* Prerequisite(s): MATH 3100 with a grade of C or higher and MATH 2280 with a grade of C or higher and University Advanced Standing
Covers material from beginning analysis including the axioms of the real numbers, sequences, mathematical induction, limits, topology of the real line, continuity, differentiation, and integration.

MATH 3210
Complex Variables
3:3:0 Fall
* Prerequisite(s): MATH 2210 or MATH 221H with a grade of C or higher and University Advanced Standing
Introduces complex analysis. Includes algebra of complex numbers, analytic functions, mapping properties of elementary functions, the Cauchy integral formula, complex series, residues, and conformal mapping.

MATH 3250
Introduction to Advanced Calculus
3:3:0 Fall, Spring
* Prerequisite(s): MATH 2210 or MATH 221H with a grade of C or higher and MATH 2270 with a grade of C or higher and University Advanced Standing
* Prerequisite(s or Corequisite(s): MATH 2280
Introduces mathematical logic and proof. Covers the first topics of advanced calculus including the axioms of the real numbers, sequences, mathematical induction, limits, topology of the real numbers, continuity, differentiation, and integration.

MATH 3300
Foundations of Abstract Algebra
3:3:0 Fall, Spring
* Prerequisite(s): MATH 3100 or MATH 3250 with a grade of C or higher and University Advanced Standing
Provides an introduction to algebraic structures. Covers the theory of groups including modular arithmetic, normal subgroups, factor groups, and cyclic groups. Introduces rings, integral domains, and fields.

MATH 3310
Discrete Mathematics
3:3:0 On Sufficient Demand
* Prerequisite(s): MATH 1220 with a grade of C or higher and University Advanced Standing
Includes logic, sets, functions, elementary number theory, mathematical induction, equivalence relations, and cardinality. Emphasizes the writing of proofs.

MATH 3320
Graph Theory and its Applications
3:3:0 Fall Even Year
* Prerequisite(s): MATH 2270 with a grade of C or higher and University Advanced Standing
Introduces the most important topics of graph theory including graphs and modeling, trees, paths, circuits, and connectivity, matching, planar graphs and coloring, and applications.

MATH 3400
Partial Differential Equations
3:3:0 Spring
* Prerequisite(s): MATH 2280 with a grade of C or higher and University Advanced Standing
Introduction to partial differential equations. Topics include Bessel functions, Legendre polynomials, Fourier analysis, partial differential equations, and boundary value problems.

MATH 3640
Introduction to Optimization
3:3:0 Fall Odd Year
* Prerequisite(s): MATH 2210 or MATH 221H and MATH 2270 with a grade of C or higher and University Advanced Standing; CS 1400 with a grade of C or higher is recommended.
Includes linear, quadratic, and nonlinear programming, network problems, convexity, necessary and sufficient optimality conditions, numerical algorithms, and special topics.

MATH 3750
Financial Mathematics
3:3:0 Fall, Spring, Summer
* Prerequisite(s): MATH 1220 or FIN 3100 each with a grade of C or higher and University Advanced Standing
Prepares students to take Exam FM/Exam 2 given by the Society of Actuaries/Casualty Actuarial Society. Trains students to answer complex questions under significant time pressure. Teaches the principles and mathematics of interest, annuities, amortization, investments, financial economics, derivative investment contracts and financial risk management.
MATH 4015  
Actuarial Problems Laboratory  
1:0:3  
* Prerequisite(s): STAT 4710 and University Advanced Standing  
Provides preparation for the first actuarial examination by linking concepts of probability and mathematical statistics to actuarial applications.  

MATH 4025  
Actuarial Problems Finance Laboratory  
1:0:3  
* Prerequisite(s): (MATH 3750 or Departmental Approval) and University Advanced Standing  
Provides preparation for the second actuarial examination by linking concepts of finance and derivative markets to actuarial applications frequently found on Exam FM/2.  

MATH 4030  
Geometry for Secondary Mathematics Teaching  
3:3:0  
Fall  
* Prerequisite(s): Math 3100 with a grade C or higher and University Advanced Standing  
For Mathematics Education Majors. Includes the exploration of important conceptual underpinnings, common misconceptions and students' ways of thinking, appropriate use of technology, and instructional practices to support and assess the learning of geometry. Teaches constructions and transformations, congruence and similarity, analytic geometry, solid geometry, conics, trigonometry, and the historical development of content and perspectives from diverse cultures. Makes explicit connections to various mathematical content strands (modeling, complex numbers, function, and algebra).  

MATH 4040  
Statistics and Probability for Secondary Mathematics Teaching  
3:3:0  
Fall  
* Prerequisite(s): Math 1210 with a grade B- or higher and Math 2040 with a grade C or higher and University Advanced Standing  
For Mathematics Education Majors. Includes the exploration of important conceptual underpinnings, common misconceptions and students' ways of thinking, appropriate use of technology, and instructional practices to support and assess the learning of statistics and probability. Focuses on summarizing and representing data, study design and sampling, probability, testing claims and drawing conclusions, and the historical development of content and perspectives from diverse cultures.  

MATH 4100  
Differential Geometry of Curves and Surfaces  
3:3:0  
Fall Odd Year  
* Prerequisite(s): MATH 3250 with a grade C or higher and University Advanced Standing  
Presents the differential geometry of curves and surfaces. Includes parametrized curves, arc length, surfaces, tangent planes, area, curvature, the Gauss map, vector fields, isometries, geodesics, the Gauss-Bonnet theorem, and other curves and surfaces topics selected by the instructor.  

MATH 4210  
Advanced Calculus I  
3:3:0  
Fall  
* Prerequisite(s): MATH 3250 with a grade of C or higher and MATH 2280 with a grade of C or higher and University Advanced Standing  
Covers limit and differentiation theorems, L'Hopital's rule, integration, the Fundamental Theorem of Calculus, series convergence, Taylor series, compactness, and an introduction to the geometry and topology of Euclidean spaces.  

MATH 4220  
Advanced Calculus II  
3:3:0  
Spring  
* Prerequisite(s): MATH 4210 with a grade of C or higher, and University Advanced Standing  
Covers the topology of Euclidean spaces, vectors and linear transformations, multivariable limits and continuity, multivariable differentiation, Jordan regions, multivariable Riemann integration, and Taylor series in multiple variables.  

MATH 4250  
Introduction to Dynamical Systems  
3:3:0  
Fall  
* Prerequisite(s): MATH 3250 with a grade of C or better, and University Advanced Standing  
Provides a foundation in dynamical systems. Discusses fundamental topics of dynamics, including graphical analysis, orbits, periodic and fixed points, convergence, bifurcations, symbolic dynamics, chaos, and Sarkovski's Theorem. May include fractals, complex functions, and fractal dimension.  

MATH 4310  
Introduction to Modern Algebra I  
3:3:0  
Fall  
* Prerequisite(s): MATH 3300 with a grade of C or higher and University Advanced Standing  
Provides a deeper treatment of topics in modern algebra. Covers direct products of groups and the classification of finite Abelian groups. Covers the theory of rings including ideals, factor rings, various kinds of integral domains, fields, and polynomial rings.  

MATH 4320  
Introduction to Modern Algebra II  
3:3:0  
Spring  
* Prerequisite(s): MATH 4310 with a grade of C or higher and University Advanced Standing  
Provides a deeper treatment of topics in the theory of groups, rings, and fields. Covers field extensions, algebraic extensions, finite fields, and Kronecker's Theorem. Includes applications to straightedge and compass geometric constructions. Covers other topics at the instructor's discretion which may include the Sylow Theorems, symmetry groups, and Galois Theory.  

MATH 4330  
Theory of Linear Algebra  
3:3:0  
Spring  
* Prerequisite(s): MATH 3250 with a grade of C or higher and University Advanced Standing  
Covers vector spaces, linear transformations and matrices, dual spaces, inner product spaces, orthogonality, bilinear forms, eigenvalues, eigenvectors and generalized eigenvectors, diagonalization, and Jordan and other canonical forms.  

MATH 4340  
Introduction to Number Theory  
3:3:0  
Spring Even Year  
* Prerequisite(s): MATH 3250 with a grade of C or higher and University Advanced Standing  
Covers divisibility, irreducibility and primality, linear Diophantine equations, Pell's equation, continued fractions, congruences, Euler's theorem, arithmetic functions, primitive roots, quadratic reciprocity.  

MATH 4510  
Foundations of Topology  
3:3:0  
Fall Even Year  
* Prerequisite(s): MATH 3250 with a grade of C or higher and University Advanced Standing  
Introduces the ideas of topologies, compactness, connectedness, countability, separability, separation axioms, homeomorphisms, and the Baire Category Theorem.  

MATH 4610  
Introduction to Numerical Analysis I  
3:3:0  
Fall  
* Prerequisite(s): MATH 2270 and MATH 2280, each with a grade of C or higher, an approved programming language, and University Advanced Standing  
Includes numerical solutions of equations in one variable, numerical solutions of linear and nonlinear system of equations, interpolations and polynomial approximation, and approximating eigenvalues and eigenvectors.  

MATH 4620  
Introduction to Numerical Analysis II  
3:3:0  
Spring  
* Prerequisite(s): MATH 4610 with a grade of C or higher and University Advanced Standing  
Introduction to numerical analysis II. Topics will include numerical differentiation and integration, numerical solutions of initial-value problems and boundary-value problems for ordinary differential equations, numerical.  

MATH 4750  
Life Contingencies  
3:3:0  
Spring Odd Year  
* Prerequisite(s): STAT 4710 with a grade of C or higher and University Advanced Standing  
Includes survival models, Markov Chains, life insurance and annuities, and Poisson processes. Prepares students for the life contingencies portion of Exam M of the Society of Actuaries.  

MATH 481R  
Internship in Mathematics  
1 to 4:1 to 4:0  
On Sufficient Demand  
* Prerequisite(s): Instructor Approval and University Advanced Standing  
For mathematics majors. Provides mathematics-related work experience in an industrial, commercial, or research environment. Internship credit may not be used in fulfilling the mathematics major course requirements. May be taken two times for a maximum of 6 credits toward graduation. May be graded credit/no credit.
Course Descriptions

MATH 489R
Undergraduate Research in Mathematics
1 to 3:1:3 to 0 On Sufficient Demand
* Prerequisite(s): MATH 3250 with a grade of C or better, Departmental Approval, and University Advanced Standing
Allows research on a project determined by a faculty member and approved by the department chair. Emphasizes proof, modeling, or other activities associated with mathematical research. May be used as part of a senior project. May be Graded Credit/No Credit. May be repeated for a maximum of 3 credits toward graduation.

MATH 490R
Topics in Mathematics
2 to 3:2 to 3:0 On Sufficient Demand
* Prerequisite(s): Departmental approval and University Advanced Standing
Studies a chosen topic in mathematics. The topic will vary depending upon student demand. Course may be taken more than once for different topics and for a maximum of 6 credit hours counted toward graduation.

MATH 4999
Mathematics Capstone
2:2:0 Spring
* Prerequisite(s): Instructor approval, departmental approval, and University Advanced Standing
For mathematics majors, to be taken during the last semester before graduation. Reviews topics learned in the core undergraduate mathematics courses. Assesses student understanding through the Major's Field Test. Provides an opportunity for senior mathematics majors to participate in mathematical research under the supervision of a faculty member. Offers a setting in which students prepare a research paper and give oral presentations that describe their research.

MATH 5510
General Topology
3:3:0 Spring Odd Year
* Prerequisite(s): MATH 4510 or MATH 4210 with a grade of C or higher
Introduces the fundamentals of general topology, including topological spaces, separation axioms, continuity, compactness, connectedness, metric spaces, product spaces, metrization and ordinals.

MATH 6100
Topics in Geometry and Topology
3:3:0 Fall, Spring
* Prerequisite(s): Mathematics Endorsement 4, or instructor approval
Includes manifolds, fundamental group, classification of surfaces, covering spaces, homotopy types, differential geometry, Riemannian geometry, algebraic geometry, projective geometry, and algebraic topology. May be delivered online.

MATH 6310
Modern Algebra
3:3:0 Fall, Spring
* Prerequisite(s): Mathematics Endorsement 4, or instructor approval
Reviews the basics of ring theory. Analyzes ideals and factor rings in detail to prepare students for the study of fields. Uses the basics of field theory, including the construction of field extensions, to prove the impossibility of three great construction problems of antiquity. Concludes with an introduction to Galois Theory.

MATH 6350
Introduction to Combinatorics
3:3:0 Fall, Spring
* Prerequisite(s): Mathematics Endorsement 4, or instructor approval
Enumerates permutations and combinations of sets and multi-sets, inclusion-exclusion, recurrence relations, generating functions, Polya theory, and combinatorial structures.

MATH 6410
Topics in Ordinary Differential Equations
3:3:0 Fall, Spring
* Prerequisite(s): Mathematics Endorsement 4, or instructor approval
Includes the theory of linear and nonlinear ordinary differential equations and dynamical systems: the initial-value problems and behavior of solutions; the existence, uniqueness, perturbations, continuous dependence of solution on initial conditions, and introduction of nonlinear dynamical systems with applications.

MATH 6610
Numerical Methods and Modeling
3:3:0 Fall, Spring
* Prerequisite(s): Mathematics Endorsement 4, or instructor approval
Investigates modelling and numerical topics. Investigates topics from college algebra, calculus, linear algebra, and differential equations from a theoretical as well as numerical perspective. Expounds on algorithms and modelling through software packages in a hands-on approach.

MATH 6620
Topics in Numerical Analysis
3:3:0 Fall, Spring
* Prerequisite(s): Mathematics Endorsement 4, or instructor approval
Develops a deeper practical and theoretical understanding of methods used to find approximate solutions of a variety of mathematical problems and of the relationships between these algorithms. Compares accuracy, efficiency, and stability of methods used to solve nonlinear equations and large systems of linear and nonlinear algebraic equations; ordinary and partial differential equations; and to perform numerical differentiation, integration, interpolation and more general approximation of functions. Provides experience programming and applying many of the central algorithms that have powered modern advances in math and the sciences.

MATH 6700
Applications of Mathematics
3:3:0 On Sufficient Demand
* Prerequisite(s): Mathematics Endorsement 4, or instructor approval
Introduces various areas of mathematics that can be applied to other fields such as the sciences, arts, industry, etc. Includes topics such as game theory, graph theory, knot theory, number theory, etc.

Mathematics Developmental (MAT)

MAT 0920
Math Fundamentals
5:5:0
* Prerequisite(s): Appropriate placement by a placement exam (within two years).
Designed for students requiring basic math review. Reviews basic operations with whole numbers and fractions. Includes basic operations involving decimals, percents, ratios, rates, and basic operations involving physical measurements. Lab access fee of $3 applies.

MAT 0950
Foundations for Algebra
4:4:0
* Prerequisite(s): One of the following (within two years): MAT 0920 with a grade of C- or higher; or appropriate placement by a placement exam.
Designed for students requiring basic math and pre algebra instruction. Covers basic operations for number systems up to and including real numbers. Includes fractions, ratios, proportions, decimals, exponents, roots, linear equations, and polynomial expressions. May be delivered online. Lab access fee of $3 applies.

MAT 0980 (Cross-listed with: MAT 0990)
Integrated Pre Algebra and Beginning Algebra
5:5:0
* Prerequisite(s): Appropriate placement (within two years) by a placement exam.
An accelerated preparatory class for MAT 1010, Intermediate Algebra, covering Pre-Algebra and Beginning Algebra in one semester. Includes real numbers, algebraic expressions, polynomials, solving and graphing linear equations and inequalities, factoring, quadratic equations, rational expressions and equations, ratios, percents, systems of linear equations, roots and radicals, and an introduction to complex numbers. May be delivered online. Lab access fee of $3 applies.
Course Descriptions

MAT 0990 (Cross-listed with: MAT 0980)  
**Introductory Algebra**  
4:4:0 Fall, Spring  
* Prerequisite(s): One of the following (within two years): MAT 0950 or MAT 0980 with a C- or higher; or appropriate placement by a placement exam.  

For students who have completed a minimum of one year of high school algebra or who lack a thorough understanding of basic algebra principles. Teaches integers, solving equations, polynomial operations, factoring polynomials, systems of equations and graphs, rational expressions, roots, radicals, complex numbers, quadratic equations and the quadratic formula. Prepares students for MAT 1010, Intermediate Algebra. May be delivered hybrid and/or online. Lab access fee of $3 applies.

**MAT 1000**  
**Integrated Beginning and Intermediate Algebra**  
5:5:0 Fall, Spring, Summer  
* Prerequisite(s): One of the following (within department time limits): MAT 0950 or MAT 0980 with a C or higher; or appropriate placement by a placement exam.  

Teaches Beginning and Intermediate Algebra in one semester. Covers linear, quadratic, and rational expressions, equations, and functions; systems of equations; logarithms; exponents; graphing; and problem solving. Prepares students for MAT 1030, STAT 1040, MATH 1050, and MATH 1090. May be delivered hybrid and/or online.

**MAT 1010**  
**Intermediate Algebra**  
4:4:0 Fall, Spring, Summer  
* Prerequisite(s): One of the following (within two years): MAT 0980 or MAT 0990 with a grade of C- or higher; or appropriate placement by a placement exam.  

Expands and covers in more depth basic algebra concepts introduced in Beginning Algebra. Includes linear and quadratic equations and inequalities, polynomials and rational expressions, radical and exponential expressions and equations, complex numbers, systems of linear and nonlinear equations, functions, conic sections, and real world applications of algebra. May be delivered hybrid and/or online.

**MAT 101R**  
**Individualized Mathematics Review**  
1:1:0 Fall, Spring  
* Prerequisite(s): Any MAT or MATH course  

Designed as a follow-up to MATH 100R for students who desire to make further progress in their math placement through individualized instruction. Includes a diagnostic test of mathematical knowledge base which is used to develop an individualized learning plan. Provides targeted intervention to increase foundational mathematics knowledge. May be Graded Credit/No Credit. May be repeated for a maximum of 3 credits. Lab access fee of $3 applies. Canvas Course Mats $74/McGraw

**MAT 1030**  
**Quantitative Reasoning**  
3:3:0 Fall, Spring, Summer  
* Prerequisite(s): One of the following (within department time limits): MAT 1000 or MAT 1010 with a grade of C or higher; or appropriate placement by a placement exam.  

Teaches how to communicate, interpret, and analyze quantitative information found in the media and in everyday life to make sound personal, professional, and civic decisions. May be delivered online.

**MAT 1035**  
**Quantitative Reasoning with Integrated Algebra**  
6:6:0 Fall, Spring, Summer  
* Prerequisite(s): One of the following (within department time limits): MAT 0950 with a grade of C or higher; or appropriate placement by a placement exam.  

Teaches students to communicate, interpret, and analyze quantitative information found in the media and in everyday life to make sound personal, professional, and civic decisions. Provides the necessary algebraic content taught in context.

**MAT 103H**  
**Quantitative Reasoning**  
3:3:0 Fall, Spring, Summer  
* Prerequisite(s): One of the following (within department time limits): MAT 1000 or MAT 1010 with a grade of C or higher; or appropriate placement by a placement exam.  

Teaches how to communicate, interpret, and analyze quantitative information found in the media and in everyday life to make sound personal, professional, and civic decisions. Covers the material at an honors level. May be delivered online.

**MAT 1110**  
**Foundations of Mathematical Thinking and Reasoning**  
3:3:0 On Sufficient Demand  
* Prerequisite(s): One of the following (within two years): MAT 1000 or MAT 1010 with a grade of C- or higher; or appropriate placement by a placement exam.  

Reviews and reflects on mathematics taught in K-12 to learn mathematical thinking and reasoning. Includes six topics: (1) Early mathematics experiences and mathematics anxiety (2) Why and how mathematics is as important as language literacy (3) The language features of mathematics, and mathematics as a way of thinking (4) Making mathematical arguments: mathematical structure and reasoning (5) Different ways of working with mathematics: mathematical cognition and methodology (6) Mathematical problem solving.

**MAT 240R**  
**Math Mentor Leadership Practicum**  
3:3:0 Fall, Spring  
* Prerequisite(s): MAT 1000, MAT 1010, MAT 1030, or MAT 1035 with a B+ or higher.  

Provides the theoretical base and hands-on training in leadership and math mentoring techniques as well as an understanding of and ability to apply listening, teaching, and leadership competencies. Assists student leaders in further developing their own self-awareness, learning skills and strategies, and explores methods for facilitating these in others. Provides an avenue for goal development, fulfillment and performance among student leaders and the individuals they serve. Emphasizes building relationships with students, teaching life skills and learning strategies, and guiding students through the college experience. May be repeated for a maximum of 8 credits towards graduation.

**MECH 1010**  
**Fundamentals of Mechatronics**  
3:3:0 Fall, Spring  
	* Prerequisite(s) or Corequisite(s): MAT 1010  

Covers the fundamental skills and theory of the Mechatronics discipline. Covers integrated system design which includes electrical, mechanical, and microprocessor programming theory. Discusses the fundamentals of materials science, manufacturing processes, and the application of automation systems in a production environment. Course fee of $20 for materials applies. Lab access fee of $45 applies.

**MECH 1200**  
**Electronics in Automation Design**  
3:3:0 Fall  
* Prerequisite(s) or Corequisite(s): MECH 1205  

* Prerequisite(s): MAT 1010  

Teaches basic DC and AC electronics theory including voltage, current, resistance, reactance, and complex impedance as well as basic electronic components such as resistors, capacitors, and inductors. Includes the analysis of series, parallel, and complex circuits as well as troubleshooting and measurement techniques. Teaches principles of algebra and trigonometry which will be utilized for circuit analysis. Emphasizes the application of electronic theory and analysis in the design of automation systems. Course Lab fee of $40 for materials, lab applies.
MECH 1205
Electronics in Automation Design Laboratory
2:0:6 Fall
* Corequisite(s): MECH 1200
Applies basic DC and AC electronics theory including voltage, current, resistance, reactance, and impedance as well as basic electronic components such as resistors, capacitors, and inductors. Includes the analysis of series, parallel, and complex circuits as well as troubleshooting and measurement techniques. Presents the fundamentals of digital logic using combinational and sequential logic. Teaches number systems, binary arithmetic, logic gates, Boolean algebra, truth tables and logic simplification. Introduces computer architecture. Emphasizes the application of electronic theory and analysis in the design of automation systems. Lab access fee of $45 for computers applies.

MECH 1300
Industrial Wiring for Mechatronic Systems 2:1:3 Spring
Covers National Electrical Code and International Electrical Code using electrical prints, installation methods, and system requirements in mechatronic systems. Covers the creation and use of electrical diagrams for design and troubleshooting. Lab access fee of $45 for computers applies.

MECH 2200
Semiconductors in Mechatronic Systems 3:3:0 Spring
* Prerequisite(s): MECH 1200
* Corequisite(s): MECH 2205
Teaches the theory of semiconductor PN junctions and discrete semiconductors such as diodes, bipolar junction transistors, and MOSFET's applied to automation control. Also introduces the utilization of opto-isolators, triacs, and SCR's in controlling automation power devices. Course Lab fee of $25 for materials, lab applies.

MECH 2205
Semiconductors in Mechatronic Systems Lab 1:0:3 Spring
* Prerequisite(s): MECH 1200
* Corequisite(s): MECH 2200
Applies the theory of semiconductor PN junctions and discrete semiconductors such as diodes, bipolar junction transistors, and MOSFET's applied to automation control. Introduces the utilization of opto-isolators, triacs, and SCR's in controlling automation power devices. Lab access fee of $45 for computers applies.

MECH 2300
Microcontroller Architecture and Programming 4:4:0 Spring
* Corequisite(s): MECH 2305
* Prerequisite(s) or Corequisite(s): MECH 2200
Teaches computer architecture and the fundamentals of computer programming in C language. Uses an IDE to develop, compile and debug C code. Introduces structured top down design and program documentation. Teaches the organization of I/O ports including alternate functions. Utilizes microcontroller communications, functions and I/O methods to interface to sensors and actuators. Course Lab fee of $50 for materials, lab applies. Software fee of $29 applies.

MECH 2305
Microcontroller Architecture and Programming Lab
1:0:3 Spring
* Corequisite(s): MECH 2300
Applies computer architecture and the fundamentals of computer programming in C language. Uses an IDE to develop, compile and debug C code. Introduces structured top down design and program documentation. Teaches the organization of I/O ports including alternate functions. Utilizes microcontroller communications, functions and I/O methods to interface to sensors and actuators. Lab access fee of $45 for computers applies.

MECH 2400
Mechanical Components 4:4:0 Fall
* Prerequisite(s): MECH 1010
Teaches students how to select, design, and analyze mechanical components that are used in manufacturing automation systems. Reviews and reinforces the concepts of the structure of metals, metals selection, and mechanical properties. Focuses on the selection of belt and chain drives, gear and gearbox selection, design of shafts, specification of rolling element bearings, and the use of threaded fasteners. Integrates the selection and design of mechanical components into a design project. Lab access fee of $45 applies

MECH 2500
Introduction to PLCs in Mechatronic Design 2:2:0 Fall
* Prerequisite(s): MECH 1200, MECH 2300
* Corequisite(s): MECH 2505
Covers the theory and programming of industrial control systems and programmable logic controllers (PLC). Introduces PLC programming stressing Ladder Logic and PLC programming, troubleshooting, and maintenance. Covers connection of PLCs to external components. Presents the fundamentals of digital logic using ladder logic. Covers number systems and Boolean algebra. Course Lab fee of $15 for materials, lab applies. Software fee of $29 applies.

MECH 2505
Introduction to PLCs in Mechatronic Design Laboratory 2:0:6 Fall
* Prerequisite(s): MECH 1200, MECH 2300
* Corequisite(s): MECH 2500
Applies the theory and programming of industrial control systems and programmable logic controllers (PLC). Applies PLC programming stressing Ladder Logic and PLC programming, troubleshooting, and maintenance. Applies connection of PLCs to external components. Lab access fee of $45 for computers applies.

MECH 2510
Fundamentals of Automation Controls 2:2:0 Fall
* Corequisite(s): MECH 2515
* Prerequisite(s) or Corequisite(s): MECH 2500
Covers how to select, install, and troubleshoot sensors in a manufacturing environment. Emphasizes the application of proximity sensors in automation equipment as well as the use of encoders to measure speed and position, pressure transducers, and the use of thermocouples and thermistors to measure temperature. Covers signal conditioning methods to interface sensors to microprocessors and PLC's. Course Lab fee of $20 for lab notebook, lab applies.

MECH 2515
Fundamentals of Automation Controls Laboratory 1:0:3 Fall
* Corequisite(s): MECH 2510
* Prerequisite(s) or Corequisite(s): MECH 2500
Applies methods for proper selection, installation, and troubleshooting of sensors in a manufacturing environment. Emphasizes the application of proximity sensors in automation equipment as well as the use of encoders to measure speed and position, pressure transducers, and the use of thermocouples and thermistors to measure temperature. Utilizes signal conditioning methods to interface sensors to microprocessors and PLC's. Lab access fee of $45 for computers applies.

MECH 2550
Advanced PLC Programming and Applications 2:2:0 Spring
* Prerequisite(s): MECH 2500
* Corequisite(s): MECH 2555
Covers the principles of program structure, subroutines, interrupts, debugging, and simplifying. Illustrates the measurement and scaling of analog signals. Covers networking principles such as Ethernet and serial. Course Lab fee of $15 for materials, lab applies. Software fee of $29 applies.

MECH 2555
Advanced PLC Programming and Applications Laboratory 2:0:6 Spring
* Prerequisite(s): MECH 2500
* Corequisite(s): MECH 2550
Applies the principles of program structure, subroutines, interrupts, debugging, and simplifying using a PLC. Applies the use of PLCs in the measurement and scaling of analog signals. Applies networking principles such as Ethernet and serial to communicate with a PLC. Lab access fee of $45 for computers applies.

MECH 2600
Introduction to Fluid Power Systems 3:2:3 Spring
* Prerequisite(s): MECH 2400
Develops the concepts used to design, build, and control a fluid power system that is used in an industrial automation process. Employes laboratory exercises to illustrate the selection and use of actuators, valves, and controls to sequentially control a process. Course Lab fee of $15 for materials, lab applies. Lab access fee of $45 for computers applies. Software fee of $50 applies.
MECH 3060  
Mechatronics Management  
3:3:0  On Sufficient Demand  
* Prerequisite(s): MECH 2550 and University Advanced Standing  
Provides management principles, processes, and standards commonly used in manufacturing and other industries. Covers basic concepts in project management, operations management, quality management, and safety management. Familiarizes students with applicable software tools. Lab access fee of $45 for computers applies.

MECH 3220  
Automation Motors and Controllers  
3:3:0  Fall  
* Prerequisite(s): (MECH 2550, or EART 2270, or Department Approval) and University Advanced Standing  
* Corequisite(s): MECH 3225  
Presents the selection and application of AC and DC servo motors and how to control the speed and position in automation systems. Teaches variable frequency drives and servo drives in automation system design. Applies algebra, trigonometry, integrals, and derivatives. Course Lab fee of $15 for materials, lab applies. Software fee of $29 applies.

MECH 3225  
Automation Motors and Controllers Laboratory  
1:0:3  Fall  
* Prerequisite(s): (MECH 2550, or EART 2270, or Department Approval) and University Advanced Standing  
* Corequisite(s): MECH 3220  
Presents the selection and application of AC and DC servo motors and how to control the speed and position in automation systems. Teaches variable frequency drives and servo drives in automation system design. Lab access fee of $45 for computers applies.

MECH 3300  
Industrial Networks  
2:2:0  Spring  
* Prerequisite(s): MECH 3220, University Advanced Standing  
* Corequisite(s): MECH 3305  
Covers the principles of designing, configuring, integrating, and maintaining an industrial network. Covers the use of software to integrate PLC’s, sensors, HMI’s, computers, and smart devices into a manufacturing data management network. Course Lab fee of $25 for materials, lab applies. Software fee of $29 applies.

MECH 3305  
Industrial Networks Laboratory  
1:0:3  Spring  
* Prerequisite(s): MECH 3220 and University Advanced Standing  
* Corequisite(s): MECH 3300  
Applies the principles of designing, configuring, and integrating in maintaining an industrial network. Applies the use of software to integrate PLC’s, sensors, HMI’s, computers, and smart devices into a manufacturing data management network. Lab access fee of $45 for computers applies.

MECH 3400  
Statics and Material Properties for Mechatronics  
4:4:0  Spring  
* Prerequisite(s): University Advanced Standing  
* Corequisite(s): MECH 3405  
Teaches the concept of forces as vectors, the equations of equilibrium, calculation of internal forces, and the calculation of centroids and area moments of inertia. Teaches how to calculate tensile and shear stress in machine components and compare the resultant forces to standard theories of failure using the principles of statics. Teaches algebra, trigonometry, and elementary calculus in terms of the application of statics.

MECH 3405  
Statics and Material Properties for Mechatronics Laboratory  
1:0:3  Spring  
* Prerequisite(s): University Advanced Standing  
* Corequisite(s): MECH 3400  
Applies the concept of forces as vectors, the equations of equilibrium, calculation of internal forces, and the calculation of centroids and area moments of inertia. Covers how to calculate tensile and shear stress in machine components and compare the resultant forces to standard theories of failure by using the principles of statics. Lab access fee of $45 for computers applies.

MECH 3500  
Industrial Robots  
2:2:0  Spring  
* Prerequisite(s): MECH 2550, University Advanced Standing  
* Corequisite(s): MECH 3505  
Covers the principles of industrial robotics, programming, and the application of vision systems using industry created curriculum. May be delivered hybrid and/or online. Course Lab fee of $31 for flat ribbon cable, lab applies. Lab access fee of $45 for computers applies. Software fee of $50 applies.

MECH 3505  
Industrial Robots Laboratory  
1:0:3  Spring  
* Prerequisite(s): MECH 2550, University Advanced Standing  
* Corequisite(s): MECH 3500  
Applies the principles of industrial robotics, programming, and the application of vision systems using industrial robots. Lab access fee of $46 for computers applies.

MECH 3700  
CNC Machines in Mechatronic Design  
2:2:0  Fall  
* Prerequisite(s): MECH 3220, University Advanced Standing  
* Corequisite(s): MECH 3705  
Covers the application, programming, and maintenance of CNC machines. Emphasizes the integration of CNC machines into automation systems. Covers specifications, performance, interfacing with industrial robots, tooling, programming, and integrating the CNC machine into factory system. Lab access fee of $45 for computers applies.

MECH 3705  
CNC Machines in Mechatronic Design Laboratory  
1:0:3  Fall  
* Prerequisite(s): MECH 3220, University Advanced Standing  
* Corequisite(s): MECH 3700  
Applies the application, programming, and maintenance of CNC machines. Emphasizes the integration of CNC machines into automation systems. Applications specifications, performance, interfacing with industrial robots, tooling, programming, and integrating the CNC machine into a factory system. Lab access fee of $45 for computers applies.

MECH 4300  
Advanced Fluid Power Design  
2:2:0  Fall  
* Prerequisite(s): MECH 2600, University Advanced Standing  
* Corequisite(s): MECH 4305  
Expands on the basics taught in MECH 2600 covering motion control of a fluid power system using a PLC, proportional flow control valves, and analog sensors. Course lab fee of $15 for equipment applies.

MECH 4305  
Advanced Fluid Power Design Laboratory  
1:0:3  Fall  
* Prerequisite(s): MECH 2600, University Advanced Standing  
* Corequisite(s): MECH 4300  
Expands on the basics taught in MECH 2600 by applying motion control of a fluid power system using a PLC, proportional flow control valves, and analog sensors. Lab access fee of $45 for computers applies.

MECH 4400  
Polymers/Composites and Processes  
3:3:0  Spring  
* Prerequisite(s): MECH 3400, University Advanced Standing  
Teaches students the selection of polymers, design of polymer products and manufacturing processes associated with polymer based products. Also teaches types of composites and design of composite products. Course lab fee of $18 for supplies applies. Lab access fee of $45 for computers applies.
MECH 4500  
Advanced Automation Controls  
3:3:0  
Spring  
* Prerequisite(s): MECH 4300, University Advanced Standing  
* Corequisite(s): MECH 4505  
Introduces methods of advanced control of high speed components, analog controls, temperature, pressure, and time delay processes using digital and analog methods of control. Covers algebra, trigonometry, and basic applied calculus in the context of complex control systems. Course lab fee of $45 for equipment applies. Lab access fee of $45 for computers applies.

MECH 4505  
Advanced Automation Controls Laboratory  
1:0:3  
Spring  
* Prerequisite(s): MECH 4300, University Advanced Standing  
* Corequisite(s): MECH 4505  
Integrates methods of advanced control of high speed components, analog controls, temperature, pressure, and time delay processes using digital and analog methods of control. Implements practical applications of the concepts discussed in the lecture portion of the class. Lab access fee of $45 for computers applies.

MECH 4800  
Capstone Project  
3:1:6  
Spring  
* Prerequisite(s): MECH 3570, University Advanced Standing  
Integrates the concepts of the Mechatronics Engineering Technology curriculum into a semester-long design project. Requires students to concieve, define, design, document, and prototype a mechatronic project. Lab access fee of $45 for computers applies. Software fee of $29 applies.

MECH 481R  
Mechatronics Internship  
1 to 3:1 to 3:0  
Fall, Spring  
* Prerequisite(s): Matriculation into Mechatronics Engineering Technology, Instructor Approval, and University Advanced Standing  
Provides opportunity to use work experience to add to educational background and academic experience. A maximum of 6 credit hours may be counted towards graduation. May be graded credit/no credit. May be delivered hybrid and/or online.

MECH 490R  
Topics in Mechatronics  
3:3:0  
Spring  
* Prerequisite(s): University Advanced Standing  
Covers a chosen topic in the mechatronics discipline. May be taken more than once for different topics and for a maximum of 6 credit hours toward graduation. Lab access fee of $45 for computers applies.

MECH 4800  
Capstone Project  
3:1:6  
Spring  
* Prerequisite(s): MECH 3570, University Advanced Standing  
Integrates the concepts of the Mechatronics Engineering Technology curriculum into a semester-long design project. Requires students to concieve, define, design, document, and prototype a mechatronic project. Lab access fee of $45 for computers applies. Software fee of $29 applies.

MECH 481R  
Mechatronics Internship  
1 to 3:1 to 3:0  
Fall, Spring  
* Prerequisite(s): Matriculation into Mechatronics Engineering Technology, Instructor Approval, and University Advanced Standing  
Provides opportunity to use work experience to add to educational background and academic experience. A maximum of 6 credit hours may be counted towards graduation. May be graded credit/no credit. May be delivered hybrid and/or online.

MECH 490R  
Topics in Mechatronics  
3:3:0  
Spring  
* Prerequisite(s): University Advanced Standing  
Covers a chosen topic in the mechatronics discipline. May be taken more than once for different topics and for a maximum of 6 credit hours toward graduation. Lab access fee of $45 for computers applies.

MECH 4800  
Capstone Project  
3:1:6  
Spring  
* Prerequisite(s): MECH 3570, University Advanced Standing  
Integrates the concepts of the Mechatronics Engineering Technology curriculum into a semester-long design project. Requires students to concieve, define, design, document, and prototype a mechatronic project. Lab access fee of $45 for computers applies. Software fee of $29 applies.

MECH 481R  
Mechatronics Internship  
1 to 3:1 to 3:0  
Fall, Spring  
* Prerequisite(s): Matriculation into Mechatronics Engineering Technology, Instructor Approval, and University Advanced Standing  
Provides opportunity to use work experience to add to educational background and academic experience. A maximum of 6 credit hours may be counted towards graduation. May be graded credit/no credit. May be delivered hybrid and/or online.

MECH 490R  
Topics in Mechatronics  
3:3:0  
Spring  
* Prerequisite(s): University Advanced Standing  
Covers a chosen topic in the mechatronics discipline. May be taken more than once for different topics and for a maximum of 6 credit hours toward graduation. Lab access fee of $45 for computers applies.

MECH 4800  
Capstone Project  
3:1:6  
Spring  
* Prerequisite(s): MECH 3570, University Advanced Standing  
Integrates the concepts of the Mechatronics Engineering Technology curriculum into a semester-long design project. Requires students to concieve, define, design, document, and prototype a mechatronic project. Lab access fee of $45 for computers applies. Software fee of $29 applies.

MECH 481R  
Mechatronics Internship  
1 to 3:1 to 3:0  
Fall, Spring  
* Prerequisite(s): Matriculation into Mechatronics Engineering Technology, Instructor Approval, and University Advanced Standing  
Provides opportunity to use work experience to add to educational background and academic experience. A maximum of 6 credit hours may be counted towards graduation. May be graded credit/no credit. May be delivered hybrid and/or online.

MECH 490R  
Topics in Mechatronics  
3:3:0  
Spring  
* Prerequisite(s): University Advanced Standing  
Covers a chosen topic in the mechatronics discipline. May be taken more than once for different topics and for a maximum of 6 credit hours toward graduation. Lab access fee of $45 for computers applies.

MECH 4800  
Capstone Project  
3:1:6  
Spring  
* Prerequisite(s): MECH 3570, University Advanced Standing  
Integrates the concepts of the Mechatronics Engineering Technology curriculum into a semester-long design project. Requires students to concieve, define, design, document, and prototype a mechatronic project. Lab access fee of $45 for computers applies. Software fee of $29 applies.

MECH 481R  
Mechatronics Internship  
1 to 3:1 to 3:0  
Fall, Spring  
* Prerequisite(s): Matriculation into Mechatronics Engineering Technology, Instructor Approval, and University Advanced Standing  
Provides opportunity to use work experience to add to educational background and academic experience. A maximum of 6 credit hours may be counted towards graduation. May be graded credit/no credit. May be delivered hybrid and/or online.

MECH 490R  
Topics in Mechatronics  
3:3:0  
Spring  
* Prerequisite(s): University Advanced Standing  
Covers a chosen topic in the mechatronics discipline. May be taken more than once for different topics and for a maximum of 6 credit hours toward graduation. Lab access fee of $45 for computers applies.

MECH 4800  
Capstone Project  
3:1:6  
Spring  
* Prerequisite(s): MECH 3570, University Advanced Standing  
Integrates the concepts of the Mechatronics Engineering Technology curriculum into a semester-long design project. Requires students to concieve, define, design, document, and prototype a mechatronic project. Lab access fee of $45 for computers applies. Software fee of $29 applies.

MECH 481R  
Mechatronics Internship  
1 to 3:1 to 3:0  
Fall, Spring  
* Prerequisite(s): Matriculation into Mechatronics Engineering Technology, Instructor Approval, and University Advanced Standing  
Provides opportunity to use work experience to add to educational background and academic experience. A maximum of 6 credit hours may be counted towards graduation. May be graded credit/no credit. May be delivered hybrid and/or online.

MECH 490R  
Topics in Mechatronics  
3:3:0  
Spring  
* Prerequisite(s): University Advanced Standing  
Covers a chosen topic in the mechatronics discipline. May be taken more than once for different topics and for a maximum of 6 credit hours toward graduation. Lab access fee of $45 for computers applies.

MECH 4800  
Capstone Project  
3:1:6  
Spring  
* Prerequisite(s): MECH 3570, University Advanced Standing  
Integrates the concepts of the Mechatronics Engineering Technology curriculum into a semester-long design project. Requires students to concieve, define, design, document, and prototype a mechatronic project. Lab access fee of $45 for computers applies. Software fee of $29 applies.

MECH 481R  
Mechatronics Internship  
1 to 3:1 to 3:0  
Fall, Spring  
* Prerequisite(s): Matriculation into Mechatronics Engineering Technology, Instructor Approval, and University Advanced Standing  
Provides opportunity to use work experience to add to educational background and academic experience. A maximum of 6 credit hours may be counted towards graduation. May be graded credit/no credit. May be delivered hybrid and/or online.

MECH 490R  
Topics in Mechatronics  
3:3:0  
Spring  
* Prerequisite(s): University Advanced Standing  
Covers a chosen topic in the mechatronics discipline. May be taken more than once for different topics and for a maximum of 6 credit hours toward graduation. Lab access fee of $45 for computers applies.
ME 3335  
Thermal/Fluid Experimentation  
2:0:6  
Spring  
* Prerequisite(s): ENGR 2300 or Departmental Approval and University Advanced Standing  
* Corequisite(s): ME 3320  
Covers temperature, pressure, and flow measurement, along with calibration of thermal/fluid sensors in a lab setting. Focuses on experiments to investigate various phenomena in fluid flow, thermodynamics, and heat transfer. Investigates the performance of pumps, fans, and heat exchangers. Includes a writing component. Lab access fee of $45 for computers applies.

ME 4010  
Automatic Controls  
3:3:0  
Fall  
* Prerequisite(s): ME 3010 and University Advanced Standing  
Covers analysis of control systems using Evans, Nyquist and Bode’s methods. Introduces digital control and feedback compensation concepts for system performance improvement. Includes a design component. Lab access fee of $45 for computers applies.

ME 4015  
Control and Vibration Experimentation  
2:0:6  
Spring  
* Prerequisite(s): ME 4010 and University Advanced Standing  
Introduces system modeling and characterization in the time and frequency domains, feedback and compensation, Proportional Integral Derivative (PID) control, control of velocity and position in a lab setting. Covers motion measurement, force measurement, free-vibration, frequency response, impact response, noise, and signal processing. Includes a writing component. Lab access fee of $45 for computers applies.

ME 4180  
Compliant Mechanisms  
3:3:0  
On Sufficient Demand  
* Prerequisite(s): ME 3130, ME 3140, and University Advanced Standing  
Covers the design and analysis of compliant mechanisms and compliant structures. Includes large-deflection analysis/force displacement relationships, prediction of failure of compliant members, and synthesis of compliant mechanisms. Includes a design component. Lab access fee of $45 for computers applies.

ME 4380  
Design of Thermal/Fluid Systems  
3:3:0  
On Sufficient Demand  
* Prerequisite(s): ENGR 2300, ME 3320, and University Advanced Standing  
Applies the principles of thermodynamics, fluid mechanics, and heat transfer to the design of conventional and emerging thermal/fluid systems. Includes lectures and design projects. Lab access fee of $45 for computers applies.

ME 4390  
Heating Ventilating and Air Conditioning Design  
3:3:0  
On Sufficient Demand  
* Prerequisite(s): ENGR 2300, ME 3320, and University Advanced Standing  
Covers air conditioning components and systems, moist air properties and conditioning processes. Covers indoor environmental quality indicators, space heating and cooling load calculations, and building energy consumption estimation. Focuses on water and air systems design, refrigeration and refrigeration systems. Includes lectures and design projects. Lab access fee of $45 for computers applies.

ME 4410  
Computer Aided Engineering  
3:3:0  
Fall  
* Prerequisite(s): ME 3140, ME 3320 and University Advanced Standing  
Covers the application of computer-aided engineering tools in design, 3-D geometry and solid modeling; finite element analysis, kinematic analysis, and other software in engineering analysis. Includes a design component. Lab access fee of $45 for computers applies.

ME 4420  
Finite Element Methods  
3:3:0  
Spring  
* Prerequisite(s): ENGR 2140, ME 3320 and University Advanced Standing  
Covers discrete approximation of engineering problems, energy and weighted residual methods, and coordinate systems and mapping. Focuses on one-, two-, and three-dimensional formulation of problems in solid and fluid mechanics and heat transfer, time-dependent problems, and optimization techniques. Lab access fee of $45 for computers applies.

ME 4510  
Mechanical Engineering Seminar  
1:1:0  
Fall  
* Prerequisite(s): University Advanced Standing  
* Prerequisite(s) or Corequisite(s): ME 4810  
Introduces various mechanical engineering careers and related industries. Emphasizes importance of life-long learning and active participation in professional societies and communities through lectures given by practicing engineers using their own experiences. Introduces various engineering codes of ethics. Intended as a culminating seminar for graduating seniors to prepare for their engineering careers. Lab access fee of $45 for computers applies.

ME 4510R  
Mechanical Engineering Capstone I  
3:3:0  
Fall  
* Prerequisite(s): University Advanced Standing, Formal Acceptance into the Mechanical Engineering Program, and Departmental Approval  
Serves as a comprehensive two-semester design experience from conception to modeling or prototype. Uses, where possible, multidisciplinary team application of the engineering design process along with project management, manufacturing methods and economic analysis. Culminates in a design review based on formal presentations of fully documented, detailed proposed designs. Capstone I and II must be taken in consecutive semesters. Lab access fee of $45 for computers applies.

ME 4810  
Mechanical Engineering Capstone II  
3:3:0  
Spring  
* Prerequisite(s): ME 4810 and University Advanced Standing  
Serves as a second semester of the two-semester design experience from conception to modeling or prototype. Uses, where possible, multidisciplinary team application of the engineering design process along with project management, manufacturing methods and economic analysis. Culminates in a demonstration of a final product (model or working prototype) with verification and documentation of how final product meets customer needs. Capstone I and II must be taken in consecutive semesters. Lab access fee of $45 for computers applies.

ME 4820  
Advanced Current Topics in Mechanical Engineering  
1 to 3:1 to 3:0  
On Sufficient Demand  
* Prerequisite(s): University Advanced Standing and Formal Acceptance into the Mechanical Engineering Program or Department Approval  
Provides exposure to emerging topics and technologies of current interest in mechanical engineering. Varies each semester depending upon the status of technology. May be repeated for a maximum of 6 credits toward graduation without prior written department approval. Lab access fee of $45 for computers applies.
Course Descriptions

Meteorology (METO)

METO 1010 Introduction to Meteorology 3:3:0 PP Fall, Spring, Summer
Introduces the study of our atmosphere. Studies the Earth's dynamic weather systems. Covers structure and compositions of the atmosphere; weather patterns; air masses; and types of weather fronts, weather forecasting, and climates.

METO 1020 Introduction to Meteorology Laboratory 1:0:2 Fall
Provides hands-on experience for students investigating various meteorologic phenomena discussed in METO 1010. Students desiring credit for a science major should take METO 1010 and METO 1020. Course fee of $10 for lab applies.

METO 1060 Fundamentals of Weather Forecasting 3:3:0 Fall
Prerequisite(s) or Corequisite(s): METO 1010
Introduces the fundamental principles of meteorological processes and mid-latitude weather forecasting. Focuses on the analysis of surface and upper-air weather maps, of soundings, of satellite and radar imagery to analyze current meteorological conditions. Explores the application of techniques to perform forecasts for basic weather variables such as temperature and precipitation. Course fee of $10 for lab applies.

METO 3100 Climate and the Earth System 3:3:0 Spring
Prerequisite(s): (CHEM 1110 or CHEM 1210), (MATH 1050 or MATH 1055), (PHYS 2010 or PHYS 2210), METO 1010, GEO 1010, and University Advanced Standing
Studies the six major components of the Earth system (i.e., the atmosphere, the hydrosphere, the cryosphere, the geosphere, the exosphere, and the biosphere) and investigates the interdependency and connections of these components, with particular emphasis on the effects on the climate system. Discusses the Earth's energy balance, the greenhouse effect, and the biogeochemical cycles of some elements and provides an overview of the most important climatic events that occurred during the history of the Earth. Course fee of $10 for lab applies.

Marriage and Family Therapy (MFT)

MFT 6000 Systemic Foundations of Marriage and Family Therapy 3:3:0 Fall
Prerequisite(s): Admission to the Master of Marriage and Family Therapy, M.A. program
Introduces students to the historical development of the relational/systemic perspective. Emphasizes a systemic paradigm for clinical intervention. Includes conceptual foundations and founders of MFT. Compares early models of MFT.

MFT 6010 Contemporary Approaches to MFT 3:3:0 Spring
Prerequisite(s): Admission to the Master of Marriage and Family Therapy, M.A. program
Introduces students to contemporary models of MFT. Compares post-modern models of MFT. Includes evidence-based practice and the biopsychosocial perspective.

MFT 6100 Ethical Issues in Marriage and Family Therapy 3:3:0 Fall
Prerequisite(s): Admission to the Master of Marriage and Family Therapy, M.A. program
Promotes MFT identity. Develops student competence in ethical decision making. Includes application of the American Association for Marriage and Family Therapy Code of Ethics and relevant Utah law to clinical scenarios.

MFT 6200 Systemic Assessment and Diagnosis 3:3:0 Fall
Prerequisite(s): Admission to the Master of Marriage and Family Therapy, M.A. program
Develops student competence in treatment approaches specifically designed for use with families. Introduces students to crisis intervention with families. Includes evidence-based practice for clinical work with young children, adolescents, families in mid-life, and elderly families.

MFT 6210 Couples Therapy 3:3:0 Spring
Prerequisite(s): MFT 6200 and admission to the Marriage and Family Therapy, M.A. program
Develops student competence in treatment approaches specifically designed for use with a range of diverse couples, including sex therapy, same-sex couples, elderly, and interfaith couples. Includes evidence-based practice and crisis intervention with couples.

MFT 6220 Group Therapy 2:2:0 Spring
Prerequisite(s): MFT 6200 and admission to the Marriage and Family Therapy, M.A. program
Develops student competence in treatment approaches specifically designed for use with groups. Evaluates group work with addiction, abuse and trauma. Includes evidence-based practice and crisis intervention with groups.

MFT 6230 Family Therapy 3:3:0 Summer
Prerequisite(s): MFT 6000 and admission to the Marriage and Family Therapy, M.A. program
Develops student competence in treatment approaches specifically designed for use with families. Introduces students to crisis intervention with families. Includes evidence-based practice for clinical work with young children, adolescents, families in mid-life, and elderly families.

MFT 6240 Individual Therapy 2:2:0 Fall
Prerequisite(s): MFT 6200 and admission to the Marriage and Family Therapy, M.A. program
Introduces students to a variety of common presenting problems including addiction, suicide, trauma, abuse, intra-familial violence, and acute chronic medical conditions. Utilizes a relational/systemic philosophy. Includes evidence-based practice and crisis intervention with individuals.

MFT 6300 Working with Diversity in MFT 3:3:0 Summer
Prerequisite(s): Admission to the Master of Marriage and Family Therapy, M.A. program
Builds student awareness of diversity, power, privilege, and oppression as these relate to race, age, gender, ethnicity, sexual orientation, gender identity, socioeconomic status, disability, health status, religious affiliation, nation of origin, spiritual orientation, or other relevant social categories.

MFT 6310 Child and Adolescent Development 3:3:0 Fall
Prerequisite(s): MFT 6000 and admission to the Marriage and Family Therapy, M.A. program
Introduces students to individual and family development during stages of childhood and adolescence. Addresses human sexuality. Discusses biopsychosocial health during childhood and adolescence.

MFT 6320 Adult Issues in Human Development 3:3:0 Spring
Prerequisite(s): MFT 6300 and admission to the Marriage and Family Therapy, M.A. program
Introduces students to individual and family development across stages of adulthood. Addresses human sexuality. Discusses biopsychosocial health during adulthood.

MFT 6400 Research in Marriage and Family Therapy 3:3:0 Fall
Prerequisite(s): MFT 6000 and admission to the Marriage and Family Therapy, M.A. program
Introduces students to basic research methodology. Examines evidence-based practice in MFT. Evaluates usefulness of couple, marriage, and family therapy research.

MFT 6500 Community Intervention 1:1:0 Spring
Prerequisite(s): Admission to the Master of Marriage and Family Therapy, M.A. program
Introduces students to practice within defined contexts (e.g., healthcare settings, schools, military settings, private practice). Addresses nontraditional MFT professional practice using therapeutic competencies (e.g., community advocacy, psycho-educational groups). Considers multidisciplinary collaboration.
MFT 6510
Contemporary Issues in MFT
1:1:0 Fall
* Prerequisite(s): MFT 6000 and admission to the Marriage and Family Therapy, M.A. program
Develops student competence in emerging and evolving contemporary challenges. Examines problems and/or recent developments at the interface of MFT knowledge and practice, as well as the broader local, regional, and global context. Includes discussion of contemporary issues such as immigration, technology, same-sex marriage, and violence in schools.

MFT 6520
Clinical Business Development and Practice
2:2:0 Spring
* Prerequisite(s): Admission to the Marriage and Family Therapy, M.A. program
* Prerequisite(s) or Corequisite(s): MFT 6900
Introduces students to the development of private clinical practices. Specific emphasis on business practice in the mental health field. Includes discussion of HIPAA and telehealth.

MFT 6600
Capstone in MFT
1:1:0 Spring
* Prerequisite(s): Admission to the Marriage and Family Therapy, M.A. program
* Prerequisite(s) or Corequisite(s): MFT 6900
Introduces basic skills and competencies needed for effective and ethical clinical practice. Guides self-awareness and self-reflection. Presents expectations of competency in basic MFT interventions, sensitivity to client-contextual variables, completion of case documentation, and use of supervision and feedback.

MFT 6910
Pre-Practicum
3:3:0 Fall
* Prerequisite(s): Admission to the Master of Marriage and Family Therapy, M.A. program
Introduces basic skills and competencies needed for effective and ethical clinical practice. Guides self-awareness and self-reflection. Presents expectations of competency in basic MFT interventions, sensitivity to client-contextual variables, completion of case documentation, and use of supervision and feedback.

MFT 6920
Practicum II
3:3:0 Summer
* Prerequisite(s): MFT faculty approval and admission to the Marriage and Family Therapy, M.A. program
* Prerequisite(s) or Corequisite(s): MFT 6910
Advances student competence in MFT assessment and intervention. Includes practice with diverse, international, multicultural, marginalized, and/or underserved communities. Guides competence in working with sexual and gender minorities and their families as well as anti-racist practices. Guides self-awareness and self-reflection.

MFT 6930
Practicum III
3:3:0 Fall
* Prerequisite(s): Approval of MFT faculty and admission to the Marriage and Family Therapy, M.A. program
* Prerequisite(s) or Corequisite(s): MFT 6920
Advances student competence in MFT assessment and intervention. Includes practice with diverse, international, multicultural, marginalized, and/or underserved communities. Guides competence in working with sexual and gender minorities and their families as well as anti-racist practices. Guides self-awareness and self-reflection.

MFT 6940
Practicum IV
3:3:0 Spring
* Prerequisite(s): Approval of MFT Faculty and admission to the Marriage and Family Therapy, M.A. program
* Prerequisite(s) or Corequisite(s): MFT 6930
Advances student competence in MFT assessment and intervention. Includes practice with diverse, international, multicultural, marginalized, and/or underserved communities. Guides competence in working with sexual and gender minorities and their families as well as anti-racist practices. Guides self-awareness and self-reflection.

Business Management (MGMT)

MGMT 1010
Introduction to Business
3:3:0 Fall, Spring, Summer
Overviews the business world, its structure, procedures, and vocabulary. Provides information to assist in making occupational choices. Methods include lectures, class discussions, group activities, videos, and guest speakers. Completers should have a general knowledge of business and career opportunities. May be delivered online. Canvas Course Mats $13/Lumen applies.

MGMT 1250
Principles of Leadership
3:3:0 Fall, Spring
Required course for integrated studies degree students with an emphasis in leadership. Overviews principles of leadership. Provides students with information on successful leadership styles. Includes lectures, videos, cases, group activities, and class discussion. Lab access fee of $30 for computers applies.

MGMT 2030
Women in Business
3:3:0 Fall, Spring
* Prerequisite(s): ENGL 1010 or ENGH 1005
Explores the foundations of women in business today. Discusses the opportunities, challenges, and solutions of women as employees, managers, and leaders within all types of organizations. Includes topics such as opportunities for success, work-life issues, gender differences and role development, organizational culture and diversity, the glass ceiling and other barriers to success, career development, developing leadership, personal goals and ambitions, leadership styles, mentoring and coaching, and women in business professions. Includes lecture, in-class and online discussions, guest speakers, group activities, case studies, presentations, and written assignments.

MGMT 2110 (Cross-listed with: COMM 2110)
Interpersonal Communication
3:3:0 Fall, Spring, Summer
Examines the role of communication in interpersonal relationships. Includes the history of interpersonal communication research and theory, and applications such as negotiation, conflict management, listening, and assertiveness. Canvas Course Mats $69/McGraw applies

MGMT 2240
Business Calculus
3:3:0 Fall, Spring, Summer
* Prerequisite(s): MATH 1050, MATH 1055 or MATH 1090 taken within the last two years with grade of C- or better or appropriate placement assessment score.
Analyzes profit, revenue, cost and average cost functions through rates of change, both average and instantaneous. Applies graphical, numerical, and algebraic techniques to optimization in business-related problems. Covers compound interest including present value and future value of ordinary annuities. Focuses on solving a variety of problems in economics and finance using derivatives and integrals. May be delivered hybrid and/or online. Canvas Course Mats $78/Cengage applies. Lab access fee of $30 for computers applies.

MGMT 2340
Business Statistics I
3:3:0 Fall, Spring, Summer
* Prerequisite(s): MATH 1050, MATH 1055, or MATH 1090 or higher, or appropriate test scores
Presents an application of statistics in business and economics covering methods of collecting, analyzing, and presenting data. Includes frequency distributions, averages, index numbers, probability, sampling, estimation, analysis of variance, time series, regression and correlation, and chi-square. May be delivered online. Canvas Course Mats $78/McGraw applies. Lab access fee of $30 for computers applies.
Course Descriptions

MGMT 2450
The Principles of Personal Excellence
3:3:0 Not Offered
Introduce students to a holistic framework for the development of personal effectiveness and peak performance. Reviews principles, processes, and practices used by peak performers in many life disciplines. Offers students a chance to apply many practices and techniques, which they can apply within the many performances arenas of their life. Course fee of $15 applies.

MGMT 258R
Current Topics in International Business
1 to 3:1 to 3:0 Not Offered
* Prerequisite(s): Department Chair Approval
Provides exposure to emerging topics of current interest in international business. Topics vary each semester. May apply a maximum of three hours toward graduation.

MGMT 281R
Cooperative Work Experience
2 to 8:2 to 8:0 Fall, Spring, Summer
* Prerequisite(s): Approval from School of Business Career and Corporate Manager
Provides opportunities to apply classroom theory on the job. Students work as paid employees in a job that relates to their careers while enrolled at the institution. Credit is determined by the number of hours a student works during the semester. Completers meet individually set goals. Six credits may be applied toward graduation. May be graded credit/no credit.

MGMT 290R
Independent Study
1 to 3:1 to 3:0 Not Offered
Provides independent study as directed in reading and individual projects. Requests must be submitted for approval by the department. Approval for this program will be coordinated with the instructor. May be repeated for up to three credits.

MGMT 292R
Seminar
1 to 3:1 to 3:0 Not Offered
Designed to give the student added insight into management principles essential for successful management of a business. Includes guest experts from the field of business. May be repeated for a total of three credits.

MGMT 297H
Honors Seminar in Leadership Development
3:3:0 Not Offered
Emphasizes factors that impact leadership effectiveness and skill development in organizations. Features lectures on topics such as leadership, participative management, negotiations, team building, and women's issues by local experts in a seminar setting. Includes group interaction and discussions, written summaries and instructor critique of student performance.

MGMT 3000
Organizational Behavior WE
3:3:0 Fall, Spring, Summer
* Prerequisite(s): MKTG 2200 or ENGL 2010 and University Advanced Standing
Studies behavioral theories and concepts for creating effective organizations. Emphasizes knowledge of individual, group, and organizational processes and variables regarding people's attitudes and behaviors in organizational settings. Presents topics on communication, leadership, motivation, conflict management, socialization, team building, decision making, diversity, ethics, and culture. Includes lectures, case studies, oral presentations, written assignments, and group projects. May be delivered hybrid and/or online. Lab access fee of $32 for computers applies.

MGMT 3020
Individual Action and Corporate Social Responsibility
3:3:0 Fall, Spring, Summer
* Prerequisite(s): ENGL 2010 and University Advanced Standing
Focuses on moral issues in organizations and the role and importance these have in today's complex business environment. Explores the challenges that arise across the spectrum of business activity and studies human conduct in a business context and what constitutes right and wrong. Examines issues of ethics as they apply to business entities, managers, shareholders, customers, society, and other consultants. Focuses on identifying and solving real world ethical dilemmas in business, and evaluates various individual and corporate decision-making models.

MGMT 3070
Total Quality Management
3:3:0 Fall, Spring, Summer
* Prerequisite(s): MGMT 3450, Matriculation into Woodbury School of Business, and University Advanced Standing
Covers universal principles of quality assurance management, mechanics of a quality information system, and quality management practices. Emphasizes system elements, controls, and fitness for use. Includes process charting, quality costing concepts, statistical process control (SPC), sampling, variability, attribute charting, and continuing improvement strategies. May be delivered online. Lab access fee of $30 for computers applies.

MGMT 3210 (Cross-listed with: HM 3210)
Event Venue and Convention Management
3:3:0 Fall, Spring
* Prerequisite(s): ENGL 2010 and University Advanced Standing
Analyzes and explores the conventions and meetings market, event venue management, and the corresponding relationship with convention and visitors bureaus. Covers various procedures in site selection, site layout and logistics, operations, negotiations and contracts, food and beverage service, and convention sales.

MGMT 320G
Survey of International Business
3:3:0 Fall, Spring, Summer
* Prerequisite(s): (ENGL 2010 or MKTG 2200), ECON 2010, and University Advanced Standing
Teaches international business, trade and foreign investment, and theories of international trade. Studies economic development, international investment and international agencies (government and private) that affect international business by informing, regulating or financing. Develops an appreciation of the unpredictable forces of foreign environments. Explores how international businessmen respond to these influences. May be delivered online. Canvas Course Mats $78/McGraw applies.

MGMT 330G
Total Quality Management II
3:3:0 Fall, Spring, Summer
* Prerequisite(s): (ENGL 2010 or COMM 1050) and University Advanced Standing
Discusses today's business environment which requires work in a multi-ethnic setting. Overviews critical elements that arise from the various cultural backgrounds which can impact both domestic and international organizations. Proceeds from a management point of view with lessons easily derived for the mid-level manager as well as for line personnel. Concentrates on managerial communications, negotiations, cultural changes, and management functions.

MGMT 332G (Cross-listed with: COMM 332G)
Cross Cultural Communications for International Business
3:3:0 Fall, Spring
* Prerequisite(s): (ENGL 2010 or COMM 1050) and University Advanced Standing
Studies advanced managerial concepts. Includes multiple regression, ANOVA, test of hypotheses, and time series techniques. Emphasizes statistical modeling, statistical decision-making, and is computation intensive. Lab access fee of $30 for computers applies. Canvas Course Mats $78/McGraw applies.
MGMT 3440
Managing Organizations
3:3:0
Not Offered
* Prerequisite(s): MGMT 3000 and University Advanced Standing

Studies management theory and emphasizes the managerial view of the elements and variables that influence the organization. Examines organizational design and change emphasizing the management tools used in planning, organizing, directing, controlling, and leading, and the coordinating of these factors within organizations. Uses current events as they relate to managing and developing the organization. Includes case analyses, team building exercises, videos, class discussions, group presentations, written assignments, and guest speakers. Lab access fee of $30 for computers applies.

MGMT 3450
Operations Management
3:3:0
Fall, Spring, Summer
* Prerequisite(s): Matriculation into WSB and University Advanced Standing

Focuses on the management of resources for products, production, or services within an organization. Covers project management, supply chain, facility location and layout, forecasting, scheduling, planning, and operational processes. Emphasizes product/service development, supply chain, forecasting, inventory control, quality assurance, and research techniques. May be delivered hybrid and/or online. Canvas Course Mats $78/McGraw Hill applies. Lab access fee of $30 for computers applies.

MGMT 3460
Scheduling, Forecasting and Inventory Management
3:3:0
Fall, Spring, Summer
* Prerequisite(s): MGMT 3450, Matriculation into Woodbury School, and University Advanced Standing

Applies critical scheduling, forecasting and inventory management skills in business operations. Analyzes a wide array of quantitative and qualitative methods that are in current industry use. Analyzes scheduling and forecasting in business situations, and how to manage inventory systems. Evaluates both short-run and long-run forecasting and inventory considerations.

MGMT 3470
Lean Management Systems
3:3:0
Fall, Spring
* Prerequisite(s): MGMT 3450, matriculation into Woodbury School of Business, and University Advanced Standing

Teaches advanced operations management processes beyond introductory course. Studies process and value stream management. Teaches importance of continuous improvement and other techniques critical to operations management in modern organizations. Integrates hands-on experience in lean thinking processes.

MGMT 3480
Operations Simulation
3:3:0
Fall, Spring, Summer
* Prerequisite(s): MGMT 3450 and University Advanced Standing

Applies critical operations management skill sets in a simulation. Creates simulations to analyze and solve operational problems. Applies data visualization software to make strategic decisions.

MGMT 3500
Leadership Theory and Application
3:3:0
Fall, Spring
* Prerequisite(s): University Advanced Standing

Examines leadership theory and how it applies to real-world situations. Facilitates thinking and dialogue about leaders and the leadership process. Covers leadership development strategies and approaches for individuals, teams, and organizations. Includes readings, discussions, reflections, experiential activities, guest speakers, written papers, and innovative assignments. Required course for Integrated Studies Degree students with a Leadership emphasis. Lab access fee of $30 for computers applies.

MGMT 3700
Supply Chain and Logistics Management
3:3:0
* Prerequisite(s): MGMT 3450 and University Advanced Standing

Teaches planning and controlling of supply chains and distribution networks. Covers concepts of network design, forecasting, aggregate planning, transportation, sourcing decisions, performance metrics, and the role of information technology in supply chain.

MGMT 3730
Opportunities in Direct Sales
3:3:0
On Sufficient Demand
* Prerequisite(s): University Advanced Standing

Discusses direct sales and the impact on our society. Covers basic terminology of the direct sales industry. Introduces distinctions between legal and illegal activity in the industry. Teaches the history of direct sales, compensation plans, and industry ethics. Analyzes communication skills in the direct sales industry. Explores the unique nature of the relationship between the company and the independent representative. Uses discussion, lecture, presentations and group activities to increase understanding and ability to analyze business under the umbrella of direct sales.

MGMT 3740
Relationship Marketing
3:3:0
On Sufficient Demand
* Prerequisite(s): MGMT 3730 and University Advanced Standing

For students interested in understanding relationship marketing as it applies to the direct selling industry. Focuses on the relationship between companies and their independent sales forces. Covers business ethics, compensation, structures, company conventions, distributor services, and online community building. Uses lectures, discussions, guest speakers, analyses in the field, and presentation of analysis in both oral and written format.

MGMT 4350
Business Intelligence and Data Visualization
3:3:0
Fall, Spring, Summer
* Prerequisite(s): MGMT 2240, MGMT 2340, Matriculation into Woodbury School and University Advanced Standing

Utilizes data and data visualization tools to support business intelligence and inform business decisions. Identifies key variables and methods of presenting data. Prepares for industry certifications, software credentials, and internships.

MGMT 4470
Strategic Operational Planning
3:3:0
* Prerequisite(s): MGMT 3450 and University Advanced Standing

Integrates planning concepts in the planning hierarchy within a manufacturing framework. Explores in depth the concepts of capacity planning, advanced sales and operational planning, demand management and forecasting, advanced MRP/ERP, inventory control, scheduling and lot sizing. Focuses on linkages between production planning and execution.

MGMT 4480
Management Science and Optimization
3:3:0
* Prerequisite(s): MATH 1100 (or higher) or MGMT 2240, MGMT 2340, and University Advanced Standing

Explores management science and optimization models in depth, focusing on business applications and computer modeling. Introduces linear programming, integer programming, nonlinear programming, goal programming and network flow models. Studies transportation, assignment and transshipment problems. Also studies stochastic models, queueing, simulation and decision analysis.

MGMT 450R
Leadership Practicum
1 to 3:0:3 to 9
* Prerequisite(s): University Advanced Standing

Designed for upper-division students interested in acquiring and practicing applied leadership skills. Covers project management, team participation and/or leadership, effective meeting management, decision-making, and budgeting. May be repeated for a maximum of 6 credits toward graduation.

MGMT 458R
Advanced Topics in International Business
1 to 3:1 to 3:0
On Sufficient Demand
* Prerequisite(s): Department Chair Approval and University Advanced Standing

Provides exposure to emerging topics of current interest in international business. Topics vary each semester. May apply a maximum of 6 hours toward graduation.

MGMT 4620
Developing Business in China
3:3:0
Spring
* Prerequisite(s): ENGL 2010, Junior Standing, and University Advanced Standing

Introduces the key factors driving the economy and companies doing business in and with China. Compares the institutions and characteristics of the Chinese economy and business system. Identifies issues facing managers of western corporations producing and selling in the Chinese market, sourcing from Chinese industry and competing with Chinese rivals.
Course Descriptions

MGMT 481R
Internship
1 to 8:1 to 8:0  Fall, Spring, Summer
* Prerequisite(s): Approval from School of Business Career and Corporate Manager and University Advanced Standing
For upper-division students working toward a Bachelor of Science Degree in Business Management. Provides a transition from school to work where learned theory is applied to actual practice through meaningful on-the-job experience. No more than three credit hours of internship work experience will apply toward graduation in any Business Management Specialization; may be repeated for a maximum of 8 credits. May be graded credit/no credit.

MGMT 4835
Management Consulting Strategy Implementation
1:1:0
* Prerequisite(s): Department Approval
* Corequisite(s): MGMT 4840
Builds on strategic management concepts and consulting course material using a hands-on, competitive business simulation.

MGMT 4840
Management Consulting
3:3:0  Fall, Spring
* Prerequisite(s): FIN 3100 with a minimum grade of B-, Instructor approval, and University Advanced Standing
* Corequisite(s): MGMT 4835
Builds knowledge and capability in the consulting process, competitive- and corporate-level strategic management elements, and client management strategies. Develops a business project with teams of students working together with a specific, recruited, local company. Applies knowledge and skills from the business curriculum, student teams will gather needed data, analyze it, problem-solve, and craft recommendations in order to improve competitive implementation and meet firm objectives using strategic management and project management tools.

MGMT 4860
Business Strategy Formulation and Implementation
4:4:0
* Prerequisite(s): FIN 3100, MKTG 3600, MGMT 3000, MGMT 3450 and Matriculation into the Woodbury School of Business and University Advanced Standing. Senior standing is recommended.
The capstone course for the Bachelor's Degree in Business Management. Provides a program of study and the necessary lab work to integrate major functional management area skills using case analysis and methods and a competitive business simulation while instilling strategic management concepts and thinking processes. Includes written and oral reports, lectures, class discussions, group projects, simulations, and when appropriate, utilizes videos and guest speakers. May be delivered online. Canvas Course Mats $78/McGraw applies

MGMT 4870
International Management
3:3:0  Spring
* Prerequisite(s): MGMT 3000, MKTG 3600, Matriculation into the Woodbury School of Business, and University Advanced Standing
Examines in depth the leading forces and trends shaping the opportunities and challenges confronted by multinational corporations (MNCs) as they assemble, grow, mature, coordinate and control their international network of subsidiaries, joint-ventures, alliances, and supplier firms. Examines the strategies pursued by MNCs in response to opportunities and challenges in this process, consistent with their distinctive strengths and weaknesses; and theories. Contrasts the models and strategic frameworks relating these strategies and forces/trends. Includes group project (written and oral presentations) on a multinational corporation developing or maturing its network in a selected market.

MGMT 490R
Independent Study
1 to 3:1 to 3:0  On Sufficient Demand
* Prerequisite(s): Department Chair Approval and University Advanced Standing
For bachelor's degree students and other interested persons. Offers independent study as directed in reading, in individual projects, etc., in the area of marketing and/ or international business at the discretion and approval of the department chairperson. May apply a maximum of 6 hours toward graduation.

MGMT 492R
Human Resource Seminar
1:1:0  On Sufficient Demand
* Prerequisite(s): Department Chair Approval and University Advanced Standing
Presents guest speakers on emerging human resource (HR) research and issues: strategy, international, culture, legal issues, planning and job analysis, recruitment and selection, performance management, compensation and benefits, and career development. May be repeated for 2 credits toward graduation.

MGMT 494R
Seminar
.5 to 3:5 to 3:0  On Sufficient Demand
* Prerequisite(s): University Advanced Standing
Provides short courses, workshops, and special programs in business management, leadership, or current business topics. Repeatable for up to 3 credits toward graduation.

MGMT 495R
Executive Lecture Series
1:1:0  Fall, Spring
* Prerequisite(s): University Advanced Standing
Consists of lectures presented by guest speakers on current business topics concerning the student, community, nation, business world, etc. May be required in business programs; see specific program listings for details. May apply a maximum of 3 credits toward graduation.

MGMT 497H
Business Honors Seminar
1 to 3:1 to 3:0  On Sufficient Demand
* Prerequisite(s): Permission required, 3.4 GPA or higher, senior status, and University Advanced Standing
Provides in-depth exposure to an issue of current interest in business by a local expert in a seminar setting. Includes group interaction and discussion, critical analysis of readings, and critique of student writings. Topics vary each semester.

MGMT 4980
Business Research Seminar
3:3:0  On Sufficient Demand
* Prerequisite(s): Instructor Approval and University Advanced Standing
Studies the process of researching and writing for scholarly publication. Includes understanding the concepts of scholarly conversation, managing scholarship, choosing a topic, identifying appropriate journals, using exemplars, creating a title and abstract, making an outline, developing an introduction and conclusion, writing the body of the paper, and then revising, submitting, and finally publishing in a scholarly journal.

MGMT 6000
Career Development and Advancement
1.5:1.5:0
* Prerequisite(s): Acceptance into the UVU MBA program
Develops ability to implement the career management process by exploring the structure of career research and networking. Enhances interviewing and salary negotiation skills and abilities. Also addresses the transitional soft skills needed in a career management position. Provides interaction between students and successful leaders of business and nonprofit organizations throughout the semester.

MGMT 6215
Managing and Facilitating Professional Teams
3:3:0
* Prerequisite(s): Admission to Master of Accountancy or the Master of Business Administration Program
Enhances the ability to analyze and function in team-based, professional environments. Teaches what actions are needed to increase the effectiveness of a team, solve interpersonal problems, and remove common roadblocks.

MGMT 6440
Advanced Project Management
3:3:0  Fall, Spring, Summer
Focuses on advanced tools and techniques to develop strategic project management skills with an emphasis on managing technical projects. Explores best practices aligned for Program Management, Project Portfolio Management, and Strategic Project Leadership and Management. Analyzes basic cost justification techniques for making economic decisions in technical organizations.
MGMT 6450
Operations Management
3:3:0  Fall
* Prerequisite(s): Acceptance in the MBA program
Analyzes operations and production activities. Reviews basic processes. Analyzes managing a production or service organization, evaluation of concepts such as inventory control, production control, procurement, quality management, planning, and forecasting.

MGMT 6470
Organization Information Technologies
3:3:0  Fall, Spring, Summer
Examines in depth how information and information management affect the strategy, structure and operations of organizations. Covers technical and organizational foundations of information systems along with contemporary approaches to building, managing and protecting information systems including hands-on work with a modern Enterprise Resource Planning (ERP) system. Introduces concepts of Enterprise Architecture and compares to cloud-based Software as a Service offerings. Emphasizes how information technology affects decision-making. Uses Excel as a decision support tool. Examines the ethical and legal issues raised by the capabilities of information technology. May be delivered online.

MGMT 6500
Managing Individuals and Groups
3:3:0  Fall
* Prerequisite(s): Acceptance in the MBA program
Exposes students to the concepts, theories, and practices related to the behavior and attitudes of people in organizations. Examines issues at the individual, group, and organizational levels, including topics such as individual differences, motivation, leadership, human resource management, teamwork, and organizational design, and structure.

MGMT 6510
Information Systems and Project Management
3:3:0  Spring
* Prerequisite(s): Acceptance into the Woodbury School of Business MBA program
Examines information systems at the general management level. Employs a strategic look at needs of any organization and how the function of information systems assists in the effectiveness of organizations.

MGMT 6740
Operations and Supply Chain Management
3:3:0  Fall
* Prerequisite(s): MGMT 6450
Utilizes advanced topics in operations research which develop decision making processes for complex organizations and systems. Identifies creative methods to analyze problems, develop alternative processes for decision making, and optimum processes for business and organizations.

MGMT 6800
Global Business Strategy
3:3:0  Summer
* Prerequisite(s): Acceptance in the MBA program
Integrates case analysis considered from the CEO's perspective. Evaluates global competitiveness, strategic assessment, policy development, and strategy implementation. Canvas Course Mats $78/McGraw applies.

MGMT 6910
Designing Business
1.5:1.5:0  Fall
* Prerequisite(s): Acceptance into the Woodbury School of Business MBA program
Provides an opportunity to integrate the functional areas of business using a simulation, a comprehensive business case, or a consulting project with a community-based organization.

MGMT 6930
International Engagement
1.5:1.5:0  Fall
* Prerequisite(s): Acceptance into the Woodbury School of Business MBA program
Provides an integrated, engaged learning opportunity for students to experience differences in culture and business operations of another country through the completion and reflection of an international consulting project or case studies, and a possible international experience. Projects or case studies will require the integration of functional areas of business in an international setting, and will highlight how these functions are interrelated.

MGMT 6940
MBA Consulting Project
3:3:0  * Prerequisite(s): Acceptance into the Woodbury School of Business MBA program
Utilizes community consulting to focus on business development through identifying, evaluating, and executing business opportunities within new and existing businesses. Implements consulting processes and strategies, and allows students to practice tools and techniques for developing business models.

Microbiology (MICR)

MICR 2060
Microbiology for Health Professions
3:3:0  Fall, Spring, Summer
* Prerequisite(s): BIOL 1610 and (ENGL 1010 or ENGL 1005) with a C- or higher in each. CHEM 1110 or higher is highly recommended
* Corequisite(s): MICR 2065
Studied the history of microbiology. Explores bacterial, fungal, parasitic, and viral diseases and their causes. Discusses the classification, physiology, genetics, and physical and chemical control of microbes. Emphasizes clinical applications. Designed for those planning a career in the health professions such as nursing, dental hygiene, medicine, pharmacy, and dentistry. Includes weekly laboratory as a corequisite.

MICR 2065
Microbiology for Health Professions Laboratory
1:0:2  Fall, Spring, Summer
* Prerequisite(s): (BIOL 1010 or BIOL 1610) and (ENGL 1010 or ENGL 1005). CHEM 1110 highly recommended
* Corequisite(s): MICR 2060
Studies the history of microbiology. Explores bacterial, fungal, parasitic, and viral diseases and their causes. Discusses the classification, physiology, genetics, and physical and chemical control of microbes. Emphasis is on clinical applications. Designed for those planning a career in the health professions such as nursing, dental hygiene, medicine, pharmacy, and dentistry. Includes weekly laboratory. Course Lab fee of $44 for materials, lab applies.

MICR 3200
Emerging and Re Emerging Diseases and Zoonoses
3:3:0  Fall Even Year
* Prerequisite(s): MICR 2060 or MICR 3450 with a C- or higher in each and University Advanced Standing
Utilizes the most current infectious disease entities as examples for new (emerging) or old (re-emerging) diseases currently affecting mankind. Discusses zoonotic diseases (those transmissible from animals to humans and vice-versa) in detail. Emphasizes the underlying mechanisms of disease, and includes fundamental aspects of virology, bacteriology, and parasitology. Covers fundamental concepts in epidemiology, how the public health system deals with these diseases once they have been identified and instances where the public health system has failed in controlling these diseases along with the reasons for these failures. Investigates historical aspects of infectious diseases.

MICR 3450
General Microbiology
3:3:0  Fall
* Prerequisite(s): BIOL 3400 with a C- or higher and University Advanced Standing; BIOL 3600 recommended
* Corequisite(s): MICR 3455
Covers taxonomy, physiology and genetics of bacteria, archaea, viruses and eukaryotic microbes. Introduces industrial microbiology, biotechnology, and immunology and the biochemical basis of infectious diseases. Is designed for biology majors who desire an in-depth coverage of microbiology.

MICR 3455
General Microbiology Laboratory
1:0:2  Fall
* Prerequisite(s): BIOL 3400 and University Advanced Standing; BIOL 3600 recommended
* Corequisite(s): MICR 3450
Hands-on laboratory procedures that study the methods of taxonomy and distinguishes physiology and genetics of prokaryotes (bacteria, archaea), viruses and eukaryotic pathogens. Introduces methods used in industrial microbiology, biotechnology, and immunology and the biochemical basis of infectious diseases. Designed for biology majors who desire an in-depth coverage of microbiology. Course Lab fee of $60 for materials, lab applies.
Course Descriptions

MICR 4100 (Cross-listed with: ZOOL 4100) Parasitology
4:3:3 On Sufficient Demand
* Prerequisite(s): BIOL 1620 or MICR 2060 with a C- or higher and University Advanced Standing
Introduces the study of parasites. Emphasizes the biology of principal groups of parasites affecting humans, livestock, and other animals, including their medical economic, and ecological significance. Emphasizes parasites causing zoonotic diseases. Includes weekly laboratory experience involving identification of parasites. Course Lab fee of $25 applies.

MICR 4200 Microbiomes
3:3:0 Fall Even Year
* Prerequisite(s): BIOL 1620, BIOL 3500, and University Advanced Standing
Explores the historical background, current knowledge and ongoing research on microbiomes and their role in evolution of biodiversity, ecology of diverse species and communities, behavior of individuals, and impact on host development and physiology.

MICR 4300 Pathogenic Microbiology
4:3:2 Spring Even Year
* Prerequisite(s): MICR 3450 or MICR 2060 and University Advanced Standing
Discusses fundamentals of microbial pathogenesis, replication, infection, and immune mechanisms. Explores the biology of bacterial, viral, fungal, protozoan, and helminth pathogens. Discusses identification, control, and treatments of various microbial pathogens. Includes weekly laboratory. Course Lab fee of $25 applies.

MICR 4450 (Cross-listed with: BIOL 4450) Immunology
3:3:0 On Sufficient Demand
* Prerequisite(s): (MICR 2060 or MICR 3450 or ZOOL 2420) and University Advanced Standing
* Corequisite(s): BIOL 4455
Explores the macromolecules, cells and organs involved in innate and adaptive immunity. Examines the development of lymphocyte repertoire, positive and negative selection of lymphocytes and the production of effector lymphocytes. Studies properties of antigens, vaccines, antigen presenting cells and the mechanisms of antigen presentation. Reviews major immunological methods for medical diagnostics and other applications. Examines causes and consequences of autoimmune and lymphoproliferative diseases and immunodeficiencies. Probes how immune response could be manipulated for cancer therapy and transplantation medicine.

MICR 4500 Virology
3:3:0 Fall
* Prerequisite(s): BIOL 3400 and (MICR 3450 or MICR 2060) and University Advanced Standing; BIOL 3600 recommended
Examines the fundamentals of virology. Covers viral structure, biochemistry, genomics, viral multiplication cycles in prokaryotic and eukaryotic cells, and techniques used in viral studies. Discusses viral diseases, transmission, therapy, evolution, and epidemiology.

MICR 490R Special Topics in Microbiology
1 to 4:1 to 4:1 to 8 On Sufficient Demand
* Prerequisite(s): BIOL 1620 and University Advanced Standing
Explores and examines special topics relating to the field of microbiology. Emphasizes areas of rapid growth in microbiology or current importance to society. May be repeated for a total of 9 credits toward graduation.

Military Science (MILS)

MILS 1200 Introduction to Leadership Excellence I
2:2:0 Fall
* Corequisite(s): MILS 145R
Presents historical overview and development of military value systems and philosophies. Studies individual leadership styles, organization and time management, and writing skills. Includes ethics and code of an officer, role of an officer in the military, drill and ceremonies, fire team tactics, map reading, and basic rifle marksmanship. Lab required.

MILS 1210 Introduction to Leadership Excellence II
2:2:0 Spring
* Prerequisite(s): MILS 1200 or Department Approval
* Corequisite(s): MILS 145R
Compares and analyzes leadership styles found in the U.S. Army, as well as business, academic, and government organizations. Studies Army organization, active and reserve forces; winter survival, advanced fireteam tactics, and mapping techniques. Lab required.

MILS 143R Military Fitness
1:0:3 Fall, Spring
For Army ROTC students and all other interested students. Uses the Army Physical Fitness Test to evaluate the student's performance and improvement in the areas of flexibility, strength, and endurance. Includes instruction in foot care and road marching techniques. Repeats are required. See advisor for details.

MILS 145R Introduction to Leadership Dynamics and Techniques
1:0:3 Fall, Spring
* Prerequisite(s): Department Approval
Leadership lab for UVU Army ROTC students and other students interested in the study of leadership. Studies the dynamics of leadership of groups and individuals in various environments. Provides opportunities for students to apply leadership principles and techniques in challenging situations and conditions. Required lab for students enrolled in UVU Military Science 1000- and 2000-level classes. Students not enrolled in Army ROTC may take this class up to six credits with department approval.

MILS 2050 Small Unit Combat Tactics
2:2:0
Introduces cadets to the personal challenges and competencies that are critical for effective leadership by introducing cadets to the personal development of life skills, critical thinking, goal setting, time management, and physical/mental fitness.

MILS 2200 Advanced Organizational Leadership I
2:2:0 Fall
* Prerequisite(s): MILS 1210 or Dept. Approval
* Corequisite(s): MILS 245R
Builds on skills and fundamentals learned in MILS 1200 and 2210. Studies the dynamics of leadership of groups and individuals in a field environment. Provides opportunities for students to apply leadership principles and techniques in challenging situations to further prepare them for leadership positions in the military or any career field they choose.

MILS 2210 Advanced Organizational Leadership II
2:2:0 Spring
* Prerequisite(s): MILS 2200 or Dept. Approval
* Corequisite(s): MILS 245R
Builds on skills and fundamentals learned in MILS 2200 and 2210. Studies the dynamics of leadership of groups and individuals in a field environment. Provides opportunities for students to apply leadership principles and techniques in challenging situations to further prepare them for leadership positions in the military or in any career field they choose.

