POLICY TITLE	Animals On Campus (TEMPORARY EMERGENCY)	Policy Number	160
Section	Governance, Organization, and General Information	Approval Date	June 18, 2019
Subsection	Individual Rights	Effective Date	June 18, 2019
Responsible Office	Office of the Vice President of Finance and Administration		

1.0 PURPOSE

1 **1.1** To maintain campus safety, this policy sets forth health and security standards for animals on
 2 campus, permits the important services they provide to students, faculty, and staff, and
 3 distinguishes between those animals welcome on and those excluded from campus.

3.0 DEFINITIONS

16 **3.1 Direct threat:** A significant risk to the health or safety of others as determined by an
 17 individualized assessment of the best available objective evidence, including observation. The

UTAH VALLEY UNIVERSITY Policies and Procedures

18 individualized assessment may include the nature, duration, and severity of the risk; the
19 probability of harm or injury; and the availability of reasonable accommodations to minimize or
20 eliminate the risk.

21 **3.2 Disability:** A physical or mental impairment that substantially limits one or more of an
22 individual’s major life activities. This term holds the same meaning as that found in the
23 *Americans with Disabilities Act of 1990* as amended and its implementing regulations.

24 **3.3 Emotional support animals:** Any animal, other than a service animal, that alleviates one or
25 more identified symptoms or effects of a person’s documented disability. An emotional support
26 animal is not a service animal and is not necessarily trained. Emotional support animals are
27 commonly identified by different names, including “assistance animals,” “companion animals,”
28 “comfort animals,” or “therapy animals.”

29 **3.4 Pet:** An animal kept for pleasure, amusement, companionship, or curiosity.

30 **3.5 Service animal:** Any dog or miniature horse that is individually trained to do work or
31 perform tasks for the benefit of an individual in direct relation to the individual’s physical,
32 sensory, psychiatric, intellectual, or other disability. This may include assisting an individual
33 who is blind or has low vision with navigation or other tasks; alerting an individual who is deaf
34 or hard of hearing to the presence of people or sounds; providing minimal non-violent protection
35 or rescue work; pulling a wheelchair; retrieving an item for the individual; assisting an individual
36 during a seizure; alerting an individual to the presence of allergens; providing physical support
37 and assistance with balance and stability; and helping an individual with a psychiatric or
38 neurological disability by preventing or interrupting impulsive or destructive behaviors. The
39 crime deterrent effects of an animal’s presence and the provision of emotional support, well-
40 being, comfort, or companionship do not constitute work or tasks for the purposes of this
41 definition.

42 **3.6 University property:** Utah Valley University (UVU) property including but not limited to
43 administrative offices, academic buildings, outdoor campus spaces, and all satellite locations
44 whether owned, leased, operated, or maintained by UVU. This specifically excludes a university-
45 owned institutional residence of the university president.

4.0 POLICY

46 4.1 Scope

47 **4.1.1** This policy applies to the owners, custodians, and [partners-handlers](#) of any animal on
48 university property. [For consistency, this policy uses the term *owner* throughout.](#)

49 **4.1.2** Pets are not allowed on university property.

UTAH VALLEY UNIVERSITY Policies and Procedures

50 **4.1.3** Subject to the following qualifications, exceptions, and conditions, only the following
51 animals are allowed on university property: service animals, emotional support animals, and
52 those used in academic courses, laboratories, law enforcement, or rescue purposes.

53 **4.2 Service Animals**

54 [4.2.1 Before bringing their service animals to the workplace, university employees must first](#)
55 [obtain approval through the accommodation process set forth in UVU Policy 152](#)
56 [Accommodations for Individuals with Disabilities, including adequate documentation and](#)
57 [interactive exploration of accommodative options.](#)

58 [4.2.14.2.2](#) Service animals may accompany the service animal's ~~partner~~ [owner](#) at all times and
59 everywhere on university property so long as:

60 [4.2.1.14.2.2.1](#) The service animal has a current, valid license and current vaccinations according
61 to all the requirements for animals of the same species under local law, which may include
62 wearing owner identification tags, rabies tags, and dog license tags;

63 [4.2.1.24.2.2.2](#) The service animal is under appropriate restraint and control by its ~~owner~~[partner](#) at
64 all times, which may include but is not limited to leash, electronic leash, signals, or voice
65 commands;

66 [4.2.1.34.2.2.3](#) The service animal does not pose a direct threat to ~~the health or safety of others or~~
67 ~~would cause substantial damage to the property of others~~ [the health, safety, or property of others](#);

68 [4.2.1.44.2.2.4](#) The nature of the university program or activity taking place in a particular setting
69 on university property is not fundamentally changed, [such as through substantial disruptions](#), by
70 the presence of the service animal; and

71 [4.2.1.54.2.2.5](#) The service animal does not deposit bodily excretions or secretions on campus
72 other than at designated outdoor areas. Any excretions or secretions, even in designated outdoor
73 areas, must be promptly cleaned up in accordance with section 4.5.

