

## Graduating Student Phone Survey, 2018-19 Class

Institutional Research attempts to contact each student shortly before graduation. This is a phone based survey that asks about students' plans for employment and education. We attempted to contact 5,935 graduates from the 2018-19 graduating class and spoke with 2,550 of them. This gives us a 43% response rate and a 1.5% margin of error. For more information contact Taylor Lovell ([TLovell@uvu.edu](mailto:TLovell@uvu.edu)).

### Key Findings on UVU Graduates

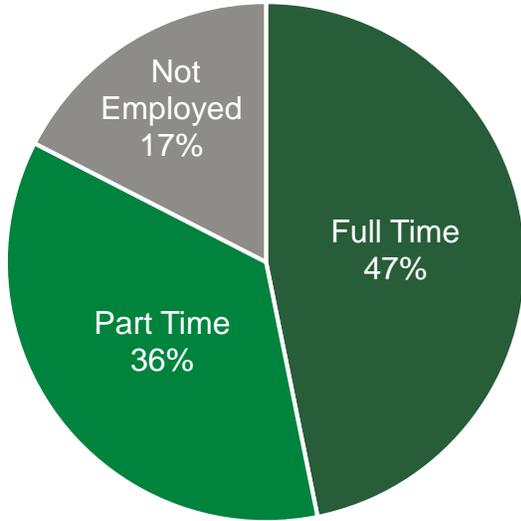

- 83% are employed at the time of graduation or shortly thereafter.
- 23% have started or will soon start a new job as a result of completing their education.
- 37% have already been accepted into their next educational program or are in the application process.
- 61% plan to live in UVU's service region after graduation.
- 47% completed an internship while a student at UVU.
