

WEB COMMUNITY GROUP MEETING QUESTIONS/RESPONSES

February 1, 2013

- The tutorial video quality is hard to see when in full screen
 - We gave her the option of using Youtube
 -
- Shifting from the desktop size to the mobile size shifts the image size automatically but the file size remains the same.
- Can we have auto-playing music on a website?
- Can list items be shifted with a department CSS?
- Do we allow for YouTube snippets?
- Updated links are not very relevant anymore.
- Where do you go to change the Asset information?
- Having trouble setting images to the right place without them shifting.
- We support the latest four main browsers
 - The latest version of Chrome sometimes won't accept edits (she was editing Java)
- Are we still limited to six tabs/links in the nav bar?
- Do they need to roll-over their websites to the new template or do we?
 - What is the time frame to do that?
- How do I find out if my website has been moved to the new template?
- Is there a RS feed to sign up on our website?