74 **4.3 Emotional Support Animals**

75 **4.3.1** Emotional support animals are typically not allowed on university property unless no other
76 accommodation would provide individuals with disabilities equal access to university education
77 programs and activities. Additionally, emotional support animals may only be present on
78 university property if:

79 **4.3.1.1** The emotional support animal meets all the conditions of 4.2;

80 **4.3.1.2** The emotional support animal or its presence does not create an unmanageable
81 disturbance or interference with the university community; and

UTAH VALLEY UNIVERSITY Policies and Procedures

82 **4.3.1.3** The emotional support animal is authorized through the process set forth in UVU Policy
83 152 *Accommodations for Individuals with Disabilities*, including adequate documentation and
84 interactive exploration of accommodation options.

85 **4.4 Animals Used in Academic Courses, Laboratories, Teaching, Testing, Law** 86 **Enforcement, or Rescue Purposes**

87 4.4.1 The use of any animal in teaching, testing, or research is allowed on university property,
88 provided it follows Policy 652 *Care and Use of Vertebrate Animals in Research and Instruction.*

89 ~~4.4.1 Any animal used in an academic course, laboratory,~~ The use of any animal for official law
90 enforcement, or for rescue purposes is allowed on university property, so long as:

91 ~~4.4.2 The animal meets all the conditions of 4.2; and~~

92 ~~4.4.3.4.2 The animal's partner has obtained all applicable reviews and approvals required by~~
93 ~~the Institutional Animal Care and Use Committee, as provided by UVU Policy 652 *Care and*~~
94 ~~*Use of Vertebrate Animals in Research and Instruction.*~~

95 **4.5 Care and Supervision**

96 **4.5.1** Care and supervision of an animal, as well as the costs of any damage caused by an animal,
97 are the sole responsibility of the animal's ~~partner or~~ owner.

98 **4.5.2** Individuals' care of animals on campus must comply with state and local law regarding
99 cruelty to animals. In particular, Utah Criminal Code § 76-9-301 and Utah County Code § 5-2-21
100 prohibit individuals from leaving any animal in a situation where they may be exposed to an
101 immediate, direct, and serious threat to life, safety, or health, which includes confinement in hot
102 vehicles.

103 **4.5.3** Every individual with custody of an animal that is allowed on university property must
104 immediately clean up after the animal, including the immediate removal of any waste.
105 Individuals with disabilities who physically cannot clean up after their own animal ~~may not be~~
106 ~~are not~~ required to pick up and dispose of animal waste, but should notify custodial services.
107 However, these individuals should use marked animal toileting areas where provided.

108 **4.6 Other Animals Allowed on Campus**

109 **4.6.1** Recognizing that the campus is part of the surrounding neighborhood and community,
110 animals other than service animals that are appropriately controlled on a leash and otherwise
111 meet the requirements of 4.2 are allowed on ~~designated~~ outdoor walkways on campus. These
112 animals may not enter buildings, covered walkways, or shelters on university property. Service
113 animals meeting the requirements of section 4.2 are welcome on all campus areas.

UTAH VALLEY UNIVERSITY

Policies and Procedures

114 **4.6.2** Aquarium fish and snails, when displayed for academic or esthetic purposes, are allowed
115 on campus. Aquariums kept in public view must be kept clean and presentable. With the
116 exception of laboratory environments, aquariums must not exceed 30 gallons.

117 **4.6.3** A one-time exception to the terms of this policy may be granted for events or gatherings
118 involving animals. These exceptions must be requested and approved through the appropriate
119 ADA Coordinator.

5.0 PROCEDURES

120 **5.1 Enforcement**

121 **5.1.1** Any individual who brings an animal on to university property may be asked (1) if the
122 animal is required because of a disability, and (2) what work or task the animal has been trained
123 to perform. If the animal is untrained (i.e., not a “service animal”) the individual may be asked
124 whether the animal is authorized as a disability accommodation under section 4.3.

125 **5.1.2** The [ownerpartner](#) of an unauthorized animal will be asked to remove the animal from
126 university property. If the [ownerpartner](#) does not respond to this request, University Police will
127 be called to respond to the situation and may remove the animal from campus.

128 **5.1.3** Anyone may report noncompliance with this policy to the UVU Police, the Office of
129 Accessibility Services, or the Employee Accommodations Coordinator in Human Resources.

130 **5.1.4** Employees who violate this policy are subject to proportionate corrective action, including
131 but not limited to warning, probation, suspension, or termination pursuant to applicable staff or
132 faculty disciplinary policies and procedures.

133 **5.1.5** Students who violate this policy are subject to proportionate corrective action pursuant to
134 Policy 541 *Student Code of Conduct*.

135 **5.1.6** The individual(s) responsible for any damage to university property caused by their animal
136 shall coordinate the repair or replacement of damaged property with Facilities and/or Purchasing.

