UVU strives to ensure the accessibility of our catalogs. However, if individuals with disabilities need this document in a different format than provided, you may contact the Assistive Technology Center at ACCESSIBLETECH@uvu.edu or 801-863-6788.
Welcome to Utah Valley University!

At UVU we encourage you to come as you are – there is a place for you here. You have a unique story, and your continued development of self, combined with the acquisition and implementation of knowledge, can put you on the path to success — academically, professionally, and personally.

As part of our mission ethos, we are champions of learning by doing. We call it engaged learning. This approach takes the best learning from textbooks, research, and class lectures and combines it with a myriad of opportunities for practical application. Since our founding, we have created connections that help our students expand their horizons and become better prepared to enrich society and the world around them. The world is dynamic, and we believe higher education should reflect that.

Each UVU student, with her or his unique characteristics and background, is important to the whole of the university and plays a crucial role in the vibrancy of our community. I invite you to be actively engaged in your life as students, enjoying the many extracurricular activities and athletic offerings on our campus as you complete your degree. Be assured that the seriousness with which you pursue your studies will be richly complemented and supported by a comprehensive network of invested faculty, staff, and administrators. Together, these women and men will ensure that UVU is a place of exceptional care, exceptional accountability, and exceptional results.

I encourage you to explore the pages of UVU’s course catalog. Our wide range of offerings in certificate programs and associate, bachelor, and graduate degrees reflects our approach to higher education. This integrated model of education, combining career and technical education alongside more traditional academic degree programs, produces first-rate scholars and practitioners in highly sought-after fields. No matter your background or interests, there is a place for you at UVU. So, come as you are — bring your dreams.

Go Wolverines!

Best wishes,
Introduction

Dr. Astrid S. Tuminez

Academic Policies & Standards

Academic Year

The academic year consists of three semesters: fall, spring, and summer. Fall and spring semesters are each made up of 15 weeks of class work and one week for final exams. The summer semester is 14 weeks in length; most classes are offered in one of two seven-week blocks. The time in classes is adjusted to equal the class time of fall and spring semesters, but there is no final exam period during summer.

Course Administration

UVU reserves the right to cancel any course at any time. Reasons for course cancellations include, but are not limited to, low enrollment in the course, space unavailability, instructor change, loss of instructor, and/or program changes. Students enrolled in the course will be contacted as soon as possible by the appropriate school or college when the university decides to cancel a course.

Class Periods/Credits

All credit hours are computed in semester hours. Three hours of work per week are, on average, expected to earn one semester credit hour; however, one credit hour may include any of the following combinations of work:

1. One hour of lecture, plus a minimum of two hours of personal work outside of class, regardless of delivery mode (One hour of lecture is considered to be 50 minutes per week);
2. Three hours in a laboratory, internships, practica, studio work, or other academic work, regardless of delivery mode, with additional outside work in preparation and documentation;
3. Any other combination appropriate to a particular course as determined by the academic department.

All transfer courses taken on a quarter system will be converted to semester hours using a three to two credit ratio. For example, a three credit hour course from a quarter calendar institution transfers to UVU as two semester credits.

Full-time Student Status

Graduate

UVU considers graduate students registered for 9 credits or more per semester or summer to be full-time graduate students. A 9 credit hour minimum load is generally accepted by sponsoring agencies for certifying full-time status.

Undergraduate

UVU considers students registered for 12 credits or more per semester or summer to be full-time students. A 12 credit hour minimum load is generally accepted by sponsoring agencies for certifying full-time status. Financial aid recipients receiving full benefits and students on scholarships are required to carry a minimum of 12 credits per semester.

For students attending only the fall and spring semesters, 15 to 18 credits per semester is generally required to complete associate degree programs within two academic years or bachelors degrees within four academic years, assuming all prerequisites are satisfied (See individual major requirements for exceptions).

Credit Hour Loads in Excess of 20

Students who enroll in 21 or more credit hours in a semester must have approval from the deans of the appropriate schools and/or colleges.

Year Classifications & Credit Hours

Freshman: 0-29 credit hours
Sophomore: 30-59 credit hours
Junior: 60-89 credit hours
Senior: 90 or more credit hours
Grading Policies

Grades are determined by instructors, based upon measures determined by the instructor and department and may include: evaluation of responses, written exercises and examinations, performance exercises and examinations, classroom/labatory contributions, mastery of pertinent skills, etc. The letter grade “A” is an exceptional grade indicating superior achievement; “B” is a grade indicating commendable mastery; “C” indicates satisfactory mastery and is considered an average grade; “D” indicates substandard progress and insufficient evidence of ability to succeed in sequential courses; “E” (failing) indicates inadequate mastery of pertinent skills or repeated absences from class; “UW” indicates unofficial withdrawal from class.

The following table indicates each grade variant and the equivalent grade points for that variation.

<table>
<thead>
<tr>
<th>One credit of:</th>
<th>Equals grade points:</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
</tr>
<tr>
<td>B+</td>
<td>3.4</td>

<tr>
<td>CEU</td>
<td>Noncredit—Continuing Education Unit</td>
</tr>
<tr>
<td>T</td>
<td>In Progress (Temporary Status)</td>
</tr>
</tbody>
</table>

The GPA is determined by dividing the total grade points earned (credit hours times grade in points above) by the number of semester hours attempted.

Students may view final grades electronically on the myUVU system after the end of the semester. All financial obligations to the Institution and “holds” on academic records must be resolved before college transcripts are issued.

Incomplete (I) Grades

Students are required to complete all courses for which they are registered by the end of the semester. In some cases, a student may be unable to complete all of the course work because of extenuating circumstances. The term “extenuating circumstances” includes: (1) incapacitating illness which prevents a student from attending classes (usually more than five consecutive class days); (2) a death in the immediate family; (3) change in work schedule as required by employer; or (4) other emergencies deemed acceptable by the instructor.

If circumstances are deemed appropriate, the student may petition the instructor for time beyond the end of the semester to finish the work. If the instructor agrees, an “I” grade will be given. An Incomplete Grade Form indicating work completed and work to be completed must be signed by the student, instructor, and the department chairperson, and turned into the Registrar’s Office at the end of the semester.

“I” grades should not be requested nor given for lack of completion of work because of procrastination or dissatisfaction with the grade earned. Per policy, students must be passing the course and have completed 70% or more of the course work in order to qualify for an incomplete.
Introduction

Specific arrangements to remove an “I” grade must be made between the student and the instructor. In most circumstances, work to be completed should be finished in the first two or three weeks following the end of the semester in which the “I” was given. Failing to complete the “I” and replace it with the appropriate letter grade may negatively affect any financial aid.

Incomplete work cannot be completed by retaking the class. If such an option is preferred, the student must take the grade earned and then retake the class for a better grade. The grade for the later class will be calculated in the GPA. In all cases, the “I” grade must be made up within one year. If it is not, the “I” grade will change to an “E” on the transcript. “I” grades are not computed in the GPA.

Repeating a Course

No additional credit is allowed for repeating a course in which the initial grade was passing unless the course number for the course ends in the letter suffix “R” or “Z” (a course designed to be repeatable for credit). For other repeated courses, the most recent grade will be used in the calculation of the GPA. Upon successful completion of the repeated course, the repeat is indicated on the student's transcript (E=Exclude, I=Include). All work will remain on the records, ensuring a true and accurate academic history. (Note: Although not used in computing the UVU overall GPA for UVU purposes, many graduate programs, such as law or dental school, include ALL grades in calculating an overall GPA for admissions criteria.)

Courses are not accepted from other institutions for the purpose of posting a repeat of a course already taken at UVU.

Board of Regents policy requires that students shall be charged at the full cost of the instruction tuition for repeating a course more than once, unless the institution determines that the repetition is a result of illness, accident or other cause beyond the student's control or unless the course is prescribed by the student's program of study. This affects all courses beginning January of 2003.

Changing a Grade Other than an Incomplete

Policy

Any student who has reason to believe that a grade assigned in a specific course was not justified has the right to appeal that grade.

Procedure

Student Action—

Grades may be appealed within one year of issuance in the following manner:

First, the student shall approach the instructor of the course as soon as possible after receiving the final grade. They have the right to discuss the merits of their appeal in an informal and non-threatening environment.

Second, after obtaining feedback from the instructor regarding the rationale for assigning the original grade, and assuming dissatisfaction still exists at the conclusion of the first step, or if the original instructor is no longer available, the student has a right to submit a written appeal to the department chair, in a consultation setting.

Finally, if a mutual understanding cannot be reached in the second step, the student has the right to submit a formal written appeal through the Office of the Registrar to the University Academic Standards Committee, which exercises final authority in adjudicating the appeal.

Faculty Action

During the first year after the issuance of a grade, an instructor for a specific class may submit a grade change form with proper documentation directly to the Records Office.

During the second through fifth years, the grade change form must be accompanied by an Academic Standards Petition filled out by the student and submitted by the course instructor or department chair directly to the registrar. If a grade change is requested and the faculty member who gave the original grade is no longer employed by UVU, the appropriate department chair may make the change if it is warranted.

After five years, a grade change may be considered only where evidence exists to prove that an error occurred in the recording of the original grade or extreme extenuating circumstances existed. In the latter case, an Academic Standards Petition with appropriate documentation may be submitted to the Office of the Registrar for possible consideration by the University Academic Standards Committee.

When the Records Office receives a signed change of grade form from an instructor, the new grade(s) are entered into the computer. An explanation of the transaction is entered into the student's record, including what the old and new grades are.

Withdrawal & Reinstatement

Students may drop and withdraw from classes according to the dates and deadlines posted on the Semester Student Timetable. Classes may be dropped and not appear on the transcript through the drop deadline. After the last day to drop noted on the Semester Student Timetable, a grade of “W” will appear on the transcript for all official withdrawals and students will be responsible for tuition and fees. A “W” grade could impact a student's satisfactory academic progress with the Financial Aid and Scholarships Office.

Withdrawal from a course after the last day to withdraw deadline may only be for extenuating circumstances and not solely for academic difficulty, and requires the signature of the department chair with a department approval stamp. Such changes to a student's schedule may adversely affect current and future financial aid, scholarships and/or refunds. Students are cautioned to see a financial aid advisor before attempting to completely withdraw from school.

If a student stops attending (but does not officially withdraw) before the last day to withdraw, they should receive a “UW.”
If a student stops attending (but does not officially withdraw) **beyond the last day to withdraw**, they may receive the grade earned up to that point, or an “E”, at the instructor’s discretion.

“UW’s” are calculated into the grade point average (GPA) as 0.00, the same as “E’s” (failing grades).

**Administrative Drops and Withdrawals**

Students may be dropped or withdrawn from classes by the administration if they: 1. register, but do not attend courses within the first three class periods of a semester; 2. register for courses for which they have not completed prerequisites; 3. neglect to pay tuition and fees for any given semester by the deadline published in the Student Timetable; or 4. other administrative reasons. Such changes to a student’s schedule could affect financial aid, scholarships, and/or refunds.

**Withdrawal from the Institution**

It is the responsibility of the student who withdraws from school to complete the online Leave of Absence process. If withdrawing (Leave of Absence) after the refund period noted in the Semester Student Timetable, a grade of “W” will appear on the transcript for all official withdrawals and students will be responsible for tuition and fees. A “W” (official withdrawal) grade could impact a student’s satisfactory academic progress with the Financial Aid and Scholarships Office. Complete withdrawal from college may adversely affect financial aid and/or Veterans’ benefits.

Simply stopping attendance does not qualify as an official withdrawal, and a student who does so may receive a failing grade.

**Reinstatement**

Students who withdraw from UVU and then desire to be reinstated during the same academic semester may do so by obtaining clearance from the Registrar’s Office and completing the late registration process.

**Student Military Leave Procedure**

Students activated into military service during an academic semester for which they are currently enrolled have the following options to choose from, in addition to other alternatives provided by existing policy and regulation. The student is responsible to notify appropriate Institution officials regarding the implementation of the selected option.

1. A request to withdraw from school will be honored with a full refund of all tuition and fees paid. Non-punitive “W’s” will be recorded on the transcript and the date of action maintained on the student’s record.
2. Incomplete grades may be negotiated with individual faculty and/or departments based on realistic means of completing the required objectives of the course(s). Where recommended by the department (faculty), the time limit for completing the “I” may be extended. This option may include “home study” as a means of completing the required work with faculty approval and where practical.
3. Current grades (grades earned at the point of termination) may be issued at the discretion of individual faculty. This is also a negotiated option.

In all cases, the student activated into military service is eligible for readmission.

**Noncredit Continuing Education Unit (CEU)**

Noncredit or Continuing Education Students are taking courses to pursue personal or professional interest, gain general knowledge, learn a new skill, upgrade existing skills, or enrich their personal understanding of a wide variety of topics. These courses do not offer college credit, but in some cases noncredit or continuing education students can earn continuing education units, certification or other evidence of class completion to meet personal or professional requirements. Noncredit course work cannot be substituted for a credit requirement or any required course on a degree pathway.

**College Credit**

College credit at UVU may be obtained through the following methods: 1. UVU Credit (includes Cooperative Education); 2. Transfer Credit; 3. Challenge Credit; 4. Foreign Language Challenge Credit; 5. Advanced Placement Credit; and 6. CLEP (College Level Examination Program).

### 1. UVU Credit

UVU credit is obtained through admittance to UVU, registering for classes, and satisfactorily completing all required course work. Courses completed through this method will receive a letter grade that will be used in calculating Grade Point Average (GPA).

**Cooperative Education**

Cooperative Education (Coop) offers another avenue for students to obtain UVU college credit. Students enrolled in cooperative education work as paid employees of a business, agency, or institution while enrolled at UVU in classes related to their career. Academic credit for cooperative work experience is granted according to the number of hours a student works during the semester using the following formula:

<table>
<thead>
<tr>
<th>Credit hours</th>
<th>Minimum hours of work</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>75</td>
</tr>
<tr>
<td>2</td>
<td>150</td>
</tr>
<tr>
<td>3</td>
<td>225</td>
</tr>
<tr>
<td>4</td>
<td>300</td>
</tr>
</tbody>
</table>
Introduction

<table>
<thead>
<tr>
<th>Credit hours</th>
<th>Minimum hours of work</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>375</td>
</tr>
<tr>
<td>6</td>
<td>450</td>
</tr>
<tr>
<td>7</td>
<td>525</td>
</tr>
<tr>
<td>8</td>
<td>600</td>
</tr>
</tbody>
</table>

Coop credits are registered for at the same time and in the same manner as UVU credits.

Courses completed through Cooperative Education will receive a credit/no-credit grade which is not included in the calculation of the GPA.

The maximum number of coop credits that may be applied toward a certificate is 8; a diploma is 14; an associate or bachelor’s degree is 16 credit hours. Departments define how coop credit is applied to specific programs. Additional coop credit may be taken (but not applied toward graduation) with approval of the cooperative education director and the appropriate dean.

2. Transfer Credit

It is the student’s responsibility to have official transcripts of any previous college work completed elsewhere sent to the UVU Admissions Office. Transcripts accepted as official by the UVU Admissions Office are automatically sent to the Transfer Credit Office for evaluation and posting. The Transfer Credit Office may require the student to supply the catalog, bulletin, or course outlines from previous schools attended to assist in determining the transferability of specific courses. Transfer credit may or may not apply to UVU graduation requirements, regardless of the number of credits transferred.

Transfer courses with grades below “C-” will not be accepted by UVU. Transfer courses are not calculated in the GPA. Individual departments reserve the right to impose limits on the age and grade level of transfer credit. There is no limit to the number of transfer credits that may be accepted; however, UVU graduation requirements such as residence, total credits, and GPA must still be met.

Transfer courses will not be accepted from other institutions for the purpose of posting a repeat on a course already taken at UVU.

Courses in religion will be evaluated on the basis of the particular orientation of the course as determined by the UVU Religious Studies Committee. In order to be considered, these courses must be listed on an official transcript from a regionally accredited institution and must demonstrate scholarly rigor and critical engagement with the subject matter.

General Education for Transfer Students

For transfer students from any Utah State Higher Education institution, UVU shall accept at full value all General Education course work approved by the sending institution; provided it meets the minimum C- letter grade requirement, in any area specified by the Board of Regents document R470. These areas include Composition, Quantitative Literacy, Fine Arts, Humanities, Social and Behavioral Science, Biology and Physical Science. UVU shall require transfer students to complete any additional coursework needed to satisfy the unmet portions of the UVU General Education requirements. Previously completed General Studies course work shall be applied to assure the best possible fit with UVU’s General Education requirements. As each transfer student’s requirements may vary, see the Transfer Credit Office (BA 113 for specific requirements.

An AA or an AS degree earned at any USHE institution will meet the General Education requirements of UVU. The degree must include equivalents of UVU’s English, Mathematics, and American Institutions requirements or the student will have to fulfill these requirements separately.

Credit for ACT/SAT Scores

On May 12, 2015, Senate Bill 196 - Math Competency Initiative passed which mandated that the State Board of Education establish a qualifying score for ACT/SAT scores in order to award college credit for a mathematics course. This course must satisfy the state system of higher education quantitative literacy requirement. This initiative will go into effect as of the 2016-2017 school year. High School students who have graduated during the 2016 school year and onward will be eligible for QL 1900 based off of an ACT score of 26 or an SAT score of 660.

U.S. Institutions outside of Utah

For transfer credit to be accepted by UVU, the institution from which credit is to be transferred must be accredited by one of the following regional associations:

- Middle States Association of Colleges and Schools (MSA)
- Northwest Commission on Colleges and Universities (NWCCU)
- North Central Association of Colleges and Schools (NCA)
- New England Association of Schools and Colleges, Inc./Commission on Institutions of Higher Education (NEASC-CIHE)
- Southern Association of Colleges and Schools/Commission on Colleges (SACS-CC)
- Western Association of Schools and Colleges/Accrediting Commission for Community and Jr. Colleges (WASC-Jr.)
- Western Association of Schools and Colleges/Accrediting Commission for Sr. Colleges and Universities (WASC-Sr.)

A completed associate degree (i.e. AA or AS) designed for transfer earned at one of these regionally accredited institutions will fill most of the UVU general education requirements if the degree includes a minimum of 30 semester credit hours of general education that is broad and representative of UVU’s general education core. The completed AA or AS degree must include direct equivalents of UVU’s English, Mathematics, and American Institutions requirements or the student must fulfill these requirements separately. If the courses within the transferable degree aren’t considered to be transferable or general education courses, the classes and the degree may not be recognized and courses will be evaluated individually for transferability and equivalency.

Non-accredited institutions may be accepted on an exception basis by individual departments.
Military courses are evaluated using the ACE recommendations from the Guide to the Evaluation of Education Experiences in the Armed Services. Approved credits will be applied if they directly pertain to a student’s individual undergraduate degree program.

**International and Foreign Institutions**

The Transfer Credit Office, working with department academic advisors and faculty, is authorized to evaluate credit from foreign colleges, universities, and/or International Baccalaureate (IB) Diplomas after a student has been admitted to UVU. International students requesting transfer of credit from foreign institutions of higher education must submit a transcript from an approved Foreign Credentials evaluation Service. See the Transfer Credit Office (BA 113) for a list of these accepted services.

Transfer courses from international and foreign institutions are not calculated in the GPA.

**3. Challenge Credit/Experiential Credit**

(Equivalency Examination and/or Documentation of Earned Competency)

No more than 25 percent of the minimum credits required toward a bachelor's degree, and associate degree, diploma, or certificate of completion, may be awarded through experiential and/or challenge credit. Challenge credit and experiential credit are not eligible for use in a certificate of proficiency. Credit for courses that appear in the current catalog may be awarded to individuals who can prove through appropriate assessment and/or documentation that they have already acquired the equivalent knowledge and/or expertise required for successful completion of that course.

To receive experiential/challenge credit for a specific course, the student must

1. Be enrolled at the University.
2. For Challenge credit, complete a comprehensive examination (theoretical and/or applied) with at least a “C-” grade; or for Experiential credit, provide documentation of practical experience to the satisfaction of the department chairperson and dean showing course objectives have been met; or with the departmental approval, complete an advanced course with a grade of "C-" or higher (if deemed necessary by the department) as a validation procedure.
3. Pay, in advance, a nonrefundable processing fee.
4. After successful completion of requirements, pay the per-credit-hour fee.

A specific course shall be challenged only once, and a student shall not receive challenge/experiential credit for a course that the student is/or has been previously enrolled in and received a grade, including a "W or AU" grade.

Duplicate credit will not be awarded.

Grades shall be recorded only as "CR" (credit) and shall not be calculated in a student's university GPA.

**4. Language Challenge Credit**

Students may obtain an Experiential Language Credit Request Form in the UVU Languages and Cultures Department.

Students who have acquired proficiency in languages **offered at UVU** by means other than college courses (high school, foreign residency, etc.) may earn up to 16 credit hours. To qualify for these credits, a student shall complete a course in that language at a higher level than the credits for which they apply; and the grade in that course must be a “C-” or better.

To qualify for credit for language courses **not offered at UVU**, a student may, as an alternative, take the appropriate language test at any accredited four-year institution and provide UVU with the satisfactory (C- or better) test results. In this circumstance, the student must meet with the Languages and Cultures department chairperson to ascertain the maximum language credits that may be applied to any degree from UVU.

Proficiency tests to determine placement (not credit) in advanced courses are administered in the UVU Classroom Testing Center prior to the beginning of each semester. Students unsure of their language skills must take the test or receive permission from the course instructor before registering for advanced classes.

Students who qualify for credit under the above provisions (for example, they register for, and successfully complete, Spanish 2010 with at least a “C-” grade, thus qualifying for the credits for the previous courses—1010 and 1020) must petition for those credits (application forms are available in the Languages and Cultures Department) and pay a fee for each credit hour. No additional tuition will be charged for those credits. The credits will be listed on transcripts as “CR” and are not calculated in the GPA.

Additional information regarding language challenge credit and other policies are available from the Languages and Cultures Department.

**5. Advanced Placement Credit**

Students who complete an Advanced Placement Exam through CollegeBoard may earn up to 8 academic credits per test with a score of 3, 4, or 5, as per the policies set forth by the Utah State Board of Regents. Students having AP test scores of 3 or higher should contact the Transfer Credit Office to ensure posting of the results to their UVU transcripts.

Specific equivalencies and acceptance criteria are updated annually, upon departmental faculty review and approval.

If all **residence, credit, and grade point average** requirements have been met, there is no limit to the number of Advanced Placement credits that may be accepted; however, duplicate credit for tests and course work shall not be applied.

AP credit will be posted as a "CR" grade and will not be calculated in the GPA.
6. CLEP Credit (College Level Examination Program)

Students may receive college credit for CLEP exams as specified on the approved list in the Transfer Credit Office. Additionally, students intending to transfer to another institution from UVU should meet with their intended transfer institution to gain advance information on how that institution accepts CLEP credit.

CLEP credit will be posted as a “CR” grade and will not be calculated in the GPA.

The amount of credit given through CLEP subject examinations is determined by the appropriate departments. No more than 25 percent of the minimum credits required toward a degree may be awarded through CLEP and/or Challenge/Experiential Credit hours.

Course Number System

0000-0999 Remedial or preparatory noncredit courses; may not be counted toward a certificate, diploma, associate, or bachelor’s degree. Technical, nontransferable courses may count toward a certificate.

1000-2999 Lower division (freshman and sophomore courses); courses designed as transfer courses; count toward a certificate, diploma, associate, and/or bachelor’s degree.

3000-5000 Upper division (junior and senior courses); courses designed to count toward a bachelor’s degree, or any other degree as required by department.

6000 Graduate courses; regular courses in master’s level programs.

Learning Enrichment courses with 1000 level numbers do not satisfy General Education requirements for the associate or bachelor’s degrees. These classes may count as electives for the Associate in Arts, Associate in Science, and Bachelor of Science degrees.

The letter suffix “R” indicates that a course is repeatable for credit (example: PES 161R). Course descriptions indicate the number of “repeats” allowed.

Variable and partial credit is indicated by letter suffixes of “A,” “B,” “C,” etc. (example: ACC 201A = 4 credits and ACC 201B = 2 credits). Changing the hours of credit for a variable-credit class after registration may be done only through the add/drop (class change) procedure. Such changes must be made prior to completion of that partial course.

“Honors” credit courses are identified on the transcript by an “H” following the course number (example: ENGL 225H).

Global/Intercultural credit courses are identified on the transcript by a “G” following the course number (example: ANTH 101G).

Undergraduate Academic Standards

- Academic Counseling Center
- Office: LC 402
- Telephone: 801-863-8425

Policy

Academic standing is determined by the grades a student earns at UVU. A student with the most recent semester grade point average (GPA) and cumulative GPA of 2.0 or higher on a 4.0 scale is in good academic standing. When a full- or part-time undergraduate student fails to maintain a semester or cumulative GPA of 2.0 on a 4.0 scale, the student shall be notified of progressive academic intervention actions.

Students placed on alert status, academic warning, academic probation, and continued academic probation remain eligible for all extracurricular activities as governed by the rules of the specific activity. This policy does not include nor preclude additional program requirements that may be mandated by specific departmental majors.

Procedures

Academic intervention shall be applied progressively in the order described below.

Alert Status

When a student is not making adequate progress towards course completion and the instructor is unable to resolve the issue with the student, the student may be placed on alert status. A registration hold may be placed on the student’s record. The student must then meet with their academic advisor for guidance before the registration hold will be removed.

Academic Warning

When the semester GPA falls below 2.0 and the cumulative GPA is 2.0 or above, the student shall be placed on academic warning regardless of alert status. A registration hold shall be placed on the student’s record. The student must complete an academic success warning workshop and meet with their academic advisor before the registration hold will be removed.

Academic Probation

When the semester and cumulative GPA both fall below 2.0, the student will be placed on academic probation. A registration hold shall be placed on the student’s record. The student must complete an academic success probation workshop, develop an academic success plan, and meet with their academic advisor before the registration hold will be removed.
Continued Academic Probation
If the student on academic probation fails to raise the cumulative GPA to a 2.0 or above in the subsequent semester, the student will be placed on
continued academic probation. A registration hold shall be placed on the student’s record and the student must prepare an academic success plan
with their academic advisor as well as the academic standards counselor before the registration hold will be removed. The student may also be
required to attend another academic success probation workshop and/or enroll in a college success class.

All students on continued academic probation will be required to submit an in-progress grade report to the Academic Standards Office in order to
register for any subsequent semester(s). The student shall continue to receive advisement from the academic standards counselor, as well as their
academic advisor, to monitor and promote academic progress.

Academic Suspension
When on continued academic probation, a student receiving a semester and cumulative GPA below 2.0 in a subsequent semester shall be placed
on academic suspension. The student shall be immediately dropped from enrollment in all current semester classes and a registration hold shall
be placed on the student’s record. The student shall be suspended for a minimum of one full semester. During this time the student is expected to
resolve all academic problems that led to the academic suspension.

To re-enroll at the University, a student must submit a Petition for Academic Suspension Review to the Academic Support Committee. This
committee will make suggestions for specific customized interventions to be approved by the Academic Standards Committee. A decision shall
then be rendered as to whether, and under what conditions, the student may continue to study at the University. The student must complete the
requirements set forth by the Academic Standards Committee before the registration hold will be removed.

Academic Probation Returning from Academic Suspension
When the academic suspension petition is granted, the student is allowed to resume their academic studies under probation returning from
suspension. This status allows the student to register for classes under the guidance of the Academic Standards Office, in conjunction with their
academic advisor. As long as the student acquires a semester GPA of 2.0 or above in all subsequent semesters and abides by the conditions
outlined by the Academic Standards Committee, the student may continue to enroll in classes. The student will remain on academic probation
returning from academic suspension until the cumulative GPA is at or above 2.0.

Academic Dismissal
When failing to comply with the conditions set forth by the Academic Standards Committee while on academic probation returning from academic
suspension, the student shall be dismissed from the University and immediately dropped from enrollment in all classes. A registration hold shall be
placed on the student’s record.

The student may not re-enroll at the University or submit a Petition for Academic Dismissal Review for a minimum of one full calendar year from the
date of academic dismissal. During this calendar year, the student may also be required to attend another institution and complete 18 credits with at
least a 2.5 GPA. Upon review by both the Academic Support Committee and the Academic Standards Committee, a decision will be rendered as to
whether or not, and under what conditions, the student may re-enroll at the University.

Any student who returns to the University after being dismissed will be placed on academic probation returning from academic dismissal and will be
required to follow the academic plan outlined by the Academic Standards Committee.

Academic Probation Returning from Academic Dismissal
When the Petition for Academic Dismissal Review is granted by the Academic Standards Committee, the student is allowed to continue their
academic studies on academic probation returning from academic dismissal. The student is allowed to register for classes under the guidance of
the Academic Standards Office, in conjunction with their academic advisor. As long as the student acquires a semester GPA of 2.0 or above in all
subsequent semesters and abides by the conditions outlined by the Academic Standards Committee, the student may continue to enroll in classes.
The student will remain on probation returning from dismissal until the cumulative GPA is at or above 2.0.

Appeals
When the student’s Petition for Academic Suspension Review or Petition for Academic Dismissal Review is denied by the Academic Standards
Committee, the student may present an appeal to a hearing panel that consists of the Academic Standards Committee and a representative
appointed by the President of the Utah Valley University Student Association (UVUSA). After review of the petition, the hearing panel will determine if
the student’s appeal is granted or denied. If the appeal is granted, the hearing panel shall determine the conditions for re-enrollment at the University.

If the student is unsatisfied with the hearing panel’s decision, the student has the right to appeal in writing to the Vice President of Academic Affairs.

Academic Renewal
For students who are challenged with a low GPA or for those who have experienced a period of low grades that does not reflect their academic
potential, UVU offers academic renewal. A student is allowed to petition the Registrar for academic renewal only one time during his or her
enrollment at the University. This process shall remove a limited amount of previous academic work from the student’s GPA and from credit toward
graduation. To be eligible a student shall meet the following conditions at the time the petition is filed:
1. The student must be currently enrolled at UVU.
2. A minimum of two years has elapsed since the most recent course work to be eliminated was completed.
3. The student has completed at least 30 semester hours of UVU course work with a minimum cumulative GPA of 2.50. These 30 hours shall
   have been completed after the course work the student is requesting to eliminate.
Introduction

4. The student's cumulative GPA is below the level necessary for graduation in his or her current program of study. In most instances, this is a 2.0 cumulative GPA.
5. The requested course work has not been used toward an existing degree.

The student may request a maximum of two specific semesters/terms of academic course work be eliminated from his or her earned credits and cumulative GPA. Individual courses shall not be accepted.

If the petition qualifies under this policy, the student’s permanent academic record shall be annotated to indicate that no work taken during the disregarded semester(s) and/or term(s), even if satisfactory, shall apply toward earned credits, GPA, academic standing, and/or graduation requirements. All work shall remain on the records, ensuring a true and accurate academic history. The words “Academic Renewal” and the affected semester(s)/term(s) shall be annotated on the student’s transcript.

Academic renewal shall not be requested to earn or change academic honors status on a student’s transcript.

Academic Renewal cannot be applied for either hours attempted/completed (quantitative Satisfactory Academic Progress), or cumulative GPA (qualitative Satisfactory Academic Progress) for Title IV (Federal Financial Aid) purposes. Students who are granted Academic Renewal at UVU will have the credit hours removed from their earned credits and GPA for academic purposes. However, for Satisfactory Academic Progress purposes, students are measured based on the original grades and not the changes due to academic renewal.

No exceptions shall be made to this policy. Students shall be aware that this policy may not be accepted at transfer institutions, and all credit, including those with academic renewal, may still be calculated by the transfer institution.

Academic Distinction

The Dean’s list recognizes those who have demonstrated outstanding academic performance during a term or semester. To be eligible:

1. The student must complete 12 semester hours or more in any semester and a commensurate number of hours in any term.
2. The student must earn a semester GPA of 3.6 or above.
3. The student must have a cumulative GPA of at least 2.0.

University Advanced Standing (UAS)

Definition effective as of the 2021-2022 academic year:

Before students can register for upper-division coursework (3000-level or higher), they must qualify for University Advanced Standing (UAS) by:

- Completing or being registered for Quantitative Literacy (MAT 1030 or higher).
- Completing or being registered for ENGL 2010 or equivalent.

Accreditation

Utah Valley University is accredited by the Northwest Commission on Colleges and Universities.

Accreditation of an institution of higher education by the Northwest Commission on Colleges and Universities indicates that it meets or exceeds criteria for the assessment of institutional quality evaluated through a peer review process. An accredited college or university is one which has available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future. Institutional integrity is also addressed through accreditation.

Accreditation by the Northwest Commission on Colleges and Universities is not partial but applies to the institution as a whole. As such, it is not a guarantee of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance about the quality of opportunities available to students who attend the institution.

Inquiries regarding an institution’s accredited status by the Northwest Commission on Colleges and Universities should be directed to the administrative staff of the institution. Individuals may also contact:

- Northwest Commission on Colleges and Universities
  - 8060 165th Avenue N.E., Suite 100
  - Redmond, WA 98052
  - (425)-558-4224
  - www.nwccu.org

The Northwest Commission on Colleges and Universities (NWCCU) is an independent, non-profit membership organization recognized by the U.S. Department of Education as the regional authority on educational quality and institutional effectiveness of higher education institutions in the seven-state Northwest region of Alaska, Idaho, Montana, Nevada, Oregon, Utah, and Washington.

In addition, some programs or majors have other specialized accreditation.

- Specialized Accreditation, Certification, and Approvals
  - Web: www.uvu.edu/accreditation/specialized.html

Gainful Employment information is provided in compliance with the U.S. Department of Education’s disclosure requirements for programs eligible for Title IV financial aid that prepare students for gainful employment in a recognized occupation as required in 34 CFR 668.6(b). All programs list
Introduction

the following information: CIP Code, Level of Program, Program Length, Tuition and required fees, Estimated costs for books and supplies, Debt at program completion, Program completion in Normal Time, Job Placement, and Related Occupations. Gainful Employment Program Disclosure is listed on all marketing materials for potential students.

General Education

General Education Information

Whereas a major provides students with specialized knowledge, General Education ensures that students have the breadth of knowledge that characterizes well-rounded and well-informed citizens. General Education provides the skills of analysis, problem-solving, creative thinking, and critical thinking that prepare students for an unknown and ever-changing future.

Completion of the UVU General Education requirements will fulfill the General Education requirements at all colleges and universities within the Utah System of Higher Education. However, certain majors, both at this institution and other Utah institutions, may require specific General Education courses. While UVU has not articulated these courses with higher education institutions outside the State of Utah, they will generally articulate to other regionally accredited colleges and universities in the United States. It is the responsibility of students to complete the appropriate General Education courses required by their departments regardless of the generalized list printed in this catalog.

Note: Students taking General Education courses without having declared a specific major are advised in the Academic Counseling Center, LC 402, telephone 801-863-8425. Students who have declared a specific major that is taught at UVU will be directed to the appropriate academic advisor upon completion of new student orientation and assessment activities.

Department Articulation Agreements

In addition to General Education courses, many departments have articulated specific courses that transfer to help fulfill baccalaureate degree requirements. Information concerning these courses may be obtained from UVU department advisors or the Admissions-Transfer Services Office, BA 114.

General Education Code System

General Education course designator codes (Attributes) aid students and transfer institutions to identify how General Education courses meet graduation requirements.

The following list identifies General Education core and distribution courses as they apply to the Associate in Arts/Science Degrees and Bachelor of Arts/Science Degrees, and can be used to search the registration menu:

- AS - American Institutions
- BB - Biology
- CC - English Composition
- FF - Fine Arts
- HH - Humanities
- LH - Foreign Language
- PP - Physical Science
- SS - Social Science
- QL – Quantitative Literacy
- XF - Must be taken with another course to equal FF (see department)

General Education Requirements

Interstate Passport

The Interstate Passport enables successful transfer of a block of lower-level general education learning to other institutions participating in the Interstate Passport Network. Students who complete their Passport at Utah Valley University will not be required to repeat or take additional course work to meet lower-division general education requirements in the Passport’s nine areas when they transfer to any other Passport institution. Utah Valley University will begin transcripting the Interstate Passport following the Fall 2016 semester. Students with an interest in achieving the Passport should see our website at http://www.uvu.edu/transfer/passport.html and contact their Advisor.

Associate in Arts/Science Degrees and Bachelor of Arts/Science Degrees

These requirements satisfy the General Education requirements for both the Associate in Arts and the Associate in Science Degrees, as well as the Bachelor of Arts and the Bachelor of Science Degrees at UVU, taking into account adjustments that may be required by academic departments to
fulfill their specific needs. Honors courses with the same prefix and number also satisfy distribution requirements. Total core and distribution is 35 credits.

**Core Requirements**

These courses provide basic skills in logic, math, written and oral communications, health, and fitness.

**If not used as Core Requirement**
Additional Guidelines for Completion of the Associate in Arts/Science Degrees

The Associate in Arts and the Associate in Science Degrees are designed to complete General Education requirements and could complete lower division pre-majors for baccalaureate degrees at UVU or other colleges or universities.

The General Education courses shown above constitute the majority of the credits required for these degrees. In addition to the General Education requirements, these degrees require 25 additional credit hours.

Associate in Arts Degrees require 8 hours of these 25 hours to be from the same recognized foreign language.

See your specific academic department for further information on appropriate course work to complete a pre-major or the remaining 25 hours. The Academic Counseling Center (LC 402) has some specific outlines available to transfer to other institutions.

Associate in Applied Science Degrees

This is a general outline. Refer to the department or Graduation Office for specific requirements. A total of 16 credit hours is required. Students must have a minimum of three credits in each area, except “F” (Physical Ed/Health/Safety/Environment).

A. ENGLISH

Complete for 3 credits:

ENGL 1010/101H Introduction to Writing
or
MKTG 2200 Business Communication

B. MATHEMATICS

Complete for 3 credits:

MAT 1000 Integrated Beginning and Intermediate Algebra
or
MAT 1010 Intermediate Algebra
or
Any Higher Mathematics course
or
Any approved Departmental Mathematics Course

C. HUMANITIES/FINE ARTS/FOREIGN LANGUAGE

Complete for 3 credits:

PHIL 2050/205G/205H Ethics and Values (Highly recommended)
or
Any approved Humanities, Fine Arts, or Foreign Language Distribution Course

D. SOCIAL AND BEHAVIORAL SCIENCE

Complete for 3 credits:

MGMT 3000 Organizational Behavior
or
Any approved Behavioral Science, Social or Political Science Distribution Course

E. BIOLOGY OR PHYSICAL SCIENCE

Complete for 3 credits: any approved Biology or Physical Science Distribution Course

F. PHYSICAL ED/HEALTH/SAFETY OR ENVIRONMENT

Complete for 1 credit: any approved Physical Education, Health, Safety or Environment Course

Transfer Information

For students transferring to four-year Institutions, Colleges, and Universities in the Utah System of Higher Education.
Introduction

UVU courses numbered 1000 or above will transfer within the Utah System of Higher Education. However, the application of these courses toward graduation is determined by academic departments of receiving institutions.

For students transferring to colleges and universities in the Utah System of Higher Education before earning an Associate in Arts or an Associate in Science Degree, or a Bachelor of Arts or a Bachelor of Science Degree, a certified letter verifying completion of the UVU General Education requirements may be requested from the Graduation Office. This letter will cause the gaining institution (run by the State of Utah) to accept the completion of UVU General Education requirements as fulfilling all of the General Education/Liberal Education requirements of the gaining institution.

Note: Completion of an Associate in Arts/Science Degree waives only General Education requirements. It does not waive the necessary hours to graduate. A student transferring to another institution should check with that institution to see how their credits have been accepted toward their degree.

Private, Parochial, or Out-of-State Colleges & Universities

Since these schools are not bound by Utah State Regent's policies, colleges/universities outside the Utah System of Higher Education may have specific requirements and may not accept all courses available at UVU. Students should contact the institution they are transferring to in order to determine how their credits will be accepted.

Brigham Young University

Brigham Young University accepts the Associate in Arts/Science Degrees for completion of its General Education requirements. Courses with grades of "D+" or lower will not transfer. Some departments at BYU have specific General Education course requirements that will still need to be taken at BYU. Individual departments at BYU should be consulted for exceptions.

Note: BYU has a limit on the number of transfer students admitted.

General Information

Utah Valley University does not discriminate on the basis of race, color, religion, national origin, sex, sexual orientation, gender identity, gender expression, age (40 and over), disability, veteran status, pregnancy, childbirth, or pregnancy-related conditions, citizenship, genetic information, or other basis protected by applicable law, including Title IX and 34 C.F.R. Part 106, in employment, treatment, admission, access to educational programs and activities, or other University benefits or services. Inquiries about nondiscrimination at UVU may be directed to the U.S. Department of Education’s Office for Civil Rights or UVU’s Title IX Coordinator / Director of Equal Opportunity at 801-863-7999 – TitleIX@uvu.edu – 800 W University Pkwy, Orem, 84058, Suite BA 203.

Mission

Utah Valley University is an integrated university and community college that educates every student for success in work and life through excellence in engaged teaching, services, and scholarship.

Our Values

UVU’s culture supports our mission of student success. Student success encompasses both terminal degrees and the holistic education of students, and we believe that we can fulfill this mission best in an environment that allows all individuals to thrive personally and professionally. To this end, UVU, operates in accordance with three core values: exceptional care, exceptional accountability, and exceptional results.

Exceptional Care

We invite people to “come as you are” and let them know that “UVU has a place for you.” Care means that we strive always to “see” the person in front of us — their strengths and weaknesses, struggles and triumphs, past and potential, and inherent dignity and worth. This does not mean that we set low expectations or make excuses for poor efforts. Instead, our commitment to exceptional care means that we set the bar high and provide challenging, honest conversations and feedback because we are deeply invested in seeing every member of our community succeed.

Exceptional Accountability

We are strongly committed to working ethically and effectively. We approach each situation from a position of integrity, knowing that everything we do can help or hinder a positive student experience. We honor the resources and mandates we have been entrusted with and strive always to do our best to honor that trust. We respect each member of our community, seek to understand and fulfill our responsibilities, and recognize both individual and collective successes.

Exceptional Results

We are committed to creating opportunity systematically for as many people as possible. Our engaged curricula, programs, and partnerships address the intellectual and practical needs of our service area and the larger community. We seek to prepare our students to thrive in a rapidly changing economy and an interdependent, complex world. We aspire to greatness in all that we do, while also measuring progress against rigorous metrics that show our students are becoming competent and ethical professionals, lifelong learners, and engaged citizens.
Action Commitments and Objectives

Include

Through open admission and other practices, UVU provides accessible and equitable educational opportunities for every student who wants to receive a rewarding postsecondary education.

- Objective 1: UVU integrates educational opportunities appropriate to both community colleges and universities.
- Objective 2: UVU provides accessible, equitable, and culturally diverse learning experiences and resources for students of all backgrounds, including those historically underrepresented in higher education.
- Objective 3: UVU fosters an inviting, safe, and supportive environment in which students, faculty, and staff can succeed.

Engage

UVU delivers rigorous, meaningful, and experiential learning opportunities driven by a shared responsibility for student success.

- Objective 1: UVU faculty, staff, and students practice excellent, engaged teaching and learning activities as a community of scholars, creators, and practitioners.
- Objective 2: UVU develops relationships and outreach opportunities with students, alumni, and community stakeholders.
- Objective 3: UVU employees demonstrate a commitment to student success, professionalism, ethics, and accountability.

Achieve

UVU champions a university experience that helps students realize their educational, professional, and personal aspirations.

- Objective 1: UVU supports students in completing their educational goals.
- Objective 2: UVU students master the learning outcomes of the university and their programs.
- Objective 3: UVU prepares students for success in their subsequent learning, professional, and civic pursuits.

Roles

As a regional state university, Utah Valley University:

Provides quality academic learning opportunities for students through programs at the certificate, associate, baccalaureate, and graduate levels. To encourage responsible citizenship, emphasis is placed on engaged teaching and learning as well as scholarly work, research, creative achievements, career and technical education and community and professional engagement.

Provides access to higher education and offers a broad range of opportunities from developmental education through honors programs. The institution provides services designed to meet the educational and personal needs of students, to foster student success, to prepare students for meaningful lifework, and to provide access through a variety of modalities, including satellite campuses and the use of technology.

Promotes economic and cultural development to contribute to the quality of life of the region and state. The institution fosters economic development and provides a talent-force to meet the needs of a dynamic economy by offering credit and non-credit programs and services for individuals and organizations. UVU provides cultural experiences that enrich the community and offer significant and varied opportunities for continuous learning.

Historical Development

Utah Valley University was established as Central Utah Vocational School in September 1941 with the primary function of providing war production training.

Post-war training needs found the school offering programs throughout the region and at the Utah County Fairgrounds. The three school districts within Utah County combined efforts to purchase a thirteen-acre site close to Provo High School.

In 1963, the name was changed to Utah Trade Technical Institute to emphasize its growing role in technical training. The name change to Utah Technical College at Provo in 1967 was accompanied by the authority to award the Associate in Applied Science Degree. The Associate in Science Degree was added in 1972.

The initial 185-acre Orem Campus was dedicated in 1977. In 1987, the name was changed to Utah Valley Community College and the Associate in Arts degree was added by the Utah State Board of Regents.

In 1993, the name was changed to Utah Valley State College reflecting the change in mission to offer high demand baccalaureate degrees.

The Utah State Legislature approved, in February 2007, a name change to Utah Valley University that became effective July 1, 2008. The Utah State Board of Regents approved the corresponding mission change in December 2007 to give authority to offer master level degrees; this also became effective July 1, 2008.

Accreditation

Utah Valley University is accredited by the Northwest Commission on Colleges and Universities.

Accreditation of an institution of higher education by the Northwest Commission on Colleges and Universities indicates that it meets or exceeds criteria for the assessment of institutional quality evaluated through a peer review process. An accredited college or university is one which has
Confidentiality of Records Policy

Utah Valley University is concerned for the confidentiality of student academic records, and a reasonable balance between the obligation of the institution for the instruction and welfare of the student and its responsibility to society. The University will make every effort to maintain student academic records in confidence by keeping information from individuals who are not authorized to receive it or who might use it for illegitimate purposes. The policy also reflects the efforts of the University to comply with the provisions of the Family Educational Rights and Privacy Act of 1974.

Upon presentation of appropriate identification and under circumstances which preclude alteration or mutilation of records, students will be able to inspect all records relating to themselves which are not considered by the University to be private records of University Personnel. A student is entitled to an explanation of any recorded data and may initiate action leading to a hearing, if necessary, to correct or expunge information he or she considers inaccurate or misleading.

Faculty and administrative officers who have a legitimate need to use student records will be allowed access to such records, as needed without prior permission from the student. A request from an educational institution to which the student has applied for admission, or from an institution or agency, from which the student is seeking financial assistance will be granted without written permission of the student. Similarly, data will be furnished to university accrediting bodies and governmental officials without written permission of the student.

Other Important Student Information

Student Right to Know

Utah Valley University hosts information regarding the Student Right-to-Know and Campus Security Act of 1991 on the HEA Student Consumer Information website. The Student Right-to-Know Act of 1991 requires all colleges and universities participating in Federal Student Aid Programs to disclose campus security policies, crime statistics, and information on students receiving athletically-related student aid, graduation rates, and other basic information about the University. To access a copy of the current Campus Security Report please visit www.uvu.edu/police.

Alcohol, Tobacco & Drugs

Utah Valley University, historically and at present, seeks to encourage and sustain an academic environment that promotes the health, safety, and welfare of all members of its community. In keeping with these objectives, alcoholic beverages, unlawful drugs, or other illegal substances shall not be consumed, used, carried, sold, or unlawfully manufactured on any property or in any building owned, leased, or rented by UVU, or at any activity sponsored by the University. (UVU Policy 157)

Any individual known to be in violation will be subject to University disciplinary action and to substantial legal sanctions pursuant to Local, County, State and Federal laws.

Smoking is prohibited in all University buildings and concourses. (UVU Policy 158)

All students can access a copy of the University Drug Policy online each semester at www.uvu.edu/wellness/aboutus/drug-policy.html. It explains the policy and University sanctions that may follow as a result of inappropriate drug and or alcohol use and the known health risks associated with inappropriate use.

Introduction

available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future. Institutional integrity is also addressed through accreditation.

Accreditation by the Northwest Commission on Colleges and Universities is not partial but applies to the institution as a whole. As such, it is not a guarantee of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance about the quality of opportunities available to students who attend the institution.

Inquiries regarding an institution’s accredited status by the Northwest Commission on Colleges and Universities should be directed to the administrative staff of the institution. Individuals may also contact:

- Northwest Commission on Colleges and Universities
- 8060 165th Avenue N.E., Suite 100
- Redmond, WA 98052
- (425)-558-4224
- www.nwccu.org

The Northwest Commission on Colleges and Universities (NWCCU) is an independent, non-profit membership organization recognized by the U.S. Department of Education as the regional authority on educational quality and institutional effectiveness of higher education institutions in the seven-state Northwest region of Alaska, Idaho, Montana, Nevada, Oregon, Utah, and Washington.

In addition, some programs or majors have other specialized accreditation.

- Specialized Accreditation, Certification, and Approvals
- Web: www.uvu.edu/accreditation/specialized.html

Gainful Employment information is provided in compliance with the U.S. Department of Education’s disclosure requirements for programs eligible for Title IV financial aid that prepare students for gainful employment in a recognized occupation as required in 34 CFR 668.6(b). All programs list the following information: CIP Code, Level of Program, Program Length, Tuition and required fees, Estimated costs for books and supplies, Debt at program completion, Program completion in Normal Time, Job Placement, and Related Occupations. Gainful Employment Program Disclosure is listed on all marketing materials for potential students.
No student information other than directory information will be given to any third party (except those mentioned above) without written consent of the student, and then only those records accessible to the student. The term party is construed to include parents, employers, government agencies, or any other people or organizations. Parents or guardians may have access to grade reports of a student’s activity if the parents establish to the satisfaction of the University that they are providing one-half or more of the student’s support. Court orders and subpoenas for records will be referred to and acted upon according to the directions of the Registrar. The University will make a reasonable effort to notify the student prior to release of information in response to subpoenas or court orders prior to actual submission of the material.

Directory information will be released to news media and to others upon request.

Directory information is defined as follows:

- Name of student
- Student identification number
- Telephone number of student
- University student email address
- Photographs
- Participation in officially recognized activities and sports
- Weight and height of members of athletic teams
- Hometown city and state of student
- Verification of current enrollment
- Dates of enrollment
- Degrees conferred, dates, major field of concentration and honors received

Students may request, at any time, through the University Registrar’s office.

**Civil Rights**

Utah Valley University does not discriminate on the basis of race, color, religion, national origin, sex, sexual orientation, gender identity, gender expression, age (40 and over), disability, veteran status, pregnancy, childbirth, or pregnancy-related conditions, citizenship, genetic information, or other basis protected by applicable law in employment, treatment, admission, access to educational programs and activities, or other University benefits or services. The following office has been designated to handle inquiries regarding non-discrimination: EOAA/Title IX – 801-863-5704 – 800 W University Pkwy, Orem, 84058, Suite BA 203.

Complete policies and procedures regarding Civil Rights (UVU Policies 152, 153, 154, 157, 158, 160, 161 162, 165) can be found at [www.uvu.edu/policies](http://www.uvu.edu/policies), then click on Policy Manual.

**Policy**

The University prohibits all forms of protected class discrimination, harassment, and retaliation that violate Title VII of the Civil Rights Act of 1964 (Title VII), Title IV of the Higher Education Amendments Act of 1972 (Title IV), Title VI of the Higher Education Amendments Act of 1972 (Title VI), or related applicable laws. The University shall respond promptly and effectively to reports of protected class discrimination, harassment, and retaliation and shall take appropriate action to stop and prevent the recurrence of such conduct on the complainant and/or the university community.

**Prohibited Conduct**

Violations of policy 165 include acts of protected class discrimination, harassment, and retaliation within the meaning of Title VII, Title IV, Title VI, or related applicable laws. The University shall respond promptly and effectively to reports of protected class discrimination, harassment, and retaliation and shall take appropriate action to stop and prevent the recurrence of such conduct on the complainant and/or the university community. The University shall take steps to prevent retaliation and shall take strong, responsive action to threats or acts of retaliation. Individuals who, in bad faith, deliberately make false or malicious accusations of violation of this policy shall be subject to disciplinary action, up to and including termination of employment and/or expulsion from the University. A finding of no violation by the investigator(s) does not in itself constitute proof of a false or malicious accusation. The University may discipline any person who is found to have violated this policy.

**Freedom of Speech and Peaceful Assembly**

**Policy**

Because free expression and the free exchange of ideas are central to the goals of a university, Utah Valley University is committed to the principles of free speech and assembly guaranteed by the United States Constitution and the Utah Constitution, and in accordance with generally accepted concepts of academic freedom. The University is committed to protecting and enhancing the free exchange of ideas and to artistic expression, the right to free speech, and academic freedom in the University and on the university campus without prior restraint or censorship, subject to limitations on unlawful/unprotected speech and to clearly stated, reasonable, and nondiscriminatory rules regarding time, place, and manner.

**Preparation Strategies**

- Plan your peaceful assemblies through the Dean of Students Office
- Reserve an appropriate location from the list below
- Schedule appropriate amplification, if necessary
- Contact University Police for traffic and crowd control, if necessary
- Post fliers and/or cardboard signs according to the University Signage Policy
- Pay rental charges, if required
- Commit to obey local, state and federal laws and University policies
- Agree not to disrupt the educational process of the University
Prohibitions

- Disruption or obstruction of university functions, organized meetings, or other assemblies in such a way as to invade the rights of others to assemble and the rights of speakers to free expression
- Violence
- Assemblies inside buildings where minors or vulnerable populations are predominantly present
- Damage to University or private property
- Use of administrative or academic offices
- Jeopardizing public order or safety
- Interference with entrances and exits to buildings or the normal flow of pedestrian or vehicular traffic
- Interference with classes and teaching, and activities related to teaching or research

Penalties

Persons violating the time, place, and manner restrictions relating to protests and demonstrations may be subject to arrest or other action authorized by law after notice is given of the restrictions being violated and the personas refuse to cease and desist. Student violations of UVU Policy 541 Student Code of Conduct may face disciplinary action.

Locations Appropriate For Peaceful Assembly

Locations are subject to availability; some locations may not be available at all times due to previously scheduled engagements. Speakers may speak in any outdoor area, as long as such speech does not violate time, place, and manner restrictions in UVU policy 161 section 4.8.6.

Locations include rooms inside the Sorensen Student Center, Grand Ballroom, Theater, Centre Stage or meeting rooms; Athletic fields/Lawn areas; Events Center: Arena, or Presidential Level; Student Life and Wellness Center Plaza; and Pope Science Courtyard

Scheduling

Although it is not necessary for persons planning protests, demonstrations, or speakers to obtain prior permission from the University, the University encourages such personals to contact the campus Event Services to reserve or schedule a place in advance to ensure availability.

UVU Event Services, SC 103, 801-863-8612
Events Center Scheduling, EC Concourse, 801-863-8767

Sound equipment shall be used only at volume levels that so not disrupt or disturb teaching, research, or other duly authorized meetings or activities at the University, and in accordance with city ordinances.

Utah Safety Law

In 1965 the Utah State Legislature passed a law requiring every student, teacher, and visitor in any public or private school to wear industrial quality eye protection devices while participating in or observing the following: industrial educational activities involving hot or molten metals; operation of machinery or equipment that may throw particles of foreign matter into the eyes; heating, treating, tempering, or kiln firing of industrial materials; chemistry or physics laboratories when using caustic, explosive, or hot chemicals, liquids, or solids.