MILS 245R Leadership Studies
1:0:3 Fall, Spring
* Prerequisite(s): MILS 145R or instructor approval
Studies the dynamics of leadership of groups and individuals in a field environment. Provides opportunities for students to apply leadership principles and techniques in challenging situations to further prepare them for leadership positions in the military or in any career field they choose. May be repeated for up to four credits with departmental approval.

MILS 259R Current Topics in Military Science
3:3:0 On Sufficient Demand
Provides exposure to emerging issues of current interest in military science. Topics vary each semester. May be repeated for a maximum of 9 credits toward graduation.

MILS 3200 Small Unit Leadership I
3:3:0 Fall
* Prerequisite(s): MILS 2210
* Corequisite(s): MILS 345R
Prerequisite to attendance at National Advanced Leadership Camp. Prepares for successful completion of camp. Studies land navigation, squad and platoon tactics, combat operations, physical fitness, and physical leadership. Lab required.

Honor Code Statement:
Students enrolled in UVU Military Science 1000- and 2000-level courses must adhere to the Honor Code. This includes completing personal and team events during military science courses with appropriate integrity and conduct.
Utah Valley University
Course Catalog 2020-2021
803

MILS 3210
Small Unit Leadership II
3:3:0
Spring
* Prerequisite(s): MILS 3200
* Corequisite(s): MILS 345R
Prerequisite to attendance at National Advanced Leadership Camp. Prepares for successful completion of camp. Studies land navigation, squad and platoon tactics, combat operations, physical fitness, and physical leadership. Lab required.

MILS 345R
Advanced Leadership Dynamics and Techniques
1:0:3
Fall, Spring
* Prerequisite(s): Departmental Approval
Leadership lab for UVU Army ROTC students and other students interested in the study of leadership. Studies the dynamics of leadership of groups and individuals in various environments. Provides opportunities for students to apply leadership principles and techniques in challenging situations and conditions. Required lab for students enrolled in UVU Military Science 3000- and 4000-level classes. Students not enrolled in Army ROTC may take this class four times for credit with departmental approval.

MILS 4200
The Profession of Arms I
3:3:0
Fall
* Prerequisite(s): Departmental Approval
* Corequisite(s): MILS 445R
Prepares the prospective officer for initial training and subsequent assignment into the U.S. Army. Includes overview of U.S. Army training management, military writing, administration, logistics, professionalism, and ethics. Lab required.

MILS 4210
The Profession of Arms II
3:3:0
Spring
* Prerequisite(s): MILS 4200 or Departmental Approval
* Corequisite(s): MILS 445R
Prepares the prospective officer for successful completion of Army assignments. Includes advanced U.S. Army leadership training, training management, military justice and law, pre-commissioning orientation, military briefing skills, and junior officer leadership.

MILS 445R
Transition to Officership
1:0:3
Fall, Spring
* Prerequisite(s): Departmental Approval
Leadership Lab for UVU Senior Army ROTC students. Studies the dynamics of leadership of groups and individuals in various environments. Provides opportunities for students to refine leadership skills in preparation for service with the United States Army. Required lab for students enrolled in UVU Military Science 4000-level classes. ROTC students may take this course up to 4 credits with departmental approval.

MILS 4500
Advanced Leadership and Operations
3:3:0
Fall, Spring
* Prerequisite(s): MILS 3200, MILS 3210, MILS 4200 and MILS 4210
Prepares the prospective officer for successful completion of Army assignments. Includes advanced understanding of U.S. Army operations and training, Officer, Non-Commission Officer and enlisted personnel management, and the use of the Military Decision Making Process.

Marketing (MKTG)

MKTG 2200
Written Business Communication WE
3:3:0
Fall, Spring, Summer
Teaches written business correspondence and business reports using direct and indirect approaches; emphasizes analysis of audience and purpose in drafting documents with accurate and clear content, organization, and style; includes application of punctuation, grammar, and usage principles to business writing situations; emphasizes teamwork and collaboration. May be delivered online. Lab access fee of $32 for computers applies.

MKTG 2390
Professional Business Presentations
3:3:0
Fall, Spring, Summer
For students and others interested in developing professional business presentations skills. Teaches students to plan, develop, deliver, and evaluate business presentations using informative and persuasive formats in diverse settings using a variety of media. MKTG 259R
Current Topics in Marketing
1 to 3:1 to 3:0
On Sufficient Demand
* Prerequisite(s): Department Chair Approval
Provides exposure to emerging topics of current interest in marketing. Topics vary each semester. May apply a maximum of three hours toward graduation.

MKTG 281R
Marketing Cooperative Work Experience
1 to 3:1 to 3:0
On Sufficient Demand
* Prerequisite(s): Internship Orientation and Departmental Approval
Provides opportunities to apply classroom theory on the job. Students work as paid employees in a job that relates to their careers while enrolled at the college. Credit is determined by the number of hours a student works during the semester. Completers meet individually set goals. May be repeated for a maximum of 6 credits toward graduation. Graded Credit/No Credit.

MKTG 290R
Independent Study
.5 to 3:5 to 3:0
On Sufficient Demand
* Prerequisite(s): Department Chair Approval
Provides independent study as directed in reading and individual projects specifically related to the Marketing field at the discretion and approval of the Dean and/or Department Chair. May be repeated for a maximum of 6 credits toward graduation.

MKTG 3220
Retail Management
3:3:0
Fall, Spring
* Prerequisite(s): MKTG 3600 and University Advanced Standing
Combines theoretical concepts with practical applications from a strategic management perspective. Includes lectures and discussions of current events within the retail industry to provide the primary basis for the integration of course materials with actual retail enterprise operations. Includes participation in a number of experiential learning exercises such as group and individual case analyses, outside research on the retail industry and specific retail firms, class presentations, guest speakers, and quizzes on selected retailing issues and practices. Lab access fee of $30 for computers applies. Canvas Course Mtls $78/ McGraw applies

MKTG 335G
International Marketing
3:3:0
Fall, Spring
* Prerequisite(s): MKTG 3600 and University Advanced Standing
Presents the problems of marketing in the international marketplace and how marketers approach and solve them. Focuses on concepts and principles by teaching the theory and practice of international marketing through the use of practical examples and actual case studies of international (both US and foreign) marketing organizations. Includes international marketing position of the US, market entry strategies, analysis of foreign markets, culture and marketing, product design, pricing, distribution, promotion and sales. May be delivered online. Lab access fee of $30 for computers applies.

MKTG 3390
Business and Professional Presentations
3:3:0
On Sufficient Demand
* Prerequisite(s): MKTG 2200 and (complete one of the following: IM 2400, IM 2010, IM 101B, or business computer proficiency or Instructor Approval) and University Advanced Standing
For those interested in developing business and professional presentation skills. Emphasizes critical thinking as students plan, develop, deliver, and evaluate presentations using informative and persuasive formats in diverse settings using a variety of media. Incorporates aspects of multimedia. Successful completers should make business presentations professionally and confidently. Lab access fee of $30 for computers applies.

MKTG 3460
Internal Marketing and Corporate Imaging
3:3:0
* Prerequisite(s): MKTG 3600 and University Advanced Standing
Introduces students to the fundamentals of Internal Marketing and Corporate Imaging. Focuses on internal marketing strategy, critical incident management, organizational change, employer brand, cause marketing, corporate citizenship, internal business communication and event management. Includes other topics, such as contingency planning, organizational culture, employee programs and training, motivation and internal reward programs. Includes lectures, guest speakers, video tapes, role plays, case analysis, oral presentations, and written assignments. Lab access fee of $30 for computers applies.

**MKTG 3640**  
**Sales Management**  
3:3:0  
* Prerequisite(s): MKTG 3600, MKTG 3650, and University Advanced Standing

Studies issues related to planning for, organizing, staffing, motivating, directing, and controlling a sales force and related sales territories. Addresses both international and domestic perspectives. Gives special emphasis to the efficiency (cost consideration) and effectiveness (customer consideration) of sales management. Canvas Course Mats $55/Chicago applies.

**MKTG 3650**  
**Professional Selling**  
3:3:0  
* Prerequisite(s): MKTG 3600 and University Advanced Standing

Fall, Spring

Studies motivational, directing, and controlling a sales force and related sales territories. Addresses both international and domestic perspectives. Gives special emphasis to the efficiency (cost consideration) and effectiveness (customer consideration) of sales management. Canvas Course Mats $55/Chicago applies.

**MKTG 3660**  
**Digital Marketing**  
3:3:0  
* Prerequisite(s): MKTG 3600 and University Advanced Standing

Fall, Spring

Provides an introduction to the many business uses of the Internet to create competitive advantage. Features discussions of e-business strategic components and practice with Web page exercises. Uses guided exercises to explore the Net, both in and out of class. Includes projects, research, and Net use in a particular industry. Emphasizes the sharing of concepts discussed in lectures, class activities, the assigned readings, and group projects. Lab access fee of $30 for computers applies.

**MKTG 3670**  
**Advertising and Promotion**  
3:3:0  
* Prerequisite(s): MKTG 3600 and University Advanced Standing

Fall, Spring

Provides an understanding of advertising, its purposes, and production. Includes sequence of activities in preparing productive, persuasive marketing and advertising campaign plans. Covers the social, legal, and economic considerations involved in the campaign planning process. Includes lectures, class discussions, guest speakers, videos, and student presentations. Lab access fee of $30 for computers applies.

**MKTG 3680**  
**Marketing with Social Media**  
3:3:0  
* Prerequisite(s): MKTG 3600 and University Advanced Standing

Teaches students how to use social media platforms to market products and services. Includes the creation and marketing of a blog using WordPress and engaging with a local small business to write and execute a social media marketing campaign. Teaches the fundamentals of social media marketing and the most popular platforms like WordPress, Facebook, Twitter, Pinterest, and LinkedIn.

**MKTG 3685**  
**Content Marketing**  
3:3:0  
* Prerequisite(s): MKTG 3600, University Advanced Standing, and matriculation in the Woodbury School of Business

Fall, Spring

Introduces content marketing which includes blogging, infographics, video, podcasts, and email marketing as a way to bring commercial marketing messaging to targeted customers through marketing channels. Provides experience with blogging software, photo and image design software, video editing software, and email automation software using WordPress and Email Marketing Automation.

**MKTG 3690**  
**Web Analytics and Digital Advertising**  
3:3:0  
* Prerequisite(s): MKTG 3660 and University Advanced Standing

Fall, Spring

Provides a live learning engagement project. Provides a framework for developing a complete digital marketing plan and gives students an opportunity to learn software, automation tools, and digital marketing creative strategy.

**MKTG 3695**  
**Digital Marketing Capstone**  
3:3:0  
* Prerequisite(s): MKTG 3660, MKTG 3685, MKTG 3690, University Advanced Standing, and matriculation in the Woodbury School of Business; Senior Standing is recommended.

Fall, Spring

Digital marketing theories, principles, and tactics to a live learning engagement project. Provides a framework for developing a complete digital marketing plan and gives students an opportunity to learn software, automation tools, and digital marketing creative strategy.

**MKTG 3890**  
**Career Preparation**  
3:3:0  
* Prerequisite(s): MKTG 2200 and University Advanced Standing

Fall, Spring, Summer

Provides opportunities to do a self-analysis, research industry and job opportunities, and internalize appropriate etiquette in a variety of business and social settings. Includes demonstrations, role playing and application exercises, and group projects. May be delivered online. Lab access fee of $30 for computers applies.

**MKTG 4220**  
**Management Communication**  
3:3:0  
* Prerequisite(s): MKTG 2200, Matriculation into the Bachelor's Degree Program, and University Advanced Standing

Spring

Studies elements of communication in management. Concentrates on written and oral communication in business settings and includes communicating electronically, managing conflict, and dealing with change. Lab access fee of $30 for computers applies.
MKTG 4300
Marketing Analytics
3:3:0 Fall, Spring
* Prerequisite(s): University Advanced Standing and MGMT 2340 or STAT 2040 or STAT 1040 or BESC 3010 or appropriate test scores

Uses software to apply specific models and analytic techniques to solve important and common marketing management problems. Models contemporary marketing problems using such analytic tools as SPSS, SEMTool, Sawtooth Software, CRM database software, and Bass Diffusion Modeling.

MKTG 4400
Competitive Intelligence

* Prerequisite(s): MKTG 3600 and University Advanced Standing

Teaches Competitive Intelligence (CI), the study of processes and techniques leading to business analysis applied to industry and company investigation. Overviews the Competitive Intelligence process including information collection, intelligence analysis, and intelligence process assessment.

MKTG 459R
Advanced Topics in Marketing
1 to 3:1 to 3:0
* Prerequisite(s): Department Chair Approval and University Advanced Standing

Provides exposure to emerging topics of current interest in marketing. Topics vary each semester. May apply a maximum of 12 hours toward graduation.

MKTG 4600
Marketing Research
3:3:0 Fall, Spring
* Prerequisite(s): MKTG 3600, MGMT 2340 or STAT 2040 or STAT 1040 or BESC 3010 or appropriate test scores, and University Advanced Standing

Covers managerial uses of marketing research in formulating marketing strategy. Includes determination of situations requiring research, appraisal of alternative research methods, and evaluation of studies. Presents theoretical concepts in research methodology. Includes lectures, class discussions, group projects, case analyses, oral presentations, written assignments, and speakers. Lab access fee of $30 for computers applies. Canvas Course Mats $78/McGraw applies

MKTG 4610
Sales Operations
3:3:0 Fall, Spring
* Prerequisite(s): MKTG 3650 and University Advanced Standing

Provides a diagnosis of sales problems and data-driven solutions including decision support, SPSS modeling, and an introduction to data mining. Covers sales forecasting, correlation, regression, and survival analysis, CRM analysis, and territory analysis and design. Presents analytical decisions such as independent versus direct representation, compensation effects, and account customer life-time value.

MKTG 4650
Marketing Management Capstone
3:3:0 Fall, Spring
* Prerequisite(s): MKTG 3600, MKTG 3620, MKTG 3650, MKTG 3660, MKTG 335G. Matriculation into the Woodbury School of Business and University Advanced Standing. For Marketing Majors only; Senior Standing is recommended.

Presents detailed marketing analysis skills, planning and control of various marketing mix variables, target markets, and the marketing environment using both oral and written case studies. Includes lectures, class discussions, videos, projects, case analyses, oral presentations, written assignments, and guest speakers.

MKTG 481R
Marketing Internship
1 to 3:1 to 3:0
* Prerequisite(s): Departmental Approval and University Advanced Standing

For upper-division students working toward a Bachelor of Science Degree in Marketing. Provides a transition from school to work where learned theory is applied to actual practice through meaningful on-the-job experience. May be repeated for a maximum of 6 credits toward graduation. May be graded credit/no credit.

MKTG 482R
Sales Internship
1 to 8:1 to 8:0 On Sufficient Demand
* Prerequisite(s): Departmental Approval and University Advanced Standing

For upper-division students working toward a Bachelor of Science Degree in Marketing. Provides a transition from school to work where learned theory is applied to actual practice through meaningful on-the-job experience. May be repeated for a maximum of 6 credits toward graduation. May be graded credit/no credit.

MKTG 483R
Digital Marketing Internship
1 to 8:1 to 8:0 On Sufficient Demand
* Prerequisite(s): Departmental Approval and University Advanced Standing

For upper-division students working toward a Bachelor of Science Degree in Marketing. Provides a transition from school to work where learned theory is applied to actual practice through meaningful on-the-job experience. May be repeated for a maximum of 6 credits toward graduation. May be graded credit/no credit.

MKTG 490R
Independent Study
1 to 3:1 to 3:0
* Prerequisite(s): Department Chair Approval

Provides independent study as directed in reading and individual projects specifically related to the Marketing field at the discretion and approval of the Dean and/or Department Chair. May be repeated for a maximum of 6 credits toward graduation.

MKTG 494R
Seminar
.5 to 3:5 to 3:0 On Sufficient Demand
* Prerequisite(s): Department Chair Approval and University Advanced Standing

Provides short courses, workshops, and special programs in business management, leadership, or current business topics. Repeatable for up to six credits toward graduation.

MKTG 4980
Research Seminar in Marketing
3:3:0 On Sufficient Demand
* Prerequisite(s): Department Chair Approval and University Advanced Standing

Studies the process of researching and writing for scholarly publication. Includes understanding the concepts of scholarly conversation; managing scholarship; choosing a marketing topic; identifying appropriate journals; using exemplars; creating a title and abstract; making an outline; developing an introduction and conclusion; writing the body of the paper; and then revising, submitting, and finally publishing in a scholarly journal.

MKTG 6400
Technology Marketing and Customer Experience
3:3:0 Fall, Spring, Summer

Teaches conceptual frameworks and analytical tools for marketing decision making in technology businesses from a cross-functional and strategic orientation. Focuses on understanding user needs, technology standards and network externalities, forecasting and planning, solution design and architecture, platform strategy, and managing adoption. Examines through cases, assignments, and projects how to use marketing analytics for intelligence gathering, analysis, and decision making, how to develop high-value solutions for users based on a deep understanding of their needs, and how to communicate the value of and provide access to those solutions through marketing technology.

MKTG 6600
Marketing Strategy
3:3:0 Summer
* Prerequisite(s): Acceptance in the MBA program

Analyzes current marketing management problems. Emphasizes marketing concepts, research techniques, decision making, and marketing strategy development.

MKTG 6620
Marketing Research and Analytics
3:3:0 Fall
* Prerequisite(s): Acceptance into MBA program

Explores tools and analysis techniques related to customer relationship management. Focuses on “thick” data research, including: ethnography, social listening, interviewing, and laddering. Utilizes research tools, such as survey design, web analytics, and eye-tracking technology, to collect and analyze data through factor analysis, cluster analysis, classification trees, and multidimensional scaling.

MKTG 6640
Brand, Product, and Services Management
3:3:0 Fall, Spring
* Prerequisite(s): Acceptance into MBA program

Focuses on the practice of advanced marketing management topics including: brand management, product management, product development, services marketing, pricing and conjoint analysis. Integrates forecasting including diffusion models and other tactics, resource allocation, and managing profit and loss statements.
Course Descriptions

MKTG 6660 Marketing Channels and Communications 3:3:0 Fall, Spring
* Prerequisite(s): Acceptance into MBA program
Explores key advanced marketing practices related to delivering and communicating value. Examines retailing, e-commerce, websites, personal selling, lead generation, digital marketing, as well as promotion and campaign management.

MKTG 6860 Applied Business Research 3:3:0 Fall
* Prerequisite(s): Acceptance into the Woodbury School of Business MBA program
Provides students with the capability to design and conduct applied business research projects in the varied disciplines as well as integrative across disciplines. Examines the philosophy of science, research design, measurement and scaling, reliability and validity, communication of research results, and related issues.

MKTG 6920 Creativity and Innovative Problem Solving 1.5:1:5:0 * Prerequisite(s): Acceptance into the Woodbury School of Business MBA program
Applies an understanding of the nature of creativity and expansive problem solving within the business environment through projects, simulations and/or case study. Provides awareness about individual and organizational characteristics which impact creative thinking and limit imaginative solutions.

Masters of Public Service (MPS)

MPS 6000 Public Services Administration 3:3:0 Fall
* Prerequisite(s): Acceptance into the Masters of Public Services Program
Explores senior level administrative functions within a public services organization. Analyzes and assesses positive and negative practices within public service organizations, including managerial actions and bureaucracy. May be delivered online.

MPS 6010 Public Services Finance and Budgeting 3:3:0 Summer
* Prerequisite(s): Acceptance into the Masters of Public Services Program
Analyzes financial and budgeting operations occurring in the public sector. Assesses funding streams, budget development, financial management concerns, and fiduciary responsibilities of public service leaders. May be delivered online.

MPS 6020 Public Services Policy and Evaluation 3:3:0 Spring
* Prerequisite(s): Acceptance into the Masters of Public Services Program
Provides the investigative, ethical, and development tools needed to form public policy and evaluate program success. Develops analysis skills to examine new ideas, test their viability, determine program needs, and organize to meet these needs. Designed to address how to make policy, how to assess if policy is working, and how to fix the flaws in existing policy. May be delivered online.

MPS 6030 Legal Issues for the Public Services 3:3:0 Fall
* Prerequisite(s): Acceptance into the Masters of Public Services Program
Evaluates the law and its application within the public services. Examines constitutional principles in relation to public service functions. May be delivered online.

MPS 6040 Organizational Behavior in the Public Services 3:3:0 Summer
* Prerequisite(s): Acceptance into the Masters of Public Services Program
Examines organizational behavior within the public services and compares and contrasts it to the private sector. Researches the public services to make comparisons and develop a theoretical basis, for use in administrative decision-making in dealing with organizations and their people. Applies conceptual frameworks, case discussions, and skill-oriented activities which include: motivation, learning and development, group dynamics, leadership, communication, power and influence, change, diversity, organizational design, and culture. Helps participants acquire skills and analytic concepts to improve organizational relationships and effectiveness.

MPS 6050 Public Services Leadership and Ethics 3:3:0 Spring
* Prerequisite(s): Acceptance into the Masters of Public Services Program
Analyzes leadership approaches within the public services. Identifies the need for people-centric leadership that serves both the public servants and the community. Uses case study analysis to differentiate between leadership approaches to people and the management of processes. Explores ethical issues in public service delivery. May be delivered online.

MPS 6060 Research Methods for the Public Services 3:3:0 Fall
* Prerequisite(s): Acceptance into the Masters of Public Services Program
Identifies qualitative and quantitative research methods within a public services framework. Introduces the impact social science discovery has on the formulation of public policy. Illustrates research designs utilized within qualitative and quantitative methodologies. May be delivered online.

MPS 6090 Public Services Program Development and Evaluation 3:3:0 Fall, Spring
* Prerequisite(s): Acceptance into the Master of Public Service Program
Provides program planning and evaluation responsibilities in public service settings. Focuses on the critical components of most planning models which include: performing a needs assessment; priority setting; creating a problem statement; establishing goals and objectives; developing and implementing interventions; evaluation; and budgeting.

MPS 679R Special Topics in Public Services 1 to 6:1 to 6:0 On Sufficient Demand
* Prerequisite(s): Acceptance into the Master of Public Service Program
* Prerequisite(s) or Corequisite(s): MPS 6060
Provides students with an opportunity to study and/or research special public service topics. Requires students to identify relevant topics of public services, analyze their issues and impacts, and synthesize possible solutions/ models for application in the public services arena. Calls for creation of a significant research paper worthy of communication to a broader peer audience. May be repeated for a maximum of 6 credits toward graduation.

MPS 690R Public Services Project 3:3:0 Summer
* Prerequisite(s): Acceptance into the Masters of Public Services Program
* Prerequisite(s) or Corequisite(s): MPS 6060
Teaches synthesis of public service/emergency services coursework and primary/secondary research in order to formulate a public policy or empirical work relating to public services administration. This course is intended to be successfully completed in one semester. In exigent circumstances, students may repeat this course for a total of 6 credits toward graduation, with departmental approval. May be delivered online.

Music (MUSC)

MUSC 1010 Introduction to Music 3:3:0 FF Fall, Spring, Summer
A survey course designed to make music more meaningful. Studies melody, harmony, form, and rhythm together with historical and biographical information. Canvas Course Mats $50/Norton

MUSC 101H Introduction to Music 3:3:0 FF On Sufficient Demand
Develops an appreciation and understanding of music. Studies melody, harmony, form, and rhythm. Focuses on the historical development of Western art music, including the contributions of major composers. Examines musical genres such as the chant, motet, madrigal, concerto grosso, opera, cantata, oratorio, symphony, music drama and tone poem. Practices the aural identification of specific compositions.
MUSC 102G  
Introduction to World Music  
3:3:0 Fall, Spring, Summer  
Explores diverse music throughout the world. Studies melody, harmony, form, and rhythm in international historical and cultural contexts.

MUSC 1030  
American Popular Music  
3:3:0 Fall, Spring, Summer  
Studies the emergence, development, and characteristics of American music including Jazz, Blues, Country, Rock, Motown, Hip-Hop, and other popular styles. Examines the contributions of European, African, Latin and other cultural traditions on American popular music. Studies the influences of mass media and technology. Examines the marketing and dissemination of popular music by the music industry. Studies the role of popular music as a symbol of race, class, gender, and generation. Fulfills the Fine Arts general education distribution requirement and addresses the Intellectual and Practical Skills Foundation essential learning outcomes of qualitative reasoning.

MUSC 1050  
Beginning Piano I  
2:2:0 Fall  
Provides group instruction for students with little or no piano and note-reading experience. Covers melodic and rhythmic notation, key recognition, and major and minor finger patterns. Teaches basic harmonization, transposition and improvisation. Course Lab fee of $20 for equipment applies.

MUSC 1060  
Beginning Piano II  
2:2:0 On Sufficient Demand  
Prerequisite(s): MUSC 1050  
Builds on the skills learned in Beginning Piano I. Studies notation, scales, chord progressions, sight-reading, basic harmonization, transposition, and improvisation.

MUSC 1070  
Group Piano I  
2:2:0 Fall, Spring  
Prerequisite(s): MUSC 1100 recommended  
Develops fundamental piano skills including five-finger major and minor scales, arpeggios, chord progressions, sight-reading, and performance. Prepares students for music major keyboard examinations. Course Lab fee of $20 for equipment applies.

MUSC 1150  
Group Piano I  
1:1:1 Fall, Spring  
Corequisite(s): MUSC 1110 recommended  
Develops fundamental piano skills including five-finger major and minor scales, arpeggios, chord progressions, sight-reading, and performance. Prepares students for music major keyboard examinations. Course Lab fee of $20 for equipment applies.

MUSC 1160  
Group Piano II  
1:1:1 Spring, Summer  
Corequisite(s): MUSC 1150 or equivalent proficiency examination  
Corequisite(s): MUSC 1120 recommended  
Builds on the skills learned in Group Piano I. Develops facility in two-octave major scales, arpeggios, chord progressions, sight-reading, harmonization, transposition, and performance. Prepares students for music major keyboard examinations. Course Lab fee of $20 for equipment applies.

MUSC 1170  
Group Guitar I  
2:2:0 Fall, Spring  
Prerequisite(s): MUSC 1170  
Teaches fundamental skills used in playing popular guitar styles. Covers essential left and right hand techniques as well as basic musical rudiments.

MUSC 1180  
Group Guitar II  
2:2:0 On Sufficient Demand  
Prerequisite(s): MUSC 1170  
Develops a variety of right and left hand techniques. Teaches both standard and tablature-style notation. Provides solo and ensemble performance opportunities.

MUSC 124R  
UVU Concert Choir  
1:2:0 Fall, Spring  
Provides group training in the various styles of choral literature. Basic skills in note reading, matching pitch and blending with the ensemble expected. Requires participation at scheduled performances. May be repeated as desired.

MUSC 125R  
University Band  
1:0:2 Fall, Spring  
Provides group training in the various styles of band literature. Requires participation at scheduled performances. May be repeated as desired.

MUSC 1310  
Aural Skills I  
1:1:1 Fall, Spring  
Corequisite(s): MUSC 1110  
Provides training in the aural identification of intervals and triads. Practices rhythmic dictation in simple meters, and melodic dictation of simple melodies. Studies the solfège movable “Do” system.

MUSC 1400  
Music Technology I  
2:2:0 Fall  
Prerequisite(s): MUSC 1400  
Builds on the concepts covered in Music Technology I. Examines the uses of Musical Instrument Digital Interface (MIDI) and virtual instruments in the modern Digital Audio Workstation (DAW). Studies in greater depth the historical and current uses of Musical Instrument Digital Interface (MIDI). Introduces the basics of a Digital Audio Workstation (DAW) and contemporary music notation. Software fee of $15 applies. Course Lab fee of $10 for computers applies.

MUSC 1402  
Music Technology II  
2:2:0 Spring  
Prerequisite(s): MUSC 1400  
Builds on the concepts covered in Music Technology I. Examines the uses of Musical Instrument Digital Interface (MIDI) and virtual instruments in the modern Digital Audio Workstation (DAW). Studies in greater depth the historical and current uses of Musical Instrument Digital Interface (MIDI). Introduces the basics of a Digital Audio Workstation (DAW) and contemporary music notation. Software fee of $15 applies. Course Lab fee of $10 for computers applies.

MUSC 1410  
Survey of Commercial Music Careers  
1:1:0 Fall  
Introduces optimal career paths in contemporary music. Covers careers including but not limited to film composition, arranging, production, film music editing, studio engineering, performance, and education. Emphasizes practical skills in entrepreneurship, marketing, and networking.

MUSC 145R  
Private Lessons I  
1:1:0 Fall, Spring, Summer  
Offers twelve 30-minute private lessons. Focuses on the individual needs of the student in developing skills and techniques. Requires personal practice as determined by instructor. Does not fulfill music major degree requirements. May be repeated as desired. Course fee of $270 for support applies.

MUSC 1630  
Group Voice I  
1:1:1 Fall, Spring  
Prerequisite(s): MUSC 1110 or equivalent proficiency examination  
Prerequisite(s): MUSC 1120 recommended  
Builds on the skills learned in Group Voice I. Develops facility in two-octave major scales, arpeggios, chord progressions, sight-reading, harmonization, transposition, and performance. Prepares students for music major keyboard examinations. Course Lab fee of $20 for equipment applies.

MUSC 1110  
Music Theory I  
3:3:0 Fall, Spring  
Corequisite(s): MUSC 1130  
Studies the fundamentals of music theory including elementary harmony, primary and secondary triads with inversions, non-harmonic tones and modulation.

MUSC 1120  
Music Theory II  
3:3:0 Spring, Summer  
Corequisite(s): MUSC 1110  
Corequisite(s): MUSC 1140  
Provides further study of the fundamentals of music theory. Covers the analysis and composition of music using leading tone triads, seventh chords, secondary dominants, sequences, voice leading and modulation.
Course Descriptions

MUSC 1640  
Group Voice II  
1:1:1  
On Sufficient Demand  
* Prerequisite(s): MUSC 1630 or instructor permission  
Provides more advanced group instruction in the development of vocal skills and techniques. Covers classical vocal production, breath management, English and Italian diction, performance anxiety and performance skills. Provides student performance of vocal literature from several genres and style periods.

MUSC 1800  
Introduction to Music Education  
3:3:1  
Fall  
Introduces the music education profession including history, philosophy, professional communities, career opportunities, and music teaching standards. Emphasizes the place of music and the arts in education, the role of government in schools, meeting the challenges of 21st century education. Covers personal, professional, and musical skills necessary for successful music teaching and learning. Requires observation of music classrooms in public and private school settings outside of scheduled class time. Includes micro teaching and a final portfolio and interview which culminates in matriculation to the music education degree.

MUSC 1810  
Contemporary Theory and Improvisation I  
3:3:0  
Fall  
Studies jazz and contemporary music theory and applies this knowledge to the practice of improvisation. Introduces chord symbol spelling and notation practices. Develops aural skills through transcription of jazz recordings. Analyzes jazz and popular songs including repertoire with diatonic chord progressions in major and minor keys, tunes with secondary dominants, and the twelve bar blues. Provides training in melodic, rhythmic, and creative improvisational strategies.

MUSC 2001  
Diction for Singers I  
1:1:1  
Fall  
Teaches the International Phonetic Alphabet (IPA) as it pertains to the English, Italian and Latin languages. Applies IPA directly to song literature for each language. Provides basic reading, comprehension, and grammar skills in the Italian and Latin languages. Course lab fee of $15 for support applies.

MUSC 2002  
Diction for Singers II  
1:1:1  
Spring  
Teaches proficiency in the International Phonetic Alphabet (IPA) as it pertains to the German and French languages. Applies IPA directly to song literature for each language. Provides basic reading, comprehension, and grammar skills in each language. Course lab fee of $15 for support applies.

MUSC 2100  
Teaching Music for Children FF  
3:3:0  
Fall  
For Elementary Education students and other interested students and community members. Introduces concepts and techniques of music education applicable to the elementary school classroom. Teaches concepts and skills through a combination of readings and lectures. Applies vocal and instrumental basics and class projects. Addresses the Utah State Core Curriculum for music for the elementary school.

MUSC 2110  
Music Theory III  
3:3:0  
Fall  
* Prerequisite(s): MUSC 1120  
Studies the diatonic and chromatic materials of common practice music theory. Covers the analysis and composition of music using chromatic chords such as secondary dominants, diminished seventh chords, Neapolitan chords, and Italian, French and German sixth chords. Practices multiple methods of modulation.

MUSC 2125  
Music Theory IV  
3:3:0  
Spring  
* Prerequisite(s): MUSC 2110  
Surveys compositional techniques used by post-tonal composers. Builds on the knowledge and skills learned in the tonal music theory classes.

MUSC 2130  
Aural Skills III  
1:1:1  
Fall  
* Prerequisite(s): MUSC 1140  
* Corequisite(s): MUSC 2110  
Provides training in the aural identification of intervals, triad inversions and chord progressions. Practices rhythmic dictation of syncopated rhythms and asymmetric and mixed meters, and melodic dictation of disjunct melodies and two-part dictation. Studies the solfege movable "Do" system in major, minor keys and modes with coordinating Kodaly hand signs.

MUSC 2140  
Aural Skills IV  
1:1:1  
Spring  
* Prerequisite(s): MUSC 2130  
Provides further training in the aural identification of intervals, triad inversions and chord progressions. Practices rhythmic dictation of complex rhythm patterns and asymmetric and mixed meters. Teaches four-part harmonic dictation. Completes study of the solfege movable "Do" system.

MUSC 2150  
Group Piano III  
1:1:1  
Fall  
* Prerequisite(s): MUSC 1160 or equivalent proficiency examination  
* Corequisite(s): MUSC 2110 recommended  
Builds on the skills learned in Group Piano II. Develops further facility in one-octave harmonic minor scales, arpeggios, chord progressions, sight-reading, harmonization, transposition, improvisation, and accompanying. Prepares students for music major keyboard proficiency examinations. Course lab fee of $20 for equipment applies.

MUSC 2160  
Group Piano IV  
1:1:1  
Spring  
* Prerequisite(s): MUSC 2150 or equivalent proficiency examination  
* Corequisite(s): MUSC 2125 recommended  
Builds on the skills learned in Group Piano III. Develops facility in two-octave major and harmonic minor scales, arpeggios, chord progressions, sight-reading, harmonization, transposition, improvisation in classical and contemporary styles, playing contemporary and jazz chord charts, and accompanying. Prepares students for music major keyboard proficiency examinations. Course lab fee of $20 for equipment applies.

MUSC 2170  
Jazz and Contemporary Keyboard Skills I  
1:1:1  
Fall  
* Prerequisite(s): MUSC 1160 or demonstration of equivalent keyboard proficiency  
Introduces and develops basic jazz keyboard voicings and chord construction, rhythmic comping for jazz and popular styles, simple improvisation with left hand voicings, and fake book reading skills. Covers the Blues, ii-V-I, dominant cycles, tritone substitutions, diminished passing chords, and turnarounds with secondary dominants.

MUSC 2180  
Jazz and Contemporary Keyboard Skills II  
1:1:1  
Spring  
* Prerequisite(s): MUSC 2170 or demonstration of equivalent keyboard proficiency  
Builds on the jazz and contemporary keyboard skills developed in MUSC 2170. Teaches complex open and closed position chord voicings using 4, 5, and 6 notes, including chords built in fourths. Develops hand independence through the performance of composed and improvised melodies in the right hand while comping with the left hand. Develops advanced melodic and harmonic techniques over the Blues, ii-V-I, dominant cycles, tritone substitutions, diminished passing chords, and turnarounds with secondary dominants.

MUSC 2210  
Contemporary Theory and Improvisation II  
2:2:0  
Spring  
* Prerequisite(s): MUSC 1810  
Builds on skills and knowledge developed in MUSC 1810. Introduces modal harmony and develops techniques for modal jazz improvisation. Develops improvised chromatic embellishment techniques including passing tones, neighbor tones, and enclosures. Develops bebop improvisation techniques including syncopated accent patterns and #9 connectors. Introduces chord symbols and harmonic progressions not covered in MUSC 1810. Develops improvisational strategies for borrowed chords, altered chords, diminished chords, tritone substitutions, side-slipping, and dense harmonic rhythm (two chords per measure). Introduces symmetrical scales (whole tone and octatonic) and their application to tonal and modal improvisation.

MUSC 2350  
Fundamentals of Conducting  
2:2:0  
Fall, Spring  
* Prerequisite(s): MUSC 1120  
Provides an introduction to the basics of conducting. Focuses on baton technique, score reading, interpretation and rehearsal.
MUSC 2400 Digital Audio Workstation 2:2:0 Fall
* Prerequisite(s): MUSC 1402 or Music Technology Certificate major
Introduces the Digital Audio Workstation, including shortcuts and commands for maximizing effectiveness and understanding within the workstation. Covers the basics of the software interface, audio and MIDI recording and editing, effects and creating a final project. Software fee of $15 applies. Course Lab fee of $10 for computers applies.

MUSC 2420 Music Production Basics 2:2:0 Spring
* Prerequisite(s): MUSC 2400
Introduces the basics of music production. Analyzes various aspects of contemporary music including sound and part selection for each instrument in the rhythm section. Discusses various recording and production techniques used in current music productions. Introduces students to technical production tools and techniques including but not limited to phasers, chorus, flange, delay, echo, reverb, compression, eq, filters, and distortion. Introduces the students to common production pitfalls such as overproduction. Software fee of $15 applies. Course Lab fee of $10 for computers applies.

MUSC 245R Private Lessons II 1:1:0 Fall, Spring, Summer
Offers twelve 60-minute private lessons. Designed to meet the individual needs of the student in developing skills and techniques. Does not fulfill music major degree requirements. May be repeated as desired. Course fee of $443 for support applies.

MUSC 250R Private Lessons for Music Majors 1:1:0 Fall
* Prerequisite(s): Music major entrance audition required.
* Corequisite(s): MUSC 251R
Offers twelve 60-minute private lessons for music majors. Focuses on the individual needs of the student in developing skills and techniques. Requires participation in weekly performance class. Includes juried evaluations. May be repeated as desired. Course fee of $443 for support applies.

MUSC 251R Performance Class 1:1:0 Fall, Spring, Summer
* Corequisite(s): MUSC 250R
Provides additional performance experience for music majors. Develops an ability to offer and receive constructive criticism. Explores performance-related topics such as practice strategies, performance anxiety, interpretive phrasing, technical mastery, memorization and jury preparation. May be repeated for a maximum of 12 credits toward graduation.

MUSC 281R Internship in Music I 1 to 8:1 to 8:0 On Sufficient Demand
* Prerequisite(s): Departmental Approval
Provides an opportunity for students to receive college credit and explore career options in music by working in music-related fields. Applies academic concepts to actual work experiences. Requires approval of faculty sponsor and completion and acceptance of application. Requires completion of an orientation, completion of Master Agreement between UVU and employer, completion of goals and tasks as required by academic department, and completion of final evaluation. May be repeated for a total of 8 credits towards graduation. May be graded credit/no credit.

MUSC 290R Independent Study 1 to 3:0:3 to 9 On Sufficient Demand
* Prerequisite(s): Instructor permission and advisor approval
Individual projects to be negotiated by student and instructor on a case-by-case basis to be approved by the departmental advisor. May be repeated for a maximum of 4 credits toward graduation.

MUSC 3005 Vocal Literature I 1:1:1 Fall
* Prerequisite(s): MUSC 1120 and University Advanced Standing
Presents an overview of the English and Italian art song literature from 1500 to present. Provides performance training of stylistic elements appropriate for each time period.

MUSC 3006 Vocal Literature II 1:1:1 Spring
* Prerequisite(s): MUSC 3005 and University Advanced Standing
Presents an overview of the French and German art song literature from 1500 to present. Provides performance training of stylistic elements appropriate for each time period.

MUSC 3025 Songwriting I 2:2:0 Fall
* Prerequisite(s): MUSC 1400 and University Advanced Standing
Studies the creative processes and techniques involved in commercial songwriting. Covers the essential elements of lyric writing, setting lyrics to melody, and utilizing functional harmony. Explores the process of developing a production plan for a song demo. Software fee of $15 applies. Course Lab fee of $10 for computers applies.

MUSC 3026 Songwriting II 2:2:0 Spring
* Prerequisite(s): MUSC 3025 and University Advanced Standing
Expands on the skills learned in Songwriting I. Focuses on the demands of commercial music projects, including the creation of lyrics and songs that have mass appeal. Discusses the professional expectations of writing on demand in a specific musical style for requisitioned purposes. Covers the business aspects of songwriting including demos, property rights, publishing, and marketing options. Software fee of $15 applies. Course Lab fee of $10 for computers applies.

MUSC 3030 Jazz and Contemporary Arranging I 2:2:0 Fall
* Prerequisite(s): MUSC 1402, MUSC 2210 and University Advanced Standing
Develops skills in jazz arranging for small instrumental ensembles including trumpet, trombone, saxophone, piano, guitar, bass, and drum set. Develops arranging strategies such as instrumental textures (homophony, polyphony, unison, and combination texture), harmonization using approach techniques (diminished approach, chromatic approach, dominant approach, etc.), and voicing techniques (4-way close, drop 2, quartal voicings, slash chords). Implements strategies for planning and executing a successful arrangement. Offers the opportunity for students to have their arrangements performed and recorded by a UVU Jazz Combo.

MUSC 3031 Jazz and Contemporary Arranging II 2:2:0 Spring
* Prerequisite(s): MUSC 3030 and University Advanced Standing
Develops advanced arranging techniques for large instrumental jazz ensembles. Examines and analyzes scores by major composers. Offers students the opportunity to create original arrangements for large jazz ensemble.

MUSC 306R Advanced Keyboard Skills 1:0:2 Fall, Spring
* Corequisite(s): MUSC 250R or MUSC 450R or MUSC 455R
Provides advanced study in piano technique, sight-reading, and ensemble skills. Develops pedagogical skills through masterclasses and teaching beginners. May be repeated for maximum of 12 credits toward graduation.

MUSC 3120 Form and Analysis 3:3:0 Fall, Spring
* Prerequisite(s): MUSC 2110 and University Advanced Standing
Explores the structure, meaning and organization of music. Concentrates on the standard practices of European-sphere music since 1600. Teaches techniques for understanding and classifying musical structure. Places techniques and knowledge from the first three semesters of music theory into a comprehensive whole.
Course Descriptions

MUSC 3150
Advanced Instrumental Conducting
2:2:0 Spring
* Prerequisite(s): MUSC 2350 and University Advanced Standing
Teaches advanced baton techniques, score preparation and basic rehearsal procedures for instrumental ensembles.

MUSC 320R
Masterworks Chorale
1:0:3 On Sufficient Demand
* Prerequisite(s): Audition
Provides group training in the various styles of choral literature. Requires attendance at scheduled performances. May be repeated as desired. Course fee of $20 for support applies.

MUSC 322R
Women's Choir
1:0:3 Fall, Spring
* Prerequisite(s): Audition
Provides female vocalists the opportunity to perform in a select group of treble singers. Studies music of various styles and periods. Requires participation in concerts, programs, and tours. May be repeated as desired. Course fee of $20 for support applies.

MUSC 324R
Chamber Choir
1:0:4 Fall, Spring
* Prerequisite(s): Audition
For the advanced singer desiring experience in choral performance. Provides the opportunity of performing in a small group of select singers. Studies music of various styles and periods. Requires participation in concerts, programs, and tours. May be repeated as desired. Course fee of $20 for support applies.

MUSC 327R
Men's Choir
1:0:3 Fall, Spring
* Prerequisite(s): Audition
Provides male vocalists with advanced individual and ensemble training. Includes emphasis on auditioning, rehearsal and performance etiquette, and ensemble skills and dynamics. Requires participation in concerts, programs, and tours. May be repeated as desired. Course Lab fee of $15 for support applies.

MUSC 328R
Winds Symphony
2:1:0 Spring
* Prerequisite(s): Audition
Improves musical performance skills by participation in the band. Studies and performs serious concert literature. Requires attendance at all concerts, performances, tours and acquisition of performance attire. May be repeated as desired.

MUSC 330R
Wind Symphony
1:0:4 Fall, Spring
* Prerequisite(s): Audition
Implements the identification of audience and client and the process of supplying products appropriate to their needs. Includes advertising, client relations, social media, and creating an online presence. Explores the development of marketing strategies for music projects and basic music accounting practices. Covers sync fees, performance rights organizations (PRO), and multiple streams of income through royalties. Software fee of $15 applies. Course Lab fee of $10 for computers applies.

MUSC 331R
Percussion Ensemble
1:0:3 Fall, Spring
* Prerequisite(s): Audition
Provides percussion ensemble experience. Emphasis on sight reading and music performance skills. Attendance is expected at all concerts, rehearsals, and tours. May be repeated as desired.

MUSC 332R
Jazz Orchestra
1:0:4 Fall, Spring
* Prerequisite(s): Audition
Provides the advanced instrumentalist the opportunity to perform traditional and contemporary repertoire for large jazz ensemble. Improvisational and sight-reading skills are emphasized. Requires attendance at all performances. May be repeated as desired.

MUSC 333R
Small Jazz and Commercial Ensembles
1:0:2 Fall, Spring
* Prerequisite(s): Audition
Provides the advanced instrumentalist and vocalist the opportunity to perform in small ensembles specializing in jazz and other commercial styles including, pop, rock, country, funk, reggae, hip hop, etc. Emphasizes improvisation, rhythmic skills, and knowledge of harmony. Requires attendance at all performances. May be repeated as desired.

MUSC 334R
Vocal Jazz
1:0:2 Fall, Spring
* Prerequisite(s): Audition
Provides opportunities to perform band literature for athletic events, including home games, playoffs and championships. Requires participation at all rehearsals and assigned games. May be repeated as desired.

MUSC 335R
Instrumental Jazz
1:0:2 Fall, Spring
* Prerequisite(s): Audition
Provides the advanced instrumentalist and vocalist the opportunity to perform in small ensembles specializing in jazz and other commercial styles including, pop, rock, country, funk, reggae, hip hop, etc. Emphasizes improvisation, rhythmic skills, and knowledge of harmony. Requires attendance at all performances. May be repeated as desired.

MUSC 336R
Music and Entrepreneurship
1:1:0 Fall, Spring
* Prerequisite(s): MUSC 250R and University Advanced Standing
Covers the history of European music from the Baroque era to the present. Surveys periods, genres, composers, and development of music from Baroque to present. Emphasizes musical meaning, style and interpretation.

MUSC 3415
Instrumental Pedagogy and Literature I
2:2:0 Fall
* Prerequisite(s): University Advanced Standing
* Prerequisite(s) or Corequisite(s): MUSC 2110
Provides students the opportunity to study the pedagogy and literature of their major instrument. Examines various pedagogical approaches and incorporates in-class teaching demonstrations. Includes the selection of appropriate solo and chamber literature for advanced levels.

MUSC 3416
Instrumental Pedagogy and Literature II
2:2:0 Spring
* Prerequisite(s): MUSC 3415 and University Advanced Standing
Provides students the opportunity to study the pedagogy and literature of their major instrument. Examines various pedagogical approaches and incorporates in-class teaching demonstrations. Includes the selection of appropriate solo and chamber literature for advanced levels.

MUSC 3420
Music Career Development
3:3:0 Fall
* Prerequisite(s): MUSC 3415 and University Advanced Standing
Covers the history of European music from the Baroque era to the present. Surveys periods, genres, composers, and development of music from Baroque to present. Emphasizes musical meaning, style and interpretation.

MUSC 3430
Music History and Literature I
3:3:0 Fall
* Prerequisite(s): MUSC 2150 and University Advanced Standing
Covers the history of European music from the Baroque era to the present. Surveys periods, genres, composers, and development of music from Baroque to present. Emphasizes musical meaning, style and interpretation.

MUSC 3440
Music History and Literature II
3:3:0 Spring
* Prerequisite(s): MUSC 3430 and University Advanced Standing
Covers the history of European music from the Baroque era to the present. Surveys periods, genres, composers, and development of music from Baroque to present. Emphasizes musical meaning, style and interpretation.

MUSC 3450
Music History and Literature I
3:3:0 Fall
* Prerequisite(s): MUSC 2150 and University Advanced Standing
Covers the history of European music from the Baroque era to the present. Surveys periods, genres, composers, and development of music from Baroque to present. Emphasizes musical meaning, style and interpretation.

MUSC 3451
Music History and Literature II
3:3:0 Spring
* Prerequisite(s): MUSC 3450 and University Advanced Standing
Covers the history of European music from the Baroque era to the present. Surveys periods, genres, composers, and development of music from Baroque to present. Emphasizes musical meaning, style and interpretation.

MUSC 360R
Commercial Music Private Lessons
1:1:0 Fall, Spring, Summer
* Prerequisite(s): MUSC 250R and University Advanced Standing
Offers twelve 30-minute private lessons. Focuses on the individual needs of the student, developing skills and techniques in commercial composition, production, or improvisation. May be repeated as desired. Course fee of $270 for private instruction applies.

MUSC 3620
Jazz Ensemble
1:1:1 Fall, Spring
* Prerequisite(s): MUSC 250R and University Advanced Standing
Prepares music education majors in the pedagogy and methods of percussion instruments for beginning players.
MUSC 3621
Percussion Techniques II
1:1:1  On Sufficient Demand
* Prerequisite(s): MUSC 3620 and University Advanced Standing

Prepares music education majors in the pedagogy and methods of percussion instruments for intermediate players in secondary school programs.

MUSC 3630
Vocal Techniques
1:1:1  Spring Odd Year
* Prerequisite(s): University Advanced Standing
* Prerequisite(s) or Corequisite(s): MUSC 2110

Provides an introduction to vocal pedagogy and basic choral concepts for music education majors. Focuses on principles of healthy vocal production. Covers vocal anatomy, breath energy, phonation, resonance, articulation, registration, warm-ups, basic diction, ensemble singing, and working with adolescent voices. Involves solo and ensemble singing, rehearsal conducting, and private teacher observations.

MUSC 3649
String Techniques I
1:1:1  Fall Even Year
* Prerequisite(s): University Advanced Standing
* Prerequisite(s) or Corequisite(s): MUSC 2110

Studies the pedagogical process of a beginning and intermediate string class. Covers strategies for the recruitment and organization of an orchestra program. Discusses the selection and maintenance of string instruments, accessories and supplies.

MUSC 3650
String Techniques II
1:1:1  On Sufficient Demand
* MUSC 3649 and University Advanced Standing

Provides additional instruction in string performance skills. Studies the pedagogical process of an advanced string class. Covers the planning and execution of effective rehearsals. Discusses choices for method books and orchestra literature.

MUSC 3659
Woodwind Techniques I
1:1:1  Fall Odd Year
* Prerequisite(s): University Advanced Standing
* Prerequisite(s) or Corequisite(s): MUSC 2110

Teaches basic performing skills on the clarinet and saxophone including tone production, articulation, registers and fingerings. Studies pedagogical processes, methods and literature. Covers strategies for the recruitment and organization of a band program. Discusses instrument selection and maintenance, reeds and accessories.

MUSC 3660
Woodwind Techniques II
1:1:1  On Sufficient Demand
* Prerequisite(s): MUSC 3659 and University Advanced Standing

Provides performance instruction on the flute, oboe, and bassoon. Studies pedagogical processes and choices for method books and band literature. Covers the planning and execution of effective rehearsals. Discusses instrument selection and maintenance, reeds and accessories.

MUSC 3679
Brass Techniques I
1:1:1  Spring Even Year
* Prerequisite(s): University Advanced Standing
* Prerequisite(s) or Corequisite(s): MUSC 2110

Teaches basic performing skills on the trumpet and French horn. Studies the assembly, mechanism, embouchure formation, tone, breath control, intonation and fingerings of each instrument. Discusses brand selection, accessories, equipment supplies and instrument care. Covers pedagogical processes, repertoire and method resources.

MUSC 3680
Brass Techniques II
1:1:1  On Sufficient Demand
* Prerequisite(s): MUSC 3679 and University Advanced Standing

Provides basic performance instruction on the trombone, euphonium and tuba. Studies the assembly, mechanism, embouchure formation, tone, breath control, intonation and fingerings of each instrument. Covers rehearsal strategies and literature selection. Discusses choices for instrument brands, accessories and supplies.

MUSC 3690
Jazz Practicum
1:1:1  On Sufficient Demand
* Prerequisite(s): (MUSC 3659 or MUSC 3679) and University Advanced Standing

Provides a practical study of basic jazz performance, improvisation, transcription, styles, history and rehearsal techniques. Prepares students to teach jazz.

MUSC 3700
Chamber Orchestra
1:0:4  Fall, Spring
* Prerequisite(s): Audition
* Prerequisite(s): University Advanced Standing

Provides smaller orchestra experience. Improves individual and ensemble performance skills. Studies and performs serious concert literature from all periods of music history. Requires attendance at all concerts, rehearsals, tours and acquisition of performance attire. May be repeated as desired.

MUSC 370R
Symphony Orchestra
1:0:4  Fall, Spring
* Prerequisite(s): Audition
* Prerequisite(s): University Advanced Standing

Provides opportunity to improve musical performance skills by participating in orchestra. Studies and performs serious concert literature from all periods of music history. Requires attendance at all concerts, rehearsals, tours and acquisition of performance attire. May be repeated as desired.

MUSC 372R
Chamber Orchestra
1:0:2  Fall, Spring
* Prerequisite(s): Audition
* Prerequisite(s): University Advanced Standing

Provides smaller orchestra experience. Improves individual and ensemble performance skills. Studies and performs serious concert literature from all periods of music history. Attendance is expected at all concerts, rehearsals, and tours. Audition is required. May be repeated as desired.

MUSC 373R
Advanced Small Ensembles
1:0:2  Fall, Spring
* Prerequisite(s): Instructor Approval
* Prerequisite(s): University Advanced Standing

Provides opportunities for performing in small groups of select musicians. Studies music of various styles and periods. Some public performances will be required. May be repeated as desired.

MUSC 379R
Studio Recording Workshop
1:0:2  Spring
* Prerequisite(s): University Advanced Standing
* Prerequisite(s) or Corequisite(s): MUSC 2110

Provides performance opportunities in a contemporary recording studio environment. Examines the interrelating roles of performer, engineer, and producer. May be repeated for a maximum of 6 credits toward graduation. Lab access fee of $10 for computers applies. Software fee of $140 for computers applies.

MUSC 3800
Junior Recital
1:0:3  Fall, Spring, Summer
* Prerequisite(s): University Advanced Standing
* Corequisite(s): MUSC 450R or MUSC 455R

Provides a solo recital experience for students during their junior year.

MUSC 410R
Music Composition
2:2:0  Fall
* Prerequisite(s): University Advanced Standing
* Prerequisite(s): University Advanced Standing

Builds on compositional techniques for music majors. Explores historical and contemporary techniques, repertoire, and concepts with an emphasis on creating and performing an original piece. Provides opportunities for students to explore their own creative process and demonstrate their knowledge through composition projects. May be repeated for a maximum of 8 credits toward graduation. Software fee of $15 applies. Course Lab fee of $10 for computers applies.

MUSC 4130
Scoring and Arranging
2:2:0  Fall
* Prerequisite(s): MUSC 3120 and University Advanced Standing

Studies techniques of scoring and arranging music for orchestra, band, choir and small ensembles. Software fee of $15 applies. Course Lab fee of $10 for computers applies.

MUSC 4140
Counterpoint
3:3:0  Not Offered
* Prerequisite(s): MUSC 3120 and University Advanced Standing

Teaches the techniques of combining melodic voices in a historical context. Covers concepts from the entire span of music history since the emergence of polyphony around the twelfth century. Emphasizes the disciplines of sixteenth- and eighteenth-century counterpoint. Software fee of $15 applies. Course Lab fee of $10 for computers applies.

MUSC 4150
Advanced Choral Conducting
2:2:0  Spring
* Prerequisite(s): MUSC 2350 and University Advanced Standing

Develops advanced baton techniques, score preparation and basic rehearsal procedures for choral organizations. Explores advanced tools of coordination and musicianship, and covers communication and score analysis.
MUSC 420R
Film Scoring
2:2:0 Spring
* Prerequisite(s): MUSC 410R and University Advanced Standing

Covers theoretical concepts, creative and collaborative methods, and practical experiences in the process of creating music for film and video. Includes elements of film score history, dramatic structure, collaboration, spotting, musical structure and form (including leitmotif and variation), timing, temp tracks, digital mockups and production demos, recording and mixing film music, copyright and contractual concerns, developing a portfolio of musical scoring work. Activities include lecture/discussion of theoretical principles, analysis of masterworks in the film music genre, and production of a student-scored film/video clip. May be repeated as desired. Software fee of $140 applies. Course Lab fee of $10 for computers applies.

MUSC 4221
Advanced Choral Literature and Methods
2:2:1 Fall
* Prerequisite(s): MUSC 2350 and University Advanced Standing

Studies the process of developing a successful school choral program. Analyzes the quality of choral literature and its suitability for various skill levels. Studies effective rehearsal management strategies. Examines current resources and systems for choral program administration. Develops skills in singing, score analysis, conducting techniques, section leading, and microteaching.

MUSC 4240
Vocal Pedagogy
2:2:0 Fall
* Prerequisite(s): MUSC 2002 and University Advanced Standing

Provides instruction centered on the art and science of vocalization as it pertains to teaching in a studio scenario and in personal study. Presents varied teaching methods for vocal instruction in group and one-to-one situations. Provides students the opportunity to teach and receive immediate peer and instructor evaluations on the efficacy of their teaching style and lesson content.

MUSC 423R
Opera Workshop
1:0:4 Fall, Spring
* Corequisite(s): MUSC 250R or MUSC 450R
* Prerequisite(s) or Corequisite(s): MUSC 455R

Provides experience performing scenes from opera. Explores the techniques of dramatic characterization and stage craft. Addresses the process of character analysis. Discusses the control of performance anxiety. Practices the basic techniques of stage makeup and costuming. Develops advanced-level singing proficiency. May be repeated for a maximum of 12 credits toward graduation. Course Lab fee of $100 for support applies.

MUSC 420R
Film Scoring
2:2:0 Spring
* Prerequisite(s): MUSC 410R and University Advanced Standing

Covers theoretical concepts, creative and collaborative methods, and practical experiences in the process of creating music for film and video. Includes elements of film score history, dramatic structure, collaboration, spotting, musical structure and form (including leitmotif and variation), timing, temp tracks, digital mockups and production demos, recording and mixing film music, copyright and contractual concerns, developing a portfolio of musical scoring work. Activities include lecture/discussion of theoretical principles, analysis of masterworks in the film music genre, and production of a student-scored film/video clip. May be repeated as desired. Software fee of $140 applies. Course Lab fee of $10 for computers applies.

MUSC 4221
Choral Literature and Methods
2:2:1 Fall
* Prerequisite(s): MUSC 4220 and University Advanced Standing

Studies the process of developing a successful school choral program. Analyzes the quality of choral literature and its suitability for various skill levels. Studies effective rehearsal management strategies. Examines current resources and systems for choral program administration. Develops skills in singing, score analysis, conducting techniques, section leading, and microteaching.

MUSC 4240
Vocal Pedagogy
2:2:0 Fall
* Prerequisite(s): MUSC 2002 and University Advanced Standing

Provides instruction centered on the art and science of vocalization as it pertains to teaching in a studio scenario and in personal study. Presents varied teaching methods for vocal instruction in group and one-to-one situations. Provides students the opportunity to teach and receive immediate peer and instructor evaluations on the efficacy of their teaching style and lesson content.

MUSC 423R
Opera Workshop
1:0:4 Fall, Spring
* Corequisite(s): MUSC 250R or MUSC 450R
* Prerequisite(s) or Corequisite(s): MUSC 455R

Provides experience performing scenes from opera. Explores the techniques of dramatic characterization and stage craft. Addresses the process of character analysis. Discusses the control of performance anxiety. Practices the basic techniques of stage makeup and costuming. Develops advanced-level singing proficiency. May be repeated for a maximum of 12 credits toward graduation. Course Lab fee of $100 for support applies.

MUSC 420R
Film Scoring
2:2:0 Spring
* Prerequisite(s): MUSC 410R and University Advanced Standing

Covers theoretical concepts, creative and collaborative methods, and practical experiences in the process of creating music for film and video. Includes elements of film score history, dramatic structure, collaboration, spotting, musical structure and form (including leitmotif and variation), timing, temp tracks, digital mockups and production demos, recording and mixing film music, copyright and contractual concerns, developing a portfolio of musical scoring work. Activities include lecture/discussion of theoretical principles, analysis of masterworks in the film music genre, and production of a student-scored film/video clip. May be repeated as desired. Software fee of $140 applies. Course Lab fee of $10 for computers applies.

MUSC 4221
Choral Literature and Methods
2:2:1 Fall
* Prerequisite(s): MUSC 4220 and University Advanced Standing

Studies the process of developing a successful school choral program. Analyzes the quality of choral literature and its suitability for various skill levels. Studies effective rehearsal management strategies. Examines current resources and systems for choral program administration. Develops skills in singing, score analysis, conducting techniques, section leading, and microteaching.

MUSC 4240
Vocal Pedagogy
2:2:0 Fall
* Prerequisite(s): MUSC 2002 and University Advanced Standing

Provides instruction centered on the art and science of vocalization as it pertains to teaching in a studio scenario and in personal study. Presents varied teaching methods for vocal instruction in group and one-to-one situations. Provides students the opportunity to teach and receive immediate peer and instructor evaluations on the efficacy of their teaching style and lesson content.

MUSC 423R
Opera Workshop
1:0:4 Fall, Spring
* Corequisite(s): MUSC 250R or MUSC 450R
* Prerequisite(s) or Corequisite(s): MUSC 455R

Provides experience performing scenes from opera. Explores the techniques of dramatic characterization and stage craft. Addresses the process of character analysis. Discusses the control of performance anxiety. Practices the basic techniques of stage makeup and costuming. Develops advanced-level singing proficiency. May be repeated for a maximum of 12 credits toward graduation. Course Lab fee of $100 for support applies.
**Course Descriptions**

**National Security Studies (NSS)**

**NSS 2010**
**Introduction to National Security**
3:3:0  Fall, Spring
* Prerequisite(s): ENGL 2010; HIST 1700 or HIST 2700 or POLS 1100 or CJ 1010
Categorizes elements of the national security field. Explores the national security system, focusing on contemporary issues. Analyzes formulation and execution of national security policy through diplomacy, intelligence operations, and military force.

**NSS 301R**
**National Security Area Studies**
3:3:0  Fall, Spring
* Prerequisite(s): University Advanced Standing; Certain topics may be repeated for a maximum of 9 credits toward graduation.
Examines the national security issues associated with a particular geographic area in the global community. May be repeated for a maximum of 9 credits toward graduation.

**NSS 3050**
**US Intelligence Community**
3:3:0  Summer
* Prerequisite(s): University Advanced Standing
Examines the US Intelligence Community (IC) and its core responsibilities and processes. Assesses the IC's two-fold role to support policy makers and operations, the customer-driven intelligence production cycle, how national foreign intelligence requirements are generated and prioritized, what activities are authorized and which activities are prohibited, intelligence oversight by Congress, and privacy concerns. Evaluates the missions, roles, responsibilities, and authorities of the (IC) constituent agencies and assess the IC's intelligence collection disciplines.

**NSS 4210**
**Law of War**
3:3:0  On Sufficient Demand
* Prerequisite(s): University Advanced Standing; POLS 1100, HIST 1700, HIST 2700, or CJ 1010
Examines the law that governs situations of armed conflict, including the history and development of the law. Assesses major contemporary issues in this area of the law, to include detention policy, drone warfare, terrorism as a tactic of war, and preemptive force.

**NSS 4250**
**National Security Career Strategies**
3:3:0  Summer
* Prerequisite(s): NSS 2010; University Advanced Standing
Emphasizes the development of effective techniques for successfully locating, applying for and securing employment as well as advancing in a National Security-related career path. Includes industry and job research, demonstration, role play, development of writing materials, and application exercises. Provides preparation for internship and career entry experience.

**NSS 4300**
**Intelligence Cycle and Collections**
3:3:0  Spring
* Prerequisite(s):NSS 2010, NSS 3050, and University Advanced Standing
Describes the intelligence collection and production cycle. Evaluates the nature, organization, activities, and key issues surrounding the methods of intelligence and counterintelligence collection. Examines historical development and utilization of the dominant collection activities, including human intelligence, geospatial intelligence, signals intelligence, measurement and signature intelligence, and their role in American statecraft. Explores significant policy issues related to intelligence collection in the U.S. experience, including legal, moral, ethical, organizational, strategic, and performance issues, and measures of effectiveness. Applies specific skills in writing and open source intelligence collection.

**NSS 4400**
**Statecraft and Strategy**
3:3:0  Spring
* Prerequisite(s): NSS 2010
Analyzes the theory, history, practice, and challenges of statecraft and strategy in U.S. national security. Examines the various methods of statecraft that are available to policymakers. Evaluates how these methods have been used successfully in the pursuit of national interests and purposes. Assesses instruments of national power, including military power; economic strategy; intelligence; the use of information, disinformation, and propaganda; various types of diplomacy; political, moral, and psychological influence; and other instruments of soft power.

**NSS 4600**
**National Security Law**
3:3:0  Spring
* Prerequisite(s): University Advanced Standing; POLS 1100, HIST 1700, HIST 2700, or CJ 1010
Evaluates the distribution of national security powers amongst the three branches of government. Reviews the laws and policies that govern the legality of war, military operations in wartime, intelligence collection, protection of national security information, foreign intelligence surveillance, covert action, special military operations, offensive counterterrorism operations, detention and interrogation of terrorism suspects, and other current issues in the national security area.

**NSS 475R**
**Current Topics in National Security**
3:3:0  Fall, Spring
* Prerequisite(s): University Advanced Standing; POLS 1100, HIST 1700, HIST 2700, or CJ 1010
Presents selected topics in National Security and will vary each semester. Requires a special project related to the area of study. May be repeated with different topic areas for a maximum of 9 credits toward graduation.

**MUSC 4785**
**Student Teaching Seminar**
2:2:0  Fall, Spring
* Prerequisite(s): University Advanced Standing
Provides support for the student teaching experience. Includes classroom management, ongoing content mentorship, supervision of conducting and score preparation, faculty and peer feedback, and assistance with senior portfolio. Requires written assignments and off-campus peer observations.

**MUSC 4800**
**Senior Recital**
1:0:3  Fall, Spring, Summer
* Prerequisite(s): University Advanced Standing
* Corequisite(s): MUSC 450R or MUSC 455R R
Provides a solo recital experience for students during their senior year.

**MUSC 481R**
**Internship in Music II**
1 to 8:1 to 8:0  Fall, Spring, Summer
* Prerequisite(s): Departmental Approval and University Advanced Standing
Provides an opportunity for upper-division students to receive college credit and work in a music-related field. Offers students the opportunity to focus on a specific career path and prepare themselves to enter the profession. Applies academic concepts to actual work experiences. Requires approval of faculty sponsor and completion and acceptance of application. Also requires completion of an orientation, completion of Master Agreement between UVU and employer, completion of goals and tasks as required by academic department, and completion of final evaluation. May be repeated for a total of 8 credits towards graduation. May be graded credit/no credit.

**MUSC 490R**
**Advanced Independent Study**
1 to 3:0 to 9  Fall, Spring, Summer
* Prerequisite(s): MUSC 3120 and University Advanced Standing
Individual projects to be negotiated by student and instructor on a case-by-case basis. May be repeated for a maximum of 12 credits toward graduation.

**MUSC 492R**
**Advanced Topics in Music**
1 to 3:1 to 3:0  Spring
* Prerequisite(s): MUSC 3120, departmental approval, and University Advanced Standing; Certain topics may require other prerequisite
Examines advanced topics in music. Examples could include historical, theoretical, or pedagogical topics such as Schenkerian analysis or 16th century counterpoint. May be repeated for a maximum of 9 credits toward graduation. Software fee of $140 applies. Course Lab fee of $10 for computers applies.

**MUSC 4800**
**Senior Recital**
1:0:3  Fall, Spring, Summer
* Prerequisite(s): University Advanced Standing
* Corequisite(s): MUSC 450R or MUSC 455R R
Provides a solo recital experience for students during their senior year.

**MUSC 481R**
**Internship in Music II**
1 to 8:1 to 8:0  Fall, Spring, Summer
* Prerequisite(s): Departmental Approval and University Advanced Standing
Provides an opportunity for upper-division students to receive college credit and work in a music-related field. Offers students the opportunity to focus on a specific career path and prepare themselves to enter the profession. Applies academic concepts to actual work experiences. Requires approval of faculty sponsor and completion and acceptance of application. Also requires completion of an orientation, completion of Master Agreement between UVU and employer, completion of goals and tasks as required by academic department, and completion of final evaluation. May be repeated for a total of 8 credits towards graduation. May be graded credit/no credit.

**MUSC 490R**
**Advanced Independent Study**
1 to 3:0 to 9  Fall, Spring, Summer
* Prerequisite(s): MUSC 3120 and University Advanced Standing
Individual projects to be negotiated by student and instructor on a case-by-case basis. May be repeated for a maximum of 12 credits toward graduation.

**MUSC 492R**
**Advanced Topics in Music**
1 to 3:1 to 3:0  Spring
* Prerequisite(s): MUSC 3120, departmental approval, and University Advanced Standing; Certain topics may require other prerequisite
Examines advanced topics in music. Examples could include historical, theoretical, or pedagogical topics such as Schenkerian analysis or 16th century counterpoint. May be repeated for a maximum of 9 credits toward graduation. Software fee of $140 applies. Course Lab fee of $10 for computers applies.
Course Descriptions

NSS 4800
Intelligence Analysis and Tradecraft
3:3:0 Spring
* Prerequisite(s): University Advanced Standing
Appraises structured analytic techniques commonly embraced as sound tradecraft within the Intelligence Community (IC) and applies these techniques in the context of actual intelligence cases. Applies the structured analytic techniques of decomposition and visualization, idea generation, scenarios and indicators, hypothesis generation and testing, assessment of cause and effect, challenge analysis, and decision support. Evaluates IC analytic standards and discuss ethical considerations.

NSS 481R
National Security Internship
1 to 9:1 to 9:0 Fall, Spring, Summer
* Prerequisite(s): University Advanced Standing
Provides academic credit for work for students in a paying or non-paying (volunteer) job for a national security employer or other approved related situation. Emphasizes successful work experience with emphasis on identifying and solving problems. May be repeated for a maximum of 9 credits toward graduation. May be graded credit/no credit.

NSS 491R
Directed Readings and Special Projects in National Security
1 to 3:1 to 3:0 Summer
* Prerequisite(s): University Advanced Standing
Offers independent study as directed in reading, individual projects, etc., at the discretion and approval of the department chair. May be repeated for a maximum of 9 credits.

NSS 4990
National Security Capstone Seminar
3:3:0 On Sufficient Demand
* Prerequisite(s): NSS 2010, NSS 301R, NSS 4600, NSS 475R, and University Advanced Standing
Includes readings and discussions about a variety of complex national security problems and issues. Offers directed research project tailored to each student's special interests.

NSS 6500
US National Security Policy and Strategy
3:3:0 Spring
* Prerequisite(s): Acceptance into the Masters of Public Services Program or department approval
Examines how the United States formulates national security policy and strategy. Analyzes conceptual foundations, organizational structures and functions, decision-making processes, and priority issues in US national security. Assesses the role and authorities of the President and Executive Branch, congressional oversight, national security policy development and implementation, the implementation and limits of national power, the role of intelligence, the relevant legal frameworks, and specific national security challenges.

NSS 6600
State Responses to Terrorism-Counterterrorism in a Collaborative Environment
3:3:0 Spring
* Prerequisite(s): Acceptance into the Masters of Public Services Program
Outlines how federal, state, and local law enforcement have developed a standardized information sharing process in an effort to mitigate terror attacks. Analyzes state fusion centers, intelligence-led policing, community engagement, and multi-agency emergency response plans. Utilizes practical lecture, table top exercise, and case studies, to demonstrate how states act independently to prevent, thwart, and mitigate acts of terror stemming from domestic terrorists, transnational terrorist organizations, and inspired lone offenders.

NSS 6700
Intelligence Analysis and Tradecraft
3:3:0 Fall
* Prerequisite(s): Acceptance into the Masters of Public Services Program
Appraises structured analytic techniques commonly embraced as sound tradecraft within the Intelligence Community (IC) and applies these techniques in the context of actual intelligence cases. Applies the structured analytic techniques of decomposition and visualization, idea generation, scenarios and indicators, hypothesis generation and testing, assessment of cause and effect, challenge analysis, and decision support. Evaluates IC analytic standards and discuss ethical considerations.

NSS 6800
U.S. Military-Strategy and Structure
3:3:0 Fall
* Prerequisite(s): Acceptance into the Masters of Public Services Program
Examines the U.S. Military services, commands, and agencies, and its core responsibilities and processes. Assesses the historical roles that the U.S. Military has played in American national security policy. Evaluates the United States' military strategy. Evaluates the relationship between strategy and structure in current U.S. military doctrine and policy.

Nursing (NURS)

NURS 2210
Practical Nurse to Registered Nurse
1:1:0 Fall, Spring
* Prerequisite(s): Licensure as a Practical Nurse; acceptance into ASN in Nursing program.
Introduces the role of the registered nurse in providing patient-centered, safe, and quality care for adults in health care settings. Emphasizes the use of assessment to plan patient care and evaluate patient outcomes. Includes the functions of the registered nurse in the interprofessional healthcare team.

NURS 2220
Nursing Health Assessment
1:1:0 Fall, Spring
* Prerequisite(s): Acceptance into ASN/BS Nursing program
Corequisite(s): NURS 2305
Introduces the role of the registered nurse in providing patient-centered, safe, and quality care for adults in health care settings. Emphasizes the use of assessment to plan patient care and evaluate patient outcomes. Includes the functions of the registered nurse in the interprofessional healthcare team.

NURS 2300
Nursing Health Assessment Laboratory
1:0:3 Fall, Spring
* Prerequisite(s): Acceptance into ASN/BS Nursing program
Corequisite(s): NURS 2300
**Prerequisite(s) or Corequisite(s): NURS 2320
Integrates knowledge, behaviors and skills from current and previous courses in lab and simulation settings. Provides opportunities to perform health assessments. Prepares students to enter the clinical setting. Course Lab fee of $55 applies.

NURS 2310
Nursing Pharmacology
3:3:0 Fall, Spring
**Prerequisite(s): CHEM 1110 and ZOOL 2320
Corequisite(s): CHEM 1110 and ZOOL 2420
Introduces the role of the registered nurse in providing patient-centered, safe, and quality care for adults in health care settings. Emphasizes the use of assessment to plan patient care and evaluate patient outcomes. Includes the functions of the registered nurse in the interprofessional healthcare team.
NURS 2325
Nursing Practice Simulation and Skills Lab I
2:0:6 Fall, Spring
* Prerequisite(s): Acceptance into ASN/BS Nursing program
* Corequisite(s): NURS 2320
* Prerequisite(s) or Corequisite(s): NURS 2300
Provides opportunity to practice safe patient care for patients across the lifespan. Integrates knowledge, behaviors and skills from current and previous courses in lab, simulation and clinical settings. Prepares students to engage in the clinical setting and provide basic nursing care. Course Lab fee of $112 applies.

NURS 2410
Nursing Care of Adults with Common Health Needs
3:3:0 Fall, Spring
* Prerequisite(s): NURS 2320
* Corequisite(s): NURS 2415
* Prerequisite(s) or Corequisite(s): NURS 2420
Incorporates theories of nursing care for adult patients with common health needs and builds upon concepts learned in current and previous courses. Emphasizes pharmacotherapeutics, clinical judgment, and health assessment, promotion, and teaching in caring for patients with common health needs. Integrates standards of nursing practice in caring for patients and their support systems. Course fee of $68 for online assessment & review tools applies.

NURS 2415
Nursing Care of Adults with Common Health Needs Clinical
2:0:6 Fall, Spring
* Prerequisite(s): NURS 2320
* Corequisite(s): NURS 2410
* Prerequisite(s) or Corequisite(s): NURS 2420
Provides clinical opportunities to care for adult patients with common physiologic problems in healthcare settings. Incorporates pharmacotherapeutics, clinical judgment, and health assessment, promotion, and teaching in management of patients with common health needs. Integrates standards of nursing practice in delivery of care to patients and their support systems.

NURS 2420
Nursing Care of the Aging Population
2:2:0 Fall, Spring
* Prerequisite(s): NURS 2300, NURS 2310
* Corequisite(s): NURS 2410
Introduces the aging process and changes with aging. Identifies special needs of older adults and nursing interventions to meet those needs. Prepares students to meet the needs of the increasing elderly population including caring for patients with chronic illnesses and end-of-life concerns. Includes a service learning component requiring visits to a community setting with active seniors.

NURS 2430
Mental Health Nursing
2:2:0 Fall, Spring
* Prerequisite(s): NURS 2300, NURS 2310
* Corequisite(s): NURS 2435
Examines psychosocial and neurobiological aspects of disorders of cognition, mood, and behavior. Explores trends in nursing and interprofessional care of persons with psychiatric disorders. Integrates standards of nursing practice in the core for patients with mental health needs and their support systems.

NURS 2435
Mental Health Nursing Clinical
1:0:3 Fall, Spring
* Prerequisite(s): NURS 2300, NURS 2310, NURS 2320
* Corequisite(s): NURS 2430
Provides clinical opportunities to care for patients with mental health needs. Integrates standards of nursing practice in delivery of care to patients and their support systems with an emphasis on mental health care.

NURS 2445
Nursing Practice/Simulation/Skills Lab II
1:0:3 Fall, Spring
* Prerequisite(s): NURS 2305 and NURS 2325
* Corequisite(s): NURS 2410
Integrates nursing knowledge, behaviors, and skills from current and previous courses in lab and simulation settings. Prepares students for care of patients with common health needs, mental health needs, and conditions related to aging. Course lab fee of $68 applies.

NURS 3310
Nursing Care of Child Bearing Families
2:2:0 On Sufficient Demand
* Prerequisite(s): NURS 2410 and University Advanced Standing
* Corequisite(s): NURS 3315
Builds on concepts learned in previous and concurrent courses to provide nursing care to families in the reproductive years. Emphasizes the child-bearing family, including physiological and psychosocial adaptation to pregnancy, birth, and the immediate newborn period, and disorders of the reproductive patient. Integrates nursing process in providing a holistic, collaborative approach to clients and families in secondary and tertiary settings such as physician offices, labor and delivery, mother/baby, clinical simulation, and others.

NURS 3315
Nursing Care of Child Bearing Families Clinical
1:0:3 On Sufficient Demand
* Prerequisite(s): NURS 2410 and University Advanced Standing
* Corequisite(s): NURS 3310
Provides clinical opportunities to provide nursing care to families in the reproductive years. Emphasizes the child-bearing family, including physiological and psychosocial adaptation to pregnancy, birth, and the immediate newborn period, and disorders of the reproductive patient. Integrates nursing process in providing a holistic, collaborative approach to clients and families in secondary and tertiary settings such as physician offices, labor and delivery, mother/baby, clinical simulation, and others.

NURS 3320
Nursing Care of Child Rearing Families
2:2:0 Fall
* Prerequisite(s): NURS 3310, NURS 3315, and University Advanced Standing
* Corequisite(s): NURS 3325
Integrates previously mastered principles of medical surgical nursing and normal child growth and development with the knowledge and skill to promote, maintain, and restore child health within the sociocultural context of the family. Explores application of the nursing process to safely meet common health problems of children from infancy through adolescence in clinical settings ranging from the laboratory to intensive care.

NURS 3325
Nursing Care of Child Rearing Families Clinical
1:0:3 Fall
* Prerequisite(s): NURS 3310, NURS 3315, and University Advanced Standing
* Corequisite(s): NURS 3320
Safely applies the nursing process to meet health problems of children from infancy through adolescence in clinical settings ranging from the laboratory to intensive care. Integrates previously mastered principles of medical surgical nursing and normal child growth and development with the knowledge and skill to promote, maintain, and restore child health within the sociocultural context of the family.

NURS 3330
Nursing Care of Individuals with Complex Health Needs
2:2:0 Fall, Spring
* Prerequisite(s): NURS 2410 and University Advanced Standing
* Corequisite(s): NURS 3335
* Prerequisite(s) or Corequisite(s): ZOOL 4400 highly recommended
Incorporates concepts learned in current and previous courses into principles of nursing care for patients with complex health needs. Emphasizes pathophysiology, pharmacotherapeutics, monitoring, and interventions required in caring for patients in acute and unstable conditions. Integrates standards of nursing practice in caring for patients and their support systems. Course fee of $68 for online assessment & review tools applies.

NURS 3335
Nursing Care of Individuals with Complex Health Needs Clinical
2:2:0 Fall, Spring
* Prerequisite(s): NURS 2410 and University Advanced Standing
* Corequisite(s): NURS 3330
* Prerequisite(s) or Corequisite(s): ZOOL 4400 highly recommended
Provides clinical opportunities to care for patients with complex health needs. Incorporates pathophysiology, pharmacotherapeutics, monitoring, and interventions required in management of patients in acute and unstable conditions. Integrates standards of nursing practice in delivery of care to patients and their support systems.
NURS 3340  
Nursing Care of Women Children and Developing Families  
3:3:0  Fall, Spring  
* Prerequisite(s): NURS 2415 and University Advanced Standing  
* Corequisite(s): NURS 3345  
Explores application of the nursing process to address health issues of women, children and developing families. Emphasizes safety and quality of nursing care.

NURS 3345  
Nursing Care of Women Children and Developing Families Clinical  
1:0:3  Fall, Spring  
* Prerequisite(s): NURS 2415 and University Advanced Standing  
* Corequisite(s): NURS 3340  
Provides clinical and/or laboratory opportunities to apply the nursing process to address health issues of women, children and developing families.

NURS 3355  
Nursing Practice/Simulation/Skills Lab III  
1:0:3  Fall, Spring  
* Prerequisite(s): NURS 2445 and University Advanced Standing  
* Corequisite(s): NURS 3330  
Integrates nursing knowledge, behaviors, and skills from current and previous courses in lab and simulation settings. Prepares students to care for women, children, developing families, and individuals with complex and critical conditions. Course Lab fee of $44 applies.

NURS 3400  
Patient Care Coordination and Management  
1:1:0  Fall, Spring  
* Prerequisite(s): NURS 3330, NURS 3335, and University Advanced Standing  
* Corequisite(s): NURS 3405  
Focuses on the core roles of the nurse as a provider of care, manager of care, and member of the profession. Incorporates aspects of evidence-based nursing practice. Explores the scope of nursing practice related to national and local healthcare regulations. Course fee of $68 for online assessment & review tools applies.

NURS 3405  
Patient Care Coordination and Management Preceptorship  
2:0:6  Fall, Spring  
* Prerequisite(s): NURS 3330, NURS 3335, and University Advanced Standing  
* Corequisite(s): NURS 3400  
Provides clinical experiences in coordinating and managing the care of a small group of patients. Focuses on the core roles of the nurse as a provider of care, manager of care, and member of the profession. Incorporates aspects of delegation, prioritization, time management, communication, and group dynamics.

NURS 3420  
Mentoring in Nursing  
1:1:0  Fall, Spring  
* Prerequisite(s): NURS 2320 and University Advanced Standing  
Provides an opportunity for students to develop personal leadership and mentoring skills as they work with other nursing students and/or patients.

NURS 3440  
Pharmacology for the Practicing Nurse  
2:2:0  Fall, Spring  
* Prerequisite(s): NURS 3330 and University Advanced Standing  
Emphasizes clinical judgement, patient teaching, and evaluation of patient outcomes. Explores in depth the pharmacodynamics, pharmacokinetics, and pharmacotherapeutics of medications and complementary and integrative health therapies.

NURS 3445  
Nursing Practice Simulation and Skills Lab IV  
1:0:3  Fall, Spring  
* Prerequisite(s): NURS 3355 and University Advanced Standing  
Integrates nursing knowledge, behavior, and skills from current and previous courses in lab and simulation settings. Prepares students for entry-level practice as a registered nurse. Course Lab fee of $30 applies.

NURS 4120  
Rapid Response Concepts across the Lifespan  
2:2:0  Fall  
* Prerequisite(s): Completion of an Associate degree in nursing.  
Prepares registered nurses to respond to, stabilize and transport adult and pediatric patients experiencing life threatening emergencies in hospital and prehospital settings. Enhances skills in the diagnosis and treatment of patients requiring care by a rapid response team, through didactic instruction and active participation in simulated cases. Course Lab fee of $50 applies.

NURS 4130  
Critical Care in Nursing  
2:2:0  Spring  
* Prerequisite(s): NURS 3330 and University Advanced Standing  
Expands upon nursing care of individuals with complex disorders. Focuses on nursing in the critical care setting and includes specialized topics such as: nursing assessment, equipment, diagnostic tests, medication administration, ECG monitoring and standard nursing care of the client with an acute illness.

NURS 4210  
Concepts in Child Bearing  
2:2:0  Fall  
* Prerequisite(s): NURS 3310 and University Advanced Standing  
Introduces the student to special concepts related to the child bearing family, including legal and ethical questions that relate to childbirth. Discusses local and global issues in childbearing.

NURS 4220  
Palliative Care in Nursing  
3:3:0  Fall, Spring  
* Prerequisite(s): NURS 2410 and University Advanced Standing  
Describes the principles of palliative care nursing throughout the illness trajectory. Explores personal emotions, beliefs and values in understanding the nature of suffering. Examines basic principles of palliative care within a quality of life framework.

NURS 4230  
Promoting Active Senior Lifestyles  
2:1:3  Fall  
* Prerequisite(s): University Advanced Standing  
* Prerequisite(s) or Corequisite(s): NURS 2410, NURS 2415, and NURS 2420  
Explores the importance of an active lifestyle throughout the lifespan. Includes service learning experiences in health screening, health promotion teaching, and observation of active senior adults. May require overnight travel.

NURS 4300  
Nursing Theory  
2:2:0  Spring  
* Prerequisite(s): NURS 2410 and University Advanced Standing  
Examines various nursing models and theories which influence current nursing practice. Explores essential and interdependent relationships among knowledge, theory, research, and nursing practice. Assists students to conduct a basic assessment of a theory and gain insight into the development of their individual philosophies of nursing practice.

NURS 4320  
Nursing in the Community  
2:2:0  Fall, Spring, Summer  
* Prerequisite(s): NURS 3405 and University Advanced Standing  
* Corequisite(s): NURS 4325  
Explores professional nursing practice in community-based and community-focused settings to promote and preserve the health of populations. Emphasizes nursing's impact on behaviors that promote health and reduce risk. Includes principles of family and community assessments, epidemiology, and environmental health.

NURS 4325  
Nursing in the Community Clinical  
1:0:3  Fall, Spring, Summer  
* Prerequisite(s): NURS 3405 and University Advanced Standing  
* Corequisite(s): NURS 4320  
Applies professional nursing practice in community-based and community-focused settings to promote and preserve the health of populations. Utilizes family and community assessments, epidemiological and environmental health principles to plan and implement health promotion and risk reduction programs within the community.
NURS 4340 Genomics in Nursing and Health
2:2:0 Fall, Spring
* Prerequisite(s): NURS 3330 and University Advanced Standing
Explores the expanding science of genomics and related fields, with emphasis on implications for nursing practice. Examines current and developing genetic and genomic concepts and technologies as they relate to nursing practice and health.

NURS 441G Nursing in Global Perspective
3:3:0 Fall, Spring
* Prerequisite(s): NURS 2300 and University Advanced Standing
Explores nursing and health care issues in a global perspective to promote culturally competent health care in a diversifying population.

NURS 4500 Nursing Leadership
3:3:0 Fall, Spring
* Prerequisite(s): NURS 3405 and University Advanced Standing
Explores leadership concepts and assists students to develop knowledge and skills necessary for leadership in nursing care delivery. Discusses leadership concepts related to nursing roles as providers of care, managers of care and members of the profession.

