Dr Zubair Wadood

Dr Zubair Wadood is a medical epidemiologist, currently serving as Team Lead for Polio Surveillance, Laboratories, and Certification at WHO Headquarters, where he oversees global surveillance strategies, laboratory networks, and certification processes for polio eradication. In previous roles, he supported critical polio outbreak response efforts in several countries including Nigeria, Syria, Indonesia, and the Democratic Republic of Congo. Dr Wadood also served as WHO Polio Team Lead in Afghanistan and Pakistan, supporting national programmes in the implementation of polio eradication operations.
