Report of the Editor of The Journal of Business Inquiry
For the Year 2013, Volume 12

The Year 2013 was another good year for The Journal of Business Inquiry (JBI). Volume 12 published seven articles. We received many high-quality papers with 24.13 percent of acceptance rate. The articles were written by authors, whose primary affiliations include 30 institutions from 11 countries, including Australia, Bahrain, Bangladesh, India, Iran, Kuwait, Puerto Rico, Qatar, Saudi Arabia, Tunisia and the US. Turnaround time took, with almost 27.58 percent of the editorial decisions, less than or 30 days, 48.27 percent between 31 and 180 days, 24.13 percent, between 181 and 272 days.

On behalf of The Journal of Business Inquiry, I would to thank Professor Diane Tardif of the University of Ottawa for copy editing the articles in this issue and Ann Mecham for her excellent administrative assistance and for formatting the articles.

The Journal of Business Inquiry would also like to thank the following individuals, who served as referees over the past year. Some of these individuals refereed more than one paper. Without their help, JBI could not fulfill its mission.