NURS 4510 Clinical Assessment and Reasoning
2:2:0 Fall, Spring
* Prerequisite(s): NURS 3405 and University Advanced Standing
Develops skills of systematic history taking, clinical examination and clinical reasoning with a focus on people with complex health problems. Explores critical thinking skills and habits as well as nursing process and other clinical judgment models.

NURS 4520 Navigating Health Systems
3:3:0 Fall, Spring
* Prerequisite(s): NURS 3405 and University Advanced Standing
Examines health systems, including the relationships between delivery, access, utilization and patient outcomes. Explores how organizational and economic structures, political, sociocultural, and legal factors influence the design and functions of health services.

NURS 4540 Research and Theory in Nursing Practice
4:4:0 Fall, Spring
* Prerequisite(s): NURS 3330, completion of a university-level statistics course with a minimum C or higher and University Advanced Standing
Prepares nurses to find, evaluate and apply evidence as a foundation to propose creative, innovative, or evidence-based solutions to clinical practice problems. Explores selected nursing theories and conceptual models, fundamentals of the research process, and relationships between theory, practice and research.

NURS 4550 Quality and Safety in Nursing
3:3:0 Fall, Spring
* Prerequisite(s): NURS 3330 and University Advanced Standing
Explores quality and safety initiatives in health care. Develops knowledge and skills to create and maintain a culture of quality and safety through monitoring and improving outcomes of care processes.

NURS 481R Internship in Nursing
1 to 3:1 to 3:0 Summer
* Prerequisite(s): Department Chair approval and University Advanced Standing
Provides supervised, practical, clinical experience for students preparing for careers in Nursing. May be repeated for a maximum of 3 credits toward graduation. May be graded credit/no credit.

NURS 489R Undergraduate Research in Nursing
1 to 4:0:5 to 20 On Sufficient Demand
* Prerequisite(s): NURS 2410, Department approval, and University Advanced Standing
Provides nursing students the opportunity to conduct research mentored by a faculty member. Students will create a significant intellectual or creative product worthy of publication or presentation. May be repeated for a maximum of 4 credits toward graduation.

NURS 490R Special Topics in Nursing
1 to 4:1 to 4:0 Fall, Spring, Summer
* Prerequisite(s): NURS 2410 and University Advanced Standing
Explores and examines special topics in nursing. Focuses on special topics of current relevance to the profession of nursing, including societal impacts of topics. Allows nursing students an opportunity to investigate special nursing topics in an in-depth manner. May be repeated for a maximum of 4 credits toward graduation.

NURS 495R Independent Study in Nursing
1 to 3:0:3 to 9 Fall, Spring, Summer
* Prerequisite(s): NURS 2410, Departmental approval, and University Advanced Standing
Provides students an opportunity to pursue independent study in nursing with a faculty mentor. Includes any combination of literature reviews, original research, participation in departmental and independent projects. Requires preparation and presentation of oral and/or written reports. May be repeated for up to 3 credits toward graduation.

NURS 6000 Leadership Development
2:2:0 Fall
* Prerequisite(s): Admission into the Master of Science in Nursing (MSN) program or Department approval
Provides opportunities for students to examine the role of the graduate nurse leader of the 21st century. Explores requisite skills necessary to lead in complex environments, facilitate improved patient outcomes, and institute quality improvement strategies as they gain an understanding of the interconnectedness of academia and service and apply professional leadership concepts in an interdisciplinary context.

NURS 6050 Nursing Informatics
2:2:0 Fall
* Prerequisite(s): Admission into the MSN program or Department approval
Introduces nursing informatics theory, evolving practice applications, and skill development. Discusses human factors essential to effective application of nursing informatics in practice. Applies technical skills and processes for the integration of nursing informatics into nursing education and clinical practice settings.

NURS 6200 Advanced Nursing Theory
2:2:0 Fall
* Prerequisite(s): Admission into the MSN program or Department approval
Provides students opportunities to critique and deconstruct extant and emerging theories as they relate to nursing. Explores the relationships among theory, knowledge, science, and evidence-based nursing practice. Facilitates the advancement of nursing practice based on theoretical principles.

NURS 6250 Advanced Nursing Research
3:3:0 Fall
* Prerequisite(s): Admission into the MSN program or Department approval
Prepares students to explore, critique, synthesize, and utilize appropriate research findings to resolve nursing problems and improve outcomes. Incorporates various research designs in the development of nursing practice. Applies research methodology and ethical considerations in development of a research proposal for evidence-based practice.

NURS 6300 Advanced Nursing in Health Systems and Policy
2:2:0 Spring
* Prerequisite(s): Admission into the MSN program or Department approval
Prepares students for their role in becoming change agents within the workforce. Provides students opportunity to critique current healthcare policies, including the effects policies have on current nursing practice, and current health care systems. Identifies changes that need to occur in order to advance nursing and health care in the future.

NURS 6350 Advanced Nursing Pathophysiology/Pharmacology
3:3:0 Spring
* Prerequisite(s): Admission into the MSN program or Department approval
Focuses on pathophysiological and pharmacological processes across the lifespan and the development of clinical reasoning skills that distinguish the relationships between normal physiology and the specific system alterations produced by injury and disease. Gives particular attention to etiology, pathogenesis, developmental and environmental influences and the clinical manifestations of major health problems with pharmaco logical interventions to students enrolled in the nursing education program.
NURS 6450
Advanced Nursing Assessment
3:3:0 Fall
* Prerequisite(s): Admission to the MSN program or departmental approval.
Introduces concepts of advanced health assessment of individuals, families, and communities. Emphasizes application of advanced assessment techniques to perform focused and comprehensive health assessments for patients across the lifespan. Utilizes diagnostic reasoning as the primary means of collecting and analyzing data. Incorporates ethical and cultural factors in care plan development.

NURS 6500
Curriculum Design and Development
3:3:0 Spring
* Prerequisite(s): Admission to the MSN Program or Departmental approval
Explores curriculum design and development in nursing and incorporates reviewing, restructuring, and developing curricula to meet identified learning needs. Enhances student skill and understanding of curricular processes designed to foster and advance nursing education.

NURS 6600
Teaching Nursing in the Classroom Setting
2:2:0 Spring
* Corequisite(s): NURS 6605
Focuses on facilitating learning in classroom settings. Incorporates aspects of the philosophy of adult education and adult learning theory, the teaching process and self-evaluation through reflective thinking/processing.

NURS 6605
Teaching Nursing in the Classroom Setting Practicum
2:0:6 Spring
* Corequisite(s): NURS 6600
Focuses on application of teaching/learning skills in the nursing classroom setting. Incorporates aspects of the philosophy of adult education and adult learning theory, the teaching process and self-evaluation through reflective thinking/processing. Provides practicum experience in the teaching/learning environment.

NURS 6650
Teaching Nursing in the Clinical Setting
2:2:0 Spring
* Prerequisite(s): Admission to MSN program
* Corequisite(s): NURS 6655
Focuses on effective teaching skills for clinical settings. Establishes teacher-learner relationships as being different than in the didactic setting.

NURS 6655
Teaching Nursing in the Clinical Setting Practicum
2:0:6 Spring
* Prerequisite(s): Admission to MSN program
* Corequisite(s): NURS 6650
Focuses on applying effective teaching skills for clinical settings. Establishes teacher-learner relationships as being different than in the didactic setting.

NURS 6700
Evaluation of Learning Outcomes
3:3:0 Fall
* Prerequisite(s): Admission to MSN program
Explores the application of various methods of evaluation, measurement and grading of learning outcomes. Applies assessment techniques to various aspects of nurse education.

NURS 6795
Synthesis of Teaching Practice Practicum
1:0:3 Fall
* Prerequisite(s): Admission to MSN program
Provides the opportunity for individualized synthesis of learning in the nurse educator role in clinical and/or academic settings. Incorporates the standards of practice and core competencies for the nurse educator.

NURS 699R
MSN Thesis Continuation Registration
1 to 6:0:3 to 18 Fall, Spring
* Prerequisite(s): NURS 697R
Provides students the opportunity to continue registration in the completion of thesis including original research on a particular subject within the discipline of nursing. May be repeated with department approval.

Nutrition (NUTR)

NUTR 1020
Foundations of Human Nutrition
3:3:0 Fall, Spring, Summer
For students interested in various health care professions. Considers basic principles of human nutrition. Studies factors that influence nutritive requirements and maintenance of nutritional balance. Examines relationships between proper nutrition and social, mental and physical well-being. Canvas Course Mats $56/ McGraw applies

NUTR 2020
Nutrition Through the Life Cycle
3:3:0 Fall, Spring
* Prerequisite(s): NUTR 1020
For students interested in various health care professions, particularly professions in nutrition, dietetics, and food sciences. Studies application of nutrition principles to the human life cycle. Includes nutrient functions, needs, sources, and alterations during pregnancy, lactation, growth, development, maturation, and aging.

Physical Education Sports (PES)

PES 1010
Aerobics I
1:5:1.5 Fall, Spring, Summer
A co-ed aerobic dance-exercise class that introduces aerobic conditioning principles designed to develop cardiovascular/respiratory systems, strength, coordination, and flexibility. Teaches choreographed routines involving jogging, dancing, and vigorous exercise set to music.

PES 1050
Powertone
1:5:1.5 Fall, Spring, Summer
For students interested in strength and weight training in a group exercise setting. Utilizes bar/bells, weights, bands, medi-balls, stability balls, and ropes set to music to present a total muscle conditioning class that is target-specific.

PES 1055
Pilates I CoreMax Training
1:5:1.5 Fall, Spring, Summer
A contemporary approach to Pilates exercise. A total body workout that challenges and optimizes strength, flexibility and endurance. Incorporates FlexBands, BOSU, stability balls, weighted balls, fitness circle and matwork to assist individuals in achieving optimal health and well-being. All exercises are designed to lengthen the body, strengthen the mid-section (core & spine), and improve posture and flexibility.

PES 1057
Power Yoga
1:5:1.5 Fall, Spring, Summer
For students interested in bringing balance to both body and mind. Presents a vigorous and powerful approach using Ashtanga, Anusara, and Hatha Yoga's. Uses flowing progressive postures, meditative awareness, and breath control.

PES 1085
Weight Training I
1:5:1.5 Fall, Spring, Summer
An introductory weight training course which provides the student with the needed information to develop a personalized strength program. Teaches proper lifting techniques. Demonstrates methods to increase muscular strength and endurance. Includes lab. Course fee of $25 for equipment applies.

PES 1086
Weight Training II
1:5:1.5 Fall, Spring
An individualized intermediate course for students who wish to continue their weight training program. Students will write their own program and set standards of goals that are attainable throughout the training period. Course fee of $25 for equipment applies.

PES 1087
Weight Training III
1:5:1.5 Not Offered
* Prerequisite(s): PES 1086 or instructor approval
An advanced course for students and varsity athletes who wish to maintain their individualized weight training program. Students will write their own program and set standards or goals that are attainable throughout the training period.
PES 1097 Fitness for Life TE 2:2:0 Fall, Spring, Summer
Provides information, tools, and skills to aid students in engaging in an active, healthy lifestyle throughout life. Offers the opportunity to learn about exercise program design, physiological adaptations that underlie fitness, and strategies to maintain an active lifestyle across the lifespan. Features access to high quality exercise facilities. Requires participation in exercise 2-3 days per week outside of the scheduled class activities. Stresses comprehensive principles in health, wellness, physical activity, and fitness assessment. Canvas Course Mats $66/McGraw applies.

PES 1100 Tennis I 1:5:1.5 Fall, Spring, Summer
Covers the basic concepts of the game. Teaches general tennis skills including scoring, forehand, backhand, overhead, volley and net game, and service. Teaches basic tennis rules and strategy techniques. Includes labs, lectures, audio-visual, practice and inter-class participation. Taught on block only.

PES 1101 Tennis II 1:5:1.5 Fall, Spring
Covers more advanced techniques of tennis. Includes volley and half volley (net game) and technical shots - drop, lob and top spin. Includes labs, lectures, audio-visual, practice and inter-class participation. Covers the more competitive strategies for both singles and doubles. Taught on block only.

PES 1105 Badminton 1:5:1.5 Not Offered
Covers basic concepts of badminton. Includes scoring, forehand, backhand, overhead, net game, and service. Studies strategy techniques for both singles and doubles. Uses labs, lectures, audio-visual, practice and inter-class participation. Emphasizes skills, fundamentals, conditioning, and rules of the sport.

PES 1110 Racquetball I 1:5:1.5 Fall, Spring, Summer
Covers basic fundamentals of racquetball. Teaches the skills, rules and strategies necessary to play and enjoy racquetball. Uses demonstrations and labs, practice and inter-class participation.

PES 1111 Racquetball II 1:5:1.5 Fall, Spring
Includes advanced skills, rules and strategies in singles, doubles and cut-throat matches. Uses demonstration and labs, practice and inter-class participation. Successful completers should have developed a minimum of Level C skills.

PES 1130 Golf I 1:5:1.5 Fall, Spring, Summer
A beginning course designed to teach students fundamental techniques, rules and etiquette of the game. Includes instruction on equipment and golf techniques such as grip, stance, and swing. Provides practice rounds leading to in-class tournaments. Uses demonstrations and labs, practice and inter-class participation. Taught on block only.

PES 1131 Golf II 1:5:1.5 Fall, Spring
Designed to teach students advanced golf skills, rules, and strategies to be used in inter-class tournaments. Evaluates individual golf game strengths and weaknesses. Emphasizes playing according to USGA rules. Taught on block only.

PES 1135 Archery I 1:5:1.5 Spring
For beginners. Covers basic concepts of archery, both for target shooting and field hunting. Includes use of re-curve and compound bows. Studies the language of archery. Includes laboratory sessions (both indoors and outdoors when weather permits), video instruction, demonstration, and shooting practice. Taught on block only. Course fee of $20 for support, equipment applies.

PES 1136 Archery II 1:5:1.5 Spring
Builds upon the basic concepts learned in PES 1135. Covers skills, fundamentals, conditioning, history, and rules of the sport. Includes lecture, labs, demonstration and practice (outdoors when weather permits), and video presentations. Taught on block only. Course fee of $20 for support, equipment applies.

PES 1145 Bowling I 1:5:1.5 Fall, Spring

PES 1146 Bowling II 1:5:1.5 Not Offered

PES 1155 Beginning Fencing 1:5:1.5 Not Offered
Teaches fencing strategy, analysis, focus form and precision. Provides aerobic exercise and analyzes fencing style. Completers should be familiar with competition rules, competition officiating and will participate in class tournament at the novice level. Course fee of $20 for equipment applies.

PES 1200 Basketball I 1:5:1.5 Fall, Spring
An introductory course designed to teach the basic skills of shooting, passing, ball handling, rebounding, etc. Introduces and practices new skills each class session. Provides regular scrimmage time. Designed for fun and good competition. Includes an exciting class tournament during the course.

PES 1201 Basketball II 1:5:1.5 Fall, Spring
Teaches advanced skills of shooting, passing, ball handling, rebounding, etc. Stresses fun and competition. Provides regular scrimmage time. Includes an exciting class tournament during the course.

PES 1210 Volleyball I 1:5:1.5 Fall, Spring
Covers basic concepts of volleyball. Teaches fundamentals and rules of the sport. Introduces new skills such as sprawl and roll. Includes labs, lectures, audio-visual, practice and inter-class participation.

PES 1211 Volleyball II 1:5:1.5 Fall, Spring
Teaches advanced volleyball skills and team concepts for intermediate volleyball players. Reviews fundamentals and rules. Covers 6-person, 3-person, and 2-person volleyball. Includes labs, lectures, audio-visual, practice and scrimmages.

PES 1212 Volleyball III 1:5:1.5 Fall, Spring
Teaches volleyball skills and team concepts for advanced players. Briefly reviews fundamentals and rules. Teaches variable-size team competition. Includes labs, lectures, audio-visuals, practice, and scrimmages.

PES 1214 Volleyball Club Team 1:0:2 Not Offered
* Prerequisite(s): Instructor approval
For men's volleyball club team. Includes practice and competitive team play. Requires demonstrated advanced skills through try-outs. May be repeated once for credit.

PES 1230 Soccer I 1:5:1.5 Not Offered
Covers the basic concepts of soccer including ball control, heading, trapping, passing or dribbling and shooting. Teaches the rules of the game and the strategy of both defense and offense. Includes lecture, media, demonstration and actual game situations. Stresses coordination, balance, agility, speed, endurance, team effort and team play.
Course Descriptions

PES 1231 Soccer II 1:5:1.5 Not Offered
Expands upon and further develops the fundamental skills, techniques, tactics and rules from the Soccer I course. Covers the following topics: defensive soccer tactics, offensive soccer tactics, soccer systems & strategies and conditioning for soccer. Topics will be practiced by using a variety of drills on the field individually and in groups/teams in order to further develop playing performance in real game settings. Examines soccer rules and regulations established by FIFA (Federation Internationale de Football Association) and (United States Soccer Federation) USSF.

PES 1234 Soccer Club Team 1:5:1.5 Not Offered
* Prerequisite(s): Instructor approval
For men's and women's soccer team members. Designed for participation in competitive team play. Advanced fundamentals and skills will be drilled. May be repeated once for credit toward graduation.

PES 1254 Lacrosse Club Team 1:5:1.5 On Sufficient Demand
For men's lacrosse club team. Presents an overview of the history of lacrosse. Includes practice and competitive team play. Requires demonstrated advanced skills through tryouts. May be repeated once for credit.

PES 1260 Ice Hockey 1:5:1.5 Fall, Spring
Teaches basic ice hockey skills including: skating (forwards, backwards, crossovers, spins, starts and stops), stick handling, passing, shooting. Practices offensive and defensive positioning, culminating in participating in several hockey games. The majority of the class will take place on the ice with short lectures and outside reading assignments. Course fee of $60 for support, equipment applies.

PES 1300 Swimming I 1:5:1.5 Not Offered
For non-swimmers and others interested in improving and maintaining their swimming ability. Students progress at their own pace. Covers breathing techniques, self-rescue, floating, back floating, back stroke, breast stroke and front crawl. Students who pass off all of the required skills early will be put on an individualized swimming workout schedule. Individual attention will be given to students as needed. Course fee of $40 for support applies.

PES 1301 Swimming II 1:5:1.5 Not Offered
For swimmers who have a working knowledge of the basic strokes and are interested in improving their level of swimming. Provides an individually designed workout schedule for each student. Emphasizes stroke technique work on an individual basis. Course fee of $40 for support applies.

PES 1315 Water Aerobics 1:5:1.5 Not Offered
For students interested in an alternative aerobics class. Introduces aerobic conditioning principles designed to develop the cardiovascular-respiratory systems, strength, and coordination. Course fee of $30 for support, equipment applies.

PES 1405 Women's Safety Awareness and Self Defense 1:5:1.5 Fall, Spring, Summer
A beginning course in women's self-awareness, self-empowerment, and self-defense. Emphasizes environmental awareness and strategies in avoiding dangerous situations. Teaches self-defense techniques that can be used in a crisis situation.

PES 1410 Introduction to Tai Chi 1:5:1.5 Fall, Spring
Introduces students an ancient martial exercise developed in China. Studies an effortless, low-impact, rhythmical ballet-like exercise that is a superior activity for all age levels. Stressess slow respiration and balanced, relaxed, slow postures. Promotes increased blood circulation, joint and bone strength. Focuses on the Yang style short form solo exercise which may be an effective means of self-defense.

PES 1415 Survey of Martial Arts 1:5:1.5 Not Offered
Introduces and surveys many of the popular styles of martial arts. Includes brief background of history, learning fundamental kicks, strikes, blocks, holds and other moves/techniques of the following martial arts: Kenpo Karate, Ju Jitsu, Muay Thai (kickboxing), Tai Chi, and self-defense strategies.

PES 1425 Ju Jitsu I 1:5:1.5 Fall, Spring
A beginning class in the martial art of Ju Jitsu with an emphasis on Russian Sambo Ju Jitsu also known as Combat Ju Jitsu. Learn the basics of Ju Jitsu including: grappling, take downs, escapes, arm locks, etc.

PES 1426 Ju Jitsu II 1:5:1.5 Not Offered
* Prerequisite(s): PES 1425
An intermediate class in the martial art of Ju Jitsu. Practices and improves on the basics of Ju Jitsu including: grappling, take downs, escapes, and arm locks.

PES 1435 Kenpo Karate I 1:5:1.5 Fall, Spring
A beginning course in the martial art of Kenpo Karate. Introduces basic blocks, punches, strikes, and kicks. Emphasizes self defense techniques.

PES 1436 Kenpo Karate II 1:5:1.5 Fall, Spring
* Prerequisite(s): PES 1435 or Yellow Belt rank in Kenpo Karate
An intermediate course in Kenpo Karate for the student with the rank of yellow belt and above. Students work at their own pace and progress toward the next rank in the Kenpo system.

PES 1440 Aikido 1:5:1.5 Fall, Spring
Covers beginning techniques to the art of self-defense. Teaches different holds and locks, using various forms of nonresistance in order to defend and prevent injury from an opponent.

PES 1460 Kickboxing I 1:5:1.5 Fall, Spring
A beginning course in the martial art of kickboxing (Muay Thai). Discusses the history of Muay Thai, ring strategy, and the rules of the ring. Includes leg strengthening, shadow boxing, stretching, punches, elbows, kicks, and knees while contact is made to bags and kicking shields. Teaches self-defense, ring strategy and the requirements to advance to the second level of kickboxing (Muay Thai). Includes intense aerobic workout.

PES 1670 Ice Skating 1:5:1.5 Fall, Spring
Teaches basic ice skating skills including forward and backward skating, stops, crossovers, spins, and jumps. Students will choreograph and perform a developmentally appropriate ice skating program set to music. Course fee of $60 for support, equipment applies.

PES 200R Intercollegiate Athletics 1:5:1.5 Fall, Spring
* Prerequisite(s): Coach approval
Provides an opportunity to improve strategic and physical performance by working with instructor in chosen activity. May be repeated for 4 credits toward graduation.

PES 201R Elite Precision Team 1:5:1.5 Not Offered
* Prerequisite(s): Audition required
For students selected to be members of the Elite Precision Team. Includes performances at home basketball games, competition, and the year end showcase. Studies dance styles such as jazz, funk, hip hop, and lyrical. May be repeated once for credit toward graduation.

PES 2050 Aerobic Instructor Training 2:2:0 Not Offered
For students interested in becoming Certified Aerobic Instructors. Teaches basic concepts of anatomy, physiology, components of fitness, nutrition, and exercise injuries. Emphasizes the use of music, cueing and choreography. Prepares students for the AFAC Certification test.
PES 2200
Officiating Baseball and Softball
2:2:0
Not Offered
For students wishing to officiate in interscholastic, intramural, and community games. Teaches rules, techniques, problems, and procedures in officiating. Gives National Federation or OSA examinations. Introduces softball/baseball National Federation publications such as Rule Book, Case Book, Umpires Manual, and Rules (Simplified and Illustrated). Utilizes lecture, media, guest lecturers, practical game situations, etc.

PES 2210
Officiating Basketball
2:2:0
Not Offered
For students wishing to officiate in intramural and community programs. Teaches rules, officiating, techniques, problems, and procedures. Uses lecture, media, guest lecturers and practical game situations. Gives National Federation or OSA examinations. Introduces National Federation publications, such as Rule Book, Case Book, Umpires Manual, and Rules (Simplified and Illustrated).

PES 2220
Officiating Volleyball
2:2:0
Not Offered
Provides students with the necessary skills to officiate the game of volleyball. Teaches both collegiate and high school rules and protocol. Provides students with a working understanding of officiating volleyball, as well as the opportunities for employment, through match observations and practical experience. Prepares students for certification as high school entry level official.

PES 2300
Introduction to Fundamentals of Athletic Coaching
2:2:0
Fall
For coaches of youth and other interested community members. Overviews methods, teaching techniques, coaching philosophies and practical experiences in both team and individual sports. Includes lecture and demonstration, media presentations, game scouting and field project and class journals. Stresses motivation, selection, discipline, management, and the technical aspects of coaching.

PES 2400
Sports Injuries
2:2:0
Fall
* Prerequisite(s): ZOOL 1090 or Permission of instructor
Prevention and care of fitness, sport, and physical education performance injuries. Emphasizes the responsibilities of the coach/PE teacher related to sport injuries. Examines recognition, cause, prevention and care of sports related injuries to specific body parts. Explores protective equipment, environmental factors, and nutritional considerations. Reviews injuries which occur to specific populations such as adolescent and elderly athletes. Course fee of $20 for materials applies.

PES 281R
Cooperative Work Experience
2 to 9:2 to 9:0
Not Offered
* Prerequisite(s): Approval of Cooperative Coordinator
Designed for Physical Education and Recreation majors. Provides paid on-the-job experiences in the student's major. Includes student, employer, and coordinator evaluations, on-site work visits, written assignments, and oral presentations. Provides experience in writing and completing individualized work objectives that improve present work performance. Credit is determined by the number of hours a student works during the semester. May be repeated for a maximum of 16 credits toward graduation. May be graded credit/no credit.

PES 3220
Teaching and Coaching Basketball
2:2:0
Not Offered
* Prerequisite(s): University Advanced Standing
Prepares students for coaching basketball. Covers basic offensive and defensive philosophy and techniques. Covers organization, equipment, conditioning and safety.

PES 3230
Teaching and Coaching Football
2:2:0
Not Offered
* Prerequisite(s): University Advanced Standing
For any coach, volleyball player or fan interested in learning more about one of the fastest growing sports in America. Teaches how to coach volleyball. Presents principles that coaches or players can use as a foundation to create their own game. Develops a greater appreciation for volleyball. Stresses the skills, fundamentals, rules, teaching techniques, and coaching strategies behind the sport. Includes labs, videos, and guest lecturers.

PES 3240
Teaching and Coaching Volleyball
2:2:0
Not Offered
* Prerequisite(s): University Advanced Standing
Covers organization, equipment, conditioning, and safety. For any coach, volleyball player or fan interested in learning more about one of the fastest growing sports in America. Teaches how to coach volleyball. Presents principles that coaches or players can use as a foundation to create their own game. Develops a greater appreciation for volleyball. Stresses the skills, fundamentals, rules, teaching techniques, and coaching strategies behind the sport. Includes labs, videos, and guest lecturers.

PES 3250
Teaching and Coaching Aerobics and Cheerleading
2:2:0
Not Offered
* Prerequisite(s): University Advanced Standing
Teaches basic aerobic principles including concepts of anatomy, physiology, and exercise injuries. Emphasizes choreography, cueing, and the use of music. Also introduces basic cheerleading skills and methods of teaching kicks, jumps, and tumbling. Presents skills necessary to teach an aerobic class and advise a cheerleading program.

PES 3260
Teaching and Coaching Baseball and Softball
2:2:0
Not Offered
* Prerequisite(s): University Advanced Standing
Designed for those planning to coach baseball or softball. Covers teaching techniques, coaching philosophies and building a program. Includes strategy of team selection and offensive and defensive planning. Studies game skills.

PES 4900
Exercise Science Senior Practicum
3:3:0
Not Offered
* Prerequisite(s): EXSC 3700, EXSC 4000, EXSC 4100, and University Advanced Standing
Emphasizes application of physical activity promotion in a variety of settings. Options include service learning activities, assessing athletes, working in clinical settings that address assessment and exercise prescription in the elderly, cardiac and pulmonary rehabilitation, and outpatient physical therapy.

Physical Education
Teacher Ed (PETE)

PETE 2110
Fundamental Motor Skill Analysis and Performance
1:0:2
Fall
Covers acquisition of fundamental motor skills and movements concepts necessary before advanced motor skills can be effectively taught. Includes motor development concepts, water safety, educational gymnastics, jump rope, and other rhythmic and fundamental skills and concepts. Requires students to assess their own skill performances as well as others' performances. Students with special needs will be encouraged to use appropriate accommodations and/or modifications.

PETE 2120
Fitness for Secondary Physical Educators
1:0:2
Spring
* Prerequisite(s): PES 1097
Provides and enhances preservice teachers’ abilities to teach Fitness for Life and other health-related fitness concepts and classes for students in grades 6-12. Focuses on evaluation and performance of a variety of developmentally appropriate fitness activities. Trains preservice teachers to develop appropriate lesson plans for secondary students, as well as how to help individual students develop personalized fitness programs.

PETE 2150
Elementary Physical Education SPARK Method
2:2:0
Not Offered
Prepares future classroom teachers, recreation leaders, and interested health and fitness professionals to instruct physical activity classes. Focuses on experiential learning.

PETE 2210
Racket Sport Analysis and Teaching Progressions
1:0:2
Fall
Introduces skills, concepts, and rules to help teachers and coaches teach racket sports to youngsters in grades K-12. Focuses on positive transfer of learning between various racket sports, including pickleball, racquetball, badminton, speedminton, and tennis. Explores and implements developmentally appropriate progressions for key skills and strategies, especially those common to all racket sports.
Course Descriptions

PETE 2220
Target Sport Analysis and Teaching Progressions
1:0:2  Spring
Introduces skills, concepts, and rules to help teachers and coaches teach target sports to youngsters in grades K-12. Focuses on helping teachers and coaches use positive transfer to enhance the teaching of skills, strategies, and concepts common to target games and sports. Developmentally appropriate progressions for key skills and strategies will be explored and implemented. Covers the main target sports: archery, bowling, golf, and disc golf. Course Lab fee of $70 for teaching experience, transportation applies.

PETE 2230
Individual Sports Track and Field and Tumbling
1:0:2  Fall
* Prerequisite(s): PES 1097
Introduces Track and Field events taught in K-12 schools in Utah. Includes fundamental tumbling skills appropriately taught to K-12 students. Focuses on developmentally appropriate progressions for all learners. Includes hints to enhance positive transfer from a previously learned skill to a new skill, specifically individual sport skills and concepts.

PETE 2310
Invasion Sports Soccer and Team Handball
1:0:2  Fall
Introduces skills, concepts, and rules to help teachers and coaches teach soccer and team handball to youngsters in grades K-12. Focuses on helping teachers and coaches use transfer to enhance the teaching of skills and concepts common to all invasion games, as well as to soccer and team handball specifically. Explores and implements developmentally appropriate progressions for key skills and strategies in soccer and team handball.

PETE 2320
Teaching and Analyzing Basketball and Volleyball
1:0:2  Spring
Introduces skills, concepts, and rules to help teachers and coaches teach basketball and volleyball to youngsters in grades K-12. Focuses on helping teachers and coaches use positive transfer to enhance student learning. Explores and implements appropriate progressions for key skills and strategies in volleyball and basketball.

PETE 2330
Team Sports for the Physical Educator
1:0:2  Spring
Introduces skills, concepts, and rules to team sports appropriate for secondary physical education classes. Sports covered may vary due to weather and current popularity in local schools. Possible sports include: touch rugby, lacrosse, floor hockey, field hockey, flag football, and softball.

PETE 2400
Skill Analysis Capstone
1:5:2  Fall
* Prerequisite(s): PETE 2110, PETE 2120, PETE 2210, PETE 2220, PETE 2230, PETE 2310, PETE 2320, PETE 2330
Review and perform skills needed for successful demonstration in physical education classes, with emphasis on any skills not performed successfully in prerequisite courses. Utilizes cues and critical elements for teaching motor skills, movement concepts and strategies covered in prerequisite courses. Analyze skill performances and game strategies. Demonstrate minimum water safety techniques.

PETE 2500
Skill Analysis and Competency for PETE Majors
3:2:2  Fall
Provides instruction in all fundamental motor skills, movement concepts, and various fundamental sport skills. Covers appropriate progressions, lead-up activities, and games. Includes tinkling, lummi sticks, jump rope, juggling, and other activities appropriate for K-12 physical education. Requires initial assessment for skillful performance in physical education content areas.

PETE 2700
Foundations of Physical Education K-12 Teacher Education
3:3:0  Fall, Spring
Introduces the Physical Education K-12 Teacher Education Program. Includes introductions to National Initial Physical Education Teacher Standards, NASPE Standards, Appropriate Practices documents, Professional Associations, History and Philosophy of Physical Education, and Motor Development theories. Prepares students to succeed in the UVU PETE Program.

PETE 289R
Early Undergraduate Research in Physical Education
1 to 4:0:5 to 20  Not Offered
* Prerequisite(s): EXSC 270G and departmental approval of research proposal.
Provides students an early opportunity to conduct research under the mentorship of a faculty member. Students will put in practice the theoretical knowledge gained in prior major courses. Students will create a significant intellectual or creative product that is appropriate for Physical Education Pedagogy and worthy of communication to a broader audience. May be repeated for a maximum of 6 credits toward graduation.

PETE 3100
Introduction to Physical Education Pedagogy
3:2:2  Fall
* Prerequisite(s): University Advanced Standing
* Prerequisite(s) or Corequisite(s): PETE 2110 or permission of instructor
Promotes the acquisition and application of effective teaching skills for K-12 physical education, including focus on the National Standards for Physical Education. Includes observations and experiences with K-12 students and faculty. Introduces and works toward meeting the National Initial Physical Education Teacher Education Standards. Introduces content necessary to succeed in all upper-division PETE courses.

PETE 3400
Elementary Classroom Teachers as Movement Educators
2:2:0  Not Offered
* Prerequisite(s); (Admission to professional elementary education program or instructor approval) and University Advanced Standing
For elementary education majors. Presents characteristics of quality physical education programs. Encourages classroom teachers to incorporate physical activity throughout the day. Identifies appropriate practices and activities for teaching movement to all children.

PETE 3450
Special Populations in Physical Education
3:2:3  Spring
* Prerequisite(s): PETE 3100, EDSP 340G, and University Advanced Standing
Involves planning and conducting physical education programs for children with special needs. Incorporates hands-on experiences working with individual with special needs. Analyzes a variety of possible adaptations for individuals with physical, sensory, emotional, and/or intellectual impairments.

PETE 4200
Methods of Teaching Elementary Physical Education
3:2:3  Spring
* Prerequisite(s): PETE 2500, PETE 2700, PETE 3100 and University Advanced Standing
* Corequisite(s): PETE 4400
* Prerequisite(s) or Corequisite(s): PETE 2120
Promotes the analysis and development of elementary physical education curricula. Promotes curricular concepts through reading, lecture/discussion, movement, self-appraisal, and teaching children. Requires application of educational principles and techniques necessary for effective teaching in the elementary school. Emphasizes appropriate selection of curriculum content and transition to teaching/learning models. Offers unit and lesson planning and evaluation. Includes a substantial field experience.

PETE 4250
Methods of Teaching Secondary Physical Education
3:1:6  Fall
* Prerequisite(s): EXSC 3550, PETE 4200, PETE 4400, acceptance into UVU's Secondary Education program and University Advanced Standing
Provides opportunities for application of learning from all previous courses to the successful teaching of secondary physical education. Emphasizes the attainment of all current National Initial Physical Education Standards at the acceptable level or above.
PETE 4400
Assessment in Physical Education
3:3:0  Spring
* Prerequisite(s): MAT 1000 or higher mathematics course, PETE 3100, and University Advanced Standing
* Corequisite(s): PETE 4200
Examines the need for valid assessment in K-12 physical education programs. Introduces a variety of assessment instruments. Analyzes the use of assessment to enhance learning and reliably determine student progress toward stated objectives. Promotes the development of a meaningful grading system that communicates student progress toward course objectives and SHAPE America standards. May be delivered hybrid and/or online.

PETE 481R
Physical Education Teacher Education Internship
1 to 4:0:5 to 20  On Sufficient Demand
* Prerequisite(s): PES 1097, EXSC 3500, EXSC 3550, PETE 3100, and University Advanced Standing
Encourages students to apply learning in a professional setting. Allows students practical experience working at a physical education teaching or coaching related job. May be repeated for a maximum of 8 credits toward graduation. May be graded credit/no credit.

PETE 489R
Undergraduate Research in Physical Education Teacher Education
1 to 4:0:5 to 20  Not Offered
* Prerequisite(s): PETE 3100, department approval of research proposal, and University Advanced Standing
Provides students the opportunity to conduct research under the mentorship of a faculty member. Students will put in practice the theoretical knowledge gained in prior major courses. Students will create a significant intellectual or creative product that is appropriate for Physical Education Pedagogy and worthy of communication to a broader audience. May be repeated for a maximum of 8 credits toward graduation.

PETE 4900
Student Teaching Seminar for Physical Education
1:1:0  Spring
* Prerequisite(s): Admission to Professional Education Program, successful completion of all professional education and content courses, and University Advanced Standing
* Corequisite(s): EDSC 4850
Supports student teachers during their student teaching experience. Examines each student's teaching experiences. Encourages students to integrate learning from all professional education and content courses. Discusses concerns related to current teaching experiences as well as future experiences. Investigates job seeking criteria and opportunities.

PHILOSOPHY (PHIL)

PHIL 1000
Introduction to Philosophy
3:3:0  Fall, Spring, Summer
Designed to investigate major philosophical ideas from the Pre-Socratic era to the present. Students should develop philosophical skills through supervised analysis of readings in epistemology (knowledge), metaphysics (reality), ethics (values), and social philosophy. Emphasizes the articulation, assessment, and discussion of fundamental religious, social, political issues through class discussions, lectures, media, and writing projects.

PHIL 100H
Introduction to Philosophy
3:3:0  Fall, Spring
* Prerequisite(s): ENGL 1010 or ENGL 1005
Designed to investigate major philosophical ideas from the Pre-Socratic era to the present. Students should develop philosophical skills through supervised analysis of readings in epistemology (knowledge), metaphysics (reality), ethics (values), and social philosophy. Emphasizes the articulation, assessment, and discussion of fundamental religious, social, political issues through class discussions, lectures, media, and writing projects.

PHIL 120R
Philosophy Forum
1:1:0  Fall, Spring, Summer
Introduces students to the interchange of traditional and contemporary philosophical issues in various venues. Provides enriched learning situations in which students may interact with noted guest scholars. Includes lectures, symposia, field trips, outreach projects, and activities oriented to engage students in philosophical discourse. Meets in conjunction with the Philosophy Club. Grading is on a credit/no credit basis. May be repeated for a total of four credits toward the AA/AS, BA/BS degree.

PHIL 1250
Introduction to Logic and Critical Thinking
3:3:0  Fall, Spring, Summer
Introduces fundamental elements of informal logic and applies these to critical thinking. Covers subjects and concepts such as (but not limited to) definition, argument, fallacy, deduction versus induction, validity, soundness, induction, causal reasoning, abductive reasoning, analogical reasoning, and probability.

PHIL 130R
Ethics Forum
1:0:3  Fall, Spring
Introduces students to a wide variety of public policy and ethical issues. Provides enriched learning situations in which students are exposed to noted guest scholars and other lecturers. Includes attendance and participation at specified events by engaging in discussion of relevant issues. May be repeated for a maximum of 3 credits toward graduation.

PHIL 1610
Introduction to Western Religions
3:3:0  Fall, Spring, Summer
HH
For students majoring in humanities-related disciplines and other students interested in the academic study of religion. Presents the comparative study of the history, ritual, “theology,” and ethical beliefs of the major western religions including Judaism, Christianity, Islam, Zoroastrianism, Bahá’í, and nontraditional religious belief in the western world. Explores similarities and differences between them by examining the primary sources and sacred texts along with the unique beliefs and practices of each tradition.

PHIL 1620
Introduction to Eastern Religions
3:3:0  Fall, Spring, Summer
HH
For students majoring in humanities-related disciplines and other students interested in the academic study of religion. Presents the comparative study of the history, ritual, “theology,” and ethical beliefs of the major eastern religious traditions including Hinduism, Jainism, Buddhism, Sikhism, Taoism, Confucianism, and Shintoism. Explores similarities and differences between them by examining the primary sources and sacred texts along with the unique beliefs and practices of each tradition.

PHIL 2000
Formal Logic I
3:3:0  Fall, Spring, Summer
PHIL 2000
IH
Introduces the basic elements of categorical logic as well as formalized propositional logic and formalized first-order quantificational logic. Includes Venn diagrams, proofs, truth tables, tableaux and translations from natural language.

PHIL 2050
Ethics and Values
3:3:0  Fall, Spring, Summer
PHIL 2050
IH
* Prerequisite(s): ACT scores of 29+ in English and Reading taken within the last five years or completion of ENGL 1010 or ENGL 101H with a grade of C- or higher.
Challenges students to explore and clarify their values; critically read works of philosophy, literature, religion, and history toward understanding the basis of their ethical views; and read, study, research, discuss, and write about difficult ethical issues. Focuses on issues of good vs. evil, justice vs. injustice, equality vs. inequality, and the necessity of defining and examining happiness and values. Engages students in serious reflection on issues of ethics and values as they relate to the students’ own lives.

PHIL 205G
Ethics and Values
3:3:0  Fall, Spring, Summer
* Prerequisite(s): ACT scores of 29+ in English and Reading taken within the last five years or completion of ENGL 1010 or ENGL 101H with a grade of C- or higher.
Challenges students to explore and clarify their values; critically read works of philosophy, literature, religion, and history toward understanding the basis of their ethical views; and read, study, research, discuss, and write about difficult ethical issues. Focuses on issues of good vs. evil, justice vs. injustice, equality vs. inequality, and the necessity of defining and examining happiness and values. Engages students in serious reflection on issues of ethics and values as they relate to the students’ own lives.
Course Descriptions

PHIL 205H
Ethics and Values
3:3:0
Fall, Spring
* Prerequisite(s): ACT scores of 29+ in English and Reading taken within the last five years or completion of ENGL 1010 or ENGL 101H or ENGH 1005 with a grade of C- or higher.

Systematically explores the core issues in the realm of ethics and values, especially as they relate to life in the contemporary world. Focuses on good versus evil, justice versus injustice, and the necessity of ideals and equality. Emphasizes reading and writing skills at a more challenging level.

PHIL 2110
Ancient Greek Philosophy
3:3:0
Fall, Spring
* Prerequisite(s): ENGL 1010 or ENGL 101H or ENGH 1005 or PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or permission of the instructor

Provides an overview of the history and evolution of philosophical thought from its origins in pre-Socratic philosophers through Aristotle. Reviews the influence of pre-Socratic ideas upon the work of Plato and Aristotle and the impact of Greek philosophy on the evolution of Western philosophy, science, and culture. Requires writing-intensive assignments.

PHIL 2130
Medieval Philosophy
3:3:0
Fall, Spring
* Prerequisite(s): PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or permission of the instructor

Provides an overview of the development of philosophical thought from the Hellenistic period through Thomas Aquinas. Covers the influence of Ancient Greek philosophy and the impact of Christianity upon the evolution of Western philosophical thought. Carefully considers the conceptions of God, nature, the human being, and mortality advanced during this period; along with the profound impact Medieval philosophy had on the European Enlightenment and modern philosophy.

PHIL 2150
Early Modern Philosophy
3:3:0
Spring
* Prerequisite(s): ENGL 1010 or ENGH 1005 or PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or permission of the instructor

Provides an overview of the history and evolution of ideas in Western culture during the modern period of philosophy from Descartes through Kant. Focuses on the dialogue between rationalism and empiricism, and examines Kant’s attempt to bridge the gap between these two approaches. Requires writing-intensive assignments.

PHIL 2150
Epistemology
3:3:0
Spring Even Year
* Prerequisite(s): PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or PHIL 2110 or PHIL 2150 or instructor approval) and University Advanced Standing

Explores diverse theories of knowledge from within the Western tradition. Includes concepts of truth and falsity, skepticism, justification, identity, and intentionality. Discusses empiricism, rationalism and twentieth-century Philosophy of Mind.

PHIL 281R
Internship
1 to 6:1 to 6:0
On Sufficient Demand
* Prerequisite(s): Permission from departmental chair

Allows philosophy students to receive credit for service as an intern in a governmental, not for profit, or private agency apart from their regular employment. Provides practical and research development in selected areas of service related to students’ academic and/or professional interests or goals. Internship must be supervised by agency representative. Must be approved by philosophy internship advisor and department chair and written contracts must be completed and signed. Repeatable for a maximum of six credit hours toward graduation. May be graded credit/no credit.

PHIL 290R
Independent Study
1 to 3:0 to 3:0 to 12
On Sufficient Demand
* Prerequisite(s): PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or instructor approval) and University Advanced Standing

Provides independent study as directed in reading and individual projects. Request must be submitted for approval by the department. Students may do independent study for one, two or three credits with a limit of three credits applying toward graduation with an AA/AS degree.

PHIL 295R
Directed Readings
1 to 3:0 to 3:0 to 12
On Sufficient Demand
* Prerequisite(s): PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or PHIL 2110 or PHIL 2150 or instructor approval) and University Advanced Standing

Provides an opportunity for second year students to do in-depth research within the discipline of Philosophy. Study is limited to advanced work beyond that which can be completed in existing, available classes. A proposal must be submitted and approved by the department prior to enrollment.

PHIL 3000
Formal Logic II
3:3:0
Spring
* Prerequisite(s): PHIL 2000 and University Advanced Standing

Continues the exploration of first-order quantification logic. Includes discussion of multiple quantification, formal syntax and semantics, proofs, truth-tables, tableaux, algebra of classes, set theory, and the metalogical properties of formal systems.

PHIL 3010
(Media Ethics)
3:3:0
Spring
* Prerequisite(s): ENGL 2010 and University Advanced Standing

(Cross-listed with: COMM 3000)
Moral and ethical issues in media communication. Includes discussions of ethnicity, gender, nationalism, and conflict. Demands development of moral agency. Examines tensions between individual freedoms and social responsibilities. Addresses ethical questions in the context of current struggles within and over corporate and public media.

PHIL 3050
Philosophical Issues in Feminism
3:3:0
Fall Odd Year
* Prerequisite(s): (PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or PHIL 2110 or PHIL 2150 or instructor approval) and University Advanced Standing

Introduces students to various themes in feminist philosophy. Focuses on the concepts of sex and gender, including such issues as the nature, explanatory import and normative implications of biological sex differences, the sex/gender distinction, the idea of gender as a social construct, the structure and impact of gender oppression and the nature and value of the norms of femininity and masculinity.

PHIL 3160
Gender Values Knowledge and Reality
3:3:0
Fall Even Year
* Prerequisite(s): (PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or PHIL 2110 or PHIL 2150 or instructor approval) and University Advanced Standing

Examines the impact of gender on specific areas of philosophy including, but not limited to, aesthetics, ethics, social and political philosophy, epistemology, metaphysics, philosophy of religion, philosophy of science, philosophy of language and the history of philosophy. Examines the meaning of gender with an emphasis on the diversity of experience across varying gender roles.

PHIL 3200
Metaphysics
3:3:0
Fall
* Prerequisite(s): (PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or PHIL 2110 or PHIL 2150 or instructor approval) and University Advanced Standing

Acquaints the student with competing abstract philosophical problems concerning the general nature and structure of reality. Examines the history of and problems of metaphysics including, but not limited to: personal identity, causation, causal determinism, the nature of universals, anti-realism, realism, change, substance and essence, space and time, and philosophy of mind.

PHIL 3300
Philosophy of Science
3:3:0
Spring Even Year
* Prerequisite(s): (PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or PHIL 2110 or PHIL 2150 or instructor approval) and University Advanced Standing

Explores fundamental issues in the philosophy of science. Includes the structure of the scientific method, scientific explanation, and the epistemological status of scientific laws and theories.
PHIL 3450 Philosophy of Childhood 3:3:0 Fall Odd Year
* Prerequisite(s): (PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or PHIL 2110 or PHIL 2150 or instructor approval) and University Advanced Standing
Examine philosophical theories and models of childhood, their implication on contemporary conceptions, controversial social, philosophical, legal, educational, and political issues pertaining to childhood, and the capacity of children to engage in philosophical dialogue.

PHIL 3460 The Ethics of Human/Animal Relationships 3:3:0 Spring
* Prerequisite(s): (PHIL 2050 or PHIL 205G or PHIL 205H or PHIL 1000 or PHIL 100H) and University Advanced Standing
Introduces a comprehensive philosophical and academic investigation of the relationship between human and nonhuman animals. Develops and refines critical thinking and discursive strategies for evaluating traditional and contemporary philosophical, legal, religious, moral, and social considerations that inform human attitudes about nonhuman animals. Challenges students to analyze a range of pertinent topics, including, but not limited to: animal welfare, animal liberation, animal sentience and consciousness, animal rights, the animal ethics movement, the animal rights movement, religious attitudes, animals, animal law, and animal activism.

PHIL 3470 Pragmatism and American Philosophy 3:3:0 Fall Odd Year
* Prerequisite(s): (PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or PHIL 2110 or PHIL 2150 or instructor approval) and University Advanced Standing
Introduces students to various philosophical themes and figures unique to classical American Philosophy and American Pragmatism. Focuses on assorted thematic topics characteristic of American Pragmatism, as well as the work of the American transcendental school and various philosophical writings from American women, such as Jane Addams, and African-American philosophers, such as Alain Locke.

PHIL 3510 Business and Professional Ethics 3:3:0 Fall
* Prerequisite(s): (PHIL 2050 or PHIL 205H or PHIL 205G) and University Advanced Standing
Develops concepts and philosophies essential to understanding ethical concerns in today's business and professions. Presents current case studies and theories about business ethics and helps students determine their own attitudes about contemporary and historical business morality. Examines a variety of approaches, solutions, and methods of critically thinking about ethics in business and professions.

PHIL 3520 Bioethics 3:3:0 Fall Odd Year
* Prerequisite(s): (PHIL 2050 or PHIL 205H or PHIL 205G or instructor approval) and University Advanced Standing
Examines key developments and conceptions in Christian ethics through historical and conceptual methodologies. Explores the relationship between religious and secular approaches to ethics in their approach to questions of war, economics, politics, and/or other relevant issues.

PHIL 3530 Environmental Ethics 3:3:0 Fall Even Year
* Prerequisite(s): (PHIL 2050 or PHIL 205H or PHIL 205G) and University Advanced Standing
Introduces students to various philosophical theories and models of the environment. Examines the relationship between religious and secular approaches to ethics in their approach to questions of war, economics, politics, and/or other relevant issues.

PHIL 3540 (Cross-listed with: RLST 3540) Christian Ethics 3:3:0 Spring Odd Year
* Prerequisite(s): PHIL 1610 and University Advanced Standing
Examines key developments and conceptions in Christian ethics through historical and conceptual methodologies. Explores the relationship between religious and secular approaches to ethics in their approach to questions of war, economics, politics, and/or other relevant issues.

PHIL 3550 Moral Philosophy 3:3:0 Fall, Spring
* Prerequisite(s): (PHIL 2050 or PHIL 205H or PHIL 205G or instructor approval) and University Advanced Standing
Surveys the history of moral and ethical philosophy from the Ancients to contemporary figures. Focuses on the following issues and theories: The good, moral reasoning and judgment, objectivism vs. conventionalism and relativism; natural law theory, ethical egoism, hedonism, virtue ethics, deontology, consequentialism, utilitarianism, materialism, moral sentiment, roles of emotion and reason in ethical and moral deliberation and judgment, as well as race, gender, and sexuality in ethics. Figures examined may include: Plato, Aristotle, Augustine, Aquinas, Hobbes, Shaftesbury, Hutcheson, Hume, Kant, Mill, Nietzsche, de Beauvoir, Sartre, Camus, Frankena, Rawls, Harman, MacIntyre, Held, and hooks.

PHIL 357R Moral Reasoning Through Case Studies Ethics Bowl 3:3:0 Fall
* Prerequisite(s): (PHIL 2050 or PHIL 205G or PHIL 205H) and University Advanced Standing
Examines ethical and moral theory courses. Uses a case study approach to ethical inquiry and introduces students to the content, format, rules, and procedures of the National Collegiate Ethics Bowl competition. Required for those students who wish to participate in the national and international competitions and provides a challenging opportunity for others who are interested in participating in exciting ethical deliberations and discussions. May be repeated for up to 9 credits for graduation with approval of instructor and department chair.

PHIL 3600 Philosophy of Religion 3:3:0 Fall
* Prerequisite(s): (PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or PHIL 2110 or PHIL 2150 or instructor approval) and University Advanced Standing
For students majoring in humanities related disciplines and other students interested in the academic study of religion. Teaches critical thinking methods and strategies regarding traditional philosophical issues in religious belief and practice. Explores various topics including the traditional arguments for the existence of God, religious experience, the relation between faith and reason, religious pluralism, and the traditional problem of evil.

PHIL 3610 (Cross-listed with: RLST 3610) Introduction to Christian Theology 3:3:0 On Sufficient Demand
* Prerequisite(s): PHIL 1610 and University Advanced Standing
Examines key developments and conceptions in Christian theology through historical and conceptual methodologies. Explores the relationship between religious and secular approaches to ethics in their approach to questions of war, economics, politics, and/or other relevant issues.

PHIL 3620 (Cross-listed with: RLST 3620) Mormon Theology and the Christian Tradition 3:3:0 On Sufficient Demand
* Prerequisite(s): PHIL 1610 and University Advanced Standing
For students majoring in humanities-related disciplines and other students interested in the academic study of religion. Engages students in exploring the defining features of Mormon thought in relation to the broader Christian tradition. Examines traditional theological questions such as the problem of evil, the scriptural canon, the nature of God and humanity, and the role of ritual.
PHIL 3650 (Cross-listed with: RLST 3650) Approaches to Religious Studies 3:3:0 Spring
* Prerequisite(s): (PHIL 2050 or PHIL 205H or PHIL 205G or instructor approval) and University Advanced Standing

For students majoring in humanities-related disciplines and other students interested in the academic study of religion. Teaches methodological approaches and critical thinking strategies in the study of religion. Explores various disciplines in their approaches to religious belief and practice. Includes the study of such thinkers as David Hume, Immanuel Kant, Friedrich Schleiermacher, Rudolf Otto, William James, Ludwig Feuerbach, Soren Kierkegaard, Max Weber, Emile Durkheim, John Hick, and Rene Girard.

PHIL 366R (Cross-listed with: RLST 366R) Issues in Religious Studies 3:3:0 Spring Odd Year
* Prerequisite(s): (PHIL 2050 or PHIL 205H or PHIL 205G or instructor approval) and University Advanced Standing

For students majoring in humanities-related disciplines and other students interested in the academic study of religion. Addresses specific topics and theoretical approaches related to religious studies. Topics may include religion and violence, religion and public discourse, religious ritual, etc. Subject matter varies by semester and is repeatable for a total of 9 hours of credit.

PHIL 3700 Social and Political Philosophy 3:3:0 Spring
* Prerequisite(s): (PHIL 2050 or PHIL 205H or PHIL 205G) and University Advanced Standing

Addresses ethics on the social level by exploring a variety of answers to the question: What is the best social structure? Covers concepts of justice, equality, liberalism, communitarianism, capitalism, democracy, feminism, multi-culturalism, and other topics.

PHIL 3710 Philosophy of Law 3:3:0 Fall Even Year
* Prerequisite(s): ENGL 2010 and University Advanced Standing

Introduces topics in the philosophy of law, such as the role, nature, extent, and justification of law. Investigates challenging questions about the role of law; civil disobedience, the relationship between law and morality; justice, equality, responsibility, and punishment.

PHIL 3750 Marxist Philosophy 3:3:0 Spring Even Year
* Prerequisite(s): (PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or PHIL 2110 or PHIL 2130 or instructor approval) and University Advanced Standing

Examines the political philosophy of Karl Marx and looks at Marx's legacy for 20th century and contemporary philosophy. Includes Marx's criticism of Hegel and Hegelian Idealism, Marx's philosophy as "ideology critique," Marx's "materialist" philosophy, Marx's critique of capital, and several of the following: early 20th-century Marxist political philosophy, critical theory, structuralist Marxism, phenomenological Marxism, materialist feminism, and post-Marxism.

PHIL 3800 (Cross-listed with: HUM 3800) Aesthetics 3:3:0 Fall
* Prerequisite(s): University Advanced Standing

Studies aesthetics as perceived by the disciplines of philosophy, psychology, sociology, anthropology, history, and others. Analyzes art forms, including the visual arts, literature, music, and theater from the perspectives of philosophers such as Plato, Aristotle, Kant, Hume, Dewey, Danto, Bell, Collingwood, Thoreau, and Dickie.

PHIL 3810 Existential and Phenomenology 3:3:0 Spring Odd Year
* Prerequisite(s): (PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or PHIL 2110 or PHIL 2120 or PHIL 2150 or instructor approval) and University Advanced Standing

Explores two of the most important and influential traditions within modern and contemporary philosophy. Covers figures such as Kierkegaard, Nietzsche, Husserl, Heidegger, Sartre, Camus, Merleau-Ponty, de Beauvoir, Gadamer, Levinas, Ricoeur, and Derrida, and issues in epistemology, metaphysics, ethics and aesthetics. The course focuses in particular on the notions of subjectivity, agency, free-will, and truth.

PHIL 3820 (Cross-listed with: HUM 3820) Philosophy through Literature 3:3:0 Spring Even Year
* Prerequisite(s): (PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or PHIL 2110 or PHIL 2120 or PHIL 2150 or instructor approval) and University Advanced Standing

Provides students with an interdisciplinary approach to the study of philosophy through literature. Gives students the opportunity to read some of the most engaging thinkers and how they offer differing perspectives through a variety of texts. Breaks down some of the strict divisions placed between philosophical and literary texts.

PHIL 3830 Deconstruction and Hermeneutics 3:3:0
* Prerequisite(s): (PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or PHIL 2110 or PHIL 2120 or PHIL 2150 or instructor approval) and University Advanced Standing

Studies the interpretive methods of deconstruction and hermeneutics, two important traditions to emerge in late 20th century philosophy. Analyzes various works from the history of philosophy through the frameworks of deconstruction and hermeneutics. Tracks the difference between knowledge and understanding, particularly through the writings of Jacques Derrida and Hans-Georg Gadamer. Includes the study of other relevant traditions such as post-structuralism, French feminism, and literary criticism.

PHIL 386R Topics in Ancient Philosophy 3:3:0 Spring
* Prerequisite(s): (PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or PHIL 2110 or PHIL 2150 or instructor approval) and University Advanced Standing

Provides students the opportunity to study aspects of ancient Greek philosophy intensively. Focuses on an aspect of the thought of a particular philosopher, such as Plato or Aristotle, or on a particular theme in Ancient philosophy, such as Ethics or Metaphysics. Emphasizes close study of primary texts. Develops strong critical thinking, writing and rhetorical skills. May be repeated up to 3 times for a total of 9 credits.

PHIL 388R Topics in Medieval and Early Modern Philosophy 3:3:0 Fall Odd Year
* Prerequisite(s): (PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or PHIL 2110 or PHIL 2150 or instructor approval) and University Advanced Standing

Provides students the opportunity to study aspects of medieval and early modern philosophy intensively. Focuses on the thought of a particular philosopher or set of philosophers or a particular theme in medieval and early modern philosophy. Emphasizes close study of primary texts. Develops critical thinking, writing, and comprehension skills. May be repeated up to 3 times for a total of 9 credits.

PHIL 400R Great Philosophers 3:3:0 Fall, Spring, Summer
* Prerequisite(s): (PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or PHIL 2110 or PHIL 2120 or PHIL 2150 or instructor approval) and University Advanced Standing

Provides an in-depth look at a great figure in Philosophy across the topics of metaphysics, epistemology, ethics, social and political philosophy, aesthetics, and other themes. Addresses the contribution of the thinker to the history of Philosophy. Repeatable up to 12 credit hours with different topics.

PHIL 4120 Philosophy of Education 3:3:0 Spring Even Year
* Prerequisite(s): (ENGL 1010 or ENGL 1005 or PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or PHIL 2110 or PHIL 2120 or PHIL 2150 or instructor approval) and University Advanced Standing

Examines history, issues, and philosophical theories of education with attention to associated metaphysical, epistemological, ethical, political, and ideological assumptions.

PHIL 4130 Nineteenth Century European Philosophy 3:3:0 Fall Even Year
* Prerequisite(s): (PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 205G or PHIL 2110 or PHIL 2150 or instructor approval) and University Advanced Standing

Introduces students to the changes in 19th century European philosophy regarding the nature of truth, knowledge, human freedom, and nature. Focuses on the attempts of German Idealism to formulate a systematic science of reality. Discusses the possibilities and problems with conceiving truth as both complete and absolutely knowable. Analyzes the philosophies of nature, art, human freedom, society, and ethics.

</table>

For integrated studies majors and other interested students, addresses ethical issues dealing with discipline specific subject matter, i.e., nursing, behavioral, physical, social sciences, etc. Subject matter will vary each semester. Taught by Philosophy faculty in cooperation with faculty of appropriate departments. Repeatable times for credit with different subjects. See Philosophy Department office for specific topics.
PHIL 481R Internship 1 to 6:1 to 6:0 Fall, Spring, Summer  
* Prerequisite(s): Departmental chair approval and University Advanced Standing

Allows philosophy students to receive credit for service as an intern in a governmental, not for profit, or private agency apart from their regular employment. Provides practical and research development in selected areas of service related to students' academic and/or professional interests or goals. Internship must be supervised by agency representative. Must be approved by philosophy internship advisor and department chair and written contracts must be completed and signed. Repeatable for a maximum of 6 credit hours toward graduation. May be graded credit/no credit.

PHIL 490R Independent Study 1 to 3:0 to 3:0 to 12  Fall, Spring, Summer  
* Prerequisite(s): Departmental Approval and University Advanced Standing

Provides independent study as directed in reading and individual projects. May be repeated for up to 6 total credits toward graduation.

PHIL 4910 Philosophy Research Capstone WE 3:3:0 Fall, Spring, Summer  
* Prerequisite(s): (PHIL 1250 or PHIL 2110 or PHIL 2150), PHIL 480R, Senior Standing, and University Advanced Standing

To be taken during the student's last semester in the baccalaureate program. Includes writing a senior thesis, which points to post-baccalaureate career path or graduate school goals. Covers advanced Philosophy research and writing instruction. Encourages students to explore the ethical dimensions of their desired professional or graduate research interests. Involves the creation of a professional portfolio helpful in applying to graduate school or seeking employment.

PHIL 492R Advanced Topics in Philosophy 1 to 3:1 to 3:0  Fall, Spring, Summer  
* Prerequisite(s): (PHIL 1000 or PHIL 100H or PHIL 2050 or PHIL 205H or PHIL 2110 or PHIL 2150 or instructor approval) and University Advanced Standing

Examines advanced topics philosophy. Examples include ancient theories of political constitution, continental rationalism, empiricism, personal identity, free will, theories of truth and modal logic. May be repeated for a maximum of 9 credits toward graduation.

Physics (PHYS)

PHYS 1010 Elementary Physics 3:3:0 Fall, Spring, Summer  
* Prerequisite(s): MAT 1010

For students interested in a one-semester survey physics course. Covers the fundamentals of classical and modern physics. Includes mechanics, fluids, heat, waves, sound, electricity and magnetism, light, optical, relativity, atomic and nuclear physics. Includes lectures, classroom interaction, demonstration, and problem solving.

PHYS 1700 Descriptive Acoustics 3:3:0 Fall  
* Prerequisite(s): MAT 1010

Introduces the science of sound, music and speech and the physical principles and technology used to manipulate, store and broadcast it.

PHYS 1750 The Acoustics of Music 3:3:0 Fall, Spring  
* Prerequisite(s) or Corequisite(s): MAT 1030 or higher

Discovers the principles of physics that form the basis of music and provide the foundation for the design of musical instruments. Investigates the physics of music production, transmission and reception, and perception. Examines the five fundamental elements of the musical instrument, namely power supply, oscillator, resonator, amplifier, and pitch modifiers. Satisfies one general education physical science elective.

PHYS 1800 Energy You and the Environment 3:3:0 Spring  
Answers the question, "Where does energy come from, and where does it go?". Examines the methods of energy production, distribution, and consumption in society and their environmental impacts. Examines the personal impact of energy use on the environment and explores alternatives, such as fuel cell cars, and a hydrogen economy. Examines prospects for alternative energy sources, such as solar, wind, nuclear, and geothermal energy at length. Intended for non-science majors interested in energy use in society.

PHYS 281R Cooperative Work Experience 2 to 9:2 to 9:0  On Sufficient Demand  
* Prerequisite(s): Approval of Cooperative Coordinator

Designed for Physical Science majors. Provides paid work experiences in the student's major. Course content is individualized, with students setting objectives in consultation with their faculty coordinator and their on-the-job supervisor. Credit is determined by the number of hours a student works during the semester. May be graded credit/no credit.

PHYS 1850 The Physics of Aviation 3:3:0 Fall, Spring, Summer  
* Prerequisite(s): MAT 1030 or appropriate math placement score

Uses the medium and modes of flight and modern aviation to introduce elementary physics. Includes vectors, kinematics, forces, momentum, energy, torques, elementary fluid dynamics and thermodynamics. Uses Algebra extensively. Presents and develops concepts of physics as exercises in modeling constructed from examples used in aviation. May be delivered online.

PHYS 2010 College Physics I 4:4:0 Fall, Spring, Summer  
* Prerequisite(s): MATH 1050 or MATH 1055  
* Corequisite(s): PHYS 2015

For students desiring a two semester algebra based course in applied physics. Covers mechanics, fluids, waves, heat, and thermodynamics. Canvas Course Mats $78/Pearson applies.

PHYS 2020 College Physics II 4:4:0 Fall, Spring, Summer  
* Prerequisite(s): MATH 1050 or MATH 1055  
* Corequisite(s): PHYS 2025

PHYS 2025 College Physics II Lab 1:0:2 Fall, Spring, Summer  
* Prerequisite(s): PHYS 2010  
* Corequisite(s): PHYS 2025

Designed to accompany PHYS 2020. Provides firsthand experience with the laws of mechanics, fluids, waves, heat, thermodynamics, and data analysis. Course Lab fee of $15 applies.

PHYS 2200 Physics for Scientists and Engineers I 4:4:1 Fall, Spring, Summer  
* Corequisite(s): PHYS 2215  
* Prerequisite(s) or Corequisite(s): MATH 1210

A calculus-based treatment of introductory physics for scientists and engineers. Topics include mechanics, fluid physics, thermodynamics, vibrations, and waves. Includes 1 hour of recitation per week.

PHYS 2215 Physics for Scientists and Engineers I Lab 1:0:2 Fall, Spring, Summer  
* Corequisite(s): PHYS 2215  
* Prerequisite(s) or Corequisite(s): MATH 2120

Designed to accompany PHYS 2210. Provides firsthand experience with the laws of mechanics, thermal physics, vibrations, and waves. Introduces methods of scientific data analysis. Course Lab fee of $15 applies.
PHYS 2220
Physics for Scientists and Engineers II
4:4:1 Fall, Spring, Summer
* Prerequisite(s): PHYS 2210
* Corequisite(s): PHYS 2225

PHYS 2225
Physics for Scientists and Engineers II Lab
1:0:2 Fall, Spring, Summer
Designed to accompany PHYS 2220. Verifies through laboratory experience the laws of electricity and magnetism, electric circuits, and optics. Principles of data collection and analysis are emphasized. Course Lab fee of $15 applies.

PHYS 2500
Elementary Fluids and Thermal Physics
3:3:0 Fall
* Prerequisite(s): PHYS 2220
* Corequisite(s): MATH 2210
Presents a mathematically rigorous introductory description of fluid mechanics, thermodynamics, and heat transfer beyond that presented in PHYS 2210. Presents applications in both physics and engineering.

PHYS 2800
Introduction to Materials Physics
3:3:0 Spring
* Prerequisite(s): PHYS 2220
Covers the atomic structure of materials and their properties, including electronic, thermal, and optical properties. Addresses experimental methods for creating and studying materials, and current topics in materials science including thin films, surface physics, metamaterials, and nanostructured materials.

PHYS 295R
Introduction to Independent Research
1 to 3:0:3 to 9 On Sufficient Demand
* Prerequisite(s): PHYS 2210, Departmental Approval
Working under faculty supervision, allows research on a project determined jointly with a faculty member and approved by the department chair. Emphasizes experimental technique, data collection, modeling, and analysis techniques. May be repeated for no more than six hours of elective credit.

PHYS 3010
Physics Experiments for Secondary Education
1:0:3 Spring
* Prerequisite(s): PHYS 2210, (MATH 1050 or MATH 1055), MATH 1210, PHYS 2220, MATH 1060, and University Advanced Standing
For secondary education students. Emphasizes physics or chemistry. Addresses pedagogical methods for student physics laboratory exercises and demonstrations. Studies currently available commercial laboratory equipment for teaching physics in a lab setting. Includes ideas and methods for building inexpensive demonstrations and lab exercises. Provides training in safe and effective use of lab equipment.

PHYS 3040
Modern Physics for Secondary Education
3:3:0 On Sufficient Demand
* Prerequisite(s): PHYS 2220, MATH 1220, and University Advanced Standing
Addresses topics of special relativity, development of quantum mechanics, physics of the atom, elementary solid state physics, and elementary particle physics.

PHYS 3110
Modern Physics I
3:3:0 Fall
* Prerequisite(s): PHYS 2220 and University Advanced Standing
* Corequisite(s): PHYS 3115
Addresses topics of error analysis and statistics, wave mechanics, special relativity, development of quantum mechanics, and atomic physics.

PHYS 3115
Introduction to Experimental Physics I
2:1:3 Fall
* Prerequisite(s): PHYS 2220 and University Advanced Standing
* Corequisite(s): PHYS 3110
Introduces selected experiments of classical and modern physics in a laboratory setting. Addresses topics of measurement, error analysis, data analysis, and report writing.

PHYS 3120
Modern Physics II
3:3:0 Spring
* Prerequisite(s): PHYS 3110 and University Advanced Standing
* Corequisite(s): PHYS 3125
* Prerequisite(s) or Corequisite(s): PHYS 3300
Covers topics in special and general relativity, and addresses applications of modern quantum mechanics including molecular physics, solid state physics, statistical mechanics, nuclear physics, particle physics, and cosmology.

PHYS 3125
Introduction to Experimental Physics II
2:1:3 Spring
* Prerequisite(s): PHYS 3110, PHYS 3115, and University Advanced Standing
* Prerequisite(s) or Corequisite(s): PHYS 3120
Introduces selected experiments of classical and modern physics in a laboratory setting. Addresses topics of measurement, data analysis, report writing.

PHYS 3230
Principles of Electronics for the Physical Sciences
3:2:3 Fall
* Prerequisite(s): PHYS 2220, MATH 2210, and University Advanced Standing
Introduces electronic measurement instruments commonly used in experimental physics laboratories. Covers principles of electronic measurements using transducers, solid-state devices, circuit analysis, logic circuits, and computers. Includes lab experience.

PHYS 3300
Mathematical Physics
3:3:0 Fall
* Prerequisite(s): PHYS 2220, and University Advanced Standing
* Prerequisite(s) or Corequisite(s): MATH 2210 or instructor consent. MATH 2280 is strongly advised as a pre- or corequisite.
Covers the applications of mathematical tools to experimental and theoretical research in the physical sciences. Introduces problems and systems common to physical science that can be modeled by the application of vector and tensor algebra, curvilinear coordinates, linear algebra, complex variables, Fourier series and transforms, differential and integral equations.

PHYS 3310
Advanced Mathematical Physics
3:3:0 Spring
* Prerequisite(s): PHYS 3300 and University Advanced Standing
Explores mathematics as applied to physics. Covers many families of orthogonal polynomials and the special functions of physics, such as the Gamma, Beta, and Error functions. Presents topics in contour integration and applications of conformal mapping. Investigates probability, random processes, statistical analyses, and probability distribution functions.

PHYS 3330
Computational Physics
3:3:0 Spring
* Prerequisite(s): PHYS 3300 and University Advanced Standing
Covers computational algorithms with specific applications to the description of physical systems. Covers iterative approximation methods, computations using matrices and vectors, numerical integration, solutions of differential equations. Uses a computer programming approach to problem solving.

PHYS 3350
Applications of LabVIEW in Physics
3:2:2 Spring
* Prerequisite(s): PHYS 3320 and University Advanced Standing
Develops programming skills in LabVIEW. Utilizes LabVIEW as the primary interface for analog and digital I/O for applications in physics experiments. Includes a student-directed group project that demonstrates effective use of LabVIEW in hardware interfacing in a physics experiment.

PHYS 3400
Classical Mechanics
3:3:0 Spring
* Prerequisite(s): PHYS 2220 and University Advanced Standing
* Prerequisite(s) or Corequisite(s): PHYS 3300 recommended
Treats classical mechanics of particles and systems using advanced mathematical techniques. Covers conservation principles, Lagrangian dynamics, harmonic oscillators, motion of rigid bodies and non-inertial reference frames.
PHYS 3500
Thermodynamics
3:3:0  Spring
* Prerequisite(s): PHYS 2220, MATH 2210, and University Advanced Standing
Addresses topics of heat, temperature, ideal gases, laws of thermodynamics, entropy, reversibility, thermal properties of solids, phase transitions, thermodynamics of magnetism, and negative temperature.

PHYS 3600
Optics
3:3:0  Spring
* Prerequisite(s): PHYS 3300, PHYS 3110, and University Advanced Standing
Covers the phenomena of reflection, refraction, diffraction, interference, optical behavior in materials and lasers. Presents a mathematically rigorous description of optical phenomena. May Include equipment-based class projects.

PHYS 3700
Particle Physics
3:3:0  Fall
* Prerequisite(s): PHYS 3110 and University Advanced Standing
Introduces the Standard Model of particle physics, which enumerates the elementary particles that make up the universe and describes their interactions. Addresses particle accelerators and detectors. Examines unresolved questions in particle physics and possible extensions to the Standard Model.

PHYS 3800 (Cross-listed with: CHEM 3800, ENVT 3800)
Energy Use on Earth
3:3:0  Fall
* Prerequisite(s): PHYS 1010 or PHSC 1000 or CHEM 1010 or GEO 1010 or GEO 2040 or METO 1010 and (MATH 1050 or MATH 1055) and University Advanced Standing
Covers the science of energy production and consumption. Quantitatively analyzes various methods of energy production, distribution, and end use in all sectors of our society, including transportation, residential living, and industry. Examines the impacts of our energy consumption on the environment and prospects for alternative energy sources. Intended for science majors interested in energy use in society or an energy related career, and for students in other majors who feel that a technical understanding of energy use will help them to understand and mitigate its impact in our society.

PHYS 4100
Biophysics
3:3:1  On Sufficient Demand
* Prerequisite(s): (PHYS 3110, PHYS 3115, BIOL 1610, or instructor approval) and University Advanced Standing
Covers the thermodynamics and statistical mechanics of biological systems, the mechanics of biologically important molecules, and the laws of fluid mechanics as applied in biological systems. Uses calculus-based mathematical models to treat specific reactions, particularly those treating biological systems as molecular machines.

PHYS 4150
Medical Physics
3:3:0  Fall
* Prerequisite(s): PHYS 3110, PHYS 3115 and University Advanced Standing
Explores the theory and applications of physics to medicine. Covers signal analysis, ultrasound, X-rays, optical, nuclear, and X-ray imaging techniques, nuclear medicine, magnetic resonance imaging, and nanomedicine.

PHYS 4200 (Cross-listed with: BIOL 4200, CHEM 4200, GEO 4200)
Teaching Methods in Science
3:2:2  Fall, Spring
* Prerequisite(s): Acceptance into secondary education program, senior-level standing, instructor approval, and University Advanced Standing
Examines objectives, instructional methods and curriculum for teaching science in the secondary school. Includes developing, adapting, evaluating, and using strategies and materials for teaching biological and physical sciences, appropriate both to the special needs of the learners and the special characteristics of science discipline.

PHYS 4210
Advanced Experimental Techniques
3:1:4  Fall
* Prerequisite(s): (PHYS 3125, PHYS 3230, or instructor approval) and University Advanced Standing
Introduces fundamental skills required for conducting successful scientific research in a physics laboratory setting. Covers vacuum technology, basic machine shop practice, electronic instrumentation, electron microscopy, scanning probe microscopy, nuclear magnetic resonance, and x-ray diffractometry.

PHYS 4250
Nuclear Physics
3:3:0  On Sufficient Demand
* Prerequisite(s): PHYS 3110
Covers radiation, radioactive decay, nuclear structure, interactions of radiation with matter, radiation detection, nuclear reactions, fission, fusion, and applications of nuclear physics.

PHYS 425R
Physics for Teachers
1 to 5:1 to 5:0 to 10  Summer
* Prerequisite(s): Department Approval and University Advanced Standing
For licensed teachers or teachers seeking to recertify, an update course in physics and/or basic physics core courses for teachers needing physics or physical science endorsements from the Utah State Office of Education. Teaches principles of physics and pedagogy of teaching physics for teachers in public or private schools. Emphasis will be placed on correlation with the Utah Core Curriculum, the National Science Education Standards, and the Benchmarks of Project 2061. Topics will vary.

PHYS 4350
Research Methods in Physics
3:1 to 2:2 to 4  Fall, Spring
* Prerequisite(s): Instructor and Department approval and University Advanced Standing
Presents directed topics in research methods. Emphasizes practical methodologies in measurement, instrumentation, error analysis, statistical analysis and computational modeling. Requires a class project that may require MATLAB, LABView or other programming languages. Includes producing oral presentations, posters and journal articles using contemporary software and LaTeX.

PHYS 4410
Electrostatics and Magnetism
3:3:0  Fall
* Prerequisite(s): PHYS 3110, PHYS 3115, PHYS 3300, and University Advanced Standing
Explores the theory of electrostatic phenomena in a mathematically rigorous manner. Covers Gauss' Law, the Laplace and Poisson equations, boundary-value problems, and dielectrics.

PHYS 4420
Electrodynamics
3:3:0  Spring
* Prerequisite(s): PHYS 4410 and University Advanced Standing

PHYS 4510
Quantum Mechanics I
3:3:0  Fall
* Prerequisite(s): PHYS 3110, PHYS 3115, PHYS 3300, and University Advanced Standing
Covers postulates of quantum mechanics, state functions of quantum systems, Hermitian Operators, the Schrodinger Equation, eigenfunctions of harmonic oscillators, and particles in potential wells.

PHYS 4520
Quantum Mechanics II
3:3:0  Spring
* Prerequisite(s): PHYS 4510 and University Advanced Standing
Covers general principles and applications of quantum mechanics. Addresses topics of three-dimensional problems, angular momentum operators, spin wavefunctions, perturbation theory, applications to atomic, molecular, solid-state, and nuclear physics.

PHYS 4700
Acoustics
3:3:0  Fall
* Prerequisite(s): PHYS 3110, PHYS 3115, PHYS 3300, and University Advanced Standing
Covers phenomena of sound, resonance, acoustics, and human hearing. Treats associated topics of waves, frequency, vibration and interference using appropriate mathematical tools.
PHYS 4800
Solid State Physics
3:3:0 Spring
* Prerequisite(s): PHYS 3120, 3125, PHYS 4510, and University Advanced Standing

Explores topics relevant to the structure, behavior, and properties of crystalline materials. Includes a study of lattice vibrations, free electrons, semiconductors, superconductivity, dielectric and ferroelectric materials and magnetism.

PHYS 481R
Physics Internship
1 to 4:1 to 4:0 On Sufficient Demand
* Prerequisite(s): PHYS 2220, Departmental Approval, and University Advanced Standing

Provides supervised, practical, and research experience for students preparing for careers in physics. May be repeated for a maximum of 6 credit hours. May be graded credit/no credit.

PHYS 489R
Undergraduate Research in Physics
1 to 3:0 to 9 On Sufficient Demand
* Prerequisite(s): PHYS 2220, Departmental Approval, and University Advanced Standing

Allows research on a project determined jointly with a faculty member and approved by the department chair. Emphasizes experimental technique, data collection, modeling, and analysis techniques. May be used as part of a senior thesis. May be repeated for a maximum of 9 credits toward graduation.

PHYS 490R
Seminar
.5:5:0 Fall, Spring
* Prerequisite(s): University Advanced Standing

Introduces the student to the important literature, questions, and research programs of peace and justice studies. Explores personal, domestic, national, and international issues. Considers alternative conceptions of violence, war, terrorism, justice/injustice, and peace. Enables the student to become aware of various intellectual and professional disciplines that bear on the causes of poverty and the most promising solutions. May be repeated for a maximum of 12 credits toward graduation.

PHYS 492R
Topics in Physics
3:3:0 On Sufficient Demand
* Prerequisite(s): Departmental approval and University Advanced Standing

Studies a chosen topic in physics. Topics vary depending upon student demand. Possible topic may be the mathematics for quantum mechanics. May be taken for a maximum of 6 credits toward graduation, but is limited to 3 credits for the BS in Physics.

PHYS 495R
Independent Readings
1 to 3:0 to 9 On Sufficient Demand
* Prerequisite(s): PHYS 2220, Departmental Approval, and University Advanced Standing

Working under faculty supervision, allows research on a project determined jointly with a faculty member and approved by the department chair. Emphasizes experimental technique, data collection, modeling, and analysis techniques. May be used as part of a senior thesis. May be repeated for a maximum of 9 credits toward graduation.

PHYS 499A
Senior Project
2:0:0 On Sufficient Demand
* Prerequisite(s): Instructor approval, Departmental approval, and University Advanced Standing

Provides an opportunity for senior physics majors to participate in a current research project supervised by a department faculty member. Includes independent study and/or laboratory work as necessary. Cumulates in the preparation of a written paper and oral presentation describing the results of the research project as required for PHYS 499B. May be taken concurrently with PHYS 499B.

PHYS 499B
Senior Thesis
1:0:3 On Sufficient Demand
* Prerequisite(s): Instructor approval, Departmental approval, and University Advanced Standing

Continues PHYS 499A. Provides an opportunity for senior physics majors to present the results of a current research project supervised by a department faculty member. Includes independent study as necessary. Cumulates in the preparation of a written paper and oral presentation describing the results of the research project.

Peace and Justice Studies (PJST)

PJST 3000
Introduction to Peace and Justice Studies
3:3:0 Fall
* Prerequisite(s): PHIL 2050 and University Advanced Standing

Introduces the student to the important literature, questions, and research programs of peace and justice studies. Explores personal, domestic, national, and international issues. Considers alternative conceptions of violence, war, terrorism, justice/injustice, and peace. Enables the student to become aware of various intellectual and professional disciplines that bear on the causes of poverty and the most promising solutions. May be repeated for a maximum of 12 credits toward graduation.

PJST 3020
The Ethics of War and Peace
3:3:0 Fall Odd Year
* Prerequisite(s): PHIL 2050 and University Advanced Standing

Introduces literature concerning the ethics of conflict, war, terrorism, and peace. Considers alternative conceptions of these phenomena, as well as alternative approaches and ethical theories in respect to how conflict of various kinds might most effectively and morally be preempted or diminished. Addresses various defense theories and religious traditions' teachings about conflict, violence, and peace.

PJST 3030
The Scientific Study of War and Peace
3:3:0 Spring
* Prerequisite(s): PHYS 3000 and University Advanced Standing

Takes a multidisciplinary approach to the study of conditions under which the use of violence, terrorism, and war occur. Studies the use of non-violent approaches to conflict and their effectiveness. Examines the ways in which strategies for violent and non-violent approaches to conflict are developed and evaluated.

PJST 3040
Peace in Historical Context
3:3:0 Fall
* Prerequisite(s): University Advanced Standing

Examines the emergence and development of peace and justice traditions' teachings about conflict, violence, and peace. Addresses various defense theories and religious traditions' teachings about conflict, violence, and peace. Enables the student to become aware of various intellectual and professional disciplines that bear on the causes of poverty and the most promising solutions. May be repeated for a maximum of 12 credits toward graduation.

PJST 3100
Introduction to Human Security
3:3:0 Fall Odd Year
* Prerequisite(s): ENGL 2010 and (PHIL 2050 or PHIL 205G) and University Advanced Standing

Introduces the student, and brings him or her, to some depth in the field of human security. Engages the student in a wide range of interdisciplinary literature because this field of inquiry, discourse, and conception is contested, theoretically rich, and empirically rich. Analyzes matters that threaten human security, for example: hunger and malnutrition; disease; cultural, structural, and direct violence; ecological and environmental degradation; political and economic instability and hegemony. Analyzes the organizations, institutions, movements, and strategies assembled successfully against these threats.

PJST 3200
Global Poverty Facts Causes and Solutions
3:3:0 Spring Even Year
* Prerequisite(s): (ENGL 2010 or instructor approval) and University Advanced Standing

Analyzes global poverty as a serious and pressing worldwide problem that kills over 33,000 people each day. Interrogates questions of why poverty exists, as well as what is or can be done to diminish or eliminate it. Presents sophisticated and empirically-based information regarding global malnutrition, conflict, migration, lack of employment and healthcare, etc. Uses the most recent research and research methodologies to investigate both the causes of poverty and the most promising solutions. Examines literature about various moral perspectives and how they speak to the moral duty (or its absence) to address poverty.
**Course Descriptions**

**PJST 3300**  
Community Development  
3:3:0  Fall Even Year  
* Prerequisite(s): PJST 3000 and University Advanced Standing  
Surveys the nature of community and approaches to the building and strengthening of community. Analyzes needs in various communities and methods of implementing solutions to meet those needs. Explores policies and strategies that produce a high quality of life and maximum opportunity for all residents of local communities. Examines community development through case studies and direct student engagement.

**PJST 3400**  
Conflict Transformation Resolution and Sustainable Peace  
3:3:0  Spring  
* Prerequisite(s): PJST 3000 and University Advanced Standing  
Uses empirical data to interrogate and explicate organized death in the form of war, revolution, insurgency, or terrorism as a perennial, and one of the most complicated, problems. Uses empirical data and theory to investigate the means of conflict transformation that have been most successful. Presents a basic understanding of how conflict is transformed from (1) an active status to (2) resolution to (3) peaceful stalemate to (4) sustained peace. Explicates the process of moving from active violent conflict to sustainable peace. Explores the roles of peoples, state organizations, institutions, civil society, culture, religion, states, and multilateral organizations.

**PJST 4200**  
Advanced Poverty Studies: Global Problems and Policies  
3:3:0  Spring Even Year  
* Prerequisite(s): (PHIL 2050 or PHIL 205G) and University Advanced Standing  
Analyzes the nature of poverty in diverse societies, techniques for its measurement and inaccurate measurement, and the causes and reasons for poverty and its intractability. Examines the ways in which local, national, and global factors are part of the nature of poverty. Surveys policies and institutions designed to confront the problem. Interrogates and explicates the ethical issues surrounding poverty and its alleviation.

**PJST 4300**  
Race Gender and Class in Peace and Justice  
3:3:0  Fall Odd Year  
* Prerequisite(s): PJST 3000 and University Advanced Standing  
Analyzes the bases of discrimination and domination in societies. Addresses the multidimensional forms of social inequality by examining concrete examples of each dimension such as the wealth gap, gendered work, and poverty. Examines the nature of social class, race, and gender as they relate to issues of war, peace, injustice, and justice. Surveys the contributions that the perspectives of the dominated and victims of discrimination offer to the resolution of inequalities and the establishment of equity.

**PJST 475R**  
Issues in Peace and Justice Studies  
3:3:0  On Sufficient Demand  
* Prerequisite(s): PHIL 2050, Junior Standing, and University Advanced Standing  
Prepares a selected topic from current issues in the area of Peace and Justice Studies which will vary each semester. May approach topics from a cross-disciplinary perspective. Requires a project demonstrating competence in the specific topic or issue. May be repeated for a maximum of 6 credits toward graduation.

**PJST 481R**  
Internship  
1 to 8:1 to 8:0  On Sufficient Demand  
* Prerequisite(s): Program Director Approval and University Advanced Standing  
Provides opportunities for internship experience in the following types of agencies: political, governmental, corporate, private, news agencies or any non governmental organization (NGO) apart from regular employment. Encourages practical, research, and development experience in selected areas of service related to the student's academic or professional goals relevant to peace and justice studies concerns. Requires supervision by an agency representative and approval of the Peace and Justice Studies internship adviser and the program director. Requires that written contracts be completed and signed by all responsible parties. Credit is determined by the number of hours a student works during the semester. May be repeated for a maximum of 8 credits toward graduation. May be graded credit/no credit.

