This panel provides attendees with the opportunity to hear from women leaders in higher education from different areas and positions. Join us for a discussion about how to strengthen our leadership by developing a thicker skin and learning to deal with and even use criticism and feedback more effectively. This event focuses on the following UWHEN goals: (1) encourage the use of women’s leadership abilities, (2) discuss challenges and opportunities for women in higher education, (3) share findings of how women leaders on campus have developed leadership, and (4) provide networking opportunities for women to provide support and peer-mentoring across campus.

Come and join us! Please RSVP.
