

Cost of Attendance 2014 (First-time, Full-time Students)

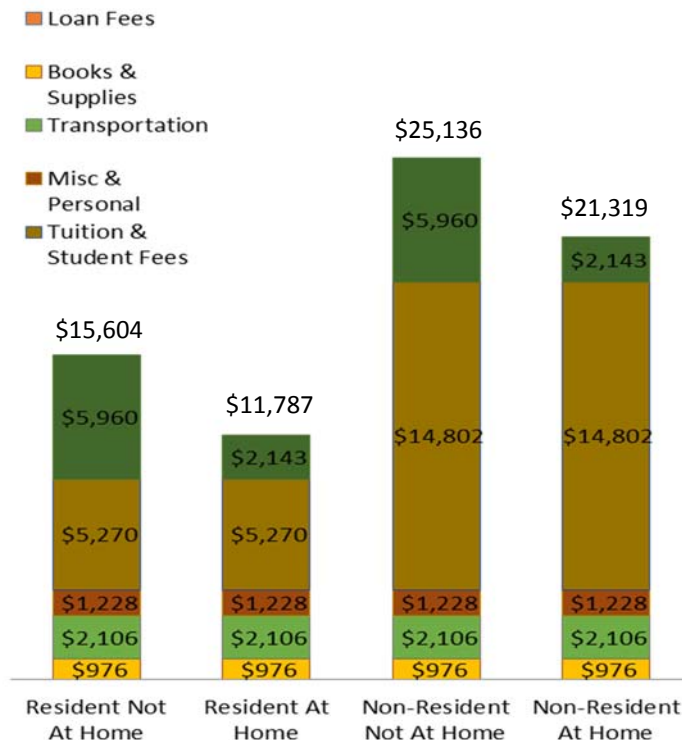

Prepared by Utah Valley University, Institutional Research and Information

UVU uses cost of attendance information to estimate student's need for financial aid. Cost of attendance has been determined by a telephone survey of students conducted in the Fall of 2014. 1634 students responded to the survey. Between 2012 and 2014, cost of attendance rose for both residents and non-residents, and both student's living at home and not living at home. The bulk of the increase comes from "Tuition and Student Fees," which rose by \$484 for residents and by \$1,284 for non-residents. Findings are summarized in the table and graphs below.

| | Resident Students | | | | Non-Resident Students | | | |
|---------------------------------|--------------------|----------|-----------------|----------|-----------------------|----------|-----------------|----------|