**PJST 4900**  
Peace and Justice Studies Capstone  
3:3:0  On Sufficient Demand  
* Prerequisite(s): ENGL 2010, Senior Standing, and University Advanced Standing  
To be taken during the student's last semester. Includes writing a senior thesis which points to career or graduate school goals. Requires a significant research project, which may coincide with field work and/or internship experience. Covers advanced Peace and Justice Studies research and writing instruction. Involves the creation of a portfolio helpful in applying to graduate schools or seeking employment.

**PJST 491R**  
Independent Study  
1 to 8:5 to 40  On Sufficient Demand  
* Prerequisite(s): Program Director Approval and University Advanced Standing  
For self-directed students who wish to engage in a well-defined study or project in an area of special interest within the domain of Peace and Justice Studies. Requires individual initiative and responsibility with limited formal instruction and faculty supervision. Projects may include writing a publishable paper, giving an oral presentation, passing a competency exam, or completing any other options approved by the instructor and the program director. May be repeated for up to 9 credits toward graduation.

**Political Science (POL)**

**POLS 1000**  
American Heritage  
3:3:0  Fall, Spring, Summer  
Studies the founding of American constitutional government. Considers the cultural, economic, legal, political, and social ramifications of the Constitution of the United States.

**POLS 1010**  
Introduction to Political Science  
3:3:0  Fall, Spring  
Explores the nature of politics and power. Compares constitutional systems of government with closed totalitarian systems such as the Communist Bloc nations. Examines public opinion, political communications, interest groups, party politics, ideologies, governmental institutions, bureaucracies, and government legal systems. Studies the role of violence and revolution. Emphasizes the influence of these political elements on the average citizen.

**POLS 1020**  
Political Ideologies  
3:3:0  Fall, Spring  
Surveys the major historical and current political ideologies including liberalism, Marxism, fascism and Islamism.

**POLS 1100**  
American National Government  
3:3:0  Fall, Spring, Summer  
Studies history and structure of American National Government, rights and responsibilities of citizens, political institutions, political processes, and governmental policies.

**POLS 1440**  
Introduction to Middle East Politics  
3:3:0  On Sufficient Demand  
Studies social, historical, political and religious influences affecting the Middle East. Explores forces that motivate policy and decision-making. Examines current issues such as the Arab-Israeli conflict, political Islam, petroleum power and U.S. foreign policy. Presents profiles of selected modern Middle East states and the balance of power in the region.

**POLS 1800**  
Our Global Community  
3:3:0  Not Offered  
Examines geography, climate and topography of Western Europe, Asia, Latin America, Pacific Rim, sub-Saharan Africa and Middle/垢East Islamic regions. Studies the unique social, cultural, economic and political differences and resulting tensions and conflicts. Explores how historical experience affect the expectations and perceptions of selected populations.

**POLS 2100**  
Introduction to International Relations  
3:3:0  Fall, Spring, Summer  
Discusses logic of power in international relations. Studies idealistic and realistic theories of international relations. Examines reasons why nations go to war. Compares geopolitical thrust and response.
POL 2200  Introduction to Comparative Politics  
3:0  SS  Fall, Spring, Summer
Studies comparative politics and looks at attitudes and causes of political problems. Examines methods and means employed by selected countries to solve political problems, and studies successes and failures of different approaches. Examines the means which different nations employ to deal with political problems. Explores the politics, institutions, and governments of seven selected nations.

POL 2220  Introduction to Chinese Commerce  
3:0  On Sufficient Demand
Surveys the current situation of the Chinese economy, starting with Chinese economic geography and the historical background of economic development in the post-1978 era. Concentrates on economic transition, development strategies, and basic situations of various sectors in the post-reform era, discussed in a comparative framework with the economic transition and development experience of other countries. Discusses some current eye-catching issues associated with economic development and having international impacts, such as international trade and investment transactions, energy competition, and environmental degradation of China.

POL 230G  Introduction to Political Theory  
3:0  Spring
Surveys major Western political theories, from Athenian democracy to the 21st century welfare state. Analyzes such ideologies as republicanism, liberalism, socialism, and fascism, and considers how these ideas have shaped the ways in which people think and nations act. Explores how global cultures have used and abused these ideas, and how students’ own political beliefs fit into the history of political ideologies.

POL 2400  Peace and Justice Studies Basics  
3:0  On Sufficient Demand
Examines the complexities and consequences of efforts to deal with conflicts between individuals, groups, and nations through a variety of techniques, including violence, war, and peace building. Introduces techniques used in the non-violent resolution of conflicts. Promotes techniques to avoid resorting to violence as a means of conflict resolution.

POL 3000  Political Analysis  
3:0  Fall, Spring, Summer
* Prerequisite(s): (STAT 1040, STAT 1045, MATH 1050, MATH 1055 or higher) and POLS 1010 and University Advanced Standing
Covers the analytical and quantitative methodologies used in political science and public policy research. Includes statistical analysis, database research, and writing exercises.

POL 3010  Political Analysis II  
3:0  Spring
* Prerequisite(s): POLS 3000 and University Advanced Standing
Covers advanced political data analysis techniques, including: advanced multiple regression analysis and diagnostics, measurement reliability and validity, the use of statistical-analysis software and presentation of analysis results.

POL 3020  Public Program Analysis  
3:0  On Sufficient Demand
* Prerequisite(s): University Advanced Standing
Serves as an introduction to evaluation methodology and evaluation tools commonly used to assess publicly funded programs. Provides training and practice in the field of public-program analysis. Familiarizes students with different types of program evaluation, including needs assessment, formative research, process evaluation, monitoring of outputs and outcomes, impact assessment, and cost analysis.

POL 3030  State and Local Government  
3:0  Fall Even Year
* Prerequisite(s): University Advanced Standing
Examines the operation and structure of American State and Local Government with special attention to the Utah experience. Explores the local political process, administrative practices, and intergovernmental relations.

POL 3040  Survey Research and Design Methods  
3:0  Fall Even Year
* Prerequisite(s): University Advanced Standing
Focuses on the role of polling in the political process. Introduces the theory and methods used in survey research. Includes how survey research firms produce polls, analysis of polling for campaigns and public opinion, and the psychology of survey response, survey construction, and sampling. Covers other data-collection techniques commonly used in politics and political science such as focus groups and experiments.

POL 3050  Experimental Methods in Political Science  
3:0  Fall Odd Year
* Prerequisite(s): POLS 3000 and University Advanced Standing
Provides an overview of experimental methodology currently being utilized in the field of Political Science. Dissects the multiple stages of experimental research design and analysis. Teaches critical thinking in terms of the benefits and dangers of causal inference using experimental research.

POL 3060  Qualitative Analysis  
3:0  Spring Even Year
* Prerequisite(s): POLS 3000 and University Advanced Standing
Offers a hands-on opportunity for students to experience the practice of qualitative research. Provides training and practice in a broad set of qualitative methods as applied to public sector organizations, such as state and federal agencies, municipalities, and nonprofit organizations.

POL 3070  Policy Analysis  
3:0  Spring Odd Year
* Prerequisite(s): POLS 3310 and University Advanced Standing
Provides an introduction to the objectives, functions, and techniques of policy analysis in democratic societies, with an emphasis on the United States. Emphasizes policy analysis in government organizations. Considers policy analysis in nongovernmental settings, such as nonprofit organizations and think tanks.

POL 3100  Survey of International Terrorism  
3:0  Fall Odd Year
* Prerequisite(s): University Advanced Standing
A survey course of political violence and terrorism in the modern world. Studies terrorism and other forms of political violence and how they relate to fundamentalism, such as the Shiite Islamic, and Christian identity movements in the United States and Western Europe. Examines the concept of religious and political terrorism, as well as the ideologies, tactics, and organizations common to most terrorist groups.

POL 3120  Political Parties  
3:0  Spring Even Year
* Prerequisite(s): (POLS 1100 or instructor approval) and University Advanced Standing
Examines the American political party system with special attention given to the history, structure, functions, and role of American political parties.

POL 3150  US Presidency  
3:0  Spring Even Year
* Prerequisite(s): (ENGL 1010 or ENGH 1005) and University Advanced Standing
Studies the executive branch of American national government. Examines the basic functions, tenets, and institutions of the federal executive branch. Special attention given to the powers, roles, and structure of the presidency. Analyzes the various complexities of executive politics and policies.

POL 3180  Public Opinion and Political Behavior  
3:0  Fall Odd Year
* Prerequisite(s): University Advanced Standing
Explores the formation and role of public opinion in politics and its impact on political behavior. Topics covered are: how, and to what extent, individuals form their attitudes about politics; how researchers go about attempting to measure public opinion; the distribution and determinants of public opinion regarding a broad range of political issues; and how political attitudes affect political participation.
POLS 3200  
US Congress  
3:3:0  
Fall Odd Year  
* Prerequisite(s): (ENGL 1010 or ENGH 1005) and University Advanced Standing  
Examines the legislative branch of American national government. Explores concepts of legislative theory, examining basic structure, functions, powers and roles of Congress. Gives special attention to the legislative process, constitutional structure, and modern development of federal legislature.

POLS 3210  
World Diplomacy  
3:3:0  
Spring Even Year  
* Prerequisite(s): POLS 2100 and University Advanced Standing  
Examines diplomacy as the conduct of relations between sovereign states through the medium of officials based at home or abroad. Explores processes and procedures of the diplomatic art that focuses chiefly on the recent past but is rooted in history. Emphasizes negotiation (the most important function of diplomats), as well as unconventional diplomatic methods.

POLS 3220  
Interest Groups  
3:3:0  
Spring Odd Year  
* Prerequisite(s): University Advanced Standing  
Provides an introduction to interest groups and their role in American politics. Examines the ways that citizens, firms, and institutions struggle to gain representation through organized interest groups in the United States. Includes the reasons why interest groups are formed, the reasons why people join organized interests groups, and the importance of leaders and leadership in attracting members and maintaining the stature of the group.

POLS 3250 (Cross-listed with: LEGL 3250)  
Introduction to Law and Politics  
3:3:0  
Fall, Summer  
* Prerequisite(s): (POLS 1010 or POLS 1100) and University Advanced Standing  
Examines the relationship between law and politics. Addresses the impact politics have on the judiciary and the strengths and weaknesses of law as a means of social order. Focuses on general issues of legal and political theory and the social and political function of law.

POLS 3300  
Introduction to Public Administration  
3:3:0  
Fall, Spring, Summer  
* Prerequisite(s): University Advanced Standing  
Introduces basic concepts and principles in the implementation of public policy, as opposed to the formation of public policy. Includes concepts such as chain of command, hierarchy, and span of control.

POLS 3310  
Introduction to Public Policy  
3:3:0  
Fall  
* Prerequisite(s): POLS 1100, (ENGL 1010 or ENGH 1005), and University Advanced Standing  
Provides an introduction to the process of public policy-making in the United States and to the substance of policy in areas like health policy, environmental policy, and education policy. Introduces students to the fundamental skills of policy analysis and to some of the difficult choices involved in identifying, addressing, and resolving public policy problems.

POLS 3320  
Nonprofits and The Public Sector  
3:3:0  
Spring Odd Year  
* Prerequisite(s): (ENGL 1010 or ENGH 1005) and University Advanced Standing  
Explores the historical background, development, role, and purposes of nonprofit organizations. Expands awareness of the scope and breadth of the nonprofit sector in the United States, and examines the inner workings of nonprofit organizations as the foundation for further study.

POLS 3340  
Public Innovation  
3:3:0  
Spring Odd Year  
* Prerequisite(s): (ENGL 1010 or ENGH 1005) and University Advanced Standing  
Presents an overview of the background, methods, and, techniques associated with public sector innovation. Equips students who wish to be innovators with the knowledge and skills necessary to imagine and implement innovative solutions to public problems.

POLS 3370  
Leading Cities  
3:3:0  
Fall Odd Year  
* Prerequisite(s): (ENGL 1010 or ENGY 1005) and University Advanced Standing  
Provides an introduction to and overview of what leadership is within the public sector. Examines the skills required to successfully lead and manage cities for both elected and appointed leaders (mayors, city managers, city council members, etc.). Considers related topics, including the diverse functions of a city and common challenges faced by city leaders.

POLS 3380  
Local Economic Development  
3:3:0  
Fall Even Year  
* Prerequisite(s): (ENGL 1010 or ENGH 1005) and University Advanced Standing  
Introduces the context, theory, process, and practice of local economic development policy. Examines facets of local economic development such as tax increment finance, job creation, economic analysis, business expansion and retention, and economic gardening.

POLS 3390  
Urban Planning  
3:3:0  
Fall Odd Year  
* Prerequisite(s): University Advanced Standing  
Provides a broad introduction to the field of urban planning as a profession, a process of decision-making, and a government function. Explores the limitations and benefits of planning, primarily in areas such as climate adaptation, economic development, and natural disasters.

POLS 3400  
American Foreign Policy  
3:3:0  
Spring  
* Prerequisite(s): POLS 1100, POLS 2100, and University Advanced Standing  
Examines the development and theories of American foreign policy with special emphasis on the twentieth and twenty-first centuries. Surveys the process by which American foreign policy is formulated and examines major events and trends in policy since World War II.

POLS 3410  
Globalization and Sustainable Development  
3:3:0  
Fall, Spring  
* Prerequisite(s): University Advanced Standing  
Examines major measurements of sustainability indicators, approaches and institutions in disaster management, and the roles of environmental assessment, management and policy. Considers the impacts of infrastructure development, economics, and market failures, in addition to major approaches and linkages to poverty reduction. Examines the importance of governance, democratic institutions and civil society for sustainable development (SD). Considers the role of international financial and political institutions; international environmental agreements for SD.

POLS 3420  
Islam in World Affairs  
3:3:0  
Fall Even Year  
* Prerequisite(s): University Advanced Standing  
Examines the history, traditions, and pillars of Islam as the latest among monotheistic religions in the world. Studies the role of women in Islam and its roots of diversity, including the historic split to Shia and Sunnis. Examines the influence of Islam in the politics and economies of Muslim nations around the world and examines the challenges presented by radical Islam for the modern world.

POLS 3480  
Race in Politics  
3:3:0  
Fall Odd Year  
* Prerequisite(s): University Advanced Standing  
Analyzes the role of race and ethnicity in global, national, and local politics. Focuses on the ways race has been socially constructed to promote the power of some and the domination of others.

POLS 3500  
International Relations of the Middle East  
3:3:0  
Spring Odd Year  
* Prerequisite(s): (POLS 2100 or instructor approval) and University Advanced Standing  
Covers the impact of the West on the Middle East, the Arab-Israeli wars, the rise of Islamic fundamentalist terrorist groups and regimes, the Iran-Iraq war (1980-1988), the Iraq-Kuwait-US war (1990-1991), the Impact of 9/11, as well as the foreign policies of several major states in the Middle East.
POLS 3510 Post Soviet Politics 3:3:0 Fall Even Year
* Prerequisite(s): University Advanced Standing
Examines relations of the Russian Federation to its neighbors and other strategic international actors. Focuses on the dynamics of key bilateral relationships by highlighting such key areas as oil and energy, defense policy, economic policy priorities, and the role of international institutions.

POLS 352G Chinese Politics 3:3:0 Fall Even Year
* Prerequisite(s): University Advanced Standing
Reviews the historical background in which Chinese Communist Party established its governance. Examines the politics of the People’s Republic of China since 1949. Analyzes important aspects of Chinese political and economic institutions and governance, such as party-state, political economy, judicial system, military, dissent politics, and foreign policy. Explains Chinese geographic and demographic features and how those features affect Chinese politics and economy. Discusses significant effects and implications which China’s political modernization and economic growth might have across its border.

POLS 353G Asian Politics 3:3:0 Spring Even Year
* Prerequisite(s): University Advanced Standing
Explains the demographic features in India, China, and Japan and how those features affect politics in the three countries. Reviews the historical background in which India, China, and Japan established their national identities. Surveys and compares the state-building efforts and development strategies in India, China, and Japan. Examines and compares domestic political system and government structure in these three countries. Discusses significant effects and implications which Asian politics might have across their borders.

POLS 356G Comparative Politics of Central Asia 3:3:0 Fall Odd Year
* Prerequisite(s): (ENGL 1010 or ENGH 1005) and University Advanced Standing
Introduces students to the region of Central Asia with its complex nature and origins of instability. Places regional conflicts in the context of global political developments. Analyzes the historical background of its problems and challenges in combination with studies of its dynamically developing politics.

POLS 3600 International Relations of East Asia 3:3:0 Fall
* Prerequisite(s): University Advanced Standing
Studies the emergence, from the nineteenth century, of modern nations from the rich and varied cultures and societies of Pacific Asia. Focuses on China, Japan and Korea. Explores the historical and geographical context of the development of East and Southeast Asia. Examines the transformation between East and West as well as the persistence of tradition. Discusses the political, economic and cultural changes in a region whose economic output rivals that of any other area of the world.

POLS 3610 International Organization 3:3:0 Fall Odd Year
* Prerequisite(s): POLS 2100 and University Advanced Standing
Focuses on the role of international institutions in the modern state system. Analyzes procedures of international cooperation in key area issues including: the peaceful settlement of disputes and international security, human rights, economic development, and the environment.

POLS 3620 Latin American Politics 3:3:0 Fall Even Year
* Prerequisite(s): University Advanced Standing
Studies the development of modern political institutions as an outcome of colonial practice in Latin America, such as slavery and economic dependency. Examines national politics in Latin America, focusing on issues such as political power, democratization, indigenous rights, border politics, neo-colonialism, and Latin American socialism. Explores the consequences for Latin America of neo-liberalism, Eurocentrism, narco-trafficking, and globalization on the international level.

POLS 362G Modern Chinese Political Economy 3:3:0 Fall Odd Year
* Prerequisite(s): University Advanced Standing
Examines the Chinese experience in economic transition and economic development in general and in several domestic sectors, which cross the conventional boundaries between political and economic analysis and through a comparative lens vis-a-vis other transition economies and developing economies. Presents the basic historical and current developments of Chinese economy. Probes the interaction between economic development and political institutions in China, and considers the international effects and implications of Chinese economic development in a critical way.

POLS 3630 Sustainable Mountain Development 3:3:0 Spring
* Prerequisite(s): University Advanced Standing
Considers the issues of sustainable mountain development (SMD) as a part of the globalization process and one of the important priorities of the multilateral agenda of the United Nations. Includes discussion of the problems of mountain ecosystems, such as sources of goods, food, and services for mountain populations. Examines special economic development issues in rural, isolated mountain communities in the contexts of recreation and tourism, biological and cultural diversity, and religious significance.

POLS 3640 United Nations Sustainable Development Goals 3:3:0 Spring
* Prerequisite(s): University Advanced Standing
Examines the United Nations Sustainable Development Goals and the role the UN Economic and Social Council plays in the implementation of Sustainable Development Goals. Considers the role of the sustainable mountain development agenda in the UN 2030 Development Agenda and in promotion of Utah as the model of economic development among mountain nations worldwide. Examines the practical aspects of the UN Sustainable Development Goals advocacy through an engaged learning activity by visiting the UN Economic and Social Council forums.

POLS 3650 Model United Nations 3:3:0 Spring
* Prerequisite(s): University Advanced Standing
Focuses on the issues, goals and procedures of the United Nations. Incorporates research on political, economic, and social issues of assigned countries in preparation for a simulation of the United Nations. Includes debate on important international political issues accompanied by negotiation and drafting of resolutions to address global problems.

POLS 3680 International Political Economy 3:3:0 Summer Even Year
* Prerequisite(s): POLS 2100 and University Advanced Standing
Focuses on the connection between politics and economics in international relations, including an overview of some of the major issues in the area of international political economy, the international trade and financial systems, the role of multinational corporations, economic development, and economic globalization.

POLS 420R Issues and Topics in Political Science 3:3:0 On Sufficient Demand
* Prerequisite(s): ENGL 2010 and University Advanced Standing
Surveys a specific topic in political science. Topic varies each semester. May be repeated for a maximum of 6 credits toward graduation.

POLS 4250 (Cross-listed with: HLTH 4250) Public Health Organization and Policy 3:3:0 Fall, Spring
* Prerequisite(s): HLTH 3200, University Advanced Standing, and matriculation into BS Community Health or BS School Health Education; or instructor approval
Focuses on U.S. health policy and policy analysis. Describes the basic machinery of policymaking and legal processes that underpin the individual health care and public health systems. Analyzes the fundamental problems and contemporary issues in health policy and teaches students how to properly develop and analyze health policy.
Course Descriptions

POLS 4500
International Conflict and Security
3:3:0  On Sufficient Demand
* Prerequisite(s): POLS 2100 and University Advanced Standing
Focuses on causes and theories of conflict in international relations. Includes traditional and emerging threats to international security, as well as policy responses to them.

POLS 4610
International Law
3:3:0  Spring Even Year
* Prerequisite(s): POLS 2100 and University Advanced Standing
Focuses on theories, sources, and foundations of international law. Includes discussion of rights and duties of states, the relationship between international and domestic law, interstate settlement of disputes, and extraterritorial jurisdiction. Explores international law in the areas of human rights, the environment, and the use of force.

POLS 480R
Internship
2 to 9:2 to 9:0  Fall, Spring
* Prerequisite(s): POLS 1100 and University Advanced Standing
Provides opportunities for internship experience in political organizations, government offices, and non-governmental organizations. May be repeated for a maximum of 9 credits toward graduation. May be graded credit/no credit.

POLS 4850
State Legislative Internship Seminar
3:3:0  Spring
* Prerequisite(s): University Advanced Standing
* Prerequisite(s) or Corequisite(s): ENGL 1010 or ENGH 1005
Prepares students who have been selected to serve as interns to the Utah State Legislature. Focuses on legislative behavior and organization; bill and law making; research and policy; comparative state government and politics and internship requirements.

POLS 490R
Independent Study
1 to 4:1 to 4:0  On Sufficient Demand
* Prerequisite(s): ENGL 2010 and University Advanced Standing
Provides independent study for students unable to secure a desired class within regular semester curriculum offerings. With the approval of dean and/or department chair, student and instructor design and complete readings and other projects at the upper division level. May be repeated for a maximum of 6 credits toward graduation.

PORT 1020
Beginning Portuguese II
4:4:1  Fall, Spring
* Prerequisite(s): Students need equivalent knowledge of PORT 1010
Continuation of PORT 1010. Includes remaining first-year grammar and language concepts plus introduction to literature and cultural readings. Uses eclectic method of instruction, emphasizing conversational exchanges. Lab access fee of $10 applies.

PORT 1010
Beginning Portuguese I
4:4:1  Fall, Spring
For those with no prior Portuguese. Emphasizes listening, speaking, and writing skills along with basic grammar, vocabulary and verb conjugations all within the cultural context of modern Brazil and Portugal. Use eclectic methodology requiring conversational exchanges. Lab access fee of $10 applies.

PORT 1050
Intensive Portuguese for Spanish Speaker
5:5:1  On Sufficient Demand
* Prerequisite(s): (SPAN 3030 and SPAN 3040) or SPAN 3050, native speaker, or permission of instructor
Intensive overview of basic Portuguese for Spanish speakers. Practices listening, speaking, reading, and writing skills as well as discusses cultural aspects of Portuguese-speaking societies. Uses an eclectic method of instruction, emphasizing conversational exchange.

PORT 115R
Portuguese Conversation I
1:1:0  On Sufficient Demand
Offers novice Portuguese speakers opportunities to enhance their speaking proficiency in the target language by focusing on oral verbal production. Teaches how to improve authentic pronunciation, reduce errors in authenticity of language structure, generate thought in the target language spontaneously as a substitute for translation, sharpen listening comprehension, and develop conversational strategies such as circumlocution and managing a conversation with useful expressions for starting a conversation, gaining time to think, helping the other speaker, seeking agreement, etc. Contrasts with all other first year courses which must strive to produce mastery of the whole range of language acquisition components, including writing, grammar, etc. Facilitates lowering the affective filter when conversing in the target language by increasing the frequency of speech opportunities and defusing concern for such matters as spelling, etc. Increases mastery of lexical items through increased frequency of oral usage. May be repeated for a maximum of 3 credits toward graduation.

PORT 2010
Intermediate Portuguese I
4:4:1  Fall, Spring
* Prerequisite(s): Students need equivalent knowledge of PORT 1020
Reviews and builds grammar, reading, and conversation skills learned in the first year courses. Introduces readings and discussions on the history, culture, and literature of Brazil, maintaining a focus on oral proficiency. Lab access fee of $10 applies.

PORT 202G
Intermediate Portuguese II
4:4:0  Fall, Spring
* Prerequisite(s): PORT 1020
Continuation of PORT 2010. Includes remaining grammar and language concepts, literature and cultural readings. Emphasizes literary readings, conversational exchanges as well as creative writing. Lab access fee of $10 applies.

PORT 215R
Portuguese Conversation II
1:1:0  On Sufficient Demand
* Prerequisite(s): Students should have equivalent knowledge of PORT 1020
Offers lower division / novice speakers opportunities to enhance their speaking proficiency in the target language by focusing on oral verbal production. Teaches how to improve authentic pronunciation, reduce errors in authenticity of language structure, generate thought in the target language as a substitute for translation, sharpen listening comprehension, and develop conversational strategies such as circumlocution and managing a conversation with useful expressions for starting a conversation, gaining time to think, helping the other speaker, seeking agreement, etc. Contrasts with all other first year courses which must strive to produce mastery of the whole range of language acquisition components, including writing, grammar, etc. Facilitates lowering the affective filter when conversing in the target language by increasing the frequency of speech opportunities and defusing concern for such matters as spelling, etc. Increases mastery of lexical items through increased frequency of oral usage. May be repeated for a maximum of 3 credits toward graduation.

PORT 3050
Advanced Portuguese
3:3:0  Fall, Spring
* Prerequisite(s): It is recommended that students have either taken PORT 202G, at least a 18 months one year residency in a Portuguese-speaking country, or instructor approval
For non-native Portuguese speakers with a basic mastery of Portuguese. Overviews basic Portuguese grammar with special emphasis on major concepts. Overviews Lusophone literatures and cultures. May be delivered hybrid. Lab access fee of $10 applies.

PORT 3200
Business Portuguese
3:3:0  Fall
* Prerequisite(s): (PORT 3050 or equivalent knowledge) and University Advanced Standing
For those who plan to pursue a career in international business or related field, learn the business language for Portuguese, or understand Portuguese speaking cultures. Teaches Portuguese business terminology. Presents the role of Portuguese-speaking countries in a global economy. Explores how students can effectively do business with Brazilian and Portuguese companies within the framework of Lusophone cultures. Includes current materials dealing with today's issues. Taught entirely in the Portuguese language.
PORT 3430
Masterpieces of Brazilian Film
3:2:3 On Sufficient Demand
* Prerequisite(s): University Advanced Standing
* Prerequisite(s) or Corequisite(s): PORT 3050 recommended

Develops listening comprehension and speaking skills through discussion of Brazilian films. Enhances understanding of Brazilian culture and contemporary society through analysis of cultural and social issues presented in Brazilian cinema. Conducted entirely in Portuguese.

PORT 352G
Brazilian Culture and Civilization
3:3:0 Spring
* Prerequisite(s): PORT 3050 and University Advanced Standing

Explores a multitude of aspects that construct Brazilian national identity. Completers should acquire an understanding of contemporary issues, and ethnic and economic development of Brazil, as well as historical interdependence with other nations. Presentations and class instructions conducted entirely in Portuguese.

PORT 3610
Brazil through Literature and Film--1500-1900
3:3:0 On Sufficient Demand
* Prerequisite(s): University Advanced Standing
* Prerequisite(s) or Corequisite(s): PORT 3050 or equivalent

Examines the literary and filmic construction of Brazil 1500-1900. Requires students to reflect on the philosophical, social, and aesthetics issues that shaped Colonial and Old Republic Brazil. Conducted entirely in Portuguese, presentations and class instruction included.

PORT 3620
Modern Brazil through Literature/Music/Film--1900-1945
3:3:0 On Sufficient Demand
* Prerequisite(s): University Advanced Standing
* Prerequisite(s) or Corequisite(s): PORT 3050 recommended

Examines the literary, musical and filmic construction of Brazil in the beginning of the 20th century. Reflects on the aesthetics, social, and philosophical issues that shaped Brazil. Conducted entirely in Portuguese.

PORT 3630
Post-Modern Brazil through Literature/Music/Film--1945-today
3:3:0 On Sufficient Demand
* Prerequisite(s): University Advanced Standing
* Prerequisite(s) or Corequisite(s): PORT 3050 or equivalent

Examines the literary, musical and filmic construction of Brazil at the end of the 20th century. Reflects on the philosophical, social, and aesthetics issues that formed Brazil. Conducted entirely in Portuguese.

PORT 409R
Special Topics in Brazilian Studies
3:3:0 On Sufficient Demand
* Prerequisite(s): University Advanced Standing
* Prerequisite(s) or Corequisite(s): PORT 3050

Engages students in critical analysis of discourse in Brazil. Develops language skills required to such analysis and specific to the topic. Possible topics include Brazilian Film, Brazilian Music, Lusophone Literature, Women’s Texts, Advanced Business Portuguese. Conducted entirely in Portuguese. May be repeated for up to nine credit hours towards graduation.

Paralegal Studies (PRLG)

PRLG 1000
Introduction to American Law
3:3:0 Fall, Spring

Studies the relationship between social values, culture and the law, with particular emphasis on current events. Examines the structure of the American court system, its processes, and the American constitutional framework and federalism, methods of alternative dispute resolution, and a survey of major areas in American law, including torts, business and contracts, intellectual property, family law and estate planning. Lab access fee of $30 for computers applies.

PRLG 2100
Civil Litigation I
3:3:0 Fall, Spring
* Prerequisite(s): ENGL 1010; PRLG 2000

Overviews court system, emphasizing the Utah State Courts, rules of procedure for civil, criminal and appellate court processes. Reviews all phases of litigation, from pre-litigation and strategic planning through post-judgment processes. Resolves questions of jurisdiction, venue, choice of law, litigation strategy, discovery, and other key processes.

PRLG 2200
Legal Research and Writing I
3:3:0 Fall, Spring
* Prerequisite(s): ENGL 1010; PRLG 2000

Introduces the student to the legal system and legal sources including case law, statutory law, administrative regulations, and secondary sources. Provides basic instruction in print research in the law library and to electronic research using Westlaw and government resources. Emphasizes legal analysis and introduces students to legal writing. Lab access fee of $30 for computers applies.

PRLG 3100
Civil Litigation II
3:3:0 Fall, Spring
* Prerequisite(s): PRLG 2100 and University Advanced Standing

Focuses on generation and creation of work product required in a civil case under the Utah and Federal Rules of Civil Procedure. Emphasizes initial pleadings, civil discovery processes, and pre-trial motion practice.

PRLG 3300
Criminal Law and Procedure
3:3:0 Fall, Spring
* Prerequisite(s): PRLG 1000 and University Advanced Standing

Examines the legal and procedural aspects of crime, including the elements and categories of criminal acts and jurisdictional considerations. Studies the procedure of criminal prosecution according to the Federal Rules of Criminal Procedure, from both a prosecution and defense perspective, including constitutional assurances, investigations, case preparation, motion processes, trials and appeals.

PRLG 4200
Legal Research and Writing II
3:3:0 Fall, Spring
* Prerequisite(s): PRLG 2100; PRLG 2200; University Advanced Standing

Reviews basic legal research in print resources and on Westlaw and government resources. Continues development of legal research and writing skills. Introduces student to writing office memoranda and select appellate documents with continued emphasis on legal analysis. Lab access fee of $30 for computers applies.

PRLG 4400
Family Law
3:3:0 Fall
* Prerequisite(s): PRLG 2100; PRLG 2200; University Advanced Standing

Covers family issues and drafting of legal documents relating to domestic litigation. Explores case law related to the marriage contract, divorce, adoption, guardianships, paternity, illegitimacy, and prenuptial agreements. Emphasizes family law document production in domestic cases. Lab access fee of $30 for computers applies.

PRLG 481R
Internship
1 to 8:1 to 8:0 Fall, Spring, Summer
* Prerequisite(s): Approval Paralegal Director and University Advanced Standing; PRLG 2100, PRLG 2200, PRLG 2300

Provides actual, on-the-job work experience in a non-paying (volunteer) basis in a law office or other approved law-related situation. Emphasizes successful work experience, especially identifying and solving problems. Completers should be qualified to work in the Paralegal profession. May be repeated for a maximum of 8 credits. May be graded credit/no credit.

Automotive Power Sports (PST)

PST 1110
Two Stroke Engine Systems
2:2:0 Fall, Spring
* Corequisite(s): PST 1115

Studies the theory, diagnosis, and repair of two stroke engines. Emphasizes design and capabilities of the two stroke engine. Includes engine rebuilding techniques and principles, basics of engine fasteners, sealants, and tightening methods.
Course Descriptions

PST 1115
Two Stroke Engine Systems Lab
1:0:3  
Fall, Spring
* Corequisite(s): PST 1110

Examines the operation, repair, and design of two stroke engine systems. Emphasizes demonstrations, observations, and hands-on participation. Utilizes actual engines and vehicle systems of major manufacturers in completing the task lists.

PST 1120
Constant Velocity Transmissions and Drive Systems Lab
2:2:0  
Fall, Spring
* Corequisite(s): PST 1125

Stresses instruction of safety procedures.

PST 1125
Constant Velocity Transmissions and Drive Systems Lab
1:0:3  
Fall, Spring
* Corequisite(s): PST 1120

Enhances the technical theory covered in the PST 1120 course. Provides a transmission laboratory experience by following industry task lists for continuously variable transmission (CVT) systems. Emphasizes demonstrations, observations, and hands-on participation. Utilizes actual vehicles and vehicle systems of major manufacturers in completing the task lists.

PST 1130
Small Motorcycles and Scooters Lab
1:0:3  
Fall, Spring
* Corequisite(s): PST 1135

Examines motorcycle systems and how these systems interact. Stresses safety procedures.

PST 2110
Snowmobile Systems
2:2:0  
Fall, Spring
* Corequisite(s): PST 2115

Studies the operation, diagnosis, and repair of snowmobile systems. Emphasizes design, capabilities, and uses of the snowmobile system. Includes instruction on individual systems and how these systems interrelate into the platform as a whole. Stresses safety procedures. Covers advanced repair techniques.

PST 2115
Snowmobile Systems Lab
1:0:3  
Fall, Spring
* Corequisite(s): PST 2110

Examines the operation, repair, and design of snowmobile systems. Emphasizes demonstrations, observations, and hands-on participation. Utilizes actual vehicles and vehicle systems of major manufacturers in completing the task lists.

PST 2120
ATV and UTV Systems
2:2:0  
Fall, Spring
* Corequisite(s): PST 2125

Examines motorcycle systems and how these systems interact. Stresses safety procedures.

PST 2125
ATV and UTV Systems Lab
1:0:3  
Fall, Spring
* Corequisite(s): PST 2120

Enhances the technical theory covered in the PST 2120 course. Provides a laboratory experience for all-terrain vehicles (ATVs) and utility task vehicles (UTVs). Emphasizes demonstrations, observations, and hands-on participation. Utilizes actual vehicles and vehicle systems of major manufacturers in completing the task lists. Covers advanced repair techniques. Stresses safety procedures.

PST 2130
Small Motorcycles and Scooters
2:2:0  
Fall, Spring
* Corequisite(s): PST 2135

Studies the operation, repair, and design of snowmobile systems. Emphasizes design, capabilities, and uses of the snowmobile system. Includes instruction on individual systems and how these systems interrelate into the platform as a whole. Stresses safety procedures. Covers advanced repair techniques.

PST 2135
Small Motorcycles and Scooters Lab
1:0:3  
Fall, Spring
* Corequisite(s): PST 2130

Examines motorcycle systems and how these systems interact. Stresses safety procedures.

PST 2230
Street and Sport Motorcycles
2:2:0  
Fall, Spring
* Corequisite(s): PST 2235

Studies the operation, repair, and design of snowmobile systems. Emphasizes design, capabilities, and uses of the snowmobile system. Includes instruction on individual systems and how these systems interrelate into the platform as a whole. Stresses safety procedures.

PST 2235
Street and Sport Motorcycles Lab
1:0:3  
Fall, Spring
* Corequisite(s): PST 2230

Examines motorcycle systems and how these systems interact. Stresses safety procedures.

PST 2240
Outdoor Power Equipment
2:2:0  
Fall, Spring
* Corequisite(s): PST 2245

Examines motorcycle systems and how these systems interact. Stresses safety procedures.

PST 2245
Outdoor Power Equipment Systems Lab
1:0:3  
Fall, Spring
* Corequisite(s): PST 2240

Examines motorcycle systems and how these systems interact. Stresses safety procedures.

PST 2250
Personal Watercraft
2:2:0  
Fall, Spring
* Corequisite(s): PST 2255

Studies the operation, repair, and design of snowmobile systems. Emphasizes design, capabilities, and uses of the snowmobile system. Includes instruction on individual systems and how these systems interrelate into the platform as a whole. Stresses safety procedures. Covers advanced repair techniques. Stresses proper safety procedures.
PSY 1010
General Psychology
3:3:0
Fall, Spring, Summer
An introductory course in modern scientific psychology. Covers major domains of psychological science including biological foundations, sensations, perception, learning, motivation, human development, and abnormal psychology. Examines major psychological and professional applications. Canvas Course Mats $25/McGraw applies.

PSY 101H
General Psychology
3:3:0
Fall
Covers major domains of scientific psychology including biological foundations, sensation and perception, learning, motivation, human development, and abnormal psychology. Examines major psychological and professional applications. Students will be expected to write at least two papers and work collaboratively.

PSY 1100
Human Development Life Span
3:3:0
Fall, Spring, Summer
Explores genetic and environmental influences on human development and behavior from conception and birth through old age and death. Examines typical physical, cognitive, and psychosocial changes at each developmental stage throughout the life span. Explores major theoretical perspectives on human development. Canvas Course Mats $66/McGraw applies.

PSY 1250
Psychology Applied to Modern Life
3:3:0
* Prerequisite(s): PSY 1010 with grade C- or higher and (ENGL 1010 or ENGL 1005 with a C+ grade or higher)
Examines knowledge about key concepts and findings from the science of psychology. Applies effective strategies, grounded in psychology, to their own lives in areas that will help them to be healthier and happier. Key topic areas include: stress, social influences and interpersonal communication, relationships and life transitions, and mental and physical health.

PSY 2250
Psychology of Interpersonal Relationships
3:3:0
Fall, Spring, Summer
* Prerequisite(s): ENGL 1010 or ENGL 1005 (with a C- grade or higher) and PSY 1010 (with a C- or higher)
Integrates cognitive psychological theory in an experiential setting to build personal communication skills. Helps students better understand their interactions with others. Teaches practical skills used in personal, professional, and social relationships. Studies problem-solving models and conflict resolution methods.

PSY 2400
Positive Psychology
3:3:0
Fall, Spring, Summer
* Prerequisite(s): PSY 1010 (grade of C- or higher) and ENGL 1010 or ENGL 1005 (grade of C- or higher)
Examines underlying biological, psychological, and social factors, that interact and contribute to illnesses. Examines how beliefs, attitudes, and lifestyles contribute to overall health. Includes preventative strategies and techniques. Introduces motivational strategies to work productively with patients in healthcare settings.

PSY 289R
Beginning Research Experience
1 to 3:1 to 3:0
* Prerequisite(s): PSY 1010 with a C or higher; ENGL 1010 or ENGL 1005 with a C+ or higher; Instructor approval
Beginning course on research in psychology. Explores psychological literature to investigate topics of interest. Requires individual initiative and responsibility. Includes limited formal instruction and faculty supervision. Projects will vary based on the student's needs and interests but may include literature searches, materials creation, data collection, or other options as approved by the instructor. May be repeated for a maximum of six credits toward graduation.

PSY 3030
Research Methods for Psychology
4:4:0
* Prerequisite(s): (BESC 3010 or PSY 3010 with a C- or higher), (ENGL 2010 with a C+ or higher), and University Advanced Standing
Explains the logic of the classical true experiment and how it permits causal inferences. Compares and contrasts the benefits and drawbacks of quasi-experimental and correlational research designs. Includes the design of an empirical psychological study. Covers compliance with guidelines for ethical research as codified in law and the American Psychological Association's ethics code. Requires collection, analysis, and presentation of quantitative data for an empirical psychological study. Includes a lab.

PSY 3100
Psychology of Gender
3:3:0
Fall, Spring, Summer
* Prerequisite(s): PSY 1010 (with a C or higher; ENGL 2010 with a C+ or higher) and University Advanced Standing
Examines the topic of gender behaviors and attitudes that relate to (but are not entirely congruent with) biological sex. Discusses biological influences on gender, gender differences, gender development, and the influence of gender on various dimensions of daily life.

PSY 3105
Health Psychology
3:3:0
* Prerequisite(s): (PSY 1010 or PSY 1100) with grade C- or higher or (Community Health major and HLTH 2800 or HLTH 3260) with grade C- or higher, ENGL 2010 with grade C+ or higher, and University Advanced Standing
Examines underlying biological, psychological, and social factors, that interact and contribute to illnesses. Examines how beliefs, attitudes, and lifestyles contribute to overall health. Includes preventative strategies and techniques. Introduces motivational strategies to work productively with patients in healthcare settings.
## Course Descriptions

### PSY 3200
**Infancy and Childhood Development**

*Prerequisite(s):* (PSY 1010 or PSY 1100) with grade C- or higher or (Community Health major and HLTH 2800 or HLTH 3260) with grade C- or higher, ENGL 2010 with grade C+ or higher, and University Advanced Standing

- Teaches major theories of infant and child development.
- Identifies the sequence of development including physical, mental, and emotional conditions. Studies special needs and exceptional children. Examines parenting styles. Emphasizes development of the ‘whole child’.

### PSY 3210
**Adolescent Development**

*Prerequisite(s):* PSY 1010 (with C- grade or higher) and (ENGL 2010 with C+ grade or higher) and University Advanced Standing

- Focuses on physical, social, mental and emotional development of adolescents. Examines current research regarding optimal conditions for healthy maturation and separation/individuation from parents. Addresses adjustment problems, prevention, and remedies.

### PSY 3220
**Adult Development**

*Prerequisite(s):* PSY 1010 (with C- grade or higher) and (ENGL 2010 with C+ grade or higher) and University Advanced Standing

- Studies adult developmental stages (end of adolescence through old age). Examines stable patterns and predictable changes in physiological and psychological and cognitive processes, emphasizing current research in optimal adult functioning.

### PSY 3300
**Motivation and Emotion**

*Prerequisite(s):* PSY 1010, (ENGL 1010 or ENGL 1005 with a C+ or higher), and University Advanced Standing

- Examines motivation and emotion that underlie thought and behavior from a variety of perspectives. Explores the various theoretical approaches to motivation and emotion such as biological, phenomenological, cognitive, developmental and social constructivist approaches. Examines the historical background of motivation and emotion research, as well as a number of current applied motivational approaches.

### PSY 3400
**Abnormal Psychology**

*Prerequisite(s):* PSY 1010 (with C- grade or higher) and (ENGL 2010 with a C+ grade or higher) and University Advanced Standing

- Foundation course for psychology majors. Examines the psychology of abnormal behavior, historical explanations and current biological and psychological theories of abnormal behavior. Emphasizes the description of mental disorders according to the American Psychiatric Association Diagnostic and Statistical Manual. May be delivered online.

### PSY 3420
**Cognitive Psychology**

*Prerequisite(s):* PSY 1010 (with C- grade or higher) and (ENGL 2010 with a C+ grade or higher) and University Advanced Standing

- Introduces students to the core concepts, theoretical perspectives, empirical findings, and historical trends in cognitive psychology. Includes classical and operant conditioning, modal model of memory, and higher cognitive processes. Explores animal as well as human research.

### PSY 3430
**Psychopharmacology**

*Prerequisite(s):* PSY 2710 (with C- grade or higher) or (ZOOL 2320 and ZOOL 2420 with grade C- or higher) and (ENGL 2010 with a C+ grade or higher) and University Advanced Standing

- Addresses basic principles of nervous system function with emphasis on communication between nerve cells. Focuses on therapeutic drugs as well as drugs of abuse to include mechanisms of action and behavioral effects.

### PSY 3440
**Principles of Learning**

*Prerequisite(s):* PSY 1010 (with C- grade or higher) and (ENGL 2010 with a C+ grade or higher) and University Advanced Standing

- Examines major concepts, theoretical perspectives, empirical findings, and historical trends in the scientific study of behavior. Focuses on application of psychological principles to personal, social, and organizational issues, as appropriate. Stresses use of critical and creative thinking, skeptical inquiry, and the scientific approach to solve problems related to behavior.

### PSY 3450
**Personality Theory**

*Prerequisite(s):* PSY 1010 (with C- grade or higher) and (ENGL 2010 with a C+ grade or higher) and University Advanced Standing

- Introduces the basic psychological theories attempting to answer the question “What is Personality?” Examines the scientific study of the uniqueness of each of us as individuals. Explores how individuals develop personality similarities as well as differences by examining classical personality theories, societal influences, cultural variations, behavioral genetics, anatomy and biochemistry, sex and gender differences and family function. May be delivered hybrid and/or online. Course fee of $15 applies.

### PSY 3460
**Behavioral Neuroscience**

*Prerequisite(s):* PSY 2710 (with C- grade or higher) and (ZOOL 2320 and ZOOL 2420 with C- grade or higher) and University Advanced Standing

- Examines the interaction between physiology and behavior. Covers physiological analysis, structures, and functions of the nervous system. Investigates topics including sensory and motor function, states of consciousness, sexual behavior, psychopathology, learning and memory. Course lab fee of $15 applies.

### PSY 3470
**Sensation and Perception**

*Prerequisite(s):* PSY 1010 and PSY 2710 both with grade C- or higher, ENGL 2010 with a C+ grade or higher, and University Advanced Standing

- Provides a foundation in how sensory systems interpret the world. Explores each of the primary sensory systems by defining the physical energy that is detected. Examines how that energy is transduced into neural impulses, and samples how aspects of that information are encoded to provide a representation of our world. Takes a neuroscientific approach to the topic, beginning with an overview of the nervous system, including the organization of the brain and spinal cord, how neurons work, and how neurons communicate with each other. Course lab fee of $15 applies.

### PSY 3480
**Social Psychology**

*Prerequisite(s):* PSY 1010 (with C- grade or higher) and (ENGL 2010 with a C+ grade or higher) and University Advanced Standing

- Studies the ways in which social context influences behavior. Reviews both social and psychological research. Includes culture and personality theory. Presents a multi-disciplinary approach to understanding human behavior. Requires a research project to observe and report individual or group behavior in a real life setting. May be delivered hybrid.

### PSY 3650
**Neuroscience of Emotion**

*Prerequisite(s):* PSY 2710, University Advanced Standing and Instructor approval

- Explores the scientific investigation of the biological basis of emotion in human and non-human animals. Provides an overview of the neural correlates of emotional states. Examines the role of neurotransmitter systems, anatomical structures, and neural circuits. Requires collection, analysis, and presentation of current primary research.

### PSY 3710
**Introduction to Forensic Psychology**

*Prerequisite(s):* PSY 1010 (with grade C- or higher) and (ENGL 2010 with a C+ grade or higher) and University Advanced Standing

- Introduces the complex field of forensic psychology which involves the overlap between the science of psychology and the law. Builds a basic understanding of the psychological principles and concepts that are part of the legal system. Highlights how the science of psychology potentially contributes to improvements and changes in the legal system. Outlines the role of forensic psychologists with regard to the legal system. Ideas regarding potential careers in the field are emphasized. Provides students the opportunity to customize course activities to suit their learning needs and styles from a variety of choices.
PSY 3850
Psychology of Good and Evil
3:3:0	On Sufficient Demand
* Prerequisite(s): PSY 1010 and (ENGL 2010 with a C+ grade or higher) and University Advanced Standing

Provides an integrated approach to understanding the roots of good and evil in human behavior. Explores theories and studies of human caring and destructiveness. Analyzes and develops psychological explanation of why individuals choose different courses of action under similar circumstances. Explores such concepts as attachment and parental discipline, bystander phenomena, response to authority, genocide, killing during war, group identity, bullying, views of the other and racism, forgiveness and reconciliation, and psychopathology and the biology of emotion.

PSY 4010
Experimental Psychology
3:3:0	Fall, Spring, Summer
* Prerequisite(s): (ENGL 2010 with a C+ grade or higher), BESC 3010, BESC 3020, and University Advanced Standing

Explores various experimental research designs (true experimental and quasi-experimental), emphasizing application and evaluation. Requires conducting an original psychological experimental research project.

PSY 4150
Tests and Measurements
3:3:0	Fall, Spring
* Prerequisite(s): (ENGL 2010 with a C+ grade or higher), BESC 3010 (with grade C- or higher), and University Advanced Standing

Introduces the history of psychological tests, examines tests in use at the present time and considers the appropriate roles of psychological testing in modern society. Studies individual and group assessment in the areas of intelligence, aptitude, achievement, personality and interest. Critically evaluates tests and other instruments of measurement for validity and reliability.

PSY 4300
Introduction to Counseling and Psychotherapy
3:3:0	Fall, Spring, Summer
* Prerequisite(s): PSY 1010 (with grade C- or higher) and PSY 3400 (with a C+ grade or higher) and (ENGL 2010 with a C+ grade or higher) and University Advanced Standing.

Surveys concepts and practices of major therapeutic systems. Introduces students to the major psychotherapeutic models. Addresses basic counseling issues including ethics and professionalism. Develops skills in relationship development, interviewing, initial assessment and intake procedures. May be delivered online.

PSY 4400
Introduction to Group Psychotherapy
3:3:0
* Prerequisite(s): PSY 1010 (with C-grade or higher), PSY 3400 (with grade C- or higher), (ENGL 2010 with a C+ or higher), and University Advanced Standing

Discusses group therapy theory, research applied to client assessment and outcomes, legal and ethical issues. Learning activities will include screening, assessment, treatment, evaluation, and termination of group members. May be delivered online.

PSY 4461 (Cross-listed with: PHIL 4461)
Moral Psychology
3:3:0	Spring Even Year
* Prerequisite(s): (PHIL 2050 or PHIL 205G or PHIL 205H or PSY 1010 or PSY 101H) and University Advanced Standing

Asks questions about how people engage in moral thinking and in moral behavior from the perspectives of the philosophy of mind, ethics and psychology. Explores topics such as virtue and character, reason and passion, altruism and egoism, agency and responsibility, and moral intuitions.

PSY 4500
History and Systems of Psychology
3:3:0
* Prerequisite(s): PSY 1010 (with C-grade or higher) and (ENGL 2010 with a C+ grade or higher) and University Advanced Standing

Identifies key contributors, historical systems and theories within the field of psychology. Includes contributions to present knowledge of affect, behavior, and cognition. Stresses similarities and differences between theories. Especially for students planning to take the Advanced Psychology Subject Test portion of the GRE.

PSY 4666
East Meets West Psychology
3:3:0	Summer
* Prerequisite(s): PSY 1010, ENG 2010, and University Advanced Standing

Studies individual and group assessment in the areas of intelligence, aptitude, achievement, personality and interest. Considers how cognitive and biological variables are related to individual differences in human intelligence.

PSY 4690
Human Intelligence
3:3:0
* Prerequisite(s): PSY 1010 (with C-grade or higher), BESC 3010 (with grade C- or higher), and (ENGL 2010 or 2020 with a C+ grade or higher); University Advanced Standing

Studies individual and group assessment in the areas of intelligence, aptitude, achievement, personality and interest. Considers how cognitive and biological variables are related to individual differences in human intelligence.

PSY 475R
Current Topics in Psychology
1 to 3:1 to 3:0	On Sufficient Demand
* Prerequisite(s): PSY 1010 and (ENGL 2010 with a C+ grade or higher) and University Advanced Standing

Expands research experience by either (1) significantly assisting on a faculty member's research project or (2) carrying out an independent research project of the student's design under faculty mentorship. May be repeated for a maximum of 6 credits toward graduation.

PSY 480G
Cross-Cultural Psychology
3:3:0	Fall, Spring
* Prerequisite(s): PSY 1010 and University Advanced Standing

Offers an opportunity to develop an appreciation for the interplay between psychological and cultural contributions to personal and group growth and well-being. Explores how culture influences the lived experience, particularly as it pertains to relationality. Gives consideration to both within and between culture variability.

PSY 482R
Internship Seminar
1:1:0
* Prerequisite(s): University Advanced Standing
* Corequisite(s): BESC 481R

Provides integration of classroom learning with learning that takes place in an on-site internship. To be taken concurrently with BESC 481R. Senior Internship. May be repeated for a maximum of 8 credits toward graduation.

PSY 483R
Psychology Internship
1 to 3:1 to 3:0
* Prerequisite(s): PSY 1010 with grade C- or higher; BESC 3010 with grade C- or higher; and University Advanced Standing

Allows psychology students with non-clinical orientation to receive psychology credits for internships in a governmental, corporate, or private agency apart from their regular employment. Provides practical and research experience over the course of the 15 week semester. Requires professional supervision. Internships approved by faculty and written contracts must be signed. May be repeated for a maximum of 8 credits toward graduation.

PSY 4850
Introduction to Pedagogy
3:3:0
* Prerequisite(s): PSY 1010; (ENGL 2010 with a C+ or higher); instructor approval; and University Advanced Standing

Builds a foundation for teaching at the college level through the study of best practices in college pedagogy via primary sources, review papers, and expert perspectives. Applies pedagogical knowledge through the delivery of multiple guest lectures on campus after creating appropriate course materials.

PSY 488R
Advanced Research Experience in Psychology
1 to 3:1 to 3:0
* Prerequisite(s): PSY 1010 with a C-grade or higher; ENGL 2010 with C-grade or higher; University Advanced Standing; Instructor approval

Expands research experience by either (1) significantly assisting on a faculty member's research project or (2) carrying out an independent research project of the student's design under faculty mentorship. May be repeated for a maximum of 6 credits toward graduation.
Course Descriptions

PSY 490R
Independent Studies
1 to 3:1 to 3:0 On Sufficient Demand
* Prerequisite(s): Instructor approval, department chair approval, and University Advanced Standing; for Behavioral Science Bachelor Degree students only
For qualified students who wish to undertake a well-defined project or directed study related to an area of special interest. Requires individual initiative and responsibility. Includes limited formal instruction and faculty supervision. Projects may include writing a publishable paper, passing a competency exam, producing an annotated bibliography, oral presentation, or other options as approved by instructor. May be repeated for a maximum of 6 credits.

PSY 491R
Psychology Capstone Internship
1 to 3:1 to 3:0 Fall, Spring
* Prerequisite(s): University Advanced Standing and instructor approval
* Corequisite(s): PSY 492R
Provides an in-depth experience applying knowledge from two or more of the following areas of psychology: statistics/research methods, biological, developmental, cognitive, social/personality, and mental and physical health. May not be part of the student’s regular employment. Requires professional supervision. Requires faculty approval and signed written contracts. May be repeated for a maximum of 8 credits toward graduation.

PSY 492R
Psychology Capstone Seminar
1:1:0 Fall, Spring, Summer
* Prerequisite(s): Advanced University Standing and instructor approval
* Corequisite(s): PSY 491R
Provides integration of classroom learning with the student’s capstone internship. Reinforces learning outcomes of the psychology capstone internship. May be repeated for a maximum of 8 credits toward graduation.

Physical Education
Recreation (REC)

REC 1500
Canoeing I
1:5:1:5 Fall, Summer
Teaches basic canoeing techniques including safety, technical information, equipment, paddling skills, and canoe maneuvering. Requires overnight camping. Requires the ability to swim 100 yards without stopping on the first day of class. Course fee of $80 for transportation, equipment applies.

REC 1501
Canoeing II
1:5:1:5 Not Offered
* Prerequisite(s): REC 1500 or Instructor Permission
Prepares students to qualify to become instructors who will teach on water up to and including Class I on the International Scale of River Difficulty. Prepares students to teach the American Canoe Association’s Intro to Canoe course on flat water, and the Basic River Canoe course in a river environment and to teach students fundamental river paddling skills including boat handling, paddling technique, identifying hazards, river reading and self-rescues in moving water.

REC 1505
Whitewater Kayaking I
1:5:1:5 Fall, Summer
Teaches basic kayaking skills to the beginning kayaker. Includes roll techniques, paddle strokes, eddy turns, ferrying, river hazards, and rescue techniques. Requires the ability to swim 100 yards without stopping first day of class. Course fee of $150 applies for transportation, equipment applies.

REC 1506
Whitewater Kayaking II
1:5:1:5 Not Offered
* Prerequisite(s): REC 1505
Builds on whitewater skills initially taught in Whitewater Kayaking I. Develops the skills and knowledge to assist in instruction and river rescue. Prepares students to help others learn to kayak, preparing them for ACA whitewater certification.

REC 1512
Fly Tying I
1:5:1:5 Not Offered
For students interested in learning or perfecting fly tying skills. Discusses and demonstrates necessary fly tying tools, materials, and knots. Introduces aquatic entomology. Studies various fly types including wet fly, dry fly, nymph, and streamer. Includes hands-on experience.

REC 1513
Fly Casting I
1:5:1:5 Fall, Spring, Summer
For students interested in learning or perfecting fly casting skills. Studies types and classification of fly rods and reels. Teaches the physics of casting and casting techniques. Includes hands-on experience. Course fee of $10 applies for materials, equipment applies.

REC 1516
Ropes Course and Teambuilding
1:5:1:5 Not Offered
Provides participants with the opportunity to participate in a group and personal development process which utilizes the ropes course as an educational tool. Consists of 3 phases. Phase I - game and exercises designed to help participants get to know and feel at ease with each other. Phase II - group initiative games/problem solving activities which develop group communication skill, cooperation, and problem solving ability. Phase III - Ropes Course activities/individual challenge which allows class members to test their physical capabilities and individual limits. Course fee of $80 for transportation, equipment, and support.

REC 1521
Indoor Rock Climbing I
1:5:1:5 Fall, Spring
Teaches basic rock climbing skills to the beginning indoor rock climber. Includes knot tying, belaying, rappelling, fixed anchors, beginning indoor climbing, and rescue techniques. Prepares student for enjoyment of indoor climbing facilities, and introduces concepts related to sport climbing. Course fee of $90 for support, equipment applies.

REC 1522
Indoor Rock Climbing II
1:5:1:5 Fall, Spring
* Prerequisite(s): REC 1521
Builds on skills and experiences gained in Indoor Rock Climbing I. Focuses on lead climbing in the indoor sport context with emphasis on higher skill development, onsite and red point techniques. Course fee of $90 applies for support, equipment applies.

REC 1525
Mountaineering
1:5:1:5 Summer
* Prerequisite(s): REC 1535, REC 1527
Covers mountaineering subjects including hiking, rock climbing, mountain camping, and mountain survival. Requires good health and fair physical condition in order to enjoy the class. Provides technical climbing and safety equipment. Students provide camping equipment (this may be rented at a low cost at the Outpost on campus), boots or shoes, clothing and leather gloves suitable for hiking and climbing. Taught on block only. Course fee of $70 for transportation, materials, and equipment applies.

REC 1527
Rock Climbing I
1:5:1:5 Fall, Spring, Summer
Teaches basic rock climbing skills to the beginning rock climber. Includes knot tying, belaying, rappelling, top-rope anchors and site management, beginning lead climbing, and rescue techniques. Course fee of $20 for equipment applies.

REC 1528
Rock Climbing II
1:5:1:5 Fall
* Prerequisite(s): REC 1527 or Instructor Approval
Teaches intermediate rock climbing skills. Includes placing passive and active anchors on simulated lead climbs, multi-pitch belaying and rappelling. Teaches self- and partner-rescuing, ascending, route finding, crack and face climbing techniques, rock shoe resoling, and an introduction to aid climbing. Course fee of $90 for transportation, equipment applies.

REC 1535
Backpacking
1:5:1:5 Fall, Spring, Summer
* Prerequisite(s): Ability to carry a 40 lbs pack for 15-25 miles
Covers the basic aspects of backpacking, camping, and wilderness travel. Includes labs, lectures, demonstration, audio-visual and extended field trips. Teaches basic components of backpacking and lifelong values of outdoor recreation. Requires multi-night backpacking trip. Course fee of $88 for transportation, equipment, and support applies.
REC 1542 Wilderness First Responder
2:2:0 Summer
Teaches advanced emergency care specific to situations encountered in a wilderness context. Prepares students for certification exam in Wilderness First Responder (WFR) or Wilderness Emergency Medical Technician Module (WEMT). Experiential Learning Credit must be from a WFR course with at least 72 hrs of contact time.

REC 1550 Mountain Biking
1:5:1:5 Fall, Spring, Summer
* Prerequisite(s): Ability to carry a 40 lbs pack for 15-25 miles
Provides the students with knowledge of cycling techniques when traveling off the pavement. Teaches bicycle maintenance and tuning. Includes several off-road rides. Stresses the enjoyment and lifetime benefits of mountain biking riding. Taught on block only. Course fee of $60 for transportation, equipment applies.

REC 1580 Kayak Touring
1:5:1:5 Fall, Spring
* Prerequisite(s): Must be able to swim 100 yards without stopping
Introductory course which teaches basic skills necessary to safely enjoy flat water (non-tidal) kayak touring. Teaches equipment selection, strokes, safety and rescue techniques. Field trip required for course completion. Course fee of $84 for transportation, equipment applies.

REC 1600 Winter Exploration
1:5:1:5 Spring
* Prerequisite(s): REC 1535
Teaches basics of snowshoeing, cross-country skiing, and winter camping, including Leave No Trace, cooking, staying warm, and building shelters. Covers risks and hazards of the winter environment. Requires overnight camping. Course lab fee of $45 course fee for equipment applies.

REC 1605 Skiing I
1:5:1:5 Spring
For the beginning skier. Covers basic skiing concepts including straight runs, stops, turns, traverses, and beginning parallel. Includes demonstration and participation. Grading is based on attendance. Lessons are at the Sundance Ski Resort. (Transportation is not provided.) Uses UVU and Sundance instructors. Students are required to have own equipment and purchase a half-day pass each ski day.

REC 1606 Skiing II
1:5:1:5 Spring
For the intermediate skier. Designed for those with basic ski skills and who would like to improve their skiing technique. Instruction is given in parallel skiing over bumps and flat terrain, hockey stops, moguls and traversing steep terrain. Uses demonstration and participation. Grading is based on attendance. Lessons are at the Sundance Ski Resort. (Transportation is not provided.) Uses UVU and Sundance instructors. Students are required to have own equipment and purchase a half-day pass each ski day.

REC 1615 Snowboarding
1:5:1:5 Spring
Provides a fun challenge to snowboarders of every ability level, starting with the beginning novice to the advanced boarder. Gives instruction in straight runs, stops, turns (falling leaf, heel edge, toe edge), and carving. Includes skill demonstration and student participation. Grading is based on attendance, participation, demonstrating skills, and tests. Lessons are at the Sundance Ski Resort. (Transportation is not provided.) Uses UVU and Sundance instructors. Requires students to have their own equipment and purchase a half-day pass each ski day.

REC 1625 Cross Country Skiing
1:5:1:5 Not Offered
Presents basic ski touring techniques. Studies selection and utilization of winter touring equipment and clothing in relation to varying climatic and terrain conditions. Includes trail etiquette, avalanche avoidance, and other important factors for a successful winter tour. Includes classroom instruction and ski touring. Taught on block only.

REC 2010 Avalanche Awareness
1:5:1:5 Spring
Examines the relationship of people in the backcountry and their cause/effect relationship with ever-changing snow conditions. Prepares students to safely and effectively venture into the winter backcountry. Course fee of $53 for equipment applies.

REC 2200 Foundations of Recreation
3:3:0 Fall, Spring
* Prerequisite(s) or Corequisite(s): ENGL 1010 or ENGL 1005
Introduces the study of Recreation. Studies the history and philosophy of the field of Recreation. Analyzes problems in areas covered under the umbrella of Recreation. Explores the Recreation sub-disciplines and related career and employment opportunities in this area.

REC 2400 Principles of Experiential Education in Recreation
3:3:0 Fall, Spring
* Prerequisite(s): REC 2200, ENGL 1010 or ENGL 1005
Introduces the principles and concepts of experiential education in the general context of recreation programming and prepares students for further study and skill development in context specific experiential education programming. Teaches history, theory, and ethics in the domain. Offers experience in the use of learning cycles, facilitation, feedback, processing, and effective communication techniques, risk management from both physical and emotional perspectives. Uses pedagogical lecture methods and experiential learning. Requires participation in experiential education programming and observation and participation in programs outside of class time.

REC 2500 Introduction to Adventure Recreation
2:2:0 Not Offered
Explores the philosophy, meaning and value of outdoor adventure recreation. Studies planning, organizing and leading outdoor excursions. Includes hiking, canoeing, camping, scuba diving, cross-country skiing, snowshoeing, compass navigation, outdoor cooking, archery, golfing, etc.

REC 2600 Principles of Outdoor and Adventure Education
3:3:0 Fall
* Prerequisite(s): REC 1535 and REC 2400
Introduces the principles and concepts of experiential education in the general context of recreation programming and prepares students for further study and skill development in context specific experiential education programming. Teaches history, theory, and ethics in the domain. Offers experience in the use of learning cycles, facilitation, feedback, processing, and effective communication techniques, risk management from both physical and emotional perspectives. Uses pedagogical lecture methods and experiential learning. Requires observation and participation in programs outside of class time.

REC 2650 Principles of Challenge Education
3:3:0 Not Offered
Introduces the principles and concepts of experiential education in the general context of recreation programming and prepares students for further study and skill development in context specific experiential education programming. Teaches history, theory, and ethics in the domain. Offers experience in the use of learning cycles, facilitation, feedback, processing, and effective communication techniques, risk management from both physical and emotional perspectives. Uses pedagogical lecture methods, experiential learning, and participation in challenge education programming. Requires observation and participation in programs outside of class time. Course fee of $95 for transportation, support applies.
Course Descriptions

REC 2700
Leave No Trace Trainer
1: 5: 1.5 Fall, Spring
* Prerequisite(s): REC 1535

Designed to train environmental leaders and interpreters in the delivery of Leave No Trace (LNT) principles and practices. Emphasizes the skills and ethics necessary for low impacts on the environment.

REC 2750
Principles of Water Based Adventure Education
3: 3: 0 Not Offered
* Prerequisite(s): PES 1300, REC 2400

Develops the principles and concepts of experiential education in the water-based context and prepares students for further study and skill development in context specific experiential education programming. Teaches history, theory, and ethics in the domain, as well as, develops experience in the use of learning cycles, facilitation, feedback, processing and effective communication techniques. Includes industry standard presentations and critiques of water safety, hydrology, paddling and stroke technique, self and group rescue techniques, decision-making and judgment, program planning, weather, leave no trace, personal risk management, and equipment care and maintenance. Addresses risk management from both physical and emotional perspectives. Utilizes pedagogical lecture methods and experiential learning, and participation in experiential education programming. Requires observation and participation in programs outside of class time. Prepares students to seek professional certification.

REC 3100
Recreation Program Planning
3: 3: 0 Spring
* Prerequisite(s): (REC 2200 or instructor approval) and University Advanced Standing
* Prerequisite(s) or Corequisite(s): MATH 1000 or higher

Investigates program planning and development in outdoor programs, camps, agencies, and education organizations. Emphasizes writing of technical program plans that state goals, program organization, curriculum, budgets, marketing, and evaluation.

REC 3200
Inclusive Recreation
3: 3: 0 Fall
* Prerequisite(s): REC 2400, REC 3100, and University Advanced Standing

Recreation service delivery for individuals with disabilities and other under-represented groups. Presents solutions to full recreation participation for individuals with physical, sensory, emotional and/or intellectual impairments. Incorporates hands on experience working with diverse populations.

REC 3300
Wilderness Skills 1: 5: 1.5 Fall, Spring
* Prerequisite(s): REC 1535 and University Advanced Standing
* Prerequisite(s) or Corequisite(s): REC 2200

Teaches tools and skills needed for surviving in the wilderness. Includes orienteering, map reading, packing, backcountry cooking, campsite set-up, food rationing, river crossing, proper clothing, water purification, hygiene, weather forecasting, backcountry travel, Leave No Trace ethics, and personal risk management. Course fee of $30 for transportation, equipment, and support applies.

REC 3400
Risk Management 3: 3: 0 Spring
* Prerequisite(s): REC 2200 and University Advanced Standing
* Prerequisite(s) or Corequisite(s): MAT 1010

Studies outdoor recreation risk management. Focuses on applying models of risk management, negligence, torts, risk management planning, and outdoor recreation safety.

REC 3500
Recreation Administration 3: 3: 0 Fall
* Prerequisite(s): REC 3100 and University Advanced Standing

Analyzes the internal organization of a recreation department dealing with finances and accounting, records and reports, publicity and public relations, state and federal legislation, staff organization, coordination of community resources.

REC 3700
Natural Resource Interpretation 3: 3: 0 Fall
* Prerequisite(s): REC 2400 and University Advanced Standing

Investigates theories, principles, and techniques of interpreting park, cultural, and natural resources to the public. Emphasizes techniques for providing interpretive programs developed for natural resources.

REC 385G
Ethical Concerns in Recreation 3: 3: 0 Spring
* Prerequisite(s): REC 2400, PHIL 2050, and University Advanced Standing

Examines the complex and controversial world of ethics as it pertains to the fields of outdoor recreation and natural resource management. Examines these fields from numerous perspectives; anthropocentric, biocentric and ecocentric, and theocentric.

REC 4000
Outdoor Leadership 4: 3: 2 Spring
* Prerequisite(s): REC 1535, REC 3300, REC 2600, REC 1542, and University Advanced Standing

Examines principles and practices of leadership in outdoor recreation programs. Focuses on the examination of theories, practices, and problems of leadership in an adventure environment. Provides hand-on experiences with students required to plan and be in a leadership position. Requires 30 hours of volunteer work experience. Course fee of $126 for transportation, equipment, and support applies.

REC 410R
Experiential Learning Expedition 1 to 6: 1.5 to 15 Not Offered
* Prerequisite(s): Department approval and University Advanced Standing

Teaches experiential learning and leadership in a expedition context. Includes but not limited to expedition planning, hard skills development, expedition behavior and group dynamics, team building, adventure tourism, and local cultural/natural resources. Repeatable up to 12 credits. Course fee of $700 for transportation, activities applies.

REC 420R
Outdoor Leadership and Management Practicum 2: 2: 0 Fall, Spring, Summer
* Prerequisite(s): REC 2400, Instructor approval, and University Advanced Standing

Provides students with practical work experience (volunteer or paid) either through a program offered by the college or in an existing outdoor or experientially based agency. Includes participation in a 150 hour department approved supervised outdoor recreation service. Examines topics that vary by practicum experience. May be repeated for a total of 6 hours toward graduation. May be graded credit/no credit.

REC 430R
Teaching Assistantship in Outdoor Recreation 1 to 4: 1 to 4: 0 Fall, Spring, Summer
* Prerequisite(s): Instructor Approval and University Advanced Standing

Provides students who have demonstrated a high level of proficiency to serve as assistant instructors in selected Outdoor Recreation courses. Requires students to take active leadership roles. Includes planning, sequencing and teaching outdoor recreation topics and skills with faculty supervision. May be repeated for up to 8 credit hours toward graduation. Graded Credit/No Credit.

REC 4350
Research Methods in Outdoor Recreation 3: 3: 0 Not Offered
* Prerequisite(s): REC 2400 and (MAT 1000 or higher) and University Advanced Standing

Introduces students to key research in their field. Emphasizes analytical and interpretive skills. Develops scientific writing skills. Promotes design and utilization of comprehensive research methodologies commonly applied in Outdoor Recreation.

REC 4400
Natural Resource and Protected Area Management 3: 3: 0 Fall
* Prerequisite(s): REC 2200 and University Advanced Standing

Examines topics in the management of Nation Parks, National Forests, Bureau of Land Management, and other public lands and protected areas focusing on management strategies and techniques for addressing common resource and social problems in natural resource recreation management. Emphasizes case studies and problem analysis. Course fee of $30 applies for transportation, support applies.
Philosophic Issues in Recreation, among others. May be Culture, Recreation and Diversity, and History and history, etc. Focuses may include: Recreation and Popular is affected by culture, ideology, socio-economic factors, changes. Analyzes how outdoor recreation affects and recreation management. (Specific areas of focus will affect public land recreation management. Course fee of $20 applies for transportation, support applies.

REC 4500 Wildland Recreation Behavior 3:3:0 Spring
* Prerequisite(s): REC 4400 and University Advanced Standing

Studies behaviorally-based models and relevant research in wildland recreation. Provides an in-depth analysis of human behavior influences and topics including visitor satisfaction, crowding, carrying capacity, resource destruction, motivations, attitudes, preferences, norms, conflicts, and specialization. Using these theoretical concepts, visitor-based management models will be presented and criticized. Emphasis on critical problems affecting public land recreation management. Course fee of $20 applies for transportation, support applies.

REC 4800 Professional Preparation in Recreation 1:1:0 Fall, Spring
* Prerequisite(s): University Advanced Standing
  * Prerequisite(s) or Corequisite(s): REC 4200

Prepares the student to make the transition from student to professional in Outdoor Recreation. Includes discussion of internship selection, application materials, interviewing skills, job search, salary negotiation, and other professional issues. Provides mentoring during the internship search process.

REC 481R Senior Internship 1 to 8:1:0 Fall, Spring, Summer
* Prerequisite(s): REC 4800, REC 420R, 80 credit hours completed, minimum 2.5 GPA, instructor approval, and University Advanced Standing

Provides supervised, hands-on field experience for excellent students preparing to take entry-level positions in recreation. May be repeated for a maximum of 12 credits toward graduation. May be graded Credit/No Credit.

REC 489R Undergraduate Research in Recreation 1 to 4:0:5 to 20 On Sufficient Demand
* Prerequisite(s): REC 2200, Departmental approval of research proposal, and University Advanced Standing

Provides students the opportunity to conduct research under the mentorship of a faculty member. Students will put in practice the theoretical knowledge gained in prior major courses. Students will create a significant intellectual or creative product that is characteristic of the recreation discipline and worthy of communication to a broader audience. May be repeated for a maximum of 8 credits toward graduation.

REC 490R Topics in Recreation 1 to 3:1:0 On Sufficient Demand
* Prerequisite(s): (REC 2200 or Instructor Approval) and University Advanced Standing

Focuses student reading, research, and discussion on specific areas of concentration within the field of outdoor recreation management. (Specific areas of focus will change as the instructor and his or her focus or expertise changes.) Analyzes how outdoor recreation affects and is affected by culture, ideology, socio-economic factors, history, etc. Focuses may include: Recreation and Popular Culture, Recreation and Diversity, and History and Philosopchic Issues in Recreation, among others. May be repeated for up to 6 credits toward graduation.

RESP 1540 Survey of Respiratory Therapy 1:1:0 Fall, Spring, Summer
* Prerequisite(s): Acceptance into the Respiratory Therapy Program

Introduces students to the profession of respiratory therapy. Includes field trips and limited lab activities. Open to all students. May be delivered hybrid and/or online.

RESP 2145 Fundamentals of Respiratory Care Lab 3:0:6 Spring
* Prerequisite(s): Acceptance into the Respiratory Therapy Program
  * Corequisite(s): RESP 2300

Provides laboratory experiences to develop basic patient interaction and assessment skills required of an entry-level respiratory therapist. Emphasizes students' ability to carry out commonly ordered respiratory therapy procedures. Includes participation in respiratory care simulations. Course lab fee of $225 applies.

RESP 2165 Mechanical Ventilation Lab 2:0:4 Summer
* Prerequisite(s): RESP 2145
  * Corequisite(s): RESP 2320

Provides laboratory experience with mechanical ventilation techniques and equipment. Emphasizes patient observation and assessment skills, as well as techniques in initiating, troubleshooting, monitoring, managing, and weaning ventilator parameters. Course lab fee of $217 applies.

RESP 2210 Cardiopulmonary and Renal Anatomy and Physiology I 3:3:0 Spring
* Prerequisite(s): Acceptance into the Respiratory Therapy Program

Introduces anatomy and physiology of the pulmonary, cardiovascular, and renal systems. Includes principles of fluid dynamics governing oxygen and carbon dioxide transport throughout the body.

RESP 2330 Cardiopulmonary Pathophysiology I 2:2:0 Spring
* Prerequisite(s): Acceptance into the Respiratory Therapy Program
  * Corequisite(s): RESP 2210

Covers the underlying pathophysiology of medical and surgical cardiopulmonary diseases. Emphasizes abnormal physiological processes which result in the signs and symptoms of each cardiopulmonary disorder. Includes diagnosis, selection, and implementation of therapeutic modalities and the role of the respiratory therapist in treatment.

RESP 2250 Basic Patient Assessment 2:2:0 Spring
* Prerequisite(s): Acceptance into Respiratory Therapy Program.

Introduces basic patient assessment techniques, including respiratory therapy application of obtaining patient history and physical examination. Emphasizes integration of laboratory and imaging studies.

RESP 2270 Application of Cardiopulmonary Diagnostics 3:3:0 Summer
* Prerequisite(s): RESP 2210

Introduces theory and clinical application of basic cardiopulmonary diagnostic studies, including simple spirometry, arterial and mixed venous blood gases, and electrocardiograms. Emphasizes critical thinking skills in interpretation of diagnostic findings.

RESP 2300 Fundamentals of Respiratory Care 3:3:0 Spring
* Prerequisite(s): Acceptance into the Respiratory Therapy Program.
  * Prerequisite(s) or Corequisite(s): RESP 2145

Examines principles and theory of clinical application of basic respiratory treatments and therapies, including indications, contraindications, hazards and complications, and equipment management. Includes principles and theory of clinical application of airway management and invasive and non-invasive ventilation. Emphasizes patient assessment and critical thinking skills.

RESP 2320 Mechanical Ventilation I 3:3:0 Summer
* Prerequisite(s): RESP 2300
  * Corequisite(s): RESP 2165

Introduces basic principles of mechanical ventilation, including determining the need for ventilation support, as well as initiation, maintaining, monitoring, and weaning from mechanical ventilation.

RESP 2330 Entry Level Respiratory Therapy Review 1:1:0 Fall
* Prerequisite(s): RESP 2320

Provides a comprehensive review to integrate concepts and skills in Respiratory Therapy.
Course Descriptions

RESP 2420
Critical Thinking in Respiratory Care
2:2:0 Summer
Prerequisite(s): RESP 2300
Provides learning experiences for students to develop a deep and broad understanding of respiratory care content based on sound clinical decision making. Requires students to solve practical problems in respiratory care.

RESP 2520
Principles of Pharmacology
2:2:0 Spring
Prerequisite(s): RESP 2210
Introduces pharmacology, including general principles, autonomic and central nervous system agents, cardiovascular agents, and immunotherapeutic agents. Includes the study of drugs used in managing renal, GI tract, endocrine, and infectious or neoplastic diseases and disorders.

RESP 2705
Clinical Practice I
3:3:0 Summer
Prerequisite(s): RESP 2145
Provides clinical rotations in the hospital environment allowing for mentored practice of skills. Emphasizes application of assessment skills including medical chart reviews and patient observation and examination. Includes recommendation, performance, and modification of basic therapies.

RESP 2715
Specially Clinical Experiences
1:1:0 Summer
Prerequisite(s): RESP 2145
Provides opportunity to observe and participate in specialty areas of the respiratory care profession.

RESP 2725
Clinical Practice II
3:3:0 Fall
Prerequisite(s): RESP 2705
Provides clinical rotations in selected medical settings, focusing on skills of initiation, management, and weaning of mechanical ventilation. Includes case studies as well as patient care.

RESP 3210
Cardiopulmonary and Renal Anatomy and Physiology II
2:2:0 Fall
Prerequisite(s): RESP 2210 and University Advanced Standing
Addresses cardiopulmonary anatomy and physiology specifically for the advanced-level respiratory care practitioner focusing on the advanced physiologic considerations of the cardiovascular, pulmonary, and renal systems.

RESP 3220
Cardiopulmonary Pathophysiology II
2:2:0 Spring
Prerequisite(s): RESP 2230 and University Advanced Standing
Examines pathophysiology and diagnosis of coronary artery disease, fungal lung diseases, neoplasms, HIV, adult respiratory distress syndrome (ARDS), chest trauma, shock, multiple organ dysfunction syndrome (MODS), and differentiation of extracellular and intracellular fluid compartments.

RESP 3230
Advanced Cardiopulmonary Technology
2:2:0 Spring
Prerequisite(s): RESP 2270 and University Advanced Standing
Explores advanced diagnostic procedures and develops interpretive skill in cardiopulmonary function, lung dynamics, specialty gases, blood gas analysis, and metabolic assessment.

RESP 3260
Neonatal/Pediatric Critical Care
3:2:2 Fall
Prerequisite(s): RESP 2320 and University Advanced Standing
Examines pediatric and neonatal respiratory care with emphasis on intensive care activities, therapeutic procedures, life support modalities, and fetal, neonatal, and pediatric pathophysiology. Course lab fee of $69 applies.

RESP 3270
Adult Critical Care
2:2:0 Spring
Prerequisite(s): RESP 2725 and University Advanced Standing
Explores advanced level adult respiratory care in the intensive care setting. Emphasizes ventilation/perfusion monitoring, hemodynamic monitoring, airway, assessment and critical patient management.

RESP 3280
Extended Care Roles for Respiratory Therapists
2:2:0 Fall
Prerequisite(s): RESP 2270 and University Advanced Standing
Prerequisite(s) or Corequisite(s): RESP 3785
Analyzes theory and principles of extended care roles for the respiratory therapist. Examines the respiratory therapist's role in quality management, pulmonary rehabilitation, sleep medicine, homecare, and hyperbaric medicine. Includes legal, ethical, and moral considerations of chronic and extended care.

RESP 3320
Mechanical Ventilation II
4:3:3 Spring
Prerequisite(s): RESP 2320 and University Advanced Standing
Focuses on the study of advanced mechanical ventilation. Emphasizes advanced modes of ventilation, patient management, and assessment. Includes invasive and non-invasive ventilation techniques.

RESP 3430
Principles of Healthcare Education and Disease Management
3:3:0 Spring
Prerequisite(s): RESP 2330 and University Advanced Standing
Introduces concepts and principles of respiratory chronic disease management. Examines health models, processes, staffing, training, patient advocacy/engagement, and reporting/reimbursement necessary to improve patient outcomes and reducing healthcare costs. Provides background in educational theory and practical application skills of educational delivery and evaluation within the construct of the health care environment.

RESP 3510
Anatomy and Physiology of Sleep
3:3:0 On sufficient demand
Prerequisite(s): University Advanced Standing
Introduces anatomy and physiology of the neurological, cardiac, and respiratory systems during the wake and sleep cycles. Emphasizes changes related to sleep disorders.

RESP 3520
Introduction to Sleep Disorders
3:3:0 On sufficient demand
Prerequisite(s): RESP 3510 and University Advanced Standing
Provides an overview of the history of sleep medicine, normal sleep physiology, the effects of sleep-wake disruption, sleep disorders, and abnormal sleep physiology. Includes an introduction to polysomnography and the fundamentals of therapeutic interventions utilized to treat sleep disorders.

RESP 3765
Clinical Practice III Neonatal/Pediatric Respiratory Care
3:3:0 Spring
Prerequisite(s): University Advanced Standing
Prerequisite(s) or Corequisite(s): RESP 3260
Provides mentored participation in the clinical care of patients in the neonatal/pediatric critical care setting. Emphasizes cardiovascular and patient/ventilator monitoring and assessment and airway management.

RESP 3785
Extended Roles in Respiratory Therapy Clinical
2:2:0 Spring
Prerequisite(s): University Advanced Standing
Prerequisite(s) or Corequisite(s): RESP 3280
Provides clinical experiences related to RESP 3280, such as rehabilitation, extended care, home care, polysomnography, patient assessment for discharge planning and quality management.
RESP 4610 Advanced Patient Assessment 3:3:0 Summer * Prerequisite(s): RESP 3270 and University Advanced Standing

Emphasizes the diagnostic processes involved in assessing, evaluating, and treating patients with cardiopulmonary disease, with an intensive, mentor-ed clinical experience.

RESP 4630 Continuous Quality Improvement 2:2:0 Summer * Prerequisite(s): University Advanced Standing

Enhances understanding of how to construct and conduct quality improvement projects in the clinical workplace.

RESP 4640 Respiratory Therapy Capstone 2:2:0 Summer * Prerequisite(s): RESP 3270 and Advanced University Standing

Focuses on areas of advanced respiratory care, leadership and management, case management, research, education, or other special area of interest. Student will identify and complete a project applying knowledge and skills learned in the program.

RESP 4775 Clinical Practice IV Adult Critical Care 4:4:0 Summer * Prerequisite(s): RESP 3270 and University Advanced Standing

Provides mentored participation in the clinical care of patients in the adult critical respiratory care setting, with emphasis on hemodynamic monitoring and assessment, ventilation/perfusion monitoring, patient/ventilator monitoring and assessment, and airway management.

RESP 4800 Respiratory Therapy Seminar 3:3:0 Summer * Prerequisite(s): RESP 3270 and University Advanced Standing

Explores problem-based clinical concepts. Includes a comprehensive program review and preparatory focus on the written and clinical simulation examinations of the NBRC. Covers resume writing and interviewing skills.

RESP 480R Health Education and Promotion 1 to 4:1 to 4:0 Fall, Spring, Summer * Prerequisite(s): University Advanced Standing and departmental approval.

Provides students an opportunity to pursue independent study in respiratory therapy with a faculty mentor. The health promotion project addresses the growing role of the Respiratory Care Practitioner (RCP) in patient education, public education, and health promotion in general. Requires preparation and presentation of oral and/or written reports. May be repeated for up to 4 credits toward graduation.

RESP 4890 Principles of Respiratory Care Research and Management 3:3:0 Summer * Prerequisite(s): RESP 3270 and University Advanced Standing

Examines research methods and the scientific approach to critical appraisal of research literature. Analyzes scientific data to support approaches to respiratory care. Introduces theories, principles, and skills needed to function in a leadership position. Addresses the key issues confronting respiratory care leaders today.

RESP 4940 Special Topics in Respiratory Therapy 2:2:0 Fall, Spring, Summer * Prerequisite(s): RESP 2320 and University Advanced Standing

Provides moderated discussion and/or laboratory experiences related to current events in health care, legislative and ethical issues, and emergent technologies in respiratory care.

Religious Studies (RLST)

RLST 3540 (Cross-listed with: PHIL 3540) Christian Ethics 3:3:0 Spring Odd Year * Prerequisite(s): PHIL 1610 and University Advanced Standing

Examines key developments and conceptions in Christian ethics through historical and conceptual methodologies. Explores the relationship between religious and secular approaches to ethics in their approach to questions of war, economics, politics, and/or other relevant issues.

RLST 3610 (Cross-listed with: PHIL 3610) Introduction to Christian Theology 3:3:0 On Sufficient Demand * Prerequisite(s): PHIL 1610 and University Advanced Standing

Examines key developments and conceptions in Christian theology through historical and conceptual methodologies.

RLST 3620 (Cross-listed with: PHIL 3620) Mormon Theology and the Christian Tradition 3:3:0 On Sufficient Demand * Prerequisite(s): PHIL 1610 and University Advanced Standing

For students majoring in humanities-related disciplines and other students interested in the academic study of religion. Engages students in exploring the defining features of Mormon thought in relation to the broader Christian tradition. Examines traditional theological questions such as the problem of evil, the scriptural canon, the nature of God and humanity, and the role of ritual.

