

RESUME

Tristan Christiansen, 1071 S Anne Circle Orem, UT 84058; (801) 822-6766
tristanwayne@gmail.com

Education:

2022, BS Communication Public Relations Utah Valley University

2017, BS in Behavioral Science - Psychology UVU

2015, Assoc. Behavioral Science UVU

Overall GPA=3.77 GPA (Final Semester) = 4.0

Employment:

2014-present: UVU Sorensen Student Center Events/Conference Room Facilitator/Set-Up Crew/Audio & Visual Technician – Evening & Weekend Manager

Meeting each event, I help people with microphones, connecting to projectors and sound systems, and making sure they have the correct table, chair, pipe, and drape configurations. Since I have worked here our department has grown to include the entire campus, including the Heber branch of UVU. I started by working nights mostly alone and now am responsible for seven other people. Some Post Office & Campus Connection experience.

2011-2012: Host/Cashier Country Kitchen Restaurant

In addition to standing before the front doors hosting, seating, and cashiering customers, I also would help bus tables, make food for the servers, take drink orders, replenish and keep clean the weekend breakfast buffet area, alert staff when there were customers, and keep the antiques and furnishings clean including climbing ladders to reach high shelf areas. Many customers thought I was the owner because I did multiple jobs in a quick, friendly, and efficient manner.

Volunteering:

2012-2014: Salvation Army in Campbellford and Napanee, Ontario, Canada

This was in an old church converted to a thrift store where I organized all the merchandise and set it up like a department store to more effectively sell used goods. I created promotions such as BOGO books on Wednesdays, and bring a small box/bag to fill with books/toys/clothes for \$10 on the last day of the month. Not long after my service a second thrift store was opened, whereas when I started they were considering closing the existing one.

2012-2014: LDS Mission to Canada

2012: Heritage Rest Home and Retirement Center

Visiting older people and hearing their stories was fun enough, but I started to really enjoy my semester there when I would write up their experiences. I typed up their stories and gave them copies to pass out to friends and family.

2016: UVU Gender Equity Center

I learned how to work in an office environment with this experience. Also, how to run booths at indoor and outdoor conventions.

Research & Scholarship:

2018: *The Purpose of Mein Kampf* published in Crescat Scientia: Journal of History

I had to write a paper on my reflections after reading Hitler's book published in the 1920s. It helped me to understand what was going through his head at the time. Also, I gained insights into his faulty reasoning for the atrocious crimes against human beings that he, most unfortunately, effectively carried out.

2018: UVU Finance Survey Hypotheses Testing (3 June)

2018: Helped to build online survey for Orem Public Library (1 June)

Orem library had some older ladies working that were not getting results with their paper surveys. In one of my classes, we were able to create a survey for them to administer online. More people took that survey than the paper and pen version, and we helped them to combine and analyze the data.

2018: Consulted with research client library division manager (grant evaluation) (29 May)

2018: CITIRB Certification # 2784186 (13 May)

International Experience & Diversity Skills:

I have lived in the Greater Toronto, Ontario, Canada area and have been associated with people from various cultures, economic situations, religious backgrounds, sexual orientations, and other diverse beliefs and practices.

Computer and Technical Skills:

I have great computer skills with internet and document writing programs and also the SPSS survey and data recording system. I am also familiar with Cision Point.
