Wildland Firefighter Physical Fitness Test and Refresher Course Completion Record for Red Card Certification

The chief is responsible for administering one of two physical fitness tests to his/her firefighters each year as a requirement for Red Card certification/recertification. A wildland refresher course (of at least 4 hours) is also required for recertification. NOTE: IS-700 course completion date is required for all initial and recertifications at the basic Wildland Level. If you have previously submitted the IS-700 certificate date, you will not need to submit it again.

Please send the Certification/Recertification Request form, this form, and required documentation to the Certification Office at the Utah Fire & Rescue Academy. The signature by the Chief signifies that the information on this form is true and accurate. The department should keep a copy of all records. **NOTE:** Wildland fire experience records, to include Fire Name, Date(s), Fire Number /Fire Code if applicable, will be kept at the department for each individual to keep their qualifications valid in IQS. Wildland fire experience is needed once every five years.

☐ If completing this form electronically, check the box to the left to imply signature and agreement. Otherwise, print the form, complete it, sign it, and return it to the UFRA Certification Office.