RLST 3650 (Cross-listed with: PHIL 3650) Approaches to Religious Studies 3:3:0 Spring * Prerequisite(s): (PHIL 2050 or PHIL 205H or PHIL 205G or instructor approval) and University Advanced Standing

For students majoring in humanities-related disciplines and other students interested in the academic study of religion. Teaches methodological approaches and critical thinking strategies in the study of religion. Explores various disciplines in their approaches to religious belief and practice. Includes the study of such thinkers as David Hume, Immanuel Kant, Friedrich Schleiermacher, Rudolf Otto, William James, Ludwig Feuerbach, Soren Kierkegaard, Max Weber, Emil Durkheim, John Hick, and Rene Girard.

RLST 366R (Cross-listed with: PHIL 366R) Issues in Religious Studies 3:3:0 Spring Odd Year * Prerequisite(s): PHIL 2050 or PHIL 205H or PHIL 205G or instructor approval) and University Advanced Standing

For students majoring in humanities-related disciplines and other students interested in the academic study of religion. Addresses specific topics and theoretical approaches related to religious studies. Topics may include religion and violence, religion and public discourse, religious ritual, etc. Subject matter varies by semester and is repeatable for a total of 9 hours of credit.

Russian (RUS)

RUS 1010 Beginning Russian I 4:4:1 Fall, Spring

Studies conversational Russian that is used in daily settings. Includes culture study, speaking, listening, reading, and writing. Emphasizes conversation in real life situations. Uses the Natural and Total Physical Response teaching methods. Lab access fee of $10 applies.

RUS 1020 Beginning Russian II 4:4:1 Fall, Spring * Prerequisite(s): Students need equivalent knowledge of RUS 1010

Studies second semester conversational Russian that is used in daily settings. Includes culture study, speaking, listening, reading, and writing. Emphasizes conversation in real life situations. Uses the Natural and Total Physical Response teaching methods. Completers should be able to communicate enough to visit or work in a Russian speaking country. Lab access fee of $10 applies.
RUS 115R
Russian Conversation I
1:1:0 Fall, Spring
Offers novice Russian speakers opportunities to enhance their speaking proficiency in the target language by focusing on oral verbal production. Teaches how to improve authentic pronunciation, reduce errors in authenticity of language structure, generate thought in the target language spontaneously as a substitute for translation, and sharpen listening comprehension for natural conversational flow. Contrasts with all other first year courses which must strive to produce mastery of the whole range of language acquisition components, including writing, grammar, etc. Facilitates lowering the affective filter when conversing in the target language by increasing the frequency of speech opportunities and defusing concern for such matters as spelling, etc. Increases mastery of lexical items through increased frequency of oral usage. May be repeated for a maximum of 3 credits toward graduation.

RUS 135R
Russia in the Headlines
1:1:0 On Sufficient Demand
Explores current issues in Russian headlines. Explains cultural, historical, political and social factors that contribute to positions taken by current Russian leaders. May be repeated for a maximum of 3 credits toward graduation.

RUS 2010
Intermediate Russian I
4:4:1 Fall
* Prerequisite(s): Students need equivalent knowledge of RUS 1020
Reviews and builds upon the grammar, reading, writing, and conversation skills learned in the first year courses. Introduces readings and discussions on the history, culture, and literature of Russia, maintaining a focus on oral proficiency. Lab access fee of $10 applies.

RUS 202G
Intermediate Russian II
4:4:0 Spring
* Prerequisite(s): Students need equivalent knowledge of RUS 2010
Studies fourth-semester conversational Russian that is used in daily settings. Includes culture study, speaking, listening, reading, and writing. Emphasizes conversation in real life situations. Uses the Natural and Total Physical Response teaching methods. Completers should be able to converse enough to visit or work in a Russian speaking country. Lab access fee of $10 applies.

RUS 215R
Russian Conversation II
1:1:0 Fall, Spring
* Prerequisite(s): Students should have equivalent knowledge of RUS 1020
Offers lower division / novice Russian speakers opportunities to enhance their speaking proficiency in the target language by focusing on oral verbal production. Teaches how to improve authentic pronunciation, reduce errors in authenticity of language structure, generate thought in the target language spontaneously as a substitute for translation, sharpen listening comprehension, and develop conversational strategies such as circumlocution and managing a conversation with useful expressions for starting a conversation, gaining time to think, helping the other speaker, seeking agreement, etc. Contrasts with all other first year courses which must strive to produce mastery of the whole range of language acquisition components, including writing, grammar, etc. Facilitates lowering the affective filter when conversing in the target language by increasing the frequency of speech opportunities and defusing concern for such matters as spelling, etc. Increases mastery of lexical items through increased frequency of oral usage. May be repeated for a maximum of 3 credits toward graduation.

RUS 266G
Introduction to Russian Culture
3:3:0 Fall Odd Year
* Prerequisite(s): ENGL 1010 or ENGH 1005
Studies Russian culture (188-1900) within a historical, cultural, thematic, and aesthetic context.

RUS 3030
Russian Conversation and Composition I
3:3:0
* Prerequisite(s): (RUS 202G or instructor approval) and University Advanced Standing
Emphasizes production skills (speaking and writing), reviews and expands lexical depth and advances mastery of Russian grammar. Examines contemporary Russian culture topics through studying a variety of Russian sources: readings, film, lecture, individual research, etc. Analyzes topics through active class discussion in Russian. Conducted entirely in Russian.

RUS 3040
Russian Conversation and Composition II
3:3:0 On Sufficient Demand
* Prerequisite(s): (RUS 202G or instructor approval) and University Advanced Standing
Explores communicative skills in Russian. Provides opportunity for students to improve language production through extensive oral and written instruction and study of selected literary and cultural texts. Advances mastery of Russian grammar while emphasizing production skills of speaking and writing. Prepares students to participate fully in subsequent advanced courses. All course work conducted in Russian.

RUS 3050
Advanced Russian
3:3:0 Fall, Spring
* Prerequisite(s): It is recommended that students have either taken RUS 202G, had at least one year residency in a Russian-speaking country, or instructor approval
Designed for non-native Russian speakers, who, as a result of foreign residency or similar exposure to the language, have attained a fairly good mastery of basic Russian. Targets major grammatical concepts with a focus on oral proficiency development. Overviews Russian culture and gives an introduction to Russian literature. Lab access fee of $10 applies.

RUS 3200
Business Russian
3:3:0 On Sufficient Demand
* Prerequisite(s): RUS 3050 and University Advanced Standing
Teaches Russian business terminology and prepares students to take the Business Russian Proficiency Tests sponsored by the Russian Chamber of Commerce.

RUS 3520
Russian Culture and Civilization
3:3:0 On Sufficient Demand
* Prerequisite(s): (RUS 3050 or equivalent) and University Advanced Standing
Explores chronologically the evolution and development of Russia, and a multitude of aspects that construct Russian national identity. Completers should acquire an understanding of contemporary issues, ethnic and economic development of Russia, as well as historical interdependence with other nations. Presentations and class instructions conducted entirely in Russian.

RUS 3620
Nineteenth-Century Russian Literature and Its Film Adaptations
3:3:0 On Sufficient Demand
* Prerequisite(s): University Advanced Standing
Introduces Russian Realist literature from 1800 and explores how these classic texts have been adapted for film. Emphasizes literary and film analysis and criticism, explores literary history, develops skills in interpreting literary and filmic texts, and deepens understanding of Russian culture. All coursework conducted in English with select readings in Russian upon request.

RUS 366G
Twentieth Century Russian Culture
3:3:0 Spring Odd Year
* Prerequisite(s): ENGL 2010 and University Advanced Standing
Explores the main Russian cultural influences of the 20th century. Examines the cultural, social and political movements developed from roughly 1880-1999 and considers the main figures who embody these movements. Focuses on individuals who exemplify cultural achievements in their given field or sphere of influence. Requires a research paper that focuses on an individual who contributed to the 20th century cultural milieu. Taught in English.
RUS 367G (Cross-listed with: HIST 367G) History of Russian Film 3:2:2 Spring Even Year
* Prerequisite(s): (ENGL 1010 or ENGH 1005) and University Advanced Standing
Studies Russian cinema within the historical, cultural, thematic, and aesthetic context.

RUS 4050 Special Problems in Grammar Usage and Style 3:3:1 On Sufficient Demand
* Prerequisite(s): [RUS 3030 and RUS 3040] or RUS 3050] and University Advanced Standing
Reviews Russian grammar focusing on problem areas. Explores grammar as deployed in different genres. Emphasizes writing in different styles. Identifies styles in readings and composes according to certain styles.

RUS 4110 Translation and Interpretation 3:3:0 On Sufficient Demand
* Prerequisite(s): (RUS 3050 or equivalent) and University Advanced Standing
Introduces translation as a discipline. Develops the special skills needed for translating and interpreting, and to achieve mastery of the contemporary spoken and written language. Discusses basic theory, principles and tools of translation. Employs the tools of translation: dictionaries, glossaries, grammars and computerized resources. Focuses on the extensive practice of translation and interpretation from English to Russian and from Russian to English.

RUS 416G Post Soviet Russian Media and Film 3:2:2 Fall Even Year
* Prerequisite(s): ENGL 2010 and University Advanced Standing
Examines visual media with special attention paid to the embedded cultural discourse that can only be understood with references to Russian history, language, and cultural identity. Explores Russia’s depiction of and relationship with its past, present and future. Explores certain questions about visual media in post-Soviet society: the function of cinema in the new Russia; how cinema offers what reality cannot -- a goal for people to live up to at a time when politics and ideology fail to provide direction; how cinema articulates the reality of contemporary Russian life.

RUS 490R Special Topics in Russian Studies 3:3:0 On Sufficient Demand
* Prerequisite(s): ENGL 2010 and University Advanced Standing
Explores a variety of subjects relevant to the study of Russian language, literature and culture. Engages students in critical analysis and discourse. May be repeated for a maximum of 6 credits toward graduation.

---

**Student Leadership and Success (SLSS)**

**SLSS 1000 University Student Success 3:3:0** Fall, Spring, Summer
* Prerequisite(s): Appropriate reading skills
Introduces and integrates new students to the UVU community, both academically and socially. Teaches strategies for academic success, such as critical thinking skills, time and financial management, and effective collaboration techniques. Develops student awareness of campus resources and assists in exploring and establishing personal, academic, and career goals. Includes lectures, group interaction, online interaction with faculty and students, in class exercises, and projects which apply learning to real life situations.

**SLSS 101R Student Success Topics 1 to 3:1 to 3** Fall, Spring, Summer
* Prerequisite(s): Appropriate reading skills
Variable credit course that surveys essential skills for success in college. Topics covered include, but are not limited to: memory, note taking, test taking, textbook reading and study strategies, time management, writing processes, communication, and thinking skills. May be repeated for a maximum of 9 credits toward graduation. May be graded credit/no credit.

**SLSS 103R Student Leadership Development I 1 to 4:1:0 to 9** Fall, Spring, Summer
Provides an overview of leadership styles, personalities, and organizational dynamics for student leaders. Explores the structure and culture of Student Leadership, Utah Valley University, the governing boards of higher education, and the State of Utah relating to shared governance and student involvement in campus leadership. May be repeated for a maximum of 8 credits toward graduation. May be delivered hybrid.

**SLSS 104R Student Leadership Development II 1 to 4:1:0 to 9** Fall, Spring, Summer
* Prerequisite(s): Departmental Approval
Focuses on the nature of leadership, citizenship, and advocacy in a democracy. Provides an overview of leadership and civics as crucial to the success of any leader, including a student leader. May be repeated for a maximum of 8 credits toward graduation.

**SLSS 1050 Library Research 1:1:0** Fall, Spring, Summer
Introduces information gathering strategies and processes. Teaches discovery of books, articles, and other information sources. Emphasizes critical evaluation and ethical use of information. Prepares students for in-depth research. May be delivered online.

**SLSS 1100 Stress Management 3:3-0** Fall, Spring, Summer
Presents strategies to develop new attitudes for coping with stressful circumstances. Increases a broader perspective and deeper understanding of acute and chronic stress. Develops conflict resolution techniques through improved communication skills. Studies physiological signs of stress and strain. Emphasizes relaxation techniques to increase performance and reduce the effects of stressful situations. Presents how diet affects personal performance and stress reduction. Explores physical fitness and the effects a sound body can have on coping with stress. May be delivered online.

**SLSS 1120 Leadership and Civic Engagement 3:3-0** Fall, Spring, Summer
Identifies how student leaders can impact the UVU community and the community which they live. Explores student leadership models in relation to change and discover community needs in a service-learning environment. Applies student leadership practices and understanding of civic engagement to inform the UVU community of a local, national or world-wide community need(s). Reflects on student leadership, civic engagement, and community. Practices life-long learning and advocacy for community change.

**SLSS 1190 Power Reading and Learning Strategies 3:3-0** Fall, Spring, Summer
Is for students with good reading skills who wish to build on their strengths and take charge of their own learning. Introduces what successful college students do and invites students to begin implementing these research-based techniques and methods in their other courses. Focuses on developing a conceptual and strategic framework for effective reading and learning at the college level. Includes attention to creating the conditions for effective learning, comprehension of academic texts, identifying and remembering key information, test preparation and test taking. May be delivered online.

**SLSS 1195 Speed Reading 2:2-0** Fall, Spring
For students with good reading skills who want to increase reading speed and flexibility while maintaining or increasing their level of comprehension. Also teaches methods of speed studying.

**SLSS 1200 The 7 Habits of Highly Effective People 3:3-0** Fall, Spring, Summer
Provides the foundation for personal leadership by teaching fundamental principles of character and life-changing paradigms. Examines the personal and organizational components of effectiveness. Focuses on high leverage changes such as time management, communication skills, win/win negotiation, and principle-centered life choices. Prepares students for life-long success. Includes highly interactive class discussions, application exercises, videos, and group work. May be delivered hybrid and/or online. Course fee of $40 applies.
**Course Descriptions**

**SLSS 120H**  
The 7 Habits of Highly Effective People  
3:3:0  
Fall, Spring, Summer  
Provides the foundation for personal leadership by teaching fundamental principles of character and life-changing paradigms. Examines the personal and organizational components of effectiveness. Focuses on high leverage changes such as time management, communication skills, win/win negotiation, and principle-centered life choices. Prepares students for life-long success. Includes highly interactive class discussions, application exercises, videos, and group work. Engages in more complex personal leadership material and applies the concepts with a more comprehensive approach to meet honors requirements. May be delivered hybrid and/or online.

**SLSS 120R**  
Testing Strategies for Educators  
1:1:0  
Fall, Spring, Summer  
Provides prospective Elementary Education Majors an opportunity to acquire the study strategies and test taking skills necessary to pass examinations that allow them to be admitted into the education program and to receive state licensure. May be repeated for a maximum of 3 credits toward graduation.

**SLSS 1400**  
Dimensions of Engaged Learning  
1:1:0  
Fall, Spring, Summer  
Introduces students to theories and best practices related to engaged learning in higher education. Provides opportunities for students to collaborate, share ideas, and participate in common experiences.

**SLSS 141R**  
University Forum  
1:1:0  
Fall, Spring, Summer  
Encourages student participation in the academic and intellectual life of UVU through attendance and critical reflection on select academic and scholarly events. Integrates students’ classroom learning with topical events through exposure to scholars and practitioners on a wide range of issues and from a variety of perspectives. May be repeated for a maximum of 6 credits toward graduation. Graded credit/no credit.

**SLSS 2100**  
Major and Career Exploration  
3:3:0  
Fall, Spring, Summer  
For students who are undecided about their major or career goals. Provides students with the opportunity to interact with career professionals; understand how to access internship, career preparation, and placement resources at UVU; and integrates understanding of self with knowledge of majors, careers, and the world of work. Utilizes an appropriate decision making model to identify possible major and career choices. May be delivered online. Course fee of $23 for materials applies.

**SLSS 2300**  
Leadership Mentoring II  
3:3:0  
Fall, Spring  
Provides the ongoing and further development of the theoretical base and hands-on training in leadership and mentoring techniques for peer mentors, and also assists them in further exploring and developing their own learning skills and strategies, and methods for mentoring these skills in others. Explores higher cognitive application and analysis of teaching/facilitating learning as a form of leadership.

**SLSS 240R**  
Mentoring Leadership Practicum  
2:1:10  
Fall, Spring, Summer  
Provides the theoretical base and hands-on training in leadership and mentoring techniques as well as an understanding of and ability to apply the UVU Student Core Leadership Competencies. Assists student leaders in further developing their own self-awareness, learning skills and strategies, and explores methods for facilitating these in others. Provides an avenue for student leadership program administrators to facilitate goal development, fulfillment and performance among student leaders and the individuals they serve. Emphasizes building relationships with students, teaching life skills and learning strategies, and guiding students through the college experience. Repeatable for a maximum of 6 credits towards graduation.

**SLSS 2500**  
Leader—Strengths-Based Leader/Coach  
3:3:0  
Fall, Spring, Summer  
Advances the study and practice of personal leadership by focusing on research-based character strengths. Uses strengths-based inquiry and assessment, identifies and examines character strengths as they relate to optimal functioning, well-being, and personal leadership (leadership of self and others). Draws upon the theories of positive leadership, positive paradigms and practices to develop a strengths-based core that they can transfer to diverse situations and a wide array of roles. Course fee of $10 applies.

**SLSS 281R**  
Internship  
1 to 1:0 to 8:0  
* Prerequisite(s): Department Approval  
* Corequisite(s): SLSS 2100 recommended  
Provides supervised, practical, and professional experience for students exploring a variety of career areas. May be repeated for a maximum of 12 credit hours towards graduation. May be graded credit/no credit.

**SLSS 3200**  
Leader—Teacher and Mentor  
3:3:0  
Fall, Spring, Summer  
Provides concurrent theoretical and engaged learning experiences that invite students to explore the notion of leader as an effective facilitator of learning and as a coach for self and others. Engages a broad range of current academic literature exploring relevant intra- and interpersonal leadership principles and their interactions within micro and macro level settings. Develops adaptable philosophical and practical toolkit to more effectively navigate within and across multiple settings as a mentor, teacher, and coach to self and others.

**SLSS 402G**  
Global Professionalization  
3:2:3  
Fall, Spring, Summer  
* Prerequisite(s): University Advanced Standing  
Underscores UVU’s commitment to valuing global and intercultural opinions, backgrounds, traditions, perspectives, and experiences. Fosters an intercultural learning curriculum and an understanding of and an appreciation for, a variety of cultural perspectives and experiences is an essential element of higher education. Invites learners to move away from the view of “difference as deficiencies” which continues to be prevalent in society. Invites learners to become increasingly aware of the value and strength of diversity and to be more reflective of each person’s role within education and society in general. Explores a growing body of literature and experience that implies a demanding personal and professional commitment. Examines deeper understanding that enhances learners’ cultural awareness and prepare them for future employment in global and intercultural settings.

**SLSS 405G**  
Leader—Global Contributor  
3:3:0  
Fall, Spring, Summer  
* Prerequisite(s): Placement into ENGL 1010 or ENGH 1005 or higher  
Examines what the world will look like in 25 years due to the influence of seven global dimensions or the 7 Revolutions (population, resource management, technology, information/knowledge, economic integration, conflict, and governance). Explores various global, political, economic, social, and behavioral systems; and examines underlying causes of those issues within students’ lives. Introduces academic skills in research, communication, critical thinking, and personal leadership.

**SLSS 4800**  
Leader Capstone—Lifelong Change Agent  
4:4:0  
Fall, Spring, Summer  
Integrates three central components: experiential learning, service, and leadership. Provides the opportunity to demonstrate knowledge, application, and proficiency of the core Leadership Certificate content areas. Allows students to propose projects in areas related to their academic and/or professional interests or goals. Projects are subject to approval by department faculty.

**SLSS 481R**  
Advanced Internship  
1 to 12:1 to 12:0  
* Prerequisite(s): Department approval and University Advanced Standing  
Provides mentorship during professional internships in a variety of career areas. Internships will be focused on the student’s major and future career and will require development of industry specific skills and abilities. Provides networking opportunities within the industry. May be Graded Credit/No Credit. May be repeated for a maximum of 12 credits towards graduation.
SOC 1010
Introduction to Sociology
3:3:0
Fall, Spring, Summer
Studies and compares social groups and institutions and their inter-relationships. Includes culture, socialization, deviance, stratification, race, ethnicity, social change, and collective behavior.

SOC 101H
Introduction to Sociology
3:3:0
Spring
Studies and compares social groups and institutions and their inter-relationships. Includes culture, socialization, deviance, stratification, race, ethnicity, social change, and collective behavior.

SOC 1020
Modern Social Problems
3:3:0
Fall, Spring, Summer
Studies and analyzes modern social problems such as crime, delinquency, family dysfunctions and inequality and exploitation of people in contemporary society. Class requires volunteer experience in community agencies.

SOC 107G
Multicultural Societies
3:3:0
Fall, Spring, Summer
Examines the benefits and challenges of diversity in the United States. Explores history and life experiences of people from various racial and ethnic groups. Provides a forum for constructive interaction among people of different racial, ethnic, social, economic, and religious backgrounds.

SOC 1200
Sociology of the Family
3:3:0
Fall, Spring, Summer
Discusses the family in the context of society and its seven sociological institutions: family, media, government, economy, technology, education, and religion. Evaluates how changes in these institutions have facilitated many changes in the structure and function of the modern family. Examines traditional, current, and anticipated definitions of the family using core sociological theory and research tools. Evaluates cultural influence on the family. Focuses on strengthening marriages at the levels of dating, mate selection, marriage, newlywed adjustment, parenting, finance, proactive family maintenance, and elderly family experiences. Emphasizes the application of one's own life and family experiences while maintaining scientific rigor and critical awareness.

SOC 2370
Sociology of Gender
3:3:0
Fall, Spring
* Prerequisite(s): ENGL 1010 or ENGH 1005 with a C+ or higher
Examines sociological perspectives on gender roles globally. Addresses the effect of social construction of gender roles in various cultures around the world. Investigates how roles have changed over time and the consequences of these changes to broader societal norms globally and in the United States.

SOC 275R
Survey of Current Topics
1 to 3:1 to 3:0
On Sufficient Demand
* Prerequisite(s): (ANTH 101G or PSY 1010 or SOC 1010) and ENGL 1010 or ENGH 1005 with a C+ grade or higher
Presents selected topics in Sociology. Approaches subjects from a cross-disciplinary perspective. Requires a project demonstrating competency in the specific topic. May be repeated for nine credits toward graduation.

SOC 320G
Race and Minority Relations
3:3:0
Fall, Spring, Summer
* Prerequisite(s): ENGL 2010 with a C+ or higher and University Advanced Standing
Studies ethnic and racial minority groups and the development of formal and informal relationships shared by these groups and the majority group. Explores the roles and origins of these groups and the concepts of prejudice, ethnic inequalities, current minority group movements, cross-cultural issues, economic, political, and educational aspects of majority-minority relations.

SOC 3400
Sociology of Religion
3:3:0
* Prerequisite(s): ENGL 2010 with a C+ or higher, SOC 1010, and University Advanced Standing
Examines religion from a sociological perspective. Analyzes religion as a social phenomenon. Discusses religious organizations, religion and politics, and religion and social class.

SOC 3430
Sociology of Education
3:3:0
Fall
* Prerequisite(s): ENGL 2010 with a C+ or higher, SOC 1010, and University Advanced Standing
For students who desire a better understanding of United States and world education systems. Examines and investigates educational trends and issues such as private vs. public systems; dropout rates; desegregation; student achievement/failure; education policies; race; class; gender issues; the 'Hidden Curriculum'; and education reform using Sociological theory and empirical research.

SOC 3460
Political Sociology
3:3:0
Fall
* Prerequisite(s): ENGL 2010 with a C+ or higher, SOC 1010, and University Advanced Standing
Explores the distribution of political power at the national and international levels from a variety of theoretical perspectives. Pays particular attention to the power wielded by international media conglomerates and the influence of international institutions such as the World Trade Organization, the World Bank, and the International Monetary Fund.

SOC 3501
Social Psychology
3:3:0
* Prerequisite(s): SOC 1010 and University Advanced Standing
Examines individual's thoughts, feelings, and behaviors in social contexts. Analyzes human behaviors from a sociological perspective. Includes the history of sociological social psychology, perspectives and research methods in sociological social psychology, the social psychology of stratification, self and identity, socialization over the life course, social psychology of deviance, mental health and illness, social attitudes, sociology of emotions and relationships, and collective behavior.

SOC 3510
Sociology of Work and Occupations
3:3:0
Spring
* Prerequisite(s): ENGL 2010 with a minimum C+ grade, SOC 1010, and University Advanced Standing
Examines work and occupations in historical and contemporary contexts. Examines current employment patterns and trends, the nature of labor markets and jobs, the gendered arrangements of paid and unpaid work, the organization and management of work. Explores transformations in occupational settings resulting from changes in economy and labor market. Focuses on the macro level (the effects of advancements in technology, bureaucratization and unionization on the division of labor), the micro-level (job satisfaction and alienation), and on the interface between macro and micro levels (job prestige, rewards, effects of ethnicity, age, and other characteristics).

SOC 3520 (Cross-listed with: ENST 3520)
Environmental Sociology
3:3:0
On Sufficient Demand
* Prerequisite(s): SOC 1010 and ENGL 2010 with a C+ grade or higher and University Advanced Standing
Examines the impact of human activity on the environment and the environment's effect on human activity. Examines the impact of human activity on the environment and the environment's effect on human activity. Explores in detail various approaches to understanding the social causes of and solutions to environmental degradation. Discusses the development of a wide variety of theory-based critiques of various social institutions (e.g., economic, political, religious) and how these institutions' values can create and perpetuate unsustainable practices.

SOC 3560
Sociology of Deviance
3:3:0
Fall
* Prerequisite(s): ENGL 2010 with a C+ or higher, SOC 1010, and University Advanced Standing
Examines the strengths and weaknesses of several different definitions of deviance. Explains deviant behavior from a variety of theoretical perspectives and summarizes the existing data on several different forms of deviance, i.e., individual violations of social mores, street level crime, corporate crime, and crimes committed by nation states.
SOC 3690
Internet and Society
3:3:0 Spring
* Prerequisite(s): (ENGL 1010 or ENGH 1005), SOC 1010, and University Advanced Standing
Traces the history of new media through a sociological approach. Utilizes sociological theories of mass media and new media, (internet, smartphones, social media, etc.) and their impact on identities and institutions. Refers to sociological theories created in the pre-internet era – such as symbolic interactionism – to explain the pervasive presence of new media in society as well as our use of them.

SOC 3700
Social Inequality
3:3:0 Spring, Summer
* Prerequisite(s): (ENGL 2010 with a C+ or higher), SOC 1010, and University Advanced Standing
Studies social structure, culture, environment (urban/ rural axis), inequality, and poverty in American Society. Examines Spanish Harlem, Detroit, Appalachia, and the Bitterroot Valley of Montana.

SOC 375G
Sociology of Aging
3:3:0
* Prerequisite(s): University Advanced Standing
Explores the social aspects of aging at the personal, group, and larger social levels of society including the social implications of aging, the theories of aging, as well as formal and informal support of medical care, housing, and well-being of elderly persons. Includes the study of the identify the biological processes of aging and its impact on the roles and relationships elderly person experience in the later stages of life. Emphasizes the individual's experience in the context of national and global demographic trends, cultural and ethnic diversities and economic realities across the classes and across political boundaries.

SOC 3800
Animals and Society
3:3:0 On Sufficient Demand
* Prerequisite(s): ENGL 2010 with a C+ or higher, SOC 1010, and University Advanced Standing
Examines the roles that non-human animals play in human societies. Utilizes sociological approaches to study human-animal relationships and to critically evaluate the ideologies which justify these relationships. Pays particular attention to human relationships in North America to domestic pets, livestock, and wildlife.

SOC 3850
Rural Life--Global and Local
3:3:0
* Prerequisite(s): ENGL 2010 with a C+ or higher, SOC 1010, and University Advanced Standing
Introduces rural life across the globe. Discusses the views of agrarian writers and thinkers. Explores rural values, rural communities, rural race relations, and rural poverty. Evaluates how the rural perspective provides a platform for critique of modern societal transformations in the twentieth and early twenty-first centuries.

SOC 4000
Classical Social Theory
3:3:0 Fall, Spring
* Prerequisite(s): (ENGL 2010 with a minimum C+ grade), SOC 1010, and University Advanced Standing
Examines the contributions of key theorists such as Durkheim, Weber, Marx, DuBois, and Addams to the development of contemporary sociology. Applies key theoretical concepts and frameworks created and used by classical sociologists to current and historical social issues.

SOC 4020
Survey Research Design
3:3:0 Fall, Spring, Summer
* Prerequisite(s): ENGL 2010 with a C+ grade or higher, BESC 3010, BESC 3020, and University Advanced Standing
Teaches methods of conducting survey research. Includes how to construct, validate, and administer surveys; how to conduct interviews; how to report data, and how to interpret findings.

SOC 4100
Contemporary Social Theory
3:3:0 Fall, Spring
* Prerequisite(s): SOC 1010 and SOC 4000 and (ENGL 2010 with a C+ or higher) and University Advanced Standing
Examines major contemporary sociological theories which provide the basis for sociological research and the interpretation of social processes. Examines the nature of sociological theory and theory-building to understand the difference and connection between theoretical, methodological and empirical works in sociology. Covers some or all of the following influential theoretical frameworks: structural functionalism; Frankfurt School; exchange and rational choice theories; symbolic interactionism; phenomenology; poststructuralism; postmodernism; feminism; and world systems theories.

SOC 4400
Social Change
3:3:0 On Sufficient Demand
* Prerequisite(s): ENGL 2010, SOC 1010, and University Advanced Standing
Examines societies and their component parts. Evaluates various endogenous and exogenous forces which bring about social change. Examines historical and contemporary processes of social change and stratification. Explores current social conditions and applicable methods of social change. Offered once every other year.

SOC 475R
Current Topics in Sociology
1 to 3:1 to 3:0
* Prerequisite(s): ENGL 2010 with a minimum grade of C+ , SOC 1010, and University Advanced Standing
Presents selected topic in Sociology and will vary each semester. Requires a project demonstration competency in the specific topic. May be repeated 3 times with different topics.
**SPAN 115R**  
Spanish Conversation I  
1:1:0  
Fall, Spring  
Offers novice Spanish speakers opportunities to enhance their speaking proficiency in the target language by focusing on oral verbal production. Teaches how to improve authentic pronunciation, reduce errors in authenticity of language structure, generate thought in the target language spontaneously as a substitute for translation, and sharpen listening comprehension for natural conversational flow. Contrasts with all other first year courses which must strive to produce mastery of the whole range of language acquisition components, including writing, grammar, etc. Facilitates lowering the affective filter when conversing in the target language by increasing the frequency of speech opportunities and defusing concern for such matters as spelling, etc. Increases mastery of lexical items through increased frequency of oral usage. May be repeated for a maximum of 3 credits toward graduation.

**SPAN 1500**  
Spanish Travel Study  
3:1:6  
On Sufficient Demand  
Introduces students to a Spanish-speaking foreign country for a minimum of 10 days of intensive language and culture study. Course entails several meetings prior to departure and at least one after the return home to facilitate observation and analysis of data to be gathered on the tour. An organized presentation of that data will be contained in a multimedia project due no later than one month after tour.

**SPAN 2010**  
Intermediate Spanish I  
4:4:1  
Fall, Spring, Summer  
* Prerequisite(s): Students need equivalent knowledge of SPAN 1020  
Reviews and builds upon the grammar, reading, writing, and conversation skills learned in the first year courses. Introduces readings and discussions on the history, culture, and literature of the Spanish speaking world, maintaining a focus on oral proficiency. Lab access fee of $10 applies.

**SPAN 202G**  
Intermediate Spanish II  
4:4:0  
Fall, Spring, Summer  
* Prerequisite(s): Students need equivalent knowledge of SPAN 2010  
Emphasizes reading, writing, and conversation skills through studies in literature. Media reading labs are available to help reading comprehension. Requires oral and written response. Lab access fee of $10 applies.

**SPAN 203G**  
Spanish for Heritage Speakers  
4:4:1  
Fall  
* Prerequisite(s): Must be a heritage Spanish speaker (heritage speakers are individuals who speak their first language, which is not English, at home).  
For heritage speakers of Spanish with little knowledge of grammar and no formal training in the language. Emphasizes and develops the oral skills students already possess as well as the four language skills: listening, speaking, reading, and writing. Meets Global Intercultural requirements.

**SPAN 215R**  
Spanish Conversation II  
1:1:0  
Fall, Spring  
* Prerequisite(s): Students should have equivalent knowledge of SPAN 1020  
Offers lower division / novice Spanish speakers opportunities to enhance their speaking proficiency in the target language by focusing on oral verbal production. Teaches how to improve authentic pronunciation, reduce errors in authenticity of language structure, generate thought in the target language spontaneously as a substitute for translation, sharpen listening comprehension, and develop conversational strategies such as circumlocution and managing a conversation with useful expressions for starting a conversation, gaining time to think, helping the other speaker, seeking agreement, etc. Contrasts with all other first year courses which must strive to produce mastery of the whole range of language acquisition components, including writing, grammar, etc. Facilitates lowering the affective filter when conversing in the target language by increasing the frequency of speech opportunities and defusing concern for such matters as spelling, etc. Increases mastery of lexical items through increased frequency of oral usage. May be repeated for a maximum of 3 credits toward graduation.

**SPAN 3016**  
Pop Culture-Film/Media/Entertainment  
3:3:0  
Fall  
* Prerequisite(s): High-school students have to pass the AP Spanish Language or AP Spanish Literature & Culture test with a 3 or higher  
This course is part of the State of Utah Spanish Bridge Program and it will be taught only in high schools and for high school students. Not to be taught on college campus for university students. Explores the role that current film, media, and entertainment play in the Spanish-speaking world. Examines the historical and cultural perspectives presented through these media through a variety of approaches. Taught in Spanish.

**SPAN 3020**  
Advanced Spanish  
3:3:0  
Fall, Spring, Summer  
* Prerequisite(s): University Advanced Standing  
Designed to help students understand the standards for oral proficiency as defined by the American Council on the Teaching of Foreign Languages (ACTFL) and to improve their oral proficiency skills. Is required of all Spanish and Spanish Education majors, who should achieve minimally the Intermediate High level as per the ACTFL guidelines. Requires Oral Proficiency Interview (OPI).

**SPAN 3116**  
Breaking Down Walls-Building Identities  
3:3:0  
Fall  
* Prerequisite(s): High school students have to pass the AP Spanish Language or AP Spanish Literature & Culture test with a 3 or higher  
This course is part of the State of Utah Spanish Bridge Program and it will be taught only in high schools and for high school students. Not to be taught on college campus for university students. Explores how critical moments of change in the Spanish-speaking world have shaped the present. Analyzes crucial social and historical events that affected Spain, Latin America, and the Hispanic people in the United States.

**SPAN 3117**  
Literature and Film-Contemporary issues  
3:3:0  
Fall  
* Prerequisite(s): High school students have to pass the AP Spanish Language or AP Spanish Literature & Culture test with a 3 or higher  
This course is part of the State of Utah Spanish Bridge Program and it will be taught only in high schools and for high school students. Not to be taught on college campus for university students. Explores works of literature and film in Spanish to analyze contemporary societal issues. Emphasizes literary analysis and criticism. Develops knowledge of literary history, skills in interpreting literary texts, and deepens understanding of the Spanish language.

**SPAN 315R**  
Advanced Spanish Conversation  
1:1:0  
Fall, Spring  
* Prerequisite(s): (SPAN 202G or instructor approval)  
Provides speaking opportunities for upper-division Spanish learners to expand their conversational skills. Promotes authentic Spanish pronunciation and helps students reduce grammatical and structural errors. May be repeated for a maximum of 3 credits toward graduation.
Course Descriptions

SPAN 3200  Business Spanish  3:3:0  Fall, Spring, Summer
* Prerequisite(s): SPAN 3050 and University Advanced Standing
Teaches language structures and terminology specific to Spanish language in the field of Business. Examines the cultural issues present in the interactions with Spanish-speaking clients. Prepares students to work with Spanish-speaking clients in future careers in business, marketing, banking or translation/interpreting. Lab access fee of $10 applies.

SPAN 3220  Pronunciation Phonetics and Phonology  3:3:0  Spring
* Prerequisite(s): SPAN 3050 and University Advanced Standing
Explores comparatively the articulatory system of English and Spanish, not only to help students identify and correct anomalies or inaccuracies in their own speech or the speech of others, but also to strengthen their understanding of the nature of oral speech. Provides extensive laboratory involvement for practice and analysis.

SPAN 3310  Spanish for Healthcare Professionals  3:3:0  Spring
* Prerequisite(s): (SPAN 3030 and SPAN 3040) or SPAN 3050, and University Advanced Standing
Teaches language structures and terminology specific to Spanish language in the field of healthcare. Examines the cultural issues present in the interactions with Spanish-speaking patients. Prepares students to work with Spanish-speaking patients in future careers in medicine, nursing, or translation/interpretation.

SPAN 3320  Spanish for Mental Health Professionals  3:3:0  Fall
* Prerequisite(s): (SPAN 3030 and SPAN 3040) or SPAN 3050, and University Advanced Standing
Teaches language structures and terminology specific to Spanish language in the field of Psychology. Examines the cultural issues present in the interactions with Spanish-speaking patients/clients. Prepares students to work with Spanish-speaking patients/clients in future careers in healthcare, social work, education, or translation/interpreting.

SPAN 3340  Spanish for Tourism and Hospitality Management  3:3:0  Spring Odd Year
* Prerequisite(s): (SPAN 3030 and SPAN 3040) or SPAN 3050 and University Advanced Standing
Teaches language terminology specific to Spanish language in the field of Tourism and Hospitality Management. Examines the cultural issues present in the interactions with Spanish-speaking clients. Prepares students to work with Spanish-speaking clients in future careers in the tourist and hospitality industry.

SPAN 3350  Spanish for Legal Professions  3:3:0  Spring Even Year
* Prerequisite(s): (SPAN 3030 and SPAN 3040) or SPAN 3050 and University Advanced Standing
Teaches language structures and terminology specific to Spanish language in the legal field. Explores political and legal institutions in the Spanish-speaking countries. Examines the cultural issues present in the interactions with Spanish-speaking clients. Prepares students to work with Spanish-speaking clients in future careers in law, administration and government, business, translation and interpreting.

SPAN 351G  Culture and Civilization--Spain  3:3:0  Fall, Spring
* Prerequisite(s): (SPAN 3050 or equivalent) and University Advanced Standing
Explores chronologically the cultural formation and development of Spain. Completers should acquire an understanding of the ethnic development and linguistic history of Spain. Presentations and class instruction conducted entirely in Spanish.

SPAN 352G  Culture and Civilization--Spanish America  3:3:0  Fall, Spring
* Prerequisite(s): (SPAN 3030 and SPAN 3040) or SPAN 3050 and University Advanced Standing
Explores chronologically the cultural formation and development of Spanish America. Completers should acquire an understanding of the ethnic development and linguistic history of Spanish American countries and societies. Presentations and class instruction conducted entirely in Spanish.

SPAN 3610  Spanish Peninsular Literature to 1800  3:3:0  Spring
* Prerequisite(s): (SPAN 3030 and SPAN 3040) or (SPAN 3050 or equivalent) and University Advanced Standing
Introduces chronologically to 1800 representative Spanish authors. Emphasizes literary analysis and criticism. Completers should develop knowledge of literary history, acquire skills in interpreting literary texts, and deepen understanding of the Spanish language. Presentations and class instruction conducted entirely in Spanish.

SPAN 3620  Spanish Peninsular Literature from 1800  3:3:0  Fall
* Prerequisite(s): (SPAN 3030 and SPAN 3040) or SPAN 3050, and University Advanced Standing
Studies and analyzes chronologically from 1800 representative Spanish authors to focus on the relevance of their writings to the student's own life. Emphasizes literary analysis and criticism. Develops knowledge of literary history, skills in interpreting literary texts, and deepens understanding of the Spanish language. Analyzes works of diverse genres such as fiction, poetry, and essay. Provides students with enough exposure to each author to develop a feeling for his or her work.

SPAN 3630  Spanish American Literature to 1880  3:3:0  Spring
* Prerequisite(s): [(SPAN 3030 and SPAN 3040) or SPAN 3050] and University Advanced Standing
Introduces chronologically to 1880 representative Spanish American authors. Emphasizes literary analysis and criticism. Completers should develop knowledge of literary history, acquire skills in interpreting literary texts, and deepen understanding of the Spanish language. Presentations and class instruction conducted entirely in Spanish.

SPAN 3640  Spanish American Literature from 1880  3:3:0  Fall
* Prerequisite(s): [(SPAN 3030 and SPAN 3040) or SPAN 3050] and University Advanced Standing
Introduces chronologically from 1880 representative Spanish American authors. Emphasizes literary analysis and criticism. Completers should develop knowledge of literary history, acquire skills in interpreting literary texts, and deepen understanding of the Spanish language. Presentations and class instruction conducted entirely in Spanish.

SPAN 3690  Spanish and Latin American Cultures through Cinema  3:3:0  Fall Odd Year
* Prerequisite(s): SPAN 3050 OR (SPAN 3030 and SPAN 3040), and University Advanced Standing
Explores contemporary issues in the cultures and societies of Latin America and Spain by analyzing, interpreting and critically reading film and visual texts. Provides opportunities to improve students' proficiency in Spanish through oral and written interaction and production. Conducted entirely in Spanish.

SPAN 380R  Community Engagement in Spanish  1 to 3:1:2 to 6  Spring
* Prerequisite(s): [(SPAN 3030 and SPAN 3040) or SPAN 3050 or instructor approval] and University Advanced Standing
Offers students the opportunity to volunteer in projects involving the local Hispanic community. Addresses the linguistic and cultural aspects of community volunteering. Requires from 2 to 6 hours of volunteering weekly in local schools, clinics, social service agencies, or civic organizations. Repeatable for a maximum 6 hours credit toward graduation.

SPAN 4050  Topics in Grammar Usage and Style  3:3:1  Fall, Spring, Summer
* Prerequisite(s): [(SPAN 3030 and SPAN 3040) or SPAN 3050] with a grade of C or higher and University Advanced Standing
Reviews Spanish grammar focusing on problem areas. Explores grammar as deployed in different genres. Emphasizes writing in different styles. Lab access fee of $10 applies.
SPAN 4100  
Teaching Spanish Grammar  
3:3:0  
Spring  
* Prerequisite(s): Admission to a Secondary Education teacher licensure program or departmental approval; [(SPAN 3030 and SPAN 3040) or SPAN 3050] and University Advanced Standing  
* Corequisite(s): LANG 4200 recommended

Enables prospective Spanish educators to acquire the strategies, methodology and techniques of how to present deductive and inductive principles of Spanish grammar. Discusses basic theory, principles and tools of Spanish linguistic issues. Includes extensive principle development and microteaching used as an assessment tool.

SPAN 4110  
Introduction to Translation and Interpreting English and Spanish  
3:3:0  
Fall, Spring  
* Prerequisite(s): (SPAN 3030 and SPAN 3040) or SPAN 3050; and it is highly recommended to take previously 6 credits from the Spanish for the Profession courses (Medical Spanish, Business Spanish, Legal Spanish, Spanish for Psychology, Spanish for Tourism, etc.)

Teaches basic concepts from Translation Studies. Provides practice on translation and interpretation between the pair of languages English and Spanish. Describes professional opportunities in the translation and interpretation field. Includes class discussion, translation and interpreting practice, analysis of translations, oral presentations and a portfolio. Lab access fee of $10 applies.

SPAN 4120  
Advanced Translation English and Spanish  
3:3:0  
Spring  
* Prerequisite(s): SPAN 4110 and University Advanced Standing

Provides opportunities for Spanish/English translation of texts in different fields (health, law, business, science, etc.). Examines the characteristics and terminology used in specialized texts. Introduces key concepts in the different areas of professional expertise and the differences they present in Spanish-speaking countries compared to English-speaking countries. Identifies job opportunities as a bilingual professional. Includes class discussion, translation practice, analysis of translations, presentations and a portfolio.

SPAN 412R  
Spanish for the Professions  
3:3:0  
On Sufficient Demand  
* Prerequisite(s): (SPAN 3050 or departmental approval) and University Advanced Standing

Offers Medical Spanish, Legal Spanish, or Spanish for Tourism according to student demand. Focuses on the practical needs of students who seek careers in the applicable areas. Addresses the specialized vocabulary and communicative ability necessary for a professional in a bilingual English-Spanish or monolingual Spanish environment. Introduces interpretation in professional situations. May be repeated for a maximum of 6 credits toward graduation with different topics.

SPAN 4130  
English Spanish Interpreting  
3:3:0  
Fall  
* Prerequisite(s): SPAN 4110 and University Advanced Standing

Teaches skills for interpreting in Spanish and English with an emphasis on the mode of liaison or bilateral interpreting. Introduces key concepts on language interpretation and the profession of interpreter. Teaches basic skills for interpreting like discourse analysis and oratory skills. Teaches general interpreting strategies like synthesis and anticipation, and specific strategies for liaison or bilateral interpreting. It emphasizes professional standards and self-monitoring. Includes class discussion, practice, observation and analysis of practice, oral presentations, a student portfolio, reflection papers, and a final paper or project.

SPAN 4200  
Advanced Business Spanish  
3:3:0  
Fall, Spring  
* Prerequisite(s): SPAN 3200 and University Advanced Standing

Focuses on Spanish business terminology, documentation, case studies and transactions. Explores grammar in different genres, emphasizing composition in different writing styles. Prepares students to take the Advanced Business Certification test offered by the Chamber of Commerce of Madrid, Spain.

SPAN 4310  
Advanced Spanish for Healthcare Professionals  
3:3:0  
Fall  
* Prerequisite(s): SPAN 3310 and University Advanced Standing

Teaches language structures and terminology specific to Spanish language in the field of healthcare. Examines the cultural issues present in the interactions with Spanish-speaking patients. Focuses on advanced topics, terminology and language structures not covered in Medical Spanish. Prepare students to work with Spanish-speaking patients in future careers in medicine, nursing, or translation/interpretation.

SPAN 4410  
Spanish Linguistics  
3:3:0  
Spring  
* Prerequisite(s): [(SPAN 3030 and SPAN 3040) or SPAN 3050] and University Advanced Standing

Provides a comprehensive introduction and overview of the different areas of Spanish Linguistics. Designed for students with a focus in Pedagogy, Business Spanish, Translation, Spanish for the Professions or Literature and Culture. Focuses on the core concepts of the various sub-fields of linguistics applied to Spanish: Phonetics and Phonology, Morphology, Syntax, Semantics, Sociolinguistics, the History of the Language, Dialectology and Pragmatics.

SPAN 4500  
Advanced Research and Academic Writing in Spanish  
3:3:0  
Fall, Spring  
* Prerequisite(s): SPAN 4050 with a grade of C or higher and University Advanced Standing

Addresses academic research and scholarly writing in the Spanish major. Emphasizes advanced research techniques, textual analysis, style, and argumentation. Prepares students for senior thesis and graduate research. Lab access fee of $10 applies.

SPAN 460R  
Topics in Hispanic Literature  
3:3:0  
Fall Odd Year  
* Prerequisite(s): (SPAN 3610 or SPAN 3620 or SPAN 3630 or SPAN 3640) and University Advanced Standing

Addresses key texts representative of the development of genres, themes, or individual authors' works. Engages students in critical analysis and discourse. Possible topics may include Medieval Spanish Literature, "The Generacion del 98," the works of Jorge Luis Borges, or the recent Spanish American novel. May be repeated for a maximum of six credits toward graduation with different topics.

SPAN 4660  
Contemporary Spanish American Literature  
3:3:0  
On Sufficient Demand  
* Prerequisite(s): (SPAN 3610 or SPAN 3620 or SPAN 3630 or SPAN 3640) and University Advanced Standing

Introduces the major works of Spanish American writers in the latter part of the 20th and early 21st centuries. Includes close reading and textual analysis through class discussion, written projects, examinations, and oral presentations. Conducted entirely in Spanish.

SPAN 484R  
Special Topics in Hispanic Studies  
1 to 3:1 to 3:1  
Fall Even Year  
* Prerequisite(s): (SPAN 3050 or departmental approval) and University Advanced Standing

Presents selected topics in Hispanic Studies. Reflects the interdisciplinary nature of the Hispanic Studies field. May be repeated for a maximum of 6 credits toward graduation with different topics.

SPAN 4900  
Capstone Seminar  
3:3:0  
Fall, Spring, Summer  
* Prerequisite(s): Spanish 4500 and 18 credits of upper-division Spanish courses (or instructor approval) and University Advanced Standing

Engages students in independent, directed research and writing. Encourages further exploration of topics covered during courses in the major program. Requires use of advanced research methods and peer review of others' work. Includes public oral exposition of research findings.
Course Descriptions

Statistics (STAT)

STAT 1040  QL
Introduction to Statistics
3:3:0 Fall, Spring, Summer
* Prerequisite(s): One of the following: MAT 1000 or MAT 1010 with a grade of C or better within the past two years; an ACT mathematics score of 23 (assuming the test has been taken within the last two years); appropriate placement by the Accuplacer test score.

A quantitative literacy course with a statistical theme, includes descriptive statistics, sampling, and inferential methods. Emphasizes problem solving and critical thinking. Canvas Course Mat $72/Macmillan applies.

STAT 1045  QL
Introduction to Statistics with Algebra
5:5:0 Fall, Spring, Summer
* Prerequisite(s): One of the following: MAT 1000 or MAT 1010 with a grade of C or better within the past two years; an ACT mathematics score of 23 (assuming the test has been taken within the last two years); appropriate placement by the Accuplacer test score.

A quantitative literacy course with a statistical theme, includes descriptive statistics, sampling, and inferential methods. Emphasizes problem solving and critical thinking. Canvas Course Mat $72/Macmillan applies.

STAT 2040  QL
Principles of Statistics
4:4:0 Fall, Spring, Summer
* Prerequisite(s): MAT 1050 or MAT 1055 with a grade of C or higher or appropriate math placement test score.

Includes summarizing data, measures of central location, measures of variation, probability, mathematical expectation, probability distributions, sampling and sampling distributions, estimation, hypothesis testing, analysis of variance, regression analysis, and correlation.

STAT 2050  QL
Introduction to Statistical Methods
4:4:0 Fall, Spring, Summer
* Prerequisite(s): MAT 1050 or MAT 1055 with a grade of C or higher within the past two years or a placement by the appropriate placement test (taken within the past two years).

Introductory statistics course for statistics majors. Applies discrete and continuous probability distributions to real data sets. Teaches confidence intervals and hypothesis testing for both one and two sample problems. Covers introductory topics in experimental design, linear regression, nonparametric statistics, and categorical data analysis.

STAT 2060  QL
Introduction to Statistical Computing
1:0:3 Spring
* Prerequisite(s) or Corequisite(s): STAT 2040 or STAT 2050 with a grade of C or higher.

Familiarizes students with the SAS statistical software package. Teaches how to organize, input data, and be able to use reference books to figure out the appropriate way to run the analysis needed using SAS.

STAT 3040  QL
Probability and Statistics for Engineering and the Sciences
3:3:0 Fall
* Prerequisite(s): (STAT 2040 or STAT 2050) and MATH 2210 each with a grade of C or higher) and University Advanced Standing

Introduces mathematical statistics for scientists and engineers. Includes counting techniques, random variables, expected values, joint and marginal distributions, point estimation, hypothesis testing, analysis of variance, and regression.

STAT 4000  QL
Applied Regression and Time Series
3:3:0 Spring
* Prerequisite(s): STAT 2040 or STAT 2050 with a grade of C or higher and University Advanced Standing

Provides students in non-mathematical disciplines the ability to answer typical research questions for their senior projects or graduate-level research. Includes linear regression, transformations, variable selection techniques, logistic regression, indicator variables, multicollinearity, and ARIMA time series. Satisfies the VEE statistics requirement for the Society of Actuaries. Introduces SAS software as a tool for statistical analysis.

STAT 4100  QL
Design of Experiment
3:3:0 Spring
* Prerequisite(s): STAT 2040 or STAT 2050 with a grade of C or higher and University Advanced Standing

Introduces the design and analysis of randomized comparative experiments. Includes single factor ANOVAs, randomized block designs, latin squares, factorial designs, and nested and split plot designs. Covers mixed models including random effects and computation of expected mean squares to form appropriate F-ratios. Uses SAS statistical program software to perform statistical analysis.

STAT 4200  QL
Survey Sampling
3:3:0 Fall Odd Year
* Prerequisite(s): STAT 2040 or STAT 2050 with a grade of C or higher and University Advanced Standing

Introduces survey sampling including simple random sampling, stratified random sampling, systematic and cluster sampling. Discusses ratio and difference estimators, weighting for non-responders, eliminating sources of bias and designing the questionnaire.

STAT 4300  QL
Stochastic Processes
3:3:0 Spring Odd Year
* Prerequisite(s): STAT 3040 or STAT 4710 with a grade of C or higher and University Advanced Standing

Teaches how to perform statistical inference on Markov chains, including classifying states, computing mean and variance of recurrence times, and investigating long-run limiting behavior to model physical systems using the Poisson process. Teaches how to calculate and analyze queueing characteristics of each of the popular queueing models.

STAT 4400  QL
Multivariate Analysis
3:3:0 Spring
* Prerequisite(s): MATH 2270, STAT 4710, with C or higher, and University Advanced Standing

Introduces multivariate data analysis. Performs inference on data arising from multivariate normal distribution including MANOVA, principal component analysis, factor analysis, canonical correlation analysis, discriminant analysis and cluster analysis. Uses Statistical software R or SAS for data analysis on all the topics covered.

STAT 4500  QL
Nonparametric Statistics
3:3:0 Fall Even Year
* Prerequisite(s): STAT 2040 or STAT 2050 with a grade of C or higher and University Advanced Standing

Introduces nonparametric statistical procedures to apply in situations when parametric statistics (usually based on normality) are not appropriate. Covers types of nonparametric analyses that includes one and two sample hypothesis tests, goodness-of-fit tests, contingency tables, block designs, and regression analysis.

STAT 4600  QL
Statistical Process Control
3:3:0 Fall Even Year
* Prerequisite(s): STAT 2040 or STAT 2050 with a grade of C or higher and University Advanced Standing

Presents the theory and methods of quality monitoring including process capability, control charts, acceptance sampling, quality engineering, and quality design.

STAT 4710  QL
Mathematical Statistics-Probability and Statistics
3:3:0 Fall
* Prerequisite(s): STAT 2040 or STAT 2050 with a grade of C or higher and University Advanced Standing
* Prerequisite(s) or Corequisite(s): MATH 2210 or MATH 221H

Introduces mathematical statistics including random variables, set theory, transformations, expectation, joint and marginal distributions, moment generating functions, and order statistics.

STAT 4720  QL
Mathematical Statistics: Statistical Inference
3:3:0 Spring
* Prerequisite(s): STAT 4710 with a grade of C or higher and University Advanced Standing

Is a continuation of STAT 4710. Includes estimation, sufficiency, completeness, hypothesis testing, statistical inference with the normal distribution, and Bayesian statistics.

STAT 6010  QL
Theory of Statistics I
3:3:0 Fall Even Year
* Prerequisite(s): Mathematics Endorsement 4, or instructor approval

Teaches topics including, but not limited to, probability theory, random variables, functions of random variables, probability distributions and their characteristics, transformations of random variables, Pearson’s correlation coefficient, and bivariate normal distribution and regression.
Substance Use Disorder Counseling (SUDC)

SUDC 3430 Psychopharmacology for the Substance Use Disorder Counseling Field 3:3:0
* Prerequisite(s): Admission to the UVU SUDC program and University Advanced Standing
Addresses basic principles of nervous system function with emphasis on communication between nerve cells. Focuses on therapeutic drugs as well as drugs of abuse to include mechanisms of action and behavioral effects. Includes content on dynamics of addiction.

SUDC 3470 Dynamics of Addiction 3:3:0
* Prerequisite(s): Admission to the UVU SUDC program and University Advanced Standing
Explores processes contributing to development and maintenance of addiction. Addresses internal (genetics, motivation) and external (family dynamics, peer pressure) contributors. Includes issues related to drug policy, costs of addiction, and prevention/treatment of drug addiction.

SUDC 4300 Introduction to Substance Use Disorder Counseling 3:3:0
* Prerequisite(s): Admission to the UVU SUDC program and University Advanced Standing
Surveys concepts and practices of major therapeutic systems, with a focus on substance use disorder counseling. Introduces students to the major psychotherapeutic models of both individual and group therapy. Addresses basic counseling issues including ethics and professionalism. Develops skills in relationship development, interviewing, initial assessment and intake procedures.

SUDC 4400 Advanced Substance Use Disorder Counseling 3:3:0
* Prerequisite(s): Admission to the UVU SUDC Program, completion of SUDC 4300 with a C- grade or higher, and University Advanced Standing
Expands concepts and practices of major therapeutic systems, with a focus on advanced substance use disorder counseling. Continues coverage of major psychotherapeutic models of both individual and group therapy. Elaborates on basic counseling issues including ethics and professionalism. Continues to develop skills in relationship development, interviewing, initial assessment, and intake procedures.

SUDC 4710 Introduction to Professional Development 2:2:0
* Prerequisite(s): Admission to the UVU SUDC program and University Advanced Standing
Defines the scope of practice and legal and ethical obligations of substance abuse counselors. Examines the knowledge, skills, attitudes, legal obligations, and limitations of practice of professional substance abuse counselors. Introduces the 12 core functions.

SUDC 4720 Advanced Professional Development 3:3:0
* Prerequisite(s): Admission to the UVU SUDC program, completion of SUDC 4710 with a C- grade or higher, and University Advanced Standing
Expands on professional issues in Substance Use Disorder Counseling. Focuses on the 12 core functions of substance abuse, ethics, theories of substance abuse, and theory and practice of individual and group counseling.

SUDC 481R Internship 1 to 8:1 to 8:0
* Prerequisite(s): Admission to the UVU SUDC program, completion of SUDC 4710 with a C- grade or higher, instructor approval, and University Advanced Standing
Provides practical and research experience in the substance use disorder counseling field with a focus on the 12 core functions of substance use disorder counseling. Supervised by agency representative. Internships must be approved by the UVU SUDC program and written contracts must be signed. Requires students pursuing the SUDC license to complete a minimum of 200 hours of field experience. Requires students pursuing the ASUDC license to complete a minimum of 350 hours of field experience. May be repeated for a maximum of 8 hours toward graduation.

Land Surveying (SURV)

SURV 1020 Introduction to Surveying and Mapping 1:1:0 Fall
Provides an orientation to the field of Surveying and Mapping including Boundary Surveying, Geodesy, Forensic Surveying, Construction Surveying, Geographic Information Systems (GIS), and other types of surveys. Involves presentations by community/industry professionals encompassing the surveying and mapping occupations. Teaches college success principles and practices for the Surveying and Mapping program. Lab access fee of $45 for computers applies.

SURV 1030 Fundamentals of Geodesy and Control Surveys 3:3:0 Spring
Explores the science of geodesy or the size and shape of the earth. Involves Global Positioning Systems theory for computing a position on the earth using three-dimensional coordinate systems, reference coordinate systems, state plane coordinates, transformations, geoid datums, orthometric heights and leveling. Introduces basic properties and characteristics of the most common map projections. Explains principles and theories used to establish control surveys and survey networks based on geodesy. Introduces traverse, triangulation, and elevation adjustment computations along with random and systematic errors in measurement. Offers field application assignments of typical survey control networks using GPS and Total Stations to collect GPS data. Includes post processing coordinate transformation, creation, and report generation using the NGS OPUS system. Requires verifiable demonstration of field skills and techniques. Lab access fee of $45 for computers applies.

SURV 1220 Remote Sensing and Photogrammetry 3:3:0 Spring
* Prerequisite(s): MAT 1010 or appropriate math placement score

SURV 1340 Fundamentals of Boundary Law 3:3:0 Spring
Explains the fundamental responsibilities of a land surveyor in recognizing, locating and creating land boundaries, including sequential and simultaneous conveyances, easements and reversions, riparian and littoral rights. Presents basic rules of evidence. Provides exposure to principles and procedures used to establish new boundaries and locate existing boundaries.
## Course Descriptions

**SURV 2010 Land History of America 3:3:0**  
Fall  
Discusses how, what, and why certain countries, events, and individuals have significantly impacted the history of the lands of America. Describes how the contributions of the various inventions, instruments, individuals, conditions, and events impacted the lands of America. Identifies how current land conditions, policies, and laws in the State of Utah have been impacted by Utah land history. Lab access fee of $45 for computers applies.

**SURV 2030 Geodesy 3:3:0**  
Fall  
* Prerequisite(s): EGDT 2400, MATH 1060 or EGDT 1600 and 1610 or appropriate math placement score  
Examines the science of geodesy. Includes size and shape of the earth, spherical and ellipsoidal geometry, the celestial sphere, and astronomical trigonometry. Involves Global Positioning Systems theory for calculating position on the earth using three-dimensional coordinate systems, reference coordinate systems, state plane coordinates, transformations, spheroid, ellipsoid, geoid datums, celestial sphere, orthometric heights and leveling. Covers basic properties and characteristics of the most common map projections with emphasis on the projections used in State Plane Coordinates such as Lambert Conformal Conic, Universal Transverse Mercator (UTM). Exposes the student to survey applications of practical astronomy including time systems, astronomical azimuth, and Solar/Polaris observations and calculations. Lab access fee of $45 for computers applies.

**SURV 2100 Mapping From Field to Finish 3:3:0**  
Fall  
* Prerequisite(s): EGDT 1400, EGDT 1040, GIS 2640  
Teaches how to identify, operate, and maintain common instrumentation used to collect field data including GIS, Total Stations, and Drones. Integrates survey field data, Geographic Information Systems (GIS) data, and Computer Aided Drafting (CAD) data to develop static and dynamic maps and plans often used by public and private entities. Demonstrates best practice field and office procedures and techniques commonly used by federal, state, and local governments and private industry. Explains potential field safety considerations, problems, and issues, and as well as the development of a safety plan. Includes written and oral presentations. Lab access fee of $45 for computers applies.

**SURV 2310 Surveying US Public Lands 3:3:0**  
Fall  
* Prerequisite(s): EGDT 1400, MATH 1060 or EGDT 1600 and 1610 or appropriate math placement score  
Studies U.S. Public Land Survey System (PLSS) as described in the current official Department of the Interior/Bureau of Land Management (BLM) Manual of Instructions for Surveying Public Lands with emphasis on federal, state, and other applicable laws, evidence, resurveys, and subdivision of sections. Covers a detailed study of general and special instructions, irregularities in subdivisions, lost and obliterated corners, single and double proportion methods, monumentation, riparian boundary laws and rights, hiatuses, mineral surveys, and official survey documents. Introduces Spanish and Mexican land grants, as well as state and national boundaries. Lab access fee of $45 for computers applies.

**SURV 2320 Property Descriptions and Public Land Records 3:3:0**  
Fall  
* Prerequisite(s): (ENGL 1010 or ENGH 1005) and EGDT 1400  
Involves analysis, interpretation, and writing of legal descriptions with proper form, controlling elements, metes-and-bounds, sectionalized land descriptions, easements, and rights-of-way. Discusses different types of descriptions, junior-senior rights in descriptions, latent & patent ambiguities, basis of bearing and interpretation, easements, and reversions. Applies practical exercises and case studies. Studies the responsibilities of the professional land surveyor regarding due diligence in searching public land records and performing applicable legal research. Examines public records and recording laws. Emphasizes title search to patent and includes zoning laws relating to land. Involves tour(s) of local record systems and/or public offices.

**SURV 3010 Measurement Analysis and Adjustments 4:4:0**  
Spring  
* Prerequisite(s): EGDT 2400, MATH 1060 or (EGDT 1600 and 1610) or appropriate math placement score; and University Advanced Standing  
Examines observation theory, and observational error analysis. Discusses the theory of measurement errors, principles of error propagation, variance and covariance, and the theory of the least squares method. Studies variances and co-variances of observed, derived, and adjusted quantities; regression analysis, and polynomial curve fitting. Involves systems of linear equations, linearization, and iteration of nonlinear equations; adjustment validation using hypothesis testing; modeling of surveying problems using different techniques of least squares and also presents several methods used to fit survey data to mathematical and survey models. Software fee of $18 applies. Lab access fee of $45 for computers applies.

**SURV 3030 Land Development Planning, Platting, and Mapping 3:3:0**  
Spring  
* Prerequisite(s): EGDT 1400, EGDT 1400, matriculation into the Geomatics BS degree, and University Advanced Standing  
Discusses land use planning techniques for residential and commercial developments. Subdivisions, industrial parks, and commercial complexes are studied along with the associated governmental regulations, codes, rules, and approval processes and procedures. Requires a mock public presentation on course projects. Uses current surveying/engineering software to develop and plot drawings including subdivision plats, records of survey, ALTA surveys, topographic site surveys, and other surveys. Software fee of $18 applies. Lab access fee of $45 for computers applies.

**SURV 3210 Advanced Photogrammetry 3:3:0**  
Fall  
* Prerequisite(s): EGDT 1400, MATH 1060, or (EGDT 1600 and 1610), or appropriate math placement score; and University Advanced Standing  
Examines principals of photogrammetry as applied to surveying and mapping. Analyzes geometry of vertical and aerial photographs, stereoscopic parallax, geometry of tilted photographs, and stereoplaner mapping. Discusses close-range photographic analysis, planimetric and topographic maps, flight planning, digital photogrammetry, aerial cameras and camera calibration. Involves the theory and techniques of photo orientation, digital imagery, and aerial triangulation. Software fee of $18 applies. Lab access fee of $45 for computers applies.

**SURV 3220 Control Surveys 3:3:0**  
Fall  
* Prerequisite(s): SURV 2030, SURV 3010, matriculation into the Geomatics BS degree, and University Advanced Standing  
Applies principles and theories presented in prerequisite courses and moves the student to an advanced applications level. Studies the establishment of control surveys and survey networks. Reviews compass rule adjustment computation, matrix methods and least squares adjustment methods, random and systematic errors in measuring, and error propagation. Offers field applications of Radial and GPS surveying systems: static, kinematic and RTK procedures, data collection, post processing coordinate transformation, creation, and report generation. Teaches practical applications of network adjustment, control surveys, triangulation, and precision traverses with precise elevation control. Requires demonstration of field skills and techniques. Software fee of $18 applies. Lab access fee of $45 for computers applies.

**SURV 3230 Construction and Route Surveys 3:3:0**  
Spring  
* Prerequisite(s): EGDT 2400, MATH 1060 or EGDT 1600 and 1610, or appropriate math placement score; and University Advanced Standing  
Applies principles and theories presented in prerequisite courses. Develops computations, standard practices and practical applications for common construction and route surveys. Includes survey staking of pipes, curbs, streets, parking lots, buildings, and other typical land development and infrastructure project elements. Develops volume and area calculations. Requires computer derived solutions and applications from plans and specifications using modern data collection and coordinate geometry (COGO) computer software. Lab access fee of $45 for computers applies. Software fee of $18 applies.
SURV 3340 Boundary Law 3:3:0 Spring * Prerequisite(s): Matriculation into the Geomatics BS degree required and University Advanced Standing

Studies the responsibilities of the land boundary surveyor in protecting rights, title, and interest of the land; riparian and littoral rights, bona-fide rights, boundary easements and reversions, conveyances; sequential and simultaneous. Present principles and rules of evidence. Includes monuments and monumentation, boundary locations, and procedures used to establish new boundaries and locate existing boundaries. Lab access fee of $45 for computers applies.

SURV 3400 Surveying Applications and Field Techniques III 3:2:2 Fall * Prerequisite(s): EGDT 2400, GIS 3600, and University Advanced Standing

Focuses on state of the art surveying applications and field survey techniques often employed by surveyors for various field and office tasks some of which may include horizontal and vertical networks and traverses, route surveys, and topographic/site surveys, and machine control methods. Teaches the construction, care, maintenance, calibration, effective setup and observation methods used for the latest in surveying instrumentation often including: global positioning systems (GPS), total robotic stations, 3D laser scanners, automatic levels, modern data collectors, coordinate geometry (COGO), computer-aided drafting (CAD) software, Drone surveying, and other geospatial surveying systems and instruments. Lab access fee of $45 for computers applies. Software fee of $25 applies.

SURV 4340 Surveying Legal Principles 3:3:0 Spring * Prerequisite(s): SURV 2320, SURV 3340, ENGL 2310, matriculation into the Geomatics BS degree, and University Advanced Standing

Focuses on researching the body of law as it applies to the practice of surveying. Covers common law associated with the Statute of Frauds, Constructive Notice, and Surveyor/Attorney interaction and roles. Discusses principles and concepts of dispute and conflict resolution as well as the specific role of the expert witness. Reviews the fact finder role of the surveyor in research/investigation techniques and sources while focusing on facts of a case and the applicable laws. Completers will work on case studies and prepare a final legal research paper. Involves tour(s) of a law library.

SURV 4400 Surveying Applications and Field Techniques IV 3:2:3 On Sufficient Demand * Prerequisite(s): SURV 3400 and University Advanced Standing

Focuses on projects both lab/office and field work. Uses a mentor based teaching model to engage in several projects from inception to final deliverables. Requires students to make project decisions individually and as a team regarding each aspect of the various assigned projects. Requires each team member to demonstrate their own ability to perform all tasks required to complete the assigned projects within a given time frame resulting in deliverables that meet a pre-professional level of competency. Lab access fee of $45 for computers applies. Software fee of $25 applies.

SURV 4500 Professional Services Practicum 3:3:0 Spring * Prerequisite(s): University Advanced Standing

Examines the planning, organizing, and application of field and office practices, and develops a practical business plan including policies and procedures associated with a typical professional services firm providing civil engineering, architectural, and surveying services to the public and private sector. Reviews and applies a myriad management principles and functions including: operations, financial, marketing, human resource, project, and risk management. Exposes the student to the functions of typical financial software. Explores business concepts specific to professional services; pricing, fees, bidding, proposals, contracts, and professional liabilities. Involves developing a business plan for a professional services firm. Lab access fee of $45 for computers applies.

SURV 451R Surveying and Mapping Lecture Series .5 to 2.5 to 2:0 Fall, Spring * Prerequisite(s): University Advanced Standing

Consists of lectures presented by guest speakers or faculty on various topics in Surveying and Mapping including but not limited to: land surveying, mapping, remote sensing, geodesy, legal issues, photogrammetry, and various new and emerging technologies. May be repeated for a maximum of 2 credits toward graduation.

SURV 455G Global Professional Ethics and Liabilities 3:3:0 Fall * Prerequisite(s): PHIL 2050 and University Advanced Standing

Teaches the code of ethics adopted by the various professional services state and national organizations and/or associations. Explains meaning and attributes of professionalism along with the ethical, moral, and social responsibilities of professional engineers, architects, and surveyors. Integrates laws for practicing as a professional service with professional ethics as well as the roles of multi-culturalism and globalization. Includes model standards (international, national, and state), professional liability cases, safety, risks, professional client relationships, bribery, global engagement, contracts, and intellectual property. Involves lecture, readings, case studies, and other media.

SURV 481R Surveying and Mapping Internship 1 to 8:1 to 8:0 On Sufficient Demand * Prerequisite(s): Junior or Senior Standing, departmental written approval, matriculation into the Surveying and Mapping BS degree, and University Advanced Standing

Provides opportunities to apply classroom theory and principles to actual on-the-job work experience, on a paid or non-paid basis, in the field of Surveying and Mapping. Emphasizes the establishment of goals, learning objectives, and expected outcomes with their Faculty Sponsor at the beginning of the internship and/or semester. Involves the submittal of a comprehensive written report at the end of the semester consisting of an evaluation of original goals and objectives and reflects on the achieved outcomes gained from the work experience. May be repeated for a maximum of 8 credits toward graduation. May be graded credit/no credit.

SURV 490R Professional Topics in Surveying and Mapping 2 to 4:2:2 to 4 On Sufficient Demand * Prerequisite(s): University Advanced Standing

Studies a chosen topic in Surveying and Mapping. May include research, experimentation, analysis, and reporting. May be taken more than once for different topics and for a maximum of 9 credits toward graduation.

SURV 4930 Senior Surveying and Mapping Capstone 4:4:0 Spring * Prerequisite(s): University Advanced Standing, Senior Standing

Provides an opportunity for a senior Surveying and Mapping student to participate in a significant and current research project which may advance the field of Surveying and/or Mapping. Includes independent study and laboratory/field work as necessary and must be approved and supervised by assigned faculty and technical mentors. Culminates in the preparation and presentation of a written paper describing the results of the research and/or completed project to project stakeholders, interested students, faculty, administration, the professional community, or the broader general audience. Lab access fee of $45 for computers applies. Software fee of $25 applies.

**Social Work (SW)**

SW 1010 Introduction to Social Work 3:3:0 Fall, Spring, Summer

Introduces social work theory and practice. Examines the relationship between policy and practice in the context of nine major fields of social work. Considers challenges faced by today’s practitioners. Explores current career opportunities in the field.

Utah Valley University

Course Catalog 2020-2021 859
SW 2100  
Human Behavior and the Social Environment I  
3:3:0  
Fall, Spring, Summer  
* Prerequisite(s): Admission into the BSW program  

SW 275R  
Survey of Current Topics  
3:3:0  
On Sufficient Demand  
* Prerequisite(s): Admission to the BSW program or declared major in Family Science and University Advanced Standing  

SW 3000 (Cross-listed with: FAMS 3000)  
Social Work Practice I  
3:3:0  
Fall, Spring, Summer  
* Prerequisite(s): Admission to the BSW program or declared major in Family Science and University Advanced Standing  

SW 3100  
Social Work Practice II  
3:3:0  
On Sufficient Demand  
* Prerequisite(s): SW 3000, Admission into the BSW program, and University Advanced Standing  

SW 3200  
Social Work Practice III  
3:3:0  
On Sufficient Demand  
* Prerequisite(s): SW 3000, SW 3100, Admission into the BSW program, and University Advanced Standing  

SW 3400  
Human Behavior and the Social Environment II  
3:3:0  
* Prerequisite(s): SW 2100, Admission into the BSW program, and University Advanced Standing  

SW 3500  
Social Welfare Policies and Services  
3:3:0  
Fall, Spring  
* Prerequisite(s): Admission into the BSW program and University Advanced Standing  

SW 3510  
International Social Work  
3:3:0  
On Sufficient Demand  
* Prerequisite(s): ENGL 2010 with a C+ grade or higher, SW 1010, and University Advanced Standing  

SW 355G  
Thanatology—Death and Dying  
3:3:0  
Fall, Spring  
* Prerequisite(s): (PSY 1010 or SW 1010) and (ENGL 2010 with a C+ grade or higher) and University Advanced Standing  

SW 3600  
Ethics and Values in Social Work Practice  
3:3:0  
On Sufficient Demand  
* Prerequisite(s): Admission into the BSW program and University Advanced Standing  

Acquaints students with the values of the field of social work and the Code of Ethics of the National Association of Social Workers and helps them to begin to develop the ability to effectively deal with the ethical issues they will be confronted with in professional practice. Increases students' awareness of new and emerging ethical issues and provides tools and methodologies for ethical decision-making. Addresses ethical dilemmas involving conflict between personal values, agency guidelines, professional standards, and cultural differences. Includes discussion of models for ethical decision-making, the NASW Code of Ethics, as well as the codes of ethics of other human services professional organizations.  

SW 371G  
Diversity Issues in Social Work Practice  
3:3:0  
On Sufficient Demand  
* Prerequisite(s): Admission into the BSW program and University Advanced Standing  

Increases understanding and appreciation of diverse client populations, the nature of cultural identity, group membership and differential access to resources, and strategies to combat discrimination, oppression and economic deprivation and to promote social and economic justice. Examines socio-identities including: race, ethnicity, gender, social class, sexual orientation, abilities, and age. Includes discussion of oppressive and discriminatory experiences as well as resilience and strengths encountered by different groups. Explores similarities, differences, and controversies between diverse populations in the context of their personal values and professional practice.  

SW 3750  
Child Abuse Neglect and Domestic Violence  
3:3:0  
Fall, Spring  
* Prerequisite(s): SW 1010 and University Advanced Standing  

Reviews definitions of child abuse and neglect and other forms of domestic violence using a multidisciplinary perspective. Explores theories explaining the causes of abuse/neglect and domestic violence. Identifies indicators of abuse/neglect and aids students in making assessments and intervening in situations of abuse/neglect and domestic violence. Educates students in mandatory reporting laws and the workings of the child welfare system in efforts to intervene and prevent abuse/neglect. Addresses current policy issues pertinent to child abuse/neglect and domestic violence and identifies effective methods in which students can advocate for social change within the social and child welfare system.  

860  
Course Catalog 2020-2021  
Utah Valley University
SW 3760  Post Traumatic Growth: Beyond Survival  
3:3:0  Fall, Spring, Summer  
* Prerequisite(s): SW 1010 and (ENGL 2010 with C+ or higher) and University Advanced Standing  
Examines post-traumatic growth from an ecological perspective and across various at-risk populations. Emphasizes traditional and non-traditional approaches in dealing with physically and psychologically traumatic issues. Explores the characteristics of trauma from a strengths-based perspective and how to best provide services to people that have experienced traumatic events at the micro, mezzo, and macro levels. Considers events within their ecological context. Discusses sensitivity to a variety of circumstances and cultural patterns.

SW 4450  Introduction to Child Welfare I  
3:3:0  Fall, Spring, Summer  
* Prerequisite(s): SW 1010 and (ENGL 2010 with C+ or higher) and University Advanced Standing  
Prepares students to be effective interventionists in family systems where children are at risk of abuse, neglect, or dependency. Examines four-part Child Welfare CORE Competency-based series. Provides students with the basic knowledge, skills, and abilities necessary for successful performance as child welfare workers.

SW 4460  Introduction to Child Welfare II  
3:3:0  Fall, Spring, Summer  
* Prerequisite(s): Admitted to BS in Social Work, SW 1010, (ENGL 2010 with C+ or higher) and University Advanced Standing  
Addresses the basic effects of abuse, neglect, and separation on child development. Focuses on the knowledge and skills required for child welfare workers to provide services related to child placement, including risk assessment, attachment, separation, loss, grief, family intervention, and reunification and reintegration services. Teaches strategies to reduce trauma and promote effective child placement. Explains the foster-care system, including how to work with foster caregivers.

SW 4500  Crisis Intervention  
3:3:0  On Sufficient Demand  
* Prerequisite(s): SW 1010 and (ENGL 2010 with a minimum C+ grade) or instructor approval) and University Advanced Standing  
Introduces the student to the philosophy, knowledge, techniques, and skills of crisis intervention. Provides opportunities through projects, written assignments, role playing, and first-hand interaction with professional crisis workers by which the students may deepen their understanding of this demanding method of social work practice. May be delivered hybrid and/or online.

SW 4600  The DSM of Mental Disorders  
3:3:0  On Sufficient Demand  
* Prerequisite(s): SW 1010, PSY 3400, ENGL 2010 with a C+ grade or higher, and University Advanced Standing  
Provides an overview of the Diagnostic and Statistical Manual of mental disorders (DSM) based on clinical diagnosis. Teaches DSM based clinical diagnosis. Teaches DSM diagnoses including diagnostic criteria, prevalence rates, gender and cultural differences in prevalence and symptomatology, disease course, and differential diagnosis. Uses class discussions, videotapes of individuals with different DSM diagnoses, and case scenarios.

SW 4700  Case Management in Social Work Practice  
3:3:0  Fall, Spring  
* Prerequisite(s): SW 1010 and University Advanced Standing  
Provides the conceptual foundation for providing case management services and crisis intervention to individuals in various population groups.

SW 475R  Current Topics in Social Work  
3:3:0  On Sufficient Demand  
* Prerequisite(s): SW 1010 and ENGL 2010 and University Advanced Standing  
Presents selected topic in Social Work and will vary each semester. Requires a project demonstrating competency in the specific topic. May be repeated with different topics for 9 credits toward graduation.

SW 4800  Integrated Seminar I  
1:1:0  Fall, Spring, Summer  
* Prerequisite(s): SW 3000, admission to the BSW program, and University Advanced Standing  
* Corequisite(s): SW 481R  
Provides a generalist base for social work practice that involves an on-site, supervised field agency practicum and a weekly seminar. Assists the student to integrate classroom learning with learning that takes place in the on-site field practicum. First of two courses in field practicum sequence. Requires individual initiative and responsibility. Includes limited formal instruction. May include literature searches, completion of the IRB application process, materials creation, data collection, data analysis, writing a publishable paper, preparing a poster, preparing an oral presentation, or other options as approved by the instructor. May be repeated for a maximum of 6 credits toward graduation.

SW 4850  Integrated Seminar II  
1:1:0  Fall, Spring, Summer  
* Prerequisite(s): Senior Standing in the BSW program, SW 4800 with B- or higher, and University Advanced Standing  
* Corequisite(s): SW 481R  
Provides a generalist base for social work practice that involves an on-site, supervised field agency practicum and a weekly seminar. Assists the student to integrate classroom learning with learning that takes place in the on-site field practicum. Provides an integrative classroom experience for students with a clinical interest currently working in related jobs or volunteer experiences in human service agencies or work sites. Second of two courses in the field practicum sequence.

SW 489R  Advanced Research in Social Work  
1 to 3:1 to 3:0  On Sufficient Demand  
* Prerequisite(s): (SW 1010 and BESC 3020 with a C grade or higher); ENGL 2010 with C+ grade or higher; University Advanced Standing; Instructor approval  
Expands research experience by either (1) significantly assisting on a faculty member's research project or (2) carrying out an independent research project of the student's design under faculty mentorship. Requires individual initiative and responsibility. Includes limited formal instruction. May include literature searches, completion of the IRB application process, materials creation, data collection, data analysis, writing a publishable paper, preparing a poster, preparing an oral presentation, or other options as approved by the instructor. May be repeated for a maximum of 6 credits toward graduation.

SW 490R  Independent Studies  
1 to 3:1 to 3:0  On Sufficient Demand  
* Prerequisite(s): Instructor approval, department chair approval, and University Advanced Standing; for Behavioral Science Bachelor Degree students only  
For qualified students who wish to undertake a well-defined project or directed study related to an area of special interest. Requires individual initiative and responsibility. Includes limited formal instruction and faculty supervision. Projects may include writing a publishable paper, passing a competency exam, producing an annotated bibliography, oral presentation, or other options as approved by the instructor. May be repeated for a maximum of 6 credits.

SW 6000  Social Work Practice I–Individuals  
3:3:0  Fall, Spring, Summer  
* Prerequisite(s): Admission to the MSW program  
Provides an overview of clinical social work and the practice, knowledge, and skills needed to successfully treat clients. Emphasizes interpersonal and interviewing skills, the generalist planned change process, utilizing a strengths perspective, values and ethics, and cultural competence.
Course Descriptions

SW 6020
Social Work Practice II-Groups
3:3:0
* Prerequisite(s): SW 6000
Introduces the theory and practice of social work in groups. Prepares students for practice by helping them develop the knowledge, values, and skills needed for generalist social work practice with groups. Utilizes evidence-based practice in developing group leadership skills.

SW 6030
Social Work Practice III-Advanced Practice with Individuals and Families
3:3:0
* Prerequisite(s): SW 6000
Examines clinical approaches most often used with clients. Emphasizes the theoretical basis of treatment modalities and how to apply them in practice.

SW 6050
Social Work Practice IV-Advanced Practice with Organizations and Communities
3:3:0  Fall, Spring, Summer
* Prerequisite(s): SW 6300
Analyzes multiple approaches social workers use to influence groups, organizations, communities, and systems. Examines concepts, theories, and models of macro level practice and skills for addressing complex practice and organizational situations.

SW 6200
Human Behavior and the Social Environment I
3:3:0
* Prerequisite(s): Admission to the MSW Program
Presents biological and social science concepts and how they influence human behavior, particularly regarding social environments. Analyzes human behavior by understanding how people process information, what motivates them, how they respond to stress, and what conditions bring about successful change. Applies this information to properly assess the person, their environment, and how that environment has influenced their actions.

SW 6210
Human Behavior and the Social Environment II
3:3:0
* Prerequisite(s): Admission to the MSW Program
Explores biological and social science concepts and how they influence human behavior, particularly regarding social environments. Investigates varying social environment factors, such as culture, ethnicity, stress, adaptation, and gender. Examines biological, psychological, social, and spiritual theories to develop accuracy in assessments.

SW 6300
Social Welfare Policy and Analysis
3:3:0
* Prerequisite(s): Admission to the MSW program
Analyzes current social policy within the context of historical and contemporary factors. Examines major social forces and institutions as they relate to and determine social policy emphasizing social welfare services within current U.S. society. Evaluates social welfare frameworks in light of the principles of social and economic justice and how this impacts individual, group, and community well-being.

SW 6320
Social Work with Latino--Pacific Islanders-- and other Communities of Color
3:3:0
* Prerequisite(s): SW 6000
Evaluates U.S. immigration historical trends and policies and immigration reform challenges, with a major focus on immigrant Latino populations. Teaches culturally competent practice and essential skills in advocacy and policy analysis. Focuses on communities of color.

SW 6400
Social Work Research Methods
3:3:0
* Prerequisite(s): Admission to the MSW Program
Addresses advanced quantitative and qualitative methods to prepare students for carrying out research in agencies. Includes critical analysis of scholarly literature and applying it in clinical practice. Explains the importance of both practice and program evaluation in a clinical setting.

SW 6407
Advanced Social Work Ethics
3:3:0  Fall
* Prerequisite(s): Admission to the MSW Program
Provides an overview of the NASW Code of Ethics. Emphasizes the application of the Code to social work practice situations among various client systems and populations. Addresses the relationships between the Code and the client's basic legal rights.

SW 6490
MSW Advanced Standing Bridge Course
4:4:0  Summer
* Prerequisite(s): Acceptance into the MSW Advanced Standing program
Supplements the knowledge, skills, and values foundation developed in participants' BSW programs. Reviews content learned at the baccalaureate level and material that will be helpful in preparing students for the concentration year of the MSW program. Prepares MSW students to transition from the foundation year to the advanced concentration courses. Addresses topics necessary for advanced MSW-level practice and to support effective and ethical micro- and macro-level interventions. Covers key content addressed in SW foundation courses within the BSW program. This course is open to Advanced Standing students only.

SW 6491
MSW Advanced Standing Skills Course
4:4:0  Summer
* Prerequisite(s): Acceptance into the MSW Advanced Standing program, SW 6490
Develops students' applied skills in Social Work practice. Integrates foundational social work approaches to practice, such as empowerment, strengths-based, and collaborative/person-centered skills. Assures that incoming Advanced Standing students have mastered foundational competencies in social-work practice skills with various types of human systems. Prepares MSW students to transition from the foundation year to the advanced concentration courses. Open to Advanced Standing students only.

SW 6500
Addictions
3:3:0  Fall, Spring, Summer
* Prerequisite(s): SW 6000
Teaches the knowledge and skills that assist in reducing and eliminating addiction. Enables students to identify, assess, and evaluate those struggling with substance abuse and dependency throughout the life span and how to intervene when necessary.

SW 6510
Clinical Issues in Substance-Related Addictions
3:3:0  Fall, Spring, Summer
* Prerequisite(s): SW 6500
Addresses the advanced assessment and treatment of clients affected by the use and abuse of alcohol and other substances. Examines addictions from a bio-psycho-social perspective. Explains different models of addictive behavior for assessment and treatment. Covers assessment factors including gender, age, class, race, and cultural factors. Examines the evidence base for particular practice modalities for family, group, and individual treatment. Analyzes treatment needs of different client populations, including youth, dual-diagnosed adults, and family members. Explains self-help and twelve-step programs and the diversified roles of social workers.

