

myUVU: Your Connection to UVU

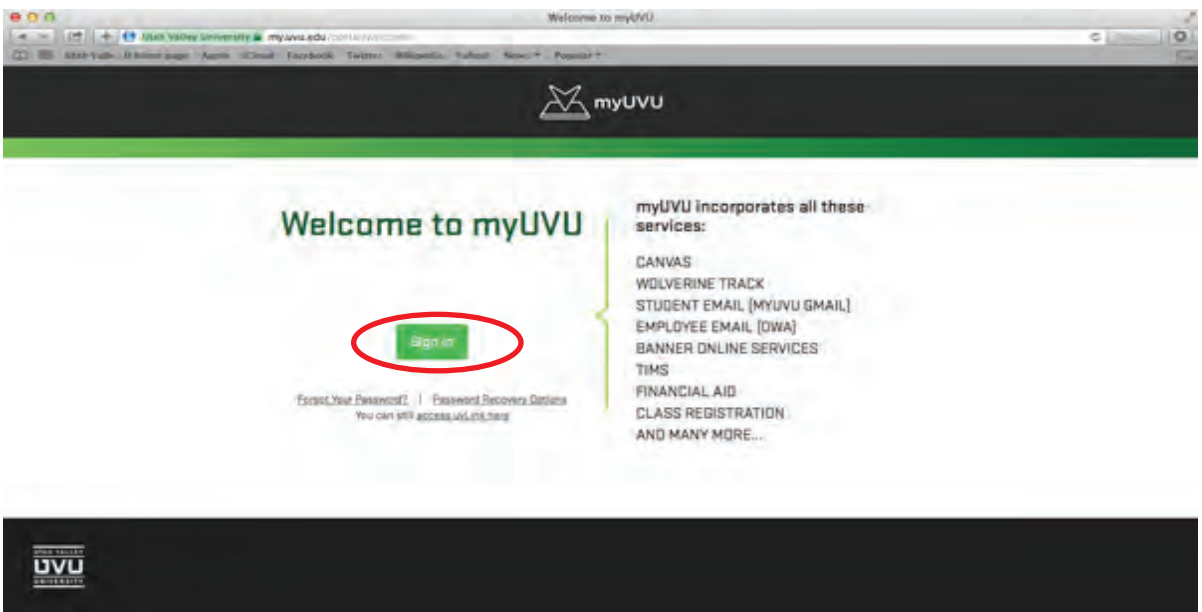

myUVU is your secure entry point to information and online services at UVU, including email, financial aid services, Canvas, course registration, your student records, and much more.

Before you access any UVU online services, including online orientation, you will need to first create your own unique **myUVU** password. Here’s how:

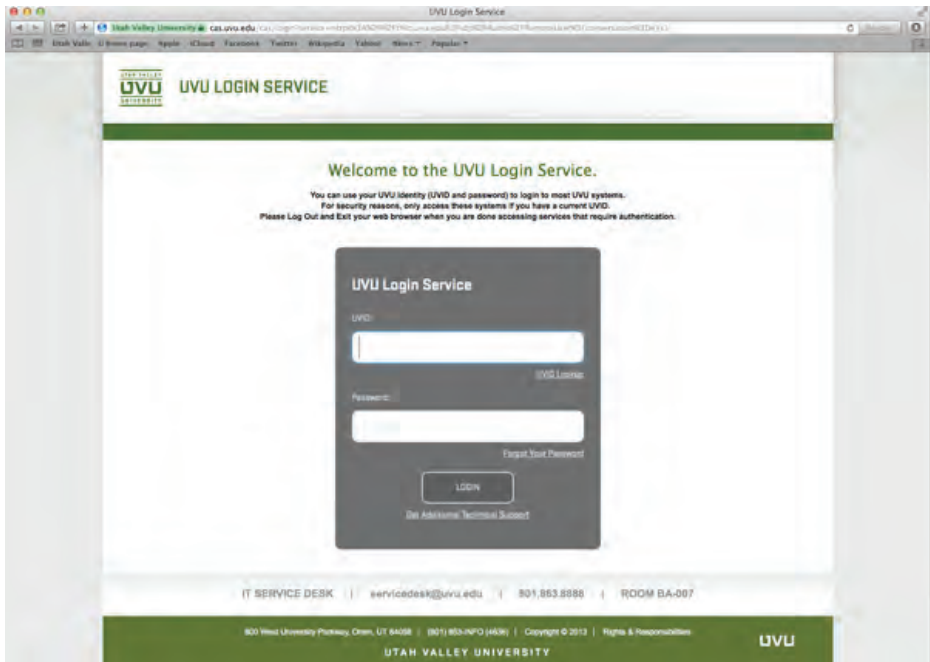

1. Open a web-browser to www.uvu.edu and click on the menu bars located at the top left of the browser, then click on the “**myUVU**” icon.

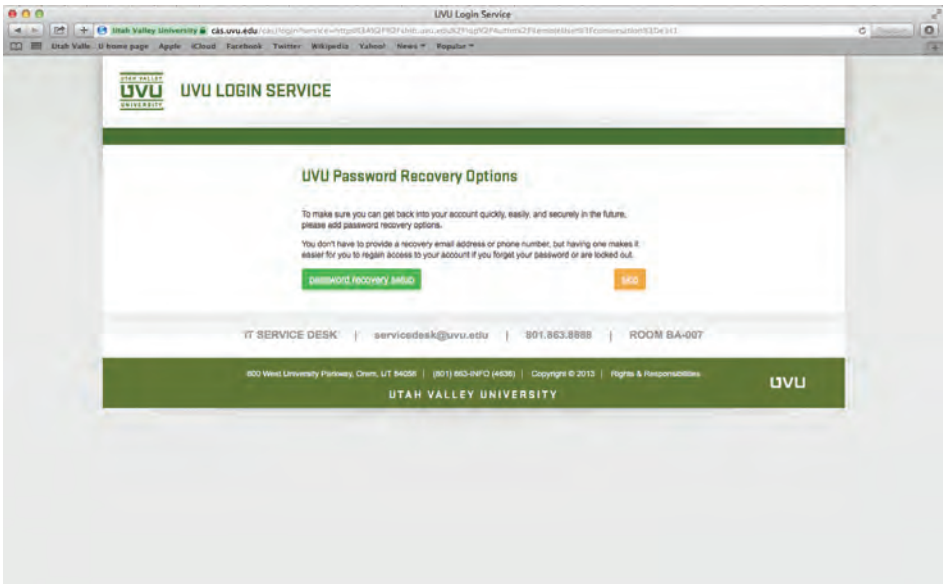

2. Then, click on “**Sign In.**”

3. To login for the first time, use your eight-digit UVID as your username and your 8-digit birthdate (MMDDYYYY, no spaces or dashes) as your password.

4. You will be required to change your password at your first login. Be sure to select a password that is easy for you to remember.
5. You are also encouraged to create a UVU password recovery option.

You now have a valid **myUVU** username and password!

Now, please proceed to <https://orientation.uvu.edu> and complete online orientation.
