

TECHNICAL REQUIREMENTS CHECKLIST

For the best learning experience, students should meet the following requirements for all programs:

▶ DEVICE & OPERATING SYSTEM

- A laptop or desktop computer running Windows 10 and above or macOS 10.13 and above.
- Memory: 4 GB or higher (RAM)
- Hard Drive/SSD: 60 GB (macOS and Windows 10 require 18 GB) Solid State Drives are recommended for optimal speed.
- Processor: Intel i3 (equivalent or higher)
- Note: Chromebooks (Chrome OS), iPads (iOS), Android devices and iPhones should not be a primary device.

▶ HARDWARE/PERIPHERALS

- A built-in or external microphone and webcam.
- **Note:** Some students have found it helpful to possess additional peripherals, such as a printer and headphones or a headset, although these are not required unless specified by your program.

▶ INTERNET CONNECTION

- Must have consistent access to the internet.
- At least 2 MB upload and download speed; a high-speed broadband connection is recommended.

▶ BROWSER

- Chrome or Microsoft Edge are preferred browsers.
- **Note:** Safari, Firefox and Internet Explorer may be used for some coursework but will not give students the best experience overall.