SW 6520
Clinical Issues in Non-Substance Related Addictions
3:3:0  Fall, Spring, Summer
* Prerequisite(s): SW 6500
Addresses the advanced assessment and treatment of clients affected by the use and abuse of non-substance addictions. Examines addictions from a bio-psycho-social perspective. Explains different models of addictive behavior for assessment and treatment. Covers assessment factors including gender, age, class, race, and cultural factors. Examines the evidence base for particular practice modalities for family, group, and individual treatment. Analyzes treatment needs of different client populations, including youth, dual-diagnosed adults, and family members. Explains self-help and twelve-step programs and the diversified roles of social workers.
Course Descriptions

SW 6530
Psychopharmacology
3:3:0  Fall, Spring, Summer
* Prerequisite(s): Admission to MSW program
Addresses principles of nervous system function with emphasis on communication between nerve cells. Focuses on therapeutic drugs as well as drugs of abuse to include mechanisms of action and behavioral effects. Teaches content on dynamics of addiction within a pharmacological context.

SW 6610
Spirituality in Social Work
3:3:0  Fall, Spring, Summer
* Prerequisite(s): Admission to MSW program
Addresses a theistic model for social work clinical practice. Examines various religious and spiritual world views and their application to counseling and psychotherapy. Emphasizes the need for increased sensitivity and competence in working with clients for whom faith-based interventions are desired.

SW 6620
Marriage and Family Therapy
3:3:0  Fall, Spring, Summer
* Prerequisite(s): SW 6000
Introduces a skills-based course in the field of marriage and family therapy. Trains prospective clinicians to work with individuals, couples, and families from a systems focus. Reviews the history of family therapy and the predominant models of the field. Emphasizes ethical and cultural issues in the realm of family therapy.

SW 6630
Mental Health Diagnosis
3:3:0  Fall, Spring, Summer
* Prerequisite(s): Admission to MSW program
Explains the major issues in the area of psychopathology and diagnosis of mental disorders from a bio-psycho-social perspective. Covers influences on the incidence, manifestation, and course of the most commonly presented mental disorders and the differential effect of these factors on diverse populations. Examines mental illness through the experience of family members and significant others.

SW 6640
Crisis Intervention
3:3:0  Fall, Spring, Summer
* Prerequisite(s): Admission to MSW program
Introduces the philosophy, knowledge, techniques, and skills of crisis intervention. Provides opportunities through projects, written assignments, role playing, and first-hand interaction with professional crisis workers to deepen understanding of this demanding method of social work practice.

SW 6650
Couples Therapy
3:3:0  Fall, Spring, Summer
* Prerequisite(s): SW 6000
Trains prospective clinicians in working with couples in a therapeutic capacity. Teaches the basic skills, dominant models, and unique challenges of couples therapy. Examines essential skills and techniques in working with dating, cohabiting, premarital, and marital couples. Examines unique situations of therapy such as addictions, affairs, and sexual issues. Addresses issues of diversity in couples therapy.

SW 6660
Family Violence Across the Lifespan
3:3:0  Fall, Spring, Summer
* Prerequisite(s): Admission to the MSW program
Examines interpersonal violence within the context of familial role and across at-risk populations. Emphasizes a variety of family systems and the impact that issues such as divorce, substance abuse, child abuse, and incarceration have on the various units in the family system. Considers issues and builds practice skills related to family support services, child maltreatment, and substitute care.

SW 6670
Post Traumatic Growth--Practice and Clinical Considerations
3:3:0  Fall, Spring, Summer
* Prerequisite(s): Admittance to the MSW Program
Examines post-traumatic growth across various at-risk populations. Considers several clinical and therapeutic issues in addition to other practice skills related to supportive services from a variety of theoretical frameworks that promote individual, familial, and community growth. Discusses diagnostic criteria and treatment differences in post-traumatic stress and post-traumatic growth. Explores events within their ecological context and works to build sensitivity to a variety of circumstances and cultural patterns. Emphasizes traditional as well as non-traditional approaches in dealing with physically and psychologically traumatic issues such as cancer, interpersonal violence, divorce, child abuse, etc. Discusses characteristics of trauma from a strengths-based perspective and how to best provide services to people that have experienced traumatic events at the micro, mezzo, and macro levels. May be delivered hybrid and/or online.

SW 6700
Advanced Practice with Communities of Color and Other Diverse Populations
3:3:0  Fall, Spring, Summer
* Prerequisite(s): SW 6000, SW 6320
Explains diversity and difference, power and privilege, and oppression. Encourages self-examination within these systems as an essential foundation for culturally competent social work practice. Introduces issues related to service utilization within communities of color and providing effective interventions for historically underserved populations.

SW 6710
Policy Practice with Communities of Color and Other Diverse Populations
3:3:0  Fall, Spring, Summer
* Prerequisite(s): SW 6300
Emphasizes macro practice skills in working with different communities of color through empowerment and collaborative efforts. Explores the historical trends related to institutional discrimination and how this is expressed in current society as policy and cultural norms. Examines a variety of strategies for increasing participation across systems from communities of color and how to empower these groups without resorting to professional imperialism.

SW 6720
Engaging and Empowering the Latino Community
3:3:0  Fall, Spring, Summer
* Prerequisite(s): SW 6320
Builds on the generalist practice, research, policy, and human behavior courses from the foundation year. Includes how to integrate content with clinical knowledge and skills relevant to practice with Latinos. Provides guidelines for application of content to Latinos and practicum cases. Identifies challenges that surface in those applications. Focuses on increasing awareness of how cultural backgrounds, values, traditions, and filters influence worldviews.

SW 6810
Integrative Seminar I
1:1:0
* Prerequisite(s): Admission to the MSW program
* Corequisite(s): SW 6910
Integrates and applies the knowledge and skills obtained from coursework to a social service agency setting. Examines practice experiences such as experiences with people of different cultures/races/ages, ethical dilemmas, emotional and cognitive responses to agency experience, etc. Processes issues that may arise during students’ field experiences.

SW 6820
Integrative Seminar II
1:1:0
* Prerequisite(s): SW 6810
* Corequisite(s): SW 6920
Builds on Integrated Seminar I. Integrates and applies the knowledge and skills obtained from coursework to a social service agency setting. Examines practice experiences such as experiences with people of different cultures/races/ages, ethical dilemmas, emotional and cognitive responses to agency experience, etc. Processes issues that may arise during students’ field experiences.

SW 6830
Integrative Seminar III
1:1:0
* Prerequisite(s): SW 6820
* Corequisite(s): SW 6930
Provides opportunities for integration of social work course work and field practicum experiences. Features in-depth analysis of specific social work competencies within the students’ domains of practice. Teaches the domains of social work practice that include: assessment, interventions, program policies, and service delivery and leadership in the chosen practice area. Provides guidance in practicum and seminar.

SW 6840
Integrative Seminar IV
1:1:0
* Prerequisite(s): SW 6830
* Corequisite(s): SW 6940
Builds on Integrative Seminar III. Provides opportunities for integration of social work course work and field practicum experiences. Features in-depth analysis of specific social work competencies within the students’ domains of practice. Teaches the domains of social work practice that include: assessment, interventions, program policies, and service delivery and leadership in the chosen practice area. Provides guidance in practicum and seminar.
SW 6910  
Foundation Field Practicum I  
4:0:12  
* Prerequisite(s): Admission to the MSW program  
* Corequisite(s): SW 6910  
Offers engaged field education as the central form of instruction and learning to socialize students to become practitioners. Integrates social work theory with practice. Reinforces the purposes, values, and ethics of the social work profession. Fosters the integration of empirical and practice-based knowledge to promote the development of professional competence.

SW 6920  
Foundation Field Practicum II  
4:0:12  
* Prerequisite(s): SW 6910  
* Corequisite(s): SW 6820  
Provides opportunity to apply classroom learning and to integrate theory with practice. Aligns with Council on Social Work Education standards for field education. Reinforces the purposes, values, and ethics of the social work profession. Promotes the development of professional competence.

SW 6930  
Advanced Field Practicum I  
4:0:12  
* Prerequisite(s): Admission to the MSW program  
* Corequisite(s): SW 6830  
Provides agency-based field instruction for advanced learning and practice opportunities relevant to social work. Provides opportunity to integrate and apply advanced generalist practice theory within field experiences. Advances knowledge and skills in practice, research, and evaluation across multi-level systems. Combines field experience, traditional classroom, field supervision, online activities and assignments, and self-directed learning per the field practicum manual.

SW 6940  
Advanced Field Practicum II  
4:0:12  
* Prerequisite(s): SW 6930  
* Corequisite(s): SW 6840  
Continues agency-based field instruction and classroom seminar for advanced learning and practice opportunities relevant to social work. Provides opportunity to integrate and apply advanced generalist practice theory within field experiences. Increases knowledge and skills in practice, research, and evaluation across multi-level systems. Combines field experience, traditional classroom, field supervision, online activities, assignments, and self-directed learning per the field practicum manual.

SW 6945  
Supplemental Field Practicum  
1 to 4:0:3 to 12  
* Prerequisite(s): SW 6940 or departmental approval  
Agency-based field instruction for advanced learning and practice opportunities relevant to social work. Provides opportunity to integrate and apply advanced generalist practice theory within field experiences. Increases knowledge and skills in practice, research, and evaluation across multi-level systems. Combines field experience, field supervision, and self-directed learning per the field practicum manual. May be repeated for a maximum of 4 credits toward graduation.

SW 6950  
MSW Capstone  
2:2:0  
* Prerequisite(s): SW 6600, SW 6300, SW 6400  
Synthesizes course work and field practicum into a final capstone project. Emphasizes readiness for graduate level employment through networking, developing a resume, practicing interviewing skills, and preparing for the advanced clinical social work exam.

Technology Management (TECH)  

TECH 1000  
Experiential Credit Portfolio Development and Assessment  
2:2:0  
Fall, Spring  
* Prerequisite(s) or Corequisite(s): TECH 110R  
Introduces basic concepts, theories and principals of a professional portfolio to demonstrate prior learning experience. Includes the identification of prior professional experience, certifications, licenses, etc. to document professional competencies for assessment by a committee of appropriate faculty and technology professionals to determine experiential credit granting equivalences in courses TECH 110R. Introduces the value of continuous learning and the process of learning how to learn.

TECH 1010  
Understanding Technology  
3:3:0  
Fall, Spring, Summer  
Covers the principal technologies that are important and prevalent today and their associated science principles. Explores how technology applies to, affects, and interacts with various fields, environments and workplaces. Develops an appreciation for how technology evolves and what possible new and exciting technologies are on the horizon.

TECH 1050  
Manufacturing Processes and Systems  
3:2:3  
Fall  
Covers a wide variety of manufacturing processes, including: casting, welding, sheet metal forming, machining, composites fabrication, injection molding, extrusion, thermoforming, rotational molding, and electronics fabrication. Covers understanding of manufacturing systems and all the components required to work together, including: the production system, ERP software system, quality system, business structure, supply chain, and delivery.

TECH 110R  
Technical Experiential Credit  
1 to 8:0:3 to 24  
* Prerequisite(s): TECH 1000  
Allows students to obtain technical experiential credit through an approved portfolio. Portfolio is developed and approved in TECH 1000. May be repeated for a maximum of 15 credits toward graduation.

TECH 200G  
Technology and Human Life  
3:3:0  
Fall, Spring, Summer  
Addresses employee motivation and the impact of the workplace environment (both physical and intangible). Presents various techniques of leadership and management (addressing different motivational theories and contemporary research on worker motivation). Teaches how to build and work in effective teams to inspire good performance and use conflict and negotiation effectively. Practices good communication skills both written and oral. Teaches how to understand the organizational structure, how to manage and assess performance, and how to be aware of opportunities and challenges when managing employees in a technological environment, including strategies for training and evaluation. May include hybrid or online delivery.

TECH 2020  
Operational and Product Safety Management  
3:3:0  
Fall, Spring, Summer  
Covers fundamental safety in the workplace including ergonomic, environmental, and other risk factors associated with new technology. Examines the role of technical managers through case studies and observation of local work places and businesses. Studies the impact of governmental agencies and regulations on workplace and product safety. Compares various communication and human factors techniques to prevent and mitigate human error.

TECH 2050  
Introduction to Quality Management  
3:3:0  
Spring  
* Prerequisite(s): STAT 1040, STAT 1045, or EGDT 1600 with a grade of C- or higher  
Introduces quality management. Includes ISO 9000, application of Lean Six Sigma, continuous process improvement, basic statistical methods, performance measurements, cost of poor quality, employee empowerment, and global quality initiatives. Covers requirements for relevant professional certifications for career enhancement.

TECH 281R  
Internship in Technology  
1 to 3:1 to 3:0  
* Prerequisite(s): Department Approval  
Obtains work experience for lower-division students in their technical field. Provides supervised, practical, and professional experience. Demonstrates accountability regularly with a School of Technology and Computing coordinator. May be repeated for a maximum of 3 credits toward graduation. May be graded credit/no credit.
TECH 290R
Current Topics in Technology
3:0
On Sufficient Demand
Demonstrates current developments in technology fields and how they apply to business and industry processes. Preaps students to use contemporary technologies in their professions. May be repeated for a maximum of nine credits toward graduation. May be delivered hybrid.

TECH 297R
Independent Study
1 to 3:0 to 9
On Sufficient Demand
* Prerequisite(s): Department approval
Requires individual initiative and responsibility. For qualified students who wish to undertake an independent project or directed study related to an area of technology or manufacturing. The topic must be approved by the instructor and the Department Chair. May be repeated for a maximum of 4 credits toward graduation.

TECH 3000
Introduction to Technology Management
3:0
Fall, Spring, Summer
* Prerequisite(s): University Advanced Standing
Addresses the special characteristics of managing and leading technology dependent organizations. Covers the leading influential technologies, technology’s impact on organizational structure and the policy process, strategic technological planning, futures studies, leadership, global aspects of technology management, performance assessment, technology life cycles and financing, and some of the major ethical implications of managing technology dependent organizations. Canvas Course Mats $78/McGraw applies

TECH 3010
Creativity Innovation and Change Management
3:0
Fall, Spring, Summer
* Prerequisite(s): ENGL 1010 or ENGH 1005, Sophomore Standing, and University Advanced Standing
Focuses on principles of creativity and innovation as they apply to technological enterprises. Covers theoretical and practical concepts of both creativity and innovation. Studies both concept and practice of structured methods of creative problem solving. Examines "Appreciative Inquiry" as an alternative management of change technique. Examines inventors and the invention process, including the patent process. Uses lecture, discussion, group projects, case studies, class activities, presentations, videos and guest lecturers.

TECH 301R
Technology Lecture Series
1:1:0
Fall, Spring
* Prerequisite(s): ENGL 2010 and University Advanced Standing
Presents lectures from external speakers in various technology related subjects. Requires a written reaction paper for most of the lectures. May be repeated for a maximum of 2 credits toward graduation.

TECH 3400
Project Management
3:0
Fall, Spring, Summer
* Prerequisite(s): University Advanced Standing
Teaches the fundamental principles, processes, and techniques of project management. Includes a systems approach to planning, scheduling, and controlling projects. Focuses on effective processes for managing projects across multiple disciplines/industries and varying management structures. Introduces project management tools that can be used to guide and manage individual and multiple projects. May be delivered hybrid and/or online.

TECH 3700
Materials Management
3:0
Fall, Spring, Summer
* Prerequisite(s): TECH 3000 and ENGL 2010 and University Advanced Standing
Involves a comprehensive approach to purchasing, raw and finished goods inventories, and determining and managing capacity and workers. Includes Just-in-time, Kanban, scheduling and emerging technologies. Assists in preparing students for national certifications.

TECH 3850
Quality Management in Technology
3:0
Fall, Spring, Summer
* Prerequisite(s): [TECH 3000 and (STAT 1040 or STAT 1045) or advisor approval] and University Advanced Standing
Involves a comprehensive approach to Quality Management related to technical professions. Covers Lean and Six Sigma approaches, continuous improvement/Kaizen, Voice of the Customer (VOC), Statistical Process Control (SPC), cost of poor quality, leadership, employee empowerment, teamwork, change management, and quality standards. Assists in preparing students for the relevant professional certifications for career enhancement.

TECH 4000
Reliability Management
3:0
Fall, Spring, Summer
* Prerequisite(s): TECH 3000, TECH 3850, (STAT 1040 or STAT 1045), and IM 2010 each with a grade of C- or higher and University Advanced Standing
Introduces reliability as a component of successful business strategies. Covers processes for design for reliability in the context of quality management and product development. Presents the most common tools and techniques used to test and interpret reliability data. Examines the role of managers and reliability engineers to ensure product reliability and safety. Uses a mix of case studies, student research, and current events to examine the business impact of reliability in technical enterprises. Software fee of $15 applies.

TECH 405G
Global Ethical and Professional Issues in Technology
3:0
Fall, Spring, Summer
* Prerequisite(s): PHIL 2050 with a grade of C- or higher and University Advanced Standing
Examines professional, ethical, and cultural issues related to the leadership of technological organizations. Studies the impact of emerging technologies, conflicting values, multiculturalism, and globalization on management practices in the workplace. Reviews current ethical theory and professional codes of conduct with special emphasis on global and intercultural issues. Includes lectures, readings, case studies and other media. May be delivered online.

TECH 4200
Technology Marketing and Customer Relationship Management
3:0
Fall, Spring, Summer
* Prerequisite(s): TECH 3000 and University Advanced Standing
Examines customer relationship management (CRM) and its application in marketing, sales, and service. It will include the use of Microsoft Dynamics CRM as well as a number of online resources. Students will learn CRM to align business process with customer-centric strategies, such as identification, acquisition, growth and retention of desired customers. Emphasis is given on conceptual knowledge, real-world projects, and hands-on learning using Microsoft Dynamics CRM software. May be delivered online.

TECH 4400
Advanced Project Management
3:0
Fall, Spring
* Prerequisite(s): TECH 3400 with a C- or higher; University Advanced Standing
Presents advanced tools and techniques which build on the concepts presented in introductory project management class. Covers principles for managing multiple projects. Studies best practices for project management. Introduces the activities of Program Management, Project Portfolio Management and Strategic Project Leadership and Management. Analyzes basic cost justification techniques for making economic decisions in technical organizations. May be delivered online.

TECH 4420
Organization Information Technologies
3:0
Fall, Spring, Summer
* Prerequisite(s): TECH 3000 and IM 2010 and (ACC 3000 or ACC 2020) all with a C- or higher; and University Advanced Standing
Introduces how information, and the management of that information, can affect the structure and operations of organizations. Covers technical and organizational foundations of information systems along with contemporary approaches to building, managing, and protecting information systems including hands-on work with a modern Enterprise Resource Planning (ERP) system. Emphasizes how information technology affects decision-making. Uses Excel as a decision support tool. Examines the ethical and legal issues raised by the capabilities of information technology. May be delivered online. Lab access fee of $45 for computers applies.
TECH 481R
Internship
1 to 3:1 to 3:0  On Sufficient Demand
* Prerequisite(s): TECH 3400, Technology Management Department Chair Approval, and University Advanced Standing
Provides opportunities to apply classroom theory while students work as employees in a job that relates to their careers. May be repeated for a maximum of 9 credits toward graduation. May be graded credit/no credit.

TECH 489R
Undergraduate Research in Technology Management
1 to 3:0 to 15  On Sufficient Demand
* Prerequisite(s): Department Chair. May be repeated for a maximum of 4 individual projects at the discretion and approval of the department chair. Offers independent study as directed in reading or employment.

TECH 490R
Current Topics in Technology Management
3:3:0  On Sufficient Demand
* Prerequisite(s): Department approval and University Advanced Standing
Provides the opportunity to conduct research under the mentorship of a faculty member. Practices the theoretical knowledge gained in prior major courses. Requires the creation of a significant intellectual or creative product that is characteristic of the Technology Management discipline and worthy of communication to a broader audience. May be repeated for a maximum of 3 credits toward graduation.

TECH 4910
Senior Capstone Project
3:3:0  Fall, Spring, Summer
* Prerequisite(s): TECH 3400, TECH 3850, Senior Status, and University Advanced Standing
For senior Technology Management majors. Provides a leadership transition from academic to applied/real-life work experience. Includes student, company liaison, and coordinator evaluation, on-site work visits, written assignments and oral presentations. Offers experience in establishing and accomplishing team objectives that improve their ability to add real value in their future employment.

TECH 497R
Independent Study
1 to 3:0 to 9  On Sufficient Demand
* Prerequisite(s): Technology Management Department Chair Approval and University Advanced Standing
Offers independent study as directed in reading or individual projects at the discretion and approval of the department chair. May be repeated for a maximum of 4 credits toward graduation.

Theatre (THEA)

THEA 1013
Introduction to Theatre WE
3:3:0  Fall, Spring, Summer
Examines theatre analysis, history, dramatic structure, outstanding dramatic literature, and the various roles in theatre production including the playwright, producer, director, the design team, production staff, house staff, run crew, and publicity. Utilizes lecture, film review, play reading, and live theatre attendance.

THEA 1023
Introduction to Film
3:3:0  Fall, Spring, Summer
Designed to develop the analytical skills necessary for understanding the motion picture - not only as an art form, but as a tool for the statement of ideas. Explores the visual and aural elements employed by movie-makers to influence audiences. Studies context—the historical, social, political, cultural, and artistic situation which produced the film and how it reflects ourselves and our society. Combines lecture, screening, and demonstration with critical discussions of assigned readings and films. Requires a weekly lab.

THEA 1033
Acting I
3:3:0  Fall, Spring, Summer
For theatre arts majors and anyone interested in developing acting skills. Covers basic acting terminologies and definitions, techniques of movement, voice, and script analysis with a strong emphasis on performance ethics.

THEA 1113
Voice and Speech I
3:3:0  Fall, Spring
* Prerequisite(s): THEA 1033
Provides student actors with tools for increasing vocal ease and expressivity, with an emphasis on cultivating free and spontaneous breath impulse. Introduces the range of human speech sounds experientially, as a prelude to detailed phonetics and accent work. Provides a framework for developing a personal practice of voice and speech outside the classroom and applying learning through in-class performance. Please note, this is a course in acting, not public speaking.

THEA 1131
Introduction to Movement - BFA
2:1:3  Fall, Spring
* Prerequisite(s): BFA Theatre Arts Matriculation
Introduces student actors to principles and practices of physical training—including yoga, Alexander technique, and contact improvisation.

THEA 1223
Makeup I
3:3:0  Fall, Spring
Introduction to character makeup application for stage and screen with emphasis on corrective, age, and period with some stylized applications. Studies include the development of physical characterization for scripted characters. Course fee of $23 for materials applies.

THEA 1513
Stagecraft I
2:1:2  Fall, Spring
* Corequisite(s): THEA 1514
Surveys all elements of theatre and film production including sets, lighting, sound, properties, and costumes. Offers experience in the construction, painting, dressing, and striking of sets and props; the hanging, focusing and gelling of lighting instruments; the preparation of sound effects; and the operation of sound and lighting control equipment. Utilizes lecture, demonstration, films, and observation of working production facilities and personnel. Course fee of $30 for equipment applies.

THEA 1514
Stagecraft I Lab
1:0:3  Fall, Spring
* Prerequisite(s) or Corequisite(s): THEA 1513
Laboratory component to THEA 1513. Offers experience in the construction, painting, dressing, and striking of sets and props; the hanging, focusing and gelling of lighting instruments; the preparation of sound effects; and the operation of sound and lighting control equipment.

THEA 159R
Production Practicum for Stage and Screen
1:0:3  Fall, Spring
Provides the opportunity for students to earn college credit for supervised backstage crew positions on departmental productions. Includes assignments to wardrobe, deck crews, board operations, props and any additional positions a specific production might require. Requires participation for the entire technical rehearsal and production run to receive credit. May be repeated for a maximum of 2 credits toward graduation.

THEA 1713
Script and Text Analysis I
3:3:0  Fall, Spring
Introduces students to the analysis of story-based texts across a range of media. Focuses on the application of narrative and semiotic theory to dramatic literature from various periods in theatre history. Involves lecture, discussion, script and text analysis, film viewing, and live production attendance.

THEA 2033
Acting II
3:3:0  Fall, Spring
* Prerequisite(s): THEA 1033, THEA 1113
Designed to build upon the techniques learned in THEA 1033. Emphasizes character development and application in creating a role through intense scene study of scripts in both stage and screen.

THEA 2100
Teaching Theatre For Children FF
3:3:0  Fall, Spring
Introduces concepts and techniques to teach theatre to children in the community, schools or home consistent with state and national standards. Identifies methods to use drama to teach other subjects. Introduces concepts, theories and techniques in creative drama. Assists students to become independent, creative, and productive learners as they acquire the knowledge, skills, and experience to teach drama and theatre to children ages 5-12.
THEA 2131 Movement for the Actor I  
3:3:0 Spring  
* Prerequisite(s): THEA 1033  
  Designed to help actors for both stage and screen develop the physical awareness and self-discipline critical to effective performance of period style, staged combat, and the musical. Emphasizes balance, strength, postural correction, energy drives, motivation, and basic movement vocabulary.

THEA 2156 Group Voice for Theatre - BA  
2:1:3 Spring  
* Prerequisite(s): Matriculation BA Theatre Arts  
  Provides group instruction for actors to develop technical skill and understanding of the singing voice. Requires a minimum of 2 hours of practice each week.

THEA 2203 Costume Construction I  
3:3:0 Fall  
* Prerequisite(s): THEA 1513  
* Corequisite(s): THEA 2204  
  Introduces students with sewing machine and serger operation, basic sewing techniques, fabrics, simple patterning, and skills of costume construction. Course fee of $12 for equipment applies.

THEA 2204 Costume Construction I Lab  
1:0:3 Fall  
* Prerequisite(s): THEA 1513  
* Corequisite(s): THEA 2203  
  Laboratory component to THEA 2203. Provides general theatre shop experience designed to offer opportunity for the hands-on application of basic sewing methods of theatrical costuming. Includes training in sewing machine and serger operation, basic sewing techniques, fabrics, simple patterning, and skills of costume construction.

THEA 2211 Theatre for Children and Youth  
3:3:0 Spring  
  Introduces the philosophy and practices of theatre for children and youth, including its range of uses in the classroom, on the stage, in the community, corporate world and beyond. Focuses on storytelling, puppetry, and dramatic texts for children and youth. Requires play attendance.

THEA 222R Theater for Young Audiences Tour  
3:2:3 Fall, Spring  
* Prerequisite(s): THEA 1013 or Instructor Approval  
  Provides students with opportunities to perform in touring theatre productions for elementary and secondary audiences in school settings. Includes training in professional and amateur practices in performing, directing, designing, constructing, and managing touring shows for children and youth. May be repeated for a maximum of 6 credits toward graduation.

THEA 2311 (Cross-listed with: CINE 2311) Film History I  
3:3:0 Spring  
* Prerequisite(s): ART 1020, ART 1650  
  Explores the development of the feature film, both in America and abroad from 1895 to 1945. Covers the evolution of motion pictures from conception as an entertainment novelty (c. 1895) to the mass-media, commercial art form of the 1940's. Examines film as a serious historical study of a form of mass communication, which has had ethical, social, and political consequences on society. Includes lecture, screenings, and demonstrations with critical discussions of assigned readings and films.

THEA 2312 (Cross-listed with: CINE 2312) Film History II  
3:3:0 Fall  
  Explores the development of the feature film, both in America and abroad from 1940 to the Present. Emphasizes the continuing evolution of motion pictures from the height of the Studio System 1930s through to its status as one "form" of digital entertainment in 2010. Examines film as a serious historical study of a form of mass communication, which has had ethical, social, and political consequences on society. Includes lecture, screenings, and demonstrations with critical discussions of assigned readings and films. (Note: Some films screened may be considered controversial and carry an "R" rating.)

THEA 234R (Cross-listed with: CINE 234R) Special Topics in Cinema Studies  
3:2:2 On Sufficient Demand  
* Prerequisite(s): THEA 1023  
  Focuses upon a particular genre, director, or film movement for the benefit of theater students seeking a film emphasis and MCT and English students seeking added depth in their fields of study. Topic varies by semester. May be repeated for 3 credits toward graduation, more for interest.

THEA 2513 Introduction to Design for Stage and Screen  
3:3:0 Fall, Spring  
* Prerequisite(s): THEA 1513  
* Corequisite(s): THEA 2514  
  Studies the design process associated with costumes, scenery, and lighting. Uses research, conceptual renderings, models, and drafting. Introduces perspective drawing, figure drawing, three dimensional model building, and standard drafting practices. Course fee of $10 applies.

THEA 2514 Introduction to Design for Stage and Screen Lab  
1:0:3 Fall, Spring  
* Prerequisite(s): THEA 1513  
* Prerequisite(s) or Corequisite(s): THEA 2513  
  Laboratory course to accompany THEA 2513. Teaches skills in the application of elements and principles of design in the creation of scenery, costumes, and lighting in the theatre.

THEA 2515 Rendering for Theatre  
3:3:0 Fall  
  Trains theatrical design students in the advanced drawing and painting skills necessary to create detailed renderings of costumes and scenery that effectively communicate visual ideas for stage design concepts.

THEA 2517 Visual Concepts in Theatre  
3:3:0 Fall  
* Prerequisite(s): THEA 2513  
  Introduces students to the translation of scripts into visual imagery for the stage. Focuses on the processes of conception, development, and implementation of design components to the point of actual presentation.

THEA 2531 Introduction to Lighting and Sound  
3:3:0 Fall  
  Examines film as a serious historical study of a form of mass communication, which has had ethical, social, and political consequences on society. Includes lecture, screenings, and demonstrations with critical discussions of assigned readings and films. (Note: Some films screened may be considered controversial and carry an "R" rating.)

THEA 2541 Costume History  
3:3:0 Fall  
  Studies costume history from ancient to modern times. Focuses on the political, social, economic and aesthetic concerns of each period. Includes study of the impact of other cultures on Western costume design.

THEA 259R Production Practicum for Stage and Screen  
1:0:3 Fall, Spring, Summer  
* Prerequisite(s): THEA 1513  
  Provides the opportunity for sophomore students to earn college credit for supervised projects in production for the period up to dress rehearsal and during strike. Involves the development of a contract between the student and the assigned instructor. May be repeated for a maximum of 2 credits toward graduation.

THEA 271R BFA Cohort Seminar  
1:1:0 On Sufficient Demand  
  Prepares BFA students for integration into the program through theatrical projects that encourage ensemble collaboration and cooperation with cohorts. Teaches critical unifying skills for future professional endeavors. May be repeated for a maximum of 8 credits toward graduation.

THEA 2741 Scriptwriting for the Stage  
3:3:0 Fall, Spring  
  Introduces practical storytelling techniques for the stage. Involves writing short form scripts using classic play structure. Focuses on helping student writers to find story material, create engaging characters, structure stories, and communicate thematic ideas.
THEA 2742
Scriptwriting for the Screen
3:3:0  Fall, Spring
Introduces practical storytelling techniques for the screen. Involves writing short form scripts using dramatic structure. Focuses on helping student writers to find story material, create engaging characters, structure stories, and communicate thematic ideas.

THEA 281R
Theatre Internship
1 to 6:1 to 6:0  On Sufficient Demand
* Prerequisite(s): Departmental Approval
Provides a transition from school to professional life where learned theory is applied to actual practice through meaningful on-the-job experience. May be repeated for a maximum of 4 credits toward graduation. May be graded credit/no credit.

THEA 284R
Singing Technique for Actors I
1:1:0  Fall, Spring
* Prerequisite(s): Audition required
Offers private vocal instruction for theatre majors to develop skills and techniques for performance in musical theatre. Requires substantial individual practice each week and bi-monthly master class participation. May be repeated for a maximum of 3 credits toward graduation. Course lab fee of $331 for private voice lessons.

THEA 290R
Independent Study
1 to 5:1 to 5:0  On Sufficient Demand
For students with individual projects. Credits given for acceptable projects in playwriting, direction, acting, design or other supervised performance, labor, or research in theatre or film. Proposals must be submitted and approved by the department or instructor prior to enrollment. May be repeated for a maximum of 3 credits toward graduation.

THEA 3033
Acting III
3:3:0  Spring
* Prerequisite(s): THEA 1033, THEA 1113, THEA 2033 and University Advanced Standing
Trains advanced students in the use of contemporary methods, theories, and practices in creation of roles. Focuses on material written and produced in late 20th and early 21st century theatre.

THEA 3110 (Cross-listed with: COMM 3110, ENGL 3110)
Non Fiction Cinema History
3:2:3  On Sufficient Demand
* Prerequisite(s): THEA 2023 and University Advanced Standing
Surveys the history of non-fiction/documentary film from 1896 to the present. Includes study of early pioneers from Flaherty’s NANOK OF THE NORTH to the current trend of reality television and the popular documentaries of Michael Moore.

THEA 3113
Acting for Film
3:2:3  Fall
* Prerequisite(s): THEA 2033 or DGM 2110 or Instructor Approval; University Advanced Standing
Introduces the specialized techniques of performance, audition, and agent/actor relationships as they apply to the film and television industries.

THEA 3115
Improvisation
3:3:0  Spring
* Prerequisite(s): THEA 1113, THEA 2033, THEA 2131 and University Advanced Standing
Introduces acting students to the use of improvisational techniques. Includes advanced training in the application of objectives, tactics, relationships, and movement in the creation of improvised scenes.

THEA 3116
BA Auditioning
3:3:0  Fall, Spring
* Prerequisite(s): THEA 1033 and University Advanced Standing
Prepares BA students with the specific skills to successfully audition for stage roles at the amateur level. Includes instruction on playing objectives, defining relationships, making emotional connections, and physicalizing action. Focuses on mental and psychological preparation for the audition situation.

THEA 3117
Auditioning I
3:3:0  Spring
* Prerequisite(s): THEA 1033, THEA 2033, THEA 3115 and University Advanced Standing
Prepares students with the specific skills to successfully audition for stage and screen roles. Includes work on objectives, relationships, emotional connection, and honest physicality.

THEA 3118
Improvisation II-Performance Team
2:1:3  Fall, Spring
* Prerequisite(s): THEA 1033, THEA 2033, THEA 3115, and University Advanced Standing
Develops acting skills through improvisational performance. Involves training in short and long form improv incorporating skills of story and song structure. Emphasizes application of objectives, tactics, relationships, honest response and communication, and sensory work.

THEA 3122
Voice and Speech II
3:3:0  Fall
* Prerequisite(s): THEA 1113, THEA 2033, THEA 2131, and University Advanced Standing
Continues the work of first-semester Voice and Speech. Deepens the actor's use of voice, including resonance, range, and vocal variety. Introduces detailed phonetics using the International Phonetic Alphabet and identifies markers of formal versus informal speech. Greater emphasis will be placed on text work, including imaging and operative language. Please note, this is a course in acting, not public speaking.

THEA 3123
Acting in Accent
3:3:0  Fall
* Prerequisite(s): THEA 1113, THEA 3122, and University Advanced Standing
Introduces methods for the actor to research, prepare, and perform any accent with authenticity. Includes exploration of the articulatory setting, pronunciation, and prosody of an accent, using primary research sources.

THEA 3124
Voice and Speech III
3:3:0  Fall
* Prerequisite(s): THEA 2122, BFA Theatre majors only, and University Advanced Standing
Introduces advanced topics in voice and speech including creating character voices, voice use in heightened emotional states and violence, and/or beginning and narration.

THEA 3131
Movement for the Actor II
3:3:0  Fall
* Prerequisite(s): THEA 1033, THEA 2131 and University Advanced Standing
Prepares students with the specific skills to successfully audition for stage roles at the amateur level. Includes instruction on playing objectives, defining relationships, making emotional connections, and physicalizing action. Focuses on mental and psychological preparation for the audition situation.

THEA 3151
Acting for Musical Theatre I
3:3:0  Spring
* Prerequisite(s): THEA 2033 and University Advanced Standing
Introduces the acting student to the techniques of acting, singing, and dancing for the musical, as well as looking at the history and trends of the musical. Also incorporates the art of transitioning between dialogue and song.

THEA 3152
Acting for Musical Theatre II
3:3:0  Fall
* Prerequisite(s): THEA 3151 and University Advanced Standing
Further develops and refines the performer's abilities as a singer, dancer, and actor. Links trends in musical theatre with past and present artistic choices. Explores design aspects of musical theatre and thematic integration of acting, singing, and dancing. Includes lecture, discussion, film, rehearsal, and performance.
THEA 3154
Dance for Musical Theatre I
3:2:3  Fall
* Prerequisite(s): THEA 2033 and University Advanced Standing
Focuses on the academic and practical study of the history and development of Musical Theatre Dance as an art form from the late 19th century to present. Melds tap, ballet, jazz, ballroom, and ethnic dance into practical character and story based movement while exploring historic context, landmark choreographers and productions.

THEA 3155
Dance for Musical Theatre II
3:2:3  Not Offered
* Prerequisite(s): THEA 3154, BFA Theatre Arts: Musical Theatre emphasis majors only, University Advanced Standing
Introduces the study of musical theatre choreography. Emphasizes practical application involving a blending of various styles of dance into the creation of practical character and story-based movement.

THEA 315R
Musical Theatre Practicum
2:0:6  Fall, Spring
* Prerequisite(s): Audition, University Advanced Standing
Provides opportunities for musical theater students to perform leading roles in shortened versions of multiple musicals, and collaborate in the full process of producing a musical. May be repeated for a maximum of 6 credits toward graduation. Course fee of $30 for materials, specialized clothing applies.

THEA 319R
Performance Practicum for Stage and Screen
1:0:3  Fall, Spring
* Prerequisite(s): Audition, THEA 159R or Instructor Approval, and University Advanced Standing
Provides opportunity for earning college credit for supervised performance and production assignments in UVU theatre productions from dress rehearsal through closing performance (excluding strike). Allows students to apply learned skills to productions that are currently in performance. Requires project approval from instructor or Department Chair. May be repeated for a maximum of 4 credits toward graduation.

THEA 3211
Applied Theatre
3:3:0  Fall Odd Year
* Prerequisite(s): University Advanced Standing
Provides training and experience in Applied Theatre with adult, youth, and child participants in educational and community settings. Includes using Theatre of the Oppressed techniques (as formulated by Augusto Boal), devising original theatre pieces, and creating theatre-in-education programs that address social and community needs and issues.

THEA 3223
Makeup II
3:2:2  Spring
* Prerequisite(s): THEA 1223; Instructor Approval; and University Advanced Standing
Teaches advanced techniques in makeup design and application, character analysis, and three-dimensional masks. Includes hair applications, prosthetic appliances, airbrush techniques, and variety characterizations. Course fee of $120 for materials applies.

THEA 3231
Creative Drama
3:3:0  Fall Even Year
* Prerequisite(s): THEA 2211, THEA 2100, or Instructor Approval; University Advanced Standing
Examines how creative drama can be applied to other academic subjects, address social issues, and promote social change. Involves study of the works and creative processes of major theater practitioners.

THEA 3241
Storytelling
3:3:0  Spring Even Year
* Prerequisite(s): University Advanced Standing
Introduces techniques associated with effective storytelling practice. Focuses on the use of storytelling as a means of interpreting, generating and preserving stories as an entertaining and empowering tool. Includes performance.

THEA 3251
Puppets
3:3:0  Spring
* Prerequisite(s): University Advanced Standing
Introduces techniques for constructing and performing with various puppets. Emphasizes performance for child, adolescent, and adult audiences.

THEA 3511
Stagecraft II
3:2:3  Spring
* Prerequisite(s): THEA 1515 and University Advanced Standing
Develops intermediate skills in the various stage crafts including carpentry, property construction, lighting and sound for theatre and film. Includes further education in drafting; set and lighting principles; professional, management and safety practices. Students fulfill assigned responsibilities for UVU theatrical productions. Course Lab fee of $40 for equipment applies.

THEA 3514
Period Styles for Theatre Design
3:3:0  Spring
* Prerequisite(s): THEA 2513
Introduction to historical styles of architecture, painting, and dress as they influence theatrical design.

THEA 3516
Art Direction for Film
3:3:0  On Sufficient Demand
* Prerequisite(s): THEA 3514 and University Advanced Standing
Focuses on the basics of production design and art direction, the importance of costumes, props, locations selection, special effects, and set decoration in the visual presentation of a cinematic story.

THEA 3521
Sound Design I
3:3:0  Spring
* Prerequisite(s): THEA 2513 and University Advanced Standing
Introduces students to the physics of sound. Focuses on the production of audio content, and the design and engineering of playback systems. Facilitates collaboration with other members of a theatrical design team. Requires 25 hours of technical sound support for UVU theatrical productions.

THEA 3531
Lighting Design I
3:3:0  Spring
* Prerequisite(s): THEA 2513 and University Advanced Standing
* Corequisite(s): THEA 3535
Focuses on the designing and practical application of theatrical lighting and sound. Includes laboratory work on UVU theatre productions. Course Tool fee of $20 for materials applies.

THEA 3534
Lighting Design II
3:1:6  Fall
* Prerequisite(s): THEA 3531 and University Advanced Standing
* Corequisite(s): THEA 3535
Explores and applies elements of design as they relate to lighting for theatre, dance and film from design process conception to final paperwork. Requires work on UVU productions as well as individual student projects.

THEA 3535
Lighting Design I Lab
1:0:3  Spring
* Prerequisite(s): THEA 2513 and University Advanced Standing
* Corequisite(s): THEA 3531
Laboratory component to THEA 3531. Allows students to implement theatrical lighting and sound design plans. Includes laboratory work on UVU theatre productions.

THEA 3541
Costume Design I
3:3:0  Spring
* Prerequisite(s): THEA 2513 and University Advanced Standing
* Corequisite(s): THEA 3545
Introduces theories and fundamentals of costume design with practical application through research and rendering. Provides an overview of costume history and period research. Emphasizes conceptual ideas based in script and director's concept. Course lab fee of $19 applies.

THEA 3542
Costume Construction II
3:3:0  Spring Even Year
* Prerequisite(s): THEA 2203 and University Advanced Standing
Provides more experience with sewing machine operations and advanced sewing techniques. Includes textile selection and construction skills. Focuses on specialized pattern drafting and draping. Course fee of $25 for materials, equipment applies.
THEA 3543 
Costume Design II 
3:1:6 
Fall, Spring 
* Prerequisite(s): THEA 3541 and University Advanced Standing

Expands on theories of costume design and provides more experience with practical application through research and rendering. Emphasizes advanced conceptual ideas based in script and director's concept. Encourages organization of a professional portfolio.

THEA 3545 
Costume Design I Lab 
1:0:3 
Spring 
* Prerequisite(s): THEA 2513 and University Advanced Standing 
* Corequisite(s): THEA 3541

Laboratory course to accompany THEA 3541. Provides opportunities for practical application of design fundamentals in creation of costumes for various genres and historical periods.

THEA 3561 
Stage Management I 
3:2:3 
Fall, Spring 
* Prerequisite(s): THEA 1513 and University Advanced Standing

Introduces students to the basic processes of creating and managing a theatre production organization. Includes introductory structural organization, collaboration, strategic planning, accounting, and marketing concepts, procedures, and simulation exercises. Prepares students for upper division courses in theatre management.

THEA 3565 
Technical Direction for the Stage 
3:0:3 
Fall 
* Prerequisite(s): THEA 3574 and University Advanced Standing

Introduces students to the technical processes of creating and managing a theatre production organization. Includes introductory structural organization, collaboration, strategic planning, accounting, and marketing concepts, procedures, and simulation exercises. Prepares students for upper division courses in technical theatre.

THEA 3571 
Scenic Design I 
3:3:0 
Spring 
* Prerequisite(s): THEA 2513 and University Advanced Standing 
* Corequisite(s): THEA 3575

Focuses on the application of advanced principles of scenic design for sets and properties. Involves completion of project designs featuring elevation drawing and drafting, rendering, and model building. Emphasizes development of conceptual ideas based on script and director’s concept. Student designers for UVU productions may be selected from this class.

THEA 3572 
Scenic Design II 
3:1:6 
Fall 
* Prerequisite(s): THEA 3571 and University Advanced Standing

Focuses on integration of elements and phases of advanced set construction, property construction and paint finishes for theatrical sets. Includes shop experience and work on UVU productions. Course fee of $30 for equipment applies.

THEA 3573 
Scenic Painting 
3:2:3 
Fall 
* Prerequisite(s): THEA 2513 and University Advanced Standing

Introduces basic approaches to painting theatrical scenery. Covers traditional scene painting techniques and the tools and paints which support those techniques. Course lab fee of $42 applies.

THEA 3574 
Drafting for Theatre Design 
3:0:3 
Spring 
* Prerequisite(s): THEA 2513 and University Advanced Standing

Introduces and trains technical theatre students in the processes of drafting for theatrical design. Focuses on attaining a basic proficiency in using the most recent computer-aided drafting software.

THEA 3575 
Scenic Design I Lab 
1:0:3 
Spring 
* Prerequisite(s): THEA 2513 and University Advanced Standing 
* Corequisite(s): THEA 3571

Provides the laboratory component to THEA 3571 in which students may acquire skills in creation and presentation of scale models used in the development of scenic design for theatrical productions. Includes layout, model making techniques, model finishes, and presentation.

THEA 359R 
Production Practicum for Stage and Screen 
1:0:3 
Fall, Spring, Summer 
* Prerequisite(s): THEA 259R and University Advanced Standing

Provides opportunity to earn college credit for managing projects in production for the period up to dress rehearsal and during strike. Includes projects in lighting, sound, costumes, props, scenery, design, stage management, running crews, house management or publicity. Involves development of a contract between the student and the assigned instructor. May be repeated for a maximum of 2 credits toward graduation.

THEA 3611 
Directing Actors for the Stage and Screen 
3:3:0 
Fall 
* Prerequisite(s): THEA 1033 and THEA 1713 or DGM 2110, and University Advanced Standing

Introduces basic directing techniques utilized in casting and rehearsing actors for stage and screen performance. Places emphasis on achieving honest and believable performances in the intimate style of camera acting, as well as the highly physical acting style of the stage. Includes studies in script structure, visualization, movement, pace and rhythm, gesture, casting techniques, and rehearsal techniques.

THEA 3612 
Directing Actors for the Stage 
3:3:0 
Spring 
* Prerequisite(s): THEA 3611; University Advanced Standing

Builds upon concepts covered in Directing Actors for Stage and Screen. Includes class workshops and demonstrations followed by class/instructor critique. Requires completion and presentation of a director's book. Culminates in public presentation of a one-act play.

THEA 3614 
Directing Actors for the Screen 
3:3:0 
Spring Odd Year 
* Prerequisite(s): THEA 3611 or DGM 2110 or Instructor Approval, University Advanced Standing

Builds upon concepts covered in Directing Actors for Stage and Screen. Includes class workshops and demonstrations followed by class/instructor critique. Requires completion and presentation of a director's book. Culminates in public presentation of a short film. For Digital Media Majors and Theatre Majors with instructor approval.

THEA 3625 
Development and Fundraising for the Arts 
3:3:0 
Spring Odd Year 
* Prerequisite(s): ENGL 2010 and University Advanced Standing

Introduces the development process, cultivating donors, and raising money through donations, sponsorships, and grants to support nonprofit arts organizations.

THEA 3711 
Script and Text Analysis II 
3:3:0 
Fall 
* Prerequisite(s): THEA 1713 and University Advanced Standing

Focuses on the practical application of dramatic, narrative, semiotic, and developmental theory to the practice of theatrical artists, educators, and dramaturgs.

THEA 3721 
Theatre History and Literature I 
3:3:0 
Fall 
* Prerequisite(s): THEA 1013, THEA 1713, ENGL 2010, and University Advanced Standing

Examines the history of the theatre from its earliest origins through the Renaissance. Emphasizes theatre practice in its social, political and economic contexts. Introduces the theory and skills necessary for writing analytically about the theatre.
THEA 3722
Theatre History and Literature II
3:3:0 Spring
* Prerequisite(s): THEA 3721 and University Advanced Standing

Examines the history of the theatre and its associated literature and artists from the Restoration to the present time. Focuses on historical theatre practice in its social, political and economic contexts. Introduces the theory and skills necessary for writing performance reviews and extended research papers in theatre.

THEA 3725
Musical Theatre History
3:3:0 Spring
* Prerequisite(s): THEA 1713 and University Advanced Standing

Explores the evolution of musical theatre from the 1700's through present day, focusing on how politics, cultural trends, and technology have changed the art form.

THEA 3731
Dramaturgy
3:3:0 Fall
* Prerequisite(s): THEA 1713

Introduces students to the practice of production research and play outreach. Provides grounding in theory and analysis to develop skills in the discipline. Aimed at students in multiple interest areas such as performance, design, and administration.

THEA 3741
Script Writing II
3:3:0 Spring
* Prerequisite(s): (THEA 2741 or THEA 2742 or Instructor Approval) and University Advanced Standing

Builds and enlarges on the specific writing craft elements of plot, character, and theme introduced in prior writing classes. Examines plot structures in one-act plays and short films including documentaries. Involves students in identifying and strengthening weaknesses or challenges in their own as well as fellow students’ original scripts. Includes active class discussions, readings, written and oral presentations, research and final projects of a one-act play or short film from 30 to 60 minutes in length.

THEA 374R
New Script Workshop
3:2:3 Fall
* Prerequisite(s): THEA 1033 or THEA 2741 or THEA 3611

Acts as a reading, performance, discussion and improvisation lab for scriptwriter's creative works. Involves students in the process of polishing, refining, and brainstorming dramatic works. Supports original student scripts with the ultimate goal of production. Integrates the work of writers, directors and actors into a collaborative effort. Includes active class discussions, readings, improvisations, written and oral presentations and critiques, research and completion of a project. May be repeated for a maximum of 6 credits toward graduation. Course fee of $15 for materials applies.

THEA 4114
Film Acting II-Reel/Media
2:1:3 Fall, Spring
* Prerequisite(s): THEA 2131, THEA 3123, and University Advanced Standing

Focuses on development of the tools and skills necessary to compete as a professional actor. Involves creation of acting reals, head shots, and resumes. Emphasizes development of networking, professional etiquette and self-promotion skills needed to demonstrate a level of professionalism in the industry. Includes meetings with industry professionals.

THEA 4115
Acting Styles
3:3:0 Spring
* Prerequisite(s): THEA 2033, THEA 3721, and University Advanced Standing

THEA 4117
Auditioning II
3:3:0 Fall
* Prerequisite(s): THEA 3117 and University Advanced Standing

Teaches advanced skills and methods involved in the audition process for stage and screen roles. Focuses on developing resumes, interview skills, and preparing a wide range of audition pieces.

THEA 4119
Senior Showcase and Career Management
3:3:0 Spring
* Prerequisite(s): Senior Standing; THEA 4117, BFA Theatre Arts: Acting emphasis or Musical Theatre emphasis; University Advanced Standing

Performance workshop course that allows BFA Theatre Arts: Acting and Musical Theater emphasis seniors to collaborate with a director to create a showcase of each student actor's performance for promotional purposes. Teaches key skills in career and personal financial management related to the acting profession.

THEA 4122
Speaking Shakespeare
3:3:0 Spring
* Prerequisite(s): THEA 1113, THEA 3122, and University Advanced Standing

Increases the actor's command of operative language, complex syntax, imagery, figures of sound, and rhythm to fulfill the demands of classical acting. Involves rigorous textual analysis of the verse and prose of Shakespearean texts followed by practice in vocal/physical interpretation and performance.

THEA 416R (Cross-listed with: CINE 416R, ENGL 416R)
Special Topics in Film Studies
3:3:0 On Sufficient Demand
* Prerequisite(s): (ENGL 2150 or CINE 2150 or THEA 1023) and University Advanced Standing

Covers cinema directors, genre, theory, and social change on a rotating basis. Explains course focus, defines terminology involved, then studies evolution and/ or specific texts or contexts, and considers theoretical discourse. May be repeated for a maximum of 9 credits toward graduation. Some films screened may carry an "R" rating. Course fee of $40 for support applies.

THEA 4200
Theatre and Drama in the Secondary School
3:3:0 Fall
* Prerequisite(s): EDSC 3000, EDSC 4550, matriculation into a Secondary Education Program, and University Advanced Standing

For theatre majors interested in teaching theatre arts at the secondary and college levels. Introduces methodologies, strategies, and philosophies of theatre pedagogy based upon current research and practices. Emphasizes lesson plan writing using the Utah State Secondary Theatre Core Curriculum and the National Committee for Standards in the Arts. Integrates theory and practice through lecture, discussion, writing, activities, and classroom teaching experiences in the college and public school settings.

THEA 451R
Special Topics in Theatre Design and Technology
3:3:0 Not Offered
* Prerequisite(s): Instructor Approval and University Advanced Standing

Offers in-depth study of specialized topics in theatre technology and design. Includes possible topics such as scenic and integrated projections, mixed reality and video design, audience participatory technology, 3-D modeling and prop design, special effects technology, and scenography and European technology. May be repeated for a maximum of 9 credits toward graduation.

THEA 4535
Multimedia Design for Stage
3:3:0 Spring Even Year
* Prerequisite(s): THEA 2513 and University Advanced Standing

Introduces the language, history, and technology of digital media as it applies to the theatre. Focuses on developing skills to conceive, create, and implement digital media designs for the stage.

THEA 4546
Digital Costume Design
3:3:0 Fall Odd Year
* Prerequisite(s): THEA 3541 and University Advanced Standing

Strengthens abilities to work with advanced design ideas based in script and director’s concept. Develops digital rendering skills via training in Photoshop and Illustrator.
Theatrical Management

THEA 4622
Theatre Administration II
3:3:0 Fall Even Year
* Prerequisite(s): ACC 3000, THEA 4621, and University Advanced Standing

A continuation of the arts administration concepts begun in Arts Administration I. Discusses financial recordkeeping requirements, financial planning, and promotional aspects of the nonprofit theatre organization. Culminates in a business startup plan for a hypothetical nonprofit theatre organization. Discusses careers in arts administration. Discusses human resources as they apply to the theatre organization. Utilizes lecture, discussion, video, and real-world simulation experiences.

THEA 4741
Scriptwriting III
3:3:0 Spring Odd Year
* Prerequisite(s): THEA 2741 or THEA 2742 or Instructor Approval; University Advanced Standing

Extends student dramatic writing skills by creating, rewriting, and polishing a full-length film or play. Focuses on choice of material for specific audiences as well as the specific issues of adaptation from material of an already published source. Emphasizes the processes of selection, securing legal rights, adaptation management imperative to the success of a venture. Includes active class discussions, readings, written and oral presentations, research and final readings of students completed projects.

THEA 474R
New Play Practicum
1:0:3 Fall, Spring
* Prerequisite(s): THEA 1013 or Permission of instructor, and University Advanced Standing

Provides student writers, actors, directors, designers, and dramaturgs with opportunities to participate in the development of new scripts for the stage. Emphasizes the process from script selection to actual production in UVU’s Short Attention Span Theatre (SAST) festival. May be repeated for a maximum of 4 credits toward graduation.

THEA 475R
Special Projects in Dramatic Writing
2 to 9:1:4 to 12 On Sufficient Demand
* Prerequisite(s): THEA 4741 and University Advanced Standing

Offers upper-division directed study with professional/academic supervision to motivated students for writing projects such as commissioned or speculative scripted and/or dramatic works, i.e., musicals, one-man shows, guerrilla theatre, mimes, short or full-length films, documentaries, television shows, sit-coms, movies-of-the-week and other forms not covered by current classes. Allows for a semesters of writing/re-writing and/or critique/development and possible workshop presentation. May be repeated for a maximum of 9 credits toward graduation.

THEA 481R
Theatre Internship
1 to 8:1 to 8:0 Fall, Spring, Summer
* Prerequisite(s): Departmental Approval and University Advanced Standing

Provides a transition from school to professional life where learned theory is applied to actual practice through meaningful on-the-job experience. Repeatable for a maximum of 4 credits toward graduation. May be graded credit/no credit.

THEA 484R
Singing Techniques for Actors II
1:1:0 Fall, Spring
* Prerequisite(s): THEA 284R, Instructor Approval, and University Advanced Standing

Offers private vocal instruction for upper division theatre majors to continue develop skills and techniques for performance in musical theatre. Requires bimonthly master class participation and substantial individual practice. May be repeated for a maximum of 4 credits toward graduation. Course Lab fee of $331 for private voice lessons applies.

THEA 490R
Independent Study
1 to 3:0:5 to 15 On Sufficient Demand
* Prerequisite(s): University Advanced Standing

Provides independent study as directed in reading and individual projects at the discretion and approval of the Dean and/or Department Chair. May be repeated for a maximum of 9 credits toward graduation.

THEA 497R
Professional Topics
1:1:0 On Sufficient Demand
* Prerequisite(s): Junior Status Theatre Major, Department Approval, and University Advanced Standing

For those intending to enter professional theatre. Includes, but not limited to, the following topics: literature, research, analysis, design, management or performance aspects of theatre and the performing arts. May be repeated for a maximum of 3 credits toward graduation.

THEA 4981
Portfolio
1:1:0 Fall
* Prerequisite(s): University Advanced Standing

Features development of student portfolio for the areas of performance, design, management, directing, script writing, and performance. Includes interview skills and website development. Emphasizes placement in the theatrical job market or graduate school placement.

THEA 4993
Senior Project in Performance
3:0:9 Fall, Spring
* Prerequisite(s): THEA 3722, Senior Status, and University Advanced Standing

Provides credit for independent projects and research of advanced nature in the area of Theatre Arts under faculty supervision. Requires an area of study to be designated.

THEA 4994
Senior Project in Theatre
3:0:9 Fall, Spring
* Prerequisite(s): THEA 3722, Senior Status, and University Advanced Standing

Provides credit for independent projects and research of advanced nature in the area of Theatre Arts under faculty supervision. Requires an area of study to be designated.

### University Studies (UVST)

#### UVST 1100
Prior Learning Assessment Theory and Practice  
3:3:0 On Sufficient Demand  
* Prerequisite(s): Departmental Approval

Helps students identify areas of learning they may want to have evaluated for college-level equivalency. Also guides students through the preparation and compilation of all components required for the evaluation of a portfolio of prior learning through LearningCounts.org. Delivered entirely online. Graded Credit/No Credit.

#### UVST 289R
Undergraduate Research  
1:1:0  
* Prerequisite(s): Department Approval

Utilizes Phi Theta Kappa's theme from their "Honors in Action" program as a vehicle to introduce undergraduates to research. Requires students to write a literature review and to present their findings. Requires students to be a member of Phi Theta Kappa. May be repeated for a maximum of 4 credits toward graduation.

#### UVST 299R
Community Engagement and Applied Service Learning  
1:1:0  
* Prerequisite(s): UVST 289R or Department Approval

Utilizes Phi Theta Kappa's theme from their "Honors in Action" program as a vehicle to introduce undergraduates to service learning. Requires students to plan and implement a service project. May be repeated for a maximum of 4 credits toward graduation.

#### UVST 3110
Theory and Practice of Tutoring Writing  
3:3:0  
* Prerequisite(s): ENGL 2010 and University Advanced Standing

Teaches investigative theories, methods, practices and processes of tutoring writing. Has students practice tutoring as a process, actively participating in tutorial sessions and developing tutees ability to do the same. Teaches students to read scholarship from the field of writing center studies that will give them an awareness of the concepts of professional and intellectual tutoring. Requires students to compose several responses to writing center theory, conduct numerous observations of tutorials, participate in tutorials, and ultimately compose an individual philosophy of tutoring.

#### UVST 481R
Internship  
1 to 8:1 to 8:0  
* Prerequisite(s): University Advanced Standing and Departmental Approval

Increases students' knowledge and skills in personal or career-related areas while synthesizing previous and new learning experiences. Final project involves reflection and demonstration of learning outcome achievement. For BA/BS University Studies majors, requires a project planned with and evaluated by a faculty mentor from an academic discipline closely related to the emphasis for the degree. Repeatable for a maximum of 16 credits toward graduation. May be graded credit/no credit.

### Zoology (ZOOL)

#### ZOOL 1090 BB
Introduction to Human Anatomy and Physiology  
3:3:0  
* Prerequisite(s): BIOL 1010 or BIOL 1610

Provides an introduction to the sciences of anatomy and physiology. Covers the basic structure and function of the human body at the cellular, tissue, organ, and system levels. Provides a foundation of particular value for pre-nursing students who wish to have a preview of their required life science courses.

#### ZOOL 2320
Human Anatomy BB  
3:3:0  
* Prerequisite(s): BIOL 1610 and (ENGL 1010 or ENGH 1005) with a minimum of C- or written permission of the Anatomy program coordinator  
* Corequisite(s): ZOOL 2325

Studies, in-depth, the anatomy of the human body. Covers the structure and some functions at the cellular, tissue, organ, and system levels. Emphasizes the names, locations, and functions of body components. Involves problem solving and analytical thinking. Includes weekly laboratory study of human cadavers, models, and specimens. Canvas Course Mats $78/McGraw applies.

#### ZOOL 2325
Human Anatomy Laboratory  
1:0:3  
* Corequisite(s): ZOOL 2320

Studies, in-depth, the anatomy of the human body. Covers the structure and some functions at the cellular, tissue, organ, and system levels. Emphasizes the names, locations, and functions of body components. Involves problem solving and analytical thinking. Includes weekly laboratory study of human cadavers, models, and specimens. Course Lab fee of $30 applies.

#### ZOOL 232H BB
Human Anatomy  
3:3:0  
* Prerequisite(s): BIOL 1610, (ENGL 1010 or ENGH 1005 or written permission of the Anatomy program coordinator), a minimum of a C- required in prerequisite courses.  
* Corequisite(s): ZOOL 232L laboratory section; at least one semester of college level experience is highly recommended.

For students who intend to pursue careers in the biomedical sciences; especially pre-nursing, pre-med, pre- dent, and pre-vet students. Emphasizes the role and value of anatomical knowledge in health and disease. Covers the same general material as ZOOL 2320, but emphasizes clinical applications of the information. Students will choose and complete a course project that may involve short written reports, a term paper, or a poster presentation. Includes weekly laboratory study of human cadavers, models, and specimens. Canvas Course Mats $78/McGraw applies.

#### ZOOL 232L
Human Anatomy Honors Laboratory  
1:0:3  
* Prerequisite(s): BIOL 1010 or BIOL 1610. ENGL 1010 or ENGH 1005 or written permission of the Anatomy program coordinator.  
* Corequisite(s): ZOOL 232H

For students who intend to pursue careers in the biomedical sciences; especially pre-nursing, pre-med, pre- dent, and pre-vet students. Emphasizes the role and value of anatomical knowledge in health and disease. Covers the same general material as ZOOL 2320, but emphasizes clinical applications of the information. Students will choose and complete a course project that may involve short written reports, a term paper, or a poster presentation. Includes weekly laboratory study of human cadavers, models, and specimens. Canvas Course Lab fee of $30 applies.

#### ZOOL 2420
Human Physiology  
3:3:0  
* Prerequisite(s): BIOL 1610 with a minimum grade of C- and CHEM 1110 with a minimum grade of C-  
* Corequisite(s): ZOOL 2425

Studies the functions of the human body at the chemical, cellular, organ, and system levels. Explains control mechanisms involved in homeostasis and stimulus/response pathways. Involves problem solving and analytical thinking. Includes weekly laboratory.

#### ZOOL 2425
Human Physiology Laboratory  
1:0:3  
* Prerequisite(s): BIOL 1610 and CHEM 1110  
* Corequisite(s): ZOOL 2420

Accompanies ZOOL 2420. Covers topics that include the scientific method, scientific data presentation, diffusion and osmosis, enzymatic function, buffers, neurotransmission, skeletal and cardiac muscle physiology, hematology, respiratory physiology and renal physiology. Course Lab fee of $24 applies.
Course Descriptions

**ZOOL 242H Human Physiology**
3:3:0  On Sufficient Demand
* Prerequisite(s): BIOL 1610 with a minimum grade of C- and CHEM 1110 with a minimum grade of C-, written permission of the physiology program coordinator
* Corequisite(s): ZOOL 242G

Studies the functions of the human body at the chemical, cellular, organ, and system levels. Explains control mechanisms involved in homeostasis and stimulus/response pathways. Involves problem solving and analytical thinking. Includes weekly laboratory. Requires a term paper, project, or presentation.

**ZOOL 242L Human Physiology Honors Laboratory**
1:0:3  On Sufficient Demand
* Prerequisite(s): BIOL 1010 (or BIOL 1610), CHEM 1110, written permission of the physiology program coordinator.
* Corequisite(s): ZOOL 242H

Studies the functions of the human body at the chemical, cellular, organ, and system levels. Explains control mechanisms involved in homeostasis and stimulus/response pathways. Involves problem solving and analytical thinking. Includes weekly laboratory. Course Lab fee of $24 applies.

**ZOOL 3100 Vertebrate Zoology**
3:3:0  Spring, Summer
* Prerequisite(s): (BIOL 1010 or BIOL 1620) with a C- or higher and University Advanced Standing
* Corequisite(s): ZOOL 3105

Designed for intended Biology or Zoology majors who desire a broad introduction to the vertebrates and a greater understanding of their unique structure, distribution and the importance of these organisms in the present and past history of the Earth. Covers the evolutionary development of the vertebrates pertaining to major skeletal and physiological adaptations. The approach is also ecological as to vertebrate habitat requirements, their distribution, and community roles. Includes weekly laboratory.

**ZOOL 3105 Vertebrate Zoology Laboratory**
1:0:2  Spring, Summer
* Prerequisite(s): University Advanced Standing
* Corequisite(s): ZOOL 3100

Provides students with hands-on laboratory experience in classification and identification of vertebrates. Course Lab fee of $26 applies.

**ZOOL 3200 Invertebrate Zoology**
3:3:0  Fall
* Prerequisite(s): BIOL 1620 with a C- or higher and University Advanced Standing
* Corequisite(s): ZOOL 3205 Invertebrate Zoology Laboratory

Intended for Biology Department majors. Covers the anatomy, physiology, systematics, evolution and ecology of invertebrate animals.

**ZOOL 3205 Invertebrate Zoology Laboratory**
1:0:3  Fall
* Prerequisite(s): BIOL 1620 with a C- or higher and University Advanced Standing
* Corequisite(s): ZOOL 3200 Invertebrate Zoology

Covers the anatomy, physiology, systematics, evolution and ecology of invertebrate animals. Course Lab fee of $25 applies.

**ZOOL 3300 Herpetology**
3:3:0  On Sufficient Demand
* Prerequisite(s): BIOL 1620 with minimum grade of C-, and University Advanced Standing
* Corequisite(s): ZOOL 3305 Herpetology Laboratory

Covers the evolution, ecology, and diversity of reptiles and amphibians. Includes active class discussions, oral presentations. Emphasizes native Utah herpetofauna. Must be taken concurrently with weekly laboratory and required field trips.

**ZOOL 3305 Herpetology Laboratory**
1:0:2  On Sufficient Demand
* Prerequisite(s): BIOL 1620 with minimum grade of C-, and University Advanced Standing
* Corequisite(s): ZOOL 3300 Herpetology

Covers the evolution, ecology, and diversity of reptiles and amphibians. Includes active class discussions, oral presentations, and field trips. Emphasizes native Utah herpetofauna. Must be taken concurrently with lecture. Course Lab fee of $40 for transportation, support, and lab applies.

**ZOOL 3430 Entomology**
3:3:0  On Sufficient Demand
* Prerequisite(s): BIOL 1620 and BIOL 1625 with a minimum grade of C- in each, and University Advanced Standing
* Corequisite(s): ZOOL 3435

Introduces the study of insects, including insect diversity and classification, anatomy and physiology, relationships to other animals and plants, behavior, and ecology. Includes the application of the study of insects to pest management, environmental assessment, and forensic investigations.

**ZOOL 3435 Entomology Laboratory**
1:0:2  On Sufficient Demand
* Prerequisite(s): University Advanced Standing
* Corequisite(s): ZOOL 3430

Introduces the study of insects, including insect diversity and classification, anatomy and physiology, relationships to other animals and plants, behavior, and ecology. Includes the application of the study of insects to pest management, environmental assessment, and forensic investigations.

**ZOOL 3500 Mammalogy**
3:3:0  Fall
* Prerequisite(s): BIOL 1620 with a minimum grade of C-, and University Advanced Standing; ZOOL 3100 and ZOOL 3105 strongly recommended
* Corequisite(s): ZOOL 3505

Explores the taxonomy, morphology, behavior, ecology, evolution, development, and conservation of mammals. Includes three weekly lectures and a weekly laboratory.

**ZOOL 3505 Mammalogy Laboratory**
1:0:2  Fall
* Prerequisite(s): University Advanced Standing
* Corequisite(s): ZOOL 3500

Explores the taxonomy, morphology, behavior, ecology, evolution, development, and conservation of mammals. Includes three weekly lectures and a weekly laboratory.

**ZOOL 3600 (Cross-listed with: FSCI 3600) Forensic Anthropology I**
3:1:2  On Sufficient Demand
* Prerequisite(s): ZOOL 1090, or ZOOL 2320 and ZOOL 2325, University Advanced Standing

Provides instruction on the study of human bones and their remains as physical evidence in criminal investigations. Teaches the importance of dentition in determining an age estimate of human remains. Identifies the differences among the sexes, whether the remains are human or nonhuman, and what is of forensic significance. Explains crime scene methodology and clinical applications in Forensic Anthropology. Teaches problem solving and analytical thinking in order to develop a biological profile based on population-specific data and standards. Investigates different pathological conditions and variables which may be taken into consideration when determining the cause of death.

**ZOOL 3700 (Cross-listed with: EXSC 3700) Exercise Physiology**
3:3:0  Fall, Spring, Summer
* Prerequisite(s): EXSC Majors: ZOOL 2320 (or 232H), ZOOL 2325 (or 232L), and EXSC 270G all with a C- or higher and (MATH 1050 or MATH 1055). PETE Majors: ZOOL 2320 (or 232H), ZOOL 1090 with a C- or higher and (MATH 1050 or MATH 1055). All University Advanced Standing
* Corequisite(s): ZOOL 2420 (or 242H), ZOOL 2425 (or 242L)

Studies acute and chronic physiological responses to exercise, as well as nutritional and environmental effects on these responses. Requires separate weekly laboratory. Canvas Course Mats $78/McGraw applies.

**ZOOL 3705 (Cross-listed with: EXSC 3705) Exercise Physiology Laboratory**
1:0:3  Fall, Spring, Summer
* Prerequisite(s): University Advanced Standing
* Corequisite(s): EXSC 3700

Studies acute and chronic physiological responses to exercise, as well as nutritional and environmental effects on these responses. The laboratory is designed to offer the hands-on experience where students will experience the physiological responses to different stressors in the lab setting. The labs are arranged to be conducted as similar material is being discussed in class. Course Lab fee of $28 for materials applies.
ZOOL 4000
Animal Behavior
3:3:0  Spring
* Prerequisite(s): BIOL 1620 and University Advanced Standing
Examines the biological basis of animal behavior with emphasis on the underlying mechanisms and evolutionary causes of behavior. Covers first the proximate causes of behavior and then the ultimate or evolutionary causes of behavior. Includes topics such as the genetic basis of behavior, perceptual and effectual systems, ethology, neurophysiology, learning, animal communication, sexual behavior, and social systems.

ZOOL 4100 (Cross-listed with: MICR 4100) Parasitology
4:3:3  On Sufficient Demand
* Prerequisite(s): (BIOL 1620 or MICR 2060) with a C- or higher and University Advanced Standing
Introduces the study of parasites. Emphasizes the biology of principal groups of parasites affecting humans, livestock, and other animals, including their medical economic, and ecological significance. Emphasizes parasites causing zoonotic diseases. Includes weekly laboratory experience involving identification of parasites. Course Lab fee of $25 applies.

ZOOL 4300
Histology
4:3:2  Spring
* Prerequisite(s): [(ZOOL 2320 or ZOOL 232H) with a C- or higher or written instructor approval] and University Advanced Standing
For pre-professional students pursuing biomedical careers and Biology majors with a particular interest in vertebrate structure and function. Studies the microscopic structure of the body at the cellular, tissue, and organ levels. Emphasizes physical and functional relationships of various tissues in the organs of the body. Includes weekly laboratory. Course Lab fee of $35 applies.

ZOOL 4400
Pathophysiology
4:4:0  Fall, Spring
* Prerequisite(s): ZOOL 2320, ZOOL 2420, and MICR 2060 each with a minimum grade C- and University Advanced Standing
For Biology majors with an emphasis in human physiology, pre-professional majors, and nursing students. Studies pathophysiological etiologies and mechanisms that cause disease and examines physiological adaptations and dysfunction of organs and organ systems in a disease state.

ZOOL 4500
Comparative Vertebrate Zoology
3:3:0  On Sufficient Demand
* Prerequisite(s): ZOOL 3100 and (ZOOL 1090 or ZOOL 2320), with a grade of C- or higher, and University Advanced Standing
* Corequisite(s): ZOOL 4505 Comparative Vertebrate Zoology Laboratory
Studies the structure and function of vertebrates at the cellular, tissue, organ and systems levels. Emphasizes developmental and evolutionary comparative aspects of mammalian, avian, reptilian, amphibian, and piscian organs and systems.

ZOOL 4505
Comparative Vertebrate Zoology Laboratory
1:0:3  On Sufficient Demand
* Prerequisite(s): ZOOL 3100 and (ZOOL 1090 or ZOOL 2320), with a grade of C- or higher, and University Advanced Standing
* Corequisite(s): ZOOL 4500 Comparative Vertebrate Zoology
Studies the structure and function of vertebrates at the cellular, tissue, organ and systems levels. Emphasizes developmental and evolutionary comparative aspects of mammalian, avian, reptilian, amphibian, and piscian organs and systems. Course Lab fee of $24 applies.

ZOOL 4600
Ornithology
4:3:2  On Sufficient Demand
* Prerequisite(s): BIOL 1620 and University Advanced Standing; ZOOL 3100 and ZOOL 3105 highly recommended
Provides an in-depth study of avian evolution, systematics, developmental anatomy (wings, beaks, feathers), physiology, and social and reproductive behavior. Emphasizes an evolutionary and adaptive theme to the study of birds. Includes lectures, laboratories and field trips. Course Lab fee of $41 for transportation, lab applies.

ZOOL 4700
Advanced Anatomy
4:3:2  Fall, Spring
* Prerequisite(s): ZOOL 2320 with a minimum grade of C- and University Advanced Standing
For students interested in biomedical science careers or with a special interest in anatomy. Covers principles and techniques of anatomical investigation and specimen preparation. Provides supervised experience in human cadaver dissection, anatomic interpretation of radiographs, craniometrics, and palpation of the body. A regional dissection approach will be used in the lab. Requires problem solving and analytical thinking. Includes the theory and basic principles of various forms of diagnostic imaging, light and electron microscopy, skeletal preparation, and injection/maceration techniques. Includes weekly laboratory. Course Lab fee of $13 applies.

ZOOL 4750
Human Physiology A Cell Biology Approach
4:3:3  Not Offered
* Prerequisite(s): BIOL 3400 and University Advanced Standing
Addresses physiological principles and functions of the human body systems at the molecular level. Emphasizes cell signal transduction involved in the body maintaining homeostasis. Gives special attention to nervous, muscular, cardiovascular, urinary and respiratory systems. Requires problem solving and analytical thinking skills to be successful in the class. Includes weekly laboratory. Course Lab fee of $25 applies.

ZOOL 4780
Neuroscience
4:3:2  Fall
* Prerequisite(s): ZOOL 2420 with a C- or higher and University Advanced Standing
Covers aspects of molecular and cell biology, physiology, pharmacology, anatomy and the interplay of these and other disciplines in our understanding of the structure and function of the nervous system. Discusses neuroanatomy, developmental neurobiology, electrophysiology, membrane specializations related to signal propagation and signal transmission, neurotransmitter function and neuropharmacology, structure and function of simple neuronal circuits and complex neural networks and the plasticity of the nervous system. Incorporates discussion of journal articles related to the latest advances in neuroscience.

ZOOL 490R
Special Topics in Zoology
1 to 4:1 to 4:1 to 8  On Sufficient Demand
* Prerequisite(s): BIOL 1620 and University Advanced Standing
Explores and examines special topics relating to the field of zoology. Emphasizes areas of rapid growth in zoology or current importance to society. May be repeated for a total of 9 credits toward graduation.
Graduate Studies

As a regional state university, Utah Valley University provides quality academic learning opportunities through programs at the graduate levels. For information on these programs, contact the following individuals:

Office of Graduate Studies

- **James A. Bailey**
  - Office: WB 117
  - Telephone: 801-863-6493
  - E-mail: baileyja@uvu.edu

- **Administrative Support:** Shauna Reher
  - Office: BA 216
  - Telephone: 801-863-7348
  - E-mail: graduate_studies@uvu.edu
  - Fax: 801-863-6815

Graduate Program Directors/Coordinators

- **Master of Accountancy:** Joel Helquist
  - Office: WB 147d
  - Telephone: 801-863-8307
  - E-mail: joel.helquist@uvu.edu

- **Master of Arts in Marriage and Family Therapy:** Elizabeth Fawcett
  - Office: CB 207j
  - Telephone: 801-863-5399
  - E-mail: efawcett@uvu.edu

- **Master of Business Administration:** Tamara Jensen
  - Office: WB 127
  - Telephone: 801-863-5099
  - E-mail: tamara.jensen@uvu.edu

- **Master of Computer Science:** Curtis Welborn
  - Office: CS 520f
  - Telephone: 801-863-7058
  - E-mail: curtis.welborn@uvu.edu

- **Master of Education/Graduate Certificate in Secondary Teaching:** Debora Escalante
  - Office: ME 131a
  - Telephone: 801-863-6722
  - E-mail: Debora.escalante@uvu.edu

Graduate Policies and Procedures

Graduate Admission Offer Attendance Requirement

Acceptance of graduate admissions offers is valid only for the semester in the offer. Applicants who do not begin attendance during the semester in their admissions offers must reapply and pay the application fees before the applicable semester deadline. At the graduate program’s discretion, graduate programs may defer enrollment if students apply for a deferment before the end of the semester for which they were admitted.

Continuous Registration Requirement

Once admitted and enrolled, graduate students shall maintain continuous registration during fall and spring semesters and during summer semester if required by the graduate program.

If graduate students cannot maintain continuous registration, they should file for a leave of absence through their graduate program.

Students who fail to maintain continuous registration and who have not been granted an official leave of absence shall be suspended from their graduate program. They shall be ineligible to register for future semesters unless they are readmitted through their graduate program’s procedures.

Minimum GPA Requirement

Graduate students shall maintain a minimum cumulative 3.0 GPA to remain in their graduate programs.

Graduate students whose cumulative GPA falls below 3.0 shall be placed on academic probation for the following semester. Students whose GPAs remain below 3.0 after the probation semester shall be suspended from their graduate program and shall not be permitted to register or attend graduate courses.

Graduate students who are suspended from a graduate program for failing to maintain a cumulative 3.0 GPA may appeal in writing to the director of the graduate program within 30 days of the suspension. Supporting materials and information justifying the request should be supplied.

The graduate program director shall present the written appeal to the program graduate faculty for consideration. The decision of the program graduate faculty shall be final.

Readmission of Suspended Students

Graduate students suspended from the University for violation of Policy 510 or Policy 541 Student Rights and Responsibilities Code who wish to complete their program of study must apply for readmission to the applicable graduate program. The graduate faculty may review the reason for suspension when considering suspended students for readmission.

Minimum Graduation and Individual Course GPA Requirements

A cumulative grade-point average of 3.0 or higher shall be maintained in graduate program courses in order to graduate with a graduate degree or graduate certificate. Individual programs may establish higher grade-point-average requirements.

Credit for courses in which a student earns a grade of C- or lower shall not be applied toward any master’s degree or graduate certificate program. Individual graduate programs may establish higher minimum grade requirements for individual courses.

Maximum Time Limit for Graduate Coursework

Graduate coursework shall be completed within a period of six years; individual programs may require graduate coursework be completed in fewer than six years. When extenuating circumstances warrant, a student may request an extension to coursework completion time limits.

The registrar shall assess the age of earned credits when students are accepted into a graduate program and when they apply for graduation. Graduate course credits older than university or program maximums shall not be applied toward a master’s degree or graduate certificate.

To request an extension to coursework completion time limits, a student shall submit the request in writing to the program director (or his or her designee) of the applicable school or college. The program director’s decision shall be final.

Program Description

For complete and current information about the MBA program, please access our web at [www.uvu.edu/mba](http://www.uvu.edu/mba).

The Masters of Business Administration at UVU offers emphases in finance, marketing, management, and technology management.

1. The **Part-time Professional MBA Program** leverages the management experiences of our professional students while focusing on application and practice through the use of group discussions, case studies, simulations, projects, and interaction with regional organizations and business leaders. Classes are held on Tuesday and Thursday evenings on the Orem campus which begins Fall semester (August). Additionally, classes are held on Monday and Wednesday evenings (or Tuesday and Thursday evenings beginning in alternating years) at the Thanksgiving Point location which begins spring semester (January). The program is completed in six semesters over a two-year period.

2. The **Full-time Accelerated MBA Program** is designed to meet the needs of students who have completed their undergraduate degree and would like to continue their education through an enhanced one-year, three-semester program. The format requires a full-time effort as classes, workshops, and events are scheduled throughout the week. Due to the rigorous demands of this program, employment during enrollment is limited to 15-20 hours per week. Courses concentrate on real-world and engaged activities designed to assist students as they prepare to enter the business world.

The MBA program embraces the university’s designation as an engaged learning campus. Students immerse themselves in all aspects of business management, including accounting, leadership, marketing, economics, ethics, and social responsibility. Throughout the program, students will participate in several integration modules designed to assimilate the various functions of business through simulations, comprehensive case studies and real-world learning projects.

Program Prerequisites

After students are admitted into either the full-time or part-time program, they may demonstrate knowledge proficiency of all prerequisites by submitting official transcripts with a "B-" or higher in equivalent courses, OR by completing an online, abbreviated MBA Prep Course, prior to starting the program. Prerequisites include:

- Financial Accounting and Managerial Accounting
- Principles of Finance
- Business Statistics
- Excel proficiency

**NOTE:** Students who choose to meet these requirements by completing the MBA Prep Courses will need to obtain 80% or higher on the final assessment for each course. The prep courses may be completed through MyEducator. Specific details are available at [www.uvu.edu/mba](http://www.uvu.edu/mba)

Finance Track Prerequisites

In addition to the courses listed above, all students pursuing the **finance emphasis** must fulfill the following additional prerequisites (or equivalents) with a grade of B- or higher.

- Macroeconomics
- Microeconomics
- Business Statistics II
- Business Calculus or Business Analytics

Marketing Track Prerequisites

In addition to the courses listed above, all students pursuing the **marketing emphasis** must fulfill the following additional prerequisites (or equivalents) with a grade of C- or higher.

- Principles of Marketing
- Macroeconomics
- Microeconomics

Application Process
Baccalaureate degree holders with both business and non-business majors may apply. Deadlines and current application requirements are posted on the website, www.uvu.edu/mba. Applicants must submit all of the following to the Woodbury School of Business:

1. **Application** – Complete online at www.uvu.edu/mba and pay the $45 application fee ($145 for international students). After submitting the application fee, applicants will access their account and select Supplemental Items to complete the additional requirements listed below.

   • **Letters of Recommendations** - List the name and email address of two individuals who will be sent a link to submit their recommendation.
   • **Essay** - Submit responses for one essay question.
   • **Resume** - Attach current resume highlighting relevant professional work experience.
   • **College Transcripts** - After the application fee has been paid, request official transcripts to be sent to etranscriptr@uvu.edu. Transcripts will be evaluated based on cumulative GPA or last 60 semester credits.
   • **Graduate Test** - Provide evidence of potential for success which may be demonstrated by submitting an official GMAT or GRE test score.

   The goal is to obtain a 500 or above on the GMAT (perfect score is 800); GRE scores are converted to determine a GMAT equivalent. Test preparation resources and registration information available at www.uvu.edu/mba.

   **NOTE:** Consideration to waive the graduate test requirement is given to students with a GPA of 3.3 or higher (cumulative or last 60 credits) and earned a B+ or better on each required prerequisite.

2. **Interview** - An interview may be required as part of the application review process.

**Additional Requirements for International Student Applicants**

1. **English Proficiency** - Submit official TOEFL or IELTS scores. Required of applicants for whom English is a second language AND who earned a bachelor’s degree outside of the United States. (Minimum TOEFL score of 80 or above or an IELTS score of 6.5 or higher.) The MBA office reserves the right to not waive the English proficiency requirement to ensure students will be adequately prepared for the rigors of the MBA program.

2. **Affidavit of Support** - Upload a signed form completed by person accepting financial responsibility.

3. **Bank Statement** - Provide document as requested on Affidavit of Support from student or sponsor.

4. **Copy of Passport** - Attach a copy of the passport for the student and any dependents who will also need an I-20.

**Application Deadlines**

- Application window – August 1 through April 1, or until the cohort is full for the Fall start date. See uvu.edu/mba for more details.
- Review Date – Applicant files are reviewed on a rolling basis. Applicants are generally notified of an admission decision within a few weeks.
- Financial Aid - A limited number of Graduate Assistantships are available annually for students enrolled in the full-time program in which students are able to earn $5,000 to $10,000. Scholarships are available starting March 1.

Application deadlines for international students:

- If outside the U.S. - May 15
- If in the U.S. - July 1

**Reapplication**

If an applicant is not admitted, he/she may reapply again at a later time. All current admission requirements at the time of application must be met.

**Satisfactory Progress**

Continuation in the Master of Business Administration program is determined by: (1) satisfactory progress (C or higher) in all courses (completed courses with a grade lower than a C must be repeated) and (2) faculty committee chair and the graduate admission and retention committee recommendation.

**Academic Probation**

A student can be recommended for academic probation for the following reason(s): (1) Failure to meet the scholarship requirements of the Graduate Program of an overall GPA of 3.00 (on a 4.00 scale) or higher, with no individual course grade lower than C; (2) Failure to complete prescribed courses; and/or (3) Failure to adhere to University student rights and responsibilities standards.

**Dismissal from the Program**

A student can be dismissed from the Master of Business Administration program for the following reason(s):

1. Academic dishonesty;
2. Continued failure to meet academic standards; and/or
3. Continued failure to adhere to University student rights and responsibilities standards.

**Courses**

Admission to the Master of Business Administration program is a requirement for enrollment into all Master of Business Administration courses.

### Master of Business Administration-Accounting Emphasis, M.B.A. 36 Credits

The UVU Master of Business Administration is an applied graduate degree that reflects the Woodbury School of Business's long and distinguished history of providing excellence in business education. Our innovative team-based curriculum reaches beyond the walls and textbooks of a traditional program and includes not only instruction in the disciplines of business, but also offers many opportunities to apply important skills such as leadership, teamwork, ethical decision making, critical thinking and problem solving, written and oral communication as they are woven throughout the curriculum. Students immerse themselves in all aspects of business management, including accounting, marketing, economics, and social responsibility. Students participate in an international project and travel to the country of their project hosts. The program culminates with a comprehensive real-life consulting project with a company operating in our region.

The full-time track for the Master of Business Administration program at Utah Valley University is a one year, accelerated MBA program that offers either of two concentration areas in management or accounting.

The part-time track for the Master of Business Administration program at Utah Valley University is a two year plan for working professionals which embraces the university's designation as an engaged learning campus and also offers either of two concentration areas in management or accounting.

The MBA program is AACSB accredited.

### Total Program Credits: 36

## Careers:
The job market will likely hold steady for 2014 MBA graduates, according to the Graduate Management Admission council. More than three-quarters of employers that plan to hire graduates expect to maintain or increase their hiring this year. They also report that projected hiring for 2014 is much improved from a few years ago. In addition, between 45 and 58 percent of employers plan to increase annual base salaries at or above the rate of inflation, an indicator that demand for talented graduates remains strong.