Graduation

Graduation Office
Office: BA 113
Telephone: 801-863-8438

Utah Valley University offers the following degrees: Master of Accountancy (MAcc), Master of Business Administration (MBA), Master of Computer Science (MCS), Master of Education (M.Ed.), Master of Science in Nursing (MSN), Master of Public Service (MPS), Master of Science in Cybersecurity (MS), Master of Social Work (MSW), Baccalaureate degrees, Associate in Applied Science (AAS), Associate in Arts (AA), Associate in Pre-Engineering (APE), Associate in Science (AS), Associate in Science in Business (ASB), Associate in Science in Nursing (ASN); Diplomas, and Certificates are also offered.

General Graduation Requirements

Students are expected to familiarize themselves with the rules and regulations of both the University and their specific majors. Detailed information concerning graduation requirements is available in this catalog as part of department descriptions. Responsibility for satisfying all graduation requirements rests upon the student. UVU reserves the right to change graduation requirements at any time.

The University confers degrees, diplomas, or certificates upon students who meet both the General Education requirements of the University and the specific requirements of one of the academic departments.

Credit Requirement

<table>
<thead>
<tr>
<th>Certificate/Degree</th>
<th>Number of Semester Credit Hours Required for Completion</th>
</tr>
</thead>
<tbody>
<tr>
<td>Certificates of Proficiency</td>
<td>Less than 30 credit hours</td>
</tr>
</tbody>
</table>
Certificate/Degree | Number of Semester Credit Hours Required for Completion
---|---
Certificates of Completion | 30–33 credit hours
Diploma | 50 credit hours
Associate in Applied Science Degree | 63–69 credit hours (some disciplines may require more due to specialized accreditation)
Associate in Arts or Associate in Science degree | 60–63 credit hours
Specialized Associate’s degrees | 68-85 credit hours
Baccalaureate degree (Bachelor of Arts, Bachelor of Science, and Professional Bachelor’s degrees) | 120–126 credit hours, 40 of which shall be upper-division credits (level 3000 and above)
Graduate Certificate | 9–29 credit hours

Please see the Graduate Studies section of the catalog regarding credit requirements for master degree programs.

**Grade Point Average Requirement**

A minimum cumulative grade point average (GPA) of 2.0 (C) is required for graduation. In some programs specific course grades below 2.0 will not be accepted for graduation and some programs require a higher cumulative grade point average (see individual program requirements).

**Graduation Catalog Requirement**

Candidates for graduation will be held to the requirements of the catalog under which they were admitted. Students have a maximum of 7 years to complete bachelor degrees and 5 years to complete associate degrees; 6 years are allowed for master degrees. In the case of bachelor degree programs, the seven year limit begins when a student is formally matriculated into the program. When students take longer than the given years to complete, they must have attended UVU during the Catalog Year to use those degree requirements towards graduation.

Programs that are no longer being offered may not be pursued by students who were not admitted or formally matriculated in that program during the accepted period of time. Students may not combine portions of different catalogs to fulfill graduation requirements. Once a catalog is selected, students must abide by all the graduation requirements specified within that catalog. Minors can only be sought if offered during that catalog year. Please see the Graduate Studies section of the catalog regarding catalog year requirements for master degree programs.

**Global/Intercultural Requirement**

The Global/Intercultural requirement is a graduation requirement at the baccalaureate degree level. Courses that may be used to complete this requirement will be coded with a GI course attribute. The purpose of the Global/Intercultural requirement is to assist students to become better prepared to understand and participate in the global and cultural interdependencies that characterize our world. Students who take courses at another university and want to use them for the Global/Intercultural requirement must petition through the GI committee. See the Registrar’s Office (BA 113) for further information. For a complete listing of the courses offered at UVU that fulfill this requirement, see the Course Descriptions section in the back of this catalog for course numbers ending in “G”.

**Residence Requirement**

Credit hours in residency (UVU credits) at a UVU campus, satellite, or branch campus, or through distance education or concurrent enrollment, are required for all certificates, diplomas, and degrees. Minimum hours are as follows:

1. Certificates of proficiency require 25% of total credit hours (rounded up);
2. Certificates of completion require 10 credit hours;
3. Associate degrees and diplomas require 20 credit hours;
4. Baccalaureate degrees require 30 credit hours (10 credits of those 30 shall have been completed within the last 45 credit hours earned for the degree).

**Multiple Degrees**

Students may earn multiple certificates. Students may earn only one academic associate degree from Utah Valley University; either an Associate in Science or an Associate in Arts. With some exceptions, students may earn multiple Associate in Applied Science (AAS) degrees, specialized associate degrees, and baccalaureate degrees.

A second bachelor’s degree may be awarded when all requirements for both degrees are satisfied, along with the following:

1. All UVU General Education requirements are satisfied;
2. Thirty semester hours beyond the original degree are completed;
3. Twenty semester hours of the 30 hours in item 2 above must be completed at UVU (resident hours);
4. Students must receive Dean’s approval for a second bachelor’s degree.

**Dual Baccalaureate Majors (One degree– with two majors)**

A baccalaureate degree with dual majors may be awarded when students complete all requirements for two degrees, but has not met the required 30 semester hours for a second degree beyond the original degree. The student shall receive a single baccalaureate degree; the diploma and transcript shall list both majors.
Introduction

Other information regarding the dual major:

1. Students apply for graduation for one degree, and only one degree type, such as a Bachelor of Arts, or a Bachelor of Science;
2. In order to be awarded a dual major, both majors must be completed during the semester when (or prior to) applying for graduation;
3. If Students have already graduated in one of the majors, they may not apply for a dual major;
4. After being awarded a dual major degree, students may not apply for graduation for one of the dual majors separately;
5. Students shall have no more than three course substitutions from the required courses for the two majors combined.
6. Students may not receive minors in either major, but may be awarded a minor from another area if all requirements are met.
7. Credits shall not exceed the 160 credit hour limit with the two combined majors.

Degree Requirements

Master Degrees
Please see the Graduate Studies section of the catalog regarding degree requirements.

Bachelor of Arts/Science Degrees
Graduation requirements for the Bachelor of Arts/Science Degrees are:

• Completion of a minimum of 120 semester credits, or more if specified by program requirements;
• Overall grade point average of 2.0 (C) or above. Departments may require a higher GPA;
• Residency hours - minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours;
• At least 40 credit hours in upper division courses;
• Completion of General Education requirements. See General Education section above for specific courses required for graduation;
• Completion of specific departmental (major) requirements;
• Completion of Global/Intercultural Requirement course.

For a Bachelor of Arts Degree in programs offering the degree, students must complete 16 credit hours of course work from one language to include the 1010, 1020, 2010 and 202G levels, or transferred equivalents. Some ESL course work may be used to fulfill this requirement. See the ESL department for specific details.

Note: Academic departments may require specific General Education courses in addition to major requirements.

Multiple Emphases
Students may earn additional emphases, with departmental approval under a specific bachelor's degree by completing the requirements for those emphases. Additional emphases shall appear on transcripts, but no additional diplomas will be awarded.

Associate in Arts/Science Degrees*
Graduation requirements for the Associate in Arts/Science Degrees are:

• Completion of a minimum of 60 or more semester credits;
• Overall grade point average of 2.0 (C) or above. Departments may require higher GPA;
• Residency hours - minimum of 20 credit hours earned through course attendance at UVU;
• Completion of General Education requirements. See General Education section for specific courses required for graduation;
• Completion of specific department (major) requirements.

Note: Academic departments may require specific General Education courses in addition to major requirements.

*The Associate in Arts Degree differs from the Associate in Science Degree in that a minimum of 8 credits must be earned in the same Foreign Language.

Language Proficiency
A second language is required to obtain the Associate in Arts Degree. This language must be different from the student’s native language. Language proficiency may be demonstrated by any one of the following methods:

• Eight credits of the same language taken at UVU or transferred from another college; or
• Application of foreign language challenge credit as described in the Foreign Language Challenge Procedures (available from the Languages Department Chair);
• Language credit does not apply to the General Education Humanities Distribution area (except for any 202G course) but will apply as elective credit in the Associate in Arts/Science Degree and as Humanities credit for the Associate in Applied Science Degree.

Associate in Applied Science Degrees
Graduation requirements for the Associate in Applied Science Degrees are:

• Completion of a minimum of 63 semester credits;
• Overall grade point average of 2.0 (C) or above;
• Residency hours - minimum of 20 credit hours earned through course attendance at UVU;
• Completion of department General Education requirements;
Introduction

• Completion of specific department major requirements.

Diplomas
Diplomas require a minimum of 50 credits in a specialty area. Some programs offering Associate in Applied Science Degrees also offer diplomas. Not all departments offer diplomas. See specific department program listings for details.

Certificates of Completion
Certificates of Completion require a minimum of 30 credit hours. Not all departments offer a Certificate of Completion. See specific department program listings for details.

Certificates of Proficiency
Certificates of Proficiency vary in credit hours from 3-29 credit hours. Not all departments offer a Certificate of Proficiency. See specific department program listings for details.

General Graduation Information

Application for Graduation
Graduation is not automatic. Prospective graduates must complete the online Graduation Application on the graduation website (www.uvu.edu/graduation). Applicants may also be required to fill out additional forms/surveys. The application must be completed by the Application deadline as listed below:

Application Deadlines
• Fall semester: First Friday in October
• Spring semester: First Friday in February
• Summer semester: First Friday in June

Graduation applications are processed each semester. Diplomas are mailed to graduates after final grades are reviewed and graduation requirements are verified as completed for all students at the end of the semester. Students failing to complete graduation requirements by the following dates for which they have applied must reapply for graduation. REQUIREMENT DEADLINES:
• Fall semester: January 15th
• Spring semester: May 31st
• Summer semester: September 15th

Requirements may include, but are not limited to: all current semester grades, all “I” (Incomplete) and “M” (Missing) grades, grade changes, challenge and experiential credit, AP (Advanced Placement) credits, CLEP (College Level Examination Program) and DSST (DANTES Subject Standardized Tests) credit, transferred credit, required testing and departmental exceptions. All these items MUST be completed and submitted by the above deadlines. Failure to comply will cause the student to have their graduation declined for that semester. Students will then have to apply for another graduation semester.

Commencement
Commencement exercises are held once each year at the end of spring semester. Students who have completed their graduation requirements during the summer, fall, or spring of that academic year are invited to participate. Attendance is strongly encouraged, but not mandatory.

Financial Holds
Candidates for graduation who owe money to UVU will not receive proof of graduation, diplomas or official transcripts, until all debts are paid.

Graduation with Distinction
Honors at graduation are available to students who meet the following minimum cumulative grade point averages: (Honors designations are computed on hours completed; 20 hours minimum for associate degrees; 30 hours minimum for bachelor's degrees.) These Distinctions are awarded and based only upon GPA and are not related to participation in the UVU Honors Program. Graduate students do not qualify for honors distinction.

Associate Degrees
• Honors GPA 3.60
• High Honors GPA 3.80

Bachelor's Degrees
• Cum Laude GPA 3.60
• Magna Cum Laude GPA 3.80
• Summa Cum Laude GPA 3.90

Note: Please contact the Honors Program (LC 204) for information about the UVU Honors Program.
Valedictorians
Each of the Colleges and Schools of the University will select a valedictorian from a list supplied by the Graduation Office of candidates graduating with honors during the academic year. The status of valedictorian is determined by each school and college, based on competitive criteria. Please check your school or college for requirements and details.

Student Code of Conduct

Purpose of this Policy
To advance the educational objectives of Utah Valley University, this Student Code of Conduct (“Student Code”) establishes standards and procedures necessary to maintain a community conducive to UVU’s three core values: exceptional care, exceptional accountability and exceptional results. This Student Code supports the intellectual, personal, social, and ethical development of all members of the community by promoting the values of civility, integrity, inclusivity, respect, and responsibility. Students at the university are expected to uphold these values through the exercise of their personal freedom and reasoned discourse. This Student Code also establishes the conduct expectations for students of Utah Valley University, outlines students’ rights and due process procedures for addressing alleged student violations of university policies, delineates the range of disciplinary sanctions for violations and establishes procedures for appeal of disciplinary sanctions.

Policy
For a full version of this UVU Policy 541, please visit www.uvu.edu/policies, and click on Policy Manual.

Behavior which violates the Student Code of Conduct should be reported to the office of Student Conduct 801-863-5841 (non-emergency) or Campus Police 801-863-5555 (emergency).

4.1 Scope of this Policy
4.1.1 This policy applies to all students admitted to the University or enrolled in university courses, either full-time or part-time, and to all student conduct that occurs on university campus or at university-sponsored activities. It also applies to off-campus conduct, not otherwise protected by law, that adversely affects the university community and/or fulfillment of the University’s mission, values, and operations. The Dean of Students or designee shall decide whether the Student Code shall be applied to misconduct occurring off-campus on a case-by-case basis. If a student withdraws from the University while a disciplinary matter is pending, the University may continue to apply this Student Code and its processes for resolving that specific disciplinary matter.

4.1.2 The University may respond to allegations of student misconduct at any time even if the alleged misconduct occurs before classes begin, after classes end, during breaks within the semester, or during the break between semesters. The University may also institute its conduct proceedings after a degree is awarded in the event misconduct is subsequently discovered. Where warranted, the University retains the right to revoke an awarded certificate, diploma, or degree.

4.1.3 All academic and behavioral misconduct complaints are subject to the due process procedures for investigation, resolution, and appeals as set forth in this Student Code, with the exception of sexual misconduct and protected class discrimination and harassment, which are exclusively subject to the procedures found in UVU Policy 162 Sexual Misconduct and UVU Policy 165 Discrimination, Harassment, and Affirmative Action.

4.2 Student Responsibilities and Rights
4.2.1 Nothing in this policy shall be interpreted to deny the rights of individuals protected by the U.S. Constitution, including their protected rights to freedom of speech and association, including as set forth in UVU Policy 161 Freedom of Speech.

4.2.2 The University expects all students to engage in responsible conduct, to obey the law, to maintain integrity, and to uphold high standards of individual honesty in all their actions and academic work. The University promotes an environment that values inclusivity and civility, and encourages students to be thoughtful and respectful in their dealings with other members of the campus community.

4.2.3 Students are responsible for knowing the information and procedures in this policy and other university policies applicable to students. The University publishes this Student Code in its catalog, online and in print, and in the University’s Online Policy Manual. The University reserves the right to modify this policy. Alleged policy violations are governed by the policy version in place at the time of the alleged violation. However, Student Code procedures effective at the time of the reporting of the alleged violation will govern the investigation and resolution.

4.2.4 Students shall promptly participate in good faith in informal or formal student conduct investigations related to this policy. If the complainant or respondent fails to participate, the Student Conduct Office may make findings without the response of that party, potentially leading to an unfavorable outcome for that party.

4.2.5 As members of the university community, students have certain rights in addition to their constitutional rights and protections. Students should respect each other’s rights. The University will endeavor to safeguard these rights for all.

4.2.5.1 Academic Evaluation. Students have the right to performance evaluation based on a written syllabus, to accurate information regarding changes in course programs or university requirements and reasonable accommodation of those already enrolled in a program or class(es), to receive academic credit and/or degrees when all specified requirements and coursework have been satisfied, and to make academic appeals
including but not limited to grade changes and withdrawals. See UVU Policy 152 Accommodations for Individuals with Disabilities; UVU Policy 523 Grading; UVU Policy 601 Classroom Instruction and Management; UVU Policy 635 Faculty Rights and Professional Responsibilities.

4.2.5.2 Due Process. Students have the right to be protected from unreasonable decision-making by the University and to have access to University policies that affect them. The University is committed to providing students with balanced and fair systems of misconduct resolution. This Student Code is administrative in nature and is not a civil or criminal proceeding. Students are presumed not responsible for misconduct until responsibility is established by a preponderance of the evidence. Students' non-participation or silence during any process under this policy will not be used against them, but the University's decisions will nonetheless be made on the available information. The University complies with Utah State Board of Regents' Policy R256 Student Disciplinary Processes, which sets forth minimum standards of due process for student disciplinary processes related to behavioral (non-academic) misconduct matters that may result in either expulsion or a minimum ten-day suspension.

4.2.5.3 Freedom from discrimination. Students have the right to be treated fairly and with dignity regardless of race, color, national origin, age (40 and over), marital status, sex, sexual orientation, gender identity, gender expression, pregnancy, childbirth, or pregnancy-related conditions, disability, religion, genetic information, height, weight, veteran status, or other bases protected by applicable federal, state, or local law, and as revised in UVU Policy 165 Discrimination, Harassment, and Affirmative Action and UVU Policy 162 Sexual Misconduct.

4.2.5.4 Freedom from sex discrimination and sexual misconduct. Students have the right to be free from sex discrimination in UVU educational programs and activities, including but not limited to educational programs, employment, admissions, and university-sponsored activities, consistent with Title IX of the Educational Amendments of 1972. Sexual misconduct, including sexual harassment, sexual violence, sexual assault, relationship violence, and stalking, are types of sex discrimination prohibited by Title IX and/or UVU Policy 162 Sexual Misconduct. Students also have the right to a prompt and equitable response from the University when the University learns of any form of sex discrimination.

4.2.5.5 Freedom of Speech. Students have the right to free exchange of ideas and to artistic expression, the right to free speech, open discussion, inquiry, and academic freedom in the University and on the university campus without prior restraint or censorship, subject to limitations on unlawful/ unprotected speech and to clearly stated, reasonable, and nondiscriminatory rules regarding time, place, and manner. See UVU Policy 161 Freedom of Speech.

4.2.5.6 Ombuds. Students have the right to access the University's Ombuds Office for consultation and assistance resolving matters of personal and school issues, including but not limited to concerns and conflicts regarding other students, faculty, university policies and processes, and housing disputes.

4.2.5.7 Privacy, Confidentiality, and Records. Students have the right to be protected from the University's improper disclosure of a student's educational record consistent with the Family Educational Rights and Privacy Act of 1974 and UVU Policy 542 Student Records Access. Students also have the right to inspect all records pertaining to themselves, which are not considered by the University to be private records of university personnel. Students are entitled to request corrections or expungement to educational records they consider inaccurate or misleading. Also see UVU Policy 635 Faculty Rights and Professional Responsibilities.

4.2.5.8 Student Government and Student Organizations. Students have the right to form and operate an organized student association or club within the guidelines prescribed by the University. Students also have the right to representation through student government on university committees, councils, commissions, and other formally constituted bodies that make general policy and procedure decisions directly affecting students or that govern student activities and conduct. See UVU Policy 532 Associated Student Organization and Club Membership.

4.3 Standards of Student Conduct

4.3.1 Students are individually responsible for their conduct. In addition, student organizations may be held collectively responsible for the conduct of their student members during student organization activities or while acting on behalf of or at the request of the student organization.

4.3.2 Students shall not engage in academic or behavioral (non-academic) misconduct as described in this section. Categories of prohibited misconduct include but are not limited to the following:

4.3.2.1 Abuse of student conduct process. Abuse or interference with university student conduct processes, including but not limited to falsification, distortion, or misrepresentation of information; failure to provide information or documents, or destruction of information or documents during the student conduct process; attempting to discourage an individual's honest participation in or use of the student conduct process; verbal or physical distortion, or misrepresentation of information; failure to provide information or documents, or destruction of information or documents during the student conduct process.

4.3.2.2 Academic misconduct and other acts of dishonesty. All forms of academic misconduct and other acts of dishonesty, including but not limited to cheating, plagiarism, fabrication, and/or possessing or providing to the University any false, falsified, altered, forged, or misleading information, materials, documents, accounts, records, identification, or financial instruments.

4.3.2.3 Alcohol. Use, possession, distribution, being under the influence of alcoholic beverages or paraphernalia on the university campus or at university-sponsored events or activities, and other conduct prohibited by UVU Policy 157 Alcoholic Beverages, Unlawful Drugs, and other Illegal Substances. Alcoholic beverages may not, in any circumstance, be used by, possessed by, or distributed to any person under 21 years of age.

4.3.2.4 Animals. Animals on campus, or other conduct prohibited in UVU Policy 160 Animals on Campus. Service dogs or miniature horses that are trained to perform work or tasks related to a disability are permitted.

4.3.2.5 Damage or destruction. Unauthorized damage to or destruction of university property or the personal property of a member of the university community.

4.3.2.6 Discrimination. Protected class discrimination as defined by UVU Policy 165 Discrimination, Harassment, and Affirmative Action, including but not limited to negative or adverse conduct towards university employees or students in the terms or conditions of employment; university admission or education; access to university programs, services, or activities; or other university benefits or services on the basis of inclusion or
perceived inclusion (in the case of disability, sexual orientation, gender identity, or gender expression) in one or more of the protected classes that has the effect of denying or limiting participation in university employment or in a university program or activity.

4.3.2.7 Disruptive behavior. Disruption, obstruction, or interference with university operations, teaching, learning, research, administration, other university activities, and/or other authorized non-university activities that occur on the university campus as defined in section 3.22.

4.3.2.8 Drugs. Use, possession, distribution, manufacturing, or being under the influence of illegal drugs or other controlled substances or drug paraphernalia, including abuse, misuse, sale, or distribution of prescription or over-the-counter medications, and other conduct prohibited in UVU Policy 157 Alcoholic Beverages, Unlawful Drugs, and other Illegal Substances.

4.3.2.9 Federal, state, or local law or regulation. Violation of federal, state, or local law or regulations that adversely affects the university community and/or the pursuit of its objectives.

4.3.2.10 Fire safety. Violation of local, state, federal, or university fire policies, including but not limited to causing a fire that damages university or personal property or that causes injury to another; improper use of university fire safety equipment; or tampering with or improperly engaging a fire alarm or fire detection/control equipment while on university property.

4.3.2.11 Gambling. Activities that violate state or federal law regarding gambling, including but not limited to risking anything of value for a return or risking anything of value upon the outcome of a contest, game, gaming scheme, or gaming device when the return or outcome is based upon an element of chance; and is in accord with an agreement or understanding that someone will receive something of value in the event of a certain outcome. Gambling includes a lottery and fringe gambling.

4.3.2.12 Harm to person(s). Intentional or reckless physical harm, threats, intimidation, hazing, bullying, cyberbullying, coercion, retaliation, and/or other conduct, including assisting in the foregoing, that threatens or endangers the health or safety of any person. Additionally, participation or cooperation by person(s) being harmed does not excuse the violation.

4.3.2.13 Misuse of computing facilities. Unauthorized use of computing facilities and other conduct prohibited in UVU Policy 441 Appropriate Use of Computing Facilities, including but not limited to attempting to gain access to any system or account without authorization from a system administrator; sharing passwords or accounts; copying or changing system files or software without authorization from a system administrator; using destructive or invasive software; displaying images, sounds, or messages that are obscene where others may be affected by them; consuming inordinate amounts of system resources; crashing machines or systems deliberately; and using the university computing facilities for disruptive or illegal activities.

4.3.2.14 Other policies. Violation of other written university policies, guidelines, or practices.

4.3.2.15 Retaliation. Reprisals or retaliation as defined in this Student Code and other applicable policies.

4.3.2.16 Sexual misconduct. Sexual misconduct, as defined by UVU Policy 162 Sexual Misconduct, includes but is not limited to acts and attempts of dating and relationship violence; domestic violence; discrimination based on sex, pregnancy, pregnancy-related conditions, sexual orientation, gender identity, or gender expression; hostile environment based on sex, pregnancy, pregnancy-related conditions, sexual orientation, gender identity, or gender expression (including intimidation and hazing/bullying); sexual harassment; sexual assault (including nonconsensual sexual contact or nonconsensual sexual intercourse); sexual exploitation (including engaging in sexual trafficking); and stalking.

4.3.2.17 Theft. Intentional or unauthorized taking of, attempted taking of, or maintaining possession of university property or others' personal or public property, including goods, services, or other valuables.

4.3.2.18 Tobacco. Smoking, vaping, or using electronic cigarettes or tobacco inside campus buildings and within 25 feet of entrances, windows, and air intake vents, or other conduct prohibited in UVU Policy 158 Tobacco.

4.3.2.19 Trademark/copyright violations. Unauthorized use (including misuse) of university or organizational names, logos, images, or other university trademarks or copyrighted materials, or other conduct prohibited by UVU Policy 135 Use of Copyrighted Materials.

4.3.2.20 Unauthorized access. Trespassing, misuse of access devices or privileges to university property, or unauthorized entry to or use of buildings or offices, including unauthorized possession, duplication, or use of any means of access to any university building (i.e., keys, proximity cards, etc.), or propping open or other unauthorized use of alarmed doors for entry into or exit from a university building.

4.3.2.21 Weapons. Unauthorized possession or use of a firearm, ammunition, explosives, dangerous weapons, or dangerous chemicals on university property. UVU students must adhere to Utah law regarding the lawful possession of permitted and concealed firearms on public university campuses.

4.3.2.22 Wheeled devices. Skateboards, roller blades, roller skates, bicycles, hoverboards, and similar wheeled devices are not permitted inside university buildings or on any stairways, structures, landscaped areas, or concourses, or other areas as prohibited by UVU Policy 403 Restrictions on the Use of Skateboards, Roller Blades, Roller Skates, Bicycles, Motorcycles, and Hoverboards.

### 4.4 Non-University Legal Cases

4.4.1 University student conduct processes may apply to a student charged with conduct that potentially violates both the law and this Student Code (that is, if both possible violations result from the same alleged conduct). Processes under this Student Code may be carried out before, after, or at the same time as civil or criminal cases at the discretion of the Dean of Students or designee or as otherwise required by law. Determinations made or sanctions imposed under this Student Code are not subject to change when civil or criminal charges addressing the same alleged incident or act are dismissed, reduced, or resolved in favor of or against the student.

4.4.2 When a student is charged by federal, state, or local authorities with a violation of law, the University will not request special consideration for that individual because of their status as a student. If the alleged offense is also being processed under the Student Code, the University may advise off-campus authorities of the existence of the Student Code and of how such matters are typically handled within the university community.
The University will cooperate with law enforcement and other agencies in the enforcement of criminal law on campus and in the conditions imposed by criminal courts for the rehabilitation of student violators (provided that the conditions do not conflict with campus policies or sanctions).

### 4.5 Reporting, Investigations, and Disciplinary Proceedings

4.5.1 Reports of any suspected or alleged violation(s) of the Student Code shall be made to the Student Conduct Office.

4.5.2 In responding to reports of alleged violations of the Student Code, the University shall provide prompt, fair, and impartial investigations and disciplinary processes. During these processes, both complainant and respondent shall be provided equitable rights and opportunities, including notice and an opportunity to be heard, as outlined in section 5.0.

4.5.3 The University may sanction any student who violates this Student Code and other applicable university policies, up to and including expulsion from the University.

4.5.4 If a student has been disciplined for serious violations of institutional policies regarding sexual misconduct, sex discrimination, harassment, or other serious misconduct resulting in suspension or expulsion, the University may enter a notation on the student's transcript in accordance with the Family Educational Rights and Privacy Act.

4.5.5 The University prohibits retaliation as defined in this policy. The University shall take steps to prevent retaliation and respond to threats or acts of retaliation, up to and including expulsion from the University. Individuals who deliberately make false or malicious accusations of violation of this Student Code or other applicable university policies may be subject to disciplinary action, up to and including expulsion from the University. However, a no-violation finding does not in itself constitute proof of a false or malicious accusation.

### 4.6 Interim Measures

4.6.1 The Director of Student Conduct or designee may institute interim measures before the final resolution of an alleged incident of misconduct, including ensuring the safety and well-being of members of the campus community, preservation of university property, or if the student poses an ongoing threat of disruption or interference with the operations of the University. Interim measures may include but are not limited to

- 4.6.1.1 University issued no-contact directive(s);
- 4.6.1.2 Providing an escort;
- 4.6.1.3 Making reasonable adjustments to exams, assignments, and/or providing alternative course completions options in collaboration with faculty;
- 4.6.1.4 Making adjustment to class schedules, including the ability to transfer course sections or withdraw from a student course without penalty;
- 4.6.1.5 Making adjustments to living, transportation, and working situations;
- 4.6.1.6 Limiting a student’s or organization’s access to certain university facilities or activities pending resolution of the matter;
- 4.6.1.7 Interim suspension, which may include denial of access to campus (including classes) and/or all other activities or privileges for which the student might otherwise be eligible, as the Dean of Students or designee may determine to be appropriate.
- 4.6.1.8 Any measure deemed necessary and appropriate by the student conduct administrator in compliance with this policy.

4.6.2 Interim measures do not replace the student conduct process, which will still proceed in a timely manner.

### 4.7 Sanctions

4.7.1 The University may sanction any student who violates this policy, up to and including expulsion from the University. Sanctions are intended to educate students on the effects of their behavior and invoke change in future decision making. Sanctions shall be applied in a fair manner and be assigned in accordance with two criteria: (1) educational value for the student found in violation of this policy; and (2) the sanction being commensurate and consistent with the type of violation and any prior misconduct. Except in urgent circumstances where there is significant threat of harm, disruption, or of undermining the integrity of the educational environment, the student conduct administrator shall not impose irreversible sanctions (i.e., denying access to class, final exams, or other student programs).

4.7.2 One or more of the following sanctions may be imposed upon students for violation(s) of the Student Code or other university policies.

- 4.7.2.1 Academic sanctions. Sanction of academic nature including but are not limited to failing grades, reduced grades, and/or redoing academic exercises.
- 4.7.2.2 Disciplinary no-contact directive. Specified parameters restricting communicative contact and/or physical proximity with a university community member or campus entity.
- 4.7.2.3 Discretionary sanctions. Educational meetings or interventions, behavior agreements, work assignments, essays, service to the University, or other related alternative, educational and/or restorative remedies.
- 4.7.2.4 Expulsion. Permanent separation of the student from the University.
- 4.7.2.5 Fines. Fines may be imposed as published on the Student Conduct Office website.
- 4.7.2.6 Group sanctions. Sanctions imposed upon student organizations found to have violated the Student Code as listed above, including loss of all privileges or status.
4.7.2.7 Loss of Privileges. Denial of specified privileges for which the student might otherwise be eligible for a designated period of time.

4.7.2.8 Probation. A written reprimand for violation of specified standards. Probation is for a designated period of time and includes the probability of more severe disciplinary sanctions if the student is found to violate any university standard(s) during the probationary period. Probation may also include specific conditions that the student must meet.

4.7.2.9 Restitution. Compensation for loss, damage, or injury. This may take the form of appropriate service and/or monetary or material replacement.

4.7.2.10 Revocation or withholding of degree. Revocation or withholding award of a degree or certificate otherwise earned.

4.7.2.11 Suspension. Separation of the student from the University for a definite period of time, after which the student is eligible to return. Conditions for readmission will typically be specified at the time of the suspension.

4.7.2.12 University-sponsored housing sanctions. Removal, probation, or reassignment.

4.7.2.13 Warning. A written notice to the student that the student is violating or has violated university standards of student conduct as laid out in this policy and that the misconduct must not be repeated.

Policy

5.1 Reporting

5.1.1 While all members of the university community are encouraged to report any suspected violation(s) of the Student Code to the Student Conduct Office, university employees are required to report any suspected student violation(s) of the Student Code to the Student Conduct Office within 24 hours of learning of the alleged violation. The Student Conduct Office will then forward the report to the appropriate student conduct administrator as outlined in section 5.8.1.

5.1.2 While all members of the university community are encouraged to report any suspected violations of UVU Policy 162 Sexual Misconduct or Policy 165 Discrimination, Harassment, and Affirmative Action, university employees (except licensed counselors and health providers, as provided in Policy 162) are required to report any suspected violations of Policy 162 to the Office of Equal Opportunity and Affirmative Action/Title IX within 24 hours of learning of the alleged violation. Any reports of such violations that may be received by the Student Conduct Office will be immediately reported to the Office of Equal Opportunity and Affirmative Action/Title IX.

5.1.3 Individuals may submit reports of alleged violations of the Student Code or other university policies through several methods listed on the Student Conduct website athttps://www.uvu.edu/studentresponsibilities, including options for reporting anonymously.

5.1.4 Reports made through tip/crisis reporting methods designated on the student conduct website will be forwarded to the UVU Police, Associate Dean of Students, Director of Crisis Services, and other individuals as needed for an effective response. Each report will be individually assessed to determine the nature, severity, and likelihood of harm to members of the university community and the appropriate response.

5.2 Amnesty

5.2.1 The University encourages all community members to proactively assist others whose health or safety are at risk. The University will not pursue student conduct process against a reporting student, a complainant, a respondent, or witness for personal involvement in minor policy violations, including but not limited to the use of alcohol, marijuana or other drugs, at or near the time of the incident as long as the reporting student’s behavior did not place the health or safety of any other person at risk. The University may, however, initiate an educational discussion with any student regarding their personal involvement in minor policy violations.

5.2.2 If the same person or student organization repeatedly requests amnesty for substantially similar minor policy violations, the student conduct administrator may deny amnesty to that person or student organization.

5.3 Safe Harbor

5.3.1 Students who have a drug or alcohol addiction may be granted safe harbor from discipline. If a student self-reports their own addiction to the appropriate university officials before the threat of drug testing and/or discipline, the University may decide not to initiate a conduct complaint. A written action plan by the student may be used to track cooperation with the safe harbor program. Failure to follow the action plan may nullify the safe harbor protection and the University may initiate student disciplinary processes.

5.4 Collective Violations by Student Organizations

5.4.1 When violations of this Student Code occur at events sponsored or co-sponsored by a student organization, its officers and membership may be held collectively and/or individually responsible when:

5.4.1.1 The student organization’s leader(s) or officer(s) gave consent to, or encouraged, the behavior; or

5.4.1.2 The student organization’s leader(s) or officer(s) knew or should have reasonably known about the behavior.

5.4.2 Hearings for student organizations follow the same student conduct process as for individuals. In any such action, determinations as to violations and sanctions may be made collectively to the student organization and/or individually and will be proportionate to the involvement of each individual and the student organization.
5.5 Confidentiality and Recordkeeping

5.5.1 University personnel involved in student conduct processes shall maintain confidentiality to the extent allowed by the Utah Government Records and Management Act (GRAMA), the federal Family Educational Rights and Privacy Act (FERPA), the federal Health Information Portability and Accountability Act (HIPAA), and other applicable laws governing record protection and/or mandatory reporting.

5.5.2 The Student Conduct Office strives to maintain confidentiality throughout the investigation and appeals hearing process.

5.5.3 The Student Conduct Office is responsible for maintaining appropriate records directly related to alleged violations, investigations, findings, sanctions, etc. as described in section 5.15 If complaints are found to be without merit, records of the complaint and processes will not be entered onto a student’s disciplinary record, but the Student Conduct Office will keep record of the case in its internal databases.

5.5.4 Complainants, respondents, witnesses, and any other participants in the conduct process are prohibited from recording interviews, hearings, and other meetings before, during, and after the disciplinary process.

5.6 Support Persons and Advisors

5.6.1 As required by Utah State Board of Regents’ Policy R256 Student Disciplinary Processes, in matters of behavioral (non-academic) misconduct where the University believes in good faith, based on facts known by the University at the time or when additional facts are discovered later, that the student conduct matter may result in expulsion or a minimum ten-day suspension, the additional protections provided in this section apply. Students may waive any rights described in this section. This section does not apply to UVU Police Department law enforcement activities.

5.6.1.1 Before interviewing the student, the investigator or representative of the Student Conduct Office shall notify the student in writing of the allegations (including the time and place of the alleged misconduct, where available) made against the student and of the student’s right to have a support person or advisor throughout the process who may be, but need not be, an attorney. This notice will be given at least 24 hours before a student is interviewed about the student conduct matter. If a student wishes to seek counsel from a support person or advisor, the University shall reschedule the interview, giving the student reasonable time to obtain a support person/advisor.

5.6.1.2 In meetings and interviews under section 5.12 and section 5.13 of this policy on behavioral (non-academic) misconduct matters, student complainants and respondents may be accompanied by a support person/advisor of the student’s choice, who may be an attorney. During such meetings or interviews, the support person or advisor may only advise the student and may not actively participate in the investigation or process.

5.6.2 During any appeals hearing under section 5.14 of this policy, student complainants and respondents may each have a support person/advisor of their choice, who may be an attorney, advocate for them.

5.6.3 A support person/advisor may not be an employee of the University who would have a conflict of interest in serving in the support person/advisor role. Support persons/advisors must be willing to agree maintain the confidentiality of student conduct investigation and appeals hearing processes.

5.6.4 The University may proceed with the investigation and hearing processes in a timely fashion without the complainant or respondent if that party fails to respond or declines to participate. The University may set reasonable deadlines and move forward with processes regardless of whether a party and/or a party's support person/advisor is able to accommodate those deadlines.

5.7 Preliminary Review

5.7.1 After receiving a report of an alleged violation of the Student Code or other applicable university policies, the student conduct administrator shall promptly conduct a preliminary review to determine if interim measures are needed, if a violation of the Student Code is alleged, and if an investigation is necessary to resolve a genuine dispute of material facts.

5.7.2 If the student conduct administrator determines that no violation of the Student Code has been alleged and/or there’s no genuine dispute of material facts, the administrator shall issue a written notice of this decision to the respondent, complainant (if required by law), and the Student Conduct Office.

5.7.3 A preliminary review dismissal shall be final with no additional internal appeals available to the parties.

5.7.4 If the student conduct administrator determines that a violation of the Student Code or other policy has been alleged and that an investigation is necessary to resolve a genuine dispute of material facts, then the Administrator may proceed with an investigation of the alleged violation.

5.7.5 The student conduct administrator shall report the complaint to the Director of Student Conduct or designee.

5.7.6 At the recommendation of the student conduct administrator, the Director of Student Conduct or designee may apply an interim measure to a student or student organization or invoke other safety measures, as provided in section 4.6, pending the outcome of the investigation and subsequent proceedings.

5.7.6.1 The Dean of Students or designee will notify the student in writing of this action, including a brief description of the reason for the interim measure. When required by law, such as in sexual misconduct cases, applicable notices will be provided to both complainants and respondents. A student who receives an interim suspension may request a meeting with the Dean of Students or designee to present information and/or reasoning as to why the interim measure is inappropriate or unnecessary.

5.7.6.2 At the discretion of the Dean of Students or designee, and in collaboration with faculty and/or the appropriate academic dean(s), alternative coursework options may be approved to minimize impact on the student during any interim measure.
5.8 Delineation of Authority

5.8.1 For purposes of this policy, the Dean of Students shall delegate authority for the investigation, resolution, decision-making (including appeals), and sanctions based on the type of misconduct as defined in section 3.1 and 3.2 as follows:

<table>
<thead>
<tr>
<th>Type of Misconduct</th>
<th>Student Conduct Administrator</th>
<th>Student Conduct Appeal Decision Maker</th>
</tr>
</thead>
<tbody>
<tr>
<td>Academic</td>
<td>Faculty member of course in which misconduct occurred</td>
<td>Academic dean of college/school or designated chair of department in which misconduct occurred</td>
</tr>
<tr>
<td>Behavioral</td>
<td>Director of Student Conduct or designee</td>
<td>Dean of Students or designee</td>
</tr>
</tbody>
</table>

5.9 Informal Resolution

5.9.1 Informal resolution may include an inquiry into the facts but typically does not include an investigation. Informal resolution is flexible and includes options such as mediating an agreement between the parties, separating the parties, referring the parties to counseling programs, negotiating an agreement for disciplinary action, conducting targeted preventive educational and training programs, or providing remedies for the individual harmed by the offense. Informal resolution also includes options such as discussions with the parties, making recommendations for resolution, and conducting a follow-up review after a period of time to ensure that the resolution has resolved concerns effectively.

5.9.2 Because each alleged violation is different, the student conduct administrator shall tailor each resolution to the specific facts of the case, including determining whether the alleged violation is appropriate for informal resolution. Informal resolution may result in resolutions such as behavior agreements and/or sanctions combined with educational or restorative measures.

5.9.3 Informal resolution is encouraged to resolve concerns at the earliest stage possible with the cooperation of all parties involved. Participation in the informal resolution process is voluntary. Informal resolution may be appropriate for anonymous and/or third-party reports, or when respondents accept responsibility for their violations. Information resolution may be inappropriate when one or both of the parties are reluctant to participate in good faith, or when there are allegations of violent behavior.

5.9.4 Any unsuccessful informal resolution, including but not limited to noncompliance with the informal process, may be referred for student conduct hearing.

5.9.5 After concluding informal resolution, the student conduct administrator shall notify the complainant and respondent in writing of the resolution that was agreed upon.

5.9.6 Participation in informal resolution does not prohibit either party from terminating informal resolution and/or requesting an investigation at any point during the informal resolution process. Where a report is closed after informal resolution, the matter may later be reopened at the discretion of the student conduct administrator when requested by the complainant and/or if the student conduct administrator determines there is good cause to do so.

5.10 Investigation

5.10.1 If the student conduct administrator determines an investigation is necessary, the University shall conduct a reliable and impartial investigation by interviewing relevant witnesses, collecting relevant documentary evidence, and preparing a written summary of findings. The purpose of the investigation is to establish whether there is a reasonable basis, based on a preponderance of the evidence, for concluding that the alleged violation of the Student Code has occurred. The University reserves the right to engage an outside investigator to conduct the investigation if it is determined there is a conflict of interest or other compelling reason to do so.

5.10.2 If a student withdraws from the University before the completion of an investigation and hearing, the University may continue to investigate and apply this process for resolving the specific disciplinary matter in the student’s absence. If a respondent is found to have violated university policy, the University may restrict the respondent’s readmission on terms or under circumstances it may prescribe at the time of the finding.

5.10.3 Complainants, respondents, and witnesses shall be treated with respect throughout the investigation process, disciplinary process, and other proceedings.

5.10.3.1 Accordingly, the University endeavors through this policy and diligent effort to secure the following for complainants and respondents:

5.10.3.1.1 Reasonably prompt and equitable resolution of allegations for respondents and complainants,

5.10.3.1.2 Freedom from retaliation for making a good faith report or for participating in any investigation or proceeding under this policy.

5.10.3.1.3 Timely and equal access to allegations for respondents and complainants, and the opportunity to respond to information that will be used against them in any disciplinary proceeding.

5.10.3.1.4 The opportunity for complainants and respondents to offer information, present evidence, and identify witnesses during an investigation.

5.10.3.1.5 Interim measures made available for complainants, respondents, and witnesses, and the opportunity to request modifications necessary for physical and/or emotional safety.

5.10.3.1.6 Timely notice of meetings where complainants’ and respondents’ presence is necessary.

5.10.3.1.7 Simultaneous notification to complainants and respondents, in writing, of the results of any proceedings.

5.10.3.1.8 The opportunity for complainants and respondents to articulate concerns or issues about proceedings under this policy.
5.13 Student Conduct Hearing

5.13.1 Allegations of misconduct and/or sanctions not resolved during the pre-hearing meeting will be referred to a student conduct hearing, which will be scheduled as promptly as possible after the pre-hearing meeting. The student conduct administrator may delay the hearing if further investigation is needed or other circumstances require a delay. Hearing proceedings may be conducted over the course of multiple meetings.

5.13.2 The participating parties will receive notice of hearing meetings and access to all evidence to be considered at the hearing at least five school days in advance. If additional violations are later alleged, a further notice shall be provided to the complaining and responding students.

5.13.3 Student conduct hearings will be conducted according to the following procedures:

1. The student conduct administrator will conduct the student conduct hearing with the respondent. The complainant and/or others will be invited to attend the hearing. If either party fails to attend the hearing without good cause and without prior notice to the student conduct administrator, the hearing may proceed. Neither party is required to participate in the hearing for the hearing to proceed. The University reserves the right to modify hearing procedures to protect the safety of all parties involved.

2. Student conduct hearings and outcomes will be shared with the parties to the extent allowed by law, but will otherwise remain confidential.

3. Student conduct hearings will be conducted by the student conduct administrator.

4. In behavioral (non-academic) misconduct matters, the complainant and respondent have the right to be assisted by a support person/advisor of their choice during the Student Conduct Hearing and during any subsequent appeal hearings. Parties must notify the student conduct administrator of their support person/advisor at least five school days in advance of the hearing.

5.11 Notices to Complainants and Respondents

5.11.1 The student conduct administrator will give written notice to:

5.11.1.1 Complainant(s) of their options to report to other campus and community authorities as applicable, when complainants allege a violation of the Student Code to the student conduct administrator.

5.11.1.2 Complainants and respondents, if the student conduct administrator’s inquiry advances beyond preliminary review according to section 5.7, of the time and place of alleged policy violation(s), which policies were allegedly violated, and how those policies were violated. The student conduct administrator will also provide the parties with written notice to appear at a pre-hearing meeting. If additional violations are later alleged, a further notice shall be provided to the complaining and responding students.

5.11.1.3 Complainants and respondents of their ability to participate in campus investigations and/or student conduct processes by providing relevant information and recommending relevant witnesses. If students choose to not participate in the process, the case may proceed without them and a decision may be made without any input from the student.

5.11.1.4 Complainants and respondents of their right, in behavioral (non-academic) misconduct matters, to be accompanied by a support person/advisor of their choice, who may but need not be an attorney, throughout the student conduct process. Students must notify the student conduct administrator at least five school days in advance of the pre-hearing meeting of their support person/advisor’s identity and the nature of the student’s relationship to the support person/advisor. The University has the right to disqualify a support person/advisor when their participation would create a conflict of interest or a potential disruption in the student conduct process.

5.11.1.5 Complainants and respondents of how to request information for disability accommodations and/or language translation services.

5.12 Pre-Hearing Meeting

5.12.1 The student conduct administrator will conduct a pre-hearing meeting with the respondent. The complainant and/or others may be invited to attend the same or a separate pre-hearing meeting, depending on the circumstances. If any party chooses not to attend, the pre-hearing meeting may still proceed.

5.12.2 The pre-hearing meeting will occur promptly after the student conduct administrator determines, after preliminary review, that an investigation/pre-hearing is necessary.

5.12.3 Parties will be given the opportunity to present relevant information in response to the alleged misconduct before and during the pre-hearing meeting.

5.12.4 The pre-hearing meeting and outcomes will be shared with the parties to the extent allowed by law, but will otherwise remain confidential.

5.12.5 If the respondent does not admit to the alleged violation(s) and/or the allegations cannot be resolved by mutual consent, the matter will be considered in a student conduct hearing.

5.12.6 If the respondent accepts responsibility for the violation, but sanctions are not agreed to, sanctions will be determined in a student conduct hearing.

5.12.7 During the pre-hearing meeting, investigation, or other pre-hearing processes in behavioral (non-academic) misconduct matters, the complainant’s and/or respondent’s support person/advisor may only advise the student and may not actively participate.
5.14 Appeal Process

5.14.1 Respondent(s) or complainant(s) may appeal a decision or sanction of the student conduct administrator to the Student Conduct Appeal Panel within five school days of the decision. These appeals shall be in writing and shall be delivered to the Student Conduct Office via email or postal mail. Untimely requests will not be considered absent extraordinary circumstances. Activities such as graduation, study abroad, internships/externships, business travel, or educational, sabbatical, or extracurricular activities generally do not in themselves constitute extraordinary circumstances.

5.14.2 When requesting the appeal, the respondent or complainant must identify in the written request at least one or more of the following grounds for appeal:

1. New evidence unavailable to the party during the investigation has been discovered that could substantially impact the investigation, findings, and/or resolution.
2. Substantial departure from the procedures outlined in this Student Code or that the process was unfair and/or biased, which substantially impacted the outcome of the investigation or hearing. The duration of the investigation or severity of the sanction are not considered procedural errors.
3. Findings lacked substantial evidence such that no reasonable person would reach the same conclusion as the student conduct administrator.
4. The sanction imposed is substantially disproportionate to the severity of the violation (i.e., too severe or not severe enough).

5.14.3 Unless the appeal panel (the composition of which is explained below) determines by majority vote that one or more of the grounds stated in 5.14.2 has been met and that modifications to the original decision should be recommended, the student conduct administrator’s decision or sanction shall be upheld.

5.14.4 While an appeal is pending, the student conduct administrator may impose interim measures.

5.14.5 The Student Conduct Office shall promptly convene a three-member appeal panel from the Policy 162/165 review panel pool. The appeal panel will include one faculty, one staff, and one student.

5.14.6 Panel members must be in good standing with the University and must not have any relevant conflict of interest. The student conduct administrator will notify the parties of the panel members’ identities and appeal procedures in this policy. Within 3 school days of receiving this notice, parties may request in writing that a review panel member be disqualified based on bias or conflict of interest and explain the reasons for this request. If the Student Conduct Office, in consultation with the Office of General Counsel, confirms a bias or conflict, a new panel member shall be selected.

5.14.7 The Office of General Counsel will appoint an impartial attorney to preside over the appeal hearing as hearing officer. This attorney must have no prior involvement in either advocacy or investigatory matters related to the conduct matter. The hearing officer will ensure order, fairness, due process, efficiency, and civility at the hearing, and ensure a relevant and sufficient evidentiary record for the panel’s consideration. To advance this aim, the hearing officer may set time limits proportionate to the complexity of the case; exclude irrelevant and unduly repetitious exhibits, witnesses, questions, statements, or other information; and exclude material deemed privileged under the law. Formal rules of evidence do not apply. The appeal panel shall consult with the hearing officer during the appeal process regarding legal, procedural, policy, and other questions as needed. The hearing officer, in consultation with the panel, will review and respond to any pre-hearing questions or objections from the parties related to hearing matters.

5.14.8 Once the panel is confirmed, they shall promptly determine, based on a preponderance of the evidence, whether the appeal request meets one or more criteria under section 5.14.2.
5.14.9 The Student Conduct Office shall then notify parties in writing of the appeal hearing panel’s determination and, if a hearing is warranted, of the appeal hearing date, which will be scheduled promptly.

5.14.10 The hearing officer may conduct a pre-hearing conference to formulate or simplify the issues; obtain admission of fact and documents that will avoid unnecessary proof; arrange for the exchange of proposed exhibits; outline expectations for the hearing; or agree to other matters that may expedite the orderly conduct of the hearing.

5.14.11 The complainant and respondent will be allowed to attend the entire appeal hearing, excluding deliberations. In behavioral (non-academic) misconduct matters, the complainant’s and respondent’s support person/advisor, if any, will be allowed to attend the entire appeal hearing, excluding deliberations. Admission of any other person to the appeal hearing shall be at the discretion of the hearing officer.

5.14.12 The scope of the appeal hearing and the standard of review shall be limited to those stated in section 5.14.2. Along with written notice of the hearing date, the Student Conduct Office shall provide the review panel and parties copies of a summary of the case (where applicable), written findings, sanction letter, the written request for appeal, and any additional opposition statements already provided by the parties.

5.14.13 The appeal hearing is an opportunity for the parties to be heard by the appeal panel in person about the issues and criteria being considered for the appeal, including addressing the information in the summary of the investigation, any supplemental statements or new evidence unavailable during the investigation, any written impact or mitigation statements, to identify witnesses for the panel’s consideration, and to respond to any questions from the appeal panel.

5.14.14 In behavioral (non-academic) misconduct matters, the respondent and complainant have the right to be assisted by a support person/advisor of their choice, who may be, but need not be, an attorney and who may participate during the appeal hearing. Parties must notify the Student Conduct Office at least 5 school days in advance of the hearing of their selected support person/advisor and the nature of their relationship to the support person/advisor (including whether the support person/advisor is an attorney). The University has the right to disqualify a support person/advisor when their participation would create a conflict of interest or would create the potential for disrupting the student conduct process. If the complainant or the respondent do not provide the required information about their support person/advisor at least five days in advance, the support person/advisor may attend but shall not participate in the appeal hearing. Support persons/advisors may give opening statements, advise students throughout the hearing, question witnesses as allowed by the hearing officer, and present a closing statement. Support persons or advisors may not serve as a witness. Neither the Rules of Civil Procedure nor the Rules of Evidence apply to these hearings.

5.14.15 Documents, evidence, other statements, and requests for the appearance of witnesses to be considered at the hearing may be made by the panel, respondent, complainant, and/or student conduct administrator, and must be submitted in writing to the Student Conduct Office at least 5 school days before the hearing, and must include explanations of how each document or request is relevant to the reasons for the appeal. Only witnesses and other evidence that are relevant to the section 5.14.2 bases for appeal may be considered by the appeal panel. It is the responsibility of the party requesting a particular witness to invite that witness to attend the hearing.

5.14.16 In the event that any party fails to attend the appeal hearing without good cause and prior notice to the Student Conduct Office, the appeal panel may proceed with the hearing. Neither party is required to participate in the hearing for the appeal panel to proceed.

5.14.17 The hearing, except for deliberations, will be audio recorded by the appeal panel chair, who will give the recording to the Student Conduct Office. A copy of the audio file and/or transcription will be made available for review by either party upon request. Participants are prohibited from recording interviews and other meetings before and after the hearing.

5.14.18 Each party has up to 60 minutes to present their portion of the case (opening statement, testimony of the party and party’s witnesses, questioning the other witnesses if any, and closing statement). The hearing officer will keep track of time.

5.14.19 The hearing officer will begin the hearing by asking the student conduct administrator to provide an oral summary of the investigation process, findings, and conclusions contained in the case summary and sanction letter.

5.14.20 The respondent and complainant shall each have the opportunity to make a personal statement, relevant to the scope of the appeal and bases for the appeal, including the personal impact of the alleged misconduct and/or sanction, the relief sought, and mitigating or aggravating information. In behavioral (non-academic) misconduct matters, each party’s support person/advisor shall also have the opportunity to make an opening statement relevant to the scope of appeal. Each party, or their respective support person/advisor, may call witnesses that the hearing officer deems relevant to the scope of the appeal, question witnesses through the hearing officer, present evidence, and make concluding remarks.

5.14.21 The panel may question any party and witness. Only the person to whom a question is directed may answer (for example, support persons/advisors shall not be permitted to answer the appeal panel’s questions on a party’s behalf.)

5.14.22 Panel deliberations and voting shall occur in closed session from which all other persons are excluded. The hearing officer shall be present during the deliberations but shall have no vote. A majority vote by the members of the panel who attended the hearing shall decide whether the appealing party has shown one or more bases for appeal stated in section 5.14.2.

5.14.23 The panel shall provide the Student Conduct Office a summary of their findings and recommendation(s) regarding whether and how to uphold, modify, or remedy the conduct and/or sanction decision or process within 5 school days of the appeal hearing. The Student Conduct Office will promptly provide the recommendation(s) to the appropriate dean or designee as outlined in section 5.1.1.

5.14.24 The student conduct appeal decision maker, in consultation with the Office of General Counsel as needed, is responsible for reviewing the recommendations of the appeal panel, all the information that was available to the appeal panel, and determining whether to (1) remand the investigation to the original or an alternate student conduct administrator for additional investigation; (2) affirm the student conduct administrator’s original decision; (3) adopt the sanction and resolution recommendation(s) of the appeal panel; and/or (4) determine an alternative outcome. If the matter is remanded for further investigation, the appropriate student conduct administrator shall promptly investigate and provide a written summary of the new evidence considered and/or changes to the findings, if any, to the student conduct appeal decision maker, who shall then determine sanctions or resolutions.
5.14.25 The student conduct appeal decision maker shall promptly notify the respondent and complainant in writing of their decision and the rationale for the outcome. The decision of the student conduct appeal decision maker is final, with no additional internal appeals available.

5.15 Records

5.15.1 The Student Conduct Office shall submit and maintain for confidential storage all Student Conduct Office records, including investigation findings, informal remedies, disciplinary action, and any subsequent appeals. Student Conduct records shall typically be retained for ten years after a student's graduation or withdrawal.

