

STUDENT INFORMATION

This booklet documents the information requested of students who take the ACT® college readiness assessment. There are three major information sections:

High School Course/Grade Information requests information about 30 courses students have taken, plan to take, or do not plan to take. For courses taken for a full term, students also report the grades received.

ACT Interest Inventory results help students make educational and career plans.

ACT Student Profile Section asks for information about students' backgrounds, interests, needs, and plans to assist students and colleges in effective planning.

These sections are reprinted here to help recipients of electronic score records understand the meaning of the values reported for these sections.

High School Course/Grade Information (Required)

This information is important in helping colleges identify students with adequate high school preparation in various academic areas. ACT will calculate a grade point average (GPA) on an unweighted 4.0 scale based on your grade responses. Accuracy is important;

the information you give may be verified by college personnel. You may wish to refer to your previous high school grade reports or a copy of your current high school transcript to help you complete this section.

ACT Student Profile Section

Although you may skip any question that you do not wish to answer, we can provide colleges with your most complete profile only if you answer every question and provide updates each time you register.