### Graduation Requirements:

1. Completion of 36 hours of approved credit with no grade lower than a "C" as described in this program.
2. Graduates may not transfer more than ten hours into this MBA program, preferably from an AACSB accredited institution. All transfer courses will be reviewed by a graduate committee managed by the Woodbury School of Business.
3. Final approval for graduation will be determined by the MBA graduate committee of the Woodbury School of Business.
4. A minimum cumulative GPA of 3.0 or higher must be maintained within program.

### Graduation Plan:

This graduation plan is a sample plan and is intended to be a guide. Your specific plan may differ based on your Math and English placement and/or transfer credits applied. You are encouraged to meet with an advisor and set up an individualized graduation plan in Wolverine Track.

Milestone courses (pre-requisites for a course in one of the subsequent semesters) are marked in red and Italicized.

Careers:
The job market will likely hold steady for 2014 MBA graduates, according to the Graduate Management Admission council. More than three-quarters of employers that plan to hire graduates expect to maintain or increase their hiring this year. They also report that projected hiring for 2014 is much improved from a few years ago. In addition, between 45 and 58 percent of employers plan to increase annual base salaries at or above the rate of inflation, an indicator that demand for talented graduates remains strong.

Master of Business Administration-Marketing Emphasis, M.B.A. 36 Credits

The UVU Master of Business Administration is an applied graduate degree that reflects the Woodbury School of Business's long and distinguished history of providing excellence in business education. Our innovative team-based curriculum reaches beyond the walls and textbooks of a traditional program and includes not only instruction in the disciplines of business, but also offers many opportunities to apply important skills such as leadership, teamwork, ethical decision making, critical thinking and problem solving, written and oral communication as they are woven throughout the curriculum. Students immerse themselves in all aspects of business management, including accounting, marketing, economics, and
Graduate Studies

social responsibility. Students participate in an international project and travel to the country of their project hosts. The program culminates with a comprehensive real-life consulting project with a company operating in our region.

The full-time track for the Master of Business Administration program at Utah Valley University is a one year, accelerated MBA program that offers either of two concentration areas in management or accounting.

The part-time track for the Master of Business Administration program at Utah Valley University is a two year plan for working professionals which embraces the university’s designation as an engaged learning campus and also offers either of two concentration areas in management or accounting.

The MBA program is AACSB accredited.

Graduate Certificate in Mathematics

- Department Chair: Bob Palais
- Office: LA 12th
Program Description

Utah Valley University Mathematics Department offers a two-year part-time course of study for secondary-level teachers leading to a Graduate Certificate in Mathematics. This program is intended for students who wish to teach concurrent enrollment or college-level math courses, but lack the minimum 18 graduate credit hours in mathematics.

This program offers required courses in the areas of Topology, Combinatorics, Statistics, Numerical Analysis, Numerical Methods and Modeling, Modern Algebra and Ordinary Differential Equations.

Admission Requirements

Potential students must apply for admission into the program. To be accepted, students must have a current Mathematics Endorsement Level 4 certificate, attached to an Educator License Secondary teacher, exception, Alternative Routes to Licensure (ARL).

For each credit hour over 25, $292 per credit hour will be assessed for residents and $890 per credit hour for non-residents.

---

**Mathematics, Graduate Certificate**

The Graduate Certificate in Mathematics aims to improve mathematics education and student achievement by focusing on two specific research-supported areas. First, by delivering high-quality content-based knowledge critical to student achievement, and second, by targeting in-service teachers who desire to teach dual credit in high school, given that dual-credit/dual-enrollment students are more likely to persist in college and are more likely to complete a bachelor's degree in less time than those who did not attempt college credits in high school. Graduate courses for this program will be available to match in-service teacher’s schedules— evenings and during summer sessions—taught on the main campus and live-interactive by Utah Valley University’s full-time faculty.

### Total Program Credits: 18

**Matriculation Requirements:**

1. Application for admission to the program.
2. Bachelor's degree required, Mathematics Endorsement 4, from an accredited institution.

**Discipline Core Requirements:**

Complete Six of the following courses for a total of 18 credits

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 6100</td>
<td>Topics in Geometry and Topology (3)</td>
<td></td>

</tr>
<tr>
<td>MATH 6620</td>
<td>Topics in Numerical Analysis (3)</td>
<td></td>
</tr>
</tbody>
</table>
Graduation Requirements:

1. Completion of a minimum of 18 credits.
2. Overall grade point average of 3.0 (B) or above.
3. Residency hours – minimum of 12 credit hours through course attendance at UVU.
4. Courses and project requirements must be finished within a five-year period. No courses will apply toward graduation which are older than five years.

Graduation Plan:

This graduation plan is a sample plan and is intended to be a guide. Your specific plan may differ based on your Math and English placement and/or transfer credits applied. You are encouraged to meet with an advisor and set up an individualized graduation plan in Wolverine Track.

Milestone courses (pre-requisites for a course in one of the subsequent semesters) are marked in red and italicized.

Graduate Studies

Utah Valley University offers post-baccalaureate programs in Cybersecurity for students who wish to complete advanced studies in the field of cybersecurity. These programs are designed to provide students with advanced technical and managerial knowledge of cybersecurity, preparing them for senior technical and leadership roles in the field. Coursework includes a balanced approach, combining critical analysis of cybersecurity theory with hands-on education for essential applied cybersecurity techniques and tools.

Cybersecurity Graduate Certificate

The Cybersecurity Graduate Certificate program consists of 18 credits of graduate-level courses. The curriculum includes cybersecurity operations, advanced network defense, cybersecurity management, case studies, secure coding, ethical hacking, and the legal and privacy implications of cybersecurity.

Master of Science in Cybersecurity

The Master of Science in Cybersecurity builds on the curriculum for the Cybersecurity Graduate Certificate and includes 12 additional credits including topics, such as advanced penetration testing, reverse engineering, and advanced network forensics. The program culminates with a capstone project where students showcase their skills and abilities.

Admission Requirements

Potential students must apply for admission into these programs. To be accepted, students must have completed a Bachelor’s degree, preferably in Information Systems, Information Security, Information Technology, or Computer Science. However, applicants who have a Bachelor’s degree in another field may be admitted to the programs if they also have at least two years of IT or cybersecurity industry experience and have completed undergraduate courses in data communication, programming, and servers.

Cybersecurity Advisory Board

- Dan Anderson, Consultant, Spectra
- David Glod, VP of Information Security, Mountain America Credit Union
- Gary Glover, Director of Security Assessments, SecurityMetrics, Inc.
- Steve Leyba, Service Area Director, Department of Workforce Services
- Angela Madsen, Operations Manager, Department of Workforce Services
- Robert Schroader, President, CEO, Paraben Corporation
- Justin Searle, Managing Partner, UtiliSec

Degree total: 18

Careers:

Cybersecurity is a critical part of our digitally connected lives. From the public sector to private industry, organizations are seeking cybersecurity professionals to protect their critical data. In addition to cybersecurity specialists, there is a demand for other technology and business leaders to have a solid understand of the principles and application of cybersecurity.

Cybersecurity, Master of Science 30 Credits

The Master of Science in Cybersecurity is intended for individuals who desire to acquire additional cybersecurity knowledge, skills, and abilities in order to pursue new or advance existing careers in cybersecurity. The program is also designed for individuals who plan to pursue doctorate degrees in cybersecurity or related fields. The program focuses on the managerial and technical perspectives of cybersecurity through extensive use of case-studies and hands-on lab exercises.

Matriculation Requirements:

1. Bachelor's degree with a GPA of at least 3.2 on a 4.0 scale from an accredited institution in one of the following fields: (Applicants who have bachelor's degrees in other fields may be admitted to the program if they have at least two years of technology or cybersecurity industry experience and have completed undergraduate courses in data communication, programming, and server administration with a grade of C+ or better. Students may also take a comprehensive exam on these topics to satisfy this admission requirement. These applications will be handled on a case-by-case basis.) 1. Information Systems; 2. Information Security; 3. Information Technology; 4. Computer Science
2. Admissions essay.
3. Completed application for admission.
Graduate Studies

4. Official transcripts from all attended institutions of higher education.
5. Two letters of recommendation

Program Description

Utah Valley University offers a Master of Accountancy (MAcc) program that can be completed in one year going full time. Students are also able to go part-time and complete the degree in two years. The MAcc degree prepares students for professional positions in accounting with potential for advancement throughout their career. It qualifies students for entry-level positions in public accounting, industry, government, and not-for-profit organizations. The MAcc qualifies students to sit for the Uniform CPA Examinations in the State of Utah, a necessary step in becoming a Certified Public Accountant (CPA). It also provides a base to pursue related certifications as Certified Internal Auditor (CIA), Certified Management Accountant (CMA), and Certified Fraud Examiner (CFE). Ultimately, a MAcc can lead to a wide variety of significant leadership positions in accounting and business including CFO and CEO.

The MAcc “prepares professionally competent people” by meeting the minimum education required to become a CPA and “promotes student success” by qualifying students to seek professional level positions in accounting. Educational expectations of accounting professionals have increased and the MAcc degree will make UVU students more competitive for entry level positions and improve upward mobility throughout their career. The MAcc program at UVU meets local and regional needs. It is a professional degree which promotes student success and lifelong learning. Economic development is enhanced by providing needed accounting talent. MAcc graduates are a source of leadership talent for business, government, and not-for-profit entities.

Prerequisites

Applicants are expected to meet the following minimum criteria:
- bachelor’s degree from a regionally accredited institution or the equivalent for international students.
- minimum overall undergraduate GPA of 3.0.
- minimum GPA of 3.0 in upper-division accounting courses.
- international students must complete the Test Of English as a Foreign Language (TOEFL).

Prerequisite Courses (or equivalent classes) from Undergraduate Studies:

- ACC 2010 Financial Accounting
- ACC 2020 Managerial Accounting
- ACC 3010 Intermediate Accounting I
- ACC 3020 Intermediate Accounting II
- ACC 3300 Cost Management
- ACC 3400 Individual Income Tax
- ACC 3510 Accounting Information Systems
- ACC 4110 Auditing

Application Process

Baccalaureate degree holders with both accounting and non-accounting majors may apply. (Non-accounting majors must take pre-requisite courses before they can be accepted into the program.) Deadlines and current application requirements are posted on the website, www.uvu.edu/maacc. Applicants must submit all of the following to the Woodbury School of Business:
Graduate Studies

1. Completed application online, www.uvu.edu/admissions
2. Remit a nonrefundable $45 fee online with credit or debit card.
3. Forward all official university transcripts.
4. Respond to the one optional essay questions.
5. Submit a current resume that includes educational background and professional work experience.
6. Provide two letters of recommendation. Recommenders can send letters of recommendation or complete electronic evaluation forms.

Student interviews may also be requested at the discretion of the student selection committee.

Reapplication

If an applicant is not admitted, he/she may reapply again at a later time. All current admission requirements at the time of application must be met.

Satisfactory Progress

Continuation in the Master of Accountancy program is determined by: (1) satisfactory progress (C or higher) in all courses (completed courses with a grade lower than a C must be repeated) and (2) faculty committee chair and the graduate admission and retention committee recommendation.

Academic Probation

A student can be recommended for academic probation for the following reason(s): (1) Failure to meet the scholarship requirements of the Graduate Program of an overall GPA of 3.00 (on a 4.00 scale) or higher, with no individual course grade lower than C; (2) Failure to complete prescribed courses; and/or (3) Failure to adhere to University student rights and responsibilities standards.

Dismissal from the Program

A student can be dismissed from the Master of Accountancy program for the following reason(s):

1. Academic dishonesty;
2. Continued failure to meet academic standards; and/or
3. Continued failure to adhere to University student rights and responsibilities standards.

Courses

Admission to the Master of Accountancy program is a requirement for enrollment into all Master of Accountancy courses.

2020-21 Master of Accountancy --Tuition and Fee Schedule

898 Course Catalog 2020-2021 Utah Valley University
Master of Accountancy, M.Acc  

The Master of Accountancy (MAcc) degree prepares students for professional positions in accounting with the potential for advancement throughout their career. Building upon an undergraduate education in accounting and business it qualifies students for entry-level positions in public accounting, industry, government, and not-for-profit organizations. The MAcc qualifies students to sit for the Uniform CPA Examinations in the State of Utah which is a necessary step in becoming a Certified Public Accountant (CPA). It also provides a base from which students may pursue related certifications such as Certified Internal Auditor (CIA), Certified Management Accountant (CMA), and Certified Fraud Examiner (CFE). Combined with appropriate experience the MAcc can lead to a wide variety of significant leadership positions in accounting and business including Chief Financial Officer (CFO) and Chief Executive Officer (CEO).

Other master's level course as approved by the program

### Graduation Requirements:

1. Completion of a minimum of 30 semester credits.
2. Overall grade point average of 3.0 or above in Master of Accountancy courses.
3. A grade of C or higher required for all courses used to satisfy graduation requirement.
4. If a similar course was taken at the undergraduate level, a course cannot be used to meet the graduation requirement.
5. Transfer credit - a minimum of 20 credits must be completed at Utah Valley University.

### Graduation Plan:

This graduation plan is a sample plan and is intended to be a guide. Your specific plan may differ based on your Math and English placement and/or transfer credits applied. You are encouraged to meet with an advisor and set up an individualized graduation plan in Wolverine Track.

Milestone courses (pre-requisites for a course in one of the subsequent semesters) are marked in red and Italicized.

- **Master of Education**
The Master of Education (M.Ed.) degree at Utah Valley University is an applied master's degree aimed at building the instructional skill and professional competency of teachers, clinicians and administrative leaders in K-12 and higher education. The goal is to enable participants to become more proficient in selecting optimum, research-based, curriculum design strategies that best apply to specific teaching situations.

There are currently eleven emphases in the Master of Education Degree:

- Applied Behavioral Analysis
- Educational Leadership
- Educational Technology
- Elementary Mathematics
- Elementary STEM
- English as a Second Language (ESL)
- Gifted and Talented Education
- Higher Education Leadership
- Reading I
- Secondary Teaching
- Teacher Leadership

The M.Ed. requires 30-33 semester hours of graduate course work and completion of a culminating applied instructional project tailored to the particular interests of program participants. Participants enter the M.Ed. program in cohorts and progress through the degree program in a group. While the culminating applied instructional project is unique to each student, some course work and many class activities are done in collaboration with fellow students.

**Graduate Certificate in Secondary Teaching**

The Graduate Certificate in Secondary Teaching is designed for individuals who would like to receive a Utah Secondary Teaching License, and have earned a bachelor's degree in one of the teaching major subject areas for secondary education approved by the Utah State Board of Education. This program will include the basic coursework and field experiences required of all teacher candidates for an initial teaching license, ensuring that competencies in both subject knowledge and pedagogy are met. Students completing this certificate may transfer the credits earned in this program toward an emphasis in Secondary Teaching in the Master of Education degree.

**Graduate Certificate in Educational Leadership**

The Graduate Certificate for Educational Leadership in UVU’s School of Education (SOE) is designed to align with the current Ed Leadership emphasis in the M.Ed. The certificate will meet the needs of candidates who have previously completed a master's degree (M.Ed) and now wish to prepare as potential administrative and instructional school leaders for Utah's schools. Curriculum for this option will be based on the standards for administrative/ supervisory endorsement from the Utah State Office of Education (USOE), and the Interstate School Leaders Licensure Consortium (ISLLC). The grad certificate program will be formatted to meet the needs of adult learners, with courses offered in the evenings and in blended and online formats, but will not require them to retake core courses previously completed. The administrative/ supervisory certificate will prepare leaders for 21st century schools in the areas of curriculum, instruction, and human resource administration. Course objectives will emphasize performance of school and classroom leadership functions, functional knowledge of local, state, and national educational agencies and regulations, demonstrated competencies in administrative skills, and applied understandings of current research around effective teaching, theories of learning, and educational policy. Candidates will be required to complete supervised internship work that is required by Utah code.

**Application to the Program**

Admission to graduate programs or permission of the Dean of the School of Education is required for enrollment in the Master of Education and Graduate Certificate courses.

Applicants should complete an online graduate application by following the application link on the UVU Web site and follow all instructions for graduate application and admission. Applications and application fees must be received by January 10 for consideration for summer semester. Students in the M.Ed. program begin with full-time coursework in the summers and part-time enrollment in the fall and spring semesters. Applicants to the K-12 Leadership emphasis will need a letter of support from their school administrator.

Required support materials received after the application deadline will delay processing of the application. The School of Education Graduate Screening Committee reviews applications and schedules interviews for applicants meeting minimum admission requirements. The Program Director of Graduate Studies for the School of Education notifies all applicants in writing of the admission decision. The University cannot guarantee a response on or before a specific date. All admission materials become the property of UVU and will not be returned to the applicant.

**Reapplication**

If an applicant is not admitted, s/he may reapply. All current admission requirements at the time of application must be met in order to be fully admitted to the program.

**Satisfactory Progress**

Continuation in the Master of Education program is determined by: (1) satisfactory progress (B- or higher) in all courses and (2) satisfactory completion

**Academic Probation**

A student can be recommended for academic probation for the following reason(s): (1) Failure to meet the scholarship requirements of the Graduate Program of an overall GPA of 3.00 (on a 4.00 scale) or higher, with no individual course grade lower than B-; (2) Failure to complete prescribed courses; and/or (3) Failure to adhere to University student rights and responsibilities standards.

**Dismissal from the Program**

A student can be dismissed from the Master of Education program for the following reason(s)
## Graduate Studies

- Academic dishonesty;
- Continued failure to meet academic standards; and/or
- Continued failure to adhere to University student rights and responsibilities standards

## Dual Language Immersion, Endorsement

The Dual Language Immersion (DLI) Endorsement program is designed to prepare teachers to be sensitive and responsive to the needs of dual language immersion (DLI) learners and to become advocates for DLI in a variety of educational settings. Coursework is designed to address historical and political foundations of DLI education and methods and materials for engaging DLI students in challenging educational experiences. The UVU endorsement program is intended to provide educators with an opportunity to develop, expand, and integrate their knowledge of content, pedagogy, and cultural perspectives in dual language immersion education. Completed program coursework qualifies students to apply to the Utah State Office of Education for an endorsement to their current Utah Teaching License.

**Notes:** This is a 15 credit endorsement. Students will take either EDUC 5710 or EDUC 5350, but are not required to take both.

Degree total: 15
Careers:

While the Master of Education degree program is designed primarily to enhance the skills and understandings of practicing classroom teachers, it also prepares these graduate students for expanded leadership roles at the school, district, or state level in delivering professional development, designing and evaluating curriculum and textbooks, and mentoring novice teachers. A Master of Education degree may also qualify a student as an instructor for teacher preparation courses in a community college or as an adjunct instructor at the undergraduate level in a four-year college or university. Successful completion of this master’s degree also provides a valuable foundation for those students who choose to pursue a doctoral degree. Program options in English as a Second Language, Educational Technology, Elementary Mathematics, and Reading I will also qualify students to apply for an endorsement to their current Utah Teaching Certificate.

Educational Leadership, Graduate Certificate 21 Credits

The Graduate Certificate for Educational Leadership in UVU's School of Education (SOE) is designed to align with the current Ed Leadership emphasis in the M.Ed. The certificate will meet the needs of candidates who have previously completed a master’s degree (M.Ed) and now wish to prepare as potential administrative and instructional school leaders for Utah’s schools. Curriculum for this option will be based on the standards for administrative/supervisory endorsement from the Utah State Office of Education (USOE), and the Interstate School Leaders Licensure Consortium (ISLLC). The grad certificate program will be formatted to meet the needs of adult learners, with courses offered in the evenings and in blended and online formats, but will not require them to retake core courses previously completed. The administrative/supervisory certificate will prepare leaders for 21st century schools in the areas of curriculum, instruction, and human resource administration. Course objectives will emphasize performance of school and classroom leadership functions, functional knowledge of local, state, and national educational agencies and regulations, demonstrated competencies in administrative skills, and applied understandings of current research around effective teaching, theories of learning, and educational policy. Candidates will be required to complete supervised internship work that is required by Utah code.

Matriculation Requirements:

Earned M.Ed.

The Utah Valley University Gifted and Talented endorsement program is designed to prepare teachers to be sensitive and responsive to the needs of gifted and talented (GT) learners and to become advocates for their students in a variety of educational settings, whether they become teachers in Gifted and Talented programs or teachers who work with these learners in the mainstream classroom setting. Coursework is designed to address historical and political foundations of GT education, the social and emotional needs of these learners, and methods and materials for engaging GT students in challenging educational experiences. The UVU endorsement program is intended to provide educators with an opportunity to develop, expand, and integrate their knowledge of content, pedagogy, and cultural perspectives in gifted and talented education.

Master of Education - Applied Behavioral Analysis Emphasis, M.Ed. 35 Credits

The Master of Education Degree (M.Ed.) at Utah Valley University is an applied master’s program aimed at building the instructional skills and professional competency of teachers. Currently there are eleven emphases for participants: Applied Behavioral Analysis; Educational Leadership; Educational Technology; Elementary Mathematics; Elementary STEM, as a Second Language (ESL), Gifted and Talented Education, Higher Education Leadership, Reading I, Secondary Teaching, and Teacher Leadership. The M.Ed. program emphasizes coursework that prepares teachers to become instructional leaders, with classes in advanced pedagogy, subject matter content, curriculum design, and assessment. Core coursework in research methods is required of participants in all options, however, students select a topic for a culminating project according to their interest or area of licensure in K-12 education.

Matriculation Requirements:

1. Application for admission.
2. Bachelor degree from an accredited institution.
3. Graduate Records Exam (GRE) with a verbal and quantitative score at or above the 40th percentile.
4. Overall grade point average in undergraduate work of 3.2 or higher or have a grade point average of 3.2 or higher for the last 60 semester hours of college or university credit.
5. Interview with School of Education Graduate Committee.
6. Three professional letters of recommendation.

Preference will be given to individuals who have at least one year of successful teaching experience in grades K-12. A one-year internship will count as the preferred year of successful teaching. Preference will be given to practicing teachers who have access to an established classroom.

### Careers:

While the Master of Education degree program is designed primarily to enhance the skills and understandings of practicing classroom teachers, it also prepares these graduate students for expanded leadership roles at the school, district, or state level in delivering professional development, designing and evaluating curriculum and textbooks, and mentoring novice teachers. A Master of Education degree may also qualify a student as an instructor for teacher preparation courses in a community college or as an adjunct instructor at the undergraduate level in a four-year college or university. Successful completion of this master's degree also provides a valuable foundation for those students who choose to pursue a doctoral degree. Completed coursework in English as a Second Language, Elementary Mathematics, Educational Technology, and the Reading 1 options qualifies students for an endorsement to their existing Utah Teaching Certificate.

### Master of Education - Educational Leadership Emphasis, M.Ed. 36 Credits

The Master of Education Degree (M.Ed.) at Utah Valley University is an applied master’s program aimed at building the instructional skills and professional competency of teachers. Currently there are eleven emphases for participants: Applied Behavioral Analysis; Educational Leadership; Educational Technology; Elementary Mathematics; Elementary STEM, English as a Second Language (ESL), Gifted and Talented Education, Higher Education Leadership, Reading I, Secondary Teaching, and Teacher Leadership. The M.Ed. program emphasizes coursework that prepares teachers to become instructional leaders, with classes in advanced pedagogy, subject matter content, curriculum design, and assessment. Core coursework in research methods is required of participants in all options, however, students select a topic for a culminating project according to their interest or area of licensure in K-12 education.

### Matriculation Requirements:

1. Application for admission.
2. Bachelor degree from an accredited institution.
3. Overall grade point average in undergraduate work of 3.0 or higher or have a grade point average of 3.0 or higher for the last 60 semester hours of college or university credit.
4. Interview with School of Education Graduate Committee.
5. Three professional letters of recommendation.

Preference will be given to individuals who have at least one year of successful teaching experience in grades K-12. A one-year internship will count as the preferred year of successful teaching. Preference will be given to practicing teachers who have access to an established classroom.

**Graduation Requirements:**

1. Complete all courses with a grade of B- or better with an overall GPA of 3.0 or higher.
2. Graduate project proposal accepted by School of Education Graduate Committee.
3. Graduate project completed and accepted by the School of Education Graduate Committee.
4. Courses and project requirements must be finished within a five year period. No courses will apply toward graduation that are older than five years.

**Graduation Plan:**

This graduation plan is a sample plan and is intended to be a guide. Your specific plan may differ based on your Math and English placement and/or transfer credits applied. You are encouraged to meet with an advisor and set up an individualized graduation plan in Wolverine Track.

Milestone courses (pre-requisites for a course in one of the subsequent semesters) are marked in red and italicized.

**Careers:**

While the Master of Education degree program is designed primarily to enhance the skills and understandings of practicing classroom teachers, it also prepares these graduate students for expanded leadership roles at the school, district, or state level in delivering professional development, designing and evaluating curriculum and textbooks, and mentoring novice teachers. A Master of Education degree may also qualify a student as an instructor for teacher preparation courses in a community college or as an adjunct instructor at the undergraduate level in a four-year college or university. Successful completion of this master's degree also provides a valuable foundation for those students who choose to pursue a doctoral degree. Completed coursework in English as a Second Language, Elementary Mathematics, Educational Technology, and the Reading 1 options qualifies students for an endorsement to their existing Utah Teaching Certificate.

**Master of Education - English as a Second Language Emphasis, M.Ed.**

<table>

The Master of Education Degree (M.Ed.) at Utah Valley University is an applied master’s program aimed at building the instructional skills and professional competency of teachers. Currently there are eleven emphases for participants: Applied Behavioral Analysis; Educational Leadership; Educational Technology; Elementary Mathematics; Elementary STEM, English as a Second Language (ESL), Gifted and Talented Education, Higher Education Leadership, Reading I, Secondary Teaching, and Teacher Leadership. The M.Ed. program emphasizes coursework that prepares teachers to become instructional leaders, with classes in advanced pedagogy, subject matter content, curriculum design, and assessment. Core coursework in research methods is required of participants in all options, however, students select a topic for a culminating project according to their interest or area of licensure in K-12 education.

Matriculation Requirements:

1. Application for admission.
2. Bachelor degree from an accredited institution.
3. Graduate Records Exam (GRE) with a verbal and quantitative score at or above the 40th percentile.
4. Overall grade point average in undergraduate work of 3.2 or higher or have a grade point average of 3.2 or higher for the last 60 semester hours of college or university credit.
5. Interview with School of Education Graduate Committee.
6. Three professional letters of recommendation.

Preference will be given to individuals who have at least one year of successful teaching experience in grades K-12. A one-year internship will count as the preferred year of successful teaching. Preference will be given to practicing teachers who have access to an established classroom.

**Master of Education - Reading I Emphasis, M.Ed.**

**33 Credits**

The Master of Education Degree (M.Ed.) at Utah Valley University is an applied master’s program aimed at building the instructional skills and professional competency of teachers. Currently there are eleven emphases for participants: Applied Behavioral Analysis; Educational Leadership; Educational Technology; Elementary Mathematics; Elementary STEM, English as a Second Language (ESL), Gifted and Talented Education, Higher Education Leadership, Reading I, Secondary Teaching, and Teacher Leadership. The M.Ed. program emphasizes coursework that prepares teachers to become instructional leaders, with classes in advanced pedagogy, subject matter content, curriculum design, and assessment. Core coursework in research methods is required of participants in all options, however, students select a topic for a culminating project according to their interest or area of licensure in K-12 education.

**Matriculation Requirements:**

1. Application for admission.
2. Bachelor degree from an accredited institution.
3. Graduate Records Exam (GRE) with a verbal and quantitative score at or above the 40th percentile.
4. Overall grade point average in undergraduate work of 3.2 or higher or have a grade point average of 3.2 or higher for the last 60 semester hours of college or university credit.
5. Interview with School of Education Graduate Committee.
6. Three professional letters of recommendation.

Preference will be given to individuals who have at least one year of successful teaching experience in grades K-12. A one-year internship will count as the preferred year of successful teaching.

Preference will be given to practicing teachers who have access to an established classroom.

**Discipline Core Requirements:**

- EDUC 6100 Research Methodology 3
- EDUC 6110 Applied Statistics for Education 3
- EDUC 6200 Masters Project 3
- EDUC 6910 Project I 1
- EDUC 6920 Project II 1
- EDUC 693R Project III 1

**Emphasis Requirements:**

21 Credits

Students may transfer up to 12 credits from 5000 level courses taken in this area of study; however, 24 additional credits of master's level courses would be required. Please contact your advisor for more information.

- EDUC 6660 Reading Assessments and Instructional Interventions 3
- EDUC 6661 Literacy and Cognition of Reading 3
- EDUC 6662 Early Literacy Instruction 3
- EDUC 6663 Content Area Reading 3
- EDUC 6664 Adolescent Literacy 3
- EDUC 6665 Reading Comprehension Instruction 3
- EDUC 6666 Effective Writing Instruction 3

**Graduation Requirements:**

1. Complete all courses with a grade of B- or better with an overall GPA of 3.0 or higher.
2. Graduate project proposal accepted by School of Education Graduate Committee.
3. Graduate project completed and accepted by the School of Education Graduate Committee.
4. Courses and project requirements must be finished within a five year period. No courses will apply toward graduation that are older than five years.

**Graduation Plan:**

Careers:
While the Master of Education degree program is designed primarily to enhance the skills and understandings of practicing classroom teachers, it also prepares these graduate students for expanded leadership roles at the school, district, or state level in delivering professional development, designing and evaluating curriculum and textbooks, and mentoring novice teachers. A Master of Education degree may also qualify a student as an instructor for teacher preparation courses in a community college or as an adjunct instructor at the undergraduate level in a four-year college or university. Successful completion of this master’s degree also provides a valuable foundation for those students who choose to pursue a doctoral degree. Completed coursework in English as a Second Language, Elementary Mathematics, Educational Technology, and the Reading 1 options qualifies students for an endorsement to their existing Utah Teaching Certificate.

Master of Education - Secondary Teaching Emphasis, M.Ed.  
30 Credits

The Master of Education Degree (M.Ed.) at Utah Valley University is an applied master’s program aimed at building the instructional skills and professional competency of teachers. Currently there are eleven emphases for participants: Applied Behavioral Analysis; Educational Leadership; Educational Technology; Elementary Mathematics; Elementary STEM,
Graduate Studies

English as a Second Language (ESL), Gifted and Talented Education, Higher Education Leadership, Reading I, Secondary Teaching, and Teacher Leadership. The M.Ed. program emphasizes coursework that prepares teachers to become instructional leaders, with classes in advanced pedagogy, subject matter content, curriculum design, and assessment. Core coursework in research methods is required of participants in all options, however, students select a topic for a culminating project according to their interest or area of licensure in K-12 education.

Matriculation Requirements:

1. Application for admission.
2. Bachelor degree from an accredited institution.
3. Graduate Records Exam (GRE) with a verbal and quantitative score at or above the 40th percentile.
4. Overall grade point average in undergraduate work of 3.2 or higher or have a grade point average of 3.2 or higher for the last 60 semester hours of college or university credit.
5. Interview with School of Education Graduate Committee.
6. Three professional letters of recommendation.

Preference will be given to individuals who have at least one year of successful teaching experience in grades K-12. A one-year internship will count as the preferred year of successful teaching.

Preference will be given to practicing teachers who have access to an established classroom.

Course Catalog 2020-2021 Utah Valley University
**Careers:**

While the Master of Education degree program is designed primarily to enhance the skills and understandings of practicing classroom teachers, it also prepares these graduate students for expanded leadership roles at the school, district, or state level in delivering professional development, designing and evaluating curriculum and textbooks, and mentoring novice teachers. A Master of Education degree may also qualify a student as an instructor for teacher preparation courses in a community college or as an adjunct instructor at the undergraduate level in a four-year college or university. Successful completion of this master's degree also provides a valuable foundation for those students who choose to pursue a doctoral degree. Completed coursework in English as a Second Language, Elementary Mathematics, Educational Technology, and the Reading 1 options qualifies students for an endorsement to their existing Utah Teaching Certificate.

---

**Reading I, Endorsement 21 Credits**

The Reading Endorsement Program (REP) is designed to prepare teachers to be responsive to current scientific-reading research for teaching reading and to become advocates for reading research in the educational setting. Coursework is designed to address historical and political foundations of reading education and methods and materials for engaging students in challenging educational experiences. The UVU endorsement program is intended to provide educators with an opportunity to develop, expand, and integrate their knowledge of cognition, content, pedagogy, and cultural perspectives in their curriculum. Completed program coursework qualifies students to apply to the Utah State Office of Education for an endorsement to their current Utah Teaching License.

Careers:

While this program is designed primarily to enhance the skills and understandings of practicing classroom teachers, it also prepares these students for opportunities for teaching in specialized reading programs, expanded leadership roles at the school, district, or state level in delivering professional development, evaluating educational technology, and mentoring other teachers.

Secondary Teaching, Graduate Certificate 29 Credits

The Graduate Certificate in Secondary Teaching is designed for individuals who have earned a bachelor’s degree. They must have completed coursework in one of the teaching major subject areas for secondary education approved by the Utah State Board of Education (USBE) prior to admission into either program. The primary goal of the program will be to ensure that teacher candidates, through support, supervision, and evaluation, can demonstrate and apply the competencies required by the USBE for teacher licensure. Includes the basic coursework and field experiences required of all teacher candidates for an initial teaching license, ensuring that competencies in both subject knowledge and pedagogy are met.

Matriculation Requirements:

Requirements for admission to the Graduate Certificate in Secondary Teaching (GCST) program would include the following:

1. Verification of a bachelor’s degree from an accredited university in a recognized content major (or with equivalent coursework) in a discipline taught in Utah secondary schools and for which UVU can recommend a secondary teaching license. Any coursework required by the Utah State Board of Education (USBE) for a content major* must be completed with a grade of C or higher prior to admission into the GCST program.
2. A cumulative GPA of 3.0 or a GPA of 3.0 for the last 60 credits of university coursework.
3. Passing scores from the Praxis II [subject-area test(s)] as required by the USBE.
4. Successful completion of a background check through USBE.

* Students will have completed a content-specific methods course prior to admission into the program. These courses are not offered in the School of Education, but in the appropriate content areas across the University. The following courses would be examples.

- ART 3500 Secondary Art Education Methods I (1.0)
- ART 3510 Secondary Art Education Methods II (3.0)
- ENGL 4210 Methods in Teaching Literacy I (3.0)
- ENGL 4220 Methods in Teaching Literacy II (3.0)
- ENGL 4230 Methods in Teaching Literacy III Teaching the Conventions of Writing (3.0)
- GEO 4200 Teaching Methods in Science (3.0)
- PHYS 4200 Teaching Methods in Science (3.0)
- CHEM 4200 Teaching Methods in Science (3.0)
- BIOL 4200 Teaching Methods in Science (3.0)
- LANG 4200 Methods of Teaching a Foreign Language (3.0)

Program Description

The Master of Social Work (MSW) is designed to educate and prepare students for a career at an advanced level in the social work profession. The MSW will prepare students to become a Licensed Clinical Social Worker (LCSW), qualifying them for a wider range of employment opportunities (mental health, medical social work, child welfare, etc.) working with various populations (children, adolescents, adults, elderly, disabled, etc.). The MSW program has three different specializations: Addictions, Mental Health, and Engaging with Diverse Populations, which will focus on the Latino, Polynesian, and Refugee communities. These areas of focus are projected to be significant areas of growth within the social work field over the next decade and beyond.

This dynamic, two year full-time program offers required courses in the areas of social work practice, human behavior and social environment, social welfare policy and analysis, social work with Latino, Pacific Islanders, and other Communities of Color, social work research methods, addictions, and a capstone course. Upon graduation, students will also completed approximately 1,000 hours of field practicum experience. The program offers elective tracks in addictions, mental health, and engaging with diverse populations.

Admission Requirements

Potential students must apply for admission into the program. To be accepted, students must have completed a Bachelor’s degree, preferably in Psychology, Social Work, or a related area. However, applicants who have a Bachelor’s degree in another field may be admitted to the program if they can demonstrate significant work or volunteer experience in the Human Services field. All applicants are required to complete SW 1010, BESC 3010, and BESC 3020 or equivalent courses outside of UVU.

Social Work Advanced Standing, M.S.W

44 Credits

The Master of Social Work (MSW) at UVU is designed to educate and prepare students for a career at the next level in the social work profession. The MSW will prepare students to become a Licensed Clinical Social Worker (LCSW) qualifying them for a wider range of employment opportunities (mental health, medical social work, child welfare, etc.) working with various populations (children, adolescents, adults, elderly, disabled, etc.). The MSW Program will have three different specializations: Mental Health, Addictions (including substance and nonsubstance addictions, i.e. pornography, gambling, painkillers, etc.), and Engaging with Diverse Populations.

### Social Work, M.S.W 64 Credits

The Master of Science in Nursing program prepares post-baccalaureate nursing students for advanced practice roles as nurse educators in academic settings and/or clinical nurse educators in healthcare institutions. The program includes core courses essential to master-level nursing programs as well as courses designed to prepare nurses to assume roles as academic nurse educators and/or clinical nurse educators. Program content focuses on theoretical foundations of nursing education and leadership; tests and measurements of learning outcomes; curriculum development, implementation and evaluation; and academic and clinical teaching. Program courses provide skills and strategies for facilitation of learning in a variety of settings.

Program Description

The Master of Public Service (MPS) degree at UVU develops the next generation of public service administrators. The MPS offers students an applied and engaging public sector education with broad based knowledge, skills, and abilities in public service administration. The interdisciplinary curriculum focuses on managing, leading, and administering vital public services and public safety functions with an emphasis on ethical considerations, communications, strategic planning, public policy issues, and research methods.

The MPS requires 36 semester hours of graduate course work; currently offered all online.

Admission Requirements

Bachelor degree holders with at least a 3.0 GPA cumulative or last 60 credit hours may apply. Potential students must apply for admission by completing the online MPS Graduate School Application. To be accepted, students must complete the following:

- Submit all official transcripts.
- Provide two letters of recommendation.
- Submit resume.
- Submit answer to essay questions.

Deadlines and current application requirements are posted on the MPS website; www.uvu.edu/mps

Public Service, M.P.S.  
36 Credits

The Master of Public Service at Utah Valley University is an applied inter-disciplinary professional master’s degree aimed at preparing public service administrators in emergency services and criminal justice. This graduate degree provides an in-depth education of the science and praxis of administering vital public services, public safety functions, ethical considerations, leadership, and strategic communications, along with issues in emergency management, civil security/resiliency, public works, transportation, critical infrastructure protection, post-disaster humanitarian response, pandemics, strategic planning, public health, and public policy issues.

Total Program Credits: 36
Graduate Studies

Matriculation Requirements:

1. A 3.0 cumulative GPA from the institution where the undergraduate degree was awarded or a 3.0 GPA calculated on the last 60 semester hours (90 quarter hours) from the institution where the undergraduate degree was awarded.

2. A bachelor's degree from a regionally-accredited college/university, a nationally accredited program, or an international college or university recognized by a Ministry of Education in one of the following or related fields:
   - Emergency Services
   - Criminal Justice/Law Enforcement, Forensic Science
   - Political Science
   - Public and Community Health
   - Aviation Science
   - Emergency Management/Homeland Security
   - Emergency Medical Services
   - Business Administration, Organizational Management
   - Environmental Science
   - Public Admin/Public Management
   - Social Science
   - Technology Management

3. Graduate School Application.

4. Official transcripts from all attended institutions of higher education.

5. Two letters of recommendation.

6. Admissions Essay

Discipline Core Requirements: 24 Credits

Careers:

A Master of Public Service (MPS) will prepare students from a variety of backgrounds (e.g., Criminal Justice, Emergency Services, Forensic Science, Aviation Science, Public and Community Health, Environmental Science, Public Works) for careers in the public sectors at the local, state, and/or national level. The core curriculum will educate the student in the functions/roles/responsibilities of government. Graduates will learn about leadership principles, management responsibilities, budgeting guidelines, and best practices in human resources.

Program courses provide skills and strategies for facilitation of learning in a variety of settings.

**Admission Requirements**

Acceptance into the MSN program will be based on information from the following:

- Baccalaureate degree in nursing from a program accredited by a recognized nursing accreditation agency.
- Current licensure as an RN in Utah or eligible for RN licensure in Utah.
- Completion of an undergraduate course in statistics to include descriptive and inferential statistics.
- Application for admission to the MSN program.
- Overall undergraduate GPA of 3.2 or higher, or GPA of 3.2 or higher in last 60 semester hours of undergraduate coursework.
- Three professional letters of recommendation

The Master of Science in Nursing program prepares post-baccalaureate nursing students for advanced practice roles as nurse educators in academic settings and/or clinical nurse educators in healthcare institutions. The program includes core courses essential to master-level nursing programs as well as courses designed to prepare nurses to assume roles as academic nurse educators and/or clinical nurse educators. Program content focuses on theoretical foundations of nursing education and leadership; tests and measurements of learning outcomes; curriculum development, implementation and evaluation; and academic and clinical teaching. Program courses provide skills and strategies for facilitation of learning in a variety of settings.

For each credit hour over 25, $292 per credit hour will be assessed for residents and $890 per credit hour for non-residents.

Careers:
Graduates of the UVU MSN program have the knowledge, skills and experience needed to educate nurses in academic and other professional settings. The program prepares registered nurses for advanced practice roles including nursing faculty in higher education, clinical nurse educators in healthcare institutions, and nursing leadership roles.

Program Description

The Master of Arts in Marriage and Family Therapy (MFT) trains students to be professionally competent in the field of marriage and family therapy. Through the application of systemic theories, skills, and ethics, students are prepared to serve a diverse client population. Students who successfully complete the program, including academic course work and supervised clinical practica, will be eligible for employment and licensure as an Associate Marriage and Family Therapist in the state of Utah.

Across a broad range of clinical employment settings, marriage and family therapists seek to improve the quality of life for individuals, couples, and families. The UVU Marriage and Family Therapy program emphasizes professional competence and stewardship within the local community. With an emphasis on systemic theories, clinical skills and professional ethics, the MFT program prepares graduates for licensure and employment in marriage and family therapy. The training of marriage and family therapy students champions inclusion and diversity through self-awareness and respect toward all people.

Admission Requirements

Potential students must apply for admission into the program. To be accepted, students must have completed a Bachelor’s degree, preferably in Family Studies, Psychology, Social Work, or a related area. However, applicants who have a Bachelor’s degree in another field may be admitted to the program if they can demonstrate significant work or volunteer experience in the Human Services field.

Program Description

The Master of Physician Assistant Studies (MPAS) program at UVU is a full-time, 28-month, year-round graduate program, consisting of 95 credit hours completed over 7 semesters. There are 15 months of didactic coursework and 13 months of rotations. A new cohort starts in January of each year. The curriculum structure is specially designed to prepare students with the knowledge, skills, and confidence to become competent PAs who demonstrate interpersonal and communication skills that result in more effective patient care.

Admission Requirements

1. Minimum Cumulative GPA (as determined by CASPA): 3.0 (on a 4.0 scale)
2. Minimum Science GPA (as determined by CASPA): 3.0 (on a 4.0 scale)
3. Minimum Prerequisite GPA: 3.0 (on a 4.0 scale)
4. Bachelor's degree or higher from a regionally accredited institution of higher education
5. Courses must have been taken in the last 10 years. AP credit is not accepted.
   - Microbiology with lab (4 credits)
   - General Biology with lab (4 credits)
   - Chemistry-lab may be included (8 credits)
   - Human Anatomy with lab (4 credits)
   - Human Physiology (4 credits)
   - Medical Terminology (2 credits)*Available online at UVU
6. 1000 hours minimum healthcare experience (direct patient care preferred)
7. PA shadowing is required. No minimum hours. Recommended to shadow a variety of PAs.
8. Three letters of recommendation in application through CASPA
9. Preferred: academic professor or advisor, medical provider, and supervisor
10. Deadlines and further information are available on the program website: www.uvu.edu/physicianassistant

Physician Assistant Studies, M.P.A.S.  

The Utah Valley University Master of Physician Assistant Studies is a two-year graduate level degree that prepares students to successfully pass the Physician Assistant National Certification Examination (PANCE). Using evidence-based medicine, engaged learning, and early patient-provider experiences, the program will reinforce team practice and patient advocacy/education that will result in excellent patient outcomes.

Through a comprehensive didactic and clinical curriculum, the program will train exceptional PAs that will not only be prepared to provide quality primary healthcare, but will be compassionate, culturally-sensitive, critical thinkers committed to their patients in an ever-changing and diverse population within their respective communities.

Matriculation Requirements:

A bachelor’s degree from an accredited U.S. institution is the basic requirement for admission into the program (with official transcripts from all institutions attended). The degree can be in any discipline, provided that the student meets the expected GPA and prerequisite coursework.

The minimum cumulative undergraduate GPA is a 3.0 on a 4.0 scale. The applicant must not have earned below a 2.0 on any pre-requisite coursework, although extenuating circumstance may be considered.

Pre-requisite Coursework:

- Microbiology with lab (4 credits)
- General Biology
- Chemistry (8 credits), lab may be included
- Human Anatomy with lab (4 credits)
- Human Physiology (4 credits)
- Medical Terminology

Note: pre-requisite coursework does not include AP courses and should not be older than seven years prior to application to the PA program. The science-based pre-requisites must be completed prior to the application deadline (November 1st).

CASPer Test

The CASPer Test is an examination which identifies characteristics of successful students. The exam can be taken at https://takecasper.com. Scores are reported upon completion of the exam.

Letters of Recommendation

A minimum of three letters of recommendation are required for the application process. Letters should not be from friends or relatives, but should come from a mix of current professors, current/prior employers, and one letter should be from a PA or a physician. Letters should be submitted directly through the CASPA system prior to the November 1st deadline (no exceptions).

UVU Graduate School Application

The UVU Graduate School Application is required for admission into the PA program. The application will be found on the UVU PA website and is due prior to the November 1st deadline.

Personal Interview
Graduate Studies

All candidates will be screened and those deemed to meet or exceed basic application requirements will be invited for an interview. This interview does not guarantee acceptance into the program as students will compete with all other applicants for matriculation into a cohort. Applicants must bring a photo ID to the interview.

Health Care Experience

A minimum of 1,200 hours of health care experience, which is at least six months full-time equivalent. Although this is a minimum for application, the national average for competitive applicants is between 4,000-5,000 patient contact hours. Hours may be projected to the deadline for early applicants, and applicants are encouraged to apply early.

All forms of health care experience* are considered toward the minimum requirement, with direct hands-on patient care experience being most preferred.

Health care hours are subject to verification; the program may contact supervisors to confirm reported hours. Paid experience is weighted more heavily than volunteer.

* Does not include administrative work in healthcare settings.

Other Determining Factors

- Prior work experience (health care preferred, but not required, may include medical scribe, radiology technician, emergency medical technician, paramedic, respiratory therapist, medical assistant, registered nurse, etc.)
- Shadowing opportunities (two are recommended)
- Demonstration of community service
- Level of maturity
- Honors, awards and other recognition
- Discipline for academic performance
- Conviction of misdemeanor or felony

### Graduation Requirements:

1. A minimum cumulative GPA of 3.0 must be maintained within the program.
2. Residency requirements for the Physician Assistant Studies is 100%. No transfer or advanced placement credit is accepted.

### Graduation Plan:

This graduation plan is a sample plan and is intended to be a guide. Your specific plan may differ based on your Math and English placement and/or transfer credits applied. You are encouraged to meet with an advisor and set up an individualized graduation plan in Wolverine Track.

Milestone courses (pre-requisites for a course in one of the subsequent semesters) are marked in red and italicized.

- **Advisor:** Shandi Erickson
Program Requirements
The Master of Computer Science (MCS) degree at Utah Valley University is an applied graduate program focused on preparing students to enter the local, national, and global workforce as leaders and innovators rather than focusing on preparing students to conduct basic research. An MCS degree is considered a professional degree as graduate students complete a graduate project rather than a theoretical or research-based thesis often associated with a Master of Science in Computer Science (MSCS) degree.

The focus of the degree does not mean you cannot explore exciting, cutting-edge new technologies; it just means we will focus your efforts on developing a working project that applies your new knowledge rather than focusing your efforts on basic research and writing papers on the topic. One should not assume that the degree's focus on completing a project means that the MCS does not value writing or presenting presentations. To be a workforce leader and innovator, you must be able to express highly technical and complex topics concisely and clearly. Developing your technical communication skills will always be a part of the MCS.

The MCS requires students to complete 30 hours of course work beyond their undergraduate degree to gain additional breadth and depth. To graduate, students have the option to either complete the Graduate Coursework Option or Graduate Project Option where they design and develop a large complex project from inception to completion. Students without an undergraduate degree in computer science who have a passion for the field are encouraged to apply. In such cases a student can be conditionally admitted while they complete an individualized leveling plan designed to bring their skills up to the required level to enter the MCS.

NOTE: Graduate policy precludes conditionally admitted students from taking any 6000 level courses. The UVU Computer Science Department cannot waive or alter this graduate policy.

Admission Requirements
The most desirable background for an MCS student is someone with an undergraduate degree in a computer-related field (Computer Science, Computer Engineering, Software Engineering, or a closely related field). The UVU Computer Science Department does not require nor does it use standardized test scores to evaluate the readiness of a candidate to begin the MCS. You will need an overall grade point average of 3.0 or higher on a 4.0 scale. Additionally, you will need to have completed the following UVU or equivalent classes with a C+ or better:
- CS 2300 Discrete Structures I
- CS 2420 Introduction to Algorithms and Data Structures
- CS 2810 Computer Organization and Architecture
- CS 3060 Operating Systems Theory
- MATH 1210 Calculus I

Graduate Studies

Master of Computer Science, M.C.S.  30 Credits

The Master of Computer Science (MCS) at Utah Valley University is an applied graduate program resulting in a professional degree. Students graduating with this degree will have a broad grounding in computer science as a discipline and be well equipped to take on leadership roles in a wide range of computing technology-related industries. Student education will be focused on developing software systems using current technologies while allowing them the freedom to explore and exploit new technologies to solve real-world problems. Students will be required to develop a broad base of competency by passing required courses in large scale implementation, applied mathematics computing, information management, and software engineering. Electives will allow a student to continue to add breadth to their education or allow them to focus on specific areas of computer science they find interesting or feel will best advance their professional objectives.

Matriculation Requirements:

1. Application for admission to the MCS will include letters of recommendation and a statement of purpose.
2. Applicants must have an overall grade point average in their undergraduate work of 3.0 or higher on a 4.0 scale.
3. For international students whose native language is not English, a TOEFL score of 80 iBT (550 pBT) or higher, or an IELTS band score of 6.5 or higher within the past two years, is required.
4. Applicants with a bachelor's degree in a computer-related field (Computer Science, Computer Engineering, Software Engineering, or a closely related field) who have completed the following courses (or equivalent courses from other institutions) with a C+ or better will be deemed to have the fundamental computer science background to enter the program:
   - CS 2300 Discrete Structures I
   - CS 2420 Introduction to Algorithms and Data Structures
   - CS 2810 Computer Organization and Architecture
   - CS 3060 Operating Systems Theory
   - MATH 1210 Calculus I
5. Applicants without a bachelor's degree in a computer-related field or who have not completed the above courses with a C+ will be deemed lacking in fundamental computer science background to enter the program.
6. Applicants found lacking in fundamental computer science background can be conditionally admitted to the MCS. Conditionally admitted students will have an individualized MCS Leveling Plan (MCS LP) developed for them by the Computer Science Graduate Committee. Once the MCS LP has been met by the applicant, the applicant will be deemed to have the fundamental computer science background to enter the program. Graduate policy precludes conditionally admitted students from taking 6000 level courses.
7. All applicants will be subject to the approval of the Computer Science Graduate Committee.

Discipline Core Requirements: 18 Credits

Graduation Requirements:
1. Completion of all courses with a grade of B- or better.
2. Graduate Project Option: Graduate project proposal presented to and accepted by the student's Advisory Committee.
3. Graduate Project Option: Completion and defense of graduate project (CS 6600 and CS 6610); defense must be accepted by the student's Advisory Committee.
4. Graduate Project Option: Completion of all required courses and elective courses for a total of 30 credit hours with an average GPA of 3.0 or higher.
5. Graduate Coursework Option: Completion of all required courses and elective courses (CS 6600 and CS 6610 do not count toward this option) for a total of 30 credit hours with an average GPA of 3.0 or higher.

**Graduation Plan:**

This graduation plan is a sample plan and is intended to be a guide. Your specific plan may differ based on your Math and English placement and/or transfer credits applied. You are encouraged to meet with an advisor and set up an individualized graduation plan in *Wolverine Track*.

Milestone courses (pre-requisites for a course in one of the subsequent semesters) are marked in red and italicized.

Program Description

For information about the Masters of Financial Planning and Analytics (MFPA) program, please access our website at www.uvu.edu/mfpa The MFPA offers rigorous graduate education in financial planning and financial analytics, including the opportunity to prepare for professional certifications, such as the Chartered Financial Analyst (CFA) and/or the Certified Financial Planner (CFP®) certifications.

The Master of Financial Planning and Analytics program offers students a foundation set of courses in financial planning and analytics as well as elective courses that allow students to dive deeper in a particular area of interest.

Program Prerequisites

Baccalaureate degree holders with both business and non-business majors may apply. To be successful, however, students need to have a strong background in math and finance. As such, students are required to have a B grade or higher in the following (or equivalent) courses:

<table>
<thead>
<tr>

</table>

Application Process

Deadlines and current application requirements are posted on the website, www.uvu.edu/mfpa Applicants must submit all of the following to the Woodbury School of Business:

**Application** – Complete online at www.uvu.edu/mfpa and pay the $45 application fee. After submitting the application fee, applicants will access their account and select **Supplemental Items** to complete the additional requirements listed below.

- **Recommendations** - List the name and email address of three individuals who will be sent a link to submit their recommendation.
- **Essays** - Submit responses for two essay questions of 400 words each
- **Resume** - Attach current resume which highlights educational background and professional work experience.
- **College Transcripts** - After the application fee has been paid, request official transcripts to be sent to etranscripts@uvu.edu. Transcripts will be evaluated based on cumulative GPA or last 60 semester credits.

**Application Deadlines**

Submit your online application in accordance with the application requirements by one of the following review deadlines:

**Fall 2020 Priority review deadline is January 31, 2020**

After the priority review deadline, we will review applications according to the following deadlines:

**1st Review: February 28, 2020**

**2nd Review: March 31, 2020**

Please note that beyond the stated deadlines above, applications will be accepted on a rolling basis until the program is full. However, we cannot not guarantee there will be spots available after the priority review deadline. It is always best to apply earlier rather than later.

**Reapplication**

If an applicant is not admitted, he/she may reapply again at a later time. All current admission requirements at the time of application must be met.

**Satisfactory Progress**

Continuation in the Master of Financial Planning and Analytics program is determined by: (1) satisfactory progress (C or higher) in all courses (completed courses with a grade lower than a C must be repeated) and (2) faculty committee chair and the graduate admission and retention committee recommendation.

**Academic Probation**
A student can be recommended for academic probation for the following reason(s): (1) Failure to meet the scholarship requirements of the Graduate Program of an overall GPA of 3.00 (on a 4.00 scale) or higher, with no individual course grade lower than C; (2) Failure to complete prescribed courses; and/or (3) Failure to adhere to University student rights and responsibilities standards.

Dismissal from the Program

A student can be dismissed from the Master of Financial Planning and Analytics program for the following reason(s):

1. Academic dishonesty;
2. Continued failure to meet academic standards; and/or
3. Continued failure to adhere to University student rights and responsibilities standards.

Financial Planning and Analytics, M.F.P.A. 36 Credits

The Master of Financial Planning and Analytics (FPA) prepares students for professional positions in financial planning and analytics including an industry accreditation along with the master’s degree. PFP undergraduates will study advanced levels of financial planning, retirement/estate planning, technology applications, preparation for Chartered Financial Analysis (CFA) accreditation, and other research and professional development. Another group of students without PFP undergraduate experience will pursue graduate education in the required topics for successfully completing the CFP Board requirements to sit for the examination including retirement, estate, income tax, wealth, and a capstone experience.

The second track candidates will also be required to complete pre-requisite courses in introduction to financial planning, risk management and insurance, and investment management basics.

Matriculation Requirements:

Students taking the CFP Track must complete the following three undergraduate courses at UVU or at a CFP Board approved program prior to being admitted to this Master of Financial Planning and Analytics program:

- FIN 3060 Introduction to the PFP Profession
- FIN 3220 Risk Management and Insurance
- FIN 3400 Investment Management

Any substitution for any of the above three UVU undergraduate courses would need to be pre-approved by the Director of the UVU Master of Financial Planning and Analytics program. The three courses outlined above and the four (excluding FIN 6700 CFP Exam Preparation) outlined in the CFP track are required for an individual to be eligible to take the CFP Exam.
Graduate Studies

Discipline Core: 36 Credits

Complete the following Core classes

Graduation Requirements:

1. Completion of 36 hours of approved credit as described in this program with no grade lower than a "C".
2. Maintain a minimum cumulative graduate GPA of 3.0 or higher to graduate with the degree.
3. Graduates may not transfer more than ten semester credit hours into this Masters of FPA program. Only transfer courses approved by the graduate program faculty designated by the FPA graduate program director shall be counted as approved credit for the degree.

Graduation Plan:

This graduation plan is a sample plan and is intended to be a guide. Your specific plan may differ based on your Math and English placement and/or transfer credits applied. You are encouraged to meet with an advisor and set up an individualized graduation plan in Wolverine Track.

Milestone courses (pre-requisites for a course in one of the subsequent semesters) are marked in red and italicized.

ANDRADE, Maureen (2018); Professor. Faculty, Organizational Leadership; B.A., English, Brigham Young University - Provo; M.A., English, University of Utah; Ed.D., Higher Education Leadership, University of Southern California, Los Angeles.

ANDRIST, Kathryn (2001); Professor. Faculty, Mathematics; B.S., M.S., Ph.D., Mathematics, Brigham Young University.

ARENDE, Anne (2018); Associate Professor. Department Chair and Faculty, Technology Management; B.A., University of Minnesota; M.S., Walden University, M.B.A. Information Systems, University of Minnesota Carlson School; EdD, Utah State University.

AROCHO, Rachel (2019); Assistant Professor. Faculty, Behavioral Science; B.S., Family, Consumer and Human Development, Utah State University, M.S., Ph.D., Human Development and Family Science, The Ohio State University.

ASHCRAFT, Carrie (2018); Lecturer. Faculty, Secondary Education; B.A., English, Boise State University; M.Ed., Education, Westminster College.

ASHMAN, Marinda (2007); Associate Professor. Department Chair and Faculty, Student Leadership & Success Studies; B.S., Elementary Education, Brigham Young University; M.Ed., Health, Physical Education & Recreation, Utah State University.

AUSTIN, Brent (2018); Lecturer. Faculty, Communication; A.A. Liberal Studies, College of the Desert, B.A., Communication Studies, M.A., Communication Studies, California State University, San Bernardino.

B

BALLARD, Matthew (2020); Assistant Professor. Faculty, Engineering; B.S. Mechanical Engineering, Brigham Young University; M.S., Ph.D., Mechanical Engineering, Georgia Institute of Technology.

BRADY, Jane (2020); Lecturer. Faculty, English & Literature; B.A., M.A. English, Brigham Young University - Provo.

BOYD, Tara (2019); Lecturer. Faculty, Dance; B.A., Dance, Brigham Young University.

BROWN, Erin (2019); Lecturer. Faculty, Dance; M.F.A., Dance, University of Utah.

BACKUS, Ellen (2002); Associate Professor. Faculty, Developmental Mathematics; A.A., General Education, B.A., Math Education, M.A., Mathematics, Brigham Young University.

BAGLEY, Katie (2013); Associate Professor. Faculty, Nursing; A.S.N., B.S., Nursing, Utah Valley University; M.S.N., Teaching Nursing, University of Utah.

BAILEY, James (2009); Professor. Faculty, Accounting; B.S., Finance, Brigham Young University; B.S., Accounting, M.B.A., University of Utah; Ph.D., Business (Accountancy), University of Nebraska-Lincoln.

BAILEY, Brooke (2014); Lecturer. Faculty, English Language Learning; B.A., Linguistics, Brigham Young University; M.Ed., ESL Curriculum & Instruction, Concordia University.
BAIRD, Kellan (1998); Associate Professor. Faculty, Construction Technology, A.S., General Studies, Ricks College; B.S., Industrial Education, Brigham Young University.

BALL, Kamilyn (2018); Professional in Residence. Faculty, Accounting; B.S., Accounting, Utah State University; M.Acc., Accounting, University of Washington.

BALL, Nicholas (2014); Associate Professor. Faculty, Information Systems & Technology; B.A., Finance, M.B.A., Idaho State University; Ph.D., Information & Decision Sciences, University of Minnesota.

BALLARD, Jessica (2018); Professional in Residence. Faculty, Organizational Leadership; B.A., Communication, M.P.C., Professional Communication, Westminster College.

BALLARD, Michael B. (2019); Assistant Professor. Faculty, Languages and Cultures; B.A., Communication, University of Colorado; M.A., Communication & Leadership, Gonzaga University; Ph.D., Educational Leadership, Drake University.

BANCHERO-KELLEHER, Angela (2006); Professor. Faculty, Dance; B.A., History; M.F.A., Dance, University of Utah.

BARBER, Melinda (2019); Assistant Professor. Faculty, Public and Community Health; B.S., School Health Education, Utah Valley University; M.Sc., Health Promotion & Education, University of Utah.

BARKER, David (2015); Assistant Professor. Faculty, Architecture and Design; A.S., Pre-Architecture, Ricks College; B.S., Architecture, M-Arch, University of Utah.

BARTHEL, Brian (1998); Associate Professor. Faculty, Public & Community Health; B.S., M.S., Health Science/Community Health, Brigham Young University; Ph.D., Health Education, Southern Illinois University.

BARTHLOM E, Aaron (2007); Associate Professor. Faculty, Accounting; B.A., Communication, J.D., Brigham Young University.

BARTHLOME, Kimberly (1994); Professor. Faculty, Information Systems & Technology; B.S., M.S., Computer Science, Brigham Young University; Ph.D., Computer Technology in Education, Nova Southeastern University.

BAYER, Virginia (2000); Associate Professor, Faculty and Biology; B.S., Biological Science, B.A., Classical Languages, University of California, Irvine; Ph.D., Medical Sciences-Neuroscience, Cornell University Graduate School of Medical Science; D.V.M., Cornell University College of Veterinary Medicine.

BEAN, Paul (1997); Associate Professor. Faculty, Transportation Technologies; B.S., Industrial Education, Brigham Young University; M.Ed., Instructional Technology, Utah State University.

BEENE, Lara (2014); Assistant Professor. Faculty, Theatre Arts for Stage & Screen; B.A., Theater Arts, Brigham Young University; M.F.A., Costume Design, Brigham Young University.

BEMEL, James (2010); Associate Professor. Faculty, Public & Community Health; B.S., Health Promotion, Weber State University; M.S., Public Health/Health Services Administration, Ph.D., Health Promotion & Education, University of Utah.

BENACQUISTA, Jane (2019); Lecturer. Faculty, English & Literature; B.A., Liberal Arts, St. John's College, M.A., Ph.D., English/Literature, University of Arizona.

BENDER, Melinda (1998); Professor. Faculty, Literacies & Composition; B.S., Speech Communication, M.A.I.S., Communication and Human Development, Oregon State University.

BENN ETT, Lyn (1996); Professor. Faculty, History & Political Science; B.A., History, B.A., Anthropology, M.S.E., Curriculum and Instruction, Ph.D., History, University of Kansas.

BENN ETT, Sean (2010); Associate Professor. Faculty, Nursing; M.S., Nursing, University of Phoenix.

BENSON, David (2019); Lecturer. Faculty, Marketing; B.S., Accounting, Brigham Young University; M.B.A., Business Administration, University of Michigan; Ph.D., Strategy and Entrepreneurship, University of Michigan.

BENTLEY, Jan (1999); Associate Professor. Faculty, Information Systems & Technology; A.S., Clerical Office Training, Ricks, College; B.S., Marketing and Distribution Education, Brigham Young University; M.S., Business Information Systems and Education, Utah State University.

BERGE, Nichole (2020); Lecturer. Faculty, Emergency Services; B.S., Emergency Services Administration, M.P.S., Public Service, Utah Valley University.

BETTRIDGE, Amy (2013); Lecturer. Faculty, Marketing; B.A., International Relations, Brigham Young University; M.S., Business, Utah State University.

BEUCHER, Margaret (2018); Lecturer. Faculty, Biology; B.S., Biology, Mercyhurst College, Ph.D., Genetics, University of North Carolina School of Medicine.

BEZZANT, Howard (2008); Associate Professor. Faculty, Architecture and Engineering Design; A.A.S., Drafting and Design Technology, Utah Technical College; B.S., Technology and Industrial Education, Utah State University; M.Ed., Instructional Technology and Learning Sciences.

BHATTACHARJEE, Debanjan (2011); Associate Professor. Faculty, Mathematics; B.S., M.S., Statistics, University of Calcutta; Ph.D., Statistics, University of Connecticut.

BI, Rachel (2014); Associate Professor. Faculty, Finance & Economics; B.S., Management of Information Systems, Dalian Maritime University; M.S., Personal Financial Planning; M.B.A., Finance; Ph.D., Texas Tech University.

BIBBY, Andrew (2015); Assistant Professor. Faculty, History & Political Science; B.A., Honors English, Concordia University; Ph.D., Political Science, Michigan State University.

BIRCH, Brian (1999); Professor. Faculty, Philosophy & Humanities; B.S., Philosophy, University of Utah; Ph.D., Philosophy of Religion & Theology, Claremont Graduate University.

BIRD, Tyler (2015); Assistant Professor. Department Chair and Faculty, Engineering Technology; A.A.S., Electrical and Automation, Utah Valley University; B.S., Electrical Engineering, Brigham Young University; M.Engr., Electrical Engineering, University of Idaho.

BLEVINS, Maria (2013); Associate Professor. Faculty, Communication; B.S., Recreation Management, University of Maine at Machias; M.A., Organizational Communications, University of Montana; Ph.D., Speech Communication, University of Utah.

BODEN, Jeremy (2010); Associate Professor. Faculty, Behavioral Science; B.S., Psychology, Brigham Young University; M.S., Marriage and Family Therapy, Loma Linda University; Ph.D., Human Development & Family Studies, Texas Tech University.

BOGGESS, Cris (1999); Associate Professor. Faculty, Transportation Technologies; A.A.S., Collision Repair Technology, Utah Valley University.

BOHL, Dean (2001); Associate Professor. Faculty, Transportation Technologies; A.A.S., Diesel Equipment Technology, Utah Valley State College.

BOHNE, Michael (2007); Professor. Department Chair and Faculty, Exercise Science & Outdoor Recreation; B.S., Physical Education, M.S., Exercise Science, Utah State University; Ph.D., Sport & Exercise Science, University of Northern Colorado.

BOND, Calvin (2001); Associate Professor. Faculty, Chemistry; B.S., Chemistry, Ph.D., Environmental and Analytical Chemistry, University of Maryland.

BONE, Kirstin (2019); Lecturer. Faculty, English & Literature; B.S., Shakespeare Studies, Southern Utah University; M.A., Renaissance Studies, University of Alabama; Ph.D., Composition/Rhetoric, University of Alabama.

BORCHELT, Mark (2008); Associate Professor. Faculty, Dance; B.S., Psychology (Magna Cum Laude), M.F.A., Ballet, University of Utah.

BORDELOM, Amanda (2018); Associate Professor. Faculty, Engineering; B.S., M.S., Ph.D., Civil & Environmental Engineering, University of Illinois at Urbana-Champaign.

BORN S, Renee (2011); Associate Professor. Faculty, Student Leadership & Success Studies; B.A., Public Administration, University of Central Florida; M.S., Higher Education Administration, Florida State University; Ph.D., Higher Education Administration, Bowling Green State University.

BOTT, Laurie (2011); Professional in Residence. Faculty, Marketing; B.S., Communications, Utah Valley University; M.B.A., Business Administration, Utah Valley University.

BOYER, Bret (2007); Associate Professor. Faculty, Exercise Science & Outdoor Recreation; B.S., Sports Medicine, M.A., Health, Brigham Young University; D.P.T., Physical Therapy, Creighton University.

BRACKEN, Mark (1997); Associate Professor. Faculty, Biology; B.S Zoology, Emphasis in Physiology; Ph.D., Exercise Physiology, Brigham Young University.

BRADFORD, Joel (1993); Associate Professor. Faculty, Earth Science; B.S., Vocational Education, Southern Illinois University; M.S., Cultural Anthropology, University of Utah.

BRADSHAW, James (2013); Lecturer. Faculty, Biology; B.S., Biochemistry & Cell Biology, University of California-San Diego; Ph.D., Physiology & Developmental Biology, Brigham Young University.
BRADSHAW, Laurel (2012); Associate Professor. Faculty, Nursing; B.S., Nursing, Brigham Young University; M.S.N., Nursing, Utah Valley University; DNP, University of Health Professions.

BRANDT, Lori Lynn (2009); Associate Professor. Faculty, Elementary Education; B.S., Elementary Education, M.Ed., Reading and Literacy, Brigham Young University; Ph.D., Curriculum and Instruction, Utah State University.

BRETON, Brett (2015); Assistant Professor. Faculty, Behavioral Science; A.S., Aviation & Air Traffic Control, Mount San Antonio College; B.S., Psychology, M.S., Counseling & School Psychology, Ph.D., Psychology, Brigham Young University.

BRETZ, Thomas (2016); Assistant Professor. Faculty, Philosophy & Humanities; B.A., Philosophy/Ethics, Dresden University of Technology; M.A., Philosophy, The New School for Social Research; Ph.D., Philosophy, Loyola University.

BRINKERHOFF, Mary (2008); Associate Professor. Faculty, Developmental Mathematics; B.S., Mathematics, Weber State University; M.S., Mathematics, University of Utah.

BRINKERHOFF, Colin (2018); Lecturer. Faculty, Mathematics; B.S., Mathematics, Brigham Young University - Provo; M.S., Mathematics, Brigham Young University.

BRISCOE, Gregory (2002); Associate Professor. Faculty, Languages & Cultures; B.A., Spanish, Utah State University; M.A., Spanish, University of California, Berkeley, Ph.D., Spanish, University of Pennsylvania.

BROOKS, Lauren (2018); Assistant Professor. Faculty, Biology; B.S., Environmental Science, Marshall University; M.S., Environmental Science, Yale School of Forestry & Environmental Studies, Ph.D, Microbiology, Oregon State University.

BROOME, Rodger (2010); Associate Professor. Faculty, Emergency Services; A.S., Psychology, B.S., Psychology, Utah Valley University; M.A., Ph.D., Psychology, Saybrook University.

BROWN, Clayton (2006); Associate Professor. Faculty, Developmental Mathematics; B.A., Mathematics Education, Brigham Young University; M.A., Teachers of Mathematics, Central Washington University.

BROWN, Kim (2008); Associate Professor. Department Chair and Faculty. Digital Media; B.S., Business Education/Administrative Systems, M.Ed., Instructional Technology, Utah State University.

BROWN, Marc (2014); Professional in Residence. Faculty, Organizational Leadership; A.S., Business Management, Utah Valley University; B.A., Management, M.B.A., Finance & Accounting, University of Utah.

BROWN, Mary (2006); Professor. Department Chair and Faculty. Public & Community Health; B.S., M.S., Community Health, Brigham Young University; Ph.D., Health Promotion & Education, University of Utah.

BRUNGER, Candice (2017); Assistant Professor. Faculty, Nursing; A.D.N., Nursing, Utah Valley University; B.S.N., Nursing, Brigham Young University-Idaho; M.S.N., Nursing, Weber State University.

BULE, Steve (1999); Professor. Faculty, Art & Design; B.A., Italian & Art History, Brigham Young University; Ph.D., Art History, Ohio State University.

BUNDS, Michael (2001); Professor. Faculty, Earth Science; B.A., Geological Sciences, University of California, Santa Barbara; M.S., Geology, University of California, Davis; Ph.D., Geology (Geochemistry, Structural Geology), University of Utah.

BURTON, Cami (2018); Lecturer. Faculty, Secondary Education; A.S., General Academics, Utah Valley University; B.S., M.S., Special Education, Brigham Young University - Provo.

BYBEE, Paul (1994); Professor. Faculty, Biology; A.S., General Science, B.S., Zoology/Botany/Geology, Weber State University; M.S., Ecology, Ph.D., Zoology (Comparative Evolutionary Biology, Vertebrate Paleontology), Brigham Young University.

BYRD, Elaine (1992); Professor. Faculty, Elementary Education; B.S., Social Work, Ed.D., Teacher Education/Literacy, Brigham Young University; M.A., Education/Reading Specialist, Hood College, Maryland.

BYRNEs, Andrew (2008); Professor. Faculty, Emergency Services; A.A.S., Fire Science, B.S., Public Emergency Services Management, Utah Valley University; M.Ed., Instructional Technology, Utah State University.

C

CHERRINGTON, Mark (2018); Professional in Residence. Faculty, Finance and Economics; B.S., Business Management, M.B.A., Finance, Brigham Young University.

CADET, Eddy (1993); Associate Professor. Faculty, Earth Science; B.S., Biology, University of Illinois; M.S., Environmental Sciences, Ph.D., Integrative Biological Sciences, Tuskegee University; Licensed Environmental Health Scientist (Utah); Registered Environmental Health Specialist (REHS).

CAKA, Fern (2001); Associate Professor. Department Chair and Faculty. Chemistry; B.A., Chemistry, M.S., Ph.D., Analytical Chemistry, Brigham Young University.

CALDIERO, Alex (2002); Senior Artist in Residence. Faculty, Philosophy & Humanities; Artist in Residence/No degree

CALISKAN, Cenk (2009); Associate Professor. Faculty, Strategic Management & Operations; B.S., Industrial Engineering, Bilkent University; M.S., Ph.D., Industrial and Systems Engineering, University of Southern California.

CALL, Jennifer (2018); Lecturer. Faculty, Secondary Education; A.A.S., Family Science, Brigham Young University - Idaho; B.S., Interdisciplinary Studies, Texas A & M University; M.S., Low Incidence Disabilities & Autism, Sam Houston State University.

CALLISON, James (1994); Associate Professor. Faculty, Earth Science; B.S., Biology, Southern Utah University; M.S., Range Science, Brigham Young University; Ph.D., Watershed Management, University of Arizona.

CAMMACK, Susanne (2019); Lecturer. Faculty, English & Literature; B.S., English, Brigham Young University - Idaho; M.A., Irish Studies, National University of Ireland; M.A., English, Boise State University; Ph.D., English, Southern Illinois University - Carbondale.

CAMPBELL, Monica (2010); Associate Professor. Faculty, Dance; B.F.A., M.F.A., Modern Dance, University of Utah.

CARD, Arlen (2009); Associate Professor. Faculty, Digital Media; B.M.A., M.M., Music Composition and Theory, Brigham Young University; J.D., J. Reuben Clark Law School.

CARLSON, Jane (2013); Assistant Professor. Faculty, Secondary Education; B.S., Elementary/Secondary Education, Keene State College; M.A., Psychology, SUNY at Stony Brook; Ph.D., Clinical Psychology, SUNY at Stony Brook.

CARNEY, Rob (1997); Professor. Faculty, English & Literature; B.A., English, Pacific Lutheran University; M.F.A., Creative Writing-Poetry, Eastern Washington University; Ph.D., English, University of Louisiana - Lafayette.

CARTER, Angie (2010); Senior Lecturer. Faculty, English & Literature; B.A., M.A., English, Brigham Young University; Ph.D., Composition and Applied Linguistics, Indiana University of Pennsylvania.

CHADWICK, Tyler (2018); Lecturer. Faculty, English & Literature; B.S., English, Weber State University; M.S., English, National University; Ph.D., English Teaching, Idaho State University.

CHAKRAVARTY, Debjani (2015); Associate Professor. Faculty, Behavioral Science; B.Com, Accountancy & Business Economics, University of Calcutta; M.A., M.Phi., Sociology, University of Purdue; Ph.D., Gender Studies, Arizona State University.

CHAMBERLAIN, Cory (2008); Associate Professor. Faculty, Aviation Science; A.A.S., Aviation Maintenance Technology, Utah Technical College; B.S., Psychology, University of Utah; Master of Aeronautical Science, Embry-Riddle Aeronautical University.

CHAMBERLAND, Stephen (2015); Associate Professor. Faculty, Chemistry; B.S., Biochemistry, Boston College; Ph.D., Organic Chemistry, University of California, Irvine.

CHAN, Leo (2008); Associate Professor. Faculty, Finance & Economics; B.A., Ph.D., Economics, University of Kansas.

CHANG, Kuo-Liang (2011); Associate Professor. Faculty, Developmental Mathematics; B.B.A., Information Management, M.A., Philosophy, Fu-Jen Catholic University; Taiwan; M.S., Applied Math, Ph.D., Math Education, Michigan State University.

CHAPMAN, Jared (2011); Associate Professor. Faculty, Organizational Leadership; B.A., Recreational Management & Youth Leadership, M.B.A., Ph.D., Applied Social Psychology, Brigham Young University; M.S., Instructional Technology, Utah State University.
Administration and Faculty

Educational Leadership, Northern Arizona University; Ed.D., Curriculum & Instruction, University of Montana

DOMYAN, Eric (2015); Assistant Professor. Faculty, Biology; B.S., Biology, M.Ed., Education, Ohio State University; Ph.D., Philosophy, University of Wisconsin-Madison.

DONOHUE, Sarah (2015); Assistant Professor. Faculty, Dance; B.F.A., Dance, University of Arizona; M.F.A., Modern Dance, University of Utah.

DRAPER, Matthew (2008); Professor. Faculty. Behavioral Science; B.S., Psychology, Brigham Young University; M.A., Counseling, Ph.D., Counseling Psychology, University of Texas at Austin.

DRAPER, Shane (2018); Assistant Professor. Faculty, Exercise Science & Outdoor Recreation; B.S., Recreation Management and Youth Leadership, Brigham Young University; M.Ed., Exercise Science, Cleveland State University, Ph.D., Exercise Physiology, Kent State University.

DRAPER, Christian (2010); Assistant Professor. Faculty, Physics; B.S., Physics/Astronomy, M.S., Physics, Brigham Young University.

DUFFIN, Matthew (2008); Associate Professor. Faculty. Criminal Justice/Law Enforcement; B.S., Business Management, J.D., Brigham Young University; LL.M., Military/International Contracts Law, United States Army Judge Advocate General's School.

DULIN, John (2018); Assistant Professor. Faculty, Behavioral Science; B.S., Social Work, Brigham Young University, M.A., Cultural Anthropology, M.S.C., Anthropology of Learning, London School of Economics & Political Science, Ph.D., Anthropology, University of California, San Diego.

DUNN, Paul (2018); Assistant Professor. Faculty, Biology; B.S., Integrative Biology, Brigham Young University, Ph.D., Biology, University of Oregon.

DURFEE, Dallin (2019); Assistant Professor. Faculty, Physics; B.S., Physics, Brigham Young University; Ph.D., Massachusetts Institute of Technology.

DURNLEY, Brian (2001); Associate Professor. Faculty, Computer Science; B.S., Computer Science, University of Utah; M.S., Computer Science, Stanford University; Ph.D., Computer Science, University of Oregon.

DUTTAGUPTA, Chitralekha (2008); Associate Professor. Faculty, Literacies & Composition; B.A., English, Calcutta University; M.A., English, Jadavpur University; MTESL (Master’s in Teaching English as a Second Language), Ph.D., Rhetoric/Composition and Linguistics, Arizona State University.

E

ECKTON, Darin (2011); Associate Professor. Department Chair and Faculty, Student Leadership & Success Studies; B.A., Spanish Teaching/Physical Education Coaching, M.S., Sociology, Ed.D., Educational Leadership & Foundations, Brigham Young University.

EGAN, Ashley (2019); Assistant Professor. Faculty, Biology; B.S., Biology, Utah State University; Ph.D., Microbiology/Molecular Biology, Brigham Young University - Provo.

EGGERTSEN, Lars (2008); Associate Professor. Faculty, Behavioral Science; B.S., Family Science, Brigham Young University; M.S.W., Loma Linda University; Ph.D., Social Work, University of Utah.

EL SAID, Mohammed (2009); Professor. Faculty, Strategic Management & Operations; B.Sc., Applied Mathematics and Education, M.A., Applied Mathematics and Psychology, B.Sc., Pure Mathematics, The University of Tanta; M.Sc., Mathematical Statistics, University of Iowa; Ph.D., Mathematics, University of Memphis; Management Development Program Certificate, Harvard Graduate School of Education, Harvard University.

ELBERT, Mike (2019); Assistant Professor. Faculty, Engineering Technology; B.S., Electrical Engineering, University of Alaska, Fairbanks; M.S., Engineering Management, Michigan Technological University.

ELDREDGE, Bryan (1998); Professor. Faculty, Languages & Cultures; B.A., English, M.A., Linguistics, Brigham Young University; Ph.D., Linguistic Anthropology, University of Iowa.

ELEM, Reid (2015); Assistant Professor. Faculty, Art & Design; B.A., Computer Art, State University of New York at Oneonta; M.F.A., Photography, Savannah College of Art & Design.

ENGLAND, Lynn (2007); Lecturer. Faculty, History & Political Science; B.A., M.A., Philosophy, University of Utah; Ph.D., Sociology, University of Pittsburgh.

ENGLEHARDT, Elaine (1980); Distinguished Professor. Faculty, Philosophy & Humanities; B.A., Journalism, M.A., Communications, Brigham Young University; Ph.D., Communications, University of Utah.

ENSIGN, Allison (2019); Assistant Professor. Faculty, Nursing; B.S.N., Nursing, Graceland University; AND, Nursing, Northwestern Michigan College, M.S.N., Nursing, Graceland University.

ERDMANN, DeWayne (1999); Associate Professor. Faculty, Construction Technologies; B.S., Industrial Education, Brigham Young University.

ESCALANTE, Debra (2009); Associate Professor. Faculty, Early Childhood Education; B.A., Theatre and Cinematic Arts, M.A., Theatre, Brigham Young University; Ph.D., Instructional Technology, Utah State University.

ESKELSON, Max (2017); Assistant Professor. Faculty, Allied Health; B.B.A., Business Administration, Salt Lake Community College; M.H.C.A., Health Care Administration, University of Phoenix.

ESMAY, Rodney (2003); Professor. Faculty, Digital Media; B.S., Art, Brigham Young University; M.F.A., Illustration, Syracuse University.

EVJEN, Benjamin (2016); Assistant Professor. Faculty, Art & Design; B.F.A., Graphic Design, Utah State University; M.F.A., Design & Visual Communications, Commonwealth University.

EYRAUD, Kevin (2001); Associate Professor. Faculty, English Language Learning; B.A., Spanish, B.A., Liberal Arts and Sciences, Utah State University; M.A., Teaching English as a Second Language, Northern Arizona University; Ph.D., Education, Cultural & Society, University of Utah.

F

FLANAGAN, Suzan (2020); Assistant Professor. Faculty, English & Literature; A.A.S., General Studies, B.A., Communication Studies, University of Maryland; M.A., English, Technical/Professional Communication, Ph.D., Rhetoric, Writing/Professional Communication, East Carolina University.

FAIRBANKS, Daniel (2019); Professor. Faculty, Biology; B.S., Portuguese & Agriculture, Brigham Young University - Provo, M.S., Plant Breeding, University of Minnesota, Ph.D., Agronomy & Plant Genetics, University of Arizona.

FAIRBANKS, Donna (2005); Professor. Faculty and Faculty, Music; B.M., Violin Performance, Brigham Young University; M.M., Violin Performance, University of Rochester New York; D.M.A., Violin Performance, University of Arizona, Tucson.

FALLIS, Diana (1998); Associate Professor. Faculty, Culinary Arts Institute; A.A.S., Culinary Arts, Utah Valley University.

FARNWORTH, Xanthe (2016); Lecturer. Faculty, Marketing; B.A., English, M.A., Rhetoric & Communication, Brigham Young University.

FAUROT, Vivienne (2009); Associate Professor. Faculty, Mathematics; B.A., Mathematics, University of California; M.S., Mathematics, California Polytechnic State University, Ph.D., Curriculum and Instruction, University of Oregon.

FAWCETT, Elizabeth (2018); Assistant Professor. Faculty, Behavioral Science; B.S., Psychology, M.S., Marriage & Family Therapy, Ph.D., Marriage, Family & Human Development, Brigham Young University - Provo.

FEARNEY, David (2000); Professor. Faculty, Mathematics; B.S., M.S., Ph.D., Mathematics, University of Oxford.

FEDECKZKO, Wioleta (2011); Associate Professor. Faculty, English & Literature; B.A., English, University of Idaho; M.S., English, Towson University; Ph.D., English, Miami University.

FERREIRA, Debora (2001); Professor. Faculty, Languages & Cultures; B.A., Language and Literature, Universidade Federal de Pernambuco, Recife, Brazil; M.A., Ph.D., Romance Languages, University of Georgia.

FISHER, James (2014); Lecturer. Faculty, Communication; B.S., University Studies, University of New Mexico; M.A., Journalism, University of Missouri-Columbia; Ph.D. (ABD), Journalism, University of Utah.

FISHER, John (2010); Professor. Faculty, Emergency Services; B.A., French and Journalism, M.A., Communications, Brigham Young University; Ph.D., Educational Administration, University of Alberta.

FLINT, Matthew (2010); Associate Professor. Faculty, Public & Community Health; B.S., Spanish, Brigham Young University, M.H.Ed., Brigham Young University; Ph.D., Health Education/Health Promotion, Oregon State University.

FLOOD, Sara (2015); Associate Professor. Faculty, Biology; B.S., Biology, The University of Guelph, Ontario, Canada; M.For.Sd., Ph.D., Anatomy, Physiology, Biology, The University of Western Australia;
FRAME, David (2018); Assistant Professor. Faculty, Engineering Technology; B.S.EET, Purdue University; Electronic Engineering, A.S., Electronics/Robotics, Vincennes University, M.S. Technology, Computer Systems, Arizona State University.

FRANCOM, Kenneth (2017); Assistant Professor. Faculty, Culinary Arts; A.A.S., Culinary Arts, Utah Valley University; B.A., Business Management, Brigham Young University - Provo.

FRANZ, Reinhard (2014); Associate Professor. Faculty, Mathematics; B.S., M.S., Ph.D., Mathematics, Universität Bielefeld.

FRAUGHTON, Travis (2016); Lecturer. Faculty, Engineering Technology; A.A.S., Electrical Automation & Robotic Technology, Utah Valley Community College.

FITZ, Julann (2017); Lecturer. Faculty, Communication; B.A., Studio Art/Art History, Washington & Jefferson College; M.S., Communication/Public Relations, Syracuse University.

FRY, Gareth (2015); Assistant Professor. Faculty, Art & Design; B.A., Graphic Design, Surrey Institute of Art & Design.

FULLMER, Howard (2010); Associate Professor. Faculty, Art & Design; B.F.A., Illustration, Brigham Young University; M.F.A., Vermont College.

FULLMER, Stephen (1996); Associate Professor. Faculty, English & Literature; A.S., English, Utah Valley State College; B.A., M.A., English, Brigham Young University; Ph.D., Leadership & Organizational Change, Brigham Young University.

G

GRECU, Natalie (2020); Assistant Professor. Faculty, Communication; B.A., Communication/Advertising, Purdue University; M.A., Organizational Communication, University of Colorado-Boulder; Ph.D., Strategic Communication/Public Relations, Washington State University.