5.15.2 Records documenting informal resolution and or remedies and investigations resulting in no-conduct violation shall also be submitted to and maintained by the Student Conduct Office, but will not be entered into a student's permanent disciplinary record with the University.

5.15.3 Student Conduct disciplinary records are educational records as defined by FERPA and shall be private. Access shall be limited to university officers on a need-to-know basis. Disciplinary sanctions resulting from serious violations of institutional policies regarding sexual misconduct, sex discrimination, harassment, or other serious misconduct resulting in suspension or expulsion may be notated on the student’s official transcript. Additionally, the University may disclose to an alleged victim of any crime of violence or non-forcible sex offense the final results of a disciplinary process conducted by the institution against the alleged perpetrator of that crime, regardless of whether the institution concluded a violation was committed.

5.15.4 Transcript notations regarding suspension and/or expulsion shall not contain any information about the underlying conduct, but will state that formal disciplinary action resulting in suspension and/or expulsion has been imposed. If a student withdraws from the University before the completion of an investigation and prior to a final determination, an updated transcript will be sent to any transferring institutions if suspension and/or expulsion are determined.

5.15.5 Transcript notations for suspension shall remain on a student's transcript for the duration of the suspension, and typically not longer than one year after the suspension period. Transcript notations for expulsion will typically remain on a student's transcript indefinitely.

5.15.6 Students may apply to the Dean of Students or designee to have their disciplinary records and/or transcript notation removed. Factors relevant to the decision to retain or remove specific records and/or transcript notations include the amount of time that has elapsed since the infraction, whether the student has graduated, and the seriousness of the infraction and the resulting sanctions.

Tuition & Fees Policy
Tuition and student fees are established by the Utah State Board of Regents. University Policy regarding payment of tuition and fees states that all tuition and fees assessed at the time of registration are due and payable. This policy applies to all registration periods. Tuition and other charges are subject to change without notice. Please check current policies, procedures, tuition and fee tables, payment deadlines, and other important information at uvu.edu/registration.

Early registration not covered by Financial Aid, Tuition Payment Plan, or paid in full by the published payment deadline may be purged (dropped) for non-payment. After the published deadline, Utah Valley University will not drop courses for non-payment or non-attendance. Students who change their mind are responsible to drop their own classes or file a Leave of Absence. Filing a Leave of Absence does not absolve a student of any financial obligation to the University for tuition or other charges owing or repayment of a financial aid disbursement. Students must drop or withdraw by the published 100% Refund Date or they will be responsible to pay the total tuition and fees owed. For exact refund and drop deadlines, please refer to the Registration Dates and Deadlines at uvu.edu/registration.

Students who default on all or any portion of their tuition and fees will be suspended from further registration and records activity at UVU until their accounts are paid in full.

Past due tuition accounts may be reported to a Nationwide Credit Reporting Agency, and/or turned over to an outside collection agency for collection.

Tuition Surcharge Policy
Students are encouraged to avoid accumulating credit hours beyond those needed to successfully complete their identified program of study. A student may be charged the excess credit hour surcharge for credit hours in excess of 125% of a student’s program of study. The surcharge amount
for resident students is double the current year’s resident tuition rates for the number of credit hours taken. Non-resident students will continue to pay non-resident tuition. (Board of Regents Policy R515)

For further information regarding this policy, please contact your advisor or the Graduation/Transfer Services Office.

Dropping/Withdrawing from Courses

When students enroll in a course, they are reserving a seat in the class. If a student decides not to take a class, it is the responsibility of the student to drop the course before the 100% Refund Deadline. Dropping the class before this deadline removes the charges from the student’s account and allows other students to register. Charges for classes dropped after the 100% Refund Period deadlines will remain owing and will not be credited back to the student’s account balance.

Student Financial Responsibility

Before students can register for classes they must review and agree to the terms and conditions outlined in the Student Financial Responsibility Agreement, then review and update their address and other demographic information. It is important that students carefully update their demographic information as the University periodically sends bills, refund checks, and other important correspondence through the mail.

The Student Financial Responsibility Agreement (SFRA) includes agreements to pay tuition and fees, requires adherence to payment and withdrawal deadlines, outlines the consequences of delinquencies, and presents required financial aid consents. It also provides students an opportunity to consent to electronic delivery of their 1098-T Tax Form. The following is a brief description of terms included in the SFRA. To view the SFRA document in full, visit uvu.edu/cashier/sfra.html.

• FINANCIAL RESPONSIBILITY: I agree to pay all tuition, fees, and other related costs that result from my registration and/or future drop/add activity and understand that acceptance of these terms constitutes a promise to pay agreement.

• DROPPING/WITHDRAWING FROM COURSES: I understand and agree it is my responsibility to drop my own classes if I decide not to attend, and that I must drop my classes and/or file a Leave of Absence before the 100% Refund Deadline or I will be responsible for all tuition and fees.

• CONSEQUENCES OF DELINQUENT ACCOUNT/COLLECTION: I agree to pay all charges by the published deadlines and understand the consequences of delinquencies on my account including late payment charges, registration holds, and possible collection fees.

• COMMUNICATION: I understand all correspondence from Utah Valley University will be sent to the student’s myUVU email account (including my billing statements) and therefore I am responsible for reading the e-mails I receive from UVU on a timely basis. I agree to keep my contact information current with UVU and further agree to allow Utah Valley University and its agents to contact me at any address, telephone, or cell phone number that I provide now or in the future.

• FINANCIAL AID DISBURSEMENTS: I understand that if I am expecting Financial Aid, I am responsible to follow up and ensure I have met all requirements to receive it, and acknowledge that I may be charged a late fee if my Financial Aid has not disbursed by the Late Fee Deadline. I further acknowledge that aid is contingent upon my enrollment and attendance in each class.

Tuition Refund Policy

The tuition refund policy is established by the Utah State Board of Regents and amended by each college or university to fit their programs. Utah Valley University refunds to students who withdraw from school or drop classes as follows:

Semester:

• Through the 100% refund date published on the Student Timetable...,100%
• After the 100% refund date published on the student Timetable...,0%

Exact dates for semester, block, and weekend classes can be found at uvu.edu/schedule.

Students must drop classes or completely withdraw by the published 100% Refund Deadline in order to have the charges removed from their account. Students who withdraw after that date will not receive a refund; if they have not paid, they will continue to owe the University for these charges and will be subject to collections procedures if left unpaid.

Changes in enrollment may affect Financial Aid eligibility and amounts received. Financial Aid awards may be revoked when dropping courses, thus increasing the amount owed.

A Petition to the Refund Policy Form can be obtained online at https://www.uvu.edu/registration/petitions

State-Mandated Refund Policies

Students who are living in the following states while actively participating in UVU courses will receive refunds as designated by the state departments of education.

New Mexico

5.100.3.11 PAYMENT AND REFUNDS FOR TUITION:

A. Cooling off period: Any student signing an enrollment agreement or making an initial deposit or payment toward tuition and fees of the institution shall be entitled to a cooling off period of at least three work days from the date of agreement or payment or from the date that the student first visits the institution, whichever is longer. During the cooling off period the agreement can be withdrawn and all payments shall be refunded. Evidence of
personal appearance at the institution or deposit of a written statement of withdrawal for delivery by mail or other means shall be deemed as meeting the terms of the cooling off period.

B. Refunds prior to commencing instruction: Following the cooling off period but prior to the beginning of instruction, a student may withdraw from enrollment, effective upon personal appearance at the institution or deposit of a written statement of withdrawal for delivery (as defined above), and the institution shall be entitled to retain no more than $200 in tuition or fees as registration charges.

C. In the case of students enrolling for non-traditional instruction, a student may withdraw from enrollment following the cooling off period, prior to submission by the student of any lesson materials and effective upon deposit of a written statement of withdrawal for delivery (as defined above) and the institution shall be entitled to retain no more than $200 in tuition or fees as registration charges or an alternative amount that the institution can demonstrate to have been expended in preparation for that particular student's enrollment.

D. Refunds following commencement of instruction: An institution registered with the department shall adhere to either the following tuition refund policy or to a policy established by the institution's state of residence or accrediting body.

E. A student may withdraw after beginning instruction or submitting lesson materials, effective upon appearance at the institution or deposit of a written statement of withdrawal for delivery (as defined above), and the institution shall be entitled to retain no more than $200 in tuition or fees as registration charges or an alternative amount that the institution can demonstrate to have been expended in undertaking that particular student's instruction plus a pro rata amount of any additional tuition and fees earned and paid according to the following schedule:

<table>
<thead>
<tr>
<th>Date of withdrawal as a percent of the enrollment period for which the student was obligated</th>
<th>Portion of tuition and fees obligated and paid that are eligible to be retained by the institution</th>
</tr>
</thead>
<tbody>

<td>100 percent</td>
</tr>
</tbody>
</table>

F. "Enrollment period for which the student was obligated" means a quarter, semester, or other term of instruction followed by the institution which the student has begun and for which the student has agreed to pay tuition.

G. Tuition/fee refunds must be made within 30 calendar days of the institution receiving written notice of a student's withdrawal or of the institution terminating enrollment of the student, whichever is earlier. Upon request by a student or the department, the institution shall provide an accounting for such amounts retained under this standard within five work days.

H. The institution's payment and refund policies shall be clearly articulated in the institution's catalog and as part of all enrollment agreements.

**Special Lab & Course Fees**

Some classes require fees in addition to standard tuition and fees. The online class schedule indicates such lab, course, and materials fees.

**Late Payment Fee (Late Fee)**

Late Payment Fees are assessed each Wednesday night throughout the semester with a begin date according to the Student Timetable. Late fees are assessed on ALL unpaid account balances at 20%, not to exceed $200.00 per semester, including accounts awaiting Financial Aid.

**Late Registration Fee (Late ADD Fee)**

Special approvals are required to register late for a class. The length of time for each late registration period is relative to each part of term and is governed by the Student Timetable. Students who add classes during the late registration period must finalize the process by paying for appropriate late registration fees in addition to their tuition/fees according to the published dates on the Semester Student Timetable.

**Payment Options**

**At the Cashier Windows**

- Cash
- Check
- PIN-based debit

**Online through Tuition Payment Plus**

**Electronic Checks**

Electronic Check payments are free of charge and can be made online only with the bank routing number and account number. Payments can be made from a personal checking or savings account. Corporate checks, credit card checks, home equity, traveler’s cheques, etc. are not accepted.
Electronic check payments are processed through Tuition Payment PLUS, accessed through myUVU. Any check returned by the payor’s bank for any reason, will be considered a “dishonored” check and all penalties for a “dishonored” check will be applicable.

Credit Cards
Payments with credit cards are accepted online only and will be charged a non-refundable service fee of 2.85% (minimum $3.00). Most major credit cards are accepted including VISA, MasterCard, American Express, and Discover.

Tuition Payment Plan
The tuition payment plan allows students to pay installments on their tuition and fees over the course of the semester with a minimal fee to enroll. If students enroll before the published Payment Deadline dates, their classes will not be dropped for nonpayment. In addition, enrollment in the payment plan before the Late Fee Deadline will prevent the 20% late fee from being assessed. More information about the payment plan can be found at https://www.uvu.edu/collections/tuition.html.

Check Cashing Procedures
The University does not accept two-party checks. Checks written to UVU must have the student’s UV ID number, and the payor’s address and phone number on the face of the check.

Checks made for an amount larger than the total tuition and fees due will not be accepted.

Dishonored Checks
A dishonored check is any check returned by the payor’s bank for any reason, including, but not limited to, insufficient funds, no account, bad account, stop payment, unauthorized account, refer to maker. Checks written that later have a "stop payment" placed upon them will be considered as “dishonored”.

A service charge will be assessed on each dishonored check unless the payor can document in writing from the bank that it was a bank error.

Third Party/Sponsored Payments
Students are responsible for ensuring that appropriate documentation for a third-party or sponsored payment is submitted to the Accounts Receivable Office prior to the start of classes each semester. If paperwork cannot be submitted to the Accounts Receivable Office by the published Payment Deadline, students should consider enrolling in the Tuition Payment Plan to avoid having their classes purged (dropped) for nonpayment.

Students who are sponsored by a third-party must comply with the terms of the sponsor agreement and verify that all tuition and fees charges are paid by the sponsor. Any balance not paid by the sponsor remains the student responsibility and is subject to all payment deadlines and late fees.

If a student adjusts their registration schedule after their authorization has been received by UVU, it is the student’s responsibility to verify that any course or tuition and fee changes will be paid by the sponsor and that these changes are reported to the Accounts Receivable office for proper processing.

If the sponsor does not provide funding by the end of the semester, the student will be responsible for payment of tuition and fees.

Undergraduate Tuition and Fees
Tuition and student fees are established by the Utah State Board of Regents. Tuition and such other changes as appear in the catalog and other College publications are subject to change without notice. All tuition and fees are payable at the time of registration. Checks for more than the total tuition and fees due will not be accepted.

Accounting, Certificate of Completion

Requirements

A certificate of completion introduces students to the knowledge and skills need to perform in a basic business environment. It includes a knowledge of basic business math, accounting, and accounting software. Skills include communication and presentation skills. This is primarily an applied certificate with a brief conceptual background in business.

**Graduation Requirements:**

1. Overall grade point average of 2.5 GPA in all Woodbury School of Business courses and no grade lower than a C- in business courses.
2. Completion of GE and specified departmental requirements.

NOTES: Students are responsible for completing all prerequisite courses.

¹ Only take ACC 3010 if you intend to take ACC 3020 as one of your electives.
² Course may require completion of prerequisite courses not included in the minor.

### Accounting, Minor

**Careers**

1. Identify and interpret accounting information to inform users and make decisions.
2. Demonstrate knowledge of theories, models, and tools relevant to accounting.
3. Analyze current principles and practices of accounting to generate business solutions.

### Related Careers

- Accountants and Auditors
- Budget Analysts
- Credit Analysts
- Financial Examiners
- Tax Examiners and Collectors, and Revenue Agents
- Business Teachers, Postsecondary

### Accounting, B.S.

**Requirements**

This degree offers a balanced theoretical and applied approach to study a broad range of business and accounting disciplines. This includes business topics of marketing, finance, law, operations, and strategy. Following a study of the primary accounting disciplines of financial, managerial, audit, information systems, and tax, students can engage in a more specialized study of internal audit, management accounting, tax, or public accounting/graduate school. Students also develop important business skills in communication, critical thinking, team building, and computer applications.

**Total Program Credits: 120**

**Matriculation Requirements**

To be considered matriculated in the Accounting degree, a student must complete the following courses with at least a C-grade:

<table>
<thead>

Degrees & Programs

Master of Accountancy, M.Acc

Requirements

The Master of Accountancy (MAcc) degree prepares students for professional positions in accounting with potential for advancement throughout their career. It qualifies students for entrylevel positions in public accounting, industry, government, and not-for-profit organizations. The MAcc qualifies students to sit for the Uniform CPA Examinations throughout their career. It qualifies students for entrylevel positions in professional positions in accounting with potential for advancement.

The Master of Accountancy Graduate Program is in the Woodbury School of Business. To find the most up-to-date information, including Program Learning Outcomes for the Master of Accountancy Graduate Program, visit their website.

Total Program Credits: 30

Matriculation Requirements:

1. Application for admission to graduate program with application fee by the established deadline.
2. Submit official transcripts from all universities attended.
3. A bachelor’s degree from a regionally accredited college/ university, a nationally accredited program, or the international equivalent.
4. A 3.0 cumulative undergraduate GPA or a 3.0 GPA calculated on the last 60 semester hours (90 quarter hours) of undergraduate work.
5. For international students whose native language is not English, submit official TOEFL or IELTS band scores. A TOEFL score of 80 iBT (550 pBT) or higher, or an IELTS band score of 6.5 or higher within the past two years is required.
6. International students must also meet all US government requirements for international students.
7. The university uses a selective admissions process for admitting students to graduate programs. Meeting minimum admissions criteria does not guarantee admission to the graduate program or to the University as a graduate student.
8. Required prerequisite classes to the MAcc program must be taken from a regionally accredited U.S. institution or an AACSB International accredited business program. A minimum average GPA of 3.0 in the prerequisite classes is required. No individual grade for a prerequisite class may be a C or lower. Required prerequisite classes include Acc 3300 and 3510 or their equivalents. Required prerequisite classes also include Acc 3010, 3020, 4110, and 3400 or their equivalents which must cover U.S. financial accounting, auditing, and tax standards and regulations.

Graduation Requirements:

1. A minimum of 30 credit hours shall be completed.
2. Graduate coursework shall be completed within a six-year period.
3. Credit for courses in which a student earns a grade of C- or lower shall not be applied toward any master’s degree or graduate certificate program.
4. A cumulative grade point average of 3.0 or higher shall be maintained in graduate program courses.
5. Graduate credits accepted from another regionally accredited institution or equivalent shall have been completed within four years of the graduate student’s matriculation into the graduate program and cannot be older than six years at the time of graduation with a master’s degree or graduate certificate from the University.

Military Science, Minor

Requirements

The ROTC program at UVU trains and prepares cadets to commission and become officers in the United States Army. Classes taught in the program include Army history and structure, small unit tactics and movement techniques, leadership and management techniques and strategies, and physical fitness. The program is designed to be complementary to a school environment, with the emphasis placed on school completion and graduation. Upon completion of their college degree, cadets will also commission as second lieutenants in the United States Army, becoming junior leaders in their respective organizations.

Careers

1. Give cadets a strong foundation of leadership and critical thinking skillsets.
Allied Health

Dental Hygiene, A.A.S.

Requirements

Dental hygienists examine patients for signs of oral diseases, such as gingivitis, and provide preventive care, including oral hygiene. Working in a private dental office continues to be the primary place of employment for dental hygienists. For today's dental hygiene professional, there are many other career pathways to explore as well. Employment of dental hygienists is projected to grow 6 percent from 2019 to 2029, faster than the average for all occupations. The demand for dental services will increase as the population ages and as research continues to link oral health to overall health.

Total Program Credits: 84

Matriculation Requirements:
1. ENGL 1010 Introduction to Academic Writing or ENGH 1005 Literacies and Composition Across Contexts, CHEM 1110 Elementary Chemistry for the Health Sciences, BIOL 1610 College Biology, ZOOL 2320 Human Anatomy /ZOOL 2325 Human Anatomy Lab and ZOOL 2420 Human Physiology/ZOOL 2425 Human Physiology Lab with a minimum of a "C" grade or higher
2. Complete the HSRT - Health Science Reasoning Test.
3. Complete 20 hours of clinical/dental office observation.
4. Submit two letters of reference by either a current supervisor/employer or academic instructor.
5. Submit a 2 page essay on topic provided by department.
6. Submit the Dental Hygiene Application Fee by February 1.
7. Complete interview process and be formally accepted into program.

4. Completion of GE and specified departmental requirements.

Dental Hygiene, A.A.S.

**Careers**

1. UVUDH graduates will be able to execute all steps in the dental hygiene process of care.
2. UVUDH graduates will be able to apply a professional code of ethics which complies with Federal and State laws.
3. UVUDH graduates will be able to provide health promotion and education services in public health and alternative settings.
4. UVUDH graduates will be able to successfully graduate and affiliate with professional organizations.
5. UVUDH graduates will be able to perform self-assessment for professional growth and lifelong learning.

**Related Careers**

- Health Specialties Teachers, Postsecondary
- Dental Hygienists

Healthcare Services, A.A.S.

**Requirements**

The Associate in Applied Science in Healthcare Services is designed for individuals working in a health-related area who have obtained, or are working toward a technical certification, license, etc. Many of these students will be looking for a pathway to allow them better upward mobility in their professions or education to help them become a certified health professional. Students initially finish a program at Mountainland Technical College to develop a portfolio that presents licenses and work-related certifications as well as provides a rationale for receiving technical, experiential credit. Students matriculating into UVU’s AAS program will add to their portfolio core courses that provide fundamental knowledge of health professions, human anatomy and physiology, as well as elective courses; students enhance their technical knowledge and skills in one or more health-related areas (e.g. surgical technician, medical assistant, and medical billing and coding).

**Total Program Credits: 64**

**Matriculation Requirements:**

Completion of an approved MTECH articulated certificate

### Graduation Requirements:

1. Complete a minimum of 64 semester credits.
2. Overall grade point average of 2.0 (C) or above. All Health Service core electives must be completed with a C- or higher.
3. Residency hours - minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.
5. Completion of an approved and articulated MTECH certificate

### Healthcare Services, A.A.S. Careers

1. Utilize the specialized knowledge and skills necessary in various health professions.
2. Develop effective strategies in communicating ethically and culturally sensitive information that engage individuals and communities in the promotion of health policies, programs, and interventions.
3. Recognize basic anatomy and physiology.

### Respiratory Therapy, A.A.S. Requirements

An Associate of Applied Science in Respiratory Therapy consists of comprehensive classroom and clinical curricula that prepares students for matriculation into the BS Respiratory Therapy program and credentialing exam offered by the National Board of Respiratory Care (NBRC). The NBRC is the credentialing arm of the American Association of Respiratory Care. Successful completion of the curriculum and the credentialing exam certifies students as a Registered Respiratory Therapist (RRT) and enables them to apply for licensure in their state of residence. Employment opportunities with health care providers range from home health and hospice to neonatal, pediatric, and adult intensive care units in UVU's service area and across the country.

### Matriculation Requirements:

1. Complete the following coursework:
   - College English
   - Quantitative Literacy
   - Personal Health and Wellness
   - Microbiology with lab (4 credits)
   - College Biology with lab (5 credits)
   - Chemistry (4 credits)
   - Human Anatomy with lab (4 credits)
   - Human Physiology with lab (4 credits)
   - Physics
   - Survey of Respiratory Therapy
   - Note: Must pass all general education and pre-requisite courses with a minimum of a “C” grade or higher

2. Complete the Test of Academic Skills (TEAS)

3. Submit Application Fee and Application by the third Friday in September

4. Personal Interview: All candidates will be screened and those deemed to meet or exceed basic application requirements will be invited for an interview. This interview does not guarantee acceptance into the program as students will compete with all other applicants for matriculation into a cohort. Applicants must bring a photo ID to the interview.

5. Other Determining Factors
   - Prior healthcare experience (preferred, but not required)
   - Shadowing opportunity (recommended)
   - Discipline for academic performance
   - Successful completion of a background check
   - Drug Screen

### General Education Requirements: 27 Credits

Complete one of the following:

- **ENGL 1010** Introduction to Academic Writing CC (3)
- **ENGL 101H** Introduction to Writing CC (3)
- **ENGH 1005** Literacies and Composition Across Contexts CC (5)
- **ENGL 2010** Intermediate Academic Writing CC (3)

Complete one of the following:

- **MAT 1030** Quantitative Reasoning QL (3)
- **MAT 1035** Quantitative Reasoning with Integrated Algebra QL (6)
- **STAT 1040** Introduction to Statistics QL (3)
- **STAT 1045** Introduction to Statistics with Algebra QL (5)
- **MATH 1050** College Algebra QL (4) or higher QL math course
- **MATH 1055** College Algebra with Preliminaries QL (5)

Complete One of the following:

- **HLTH 1100** Personal Health and Wellness TE (2) (Highly recommended)
- **EXSC 1097** Fitness for Life TE (2)

### Distribution Courses:

- **PSY 1100** Human Development Life Span SS (3)
Allied Health

or PSY 1010 General Psychology SS
BIOL 1610 College Biology I BB 5
and BIOL 1615 College Biology I Laboratory
CHEM 1110 Elementary Chemistry for the Health Sciences PP 4
or CHEM 1210 Principles of Chemistry I PP
MICR 2060 Microbiology for Health Professions BB 4
and MICR 2065 Microbiology for Health Professions Laboratory

Discipline Core Requirements: 45 Credits
Complete one of the following: 4
ZOOL 2320 Human Anatomy BB (3.0)
and ZOOL 2325 Human Anatomy Laboratory (1.0)
ZOOL 232H Human Anatomy BB (3.0)
and ZOOL 232L Human Anatomy Laboratory (1.0)
Complete the following:
ZOOL 2420 Human Physiology 3
and ZOOL 2425 Human Physiology Laboratory 1
PHYS 1010 Elementary Physics 3
RESP 1540 Survey of Respiratory Therapy 1

Must be accepted into Program to take these Courses
RESP 2145 Fundamentals of Respiratory Care Lab 3
RESP 2165 Mechanical Ventilation Lab 2
RESP 2210 Cardiopulmonary and Renal Anatomy and Physiology I 3
RESP 2230 Cardiopulmonary Pathophysiology I 2
RESP 2250 Basic Patient Assessment 2
RESP 2270 Application of Cardiopulmonary Diagnostics 3
RESP 2300 Fundamentals of Respiratory Care 3
RESP 2320 Mechanical Ventilation I 3
RESP 2330 Entry Level Respiratory Therapy Review 1
RESP 2420 Critical Thinking in Respiratory Care 2
RESP 2520 Principles of Pharmacology 2
RESP 2705 Clinical Practice I 3
RESP 2715 Specialty Clinical Experiences 1
RESP 2725 Clinical Practice II 3

Graduation Requirements:
1. Completion of a minimum of 72 semester credits
2. Must earn a C or higher in ALL Respiratory Therapy discipline courses, general education courses, and pre-requisite courses.
3. Residency hours: minimum of 20 credit hours through course attendance at UVU.
4. Completion of specified departmental requirements.

Respiratory Therapy, A.A.S. Careers
1. Work effectively as a team member with physicians, nurses, therapists and patients as an integral part of the medical community.
2. Make correct interventional medical decisions based on assessment of patient needs and diagnosis within the scope of therapist driven protocols.
3. Comply with the ethical and legal parameters of HIPAA in the use and disclosure patients' health information.

Related Careers
- Health Specialties Teachers, Postsecondary
- Respiratory Therapy
- Respiratory Therapy Technicians

Dental Hygiene, B.S. Requirements
Dental hygienists examine patients for signs of oral diseases, such as gingivitis, and provide preventive care, including oral hygiene. Working in a private dental office continues to be the primary place of employment for dental hygienists. For today’s dental hygiene professional, there are many other career pathways to explore as well. Employment of dental hygienists is projected to grow 6 percent from 2019 to 2029, faster than the average for all occupations. The demand for dental services will increase as the population ages and as research continues to link oral health to overall health.

Total Program Credits: 121

Matriculation Requirements:
1. Complete ENGL 1010 or ENGH 1005, CHEM 1110, BIOL 1610, ZOOL 2320/2325, and ZOOL 2420/2425 with a minimum of a “C” grade or higher.
2. Complete the HSRT - Health Science Reasoning Test.
3. Complete 20 hours of clinical/dental office observation.
4. Submit two letters of reference by either a current supervisor/employer or academic instructor.
5. Submit a 2 page essay on topic provided by department.
6. Submit the Dental Hygiene Application Fee and Application by February 1.
7. Complete interview process and be formally accepted into program.

Graduation Requirements:
1. Completion of a minimum of 121 semester credits
2. All courses must have a grade of "C" or higher.
3. Residency hours: minimum of 30 credit hours through course attendance at UVU, with 10 hours earned during the last 45 hours
4. Completion of GE and specified departmental requirements
5. A minimum of 40 upper division credit hours
6. Successful completion of at least one Global/Intercultural course.

Dental Hygiene, B.S.

Careers

1. UVUDH graduates will be able to execute all steps in the dental hygiene process of care.
2. UVUDH graduates will be able to apply a professional code of ethics which complies with Federal and State laws.
3. UVUDH graduates will be able to provide health promotion and education services in public health and alternative settings.

74
4. UVUDH graduates will be able to successfully graduate and affiliate with professional organizations.
5. UVUDH graduates will be able to perform self-assessment for professional growth and lifelong learning.

**Related Careers**

- Dental Hygienists

**Respiratory Therapy, B.S.**

**Requirements**
The BSRT includes five semesters of course study after completion of the first two years of undergraduate curriculum. The program is designed to provide students with educational and clinical competence by emphasizing advanced clinical knowledge, critical thinking, and versatility. Students are engaged in the theoretical, practical, and clinical aspects of adult, pediatric, and neonatal respiratory care. They gain a well-rounded and in-depth knowledge base of respiratory clinical science and its application in health care.

**Total Program Credits: 124**

### Matriculation Requirements:

Unless students already have an RRT Certification and associate's degree, the following matriculation requirements may apply.

1. Complete the following coursework:
   - **College English (6 credits)**
   - **Quantitative Literacy**
   - **Microbiology with lab (4 credits)**
   - **Chemistry (4 credits)**
   - **Human Anatomy with lab (4 credits)**
   - **Human Physiology with lab (4 credits)**
   - **Physics**
   - **Survey of Respiratory Therapy**
     - Note: Must pass all general education and pre-requisite courses with a minimum of a “C” grade or higher

2. Complete the Test of Academic Skills (TEAS)

3. Submit the Respiratory Therapy Application Fee and Application by the third Friday in September

4. Personal Interview: All candidates will be screened and those deemed to meet or exceed basic application requirements will be invited for an interview. This interview does not guarantee acceptance into the program as students will compete with all other applicants for matriculation into a cohort. Applicants must bring a photo ID to the interview.

5. Other Determining Factors
   - **Prior healthcare experience** (preferred, but not required)
   - **Shadowing opportunity** (recommended)
   - **Discipline for academic performance**
   - **Successful completion of background check**
   - **Drug Screen**

Degrees & Programs

Engineering Design Technology, A.A.S.

Requirements

The Associate in Applied Science Degree is a "job ready" degree and applies the technical and functional elements of several Drafting and Design fields. Students will take courses in the fundamentals of drafting and design, industry standard two-dimensional and three-dimensional software, Architectural Design, Civil Design and Surveying, Electrical Design, Mechanical Design, and Structural Steel Detailing and Design. Students will take other supporting classes and advanced courses in a minimum of two specialty areas of their choosing.

## Architecture and Engineering Design

### Graduation Requirements:
1. Completion of a minimum of 65 semester credits.
2. Overall grade point average of 2.0 (C) or above. (Departments may require a higher GPA.)
3. Residency hours-- minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements, including a portfolio and exit interview.

### Engineering Design Technology, A.A.S.

#### Careers
- Architectural and Civil Drafters
- Electrical and Electronics Drafters
- Mechanical Drafters
- Drafters, All Other

#### Requirements
The Associate in Science Degree is a transferable degree and applies the technical and functional elements of several Drafting and Design fields without taking the advanced course work required in the Associate in Applied Science Degree. Students will take fundamental courses in drafting and design, industry standard two-dimensional and three-dimensional software, Architectural Design, Civil Design and Surveying, Electrical Design, Mechanical Design, and Structural Steel Detailing and Design.

### Total Program Credits: 61

### Graduation Requirements:

1. Completion of a minimum of 61 semester credits.
2. Overall grade point average of 2.0 (C) or above. (Departments may require a higher GPA.)
3. Residency hours—minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.

### Engineering Design Technology, A.S.

#### Careers

1. Graduates will be proficient in 5 major industrial areas of design and drafting.
2. Graduates will be conversant in the subject matter of all drafting disciplines at a 75% or higher level as demonstrated by oral presentation and display of samples of work completed while in the EGDT program.

### Related Careers

- Architectural and Civil Drafters
- Electrical and Electronics Drafters
- Mechanical Drafters
- Drafters, All Other

### Surveying Technology, A.A.S.

#### Requirements

The AAS in Surveying Technology meets the educational component for licensure as a Professional Land Surveyor (PLS) in the State of Utah according to the State of Utah Office of Administrative Rules 156-22-302(c)(1).

This degree prepares students for immediate employment beyond entry level work in surveying or civil engineering firms. Students will be prepared to perform many of the various field and office tasks related to surveying including site and topographic surveys, boundary investigation and research, map-making, various survey adjustment calculations, writing of legal property descriptions, and other survey technician duties and responsibilities.

### Surveying and Technology Foundation 51 Credits

- 12 Credits

### Matriculation Requirements:

Before being formally admitted into the AAS Surveying Technology degree program, full and part-time students must matriculate into the AAS Surveying and Mapping Cohort by completing a Matriculation Application or before the July 15th deadline prior to the Fall cohort to which the student desires to gain entry.

No courses may be taken until the student has been approved by the Surveying and Mapping Program Coordinator.

Complete My Educator with an exam score of 80% or higher OR complete IM 2010 Business Computer Proficiency (3.0 credit hours) with B- or higher.

All Surveying and Mapping students who have been matriculated into the Associate of Applied Science degree program must have access to their own laptop computer which can be made available during classes and which meets the minimum hardware specifications as defined by current AutoCAD® hardware specifications prior to starting classes in the semester for which they have matriculated.

### General Education Requirements: 12 Credits

80 Course Catalog 2023-2024 Utah Valley University
**Surveying and Mapping, A.S.**

**Requirements**

Geomatics is the study of geospatial measurement and representation including such disciplines as land surveying, photogrammetry, remote sensing (satellite imaging and laser scanning), geographic information systems (GIS), cartography, global positioning systems (GPS), and some parts of geology and civil engineering. Geomatics is a discipline which integrates acquisition, modeling, analysis, and management of geo-spatial reference data. Based on the scientific framework of geodesy, it uses terrestrial, marine, airborne, satellite-based, sensors, and measurement systems and technologies to acquire spatial and other data.

The Land Surveying component of Geomatics includes investigation, analysis, and application of boundary/property laws and legal principles pertaining to specific public and private properties and is a regulated profession wherein a license to practice land surveying is issued by each state in an effort to protect the public and private interests in property boundaries.

Students in the Geomatics program may earn a Associate in Science in Geomatics which will help them be immediately employable as entry level surveyor GIS technician. Students may also earn a Bachelor of Science in Geomatics which will prepare them to successfully pass the national Fundamentals of Surveying (FS) exam which is a significant step towards surveying licensure.

The bachelor degree program has been developed around four core disciplines which build on an in-depth foundation of knowledge needed for the professional practice of surveying and GIS.

Any lower division elective courses with the following prefixes: SURV, GIS, GEOG, EGDT, CIVE, CMGT, or MATH for a total of 12 credit hours

**Graduation Requirements:**

1. Completion of a minimum of 63 semester credits required for a AAS degree
2. Minimum overall grade point average 2.0 or above.
3. Residency hours: Minimum of 20 credit hours of Surveying and Mapping courses through course attendance at UVU.

**Surveying Technology, A.A.S.**

**Careers**

1. Implement the principles and practices of the professional Land Surveyor.
2. Integrate the professionals’ role and responsibilities of protecting the land rights, title, and interest of the public.
3. Perform all common land surveys using professionally acceptable metrology and geodesy principles and practices.
4. Create maps using professionally acceptable drafting, design, and cartographic principles and practices.
5. Develop prudent ethical judgement and critical thinking skills in making professional decisions.

**Related Careers**

- Cartographers and Photogrammetrists
- Surveyors
- Surveying and Mapping Technicians

Elective Requirements:
Approved Surveying and Mapping elective courses can be taken with the following prefixes: SURV, GIS, EGD, CIVE, CMGT, or MATH

Graduation Requirements:
1. Completion of a minimum of 60 or more semester credits.
2. Overall grade point average of 2.0 (C) or above (departments may require a higher GPA).
3. Residency hours: minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.

Footnote
* Students will be required to complete the My Educator exam with a score of 80 percent or higher or complete the IM 2010 course with a score of 80 percent or higher.

Surveying and Mapping, A.S.
Careers

1. Demonstrated critical thinking ability in performing surveying, mapping, or civil design duties and responsibilities at a professionally competent level and to communicate technical information effectively in a professional team environment.
2. Exercised prudent ethical judgement in professional decisions while protecting the land rights, title, and interest of the public.
3. Advanced professionally by being given more responsibilities; or have successfully completed a graduate level degree.
4. Demonstrated professional development through continuing education or earning certifications or professional licensure.
5. Served in their professional organizations and/or local communities.

Related Careers
• Cartographers and Photogrammetrists
• Surveyors
• Surveying and Mapping Technicians

Architectural Design Technology, Certificate of Proficiency
Requirements

The Certificate of Proficiency in Architectural Design Technology applies the technical and functional elements of residential and commercial architectural design. Students will take courses in the fundamentals of drafting and design, two-dimensional and three-dimensional software/Building Information Modeling (BIM) packages, architectural rendering, residential design and construction, and commercial design and construction.

Total Program Credits: 17

Graduation Requirements:
1. Completion of a minimum of 17 semester credits.
2. Minimum grade of C- required in all courses.
3. Overall grade point average of 2.0 (C) or above.
4. Residency hours-- minimum of 5 credit hours through course attendance at UVU.

Architectural Design Technology, Certificate of Proficiency
Careers

1. Demonstrate knowledge of architectural design, building codes, and construction methods and materials
2. Create quality, industry level design drawings for the design discipline
3. Use industry standard design software when producing design drawings

Related Careers
• Architectural and Civil Drafters

Civil Design and Surveying Technology, Certificate of Proficiency
Requirements

The Certificate of Proficiency in Civil Design and Surveying Technology will be dedicated to teaching the technical and functional elements of civil design and surveying, and will educate students in the process of taking civil related projects from data obtained from ground observations and measurements made by surveying to conceptual design to completed construction documents and finally to surveying and staking the proposed design on the ground so it can be constructed. Students will be required to take civil and surveying courses currently offered in the Engineering Design Technology (EDT) department including the courses from the Drafting Technology program and the Surveying and Mapping program. From these courses students will learn the basics of surveying, civil drafting and design, and be trained in industry standard two-dimensional and three-dimensional software packages. Students will also take courses in surveying applications, land development, advanced field and office surveying, and civil design. A student with a Certificate of Proficiency in Civil Design and Surveying Technology will be prepared for an entry level job as a civil drafter/designer or survey technician. They can increase their education, training, and employability by completing the Associate of Applied Science in Engineering Design Technology, Certificate of Proficiency in Mapping Technology, Certificate of Proficiency in Surveying Technology, Associate of Applied Science in Surveying Technology (pending), Associate of Science in Surveying and Mapping and/or a Bachelor of Science in Surveying and Mapping.

Total Program Credits: 18
Architecture and Engineering Design

Discipline Core Requirements: 12 Credits

Choose one of the following courses:

- EGDT 1600 Technical Math Algebra (3.0)
- or EGDT 1610 Technical Math Geometry Trig (3.0)
- or MATH 1060 Trigonometry QL (3.0)

EGDT 1040 Fundamentals of Technical Engineering Drawing 3

EGDT 1400 Surveying Applications and Field Techniques I 3

EGDT 2400 Surveying Applications and Field Techniques II 3

Elective Requirements: 6 Credits

Choose 6 credit hours:

Any course beginning with the following prefix may be taken as an elective: EGDT, SURV, GIS, ENGR, or CIVE

Graduation Requirements:

1. Completion of a minimum of 17 semester credits.
2. Minimum grade of C- required in all courses.
3. Overall grade point average of 2.0 (C) or above.
4. Residency hours-- minimum of 5 credit hours through course attendance at UVU.

Civil Design and Surveying Technology, Certificate of Proficiency

Careers

1. Implement the principles and practices of the Survey Technician, Mapper, and Civil Designer.
2. Perform all common land surveys and civil engineering plans using professionally acceptable principles and practices of civil design and surveying.
3. Create maps and plans using professionally acceptable drafting, design, and cartographic principles and practices.

Related Careers

- Cartographers and Photogrammetrists
- Surveyors
- Surveying and Mapping Technicians

Mechanical Design Technology, Certificate of Proficiency

Requirements

The Certificate of Proficiency in Mechanical Design Technology applies the technical and functional elements of mechanical design. Students will take courses in the fundamentals of drafting and design, basic mechanical drafting and design, two-dimensional and three-dimensional software packages, electrical design, and advanced mechanical design.

Total Program Credits: 17

Discipline Core Requirements: 17 Credits

- EGDT 1000 Introduction to Engineering Drawing and Technical Design 2
- EGDT 1010 Electrical Drafting and Design 3
- EGDT 1040 Fundamentals of Technical Engineering Drawing 3
- EGDT 1070 3 Dimensional Modeling--Inventor 3
- or EGDT 1071 3 Dimensional Modeling--Solidworks (3.0)
- EGDT 1200 Mechanical Drafting and Design 3
- EGDT 2200 Advanced Mechanical 3

Graduation Requirements:

1. Completion of a minimum of 17 semester credits.
2. Minimum grade of C- required in all courses.
3. Overall grade point average of 2.0 (C) or above.
4. Residency hours-- minimum of 5 credit hours through course attendance at UVU.

Structural Design Technology, Certificate of Proficiency

Careers

1. Demonstrate knowledge of mechanical design and engineering reference materials (Machinery’s Handbook).
2. Create quality, industry level design drawings for the design discipline.

Related Careers

- Mechanical Drafters

Structural Design Technology, Certificate of Proficiency

Requirements

The Certificate of Proficiency in Structural Design Technology applies the technical and functional elements of structural steel detailing. Students will take courses in the fundamentals of drafting and design, basic structural steel detailing, two-dimensional and three-dimensional software/Building Information Modeling (BIM) packages, and advanced structural design and detailing.

Total Program Credits: 17

Discipline Core Requirements: 17 Credits

- EGDT 1000 Introduction to Engineering Drawing and Technical Design 2
- EGDT 1020 3D Architectural Modeling 3
- EGDT 1040 Fundamentals of Technical Engineering Drawing 3
- EGDT 1300 Structural Drafting and Design 3
- EGDT 2300 Advanced Structural CAD 3
- EGDT 2310 Structural Steel Modeling 3

Graduation Requirements:

1. Completion of a minimum of 17 semester credits.
2. Minimum grade of C- required in all courses.
3. Overall grade point average of 2.0 (C) or above.
4. Residency hours-- minimum of 5 credit hours through course attendance at UVU.

Structural Design Technology, Certificate of Proficiency

Careers

1. Demonstrate knowledge of structural steel detailing/design and the AISC Standards.
2. Create quality, industry level design drawings for the design discipline.
Architecture and Engineering Design

3. Use industry standard design software when producing design drawings.

• Drafters, All Other

Surveying Technology, Certificate of Proficiency

Requirements
The Certificate of Proficiency in Surveying Technology is intended to provide part of the educational competency required for licensure as a Professional Land Surveyor (PLS) in the State of Utah. If an individual holds a bachelor of science degree in a related surveying field such as civil engineering or construction management, according to the State of Utah Office of Administrative Rules 156-22-302(c)(3), they may complete an additional 30 semester hours of surveying specific course work to complete the educational component for licensure. This certificate meets this regulatory educational requirement if the related degree includes algebra, calculus, geometry, statistics, or trigonometry. It prepares students for immediate employment beyond entry level work in surveying or civil engineering firms as a crew chief or a position with similar responsibilities. Students will be prepared to perform many of the various field and office tasks related to surveying including site and topographic surveys, boundary investigation and research, map-making, various survey adjustment calculations, writing of legal property descriptions, and other survey technician duties and responsibilities.

Total Program Credits: 28

Graduation Requirements:
1. Completion of a minimum of 28 semester credits required for a Certificate of Completion in Surveying Technology
2. Overall grade point average 2.5 or above with a minimum of 3.0 GPA in all Surveying Technology courses. No grade lower than a "B" in all Surveying Technology Foundation courses.
3. Residency hours: Minimum of 8 credit hours of Surveying and Mapping courses through course attendance at UVU.

Surveying Technology, Certificate of Proficiency Careers

1. Implement the principles and practices of the professional Land Surveyor.
2. Integrate the professionals’ role and responsibilities of protecting the land rights, title, and interest of the public.
3. Perform the common land surveys using professionally acceptable metrology and geodesy principles and practices.
4. Create maps using professionally acceptable drafting, design, and cartographic principles and practices.
5. Develop prudent ethical judgement and critical thinking skills in making professional decisions.

Architecture, B.Arch

Requirements
The Bachelor of Architecture (B.Arch) is a five-year professional degree that prepares students for leadership in the profession of architecture and urban design. The program promotes a built environment that bolsters genuine communities through architecture that is durable, useful, beautiful, and human-scaled. Designed to meet the National Architectural Accreditation Board (NAAB) requirements, the degree is rooted in classical and traditional architecture with a holistic foundation in the craft of building, building technology, practice-based coursework, plan and document generation, building codes, specifications, digital parametric modeling, building information modeling, architectural visualization, digital fabrication, building envelope systems, structural systems, and sustainability. The program is structured as a two-plus-three stackable credential, awarding an Associate of Science in Engineering Design Technology (Architectural Design & Drafting Track) after the first two years and a comprehensive professional B.Arch degree for the final three years. This allows students who do not wish to pursue licensure a two-year path into the profession. In their final three years, students engage in coursework which readies them to become licensed, practicing architects, projects managers, principals, owners, and community leaders in the profession. Students learn to design buildings in a historical and cultural context through coursework in history, theory, culture, and community service. Concurrently, students engage in arts and science courses to expand critical thinking and understand current design and building technologies, making them ideal employees in architecture offices and related design & construction industries including civil, mechanical, and electrical engineering. Students acquire leadership skills through courses in professional practice, ethics, and architectural registration exam preparation. A total of at least 153 hours of coursework is required for the Bachelor of Architecture (B.Arch).

Total Program Credits: 153

Matriculation Requirements

1. Before being formally admitted into the Bachelor of Architecture (B-Arch) degree program, students must matriculate into the Architecture Cohort (the final 3 years of the program) by either completing the AS Engineering Design Technology (Architecture Design and Drafting Track) with a minimum grade of C or better in all courses, OR by completing matriculation requirements 2:

2. Complete the following courses with a C grade or better.

All Architecture students must complete a Matriculation Application and Portfolio by the appointed deadline during the Spring semester prior to the Fall Bachelor Degree cohort to which the student desires to gain entry. Subsequently an official acceptance letter must be obtained from the Architecture Program Coordinator prior to taking any further Architecture courses. Part-time students may be admitted into the Architecture cohort and may be allowed to proceed through the program at their own pace. All transfer credits must be approved in writing by UVU and the B-ARCH Program Coordinator.

**Graduation Requirements:**

1. Completion of a minimum of 153 semester credits required for the B.Arch degree; at least 40 credit hours must be upper-division courses.
2. Overall grade point average of 2.5 or above, with a minimum grade of C- in all Architecture courses and elective requirements.
3. Residency hours: Minimum of 45 credit hours of Architecture courses through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements. Students are responsible for completing all prerequisite courses.
5. Successful completion of at least one Global/Intercultural course.

**Architecture, B.Arch**

**Careers**

1. ARCHITECTURAL SOLUTIONS: Demonstrate the ability to integrate design solutions and utilize appropriate building materials, building systems, and sound construction practices.
2. BUILDING SYSTEMS KNOWLEDGE: Incorporate a wide range of technical skills and professional architectural knowledge during schematic design to demonstrate a comprehensive understanding of life safety, accessibility, and sustainability issues in making sound design decisions across varying scales and levels of complexity.
3. GRAPHIC DESIGN AND REPRESENTATION: Construct multifaceted two and three-dimensional graphic representation techniques using a wide variety of both traditional and digital methods, to describe the architectural design.
4. BUILDING DESIGN PRINCIPLES: The knowledge and the know how to apply design decisions through appropriate technical documentation to serve client’s needs, create a pleasing aesthetic, create cost-effective solutions, and become responsible stewards of the environment.
5. ARCHITECTURAL SOLUTIONS: Demonstrate the ability to integrate design solutions and utilize appropriate building materials, building systems, and sound construction practices.
6. PRACTICE OF ARCHITECTURE: Collaborate and lead teams of stakeholders throughout the design process.
7. Conceive, develop, and implement solutions to a wide range of design problems in the physical built environment.
8. Understand the ethics, legal requirements, financial and social responsibilities of professional practice.

**Surveying and Mapping, B.S.**

**Requirements**

Surveying and Mapping is the study of geospatial measurement and representation including such disciplines as land surveying, photogrammetry, remote sensing (satellite imaging and laser scanning), geographic information systems (GIS), cartography, global positioning systems (GPS), and some parts of geography and civil engineering. Surveying and Mapping is a discipline which integrates acquisition, modeling, analysis, and management of geo-spatial reference data. Based on the scientific framework of geodesy, it uses terrestrial, marine, airborne, satellite-based sensors, and measurement systems and technologies to acquire spatial and other data. The Land Surveying component of Surveying and Mapping includes investigation, analysis, and application of boundary/property laws and legal principles pertaining to specific public and private properties and is a regulated profession wherein a license to practice land surveying is issued by each state in an effort to protect the public and private interests in property boundaries. Students in the Surveying and Mapping program may earn an Associate in Science in Surveying and Mapping which will help them be immediately employable as an entry level surveyor GIS technician.
Students may also earn a Bachelor of Science in Surveying and Mapping which will prepare them to successfully pass the national Fundamentals of Surveying (FS) exam which is a significant step towards surveying licensure.

The bachelor degree program has been developed around four core disciplines which build on an in-depth foundation of knowledge needed for the professional practice of surveying and GIS. Surveying and Mapping program goals are to secure ABET/ASAC accreditation by Fall Semester 2017 and to continue to encourage student interest in obtaining graduate degrees in the field of Surveying and Mapping from other nationally ranked institutions. The program is operating under an annual cohort system starting in the fall semester of each year, somatriculation is required to ensure that each perspective student completes all required course prerequisites prior to entrance into a cohort.

**Graduation Requirements:**

1. Completion of a minimum of 121 semester credits required for a BS degree; at least 40 credit hours must be upper-division courses.
2. Overall grade point average 2.5 or above with a minimum of 3.0 GPA in all Surveying and Mapping courses including Surveying and Mapping Core and Professional Focus Areas.
3. Residency hours: Minimum of 30 credit hours of Surveying and Mapping courses through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements. Students are responsible for completing all prerequisite courses.
5. Successful completion of at least one Global/Intercultural course.
6. Taken the Fundamentals of Surveying (FS) exam offered by the National Council of Examiners for Engineering and Surveying (NCEES) if they have the Professional Surveying Focus.

**Surveying and Mapping, B.S.**

**Careers**

1. Demonstrated critical thinking ability in performing surveying, mapping, or civil design duties and responsibilities at a professionally competent level and to communicate technical information effectively in a professional team environment.
2. Exercised prudent ethical judgement in professional decisions while protecting the land rights, title, and interest of the public.
3. Advanced professionally by being given more responsibilities; or have successfully completed a graduate level degree.
4. Demonstrated professional development through continuing education or earning certifications or professional licensure.
5. Served in their professional organizations and/or local communities.

Degrees & Programs

Art and Design - Design/Illustration Emphasis, A.A.S.

Requirements

The Applied Associate in Science is a two-year work-ready degree that helps prepare students for entry-level jobs within the Illustration industry. The program is ideal for students wanting to pursue careers in traditional illustration, digital illustration, or animation. Students have access to the best software in the industry and courses offer a well-rounded and practical learning experience. Courses in figure drawing, anatomy and figure structure, 3-D computer modeling, and imagination and creative problem solving are just a few of the classes available to students. Students in the illustration program benefit from interaction with instructors who are nationally known, professional illustrators. The AAS degree and credits earned can be used to continue studies in a Bachelor of Fine Arts in illustration.

Total Program Credits: 63

Graduation Requirements:

1. Completion of a minimum of 63 semester credits.
2. Overall grade point average of 2.0 (C) or above with no grade lower than a C- in all Art and Design courses.
3. Residency hours--minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.
5. Portfolio Submission.

Portfolio review required for students seeking the AAS - Art and Design - Graphic Design Emphasis (The Portfolio Review occurs after the first year of coursework. Students who do not pass the review may apply the first year of coursework to the AA or AS in Art & Design.)

General Education Requirements: 16 Credits

Entertainment Design, A.A.S.

Requirements
A successful career in Entertainment Design requires a limitless imagination, the ability to invent and conceptualize new realities, and an understanding of the traditional and technological tools used to do so. This interdisciplinary degree encompasses concept, character, story, place, and time relevant to the entertainment industry. Students can expect to learn the skills and creative ability required of concept artists in the disciplines of character and story development such as character design, storyboarding, motion sequencing, and art direction. As an Entertainment Designer, you will create realities and experiences that excite minds by combining art and technology to bring extraordinary experiences to life in toys, games, comics, movies, environments, and more.

Total Program Credits: 65

Matriculation Requirements:
- General Education Requirements: 23 Credits
- Portfolio Review
- Completion of a minimum of 8 credits from any ART/ARTH Course not already required. Courses relative to the type of Bachelors Degree you plan to pursue are recommended. (See department advisor for appropriate courses.)

Graduation Requirements:
1. Completion of a minimum of 65 semester credits.
2. Overall grade point average of 2.0 (C) or above with no grade lower than a C- in all Art and Design courses.
3. Residency hours—minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.
5. Portfolio Submission.

Entertainment Design, A.A.S.

Careers
1. Employ efficient and accurate drawing and painting abilities that convey an understanding of perspective, light, material and color.
2. Apply the use of anatomy, gesture, form, and staging in figure drawing and character design.
3. Apply principles of composition, color theory, and form to concept designs and illustrations as a way to emphasize and dramatize story.
Art and Design, Certificate of Completion

Requirements

The certificate provides basic instruction in both two-dimensional and three-dimensional using traditional and digital tools.

Total Program Credits: 30

Art History, Minor

Requirements

Because art history is cross-disciplinary by nature, a minor in art history would compliment almost any degree, whether within or outside of the arts. The minor requires 18 credits of art history courses, including the survey classes Art to and from the Renaissance, as well as four upper division electives, ranging from ancient to contemporary art history. The minor creates a more diverse skill set for students of the visual arts,
as well as a more culturally rich educational experience for students outside of the arts.

Art History, Minor

Careers

1. VISUAL LITERACY: Demonstrate with competency a deep understanding of specific art historical styles, movements, and trends by presenting or analyzing visual characteristics, techniques, and approaches.

2. PROFESSIONAL EXCELLENCE: Demonstrate with competency the ability to conduct scholarly research and to demonstrate an understanding of current art historical scholarship and academic writing formalities. Show consideration of creative and critical thinking skills as evidenced by well-reasoned and well-researched arguments and analysis that incorporate a level of original thought.

3. CREATIVE DIVERSITY: Demonstrate with competency a deep understanding of the cultural, social, and historical contexts/influences of specific artworks, styles, and themes. Might consider (but not limited to): analyzing connections or distinctions between one or more cultures or time periods, exploring the creation of cultural meaning through symbols and artistic messages, and analyzing the historical value and relevance of specific artworks or approaches.

Art Education, B.S.

Requirements

The Bachelor of Science in Art Education prepares students to qualify for teaching licensure for 7--12th grade. Curriculum is designed to give students a background in general education, as well as secondary education. Students can also focus on a single studio area within visual arts such as painting/drawing, sculpture/ceramics, illustration or printmaking.

Total Program Credits: 120

Matriculation Requirements:

Students will apply for formal admission to the Secondary Education and the Art and Design Department Art Education program in the semester prior to the beginning of their junior year. Admission criteria include:

1. ENGL and MATH QL courses must have a grade C or higher.
2. GPA of 3.0 or higher with no grade lower than a C in discipline core courses.
3. Completion of all General Education requirements and 70% of content area courses.
4. Pass LiveScan Criminal Background Check.

General Education Requirements:

Art and Design - Graphic Design Emphasis, B.F.A.

Requirements

Situated in the heart of the “Silicon Slopes,” UVU’s graphic design program is uniquely situated to offer students cutting-edge learning, internship, and job-placement opportunities. As students use the latest software to practice communicating creatively using typography and imagery, they learn to approach problem solving from marketing and artistic standpoints that resonate with target audiences. Courses emphasize creative, concept-intensive communication, and effective design implementation in both print and interactive design.

