Daniel Madryzkowski is a research engineer with the UL Firefighter Safety Research Institute (FSRI). FSRI’s mission is improving firefighter safety and effectiveness. Dan has been conducting research in the areas of fire suppression, large fire measurements, fire investigation and fire fighter safety for more than 30 years.

He collaborates with many fire organizations to transfer the research results into practice. He is a member of the NFPA Fire Service Training and Fire Investigation Committees, as well as the International Association of Arson Investigators. Dan is also a member of the International Society of Fire Service Instructors and he was named their Instructor of the Year in 2009. Dan holds the rank of Honorary Battalion Chief with the Fire Department of New York City and received the IFSTA Granito Award for Excellence in Fire Leadership in 2012. In 2013 Dan was invited to the White House in honor of receiving a Service to America Medal. He received a President’s Award from the International Association of Fire Chiefs for his firefighting research in 2014. Dan has a Master of Science degree in Fire Protection Engineering from the University of Maryland.