GALE, Nathan (2015); Assistant Professor. Faculty, English & Literature; B.A., Texas State University; M.A., University of Northern Iowa; Ph.D., Rhetoric & Writing, University of Texas at Arlington.

GARCIA, Elena (2013); Associate Professor. Faculty, Literacies & Composition; B.A., M.A., English, Western Michigan University; Ph.D., Rhetoric and Writing, Michigan State University.

GARDINER, S. (2012); Assistant Professor. Faculty, Marketing; B.A., Political Science, Brigham Young University; M.B.A., Brigham Young University; Ed.D., Education Administration, University of Wyoming.

GARDNER, Douglas (2008); Associate Professor. Faculty, Student Leadership & Success Studies; A.A., Psychology, Brigham Young University-Idaho; B.S., Family and Human Development, Brigham Young University; M.A., Education, California State University, Bakersfield; Ph.D., Education, University of Illinois at Urbana-Champaign.

GAUL, Raiden (2019); Assistant Professor. Faculty, Nursing; B.S., Nursing, Elmhurst College; M.S., Nursing Education, Walden University; Ph.D., Nursing Education, University of Northern Colorado.

GAZDIK, Michaela (2016); Associate Professor. Faculty, Biology; B.S., Biotechnology, Rutgers University; M.S., Ph.D., Biomedical sciences, State University of New York-Albany.

GEARING, Nicole (2018); Assistant Professor. Faculty, Elementary Education; B.A., Elementary Education, Thiel College; M.Ed., Curriculum and Instruction, Grand Canyon University; Ph.D., Early Childhood and Elementary Education, Georgia State University.

GERBER, Lindsey (2013); Associate Professor. Faculty, Developmental Mathematics; B.S., M.S., Mathematics, Tarleton State University; Ph.D., Mathematics, Texas State University.

GERKE, Brian (2020); Assistant Professor. Faculty, Dance; B.A., Dance, University of Montana; M.F.A., Modern Dance, University of Utah.

GIBBY, Kristina (2019); Lecturer. Faculty, Philosophy and Humanities; B.A., Humanities, M.A., Comparative Studies, Brigham Young University; Ph.D., Comparative Literature, Louisiana State University.

GIBSON, Stephen (2001); Associate Professor. Faculty, English & Literature; B.A., English, Brigham Young University; M.A., Creative Writing and Literature, Purdue University; Ph.D., Creative Writing and Literature, University of Houston.

GLENN, Lowell (1999): Associate Professor. Department Chair, Finance & Economics; Faculty, Business Graduate Studies; B.S., Public Administration/Political Science, M.B.A., Brigham Young University; Ph.D., Economics, The George Washington University.

GODEAR, Nathan (2016); Assistant Professor. Faculty, Chemistry; B.A./B.S., Biology, Virginia Polytechnic Institute, M.S., Molecular Biology/Biotechnology, East Carolina University; Ph.D., Biochemistry & Molecular Biology, University of Florida.

GOOLE, Michael (2013); Associate Professor. Faculty, History & Political Science; B.A., Business Administration, Goshen College; M.A., Ph.D., History, University of Illinois at Chicago.

GOODWIN, Benjamin (2014); Professional in Residence. Faculty, Literacies & Composition; B.A., English Studies, Elon University; M.A., Rhetoric & Communication, Michigan State University.

GORDON, Philip (1999); Associate Professor. Faculty, Communication; B.A., M.A., Ph.D., Speech Communications, University of Illinois.

GORRELL, Nicholas (2019); Lecturer. Faculty, English & Literature; A.S., English, Snow College; B.A., English, Brigham Young University - Provo; M.A., English, Utah State University; Ph.D., English, University of Mississippi.

GORELICK, Nathan (2010); Associate Professor. Faculty, English & Literature; B.A., Sociology, New York University; M.A., Ph.D., Comparative Literature, State University of New York, Buffalo.

GOSHERT, John (2001); Professor. Faculty, English & Literature; B.S., M.A., English, Sonoma State University; Ph.D., English, Purdue University.

GOSLIN, Christopher (2007); Associate Professor. Faculty, Student Leadership & Success Studies; B.A., Communication, M.Ed., Southern Utah University; Ph.D., Instructional Leadership & Academic Curriculum, University of Oklahoma.

GOUGH, Vance (2014); Associate Professor. Faculty, Strategic Management & Operations; B.A., Political Science, M.B.A., Business Administration/Management; Ed.D., Education, University of Calgary, Alberta.

GRIFFIN, Rick (2003); Associate Professor. Faculty, History & Political Science; B.A., History; Ph.D., Education, Leadership, and Foundations, Brigham Young University; J.D., University of Mississippi.

GRIFFIN, Brigham (2018); Professional in Residence. Faculty, Marketing; B.A., Marketing Communication, Brigham Young University; M.B.A., Marketing, University of Utah.

GUNAWARDENA, Gamini (1996); Associate Professor. Faculty, Chemistry; B.S., General Science, Ruhuna University; M.S., Chemistry, Bowling Green State University; Ph.D., Chemistry, University of Utah.

GUTER, Gerhard (2019); Lecturer. Faculty, Music; B.M., Music Education, University of Miami; M.M., Jazz Studies, California State University, Long Beach.

H

HAGEN, W. (2010); Assistant Professor. Faculty, Music; B.A., Music, Davidson College; M.M., Ph.D., Musicology, University of Colorado.

HALL, Lisa (2010); Associate Professor. Faculty, Theatrical Arts for Stage & Screen; B.A., Drama Performance, San Francisco State University; M.A., Playwriting, Boston University; Ph.D., Theatre History & Criticism; University of Colorado.

HAISCH, Karl Jr. (2004); Professor. Faculty, Physics; B.S., Astrophysics; M.S., Physics, Michigan State University; M.S., Astronomy; Ph.D., Astronomy, University of Florida.

HAKALA, Tim (2018); Associate Professor. Faculty, Engineering Technology; B.S., Electrical & Computer Engineering, Brigham Young University - Provo; M.Eng, Electric Power Engineering, Rensselaer Polytechnic Institute; Ph.D., Mechanical Engineering, Brigham Young University - Provo.

HALES, Thomas (2018); Assistant Professor. Faculty, Engineering; B.S., Computer Science, Weber State University; B.S., Civil & Environmental Engineering, Utah State University; M.S., Ph.D., Civil & Environmental Engineering, University of Utah.

HALL, Sarah (2015); Assistant Professor. Faculty, Public & Community Health; B.A., English, M.P.S., Public Administration, Brigham Young University; Ph.D., Global Health, Arizona State University.

HALLING, Merrill (2012); Associate Professor. Faculty, Chemistry; B.S., Biochemistry, Brigham Young University; Ph.D., Physical Chemistry, University of Utah.

HALLSTED, Barry (2007); Associate Professor. Faculty, Construction Technologies; B.S., Youth Leadership & Scouting Education, Brigham Young University; M.B.A., Aspen University; Ph.D., Business Administration, Northcentral University.
HAM, Young (2012); Associate Professor. Faculty, Chemistry; M.S., Organic Chemistry, Hanyang University, Korea; Ph.D., Organic Chemistry, Purdue University.

HAMDAN, Basli (2015); Associate Professor. Faculty, Information Systems & Technology, Faculty, Information Systems & Technology Graduate Studies; B.A., Accounting; M.B.A., MIS, East Carolina University; Ph.D., Information Systems, Virginia Commonwealth University.

HAMIIDI Mohsen (2012); Assistant Professor. Faculty, Strategic Management & Operations; B.S., M.S., Industrial Engineering,Sharif University of Technology, Iran; Ph.D., Industrial Engineering, North Dakota State University.

HAMILTON, Carolyn (1993); Associate Professor. Faculty, Strategic Management & Operations; B.S., Mathematics, Brigham Young University; M.S., Mathematics, University of California.

HAMMOND, Ronald (1992); Professor. Faculty, Behavioral Science; A.S., Health Science, Brigham Young University - Idaho; B.S., Health Care Administration, Idaho State University; M.S., Health Education, Ph.D., Sociology/Family Studies, Brigham Young University.

HAMSON, Mickelle (2019); Lecturer. Faculty, Public and Community Health; B.S., Community Health, Utah Valley University; M.P.H., Public Health, University of Utah; Ph.D. (ABD), Health Studies, Texas Woman's University.

HANKS, Julie (2019); Assistant Professor. Faculty, Behavioral Science; B.S., Psychology, M.S.W., Clinical Social Work, University of Utah; Ph.D., Marriage & Family Therapy, University of Louisiana at Monroe.

HANNEMAN, Katherine (2018); Lecturer. Faculty, English & Literature; B.S., English & Sociology Secondary Education, M.S., Literature and writing, Utah State University.

HANSEN, Jamie (2018); Lecturer. Faculty, Behavioral Science; B.S., Psychology, Ph.D., Counseling Psychology, Brigham Young University - Provo.

HANSEN, Jorgen (2015); Lecturer. Faculty, Philosophy & Humanities; B.S., Philosophy, Utah Valley University; M.A., Philosophy, University of California, Riverside.

HANSON, Kimberly (2016); Lecturer. Faculty, Communication; A.A., Interpersonal Communication, Ricks College; B.A., Communication & Rhetorical Studies, Idaho State University; M.A., Interpersonal Communication Studies.

HARDIN, Chad (2016); Assistant Professor. Faculty, Art & Design; B.S., Art Illustration, Southern Utah University; M.F.A., Illustration, Academy of Art University.

HARDING, R. (2018); Assistant Professor. Faculty, Marketing; M.B.A., Business Management, Marketing, Grenoble Ecole de Management; Ph.D. (ABD), Business Administration, Marketing, Grenoble Ecole de Management.

HARDMAN, Jamie (2015); Lecturer. Faculty, Languages & Cultures; A.A., American Sign Language, Salt Lake Community College, B.A., Deaf Studies, Utah Valley University, M.A., Deaf Studies/Languages & Human Rights, Gallaudet University.

HARPER, Michael (2002); Associate Professor. Department Co-Chair and Faculty, Digital Media; B.A., M.S., Geography Education, Utah State University.

HARRISON, Neil (2005); Professor. Department Chair and Faculty, Computer Science; B.S., Computer Science, Brigham Young University; M.S., Computer Science, Purdue University; Ph.D., Computer Science, University of Groningen, Netherlands.

HARRISON, Mark (2016); Lecturer. Faculty, Marketing; B.A., English, M.A., Communication, Brigham Young University.

HARROP-PURSER, Laurie (2012); Associate Professor. Faculty, Theatrical Arts for Stage & Screen; A.A., Theatre Arts, Brigham Young University - Idaho; M.F.A., Acting, National Theatre Conservatory; B.A., Theatre Arts, Brigham Young University.

HARSTON, Stott (2000); Associate Professor. Faculty, Criminal Justice/Law Enforcement; A.A., General Studies, American River College; B.A., Political Science, J.D., Brigham Young University.

HART, Vern (2017); Associate Professor. Faculty, Physics; B.S., Physics, Brigham Young University; Ph.D., Physics, William Woods University.

HARVEY, Jaron (2019); Assistant Professor. Faculty, Organizational Leadership; B.B.S, International Business, Utah Valley University; Ph.D., Organizational Behavior, University of Oklahoma.

HASARA, Matthew (2014); Assistant Professor. Faculty, Transportation Technologies; B.S., Resource Management, Brigham Young University.

HASLAM, Darry (2019); Assistant Professor. Faculty, Behavioral Science; B.S., Family Science, M.S.W., Clinical Social Work, Brigham Young University; Ph.D., Marriage & Family Therapy, Texas Tech University.

HATCH, Daniel (2016); Assistant Professor. Faculty, Digital Media; A.A., Graphic Design & Print, Utah Valley Community College; B.S., Graphic Design, Art Institute of Pittsburgh; M.F.A., Graphic Design, Verrnon College of Fine Arts.

HAUG-BELVIN, Theresa (2019); Assistant Professor. Faculty, Student Leadership & Success Studies; B.S., Education, M.S., Public Administration, Southeast Missouri State University; Ed.D., Educational Leadership, University of Missouri-Columbia.

HAWKES, Joshua (2015); Lecturer. Faculty, Marketing; B.S., Business Management, M.B.A., Utah Valley University.

HEATH, Melissa (2014); Assistant Professor. Faculty, Music; B.M., Vocal Performance, Brigham Young University; M.M., D.M.A., vocal performance, University of Utah.

HEDRICK, Emily (2018); Assistant Professor. Faculty, Digital Media; B.S., Digital Media, Utah Valley University; M.F.A., American Media & Popular Culture, Arizona State University.

HEIDER, Emily (2019); Assistant Professor. Faculty, Chemistry; M.S., Chemistry, Ph.D., Analytical Chemistry, University of Utah.

HEHNLY, Marcy (2014); Associate Professor. Faculty, Criminal Justice/Law Enforcement; B.S., Criminal Justice, M.S., Human Resource Management, Troy University; Ph.D., Human Services, Cappella University.

HEINY, Erik (2008); Professor. Faculty, Mathematics; B.S., Mathematics and Statistics, Colorado State University; M.S., Statistics, Michigan State University; Ph.D., Applied Statistics, University of Northern Colorado.

HELQUIST, Joel (2007); Associate Professor. Faculty, Accounting; B.S., M.A., Accountancy, Brigham Young University; Ph.D., Management Information Systems, University of Arizona.

HENAGE, Richard (2017); Associate Professor. Faculty, Accounting; B.S., M.B.A., Speech Communication, Utah State University; Ph.D., Business Administration.

HENAGE, Thomas (2019); Lecturer. Faculty, Physics; B.S., Physics, Harvey Mudd College; M.S., Physics, University of Wisconsin.

HENRY, Thomas (2008); Associate Professor. Faculty, Literacies & Composition; B.A., Creative Writing, M.A., English, Rhetoric and Composition, Northern Arizona University; Ph.D., Rhetoric and Technical Communication, Michigan Technological University.

HERNANDEZ, Leandra (2019); Assistant Professor. Faculty, Communication; B.A., Mass Communication, University of St. Thomas, M.A., Mass Communication, University of Houston, Ph.D., Communication, Texas A&M University.

HERRICK, Matthew (2018); Associate Professor. Faculty, Theatrical Arts; B.F.A., Music Dance Theatre, Brigham Young University - Provo, M.F.A., Acting, University of Texas Austin.

HICKMAN, George (1996); Associate Professor. Faculty, Information Systems & Technology; B.F.A., Photography, Brigham Young University; M.S., Information Systems, San Diego State University.

HIGBEE, Mykin (2019); Assistant Professor. Faculty, Nursing; B.S.N., Nursing, Brigham Young University; M.S.N., Nursing, Utah Valley University; D.P.N., Nursing, University of Texas at Tyler.

HILL, Jessica (2012); Associate Professor. Faculty, Behavioral Science; B.S., Psychology, Ph.D., Developmental Psychology, Florida State University; M.A., Visual Cognition and Human Performance, University of Illinois.

HILST, Joshua (2010); Associate Professor. Faculty, Literacies & Composition; B.A., English, The Master’s College; M.A., English-Composition and Rhetoric, The Ohio State University; Ph.D., Rhetoric, Communication and Informational Design, Clemson University.

HIXON-BOWLES, Kelsey (2020); Assistant Professor. Faculty, Literacies & Composition; B.A., English, M.A., English Technical/Professional Communication, Kansas State University; Ph.D., Composition and Applied Linguistics, Indiana University of Pennsylvania.

HOFHEINS, Nathan (2012); Artist in Residence. Faculty, Music; B.A., Music, M.M., Composition, Brigham Young University.

HOLLEY, Steve (2016); Assistant Professor. Faculty, Emergency Services; B.A., Economics, M.P.A., Public Administration, D.A. (ABD), Economics, Public Administration, Idaho State University.
HOLLISTER, Michael (2015); Assistant Professor. Faculty, Aviation Science; B.S., Aviation Professional Pilot, Utah Valley University; M.C.A., Commercial Aviation, Delta State University.

HOLM, Jeff (2016); Professional In Residence. Faculty, Transportation Technologies; No Degree.

HOPKIN, Ben (2018); Lecturer. Faculty, Theatrical Arts; B.A., Theatre, Brigham Young University; M.F.A., Dramatic Arts/Acting, University of San Diego.

HORN, Matthew (2002); Associate Professor. Faculty, Chemistry; B.A., Chemistry, Lawrence University; Ph.D., Chemistry, University of Chicago.

HOUGH, Colleen (2008); Associate Professor. Faculty, Biology; B.S., Biological Sciences, University of California, Irvine; M.S., Microbiology, Washington State University; Ph.D., Developmental and Cell Biology, University of California, Irvine.

HOUGHTON, Amie Balle (2016); Assistant Professor. Faculty, Criminal Justice/Law Enforcement; B.S., Biology, M.F.S., Forensic Science, George Washington University.

HOWARD, Carolyn (2005); Associate Professor. Faculty, Accounting; B.A., English, J.D., Brigham Young University.

HUFF, Steven (2012); Associate Professor. Department Chair, Marketing; Faculty, Business Graduate Studies; B.S., Computer Engineering, Utah State University; M.B.A., University of California-Berkley; Ph.D., Business Administration, Brigham Young University.

HUNGERFORD, Hilary (2015); Assistant Professor. Faculty, Earth Science; B.A., Geography, University of Northern California; M.A., Ph.D., Geography, University of Kansas.

HUNT, John (2012); Associate Professor. Faculty, History & Political Science; B.A., History, Indiana University Southeast; M.A., Medieval and Renaissance History, University of Cincinnati; Ph.D., Early Modern Italian and European History, The Ohio State University.

HUO, Yang (2002); Associate Professor. Faculty, Organizational Leadership; B.S., Business Administration, Brigham Young University; M.S., Hotel Administration, University of Nevada; Ph.D., Hospitality and Tourism Management, Virginia Tech.

HURTADO, Isaac (2016); Assistant Professor. Faculty, Music; B.A., Voice Performance, Brigham Young University; M.M., Voice Performance, University of Cincinnati; D.M.A., Vocal Performance, Florida State University.

HUYNH, Mark (2018); Lecturer. Faculty, Biology; B.S., Biology, Utah Valley University; A.S., General Studies, Salt Lake Community College; M.S., Genetics & Biotechnology, Brigham Young University - Provo; M.S., Clinical Sciences, University of Colorado School of Medicine.

HYDE, Mark (2019); Assistant Professor. Faculty, Public and Community Health; B.A., Political Science, University of Utah; M.M.S.C., Physician Assistant, Midwestern University; Ph.D., Public Health and Epidemiology, University of Utah.

HYDO, Mykenzie (2019); Assistant Professor. Faculty, Behavioral Science; B.S., Psychology, Brigham Young University; M.S.W., Social Work, University of Utah.

HYDO, Richard (2018); Lecturer. Faculty, Behavioral Science; B.S., Psychology, University of Utah; M.B.A., Operations Management, Texas A&M University.

HUFFMAN, Tammy (2010); Associate Professor. Faculty, Strategic Management & Operations; B.S. Management & Economics, Centre College of Kentucky; M.B.A., University of Tennessee-Chattanooga; Ph.D., Business Administration, University of Kentucky.

ILIKCHYAN, Armen (2015); Associate Professor. Faculty, Technology Management; B.E., Mechanical Engineering, Institute of Technology-Russia; M.I.T., Industrial Technology, Bowling Green State University; Ph.D., Technology Management, Indiana State University.

IOANE, Ofa (2002); Associate Professor. Faculty, Developmental Mathematics; B.S., Mathematics, M.A., Mathematics Education, Brigham Young University.

ISLAM, Mohammad (2016); Assistant Professor. Faculty, Mathematics; B.S., M.S., Statistics, Jahangirnagar University, Bangladesh; M.A., Statistics, Ball State University; Ph.D., Statistics, Bowling Green University.

IVIE, Richard (2015); Lecturer. Faculty, Information Systems & Technology; B.S., Electronic & Computer Engineering; M.B.A., Business, Brigham Young University.

J

JAFAAR, Israd (2020); Assistant Professor. Faculty, Engineering; B.Sc., Manufacturing Engineering, IIUM Malaysia; M.Sc., Manufacturing Engineering, IIUM Malaysia; Ph.D., Mechanical Engineering, Lehigh University.

JACKSON, Gregory (2016); Assistant Professor. Faculty, Integrated Studies; B.A., History, M.A., French Studies, Brigham Young University; Ph.D., History, University of Utah.

JACKSON, TeriSue Smith (2008); Professor. Faculty, Public & Community Health; B.S., Community Health, M.S., Public Health, Brigham Young University; Ph.D., Health Promotion and Education, University of Utah.

JANSEN, Dustin (2015); Assistant Professor. Faculty, History & Political Science; A.S., Science, Utah Valley University; B.A., History, Brigham Young University; J.D., S. J., Quinney College of Law.

JARVIS, John (1992); Associate Professor. Faculty, Developmental Mathematics; B.S., Mathematics/Statistics, M.S., Applied Mathematics with Statistical Emphasis, Northern Arizona University.

JASPERSON, Jill (1997); Associate Professor. Faculty, Accounting; A.A., General Education, Ricks College; B.A., Drama Education, J.D., Reuben Clark College of Law, Brigham Young University.

JAY, Sandy (2011); Associate Professor. Faculty, Elementary Education; B.S., Elementary Education; M.S., Curriculum & Instruction, Oklahoma State University; Ph.D., Elementary Education, Florida State University.

JENNINGS, Trent (2019); Assistant Professor. Faculty, Transportation Technologies; B.S., Technology Management, A.A.S., Diesel Mechanics, Utah Valley University.

JENSEN, Brian (2007); Professor. Faculty, Art & Design; B.S., Art & Secondary Education Certificate, Southern Utah University; M.F.A., Ceramics, Edinboro University of Pennsylvania.

JENSEN, Ellis (2011); Associate Professor. Faculty, Exercise Science & Outdoor Recreation; B.S., Molecular Biology, Brigham Young University; M.S., Molecular Biology; Ph.D., Bioenergetics, East Carolina University.

JENSEN, Douglas (2000); Associate Professor. Faculty, Languages & Cultures; B.A., Spanish, M.A., Languages and Literature, University of Utah; Ph.D., Spanish American Literature, University of Iowa.

JENSEN, Francine (2012); Assistant Professor. Faculty, Nursing; A.A.S., Nursing, Piedmont Virginia Community College; B.S., Zoology, Brigham Young University; M.S.N., Nursing Education; George Mason University.

JENSEN, Joseph (2009); Professor. Faculty, Physics; B.S., Astronomy, California Institute of Technology; M.S., Ph.D., Astronomy, University of Hawaii.

JENSEN, Matthew (2019); Assistant Professor. Faculty, Engineering; B.Sc., Mechanical Engineering, Rose-Hulman Institute of Technology; Ph.D., Mechanical Engineering, Clemson University.

Jensen, Michael (2001); Associate Professor. Faculty, Student Leadership & Success Studies; B.A., Speech Communication, Utah State University; M.Ed., Educational Leadership, Brigham Young University.

JENSON, Kenneth (2017); Lecturer. Faculty, Computer Science; B.S., M.S., Computer Science, Brigham Young University.

JEPPSON, Nathan (2019); Assistant Professor. Faculty, Accounting; A.S., Accounting, Utah Valley University; B.S., Accounting, University of Utah; M.B.A., Accounting, University of Utah; Ph.D., Business Administration, Kent State University.

JI, Xiao (2008); Associate Professor. Faculty, Mathematics; B.A., Mathematics, Hubei Education University; M.S., Statistics, Stephen F. Austin State University; Ph.D., Mathematics, Texas Tech University.

JOHN, Cameron (1997); Associate Professor. Department Chair and Faculty, Behavioral Science; B.S., Psychology, Weber State University; Ph.D., Educational Psychology, University of Arizona.

JOHNSON, Benjmin (2013); Associate Professor. Faculty, Student Leadership & Success Studies; B.A., M.A., History, Brigham Young University; M.A., Education, Ph.D., Philosophy, Ohio State University.

JOHNSON, Erika (2018); Assistant Professor. Faculty, Literacies & Composition; B.A., English & American Literature and Criminal Justice, University of Texas at El Paso; M.S., Administration of Justice & Security, University of Phoenix, M.A., Interdisciplinary Studies, University of Texas El Paso, Ph.D., Rhetoric, Texas Woman's University.
JOHNSON, Gary (2018); *Professional In Residence*. Faculty, Marketing; B.S., Business Management, M.S., Instructional Science, Ph.D., Instructional Psychology, Brigham Young University.

JOHNSON, Jamie (2015); Assistant Professor. Faculty, Dance; B.A., English, B.F.A., Ballet, University of Utah; M.F.A., Dance, University of Washington.

JOHNSON, Randall (2016); Associate Professor. Department Chair, Aviation Science; B.P.A., Professional Aeronautics, M.B.A, Business Administration, Embry-Riddle-Aeronautical University; Ph.D., Aeronautical Communication, Ohio University.

JOHNSON, Russ (2015); *Professional In Residence*. Faculty, Organizational Leadership; B.A., Communication, Brigham Young University; M.I.M., International Management, Thunderbird Global School of Management.

JOHNSON-SILVA, Virlana (2019); Assistant Professor. Faculty, Public and Community Health; B.Sc., Psychology, Brigham Young University; M.Sc., Physician Assistant, Baylor College of Medicine.

JONES, Brock (2017); Assistant Professor. Faculty, English & Literature; B.A., English, Utah Valley University; M.F.A., Creative Writing, University of Wyoming; Ph.D. (ABD), Literature & Creative Writing, University of Utah.

JOLLEY, A. (2018); *Professional in Residence*. Faculty, Marketing; B.S., Business Management & Marketing, Brigham Young University; M.S., Human Resource Mgmt., Utah State University.

JORGENSEN, Claudia (2018); Associate Professor. Faculty, Behavioral Science; B.S., Biology, B.S., Research Psychology, University of Michigan-Flint; Ph.D. Neuroscience, Florida State University.

JORGENSEN, Robert (2013); Assistant Professor. Faculty and Director, Cybersecurity Graduate Studies, Information Systems & Technology; B.S., Integrated Studies, Utah Valley University; M.S., Information Systems, University of Utah; Ph.D., Education, Utah State University.

JEREMY, Murphy (2017); Lecturer. Faculty, Communication; B.S., Broadcast Journalism, Illinois State University; M.A, Communication, San Diego State University.

K

KERTAMUS, Layne (2020); *Professional in Residence*. Faculty, Finance and Economics; B.A., Economics, Claremont McKenna College; M.A., Intercultural Communication, California State University.

KAMAIOPIILI, Kyle (2018); Assistant Professor. Faculty, English & Literature; B.A., English, Whitworth University, M.A., English, California Polytechnic State University, Ph.D., English, Tufts University.

KANG, Mi (2011); Associate Professor. Faculty, Elementary Education; B.A., M.Ed., Korean Language and Literature Education, Chonbuk National University; M.S., Educational Leadership, University of Oregon; Ph.D., Curriculum and Instruction, University of Wisconsin-Madison.

KARAFIATH, Summer (2019); Assistant Professor. Faculty, Biology; M.D., Medicine, University of Utah.

KASSEL, Bobbi (2014); Associate Professor. Department Chair and Faculty, Criminal Justice/Law Enforcement; B.S., Criminal Justice, Utah Valley University; M.Ed., Instruction Design, University of Utah.

KECK, Thomas (2016); Associate Professor. Department Chair and Faculty, Music; B.S., Music Education, University of Illinois; M.A., Music Education, University of Iowa; D.M.A., Conducting, Arizona State University.

KELLER, David (2003); Associate Professor. Faculty, Nursing; B.S., Nursing, M.S., Psychiatric Nursing, Brigham Young University.

KERR, Lydia (2011); Associate Professor. Faculty, English & Literature; B.A., English Language, The Florida State University; M.A., Ph.D., Comparative Literature, State University of New York.

KIA, Amir (2006); Professor. Faculty, Finance & Economics; M.A., Mathematical Economics and Econometrics, University of Ottawa; Ph.D., Economics, Carleton University, Ottawa, Canada.

KLEINMAN, Phillip (2018); Assistant Professor. Faculty, Nursing; B.S., Nursing, University of Arizona; M.S.N. Nursing, University of New Mexico.

KNAEBLE, Brian (2016); Assistant Professor. Faculty, Computer Science; B.S., M.S., Mathematics, M.Stat., Ph.D., University of Utah.

KNADLER, Charles (2016); Lecturer. Faculty, Computer Science; B.E.S., Mechanics, The Johns Hopkins University; M.S., D.Sc., Computer Science, George Washington University.

KNI DING, Dianne (2008); Associate Professor. Department Chair, Allied Health; Faculty, Dental Hygiene; A.S., General Studies, Brigham Young University - Provo; B.S., Dental Hygiene, Weber State College; M.B.A., Business Administration, Cal Poly Pomona.

KNIGHTON, Janine Sobeck (2016); Assistant Professor. Faculty, Theatre Arts for Stage & Screen; B.A., Theatre Art Studies, Brigham Young University; M.F.A., Dramatic Writing, University of Idaho.

KNOWLTON, David (2002); Professor. Faculty, Behavioral Science; B.A., Anthropology, University of Utah; M.A., Ph.D., Anthropology, University of Texas.

KNUTSON, Charles (2018); Associate Professor. Faculty, Computer Science; B.S., Computer Science, M.S., Computer Science, Brigham Young University - Provo, Ph.D., Computer Science, Oregon State University.

KOPP, Kristopher (2018); Assistant Professor. Faculty, Behavioral Science; B.A., Psychology, M.A., Cognitive Psychology, Ph.D., Cognitive Psychology, Northern Illinois University.

KOPP, Olga (2003); Professor. Faculty, Biology; B.S., Biology, Universidad nacional de Colombia; M.S., Ornamental Horticulture, Ph.D., Botany, University of Tennessee.

KREBS, Cynthia (1988); Professor. Faculty, Information Systems & Technology; B.S., M.S., Business Education, Utah State University.

KUDDUS, Ruhul (2003); Professor. Faculty, Biology; B.S., Biology, Rajendra College of the University of Dhaka, Dhaka Bangladesh; M.S., Zoology, University of Dhaka, Dhaka Bangladesh; M.S., Biology, George Mason University; Ph.D., Molecular Genetics and Biochemistry (Microbiology), University of Pittsburgh.

KUEHNE, Carolyn (2017); Lecturer. Faculty, Technology Management; A.A., Business Education, Dixie College; B.S., Business Education/Administration, Weber State University; M.S., Business Information Systems, Utah State University.

KUNAKEMAKORN, Numsiri (2004); Associate Professor. Faculty, Secondary Education; B.A., English, University of California, Santa Barbara; M.A., Multicultural & International Education, University of San Francisco; M.A., English, Sonoma State University; Ph.D., Comparative Literature, Purdue University.

KUPKA, Bernd (2011); Associate Professor. Faculty, Organizational Leadership; B.A., Communication, University of Hawaii at Hilo; M.S., Corporate & Professional Communication, Radford University; Ph.D., Management, University of Otago.

L

LAMBERT, Kristin (2020); Assistant Professor. Faculty, Behavioral Science; B.S., M.Acc., Accounting, Brigham Young University; Ph.D. (ABD), Accounting, University of Illinois at Urbana-Champaign.

LUSZECK, Amanda (2020); Assistant Professor. Faculty, English & Literature; B.A., English Teaching, Brigham Young University; M.Ed., Education Leadership, Northern Arizona University; Ph.D., English Education, Arizona State University.

LA FKAS, Sara (2018); Assistant Professor. Faculty, Behavioral Science; B.A., Psychology, University of California at Los Angeles, M.S.W Social Work, University of Washington, Ed.D., Human Development, Harvard University.

LAMARCHE, Pierre (2000); Professor. Faculty, Philosophy & Humanities; B.A., Physics, University of Toronto; M.A., Ph.D., Philosophy, University of Texas.

LAMBERT, Lisa (2007); Associate Professor. Faculty, Student Leadership & Success Studies; B.A., Educational Psychology, M.B.A., Organizational Behavior & Strategy, Brigham Young University.

LANEGAN, Jason (2019); Assistant Professor. Faculty, Art & Design; M.A.E., Art Education, Eastern Washington University; B.F.A., Sculpture, Northern Arizona University; M.F.A., Sculpture, Brigham Young University.

LANTZ, Clayton (2016); Assistant Professor. Faculty, Digital Media; B.A., Digital Media, Utah Valley University.

LANEY, Alma Glenn (2019); Assistant Professor. Faculty, Biology; A.A., Southwestern Oregon Community College; B.Sc., Microbiology, Oregon State University; M.Sc., Plant Pathology, Ph.D., Plant Science, University of Arkansas.

LARICHEVA, Elena (2015); Assistant Professor. Faculty, Chemistry; B.S., M.S., Analytical Chemistry, St. Petersburg State University, Russia; Ph.D., Computational Chemistry, Bowling Green State University.

LARSEN, Merilee (2013); Assistant Professor. Faculty, Public & Community Health; B.S., Community Health, Utah Valley University; M.P.H., Health Education, Ph.D., Public Health, Loma Linda University.
MCDONALD, Richard (1998); Professor. Faculty, English & Literature; B.A., English Literature, M.Ed., English Education, University of Florida; M.A., Ph.D., English Literature, University of South Florida.

NIelsen, Ryan (2018); Associate Professor. Faculty, Music; B.M., Music Education, Brigham Young University - Idaho; M.M., Trumpet Performance, Arizona State University; Ph.D., Jazz Performance, New England Conservatory of Music.

NIelsen, Kim (2012); Assistant Professor. Faculty, Physics; B.S., Physics, University of Copenhagen; M.S., University of Alaska; Ph.D., Physics, Utah State University.

NIelsen, Elijah (2016); Assistant Professor. Faculty, Behavioral Science; B.A., Asian Studies, M.S.W., Brigham Young University; J.D., Ave Maria School of Law; L.L.M., Stratus Institute for Dispute Resolution; Ph.D., (ABD), Social Work, University of Utah.

NIelsen, Jeffrey (2017); Lecturer. Faculty, Philosophy & Humanities; B.A., German, Weber State University; M.A., Philosophy, Boston College.

NIGRO, Jenna (2015); Assistant Professor. Faculty, History & Political Science; B.A., History & French, Allegheny College; M.A., French Studies, New York University; Ph.D., History, University of Illinois.

NISGURITZER, Jorge (2007); Associate Professor. Faculty, Languages & Cultures; B.A., Spanish, Weber State University; M.A., Ph.D., Languages & Literature, University of Utah.

NOLL, Gary (1997); Professor. Department Chair and Faculty, Emergency Services; A.A.S., Fire Science, Community College of the Air Force; B.S., Technology Management (Fire Science Specialty), Utah Valley University; M.Ed., Utah State University.

NORTH, Matthew (2015); Assistant Professor. Faculty, Information Systems & Technology; B.A., History, Brigham Young University; M.S., Business Information Systems, Utah State University; Ph.D., Education, West Virginia University.

NOYES, Melissa (2017); Assistant Professor. Faculty, Criminal Justice/Law Enforcement; B.S., Criminal Justice, Utah Valley University; J.D., Law, University of LaVerne College of Law.

OLDROYD, Kristina (2020); Assistant Professor. Faculty, Behavioral Science; B.S., Psychology, M.S., Ph.D., Developmental Psychology, University of Utah.

O'FLYNN, Jeffrey (2015); Assistant Professor. Faculty, Music; B.M., Clarinet Performance, Wichita State University; M.M., Clarinet Performance, Florida State University; D.M.A., Clarinet Performance, College-Conservatory of Music.

ODONGO, George (2018); Associate Professor. Faculty, Secondary Education; B.Ed, Education, The University of Nairobi, Kenya; M.Ed., Special Education, Wichita State University, Ed.D., Special Education, Texas Tech University.

OGDEN, T. (2009); Associate Professor. Faculty, Biology; B.S., Zoology, Ph.D., Integrative Biology, Brigham Young University; M.S., with mention in Zoology, Universidad de Concepción.

OLSEN, Kari (2018); Associate Professor. Faculty, Accounting; B.S., Accounting, M.S., Accounting, Brigham Young University; Ph.D., Business Administration, University of Southern California.

ORMOND, Pat (1984); Professor. Faculty, Information Systems & Technology; A.A.S., Data Processing, A.A.S., Accounting, Utah Technical College; B.S., Accounting, Brigham Young University; M.S., Information Systems, Utah State University.

ORR, Terrance (2007); Associate Professor. Faculty, Transportation Technologies; B.S., Technology Management, Utah Valley State College; M.Ed., Instructional Technology, Utah State University.

ORTega, Xiaoli (2012); Associate Professor. Faculty, Accounting; B.S., Nursing, M.B.A., Business Administration, Ph.D., Accounting, University of Utah.

ORTEGA, Nichole (2004); Associate Professor. Faculty and Faculty, Dance; B.S., Health Sciences, Brigham Young University; M.A., Dance, California State University Long Beach.

OTTO, Bill (2016); Assistant Professor. Faculty, Digital Media; B.A., Visual Arts Media, University of California, San Diego; M.F.A., Cinematography, American Film Institute.

OVEROYE, Acacia (2019); Assistant Professor. Faculty, Behavioral Science; B.S., Cognitive Science, University of California San Diego; M.Sc., Cognitive Psychology, University of California Santa Cruz, Ph.D. (ABD), Cognitive Psychology, University of California Santa Cruz.

P

PACKER, Jeffrey (2007); Associate Professor. Faculty and Faculty, Languages & Cultures; B.A., German Teaching, M.A., German Literature, Brigham Young University; Ph.D., German Studies, University of Cincinnati.

PAILais, Bob (2011); Professor. Department Chair and Faculty, Mathematics; B.S., Mathematics, Harvard University; M.S., Mathematics, University of California.

PANG, HONG (2012); Assistant Professor. Faculty, History & Political Science; B.A., International Politics, B.A., Economics, Peking University, P.R. China; M.A., Economics, Ph.D., Politics and International Relations, University of Southern California.

PANOS, Angelea (2017); Assistant Professor. Faculty, Behavioral Science; B.A., Psychology, M.S.W., Mental & Occupational Health, University of Utah; M.A., Ph.D., Clinical Psychology, Fielding Graduate University.

PARKER, Trever (2019); Lecturer. Faculty, Engineering Technology; A.A.S., EART, Utah Valley University.

PARRY, Alan (2016); Assistant Professor. Faculty, Mathematics; B.S., M.S., Mathematics, Utah State University; M.A., Ph.D., Mathematics, Duke University.

PATCH, Michael (2007); Associate Professor. Faculty, Elementary Education; B.A., Communication, M.Ed., Elementary Education, Brigham Young University; Ph.D., Curriculum & Instruction, University of Nevada.

PATTEN, Devin (2018); Lecturer. Faculty, English & Literature; B.S., Technology Management, Utah Valley University; M.A., Writing & Literature, Utah State University.

PATTERSON, Jonathan (2019); Lecturer. Faculty, English & Literature; B.A., English, Southern Illinois University, M.A., English, Southern Illinois University, Ph.D. (ABD), English, University of Kansas.

PAULy, Jessica (2018); Assistant Professor. Faculty, Communication; B.A., Communication Studies, Nebraska Wesleyan University, M.A., Communication Studies, University of Kansas, Ph.D., Communication Studies, Purdue University.

PEPPER, Mark (2011); Associate Professor. Faculty, English & Literature; B.A., English, M.A., English Literature, Sacramento State University; Ph.D., Rhetoric & Composition, Purdue University.

PERKINS, Raymond (2014); Associate Professor. Faculty, Physics; B.S., M.S., Ph.D., Physics, Brigham Young University.

PERRY, Danial (2005); Professor. Faculty, Architecture and Engineering Design; A.A.S., Drafting and Design Technology, Utah Valley Technical College; B.S., Management, Linfield College; M.B.A., University of Phoenix.

PETERSEN, BoyD (2008); Lecturer. Faculty, English & Literature; B.A., French and International Relations, Brigham Young University; M.A., Comparative Literature, University of Maryland; Ph.D., Comparative Literature, University of Utah.

PETERSEN, Jerry (2013); Associate Professor. Faculty, English & Literature; B.A., Social Sciences, Washington State University; M.A., English Rhetoric & Composition, Washington University; Ph.D., English, Rhetoric and Composition, Washington State University.
PETE RSON, Jeffrey (2009); Associate Professor. Department Chair, Organizational Leadership; Faculty, Business Graduate Studies; B.S., Family Science, M.B.A., Brigham Young University; M.S., Business, Ph.D., Management (Organizational Behavior), University of Washington.

PETE RSON, Katelyn (2019); Lecturer. Faculty, Behavioral Science; B.S., Psychology, Weber State University; M.S.W., Social Work, University of Utah.

PETE RSON, Luke (2014); Lecturer. Faculty, History & Political Science; B.A., History, Utah Valley University; M.P.A.A., Public Policy, Harvard University.

PETE RSON, Nancy (1997); Professor. Faculty, Elementary Education; B.S., Elementary Education, Brigham Young University; M.Ed., Early Childhood Education, Old Dominion University; Ed.D., Curriculum & Instruction, University of Virginia.

PETE RSON, Owen (2015); Assistant Professor. Faculty, Digital Media; A.A., Theatre & Music, Western Wyoming Community College; B.A., Theatre Studies, Brigham Young University; MEAE, Entertainment Arts & Engineering; University of Utah.

PETE RSON, Todd (2003); Associate Professor. Faculty, Computer Science; B.S., Computer Science, Brigham Young University; M.S., Ph.D., Computer Science, University of Alabama.

PETE RSON, James (1990); Professor. Faculty, English Language Learning; B.A., Elementary Education, University of Utah; M.A., TESL, Brigham Young University; Ph.D., Adult and Post-Secondary Education, University of Wyoming.

PORTER, Evelyn (2008); Associate Professor. Department Chair and Faculty, Developmental Mathematics; B.S., U.S. Naval Academy; M.E.M., Master of Engineering Management, Old Dominion University.

POTTER, Kelli (2000); Associate Professor. Faculty, Philosophy & Humanities; B.A., Philosophy, Brigham Young University; M.A., Philosophy, Florida State University; M.A., Philosophy, University of Notre Dame.

POTTS, Kaitlyn (2019); Lecturer. Faculty, Dance; A.A., University Studies, Utah Valley University; B.A., Business Administration, Harvard University.

POULSON, Barton (2002); Associate Professor. Faculty, Behavioral Science; B.S., Psychology, Brigham Young University; M.A., Psychology, Hunter College; M. Phil., Psychology, Ph.D., Social-Personality Psychology, The City University of New York.

POWELL, John (2013); Lecturer. Faculty, Physics; B.S., Physics, M.S., Physics, Ph.D., Physics & Astronomy, Brigham Young University.

PREMO, Joshua (2019); Assistant Professor. Faculty, Secondary science education/ Biology; B.S.C., Biology, History and Anthropology, SUNY Plattsburg, M.A., Teaching, Binghamton University, Ph.D. (ABD), Zoology, Washington State University.

PRESTON, Karen (2012); Associate Professor. Faculty, Allied Health; B.S., Dental Hygiene, Weber State College; M.Ed., Education, University of Phoenix.

PRESTON, Jacqueline (2011); Associate Professor. Faculty, Literacies & Composition; B.S., Education, Ohio University; M.A., Humanities, M.A., English, Wright State University; Ph.D., English, University of Wisconsin, Madison.

PRICE, James (1999); Professor. Department Chair and Faculty, Biology; B.A., Biology, University of California; Ph.D., Molecular Biology, University of Colorado.

PRICE, Jared (2019); Assistant Professor. Faculty, Nursing; B.S., Nursing, University of Utah; B.S., Emergency Administration, Utah Valley Hospital, D.N.P., Nursing, University of Utah.

PRICE, Robert (2003); Associate Professor. Department Chair and Faculty, Architecture and Engineering Design; A.S., Drafting Technology, B.S., Technology Management, Utah Valley State College.

PRZBYLA, David (2016); Professional in Residence. Faculty, Marketing; B.S., Engineering, Brigham Young University; M.B.A., Business Administration, Colorado State University.

PURDY, Stephen (2004); Senior Lecturer. Faculty, Theatrical Arts for Stage & Screen; B.A., Communications, Brigham Young University.

R

ROBBINS, John (2020); Assistant Professor. Faculty, Behavioral Science; B.A., Psychology, University of Tennesse; M.S., Counseling and Human Systems, Ph.D., Marriage and the Family, Florida State University.

ROTTER, Michael (2020); Assistant Professor. Faculty, Biology; B.S., Botany, M.S., Biology, Northern Michigan University; Ph.D., Biology, Northern Arizona University.

RAMIREZ, Axel (2002); Professor. Faculty, Secondary Education; B.A., History, M.S., American History, Ph.D., Curriculum and Instruction, University of Utah.

REES, John (2010); Associate Professor. Faculty, Art & Design; B.F.A., Photography, Brigham Young University.

REEVES, Audrey (2019); Assistant Professor. Faculty, Art and Design; B.S., Art Education, Miami University; M.A., Art Education, Arizona State University; Ph.D. (ABD), Arts Administration, Education & Policy, The Ohio State University.

RHOADS, Kevin (2012); Assistant Professor. Faculty, Strategic Management & Operations; B.A., French, Brigham Young University; Ph.D., Strategy/Entrepreneurship, University of Oklahoma.

RHODES, Samuel C. (2019); Lecturer. Faculty, History and Political Science; B.A. Political Science, Shippensburg University of Pennsylvania; M.A. Political Science, Washington State University, Ph.D. (ABD), Political Science, Washington State University.

RICALDI, Laura (2015); Assistant Professor. Faculty, Finance & Economics; B.B.A., Business Administration, M.B.A., General Business, Ph.D., Personal Financial Planning, Texas Tech University.

RICHARDS, Grant (1992); Professor. Faculty, Behavioral Science; B.S., Animal Science, M.S., Psychology, Ed.D., Educational Psychology, Brigham Young University.

RICHARDS, Denise (2002); Associate Professor. Faculty, Student Leadership & Success Studies; B.S., Psychology, Pacific Union College; M.O.B., Organizational Behavior, Brigham Young University; Ph.D. (ABD), Leadership and Organizational Change, Walden University.

RO, Brandon (2019); Assistant Professor. Faculty, Engineering Design Technology; B.Arch, Architecture, California State Polytechnic University, A.A., Liberal Arts & Science, Palomar Community College, M.A.S., Architecture, The Catholic University of America.

ROBBINS, John (2018); Lecturer. Faculty, Behavioral Science; B.A., Psychology, University of Tennessee; M.S., Counseling & Human Systems, Ph.D., Marriage and the Family, Florida State University.

ROBBINS, Robert (1995); Professor. Faculty, Biology; B.S., Botany, Iowa State University; M.S., Ph.D., Botany, University of Illinois.

ROBERTSON, Jacob (2015); Lecturer. Faculty, English & Literature; B.A., English, California State University; M.A., English, Brigham Young University; Ph.D., English Language & Literatures, The University of Houston.

ROBINSON, Peter (2003); Professor. Faculty, Strategic Management & Operations; B.S., Psychology (emphasis in Organizational Psychology), Ph.D., Organizational Psychology, Brigham Young University.

ROBINSON, Jill (2011); Lecturer. Faculty, Theatrical Arts for Stage & Screen; B.A., Theater & Cinematic Arts, M.A., Theater & Media Arts, Brigham Young University.

ROCKS, Sally (2017); Assistant Professor. Faculty, Chemistry; B.A., Chemistry, Bucknell University; M.S., Ph.D., Chemistry, University of Rochester.

RODDY, Meghan (2012); Associate Professor. Faculty, Culinary Arts Institute; B.A., Hotel, Restaurant and Institutional Management, University of Delaware.

ROHANI, Ehsan (2018); Assistant Professor. Faculty, Engineering; B.S. Electronic Engineering, Tehran Polytechnic, M.S. Electronic Engineering, University of Tehran, Ph.D., Computer Engineering, Texas A&M University.

ROMRELL, Anthony (2008); Associate Professor. Faculty, Digital Media; B.S., M.F.A., Animation, Utah State University.

ROSE, Kelly (2018); Assistant Professor. Faculty, Allied Health; A.S., Respiratory Care, United States Air Force; B.S., Health Care Administration, California Coast University; M.S., Health Education, Trident University International.

ROSSI DE OLIVEIRA, Andre (2011); Associate Professor. Faculty, Finance & Economics; B.A., M.A., Economics, University of Brasilia; M.Sc., Mathematics, Ph.D., Economics, University of Illinois at Urbana-Champaign.

RUDD, Jonathan (2018); Assistant Professor. Faculty, Criminal Justice; B.A., Asian Studies, Brigham Young University; J.D., Law, New England School of Law.

RUDOLPH, George (2016); Associate Professor. Faculty, Computer Science; B.S., M.S., Ph.D., Computer Science, Brigham Young University.

RUGGLES, Krista (2016); Assistant Professor. Faculty, Elementary Education; B.A.E., M.Ed., Elementary Education, Ph.D., Curriculum & Instruction, University of Florida.

RUSSELL, Eric (2006); Associate Professor. Faculty, Emergency Services; A.A.S., Fire Science, Community College of the Air Force; B.S., Management-Fire Science, University of Phoenix; M.B.A., Grand Canyon University; M.S., Executive Fire Service Leadership, Ed.D., Organization Leadership, Grand Canyon University.
S

SAJAL, Sayeed (2020); Assistant Professor. Faculty, Computer Science; B.S., Electrical & Electronic Engineering, Bangladesh University of Engineering & Technology; M.S.A., Finance & Marketing, East West University, Bangladesh; M.S., Ph.D., Electrical and Computer Engineering, North Dakota State University.

SIPIENZA, Zachary (2020); Lecturer. Faculty, Communication; B.S., Organizational Speech, M.S., Speech Communication, Ph.D.(ABD), Mass Communication/Media Arts, Southern Illinois University.

SHAABAN, Khaled (2020); Associate Professor. Faculty, Engineering; B.S., Civil Engineering, Ain Shams University; M.S., Civil Engineering, Cairo University; M.S., Ph.D., Civil Engineering, University of Central Florida.

SILCOX, Fiona (2020); Assistant Professor. Faculty, Aviation Science; A.S., Business, Salt Lake Community College, B.A., Aeronautical Science, M.A.S., Aviation Aerospace Management, Embry-Riddle Aeronautical University.

STONE, Brett (2020); Lecturer. Faculty, Engineering; B.S., Mechanical Engineering, Brigham Young University, Idaho; Ph.D., Mechanical Engineering, Brigham Young University.

STUBBS, Kyle (2020); Assistant Professor. Faculty, Accounting; B.S., M.Acc., Accounting, Brigham Young University; Ph.D. (ABD), Accounting, University of Massachusetts.

STEVENS, Herron (2017); Lecturer. Faculty, Chemistry; B.S., Molecular Biology, Biochemistry; M.S. Biochemistry, University of California, Riverside; Ph.D.; University of California, Irvine.

SAITO, Yasuko (2015); Lecturer. Faculty, Languages & Cultures; B.A., Spanish, Brigham Young University, M.A., Asian Studies, Seton Hall University.

SAMAD, Abdus (2002); Professor. Faculty, Finance & Economics; B.A., Economics, Rajshai University, Bangladesh; M.A., Economics, Lakehead University, Canada; Ph.D., Economics, University of Illinois, Chicago.

SANATI-MEHRIZY, Reza (2001); Professor. Faculty, Computer Science; B.S., Business Administration, Rasht Commercial College; M.S., Ph.D., Computer Science, University of Oklahoma.

SANDERS, Farah (2009); Lecturer. Faculty, Communication; B.S., Integrated Studies, Utah Valley University, M.Ed., Education, Southern Utah University.

SANFT, Marni (2002); Associate Professor. Faculty, Student Leadership & Success Studies; B.A., English, Brigham Young University; M.A., Teaching in English, Duke University.

SANSOM, Bryan (2019); Lecturer. Faculty, Digital Media; A.A., B.S., Digital Media, Utah Valley University; M.S., Music Technology, Indiana University Purdue University Indianapolis.

SAWYER, Robert (2011); Associate Professor. Faculty, Exercise Science & Outdoor Recreation; B.S., M.S., Physical Education, Utah State University; Ph.D., Exercise Science, Brigham Young University.

SAWYER, Michaela (2008); Associate Professor. Faculty, Philosophy & Humanities; M.A., English, Washington University; M.A., American Studies, Heinrich-Heine University; Ph.D., English, Washington University.

SCHELLENBERG, Justin (2018); Assistant Professor. Faculty, Construction Technologies; B.S., Civil Engineering, M.S., Civil Engineering, Brigham Young University - Provo.

SCHILL, Angela (2020); Visiting Assistant Professor. Faculty, Organizational Leadership; B.A., Brigham Young University; M.Ed., Education Curriculum/Instruction, Penn State University; M.B.A. Entrepreneurship, Babson College; Ph.D., Marginalized Attitudes and Societal Bias, University of Cambridge.

SCHILL, Ryan (2018); Visiting Assistant Professor. Faculty, Marketing; B.A., International Law & Diplomacy, Brigham Young University, MTA, Marketing, George Washington University; Ph.D., Behavioral Economics, University of Cambridge.

SCHLOSNAGLE, Leo (2015); Assistant Professor. Faculty, Behavioral Science; A.S., Computer Science, Garrett College; B.A., Psychology, St. Mary's College of Maryland; Ph.D., Psychology, West Virginia University.

SCHMIDT, Bunny (2019); Lecturer. Faculty, Accounting; Ph.D., Business Administration/Accounting; M.Acc., Accounting, Utah State University; B.S. Accounting, Utah Valley University; A.S. Accounting, Santa Rosa Jr. College.

SCHUMANN, Larisa (2019); Lecturer. Faculty, English & Literature; B.A., English, Brigham Young University; M.A., English Literature, Brigham Young University; Ph.D., English Studies, Texas Christian University.

SCOTT, Christopher (2018); Lecturer. Faculty, English & Literature; A.A., General Studies, Saddleback College; B.A., English Composition & Literature, California State University, Fullerton; M.A., English Literature, University of Bristol, UK; M.Litt, Gothic Literature and Film, University of Stirling, UK; Ph.D. (ABD), English Literature, University of Sheffield, UK.

SCOTT, David (2008); Professor. Faculty, Communication; B.S., Political Science, B.S., Speech Communication, University of Utah; M.A., Communications, Brigham Young University; Ph.D., Mass Communication, University of Georgia.

SEAGROVE, Frey (2015); Assistant Professor. Faculty, Nursing; A.S., Nursing, B.S., Behavioral Science, Nursing, Utah Valley University; M.S.N., University of Utah.

SEARLE, Scott (2014); Lecturer. Faculty, Engineering Technology; Master Electrician.

SEELEY, Eugene (1995); Associate Professor. Faculty, Strategic Management & Operations; B.A., French, Brigham Young University; M.M., American Graduate School of International Management; Ph.D., Business Administration, University of Utah.

SEIBI, Abdennour (2019); Associate Professor. Faculty, Engineering; B.Sc., Mechanical Engineering, Pennsylvania State University, M.Sc., Engineering Science and Mechanics, Pennsylvania State University, Ph.D., Engineering Science and Mechanics, Pennsylvania State University.

SELLAND, Makenzie (2012); Associate Professor. Faculty, Secondary Education; B.A., English, Spanish, Social Work, Northern Arizona University; M.Ed., Secondary English Education, George Washington University; Ph.D.(ABD), Instruction & Curriculum, University of Colorado, Boulder.

SELVARAJAN, Sowmya (2012); Associate Professor. Faculty, Architecture and Engineering Design; B.E., Geoinformatics, Anna University, India; M.Eng., GIS and Remote Sensing, National University of Singapore; Ph.D., Geomatics, University of Florida.

SERMON, Tracy (2001); Sr. Lecturer. Faculty, Elementary Education; B.S., MHSD Early Childhood/Elementary Education, M.S., Family Science, Virginia Polytechnic Institute; Ph.D., Education, Utah State University.

SHARP, Craig (2016); Lecturer. Faculty, Computer Science; B.S., Architecture, Ball State University; M.S., Computer & Information Sciences, College of Charleston; Ph.D. (ABD), Computer Sciences, University of South Carolina.

SHARP, Ann (2009); Associate Professor. Faculty, Elementary Education; B.S., Elementary Education, M.S., Education, Educational Studies, University of Utah; Ph.D., Educational Psychology, University of Nevada, Las Vegas.

SHAW, Michael (2003); Professor. Faculty, Philosophy & Humanities; B.A., Philosophy, Bates College; M.A., Philosophy, Philadelphia, Villanova University.

SHEIKH, Waseem (2020); Associate Professor. Faculty, Engineering; B.S., Electrical Engineering, Gulham Ishaq Khan Institute of Engineering and Technology.

SHEKARAMIZ, Mohammad (2019); Assistant Professor. Faculty, Engineering; B.Sc., Electrical Engineering, Yazd University, Iran; M.Sc., Electrical Engineering, Isfahan University of Technology; Ph.D., Electrical Engineering, Utah State University.

SHELTON, Linda (2000); Senior Lecturer. Faculty, English & Literature; B.A., Speech/Drama Secondary Education; M.A., Communications, Brigham Young University.

SHIPP, Dustin (2018); Assistant Professor. Faculty, Physics; B.S., Physics & Mathematics, Brigham Young University - Provo, Ph.D., Optics, University of Rochester.

SHUBERT, Jennifer (2019); Assistant Professor. Faculty, Behavioral Science; B.S., Behavioral Science, Utah Valley University; M.A., Psychology, University of Rochester; Ph.D., Developmental Psychology, University of Rochester.

SHURTLEFF, James (2012); Associate Professor. Faculty, Chemistry; B.S., Chemistry; M.B.A., Business Administration, Ph.D., Physical Chemistry, Brigham Young University.

SCHWANI, Mohamed (2020); Lecturer. Faculty, Engineering; B.S., Civil Engineering, Salahaddin University; M.S., Civil & Structural Engineering, University of Utah; Ph.D., Civil & Structural Engineering, Utah State University.
SIMMONS, Skyler (2018); Assistant Professor. Faculty, Mathematics; B.S., Mathematics; M.S., Mathematics, Ph.D., Mathematics, Brigham Young University - Provo.

SIMON, Alexander (2011); Professor. Faculty, Behavioral Science; B.A., Psychology, M.A., Sociology, State University of New York at Albany; Ph.D., Sociology, Simon Fraser University.

SIMON, Leslie (2011); Professor. Department Chair and Faculty, Philosophy & Humanities; B.A., English Literature, Texas A&M University; M.A., Ph.D., English & Literature, Boston University.

SIMONS, Joe (2018); Lecturer. Faculty, Mathematics; B.S., M.S., Mathematics, Brigham Young University.

SKOUSEN, Bret (2019); Professional in Residence. Faculty, Marketing; B.S., Business Administration, Brigham Young University; M.S., Executive Leadership, University of San Diego.

SLEZAK, Cyril (2013); Associate Professor. Faculty, Physics; B.A., Physics & Music Performance, Adams State College; M.S., Ph.D., Physics, University of Cincinnati.

SMIDT, Michael (2018); Assistant Professor. Faculty, Criminal Justice; B.A., Business Administration, National University; M.S., Strategic Studies, US Army War College; J.D., Law, California Western School of Law; LLM, University of Virginia School of Law.

SMITH, Kevin (2010); Professor. Department Chair, Accounting. Faculty, Business Graduate Studies; B.A., Accountancy, M.A., Accounting, Brigham Young University; Ph.D., Accounting, University of Arizona.

SMITH, Sheldon (2001); Professor. Faculty, Accounting; B.S., Accounting, M.B.A., M.Acc, Brigham Young University; Ph.D., Accounting, Michigan State University.

SMITH, Richard (2018); Lecturer. Faculty, Information Systems & Technology; B.A., English, Utah Valley University.

SMITH, Sidney (2003); Associate Professor. Faculty, Architecture and Engineering Design; A.A.S., Drafting Technology, Utah Technical College; A.A.S., Electronics Technology, Utah Valley Community College; B.S., Technology Management, Utah Valley University.

SMITH, Thomas (2012); Associate Professor. Faculty, English & Literature; B.A., English Education, Brigham Young University; M.S., Curriculum & Instruction, Ph.D., Teacher Education, University of Nevada.

SMITH, Hyrum (2013); Professional in Residence. Faculty, Finance & Economics; B.S., Accounting, Utah State University; M.B.A., Business, University of Utah; Ph.D., Personal Financial Planning, Texas Tech University.

SMITH, Gregory (2015); Professional in Residence. Faculty, Strategic Management & Operations; B.A., International Relations, Brigham Young University; M.B.A., International Business, University of South Carolina.

SMITH-JOHNSON, Amber (2018); Lecturer. Faculty, English & Literature; B.A., English, Utah Valley University; A.A., English, Ricks College, M.F.A., Creative Writing, Brigham Young University - Provo.

SNEDEGAR, Keith (1993); Professor. Faculty, History & Political Science; B.A., History, University of Michigan; M.S., English/Latin, University of Edinburgh; D.Phil., Modern History, University of Oxford.

SNIDER, Marika (2019); Assistant Professor. Faculty, Architecture & Engineering Design; B.S., Architecture, The Ohio State University; M.S.D., Design Studies, Boston Architectural College; M.Arch., Architecture, University of Kansas; Ph.D., Middle East Studies/Arch. & Urbanism, University of Utah.

SONG, Jae (2008); Associate Professor. Faculty, Developmental Mathematics; B.S., Mathematics, M.S., Statistics, Brigham Young University; B.S., Mathematics Education, Utah Valley University.

SORENSEN, D. (2012); Artist in Residence. Faculty, Music; B.A., Music, Brigham Young University.

SORTORE, Jeremy (2016); Assistant Professor. Faculty, Theatrical Arts for Stage & Screen; M.F.A., Voice & Speech Pedagogy, Moscow Art Theatre; M.M., B.M., Vocal Performance, University of Colorado.

SOTOMAYOR, Maritza (2009); Associate Professor. Faculty, Finance & Economics; B.A., Economics, Papal Catholic University of Peru; M.A., Economics, Ceter of Investigation and Economic Teaching, Mexico; Ph.D., Applied Economics, Autonomous University of Barcelona, Spain.

SPENCER, Todd (2019); Assistant Professor. Faculty, Behavioral Science; B.S., Family Studies, Weber State University; M.S., Marriage & Family Therapy, Oklahoma State University; Ph.D., Human Development and Family Science, Oklahoma State University.

SPROUL, Peter (2007); Associate Professor. Faculty, Culinary Arts Institute; A.A.S., Restaurant Management & Operations, State University of New York.

STANLEY, Caleb (2019); Assistant Professor. Faculty, Secondary Education; B.A., Psychology, University of Mississippi; M.Sc., Behavior Analysis and Therapy, Southern Illinois University, Ph.D. (ABD), Rehabilitation, Southern Illinois University.

STANDIFIRD, Tyler (2015); Assistant Professor. Faculty, Exercise Science & Outdoor Recreation; B.S., Exercise Science, University of Utah; M.S., Exercise Science, Brigham Young University; Ph.D., Kinesiology & Sport Studies, University of Tennessee - Knoxville.

STEHENS, Michael (2017); Assistant Professor. Faculty, Earth Science; B.S., Geology and Geophysics, Eastern Michigan University; M.S., Geology and Geophysics, University of Utah; Ph.D., Earth Science, University of California.

STEELE-MAKASCI, Nancy (2008); Associate Professor. Faculty, Art & Design; B.A., Visual Arts Education, M.A., Printmaking and Painting, Ball State University; M.F.A., Printmaking and Drawing, University of Nebraska-Lincoln.

STENCIL, Eric (2012); Associate Professor. Faculty, Philosophy & Humanities; B.A., Philosophy & History, Bowling Green State University; M.A., Ph.D., Philosophy, University of Wisconsin-Madison.

STEPHEN, Daniel (2003); Associate Professor. Faculty, Earth Science; B.S., M.S., Geology, University of Arkansas; Ph.D., Geology (Invertebrate Paleontology), Texas A & M University.

STEVENS, Michael (2010); Professor. Faculty, Biology; B.S., Conservation Biology, Brigham Young University; M.S., Ph.D., Botany, University of Wisconsin-Madison.

STEWART, Perry (2000); Professor. Faculty and Faculty, Art & Design; A.A.S., Technical Biology, Brigham Young University - Idaho; B.F.A., M.F.A., Illustration, Utah State University.

STRATTON, Scott (2015); Lecturer. Faculty, Finance & Economics; B.S., Information Systems, Business Administration, University of Utah; M.S., Personal Finance, J.D., Texas Tech University.

STUDEBAKER, Matt (2018); Lecturer. Faculty, Marketing; B.S., Communication, Utah Valley University; M.B.A., Management & Strategy, Western Governors University.

SWAN, Nicole (2018); Assistant Professor. Faculty, Allied Health; B.S., Special Education, University of Nevada, Las Vegas, M.B.A., Strategy, Claremont Graduate University.

SUN, Xu (2015); Assistant Professor. Faculty, Finance & Economics; B.A., Finance, Henan University of Economics & Law; M.B.A., Ph.D., Finance, The University of Texas - Pan American.

SUTLIFF, Daniel (2016); Professional in Residence. Faculty, Aviation Science; B.S., Business/Aviation, State University of New York; M.A.S., Aeronautical Science, Embry-Riddle Aeronautical University.

SWENSON, Allison (2010); Associate Professor. Faculty, Nursing; A.S., Nursing, Utah Valley University; B.S., Nursing, Utah Valley University; M.S.N., Nursing, Utah Valley University.

SYLVESTER, Steven (2016); Assistant Professor. Faculty, History & Political Science; B.A., M.A., Political Science, California State University, Chico; Ph.D., Political Science, University of Kansas.

T

TALBERT, Mark (2003); Professor. Faculty, Art & Design; B.A., Art Education, Fairmont State College; M.A., Ceramics/Sculpture, Indiana University of Pennsylvania; M.F.A., Ceramics/Sculpture, Utah State University.

TANG, Jingpeng (2014); Associate Professor. Faculty, Computer Science; B.S., Engineering, Southwest Jiaotong University; M.S., Engineering, China Academy of Railway Sciences; M.S., Computer science; Ph.D., Computer Science, North Dakota State University.

TARANTELLI, Madeline (2019); Assistant Professor. Faculty, Music; B.A., Music Education, Florida Gulf Coast University; M.M., Music, University of Miami; D.M.A., Musical Arts, University of Missouri-Kansas City.

972  Course Catalog 2020-2021  Utah Valley University
TAUZIN, Sébastien (2016); Assistant Professor. Faculty, Biology, B.S., M.S., Biological Sciences, University of Bordeaux1; Ph.D., Cell Biology & Physiopathology, University of Geneva.

TAYLOR, Zachery (2015); Assistant Professor. Faculty, Transportation Technologies; B.S., Technology Teaching Education, Brigham Young University; B.S., Technology Management, Utah Valley University.

TAYLOR, James (2017); Assistant Professor. Faculty, Behavioral Science; B.S., Psychology, University of Utah; M.S., Ph.D., Experimental Psychology, Texas Christian University.

TAYLOR, Danielle (2017); Assistant Professor. Faculty, Biology; B.S., Psychology, Ph.D., Neuroscience, Arizona State University.

TAYLOR, Devin (2016); Assistant Professor. Faculty, Biology; B.S., Behavioral Science, Utah Valley University; M.S., Psychology, Brigham Young University; Ph.D., Neuroscience, Arizona State University.

TAYLOR, Darin (1992); Professor. Faculty, Architecture and Engineering Design; A.A.S., Drafting Technology, Utah Technical College; B.S., Technology Management, Utah Valley State College; M.Ed., Instructional Technology, Utah State University.

TAYLOR, Noelle (2019); Assistant Professor. Faculty, Nursing; B.S., Psychology, Arizona State University; Ph.D., Neuroscience, Arizona State University.

TAYSOM, Charles (2019); Lecturer. Faculty, Information Systems & Technology; B.S., Business Management, Utah Valley University; M.S., MIST-Network Security Management, Colorado Technical University.

TEMPLE, Walter (2016); Assistant Professor. Faculty, Languages & Cultures; B.A., French, Elon College; M.A., French Literature, American University; Ph.D., Romance Studies, University of Miami.

TENG, Abraham (2002); Associate Professor. Faculty, Computer Science; B.S., Naval Architecture, National Taiwan University; M.S., Ph.D., Mechanical Engineering, Brigham Young University.

THACKERAY, Lyn (2015); Lecturer. Faculty, Computer Science; B.S., Design Engineering & Computer Graphics Technology, Brigham Young University; M.S., Instructional Technology, Utah State University; Ph.D., Education, Northeastern University.

THACKERAY, Susan (2015); Assistant Professor. Faculty, Technology Management; A.A.S., B.S., Multi-media Communications, Utah Valley State College; M.Ed., Education, Instructional Technology, Utah State University; Ph.D., Education, Curriculum, Teaching & Learning, Northeastern University.

THORNOCK, Christopher (2018); Assistant Professor. Faculty, Art & Design; B.F.A., Fine Art, Art Center of Design; M.F.A., Studio Art, Brigham Young University - Provo.

THORNTON, Debra (1998); Professor. Faculty, English & Literature; B.A., M.A., English, Brigham Young University; Ph.D., English, University of New Mexico.

THULIN, Craig (2006); Professor. Faculty, Chemistry; B.A., Biology, University of Utah; Ph.D., Biochemistry, University of Washington.

TOKE, Nathan (2011); Associate Professor. Department Chair and Faculty, Earth Science; B.S., Geology, University of Vermont; M.S., Ph.D., Geological Sciences, Arizona State University.

TOLMAN, Anton (2006); Professor. Faculty, Behavioral Science; B.A., Psychology, University of Denver; M.A., Psychology, Ph.D., Clinical Psychology, University of Oregon.

TOLMAN, Sean (2011); Associate Professor. Faculty, Engineering; B.S., Ph.D., Mechanical Engineering, Brigham Young University; M.S., Mechanical Engineering, University of Utah.

TROUTT, Jack (2018); Assistant Professor. Faculty, Aviation Science; B.S., Aviation Management, M.S., Ed.D., Aviation Sciences, Oklahoma State University.

TRUJILLO, Doris (2001); Professor. Department Chair, Dance; B.F.A., Modern Dance, University of Utah; M.A., Modern Dance, Brigham Young University.

TRUSCOTT, Brandon (2015); Associate Professor. Faculty, Art & Design; B.A., Studio Art/Graphic Design, Humboldt State University; M.Ed., Cross-Cultural Teaching, National University; M.F.A., Design & Technology, San Francisco Art Institute.

TUFT, Elaine (2006); Professor. Department Chair, Elementary Education; B.A., Elementary & Early Childhood Education, M.A., Elementary Education, Utah State University; Ph.D., Curriculum, Teaching & Educational Policy, Michigan State University.

TYLER, David (2019); Lecturer. Faculty, Transportation Technologies

ULLOA, Sara (2003); Associate Professor. Department Chair and Faculty, Languages & Cultures; B.A., Spanish Translation and Communications, M.A., Spanish Linguistics, Brigham Young University; Ph.D., Instructional Psychology & Technology, Brigham Young University - Provo

V

VAN DE GRAAF, Kara (2016); Assistant Professor. Faculty, English & Literature; B.A., Literature & Creative Writing, Purdue University; M.F.A., Poetry, University of Pittsburgh; Ph.D., English, University of Wisconsin, Milwaukee.

VAN FRANKENHUIJSEN, Machiel (2003); Professor. Faculty, Mathematics; Ph.D., Mathematics, Katholieke Universiteit Nijmegen.

VAN WAGONER, Marty (2017); Professional in Residence. Faculty, Accounting; B.A., M.B.A., Accounting, University of Utah.

VASILEVSKA, Violeta (2010); Professor. Faculty, Mathematics; B.S., M.S., Mathematics, Ss. Cyril and Methodius University; Ph.D., Mathematics, The University of Tennessee.

VILLALOBOS, Gina (2019); Lecturer. Faculty, Languages & Cultures; B.A., Spanish Teaching, M.A., Spanish Literature, Brigham Young University.

VINCENT, Marcus (2005); Associate Professor. Faculty, Art & Design; B.A., Fine Arts, M.F.A., Painting and Drawing, Brigham Young University.

VOGEL, Ryan (2015); Associate Professor. Faculty, Criminal Justice; B.S., Integrated Studies, Utah Valley University; M.A., International Affairs, J.D., American University; J.D., LL.M, Public International Law, Georgetown University.

VOGEL, Charles (1995); Associate Professor. Faculty, English & Literature; B.A., English Literature, M.A., English, Brigham Young University; Ph.D., English, University of California.

W

WILLIAMS, Jeffrey (2020); Assistant Professor. Faculty, Accounting; B.S., M.Acc., Accounting, Brigham Young University; Ph.D. (ABD), Accounting, University of Illinois at Urbana-Champaign.

WYATT, Brittney (2020); Assistant Professor. Faculty, Biology; B.S., Microbiology, Colorado State University; Ph.D., Biological Sciences, Marquette University.

WADDINGTON, Dan (2015); Assistant Professor. Faculty, Criminal Justice; B.S., Justice Administration, Brigham Young University; M.P.A., California State University; Ph.D., Criminal Justice, University of Albany.

WADDOUNPS, Stacy (1993); Associate Professor. Faculty, Student Leadership & Success Studies; A.A., Liberal Arts & Sciences, B.S., Social Studies Composite, M.Ed., Elementary Education/Reading Specialist, Brigham Young University.

WAGER, Jans (1997); Professor. Faculty, English & Literature; B.A., Distributed Studies (Communication Emphasis), University of Colorado; M.A., German, Ph.D., Comparative Literature, University of California.

WAGSTAFF, David (2015); Lecturer. Faculty, Computer Science; B.S., Computer Science, Brigham Young University; M.S., Computer Science, Walden University.

WAITE, Bryan (2007); Professor. Department Chair, Secondary Education; Faculty, Education Graduate Studies; B.A., Spanish, University of Texas; M.A., Spanish Education, Ph.D., Social Multicultural and Bilingual Education, University of Colorado.

WAITE, David (2019); Lecturer. Faculty, Accounting; B.A., Accounting, Brigham Young University; M.Acc., Accounting, Southern Utah University.

WALKER, Kent (2007); Associate Professor. Faculty, Transportation Technologies; A.A.S., Heavy Equipment Mechanics, Utah Technical College; B.S., Business Management, Brigham Young University; M.Ed., Instructional Technology, Utah State University.

WALKER, William (2015); Assistant Professor. Faculty, Engineering Technology; B.S., Electronic Engineering, M.B.A., Weber State University; Ph.D. (ABD), Educational Leadership, University of Nevada, Las Vegas.

WALKER, Christine (1992); Professor. Faculty, Mathematics; A.S., Mathematics, Ricks College; B.A., M.A., Mathematics Education, Brigham Young University; Ed.D., Curriculum and Instruction, Utah State University.

WALSH, Robert (2002); Professor. Faculty, Public & Community Health; B.S., Health Education, Brigham Young University; M.H.E., Health Education, Idaho State University; Ed.D., Health Education, University of Idaho.
WANG, Weihong (2012); Associate Professor. Faculty, Earth Science; B.Sc., Geophysics, M.Sc., Environmental Geology, Jianghan Petroleum University; M.Sc., Geology, Iowa State University; Ph.D., Marine Science, University of South Carolina.

WARBURTON, Trevor (2017); Assistant Professor. Faculty, Secondary Education; B.A., Mathematics and Spanish, Utah State University; M.A., Teaching English as a Second Language, Pennsylvania State University; Ph.D., Education, Culture, and Society, University of Utah.

WARCUP, Robert (2009); Associate Professor. Department Chair and Faculty, Construction Technologies; B.S., Construction Management, Brigham Young University; M.B.A., University of Nevada; Ph.D, Technology & Engineering Education, Utah State University.

WARD, Debra (2017); Assistant Professor. Faculty, Developmental Mathematics; B.A., Mathematics, M.Ed., Ph.D., Mathematics Education, Texas State University.

WARMBIER, H. (2014); Lecturer. Faculty, Strategic Management & Operations; B.S., Computer Science, Wilhelm-Buchner Hochschule, Germany; M.B.A., Business, Utah Valley University.

WARNE, Russell (2011); Associate Professor. Faculty, Behavioral Science; B.S., Psychology, Brigham Young University; Ph.D., Educational Psychology, Texas A&M University.

WASDEN, Cary (2015); Professional in Residence. Faculty, Finance & Economics; B.S., Zoology, M.P.A., Business Development, Brigham Young University; Ph.D. (ABD), International Finance & Economics, Ohio State University.

WASSERBAECH, Steven (2002); Professor. Faculty, Physics; B.S., Mathematics, B.S., Physics, University of Utah; Ph.D., Physics, Stanford University.

WASSINK, Benjamin (2018); Lecturer. Faculty, Communication; B.S., Speech Communication, Utah Valley University; M.A., Communication, University of Montana.

WATERS, Sandie (2008); Associate Professor. Faculty, Elementary Education; B.A., Sociology, St. Mary's University; M.A., Instructional Systems Technology, Indiana University; Ph.D., Instructional Technology, Utah State University.

WATHEN, Mark (2014); Associate Professor. Faculty, Chemistry; B.S., Chemistry, M.S., Organic Chemistry, Utah State University; Ph.D., Chemical Education, University of Northern Colorado.

WAYMAN, Mina (2003); Associate Professor. Faculty and Faculty, Nursing; A.S., Nursing, Brigham Young University - Provo; B.S.N., Nursing, M.S.N., Geriatric Nurse Practitioner, University of Utah.

WEBER, Paul (2012); Associate Professor. Faculty, Physics; B.S., Physics & Mathematics, Bemidji State University; M.S., Physics, Ph.D., Experimental Particle Physics, University of Colorado.

WEIGEL, Christine (2002); Professor. Faculty, Philosophy & Humanities; B.A., Philosophy, B.M., Music Performance, Lawrence University; M.A., Ph.D., Philosophy, Temple University.

WELBORN, Curtis (2005); Professor. Faculty and Director, Computer Science Graduate Studies, Computer Science; B.B.A., Business Administration, University of Texas - Arlington; M.S., Computer Science, University of Texas at El Paso; Ph.D., Computer Science, Texas Tech University.

WELKER, Adam (2019); Assistant Professor. Faculty, Finance and Economics; B.S., Finance, Utah State University; M.S., Financial Economics, Utah State University; Ph.D., Finance, Pennsylvania State University.

WESTOVER, Jonathan (2008); Associate Professor. Faculty, Organizational Leadership; B.S., Sociology (emphasis in Research and Analysis, Business Minor, Korean Minor), M.P.A., Human Resources and Organizational Behavior, Brigham Young University; M.S., Sociology, Ph.D., Sociology, University of Utah.

WHALEY, Wayne (1991); Professor. Faculty, Biology; A.A., Biology, Ricks College; B.S. Ph.D., Zoology, Brigham Young University; M.S., Wildlife Ecology, University of Arizona.

WHALEY, Brian (2003); Associate Professor. Faculty, English & Literature; B.A., History, University of California at Santa Barbara; M.A., English, University of Montana; Ph.D., English, University of Oregon.

WHEATLEY, Laura (2016); Lecturer. Faculty, Exercise Science & Outdoor Recreation; B.A., Social Sciences Education,M.S., Exercise Physiology, Illinois State University; Ph.D. (ABD), Exercise Physiology, University of Utah.

WHIPPLE, Graham (2019); Assistant Professor. Faculty, Theatrical Arts for Stage & Screen; B.A., Brigham Young University; M.F.A., Northern Illinois University.

WHITE, Frederick (2018); Professor. Faculty, Languages & Cultures; B.A., Russian Languages & Literature, The Ohio State University; M.A., Slavic Languages & Literature, University of Kansas; Ph.D., Slavic Languages & Literature, University of Southern California.

WHITE, Lilia (2016); Lecturer. Faculty, Chemistry; M.S., Chemical Engineering, Moscow University of Chemical Technology.

WHITE, Keith (2005); Professor. Faculty, Developmental Mathematics; B.S., M.S., Mechanical Engineering, Brigham Young University.

WHITE, Justin (2018); Assistant Professor. Faculty, Earth Science; B.S., Geographic Sciences, James Madison University; M.S., Geography, Virginia Tech; Ph.D., Geography, University of Nevada.

WILBER, Jason (2018); Lecturer. Faculty, Languages & Cultures; B.A., Spanish, M.A., Hispanic Linguistics, Brigham Young University.

WILKEY, Patrick (2007); Associate Professor. Faculty, Art & Design; B.F.A., M.F.A., Graphic Design, Utah State University.

WILLARDSON, Bennington (2019); Assistant Professor. Faculty, Engineering; B.S., Civil & Environmental Engineering, Utah State University, M.S., Civil and Environmental Engineering, Utah State University; Ph.D., Water Resources Engineering, University of Southern California.

WILLIAMS, Brice (2001); Associate Professor. Faculty, Aviation Science; B.S., Engineering Science and Technology, Brigham Young University; M.Ed., Utah State University.

WILLIAMS, Scott (2007); Associate Professor. Faculty, Exercise Science & Outdoor Recreation; B.A., German Studies, Weber State University; M.S., Recreation, M.S., Business Management, Ph.D. (ABD), Health & Human Performance, University of Florida.

WILLIAMS, Lynda (2011); Senior Lecturer. Faculty, Secondary Education; B.S., Liberal Studies, Westmont College; M.S., Curriculum & Instruction, California State University, Fullerton.

WILLIAMS, Lashawn (2016); Assistant Professor. Faculty, Behavioral Science; B.A., Sociology, B.A., Psychology, Duke University; M.P.A., Criminal Justice, M.S.W., Marywood University; Ph.D., (ABD), Health Professions Education, College of Saint Mary.

WILSON, Bruce (2001); Associate Professor. Faculty, Chemistry; B.S., M.S., Chemistry (minor Physics), Brigham Young University; Ph.D., Chemistry, Texas A&M University.

WILSON, Don (1995); Associate Professor. Department Chair and Faculty, Transportation Technologies; A.A.S., Collision Repair Technology, B.S., Technology Management, Utah Valley State College; M.Ed., Instructional Technology, Utah State University.

WILSON, Sandra (2015); Associate Professor. Faculty, Allied Health; A.A.S., Dental Hygiene, Colorado Northwestern Community College; B.A., Broadcast Journalism, Brigham Young University; M.A., Curriculum & Instruction, Colorado Christian University.

WILSON, Troy (2001); Associate Professor. Department Chair and Faculty, Culinary Arts Institute; A.O.S., Culinary Arts, The Culinary Institute of America, Certified Executive Chef.

WILSON-ASHWORTH, Heather (2000); Professor. Faculty, Biology; B.A., Math Education, Ph.D., Physiology and Anatomy, Brigham Young University.

WINANS, Adrienne (2015); Assistant Professor. Faculty, History & Political Science; B.A., History, University of Chicago; M.A., World History, New York University; Ph.D., History, Ohio State University.

WISLAND, Michael (2003); Associate Professor. Faculty, Digital Media; B.S., M.S., Electrical Engineering, University of Missouri.

WITESMAN, J. David (2016); Assistant Professor. Faculty, Accounting; B.S., Accounting, M.Acc., Taxation, Weber State University; Ph.D., Business Administration, Syracuse University.

WITT, Christopher (2007); Associate Professor. Faculty, Dance; B.S., Business Management, M.A., Dance, Brigham Young University.

WITT, Phillip (2018); Assistant Professor. Faculty, Strategic Management & Operations; B.S., Statistics, Brigham Young University - Provo, M.S., Statistics, Ph.D.,
Operations Management, Washington State University, M.B.A., Business Administration, Utah State University.

**WONG, Cynthia** (2015); Assistant Professor. Faculty, Student Leadership & Success Studies; B.A., Psychology, Brigham Young University, Hawaii; M.M.F.T., University of Southern California; Ed.D., Educational Psychology, University of Southern California.

**WOODWARD, Scott** (2016); Lecturer. Faculty, Biology; A.S., College of Eastern Utah; B.S., Biology, Ph.D., Genetics, Utah State University.

**WORKMAN, Letty** (2000); Associate Professor. Faculty, Marketing; B.A., Philosophy, University of Missouri-St. Louis; M.B.A., Marketing, Southern Illinois University-Carbondale; Ph.D., MIS/Marketing Education, Utah State University.

**WORTHEN, Cherilyn** (2011); Associate Professor. Faculty, Music; B.M., Choral Music Education, M.M., Choral Conducting, Brigham Young University.

**Y YOAST, Tiffany** (2011); Professional in Residence. Faculty, Student Leadership & Success Studies; B.S., English, Utah Valley University; M.S., Education, Nova Southeastern University.

**YOUNG, Kathleen** (2015); Assistant Professor. Faculty, Allied Health; A.S., Dental Hygiene, Cabrillo College; B.S., Dental Hygiene, Utah Valley University; M.Ed., Instructional Technology, University of Utah.

**YOUNG, Christopher** (2015); Assistant Professor. Faculty, Art & Design; B.F.A., Brigham Young University.

**YOUNG, Trervas** (2010); Lecturer. Faculty, Languages & Cultures; B.S., Geography, Utah State University; M.A., Linguistics, Gallaudet University.

**YOUNG, York** (2020); Assistant Professor. Faculty, Physics; B.S., Physics, Brigham Young University, M.A., Physics, University of Rochester, Ph.D., Physics, University of Rochester.

**YOUNGBULL, Kristin** (2019); Lecturer. Faculty, History and Political Science; B.A., Brigham Young University, M.A., University of Oklahoma, Ph.D., Arizona State University.

**YU, Ming** (2016); Assistant Professor. Faculty, Chemistry; B.S., Chemical Engineering, Heilongjiang University, China; Ph.D., Chemistry, Colorado State University.

**YUAN, Guo Fang** (2010); Associate Professor. Faculty, Languages & Cultures; B.A., English Language and Literature and Teaching, Shanghai Teachers’ University; M.A., English Teaching, Beijing Normal University; Ph.D., Educational Policy, Cleveland State University.

**Z ZUBAL, Stefan** (2020); Assistant Professor. Faculty, Dance; B.A., Theatre, Purdue University at Fort Wayne; M.F.A., Florida State University.

**ZAHN, Geoffrey** (2017); Assistant Professor. Faculty, Biology; M.S., Biology, Missouri State University; Ph.D., Biology, University of Arkansas.

**ZANAZZI, Alessandro** (2011); Associate Professor. Faculty, Earth Science; B.S., M.S., Geology, University of Padua, Italy; M.S., Geology, Iowa State University; Ph.D., Geology, University of South Carolina.

**ZHU, Yingxian** (2002); Associate Professor. Faculty, Mathematics; B.S., Mathematics, Anhui University, China; M.S., Mathematics, Dalian University of Science and Technology, China; Ph.D., Mathematics (Graph Theory), Arizona State University.

**ZENG, Larry** (2019); Associate Professor. Faculty, Computer Science; B.S. Applied Mathematics, Xi’an University; M.S., Ph.D., Electrical Engineering, University of New Mexico.
Administration

GENERAL OFFICERS

- President, Astrid S. Tuminez (2018)
  B.A., International Relations and Russian Literature, Brigham Young University; M.S., Soviet Studies, Harvard University; Ph.D., Political Science, Massachusetts Institute of Technology

- Provost & Vice President, Academic Affairs, F. Wayne Vaught (2019)
  B.A., Philosophy, Psychology, and Religion, Georgetown College; M.A., Philosophy, Baylor University; Ph.D., Philosophy and Bioethics, The University of Tennessee - Knoxville

- Vice President, Institutional Advancement, Scott W. Cooksey (2016)
  B.B.A., Marketing, Texas Tech University; Certified Fundraising Executive (CFRE)

- Vice President, Finance & Administration, Val L. Peterson (1988)
  B.A., M.S., Strategic Studies, U.S. War College; M.A., Mass Communication, Ph.D., Educational Leadership, Brigham Young University