Total Program Credits: 120

Matriculation Requirements:

1. AA, AS, or AAS Degree or equivalent in Art and Design or advisor approval (Graphic Design Emphasis B.F.A. candidates must complete the AAS Degree or equivalent in Graphic Design; Illustration Emphasis. B.F.A. candidates must complete the AAS Degree or equivalent in Illustration)
2. Portfolio Review

Art and Design - Illustration Emphasis, B.F.A.

Requirements

The program is ideal for students wanting to pursue careers in traditional illustration, digital illustration, or animation. In addition to working with faculty who are professionals in their fields, students have access to the best software in the industry. Courses in figure drawing, children’s book illustration, anatomy and figure structure, flash animation, 3-D computer rendering, and advanced illustration are just a few of the classes available to students. The courses offer a well-rounded and practical learning experience. Students in the illustration program benefit from interaction with instructors who are nationally known professional illustrators.

Total Program Credits: 120

Matriculation Requirements:

1. AA, AS, or AAS Degree or equivalent in Art and Design or advisor approval (Graphic Design Emphasis B.F.A. candidates must complete the AAS Degree or equivalent in Graphic Design; Illustration Emphasis. B.F.A. candidates must complete the AAS Degree or equivalent in Illustration)

1. Completion of a minimum of 120 semester credits.
2. Overall grade point average of 2.0 (C) or above with no grade lower than a C- in all Art and Design courses.
3. Residency hours—minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Portfolio submission required during senior year.
6. Successful completion of at least one Global/Intercultural course.

### Art and Design - Illustration Emphasis, B.F.A. Careers

1. VISUAL LITERACY: Demonstrate proficient imagery selection and creation. Create proficient design through hierarchy, negative space, pacing, and graphic elements. Demonstrate proficient use of typography through selection, pairing, typesetting and/or stylization.
2. PROFESSIONAL EXCELLENCE: Demonstrate committed participation, sincere improvement, and dedicated work ethic. Present work professionally through variety, individuality, and craftsmanship.
3. CREATIVE DIVERSITY: Communicate concepts clearly and creatively. Exhibit work with others or collaborate on a project, paper or presentation in a culturally responsible manner.

### Related Careers

- Art, Drama, and Music Teachers, Postsecondary
- Commercial and Industrial Designers
- Graphic Designers
- Set and Exhibit Designers
- Designers, All Other

### Art and Design - Painting and Drawing Emphasis, B.F.A. Requirements

Within the painting/drawing program, students emphasize one of four areas: drawing, watermedia, painting, or printmaking. In their senior year, B.F.A. students receive one-on-one instruction from the professor of their choice. Students explore their personal artistic identity while learning the rigor and attention to detail needed to put together a solo exhibition as their culminating experience.

Total Program Credits: 120
## Art and Design

### Matriculation Requirements:

1. **AA, AS, or AAS Degree or equivalent in Art and Design or advisor approval** (Graphic Design Emphasis B.F.A. candidates must complete the AAS Degree or equivalent in Graphic Design; Illustration Emphasis. B.F.A. candidates must complete the AAS Degree or equivalent in Illustration)
2. **Portfolio Review**

</tbody>
</table>
Printmaking

ART 368R Printmaking III (3) (may be taken twice)

ART 468R Printmaking IV (3) (may be taken twice)

Complete 12.0 elective credits from upper-division specialization courses listed below. It is recommended to focus on depth in the selected specialization.

Painting

ART 363R Painting III (may be taken twice) (3)

ART 369R Contemporary Figure Painting (3) (may be taken twice)

ART 463R Painting IV (3) (may be taken twice)

Printmaking

ART 368R Printmaking III (may be taken twice) (3)

ART 468R Printmaking IV (may be taken twice) (3)

Complete one of the following additional Professional content courses: 12

ART 4820 Professional Presentation for the Visual Arts I WE (1)

ART 4830 Professional Practices for the Visual Arts II WE (1)

ART 4850 Professional Writing for the Visual Arts WE (1)

Graduation Requirements:

1. Completion of a minimum of 120 semester credits.
2. Overall grade point average of 2.0 (C) or above with no grade lower than a C- in all Art and Design courses.
3. Residency hours--minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Portfolio submission required during senior year.
6. Successful completion of at least one Global/Intercultural course.

Footnote

1 ART 1110, 1350, and 2630 taken to fulfill this requirement will not also count toward the BFA Discipline Core (credit will not count twice).

Art and Design - Painting and Drawing Emphasis, B.F.A.

Careers

1. VISUAL LITERACY: Demonstrate with proficiency the creation of compositions that successfully use the elements of art and principles of design.
2. PROFESSIONAL EXCELLENCE: Demonstrate with proficiency the creation of a portfolio of cohesive and unified work. Demonstrate with proficiency the writing of an artist statement that successfully explains the process, purpose, and ideas of the student’s work. Demonstrate with proficiency the ability to obtain an exhibition space, organize, advertise, and install an exhibition of student’s art works from the BFA project course/courses.
3. CREATIVE DIVERSITY: Demonstrate with proficiency an individual expression/voice in student’s art.

Related Careers

Art and Design - Photography Emphasis, B.F.A.

Requirements

UVU’s photography program teaches the language of photography. Students will take courses to diversify their skill set in the creation and appreciation of different approaches to photography. They will work with film, historic photographic processes, and cutting edge digital technology. Students learn about and work in commercial and fine art environments. They will be taught working methods in the darkroom, studio lighting techniques, motion, and digital manipulation. The photo program emphasizes a hands-on and engaged approach. We actively look for opportunities to get our students on location and into real world scenarios through internships, study abroad programs, service oriented programs, and classes taught off campus.

Total Program Credits: 120

Matriculation Requirements:

1. AA, AS, or AAS Degree or equivalent in Art and Design or advisor approval (Graphic Design Emphasis B.F.A. candidates must complete the AAS Degree or equivalent in Graphic Design; Illustration Emphasis. B.F.A. candidates must complete the AAS Degree or equivalent in Illustration)
2. Portfolio Review

**Art and Design - Sculpture and Ceramics Emphasis, B.F.A. Requirements**

UVU’s BFA in ceramics and sculpture helps students build a strong foundation of design fundamentals, technical skills, and the use of materials. Whether throwing clay on a potter’s wheel or listening to a class lecture, students discover endless sources of creative ideas while taking courses in low-fire ceramics, mold making, casting, ceramic technologies, and more.

Two upper-division Art History classes (6 credits)

Complete any ART/ARTH courses not already used (4 credits must be upper division).

Graduation Requirements:
1. Completion of a minimum of 120 semester credits.
2. Overall grade point average of 2.0 (C) or above with no grade lower than a C- in all Art and Design courses.
3. Residency hours—minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Portfolio submission required during senior year.
6. Successful completion of at least one Global/Intercultural course.
Art and Design

Art and Design - Sculpture and Ceramics Emphasis, B.F.A.

Careers

1. VISUAL LITERACY: Demonstrate with proficiency the ability to articulate elements and principles of design. Demonstrate with proficiency the ability to control the given (material) media.
2. PROFESSIONAL EXCELLENCE: Demonstrate with proficiency technical knowledge of studio maintenance and proper use of space and materials. Demonstrate with proficiency the ability to produce a quality sculpture/ceramics portfolio to facilitate admission into graduate schools, to approach galleries, to enter shows, or to establish other means of marketing student’s work.
3. CREATIVE DIVERSITY: Demonstrate with proficiency the exploration of a range of concept development, originality, historical research, and creativity.

Related Careers

• Art, Drama, and Music Teachers, Postsecondary
• Commercial and Industrial Designers
• Graphic Designers
• Set and Exhibit Designers
• Designers, All Other

Art and Design, B.A.

Requirements

Students who elect to earn a bachelor of arts or associate of arts degree are required to complete a foreign language requirement, while those who earn a bachelor of science or associate of science degree have the option to take more electives. All of these degrees allow students to explore a few areas within the department and gain a more well-rounded education in the visual arts.

Total Program Credits: 120

Matriculation Requirements

Portfolio review or completion of A.A., A.S. or A.A.S. degree in Art & Design.

General Education Requirements: 36 Credits

- ENGL 1010 Introduction to Academic Writing CC (3)
- or ENGH 1005 Literacies and Composition Across Contexts CC (5)
- ENGL 2010 Intermediate Academic Writing CC (3)

Complete one of the following: 3

- MAT 1030 Quantitative Reasoning QL (3)
- MAT 1035 Quantitative Reasoning with Integrated Algebra QL (6)
- STAT 1040 Introduction to Statistics QL (3)
- STAT 1045 Introduction to Statistics with Algebra QL (5)
- MATH 1050 College Algebra QL (4)
- MATH 1055 College Algebra with Preliminaries QL (5)
- MATH 1090 College Algebra for Business QL (3)

Complete one of the following: 3

- HIST 2700 US History to 1877 AS (3)
- HIST 2710 US History since 1877 AS (3)
- HIST 1700 American Civilization AS (3)
- HIST 1740 US Economic History AS (3)

Complete the following:

- PHIL 2050 Ethics and Values IH (3)
- HLTH 1100 Personal Health and Wellness TE (2)
- or EXSC 1097 Fitness for Life TE (2)

Distribution Courses:

- Biology 3
- Physical Science 3
- Additional Biology or Physical Science 3
- Humanities Distribution (fulfilled with Foreign Language 202G/2020) 4
- ARTH 2710 Prehistoric Through Gothic Art History FF (3)
- Social/Behavioral Science 3

Discipline Core Requirements: 47 Credits

- ART 1120 2D Design 3
- ART 1130 3D Design 3
- ART 200R Art and Design Lecture Series 2

Complete 9 credits from the following list (please note: when selecting electives be mindful of prerequisite requirements for advanced courses): 9

- ART 1110 Drawing I (3)
- ART 1210 Observational Drawing (3)
- ART 1350 Ceramics I FF (3)
- ART 1400 Graphic Computer Applications (3)
- ART 1420 Graphic Design I (3)
- ART 1650 Watercolor FF (3)
- ART 1750 Intro to Digital Imaging (3)

Complete 3 of the 4 following classes: 3

- ART 4820 Professional Practices for the Visual Arts I WE (1)
- ART 4830 Professional Practices for the Visual Arts II WE (1)
- ART 4840 Professional Presentation for the Visual Arts WE (1)
- ART 4850 Professional Writing for the Visual Arts WE (1)

Complete 24 credits from any ART/ARTH courses not already taken (students must have 40 upper division credit hours to graduate, see Graduation Requirement 1). 24

Elective Requirements: 37 Credits

- One Foreign Language 12

Complete any courses 1000 level or higher (students must have 40 upper division credit hours to graduate, see Graduation Requirement 1). 25

Graduation Requirements:

1. Completion of a minimum of 120 semester credits.
2. Overall grade point average of 2.0 (C) or above with no grade lower than a C- in all Art & Design courses.
3. Residency hours—minimum of 30 credit hours through course attendance at UVU, with at least 10 hours in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Portfolio Submission.
6. Successful completion of at least one Global/Intercultural course.
7. For the BA degree, completion of 16 credit hours of course work from one language to include the 1010, 1020, 2010, and 202G/2020 levels or transferred equivalents.

Art and Design, B.A.

Careers
1. VISUAL LITERACY: Demonstrate with proficiency the creation of compositions that successfully use the elements of art and principles of design.
2. PROFESSIONAL EXCELLENCE: Demonstrate with proficiency the ability to execute a professional-level body of work (in at least one form of media) in a way that reflects a professional level of aptitude and knowledge of technical and artistic skill sets.
3. CREATIVE DIVERSITY: Demonstrate with proficiency the ability to include individual expression/voice in a given body of work or to communicate and express unique ideas.

Total Program Credits: 120

Matriculation Requirements:
Portfolio review or completion of AA, AS, or AAS degree in Art & Design

General Education Requirements: 35 Credits

ENGL 1010 Introduction to Academic Writing CC (3)

or

ENGL 1005 Literacies and Composition Across Contexts CC (5)

ENGL 2010 Intermediate Academic Writing CC (3)

Complete one of the following: (3)

MAT 1030 Quantitative Reasoning QL (3)

MAT 1035 Quantitative Reasoning with Integrated Algebra QL (5)

STAT 1040 Introduction to Statistics QL (3)

Complete 3 of the 4 following classes: (3)

ART 1110 Drawing I (3)

ART 1210 Observational Drawing (3)

ART 1350 Ceramics I FF (3)

ART 1400 Graphic Computer Applications (3)

ART 1420 Graphic Design I (3)

ART 1650 Watercolor FF (3)

ART 1750 Intro to Digital Imaging (3)

Complete 9 credits from the following list (please note: when selecting electives be mindful of prerequisite requirements for advanced courses):

ART 4820 Professional Practices for the Visual Arts I WE (1)

ART 4830 Professional Practices for the Visual Arts II WE (1)

ART 4840 Professional Presentation for the Visual Arts WE (1)

ART 4850 Professional Writing for the Visual Arts WE (1)

Complete 24 credits from any ART/ARTH courses not already taken (see Graduation Requirement 1).

Elective Requirements: 38 Credits
Graduation Requirements:
1. Completion of a minimum of 120 semester credits, with a minimum of 40 of upper division credits.
2. Overall grade point average of 2.0 (C) above with no grade lower than a C-in all Art & Design courses.
3. Residency hours- minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Portfolio Submission.
6. Successful completion of at least one Global/Intercultural course.

Entertainment Design, B.F.A.

Requirements
A successful career in Entertainment Design requires a limitless imagination, the ability to invent and conceptualize new realities, and an understanding of the traditional and technological tools used to do so. This interdisciplinary degree encompasses concept, character, story, place, and time relevant to the entertainment industry. Students can expect to learn the skills and creative ability required of concept artists in the disciplines of character and story development such as character design, storyboarding, motion sequencing, and art direction. As an Entertainment Designer, you will create realities and experiences that excite minds by combining art and technology to bring extraordinary experiences to life in toys, games, comics, movies, environments, and more.

Total Program Credits: 122

Entertainment Design (Lower Division Core) 33 Credits
- ART 1120 2D Design 3
- ART 1210 Observational Drawing 3
- ART 1220 Perspective Drawing 3
- ART 1400 Graphic Computer Applications 3
- ART 2220 Imagination and Visual Literacy 3
- ART 2240 Illustrative Media and Techniques II 3
- ART 2250 Gestural Drawing 3
- ART 2260 Digital Painting I 3
- ART 2270 Figure Drawing I 3
- ART 2280 3D Modeling 3
- ART 2440 Motion Graphics I 3

Entertainment Design (Upper Division Core) 45 Credits
- ART 3210 Narrative Illustration 3
- ART 3240 Head Drawing 3
- ART 3250 Environment Design 3
- ART 3260 Digital Painting II 3
- ART 3280 3D Texturing and Rendering 3
- ART 3440 Motion Graphics II 3
- ART 361R Figure Drawing II 3
- ART 4250 Character Design 3
- ART 4260 Concept Design 3

Complete one of the following: (NOTE: A higher level MATH course may substitute for this requirement) 3
- MAT 1030 Quantitative Reasoning QL (3)
- MAT 1035 Quantitative Reasoning with Integrated Algebra QL (6)

Complete one of the following: 3
- HIST 2700 US History to 1877 AS (3)
- HIST 2710 US History since 1877 AS (3)
- HIST 1700 American Civilization AS (3)
- HIST 1740 US Economic History AS (3)
- POLS 1000 American Heritage SS (3)
- POLS 1100 American National Government AS (3)

Complete the following:
- PHIL 205G Ethics and Values IH GI 3
- HLTH 1100 Personal Health and Wellness TE (2)
or
- EXSC 1097 Fitness for Life TE 2

Distribution Courses:
- Biology 3
- Physical Science 3
- Additional Biology or Physical Science 3
- Humanities 3
- Social/Behavioral Science 3
- ARTH 2710 Prehistoric Through Gothic Art History FF 3

7. Successful completion of at least two Writing Enriched (WE) courses.

Entertainment Design, B.F.A.

Careers

1. Employ efficient and accurate drawing and painting abilities that convey an understanding of perspective, light, material and color.
2. Apply the use of anatomy, gesture, form, and staging in figure drawing and character design.
3. Apply principles of composition, color theory, and form to concept designs and illustrations as a way to emphasize and dramatize story.
4. Combine traditional and digital tools to create a variety of concept art including creatures, characters, environments, vehicles, costumes, and props in both 2D and 3D.
5. Develop proficient problem-solving skills through the use of research and development in ideation for storyboarding and sequential art.
6. Develop skills in modeling, texturing, lighting and rendering for 3D and 2D animation.

Degrees & Programs
Aviation Science, A.A.S.

Requirements
The Applied Associates of Science in Professional Pilot prepares students to enter the workforce as a commercial pilot. Students receive specific training under Federal Aviation Administration (FAA) 14 CFR Part 141 and Restricted Air Transport Pilot (R-ATP) regulations to qualify for specialized employment requirements. Delivery focuses on technical training and applied exercises providing the knowledge and skills required for several licenses and ratings.

Total Program Credits: 63

Matriculation Requirements:
Students seeking admission to the program will be required to meet the following admission requirements.

1. Hold a second class FFA medical certificate from an Aviation Medical Examiner.
2. An overal GPA of at least 2.5
3. Due to limited availability of flight training resources, flight student admission into the on-campus AVSC 100 Ground I - Private and AVCS 1110 Flight I - Private course, when necessary, may require selection through a competitive application process.

General Education Requirements: 18 Credits

Graduation Requirements:

1. Completion of a minimum of 63 or more semester credits.
2. Overall grade point average of 2.0 (C) or above. Aviation courses require a C- or above.
3. Residency hours—minimum of 20 credit hours through course attendance at UVU.

Aviation Science, A.A.S. Careers

1. Demonstrate knowledge of FAA written exam material with score of 80% or above.
2. Students will satisfactory demonstrate knowledge, maneuvers and skills of an instrument rated commercial, multi-engine pilot to FAA standards.
3. Students will manage all available equipment, systems and people in normal and emergency operations while mitigating threats and errors.
4. Students will self-critique ability to gather available data, identify possible courses of action, evaluate risk inherent in each course of action and make appropriate decisions.

5. Students will produce professional quality reports and effectively present the information to an audience using appropriate technology.

Aviation Science, A.S.

Requirements

The A.S. degree is designed to prepare the student with all the ratings necessary to be qualified for entry-level jobs in the aviation field. Obtaining an associate degree helps the graduate prepare for a diversity of job-related responsibilities and prepares students to enter directly into the B.S. degree.

Aviation Science, Certificate of Proficiency

Requirements

The Certificate of Proficiency in Aviation Science is available for all UVU students with an aviation particular focus designed to provide high school students an opportunity to obtain a stackable certificate of proficiency with an emphasis in career and technical education while still enrolled in high school. This certificate is available from the University for college students/adults looking for basic entry-level skills leading to further academic advancement.

Graduation Requirements:
1. Overall grade point average of 2.0 (C) or above.
2. Completion of 16 credit hours in subjects included in the course list.
3. All courses must be completed with a grade of C- or better.

Aviation Science, Certificate of Proficiency Careers

1. Investigate aviation/aerospace career opportunities and associated skills required in aviation preparation for aviation employment.
2. Identify aviation applications including aerospace technology and terminology.
3. Explain the aerodynamic principles of flight that affect aircraft operation.
4. Apply knowledge of pilotage, dead reckoning, and radio navigation in conjunction with the aeronautical charts, plotters, flight computers, and flight publications necessary for cross-country flight.

Related Careers

Aerospace Technology Management, B.S.

Requirements

The BS in Aerospace Technology Management from Utah Valley University is designed to prepare graduates for various technical aerospace professional roles across a products life cycle. Skills associated with air and space vehicle sustainability systems and risk management, customer management, project management, aftermarket services, business development, manufacturing and inspection processes, safety management systems, and process improvement will be learned and applied. The program will provide a completion degree for students who possess the Airframe and Powerplant ratings of an FAA issued Aircraft Maintenance Technician Certificate under the rules defined by FAR Part 65 or possess a license as an Aircraft Maintenance Engineer (Cat B1) issued under EASA Part 66 regulations.

Total Program Credits: 123

Matriculation Requirements:
Completion of a Technical Specialty associated with FAA issued Airframe & Powerplant Maintenance Technician Certificate issued under rules of FAR Part 65 OR Completion of an Associates in Science or an Associates of Applied Science Degree from a regionally accredited institution of higher education with a designated technical specialty associated with FAA issued Airframe & Powerplant Maintenance Technician Certificate issued under the rules of FAR Part 147 OR possess a license as an Aircraft Maintenance Engineer (AME) (Cat B1) issued under EASA Part 66 regulations. A total not to exceed 45 credit hours will be awarded for evidence of the possession of the A&P or AME certificate.

Graduation Requirements:

1. Completion of a minimum of 123 semester credits.
2. Overall grade point average of 2.0 (C) or above.
3. No grade lower than a C- in any AVSC or TECH course.
4. Residency hours - Minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
5. Completion of GE and specified departmental requirements.
6. Successful completion of at least one (1) Global/Intercultural course.

Aerospace Technology Management, B.S.

Program Learning Outcomes

1. Evaluate current market conditions, customer requirements, and aerospace vehicle support requirements, and demonstrate the knowledge, skills, and procedures to successfully design an effective aerospace support organization in a simulated aerospace operations setting.
2. Identify in a teams setting a current issue and propose a viable solution through a formal report and presentation that will be associated with topics involving aerospace vehicles (or component) certification standards, regulatory requirements, maintenance planning, safety management, and training within one of the aerospace sectors.
3. Synthesize acquired knowledge, judgment, and expertise in an operational setting.

Related Careers
- Aerospace Engineering and Operations Technicians
- Aerospace Technology Management, B.S.

Requirements

This degree is designed to develop practical leadership skills for a variety of careers in the aviation industry. Courses are based on real world aviation needs and are developed through ties with industry experts. The curriculum will prepare students with a broad range of knowledge and skills, including airline and airport management, aviation security and safety, marketing, aviation finance, human resources, and many others.

Total Program Credits: 120

Matriculation Requirements:

Students seeking admission to the program will be required to meet the following admissions requirements:

1. Completion of ENGL 1010 or ENGH 1005 and 25 aviation credits with a grade of C+ or higher
2. Overall GPA of at least 2.5

General Education Requirements: 35 Credits

- ENGL 1010 Introduction to Academic Writing CC

Aviation Management, B.S.

Careers

Program Learning Outcomes

1. Evaluate current market conditions and demonstrate the knowledge, skills, and procedures to successfully manage aerospace operations in a simulated aviation business setting.
2. In a team setting, students will create a viable business plan that includes business overview, market analysis, sales and marketing plan, ownership and management plan, operating and financial plan.
3. Synthesize acquired knowledge, judgment, and expertise in a business setting.

Related Careers

• Transportation, Storage, and Distribution Managers

Professional Pilot, B.S.

Requirements

The Bachelor of Science in Professional Pilot prepares students to enter the work force as a certified flight instructor and commercial, multi-engine rated pilot. Students receive specific training under Federal Aviation Administration (FAA) 14 CFR Part 141 and Restricted Air Transport Pilot (R-ATP) regulations to qualify for specialized employment requirements with a regional airline. Delivery focuses on technical training and applied exercises providing the knowledge and skills required for several licenses and ratings.

Total Program Credits: 120
## Matriculation Requirements:

Students seeking admission to the program will be required to meet the following admission requirements:

1. Hold a second class FAA medical certificate from an FAA designated Medical.
2. An overall GPA of at least 2.5.
3. Due to limited availability of flight training resources, flight student admission into the on-campus AVSC 1110 Flight I - Private Pilot course, when necessary, may require selection through a competitive point based application.

Degrees & Programs

Advanced Substance Use Disorder Counseling, Certificate of Proficiency

Requirements
The UVU Behavioral Science Department offers classes that fulfill the social science distribution requirements for graduation, the Behavioral Science pre-major for the associate degree, the Behavioral Science major for the bachelor degree (with an emphasis in Anthropology, Family Studies, Psychology, or Sociology, a Bachelor of Social Work, and a Certificate of Proficiency in Substance Use Disorder Counseling (SUDC).

Total Program Credits: 32

Matriculation Requirements: 9 Credits

Students must apply and be admitted to the UVU SUDC program. The following four courses must be completed with a C- grade or higher prior to starting the SUDC program. Completion of these courses, as well as University Advanced Standing, must be verified on the application for admission. For additional admission information for this program please visit www.uvu.edu/besc/sudc.html.

Anthropology, Minor

Requirements

The BA/BS/Minor will give students the opportunity to earn a full major/minor in the field of anthropology. Students who obtain this degree will a) develop anthropological knowledge, enabling them to analyze trends in culture and society, b) methodological competence, learning to apply anthropological methods for learning about cultural/ideological differences and navigating them in daily life, and c) essential skills, written and spoken communication, analytic reading and writing, building rapport with people from different backgrounds. The Minor in Anthropology will allow students pursuing other majors to earn a credential that suggests critical thinking skills, writing ability, and cultural sensitivity.

FAMS 4670 Family Dynamics and Systems (3.0)

Graduation Requirements:
1. All course work taken to meet Behavioral Science requirements must be completed with a grade of C- or better.

Psychology, Minor

Requirements
The Minor in Psychology is designed for students who desire a full bachelor’s degree in psychology. The degree will prepare students for careers and further education in Utah, the Mountain West, and nationwide by (a) creating a curriculum built around the five pillars of psychology described by the American Psychological Association (APA); (b) emphasizing skills desired by employers (e.g., written communication, critical thinking, working in teams); and (c) providing engaged learning experiences (e.g., service-learning, internship, capstone) about current psychological topics.

Total Program Credits: 18

Discipline Core Requirements: 18 Credits
- PSY 1010 General Psychology SS (3)
- PSY 2710 Introduction to Brain and Behavior SS (3)
- PSY 2300 Abnormal Psychology (3)
- PSY 3420 Cognitive Psychology WE (3)
- PSY 305G Social Psychology GI (3)

Development Requirement. Complete ONE of the following: 3
- PSY 3200 Infancy and Childhood Development WE (3)
- PSY 3210 Adolescent Development WE (3)
- PSY 3220 Adult Development and Aging WE (3)

Graduation Requirements:
1. All course work taken to meet Behavioral Science requirements must be completed with a grade of C- or better.

Psychology, Minor

Careers
1. Students will critically analyze quantitative data in order to draw empirically supported conclusions about human behaviors.
2. Students will write in a professional manner, defined as a mastery of the mechanics of basic writing, the conventions of professional writing (e.g., conforming to a publication style), and the ability to produce a coherent argument.

- Clinical, Counseling, and School Psychologists
- Industrial-Organizational Psychologists
- Psychologists, All Other
- Psychology Teachers, Postsecondary

Sociology, Minor

Requirements
Sociology is the scientific study of society which includes studying individuals in their primary and secondary groups and larger social institutions. It examines the social context of individual and collective lives. Sociology is a relatively young discipline that describes, explains, and predicts social interactions and institutions using theoretical as well as social scientific methods of inquiry. According to the American Sociological Association, the essential concepts that students will learn within sociology are social construction of everyday life and sociological imagination; social structure; socialization; social stratification, and social change. Students will also gain competencies in critical and theoretical thinking and application of social scientific methodology towards rigorous data analysis.

Total Program Credits: 18

Discipline Core Requirements: 18 Credits
- Complete 2 required classes (6)
- SOC 1010 Introduction to Sociology SS (3)
- SOC 1020 Modern Social Problems (3)
- Complete any 4 of the following classes (with at least 3 upper division) (12)
  - SOC 1200 Sociology of the Family SS (3)
  - SOC 2370 Sociology of Gender (3)
  - SOC 263G Race and Minority Relations GI (3)
  - PSY 3110 Statistics for the Behavioral Sciences (4)
  - BESC 3020 Research Methods for the Behavioral Sciences (3)
  - SOC 3400 Sociology of Religion (3)

  - SOC 4020 Survey Research Design (3)
  - SOC 4400 Social Change (3)
  - SOC 475R Current Topics in Sociology (1)
  - SOC 490R Independent Studies (1)

Graduation Requirements:
All course work taken to meet Behavioral Science requirements must be completed with a grade of C- or better.

Sociology, Minor

Careers
1. Apply Sociological Theories to Understand Social Phenomena.
3. Apply Scientific Principles to Understand the Social World.
4. Evaluate the Quality of Social Scientific Methods and Data.
Anthropology, B.A.

Requirements

The BA/BS/Minor will give students the opportunity to earn a full major/ minor in the field of anthropology. Students who obtain this degree will a) develop anthropological knowledge, enabling them to analyze trends in culture and society, b) methodological competence, learning to apply anthropological methods for learning about cultural/ideological differences and navigating them in daily life, and c) essential skills, written and spoken communication, analytic reading and writing, building rapport with people from different backgrounds. The Minor in Anthropology will allow students pursuing other majors to earn a credential that suggests critical thinking skills, writing ability, and cultural sensitivity.

Clinical Mental Health Counseling, M.S.

Requirements

The Master in Clinical Mental Health Counseling (CMHC) prepares individuals to provide counseling services, mental health evaluations, and referrals to ameliorate and prevent cognitive and emotional crises as well as personal and interpersonal problems. Instruction will include coursework on individual and group counseling, psychotherapy theory and practice, human development, psychological assessment, psychopathology and diagnostics, professional standards and ethics as well as the governing laws and regulations of the field. Successful graduates will be eligible for employment and licensure as a Clinical Mental Health Counselor in the state of Utah.

Total Program Credits: 61

Matriculation Requirements:

1. Bachelor’s degree from a regionally accredited institution of higher education (with official transcripts from all institutions attended). The degree can be in any discipline, provided student meets the expected GPA and prerequisite coursework.
2. GPA Requirements: The minimum cumulative GPA is 3.4 on a 4.0 scale.
3. Prerequisite Coursework: General or Introductory Psychology, Abnormal Psychology, Intro to Counseling (or equivalent), Research Methods, Statistics
4. Complete the UVU Graduate School Application.
Graduation Requirements:

1. A minimum cumulative GPA of 3.0 must be maintained within the program.
2. A grade of ‘B’ or higher required in all courses.
3. Completion of a minimum of 61 semester credits.
4. 700 clinical hours are required for completion.
5. Residency hours: Minimum of 42 graduate credit hours completed at UVU in the CMHC program.

Clinical Mental Health Counseling, M.S.

Careers

1. Individual Therapy: Students will engage in critical thinking and demonstrate a heightened self-awareness in the counseling role. Students will also demonstrate skills necessary to be an effective counselor while applying a theoretical approach.
2. Ethical Practice: Students will understand counselor professional identity and demonstrate skill in applying ethical and legal considerations in professional counseling.
3. Clinical Assessment; Treatment Planning: Students will demonstrate the knowledge and ability to diagnose and design treatment plans for a broad range of mental health issues. Students will also be able to select and interpret assessment measures (i.e., academic/educational, career, personality, diagnostic, and developmental)
4. Professional Development: Students will understand counselor professional identity and demonstrate skill in applying ethical and legal considerations in professional counseling.
5. Research and Theory: Students will be able to critically evaluate research in a manner that informs counseling practice.

Master of Social Work Advanced Standing, M.S.W.

Requirements
The Master of Social Work (MSW) at UVU is designed to educate and prepare students for a career at the next level in the social work profession. The MSW will prepare students to become a Licensed Clinical Social Worker (LCSW) qualifying them for a wider range of employment opportunities (mental health, medical social work, child welfare, etc.) working with various populations (children, adolescents, adults, elderly, disabled, etc.). The MSW Program will have three different specializations: Mental Health, Addictions (including substance and nonsubstance addictions, i.e. pornography, gambling, painkillers, etc.), and Engaging with Diverse Populations.

Total Program Credits: 42

Matriculation Requirements
1. Students admitted to the Advanced Standing MSW Program must have a Bachelor of Social Work from a CSWE accredited BSW program.
2. Application for admission to graduate program with application fee by the established deadline.
3. Submit official transcripts from all universities attended.
4. A bachelor's degree from a nationally accredited program, or the international equivalent.
5. A 3.0 cumulative undergraduate GPA or a 3.0 GPA calculated on the last 60 semester hours (90 quarter hours) of undergraduate work.
6. For international students whose native language is not English, submit official TOEFL or IELTS band scores. A TOEFL score
of 80 iBT (550 pBT) or higher, or an IELTS band score of 6.5 or higher within the past two years is required.

7. International students must also meet all US government requirement for international students.

8. The university uses a selective admissions process for admitting students to graduate programs. Meeting minimum admissions criteria does not guarantee admission to the graduate program or to the University as a graduate student.

**Graduation Requirements:**

1. Completion of a minimum of 42 semester credits required in the Master of Social Work degree.

**Discipline Core Requirements:**

**Social Work Core**

**Advanced Standing Bridge Requirement**

**Master of Social Work, M.S.W. Requirements**

The Master of Social Work (MSW) at UVU is designed to educate and prepare students for a career at the next level in the social work profession. The MSW will prepare students to become a Licensed Clinical Social Worker (LCSW) qualifying them for a wider range of employment opportunities (mental health, medical social work, child welfare, etc.) working with various populations (children, adolescents, adults, elderly, disabled, etc.). The MSW Program will have three different specializations: Mental Health, Addictions (including substance and nonsubstance addictions, i.e. pornography, gambling, painkillers, etc.), and Engaging with Diverse Populations.

**Total Program Credits: 64**

**Matriculation Requirements**

1. Application for admission to graduate program with application fee by the established deadline.
2. Submit official transcripts from all universities attended.
Behavioral Science

3. A bachelor's degree from a regionally accredited college/university, a nationally accredited program, or the international equivalent.
4. A 3.0 cumulative undergraduate GPA or a 3.0 GPA calculated on the last 60 semester hours (90 quarter hours) of undergraduate work.
5. For international students whose native language is not English, submit official TOEFL or IELTS band scores. A TOEFL score of 80 iBT (550 pBT) or higher, or an IELTS band score of 6.5 or higher within the past two years is required.
6. International students must also meet all US government requirements for international students.
7. The university uses a selective admissions process for admitting students to graduate programs. Meeting minimum admissions criteria does not guarantee admission to the graduate program or to the University as a graduate student.

Behavioral Science

1. Graduation requires a minimum of two Writing Enriched courses. One must be taken from Psychology Foundations or the Advanced Psychology Requirement.
2. Students must complete a minimum of 40 upper-division credits for graduation. Depending on courses completed for Psychology Foundations and Individual Differences, students may need to select additional upper-division electives.

Graduation Requirements:

1. Completion of a minimum of 120 credits, 40 of which must be 3000 level or higher.
2. Minimum overall UVU GPA of 2.0 upon graduation.
3. Minimum 2.5 program GPA upon graduation.
4. Residency hours—minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
5. All major course work taken to meet Psychology requirements must be completed with a grade of C- or better.
6. For the BA degree, completion of 16 credit hours of course work from one language to include the 1010, 1020, 2010, 202G/2020 levels or transferred equivalents.
7. Successful completion of at least one Global/Intercultural course.

Note: Please see department advisor for explanation of all program requirements, a list of recommended classes, and for assistance with creating an academic plan for graduation.

Note: If a student has completed an associate degree through another institution, the required general education courses may be waived.

Note: Students would need to pass ENGL 1010 or ENGH 1005 and ENGL 2010 with a C+ or higher as prerequisites for the Psychology Bachelor degree courses.

Psychology, B.A.

Careers

1. Critically analyze quantitative data in order to draw empirically supported conclusions about human behaviors.
2. Write in a professional manner, defined as a mastery of the mechanics of basic writing, the conventions of professional writing (e.g., conforming to a publication style), and the ability to produce a coherent argument.
3. Interpret, design, and evaluate psychological research.
4. Demonstrate a critical understanding of the impact of societal inequality and oppression on psychological processes.

5. Assess Individuals, Families, Groups, Organizations, and Communities
6. Intervene with Individuals, Families, Groups, Organizations, and Communities.
7. Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities
Sociology, B.A.

**Requirements**

Sociology is the scientific study of society which includes studying individuals in their primary and secondary groups and larger social institutions. It examines the social context of individual and collective lives. Sociology is a relatively young discipline that describes, explains, and predicts social interactions and institutions using theoretical as well as social scientific methods of inquiry. According to the American Sociological Association, the essential concepts that students will learn within sociology are social construction of everyday life and sociological imagination; social structure; socialization; social stratification, and social change. Students will also gain competencies in critical and theoretical thinking and application of social scientific methodology towards rigorous data analysis.

1. Completion of a minimum of 120 credits, 40 of which must be 3000 level or higher.
2. Residency hours—minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
3. Minimum overall UVU GPA of 2.0 upon graduation.
4. Minimum 2.5 program GPA upon graduation.
5. All major course work taken to meet Behavioral Science requirements must be completed with a grade of C- or better.
6. Successful completion of at least one Global/Intercultural course.
7. Successful completion of at least two Writing Enriched courses.
8. For the BA degree, completion of 16 credit hours of course work from one language to include the 1010, 1020, 2010, 202G/2020 levels or transferred equivalents.

Note: Please see department advisor for explanation of all program requirements, a list of recommended classes, and for assistance with creating an academic plan for graduation.
Behavioral Science

Note: If a student has completed an associate degree through another institution, the required general education courses may be waived.

Note: Students would need to pass ENGL 1010 and ENGL 2010 with a C+ or higher as prerequisites for the Behavioral Science Bachelor degree courses.

Sociology, B.S.

Careers

1. Students will be able to distinguish between basic concepts and theoretical perspectives in sociology and how they are used in sociological explanations of social behavior.
2. Students will be able to distinguish and apply core substantive areas of sociological inquiry.
3. Students will be able to express sociological ideas critically, clearly, and coherently both in writing and in oral presentations.
4. Students will collect, analyze, and interpret empirical evidence in sociological research.

Degrees & Programs

Biology, A.A.

Requirements

Students interested in biology, or related fields, are encouraged to earn at least a baccalaureate degree (BS). Many professions (e.g., Pharmacy or Medicine) require additional post-baccalaureate education. The AS/AA degree is intended for students who plan to use it as a first step toward a baccalaureate degree. The AS/AA degree may be granted to those who do not continue in a bachelor's program and meet the minimum requirements.

Total: 12 upper-division credits from any BIOL, BOT, MICR, or ZOOL courses with a grade of C- or higher in each. BIOL 489R, BIOL 499R, cannot be used to meet this requirement.

Notes:
1. BIOL 489R Student Research, BIOL 499R Senior Thesis, cannot be used to meet this requirement.

Biology, Minor

Careers

1. Apply the process of science through the use of hypothesis testing in the design and completion of scientific experiments.
2. Critically evaluate scientific information.
3. Quantitatively analyze scientific data through graph interpretation, statistical analysis, and problem solving.
4. Effectively communicate scientific information in both written and oral formats.
5. Explain fundamental biological concepts including cell biology, genetics, evolution, ecological principles, organismal biology, and biodiversity.
6. Apply scientific concepts both across and outside of biology that demonstrate interdisciplinary understanding.

Related Careers

- Biological Scientists, All Other
- Life Scientists, All Other
- Biological Science Teachers, Postsecondary
- Secondary School Teachers, Except Special and Career/Technical Education

Bioinformatics, B.S.

Requirements
Bioinformatics is the fastest growing field in Biology. In general terms, bioinformatics is the synthesis of computational methods and biological systems and comprises many sub-fields that approach different questions in biology. A Bachelor of Science in Bioinformatics will prepare students to enter a variety of fields such as: medical informatics and interventions, new agricultural paradigms, pharmaceutical discovery, and molecular genealogy predictions, among others. This degree would provide students with the knowledge, skills, and experience to be competitive for both graduate school and employment opportunities.

Total Program Credits: 120

Matriculation Requirements:
BIOL 1610 College Biology BB with C- or higher
CS 1400 Fundamentals of Programming with a C+ or higher, and
Approval of Biology Department or Computer Science Department advisor.

General Education Requirements: 39 Credits

Graduation Requirements:
1. Complete the required minimum credit hours.
2. If an AA or AS degree has been earned, a maximum of 64 of these credits may apply toward the BS.
3. At least 30 credit hours in residence at UVU or satellite sites are required, with 10 hours earned during the last 45 hours.
4. A minimum of 40 credits must be upper-division (numbered 3000 or above).
5. A minimum of 40 credits must be in the major, 30 of which must be upper-division. A minimum of nine Department credits must be taken at UVU.
6. Except for 490R Special Topics courses, a maximum cumulative total of 9 credits in any combination of upper division Departmental courses with an "R" designation may count toward graduation.
7. Complete Biology Department core courses with a grade of "C-" or higher in each course.
8. Achieve a minimum overall GPA of 2.0 with a minimum GPA of 2.25 in biology department courses.
9. Complete the appropriate application for graduation form.
10. Successful completion of at least one Global/Intercultural course.

Footnotes:
1 Upper division is suggested to meet upper division requirements

Bioinformatics, B.S.

Careers
1. Demonstrate mastery of the core concepts of bioinformatics as derived from the associated fields of biology, computer science, mathematics, informatics, and chemistry.
2. Utilize existing software to extract, compile, and analyze information from large databases.
3. Create data science pipelines and/or computer programs that facilitate biological data analysis.
4. Complete a project in bioinformatics and communicate the outcomes effectively by participation in one or more of the following: an internship, a professional presentation, mentored research, or as coauthor of a peer-reviewed publication (or other approved activity).

Related Careers
- Computer and Information Research Scientists
- Software Developers, Applications
- Computer Occupations, All Other

Biology Education, B.S.

Requirements
Biology is the study of living organisms and includes study of subjects such as evolution, ecology, zoology, physiology, anatomy, and botany among other subjects. Completion of this degree will prepare students to teach classes in high school biology, and related subjects, plus integrated science at the 7th grade level.

Total Program Credits: 126

Matriculation Requirements:
Admission to Professional Education status is a requirement for enrollment in professional studies level courses. Admission criteria includes:
1. ENGL and MATH QL courses must have a grade C or higher.
2. GPA of 3.0 or higher with no grade lower than a C in content area courses.
3. Completion of all General Education requirements and 70% of content area courses.
4. Pass LiveScan Criminal Background Check.

General Education Requirements: 38 Credits

**ENGL 1010** Introduction to Academic Writing CC 3
or **ENGH 1005** Literacies and Composition Across Context CC (5.0)

**ENGL 2010** Intermediate Academic Writing CC 3

**MATH 1050** College Algebra QL 4
or **MATH 1055** College Algebra with Preliminaries QL (5.0)

Complete one of the following: 3

- **HIST 2700** US History to 1877 AS (3.0)
- **HIST 2710** US History since 1877 AS (3.0)
- **HIST 1700** American Civilization AS (3.0)
- **HIST 1740** US Economic History AS (3.0)
- **POLS 1000** American Heritage SS (3.0)
- **POLS 1100** American National Government AS (3.0)

Complete the following: 3

- **PHIL 2050** Ethics and Values IH 3
- **PHIL 205G** Ethics and Values IH GI
- **HLTH 1100** Personal Health and Wellness TE (2.0)
- **EXSC 1097** Fitness for Life TE 2

5. A minimum of 30 credits must be in the major (BIOL, BOT, MICR, or ZOOL prefixes), courses as follows: minimum of 9 Biology credits must be taken at UVU and a minimum of 20 Biology credits must be upper-division.
6. Complete the appropriate application for graduation form.
7. Successful completion of at least one Global/Intercultural course.
8. Overall Grade of 3.0 (B) or above with no grade lower than a C or better in major required content courses and no grade lower than a B- in Licensure and Methods courses.

Footnotes:
1- Must be completed with a grade of B- or higher.

Biology Education, B.S.

Careers
1. Demonstrate an overall knowledge of biology needed to teach in the secondary education system.
2. MFAT test Data in support of Overall Knowledge of Biology needed to teach in the SecondaryEducation System
3. State Praxis Test Scores in support of Demonstrating overall knowledge of Biology to teach in theSecondary Education System
4. 90% of UVU students completing a Bachelors of Science Degree in Secondary Education in biologyand who apply for employment teaching in junior high and high schools will successfully gain employment in secondary education within one year.
5. Students who do gain employment in secondary education will demonstrate skill and knowledge in pedagogy.

Related Careers
• Biological Science Teachers, Postsecondary
• Education Teachers, Postsecondary
• Middle School Teachers, Except Special and Career/Technical Education
• Secondary School Teachers, Except Special and Career/Technical Education

Biology, B.S.

Requirements
Students interested in Biology, or related fields, are encouraged to earn at least a baccalaureate degree (BS). Many professions (e.g., Pharmacy or Medicine) require additional post-baccalaureate education. The BS degree in Biology may be used for entry into a career or in preparation for graduate (Masters/PhD) or professional schools (medical, dental, pharmacy, etc.).

Total Program Credits: 120

Matriculation Requirements:
BIOL 1610 College Biology I with C- or higher and approval of Biology Department advisor.

General Education Requirements: 39 Credits

Footnote

Upper division is suggested to meet upper division requirements

Biology, B.S.

Careers

1. Apply the process of science through the use of hypothesis testing in the design and completion of scientific experiments
2. Critically evaluate scientific information
3. Quantitatively analyze scientific data through graph interpretation, statistical analysis, and problem solving
4. Effectively communicate scientific information in both written and oral formats.
5. Explain fundamental biological concepts including cell biology, genetics, evolution, ecological principles, organismal biology, and biodiversity
6. Apply scientific concepts both across and outside of biology that demonstrate interdisciplinary understanding

Related Careers

Elective Requirements: 12 Credits

Additional credits to meet credit and upper-division requirements.

Graduation Requirements:
1. Complete the required minimum credit hours.
2. At least 30 credit hours in residence at UVU or satellite sites are required, with 10 hours earned during the last 45 hours.
3. A minimum of 40 credits must be upper-division (numbered 3000 or above).
4. Complete core courses with a grade of "C" or higher in each BTEC course and a "C-" or higher in all other core courses.
5. Achieve a minimum overall GPA of 2.0 with a minimum GPA of 2.25 in core courses.
6. Successful completion of at least one Global/Intercultural course.

Biotechnology, B.S.

Careers
1. Apply the process of science through the use of hypothesis testing in the design and completion of scientific experiments.
2. Critically evaluate scientific information.
3. Quantitatively analyze scientific data through graph interpretation, statistical analysis, and problem solving. Effectively communicate scientific information in both written and oral formats.
4. Explain fundamental biological concepts including molecular biology, biochemistry, cell biology, genetics, and evolution.

Related Careers

- Biological Scientists, All Other
- Biological Science Teachers, Postsecondary

Botany, B.S.

Requirements
Students interested in botany, or related fields, are strongly encouraged to earn at least a baccalaureate degree (BS). To be competitive in the job market additional post-baccalaureate education is suggested. The BS degree in Botany may be used for entry into a career or in preparation for graduate (Masters/PhD) or professional schools (medical, pharmacy etc.).

Notes:

1. ENVT 2630 and ENVT 3630 are suggested electives. BOT 3340 cannot count for credit towards the Botany degree.

Graduation Requirements:

1. Complete the required minimum credit hours.
2. Completion of GE and specified departmental requirements.
3. If an AA or AS degree has been earned, a maximum of 64 of these credits may apply toward the BS.
4. At least 30 credit hours in residence at UVU or satellite sites are required, with 10 hours earned during the last 45 hours.
5. A minimum of 40 credits must be upper-division (numbered 3000 or above).
6. A minimum of 40 credits must be in the Biology Department (BIOL, BOT, BTEC, MICR, or ZOOL prefixes), 30 of which must be upper-division. A minimum of nine Biology Department credits must be taken at UVU.
7. Complete discipline core courses with a grade of “C-” or higher in each course.
8. Except for 490R Special Topics courses, a maximum cumulative total of 9 credits in any combination of upper division Departmentalcourses with an “R” designation may count toward graduation.
9. Achieve a minimum overall GPA of 2.0 with a minimum GPA of 2.25 in Biology Department courses.
10. Complete the appropriate application for graduation form.
11. Successful completion of at least one Global/Intercultural course.

Botany, B.S.

Careers

1. Demonstrate critical thinking and analytical skills.
2. Demonstrate knowledge of cellular and organismal biology (including plant anatomy, physiology and diversity), population biology, evolution and ecology (emphasizing organisms’ interdependency for survival and for quality of life in the biosphere).
3. 70% of the students successfully completing a Bachelors of Science in Biology and taking the GRE examination will score in the 50 percentile or better.
4. Biology graduates applying to post-graduate studies will be accepted into graduate or professionals schools, or if applying for employment in any area related to botany will be hired.
Related Careers

- Natural Sciences Managers
- Biological Scientists, All Other
- Biological Science Teachers, Postsecondary

Microbiology, B.S.

Requirements

Microbiology is the study of microorganisms, the smallest living things on earth, including bacteria, viruses, fungi, protozoa, and algae. While microorganisms are most known for their ability to cause disease, they are actually ubiquitous on earth and central to many of the essential life processes on this planet. The field of microbiology is a major contributor to human, animal, plant, and environmental health as well as central to the food/beverage, biotechnology, bioremediation, and pharmaceutical industries. This curriculum will examine the diverse roles of microorganisms and cover the fundamentals of microbial diversity, physiology, and genetics. Students will examine the roles and interactions of microbial populations in aquatic, terrestrial, human, animal, and plant systems.

A degree in microbiology can open the door to a wide variety of careers in different industries. Studying microbiology will prepare students to go to medical, dental, veterinary, or graduate school, and also provides them a highly employable career option in healthcare, industry, or government agencies. A degree in microbiology allows students to easily enter the workforce or continue on to a professional or graduate program.

Degrees & Programs

Finance, Graduate Certificate

Requirements

The Woodbury School of Business MBA program offers a Graduate Certificate in Finance that provides an introduction to the global securities market and its role in capital formation, wealth-creation, economic development, risk mitigation, wealth management, and other finance-related goals. Courses focus on international corporate finance transactions and the currency implications of financial statement translations. Bloomberg Terminals are used extensively for company and industry analyses.

Total Program Credits: 9

Matriculation Requirements:

1. Application for admission to the Graduate Certificate Program in Finance with application fee.
2. A bachelor’s degree from a regionally accredited college/university, a nationally accredited program, or the international equivalent.
3. A 3.0 cumulative undergraduate GPA or a 3.0 GPA calculated on the last 60 semester hours (90 quarter hours) of undergraduate work.
4. Acceptance of graduate certificate program student status offers is valid only for the semester in the offer. Applicants who do not begin attendance during the semester in their admissions offers must reapply and pay the application fees before the applicable semester deadline. At the graduate certificate program’s discretion, graduate certificate programs may defer enrollment if students apply for a deferment before the end of the semester for which they were admitted.

Graduation Requirements:

2. Overall GPA of 3.0 or higher required in graduate certificate courses with no grade lower than a "C" in graduate certificate courses.
3. Residency hours — minimum of 6 credit hours through course attendance at UVU.
4. Graduate certificate coursework shall be completed within a period of six years.
   a. (Note: See Policy 524, Section 4.3.3).

Finance, Graduate Certificate

CAREERS

1. Analyze the three primary financial statements, including income statement, balance sheet and cash flow statement.
2. Apply financial concepts into an international perspective.
3. Describe key aspects of the global securities market and its role in capital formation, wealth-creation, economic development, risk mitigation, wealth management, and other finance-related goals.

Healthcare Management, Graduate Certificate

Requirements

The Graduate Certificate in Healthcare Management is designed for professionals who want to enhance their proficiency and breadth of healthcare knowledge. It provides individuals with an understanding of the context, management, and issues for healthcare organizations. It prepares students for a career in a healthcare environment by providing additional management skills and knowledge, including healthcare systems, healthcare policies, and healthcare population management affecting the healthcare delivery system.

Total Program Credits: 9

Matriculation Requirements:

Application for admission:

1. Application for admission to the Graduate Certificate Program in Healthcare Management with application fee.
Business Graduate Programs

2. A bachelor's degree from a regionally accredited college/university, a nationally accredited program, or the international equivalent.

Healthcare Management, Graduate Certificate

Careers

1. Analyze healthcare trends to understand patient's needs.
2. Describe the budgeting, financial reporting, and control requirements of healthcare under public and business policies.
3. Apply techniques using managerial epidemiology, biostatistics, political and economic analysis, public health initiatives.
4. Demonstrate knowledge of the U.S. healthcare industry and its delivery systems, including innovations in how healthcare innovates.

Related Careers

Management, Graduate Certificate

Requirements

The Woodbury School of Business MBA program offers a Graduate Certificate in Management that examines the strategic needs of any organization and how the function of information system supports operations. Utilizes advanced topics in operations research that develop decision-making processes for complex organizations and systems. Identifies creative methods to analyze problems, develop alternative decision-making strategies, and optimize business and organization processes.

Total Program Credits: 9

Matriculation Requirements:

Application for admission:
1. Application for admission to the Graduate Certificate Program in Management with application fee.
2. A bachelor's degree from a regionally accredited college/university, a nationally accredited program, or the international equivalent.

Marketing, Graduate Certificate

Requirements

The Woodbury School of Business MBA program offers a Marketing Graduate Certificate that teaches conceptual frameworks and analytical tools for marketing decision-making from a cross-functional and strategic orientation. Focuses on understanding user needs, forecasting and planning, solution design, managing adoption, and communicating value. Utilizes research tools such as survey design, experimentation, interviewing, and analytics to collect and analyze data. Focuses on the practice of advanced marketing management topics including brand

**Graduation Requirements:**
1. Completion of 36 hours of approved credit with no grade lower than a "C" as described in this program.
2. Graduates may not transfer more than ten hours into this MBA program, preferably from an AACSB accredited institution. All transfer courses will be reviewed by a graduate committee managed by the Woodbury School of Business.
3. A minimum cumulative GPA of 3.0 or higher must be maintained within program.

**Master of Business Administration, M.B.A. Careers**
1. Graduates will be able to express their knowledge and ideas appropriately in writing and through verbal presentation.
2. Graduates will be able to utilize appropriate procedures, frameworks, models, and experience to gain knowledge, solve problems, and make appropriate decisions based on various informational sources such as data, written and verbal communication, process analysis, and creative thinking.
3. Graduates will have a functional and integrated knowledge of basic general business concepts and disciplines.
4. Graduates will be aware of their responsibility to behave ethically in their professional lives (e.g., clients, customers, employers, society, profession, environment, and community).
5. Graduates will have a global perspective and understand cultural differences.
6. Graduates will apply business processes to developing solutions for realistic problems both in the classroom and/or the larger community.

**Related Careers**

## Technology Management, Graduate Certificate

**Requirements**
The Technology Management Graduate Certificate is designed for professionals who want to enhance technology skills to become proficient in creating, managing, and using technology to accomplish strategic goals while expanding leadership skills in forecasting, business casedevlopment, and strategic alliances in technology.

**Total Program Credits:** 9

**Matriculation Requirements:**

**Application for admission:**
1. Application for admission to the Graduate Certificate Program in Technology Management with application fee.
2. A bachelor's degree from a regionally accredited college/university, a nationally accredited program, or the international equivalent.
3. A 3.0 cumulative undergraduate GPA or a 3.0 GPA calculated on the last 60 semester hours (90 quarter hours) of undergraduate work.
4. Acceptance of graduate certificate program student status offers is valid only for the semester in the offer. Applicants who do not begin attendance during the semester in their admissions offers must reapply and pay the application fees before the applicable semester deadline. At the graduate certificate program's discretion, graduate certificate programs may defer enrollment if students apply for a deferment before the end of the semester for which they were admitted.

