

**Lillian Genevieve Higginbotham**

Lillian Genevieve Higginbotham is a diligent senior at Utah Valley University, working toward a Bachelor of Science degree in Environmental Science and Management. She comes from a family of six, with one twin sister and two older brothers. Her passion for the environment has driven her to pursue hands-on experience in conservation and restoration. Along the way, she has earned an Associate of Science in Physical Sciences and a certification in Water and Wastewater Operations. Born and raised in Provo, Utah, Lillian has always felt a deep connection to the natural world around her. Inspired by her mother and father's passion for preserving nature, she strives to make a lasting impact on her community. Her goals revolve around riparian restoration, with a particular focus on the rivers surrounding the Utah Lake. She has worked on various environmental initiatives, collaborated with teams to lead volunteer projects, and contributed to efforts that promote ecological sustainability. Her commitment to environmental stewardship reflects her passion for making a difference, not only for the present but for the future of her community and beyond.
