

Setting up a Security Exception in [Chi Tester](#) (myUVU username and password)

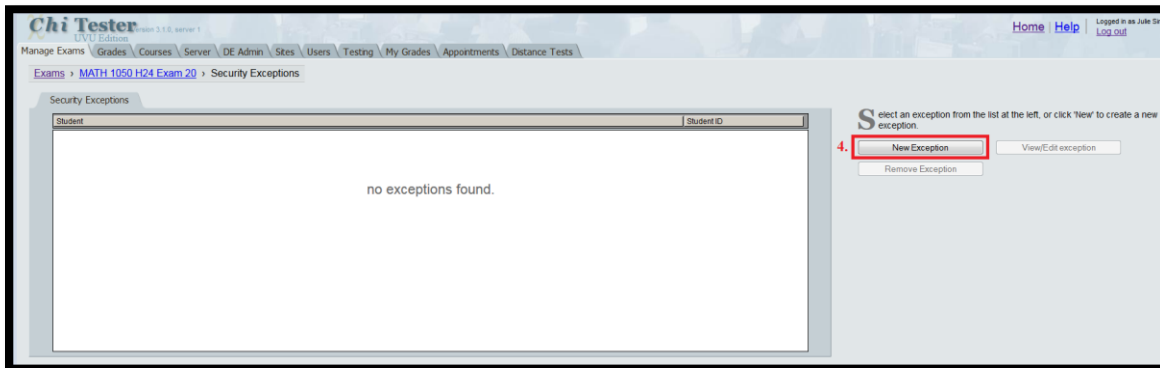

1. Click on the chosen exam to highlight it blue
2. Click **Manage selected exam**

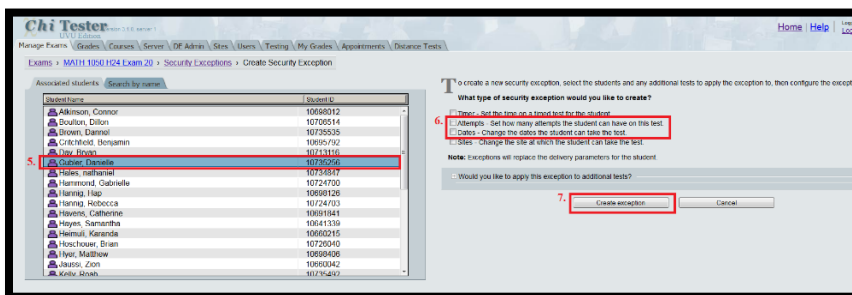

3. Select "Manage security exceptions" on the right

4. Select New Exception on the right

5. Click on the name of the student you are setting the exception for
6. Select either Attempts or Dates (or both) on the right. Fill in the drop-down menu with either the dates or "2" for a second attempt.
7. Lastly, click Create Exception

All information in Chitester must match information in Canvas, MyITLab, MyMathLab, etc.

Please feel free to contact us if you have any further questions. Thank you.
