Stoplight Report

A Utah Valley University First-Year Experience & Student Retention Initiative
The Stoplight Report is a tool that was created and developed by UVU advisors for advisors and faculty.

It provides an easy-to-run, quick snapshot of your students who are most at-risk.
Correlating data available in Banner, this report provides you with a more complete picture of your students while helping you to quickly see which ones have the highest need for more personalized attention.
The Stoplight Report can be accessed through the UVLink Faculty / Advisor tab:
Select the Advisor Services Menu:
Then select the Stoplight Report:
You may access the report by a variety of search options:
Stoplight Report

5 or more triggers = RED
2-4 triggers = YELLOW
1 trigger = GREEN
The Stoplight Report is an excellent tool for Advisors during one-on-one sessions with students, and helps to prioritize student outreach efforts.

The Stoplight Report provides instructors with additional student information that can help faculty provide support to students who are struggling academically.
Thank you for utilizing this important retention tool to assist our at-risk student populations.
