Utah Valley University has made significant investments in and progress on our Strategic Inclusion Plan over the past three years. Some highlights include:

- Made progress on 31 of the 36 action steps set forth in the Inclusion Plan; and
- Increased an average of 5-7% points on Inclusion-related questions as part of the Great Colleges to Work For survey (from 2014-2016).

This third installation of our Inclusion and Diversity Annual Report outlines the progress made in just this past 2016-2017 year. Our Strategic Inclusion Committee, comprised of faculty, staff, and students from across the campus, has led the charge in promoting a safer, more inclusive campus climate for all.

We are proud of the efforts at the individual, departmental, and institutional levels and are excited that UVU is getting noticed statewide and nationally for our Inclusion efforts. Leaders of our various inclusion, diversity, equity, and access initiatives have been asked to consult with and speak to dozens of institutions throughout the United States and Canada. UVU faculty and staff have become leading experts in: multicultural initiatives and community partnerships, global and intercultural curriculum, autism services, mental health awareness and support, and women in leadership, just to name a few.

We are excited about the coming year as we launch a new Foundations of Inclusion Workshop series to improve the intercultural awareness, understanding, and skills of UVU faculty and staff. We hope you enjoy this report and welcome your feedback, input, and partnership as we continue to build on this vital UVU core theme of Inclusion.

**OFFICE OF ACADEMIC ADMINISTRATION AND ACADEMIC IT**

**CONTACT:** Kat Brown | 863-8700

Academic Administration and Academic IT has worked hard to increase the climate of inclusivity at UVU for the 2016-2017 academic year. Laura Busby in the Office of Academic IT has assisted Student Affairs and Academic Affairs in the implementation of EAB Guide and Civitas. Both programs will identify students who struggle with the university experience, particularly impacting first-generation students. Policy coordinator Pilar Hays has reviewed UVU policies for language that inadvertently excludes underrepresented groups, leading to a recommendation, among others, that all single gender terms be replaced with “they.” All academic policies are being revised to reflect that change. The library has piloted increased weekend hours, including being open on Sundays, to allow students to have more access to UVU resources.

**HIGHLIGHTS**

- Implementation of EAB Guide
- Current implementation of Civitas
- Identification of exclusionary language in policies
- Library weekend hours
UVU has focused on providing accessible educational opportunities by increasing the number of courses offered in online, hybrid, and satellite campus formats. In addition, UVU continues to offer a robust set of classes in the evenings and on the weekends to maximize flexibility for students.
