

Confidentiality Options (THE MOST IMPORTANT UPDATE!)

Option 1: Partial confidentiality. If selected, UVU employees can confirm/acknowledge that the person is/was a student at UVU using name, UVID, and confidentiality status (no additional information can be shared). Following the guidance in SIRA.

Option 2: Full confidentiality. If selected, UVU employees may not confirm anything. The long-standing rules about full confidentiality have not changed. Follow the guidance/prompts in SIRA

 **If you want to restrict your directory information, choose an option below.**

Choose One:

- ☐ **Option 1: Allow UVU personnel to acknowledge I am (or was) a student at UVU while blocking everything else**

PREFERRED OPTION

UVU personnel will be able to confirm that you are/were a student at UVU to anyone, including you, by using your name and/or UVID. They will also be able to confirm that your account is in "confidential" status. However, no other directory information will be shared/disclosed without the appropriate security phrase or another form of written consent that you have provided.

- ☐ **Option 2: Block all of my directory information**

NOT RECOMMENDED

UVU personnel will not be able to confirm that you are/were a student at UVU to anyone (even you) unless the appropriate security phrase has been provided first or you are in person with a photo ID. Unless your safety is at risk, we DO NOT recommend making your directory information confidential!