Degrees & Programs

Chemistry, Minor

Requirements

The minor in chemistry provides students with a broad introduction to general, organic, and analytical chemistry. The minor may be used to develop interdisciplinary and applied skills in chemistry and to learn how to communicate scientific ideals and knowledge about chemistry.

Total Program Credits: 27

Matriculation Requirements:
1. Admitted to a bachelor degree program at UVU.

Discipline Core Requirements: 24 Credits

Elective Requirements:

Any upper-division chemistry class numbered above 3000 with a minimum of 3 credit hours

Graduation Requirements:

1. Complete all courses with a minimum grade of "C-" or better.

Chemistry, Minor

Careers

1. Recall, integrate, and apply essential core information about the key components of chemistry
2. Qualitatively and quantitatively interpret scientific data
3. Convey scientific ideas and knowledge clearly and professionally in a written format
4. Demonstrate key laboratory skills and understanding of the laboratory safety

Chemistry - Biochemistry Emphasis, B.S.

Requirements

Biochemistry combines the study of biology with organic and inorganic chemistry as applied to topics such as enzymology, genetics, toxicology, pharmacology, food science, and medicine. Students with this degree may pursue graduate study or work in the field of biotechnology or in one of the many related areas or be eligible for many employment opportunities in chemistry and biology.

Total Program Credits: 120

Matriculation Requirements:
To matriculate into the Chemistry degree, students must have adviser approval, and completed CHEM 1210, CHEM 1220, CHEM 1250, and CHEM 1260 all with a C- or higher.

General Education Requirements: 39 Credits

• Secondary School Teachers, Except Special and Career/Technical Education

Chemistry - Professional Chemistry Emphasis, B.S.

Requirements

This bachelor's degree in professional chemistry prepares a student for employment as a chemist. It also prepares a student for further study in a graduate degree or professional program. This degree is designed to meet American Chemical standards for a bachelor degree. Job opportunities for students with this degree are very good. Students with this degree can have careers in test laboratories, government laboratories, hospital laboratories, research and development, quality control, manufacturing, and many other areas.

In obtaining this degree, students will learn how to:
Use modern scientific instruments and interpret results
Apply principles used in chemistry to solve everyday problems
Think analytically
Use problem solving skills
Categorize information
Apply learned math skills
Develop laboratory skills

Total Program Credits: 120

Matriculation Requirements:
To matriculate into the Chemistry degree, students must have adviser approval, and completed CHEM 1210, CHEM 1220, CHEM 1250, and CHEM 1260 all with a C- or higher.

Chemistry Education, B.S. Requirements
The degree in chemistry education prepares a student to teach chemistry in secondary education. Students that complete this degree receive endorsements to teach chemistry. Completion of this program is dependent upon being accepted into the Secondary Education program through the School of Education. There is a great demand for teachers in chemistry and employment opportunities are excellent.

In obtaining this degree, students will learn how to:
- Use modern scientific instruments and interpret results
- Apply principles used in chemistry to solve everyday problems
- Think analytically
- Use problem solving skills
- Categorize information
- Apply learned math skills
- Develop laboratory skills

Total Program Credits: 120

Matriculation Requirements:
1. Students are admitted directly to the Baccalaureate degree program in Chemistry Education upon acceptance to the Secondary Education Program.
2. Students must obtain the departmental Advisor's signature on an approved program plan prior to enrollment in their second semester of study.
Secondary Education Requirements:
1. ENGL and MATH QL courses must have a grade C or higher.
2. GPA of 3.0 or higher with no grade lower than a C in content area courses.
3. Completion of all General Education requirements and 70% of content area courses.
4. Pass LiveScan Criminal Background Check.

General Education Requirements: 38 Credits
- ENGL 1010 Introduction to Academic Writing CC 3
  or ENGH 1005 Literacies and Composition Across Context CC (5.0)
- ENGL 2010 Intermediate Academic Writing CC 3
- MATH 1210 Calculus I QL 4

Complete one of the following: 3
- HIST 1700 American Civilization AS (3.0)
- HIST 2700 US History to 1877 AS (3.0)
  and HIST 2710 US History since 1877 AS (3.0)
- HIST 1740 US Economic History AS (3.0)
- POLS 1000 American Heritage AS (3.0)
- POLS 1100 American National Government AS (3.0)

Complete the following:
- PHIL 2050 Ethics and Values IH 3
- HLTH 1100 Personal Health and Wellness TE (2.0)
  or EXSC 1097 Fitness for Life TE 2

Distribution Courses:
- Biology 3
  - CHEM 1210 Principles of Chemistry I PP 1 4
  - CHEM 1220 Principles of Chemistry II PP 2 4
- Humanities 3
  - Fine Arts 3
  - Social/Behavioral Science 3

Discipline Core Requirements: 77 Credits
Chemistry Discipline Core Courses:
- CHEM 1215 Principles of Chemistry I Laboratory 3 1
- CHEM 1225 Principles of Chemistry II Laboratory 4 1
- CHEM 1250 Chemistry Cornerstone- Research and Careers 1
- CHEM 2310 Organic Chemistry I 4
- CHEM 2320 Organic Chemistry II 4
- CHEM 2315 Organic Chemistry I Laboratory 1
- CHEM 2325 Organic Chemistry II Laboratory 1
- CHEM 3000 Analytical Chemistry 2
- CHEM 3005 Analytical Chemistry Laboratory 2
- CHEM 3060 Physical Chemistry I WE 4
- CHEM 3065 Physical Chemistry I Lab (1) 4
- CHEM 3600 Biological Chemistry 3
- MATH 1220 Calculus II 4
- PHYS 2210 Physics for Scientists and Engineers I PP 4

Education Discipline Core Courses: Must be completed with a B- or higher
- EDSC 1010 Introduction to Education 2
- EDSC 3000 Educational Psychology 3
- EDSC 325G Equitable Technology Integration GI 2
- EDSP 340G Exceptional Students GI 2
- EDSC 4200 Classroom Management I 2
- EDSC 4250 Classroom Management II 2
- EDSC 4440 Content Area Literacies 3
- EDSC 445G Multicultural Instruction ESL GI 3
- EDSC 455G Secondary Curriculum Instruction and Assessment GI 3
- EDSC 4850 Student Teaching Secondary 8
- EDSC 4990 Teacher Performance Assessment Project WE 2

Chemistry Elective Requirement: 5
Complete a minimum of 5 credit hours from the following list
- CHEM 3020 Environmental Chemistry (3)
- CHEM 3025 Environmental Chemistry Laboratory (1)
- CHEM 3100 Advanced Inorganic Chemistry (4)
- CHEM 3115 Advanced Inorganic Chemistry Lab (1)
- CHEM 3605 Biological Chemistry Lab (1)
- CHEM 3800 Energy Use on Earth (3)
- CHEM 4000 Instrumental Analysis WE (2)
- CHEM 4005 Instrumental Analysis Laboratory (2)
- CHEM 4600 Structure Determination (3)
- CHEM 4605 Structure Determination Laboratory (1)
- CHEM 495R Advanced Topics in Organic Chemistry (3)
- CHEM 496R Special Topics in Chemistry (1-4)

Graduation Requirements:
1. Completion of a minimum of 120 semester credits with a minimum of 40 upper-division credits.
2. Overall Grade of 3.0 (B) or above with no grade lower than a C or better in major required content courses and no grade lower than a B- in Licensure and Methods courses.
3. Residency hours -- minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. A minimum of 52 credit hours must be in the major with a minimum of 20 credits taken at UVU. A minimum of 24 chemistry and physics credits must be upper-division.
6. Complete all chemistry courses with a minimum grade of "C-" or better.
7. Successful completion of at least one Global/Intercultural course.

Footnote:
1-To be taken with CHEM 1215 Principles of Chemistry I Laboratory
2-To be taken with CHEM 1225 Principles of Chemistry II Laboratory
3-To be taken with CHEM 1210 Principles of Chemistry I PP
4-To be taken with CHEM 1220 Principles of Chemistry II PP

Chemistry Education, B.S.
Careers

1. Demonstrate an overall knowledge of the key concepts needed to teach Chemistry at the secondary education level.
2. Demonstrate skill and knowledge in science pedagogy.
3. Develop an understanding of the interaction between chemistry and society.
4. Demonstrate the ability to communicate effectively both verbally and in writing.

Degrees & Programs

Humanities and Social Sciences, A.A.

Requirements

The AA/AS in Humanities and Social Sciences is designed to (a) allow students to explore different majors and career paths within the humanities and social sciences, (b) provide a completion point for students who do not want to pursue a bachelor’s degree, and (c) facilitate transfer to another institution for students who would like to finish their bachelor’s degree elsewhere. The curriculum consists of 35 credits of general education, 12 credits of electives in the College of Humanities and Social Sciences, and 13 free electives from any college within the university.

Total Program Credits: 60

Ethnic Studies, Minor

Requirements

Ethnic Studies is an interdisciplinary and intersectional study of differences and diverse connections. Such differences and connections include race, ethnicity, culture, nation, sexuality, and physical abilities that span humanities and social sciences. These studies re-frame and re-center conversations and knowledges about non-dominant histories in the United States and the world.

Public Relations and Strategic Communication, B.A. Careers
1. Students with Foundational Knowledge will have a 1) theoretical, and up-to-date understanding, of current research findings centered on the concepts, constructs, and principles discussed in the field of strategic communication and public relations. Researcher findings are often collected through diverse methodologies; therefore, students will (2) demonstrate an understanding of the methodologies and instruments used by both researchers and practitioners. These findings are written by a myriad of authors and disseminated through diverse channels, thus students will (3) become familiar with, and judiciously examine, both authoritative and non-credible sources of information in order to become a more information- literate individual. Finally, as Foundational Knowledge is always changing, students will 4) recognize the impermanent nature of knowledge claims in order to initiate and adapt to new approaches of communication.
2. In order to obtain Professional Skills, students will be able to (1) demonstrate competency in oral, written, visual, and nonverbal communication both individually and (2) in a team setting using the acquired skills gained from strategic communication and public relations courses. From these skills, students will be able to (3) create multimedia content designed to achieve specific objectives for organizations, while simultaneously targeting a diverse set of audiences in addition to (4) planning, managing, and executing strategic communication campaigns.
3. The Application of Foundational Knowledge and Professional Skills Learning Outcome incorporates several different points. First, students, by the time of graduation, should be able to use the critical thinking skills obtained from coursework and classroom instruction to analyze and evaluate strategic communication and public relations messages from a theoretical and applied perspective. Further, students should (2) be able to employ basic research skills to gather data, synthesize the findings into a cogent message, and evaluate their importance in relation to campaign objectives. In addition, students, by applying the foundational knowledge and professional skills gained, (3) will be able to adapt their messages, based on previous case studies and research findings, over the course of a strategic communication and public relations campaign.

4. Students with an understanding in Diversity and Cultural Perspectives will have the ability to (1) apply ethical principled learned via class work by (2) demonstrating their competency in critically analyzing ethical problems from multiple and diverse perspectives both individually and in a team-setting. Further, students should have the (3) ability to ability to examine, and acknowledge the situatedness of cultural experiences, conflicting opinions, and viewpoints on issues and ethical dilemmas when interacting with stakeholders. Finally, by graduation, students will be able to (4) reflect upon the interconnectedness of local, national, and global issues.

Public Relations and Strategic Communication, B.S.

Requirements
The BA/BS/Minor will give students the opportunity to earn a full major/ minor in the field of public relations and strategic communication. This degree prepares students with the necessary skills to communicate (a) visually, (b) orally, and through the (c) written word in traditional and digital mediums, as demanded by the ever-changing nature of strategic communication and public relations.

Distribution Courses:
- HLTH 1100 Personal Health and Wellness TE (2)
- or EXSC 1097 Fitness for Life TE 2

Discipline Core Requirements: 18 Credits
- COMM 2300 Introduction to Public Relations and Strategic Communication 3
- COMM 3020 Communication Research Methods WE 3
- COMM 3520 Public Relations and Strategic Communication Case Studies 3
- COMM 3530 Public Relations and Strategic Communication Writing 3
- COMM 3050 Theories of Communication and Culture WE 3
- COMM 4850 Public Relations and Strategic Communication Campaigns 3

Elective Requirements: 67 Credits
- Complete 18 credits within the Communication Major, 9 must be at the 3000-4000 level 18
- Any courses numbered 1000 or higher, specific upper-division credits may be needed to fulfill the university's upper-division requirement, completion of one G/I course is required. 49

Graduation Requirements:
1. Completion of a minimum of 120 or more semester credits.
2. Overall grade point average of 2.0 (C) or above (departments may require a higher GPA).
3. Residency hours: minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Completion of COMM courses with a C- or higher.
6. Successful completion of at least one Global/Intercultural course.

Public Relations and Strategic Communication, B.S. Careers
1. Students with Foundational Knowledge will have a 1) theoretical, and up-to-date understanding, of current research findings centered on the concepts, constructs, and principles discussed in the fields of strategic communication and public relations. Researcher findings are often collected through diverse methodologies; therefore, students will (2) demonstrate an understanding of the methodologies and instruments used by both researchers and practitioners. These findings are written by a myriad of authors and disseminated through diverse channels, thus students will (3) become familiar with, and judiciously examine, both authoritative and non-credible sources of information in order to become a more information-literate individual. Finally, as Foundational Knowledge is always changing, students will 4) recognize the impermanent nature of knowledge claims in order to initiate and adapt to new approaches of communication.
2. In order to obtain Professional Skills, students will be able to (1) demonstrate competency in oral, written, visual, and nonverbal communication both individually and (2) in a team setting using the acquired skills gained from strategic communication and public relations courses. From these skills, students will be able to (3) create multimedia content designed to achieve specific objectives for organizations, while simultaneously targeting a diverse set of audiences in addition to (4) planning, managing, and executing strategic communication campaigns.

3. The Application of Foundational Knowledge and Professional Skills Learning Outcome incorporates several different points. First, students, by the time of graduation, should be able to use the critical thinking skills obtained from coursework and classroom instruction to analyze and evaluate strategic communication and public relations messages from a theoretical and applied perspective. Further, students should (2) be able to employ basic research skills to gather data, synthesize the findings into a cogent message, and evaluate their importance in relation to campaign objectives. In addition, students, by applying the foundational knowledge and professional skills gained, (3) will be able to adapt their messages, based on previous case studies and research findings, over the course of a strategic communication and public relations campaign.

4. Students with an understanding in Diversity and Cultural Perspectives will have the ability to (1) apply ethical principled learned via class work by (2) demonstrating their competency in critically analyzing ethical problems from multiple and diverse perspectives both individually and in a team-setting. Further, students should have the (3) ability to understand, examine, and acknowledge the situatedness of cultural experiences, conflicting opinions, and viewpoints on issues and ethical dilemmas when interacting with stakeholders. Finally, by graduation, students will be able to (4) reflect upon the interconnectedness of local, national, and global issues.

**Complete the following:**

Complete the following (minimum grade of C- required):

| CS 1400 Fundamentals of Programming (Minimum grade of C- required) |
| CS 2600 Computer Networks I (Minimum grade of C- required) |
| CS 2810 Computer Organization and Architecture (Minimum grade of C- required) |

Emphasis Requirements: 32 Credits

Complete the following (minimum grade of C- required):

| ECE 1000 Introduction to Electrical and Computer Engineering |
| ECE 2250 Circuit Theory |
| ECE 2255 Circuit Theory Lab |
| ECE 2700 Digital Design I |
| IT 1510 Introduction to System Administration--Linux/UNIX |
| MATH 1210 Calculus I QL (fulfills GE requirement) |
| CS 1410 Object-Oriented Programming |
| CS 2370 C plus plus Programmin WE |
| CS 2420 Introduction to Algorithms and Data Structures |
| ECE 2705 Digital Design I Lab |
| PHYS 2220 Physics for Scientists and Engineers II PP |
| PHYS 2225 Physics for Scientists and Engineers II Lab |

Emphasis Electives Requirements: 9 Credits

Complete 6 credits from the following courses (minimum grade of C- required):

| CS 2300 Discrete Mathematical Structures I (3) |
| CS 2450 Software Engineering (3) |
| CS 2550 Web Programming I (3) |
| MATH 1220 Calculus II (4) |

Complete 3 credits of any CS or ECE course 1000 or higher.

**Graduation Requirements:**

1. Completion of a minimum of 63 semester credits.
2. Overall grade point average of 2.0 (C) or above.
3. Residency hours -- minimum of 20 credit hours through course attendance at UVU.

**Footnote:**

1. COMM 1020 Public Speaking HH recommended
2. HLTH 1100 Personal Health and Wellness TE or EXSC1097 Fitness for Life TE recommended
Program Learning Outcomes

1. Graduates are proficient in using data structures and algorithms.
2. Graduates understand the foundations of computer architecture.
3. Graduates will have the ability to apply knowledge of mathematics, science, and engineering.
4. Graduates will have the ability to design and conduct experiments, as well as to analyze and interpret data.
5. Graduates will have the ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety manufacturability and sustainability.
6. Graduates will have the ability to function on multidisciplinary teams.
7. Graduates will have the ability to identify, formulate, and solve engineering problems.
8. Graduates will have an understanding of professional and ethical responsibility.
9. Graduates will have the ability to communicate effectively.
10. Graduates will have the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
11. Graduates will have recognition of the need for, and an ability to engage in lifelong learning.
12. Graduates will have knowledge of contemporary issues as they relate to computer engineering practice.

Computational Data Science, B.S.

**Requirements**

The Computational Data Science Degree develops strong interdisciplinary skills in mathematics, statistics, computer science and big data processing. Create algorithms, write code and scripts to solve problems beyond the basic use of existing tools in support of an industrial, enterprise-level big data pipeline. The mix of competencies and experiences required for Data Science differs significantly from those developed in the individual degree programs in the four areas mentioned above. Gain real-world experience as a springboard to working in industry as a Data Scientist or to pursue a graduate degree.

## Computer Science - Computer Networking Emphasis, B.S.

### Requirements

The Networking specialization in the Computer Science degree program is designed to prepare students with strong internet-related programming and/or engineering skills. In addition to core Computer Science courses, it requires in-depth courses in network and Internet operations as well as extensive experience in web and network software development.

### Total Program Credits: 120

#### Matriculation Requirements:

2. Completion of MATH 1210 Calculus I QL and ENGL 1010 Introduction to Academic Writing CC or ENGH 1005 Literacies and Composition Across Contexts CC with a grade of C or better.
3. Each of CS 1400, CS 1410, CS 2300, CS 2420, MATH 1210, and (ENGL 1010 or ENGH 1005) cannot be taken more than twice to obtain the required grade.
4. Overall GPA of 2.5 or higher.

### General Education Requirements:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 1010</td>
<td>Introduction to Academic Writing CC</td>
<td>3</td>
</tr>

<tr>
<td>ENGL 2010</td>
<td>Intermediate Academic Writing CC</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1210</td>
<td>Calculus I QL</td>
<td>4</td>
</tr>
</tbody>
</table>

### Graduation Requirements:

1. Completion of a minimum of 120 semester credits, with a minimum of 40 upper-division credits.
2. Overall grade point average of 2.0 or above.
3. Must have a minimum grade of C- with a combined GPA of 2.5 or higher in all discipline requirements and the General Education requirements that are marked with an *.
4. Residency hours -- minimum of 30 credit hours through course attendance at UVU. 10 of these hours must be within the last 45 hours earned. At least 12 of the credit hours earned in residence must be in approved Computational Data Science (CDS) courses.
5. All transfer credit must be approved in writing by UVU.
6. No more than 80 semester hours and no more than 20 hours in CDS type courses of transfer credit from a two-year college.
7. No more than 30 semester hours may be earned through independent study and/or extension classes.
8. Successful completion of at least one Global/Intercultural course. CS 305G satisfies this requirement.

**Graduation Requirements:**

1. Completion of a minimum of 120 semester credits, with a minimum of 40 upper-division credits.
2. Overall grade point average of 2.0 or above. Must have a minimum grade of C- with a combined GPA of 2.5 or higher in all discipline core and emphasis requirements and the General Education requirements marked with a footnote.
3. Residency hours -- minimum of 30 credit hours through course attendance at UVU. 10 of these hours must be within the last 45 hours earned. At least 12 of the credit hours earned in residence must be in approved CSE Department courses.
4. All transfer credit must be approved in writing by UVU.
5. No more than 80 semester hours and no more than 20 hours in CS type courses of transfer credit from a two-year college.
6. No more than 30 semester hours may be earned through independent study and/or extension classes.
7. Successful completion of at least one Global/Intercultural course.

**Footnote:**

1 Minimum grade required (see Graduation Requirements)

---

**Computer Science - Computer Networking Emphasis, B.S.**

**Careers**

1. Graduates are proficient in using data structures and algorithms.
2. Graduates understand the foundations of computer architecture.
3. Graduates are able to develop solutions to significant computing problems.
4. Graduates will have a thorough understanding of the theory and constructs of programming languages.
5. Graduates understand the theoretical foundations of computation.
6. Graduates understand the principles and components of operating systems.
7. Graduates have proficiency in the mathematical skills needed in computer science (viz. discrete mathematics, basic probability and statistics, basic differential and integral calculus).
8. Students understand the fundamentals of net-centric computing.

Computer Science - Computer Science Emphasis, B.S.

Requirements
Computer Science spans the range from theory through programming to cutting-edge development of computing solutions. Computer Scientists master the theory and practice of computing, and explore new and exciting ways to use computers. Systems like Google and Amazon are created by computer scientists.

Total Program Credits: 120

Matriculation Requirements:
1. Completion of CS 1400, CS 1410, CS 2300, and CS 2420 with a grade of C+ better.
2. Completion of MATH 1210 and ENGL 1010 with a grade of C or better.
3. Each of CS 1400, CS 1410, CS 2300, CS 2420, MATH 1210, and (ENGL 1010 or ENGH 1005) cannot be taken more than twice to obtain the required grade.
4. Overall GPA of 2.5 or higher.

General Education Requirements: 33 Credits

**Computer Science - Full Stack Web Development Emphasis, B.S.**

**Careers**

1. Design the architecture of full stack web systems.
2. Develop full stack web applications that provide web services and consume web services.
3. Develop web infrastructure for building web systems.
4. Design data systems that support the special needs of web applications.
**Related Careers**
- Computer and Information Systems Managers
- Computer and Information Research Scientists
- Information Security Analysts
- Computer Programmers
- Software Developers, Applications
- Software Developers, Systems Software
- Web Developers
- Computer Network Support Specialists
- Computer Occupations, All Other
- Computer Science Teachers, Postsecondary

**Computer Science - Secure Computing Emphasis, B.S.**

**Requirements**
The Bachelor of Science in Computer Science with Secure Computing emphasis is a degree to provide a solid foundation in secure computing and develop advanced skills to master the technical details to develop complex systems securely. It consists mainly of 36 credit hours of security-focused classes, 30 core computer science classes, plus several additional computer sciences elective courses to have the greatest practical applicability. The degree will highly qualify students to meet the high-demand workforce in the security domain.

**Total Program Credits: 120**

Matriculation Requirements:
1. Completion of CS 1400, CS 1410, CS 2300, and CS 2420 with a grade of C+ better.
2. Completion of MATH 1210 and ENGL 1010 or ENGH 1005 with a grade of C or better.
3. Each of CS 1400, CS 1410, CS 2300, CS 2420, MATH 1210, and (ENGL 1010 or ENGH 1005) cannot be taken more than twice to obtain the required grade.
4. Overall GPA of 2.5 or higher.

General Education Requirements: 33 Credits

**Graduation Requirements:**

1. Completion of a minimum of 120 semester credits, with a minimum of 40 upper-division credits.
2. Overall grade point average of 2.0 or above. Must have a minimum grade of C- with a combined GPA of 2.5 or higher in all discipline core and emphasis requirements and the General Education requirements marked with a footnote.
3. Residency hours -- minimum of 30 credit hours through course attendance at UVU. 10 of these hours must be within the last 45 hours earned. At least 12 of the credit hours earned in residence must be in approved CSE Department courses.
4. All transfer credit must be approved in writing by UVU.
5. No more than 80 semester hours and no more than 20 hours in CS type courses of transfer credit from a two-year college.
6. No more than 30 semester hours may be earned through independent study and/or extension classes.
7. Successful completion of at least one Global/Intercultural course.

**Footnote:**

1 Minimum grade required (see Graduation Requirements)

**Computer Science - Secure Computing Emphasis, B.S.**

**Careers**

1. Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program’s discipline.
3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
6. Apply security principles and practices to maintain operations in the presence of risks and threats.

Computer Science Education, B.S.

Requirements

The Bachelor of Science in Computer Science Education provides a solid foundation of software and web development skills specifically for secondary educators. It consists of computer science and web development classes as well as education courses necessary to obtain a Utah teaching license with endorsements in Computer Science and Web Development.

Total Program Credits: 120

Matriculation Requirements:

1. Pass MATH 1050 and ENGL 1010 with a grade of "C" or better.
2. Pass CS 1400, CS 1410, CS 2300, and CS 2420 with a grade of "C+" or better.
3. GPA of 3.0 or higher with no grade lower than a C in content area courses.
4. Completion of all General Education requirements and 70% of content area courses.
5. Pass LiveScan Criminal Background Check.
6. ENGL 2010 and MATH QL courses must have a grade C or higher.

### Computer Science Education, B.S.

**Careers**

1. Apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a set of computing requirements.
3. Apply pedagogical theories to facilitate learning in the field of computer science and web programming.
4. Demonstrate how to teach computer science and web programming in the secondary education system.
5. Evaluate student computer programming performance.

### Software Development, B.A.S.

**Requirements**

The Bachelor of Applied Science in Software Development is a degree to provide a solid foundation of software development skills. It consists mainly of 45 credit hours of computer science classes: the core computer science classes, plus several additional computer science courses selected so as to have greatest practical applicability. The degree will qualify students for mid-level programming jobs with good long-term prospects but not necessarily technical leadership roles.

**Total Program Credits: 120**

**Matriculation Requirements:**

1. Completion of CS 1400, CS 1410, CS 2300, and CS 2420 with a grade of C+ better.
2. Completion of MATH 1050 and ENGL 1010 with a grade of C or better.
3. Overall GPA of 2.5 or higher.

**One additional 3000-level CS Class not already taken**

**Extra-Major Specialization:**

*Courses in a single major other than Computer Science or Software Engineering. At least 33 Credits*
16 credit hours must be upper division

Graduation Requirements:
1. Completion of a minimum of 120 semester credits, with a minimum of 40 upper-division credits.
2. Overall grade point average of 2.0 or above. Must have a minimum grade of C- with a combined GPA of 2.5 or higher in all discipline requirements.
3. Residency hours — minimum of 30 credit hours through course attendance at UVU. Ten of these hours must be within the last 45 hours earned. At least 12 of the credit hours earned in residence must be in approved Computer Science Department courses.
4. No more than 80 semester hours and no more than 20 hours of transfer credit from a two-year college may be applied to the core or elective courses.
5. No more than 30 semester hours may be earned through independent study.
6. Successful completion of at least one Global/Intercultural course.

Software Development, B.A.S.

Careers
1. Design a software-based solution to meet a given set of requirements.
2. Implement a software-based solution to meet a given set of requirements
3. Communicate effectively in a variety of professional contexts.
4. Function effectively as a member of a team engaged in software development.

Related Careers
• Computer Programmers
• Software Developers, Applications
• Software Developers, Systems Software
• Web Developers
• Computer Network Support Specialists
• Computer Science Teachers, Postsecondary

Software Engineering, B.S.

Requirements
Software Engineers design and develop large software systems. In addition, they may lead teams of software developers or quality assurance engineers. They also work with users and customers to understand their needs. Software systems we take for granted, such as Microsoft Office, are implemented by software engineers. Software engineers employ innovative software development approaches, such as Agile software development, to effectively manage software development projects.

Total Program Credits: 120

Matriculation Requirements:
1. Completion of CS 1400, CS 1410, CS 2300, and CS 2420 with a grade of C+ better.
2. Completion of MATH 1210 and (ENGL 1010 or ENGH 1005) with a grade of C or better.
3. Each of CS 1400, CS 1410, CS 2300, CS 2420, MATH 1210, and (ENGL ENGL 1010 or ENGH 1005) cannot be taken more than twice to obtain the required grade.
4. Overall GPA of 2.5 or higher.

**Elective Requirements:**

Complete 9 credits from the following:

Any CS course numbered 3000 or higher not already required.

**Graduation Requirements:**

1. Completion of a minimum of 120 semester credits, with a minimum of 40 upper-division credits.
2. Overall grade point average of 2.0 or above. Must have a minimum grade of C- with a combined GPA of 2.5 or higher in all discipline core and elective requirements and the General Education requirements marked with a footnote 1.
3. Residency hours -- minimum of 30 credit hours through course attendance at UVU. Ten of these hours must be within the last 45 hours earned. At least 12 of the credit hours earned in residence must be in approved CSE Department courses.
Computer Science

4. No more than 80 semester hours and no more than 20 hours of transfer credit from a two-year college may be applied to the core or elective courses.
5. No more than 6 semester hours may be earned through independent study.
6. Successful completion of at least one Global/Intercultural course.

Footnotes: \(^1\) Minimum grade of C- required.

**Software Engineering, B.S.**

**Careers**

| 1. Graduates are proficient in using data structures and algorithms. They understand how to implement them, when to apply them, and the abstractions associated with their use. |
| 2. Graduates understand the foundations of computer architecture. |
| 3. Graduates are able to develop solutions to significant software development problems. |
| 4. Graduates will be able to provide internal and external software documentation. |
| 5. Graduates are able to function effectively on teams to accomplish a common goal. |
| 6. Graduates understand software project lifecycles and development processes, and can follow standard processes. |
| 7. Graduates can elicit and write software specifications. |
| 8. Graduates understand principles of software quality assurance and testing, and can test software effectively. |

Computer Science Graduate Programs

Computer Science Graduate Programs
The Computer Science Graduate Program is in the Scott M. Smith College of Engineering. To find the most up-to-date information, including Program Learning Outcomes for the Computer Science Graduate Program, visit their website.

Master of Computer Science Graduate Program

Course Descriptions

Artificial Intelligence, Graduate Certificate

Requirements
The Graduate Certificate in Artificial Intelligence provides fundamental and advanced skills in the principles, algorithms and technologies that enable AI and cybersecurity.

Total Program Credits: 18

Matriculation Requirements:

1. Application for admission to the graduate program with application fee by the established deadline.
2. Submit official transcripts from all universities attended.
3. A bachelor's degree from a regionally accredited college/university or the international equivalent.
4. A 3.0 cumulative undergraduate GPA or a 3.0 GPA calculated on the last 60 semester hours (90 quarter hours) of undergraduate work.
5. Completion of Introduction to Algorithms and Data Structures (CS 2420 or the equivalent).
6. For international students whose native language is not English, submit official TOEFL or IELTS band scores. A TOEFL score of 80 iBT (550 pBT) or higher, or an IELTS band score of 6.5 or higher within the past two years is required.
7. International students must also meet all US government requirements for international students.
8. The university uses a selective admissions process for admitting students to graduate programs. Meeting minimum admissions criteria does not guarantee admission to the graduate program or to the University as a graduate student.
9. Recommended courses to take before the program begins are Linear Algebra (MAT 2270 or equivalent) and Statistics & Probability (STAT 2050 or equivalent).

Graduation Requirements:

1. Completion of all courses with a B- or better.
2. Overall average GPA for 18 hours of 3.0 or higher.
3. A maximum of 6 credit hours transferred from another institution may be used to satisfy graduate requirements. At least two-thirds of the courses applied to the graduate certificate must be taken at UVU.

Artificial Intelligence, Graduate Certificate

Careers

1. Apply principles and techniques of AI and Machine Learning to solve problems.
2. Apply security principles and practices to maintain operations in the presence of risks and threats.

Master of Computer Science, M.C.S.

Requirements
The Master of Computer Science (MCS) at Utah Valley University is an applied graduate program resulting in a professional degree. Students graduating with this degree will have a broad grounding in computer science as a discipline and be well equipped to take on leadership roles in a wide range of computing technology-related industries. Student education will be focused on developing software systems using current technologies while allowing them the freedom to explore and exploit new technologies to solve real-world problems. Students will be required to develop a broad base of competency by passing required courses in large scale implementation, applied mathematics computing, information management, and software engineering. Electives will allow a student to continue to add breadth to their education or allow them to focus on specific areas of computer science they find interesting or feel will best advance their professional objectives.

Total Program Credits: 30
Computer Science Graduate Programs

Matriculation Requirements:

1. Application for admission to the MCS will include letters of recommendation and a statement of purpose.

2. Applicants must have an overall grade point average in their undergraduate work of 3.0 or higher on a 4.0 scale.

3. For international students whose native language is not English, a TOEFL score of 80 iBT (550 pBT) or higher, or an IELTS band score of 6.5 or higher within the past two years, is required.

4. Applicants with a bachelor's degree in a computer-related field (Computer Science, Computer Engineering, Software Engineering, or a closely related field) who have completed the following courses (or equivalent courses from other institutions) with a C+ or better will be deemed to have the fundamental computer science background to enter the program:
   - CS 2300 Discrete Structures I
   - CS 2420 Introduction to Algorithms and Data Structures
   - CS 2810 Computer Organization and Architecture
   - CS 3060 Operating Systems Theory
   - MATH 1210 Calculus I

5. Applicants without a bachelor's degree in a computer-related field or who have not completed the above courses with a C+ will be deemed lacking in fundamental computer science background to enter the program.

6. Applicants found lacking in fundamental computer science background can be conditionally admitted to the MCS. Conditionally admitted students will have an individualized MCS Leveling Plan (MCS LP) developed for them by the Computer Science Graduate Committee. Once the MCS LP has been met by the applicant, the applicant will be deemed to have the fundamental computer science background to enter the program. Graduate policy precludes conditionally admitted students from taking 6000 level courses.

7. All applicants will be subject to the approval of the Computer Science Graduate Committee.

Graduation Requirements:

1. Completion of all courses with a grade of B- or better.

2. Graduate Project Option:
   a. Graduate project proposal presented to and accepted by the student's Advisory Committee.
   b. Completion and defense of graduate project (CS 6600 and CS 6610); defense must be accepted by the student's Advisory Committee.
   c. Completion of all required courses and elective courses for a total of 30 credit hours with an average GPA of 3.0 or higher.

3. Graduate Coursework Option:
   a. Completion of all required courses and elective courses (CS 6600 and CS 6610 do not count toward this option) for a total of 30 credit hours with an average GPA of 3.0 or higher.

4. No transfer credit can be used to satisfy graduation requirements.

Master of Computer Science, M.C.S.

Careers

1. Design of large-scale software systems: To meet this standard, students demonstrate knowledge of common software architectural styles, interaction of design and quality, design tradeoffs, and the role of technology in software design.

2. Implementation of large-scale systems: To meet this standard, students demonstrate the ability to write large programs, integrate software modules built over multiple releases, and devise unit and systems tests to ensure the quality of the system.

3. Professional maturity: To meet this standard, students must demonstrate the ability to understand all phases of software lifecycle, take a significant project from conception through delivery without excessive supervision, be able to communicate technical concepts and problems in a coherent and professional manner, and meet deadlines.

4. Broad base of competency: To meet this standard, students must demonstrate a breadth of knowledge that spans multiple functional domains of computer science. This breadth of knowledge must be deep enough that a student can apply their problem-solving skills to multiple domains or use multiple domains to solve a single problem.

**Construction Management, A.A.S. Requirements**

Students may earn an Associate in Applied Science degree. The Clyde Institute of Construction Management Program has been designed to provide students a strong foundation in Construction Management that prepares them for jobs in construction site supervision and/or for advancement on to a BS degree in Construction Management. The program provides courses in building construction, construction management and construction science that apply to all segments of the construction industry with an emphasis on heavy civil and commercial construction. Students will learn about construction materials and methods through the use of readings, 3-D models, hands-on laboratory exercises, and site visits. Construction management courses in estimating and scheduling are also provided along with a strong background in mathematics, computer technology, business and other general education subjects. A supervisory course is also required so students can learn to manage workers at construction sites.

Woodworking Education, Certificate of Proficiency

Requirements
The CP in Woodworking Education is a package of existing courses that provides licensed, secondary education teachers in Utah with a pathway for adding the Associate level Woods endorsement to their professional portfolio. In addition, it establishes a means for individuals who wish to enter the teaching profession and are seeking a teaching credential with a means to demonstrate the content knowledge required for the Associate level Woods endorsement. It supports the endorsement portion of the licensing process only. It is not a full-fledged teacher preparation program and does not result in a recommendation for licensure.

Total Program Credits: 19

Graduation Requirements:
1. Completion of a minimum of 19 credits.
2. Overall grade point average of 2.0 (C) or above.
3. Residency hours--minimum of 4 credit hours through course attendance at UVU.

Cabinetry and Architectural Woodwork, Diploma

Requirements
Students may receive a One-Year Certificate, a Diploma, an Associate in Applied Science degree, an Associate in Science degree, or a Bachelor of Science Degree in Technology Management.

Total Program Credits: 49

Graduation Requirements:
1. Completion of a minimum of 49 or more semester credits.
2. Overall grade point average of 2.0 (C) or above.
3. Residency hours--minimum of 20 credit hours through course attendance at UVU.
4. Complete all Technical Specialty courses with a minimum grade of "C-" or better.

Construction Management, B.S.

Requirements

Students may earn an Associate in Applied Science degree. The Clyde Institute of Construction Management Program has been designed to provide students a strong foundation in Construction Management that prepares them for jobs in construction site supervision and/or for advancement on to a BS degree in Construction Management. The program provides courses in building construction, construction management and construction science that apply to all segments of the construction industry with an emphasis on heavy civil and commercial construction. Students will learn about construction materials and methods through the use of readings, 3-D models, hands-on laboratory exercises, and site visits. Construction management courses in estimating and scheduling are also provided along with a strong background in mathematics, computer technology, business and other general education subjects. A supervisory course is also required so students can learn to manage workers at construction sites.

Forensic Science, A.S.

**Careers**

1. Explain how forensic science uses scientific and mathematical principles.
2. Develop a conceptual foundation of the criminal justice system, rules of evidence, and the legal system.
3. Explain the relationship between forensic science and criminal law.
4. Situate forensic science applications within criminal investigative procedures.
5. Describe how various forensic science disciplines are utilized within criminal investigations.

Intelligence Studies, A.S.

**Requirements**

The Associate of Science in Intelligence Studies exposes students to the wide range of theoretical and functional issues related to the field of military intelligence. Students are prepared for employment in the intelligence field. This degree is limited to students participating in the Utah National Guard’s (UNG) military intelligence education program at Camp Williams in Bluffdale, Utah.

**Total Program Credits: 60**

**Matriculation Requirements:**

Students in the AS program must be admitted to the Utah National Guard’s Military Intelligence Education program and admitted to UVU.

**General Education Requirements:**

2 credits from any 1000 or 2000 level course
The Certificate of Proficiency in Criminal Justice is available for all UVU students with a particular focus designed to provide high school students an opportunity to obtain a certificate of proficiency with a focus on a Career and Technical Education (CTE) field while still enrolled in high school that will stack into certificates and associate degrees at UVU. This certificate will be available from the University for college students/adults looking for entry-level skills leading to further academic advancement and learn more about the criminal justice field.

**Total Program Credits: 15**

**Discipline Core Requirements:**

- **ENGL 1010** Introduction to Academic Writing CC 3
- or **ENGH 1005** Literacies and Composition Across Contexts CC (5)

Choose one of the following: 3

- **MAT 1030** Quantitative Reasoning QL (3)
- **MAT 1035** Quantitative Reasoning with Integrated Algebra QL (6)
- **STAT 1040** Introduction to Statistic QL (3)
- **STAT 1045** Introduction to Statistics with Algebra QL (5)
- **MATH 1050** College Algebra QL (4)
- **MATH 1055** College Algebra with Preliminaries QL (5)
- An Advanced Placement (AP) Mathematics Test with a score of 3 or higher

- **CJ 1010** Introduction to Criminal Justice SS 3
- **CJ 1330** Criminal Law 3
- **CJ 1340** Criminal Investigations 3

**Graduation Requirements:**

1. Completion of a minimum of 15 credits.
2. Overall grade point average of 2.0 (C) or above.
3. Residency hours -- minimum of 4 credit hours through course attendance at UVU.

**Criminal Justice, Certificate of Proficiency**

**Careers**

1. Students should acquire general knowledge about the criminal justice system, including familiarity with the criminal law, victimization, the adjudication process, corrections options, police-community relations, evidence, ethics and theory.
2. Students will gather, interpret, and evaluate information in a variety of forms while critiquing a crime scene scenario.
3. Students will approach complex problems from a diverse perspective while considering alternative solutions when critiquing a crime scene scenario.

**Related Careers**

- Criminal Justice and Law Enforcement Teachers, Postsecondary
- First-Line Supervisors of Police and Detectives

**Law Enforcement, Certificate of Proficiency**

**Requirements**

Utah Valley University is a sanctioned provider of the Utah Law Enforcement Academy, the basic training program for certification of law enforcement officers. The academy is divided into two modules. The first, or core, provides training required for certification of special function officers and is foundational for law enforcement and correctional officers. The second module is required for certification as a reserve or law enforcement officer.
The NSS certificate of proficiency is aimed at students with a baccalaureate degree who are looking to re-tool or specialize in national security in order to enter or advance in a national security career. The certificate will provide an interdisciplinary program that prepares students for and allows existing professionals to advance in public and private sector national security careers through acquisition of subject matter expertise and analytical skills. The certificate will expose students to the wide variety of critically important security challenges and issues faced in the twenty-first century, such as terrorism and cyber security, nuclear proliferation and weapons of mass destruction, piracy and global pandemics, sovereignty and the use of force, and civil liberties and the rule of law. Students will also acquire skills such as critical thinking, writing, briefing, and analysis techniques specifically tailored for the national security field, but applicable in many others.

Whether students are interested in counterterrorism, homeland security, intelligence gathering and analysis, foreign relations, law and politics, diplomacy, or international development, the NSS certificate of proficiency will provide insight and skills needed to succeed in these professions.

**Related Careers**
- Managers, All Other
- Criminal Justice and Law Enforcement Teachers, Postsecondary
- First-Line Supervisors of Police and Detectives

Criminal Justice/Law Enforcement

Graduation Requirements
Completion of discipline core and electives with a C- grade or higher.

National Security Studies, Minor

Careers
1. Discuss the U.S. national security system and process, including familiarity with the National Security Council, executive departments and agencies, presidential powers, congressional roles and powers, applicable international and domestic law, and current geographical and functional issues in the national security field.
2. Demonstrate analytical thinking and reasoning, professional writing, and public speaking and presenting skills.
3. Apply both theoretical and practical approaches to complex national security problems, employing appropriate context to a decision-making framework.

Related Careers

Complete any 1000 course or higher 8

Graduation Requirements:
1. Completion of a minimum of 120 semester credits with 40 semester credits from 3000- and 4000-level courses.
2. Overall grade point average of 2.0 (C) or above. Must have a grade of C- or higher in all discipline core and criminal justice elective requirements.
3. Residency hours: minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements. Students are responsible for completing all prerequisite courses.
5. Successful completion of at least one Global/Intercultural course.

Criminal Justice, B.S.

Careers

1. Students should acquire general knowledge about the criminal justice system, including familiarity with the criminal law, victimization, the adjudication process, corrections options, police-community relations, evidence, ethics and theory.
2. Students will demonstrate the skills necessary to communicate effectively in writing, solve complex problems demonstrating they can see problems from multiple perspectives and still support their final conclusions with persuasive arguments.
3. Students can describe and implement the main principles of the United States Constitution. Specifically, they will demonstrate they can properly apply Constitutional principles relating to individual rights and due process to actual criminal justice problems.
4. Students will be able to discuss the complexity of cultural diversity and ethical issues within the criminal justice system.
5. Students will design and conduct an original research study on a topic related to the study of CJ.

Related Careers

Forensic Science - Forensic Investigation Emphasis, B.S.

Requirements

The Forensic Investigation Emphasis within the BS in Forensic Science provides an interdisciplinary program that prepares students for public, state, and federal careers with needed forensic investigation subject matter expertise and analytical skills. This emphasis exposes students to the wide variety of critically important forensic investigation techniques, which are currently practiced within various forensic service providers and law enforcement agencies. Students are exposed to various techniques such as the identification and proper collection of evidence found at crime scenes, accurate crime scene documentation skills, forensic photography, death investigations, fingerprint processing/examinations, impression evidence/examination, bloodstain pattern analysis, crime scene reconstruction, firearms and tool mark evidence/examination. Students acquire skills such as critical thinking, writing, expert testimony, and analysis techniques specifically tailored for forensic investigation fieldwork. This emphasis provides students with the overall professional skills, work ethic, and demeanor required of forensic investigators.

Total Program Credits: 125

Matriculation Requirements:

1. Completion of all general education courses.
2. Completion of all lower division CJ courses with a B- grade or higher.
3. Completion of MATH 1080 (or MATH 1050 and MATH 1060), BIOL 1610, BIOL 1615, CHEM 1210, CHEM 1215, CHEM 1220, 1225, PHYS 2010, PHYS 2015 with a B- or grade or higher.
4. Overall GPA of 2.7 or higher.
5. Application for admission to BS Forensic Science program.

6. Two academic letters of recommendation

Any Upper Division CJ Course or Approved Elective

Notes:

1. COMM 1020 Public Speaking Recommended
2. ART 1050 Photography I Recommended

Graduation Requirements:

1. Completion of a minimum of 125 or more semester credits 40 credits of which must be upper division.
2. A minimum grade of B- or higher is required in all Math, Chemistry, Biology, Physics, and FSCI Courses with an overall GPA of 3.0 to graduate.
3. Residency hours: minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Successful completion of at least one Global/Intercultural course.
6. Successful completion of at least two Writing Enriched courses.

Forensic Science - Forensic Investigation Emphasis, B.S.

Careers

1. Conduct proper crime scene documentation procedures, which include note taking, sketching, photography, crime scene reporting.
2. Identify physical evidence commonly encountered at crime scenes using various techniques from visual identification, alternate light source, and chemical enhancements.
4. Analyze legal aspects as they pertain to forensic investigative work.
5. Evaluate basic to complex crime scenes critically.
6. Employ any reconstruction techniques such as bloodstain pattern analysis or shooting incident scene analysis.
7. Evaluate proper approaches/techniques for death investigations.
8. Analyze and correlate trauma to investigative planning and coordination between other agencies and the medical examiner systems.
9. Describe qualifications, requirements, professional practices and ethical skills needed of the forensic expert.

Related Careers

- Forensic Science Technicians
- Criminal Justice and Law Enforcement Teachers, Postsecondary

Forensic Science - Forensic Laboratory Emphasis, B.S.

Requirements

The Forensic Laboratory Emphasis within the BS in Forensic Science provides students with a comprehensive science-based undergraduate education, which enables students to enter into a forensic science career. This emphasis provides the necessary technical and theoretical knowledge, skills, and abilities of modern forensic techniques. Students employ the theoretical and practical principles of chemistry, biology,
physics, and mathematics in order to perform forensic science work commonly conducted within a crime laboratory. Science-based study and application of these principles expose students to a stimulating academic environment conducive to scholarly inquiry. Students gain the knowledge and ability for research-based projects and for potential improvement of the forensic community. Throughout this program, students utilize effective written and oral communication skills required of forensic experts, as well as demonstrate work ethic, professional demeanor, reliability, and proper interpersonal skills.

**Total Program Credits: 126**

**National Security Studies, B.A.**

**Requirements**

The BA/BS in National Security Studies (NSS) will provide an interdisciplinary program that prepares students for public and private sector national security careers through acquisition of subject matter expertise and analytical skills. This baccalaureate degree program will expose students to the wide variety of critically important security challenges and issues faced in the twenty-first century such as: terrorism and cyber security, nuclear proliferation and weapons of mass destruction, piracy and global pandemics, sovereignty and the use of force, and civil liberties and the rule of law. Students will also acquire skills such as critical thinking, writing, briefing, and analysis techniques specifically tailored for the national security field, but applicable in many others. Whether students are interested in counterterrorism, homeland security, intelligence gathering and analysis, foreign relations, law and politics, diplomacy, or international development, the NSS BA/BS will provide insight and skills needed to succeed in these professions.

Degrees & Programs

Culinary Arts, A.A.S.

Requirements

The Culinary Arts Institute (CAI) at UVU provides premier training for students interested in a career in professional cooking or baking. The program offers small, hands-on classes, focusing on individualized attention and development. The Culinary Arts Institute provides experience, through “engage” industry based learning.

The Culinary Arts Institutes comprehensive course of study covers several service areas; including not only learning how to cook and bake, but key requirement to success such as; customer service, business and finance management, marketing and advertising. CAI students learn how to apply these skills to a variety of food service establishments and operations. The practical and theoretical instruction covers such areas as food service safety and sanitation, professional dining room service, menu planning, nutrition and purchasing-storeroom management procedures.

While studying Culinary Arts at UVU, students gain a solid understanding of the food and beverage industry and learn the newest techniques in food and baking production using state-of-the-art equipment in our kitchen labs. The CAI also applies real world training as students run, full service, fine dining operations at Restaurant Forte, located in the UCCU Center and the Canyon Park Café located the Culinary Arts Institute in North Orem. These industry based learning models allow students to work with a wide range of foods while directly interacting with the public. In order to get the full breadth of running their own food service establishment, students work in a variety of functions including waiting tables, purchasing, preparing food, hosting, and supervising as the head chef.

Total Program Credits: 63

Matriculation Requirements:

1. Completion of the following courses with a grade of C- or better. CA 1160 Culinary Math; CA 1490 Food Service Sanitation (including current ServSafe certification); MAT 0990 Introductory Algebra; ENGH 1005 Literacies and Composition Across Contexts CC or ENGL 1010 Introduction to Academic Writing CC.
2. Acceptance into the Culinary Arts Institute by completion of application process (see Advisor for specific details).
3. Overall GPA: 2.0 or better.

HAMDAN, Basil Associate Professor

Course Descriptions

Information Technology

Elective Requirements:
Choose 9 credits from the following:
- IT 6660 Advanced Network Forensics (3.0)
- IT 6750 Reverse Engineering and Malware Analysis (3.0)
- IT 6780 Secure Coding (3.0)
- INFO 6420 Web and Mobile Application Security (3.0)

or other departmental approved electives

Graduation Requirements:
1. Complete all courses with a grade of B- or better with an overall GPA of 3.0 or higher.
2. Courses must be finished within a five-year period. No courses will apply toward graduation that are older than five years.

Cybersecurity, M.S.

Careers

- Computer and Information Systems Managers
- Information Security Analysts
- Database Administrators
- Network and Computer Systems Administrators
- Computer Network Architects
- Computer Network Support Specialists

Related Careers

Requirements

The Master of Science in Cybersecurity is intended for individuals who desire to acquire additional cybersecurity knowledge, skills, and abilities in order to pursue new or advance existing careers in cybersecurity. The program is also designed for individuals who plan to pursue doctorate degrees in cybersecurity or related fields. The program focuses on the managerial and technical perspectives of cybersecurity through extensive use of case-studies and hands-on lab exercises.

Total Program Credits: 30

Matriculation Requirements:
1. Bachelor's degree with a GPA of at least 3.2 on a 4.0 scale from an accredited institution in one of the following fields: (Applicants who have bachelor's degrees in other fields may be admitted to the program if they have at least two years of technology or cybersecurity industry experience and have completed undergraduate courses in data communication, programming, and server administration with a grade of C+ or better. Students may also take a comprehensive exam on these topics to satisfy this admission requirement. These applications will be handled on a case-by-case basis.)
   a. Information Systems
   b. Information Security
   c. Information Technology
   d. Computer Science
2. Admission essay.
3. Completed application for admission.
4. Official transcripts from all attended institutions of higher education.
5. Two letters of recommendation

Degrees & Programs

Dance, A.S.

Requirements

The Associate of Science in Dance is a two-year pre-major degree that provides students with basic foundational knowledge and skills in dance. Students are engaged in an array of courses to include Modern/Contemporary Dance, Ballet, and Jazz technique, improvisation, composition, dance conditioning, and somatic studies. Students pursuing the Bachelor degrees will also fulfill the requirements of the AS degree and are eligible to apply for it at graduation.

Ballroom Dance, Certificate of Proficiency

Careers
1. Perform ballroom dance figures using proper technique.
2. Perform ballroom dance choreography with artistry.
3. Teach ballroom dance with proficiency.
4. Create choreographic works demonstrating skill in the choreographic principles.

Dance - Ballet Emphasis, B.F.A.

Requirements
The BFA in Dance with an emphasis in Ballet at Utah Valley University offers a rigorous program grounded in technique, performance, and choreography that is approached through a historical, somatic, scientific, and theoretical lens. The common core curriculum provides a broad knowledge base that supports the Ballet Program's specialized courses. Performance opportunities include- Repertory Ballet Ensemble (RBE), a pre-professional performing ensemble that has earned a notable reputation for their presentation of classical and contemporary choreography, Utah Metropolitan Ballet (UMB) a professional ballet
Dance company in residence at UVU, and Senior Capstone concerts, which culminates students' learning. The UVU Ballet Program provides ongoing opportunities for students to work with national and international guest artists. In addition, opportunities exist for students to participate in academic conferences and regional festivals, such as the American College Dance Association Conference, the Utah Conference of Undergraduate Research and the National Conference of Undergraduate Research.

**Total Program Credits: 120**

**Matriculation Requirements:**

1. Completion DANC 2110 Orientation to Dance FF, and DANC 2330 Improvisation with B- or higher.
   a. Ballet emphasis: Completion of DANC 227R Ballet Technique II (2 semesters), with a grade of B- or higher.
   b. Modern emphasis: Completion of DANC 143R Modern/Contemporary Dance Technique and Theory I/Semester I and DANC 144R Modern/Contemporary Dance Technique and Theory I/Semester II with a B- or higher.
2. Pass audition, interview, and portfolio review with faculty members.
3. Cumulative GPA of 2.75 or higher.

- Dancers
- Choreographers

Dance - Ballroom Dance Emphasis, B.S.

Requirements
The Utah Valley Ballroom Program promotes access and appreciation for ballroom dance through its courses, performances, and outreach. Majors and non-majors alike are integrated in the courses and performances which creates a vibrant learning environment. The BS in Dance with an emphasis in Ballroom Dance degree program offers students the potential of having a broad foundation in dance, provided by the core class requirements, with a specialization in the technique, and performance skills in Ballroom Dance. Specialized course offerings include International, Latin, and American styles of ballroom dance as well as choreography, ballet styles, and pedagogy. Performance opportunities include the Ballroom Company comprised of the Ballroom Tour Team, the Back-up Ballroom Team, the Beginning Team and Capstone Concerts. Students have the opportunity to compete in regional, national and international competitions as solo group and as a team, participate in national and/or international touring.

Total Program Credits: 120

Matriculation Requirements:
1. Completion of DANC 270R American Social Dance II, DANC 271R International Ballroom Dance II, DANC 272R Latin Ballroom Dance II, DANC 2110 Orientation to Dance FF, and DANC 2330 Improvisation with a grade of B- or better.
2. Pass audition, interview, and portfolio review with faculty members.
3. Cumulative G.P.A. of 2.75 or higher.

- Choreographers

Dance - Modern Dance Emphasis, B.F.A.

**Requirements**

The Modern/Contemporary Dance Program in UVU’s Department of Dance is a rigorous program that provides dance training for BFA students with a strong foundation in technique and choreography. This daily physical practice merges with serious scholarly study of dance in its historical, somatic, theoretical, scientific, pedagogical, and cultural contexts. The rigorous course study of the BFA in Modern/Contemporary Dance prepares the next generation of dance artists and scholars for myriad career opportunities. The Modern/Contemporary Dance Program provides opportunities for students to work with nationally and internationally recognized guest artists on a yearly basis, to participate in study abroad programs, and to work alongside faculty mentors in scholarly and creative research.

