

# MTECH LPN TO UVU ASN/BS

## WHY SHOULD I GET AN ASN OR BSN?

National nursing governing bodies, such as the American Nurses' Association, feel the entry into the profession of nursing should be a BSN degree. Research has shown the more education you have, the better able you are to care for patients and keep them safe. In general, your income will increase with more schooling. Opportunities to work at specific locations within the profession will also increase.

## WHO QUALIFIES?

Graduates of the MTECH LPN program.

## HOW TO APPLY FOR UVU

Visit <https://www.uvu.edu/admissions/undergrad/> for more information.
