office of Data Privacy

The Utah Office of Data Privacy, created in the Government Data Privacy Act under the direction of the State's Chief Privacy Officer, works with governmental entities to ensure they effectively protect the privacy interests and rights of individuals.

Our Mission—To promote privacy as a cornerstone of public trust by supporting governmental entities in protecting personal data, fostering transparency, and empowering individuals to maintain control over their information.

Since launching in 2006, Amazon Web Services has been providing world-leading cloud technologies that help any organization and any individual build solutions to transform industries, communities, and lives for the better.

As part of Amazon, we strive to be Earth's most customer-centric company. We work backwards from our customers' problems to provide them with cloud infrastructure that meets their needs, so they can reinvent continuously and push through barriers of what people thought was possible.

ObservePoint

ObservePoint's Web Governance platform brings insights, automation, and compliance to the complexity of your digital

customer experience. Our solution automates the scanning of your website; from the highest traffic pages and user paths to the dark corners of your company's web presence. We give you the ability to see what's performing below acceptable standards, trace it back to the source, and quickly see a path to improvement. Ensure privacy compliance standards, validate landing pages, confirm data tracking, clearly see your entire marketing tech stack, validate your ecommerce engines, and much more. ObservePoint presents the reality of what's happening on your website and gives you a clear map to make it even better.

For nearly five decades, Oracle's mission had remained empowering organizations to harness the power of data and technology to innovate, grow, and achieve their goals. For our valued government customers, Oracle provides tailored solutions that enhance efficiency, security, and citizen services. By leveraging Oracle's technology, governments can improve decision-making, reduce costs, and deliver better services to their constituents, while improving data management, transparency, and privacy simultaneously.

Citizen Portal AI is a groundbreaking platform designed to revolutionize civic engagement and government transparency through the power of artificial intelligence. Our mission is to provide citizens with direct access to the words and actions of elected officials, promoting accountability and empowering informed decision-making.

Privacy. Transparency. Use.

Summit Partners

The Utah Association of Counties (UAC) is a voluntary, statewide organization whose members are the 29 counties of Utah. The counties, through their elected officials, direct UAC activities in providing services to county officials.

UAC's purpose is to improve the operation of Utah's county governments and thereby improve the quality of services which counties provide to their residents.

The Utah League of Cities and Towns was first organized in 1907. ULCT serves 248 cities and towns in the State of Utah. ULCT represents municipal government interests with a strong, unified voice at the state and federal levels. Further, ULCT provides information, training and technical assistance to local officials on municipal issues, and works to create a greater public awareness and understanding of municipal responsibilities, governance and administration.

ULCT is a nonpartisan, inter-local, government cooperative, working to strengthen the quality of municipal government and administration of Utah's cities and towns.

The Utah System of Higher Education (USHE) is governed by the Utah Board of Higher Education and is comprised of Utah's 16 public colleges and universities.

Utah became the first state in the nation to consolidate employment and public assistance programs by creating the Utah Department of Workforce Services in 1997. Today, more than 2,200 Workforce Services employees assist individuals in preparing for and finding jobs, meeting workforce needs of Utah businesses, administering temporary assistance, and providing economic data and analysis.

Privacy. Transparency. Use.
