- FIN 6700 - *CFP Exam Prep (3 cr.)

Professor Highlight

"my personal finance class changed my life. I decided I wanted to help people save for their financial goals."

PROF. LAURA RICALDI, PH.D.

I received my BBA in accounting from Texas Tech University. I worked for the Bank of New York in New York City as a mutual fund accountant for a year before moving back to Texas. Once in Texas, I completed my MBA with an emphasis in Management & Leadership in 2008. In my last semester of my MBA coursework, I took a personal finance class and it changed my life. I decided I wanted to help people save for their financial goals. The best way to have the impact I wanted was to work on a PhD so I could teach others how to help families. I began the PhD in Personal Financial Planning at Texas Tech University and graduated before moving to Utah. I enjoy UVU's engaged learning mission and try to bring as much to the classroom as possible. I am excited to be a part of UVU's nationally recognized Personal Financial Planning program.
