PROFESSIONAL EXPERIENCE

8/20/93 – Present

Associate Professor

Department of Earth Sciences
Environmental Management Program
Utah Valley University

Responsibilities: Instruction in various areas of Environmental Management. Relevant courses include: Environmental Microbiology, Environmental Health and Toxicology, Environmental law and Policy, Land Use Planning, Environmental Crimes.

I supervised research work of students' Senior thesis and planned and managed a research crew in our environmental laboratory.

As Cooperative Education and internship coordinator for the Department, I worked with the business community to promote hands on training for students in their area of academic concentration, and helped students receive adequate exposure in the environmental field.

7/6/2001–
Present

Licensed Environmental Health Scientist

Utah County Department of Environmental Health
Provo, Utah

Responsibilities: Restaurant inspections, Pool inspections and environmental sampling, Onsite Sewage Disposal system installation inspections, nuisance complaint and foodborne illness investigations.