Performance opportunities include Contemporary Dance Ensemble (CDE) a pre-professional level modern dance company and upper division course; Synergy Dance Company, which produces student and guest artists work in concert; and Senior Capstone Concerts. The Modern/Contemporary Program participates annually in the American College Dance Association conference and has been selected to perform at the national festival held at the Kennedy Center for the Performing Arts in Washington D.C. Dance majors also participate in several academic conferences and regional festivals including the Utah Conference of Undergraduate Research and the National Conference of Undergraduate Research.

Students graduating from the UVU Modern/Contemporary Dance Program are prepared to enter the world as artists, teachers, performers, choreographers, critical thinkers, problem solvers, and engaged human beings.

**Total Program Credits: 120**

Dance Education, B.S.

Requirements

The Dance Education program is dedicated in preparing students to teach, create, and perform dance at the highest level. Students participate in a rigorous Bachelor’s of Science degree program focusing on developing exceptional dance artists and outstanding dance teachers dedicated to the art, craft, creativity, and teaching of dance. Students are encouraged to participate in the dance and education communities through guest artist, workshops, and conferences (regional, national, and international). Rigorous coursework includes various dance techniques, choreography, performance, dance history, world dance, kinesiology, somatic studies, pedagogy, music and production. Students receive their secondary certification with an option to receive their elementary endorsement in dance. Dance Education majors have numerous career options. to include the public and private school settings, private studios, community centers, and higher education. Students are able to pursue both the BFA in Modern/Contemporary Dance and a BS in Dance Education.

Performance opportunities include Contemporary Dance Ensemble (CDE) a pre-professional level modern dance company and upper division course; Synergy Dance Company, which produces student and guest artists work in concert; and Senior Capstone Concerts. The Dance Education Program participates annually in the festival of the American College Dance Association, and has been selected to perform at the national festival held at the Kennedy Center for the Performing Arts in Washington D.C. In addition, it also participates in several academic conferences and regional festivals including the Utah
Dance Conference of Undergraduate Research and the National Conference of Undergraduate Research.

**Education Courses:** Must be completed with a grade of B- or higher.
### Dance Education, B.S.

**Careers**

1. Perform dance with artistry demonstrating an intermediate/advanced level technical competency.
2. Create choreographic works of artistic merit and personal voice demonstrating skills in choreographic elements, principles, and structures of dance.
3. Integrate diverse theoretical dance knowledge and skills in the writing, performance, and creation of dance.
4. Write articulately using dance language demonstrating perceptive, reflective, and analytical knowledge and skills.
5. Demonstrate proficiency in writing and teaching of unit and lesson plans in the public schools.
6. Demonstrate proficient skills and knowledge necessary to create a vibrant and artistic secondary dance program based on state and national standards.

**Related Careers**

- Art, Drama, and Music Teachers, Postsecondary
- Dancers
- Choreographers

---

### Graduation Requirements:

1. Completion of a minimum of 125 semester credits, a minimum of 40 credits must be upper division.
2. Overall Grade of 3.0 (B) or above with no grade lower than a C or better in major required content courses and no grade lower than a B- in Licensure and Methods courses.
3. Residency hours: minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Successful completion of at least one Global/Intercultural course.

Degrees & Programs

Digital Audio, A.A.S.

Requirements

The UVU AAS in Digital Audio is a powerful gateway into the fascinating world of album recording and mixing, location and post-production sound for film and video, audio restoration and forensics, live sound, radio production, gaming, and audio hardware and software design. Students will use industry-leading equipment including SSL, Audient, AVID ProTools, Universal Audio, Neumann, Waves, Tube Tech, AKG, and many others. By graduation, each student will have produced and engineered numerous music, ADR, Foley, and sound effects sessions, including professional-level mixes; will have their choice of many other areas of audio expertise; and will be professional employment-ready.

3. Students must have a minimum AGGREGATE GPA of 2.0 (C letter grade) or higher (including core, electives, and GE)
4. Students must have an individual GPA in EACH CORE COURSE in the Audio AAS program of 2.5 (B minus) or higher.

Digital Audio, A.A.S.

Careers

1. Calculate answers to practical audio math problems using formulas and principles of physics.
2. Choose and place microphones correctly for a broad range of recording applications.
3. Route electronic connections for proper signal flow to maximize clean audio and eliminate noise.
4. Connect audio components correctly, accounting for level, impedance, and format.
5. Route signal paths in the digital domain to properly insert digital signal processors.
6. Set parameters on compression and EQ processing competently.
7. Implement level and pan settings for effective audio mixing and outputs.

**Digital Cinema Production, A.A.S.**

**Requirements**
Digital cinema is the design, development, and delivery of digital cinema content through the process of pre-production, production, and post-production. The curriculum integrates digital cinema mediums to entertain, educate, and communicate ideas and information. This program provides motivated and dedicated students the opportunity to work with professionally active faculty members committed to the future of digital disciplines. The Associate of Applied Science in Digital Cinema will provide students with employable skills and a pathway to further education.

2. Overall grade point average of 2.0 (C) or above.
3. Residency hours -- minimum of 4 credit hours through course attendance at UVU.

Digital Cinema, Certificate of Proficiency

Careers

1. PRODUCTION: Student is able to implement the processes, strategies, and protocols required for the production and creation of filmed media content, from entry level (production assistant) to advanced (producer and production manager), based on standard industry practices.
2. DIRECTION: Student is able to fill the role of the director in creating and executing the aesthetic look and shooting plan of a screenplay in collaboration with department heads, actors, key crew members, and the post production team.
3. STORYTELLING: Student is able to implement their understanding of the psychological foundations of how storytelling functions through various technologies, how to apply the storytelling principles to create effective communication using a variety of media and in a variety of key production roles including producer, director, writer and editor.
4. CINEMATOGRAPHY: Student is able to perform the role of the cinematographer as technician, manager and storyteller and has acquired hands-on skills with grip, electric and camera equipment, and understands how these skills are applied to workflows in pre-production, principle photography and post-production.
5. EDITING: Student can carry out applied learning activities focused on the post production process for digital media productions (documentaries, narrative, short format and corporate industrial).
6. POST-PRODUCTION: Student understands and shows practical skills for the post workflows from asset management through final project delivery including client/director collaboration, technical and aesthetic editing skills, mastery of software tools, color correction and delivery of the product in required industry standard formats.

Graduation Requirements:

1. Completion of a minimum of 16 semester credits.
2. Overall grade point average of 2.5 or above.
3. All DGM courses must be completed with grade ‘C’ or higher.
4. Residency hours—minimum of 5 credit hours through course attendance at UVU.

Digital Media, Certificate of Proficiency

Careers

1. Develop critical thinking skills to solve industry-related problems.

2. Describe the industry opportunities for Digital Media.
3. Create media for use in an introductory level project.
4. Produce a introductory level project using current industry tools.

Digital Media, Minor

Requirements

Digital Media (DGM) fuses both fundamental theory and practical application in the production of electronically-generated content to be delivered via internet, radio and television, digital cinema, computer games, animation and cinematic visual effects, as well as for emerging technologies such as mobile computing (hand-held computing devices). The curriculum integrates these digital mediums to entertain, educate, and communicate ideas through meaningful human interaction. DGM provides motivated and dedicated students the opportunity to work closely with professionally active faculty members committed to the future of the digital disciplines. Students in Digital Media may earn either a Certificate of Proficiency in Digital Cinema, Associate in Applied Science Degree, or a Bachelor of Science Degree. Areas of emphasis include: Digital Communication Technology, Audio Production, Digital Motion Picture Production, Gaming and Animation, Internet Technologies.

Graduation Requirements:

1. Overall grade point average of 2.5 GPA in all discipline core and elective courses with no grade lower than a C-.
2. Completion of GE and specified departmental requirements. Students are responsible for completing all prerequisite courses.

Digital Media, Minor

Careers

1. Demonstrate a strong familiarity and proficiency with professional software for video editing, audio production and editing, basic animation, and web development.
2. Demonstrate understanding and competency with the production pipeline of at least two of the following: Digital Cinema Production, Digital Audio Production, Web & App Development, and Animation.
3. Demonstrate mastery over media file formats, conversion protocols, and storage frameworks.
4. Use critical thinking skills to solve industry-related problems on real world projects and in collaboration with other students.
5. Carry out applied learning activities focused on the production and post production process for digital media productions.

Writing for Entertainment Media, Minor

Requirements

Students take the full advanced writing curriculum currently offered in the Digital Cinema Program, allowing non-majors to gain a credential in writing storytelling scripts for a variety of media without having to take the full Digital Cinema curriculum.

Total Program Credits: 24

Matriculation Requirements:

1. Admitted to a bachelor degree program at UVU.
2. Cinema Portfolio Review acceptance OR Writing for Entertainment Minor acceptance and University Advanced Standing.

Discipline Core Requirements: 24 Credits

Graduation Requirements:

Writing for Entertainment Media, Minor

Careers

1. Students learn the technical aspects of creating scripts for professional media productions, including script formatting, writing for camera, audio and other technical elements in order to create scripts that are easily producible in a professional production.
2. Students learn Film Production Analysis to enable them to understand storytelling principles of structure, character development, audience involvement and how different types of stories vary.
3. Students learn story editing, allowing them to be able to analyze scripts written by other writers, identify storytelling strengths and challenges, and work with other writers on improving their scripts, as well as being able to apply the same analytical tools to their own work.

4. Students graduate having completed a full long-form media script (i.e. a storytelling media experience requiring a minimum of 45 minutes), which can serve as a strong entree into the world of professional media writing.
5. Students gain knowledge of the business and economic aspects of professional media writing.

Animation and Game Development, B.S.

Requirements

The BS in Animation and Game Development focuses on contemporary, industry-standard, and technology oriented processes and procedures.

Total Program Credits: 120

Matriculation Requirements:

1. Portfolio review acceptance:
   a. After completing first-year courses students may submit a portfolio to one of three Animation and Game Development Tracks. Students are accepted for matriculation into their chosen track based on the quality of work found in their portfolio. A student may only apply twice for program matriculation.
   b. Acceptance criteria varies for the three academic tracks available. Please meet with an academic advisor to learn more.

Animation and Game Development, B.S.

CAREERS
1. Demonstrate competent application of the Principles of Animation.
2. Rig bipedal and quadrupedal characters for animation and/or interactive titles.
3. Create hybrid (2D and 3D) assets (layouts, backgrounds, characters, props, lights, cameras, scripting, and effects) for film, games, and/or simulations.
4. Composite and render constructed assets into unified scenes.
5. Contribute in a team setting, i.e. plan, schedule, follow through, and communicate, to produce and submit a capstone title demonstrating competent understanding of the animation discipline.

Digital Cinema Production, B.S.

Requirements

The BS degrees in Digital Cinema Production trains students in the development, production, and post-production process of filmed media content for a variety of platforms. Using a hands-on, practical approach, students learn the tools, equipment, technologies, software, and protocols that are used on sets and post-production facilities, large and small, throughout the world. The curriculum focuses on character driven stories and how to use emerging digital technologies to enhance storytelling. Advanced students can choose to focus their study on different skill-sets within the digital cinema production process including, but not limited to, directing for digital cinema, writing for digital cinema, cinematography, production, post-production, documentary, and sports broadcasting.

Digital Audio, B.S.

Careers

1. Demonstrate in practicum a thorough knowledge of foundational principles of acoustics, math, signal processing, and all their practical counterparts.
2. Show proficiency in choosing and using appropriate microphones, preamplifiers, and other equipment to record sound in the most accurate and effective way for the application at hand.
3. Produce both technically competent and emotionally powerful mixes of recorded media using the signal processing algorithms and devices listed in item four, below.
4. Demonstrate both technical and artistic command of all signal processors, including, without limitation, equalization, compression, expansion, gate, synthetic and IR reverberation, delay lines, chorus, phase shifting, flange, distortion and harmonic generation, and restoration and forensic processors such as noise recognition and cleaning, de-clicking, hiss removal, and utility processors such as file compression algorithms and format conversion tools.
5. Build a portfolio of recordings and mixes involving a broad range of non-musical subjects as well as a broad range of musical styles.
6. Demonstrate full competency in multimedia collaboration, including film and television production and post-production audio.
7. Show a competent understanding of room and space acoustics, including formal and informal ways of treating a recording or mixing environment to increase sonic accuracy and eliminate standing waves and frequency nulls.
8. Demonstrate an ongoing understanding of the current professional equipment of the audio industry, including both outboard and foundational gear, and also “in the box” solutions for the all-digital environment.
9. Have advanced proficiency in either audio mastering or audio restoration and forensics.

Digital Cinema Production, B.S.

Careers

1. Technical – students will understand the use of camera, camera menus, electrical lighting, natural lighting, editing, color correction, audio recording, data management, and scheduling and budgeting software in order to be successfully handle the requirements of entry-level positions within the industry that require this technical knowledge.
2. Communicative – students will understand the structure, technique, format and style of contemporary storytelling for filmed media content, as well as the software used to create it. They will be able to write and express complex ideas using industry standard formatting that present story, visualization, camera angles, lighting designs, character development, and production design.
3. Leadership – students will understand film set protocol and film set culture and will be able to lead and train others in proper performance on filmed media industry sites. They will understand expectations and requirements of union regulated production standards and be able to adhere to them and train others in these standards.
4. Aesthetic – students will understand the aesthetic side of filmed media design, composition and color theory and how these elements are created using cameras, software, and source design.

Graduation Requirements:
1. Completion of a minimum of 60 semester credits.
2. Overall grade point average of 2.0 (C) or above (departments may require a higher GPA).
3. Residency hours: minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.

Physical Science, A.S.

Careers

- Natural Sciences Managers
- Secondary School Teachers, Except Special and Career/Technical Education

Geographic Information Systems, Certificate of Proficiency

Requirements

The Certificate of Proficiency in Geographic Information Systems (GIS) provides students with a focused program of study in the fundamentals required to succeed in a wide range of careers in geospatial science. GIS includes the hardware, software, and data required to capture, store, display, and analyze geographically referenced information. Students in the certificate program learn the theory and methodology of geospatial data collection, storage and management, interpretation, and visualization through courses in cartography, remote sensing, GIS theory and applications, and geospatial field methods. In directed class projects students apply geospatial data techniques to real-world problems while gaining firsthand experience in project design and management.

Total Program Credits: 19

Discipline Core Requirements: 19 Credits

Complete 6 credits from the following courses:  6
   CS 1400  Fundamentals of Programming (3.0)
   GEOG 482R  GIS Internship (1-3)
   GEOG 489R  Student Research in Geography (1-4)
   GIS 3630  Geographic Information Systems Application Development (3.0)
   SURV 1340  Fundamentals of Boundary Law (3.0)
   SURV 2030  Geodesy (3.0)
   SURV 3210  Advanced Photogrammetry (3.0)
   EGDT 1040  Fundamentals of Technical Engineering Drawing (3.0)
   Or any courses with the following prefix: GEOG, SURV, GIS, EGDT subject to department approval

Graduation Requirements:
1. Grade of C- or higher in all courses used to satisfy requirements of the certificate.

Footnotes:
*Earth Science majors are encouraged to take GEOG 3400

Geographic Information Systems, Certificate of Proficiency
Careers

1. Prior to graduation, our students will develop the necessary technical knowledge in Earth system science, geology, environmental science and management, geoscience education and geography, as well as underlying foundational and interdisciplinary sciences including physics, chemistry, biology, and mathematics to succeed in professional careers related to their degree programs or in associated graduate programs.
2. Students will demonstrate effective oral and written communication skills that will enable them to succeed at presenting and publishing scientific data and reports.
3. Our students will develop skills to critically evaluate scientific questions and address those questions using both logical, laboratory, geospatial, and other creative approaches.
4. Our students will graduate with knowledge of the relevant agencies (e.g., EPA, BLM, USGS, UGS, etc.) and the associated laws and regulations relevant to their field of study.
5. Our students will graduate with sufficient knowledge of the breadth of career opportunities available to them that they can obtain career satisfaction. Additionally, they will know of the primary responsibilities and the expectations of them within their chosen professional track such that they are successful in the eyes of their employer(s).

- Cartographers and Photogrammetrists
- Geography Teachers, Postsecondary

Water and Wastewater Operations, Certificate of Completion

Requirements
The Certificate of Completion in Water and Wastewater Operations provides students with a focused program of study in the fundamentals required to succeed in a wide range of careers in water and wastewater treatment. Water and Wastewater Operations includes the equipment, biological principles, and chemical principles needed to produce water that is safe and pleasant to drink and reclaimed wastewater that is safe and beneficial to release into the environment. Students in the certificate program learn the theory and methodology of water purification through courses in environmental microbiology, the hydraulics of water, drinking water treatment and water reclamation. In classroom discussions, field trips, and lab exercises students apply principles of biology and chemistry to real-world problems while gaining experience in the techniques they will use in a typical treatment plant.

Total Program Credits: 30

Discipline Core Requirements:  24 Credits
   ENGL 1010  Introduction to Academic Writing CC  3
   or ENGH 1005  Literacies and Composition Across Contexts CC (5)
   MATH 1050  College Algebra QL  4
   ENVT 1200  Environmental Worker Safety  3
   CHEM 1210  Principles of Chemistry I PP  4
   CHEM 1215  Principles of Chemistry I Laboratory  1
   ENVT 1270  Environmental Microbiology  3
   ENVT 1300  Environmental Lab and Sampling  2
   ENVT 3210  Water Quality and Reclamation  4

Elective Requirements:  6 Credits
Complete two of the following courses:  6
   ENVT 1310  Hazardous Materials Emergency Response (3)
   ENV 3280  Environmental Law (3)
   ENV 2560  Environmental Health (3)
   ENV 3010  Environmental Toxicology (3)

   ENV 3330  Water Resources Management (3)
   ENV 3790  Applied Hydrology WE (4)
   ENV 3850  Environmental Policy WE (3)

Graduation Requirements:
1. Completion of a minimum of 31 credits.
2. Overall grade point average of 2.0 (C) or above.
3. Residency hours -- Minimum of 10 credits required through course attendance at UVU.

Water and Wastewater Operations, Certificate of Completion
Careers

1. With completion of this certificate, our students will develop the necessary technical knowledge to work in fields related to water delivery and treatment and to attain and maintain professional certification related to this career field.
Related Careers

- Water and Wastewater Treatment Plant and System Operators

Earth Science, Minor

Requirements
The Minor in Earth Science can be combined with other university-wide bachelor's degrees. The minor provides students with broad academic knowledge of foundational scientific principles in this field of study. In addition to taking introductory lecture and lab courses in geology (4 credits) students will complete at least two lower division earth science courses (7 credits) and three upper division earth science courses (10 credits). Students can choose to specialize their minor with up to three classes in weather and climate, or a series of classes in geology and geochemistry, or a series of courses that focus on earth surface processes and hazards geology, or they can choose to take a very broad range of courses spanning topics such as environmental science, meteorology, oceanography, paleontology and Earth history, tectonics and others.

Graduation Requirements

1. Grade of C- or higher in all courses used to satisfy requirements of the minor.

Earth Science, Minor

Careers

1. Knowledge of at least two of the core fields of earth science, including petrology, mineralogy, sedimentology, paleontology, structural geology, engineering geology, hydrology, climatology, and meteorology.
2. Ability to communicate effectively both verbally and in writing.

Related Careers

- Natural Sciences Managers
- Geoscientists, Except Hydrologists and Geographers
Environmental Science and Management, Minor

**Requirements**

Environmental science is the study of the Earth's surface, including its water and atmosphere, with a particular focus on their relationship to humans and other living things. Environmental science applies chemistry, physics, mathematics, and biology to answer questions about the Earth and its interrelationships with living things. Environmental management focuses on the maintenance of environmental resources, for example water resources. Environmental scientists may conduct studies in the field, in the laboratory using advanced analytical equipment, and in the office using specialized computer software. The program is preparation for a variety of career paths, including water monitoring, treatment, and pollution control with local, state, or federal agencies; environmental consulting with private industry; and other careers that draw on a background in the natural sciences, including law, public policy, and public health.

Graduation Requirements:

1. Grade of C- or higher in all courses used to satisfy requirements of the minor.

Geography, Minor Careers

1. Technical Knowledge: Prior to graduation, our students will develop the necessary technical knowledge in Earth systems and geography, as well as underlying foundational and interdisciplinary sciences including physics, chemistry, biology, and mathematics to succeed in professional careers related to their degree programs or in associated graduate programs.

2. Skill in oral and written communication: Our students will demonstrate effective oral and written communication skills that will enable them to succeed at presenting and publishing scientific data and reports. This includes orally presenting the results of research to technical and non-technical audiences and writing technical and non-technical reports based upon original research and reviews of other literature and reports.

3. Skill in problem solving and reasoning: Our students will develop skills to critically evaluate scientific questions and address those questions using both logical, laboratory, geospatial, and other creative approaches.

4. Knowledge of agencies, laws, and regulations: Our students will graduate with knowledge of the relevant agencies (e.g., EPA, BLM, USGS, UGS, etc.) and the associated laws and regulations relevant to their field of study. Their knowledge will be sufficiently deep that they understand where and how to seek additional information to further educate themselves and conduct their work with accordance to all agencies, laws, and regulations.

5. Knowledge of Professional Options and Responsibilities: Our students will graduate with sufficient knowledge of the breadth of career opportunities available to them that they can obtain career satisfaction. Additionally, they will know of the primary responsibilities and the expectations of them within their chosen professional track such that they are successful in the eyes of their employer(s).

Earth Science Education, B.S.

**Requirements**
Earth Science is the study of the Earth, including its water and atmosphere, and their relationship to humans and other living things. Earth Science applies chemistry, physics, mathematics and biology to scientific problems of the Earth. The Earth Science Education program prepares students to receive a Utah State teaching credential with an endorsement in Earth Science. Through careful choice of courses, students may also earn endorsements in the other physical sciences.

**Total Program Credits: 121**

**Graduation Requirements:**
1. Completion of a minimum of 121 semester credits.
2. Overall GPA of 3.0 (B) or above with no grade lower than a C in major required content courses and no grade lower than a B- in
License and Methods courses. (Departments may require a higher GPA.)
3. Residency hours -- minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.
5. Grade of C or higher in all GEO, BIOL, and METO courses.
6. Successful completion of at least one Global/Intercultural course.

Note: *This requirement is fulfilled with the core requirements.

Earth Science Education, B.S.

Careers

1. Prior to graduation, our students will develop the necessary technical knowledge in Earth Science Education, as well as underlying foundational and interdisciplinary sciences including physics, chemistry, biology, and mathematics to succeed in a professional career related to their degree programs or in associated graduate programs.
2. Our students will demonstrate effective oral and written communication skills that will enable them to succeed at presenting and publishing scientific data and reports and presenting content matter to students as educators. This includes orally presenting the results of research to technical and non-technical audiences and writing technical and non-technical reports based on original research and reviews of other literature and reports.
3. Our students will develop skills to critically evaluate scientific literature and scientific problems, identify existing and new scientific questions, and address those questions using both logical, laboratory, geospatial, and other creative approaches applied to classroom teaching.
4. Our students will graduate with knowledge of the relevant agencies (e.g., NAGT, NAME, USDE, EPA, BLM, USGS, UGS, etc.) and the associated standards, laws, and regulations relevant to the field of education and earth science. Their knowledge will be sufficiently deep that they understand whereand how to seek additional information to further educate themselves and conduct their work with accordance to all agencies, standards, laws, and regulations.
5. Our students will graduate with sufficient knowledge of the breadth of career opportunities available to them that they can obtain career satisfaction. Additionally, they will know of their primary responsibilities and the expectations of them within their chosen professional track such that they are successful in the eyes of their employer(s).

Environmental Science and Management, B.S.

Requirements
Environmental Science is the study of the Earth’s surface, including its water and atmosphere, with a particular focus on their relationship to humans and other living things. Environmental Science applies chemistry, physics, mathematics, geography, biology and geology to answer questions about the Earth and its interrelationships with living things. Environmental Management focuses on the maintenance of environmental resources, for example the management of water resources, geological resources, or air quality. Environmental scientists may conduct studies in the field, in the laboratory using advanced analytical equipment, and in the office using specialized computer software. The program is preparation for a variety of career paths, including water monitoring, treatment, and pollution control with local, state or federal agencies; environmental and hydrological consulting with private industry; and other careers that draw on a background in the natural sciences, including law, public policy, and public health.

Notes:
1. You need at least 40 hours of upper division credit to graduate. Work with your advisor to make sure you are meeting the 40 credits of upper division requirement.

Graduation Requirements:
1. Completion of a minimum of 120 semester credits with a minimum of 40 upper-division credits.
2. Overall grade point average of 2.0 (C) or above.
3. Grade of C- or better in core curriculum courses.
4. Successful completion of at least one Global/Intercultural course.
5. Successful completion of at least two Writing Enriched (WE) courses.

Environmental Studies, B.S.

Careers
1. Analyze the scientific underpinnings, social context, and political ramifications of key environmental challenges to design sustainable solutions.
2. Evaluate the links between social and natural systems to identify appropriate areas of intervention.
3. Critically assess environmental and sustainability programs, organizations, and reporting mechanisms to create new and/or revised programs, organizations, and reports.
4. Analyze key environmental challenges facing societies and their unevenly distributed impacts.
5. Influence policy outcomes using existing laws, regulations, stakeholders, and interesting groups relating to environmental issues.
6. Create compelling written, verbal, and graphic presentations of environment and sustainability issues.

Geography, B.S.

Requirements
Geography is the study of the earth’s places, peoples, environments and their interrelationships from both the physical and social science perspectives. Geographers use many different scientific tools to study the relationships between earth’s systems including geospatial technology and are employed in public agencies, local governments, federal offices, technology sectors, business planning, and careers related to spatial planning. The Bachelor of Science in Geography
Earth Science

provides students with a program of study in the fundamentals of geography and prepares them to succeed as geographers as well as in many other careers related to geography. Students learn theories and methods of analysis related to land use and land cover change, urbanization, sustainability, human-environment interactions, and Geographic Information Systems (GIS) technology through the core courses of the program. Through elective courses, students can choose to further focus their studies on physical sciences, social sciences, and/or geospatial techniques to meet their career goals.

**Graduation Requirements:**

1. Completion of a minimum of 120 semester credits, including 40 hours of upper-division credit.
2. Overall grade point average of 2.0 (C) or above.
3. Grade of C- or better in every ENV, GEO, GEOG, METO, and core curriculum course.
4. Residency hours—minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
5. Successful completion of at least one Global/Intercultural course.
6. Successful completion of at least two Writing Enriched (WE) courses.

Footnote

1 You need at least 40 hours of upper division credit to graduate. Work with your advisor to make sure you are meeting the 40 credits of upper division requirement.

2 Courses used for GE distribution credits cannot double count as core or elective classes.

**Geography, B.S.**

**Careers**

1. **Technical Knowledge:** Prior to graduation, our students will develop the necessary technical knowledge in Earth system science, geology, environmental science and management, geoscience education and geography, as well as underlying foundational and interdisciplinary sciences including physics, chemistry, biology, and mathematics to succeed in professional careers related to their degree programs or in associated graduate programs.

2. **Skill in oral and written communication:** Our students will demonstrate effective oral and written communication skills that will enable them to succeed at presenting and publishing scientific data and reports. This includes orally presenting the results of research to technical and non-technical audiences and writing technical and non-technical reports based upon original research and reviews of other literature and reports.

3. **Skill in problem solving and reasoning:** Our students will develop skills to critically evaluate scientific questions and address those questions using both logical, laboratory, geospatial, and other creative approaches.

4. **Knowledge of agencies, laws, and regulations:** Our students will graduate with knowledge of the relevant agencies (e.g., EPA, BLM, USGS, UGS, etc.) and the associated laws and regulations relevant to their field of study. Their knowledge will be sufficiently deep that they understand where and how to seek additional information to further educate themselves and conduct their work with accordance to all agencies, laws, and regulations.

5. **Knowledge of Professional Options and Responsibilities:** Our students will graduate with sufficient knowledge of the breadth of career opportunities available to them that they can obtain career satisfaction. Additionally, they will know of the primary responsibilities and the expectations of them within their chosen professional track such that they are successful in the eyes of their employer(s).

Geology, B.S.

Requirements
Geology is the study of the Earth, including its water and atmosphere, and its relationship to humans and other living things. Geology applies chemistry, physics, mathematics and biology to answer questions about the Earth. Geologists conduct studies in the field, in the laboratory using advanced analytical equipment, and in the office using specialized computer software. Geology is particularly focused on the Earth’s history, resources, hazards and resources including groundwater. Sub-disciplines of geology include economic geology, geochemistry, geologic hazards, geomorphology, hydrogeology, petrology, and tectonics. A B.S. in geology is preparation for a variety of career paths, including hazard assessment with government or private companies, ground and surface water monitoring and development, oil and gas, mining, and many other careers that draw on a background in the natural earth, including law, public policy, and public health; the program is also excellent preparation for graduate school.

Graduation Requirements:

- Pass all classes and supervision with a B- or higher (cumulative GPA of 3.0).
- Completion of a minimum of 26 semester credits.
- Residency hours -- minimum of 18 credit hours through course attendance at UVU.

Applied Behavior Analysis, Graduate Certificate Careers

1. Develop effective individual treatment plans
2. Ethical conduct in professional practice
3. Accurately assess behavioral issues in clients
4. Pass BCBA certification exam

Related Careers

- Instructional Coordinators

Educational Leadership, Graduate Certificate

Requirements

The Graduate Certificate for Educational Leadership in UVU's School of Education (SOE) is designed to align with the current Ed Leadership emphasis in the M.Ed. The certificate will meet the needs of candidates who have previously completed a master's degree (M.Ed) and now wish to prepare as potential administrative and instructional school leaders for Utah's schools. Curriculum for this option will be based on the standards for administrative/ supervisory endorsement from the Utah State Office of Education (USOE), and the Interstate School Leaders Licensure Consortium (ISLLC). The grad certificate program will be formatted to meet the needs of adult learners, with courses offered in the evenings and in blended and online formats, but will not require them to retake core courses previously completed. The administrative/ supervisory certificate will prepare leaders for 21st century schools in the areas of curriculum, instruction, and human resource administration. Course objectives will emphasize performance of school and classroom leadership functions, functional knowledge of local, state, and national educational agencies and regulations, demonstrated competencies in administrative skills, and applied understandings of current research around effective teaching, theories of learning, and educational policy. Candidates will be required to complete supervised internship work that is required by Utah code.

Total Program Credits: 21

Matriculation Requirements:

- Earned M.Ed. and acceptance into the program.

Master of Education - Educational Technology Emphasis, M.Ed.

Requirements
The Master of Education Degree (M.Ed.) at Utah Valley University is an applied master's program aimed at building the instructional skills and professional competency of teachers. Currently there are eleven emphases for participants: Applied Behavioral Analysis; Educational Leadership; Educational Technology; Elementary Mathematics; Elementary STEM, English as a Second Language (ESL), Gifted and Talented Education; Higher Education Leadership; Reading I, Secondary Teaching, and Teacher Leadership. The M.Ed. program emphasizes coursework that prepares teachers to become instructional leaders, with classes in advanced pedagogy, subject matter content, curriculum design, and assessment. Core coursework in research methods is required of participants in all options, however, students select a topic for a culminating project according to their interest or area of licensure in K-12 education.

Total Program Credits: 36

Matriculation Requirements:
1. Application for admission.
2. Bachelor degree from an accredited institution.
3. Overall grade point average in undergraduatework of 3.0 or higher or have a grade point average of 3.0 or higher for the last 60 semester hours of college or university credit.
4. Interview with School of Education Graduate Committee.
5. Three professional letters of recommendation.

Preference will be given to individuals who have at least one year of successful teaching experience in grades K-12. A one-year internship will count as the preferred year of successful teaching.

Preference will be given to practicing teachers who have access to an established classroom.

Discipline Core Requirements:  12 Credits

EDUC 6100  Research Methodology  3

**Requirements**

The Master of Education Degree (M.Ed.) at Utah Valley University is an applied master’s program aimed at building the instructional skills and professional competency of teachers. The Earned Endorsement Emphasis is for teachers who have previously earned an endorsement from the Utah State Board of Education (USBE). The following endorsements are accepted at UVU: Elementary Arts Integration, Elementary Mathematics, Elementary Science, Elementary STEM, English as a Second Language (ESL), Reading I, Gifted & Talented, and Educational Technology. Up to 12 (5000-level) credits from a recently completed endorsement may be applied toward the M.Ed. Please note - all applicable coursework from the endorsement must be completed within the three years prior to admission to the M.Ed. The M.Ed. program emphasizes coursework that prepares teachers to become instructional leaders, with classes in advanced pedagogy, subject matter content, curriculum design, and assessment. Core coursework in research methods is required of participants in all options, however, students select a topic for a culminating project according to their interest and endorsement area.

**Master of Education - Reading I Emphasis, M.Ed.**

**Requirements**

The Master of Education Degree (M.Ed.) at Utah Valley University is an applied master’s program aimed at building the instructional skills and professional competency of teachers. Currently there are eleven emphases for participants: Applied Behavioral Analysis; Educational Leadership; Educational Technology; Elementary Mathematics; Elementary STEM, English as a Second Language (ESL), Gifted and Talented Education, Higher Education Leadership, Reading I, and Teacher Leadership. The M.Ed. program emphasizes coursework that prepares teachers to become instructional leaders, with classes in advanced pedagogy, subject matter content, curriculum design and assessment. Core coursework in research methods is required of participants in all options, however, students select a topic for a culminating project according to their interest or area of licensure in K-12 education.

**Total Program Credits: 36**

---

1. Application for admission.
2. Bachelor degree from an accredited institution.
3. Overall grade point average in undergraduate work of 3.0 or higher or have a grade point average of 3.0 or higher for the last 60 semester hours of college or university credit.
4. Interview with School of Education Graduate Committee.
5. Three professional letters of recommendation.

Preference will be given to individuals who have at least one year of successful teaching experience in grades K-12. A one-year internship will count as the preferred year of successful teaching. Preference will be given to practicing teachers who have access to an established classroom.

**Discipline Core Requirements:** 12 Credits

**Matriculation Requirements:**

Requirements for admission to the Graduate Certificate in Secondary Teaching (GCST) program include the following:

1. Verification of a bachelor's degree from an accredited university in a recognized content major (or with equivalent coursework) in a discipline taught in Utah secondary schools and for which UVU can recommend a secondary teaching license. Any coursework required by the Utah State Board of Education (USBE) for a content major* must be completed with a grade of C or higher prior to admission into the GCST program.
2. A cumulative GPA of 3.0 or a GPA of 3.0 for the last 60 credits of university coursework.
3. Passing scores from the Praxis II [subject-area test(s)] as required by the USBE.
4. Successful completion of a background check through USBE.

* Students will have completed a content-specific methods course prior to admission into the program. These courses are not offered in the School of Education, but in the appropriate content areas across the University. The following courses would be examples.

- ART 3500 Secondary Art Education Methods I WE (3)
- ART 3510 Secondary Art Education Methods II WE (3)
- ENGL 4240 Grammar and Unit Design in the English Classroom (3)
- ENGL 4220 Teaching Reading and Literature (3)
- ENGL 4230 Teaching Writing (3)
- LANG 4200 Methods of Teaching a Foreign Language (3)
- SCIE 4220 Teaching Methods in Science II (3)

**Graduation Requirements:**

1. Completion of all required coursework, with a grade of B- or better.
2. Completion of the Teacher Performance Assessment, with a score of 42 or better.
3. Successful completion of student teaching or internship hours.
4. Residency hours -- minimum of 20 credit hours through course attendance at UVU.

**Education Graduate Programs**

**Graduation Requirements:**

1. Residency hours -- all courses must be taken at UVU.
2. Satisfactory completion of all coursework with a minimum 3.0 GPA.
3. All courses passed with a B- or higher.
4. Successfully complete all practicum and internship hours.
5. Complete a minimum of 51 credits.

**Master of Education in School Counseling, M.Ed. Careers**

1. Understand the history and development of school counseling including local and national school counseling models
2. Know the major theories regarding physical development through the lifespan
3. Develop competency in legal and ethical considerations specific to school counseling
4. Understand the purposes and theories of individual and group counseling
5. Implement interventions to promote college and career readiness
6. Recognize the various types of assessments specific to P-12 education
7. Use data to advocate for programs and students

**Secondary Teaching, Graduate Certificate Requirements**

The Graduate Certificate in Secondary Teaching is designed for individuals who have earned a bachelor's degree. They must have completed coursework in one of the teaching major subject areas for secondary education approved by the Utah State Board of Education (USBE) prior to admission into either program. The primary goal of the program will be to ensure that teacher candidates, through support, supervision, and evaluation, can demonstrate and apply the competencies required by the USBE for teacher licensure. Includes the basic coursework and field experiences required of all teacher candidates for an initial teaching license, ensuring that competencies in both subject knowledge and pedagogy are met.

**Total Program Credits:** 29

Degrees & Programs

Early Childhood Education, A.S.

Requirements

Individuals who earn an Associate Degree in Early Childhood Education are prepared to teach preschool in private and corporate centers, Head Start, and public education tuition preschools, or work as center directors. The Associate Degree in Early Childhood can be planned to fill the majority of the requirements for entry into the Elementary Education Program. The UVU Early Childhood Education program is accredited by the Northwest Commission on Colleges and Universities. The UVU Teacher Education Preschool is accredited by the National Association for the Education of Young Children.

## Early Childhood Education, A.S.

### Careers

1. Program graduates identify and conduct themselves as members of the early childhood profession.
2. Program graduates understand that successful early childhood education depends upon partnerships with children’s families and communities.
3. Program graduates understand that child observation, documentation, and other forms of assessment are central to the practice of all early childhood professionals.
4. Program graduates are grounded in a child development knowledge base.
5. Program graduates use their knowledge of academic disciplines to design, implement, and evaluate experiences that promote positive development and learning for each and every young child.
6. Program graduates understand that teaching and learning with young children is a complex enterprise, and its details vary depending on children's ages, characteristics, and the settings within which teaching and learning occur.

**Elementary Education, B.S.**

**Requirements**
The Professional Elementary Teacher Education Program at Utah Valley University is designed to prepare quality, entry level candidates for teaching in elementary education programs grades K-6. Students successfully completing the UVU professional teacher education program graduation and licensure requirements receive a baccalaureate degree in Elementary Education and a Level I Utah Professional Teaching License. To continue in the teacher education program, students are expected to maintain all program standards. They must maintain expected levels of competence in all coursework, field work, and student teaching with all course grades at or above a B- and a program GPA of 3.0 or higher higher. Additionally, teacher candidates are expected to adhere to standards of personal integrity, responsibility, and citizenship commonly expected of professional educators. The UVU teacher education program is accredited by the Association for Advancing Quality in Educator Preparation (AAQEP), the Utah State Office of Education, and the Northwest Commission on Colleges and Universities.

Paramedic, Certificate of Completion

Requirements

Our degree provides our students with the knowledge, skills, and abilities to assist them in obtaining a job in Emergency Services, or if already employed, to give them the knowledge, skills and abilities to advance in their careers.

Total Program Credits: 31

Matriculation Requirements:

1. Complete Anatomy and Physiology (transfer credit accepted) with a grade of C or higher: ZOOL 1090 (requires BIOL 1010 as a pre-reg) or ZOOL 2320 and 2420 with labs (requires BIOL 1610 and CHEM 1110 as pre-reg)
2. Meet the English requirement: Completion of ENGL 1010 and CHEM 1110 as pre-reg.
3. Meet the English requirement: Completion of ENGL 1010 or ENGL 1005 with a grade of C or higher. (Completion of ENGL 2010 highly recommended).
4. Meet the Math requirement: Completion of MAT 1000 or higher with a grade of C or higher. (Completion of QL Requirement highly recommended).
5. Possess a current Utah EMT certification (Must remain valid throughout program and until you receive your paramedic license).
7. Be at least 18 years old and have a valid driver’s license.
8. Have current vaccinations as required by Utah Bureau of EMS. (Additional vaccinations may be required for clinical site internships)
9. Have current TB test results as required by Utah Bureau of EMS.
10. Obtain a current physical examination supporting entrance into the Paramedic Program.
11. Complete UVU paramedic application process, including written testing, oral interview, passing of background and drug screening, and be accepted to the program.

Homeland Security, Minor

Requirements
The Minor in Homeland Security is an interdisciplinary learning opportunity for fostering the knowledge, skills, and abilities associated with public and private positions relating to homeland security. The program is structured for students across different academic disciplines desiring a richer understanding, as well as an academic credential specific to homeland security. The purpose of the minor is to broaden the learner’s understanding of homeland security so as to complement their chosen field of study such as criminal justice, emergency management, emergency services, and national security studies or take a combination of classes in any or all of the four areas. Those choosing to pursue this minor will grow in their critical thinking and decision-making skill set. In addition, the program hones the learner’s ability to communicate through the written word, function and produce deliverables within a virtual/remote environment, discover pertinent usable intelligence within large amounts of data, and gist information for building succinct briefings.

Total Program Credits: 18
1. Students will demonstrate familiarity with the major concepts, theoretical perspectives, empirical findings, and historical trends in homeland security. (Applies to ELO #1 Discipline-appropriate experiences and ELO #4 Professional competence.)

2. Students will use critical and creative thinking, skeptical inquiry, and problem solving in making ethical and good decisions in the fields of homeland security. (Applies to ELO #2 Intellectual and practical skills and ELO #3 Ethical reasoning and understanding.)

3. Students will recognize, understand, and respect the complexity of socio-cultural and international diversity and apply this knowledge to homeland security. (Applies to ELO #5 Stewardship of local, national and global communities and ELO #6 Knowledge of human cultures and the physical and natural.)

Emergency Services Administration - Emergency Management and Disaster Assistance Emphasis, B.S.

Requirements

The Emergency Management and Disaster Assistance emphasis is designed to meet the needs of students aspiring for a career in emergency management and/or disaster assistance at the local, regional, state, or national level.

Total Program Credits: 120

Graduation Requirements:

1. Completion of a minimum of 120 semester credits.
2. Overall grade point average of 2.0 (C) or above, with completion of each Emergency Services class with a "C-" or higher.
3. Residency hours -- minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Successful completion of at least one Global/Intercultural course.

Footnote:
1-May be repeated for a maximum of 6 credits

Emergency Services Administration - Emergency Leadership Emphasis, B.S.

Careers

1. Students will demonstrate familiarity with the major concepts, theoretical perspectives, empirical findings, and historical trends in emergency administration.
2. Students use critical and creative thinking, skeptical inquiry, and problem solving in making ethical and good decisions.
3. Students will be able to communicate effectively.
4. Students will recognize, understand, and respect the complexity of socio-cultural and international diversity.

Related Careers

• Firefighters
• Fire Inspectors and Investigators
• Forest Fire Inspectors and Prevention Specialists
• Forest Fire Inspectors and Prevention Specialists

Course Catalog 2023-2024
### Discipline Core Requirements:
- **ESFF 2100** Servant-Leadership for the Emergency Services (3)
- **ESMG 310G** Introduction to Homeland Security GI (3)
- **ESMG 3150** Principles of Management for the Emergency Services WE (3)
- **ESMG 3600** Psychology of Emergency Services (3)
- **ESMG 4600** Public Administration for the Emergency Services (3)
- **ESMG 4650** Emergency Services Capstone WE (3)

### Elective Requirements:
Any ESEC, ESMG, ES, ESFO, ESFF, ESAF, CJ, NSS, FSCI, MILS, courses (12 credits)
Any courses 1000 or higher (24 credits)

### Emphasis Requirements:
Complete 25 credits from the following:
- **ESMG 3300** Emergency and Disaster Planning (3)
- **ESMG 3400** Critical Infrastructure Protection (3)
- **ESMG 3710** Comparative Approaches to Homeland Security (3)
- **ESMG 4150** Humanitarian Services and Disaster Relief (3)
- **ESMG 4200** Public Information and Disasters (3)
- **ESMG 425G** Humanitarian Management and Operations GI (3)
- **ESMG 4300** Disaster Recovery and Hazard Mitigation (3)
- **ESMG 445G** Human Factors in Emergency Management GI (3)
- **ESMG 4550** Emergency Preparedness and Disaster Response (3)
- **ESMG 481R** Emergency Services Internship (1-6)

### Graduation Requirements:
1. Completion of a minimum of 120 semester credits.
2. Overall grade point average of 2.0 (C) or above, with completion of each Emergency Services class with a "C-" or higher.
3. Residency hours -- minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Successful completion of at least one Global/Intercultural course.

Degrees & Programs

Associate in Pre-Engineering - Biological and Chemical Engineering Emphasis, A.P.E.

Requirements

The pre-engineering program at UVU has been created for students who plan to complete the first two to three years of their engineering education at the ABET accredited UVU and then transfer to a baccalaureate university to complete their engineering degree. With adequate planning, pre-engineering coursework completed at UVU will be sufficient for students to remain at UVU or to transfer to all of the Utah universities with baccalaureate engineering degrees. All students who declare pre-engineering as their major are automatically accepted into pre-engineering status. After completion of the pre-engineering program at UVU, the student applies for professional status at UVU or at an institution of the student’s choice.

Total Program Credits: 69

**Graduation Requirements:**

1. Completion of a minimum of 61 semester credits.
2. Overall grade point average of 2.0 (C) or above. 2.5 or above in Math, Science, and Engineering courses.
3. Residency hours: minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.

**Pre-Engineering, A.S. Careers**

1. An ability to apply knowledge of mathematics, science, and engineering.
2. An ability to design and conduct experiments, as well as to analyze and interpret data.
3. An ability to design a system, component, or process to meet desired needs within realistic constraints.
4. An ability to function on multidisciplinary teams.
5. An ability to identify, formulate, and solve engineering problems.
6. An understanding of professional and ethical responsibility.
7. An ability to communicate effectively.
8. A recognition of the need for, and an ability to engage in life-long learning.
9. A knowledge of contemporary issues.
10. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

**Related Careers**

- NO MATCH
Civil Engineering, B.S.

**Requirements**

Civil engineering is the oldest engineering discipline. The Bachelor of Science in Civil Engineering prepares graduates to apply mathematical and scientific principles to the design and supervision of infrastructure components including: buildings, roads, bridges, dams, tunnels, mass transit systems, and airports. Civil engineers are also involved in environmental studies and the design and supervision of municipal water supplies and sewage systems.

**Total Program Credits: 126**

**Matriculation Requirements:**

1. To be admitted to the BSCE program, a student must complete the foundation courses in Mathematics (MATH 1210, 1220, 2210, 2250); Physics and Chemistry (PHYS 2210, 2215, CHEM 1210, with 1215 and PHYS 2220 with 2225 or CHEM 1220 with 1225); English (ENGL 1010 or ENGH 1005, ENGL 2010); Engineering (ENGR 1000, 2010, 2030, 2140, 2160); Computer Aided Drafting (EGDT 1040), and Surveying Applications and Field Techniques I (EGDT 1400) with a minimum grade of C in these courses.

2. Must complete courses with a grade point average of 2.5 or above.

3. A student not meeting all of the admission requirements, may request in writing, a provisional admission status for a semester from the department. The provisional admission status must be approved by the civil engineering program coordinator.

**General Education Requirements:**

38 Credits

- **ENGL 1010** Introduction to Academic Writing CC 3
- or **ENGH 1005** Literacies and Composition Across Contexts CC (5.0)
- **ENGL 2010** Intermediate Academic Writing CC 3
- **MATH 1210** Calculus I QL 4

Complete one of the following:

- **HIST 2700** US History to 1877 AS (3.0)
- **HIST 2710** US History since 1877 AS (3.0)
- **HIST 1700** American Civilization AS (3.0)
- **HIST 1740** US Economic History AS (3.0)

Students may also take upper level computer, electrical, and mechanical engineering classes as technical electives in consultation with their faculty advisors and approval of the department offering the courses.

Graduation Requirements:
1. Completion of a minimum of 125 semester credits, with a minimum of 40 upper-division credits.
2. Overall grade point average of 2.5 or above, with a minimum grade of C in all discipline core and elective requirements.
3. Residency hours - minimum of 30 credit hours through course attendance at UVU. Ten of these hours must be within the last 45 hours earned. At least 12 of the credit hours earned in residence must be in approved CIVE courses.
4. All transfer credits must be approved in writing by UVU and the civil engineering program coordinator.
5. No more than 80 semester hours and no more than 20 hours in CIVE courses of transfer credit.
6. No more than 6 semester hours may be earned through independent study.
7. Successful completion of at least one Global/Intercultural course.

Civil Engineering, B.S.

Careers
1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Computer Engineering, B.S.

Careers

1. Computer Engineering students will demonstrate proficiency in the areas of programming languages, algorithms, operating systems, computer architecture, digital and analog circuits, and engineering design.
2. Students will demonstrate proficiency in relevant aspects of mathematics as well as the appropriate concepts from physics and electrical circuits and devices.
3. Students will successfully apply these principles and practices to a variety of problems.
4. Students will demonstrate an understanding of differential and integral calculus, advanced engineering mathematics, discrete structures, probability and statistics, physics, and other areas of science pertinent to engineering.
Engineering

5. Students will apply modern engineering tools necessary for computer engineering practice including computer based analysis, design, and simulation tools.
6. Students will have the ability to work with others and on multidisciplinary teams in both classroom and laboratory environments.
7. Students will demonstrate critical and abstract thinking.
8. Students will demonstrate an ability to communicate effectively.
9. Students will obtain familiarity with basic ideas and contemporary issues in the social sciences and the humanities.
10. Students will obtain an understanding of social, professional, and ethical issues related to engineering.
11. The majority of the graduates will be immediately employed in high-technology companies that utilize their computer engineering skills.
12. Strong graduates from the program will be prepared to enter graduate programs.

Mechanical Engineering, B.S.

Requirements
Mechanical engineering, which has evolved over the years as new technologies have emerged, is one of the broadest engineering disciplines. The Bachelor of Science in Mechanical Engineering prepares graduates to apply mathematical and scientific principles to the design, development, testing, and manufacturing of machines, robots, tools, biomedical devices, power generating equipment such as steam and gas turbines, wind turbines, solar systems, internal combustion engines, and heating, cooling, and refrigeration equipment.

Total Program Credits: 126

Matriculation Requirements:
1. To be admitted to the BSME program, a student must complete the foundation courses in Mathematics (MATH 1210, 1220, 2210, 2250); Physics (PHYS 2210, 2215, 2220, 2225); Chemistry (CHEM 1210, 1215); English (ENGL 1005 or ENGL 1010, 2010); and Engineering (EGDT 1071, ENGR 1000, 1030, 2010, 2030, 2140, 2160, 2450) with a minimum grade of C.
2. Students need a grade point average of 2.5 or above.
3. Students must have a grade of C in all discipline core and elective requirements.

General Education Requirements: 38 Credits

- ENGL 1010 Introduction to Academic Writing CC (3)
- ENGL 1005 Literacies and Composition Across Contexts CC (5.0)

Students may also take upper level computer, electrical, and mechanical engineering classes as technical electives in consultation with their faculty advisors and approval of the department offering the courses.

Graduation Requirements:

1. Completion of a minimum of 125 semester credits, with a minimum of 40 mechanical engineering upper-division credits.
2. Overall grade point average of 2.5 or above, with a minimum grade of C in all discipline core and elective requirements.
3. Residency hours - minimum of 30 credit hours through course attendance at UVU. Ten of these hours must be within the last 45 hours earned. At least 12 of the credit hours earned in residence must be in approved ME courses.
4. All transfer credits must be approved in writing by UVU and the mechanical engineering program coordinator.
5. No more than 80 semester hours and no more than 20 hours in ME courses of transfer credit.
6. No more than 6 semester hours may be earned through independent study.
7. Successful completion of at least one Global/Intercultural course.

Mechanical Engineering, B.S.

Careers

1. Demonstrated their ability to perform mechanical engineering analysis to solve problems and to communicate technical information effectively in an engineering or a professional team environment.
2. Advanced professionally by being given more responsibilities and/or have completed a graduate level degree.
3. Continued their professional development through workshops and/or have earned professional licensure.
4. Served in their professional organizations and/or local communities.

Automation and Electrical Technology, A.S.

Careers

Electro-Mechanical Technicians

Related Careers

Electro-Mechanical Technicians

Automation and Electrical Technology, A.A.S.

Requirements

Prepares graduates to troubleshoot, wire, repair, adapt, maintain, integrate, install, analyze, and program industrial automated equipment and electrical systems found in automated manufacturing and other industries. Focuses heavily on troubleshooting, motor controls and drives, industrial electronics, sensors, programmable logic controllers.
Engineering Technology

(PLCs) and integration of industrial internet of things *(IIOT) from the plant floor to the human machine interface (HMI).

Teaches single and three phase electrical systems in conjunction with industrial automation and intelligent electronics devices found in both industrial automation and electrical power. Numerous career path options are available for graduates.

**Graduation Requirements:**

1. Completion of a minimum of 65 semester credits
2. Overall grade point average of 2.0 (C) or above, with no core course below a 'C'.
3. Residency hours: minimum of 20 credit hours through course attendance at UVU
4. Completion of GE and specified departmental requirements

**Automation and Electrical Technology, A.A.S. Careers**

**Program Learning Outcomes**

1. Apply knowledge, techniques, skills and modern tools of mathematics, science, engineering, and technology to safely solve well-defined problems related to electrical and automation systems.
2. Apply solutions for well-defined technical problems and assist with the engineering design, integration, repair, testing, troubleshooting, and installation of systems, components, or processes related to electrical and automation systems.
3. Apply written, oral, and graphical communication in well-defined technical and non-technical environments.
4. Identify and use appropriate technical literature to solve problems, integrate, and troubleshoot electrical automation systems.
5. Safely conduct standard tests, measurements, and experiments and analyze and interpret the results.
6. Function effectively as a member of a technical team.

Electrical and Control Technology CA, Certificate of Proficiency

**Requirements**
The Certificate of Proficiency in Electrical and Control Technology CA prepares technicians and technologists to troubleshoot, wire, repair, adapt, install, and maintain electrical and industrial motor control equipment found in many local industries. Knowledge and experience are gained through theory and engaging “hands on” labs that prepare graduates to work safely around industrial and commercial electrical equipment. Electrical DC and AC theory, transformers, circuits, wiring, motors, motor controls, relay logic, logic gates, and the National Electrical Code for commercial and industrial systems is emphasized. Skills are developed in troubleshooting, testing, and analyzing electrical circuits. This is the first employable step in the exciting career path of working with electrically automated equipment.

2. Overall grade point average of 2.0 (C) or above, with no core course below a C-
3. Residency hours: minimum of 30 credit hours through course attendance at UVU.
4. Successful completion of at least one Global/Intercultural course.

### Mechatronics Engineering Technology, B.S.

#### Careers

### Program Learning Outcomes

1. Demonstrate proficiency in basic automation technology subjects including: (a) electronic mathematics, (b) AC and DC circuits and components, (c) computer architecture, (d) programmable logic controllers (PLC's), (d) industrial pneumatic and hydraulic systems, and (e) CAD based mechanical design.

2. Demonstrate appropriate technical reading, writing, and communications skills.

3. Demonstrate proficiency in mathematics appropriate for automation technology.

4. Demonstrate proficiency in design, analysis, operation, and troubleshooting of automation systems, including: (a) automation motors (servo, stepper, PMDC, and BLDC), (b) industrial pneumatics (actuators, valves, etc.), (c) PID speed and position controls, and (d) kinematics/dynamics of machines (motion analysis, linkages, and mechanisms).

