

Cost of Attendance 2017

UVU uses cost of attendance information to estimate students' need for financial aid. Cost of attendance has been determined by a telephone survey of students conducted in the spring of 2017. Of those contacted, 1398 students responded to the survey. Cost of attendance was higher for all groups than projected. Costs were higher for Tuition & Student Fees and Miscellaneous & Personal categories and significantly higher for Room & Board than projections. Books & Supplies and Transportation costs were lower than projected. Room & Board was the category with the largest difference between projections and actual cost of attendance data from the 2017 Cost of Attendance Survey.
