

BSN Student Learning Outcome Acquisition

UVU Department of Nursing Faculty strive to help students in the Bachelors of Science in Nursing (BSN) program meet the following Student Learning Outcomes (SLOs):

- Integrate knowledge and clinical expertise to help patients achieve optimal health outcomes.
- Utilize clinical judgment, critical reflection, and technology to plan, implement and evaluate theory- and evidence-based nursing practice.
- Demonstrate team-building and collaborative strategies in health systems, guided by nursing values and standards.
- Establish and maintain a culture of safety in a variety of health care settings by applying standards, theories, and quality improvement principles.

Six months to one year after graduation, students are asked to evaluate the following on a 1 to 10 scale:

- My nursing knowledge is informed by theory and evidence.
- I am able to integrate knowledge and clinical expertise in helping patients achieve optimal health outcomes.
- I am able to apply clinical judgment and critical reflection to implement and evaluate patient care.
- I am able to apply team-building and collaborative strategies in communicating with, organizing, coordinating, and managing the healthcare team.
- I am able to establish and maintain a culture of safety by applying evidence-based standards, nursing ethics, and quality improvement principles.
