

Installing Spirion on Mac

1. You can obtain the installation file from the <u>My UVU</u>. After logging into My UVU, select the "Technology Services and Support" under the Employees tab in the left most column. The Spirion installation file is located in the **Software Downloads** area. Expand the **Spirion** folder by clicking the title. Expand the **Mac** folder and select the current ZIP file to download.

2. Once the download is complete, run the zipped installer package from your **Downloads** location by clicking it.

3. Right click on the installer package and click **Open**. If you simply double click the icon, you may get an error message indicating that the package cannot be opened. To resolve this, right click on the package and click **Open**.

4. You will be warned that the package is from an unidentified developer. Click **Open** to continue.

5. Click **Continue** to continue past the introduction.