5. Master PLC programming, operation, and structure for automation systems.

## Course Descriptions

**Cinema Studies**

The minor broadens students’ knowledge of how these texts shape and are shaped by culture. As an interdisciplinary program, cinema studies draws on faculty expertise from various disciplines and includes global and historical perspectives. The minor also builds personal knowledge and professional competencies.

### Total Program Credits: 15

| Matriculation Requirements: | 1. AAAS degree or higher from a regionally accredited institution of higher learning and one year full-time employment. |
| Complete the following: | 12 Credits |
| **Discipline Core Requirements:** | ENGL 2050 Editing 3 |
| | ENGL 2100 Technical Communication HH WE 3 |
| | ENGL 3050 Advanced Editing and Design for Print Media 3 |
| | ENGL 3340 Digital Document Design 3 |
| Elective Requirements: | 3 Credits |
| Complete ONE of the following: | 3 |
| **Elective Requirements:** | ENGL 3300 Collaborative Communication for Technology Professions (3) |
| | ENGL 3320 Grant and Proposal Writing (3) |
| | ENGL 4340 Advanced Technical Communication (3) |
| | ENGL 436R Topics in Technical Communication (3) |

### Graduation Requirements:

1. Completion of a minimum of 15 credits.
2. Overall GPA of 2.0 or above.
3. Residency hours -- Minimum of 4 credits required through Course attendance at UVU.

## Cinema and Media Studies, Minor

**Requirements**

Cinema Studies focuses on analyzing film and the screen arts as some of the most important cultural productions of the twenty-first century. Students approach movies as cultural texts and gain an understanding of the social, political, historical, and industrial contexts that produce cinema. The minor broadens students’ knowledge of how these texts...
 academy, but in any of the many situations in which language influences human activity.

### English Literary Studies, Minor

**Requirements**

UVU’s English program is designed to give students skill, confidence, and versatility in writing, speaking, and interpreting texts. The program provides opportunities for students to consider and practice the applications of effective language use in diverse situations: professional, pragmatic, social, political, and aesthetic. The English program emphasizes knowledge and use of standard English in all written work, yet incorporates an understanding that English is a desirably diverse and variable phenomenon. The courses of study in English are designed to familiarize students with much of the traditional canon of literature. They are also designed to provide students with the critical and ethical skills necessary to interrogate this canon, to incorporate and legitimize their own and others’ “different” voices, not just in the academy, but in any of the many situations in which language influences human activity.

Graduation Requirements:
1. Complete all courses with no grade lower than a C-.

Technical Communication, Minor

Requirements
UVU’s English program is designed to give students skill, confidence, and versatility in writing, speaking, and interpreting texts. The program provides opportunities for students to consider and practice the applications of effective language use in diverse situations: professional, pragmatic, social, political, and aesthetic. The English program emphasizes knowledge and use of standard English in all written work, yet incorporates an understanding that English is a desirably diverse and variable phenomenon. The courses of study in English are designed to familiarize students with much of the traditional canon of literature. They are also designed to provide students with the critical and ethical skills necessary to interrogate this canon, to incorporate and legitimize their own and others’ “different” voices, not just in the academy, but in any of the many situations in which language influences human activity.

Total Program Credits: 20

Matriculation Requirements:
1. Completion of 35 semester credits with a cumulative GPA: 2.5 minimum. Or completion of an Associate in Science or an Associate in Arts degree. Minimum grade of “C” in all courses.
2. Admitted to a bachelor degree program at UVU.

Discipline Core Requirements: 20 Credits
Complete the following:
- ENGL 2100 Technical Communication HH WE (3)
- ENGL 3010 Rhetorical Theory (3)
- ENGL 4390 Writing Studies Capstone (3)
Complete FOUR courses from the following: 12 Credits
- ENGL 3020 Modern English Grammars (3.0)
- ENGL 3050 Advanced Editing and Design for Print Media (3.0)
- ENGL 3300 Collaborative Communication for Technology Professions (3.0)
- ENGL 3320 Grant and Proposal Writing (3.0)
- ENGL 3340 Digital Document Design (3.0)
- ENGL 401R Topics in Rhetoric (3.0)
- ENGL 4340 Advanced Technical Communication (3.0)
- ENGL 436R Topics in Technical Communication (3.0)

English - Writing Studies Emphasis, B.A.

Requirements
UVU's English program is designed to give students skill, confidence, and versatility in writing, speaking, and interpreting texts. The program provides opportunities for students to consider and practice the applications of effective language use in diverse situations: professional, pragmatic, social, political, and aesthetic. The English program emphasizes knowledge and use of standard English in all written work, yet incorporates an understanding that English is a desirably diverse and variable phenomenon. The courses of study in English are designed to familiarize students with much of the traditional canon of literature. They are also designed to provide students with the critical and ethical skills necessary to interrogate this canon, to incorporate and legitimize their own and others' “different” voices, not just in the academy, but in any of the many situations in which language influences human activity.

Total Program Credits: 120

12 Credits

One Foreign Language (Foreign Language 202G/2020 course fulfills Humanities Distribution)

**Graduation Requirements:**

1. Completion of a minimum of 122 semester credits.
2. Overall GPA of 3.0 (B) or above with no grade lower than a C in major required content courses and no grade lower than a B- in Licensure and Methods courses.
3. Residency hours -- minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. For the BA degree, completion of 16 credit hours of course work from one foreign language to include the 1010, 1020, 2010, and 202G/2020* levels or transferred equivalents.
6. Successful completion of at least one Global/Intercultural course.

**English Education, B.A. Careers**

1. Students will design lessons that are focused on helping students achieve the stated ILO. 80% of the students will score a 3 or higher on the final assessment.
2. Students will design lesson plans that follow a logical sequence and plans for effective transitions between activities.
3. Students will design lesson plans with instructional approaches, learning strategies, and lesson activities that are varied in nature and structure so as to include all learners.

English Education, B.S.

Requirements

UVU’s English program is designed to give students skill, confidence, and versatility in writing, speaking, and interpreting texts. The program provides opportunities for students to consider and practice the applications of effective language use in diverse situations: professional, pragmatic, social, political, and aesthetic. The English program emphasizes knowledge and use of standard English in all written work, yet incorporates an understanding that English is a desirably diverse and variable phenomenon. The courses of study in English are designed to familiarize students with much of the traditional canon of literature. They are also designed to provide students with the critical and ethical skills necessary to interrogate this canon, to incorporate and legitimize their own and others’ “different” voices, not just in the academy, but in any of the many situations in which language influences human activity.

Total Program Credits: 122

Matriculation Requirements:

Secondary Education Matriculation Requirements:

1. ENGL and MATH QL courses must have a grade C or higher.
2. GPA of 3.0 or higher with no grade lower than a C in content area courses.
3. Completion of all General Education requirements and 70% of content area courses.
4. Pass LiveScan Criminal Background Check.

General Education Requirements: 35 Credits

- ENGL 1010 Introduction to Academic Writing CC (3)
- ENGL 1005 Literacies and Composition Across Contexts CC (5)
- ENGL 2010 Intermediate Academic Writing CC (3)

Complete one of the following: 3 Credits

- MAT 1030 Quantitative Reasoning QL (3)
- MAT 1035 Quantitative Reasoning with Integrated Algebra QL (6)
- STAT 1040 Introduction to Statistics QL (3)
- STAT 1045 Introduction to Statistics with Algebra QL (5)
- MATH 1050 College Algebra QL (4)
- MATH 1055 College Algebra with Preliminaries QL (5)
- MATH 1090 College Algebra for Business QL (3)

Complete one of the following: 3 Credits

- HIST 2700 US History to 1877 AS (3)

and

- ENGL 2070 Introduction to the English Major (3)
- ENGL 2250 Introduction to Creative Writing HH (3)
- ENGL 2600 Early American Literature (3)
- ENGL 2620 Medieval Literature (3)

Total Program Credits: 74 Credits

American Literature (complete one from the following)

- ENGL 3510 Early American Literature (3)
- ENGL 3520 Nineteenth Century American Literature (3)
- ENGL 3530 Modern American Literature (3)
- ENGL 3540 Contemporary American Literature (3)

British Literature (complete one from the following)

- ENGL 3610 Medieval Literature (3)
- ENGL 3620 Tudor and Stuart Literature (3)
- ENGL 3640 British Literature of the Long Eighteenth Century (3)
- ENGL 3650 Victorian Literature (3)
- ENGL 3660 British Literature Since 1900 (3)

Complete the following:

- ENGL 4250 Adolescent Literature (3)
- ENGL 463R Studies in Shakespeare (3)
- ENGL 4220 Teaching Reading and Literature (3)
- ENGL 4225 Teaching Reading Practicum (1)
- ENGL 4230 Teaching Writing (3)
- ENGL 4235 Teaching Writing Practicum (1)

Exercise Science and Outdoor Recreation - Exercise Science Emphasis, B.A.

Requirements

The Exercise Science curriculum has been designed to address student needs and current market demands. Through practical experiences in laboratory settings using state-of-the-art equipment such as the Biodex S4, students are exposed to real-life rehabilitation experiences as well as researching functional abilities and performance aspects of collegiate athletes. Additional classroom and lab experiences allow students to conduct 3-D motion analysis, measure muscle activity using wireless EMG technology, and analyze gait patterns using the GaitRite System, as well as conducting assessments to determine maximum oxygen uptake (VO2 Max), body composition, and anaerobic power.

Requirements

The Exercise Science curriculum has been designed to address student needs and current market demands. Through practical experiences in laboratory settings using state of the art equipment such as the Biodex S4, students are exposed to real life rehabilitation experiences as well as researching functional abilities and performance aspects of collegiate athletes. Additional classroom and lab experiences allow students to conduct 3-D motion analysis, measure muscle activity using wireless EMG technology, and analyze gait patterns using the GaitRite System, as well as conducting assessments to determine maximum oxygen uptake (VO2 Max), body composition, and anaerobic power.

Total Program Credits: 120

Footnote

1. EXSC students must take BIOL 1610 and REC students must take BIOL 1010
2. EXSC students must take EXSC 3270 and REC students must take REC 385G
3. EXSC students must take EXSC 4950 and REC students must take REC 4950

Emphasis Elective Requirements: 3 Credits
Any courses 1000-level or higher 3

Graduation Requirements:
1. Completion of a minimum of 120 semester credits, 40 credits must be upper-division.
2. Overall grade point average of 2.0 (C) or above. (Departments may require a higher GPA.)
3. Residency hours: minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. No grades below C- in Discipline Core or Emphasis Courses.
6. Successful completion of at least one Global/Intercultural course.

Note: Students must obtain the departmental advisor’s signature on an approved program plan prior to enrollment in their second semester of study.

Exercise Science and Outdoor Recreation - Exercise Science Emphasis, B.S.

Careers

1. To interact and communicate effectively by presenting information in oral, written, and technology formats; collaborating with professionals and peers; expressing ideas clearly; and giving and receiving feedback.
2. To utilize knowledge, skills, and abilities to evaluate health behavior risk factors; develop, implement, and evaluate exercise and wellness programs, and employ behavioral strategies to motivate individuals to adopt and maintain positive lifestyle behaviors.
3. To demonstrate behavior that preserves the integrity of a profession, prevents misrepresentation, and protects the consumer.
4. To continuously improve knowledge, skills, and abilities and to uphold a professional image through actions and appearance.
5. To demonstrate critical thinking by making decisions based on multiple perspectives and evidence-based practice.

Related Careers
- Recreation and Fitness Studies Teachers, Postsecondary
- Athletes and Sports Competitors
- Coaches and Scouts
- Fitness Trainers and Aerobics Instructors

Exercise Science and Outdoor Recreation - Outdoor Recreation Management Emphasis, B.A.

Requirements

In addition to a strong background in recreation theory, experiential education, outdoor leadership, risk management, and program planning, graduates of this program leave with a proficiency in a variety of both land and water-based skill acquisition courses, such as avalanche awareness, whitewater kayaking and backpacking. More than preparation for a career in the outdoor field, the major in Outdoor Recreation Management grooms students for a lifetime of outdoor participation and leadership.

Degrees & Programs

Economics, Minor

Requirements

The Minor in Economics is intended for graduates from other disciplines to obtain the basics of economic theory and application to facilitate their ability to use economics analytical processes in the development of professional careers. Graduates learn the concepts of marginal analysis, demand and supply theory, characteristics of production and cost processes, and other related issues.

Finance, Minor

Careers

1. Students will be effective at corporate financial management.
2. Students will be knowledgeable of the valuation of certain asset classes.
3. Students will be knowledgeable of financial statement analysis and understand how financial statements can be used to evaluate and value a business.

Related Careers

- Chief Executives
- General and Operations Managers
Risk Management, Minor

Requirements
The Minor in Risk Management will help prepare students for possible Chartered Property Casualty Underwriter (CPCU) credentials. It focuses in depth on foundations of risk management and insurance, enterprise risk management, business law for insurance, commercial property risk management and insurance, and commercial liability risk management and insurance. In addition, students will achieve further distinction by complementing their demonstrated expertise in insurance issues with a mastery of general management principles finance, operations, and leadership.

## Financial Planning and Analytics Graduate Programs

### Financial Planning and Analytics Graduate Program

The Master of Financial Planning and Analytics Graduate Program is in the Woodbury School of Business. To find the most up-to-date information, including Program Learning Outcomes for the Financial Planning and Analytics Graduate Program, visit their website.

### Course Descriptions

#### Degrees & Programs

**Master of Financial Planning and Analytics, M.F.P.A.**

#### Requirements

The Master of Financial Planning and Analytics (MFPA) degree program prepares students for professional positions in financial planning and financial analytics. Our curriculum is also designed to help our students progress towards professional certifications, including the CERTIFIED FINANCIAL PLANNER(TM) (CFP®) certification and the Chartered Financial Analyst (CFA®) certification. Students with foundational courses in financial planning or financial analytics can further expand their existing knowledge by selecting relevant elective courses in new areas of study. With extensive connections to firms across the nation, we seek to provide the best graduate education possible in financial planning and financial analytics.

#### Total Program Credits: 36

American Studies, Minor

Requirements

American Studies provides students with an interdisciplinary approach to the study of American cultures. Through examination of historical, religious, and literary texts, political institutions, popular culture, film, art, and the physical landscape, students will explore how Americans create meaning in their lives and make sense of the world in which they live. By encouraging students to approach their majors from the perspective of several overlapping disciplines, American Studies courses will foster deeper critical thinking and broader contextualization.

Total Program Credits: 18
Matriculation Requirements:

1. Completion of 30 hours of credit at UVU.
2. Admitted to a bachelor degree program at UVU.

Chinese Commerce, Minor

Requirements

The Chinese Commerce minor focuses on important aspects of Chinese commerce, language and culture. This program is designed to combine an understanding of the social, political, historical, and economic factors that make China one of the leading international powers today. As such, the minor offers proficiency in the Chinese language, augmented with cultural knowledge of the country and an introduction to international business practices. As an interdisciplinary minor, the program draws on faculty expertise from various disciplines and includes varied perspectives.

Constitutional Studies, Minor

Requirements

Political science enjoys a central position among the social sciences. Aristotle characterized politics as the "queen of the sciences." It is a broad discipline that encompasses philosophical, historical and analytical studies of governments, politics and policies. Political science students learn not only the concepts, theories and methods associated with the discipline, but also gain the cognitive and presentational skills required of tomorrow’s public and private leaders. At its core, politics is about building and maintaining communities at the local, state, national and international levels that enable citizens to live enriching and fulfilling lives. Political science students develop not only an understanding of those communities, but also the ability to influence them.

History, Minor

Requirements

UVU’s History Program is dedicated to developing the twenty-first century student. We provide the general student body a broad range of courses that increase global awareness, engagement and informed citizenship, as well as develop critical thinking, writing, and oral expression. In addition, History majors can choose from a large number of in-depth upper division courses that further their content knowledge and expand their abilities to critically analyze past and current events in a variety of regions and nations. In all courses, students and faculty observe the human experience by investigating the diverse historical perspectives of the past and present. History faculty endeavor to teach in ways that foster independent thinking, engage the students with historical conversations and debates, and improve students’ ability to communicate in a variety of media. Students who successfully complete our programs will have a valuable set of skills for further study in graduate and professional programs, and careers in public service or private enterprise.

Political science students learn not only the concepts, theories and methods associated with the discipline, but also gain the cognitive and presentational skills required of tomorrow’s public and private leaders. At its core, politics is about building and maintaining communities at the local, state, national and international levels that enable citizens to live enriching and fulfilling lives. Political science students develop not only an understanding of those communities, but also the ability to influence them.

Total Program Credits: 21

Matriculation Requirements:
1. Completion of POLS 1010 Introduction to Political Science SS or POLS 1100 American National Government AS.
2. Admitted to a bachelor degree program at UVU.

Discipline Core Requirements: 21 Credits

Complete THREE of the following: 9

Graduation Requirements:
1. Complete all political science courses with a grade of "C-" or better.

History and Social Studies Education, B.S.

Requirements
The BS in History and Social Sciences Education prepares teacher candidates to meet the UETS (Utah Effective Teaching Standards) and the InTASC (Interstate Teacher Assessment and Support Consortium) Standards in history and social sciences education. The program is to provide coursework and experiences that will prepare competent, caring, and qualified individuals who are ready to assume the role of teacher and to prepare them for further career choices and advancement. Candidates enter the program at the junior level of their undergraduate education where they have completed general education and pre-program required courses and in so doing have a background in the arts and sciences which prepares them with a general content knowledge base.

Total Program Credits: 121

Matriculation Requirements:
1. ENGL and MATH QL courses must have a grade C or higher.

2. GPA of 3.0 or higher with no grade lower than a C in content area courses.
3. Completion of all General Education requirements and 70% of content area courses.
4. Pass LiveScan Criminal Background Check.

General Education Requirements: 35 Credits

### Social Studies Composite - Please see your Advisor.

Students must receive a C grade or higher in all content area classes.

Complete any two SOC/ANTH courses numbered 1000 or higher

Complete any one ECON course numbered 1000 or higher

Complete any one PSY course numbered 1000 or higher

**Graduation Requirements:**

1. Completion of a minimum of 121 semester credits.
2. Overall GPA of 3.0 (B) or above with no grade lower than a C in major required content courses and no grade lower than a B- in
History and Political Science

Licensure and Methods courses. (Departments may require a higher GPA.)
3. Residency hours -- minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Successful completion of at least one Global/Intercultural course.
6. Successful completion of at least two Writing Enriched courses.

History and Social Studies Education, B.S.

Careers

1. Identify key aspects of learner development, learning differences and learning environments.
2. Implement the central concepts and tools of inquiry of history and the social sciences to engage learners.
3. Design instruction that reaches the learner in various methods according to professional standards.
4. Demonstrate professional responsibility through professional development and leadership opportunities.

History, B.A.

Requirements

UVU's History Program is dedicated to developing the twenty-first century student. We provide the general student body a broad range of courses that increase global awareness, engagement and informed citizenship, as well as develop critical thinking, writing, and oral expression. In addition, History majors can choose from a large number of in-depth upper division courses that further their content knowledge and expand their abilities to critically analyze past and current events in a variety of regions and nations. In all courses, students and faculty observe the human experience by investigating the diverse historical perspectives of the past and present. History faculty endeavor to teach in ways that foster independent thinking, engage the students with historical conversations and debates, and improve students' ability to communicate in a variety of media. Students who successfully complete our programs will have a valuable set of skills for further study in graduate and professional programs, and careers in public service or private enterprise.

### Political Science - American Government Emphasis, B.A.

**Requirements**

Political science enjoys a central position among the social sciences. Aristotle characterized politics as the “queen of the sciences.” It is a broad discipline that encompasses philosophical, historical and analytical studies of governments, politics and policies. Political science students learn not only the concepts, theories and methods associated with the discipline, but also gain the cognitive and presentational skills required of tomorrow’s public and private leaders. At its core, politics is
History and Political Science

about building and maintaining communities at the local, state, national and international levels that enable citizens to live enriching and fulfilling lives. Political science students develop not only an understanding of those communities, but also the ability to influence them.

Political Science - American Government Emphasis, B.S.

**Requirements**

Political science enjoys a central position among the social sciences. Aristotle characterized politics as the “queen of the sciences.” It is a broad discipline that encompasses philosophical, historical and analytical studies of governments, politics and policies. Political science students learn not only the concepts, theories and methods associated with the discipline, but also gain the cognitive and presentational skills required of tomorrow’s public and private leaders. At its core, politics is about building and maintaining communities at the local, state, national and international levels that enable citizens to live enriching and fulfilling lives. Political science students develop not only an understanding of those communities, but also the ability to influence them.

• Political Science Teachers, Postsecondary

Political Science - Peace and Justice Studies Emphasis, B.A.

Requirements
Political science enjoys a central position among the social sciences. Aristotle characterized politics as the “queen of the sciences.” It is a broad discipline that encompasses philosophical, historical and analytical studies of governments, politics and policies. Political science students learn not only the concepts, theories and methods associated with the discipline, but also gain the cognitive and presentational skills required of tomorrow’s public and private leaders. At its core, politics is about building and maintaining communities at the local, state, national and international levels that enable citizens to live enriching and fulfilling lives. Political science students develop not only an understanding of those communities, but also the ability to influence them.

Political Science enjoys a central position among the social sciences. Aristotle characterized politics as the “queen of the sciences.” It is a broad discipline that encompasses philosophical, historical and analytical studies of governments, politics and policies. Political science students learn not only the concepts, theories and methods associated with the discipline, but also gain the cognitive and presentational skills required of tomorrow’s public and private leaders. At its core, politics is about building and maintaining communities at the local, state, national and international levels that enable citizens to live enriching and fulfilling lives. Political science students develop not only an understanding of those communities, but also the ability to influence them.

Degrees & Programs

Administrative Information Management, A.S.

Requirements

The two-year pre-major AS in Administrative Information Management program provides training for students seeking to complete general education requirements and develop their skills and knowledge in basic computer applications, written business communication, and financial accounting. Graduates of this program obtain temporary employment and pursue a Bachelor's degree for more advanced training in Information Management.

Information Systems and Technology, A.A.S. Requirements

The two-year AAS in Information Systems and Technology is designed to help students develop job-ready computer skills to meet today's industry needs. Students complete a foundational core in programming, database, web application design, data communication, and networking. After that, students select a specialization in either Information Systems or Information Technology to complete a focused set of courses to obtain more in-depth knowledge and skills for a variety of computer-related jobs. If planned carefully with an advisor, this program provides a smooth, stackable pathway to the B.S. in Information Systems degree or the B.S. in Information Technology degree at UVU.

Information Systems and Technology

**Graduation Requirements:**

1. Completion of a minimum of 63 semester credits.
2. Overall grade point average of 2.0 (C) or above with a minimum 2.5 GPA in all discipline core and elective courses with no grade lower than a "C-".
3. Residency hours: minimum of 20 credit hours through attendance at UVU.

4. Completion of GE and specified departmental requirements. Students are responsible for completing all prerequisite courses.

**footnotes:**

1. ENGL 2100 Technical Communication HH WE recommended for BS in Information Technology degree future students.
2. CJ 1010 Introduction to Criminal Justice SS recommended for BS Information Technology degree future students with the Computer Forensics and Security emphasis. ECON 2010 Principals of Economics I SS recommended for BS Information Systems degree future students.
3. PHYS 2010 College Physics I PP and PHYS 2015 College Physics I Lab recommended for BS Information Technology degree future students.
4. If plan to obtain BS in Information Technology with Computer Forensics & Security emphasis, take CJ 1330 Criminal Law and CJ 2350 Laws of Evidence as domain classes.

Information Systems and Technology, A.A.S.

**Careers**

1. Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program’s discipline.
3. Communicate effectively in a variety of professional contexts.
4. Support the delivery, use, and management of information systems within an information systems environment.
5. Apply tools, concepts, and networking techniques to solve business problems.

- Computer and Information Research Scientists
- Computer Systems Analysts
- Database Administrators
- Network and Computer Systems Administrators
- Computer Network Architects
- Computer Occupations, All Other
- Computer Science Teachers, Postsecondary

Information Systems and Technology, A.S.

**Requirements**

The two-year pre-major AS in Information Systems and Technology program provides training for students seeking to complete general education requirements and develop foundational skills in programming, database, web application design, system administration, computer architecture, data communication, and security. Graduates of this program obtain temporary employment and pursue a Bachelor of Science in Information Systems or Information Technology for more advanced education.

**Total Program Credits: 60**

3. Residency hours -- minimum of 10 credit hours through course attendance at UVU.
4. A minimum keyboarding skill of 40 net words per minute is required for graduation.
5. Students are responsible for completing all prerequisite courses.

Note: Potential Administrative Information Support and BS in Information Management students need to take ACC 2100 Financial Accounting.

Administrative Support, Certificate of Completion

Careers

1. An ability to explain information and project management concepts in written and verbal forms.
2. Recognition of the need for continued interest in maintaining and updating technical skills required by business and industry.
3. An ability to analyze problems and use appropriate skills and technology to reach solutions.

## Network Administration, Certificate of Completion

### Requirements

The Certificate of Completion in Network Administration provides students with training in server administration, computer architecture, and networking. Students select from a variety of courses in cabling, Windows system administration, router management, information security, computer forensics, and Linux system administration.

**Total Program Credits: 31**

| IT 2800 | Computer Forensic Fundamentals (3) |
| IT 3510 | Advanced System Administration--Linux/UNIX (3) |
| IT 3530 | Advanced System Administration--Windows Server (3) |

**Graduation Requirements:**

1. Completion of a minimum of 31 semester credits.
2. Minimum grade of C- required in all courses.
3. Overall grade point average of 2.0 (C) or above.
4. Residency hours -- minimum of 10 credit hours through course attendance at UVU.

---

## Network Administration, Certificate of Completion

### Careers

1. An ability to apply knowledge of computing and mathematics appropriate to Network Administration.
2. An ability to communicate effectively with a range of audiences, both in written and oral forms.
3. An ability to use current techniques, skills, and tools necessary for Network Administration.

### Related Careers

- Computer Systems Analysts
- Information Security Analysts
- Computer Network Architects
- Computer Network Support Specialists

## Applied Data Analytics, Minor

### Requirements

The Minor in Applied Data Analytics allows students to choose among Information Systems, Statistics, and Marketing courses to learn about data management and analysis.

**Total Program Credits: 18**

Other advisor-approved elective.

**Graduation Requirements:**

1. Completion of a minimum of 18 semester credits.
2. Minimum grade of C- required in all courses.
3. Overall grade point average of 2.0 (C) or above.
4. Residency hours: minimum of 9 credit hours through course attendance at UVU.

## Applied Data Analytics, Minor

### Careers

1. An ability to apply knowledge of computing and mathematics appropriate to Data Analytics.
2. An ability to analyze a problem, and identify and define computing requirements appropriate to its solution.
3. An ability to design, implement, and evaluate a computer-based system, process, component, or program to meet the needs of an organization and its users.
4. An ability to function effectively on teams to accomplish a common goal.
5. An ability to communicate effectively with a range of audiences, both in written and oral forms.
6. An ability to use current techniques, skills, and tools necessary for Data Analytics.

### Business/Marketing Education, B.S.

#### Requirements

Students interested in teaching can pursue a Bachelor of Science in Business/Marketing Education and a secondary teaching license through a joint program offered by the Information Systems and Technology Department and the School of Education. The Business/Marketing Education curriculum prepares students to teach business, marketing, and information technology in secondary schools.

### Total Program Credits: 122

#### Matriculation Requirements:

1. ENGL and MATH QL courses must have a grade C or higher.
2. GPA of 3.0 or higher with no grade lower than a C in content area courses.
3. Completion of all General Education requirements and 70% of content area courses.
4. Pass LiveScan Criminal Background Check.

Graduation Requirements:

1. Completion of 122 semester credit hours with at least 40 credit hours in upper-division courses.
2. Overall Grade of 3.0 (B) or above with no grade lower than a C in major required content courses and no grade lower than a B- in Licensure and Methods courses.
3. Residency hours: Minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements. Students are responsible for completing all prerequisite courses.
5. Successful completion of at least one Global/Intercultural course.
6. Successful completion of at least two Writing Enriched (WE) courses.
Business/Marketing Education, B.S.

**Careers**

1. Create, analyze, revise, and implement curricula to prepare students to teach business and marketing education at the secondary level.
2. Facilitate the learning of dynamic subject matter in a diverse learning environment.
3. Maintain a solid foundation in general education content, business and marketing content, and professional education content.

Cybersecurity, Graduate Certificate

**Requirements**
The Graduate Certificate in Cybersecurity at Utah Valley University is a post-baccalaureate program for students who wish to complete advanced studies in the field of cybersecurity. This program is designed to provide students with advanced technical and managerial knowledge of cybersecurity, preparing them for senior technical and leadership roles in the field. Coursework includes a balanced approach, combining critical analysis of cybersecurity theory with hands-on education for essential applied cybersecurity techniques and tools. The program takes two semesters to complete the 18 credits of graduate level courses. Courses include cybersecurity operations, advanced network defense, cybersecurity management, case studies, secure coding, ethical hacking, and the legal and privacy implications of cybersecurity.

To be successful, students should have a strong background in technology. Students should have completed undergraduate work in a related field or have applicable work experience. For those who do not meet this requirement, select undergraduate courses are available to provide the foundational knowledge needed. Please contact the academic advisor for more information.

**Total Program Credits: 18**

**Matriculation Requirements:**
1. Application for admission to the program.
3. 2 years of IT or IT security industry experience (if Bachelor's degree in non-related field).
4. Completion of undergraduate courses in data communication, programming, and servers.

or other departmental approved electives

**Graduation Requirements:**
1. Completion of a minimum of 18 credits.
2. Overall grade point average of 3.0 (B) or above.
3. Residency hours -- minimum of 5 credit hours through course attendance at UVU.
4. Courses and project requirements must be finished within a five-year period. No courses will apply toward graduation which are older than five years.

Cybersecurity, Graduate Certificate

**Careers**

2. Describe and explain how to mitigate cyber security threats to enterprise, government, and individuals.
3. Explain the role of cyber security in the enterprise and how to integrate cyber security principles into existing processes.
4. Be aware of their responsibility to behave ethically in their professional lives (e.g., clients, customers, employers, society, profession, environment, and community).
5. Have a global perspective on legal and ethical issues surrounding cyber security and technology.

Information Systems and Technology

INFO 4300  Enterprise Web Development (3)
Complete at least 9 credits from the following electives or from courses in above domains.  9
IM 2800  Integrated Software Projects (3)
IM 3600  Advanced Excel for Decision Making (3)
IM 490R  Advanced Topics in Information Management (1-3)
IM 496R  Information Management Seminar (1-3)
INFO 3410  Database Systems and Warehousing (3)
IT 1700  Cybersecurity Essentials (3)
ACC 1150  Fundamentals of Business Math (3)
COMM 2110  Interpersonal Communication SS (3)
HM 3210  Event Venue and Convention Management (3)
TECH 2030  Inclusive Leadership SS (3)
TECH 3010  Creativity Innovation and Change Management (3)
TECH 4400  Advanced Project Management (3)
Other department approved classes

Graduation Requirements:
1. Completion of the 120 semester credit hours required in the degree with at least 40 credit hours in upper-division courses.
2. Overall grade point average 2.75 or above with no grade lower than a "C-" in core, domain, and elective courses.
3. Residency hours: Minimum of 30 credit hours through course attendance at UVU, at least 10 hours earned in the last 45 hours.
4. Completion of all prerequisite courses. Students are responsible for completing all prerequisite courses.
5. Successful completion of at least one Global/Intercultural course.
6. Successful completion of at least two Writing Enriched (WE) courses.

NOTE: The UVU catalog contains the descriptions and prerequisites for all courses. Not all courses are offered every semester.

Information Management, B.S.

Careers
1. Clearly explain information and concepts in written, electronic, and verbal forms.
2. Explain and apply business and information management principles when solving problems.
3. Demonstrate a continued interest in maintaining and updating technical skills required by business and industry.
4. Have a global perspective on legal and ethical issues surrounding information management and technology.

Related Careers
- First-Line Supervisors of Office and Administrative Support Workers

Information Systems - Application Development Emphasis, B.S.

Requirements
The BS in Information Systems program prepares students to be Information Systems professionals. Graduates develop and deploy enterprise-level systems to meet organizational needs.

Total Program Credits: 123

General Education Requirements: 36 Credits
- ENGL 1010 Introduction to Academic Writing CC (3)
or  ENGH 1005 Literacies and Composition Across Contexts CC (5)
- ENGL 2010 Intermediate Academic Writing CC (3)
- MATH 1050 College Algebra QL (4)
or  MATH 1055 College Algebra with Preliminaries QL (5)

Notes:

1. ECON 2010 Principles of Economics I recommended.

Graduation Requirements:

1. Completion of at least 123 semester credits required in the BS degree; at least 40 credit hours must be upper-division courses.
2. Overall grade point average 2.0 or above with a minimum of 2.5 GPA in all discipline core, specialty core, and elective courses with no grade lower than a “C-.”
3. Residency hours: Minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements. Students are responsible for completing all prerequisite courses.
5. Successful completion of at least one Global/Intercultural course.

Information Systems - Application Development Emphasis, B.S.

Careers

1. Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program’s discipline.
3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program’s discipline.
6. Support the delivery, use, and management of information systems within an information systems environment.

Related Careers

- Software Developers, Applications
- Software Developers, Systems Software

Information Systems - Business Intelligence Systems Emphasis, B.S.

Requirements

The BS in Information Systems program prepares students to be Information Systems professionals. Graduates develop and deploy enterprise-level systems to meet organizational needs. The Business Intelligence Systems (BIS) emphasis prepares graduates to become business intelligence analysts who produce financial and marketing intelligence by querying data repositories, generating reports, and devising methods for identifying data patterns and trends. Organizations store an enormous amount of data. People who are able to perform data mining and can analyze the data to detect trends and form predictions are highly sought by national and regional organizations.

### Information Systems and Technology

#### Emphasis, B.S.

**Careers**

1. An ability to design, implement, and evaluate a computer-based system, process, component, or program to meet the needs of an organization and its users.
2. An ability to analyze a problem, and identify and define computing requirements appropriate to its solution.
3. An ability to analyze the local and global impact of computing on individuals, organizations, and society.
4. An ability to apply knowledge of computing and mathematics appropriate to Information Systems.
5. An ability to assist in the creation and management of an effective project plan.
6. An ability to communicate effectively with a range of audiences, both in written and oral forms.
7. An ability to function effectively on teams to accomplish a common goal.
8. An ability to use current techniques, skills, and tools necessary for Information Systems.
9. An understanding of processes that support the delivery and management of Information Systems within a specific application environment. 10--An understanding of professional, ethical, legal, security, and social issues and responsibilities related to Information Systems. 11—Recognition of the need for, and an ability to engage in, continuing professional developments.

Information Systems and Technology

Information Systems - Information Security Management Emphasis, B.S.

Requirements

Managing the security of information systems is extremely important for all types of organizations to protect the systems from data breaches. The BS in Information Systems program prepares students to be Information Systems professionals. Graduates develop and deploy enterprise-level systems to meet organizational needs. The Information Security Management (ISM) emphasis prepares students for information technology management and information security analyst positions.

**Information Technology - Network Administration and Security Emphasis, B.S.**

**Requirements**

Electronic data is often used as evidence in court. Forensic specialists learn how to identify, preserve, and extract data from electronic devices, such as computers and smart phones. The Bachelor of Science in Information Technology (IT) degree prepares students to install, manage, and maintain the computing infrastructure on which organizational systems run. The Computer Forensics and Security emphasis provides students with a solid foundation for employment by government or corporate sector to work in a computer forensics lab as a forensic analyst or in information security.

IT Application Domain Requirement: 6

Two specified courses to provide students with knowledge of an application domain of their choice and interest. (See department advisor for list of approved courses.)

Some possible application domains are:

- Accounting/IT Auditor
- Business
- Communications
- Computer Science
- Construction
- Criminal Justice (Choose this domain for Computer Forensics and Security emphasis)
- Forensics
- Geographic Information Systems
- Health professions
- Hospitality Management
- Manufacturing/Production
- Military Science
- Multimedia/Digital Media
- Physical Sciences
- Social Sciences

Other approved upper-division Information Technology and Information Systems courses

Notes:

1. CJ 1010 Introduction to Criminal Justice SS for Forensics emphasis
2. For the Computer Forensics and Security emphasis, the following 2 courses are required: CJ 1330 Criminal Law and CJ 1340 Criminal Investigations.

Graduation Requirements:

1. Completion of at least 122 semester credits required in the BS degree; at least 40 credit hours must be upper-division courses.
2. Overall grade point average 2.0 or above with a minimum of 2.5 GPA in all discipline core, specialty core, and elective courses with no grade lower than a "C-".
3. Residency hours: Minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements. Students are responsible for completing all prerequisite courses.
5. Completion of GE global intercultural requirement. INFO 405G satisfies this requirement.
6. Successful completion of at least one Global/Intercultural course.
7. Successful completion of at least two Writing Enriched (WE) courses.

Information Technology - Network Administration and Security Emphasis, B.S.

Careers

1. Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program’s discipline.
3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program’s discipline.
6. Use systemic approaches to select, develop, apply, integrate, and administer secure computing technologies to accomplish user goals.

Related Careers

- Computer Systems Analysts
- Information Security Analysts
- Computer Network Architects
- Computer Network Support Specialists

Information Technology - Network Administration and Security Emphasis, B.S.

Requirements

Every organization uses some form of information technology to perform its operations. The Bachelor of Science in Information Technology (IT) degree prepares students to install, manage, and maintain the computing infrastructure on which organizational systems run. The Network Administration and Security emphasis prepares students to work as data communication consultants, information security analysts, and network administrators. The core of the BS IT program prepares students to have a strong foundation in computer architecture, data communication, information security, networks, and system administration.

Integrated Studies

Course Descriptions

Integrated Studies, B.A.

Requirements

The individualized nature of the Integrated Studies degree is attractive to students with multiple interests. Students integrate course work in emphases such as biology, earth science, business, health, literature, languages, communication, philosophy, psychology, sociology, anthropology, and the arts. Emphases from computer science and information systems, accounting, technology management, and physical education are also offered as part of this degree.

Total Program Credits: 120

Graduation Requirements:

- Overall grade point average of 2.0 (C) or above. (Departments may require a higher GPA.)
- Residency hours: minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
- Completion of GE and specified departmental requirements;
- Completion of a minimum of 120 semester credits; a minimum of 40 credits must be upper-division.
- Successful completion of at least one Global/Intercultural course.

Complete the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

</table>

Completing a second, different, approved Minor

Some minors require more than 18 credits to complete. Any minor requirements beyond 18 credits may count toward electives.

Elective Requirements:

- Complete any 1000-level, or higher, courses

Graduation Requirements:

1. Completion of a minimum of 120 semester credits; a minimum of 40 credits must be upper-division.
2. Overall grade point average of 2.0 (C) or above. (Departments may require a higher GPA.)
3. Residency hours: minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements: students must have "C" or higher in the Discipline Core courses (except for the Foreign Language classes).
5. For the BA degree, completion of 16 credit hours of course work from one language to include the 1010, 1020, 2010, and 202G/2020 course fulfills Humanities Distribution.
6. Successful completion of at least one Global/Intercultural course.
7. Complete Integrated Studies graduating student survey.

Integrated Studies, B.A.

**Careers**

1. Graduates will be able to gather and analyze information to develop a Capstone Thesis which incorporates knowledge from their two (or three) emphasis areas, upper division theory courses, and Integrated Studies topics courses.

2. Graduates will be able to discuss and defend their Capstone Thesis/Project with particular attention to how concepts from their emphases are incorporated through work on a problem that requires interdisciplinary tools.

3. Graduates will be able to apply research and writing skills to demonstrate informational and technical literacy.

### Deaf Studies, Minor

**Requirements**

In the Deaf Studies minor, students will examine elements of what culturally-Deaf people in America have traditionally called "the Deaf-World" with special attention to the framework of meaning from within which culturally-Deaf people interpret what it means to be Deaf. This minor challenges students to approach cultural descriptions critically, and provides a historical, cultural, and linguistic foundation.

- Interpreters and Translators

**French, Minor**

**Requirements**
Earn this minor in conjunction with any UVU Bachelor Degree Major offered. The minor consists of 18 credits of Upper Division coursework (3050 required). For more information contact the Language Department advisor.

**Total Program Credits:** 18

**Matriculation Requirements:**
1. Complete ENGL 2010 Intermediate Academic Writing CC and 30 hours of college-level courses other than French with a minimum GPA of 2.0
2. Complete lower division French courses (FREN 1010 Beginning French I LH, FREN 1020 Beginning French II LH, FREN 2010 Intermediate French I LH, and FREN 202G Intermediate French II HH GI) or receive the equivalent through experiential credit (does not apply to native speakers).
3. Students with significant residency abroad should register for French 3050 Advanced French LH WE as a first course toward the minor.
4. Be admitted to a bachelor degree program at UVU.

**Discipline Core Requirements:** 3 Credits

- FREN 3050 Advanced French LH WE

**Elective Requirements:** 15 Credits

Complete 15 credits from among the following:

- FREN 3030 French Composition and Conversation WE (3)
- FREN 3040 Introduction to Literary Genres in French (3)
- FREN 3200 Business French LH (3)
- FREN 351G Culture and Civilization to 1700 GI (3)
- FREN 352G Culture and Civilization from 1700 GI (3)
- FREN 3610 French Literature to 1700 (3)
- FREN 3620 French Literature from 1700 WE (3)
- FREN 4200 Advanced Business French (3)
- FREN 490R Special Topics in French (3)
- LANG 3000 Language and Culture LH (3)
  or LANG 481R Language Internship (1)
  or LANG 4200 Methods of Teaching a Foreign Language (3)
  or LANG 490R Special Topics in Languages (1)

**Graduation Requirements:**
1. Completion of Baccalaureate Degree.
2. A minimum grade of "C" must be earned in all minor courses.

**French, Minor Careers**
1. Students will be able to negotiate meaning through speaking, writing, reading, and listening skills at the Advanced Mid rating of the ACTFL proficiency levels.
2. Students will be able to interpret meaning in oral and written form with no recourse to active negotiation of meaning with the writer, speaker, or producer at the Advanced Mid rating of the ACTFL proficiency levels.
3. Students will be able to create messages that can be interpreted by members of the target language with no recourse to active negotiation of meaning with the writer, speaker, or producer at the Advanced Mid rating of the ACTFL proficiency levels.
4. Students will be able to use cultural knowledge to conform, linguistically and behaviorally, in various social and work-related settings at the Advanced Rating of the ACTFL Cultural Awareness descriptor.

**LANGUAGE 2**

Eleven credits in courses numbered 2000 or higher in a SECOND foreign language.

**Graduation Requirements:**
1. Completion of Baccalaureate Degree.
2. Any grade below a "C" (2.0) in a Languages Minor course will not be accepted.

**Latin American Studies, Minor Requirements**
The minor in Latin American Studies (LAS) provides a comprehensive and interdisciplinary understanding of Latin American and Latino culture, history, and language. This is particularly important for preparing UVU students to be fully competitive in the global marketplace since two of the top ten trading partners of the United States, Mexico and Brazil, are located in Latin America. Students learn to comprehend the unique geographical and historical complexities of Latin America and its place in the world, as well as the multifaceted cultural backgrounds of their fellow students whose families are from that vast area. A minor in LAS complements a diverse number of majors giving our students the opportunity to prepare for a future working with either Utah's growing Latino population or beyond the state pursuing opportunities abroad.

**Total Program Credits:** 18

**Matriculation Requirements:**
1. Admitted to a bachelor degree program at UVU.

**Discipline Core Requirements:** 9 Credits

- EDSC 455G Secondary Curriculum Instruction and Assessment GI 3
- EDSC 4850 Student Teaching Secondary 8
- EDSC 4990 Teacher Performance Assessment Project WE 2

Elective Requirements: 16 Credits
- Complete 16 credits of any courses 1000-level or higher.

Notes:
1. Requires ASL skills equivalent to those expected at the completion of ASL 202G Intermediate American Sign Language II HH GI. See advisor for more information.

Graduation Requirements:
1. Complete a minimum of 120 credit hours with a minimum of 40 upper-division credits.
2. Overall Grade of 3.0 (B) or above with no grade lower than a C or better in major required content courses and no grade lower than a B- in Licensure and Methods courses.
3. Completion of General Education, ASL & Deaf Studies core, and elective requirements.
4. Meet residency and maximum years in program requirements and any other requirements stated in the University Catalog or established by the department.
5. Successful completion of at least one Global/Intercultural course.

Notes:
1. Students should frequently review their program with faculty or department advisor.
2. Any grade below a C (2.0) in an ASL & Deaf Studies core or elective course will not be accepted toward the major. Students
must maintain an overall GPA of 3.0 or higher and meet all other graduation requirements stipulated in the university catalog. Post-BA/BS students must take 30 hours of education courses, fulfill the MATH 1050 College Algebra QL or MATH 1055 College Algebra with Preliminaries QL requirement, and meet all stipulated deadlines.

ASL and Deaf Studies Education, B.A.

Careers

Program Learning Outcomes

1. Student will be able to negotiate meaning with individuals via speaking, writing, or reading at the Advanced Mid rating of the ACTFL proficiency levels.
2. Students will be able to interpret meaning in either oral or written forms with no recourse to active negotiation of meaning with the writer, speaker, or producer at the Advanced Mid rating of the ACTFL proficiency levels.
3. Students will be able to create messages that can be interpreted by members of the target language with no recourse to active negotiation of meaning with the writer, speaker, or producer at the Advanced Mid rating of the ACTFL proficiency levels.
4. Students will be able to use cultural knowledge to conform linguistically and behaviorally in many social and work-related interactions at the Advanced Level of the ACTFL proficiency levels.
5. Students will be able to apply pedagogical/interpreting theories, knowledge & skills.

Deaf Studies - General Deaf Studies Emphasis, B.A.

Requirements

This four-year degree is a liberal arts degree that provides in-depth study into all facets of the Deaf-World. Students choose among two emphases. There is no special application process, but students should declare their major by contacting the academic advisor for the Languages Department.

This emphasis provides an opportunity for students to gain advanced ASL skills and thorough knowledge of the Deaf-World. Graduates with this emphasis will be prepared to work in various fields related to deafness. They will also work in fields that are not specifically tied to deafness. This emphasis is also terrific preparation for graduate school in any number of disciplines.

6. Requires ASL skills equivalent to those expected at the completion of ASL 1020 Beginning American Sign Language II LH. See advisor for more information.
7. Requires ASL skills equivalent to those expected at the completion of ASL 202G Intermediate American Sign Language II HH GI. See advisor for more information.

**Graduation Requirements:**

1. 120 credit hours (minimum of 40 upper division).
2. Minimum cumulative G.P.A. of 2.0, with no grade lower than a "C" for all core and ASL elective requirements.
3. Completion of General Education requirements.
4. Completion of Deaf Studies major core and elective requirements.
5. Completion of one of the two emphases.
6. Residency hours--minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
7. Successful completion of at least one Global/Intercultural course.
8. Successful completion of at least two Writing Enriched courses.

**Deaf Studies - Interpreting Emphasis, B.A.**

**Requirements**

This four-year degree is a liberal arts degree that provides in-depth study into all facets of the Deaf-World. Students choose among two emphases. There is no special application process, but for students to qualify for the Interpreting emphasis, they will need to pass ASL 3060 American Sign Language Proficiency. Students should declare their major by contacting the academic advisor for the Languages Department.

Currently there is a significant shortage of professional interpreters working with Deaf and hard-of-hearing American Sign Language-using populations across the United States. The Interpreting Emphasis provides training and focus for students to develop professional bidirectional interpreting skills for obtaining state, regional, and national interpreting certifications.

Product Management, Certificate of Proficiency Careers

1. Analyze quantitatively and qualitatively customer needs that inform product development.
2. Determine which firm constraints should inform product development.
Marketing, Minor

Requirements

The Marketing Department offers students three different tracks in the marketing minor, each providing a theoretical and in-depth professional preparation in the field. The first is the Marketing Management track, which provides a broad base of experiential classes and the most flexibility in scheduling for employed students. The second is the Digital Marketing track, which provides courses in internet marketing, social media, and web analytics. The newest track is Professional Selling, which prepares students for a career in sales with courses in personal selling, sales management, and sales analytics. Whichever track is chosen, a professional internship is highly encouraged.

- MKTG 483R Digital Marketing Internship (1-3) 3

Complete 12 credits of any foreign language course 1010, 1020, 2010 sequence 12

Complete 2 elective credits 1000 or higher. 2

### Notes:

1. Cannot be taken until student is matriculated.
2. Students will be required to complete My Educator with 80% or higher or IM 2010, or IM 2600 with a grade of B- or higher.
3. Maximum of 3 credits of internship count toward marketing electives.

### Graduation Requirements:

1. Completion of a minimum of 120 semester credits required in the BA degree; at least 40 credit hours must be upper-division courses.
2. Overall grade point average 2.0 or above with a minimum of 2.5 GPA in all Woodbury School of Business courses. No grade lower than a "C-" in core and specialization courses.
3. Residency hours: Minimum of 30 credit hours of business courses through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Successful completion of at least one Global/Intercultural course.

### Matriculation Requirements

1. Students will be limited to 9 hours of upper-division credit until matriculation is completed.
2. Students must complete the following courses in order to matriculate: ACC 2110, ECON 2010, MyEducator or IM 2010 or IM 2600, MKTG 220G, MKTG 2390, MGMT 2340, MGMT 2400.
3. Students cannot take the following courses until they have matriculated: FIN 3100, MGMT 3450, MGMT 4860, MKTG 4650.

### General Education Requirements: 35 Credits

### Marketing, B.S.

#### Course Catalog 2023-2024

##### Distribution Courses:
- **ECON 2010** Principles of Economics I SS (fulfills Social/Behavioral Science credit) 3
- **Biology** 3
- **Physical Science** 3
- **Additional Biology or Physical Science** 3
- **Humanities Distribution** 3
- **Fine Arts Distribution** 3

#### Discipline Core Requirements: 52 Credits

##### Business Foundation Courses:
- **ACC 2110** Principles of Accounting I 3
- **My Educator** 2
  - or **IM 2010** Business Computer Proficiency (3) 2
  - or **IM 2600** Spreadsheet Applications (3) 2

#### Business Core Courses:
- **FIN 3100** Principles of Finance 1 3
- **MKTG 3600** Principles of Marketing 3
- **MGMT 3000** Organizational Behavior WE 3
- **MGMT 3450** Operations Management 1 3
- **ENTR 493R** Entrepreneurship Lecture Series (1)
  - or **MGMT 495R** Executive Lecture Series 1
- **MGMT 4860** Business Strategy Formulation and Implementation 1 3

#### Marketing Core Courses:
- **MKTG 1890** Introduction to Careers in Business 1
- **MKTG 3890** Business Career Strategy 2
- **MKTG 3300** Marketing Analytics 3
- **MKTG 3650** Professional Selling 3
- **MKTG 3660** Digital Marketing 3
- **MKTG 3700** Fundamentals of Product Management 3
- **MKTG 4600** Customer Experience 3
- **MKTG 4650** Marketing Management Capstone 1 3

#### Elective Requirements: 33 Credits

- Complete 15 credits of marketing electives from the following list. 4 15
  - **MKTG 3170** Digital Advertising (3)
  - **MKTG 3220** Retail Management (3)
  - **MKTG 335G** International Marketing GI (3)
  - **MKTG 3460** Internal Marketing and Corporate Imaging (3)
  - **MKTG 3620** Consumer Behavior (3)
  - **MKTG 3630** Services Marketing (3)
  - **MKTG 3640** Sales Management (3)
  - **MKTG 3670** Advertising and Promotion (3)
  - **MKTG 3680** Marketing with Social Media (3)
  - **MKTG 3685** Content Marketing (3)
  - **MKTG 3690** Digital Marketing Analytics (3)
  - **MKTG 4300** Marketing Data Science (3)
  - **MKTG 4400** Competitive Intelligence (3)
  - **MKTG 4610** Sales Operations (3)
  - **MKTG 4620** Advanced Professional Selling (3)
  - **MKTG 459R** Advanced Topics in Marketing (1-3)

Complete 3 credits of internship: 3 3
- **MKTG 481R** Marketing Internship (1-3) 3
- **MKTG 482R** Sales Internship (must be taken three times) (1-4) 3
- **MKTG 483R** Digital Marketing Internship (1-3) 3

Select 15 elective credits 1000 or higher. 15

#### Notes:
1. Students must be matriculated before taking this course.
2. Students will be required to complete My Educator with a score of 80% or higher or IM 2010 Business Computer Proficiency or IM 2060 Spreadsheet applications with a grade of B- or higher.
3. Maximum of 3 credit hours of internship count toward marketing electives.
4. It is encouraged that students use these 15 credits of marketing electives to earn a marketing certificate in professional selling, product management, or digital marketing.
5. Students will be required to complete MKTG 220G with a grade of B- or higher.

#### Graduation Requirements:
1. Completion of a minimum of 120 semester credits required in the BS degree; at least 40 credit hours must be upper-division courses.
2. Overall grade point average 2.0 or above with a minimum of 2.5 GPA in all Woodbury School of Business courses. No grade lower than a “C-” in core and specialization courses.
3. Residency hours: Minimum of 30 credit hours of business courses through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Successful completion of at least one Global/Intercultural course.

NOTE: Students will be limited to 9 hours of upper-division credit until matriculation is completed.

#### Marketing, B.S.

##### Careers

1. Analyze quantitatively and qualitatively market conditions for insights that inform marketing strategy, campaigns, and plans.
2. Develop effective marketing plans and campaigns that account for customer differences and preferences, competition, and the impact of other relevant market factors.
3. Improve a customer solution through the effective use of product management best practices.
4. Create a digital marketing campaign that effectively employs digital advertising, social media, and analytics.
5. Apply a sales approach using customer-centric sales principles.
6. Coordinate a significant team marketing project for a business client.
7. Communicate analysis, decisions, campaigns, and plans to stakeholders effectively.

Master of Arts in Marriage and Family Therapy Graduate Programs

Marriage and Family Therapy Graduate Program

The Master of Arts in Marriage and Family Therapy Graduate Program is in the College of Humanities and Social Sciences. To find the most up-to-date information, including Program Learning Outcomes for the Marriage and Family Therapy Graduate Program, visit their website.

Course Descriptions

Degrees & Programs

Marriage and Family Therapy, M.A.

Requirements

The Master in Marriage and Family Therapy (MFT) trains students to be professionally competent in the field of marriage and family therapy. Through the application of systemic theories, skills, and ethics, students are prepared to serve a diverse client population. Students who successfully complete the program, including academic course work and supervised clinical practica, will be eligible for employment and licensure as an Associate Marriage and Family Therapist in the state of Utah. This program is offered in collaboration with the Behavioral Science Department and the family science undergraduate degree.

Total Program Credits: 54

Matriculation Requirements:

1. Completion of a bachelor's degree from a regionally-accredited college/university, a nationally accredited program, or an international college or university recognized by a Ministry of Education.
2. Admission to the Marriage and Family Therapy, M.A. program.

Discipline Core Requirements: 54 Credits

Complete the following courses:

</tr>
</tbody>
</table>

Graduation Requirements:

1. Complete 54 credits with a minimum GPA of 3.0 with a B- or higher in every class.
2. Complete program clinical and supervision hour requirements.
3. Complete program capstone requirements demonstrating achievement of student learning outcomes.
4. 42 credits must be taken at UVU. No more than 12 transfer credits will be accepted.

