May 13-14, 2022, Utah Valley University, Utah, USA

i-ETC
Intermountain Engineering, Technology and Computing Conference
Towards a Smarter & Greener Future

I-ETC Sponsorship Opportunities

The first Intermountain Engineering, Technology and Computing (i-ETC) Conference will be held in the picturesque campus of Utah Valley University (UVU), Orem, Utah, USA, May 13-14, 2022. The mission of i-ETC is to provide a forum for interaction among students, faculty, and industry employers as contributors in the fields of engineering, technology and computer science by presenting research, product and technology demonstrations, and advances in education. Attendees will learn about current research and industry best practices for product development, testing, deployment, and operation. Venues for interaction between students, faculty and industry employers will increase exposure of career opportunities, educational programs, and necessary qualifications. These interactions will lead to increased internship and/or employment and consulting opportunities for students. Industry employers will be able to access and influence potential employees as these students are completing their education. Presenters in this conference will consist of students (both undergraduate and graduate), faculty, and industry experts looking for a venue to share peer-reviewed research.

The conference is technically co-sponsored by UVU, Brigham Young University (BYU), University of Utah, Utah State University and the Institute of Electrical and Electronics Engineers (IEEE). Submissions will be from regional, national, and international researchers. All papers presented at i-ETC 2022 will be published in the conference proceedings and selected papers related to IEEE will also be posted in the IEEE digital library (Xplore). The conference will offer several prize paper awards.

Significant opportunities are available that will allow your organization to support the event, whilst raising the profile and capacity of your company with the interest groups that really matters. Industry professionals, consultants, government, and academia at all levels are expected to attend the event. This is a unique opportunity to showcase your strength to your current and future pool of customers and stakeholders. A very comprehensive technical program including technical paper presentations, keynote sessions, tutorials, and networking opportunities is being developed. The organizing committee is pleased to invite you as a valued partner to take advantage of the many sponsorship opportunities available at the i-ETC conference. Various sponsorship opportunities are available to suit your need. Please review them carefully and feel free to contact Stefan Harlan (stefan.harlan@uvu.edu) 1-801.678.0110, for more information and discuss on your support for the conference at a level that suits your need.

Sponsorship Packages

All sponsors will have the opportunity to include company logo in the i-ETC website and programs.

Platinum Sponsorship

The platinum sponsors will receive five free conference registrations for attendance at all sessions including the welcome reception, opening ceremony, lunches, morning and afternoon tea/coffee breaks. The platinum sponsors will be invited to deliver a short speech to the delegates during the conference opening session. The platinum sponsors will have a display promotion table, company logo banner displayed in the conference registration area, opportunity to include company stationeries in conference satchel, company logo in the website, all printed proceedings and program brochure (1/2 page). Platinum support opportunity is valued at $5,000+.

Gold Sponsors

The gold sponsors will receive a three conference registration for attendance at all sessions, including the opening ceremony, lunches, morning and afternoon tea/coffee breaks. Gold sponsors will be given a display promotion table and will have their company logo displayed in the website, printed conference proceedings and programs brochure (1/4 page). Gold sponsors are also able to include their company stationeries in the conference satchel. Gold sponsors may also take the opportunity to address the conference delegates during one of the lunch or tea/coffee sessions and display pull up stand. Gold sponsorship opportunity is valued at $3,000.

Silver Sponsors

The silver sponsors will be able to advertise their company logo as sponsor of a morning/afternoon tea/coffee session and will be acknowledged in the conference website and printed program. Silver sponsors will receive one free full registration including welcome reception, opening ceremony, lunches, morning and afternoon tea/coffee breaks. Silver sponsorship is valued at $1,500.

Conference Bags Sponsor

The sponsor of the conference satchel/bag will have the opportunity to place company logo on the conference satchel/bags given to each delegate registered for the conference. This sponsorship opportunity is valued at $1,000.

Prize Paper Awards

Sponsorship opportunities are available to offer student prize paper awards to be declared during the conference closing ceremony. A number of student prize paper awards are proposed to encourage high quality submissions from students. Supporters will be acknowledged in official prize paper announcements. Prize paper awards are valued at $400 each.