137 **5.1.7** Under Utah Code § 62A-5b-106, it is a class B misdemeanor for any person to
138 intentionally, knowingly, and falsely represent an animal as a service animal for the purpose of
139 claiming the benefits of this policy.

CAMPUS ENTITY	POLICY SECTION	Editorial Comment?	Substance Comment?	CONCERN	SPONSOR/STEWARD RESPONSE
Faculty Senate	Overall		X	The faculty senate supports the implementation of this policy if our comments are addressed. Vote Results: Support – 36 Do Not Support - 3 Abstain - 0	
Faculty Senate	4.2.1.3 See Comment 3		X	The policy prevents service animals from being where they might harm other people, but no procedure is outlined for when the disabled person needs to be in the same place as someone who can be harmed by the animal. One such common circumstance is an instructor or student who is allergic	Refer to the direct threat analysis found in 3.1.

				to the service animal accompanying a student with a disability attending the same class. Such procedures should be spelled out in policy.	
Faculty Senate	4.5.3 See Comment 1		X	There is no provision in the policy for what an animal partner should do if an animal toilets in a non-toileting area and they are physically unable to clean it up themselves. Please include such a provision.	Added language to 4.5.3 indicating to notify custodial services.
Faculty Senate	4.7 See Comment 2		X	The language should be clarified to indicate exactly where non-service animals are allowed to be. It is not clear as stated.	Removed "designated"
Faculty Senate	4.4.1.1 See Comment 4		X	It is unreasonable to expect that research animals meet the same certification requirements as service animals. Instead animals used for research should satisfy Policy 652 Care and Use of Vertebrate Animals in Research and Instruction. This policy should remove the requirement that research animals meet the same requirements as service animals and instead refer to Policy 652.	This policy has been revised to clarify that the care of any animal used in testing, teaching, and research comes under Policy 652 <i>Care and Use of Vertebrate Animals in Research and Instruction</i> . See the revision in section 4.4.1.

Appendix: Unedited Faculty Senator Comments Summarized Above

#	Name	Policy Section	Editorial Comment?	Substance Comment?	Concern	Suggestion
1	Alan Parry	4.5.3	N	Y	What happens if the animal does its business in non-animal toileting area and the partner is not physically able to clean it up? While I agree it is unreasonable for them to clean it up themselves, what should they do? Leave it in the hallway?	For those unable to clean up if their animal has an (ahem) incident that doesn't occur in the toileting area, they should have to contact custodial services.
2	Alan Parry	4.7	N	Y	Clearly this line is so that we don't have to worry about a neighbor walking their dog on the sidewalk. However, this leaves ambiguous whether an animal can be on the lawn. The first sentence seems to suggest they shouldn't, while the second sentence specifically prohibits things, but does not specifically prohibit lawns.	The language should be reworded to clarify exactly where non-service animals are allowed to be.
3	Alan Parry	4.2.1.3	N	Y	This line suggests that a service animal may NOT accompany their partner if the animal poses a danger to others. In the event that an instructor or another student has a significant allergy to a service animal or other health concern, this line suggests that the animal is simply not allowed in that classroom. Even if this is not the intention, the alternative of forcing the animal into that environment produces an equally problematic situation. This very common issue is not addressed in the policy.	The policy needs to include provision for what to do in common cases like this and other potential conflicts. Jeremy Knee suggested in senate that there were some ideas in place, but this kind of thing should be written into policy and vetted through the policy process.

UTAH VALLEY UNIVERSITY Policies and Procedures

					A policy dealing with animals on campus, that does not provide provision for what to do when these kinds of common conflicts occur is insufficient to govern how we handle animals on campus.	
4	Senate Floor	4.4.1.1			Animals used in research should not have to meet service animal requirements.	This policy should refer to the requirements of animals for research policy, Policy 652.

PACE Board	4.6		X	Nothing specifically allows/forbids unattended wildlife like the ducks in the lake. Can we officially allow them on campus?	This policy is about regulating human behavior so if the animal is not accompanied by a human this policy does not apply.
PACE Board	4.8		X	Can this be interpreted to allow staff to keep goldfish? I have considered bringing one in.	The policy does not prohibit goldfish. Speak with your supervisor if you would like to bring a goldfish.

PACE Board	4.2.1.3	X		Confusing sentence construction. It starts out negative “does not pose” and ends positive “would cause substantial”. Should be reworded to be easier to understand, as this construction makes it seem like we want the animal to cause damage.	We revised the sentence: <i>The service animal does not pose a direct threat to the health, safety, or property of others.</i>
PACE Board	Overall	X	X	Not sure if editorial or substance. Maybe both. Owner or partner is used throughout, except in Procedures (5.1.2). Should it always be “Owner” or always be “Partner”? Should it always be “Owner or Partner”? And what exactly is an animal partner anyway?	We have updated the language to indicate the use of “owners” throughout.