Marriage and Family Therapy, M.A.

Careers

1. Differentiate and apply foundational relational/systemic practice, theories and models.
2. Conduct systemic/relational assessment and treatment with individuals, couples and families.
3. Articulate the impact of human development (including ethnicity, gender and sexual identity on biopsychosocial health across the lifespan.
4. Demonstrate understanding of professional identity and adherence to the law, ethics and social responsibility.
5. Investigate research methodology and data analysis and synthesize evidence based practice in MFT.
6. Review contemporary issues in MFT, including: current intersections of knowledge and practice, community intersections and collaboration, and clinical business development.
7. Demonstrate competence in applying MFT skills within the local community.

Mathematics, A.S.

Requirements

The AA and AS mathematics programs are intended to prepare students for the pursuit of a bachelor's degree. Those intending to transfer to other institutions should check transferability of courses with the institutions to which they intend to transfer. Following are the key knowledge, skill and ability goals of the AA and AS mathematics program: Knowledge of calculus, differential equations and linear algebra. The ability to communicate mathematics clearly, both verbally and in writing.

Total Program Credits: 60

Mathematics, Minor

Requirements

The mathematics minor can be combined with a variety of degrees throughout the university.

Total Program Credits: 24

Matriculation Requirements:

1. Admitted to a bachelor degree program at UVU.

Discipline Core Requirements: | 24 Credits
| MATH 1210 Calculus I QL | 4 |
| or MATH 121H Calculus I QL | |
| MATH 1220 Calculus II | 4 |
Mathematics

or MATH 122H Calculus II
MATH 2210 Calculus III 4
or MATH 221H Calculus III
MATH 2270 Linear Algebra 3
MATH 2280 Ordinary Differential Equations 3

Choose at least two mathematics courses from the mathematics courses numbered 3210 and above 6

Notes:
1. Elective courses may NOT include MATH 4030, MATH 4040, or MATH 481R.

Graduation Requirements
1. To fulfill the requirements for a mathematics minor, students must achieve a minimum GPA of 2.4 for all attempted work in the seven mathematics courses required for the mathematics minor and have no course grade lower than "C" in any of the seven mathematics courses required for the mathematics minor (substitutions may be granted for some elective courses).

NOTE: The 6-credit pairs of courses, MATH 3210 Complex Variables and MATH 3400 Partial Differential Equations, or MATH 4610 Introduction to Numerical Analysis I and MATH 4620 Introduction to Numerical Analysis II, are recommended for students pursuing majors in the physical sciences, engineering, or computer science. Another recommended pair for computer science majors is MATH 3300 Foundations of Abstract Algebra and MATH 4340 Introduction to Number Theory.

Mathematics, Minor

Careers
2. The ability to communicate mathematics clearly, both verbally and in writing.

Mathematics - Actuarial Science Emphasis, B.S.

Requirements
Mathematics degrees allow for a wide variety of employment options. The following careers are very mathematics centered, though in many cases additional training beyond a mathematics degree (or at least beyond a B.S. Mathematics degree) is needed to qualify for employment in these fields: actuarial work, education, research analysis, cryptology, systems analysis, robotics engineering, design modeling (creating cost efficient models), geomatics engineering, photogrammatism, stock trading, biomathematics, accounting or auditing, population ecology, aspects of forensic analysis and some types of computer programming design. There are also jobs for mathematics graduates in the federal government, mainly in the department of defense. The degree required depends on the type of job in the areas mentioned, and the salary level.

Total Program Credits: 120

Matriculation Requirements:
1. Completion of MATH 1210 Calculus I Ql and MATH 1220 Calculus II (or equivalent) with an overall GPA of 2.5 or better
2. Student must meet with the Math Department advisor and declare an intent to major in Mathematics

General Education Requirements: 39 Credits
ENGL 1010 Introduction to Academic Writing CC 3
or ENGH 1005 Literacies and Composition Across Contexts CC (5)
ENGL 2010 Intermediate Academic Writing CC 3
MATH 1210 Calculus I QL 4
or MATH 121H Calculus I QL (4)

Complete one of the following:
HIST 2700 US History to 1877 AS (3)
and HIST 2710 US History since 1877 AS (3)
HIST 1700 American Civilization AS (3)
HIST 1740 US Economic History AS (3)
POLS 1000 American Heritage SS (3)
POLS 1100 American National Government AS (3)

Complete the following:
PHIL 2050 Ethics and Values IH 3
HLTH 1100 Personal Health and Wellness TE (2)
or EXSC 1097 Fitness for Life TE 2

Distribution Courses:
Biology 3
PHYS 2210 Physics for Scientists and Engineers I PP 4
PHYS 2215 Physics for Scientists and Engineers I Lab 1
PHYS 2220 Physics for Scientists and Engineers II PP (4) (Required for Mathematics and Applied Mathematics Emphasis)
and PHYS 2225 Physics for Scientists and Engineers II Lab (1) (Required for Mathematics and Applied Mathematics Emphasis)
or One other Biology or Physical Science Distribution (Required for Applied Mathematics Emphasis) 3

Humanities 3
Fine Arts 3
Social/Behavioral Science 3

Discipline Core Requirements: 31 Credits

Complete the following:
CS 1400 Fundamentals of Programming 3
STAT 2050 Introduction to Statistical Methods 4
STAT 2060 Introduction to Statistical Computing 1
MATH 1220 Calculus II 5
or MATH 122H Calculus II (5)

### Notes:

1. Students planning to do graduate work in mathematics should take both of the year-long sequences MATH 4210 Advanced Calculus I, MATH 4220 Advanced Calculus II, and MATH 4310 Introduction to Modern Algebra I, MATH 4320 Introduction to Modern Algebra II, and acquire a reading knowledge of at least one foreign language chosen from French, German, or Russian.
2. Elective courses may NOT include MATH 3100, MATH 3200, MATH 3010, MATH 3030, MATH 4030, or MATH 4040.
3. Requires completion of a prerequisite course, which fulfills elective requirements.

### Graduation Requirements:

1. Completion of a minimum of 120 semester credits with at least 40 credit hours in upper-division courses.
2. Overall grade point average of 2.0 (C) or above, a minimum GPA of 2.4 in all MATH and STAT courses listed above, with no grade lower than a "C" in all listed PHYS, STAT, and MATH courses (substitutions may be granted for some elective courses).
3. Residency hours—minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of general education and specified departmental requirements.
5. Complete an exit survey administered by the Mathematics Department Advisor.
6. Successful completion of at least one Global/Intercultural course.

### Mathematics - Actuarial Science Emphasis, B.S.

#### Careers

1. Knowledge of calculus, real analysis, differential equations, linear algebra, probability and statistics, economics, accounting principles, financial mathematics, actuarial models, regression analysis and broad knowledge base of other elective topics that could include topics such as optimization, numerical analysis, partial differential equations, and graph theory.
2. The ability to apply risk modeling to solve pricing, reserving, and other actuarial problems, particularly in the insurance industry, the ability to formulate and understand each risk model, and the ability to pass the two introductory actuarial exams.
3. The ability to communicate mathematics effectively, both verbally and in writing, expressing clear logical expositions of assumptions and risk models used to come to conclusions about prices, reserves, and risk measures.

### Related Careers

- Natural Sciences Managers
- Mathematicians
- Statisticians
- Mathematical Science Occupations, All Other
- Mathematical Science Teachers, Postsecondary
- Secondary School Teachers, Except Special and Career/Technical Education

### Mathematics - Applied Mathematics Emphasis, B.S.

#### Requirements

Mathematics degrees allow for a wide variety of employment options. The following careers are very mathematics centered, though in many cases additional training beyond a mathematics degree (or at least beyond a B.S. Mathematics degree) is needed to qualify for employment in these fields: actuarial work, education, research, analysis, cryptography, systems analysis, robotics engineering, design modeling (creating cost efficient models), geomatics engineering.
photogrammatism, stock trading, biomathematics, accounting or auditing, population ecology, aspects of forensic analysis and some types of computer programming design. There are also jobs for mathematics graduates in the federal government, mainly in the department of defense. The degree required depends on the type of job in the areas mentioned, and the salary level.

3. Requires completion of a prerequisite course, which fulfills elective requirements.

4. Elective courses may NOT include MATH 3100, MATH 3200, MATH 3010, MATH 3030, MATH 4030, or MATH 4040.

Graduation Requirements:

1. Completion of a minimum of 120 semester credits with at least 40 credit hours in upper-division courses.
Mathematics

2. Overall grade point average of 2.0 (C) or above, a minimum GPA of 2.4 in all MATH and STAT courses listed above, with no grade lower than a "C" in all listed PHYS, STAT, and MATH courses (substitutions may be granted for some elective courses).
3. Residency hours—minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of general education and specified departmental requirements.
5. Complete an exit survey administered by the Mathematics Department Advisor.
6. Successful completion of at least one Global/Intercultural course.

Mathematics - Mathematics Emphasis, B.S.

Careers

1. Knowledge of calculus, real and complex analysis, differential equations, linear and abstract algebra, basic probability, and a broad knowledge base of other elective topics including topology, geometry, number theory, numerical analysis and statistics.
2. An awareness of how to apply and model real situations with mathematics, and the ability to formulate and understand logical arguments.
3. The ability to communicate mathematics effectively, both verbally and in writing, expressing clear logical proofs of mathematical hypotheses and constructing well defined counterexamples to false statements.

Mathematics Education, B.S.

Requirements

The Secondary Education – Mathematics major is designed for students who plan to teach Mathematics at middle, junior or high school level or for graduate studies in the field. The degree will prepare students to become state certified to teach the subject at any secondary level and help to address shortages of secondary Math educators in Utah. Graduates will not only understand the art of teaching but also have a deep content knowledge of Mathematics. Graduates of this program are able to accurately interpret and translate pictorial and descriptive information into mathematical statements; solve problems quantitatively and communicate results clearly; demonstrate understanding of numeric, algebraic and geometric reasoning; and, demonstrate computational skills in areas of applied mathematics.

Total Program Credits: 120

Matriculation Requirements:

1. Completion of MATH 1210 Calculus I QL, MATH 1220 Calculus II, and MATH 2210 Calculus III with a 3.0 GPA.
2. Completion of MATH 2040 Principles of Statistics QL with a grade of "B-" or higher.
3. ENGL and MATH QL courses must have a grade C or higher.
4. GPA of 3.0 or higher with no grade lower than a C in content area courses.
5. Completion of all General Education requirements and 70% of content area courses.
6. Pass LiveScan Criminal Background Check.

3. Must be completed with a grade of B- or higher

Graduation Requirements:
1. Completion of a minimum of 120 semester credits with at least 40 credit hours in upper-division courses.
2. Overall Grade of 3.0 (B) or above with no grade lower than a C or better in MATH or STAT courses and no grade lower than a B- in EDSC or EDSP courses.
3. Residency hours -- minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Completion of Math Department Exit Survey.
6. Successful completion of at least one Global/Intercultural course.

Mathematics Education, B.S.

Careers
1. Understand deeply the mathematics they will teach in the future; become familiar with the National Council of Teachers of Mathematics (NCTM) Principles and Standards for School Mathematics;
2. Apply national and state standards for mathematics education to develop content-appropriate lessons;
3. Use and compare different assessment techniques; develop a disposition favoring continual gathering and use of information about their students' mathematical understandings;
4. Appropriately and responsibly use technology to enhance opportunities for students' mathematical thinking;
5. Understand the development of mathematics through numerous and varied experiences related to the cultural, historical, and scientific evolution of mathematics;
6. Learn to use their mathematics and pedagogy knowledge flexibly in authentic situations through field experiences with secondary students under the supervision of highly qualified, experienced teachers and university supervisors.

Statistics, B.S.

Requirements
The Department of Mathematics is pleased to offer a B.S. degree in Statistics. Statisticians assist in the collection and analysis of data thus providing decision makers information on which to base decisions. Knowledge of statistics and data handling helps students in almost every discipline. There are many opportunities in the job market for students with a degree in Statistics, and the program is ideal as preparation for a graduate degree in Statistics in any major university. The degree offers a wide variety of applied and theoretical courses in statistics, including statistical computing using both SAS and R programming.

Total Program Credits: 120

Matriculation Requirements:
1. Completion of MATH 1210 Calculus I QL and MATH 1220 Calculus II (or equivalent) with an overall GPA of 2.5 or better
2. Student must meet with the math department advisor and declare an intent to major in statistics.

Complete 9 hours of upper level MATH or STAT courses 9

Elective Requirements: 33 Credits

Complete 9 credits of upper division electives 9

Complete 24 credits of upper or lower division electives 24

Notes:
1. Elective courses may NOT include MATH 3100, MATH 3200, MATH 3010, MATH 3030, MATH 4030, or MATH 4040.

Graduation Requirements:
1. Completion of a minimum of 120 semester credits with at least 40 credit hours in upper-division courses.
2. Overall grade point average of 2.0 (C) or above, a minimum GPA of 2.4 in all MATH and STAT courses listed above, with no grade lower than a "C" in all listed MATH and STAT courses (substitutions may be granted for some elective courses).
3. Residency hours- minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Complete an exit survey administered by the Mathematics Department Advisor.
6. Successful completion of at least one Global/Intercultural course.

Statistics, B.S.

Careers

1. Demonstrate depth and breadth of understanding of statistics in core and elective areas through careful analysis.
2. Apply statistical reasoning and analysis in content specific (scientific) areas.
3. Communicate results of statistical analyses to a wide audience.
4. Use modern statistical software to support statistical analyses and promote understanding.

Degrees & Programs

Master of Science - Mathematics Education, M.S.

Requirements

The Master of Science in Mathematics Education (MS-MEd) is designed for individuals interested in strengthening their understanding of mathematics, statistics, and educational theory and practice in order to enrich their own teaching of mathematics and statistics. Completion of the program will also qualify individuals to teach concurrent enrollment courses and to teach at some community colleges and universities. For college-level academic concurrent enrollment (dual-credit) courses, the Utah Valley University Mathematics Department requires that instructors have a master’s or doctoral degree with 18 graduate hours in mathematics or statistics. However, the MS-MEd does not lead to a teaching license. The program is flexible to serve the needs of in-service teachers.

Total Program Credits: 30

Matriculation Requirements:

1. Admission to the Graduate Program.
2. A bachelor’s degree from a regionally accredited institution, equivalent undergraduate coursework to the Mathematics Endorsement 4, and at least two years of teaching experience.
3. A passing score on the Entrance Exam or MATH 6000 Mathematics Core Review.

Discipline Core Requirements: 30 Credits

Graduation Requirements:

1. Completion of a minimum of 30 credits.
2. Overall grade point average of 3.0 (B) or above.
3. Residency hours -- minimum of 21 credit hours through course attendance at UVU.
4. Courses and project requirements must be finished within a five-year period. No courses will apply toward graduation which are older than five years.
5. Individual grade of C or higher in all coursework applied toward the degree.

Master of Science - Mathematics Education, M.S. Careers

1. Offer improved math instruction based on a solid foundation of graduate mathematics content and best practices for teaching strategies and technologies.
2. Implement problem-based, technology-intensive and student focused instruction by achieving the necessary breadth of expertise, skills, and professional disposition.
3. Teach mathematical concepts more effectively to secondary students from varied backgrounds and with diverse goals, from the broader, deeper, and more advanced perspectives provided by their course and project work.
4. Solve problems arising from a variety of other disciplines using mathematical methods of formulation, computation, and analysis.
5. Design learning environments and curricula that can be immediately incorporated in classroom lessons, based on the expert knowledge they have gained.

Mathematics, Graduate Certificate

Requirements

The Graduate Certificate in Mathematics aims to improve mathematics education and student achievement by focusing on two specific research-supported areas. First, by delivering high-quality content-based knowledge critical to student achievement, and second, by targeting in-service teachers who desire to teach dual credit in high school, given that dual-credit/dual-enrollment students are more likely to persist in college and are more likely to complete a bachelor’s degree in less time than those who did not attempt college credits in high school. Graduate courses for this program will be available to match in-service teacher’s schedules—e.g., evenings and during summer sessions—taught on the main campus and live-interactive by Utah Valley University’s full-time faculty.

Total Program Credits: 18

Degrees & Programs

Music, A.S.

Requirements
The Associate in Science in Music is a two-year program that offers foundational studies in musicianship and performance. Prepares students for continuation in a four-year degree program in music.

Total Program Credits: 63

Matriculation Requirements:
1. Pass performance audition and interview with music faculty.
2. Complete music theory diagnostic exam. Students who do not earn at least 80% on the music department theory diagnostic exam must complete MUSC 1105 before MUSC 1110.

Music

Student must pass the Departmental Keyboard Proficiency Examination or complete MUSC 1150, MUSC 1160, MUSC 2150, and MUSC 2160.

Graduation Requirements:
1. Completion of a minimum of 63 semester credits.
2. Overall grade point average of 2.0 (C) or above. MUSC 250R Private Lessons for Music Majors requires a grade B or higher. All other MUSC courses require a C grade or higher.
3. Residency hours: minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements, including a sophomore review and concert attendance requirements.

Music, A.S.

Careers

1. Performance: Students will perform music on a primary instrument or voice from a broad historical and stylistic range of solo and ensemble repertoire with technique, accuracy, expressivity, stage presence, and creativity
2. Aural and Visual Analysis: Students will identify musical elements and organizational patterns through aural and visual analysis
3. Keyboard Skills: Students will demonstrate proficiency in keyboard techniques and fingerings through the performance of scales, sight-reading, prepared musical pieces, harmonization, and improvisation.

Collaborative Piano-Chamber Music, Certificate of Proficiency

Requirements

The Certificate of Proficiency in Collaborative Piano-Chamber Music is a one-year program designed to provide further education for pianists interested in collaborating with instrumentalists. The program provides a thorough education in all aspects of piano technique related to instrumentalist accompanying, including strings, woodwinds, brass, and percussion. The degree is open to current UVU students and local pianists seeking to refine their collaborative piano skills through instrumental literature.

Total Program Credits: 16

Matriculation Requirements:
1. Complete entrance audition with music department faculty.

Discipline Core Requirements:
- MUSC 245R Private Lessons II (Piano)
- MUSC 245R Private Lessons II (Voice)
- MUSC 2001 Diction for Singers I
- MUSC 2002 Diction for Singers II
- MUSC 3005 Vocal Literature I
- MUSC 3006 Vocal Literature II
- GER 1010 and GER 1020 Beginning German I and II
- or FREN 1010 and FREN 1020 Beginning French I and II

Notes:
- See advisor for course recommendation.

Graduation Requirements:
1. Completion of a minimum of 16 semester credits.
2. Overall grade point average of 2.0 (C) or above. MUSC 250R requires a grade B or higher. All other MUSC courses require a C grade or higher.
3. Residency hours: minimum of 4 credit hours through course attendance at UVU.

Collaborative Piano-Vocal Coaching, Certificate of Proficiency

Careers

Program Learning Outcomes
1. Aural literacy. Demonstrate with competency the ability to apply the elements of music in performance contexts with other musicians.
2. Professional excellence. Demonstrate with competency the ability to accompany an instrumental soloist or chamber ensemble in a way that reflects a professional level of aptitude and knowledge of technical and artistic skill sets.
3. Creative diversity. Demonstrate with competency the ability to include individual expression in instrumental repertoire to communicate and express unique ideas.

Graduation Requirements:

1. Completion of a minimum of 121 semester credits, 40 credits must be upper-division.
2. Overall grade point average of 2.0 (C) or above. MUSC 250R Private Lessons for Music Majors and MUSC 360R Commercial Music Private Lessons require a grade B or higher. All other MUSC courses require a C grade or higher.
3. Residency hours- minimum of 30 credit hours through course attendance at UVU, with at least 10 hours in the last 45 hours.
4. Completion of GE and specified departmental requirements, including a sophomore review and concert attendance requirements.
5. Successful completion of at least one Global/Intercultural course.

Commercial Music, B.M.

Careers

1. Analyze the elements, forms, and processes in music.
2. Evaluate the elements, forms, and processes in music.
3. Describe the major historical periods, composers, styles, and genres of music.
4. Categorize the major historical periods, composers, styles, and genres of music.
5. Assess the major historical periods, composers, styles, and genres of music.
6. Develop musical judgements and self-assess their efforts.
7. Defend musical judgements.
8. Perform associated repertoire with technical proficiency and artistic expression on their instrument or voice.
9. Use collaboration skills in making music.
10. Apply music technology to various commercial music contexts.

**Related Careers**
- Art, Drama, and Music Teachers, Postsecondary
- Music Directors and Composers
- Sound Engineering Technicians

**Music Education, B.S.**

**Requirements**
The Bachelor of Science in Music Education degree provides students with the competencies essential for a professional career in music secondary education.

**Total Program Credits: 129**

**Matriculation Requirements:**

<table>
<thead>
<tr>
<th>For acceptance to the B.S. Music Education degree:</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Pass performance audition and interview with music faculty.</td>
</tr>
<tr>
<td>2. Complete music theory diagnostic exam. Students who do not earn at least 80% on the music department theory diagnostic exam must complete MUSC 1105 before MUSC 1110.</td>
</tr>
</tbody>
</table>

Students will apply for formal admission to the Secondary Ed program in the semester prior to the beginning of their junior year. Admission criteria include:

| 1. ENGL and MATH QL courses must have a grade C or higher. |
| 2. GPA of 3.0 or higher with no grade lower than a C in content area courses. |
| 3. Completion of all General Education requirements and 70% of content area courses. |
| 4. Pass LiveScan Criminal Background Check. |

**Graduation Requirements:**
1. Completion of a minimum of 129 semester credits.
2. Overall Grade of 3.0 (B) or above with no grade lower than a C or better in major required content courses and no grade lower than a B- in Licensure and Methods courses.
   a. MUSC 250R Private Lessons for Music Majors and MUSC 450R Advanced Private Lessons for Music Majors courses require a grade B or higher.
   b. MUSC 4220 Choral Literature and Methods, MUSC 4221 Advanced Choral Literature and Methods, MUSC 4360 Instrumental Literature and Methods, and MUSC 4370 Advanced Instrumental Literature and Methods require a grade B- or higher.
3. Residency hours: minimum of 34 credit hours through course attendance at UVU, with at least 10 hours in the last 45 hours.
4. Completion of GE and specified departmental requirements, including a sophomore review, 30-minute senior recital, and concert attendance requirements.
5. Successful completion of at least one Global/Intercultural course.

**Music Education, B.S. Careers**
1. Performance: Students will perform music on a primary instrument or voice from a broad historical and stylistic range of solo and ensemble repertoire with technique, accuracy, expressivity, stage presence, and creativity
2. Aural and Visual Analysis: Students will identify musical elements and organizational patterns through aural and visual analysis
3. Music History: Students will demonstrate the application of knowledge related to the history of music, including various time periods, historical figures, styles and genres in Western and non-Western musical traditions.
4. Keyboard Skills: Students will demonstrate proficiency in keyboard techniques and fingerings through the performance of scales, sight-reading, prepared musical pieces, harmonization, and improvisation.
5. Scoring and Arranging: Students will create coherent and artistic arrangements for instrumental and/or vocal ensembles using industry standard music notation software.
6. Literature, Methods, and Teaching: Students will demonstrate an understanding of literature, methodology, and administration of a school choral or instrumental program. Students will demonstrate proficiency in teaching skills including classroom management, rehearsal techniques, creating assessments for instruction to various ages and skill levels, and the ability to diagnose and correct musical and technical faults.
7. Conducting: Students will demonstrate clarity and expressivity in conducting gesture (with and without baton), proficiency in score reading, and communicating musical ideas to an ensemble.

**Elective Requirements:** 29 Credits
- Complete any courses 1000 level or higher (may not include MUSC courses) (at least 9 credits must be upper-division, see graduation requirements)

### Graduation Requirements:

1. Completion of a minimum of 120 semester credits, 40 credits must be upper-division.
2. Overall grade point average of 2.0 (C) or above. MUSC 250R Private Lessons for Music Majors and MUSC 450R Advanced Private Lessons for Music Majors courses require a grade B or higher. All other MUSC courses require a C grade or higher.
3. Residency hours: minimum of 30 credit hours through course attendance at UVU, with at least 10 hours in the last 45 hours.
4. Completion of GE and specified departmental requirements, including a sophomore review and concert attendance requirements.
5. Successful completion of at least one Global/Intercultural course.

### Music, B.S.

#### Careers

1. Performance: Students will perform music on a primary instrument or voice from a broad historical and stylistic range of solo and ensemble repertoire with technique, accuracy, expressivity, stage presence, and creativity
2. Aural and Visual Analysis: Students will identify musical elements and organizational patterns through aural and visual analysis
3. Music History: Students will demonstrate the application of knowledge related to the history of music, including various time periods, historical figures, styles and genres in Western and non-Western musical traditions.
4. Keyboard Skills: Students will demonstrate proficiency in keyboard techniques and fingerings through the performance of scales, sight-reading, prepared musical pieces, harmonization, and improvisation.

#### Related Careers
- Secondary School Teachers, Except Special and Career/Technical Education
- Musicians and Singers

### Performance, B.M.

#### Requirements

The Bachelor of Music in Performance degree prepares students for performance-related work and studio teaching. In addition to standard courses that focus on performance skills, it includes courses relevant to the music industry such as entrepreneurship, music technology, and studio recording.

**Total Program Credits: 120**

#### Matriculation Requirements

1. Pass performance audition and interview with music faculty.
2. Complete music theory diagnostic exam. Students who do not earn at least 80% on the music department theory diagnostic exam must complete MUSC 1105 before MUSC 1110.

Individual Musicianship Studies:

- **MUSC 250R** Private Lessons for Music Majors (Repeated 4 times on major instrument or voice) (Includes completion of sophomore review) **4**
- **MUSC 251R** Performance Class (Repeated 4 times on major instrument or voice) (Includes completion of sophomore review) **4**
- **MUSC 455R** Private Lessons for Music Performance Majors (Repeated 4 times on major instrument or voice) **8**
- **MUSC 451R** Performance Class (Repeated 4 times on major instrument or voice) **4**
- **MUSC 3800** Junior Recital **1**
- **MUSC 4800** Senior Recital **1**

Student must pass the Departmental Keyboard Proficiency Examination or complete MUSC 1150, MUSC 1160, MUSC 2150, and MUSC 2160

Large Ensembles:

- **MUSC 322R** Chamber Choir (1)
- **MUSC 327R** Deep Green - Tenor/Bass Choir (1)
- **MUSC 328R** Emerald Singers-Soprano/Alto Choir (1)
- **MUSC 330R** Wind Symphony (1)
- **MUSC 332R** Jazz Orchestra (1)
- **MUSC 370R** Symphony Orchestra (1)

Choose from one of the following performance areas: **24**

**Instrumental Performance/Piano Performance**

- **MUSC 306R** Advanced Keyboard Skills (1) (For Piano Performance area only) (Repeated 4 times)
- **MUSC 3415** Instrumental Pedagogy and Literature I (2)
- **MUSC 3416** Instrumental Pedagogy and Literature II (2)
- **MUSC 373R** Advanced Small Ensembles (1) (Repeated 4 times)

12 credits of music electives for Piano Performance area and 16 credits of music electives for Instrumental Performance area.

**Vocal Performance**

- **MUSC 2001** Diction for Singers I (1)
- **MUSC 2002** Diction for Singers II (1)
- **MUSC 3005** Vocal Literature I (1)
- **MUSC 3006** Vocal Literature II (1)
- **MUSC 423R** Opera Workshop (1) (Repeated 4 times)
- **MUSC 4240** Vocal Pedagogy (2)
- **FREN 1010** Beginning French I LH (4)
- **GER 1010** Beginning German I LH (4)
- **FREN 1020** Beginning French II LH (4)
- **GER 1020** Beginning German II LH (4)

2 credits of music electives for Vocal Performance

**Graduation Requirements:**

1. Completion of a minimum of 120 semester credits, 40 credits must be upper-division.
2. Overall grade point average of 2.0 (C) or above. MUSC 250R Private Lessons for Music Majors and MUSC 455R Private Lessons for Music Performance Majors require a grade B or higher. All other MUSC courses require a C grade or higher.
3. Residency hours- minimum of 30 credit hours through course attendance at UVU, with at least 10 hours in the last 45 hours.
4. Completion of GE and specified departmental requirements, including a sophomore review and concert attendance requirements.
5. Successful completion of at least one Global/Intercultural course.

**Performance, B.M. Careers**

1. Analyze the elements, forms, and processes in music.
2. Evaluate the elements, forms, and processes in music.
3. Describe the major historical periods, composers, styles, and genres of music.
4. Categorize the major historical periods, composers, styles, and genres of music.
5. Assess the major historical periods, composers, styles, and genres of music.
6. Develop musical judgements and self-assess their efforts.
7. Defend musical judgements.
8. Perform associated repertoire with technical proficiency and artistic expression on their instrument or voice.
9. Use collaboration skills in making music.
10. Apply pedagogical skills in their area by appropriately critiquing student work and designing an applicable learning strategy.
11. Perform on their instrument or voice in an exemplary manner that demonstrates a high level of achievement and career potential.

Nursing

Degrees & Programs

Nursing, ASN

Requirements

The UVU Nursing Program is a student-centered engaged learning experience where faculty facilitates learning nursing care through simulation and patient care. The Associate in Science in Nursing (ASN) program prepares the graduate to function individually as a member of the healthcare team in structured healthcare settings in which clients have common health problems. Acceptance into the ASN program is by a competitive, point-based application process. Prerequisite courses must be completed before applying to the program. For more information on applying to the ASN program see our website at www.uvu.edu/nursing or contact the Pre-Nursing advisors in LC 404 at 863-6484. After completing the 4 semesters of the ASN program, students would be eligible to graduate with an ASN and apply to take the NCLEX-RN exam. Graduates of the ASN program would be eligible to remain in the program, and seamlessly transition to the Bachelor of Science in Nursing (BSN) portion of the program. BSN completion takes an additional 2 full time semesters if students have also completed all the GE requirements, ZOOL 4400, and MATH 1040 or MATH 2040.

Total Program Credits: 71

Matriculation Requirements:

1. Acceptance into Nursing program (see Advisor for current prerequisite requirements)

General Education Requirements: 23 Credits

Graduation Requirements:
1. Completion of a minimum of 71 semester credits.
2. Overall grade point average of 2.0 (C) or above. (Departments may require a higher GPA.)
3. Residency hours—minimum of 20 credit hours through course attendance at UVU.
4. Completion of specified departmental requirements

Nursing, ASN Careers
1. Implement skills to meet the individualized needs of patients in healthcare settings.
2. Use established evidence-based nursing protocols in providing nursing care for patients.
3. Use sound judgment and critical reflection of clinical data to prioritize nursing care.
4. Demonstrate professional attributes including commitment to high ethical standards, continuing education and the ability to collaborate with health care teams.
5. Apply standards of quality and safety in clinical practice.
6. Evaluate the effectiveness of nursing care and teaching plans in promoting safety for patients.
7. Integrate and evaluate personal responsibility and accountability in all aspects of nursing practice.

Related Careers
- Nursing Instructors and Teachers, Postsecondary
- Registered Nurses

Nursing, B.S. Requirements
A bachelor of science in nursing degree prepares students to practice across all types of health care settings. A BSN provides the greatest opportunity for advancement in the nursing field. A BSN is also required for entry into most graduate nursing programs including nurse practitioner, certified nurse anesthetist, nursing educator, or nurse researcher. Students interested in the BSN would first need to complete the ASN program. Acceptance into the ASN program is by a competitive, point-based application process. Prerequisite courses must be completed before applying to the program. For more information on applying to the ASN program see ou website at www.uvu.edu/nursing or contact the Pre-Nursing advisors in LC 404 at 863-6484. After completing the 4 semesters of the ASN program, students would be eligible to graduate with an ASN and apply to take the NCLEX-RN exam. Graduates of the ASN program would be eligible to remain in the program, and seamlessly transition to the Bachelor of Science in Nursing (BSN) portion of the program. The BSN at UVU is a completion program and students who are not entering directly from the UVU ASN program must be licensed RNs prior to admission. For more information on entering the program if you are already an RN see the RN to BSN program at www.uvu.edu/nursing.

Total Program Credits: 121

Matriculation Requirements:
1. Associate of Science in Nursing
2. RN licensure complete. Prerequisite coursework:
   a. ENGL 1010 Introduction to Writing or ENGH 1005 Literacies & Composition Across Contexts
   b. Math Quantitative Literacy Course
   c. PSY 1100 Human Development/Life Span
   d. CHEM 1110 Elementary Chemistry
   e. NUTR 1020 Foundations of Human Nutrition
   f. ZOOL 2320 Human Anatomy w/lab
   g. MICR 2060 Microbiology w/lab
   h. ZOOL 2420 Human Physiology w/lab.
3. All prerequisite courses must be completed prior to application. A final grade of C or higher is necessary in all classes except Math Quantitative Literacy
4. Course work must be on an official transcript and articulation into the UVU system by the end of the application period or the application will be considered incomplete
5. Pass/Fail or Credit/No credit grades and ACT scores are not accepted for prerequisite course work. (see Advisor for details)
6. Each application for acceptance into the program is for a specific semester only

Degrees & Programs
Nursing, M.S.N

Requirements
The Master of Science in Nursing program prepares post-baccalaureate nursing students for advanced practice roles as nurse educators in academic settings and/or clinical nurse educators in healthcare institutions. The program includes core courses essential to master-level nursing programs as well as courses designed to prepare nurses to assume roles as academic nurse educators and/or clinical nurse educators. Program content focuses on theoretical foundations of nursing education and leadership; tests and measurements of learning outcomes; curriculum development, implementation and evaluation; and academic and clinical teaching. Program courses provide skills and strategies for facilitation of learning in a variety of settings.

Total Program Credits: 34

Matriculation Requirements:
1. Baccalaureate degree in nursing from a program accredited by a recognized nursing accreditation agency.
2. Current licensure as an RN in Utah or eligible for RN licensure in Utah.
3. Completion of an undergraduate course in statistics to include descriptive and inferential statistics.
4. Application for admission to the MSN program.
5. Overall undergraduate GPA of 3.2 or higher, or GPA of 3.2 or higher in last 60 semester hours of undergraduate coursework.
6. Three professional letters of recommendation.

Discipline Core Requirements: 34 Credits

2. Students will be required to complete the Business Computer Proficiency exam with a score of 80 percent or higher or complete the IM 2010 Business Computer Proficiency course with a score of 80 percent or higher.

Graduation Requirements:

1. Completion of a minimum of 60 semester credits.
2. Overall grade point average of 2.0 (C) or above with no grade below a “C-” in hospitality or other Woodbury School of Business courses.
3. Residency hours-- a minimum of 20 credit hours through course attendance at UVU: at least 16 credits must be in Woodbury School of Business
4. Completion of GE and specified departmental requirements. Students are responsible for completing all prerequisite courses.

Organizational Leadership and Change, Certificate of Proficiency

Requirements

The Organizational Leadership and Change Certificate of Proficiency is an industry certificate that will help both industry professionals interested in bolstering their leadership and change competencies and capabilities, as well as any current UVU student interested in earning a stackable credential on top of their major. Students will learn about ethical decision making within an organizational context, leadership theories and their application to practice, effective people management strategies, and how to effectively lead change initiatives within organizations. Completion of this certificate will allow students to signal organizational leadership and change management expertise to potential or current employers and add organizational leadership and change to round out their portfolio of abilities.

Graduation Requirements:

1. Complete all required credits. 25% of credits must be taken at UVU. Receive a C- or better in all courses with an overall grade point average of 2.0 of above.

Organizational Leadership and Change, Certificate of Proficiency

Careers

1. Comprehension of major legal theories, laws and policies necessary for effective HRM and organizational leadership
2. Effectively respond to organizational opportunities through analytical thinking, problem-solving, ethical awareness, oral and written communications, effective teamwork.
3. Ability to design and strategically implement job design, recruitment, selection, retention, training and development, performance management, organizational development, change management, compensation and benefits, HRIS, and people analytics.

Event Planning, Minor

Requirements

The Minor in Event Planning will require eighteen credit hours of courses currently being offered. The minor provides undergraduate Woodbury Business students an official designation on their transcript, highlighting their specific qualifications in this area. The courses in the minor offer students the opportunity to learn event planning management techniques needed to successfully plan, manage, and execute events. Students who complete these classes will have a clear designation highlighting their preparation for this particular set of skills.

Degrees & Programs

Humanities, A.A.

Requirements

The discipline of humanities is the study of human intellectual and artistic creativity and what the resulting artistic forms reveal about the human experience. This field of study draws on other disciplines such as history, fine arts, literature, intellectual history, music, foreign languages, theology, and philosophy to see how the several artistic forms communicate and work together to give an in-depth record of the meaning of human life in the past and present. The discipline also emphasizes the relationship between the arts, culture, and society. A background in humanities is helpful in preparing for employment in education, business, government, civil and foreign service, tourism, and in preparation for graduate studies.

Elective Requirements: 13 Credits

Any course 1000 level or higher 13

Graduation Requirements:
1. Completion of a minimum of 60 semester credits.
2. Overall grade point average of 2.0 (C) or above. (Departments may require a higher GPA.)
3. Residency hours—minimum of 20 credit hours through course attendance at UVU.
4. Completion of GE and specified departmental requirements.

Humanities, A.S.

Careers

1. Students will formulate complex ideas and persuasive, original arguments in writing and speech, with particular attention to the practice of critical writing.
2. Through the development of skills, students will learn to 1) write and speak effectively communication in a variety of settings (e.g. academic, civic and professional); 2) appropriately use the conventions associated with writing and speaking; 3) acquire an awareness of audience and purpose; and 4) formulate and recognize a coherent problem and a reasonable solution.

other advisor-approved course

Graduation Requirements:
1. Completion of a minimum of 21 credits.
2. Overall grade point average of 2.0 or above.
3. Residency hours -- Minimum of 6 credits required through course attendance at UVU.
Ethics, Certificate of Proficiency

Careers

1. To think critically, creatively, and competently about a broad range of ethical issues.
2. Develop an understanding of how to apply theoretical ethical concepts and principles to real-life situations and conundrums.
3. Make informed, suitable, compassionate ethical decisions.
4. Gain a comprehensive understanding of philosophical ethical theories and the interdisciplinarity of ethics.
5. Ability to work collaboratively with other students.
6. Communicate with clarity and precision verbally and in writing.
7. Research, evaluate, analyze, interpret, and assess ethical theories and practices.

Classical Studies, Minor

Requirements

Classical traditionally refers to the study of language, philosophy, arts, literatures, history, and more of ancient Greece and Rome. At UVU, Classics takes a more global and diverse approach, recognizing that many cultures around the world have had “classical periods” which have shaped their entire pre-modern histories and continue to influence the world today. At present, the Classics minor at UVU offers particular strengths in ancient Greece and China, along with Rome-including language training in Ancient Greek, Classical Chinese, and Latin (with the hope and possibility for more). The program aims to preserve and promote the strengths of traditional Classics while also critically incorporating global and non-Western classical traditions for a more comparative and multicultural approach to ancient civilization, value, the canon, and the very idea of classics.

Total Program Credits: 18

Matriculation Requirements:

1. Completion of 30 hours of credit.

Classical Studies, Minor

Careers

1. Demonstrate knowledge of classical languages (including but not limited to Ancient Greek, Latin, and Classical Chinese) at an advanced level, including the ability to read and translate texts in the original.
2. Evaluate the contribution of classical civilizations to later history—including the modern world—with skills in historical analysis, multicultural awareness, and mental flexibility.
3. Acquire familiarity with the languages, philosophy, visual arts, drama, sports, politics, economics, history, religions, and literatures of ancient civilizations, understanding them in their own context and how they continue to shape contemporary life.
4. Understand classics, antiquity, and culture through comparative and interdisciplinary approaches, emphasizing ancient civilizations as complex systems in a multicultural world.

Environmental Studies, Minor

Requirements

Environmental Studies explores the complex links between human culture and the natural world. The program challenges students to critically examine both the ecological and social context of environmental issues and the numerous connections between natural and social systems, from local to global scales. It is undeniable that...
humans have a profound impact on the environment. To have the greatest positive influence, we must seek knowledge of the structure and function of natural systems, as well as an understanding of how culture affects the way we perceive nature.

Choose an additional 3 credits from any of the courses listed above – OR – complete 3 hours of research credits, service project credits, or internship credits.

**Gender Studies, Minor**

**Requirements**

The Gender Studies minor allows students to study the extent to which gender and gender relations are socially influenced. Students will examine the ways in which conceptions of masculinity and femininity directly impact social and political institutions and practices, cultural expressions (such as art, communication, media, literature, music and film), law, education, business, scientific inquiry, interpersonal relations, sexuality and family. The minor broadens students’ understanding of their chosen major and career path while facilitating the recognition of gender dynamics in their own lives.

1. Overall grade point average of 2.0 (C) or above.
2. Residency hours—minimum of 12 credit hours through course attendance at UVU.

Humanities, Minor

Requirements

The discipline of humanities is the study of human intellectual and artistic creativity and what the resulting artistic forms reveal about the human experience. This field of study draws on other disciplines such as history, fine arts, literature, intellectual history, music, foreign languages, theology, and philosophy to see how the several artistic forms communicate and work together to give an in-depth record of the meaning of human life in the past and present. The discipline also emphasizes the relationship between the arts, culture, and society. A background in humanities is helpful in preparing for employment in education, business, government, civil and foreign service, tourism, and in preparation for graduate studies.

Total Program Credits: 18

Elective Requirements:

Complete 3 credits from the following:

HUM 2010 World History Through the Arts I HH (3)
or HUM 201G World History Through the Arts I HH GI (3)
or HUM 201H World History Through the Arts I HH (3)

Complete 9 credits from the following:

HUM 320R Topics in Humanities (1-3)
HUM 325R Area Studies in Humanities (3)
HUM 330R Period Studies in Humanities (3)
HUM 3800 Aesthetics (3)
HUM 400R Humanism and Posthumanism (3)
HUM 401R Forms and Genres Across the Arts (3)
HUM 414R Advanced Topics in Humanities (3)

Graduation Requirements:
1. Complete all Humanities courses with a grade of 2.0 (C) or better.

Humanities, Minor

Careers

1. Develop strong oral and written communication skills.
2. Develop discipline-specific knowledge and be able to apply that knowledge critically to solve problems using sophisticated methods of inquiry and logic.
3. Demonstrate expertise in research and scholarly activities.
4. Effectively navigate intercultural environments locally to globally.
5. Demonstrate preparation for employment or graduate education.

Related Careers

- Postsecondary Teachers, All Other
Philosophy, Minor

Requirements
Interest in studying philosophy begins with the desire to engage life’s greatest questions: finding the meaning of human existence, making sense of reality and our place in the cosmos, giving systematic form to our ethical and political intuitions, explaining the history of human ideas, and other equally significant problems. Often students wonder how the study of philosophy can provide the foundation for successful and meaningful employment. Contrary to popular belief, a philosophy major is one of the best preparations possible for careers in a large number of different areas. An article in the London Times rightly called philosophy the “ultimate ‘transferable work skill’” insofar as it prepares students for a wide array of practical services. As a group, philosophy majors consistently score at or near the top on standardized tests, gain employment on graduation at higher than average rates, rank highly in median mid-career salary, and enjoy a well-earned reputation for rigorous thinking. In fact, the Association of American Colleges and Universities tells students, “[y]our specific choice of major matters far less than the knowledge and skills you gain through all your studies and experiences in college. In terms of jobs, employers don’t hire majors. They hire individuals with potential to succeed over the long term and add value to their companies or organizations.” The study of philosophy, one of the oldest and most rigorous disciplines, provides students with critical thinking, writing, and arguing skills necessary to succeed in today’s competitive working environments.

Total Program Credits: 18

Matriculation Requirements:
1. Enrollment at Utah Valley University
2. Overall grade point average of a 2.0 (C) or better.
3. Admitted to a bachelor degree program at UVU.

Discipline Core Requirements: 18 Credits
Complete one of the following:
- PHIL 2110 Ancient Greek Philosophy HH WE (3)
- PHIL 2150 Early Modern Philosophy HH (3)

Complete 15 additional credit hours of philosophy courses (9 credit hours must be 3000 level or above; no more than 6 credit hours may be at the 1000 level; Philosophy 2050 does not count for this requirement.) 15

Religious Studies, Minor

Requirements
The Religious Studies minor fosters and facilitates an interdisciplinary approach to the academic study of religion. Due to its influential role at the local, national, and international levels, religion requires careful study utilizing academic methods employed in the examination of other cultural institutions. This includes the study of the history, theology, literature, folklore, etc., of various religions in an effort to study religion as a cultural phenomenon. The program is intended to serve our students and community by deepening our understanding of religious beliefs and practices in a spirit of open inquiry. Its aim is neither to endorse nor to undermine the claims of religion, but to create an environment in which various issues can be engaged from a variety of perspectives and methodologies.

Total Program Credits: 21

Matriculation Requirements:
1. Completion of 30 hours of credit
2. Admitted to a bachelor degree program at UVU.

Discipline Core Requirements: 12 Credits

Humanities, B.A.

Requirements
The discipline of humanities is the study of human intellectual and artistic creativity and what the resulting artistic forms reveal about the human experience. This field of study draws on other disciplines such as history, fine arts, literature, intellectual history, music, foreign languages, theology, and philosophy to see how the several artistic forms communicate and work together to give an in-depth record of the meaning of human life in the past and present. The discipline also emphasizes the relationship between the arts, culture, and society. A background in humanities is helpful in preparing for employment in education, business, government, civil and foreign service, tourism, and in preparation for graduate studies.

Utah Valley University  Course Catalog 2023-2024
Philosophy and Humanities

Complete 9 credits of the following:

- MATH 1050 College Algebra QL (4) (recommended for Business, Education, Science, and Health Professions majors)
- MATH 1055 College Algebra with Preliminaries QL (5)
- MATH 1090 College Algebra for Business QL (3) (recommended for Business majors)

Complete one of the following: 3

- HIST 2700 US History to 1877 AS (3)
- HIST 2710 US History since 1877 AS (3)
- HIST 1700 American Civilization AS (3)
- HIST 1740 US Economic History AS (3)
- POLS 1000 American Heritage SS (3)
- POLS 1100 American National Government AS (3)

Complete the following:

- PHIL 2050 Ethics and Values IH 3
- HLTH 1100 Personal Health and Wellness TE 2
- or EXSC 1097 Fitness for Life TE (2)

Distribution Courses:

- Biology 3
- Physical Science 3
- Additional Biology or Physical Science 3
- Humanities Distribution 3
- Fine Arts Distribution 3
- Social/Behavioral Science 3

Discipline Core Requirements: 36 Credits

- HUM 1010 Humanities through the Arts HH 3
- or HUM 101G Humanities through the Arts HH GI (3)
- or HUM 101H Humanities Through the Arts HH (3)
- HUM 2010 World History Through the Arts I HH 3
- or HUM 201G World History Through the Arts I HH GI (3)
- or HUM 201H World History Through the Arts I HH (3)
- HUM 2020 World History Through the Arts II HH 3
- or HUM 202G World History Through the Arts II HH GI (3)
- or HUM 202H World History Through the Arts II HH (3)
- HUM 3500 Approaches to Humanities WE 3
- HUM 400R Humanism and Posthumanism 3
- HUM 4910 Humanities Capstone WE 3

Complete 3 credits of the following: 3

- HUM 2100 Adventures of Ideas Through 1500 HH (3)
- HUM 210H Adventures of Ideas Through 1500 HH (3)
- HUM 2200 Adventures of Ideas After 1500 HH (3)
- HUM 220H Adventures of Ideas After 1500 HH (3)

Complete 9 credits of the following: 9

- HUM 320R Topics in Humanities (1-3)
- HUM 325R Areas of Study in Humanities (3)
- HUM 330R Period Studies in Humanities (3)
- HUM 3800 Aesthetics (3)

Complete 6 credits of the following: 6

- HUM 401R Forms and Genres Across the Arts (3) (may be repeated for up to 6 credits)
- HUM 414R Advanced Topics in Humanities (3) (may be repeated for up to 6 credits)

Elective Requirements: 49 Credits

- One Foreign Language 16
- Any course 1000 or higher (No more than 6 total credit hours from HUM 281R and HUM 481R) 33

Graduation Requirements:

1. Completion of a minimum of 120 semester credits.
2. Overall grade point average of 2.0 (C) or above.
3. Residency hours--minimum of 30 credit hours through course attendance at UVU, with at least 10 hours earned in the last 45 hours.
4. Completion of GE and specified departmental requirements.
5. Completion of 40 hours of upper-division credit.
6. Completion of 16 credit hours of course work from one language to include the 1010, 1020, 2010, and 202G levels or transferred equivalents.
7. Successful completion of at least one Global/Intercultural course.

Humanities, B.A.

Careers

1. Have strong oral and written communication skills.
2. Develop expertise in research and scholarly activities.
3. Have discipline-specific knowledge and be able to apply that knowledge critically to solve problems using sophisticated methods of inquiry and logic.
4. Effectively navigate intercultural environments locally to globally.
5. Be prepared for employment or graduate education.

Philosophy, B.A.

Requirements

Interest in studying philosophy begins with the desire to engage life's greatest questions: finding the meaning of human existence, making sense of reality and our place in the cosmos, giving systematic form to our ethical and political intuitions, explaining the history of human ideas, and other equally significant problems. Often students wonder how the study of philosophy can provide the foundation for successful and meaningful employment. Contrary to popular belief, a philosophy major is one of the best preparations possible for careers in a large number of different areas. An article in the London Times rightly called philosophy the "ultimate 'transferable work skill'" insofar as it prepares students for a wide array of practical services. As a group, philosophy majors consistently score at or near the top on standardized tests, gain employment on graduation at higher than average rates, rank highly in median mid-career salary, and enjoy a well-earned reputation for rigorous thinking. In fact, the Association of American Colleges and Universities tells students, "[y]our specific choice of major matters far less than the knowledge and skills you gain through all your studies and experiences in college. In terms of jobs, employers don't hire majors. They hire individuals with potential to succeed over the long term and

Physician Assistant Studies ................................................................. 797

Degrees & Programs

Master of Physician Assistant Studies, M.P.A.S.

Requirements

The UVU PA Program is a full-time, 28-month, year-round graduate program, consisting of 95 credit hours completed over 7 semesters. The curriculum structure is specially designed to prepare students with the knowledge, skills, and confidence to become competent PAs who demonstrate interpersonal and communication skills that result in more effective and compassionate patient care.

All MPAS didactic courses are offered and must be fulfilled on location at UVU west campus. There are no provisions for substituting or waiving effective courses.

Total Program Credits: 95

Matriculation Requirements:

1. Acceptance into the UVU Physician Assistant Program. Acceptance is determined through a competitive application process. Contact the Director of Admissions or reference the UVU Physician Assistant Program website for current cohort information. Successful applicants are awarded a seat in a specific cohort.

2. Completion of a bachelor’s degree from a regionally accredited institution of higher learning in the United States or Canada prior to application submission.

3. Prerequisite coursework must be completed prior to application submission. Courses must have a letter grade of a C or better. AP/CLEP courses are not accepted toward any of the prerequisite courses.

PREREQUISITE COURSES

1. a. Human Anatomy with Lab: 4 semester hours required, completed within seven years of the application deadline.
   b. Human Physiology with Lab: 4 semester hours required, completed within seven years of the application deadline.
   c. Chemistry with Lab: 8 semester hours required
   d. Biology with Lab: 4 semester hours required
   e. Microbiology with Lab: 4 semester hours required
   f. Statistics: 3 semester hours required
2. A minimum of 2,000 hours of direct patient care is required for application consideration.
3. Complete the UVU Graduate Studies Application and pay the required application fee.

6. English Language Proficiency (TOEFL) scores will be required for all students whose native language is not English.

7. Complete an interview day with the program.

8. Students who are accepted into the program must pay a non-refundable seat deposit by the required deadline.

9. Immunizations and Health Requirements. Students are required to have up to date immunizations and TB testing based on current Center for Disease Control recommendation and Utah state guidelines. Students must have a health clearance form completed by a qualified medical provider verifying the ability to perform the essential functions of a physician assistant (see technical standard requirements in the student handbook). Provide proof of current health insurance coverage.

Graduation Requirements:

1. A minimum cumulative GPA of 3.0 must be maintained within program.
2. 100% of the course credits required for the Master of Physician Assistant Studies (MPAS) degree must be completed at Utah Valley University. No transfer credits will be accepted.
3. Student must pass the PA Program Summative Exam with a grade of 80% or better in order to graduate. The Summative Exam is administered in the final semester of the PA Program.

Master of Physician Assistant Studies, M.P.A.S.

Careers

1. Demonstrate knowledge about established and evolving biomedical and clinical sciences and the application of this knowledge to patient care.
2. Demonstrate interpersonal and communication skills that result in the effective exchange of information and collaboration with patients, their families, and health professionals.
3. Provide person-centered care that includes patient- and setting-specific assessment, evaluation, and management and healthcare that is evidence-based, supports patient safety, and advances health equity.
4. Demonstrate the ability to engage with a variety of other healthcare professionals in a manner that optimizes safe, effective, patient- and population-centered care.
5. Demonstrate a commitment to practicing medicine in ethically and legally appropriate ways and emphasizing professional maturity and accountability for delivering safe and quality care to patients and populations.
6. Demonstrate the ability to learn and implement quality improvement practices by engaging in critical analysis of one’s own practice experience, the medical literature, and other information resources for the purposes of self-evaluation, lifelong learning, and practice improvement.
7. Recognize and understand the influences of the ecosystem of person, family, population, environment, and policy on the health of patients and integrate knowledge of these determinants of health into patient care decisions.

Degrees & Programs

Physics, Minor

Requirements

A minor in physics represents a substantial investment in mastering the basics of physics and gaining suitable problem solving skills that may then be applied to other disciplines.

Total Program Credits: 20

Matriculation Requirements:

1. Admitted to a bachelor degree program at UVU.

Discipline Core Requirements: 20 Credits

Graduation Requirements:

1. A minimum grade of "C" must be earned in all minor courses.

Physics, Minor

Careers

1. Demonstrate understanding of how science and physics work in practice by correctly using evidence, experiment and observation, interpretation, physical concepts, etc.
2. Apply fundamental physical concepts including conservation laws, forces, fields, energy, optics, thermal and statistical physics, relativity, and quantum mechanics.
3. Use mathematics and mathematical models correctly to solve physics problems.
4. Follow practices necessary for safely using laboratory equipment.
5. Demonstrate understanding of the role of computation in physics and appropriate computer skills.
6. Communicate effectively about physics in writing and in presentations, in both formal and informal settings.
7. Demonstrate physics research skills and use ethical research practices.

- Secondary School Teachers, Except Special and Career/Technical Education

**Physics Education, B.S.**

**Requirements**
Prepares the student to teach high school physics and AP physics. The program allows for those interested to supplement their studies with extra courses in physics or other science through elective upper division credit. A seminar course provides the student with exposure to careers in physics.

**Total Program Credits: 120**

**Matriculation Requirements:**
1. Students are admitted directly to the Baccalaureate degree program in Physics Education upon acceptance to the Secondary Education Program.
2. Students must obtain the departmental Advisor’s signature on an approved program plan prior to enrollment in their second semester of study.

**Secondary Education Requirements:**
1. ENGL and MATH QL courses must have a grade C or higher.
2. GPA of 3.0 or higher with no grade lower than a C in content area courses.
3. Completion of all General Education requirements and 70% of content area courses.
4. Pass LiveScan Criminal Background Check.
