studies, various opportunities exist for advanced academic and professional degrees (a wide variety of MA and PhD programs, law school, medical and dental schools, MBA, MPA, etc.) and in the business environment. Many employers seek students with skills gained from liberal arts programs like Integrated Studies. These skills include general problem solving, the ability to comprehend diverse material, to write clearly, to think critically, and to work cooperatively.

<td>15 Credits</td>
</tr>
</tbody>
</table>

Note that students must take at least 12 credits of upper division courses for their electives.

Choose 6 credits from the following courses in the College of Humanities and Social Sciences or the Woodbury School of Business.

**College of Humanities and Social Sciences:**

**Anthropology**
- **ANTH 3150** Culture Ecology and Health (3)
- **ANTH 3830** Biology and Culture (3)

**Communication**
- **COMM 3130** The Culture of Nature and Technology (3)

**English**
- **ENGL 3460** Wilderness and Environmental Writing (3)

**History**
- **HIST 3800** Environmental History of the United States (3)

**Philosophy & Humanities**
- **PHIL 3530** Environmental Ethics (3)
- **PHIL 4300** Environmental Aesthetics (3)
  
**Sociology**
- **ENST 3520** Environmental Sociology (3)
  
**Woodbury School of Business:**
- **ECON 3040** Environmental Economics (3)

Choose 6 credits from the following courses in the College of Science.

**Biology**
- **BIOL 1610** College Biology I (4)

**Botany**
- **BOT 2050** Field Botany 3)
- **BOT 2100** Flora of Utah (3)
- **BOT 3800** Ethnobotany (4)
- **BOT 4050** Plant Ecology (3)
- **BOT 4300** Native Trees and Shrubs of Utah (3)
- **BOT 4500** Introduction to Grasses (3)

**Chemistry**
- **CHEM 1120** Elementary Organic Bio-Chemistry (4)
- **CHEM 3020** Environmental Chemistry (3)
- **CHEM 4030** Radiochemistry (3)

**Environmental Management**
- **ENVT 1110** Introduction to Environmental Management (3)
- **ENVT 1210** Introduction to Water Reclamation (3)
- **ENVT 1270** Environmental Microbiology (3)
- **ENVT 1360** Introduction to Water Treatment (3)
- **ENVT 1510** Hazardous Materials Emergency Response (3)
- **ENVT 2560** Environmental Health (3)
- **ENVT 2730** Introduction to Soils (4)
- **ENVT 3280** Environmental Law (3)
- **ENVT 3330** Water Resources Management (3)
- **ENVT 3630** Introduction to Geographic Information Systems (4)
  
**Geology**
- **GEO 1020** Prehistoric Life (3)
- **GEO 1080** Introduction to Oceanography (3)
- **GEO 1220** Historical Geology (3)
- **GEO 3000** Environmental Geochemistry (3)
- **GEO 3200** Geologic Hazards (4)
- **GEO 3500** Geomorphology (4)
- **GEO 4510** Paleontology (4)

**Geography**
- **GEOG 1000** Introduction to Physical Geography (3)
- **GEOG 3400** Environmental Remote Sensing (3)
- **GEOG 3600** Introduction to Geographic Information Systems (4)
### IS Emphasis in Ethics
